Chapter 1661: Scammed

Ye Mo wasn't going to go somewhere, at least not very far, before the opening of the immortal well. He just wanted to tell Zhen Bingyu that he was going to the marketplace but he really just wanted to go see if there are any news of recovering spirit roots there. It was slim but better than doing nothing.

He set up another trap and attack formation at the cultivation home before going onto the streets again.

In the city square, Ye Mo looked at his ranking. 11 million contribution points, ranked 41st on the heaven immortal leaderboard. The first on the leaderboard was 16 million, it wasn't Xu Ji but Chu Xiangzi.

Ye Mo didn't care who was first. He felt very safe with his rank. He believed that no matter how he dropped, he wouldn't go below top 50 in this half month.

Ye Mo still had a few million more beast cores. Altogether, he would have nearly 16 million but Ye Mo didn't dare to use it. If he used too much and couldn't stay in top fifty then it would be bad.

Ye Mo walked around in the market place and the merchant towers but didn't buy anything. He just wanted to see if there was news of clear mind spirit or any immortal spirit herb that could repair spirit root.

However, he was unlucky. He had been to a few marketplaces and tens of merchant towers but everytime he asked about spirit root recovery pill and immortal spirit herbs, people looked at him like he was an idiot. Even if there was such a pill, would an abstruse immortal be able to afford it?

Luckily he didn't ask for Clear Mind Lotus or people would take him for a madman.

After one day, Ye Mo was not only tired but also disappointed.

When Ye Mo walked out another merchant tower, he was stopped by an abstruse immortal primary stage. "Immortal friend, please hold up."

Ye Mo turned back and looked at him in confusion. "You have some business with me?"

The abstruse immortal primary stage. "That's right, I heard you were searching everywhere for spirit root recovery immortal spirit herb and pills..."

"You have it?" Ye Mo subconsciously asked but then immediately became wary.

"I don't," the abstruse immortal said.

Ye Mo frowned but said nothing.

The abstruse immortal primary stage continued, "I don't have this immortal pill but I have the news of a level six immortal spirit herb Spirit Red Lotus."

Then he looked at Ye Mo's expression wanting to see what Ye Mo thought.

Ye Mo knew Spirit Red Lotus of course. It was a level six immortal spirit herb, it could be used to concoct the Clear Disaster Pill to purify spirit root and stabilize essence spirit. It would also increase chances of reaching great immortal.

The Spirit Red Lotus was good but it was a far cry compared to Clear Mind Lotus. It was not very useful to Zhen Bingyu.

"This thing has no use for me. it's just an immortal spirit herb for concocting Clear Disaster Pills. I don't need it." Ye Mo waved his hand.

"Don't be in a rush to reject. It's useless to you but it's useful to Immortal Forest Tower."

“What has this got to do with me?”

“Of course it does, Immortal Forest Tower has a level seven immortal pill Spirit Recovery Golden Pill. It’s said that it has some use for recovering spirit roots. The Immortal Forest Tower made a restriction. That is, if you want to buy the pill you must have Spirit Red Lotus.”

“Spirit Recovery Golden Pill?” I asked a few pill towers how come none of them knows anything about Spirit Root Recovery Pills?”

“It’s very simple because they think you can’t afford it. ”

Ye Mo frowned. He was an immortal pill great master but he had never heard of some Spirit Recovery Golden Pill.

“if you don’t want it I’m going.” The abstruse immortal saw Ye Mo frown so he laughed.

“How many immortal crystals?” Ye Mo asked.

“10000 contribution points,” the abstruse immortal said.

“Too expensive.” Ye Mo turned to leave. He felt this guy was unreliable. He was going to confirm at the pill tower if there was the Spirit Recovery Golden Pill.

Seeing this, the abstruse immortal added, “Lowest 5000 contribution points. If not then I’m going.” He was about to leave.

Ye Mo saw this and stopped him. “Tell me the news and I’ll give you 500 contribution points.”

Regardless if this guy was a liar, Ye Mo didn’t care about 500 contribution points. It would be bad to miss it but if this guy didn’t agree then never mind.

“Deal.” Unexpectedly, this abstruse immortal primary stage took out a tattered jade slip to Ye Mo without hesitation.

Ye Mo felt he was tricked but since he agreed he couldn’t regret. He could only swipe 500 contribution points to this abstruse immortal primary stage.

Seeing that Ye Mo’s jade card was yellow, he smiled. He was very satisfied. How many immortal crystals could a yellow jade card immortal have? To be able to trick 500 contribution points from him was all his skill.

The abstruse immortal primary stage immediately disappeared after getting the contribution points.

“Friend, you got scammed. Wang Liu is the biggest scammer here,” a good hearted abstruse immortal tertiary stage said.

“Thank you.” Ye Mo heard this and knew he might’ve really been scammed but this jade slip seemed a little broken. It didn’t seem to be newly made to trick people.

Ye Mo’s spirit sense scanned inside, he immediately saw an immortal spirit herb. The image was very obfuscated and so were the writing. The location was very obscure too, Kong Ji Ranges. That was around 100,000 km from here, not too far. But the range was big, how could he know where the Spirit Red Lotus was?

The image was so obscure that Wang Liu outlined it before it could be seen clearly.

He didn’t look at the outline, he wanted to forcefully see if this was Spirit Red Lotus before being outlined.

Other people wouldn’t be able to do this but his spirit sense was something else.

When Ye Mo fuzzily saw the original image, his hands almost shook, nearly crushing this jade slip.

“was I thinking too much?” Ye Mo put away the jade slip still feeling his hands were shaky. He clearly saw a clear mind lotus not Spirit Red Lotus.

These two looked similar but red lotus was dark red while clear mind lotus was snow white. One was level six immortal spirit herb one had no level.

Ye Mo had decided to go see. There was still half a month before the blue lightning mountain opened. He could check it out.

Thinking about this, Ye Mo had decided to leave the city. He would find a quiet place to study this jade slip first.

Ye Mo sped out of Qing Mo immortal city and just when he wanted to find a place, a blue figure dashed out of the city quickly and left on the flying magic artefact.

Ye Mo recognized this figure, it was the kind hearted great extreme immortal that rented them the cultivation home.

She didn't go very far and a grey figure came out. He took out a mirror and scanned before releasing his flying magic artefact following to the direction the female immortal disappeared to. It was another great extreme immortal.

Ye Mo hesitated for a moment and followed over with Blue Moon.

Chapter 1662: Fight head on

Ye Mo was weaker than both of them but his spirit sense was stronger than both of them. The blue dressed female immortal was great extreme immortal primary stage while that grey robed immortal was great extreme immortal middle stage. Ye Mo's spirit sense was great extreme immortal tertiary stage, plus his cultivation method was good at stealthing so the two didn't notice him at all.

Four hours later, the great extreme immortal suddenly sped up, the female immortal immediately noticed she was being followed but at this time, there was no time to get away. The grey robed great extreme immortal already stopped the female immortal.

Ye Mo immediately hid on the side. This female immortal helped him once, if possible he wanted to help her too. When he saw the blue dressed female immortal stop, she didn't seem to be scared of this great extreme immortal and scanned around instead with her spirit sense.

"Why are you following me?" The female immortal stared coldly.

"The demon seal sword you bought from the auction is my friend's name a price, I need to take it back." The grey robed immortal said calmly and released a pitch fork.

The female immortal sneered "You were there at the auction, do you not know the price? If you have to have it then give it to me the price I bought it for."

"Impossible that's my friend's thing, you want me to take it back with the price of the auction?" The grey robed great extreme immortal's tone went cold.

"What has your friend got to do with me? If you want it then pay me the immortal crystals I paid for it." The blue dressed female immortal grunted.

"Then don't blame me then." The grey great extreme immortal shook his pitch fork turning into rings of shadows looming over at the female immortal.

The female immortal didn't fear at all, she shook her hands shaking out countless blue rings. Ye Mo couldn't even see what her magic artefact was. The female immortal sneered "You want the demon seal sword? Don't think I don't know what you want, you want me three leave blue jia..."

Moments later, the blue rings locked the flurry of pitchfork shadows. The space nearby rumbled, the forest below seemed to have been devastated by a tornado.

Hearing this, Ye Mo realized what was going on. Three leaf blue jia was level six immortal spirit herb, used to concoct extreme jia pill. Extreme jia pill is the main pill for great extreme immortal to break through to great eternity immortal. It can increase the chances by 40%.

These two were both great extreme immortal, one could imagine how important the three leaf blue jia was to them.

Seeing the force of the battle, Ye Mo was shocked. He could kill great unity immortal but he was certain that he was no match for great extreme immortal now. Even if he wanted to help he didn't dare to help now. If the difference between the two was too high he would rather not come out.

"Rumble..." the explosions and tearing immortal essence formed a huge explosion whirlpool in a radius of few kilometers.

Luckily the space of the immortal realm was stable otherwise, with such power, space itself would collapse.

Ye Mo didn't dare to help but he saw the battle. He thought the female immortal would be weaker than the great extreme immortal but after fighting for a while, they were evenly matched.

The grey great extreme immortal frowned, clearly not expecting this outcome.

The female immortal didn't expect this too, there was a sliver of desperation in her eyes.

Ye Mo knew if he helped now the great extreme immortal probably would be defeated but he wasn't going to. Although the female immortal helped him once he didn't know what sort of person she was. If she was someone to annihilate people to seal information then it would be no good.

Just when Ye Mo was hesitating, the female immortal took out a rune. That rune instantly released terrifying force. Even at more than 10 km away, Ye Mo could feel the threat of death.

Before Ye Mo could react, the huge explosion sounded. When Ye Mo recovered his senses that female immortal was long gone.

Such terrifying rune, Ye Mo was thinking what he should do if he encountered such rune. Even his immortal nirvana body would be heavily injured under such explosion.

The grey robed great extreme immortal also disappeared, was he killed? Thinking about this, Ye Mo immediately felt an extreme sense of danger. Without hesitation, he slashed out with Zi Xu.

Crack.

Zi Xu clashed with the pitchfork. Ye Mo flew back a few hundred meters before stopping.

“You didn’t die?” Ye Mo stared at the great extreme immortal.

This guy instead found where he was and ambushed him. If this great extreme immortal wasn’t heavily injured and he reacted fast, he would be dead now.

But Ye Mo wasn’t scared much, this great extreme immortal’s chi was messy and quite injured. His power was only about great unity immortal now.

“Hmm...” this great extreme immortal was shocked.

He was heavily injured but even so, he was still equivalent to a great unity immortal tertiary stage. This guy was a mere abstruse immortal middle stage, he didn’t kill him in one move. How was this possible?

“Why did you ambush me?” Ye Mo grabbed Zi Xu and asked coldly.

“Ambush you? You dare to follow me, of course I’m going to kill you.” The great extreme immortal wasn’t certain if Ye Mo followed him. If an abstruse immortal middle stage could follow a great extreme immortal without him noticing, he didn’t dare to believe.

Ye Mo frowned “I follow you? You’re clearly much stronger than me, how can you not notice me following? I just saw people were fighting here so I came to visit, and then there was an explosion.”

Seeing Ye Mo deny, the great extreme immortal was confused. He was just guessing before.

But regardless, Ye Mo was just an abstruse immortal he could kill him easily.

Feeling the great extreme immortal's killing intent, Ye Mo quickly took out a long sword "Wan bei offended qian bei, this sword can be my compensation..."

"Level seven immortal artefact?" The great extreme immortal called out in shock. This was top grade immortal artefact, even his pitchfork was only a fake level seven.

Ye Mo needed this moment of daze. Ye Mo released world rock and tens of spirit sense blades.

Even though he was wary of Ye Mo, the great extreme immortal didn't expect a mere abstruse immortal middle stage dared to suddenly attack him.

Rumble

The world rock turned into a mountain and smashed down. The great extreme immortal could only barely use the pitchfork to stop the world rock but his spirit sense slowed and he couldn't release it in time.

Crack.

The pitchfork was smashed head on by the world rock and immediately cracked. However, it still stopped the world rock.

"I'm going to tear..." the great extreme immortal spat a mouthful of blood and was furious.

However before he finished, Zi Xu came over.

“Shadowless attack...”

Splurge. Zi Xu sliced on the great extreme immortal.

This all happened so quickly that the great extreme immortal didn’t have any time to react.

Even so, Zi Xu that should’ve hacked the great extreme immortal in half only left a deep mark on his chest.

“Die...”

The great extreme immortal punched Ye Mo’s chest.

Ye Mo spat a mouthful of blood and flew back but his immortal nirvana body prevented him from exploding on the spot.

“Immortal nirvana body?” The great extreme immortal who was bloodied said in shock.

Chapter 1663: White Light Dashing Into The Sky

Ye Mo’s immortal essence was rustling around and he couldn’t attack again. The great extreme immortal was heavily injured but didn’t dare to attack Ye Mo again. He quickly ate a few pills and was very worried. He never expected an abstruse immortal middle stage would be this terrifying. If he knew, he would definitely run immediately.

Ye Mo knew he would recover faster than this great extreme immortal but he didn’t dare to let this great extreme immortal recover. If he did, it would be over.

Before the pills could even melt, Ye Mo released Lightning Sword.

Rumble

Lightning Sword rained down incessantly, and at the same time, Ye Mo's immortal essence calmed down.

The great extreme immortal was already injured heavily, how could he take on this Lightning Sword that was more terrifying than divine damnation? If he was at his peak it wouldn't affect him, but now this was lethal.

He barely released a shield, it would break soon as Ye Mo's Lightning Sword seemed endless.

The more he was shocked, the more the great extreme immortal realized that he couldn't even run away now. the nearby space was completely locked by Ye Mo's Lightning Sword.

Ye Mo's immortal essence gradually recovered. He knew Lightning Sword wasn't enough to kill a great extreme immortal, he released the world rock once again.

At the same time, Ye Mo made up his mind. The Lightning Sword was powerful but it was too scattered, it wasn't able to settle the score. After this he had to condense it, he needed to focus all the Lightning Sword into one. He didn't lack large scale attacks, he lacked lethal blows.

Feeling Ye Mo's rising force, there was a sliver of despair in the great extreme immortal's eyes. Never had he thought he would be killed by an abstruse immortal. Where did such a terrifying abstruse immortal come from?

"I'm going to kill you..."

Terrifying force came out, the space nearby shook. It was like a black hole, Ye Mo couldn't even fly away.

Not good, this guy was going to self destruct. Shadowless noticed this earlier and jumped to Ye Mo first.

There was nothing Ye Mo could do about this. If it was a great unity immortal self destructing, he could forcefully stop it.

Instantly, Ye Mo took Shadowless into the Golden Page World.

Rumble

The terrifying explosion turned everything into nothing. Ripples were startled in the space. Nothing could survive in this explosion.

Before the explosion finished, Ye Mo came out of the golden page world. His spirit sense scanned to where the great extreme immortal self destructed. There was a terrifying huge ravine and nothing else.

Ye Mo sighed. He almost got a great extreme immortal storage ring.

Realizing he would get nothing, Ye Mo left without hesitation. With such a terrifying explosion here, it would definitely attract immortals.

In less than five minutes, a few dashing lights landed here.

“Great extreme immortal self destruction?” a brown robed immortal said in shock.

The few other immortals looked at each other and nodded, instantly leaving. No matter what it was that caused a great extreme immortal to self destruct, it wasn't something they could mess with.

...

Ye Mo seemed to be covered in blood but he recovered quickly. That great extreme immortal's punch was terrifying but he had an immortal nirvana body and the great extreme immortal was heavily injured. Now, he had pretty much recovered.

After finding a distant valley, Ye Mo changed a set of clothes. Before he could clean himself, two more dashing lights came. Ye Mo immediately hid on the side.

These two were abstruse immortal tertiary stage. The taller abstruse immortal asked, "Brother Mi, is it here?"

"Yes, look at that small peak, last time I saw white light dashing into the sky from there. I'm certain that thing is nearby." The other abstruse immortal answered.

The tall one frowned and said "That's the most complicated terrain of the Kong Ji Range. In the depths there are level four and even level five immortal spirit beasts. It's hard for us to find something."

Hearing this, Ye Mo was surprised. He didn't expect he came to the Kong Ji Range.

The two spoke for a while and dashed into the depths of the ranges.

Ye Mo didn't come out, he scanned his spirit sense into that jade slip.

The more Ye Mo looked, the more he was excited. He hadn't seen Clear Mind Lotus before, but he knew what it was. It had two leaves and the middle white part was the seed.

The lotus didn't grow on the mountain it was in a lake. The lake was almost one km long and floated in the sky.

There was a row of words: 'Kong Ji Mountain Clear Lotus, Shi Jingkong left it. If it's not a Shi family descendant who takes it, please take care of the Shi family a little...'

Crack

The jade slip cracked and turned to dust while a jade piece dropped.

Ye Mo looked at this jade piece in annoyance. It seemed to be one that needed to be activated with blood. There were the words Shi Jingkong.

Ye Mo realized what happened. Shi Jingkong found an immature Clear Mind Lotus. For some reason, this jade slip didn't fall into the hands of the Shi family. The image was obscure and made many people think it was broken, but Shi Jingkong did this on purpose. Only those with great eternity immortal spirit sense or higher could see it.

Ye Mo's spirit sense wasn't great eternity immortal level but he had Spirit Will Nine Transformations.

Without a doubt, this was left for the descendants of the Shi family. Ye Mo was grateful to Shi Jingkong, but he wasn't going to spend time to find his descendants.

Who knew how long Shi Jingkong had been dead for and who she was? How could he find his descendants?

Ye Mo just needed to find the lake now.

Ye Mo knew it wasn't easy, but suddenly thinking about the words of the two abstruse immortals, one of them said 'White light dashing into the sky'. Wasn't that the symptom of the Clear Mind Lotus about to reach maturity?

The second symptom was white mist. When the second symptom came out, almost everyone would know Clear Mind Lotus was ripe.

The Kong Ji Mountain Range wasn't small, but if everyone knew the Clear Mind Lotus was about to mature, even great eternity immortal wouldn't be able to get a share much less him.

Thinking about this, Ye Mo desperately flew towards where the two abstruse immortal went.

Two hours later, Ye Mo was completely in the depths of the Kong Ji Range. There was nothing else but thorns. There was no sign of those two abstruse immortal and Ye Mo didn't see any lake either.

Chapter 1664: Clear Mind Lotus

A day later, Ye Mo still didn't find the two abstruse immortal but he encountered a level four immortal spirit beast. If he wasn't far stronger than ordinary abstruse immortals, he would've died to the beast already. This made Ye Mo suspect whether those two abstruse immortals were eaten by immortal spirit beasts.

Three days later, Ye Mo still hadn't found the two abstruse immortals nor the lake. He was very disappointed.

Just when he wanted to give up, he thought of Shadowless. In the Mist Demon Palace, it was because of Shadowless that he found the place.

Thinking about this, Ye Mo immediately let Shadowless out and told Shadowless he wanted to find the Clear Mind Lotus. He even showed Shadowless what it looked like.

Shadowless didn't disappoint Ye Mo, he immediately took Ye Mo around the twists and turns and found 11 level three immortal spirit herbs and three level four immortal spirit herbs.

Another day passed and Ye Mo stopped at a crevice. He had been here once but he found this place was different.

This crevice was natural and crossing it would bring him to the other side of the valley. Over countless years, quite some immortals must have passed through here, but Ye Mo found that the weeds and low level immortal spirit herbs seemed fresher here.

Ye Mo carefully scanned his spirit sense here and soon found that there was a battle here. The fresh low level immortal spirit herbs were cultivated by magic to cover the traces of the battle.

After reaching this conclusion, Ye Mo's heart skipped rapidly. Looking at these immortal spirit herbs, they were just cultivated a few days ago. This was in accordance with the time the two abstruse immortals came in.

They fought a battle and still used means to cover up here. The only possibility was that there was some stealth formation here. Ye Mo began to search this place inch by inch, but half a day later he still found nothing.

With his near level four formation great master skill, he still couldn't see what was here. How did the two abstruse immortal see something? Suddenly, Shadowless sent him a strong message.

Ye Mo immediately came to where Shadowless told him to go, there was a huge boulder here. If one didn't look carefully, he wouldn't be able to see what was special about this. Ye Mo noticed that the immortal spirit chi below here was extremely dense.

Ye Mo carefully moved the rock and the space nearby immediately changed. Ye Mo moved the stone back and the space returned to what it was.

"Natural formation..."

Ye Mo was overjoyed, this was a natural high level stealth formation.

Ye Mo moved that huge rock and the natural formation showed before him. With Ye Mo's formation skills, he easily found the formation door and disappeared within the crevice.

After going in, dense immortal spirit chi came and a faint mist hovered above his eyes. Before Ye Mo could see clearly, an extremely strong smell came before him.

Without hesitation, Ye Mo smashed with the world rock.

A sharp shriek sounded. A black figure was smashed away and instantly disappeared in this mist. This was a level four immortal spirit beast that wanted to ambush Ye Mo.

Ye Mo didn't have the mood to check up on that level four immortal spirit beast. He stared dazedly at the white lotus before him.

Clear Mind Lotus, Ye Mo saw it clearly. Two crisp green leaves decorating the snow white lotus seed in the center. It floated above a lake surrounded by mist. It released extremely beautiful luminosity.

This place wasn't a lake but actually the surface of extremely dense immortal spirit chi.

Ye Mo really wanted to move the lake into his Golden Page World, but when he looked around at the natural formation he gave up this idea. If he really did this, the nearby area would collapse and might bring immortal kings to check it out.

Ye Mo scanned his spirit sense around and didn't see the abstruse immortals who came in before. It seemed they were killed by the level four immortal spirit beast.

Without hesitation, Ye Mo came to the Clear Mind Lotus and used an extremely large jade box to collect the lotus. As for the root, Ye Mo didn't touch it. This was the best place to grow the Clear Mind Lotus. Perhaps countless years later, a new Clear Mind Lotus would form.

Ye Mo didn't stay here any longer and left.

...

Half a day later, Ye Mo came back to his cultivation home. Zhen Bingyu still seemed to be in cultivation.

Ye Mo was very satisfied with coming to Zong Piao Heaven. He got Spirit Will Nine Transformations and the Clear Mind Lotus. Zhen Bingyu would definitely be overjoyed to recover. This was even something of the dreams for Ye Mo.

Ye Mo knew that after Zhen Bingyu could recover, he would be leaving alone.

He knew that the cultivation resources he needed weren't something ordinary people could afford.

When other people got large sums of cultivation resources, they could find a place to go into solitary cultivation, but he couldn't. He had to keep going around searching for top grade resources.

It was because of this that he cared so much about the Blue Lightning Immortal Well and used all his means to go to the Ping Piao Plains to slaughter demonic immortal spirit beasts so he could reach the top fifty.

...

"You're back." As soon as Ye Mo came in Zhen Bingyu greeted him.

She saw Ye Mo seemed to be in a good mood and had a smile on his face. Her dejected mood lightened up quite a bit. She knew that Ye Mo arranged her to stay here, but he didn't cultivate here because he wanted to leave the city.

But she had been used to staying with Ye Mo and now that she stayed alone in the cultivation home, she couldn't settle her mind. Just thinking that Ye Mo was about to leave alone, she was full of anxiety.

"Come with me." Ye Mo pulled Zhen Bingyu into the cultivation room.

"Guess what happened this time?" Ye Mo smiled at Zhen Bingyu.

"Are you planning to leave the city after the Blue Lightning Mountain opens?" Zhen Bingyu asked dejectedly instead.

When Ye Mo rented this place for ten years she knew that Ye Mo wouldn't be taking her. She could feel it, Ye Mo still had a lot of secrets and he didn't seem to want to expose these secrets in front of her so it was inconvenient to take her.

"Huh...." Ye Mo found the Clear Mind Lotus, he came back to bring joy to Zhen Bingyu. Zhen Bingyu stayed all these years with him, so even though she didn't express the loneliness in the depths of her heart, Ye Mo understood it.

He did indeed plan to find a place to reach great unity immortal and leave the city in search of new cultivation resources, but he was caught off guard by her question.

Chapter 1665: Mark in the dao heart

Zhen Bingyu's personality changed a little after staying with Ye Mo but in her bone, she was still a cold woman.

Hearing Ye Mo's word, she sighed and suddenly took off her dress and walked up to Ye Mo hugging him "I know I owe you a lot but I may never be able to repay you. Before you go, you can have my body, my virginity essence and something else."

Ye Mo didn't know what the other thing was but he never intended to duo cultivate with Zhen Bingyu.

"Martial sister Bingyu? Wait..." Ye Mo quickly pushed her away but when her hands touched Zhen Bingyu's silky skin, he dazed for a moment.

He had seen Zhen Bingyu naked before and even helped her dress and carry her around everywhere but he had never had any emotions for her. Zhen Bingyu was indeed pretty, even a little prettier than Susu.

But Zhen Bingyu wasn't his woman, the moment he ascended to the immortal realm, he wouldn't have anymore woman in his heart.

But Ye Mo only dazed for a brief moment and pushed Zhen Bingyu away "Martial sister Bingyu, you misunderstood me."

Zhen Bingyu looked at Ye Mo in confusion but didn't get angry. To her, doing that thing with Ye Mo was to satisfy his lust and pay back what she owed him. Although she was a little curious what it would feel but it didn't mean she liked doing that.

"Didn't you say your dao heart was different to mine?" Zhen Bingyu couldn't resist asking.

Ye Mo rubbed his forehead "martial sister Bingyu, that doesn't mean this. I'm saying that that thing can only be done between people who love each other. I already have people I love so even if I'm going to do it, it would be with them not you. So..."

Zhen Bingyu smiled, that smile was enough to make any woman lose confidence. Even Ye Mo sighed, if this woman smiled more she would be beautiful to the extreme.

“Them? Is it because you love a lot of people?” Zhen Bingyu asked plainly.

Ye Mo felt his nose awkwardly “Yes, they’re a part of my life, I ascended to the immortal realm first partly for them.”

“Then would you have anymore?” Zhen Bingyu frowned and asked.

Ye Mo shook his head “No.”

Ye Mo didn’t explain anything, he indeed wouldn’t be interested in any other woman anymore even Zhen Bingyu.

Although his dao heart was different to Zhen Bingyu but it was very firm. For him, the people around him, he needed to reach the peak of dao.

“I know that after you leave this time we might never be able to see each other again. So, I really want to give the only thing I can give to you. My spirit root is dissolved, I would never have an opportunity this life time. If the spirit root can still be repaired, then...”

Ye Mo smiled and pulled her dress up “Other than saying good bye today, I came to cure your spirit root, so you can cultivate again.”

“What...” Zhen Bingyu was dazed. Her mind was blank. If other people said this, she wouldn’t believe at all but Ye Mo said this, she trusted it 100% already.

Ye Mo had never lied to her all these years.

“It’s true because I got the clear mind lotus.” Ye Mo set up a few restriction and took out a jade box.

The snow white lotus was in the middle and a faint refreshing aroma came.

Zhen Bingyu was dumbfounded. It really was clear mind lotus, she had never expected Ye Mo would be able to find it. With this, it meant that her future accomplishment would be far greater than before.

Not only would her spirit root be repaired, it would also be upgraded. With Ye Mo's body refinement cultivation method and three birth god water chant...

Zhen Bingyu didn't dare to think what level she would reach.

Ye Mo didn't say anything and just waited on the side. He knew Zhen Bingyu needed time to absorb this information.

After a long while, Zhen Bingyu came back to her sense. She stared at Ye Mo with fiery eyes and felt her heart was wavering.

Who else would give her this other than her dearest family? Much less Ye Mo, they were just using each other. The only dearest person she had was her master.

"Ye Mo..." Zhen Bingyu murmured and couldn't control the excitement in her heart and embraced Ye Mo.

The first time it was to thank Ye Mo as she knew she didn't have long to live, Ye Mo was going to leave.

But this time, she really couldn't control it now. It wasn't just for this clear mind lotus. They were just a team and she forced Ye Mo to team up with her.

After she was heavily injured, Ye Mo didn't abandon her. He took her into the heaven domain ship, took her to the void to find void flying snow and then went off alone to search for clear mind lotus...

She realized that if she didn't recover, Ye Mo wasn't going to abandon her. Her dao heart was firm but even so, a mark was made on it.

Feeling Zhen Bingyu's body growing warmer, Ye Mo also felt some fire in his heart but he soon calmed down. He couldn't take the feelings. If he slept with her, he wouldn't be able to remove her from his life.

Plus, he didn't fall in love with Zhen Bingyu.

"Calm down first, recover your spirit root. I'm indeed going but if you don't recover I can't leave assured." Ye Mo patted Zhen Bingyu's shoulder. He knew that if a firm hearted woman like Zhen Bingyu fell in love, it was uncontrollable.

The current Zhen Bingyu wasn't the real her, she lost her immortal essence and her dao heart was loose. If this continued, her dao heart would be ruined and it wasn't good for the both of them.

"I understand." Zhen Bingyu slowly calmed down and stared at Ye Mo answering.

She knew Ye Mo stopped her breaking dao heart. She was very grateful.

After Ye Mo left, she would go out to search for her great dao. If one day she could stand at the peak, she would go find Ye Mo and tell him the feeling of that instant. If she can't even reach great dao, everything else would be pointless to bring up.

Taking over the clear mind lotus, Zhen Bingyu didn't say thank you. She knew Ye Mo didn't need that.

The lotus turned into immortal liquid that Zhen Bingyu slowly consumed. Zhen Bingyu sat and didn't move, a calm mist emitted from her body enveloping her in an aroma. Meanwhile, her power rose slowly.

Ye Mo knew Zhen Bingyu's power was beginning to recover, her spirit root was not only repaired but purifying.

From foundation establishment state to golden core state and in a short while, Zhen Bingyu was at hollow immortal. The immortal spirit chi gathered above her head and turned into immortal essence nourishing her meridians and dan tian.

Ye Mo didn't stay here. He didn't know if Zhen Bingyu would regain her past dao heart but he knew she had her path and so did he.

Ye Mo left a storage ring before Zhen Bingyu and quietly left her cultivation room and this cultivation home. He wouldn't be coming back here, at least not for a few years.

...

Zhen Bingyu slowly opened her eyes, a long gone sense of power came. She was only abstruse immortal primary stage before but after changing her cultivation method and using the clear mind lotus her power rose to abstruse immortal primary stage. The nirvana succeeded too. She reached immortal nirvana body.

For the first time, Zhen Bingyu couldn't resist tearing. She thought she had completely lost hope but Ye Mo brought her such powerful hope.

She immediately wanted to find Ye Mo but found Ye Mo wasn't in the cultivation room. There was only a storage ring before her. There was a troubled feeling in her heart. She couldn't express this feeling. She hadn't fallen in love before, she didn't know if this was that feeling.

She scanned her spirit sense in the storage ring. Ye Mo left the flying snow orb, there was even three great unity immortal pills and tens of bottles of other pills. These pills saved her countless years. Ye Mo didn't even take away all the beast cores. He left behind 2 million worth of contribution points.

Zhen Bingyu walked to the cultivation home door and stared at the road that she walked over with Ye Mo a few days ago.

Chapter 1666: Dao Seeking God Art

This was the final day before the Blue Lightning Immortal Well opened. The biggest square, Blue Lightning Square, was full of people. There were more people than usual.

People who had some inside knowledge knew this time was different as three of the big ten immortal kings of Zong Piao Heaven came. This included Su Huan immortal king, Kai Feng immortal king and Ping Zhou immortal king.

There were few immortal kings in Zong Piao Heaven yet three came this time. Clearly something was about to happen.

Ye Mo was sitting in a spirit rest tower on the side of the square, drinking. His only purpose here was to wait for the immortal well to open and then leave.

He was also watching the leaderboard trying to ensure that he wouldn't be falling below top 50. He asked other people and knew that the heaven immortal leaderboard was very stable.

But now, Ye Mo realized it was utter bullshit. His rank went from 30 or so down to 41st. Now he was 47th. If things continued like this, he would definitely end up below 50.

Luckily he prepared three million contribution points of beast cores, but Ye Mo didn't use them now. He would use it as soon as he went below 50.

Ye Mo had been sitting in here for half a day but he didn't ask about what was happening. It had nothing to do with him.

However on a table not far from him, a few immortals' discussion caught his attention. One of them spoke of his name.

"It seems that even if that Mo Ying didn't cheat I wouldn't be able to get into the top 50. I was 51st but now I'm 63rd," a white faced abstruse immortal tertiary stage said with great disappointment.

Three other people sat on his table. An extremely pretty and seductive female immortal, she was abstruse immortal tertiary stage too. The other two was one long bearded and the second dark skinned, they were all abstruse immortal tertiary stage.

“Yeah, the heaven immortal leaderboard has never been so strange. It’s the last few days but the rankings are so volatile. Look, even Xu Ji who was first is now 27th.” The female immortal frowned.

“Something is probably going to happen in the immortal city right?” the dark skinned abstruse immortal said.

“But what has that got to do with the leaderboard?” the long bearded abstruse immortal shook his head.

“Hua Mountain, look at the notice...” the dark skinned abstruse immortal pointed at the notice board next to the leaderboard.

Ye Mo saw the notice too.

“After the opening of the immortal well this time, the top fifty of the heaven immortal leaderboard will be representing Zong Piao Heaven to go to Yuan Le Heaven and participate in the dao seeking competition...”

“Isn’t Yuan Le Heaven the number one heaven domain of the middle heaven domains? It’s said to be equivalent to a grand heaven domain....”

“I heard that the dao seeking tournament was the top 50 of the abstruse immortal rank, why did it become contribution rank this time?”

“Is there a difference? Which of the top fifty on the contribution leaderboard isn’t from the abstruse leaderboard? But Yuan Le heaven is too strong, it’s said that even if you could go before, rarely could people enter dao seeking tower.”

“how can the Yuan Le heaven not be strong with the dao seeking tower? Even some grand heaven domain immortals want to go to dao seeking tower. If you enter dao seeking tower, it would be you would definitely become great immortal and have 10% extra chance of reaching immortal king.”

“No wonder so many people want top 50 this time. I want to go to Yuan Le Heaven’s dao seeking tower. I’d be willing to pay any price.”

...

Ye Mo didn’t expect this turn of events.

He knew Yuan Le Heaven of course, it was said that it was on par with ordinary grand heaven domains. It was the most powerful middle heaven domain.

Ye Mo only knew it was powerful but not why it was powerful. Now it seemed to be due to that dao seeking tower. He would go ask someone what it was later.

“In order to ensure that the prodigies of Zong Piao Heaven aren’t left out, the contribution leaderboard from 51st to 100th can challenge the top fifty. Each person only has one chance to challenge. If the defender loses, he would lose his spot to the challenger. The defeated don’t get any opportunity to challenge again. A successful defender will not be challenged again. But a challenger who succeeds needs to accept one more challenge if challenged...”

The eventual top 50 can cultivate in the immortal well for half a year before representing Zong Piao Heaven in the dao seeking tower tournament...”

Ye Mo saw his rank go down to 53rd, but he wasn’t worried. He just needed to be in top 100.

“No wonder the leaderboard changes so fast, they all want to go to Yuan Le Heaven,” the female immortal said.

Then she thought of something and said to that white faced abstruse immortal, “Zhenghong brother, you still have a chance. As long as you’re in the top 100 you can challenge the 50th. You can challenge that Mo Ying guy...”

“Hehe, Mo Ying, look his name has fallen below top 50 already,” the long bearded abstruse immortal said.

The white faced abstruse immortal laughed. “I didn’t expect I still had a chance. Let these people cheat, I’ll greet them on the battle stage.”

Ye Mo didn’t care about what they said, he walked up to an abstruse immortal middle stage and saluted with his fists. “Friend may I ask what that dao seeking tower is?”

The abstruse immortal looked at Ye Mo in confusion wondering why someone didn’t know what the dao seeking tower was but he quickly said, “There are nine levels to the dao seeking tower. It’s said that immortals can create their own dao art and god art. The laws of the universe are gathered in the dao seeking tower, immortals can easily combine all they’ve learnt into their own god art.”

“Yea, it’s because the dao seeking tower is so insane and all the prodigies in Yuan Le Heaven can go there that Yuan Le Heaven is stronger than other heaven domains. But luckily there’s a dao seeking tower tournament every thousand years. Otherwise, the other heaven domains would only be getting worse and worse,” one abstruse immortal said.

The first abstruse immortal shook his head. “Although Yuan Le Heaven’s power is directly related to the dao seeking tower. It’s cultivation resource and immortal spirit chi isn’t something other heaven domains can compare with.” They didn’t become the number one middle heaven domain due to luck.”

Ye Mo quickly asked, “Why are there nine levels of the dao seeking tower?”

The abstruse immortal said, “The nine levels are based on each person’s understanding of dao. Usually, hollow immortals can only stay at level one. If a hollow immortal can reach level two, he would be a prodigy amongst prodigy. abstruse immortal usually stay at level three rarely can one reach level four.”

“Can the immortals of Yuan Le Heaven go to dao seeking tower at any time?”

“Of course not. Only a few rare prodigies can go in or once you satisfy some requirements.”

“What’s the requirements?”

“That I don’t know, but I only know it’s not easy. Although there’s 50 from Zong Piao Heaven going there, but it would be extremely lucky if one or two of them can even get in.”

Hearing this, Ye Mo realized that the dao seeking tower was pretty much made for him.

Chapter 1667: Dao Seeking Tournament

Ye Mo felt his Lightning Sword could slaughter large amounts of low level enemies, but against people who were stronger than him in cultivation level, it couldn’t settle the score. He felt it last time when he fought that great extreme immortal. He wanted to go into solitary cultivation to refine his Lightning Sword, this dao seeking tower was perfect for him.

Other than his Lightning Sword, his Illusion Cloud sword technique was the same. Although he lacked the ninth strike, Ye Mo knew it was because he was at a bottleneck and didn’t want to create a ninth strike. His Illusion Cloud sword technique also needed to form into a god art. Otherwise, he would have some difference between top masters. That Yan Jiutian gave Ye Mo a strong warning bell.

As for the world rock, it was worse. He just used his immortal essence and spirit sense to smash.

Ye Mo also realized later that the reason his world rock wasn’t as strong as Yan Jiutian’s black mist wasn’t because his world rock was weak but that his world rock didn’t have its own god art while Yan Jiutian’s mist was a god art.

Ye Mo had made up his mind that he must go to the dao seeking tower.

As more and more immortals came to the blue lightning square, the immortals sitting in the spirit rest tower also rushed down.

From others' discussion, Ye Mo just realized that the tournament for going into the Blue Lightning Immortal Well had begun. Ye Mo left the immortal rest tower as well and put all his beast cores into the contribution jade card. He didn't need to save beast cores now. If he was squeezed out of top 50, he would fight for a spot.

A few million contribution points were thrown into the jade card, Ye Mo's jade card immediately became 14 million.

Ye Mo noticed his name, his rank rose from 53rd to 21st.

It didn't seem he needed to challenge anyone now. he just needed to accept someone's challenge and he would be in the top 50.

Everyone was watching the leaderboard right now. Mo Ying suddenly rose to 21st and immediately caught everyone's attention.

"Who is this guy? How come I've never heard of him?"

"I saw him before, he only got on the leaderboard in these few months. A month ago, his name drastically rose up. He did it again this time, just how many immortal crystals did he spend on buying beast cores?"

"Without a doubt, he's the disciple of a powerful being or he has a powerful sect behind him. Perhaps he's the young master. Don't challenge this person, even if you beat him who knows if people would come looking for trouble with you?"

"Yea, such a person isn't ordinary. It's 20 immortal crystals a contribution point, now it's 80 to 100 a contribution point. Who can afford this many beast cores at such a time?"

...

Hearing these discussions, Ye Mo shook his head. He had no support, he got all of his beast cores from his hard work.

Just when he wanted to change places, Ye Mo heard a loud explosion. A few immortals landed on the stage.

Ye Mo looked at the abstruse immortal primary stage next to him and asked, "Who are these people, they don't seem ordinary?"

The immortal saw Ye Mo's cultivation level was higher than his and quickly said, "Friend, you just got to Zong Piao Heaven, right? The person wearing the grey hair tie is the number one master of Zong Piao Heaven abstruse immortals, Ouyang Yi, he's the first of the Zong Piao Heaven abstruse rank. He can definitely get a spot in the Dao Seeking tournament."

Ye Mo looked at Ouyang Yi's name, seventh on the contribution ranking.

"The one standing behind him wearing blue robes is the fourth of the abstruse rank, Chu Xiangzi, the female immortal next to Ouyang Yi is the purple rain goddess. She's not only the top beauty of Zong Piao Heaven but also second on the abstruse ranking. See that abstruse immortal with a long sword on his back? He's Xu Ji, abstruse rank number nine..."

This abstruse immortal primary stage was clearly proud of these people and admired them.

Chu Xiangzi was contribution ranking number one, Xu Ji was originally first on the contribution ranking but now he was almost 30. Purple rain goddess was ranked ninth on the contribution ranking.

It seemed they didn't care about the contribution ranking at all. To them, they could get whatever rank they wanted.

These abstruse immortals were at least abstruse immortal tertiary stage, most of them were peak stage. There was not a single abstruse immortal middle stage like Ye Mo.

A few more dashing lights came and through this abstruse immortal primary stage, Ye Mo knew that they were also ranked ahead on the abstruse ranking.

Pretty much all the people on the abstruse ranking came.

Ouyang Yi and purple rain goddess seemed prideful, Ye Mo could feel the superiority coming from the bottom of their hearts. As though standing here wasn't their honor but the honor of the blue lightning square. Ye Mo could tell this superiority was probably due to their background, perhaps they were from status immortal sects.

Chu Xiangzi and Xu Ji seemed calm, they didn't act like they were superior. Especially that Xu Ji, Ye Mo felt he had more potential than Ouyang Yi. That long sword hanging behind his back didn't seem ordinary too.

People who were similar gathered together, immortals were the same too. The top ten of the abstruse immortals formed their own circle, the great unity immortals formed their own circle too. Solo cultivators like Ye Mo or the lowest abstruse immortals could only listen in to them talking. Even if you added something, people would ignore you.

Ye Mo didn't want to participate in such high talks.

Ye Mo walked around the square, there were quite some shops and stalls but not a single thing he was interested in. Despite this, he did buy quite some maps of the 11 middle heaven domains.

...

Half a day passed quickly, as more and more people came, three rainbow clouds landed in the centre of the square. Ye Mo couldn't tell their exact power but he was certain they were immortal kings. Any one of them could kill him with a finger.

This feeling made Ye Mo very annoyed, he calmed himself down and cast these thoughts aside.

The square fell silent as the three immortal kings came.

Ye Mo had seen one of them, the green robed Su Huan immortal king. The other two would probably be Kai Feng and Ping Zhou immortal king.

Standing in front of Su Huan immortal king was a white robed immortal king, his face was square and he seemed to be the head of the three immortal kings. He nodded to the immortals before waving his hand and a yellow light was released.

The yellow light instantly turned into a huge stage and the three immortal kings were on the stage now.

The white robed immortal king then said, "I believe everyone knows me, I'm Zong Piao Heaven Kai Feng immortal king. Other than the Blue Lightning Immortal Well, I came here for a more important thing and that is the Yuan Le heaven dao seeking tournament."

Kai Feng immortal king sighed. "We from Zong Piao Heaven have always been participating in Yuan Le Heaven's dao seeking tournament, but only one person has truly gone in the dao seeking tower and that was me. Pity, I could only stay around level three at the time. I can say that the reason I could become immortal king was due to the great help from dao seeking tower. So, I believe everyone now knows just how much help the dao seeking tower has for cultivation."

The square immediately burst into discussion. There were billions of immortals but which one of them could break through to immortal king?

Kai Feng waved his hand. "Calm down everyone..."

The scene fell silent immediately.

Kai Feng nodded. "But the dao seeking tower is the number one dao tower of Yuan Le Heaven. Even people from Yuan Le Heaven need to be selected to go in, much less us. Yuan Le Heaven gave the other middle heaven domains 500 spots. We have 50 spots. The tournament is very hard but even if one person gets in, I would be very happy..."

Chapter 1668: Top 50 tournament

Top 50 Tournament

Su Huan immortal king got up and said, "There are 11 middle heaven domains, although each heaven domain is boundless and even immortal kings can't reach many corners but combined, there can be 30 people who go in the dao seeking tower. In the countless years of Zong Piao Heaven, no one has been able to enter other than Kai Feng immortal king.

Everytime we go to Yuan Le Heaven, we speak quieter than other immortal kings. So, we hope someone can shine out in the tournament and bring some honor to Zong Piao Heaven, even if it's just 30th..."

All the immortals in the square looked down in shame.

However, those in the abstruse ranking had firm looking eyes, clearly planning to get into the top 30.

Su Huan immortal king changed the topic. "The 50 abstruse immortals going into the immortal well will be the people going to Yuan Le Heaven. I believe everyone knows the rules now, let the match begin. From 51st to 100th, any of you can challenge the top 50."

Then, Su Huan immortal king and the other two immortal king left the stage. Two floating rankings appeared above the stage. The left one was top 50 and the right one was 51st to 100th. Each challenge, the names on the two sides could switch.

Ye Mo looked at his name, it was still 21st. He wasn't worried, he didn't fear anyone who challenged him.

Just when everyone was thinking when the challenge would begin, a short fat abstruse immortal peak stage flew to the stage and saluted with his fists. "Heaven Immortal Sect's Gong Yu ranked 73th challenges 50th Luo Xiang."

Although the contribution points ranking had nothing to do with power, those ranked really high would indeed be much stronger.

As soon as this voice sounded, a chiseled face abstruse immortal landed on the stage. "Luo Xiang accepts your challenge."

Then he sliced out with his word. Gong Yu was prepared, released a black mace bringing dark rays everywhere and clashing with Luo Xiang's sword light.

There were immortal king restrictions on the stage so no matter how much the two fought, the stage was very sturdy.

Luo Xiang's sword rays hacked on the stage but couldn't even make any marks.

The two's immortal essence was evenly matched. About an hour later, the mace's dark rays loosened. Gong Yu seemed to be unable to last long.

Indeed, in half a minute. Gong Yu was hacked away by Luo Xiang's sword light. A wound came from his shoulder to his lower waist.

"I admit defeat." Gong Yu immediately got off the stage.

Luo Xiang stopped attacking and quickly ate a pill at left. He was a defender and thus kept his top 50 spot.

"First round, Luo Xiang wins," a great eternity immortal said.

The next to get on was a bald headed abstruse immortal. He immediately said, "Heaven Immortal Sect contribution ranking's 51st Mi Huo challenges 47th Li Nuohua. You took what was mine, now give it back."

The bald headed abstruse immortal was full of killing intent. From his tone, the people realized that Li Nuohua probably stole Mi Huo's rank through cheating.

An angry looking female immortal landed on the stage. "Li Nuohua accepts your challenge..."

The female immortal attacked faster than Luo Xiang and released a golden cloth before she finished talking. The stage was illuminated in gold, some weaker heaven immortals couldn't even look with their eyes. The light was too piercing.

"I'm not scared of you!" Mi Huo roared and his black staff turned into a black dragon.

It was obvious that Mi Huo was much stronger than that Gong Yu. In five minutes, Li Nuohua was struck in the back by the dragon's tail and spat a mouthful of blood falling off the stage.

Ye Mo could tell that heavy injury was intentional. If she didn't do that, she might die. Mi Huo came up with killing intent.

"Second round, Mi Huo's victory, top 50 defender." The great eternity immortal announced.

Mi Huo would still need to fight again if challenged. Ye Mo knew that it would be best to challenge Mi Huo now if someone wanted to. Mi Huo was also injured a little in the fight.

The other immortals could clearly see this too. Before Mi Huo stood steady an abstruse immortal peak stage got up. "Heaven immortal sect contribution ranking 64th Ji Sheng challenges 47th Mi Huo...."

Ji Sheng also attacked with his magic artifact immediately. Mi Huo could barely block it but Ji Sheng pursued the attack. Blood splashed on the stage.

Kai Feng immortal king shook his head. This method was a good tactic but it was low. Even if Ji Sheng won, he wouldn't get very far and his future wouldn't be that great.

Ye Mo believed the same. But different than Kai Feng immortal king, Ye Mo felt Ji Sheng's future wouldn't be huge not because he used this tactic but due to his mentality.

Ji Sheng just wanted every little advantage he could and didn't have a heart of pursuit. If it was him, he might use this way to beat Mi Huo, but his goal wasn't this victory but to go into Blue Lightning Well to cultivate.

Ye Mo would use everything possible for his cultivation but Ji Sheng just purely wanted to use this advantage to beat Mi Huo. Ye Mo couldn't feel any perseverance towards cultivation on him.

In a short while, Mi Huo was heavily injured. Looking at his hateful eyes, Ye Mo knew that there was an extra person on this guy's must kill list now.

"Third round, Ji Sheng's victory, defender top 50."

...

"Brother Zhenghong I suggest you don't challenge that Mo Ying. Even without him you would fall below the top 50. Now that Ye Mo can stay at 21st, he definitely has the support of his sect." The skinny abstruse immortal was trying to persuade Ji Zhenghong.

"Never mind, I just want a rank. I'll let that Mo Ying be happy for now. When I have a chance I won't let this person go." Ji Zhenghong nodded.

After 30 rounds, no one challenged Ye Mo. Ye Mo knew that this was due to no one knowing him. If someone knew that 21st Mo Ying was an abstruse immortal middle stage, in less than a second someone would challenge him.

Two days later, the challenges were over and the top 50 were decided.

Everyone knew this tournament wasn't completely fair but it could indeed let the strong people stay. Ye Mo was ranked 21st and was never challenged at all.

Chapter 1669: Fight over immortal well

Ye Mo stood with the top 50. When those failed immortals saw Ye Mo, they hammered their chests in frustration. They didn't expect there was an abstruse immortal middle stage in the top 50.

Ye Mo felt a little awkward too, he was the only abstruse immortal middle stage in this 50 people.

Those few immortal kings noticed too. Especially Su Huan immortal king, she looked at Ye Mo strangely.

Ye Mo noticed the red robed female immortal who came with Su Huan too, she was in top 50 and abstruse immortal tertiary stage. She wasn't challenged too.

...

The teleportation formation to the blue lightning mountain was on the east side of the city.

Ye Mo and them followed a great eternity immortal to the palace. There was 100 people here, 50 abstruse immortals and 50 great immortals.

Other than these 100 people, many other immortals could go into the immortal well but they would need to wait till after the 100 people went in.

"The top 50 of heaven immortal ranking get in the teleportation formation, after entering the immortal well, choose a place for your cultivation. When all of you get in, the palace would close immediately." The great eternity immortal reminded.

Before anyone could say anything, the teleportation formation lights shimmered and in a few seconds Ye Mo and them were swept away.

Moments later, Ye Mo found that he and all the abstruse immortals appeared in another palace. There were tens of small doors in here.

A few abstruse immortals quickly chose a small door and entered.

So this was it, each person had a set cultivation ground. Seeing more and more people go in, Ye Mo pulled an abstruse immortal peak stage and saluted with his fists "Immortal friend, can people have divine damnation here?"

The abstruse immortal smiled "Of course, if you reach great immortal congratulations."

Then the abstruse immortal quickly found a door and went in. immediately, there was only Ye Mo left in the palace and only a small door left.

Ye Mo quickly went in there. After he went in, the small door immediately disappeared and shut itself.

Walking in tens of meters, Ye Mo found an immortal pond circulating with white mist. A dense immortal spirit chi surrounded Ye Mo. Ye Mo moaned in comfort, this was the best cultivation grounds.

The pond wasn't big, there was a round jade cushion in the center.

Although the well was called blue lightning immortal well, it actually had no element.

But Ye Mo was certain this immortal well was much better than the one he found before. this was a diluted immortal pond and the immortal spirit chi was still this dense. If one cultivated directly in the well it would be even better.

But the time is too short, only half a year. At most, he would be able to reach abstruse immortal tertiary stage.

What a waste, Ye Mo sighed as he flew onto the seat and scanned around with his spirit sense.

He immediately found that the immortal spirit chi came from the cushion below him.

If he took out time formation disk, Ye Mo was certain he could reach abstruse immortal peak stage in such a place and even use this pond to suck over most of the nutrition from the immortal well but in here he didn't dare to take out the time formation disk no matter what.

He didn't even dare to use the golden page world too. Time formation disk had time law, if an immortal king looked over, he would see it.

Ye Mo admired those who were abstruse immortal peak stage, if they had great unity immortal pill then they might be able to break through to great unity immortal here.

Wait, Ye Mo suddenly thought of something. What if someone going to the tournament reached great unity immortal here?

He thought of what that abstruse immortal peak stage said.

Some of them would have to break through to great unity immortal if they continued to cultivate here so why did they still come in?

Ye Mo slapped his head and realized. He wasn't prepared at all.

They couldn't cultivate here but still went in, clearly they only had one purpose and that was to collect the pond water. Then they would be able to cultivate wherever they wanted.

Ye Mo sighed, he knew that to refine the pond water here one must have formation. Those abstruse immortals must've prepared all sorts of formation disks and storage magic artefact. He was the only one not prepared.

Luckily he didn't need all that. He was a level three immortal formation master and had the golden page world.

Realising this, Ye Mo stopped cultivating. He started setting up formation and completely barricaded this place before collecting the well. Even if it couldn't stop the immortal king spirit sense, it would at least let him know.

Then, Ye Mo started studying formation that could purify the water. It was hard for others to quickly study a new formation but not for Ye Mo.

A month later, he could set up a level three purifying immortal formation. This was much more powerful than other people's formation disks. Plus, Ye Mo didn't set up just one. He set up more.

The flow of liquid from the pond went from drops to a small stream and then a big stream into the golden page world.

When Ye Mo set up the fourth purifying immortal formation, Ye Mo knew he didn't need to cultivate nor set up formations anymore. The water he would get in half a year was definitely enough for him to reach abstruse immortal peak stage.

...

The effect of what Ye Mo did began to show up in other immortal ponds. Those abstruse immortals sensitive to immortal spirit chi began to feel less immortal spirit chi. Clearly they didn't expect someone to be this shameless setting up a level four purifying immortal formation. They guessed that everyone was cultivating and thus the immortal pond was being used up.

Ye Mo slowly changed all the level three immortal formation to level four immortal formations.

At the fourth month, Ye Mo felt the pond water lessen again and even became scarce. He knew he couldn't keep purifying anymore. He had collected almost all the pond water here, he should leave some for others.

Ye Mo put away all the formations and even removed all the spirit sense shielding formation and acted like nothing happened and began cultivation.

Three days later, a powerful spirit sense scanned past Ye Mo's spirit pond. It didn't stop and left after one scan. Ye Mo was frightened however. If he didn't think of leaving some for others, his spirit sense barrier formation would be found even if the purifying formations weren't found. Then, he would be the number one suspect.

Chapter 1670: Exchange for immortal crystals

There was one more month, Ye Mo just stopped cultivation. The density of the pond water was very low now, it wasn't much help to his cultivation anymore. So he just spent this month studying formation.

...

On the blue lightning mountain, some immortals collecting herbs had been teleported out.

The three immortal kings stayed on the mountain.

“Ping Zhou immortal king, what did you see just then?” Su Huan saw Ping Zhou immortal king scan the cultivation palace of the heaven immortals and great immortals and frowned.

The two palaces had spirit sense shielding function. Even if an immortal king wanted to scan in, he would need help from the formation.

Kai Feng also looked at Ping Zhou. The immortal spirit chi of the well suddenly became scarce and they immediately knew. That’s why they came to check. Before even when half a year was up the immortal well wouldn’t become this low in purity. However, this time there was only 4 month and the pond became this scarce.

Ping Zhou was confused himself “I saw nothing strange, just some abstruse immortal peak stage using formation to separate the pond water...”

“Impossible, if they just use formation to separate pond water, that speed wouldn’t even be as fast as their cultivation. How could it let all the immortal pond density drop this low and even affect the immortal well?” Kai Feng frowned.

“Perhaps the immortal spirit chi of the well itself lowered. I think more time needs to be in between the next opening of the well. Otherwise, this would only damage the immortal well.” Su Huan said heavily.

“I agree.”

The blue lightning immortal well was one of the most important resource of Zong Piao heaven.

There was a lot at stake.

...

A month or so later, Ye Mo and the immortals were teleported to the square.

Although Ye Mo took more than half of the well, most of the immortals who went in still grew in power. Ye Mo was the only person who didn't improve at all.

He was still abstruse immortal middle stage.

People said nothing but some people still shook their heads at Ye Mo. It was such a waste for him to use such a good resource. Anyone else would be able to reach abstruse immortal peak stage or at least tertiary stage in half a year but his power was absolutely the same.

The great eternity immortal leading them in was there waiting for them, he said loudly "The immortal well cultivation ends now. Everyone has half a day to buy the pills and magic artefact you need. Half a day later, we will be taking heaven domain immortal ship to Wen Chong heaven domain and then take teleportation formation to Yuan Le heaven from there.

Everyone couldn't wait to go out, some abstruse immortal peak stage wanted to sell their purified pond water to exchange for pills. Others wanted to use their contribution points. They also needed to bid their sect farewell.

For Ye Mo, he needed to spend all of his contribution points. He could exchange them at other heaven domains but it wasn't much useful at Yuan Le heaven. He only had tens of thousands of immortal crystals on him. He needed to exchange all these contribution points to immortal crystals.

Ye Mo could only go to big immortal towers to exchange immortal crystals. That would make him lose out a lot of immortal crystals but it was impossible to exchange 10 million contribution points in a rush in the black market. Even if there was such black markets, Ye Mo didn't dare to go. One mistake and he could lose his life.

The biggest tower in Blue Mo immortal city was Shuang Jue tower. Their immortal pill and magic artefact business was the best.

When Ye Mo walked in, he saw a few people he knew already. They were all abstruse immortal who went to the immortal well. They were clearly preparing for the dao seeking tournament. When they saw Ye Mo come in, only one abstruse immortal middle stage nodded to him. the rest didn't seem to see him.

To them, an abstruse immortal middle stage could only rely on help to get into the immortal well. Such person going to Yuan Le heaven was a waste.

Ye Mo didn't care what others thought of him at all, he just came to the third level of the Shuang Jue tower.

It was filled with high level immortal spirit beast and materials. Ye Mo was very interested in them.

Ye Mo bought a large pile of immortal spirit herb and immortal materials above level four. Even the tower rarely sees a mass buyer like Ye Mo so they just sent a female immortal to follow Ye Mo everywhere and attend to him.

The abstruse immortal middle stage who nodded to Ye Mo couldn't resist coming to Ye Mo "Immortal friend, although we're representing Zong Piao heaven to go to Yuan Le heaven we can't stay there. If you spend all your contribution points here, you would need to earn more when you come back.

Ye Mo dazed for a moment, he didn't expect one couldn't stay at Yuan Le heaven. He was planning to not come back.

"Can one not stay in Yuan Le heaven? Not even if you go into dao seeking tower?" Ye Mo frowned and asked?.

The abstruse immortal smiled bitterly "Of course you can if you enter the dao seeking tower, but how many can go into the dao seeking tower. Even the prodigies of Yuan Le heaven can rarely go in. there's 100 people from Yuan Le heaven in the tournament so in total, there are 600. One could stay behind if

he gets top 200. But other than martial brother Ouyang Yi and purple goddess and them, the rest has no hopes...”

Ye Mo realized that this guy meant he had no hopes of getting into top 200. Ye Mo was very confident however, he might not get first but a top 30 should be fine.

The reason he didn’t dare to say he was number one was because the immortal realm was boundless and there were too many prodigies, who knew if there would be a second and third Yan Jiutian?

“Thank you immortal friend.” Ye Mo saluted with his fists.

The abstruse immortal saw that Ye Mo didn’t really get it into his brain but didn’t care and just left with the other abstruse immortals.

The female immortal treated Ye Mo with even greater respect hearing he was competing at Yuan Le heaven.

Ye Mo was taken to a grand tower and here he saw cultivation methods marked at 50 million contribution points, magic artefact marked at 40 million contribution points.

Ye Mo couldn’t afford any of them.

“Will illusion crystal?” Ye Mo’s eyes focused on a fist sized aqua material. This was level seven immortal material. This was the best thing to upgrade his Zi Xu with.

The will illusion crystal could make the magic artefact feel ethereal and be traceless. This is why the will illusion crystal is ten times more expensive than other level seven immortal materials.

“Yes master. this is level seven immortal material, will illusion crystal. It’s one of the best materials for forging top grade immortal artefact. Holding a magic artefact made with will illusion crystal can increase your power by ten percent...” The female immortal said.

Ye Mo looked at the price, 8.63 million contribution points, so expensive. This was almost 100 million immortal crystals.

The low heaven domain really couldn't compare with middle heaven domain.
