Chapter 1671: A wasted spot

A black heaven domain immortal ship left Zong Piao heaven and went into the void.

Ye Mo was in a luxurious room now, the immortal spirit chi here was extremely dense and there were free immortal fruits and wines. He could go onto the deck at anytime. This was his first time enjoying such luxury.

The 50 abstruse immortals going to Yuan Le heaven all had such rooms and had 3 immortal kings to protect them. They could ask immortal king questions at any times. Almost all of them tried to ask the three immortal kings all sorts of questions. Sometimes, something that troubled them for many years would be easily explained by an immortal king.

This was unimaginable for any abstruse immortal.

But there was only one person who didn't want such benefit and that was Ye Mo.

Other than asking Ping Zhou immortal king a moderately hard question he spent most of his time in his room. If it wasn't to avoid suspicion, he wouldn't ask a single question at all. After he timidly asked a question that many abstruse immortals can answer, other abstruse immortals were speechless towards him.

The question wasn't easy but as an abstruse immortal who could go to dao seeking tournament, asking such question was not good enough.

Ye Mo cowered behind the others and didn't seem to dare to ask a second question after seeing the contempt in others' eyes. When he returned to his room he finally breathed easy.

He just had too much pressure facing three immortal kings. Now that he asked a question and was sneered at, he wouldn't be suspected even if he doesn't come out again.

Ye Mo spent all of his 14 million contribution points and other than exchanging for materials, he also got 50 million immortal crystals. He gave the last 1000 contribution points with the jade card to the female immortal serving him.

...

“Is that abstruse immortal middle stage Mo Ying?” Ping Zhou immortal king’s spirit sense scanned Ye Mo who dazily sat in his room and shook his head.

Su Huan immortal king nodded “Yes, I especially researched about him, he seemed to be lucky and found many beast cores that people hid. That’s how he reached the contribution points ranking, he’s an solo cultivator.”

“He doesn’t seem old but his mind is too weak and can’t take pressure. He doesn’t dare to ask a second question just because he was laughed at. He doesn’t even dare to face those who laugh at him. he really can’t achieve much in the future. If his will power was a little stronger and dared to ask us more questions, he would be able to reach abstruse immortal tertiary stage before Wen Chong heaven. This is such a waste of a spot.” Ping Zhou immortal king shook his head.

Kai Feng immortal king laughed “never mind, even if it wasn’t a waste, one spot if useless to us.”

Ping Zhuo nodded and said “there are quite a few good seeds this time. That Ouyang Yi, purple rain goddess, Xu Ji, Chu Xiangzi and Su Huan goddess’s Mi Lan are all good. I’m quite hopeful towards this tournament. Perhaps this time we can break a record.”

Kai Feng immortal king laughed “Ping Zhou immortal king, I think you missed one. That Mang Yong abstruse immortal tertiary stage is very good. When he challenge someone, he didn’t even use his main magic artefact and defeated his opponent. When someone challenged him, he also won easily.”

“You’re saying that abstruse immortal with a red mark on his forehead?” Ping Zhou immortal king asked.

“That’s right, him....” Kai Feng immortal king nodded.

...

On the deck, thirty or so abstruse immortal were looking into the void. Doing this could not only improve one's understand of magic but also enlighten one's heart and make it easier to break through in solitary cultivation.

"Did you see Ping Zhou immortal king's face? That Mo Ying wasted a spot, the three immortal kings aren't happy." Someone spoke about Ye Mo.

"Sigh, an abstruse immortal middle stage, I don't know where he got so many contribution points. Just look at his cowardly act and you know he's not from a big sect. wouldn't it be better to ask him to transfer his spot to someone else. Look at the question he asked, should that be something asked by an abstruse immortal participating in the dao seeking tournament? My face was burning with embarrassment after he said that."

"Yea because of his question, the three immortal kings are doubting our overall ability."

"Nevermind, that guy is quite self conscious and stopped asking. He still doesn't come out of his room now because he knows shame. Plus, no one wants to miss out on the dao seeking tournament. You can't blame him."

Ji Zhenghong just realized now that Ye Mo didn't have any background. He was regretful, he should've challenged Ye Mo.

A pale yellow dressed female immortal suddenly sneered "talking behind people's backs is very honourable?"

Then, the yellow dressed female immortal left the deck and went back into her room.

"We didn't say anything about her, why does she care." The round faced abstruse immortal tertiary stage grumbled.

"I think we misunderstood the three immortal king, they wouldn't be unhappy just because of Mo Ying's question. It's because Mo Ying didn't dare to ask another question after everyone looked down on him. that's why they are disappointed." An abstruse immortal peak stage stood out and said.

Everyone knew this guy, he was abstruse ranking fourth Chu Xiangzi. Everyone agreed to him after he said this. some people even wanted to call Ye Mo out and tell him about this but soon they gave up on this thought. They were afraid Ye Mo would disappoint the three immortal king masters.

"Mo Ying...." Xu Ji murmured this familiar name remembering Mo Ying's ranking rising non stop and eventually beating him. but this cheating guy was worthless to him.

....

The immortal ship flew rapidly in the void, the abstruse immortals would either go look at the void or ask the immortal kings questions.

One person was of exception and that was Ye Mo.

Everyone knew why he didn't dare to come out now, later one people completely forgot about him.

Three month later, the ship stopped at the teleportation formation to Yuan Le heaven. Finally, everyone saw Ye Mo again. Many people had gathered at the teleportation formation, these people came from other heaven domains and also was going to the dao seeking tournament.

Only Wen Chong heaven has teleportation formation to Yuan Le heaven in the middle heaven domains. If they didn't take teleportation formation, it would take more than a decade to fly to Yuan Le heaven.

...

The teleportation formation to Yuan Le heaven was super long distance teleportation formation. Other than immortal kings, everyone else would feel dizzy, even Ye Mo was of no exception but he was in a much better state than others.

However, Ye Mo pretended he was worse than others.

He heard that some people would stay in the dao seeking tower for two hundred years. To him, he would just complete his god arts and then leave. He would never go back to Zong Piao heaven again.

Ye Mo and them rested for a few days before coming to the dao seeking square outside the dao seeking tower.

The square was filled with people, this square was much larger than the blue lightning square.

Ouyang Yi and them were prodigies in Zong Piao heaven but in Yuan Le heaven, they were nothing. Zong Piao heaven's abstruse ranking was weaker than ordinary immortals at Yuan Le heaven. They clearly knew this so they didn't act like they were superior as before.

Ye Mo listened and was scared that an immortal monarch would suddenly come. Immortal kings couldn't see through his secrets but what about an immortal monarch?

"Blood clothed immortal Xue Chengxuan is here..."

"See that is heaven sword immortal Fu Lingtian... oh, Xuan Len goddess is here too..."

Ouyang Yi and them were talking quietly on the side. Ye Mo wanted to laugh, they were glorious like that before but now they switched positions.

Chapter 1672: Abandoned again

From other people's discussions, Ye Mo soon knew who Blood Robed Immortal Xue Chengxuan was, he was the most murderous abstruse immortals in Yuan Le heaven. He can easily kill great unity immortal. Those who offended Xue Chengxuan would be killed no matter how far he ran. This person also liked to bring his anger on others, if you offend him, even after you were killed, he would still kill your friend if he met him.

It was this that Xue Chengxuan got the title blood robed immortal. He has a spirit hound that can sniff you out no matter where you went.

Heaven sword immortal Fu Lingtian was the most talented sword immortal in Yuan Le heaven, he was top ten of the Yuan Le heaven immortal leader board. He could also kill great unity immortal but unlike blood robed immortal, he has his principles.

Xuan Len goddess was the most proficient at using god arts in the Yuan Le heaven immortals. Under her god art, even great unity immortal would die. She was also someone no one dared to mess with in Yuan Le heaven. She is cold and prideful, but as long as you don't offend her, she usually wouldn't look for trouble.

....

Every prodigy of Yuan Le heaven seemed to have their own glory. Ye Mo was enjoying the good story time when suddenly a fierce force rose from the square and pressed down.

Ye Mo was shook and immediately looked down taking back his force and trying to calm himself down.

It wasn't just Ye Mo but all the immortals in the square stopped their discussions.

The powerful force seemed to have blown past like a breath and a grey robed immortal landed on the main stage and disappeared.

Soon, tens more immortals landed and Ye Mo found that the three immortal kings of Zong Piao heaven were among them.

Tens of immortal kings gathered at the dao seeking square. That pressure seeped out again. Even though the immortal kings didn't do it intentionally, other immortals didn't dare to breath loudly anymore.

Ye Mo breathed easy, he noticed that the grey robed middle aged immortal was also an immortal king but probably immortal king tertiary stage. He didn't know if this scene was worth an immortal monarch coming or if there was immortal monarch in middle heaven domains at all.

No one dared to discuss and Ye Mo didn't know who this grey robed immortal king was.

The grey robed immortal king scanned everyone and said loudly "I'm Yue Le heaven Yi He immortal king, the person responsible for the dao seeking tournament."

Ye Mo felt like his clothes were being burned when He Yi immortal king scanned him. Ye Mo was shocked. This He Yi immortal king was too scary. The freedom king was nothing compared to this He Yi immortal king.

"This Dao Seeking tournament is very important, everyone who had participated in dao seeking tournament knows that only heaven immortals can participate but the results affect whether the great immortals and status immortals of each heaven domain can go into dao seeking tower."

Ye Mo didn't understand this. he had never heard about this part before.

"This tournament will be divided into three rounds, a total of 600 participants. Because this time it happens to be the opening of the 7 Refine tower that opens every 100,000 years, the first round of the tournament will be trial in the 7 Refine tower. Everyone can form teams but each team must not have more than 7 people..."

Before he finished, He Yi immortal king's voice was covered by all the discussions. Ye Mo had never heard of the 7 refine tower but from the looks of the immortals around him, this 7 refine tower seemed scary. Meanwhile, the Yuan Le heaven participants were rather calm.

From their discussion, Ye Mo knew that the 7 refine tower was divided into 7 levels but never opened until every 100,000 years. Each level was a crazy and bloody world, the higher up you go the more dangerous. Most ordinary immortals rarely survive.

When everyone's discussion died down a little, He Yi immortal king pressed down with his hands and the discussion stopped completely.

“The 7 refine tower is indeed very dangerous but the fortunes there are amazing too. The immortal spirit herb and rare materials are very precious. Anything you get you can keep.

There are seven levels, the team that passes the first level gets one point, second level 5 points, third level 10 points, fourth level 20 points, fifth level 40, sixth level 80, seventh level 160 points. Of course this isn't the only means to get points, there are a lot of 7 refine stones in the tower. The more color the stone has the more points, one colored stones are worth one point, 7 colors are worth seven points...

I need to remind everyone that no matter how many colored stones, there would be immortal spirit beast guarding them. Of course, everyone who goes in can get a transmission rune. You can crush it in time of danger to come out. After the match ends, teams will lose two points for every member that dies...”

The square was dead silent now. there was a hole in the rules, this meant that it allowed two teams to attack each other. If one team kills someone from the other team, not only would they get the 7 refine stones but they would also make the team lose points.

Ye Mo didn't care about this. he was thinking about what the 7 refine stones were.

He Yi immortal king said calmly “the top ten teams of the first round can each get a heaven immortal spot into the dao seeking tower. The second and third can get a great immortal spot on top of that. The first squad can also get a status immortal stop on top of all that.

Ye Mo finally understood why the dao seeking tournament was related to status and great immortals going in the dao seeking tower. It was decided based on the results of the first three rounds. Kai Feng Immortal king didn't say this because he knew it was impossible for Zong Piao heaven to get this.

But Ye Mo could guess that the immortal kings didn't want to give up on this.

Seeing everyone understand, He Yi immortal king nodded “All the participants now come with me to teleport inside the 7 refine tower. I hope everyone can get a good rank and contribute to your heaven domain so your immortal kings didn't send you over in vain.”

Ye Mo looked at the three immortal kings from Zong Piao heaven and could understand why they felt bad. Every time, they could only see other immortal kings go in while they had to go home.

...

When the contestants came to the 7 refine tower square, there were hundreds of thousands of people here and more were coming.

Some merchant towers set up signs saying buying immortal spirit beast cores from seven refine tower and high level immortal spirit herb as well as materials for a high price.

Some sects also put up signs wanting to take in prodigy immortals from the 7 refine tower. Some talented immortals would definitely want to stay at Yuan Le heaven and a good sect was important.

...

People needed to form squads before going in and the contestants soon formed their own teams. Ye Mo found the Zong Piao heaven soon formed 7 squads with each squad having 7 people. No one wanted to be with him.

Chapter 1673: Team with only one person

Everyone looked at Ye Mo and had a strange face. Even the tens of immortal kings looked at him. although they knew no one wanted to team up with him probably due to his weak power but even so, he shouldn't be ignored by everyone. Just how bad was he with people.

The other heaven domains had squads of 4,5,6 and 7. Only Zong Piao heaven was all 7 people squads. The weakest guy was left out.

Ye Mo looked down and said nothing, he acted as though he was very uneasy as though he was worried about going in 7 refine tower alone. In fact, he really didn't want to be exposed in front of everyone like this. it was fine if they were below status immortal but with this many immortal kings staring at him, if they all used spirit sense to check him he would be over.

Luckily, most people had sympathy for Ye Mo who looked down and said nothing. Some people was contemptuous that someone like Ye Mo came to waste a spot. some immortal kings never thought of using spirit sense to check Ye Mo this abstruse immortal middle stage.

The three immortal kings from Zong Piao heaven shook their heads too. They weren't happy with the contestants abandoning Ye Mo but also disliked Ye Mo's timid attitude. The first round hasn't even begun and Zong Piao heaven was being laughed at.

Xu Ji saw Ye Mo and shook his head. If Ye Mo didn't get this result by cheating, he might help Ye Mo say something but Ye Mo deserved this.

That yellow robed female immortal also looked at Ye Mo and was speechless too. One really couldn't sympathizes with him. No wonder no one wanted to team up with him. everyone was trading maps of the tower while he looked down not daring to scan his spirit sense out. Without a map, he wouldn't even be able to get up to level two.

He Yi immortal king seemed to know the Zong Piao heaven immortal kings were a little awkward so he broke the silence and said "Please collect jade cards as a team and enter the teleportation formation."

Ye Mo looked at his team card, it was 79. There was nothing else. Ye Mo knew that with this jade card, it could record his team's progress just like contribution points jade card.

Other teams had many people but every person still had a jade card and they were interconnected. Crushing the jade card would teleport you out and the points you got would count towards the team's points.

There were 106 teams. The teleportation formation was very fast and every ten seconds, one team was teleported away. In less than half an hour, all the teams had been teleported in.

Ye Mo was the last as he had the least person in the team.

In order to not make the immortal kings of each domain disappointed early, the screen outside only showed the teams rank and points but didn't point out which heaven domain it belonged to.

In less than 5 minutes the 11st squad got one point and became first.

...

When Ye Mo was teleported in, he landed in a fiery red thornbrush. There was no one around him, this was a random teleportation.

As soon as Ye Mo landed, two red level one thorn immortal spirit beast attacked. Ye Mo casually slashed with Zi Xu and the two immortal spirit beast were killed.

However, there was no points for killing bs in here. Ye Mo found a rock and scanned his spirit sense out standing on it.

There were swamps, thorns, brushes everywhere... all sorts of insects ravaged the place. Some strange immortal spirit herb grew in strange corners but they were all low level immortal spirit herb. Ye Mo felt that the first level of this tower was boundless.

His spirit sense seemed to have been suppressed to 10,000 km radius. Ye Mo frowned. The contestants of Yuan Le heaven would know where the entrance to level two was and had a map. He had nothing.

He didn't know that every team had a map except for him.

Ye Mo didn't want to stay at level one, even if he found seven refine stone, the color was too low. It was a waste of time. This level was probably prepared for hollow immortal and golden immortals.

Ye Mo released Blue Moon wanting to find a place out. It would be best to find a team from Yuan Le heaven and get a map from them.

Ye Mo just flew out a few hundred km and a powerful whirlpool appeared in his spirit sense. Ye Mo was fraught and quickly manovuered Blue Moon a few km away before dodging that whirlpool. When he scanned his spirit sense back, the whirlpool was gone.

This was only first level, it seemed he needed to be careful.

Ye Mo didn't get off Blue Moon but just expanded his spirit sense out.

Half a day later, Ye Mo still had no idea about the entrance to level two. He killed quite some flying immortal spirit beast on the way. There were level one and level two. Some of them had stealth capabilities but that was nothing to Ye Mo.

"Hmm, which idiot is this, he dares to fly this fast on flying magic artefact in the seven refine tower?"

Ye Mo found the four before they found him and rushed over without hesitation.

"Haha, it's that idiot that no one wants to team up with. Pity he doesn't have much on him. hmm, he's coming towards us."

"Hehe, his flying magic artefact isn't bad."

Ye Mo came before them.

"Four friends may I ask if you have seven refine tower map?" Ye Mo saluted with his fists.

"Yes, but you need to pay some price." One sharp chinned abstruse immortal sneered.

Ye Mo frowned "I know, how many immortal crystals?"

"We don't need immortal crystals just leave behind your flying magic artefact. Oh and your storage ring." Another abstruse immortal laughed. In their eyes, Ye Mo was here to give them storage ring and flying ma.

“I’ll add something, your life will be kept here too. Otherwise, we Tang Yao heaven can’t take the blame.” Another abstruse immortal said.

Seeing this, Ye Mo immediately decided to kill them.

There were no points in level one and yet they still wanted to kill him. They were purely trying to rob him. Tang Yao heaven gave Ye Mo a very bad impression. The ship he was on with Zhen Bingyu was towards Tang Yao heaven.

“In that case, I’ll give this stone to you...” Ye Mo sneered and world rock was released. A black mountain was dominant immortal essence smashed down.

“You’re asking to die...” seeing Ye Mo dare to attack, these abstruse immortals were furious. This loner abstruse immortal middle stage dared to attack them.

Chapter 1674: One zero points team

Rumble...

The abstruse immortal tertiary stage who was attacked by Ye Mo barely managed to release a shield but this shield was like paper to the world rock. It was instantly torn apart.

Splurge, the world rock just paused a tiny moment before falling on this abstruse immortal tertiary stage.

Ye Mo planned to kill with one strike, he didn’t hold back at all. Even the abstruse immortal’s storage ring was pulverized. Then, the world rock smashed at the second abstruse immortal.

Ye Mo wasn’t worried, he believed more than one of them would have the map.

The other three reacted at the same time. Other than that abstruse immortal being smashed, the other two were joyful instead. They could tell that this black rock was a powerful magic artefact. If they killed Ye Mo, this would be theirs.

The two abstruse immortal tertiary stage released their magic artefact without hesitation and attacked Ye Mo at the same time.

Seeing this, Ye Mo breathed easy. He was scared someone would try to run at this time. If someone did, he wouldn't be able to kill them all.

He wasn't from the Zong Piao heaven. He came to the tournament for himself. If the three immortal kings of Zong Piao heaven didn't protect him, it would be big trouble for killing Tang Yao heaven contestants.

His immortal essence flooded into the world rock while hacking over with Zi Xu.

The second abstruse immortal being attacked by the world rock released a defense bell magic artefact but it still couldn't stop Ye Mo's world rock. Ye Mo's immortal essence was far beyond ordinary abstruse immortal plus he was using the world rock.

Crack.

The bell magic artefact shattered.

The abstruse immortal tertiary stage wasn't able to withstand the world rock's terrifying power and his body was smashed to a pie, his essence spirit was devoured by shadowless.

Ye Mo killed two abstruse immortal tertiary stage instantly in one move. The other two were very shocked and knew things weren't good.

Ye Mo was able to release Zi Xu while using the world rock meaning that he had far superior spirit sense and immortal essence than them. If they still didn't run now they would be idiots.

That abstruse immortal peak stage saw Ye Mo's strength earlier and just when he was about to crush his jade card and run, he found he couldn't. sword domain, he was bound by sword domain. In his shock, the abstruse immortal peak stage burned his immortal essence like crazy. He just needed one second, no, half a second.

The Illusion Cloud domain kill strike's sword domain easily tore through his sword veil. While he was recovering, the sword ray easily cut apart his body in less than half a second.

Seeing Ye Mo instantly kill three people, the last abstruse immortal was completely dazed. His hands were shaking, he wanted to take out his jade card and crush it but he found his sea of consciousness was in chaos. He couldn't even hold the jade card.

Zi Xu turned around in a purple beam and sliced the last guy from waist in half.

Ye Mo's face was very pale after instant killing four people. If the four didn't run he wouldn't need to use such efforts but if he relaxed a little bit, there would be someone to teleport out. The hardest kill was the fourth person.

He used his spirit sense blades to attack this abstruse immortal and make him unable to activate the jade card. This was very taxing on his spirit sense. Luckily, this was an abstruse immortal tertiary stage. If it was an abstruse immortal peak stage, Ye Mo would probably spit a mouthful of blood and still might not be able to lock the person now.

He put away three storage ring, Ye Mo didn't stop at all and immediately left the scene.

15 minutes later, Ye Mo set up a simple stealth formation in the forest and took out three storage ring.

As he expected, other than pills and immortal crystals, there were three maps. The jade slip was very simply however and only had where to find the entrance to the next level. it also had some basic knowledge about the seven refine tower, to avoid void whirlpools and some stealthed immortal spirit beast.

It also said where the seven refine stones would most likely occur. It was usually at dense spirit chi places while immortal spirit beast guarding.

This was enough for Ye Mo.

He packed away everything and left as quickly as possible. He was going to level two. The first level was useless to him.

Ye Mo thought the seven refine stone would be a forgery material usually hidden underground on some rock. But when he found a seven refine stone, he knew he was too naïve. It was a material indeed but it grew on a plant with no leaves nor flowers.

There was indeed a level two immortal spirit beast guarding it.

The single colored stone had seven sides and each side was even in size. Ye Mo scanned with his spirit sense and couldn't tell if it was forgery or pill concoction material. Ye Mo even captured a sliver of fire element in this.

The rock was yellow on one side and grey on the other sides.

Ye Mo didn't throw it into the jade card, he threw it into his golden page world. He felt he needed to study this, if he didn't have enough points in the end he could throw it back.

Ye Mo found three more rocks on the way and threw them all into the golden page world.

Half a day later, Ye Mo found the entrance to the second level. this was just a small teleporting whirlpool.

Ye Mo's spirit sense scanned a few teams were coming over this way too. He didn't stop and went in the whirlpool quickly. Moments later, he was teleported to level two.

The immortal spirit chi here was much denser than level one but the space seemed more volatile. Ye Mo found that after reaching level two, his jade card showed one point. This meant that 79th team had one point. Ye Mo threw a seven refine stone inside and the points became two.

Ye Mo didn't stay at level two for long, there were level three immortal spirit beast and even three colored seven refine stone but this wasn't where Ye Mo wanted to stay.

At level two, he found 6 seven refine stones and went into level three.

Ye Mo wasn't just searching for seven refine stones, he found the immortal spirit herbs here were very old. Even the level two and level three immortal spirit herb were tens of thousands of years old, some even a hundred thousand years.

Ye Mo stayed at level three, level three had level four immortal spirit herb and level four immortal spirit beast. From this, it was obvious that at level four there would be level five immortal spirit beast.

A week later, Ye Mo killed more than ten level four immortal spirit beast and got tens of level four immortal spirit herbs and many level three immortal spirit herb. He also got 9 three colored seven refine stones and one four colored seven refine stone.

There were a few times he almost encountered other teams but he carefully avoided them. Ye Mo didn't want to meet with these people, he wanted to go to level four. Before going there, Ye Mo decided to increase his power to abstruse immortal tertiary stage.

...

The seven refine tower square screen showed clearly the points of the teams.

The first ranked team team 11 was at 83 points. The second was team 35 who was 81 points. The lowest ranked team 41 was 0 points.

"Why is there still a zero point team?" someone asked.

"Without a doubt it's that Zong Piao heaven one man team. That guy is pitiful. But surely, he got at least one seven refine stone?"

“Hard to say, maybe he really didn’t get one.”

“Would he have been killed by immortal spirit beast?”

“Impossible, there would at most be level two immortal spirit beast at level one of the tower. That guy is an abstruse immortal middle stage, he can take on level two immortal spirit beast. But it’s possible he was annihilated by another team...”

Some people laughed.

The tens of immortal kings were also looking at the score board discussing about cultivation as well.

Clearly, they could hear the discussions of the low level immortals.

Kai Feng immortal king and Ping Zhou immortal king’s face was sunken. Su Huan immortal king’s face was green, she regretted bringing that Mo Ying to Yuan Le heaven.

Chapter 1675: You weren’t smashed to death

A white light blinked and a six man squad was teleported to level three.

“Hmm, I see a level four Zhi Lan fruit, it seems there are quite a lot of good things at level three.” One person said.

Before he finished, a piercing screech of metal sounded and then a dark shadow covered the space.

“Not good, it’s spirit sucking blood bat, run....” One experienced abstruse immortal tertiary stage immediately called out in shock.

The rest of the people realized that this black mass was spirit sucking blood bat, they were immediately about to retreat. However, it was too late now. the flock of bats surrounded the six completely. There were bats from level two to level four. Even though they had used their last means but it was useless against so many bats.

In a short time, two abstruse immortals were torn to bloody mist by the bats. The remaining four people had a sliver of despair. They could only crush their jade card and teleport out. Three months trial and they didn't even last one month.

When the four came to the square, they realized they weren't the first, there were at least 40 people who were out.

...

Ye Mo just cultivated in his golden page world for three days but that was a year or so in the time formation disk. He broke through to abstruse immortal tertiary stage without any trouble.

Three days later, Ye Mo left the golden page world and hid his power to be abstruse immortal middle stage. He had decided to go to seven refine tower level four.

...

"Xue Chengxuan, your power is indeed strong but there's a chronological order to things. We've been here for half a day and we killed that three headed bear, now that we're going to collect seven refine stones, you're going to rob us?" One pretty female immortal's face was bursting red.

There were four abstruse immortals behind her. However, Xue Chengxuan looked down and said nothing.

There were three people behind him too but his team mates were full of contempt. Clearly, they knew that the blood robed immortal could deal with everything himself.

Xue Chengxuan laughed and suddenly sneered "If you disagree then attack together, only I will be fighting."

The other three team mates laughed too and one of them said "Martial brother Xue, we'll go somewhere else, we won't affect your business. When you're done, we'll rendezvous with you."

The abstruse immortal then looked at the pretty female immortal strangely before leaving. Moments later, the three were indeed gone.

Xue Chengxuan licked his lips and didn't seem scared at all facing five people. He laughed "You guys can attack together. Don't worry, I'll let one of you live."

Then he scanned that pretty female immortal. Even an idiot knew what he meant now. Xue Chengxuan was vengeful and very lustful too.

The five clearly knew Xue Chengxuan's character. One abstruse immortal peak stage saluted with his fists and said nothing, he pulled that pretty female immortal and said "Let's go."

The female immortal knew that the five of them combined were probably no match for Xue Chengxuan. It was pointless to stay here and they didn't dare to collect the stones.

Seeing them leave, Xue Chengxuan laughed "You're lucky I'm in a good mood."

Then he was about to collect the three seven refine stones.

"I'm in a good mood too." One sound suddenly stopped Xue Chengxuan. Before Xue Chengxuan could scan his spirit sense, a figure landed before him. he waved his hand and the three stones fell into his hands.

"It's you?" Xue Chengxuan saw it was Ye Mo and dazed. He knew this guy, the one from Zong Piao heaven that no one wanted to team up with. He was the weakest, an abstruse immortal middle stage. How did a trash like him come to level three.

Then he realized, this guy not only came to level three and dared to take seven refine stones from him.

“You’re asking to die...” Xue Chengxuan released his space shattering lightning spear.

Countless silver lightning arcs shot out. It was as though the spear broke into a space filled with lightning arcs. In that instant, the lightning covered the entire space. Before this spear was fully activated, a few more silver spear shadows spilled out each bringing countless lightning arcs as it crackled the space.

There were more and more spear shadows and lightning arcs. Ye Mo approved of this quite a bit. This was a bit like his Illusion Cloud division strike. From this, it was clear that Xue Chengxuan’s spirit sense was also powerful.

Xue Chengxuan was furious indeed. No matter how this insect came here, he dared to challenge his authority. He wasn’t going to give this insect a chance to crush the jade card.

He was certain he would be able to kill Ye Mo before he could teleport out.

But what made him more furious was that Ye Mo didn’t use the jade card and instead released a rock magic artefact.

Smash.

The world rock brought out a dark ray that instantly broke through the endless silver lightning arcs.

Xue Chengxuan’s spear had a sliver of spear domain inside. Ordinary abstruse immortals would indeed be killed before being able to use jade card but to Ye Mo, this wasn’t enough.

Xue Chengxuan was indeed much stronger than ordinary abstruse immortal tertiary stage but compared to Yan Jiutian he was far weaker.

In the blink of an eye, the world rock fell.

The silver lightning was crushed like paper spilling everywhere. The world rock just paused for a brief moment and continued falling.

Xue Chengxuan was overwhelmed, he ran his immortal essence like crazy trying to maintain his spear force.

Crack.

The world rock smashed the lightning spear and Xue Chengxuan spat a mouthful of blood flying back out. Mid air he ate a pill and released a faint red barrier.

"Hmm, you weren't smashed to death." Ye Mo murmured in confusion. Ye Mo was planning to kill Xue Chengxuan in one go.

Ye Mo shook his head, it seemed he needed a god art indeed. If the world rock had its god art, that kid would've been smashed to pulp.

Xue Chengxuan heard this and spat another mouthful of blood. He dominated the Yuan Le heaven domain and even great unity immortal would have to run away when seeing him. since when did he receive such insult. That guy just used one move and was confused why he didn't die.

"I looked wrong, I didn't expect you had such power." Xue Chengxuan said coldly. Xue Chengxuan's heart was cold, if this wasn't the seven refine tower, he would be certain Ye Mo was a great immortal but great immortals can't come in the seven refine tower. This guy was indeed an abstruse immortal then. Why did no one want to team up with such a powerful abstruse immortal.

This was the first time he had seen an abstruse immortal this strong.

"Since you didn't die, eat another strike then." Ye Mo knew that it was a bit hard to kill Xue Chengxuan in the seven refine tower. This guy could crush his jade card in time.

Xue Chengxuan burst his immortal essence and the red light barrier shone brightly. He released his lightning spear again. He really couldn't accept being beaten by a nameless person. As long as his red barrier could stop that rock, he can counter attack with the lightning spear.

Dang.

Crack.

The red barrier crashed with the world rock forming a loud bell ring.

The red barrier instantly disappeared and the powerful force struck Xue Chengxuan a few hundred meters away.

Xue Chengxuan spat another mouthful of blood while looking at the world rock in shock. He didn't understand what magic artefact could be this powerful.

Chapter 1676: Your dad from Zong Piao heaven too

Ye Mo dazed, that Xue Chengxuan's magic artefacts were all pretty good. They were hit by the world rock and didn't shatter. This meant that not only were Xue Chengxuan's spirit sense and immortal essence powerful but his magic artefact were indeed very good.

After a long while, blood robed immortal Xue Chengxuan recovered his senses. He saw the way Ye Mo looked at him and felt very uncomfortable. It had always been him to look at others like this but someone dared to look at him this way today. But he had to take it, he knew if he kept fighting he would be no match. He also knew that the reason this guy didn't keep attacking him was not because he let him go but he knew that he couldn't kill him in the seven refine tower.

"Hmph..." Xue Chengxuan sneered and took back his defense magic artefact and blinked away.

Ye Mo didn't chase him.

After Xue Chengxuan ran away, his power would be exposed. This wasn't good. Ye Mo knew sooner or later his power would be exposed. He wasn't going to hold back because he needed to get into top ten.

Ye Mo wasn't afraid of exposing his power but his golden page world. when he went into solitary cultivation, he had decided to hide the golden page world in the depth of his sea of consciousness. This way, even an immortal king wouldn't be able to force out his golden page world with spirit sense pressure unless the immortal king shattered his sea of consciousness.

Other people wouldn't be able to access the depth of their sea of consciousness but Ye Mo could as he had spirit sense cultivation method.

Ye Mo didn't believe there would be such insane immortal king, he was only a contestant. No matter what, the immortal king wouldn't have a reason to crush his sea of consciousness. At most, he would suspect he had some fortune and scan his meridians with spirit sense.

Ye Mo stayed another day at level three. When he saw an abstruse immortal tertiary stage being entangled by a vine and instantly sucked dry, he realized that immortal spirit beasts weren't the only danger in here.

More and more people were coming to level three. Ye Mo had decided to go to level four, he only had seven points on his jade card. Although he had many seven refine stones, he only threw some in the jade card. The rest were in the golden page world. he felt these stones were good things and it would be a pity to use them all for points.

...

Xue Chengxuan was very annoyed. He slaughtered countless and for the first time he had to run away. but he cherished his face and still acted like nothing happened when he met up with his team mates.

These four were the elite of Yuan Le heaven and were all very prideful. That's why they teamed up as they believed with them, they could get the top few ranks.

"Martial brother Chengxuan is back so quick?" The hawk eyed abstruse immortal laughed and asked casually.

No one could tell Xue Chengxuan lost. They just felt Xue Chengxuan's power was a little weak. That abstruse immortal peak stage was pretty close with Xue Chengxuan and felt his weak chi was due to playing with that pretty female immortal.

Xue Chengxuan grunted and said nothing.

The few were used to Xue Chengxuan being like this. when he didn't want to talk, it was best not to mess with him.

"Zong Piao heaven's..." Xue Chengxuan said coldly and then suddenly darted out.

The other three immediately scanned another 6 man squad, they followed over without hesitation.

Xue Chengxuan saw this team was a Zong Piao heaven squad and the captain was the Abstruse rank number two purple rain goddess. Xu Ji was there too. This was a rather strong team of Zong Piao heaven.

But even the most powerful Zong Piao heaven squad was not enough to Xue Chengxuan. Plus, they just lost a team member.

They immediately saw when Xue Chengxuan came over.

"It's blood robed immortal Xue Chengxuan." Purple rain goddess sneered and immediately sent a message letting the other five form a formation.

"Give me your storage rings and females, otherwise die." Xue Chengxuan said coldly while releasing his lightning spear.

Xu Ji and them knew that if someone dared to move, that lightning spear would immediately pierce that person. with Xue Chengxuan's power, he would definitely be able to kill them before they activate the jade card. Plus, there were three people behind Xue Chengxuan and the four of them surrounded the six of them.

“Blood robed immortal, we have no enmity with you. If you just want seven refine stone, we can give you some, why be so harsh.” Purple rain goddess was prideful in Zong Piao heaven but here she could only soften up.

“What do you think you are? What right do you have to bargain with martial brother Chengxuan. If you don’t do what he says in three seconds, you all die. Don’t think you have a chance to activate jade card, who ever dares to move I promise he will immediately be dead.” That eagle eyed abstruse immortal sneered.

Xu Ji said slowly “Blood robed immortal, I’ve heard of your name but isn’t this a bit too dominant?”

“Dominant? You can only blame you’re from Zong Piao heaven, I’m going to kill trash from Zong Piao heaven today.” There was cold rays in Xue Chengxuan’s eyes as he shook his lightning spear about to attack.

“Your dad also from Zong Piao heaven.” Another voice sounded but Xue Chengxuan shivered and that lightning spear immediately weakened.

That voice was his nightmare, how could he forget. Indeed, he saw Ye Mo walk up. A day ago he lost all his face to this guy and was almost killed. Yet in a day, they met again.

The other three saw Ye Mo too and released their killing intent but they didn’t attack. They knew blood robed immortal’s rule. If someone dared to steal his prey, he would make that person pray to die.

Thud thud.

Two lights flashed and two people in the team teleported out. The other four didn’t move.

There was contempt in purple rain goddess’s eyes, it was an insult to be on the same team as these cowards. The remaining four all looked at Ye Mo. They frowned. This was the disgusting thing about cultivators ascended from the cultivation realm, they didn’t act like immortals at all.

Xu Ji frowned for a different reason. He knew that Ye Mo was only going to infuriate Xue Chengxuan and make him kill him. To him, it was very substantial that Ye Mo could come all the way here alone.

Before Xue Chengxuan said anything he immediately said to Ye Mo “Mo Ying, don’t speak, we lost three people on the team you can team up with us.”

Ye Mo looked at Xu Ji in confusion, he didn’t expect he had such intention. But Ye Mo just nodded at Xu Ji and said “You guys can go, I can do it alone.”

Xu Ji smiled but didn’t answer, if they could go they would’ve gone already. Suddenly he realized something wasn’t right, according to Xue Chengxuan’s arrogance, how could he not flip when Ye Mo proclaimed himself to be his dad?

Xue Chengxuan’s team mates also looked at why the blood robed immortal hasn’t flipped yet. However what shocked them more was that Xue Chengxuan instead asked Ye Mo “just what do you want?”

Xu Ji and purple rain goddess were completely dazed. Since when was blood robed immortal so easy to talk to? Asking the guy who proclaimed to be his dad what he wanted?

“Martial brother Chengxuan....” The eagle eyed abstruse immortal couldn’t help asking.

Ye Mo wasn’t planning to fight since he knew he couldn’t kill Xue Chengxuan but now that a team from Zong Piao heaven was affected due to this, he felt uncomfortable. Just when he was looking for a reason to fight, this guy on the side spoke giving him the excuse to flip “Punk, shut your mouth.”

The eagled eyed abstruse immortal raised a brow, a mere abstruse immortal middle stage from Zong Piao heaven dared to yell at him, did he want to die?

Chapter 1677: Piss out of seven refine tower

Before Xue Chengxuan said anything he was about to release his golden mace.

Xue Chengxuan sneered and waved his hand signaling the eagle eyed to stop for now. The eagle eyed was furious but he listened to the blood robed immortal. He knew there must be a reason Xue Chengxuan hadn't killed Ye Mo yet. Otherwise, with his personality, Ye Mo would be completely vanished now.

Ye Mo felt things were boring that the eagle eye went back. He was waiting for him to attack and kill this guy first.

These guys were Yuan Le heaven elite, he was by himself. If he didn't have a good reason, it wasn't good to kill a prodigy abstruse immortal of Yuan Le heaven.

Everyone looked at Ye Mo. They all wanted to hear what Ye Mo wanted and know why blood robed immortal was so nice today.

"I spent most of my time in here collecting immortal spirit herb, I didn't get a lot of seven refine stones, you have four people here, just give me tens each."

When Ye Mo finished, the remaining people completely dazed. Was Ye Mo an idiot or just insolent? Did he not know it was blood robed immortal Xue Chengxuan he was talking to?

Purple rain goddess and Xu Ji glanced at each other, there was shock and confusion in their eyes. They didn't know where this Mo Ying got his confidence from daring to scam seven refine stones from blood robed immortal.

"You've insulted me beyond the limit..." Fire was spewing out of blood robed immortal's eyes. His hand shook and the silver color crackled on his spear.

Hearing this, how could the eagle eyed abstruse immortal take it. He couldn't control his golden mace anymore and smashed down at Ye Mo with golden light.

The heaven covering golden light completely enveloped Ye Mo. The Zong Piao heaven four people's face changed. They immediately retreated in the wake of that fierce golden light. This was just a henchman of blood robed immortal and he was this terrifying already. What would happen if blood robed immortal attacked?

Yuan Le heaven was indeed far superior than Zong Piao heaven. Any one of them was on par or even better than Ouyang Yi.

Ye Mo didn't wait for Xue Chengxuan to attack. He needed to finish the battle fast. If the four attacked him together, it would be a little troublesome.

Seeing the golden mace land, Ye Mo released world rock before the golden light was fully activated.

The world rock was much faster than that golden mace.

The golden mace looked fierce and full of killing intent but the master of the mace's sea of consciousness was surrounded by Ye Mo's spirit sense blades.

The eagle eyed abstruse immortal sneered seeing Ye Mo being enveloped by the killing intent. He didn't understand why Xue Chengxuan was so polite to an abstruse immortal middle stage insect. Why not kill such arrogant fool quickly.

But in less than half a second, he was shocked. He felt countless invisible blades attack the border of his sea of consciousness making him lose control of the golden mace. The golden light was rendered useless.

Wait, this was a spirit sense attack. Before the eagle eye could react, a terrifying explosion sounded in his sea of consciousness.

When the world rock smashed the golden mace, the countless blades hacked into his sea of consciousness. The terrifying backlash overturned his sea of consciousness before he could react from the chaos, a huge black mountain smashed over.

Splurge. The eagle eyed abstruse immortal was smashed to nothing in just one blow.

Meanwhile, Xue Chengxuan just released his lightning spear. Seeing the eagle eye getting smashed, he immediately stopped his spear. He knew that if he released the spear, that guy would hunt him until he left the tower.

The two abstruse immortals behind Xue Chengxuan never intended to attack. Ye Mo was a mere abstruse immortal middle stage, how could he be a match for the eagle eye.

Yet how long had it been, one second or two seconds? Eagle eye was killed.

They all came from mountains of corpse, with how Ye Mo killed eagle eyed dominantly in one move, the two immediately realized why Xue Chengxuan was so concerned with Ye Mo and didn't attack. The blood robed immortal was no match for Ye Mo at all. Where did this maniac come from, he was this terrifying.

Realizing this, the two immediately came to the blood robed immortal's side. Their magic artefact was releasing light, clearly they were ready to fight Ye Mo.

Purple rain goddess, Xu Ji and them were completely dumbfounded. Only now did they realise how absurd this Mo Ying was. He killed Xue Chengxuan's team mate but the blood robed immortal didn't even dare to say anything, he was too powerful.

Xu Ji sighed, and he thought this Mo Ying got top 50 by cheating.

Purple rain goddess and the other two Zong Piao heaven abstruse immortal looked at Ye Mo in shock. Only now did they realise how ridiculous it was to look down on this person. With such power, even Ouyang Yi would be killed.

So the abstruse ranking wasn't reliable too, that was the only thought purple rain goddess had. To be honest, she didn't consider any abstruse immortal of Zong Piao heaven highly. Even Ouyang Yi was so so to her. But now, she realized how ridiculous her sense of superiority was.

Ye Mo put the storage ring he got into his storage ring and then looked coldly at blood robed immortal but said nothing.

The blood robed immortal gritted his teeth and took out a few seven refine stones to Ye Mo “Those I haven’t put into the jade card are all here.”

Ye Mo looked at the stones, they were all three and four colored. He threw them into his jade card and his points rose to 24 immediately. The two next to Xue Chengxuan took out a few stones and threw it to Ye Mo without hesitation.

With all this, Ye Mo’s points rose to 61.

Seeing Ye Mo’s shameless act, they were furious but didn’t dare to talk.

“Is that fine now?” blood robed immortal said word by word. If he could beat Ye Mo he would’ve ate Ye Mo piece by piece already.

“I said tens, you only gave a few. Do you think I’m an idiot like you?” Ye Mo said contemptuously. The world rock floated in the air again and that terrifying pressure fell.

They had seen the power of the world rock and became nervous clutching their jade slips in their hands tightly.

Blood robed immortal almost spat blood out of fury. Ye Mo didn’t say it wasn’t enough when he took it, now that he took it he said it wasn’t enough. He might as well just crush his jade card.

“We have no enmity, don’t you think you’re a bit too domineering?” Blood robed immortal just said this and felt it was quite familiar.

Purple rain goddess and Xu Ji were speechless. This was too satisfying.

“Then piss off.” Ye Mo said. He knew he couldn’t kill them and they probably only had this much seven refine stones.

“Wait, I meant to piss out of seven refine tower not somewhere else.” Ye Mo said coldly.

Who knows if this guy will keep looking for trouble with Zong Piao heaven people.

“You...” Blood robed immortal almost spat blood again out of anger. He took out the stones so he could stay here, not to be kicked out.

Ye Mo sneered “If you don’t go, you can try my weighting stone. If I can’t smash you out of the tower, I will go out myself.”

“Very well, I, blood robed immortal Xue Chengxuan, will remember you. I hope your always lucky like this.” Xue Chengxuan took out his jade card and crushed it.

The other two saw this and could only crush their jade cards too. In the blink of an eye, there was just Ye Mo and four completely dumbfounded Zong Piao heaven abstruse immortals.

Chapter 1678: Seven refine tower level five

Ye Mo scanned purple rain goddess and them but said nothing. He turned away and disappeared.

“Just who is he?” One Zong Piao heaven abstruse immortal asked in shock.

Everyone looked at Xu Ji because he said to invite Mo Ying. Perhaps he knew him.

Xu Ji shook his head seeing everyone look at him “I only know he’s called Mo Ying, his contribution points only rose up a month before the blue lightning immortal well opened, I don’t know anything else.”

“Since when did such a powerful abstruse immortal appear in Zong Piao heaven? Not even blood robed immortal Xue Chengxuan is a match for him. With his power, he should be fine getting top three in the Yuan Le heaven immortal rank.” That abstruse immortal said in shock again.

“This is no small matter, we need to report to the three immortal king masters as soon as we go out.” Xu Ji said.

Purple rain goddess nodded “Indeed, Mo Ying came out of nowhere, no one looked favourably of him before but he’s this terrifying. We’re the frogs at the bottom of the well.”

They could tell that this very prideful goddess also faced reality now. Not only were there many people stronger than her in Yuan Le heaven but even Mo Ying was far from what she could be.

“But that Mo Ying has no ill will, he helped us. I think he kicked Xue Chengxuan out of the tower so he can’t keep harming us Zong Piao heaven people. If I didn’t guess wrong, the blood robed immortal suffered in his hands once and that’s why he brought his anger on us. Mo Ying is a rather upright person and knew he caused this so he kicked blood robed immortal out.” Xu Ji said.

Everyone agreed, purple rain goddess sighed “I wanted to work hard and find seven refine stones and make the three immortal king masters have no regret. But now, it seems the three immortal king masters won’t be regretting. With Mo Ying’s power, he can definitely get into top ten.”

“Purple rain martial sister, would martial brother Mo Ying be the strongest in the seven refine tower?” someone asked.

Purple rain goddess shook her head “Probably not, the blood robed immortal is infamous but that’s because he’s too murderous. He’s only ranked 9th on the Yuan Le heaven immortal rank. I think Mo Ying would be able to rank into top 5 but it would be a bit hard to get first.”

Xu Ji continued “With Mo Ying in here, it’s our opportunity. We should go find seven refine stones and go to level four before the place closes.”

Everyone agreed to this and the four quickly left continuing the search for seven refine stones.

...

When Ye Mo came to the fourth level, he remembered that his map stopped at level four, there was no entrance for level five. Ye Mo looked at the map he got from the eagle eyed abstruse immortal. His map also stopped at level four.

It seemed he needed to find level five himself. There were level five immortal spirit beast at level four, at level five there would be level six immortal spirit beast, at level seven there would be level seven immortal spirit beast.

Level seven immortal spirit beast were theoretically equivalent to immortal kings. Although the immortal spirit beast here were weaker than immortal king but they definitely weren't something he could deal with.

At level four, if he wanted to stay he would have to stealth himself.

As soon as Ye Mo thought of this, a dominating force swept over.

Level five fire chimera beast. It's skin and hair were good forgery materials but Ye Mo knew he was weaker than this level five chimera. Even if he could kill it, he would be heavily injured.

Ye Mo immediately stealthed when the chimera came over.

The Three Birth Chant's stealth capabilities were shocking, the chimera came for Ye Mo but when he got to where Ye Mo was, the target he was looking for was gone and he began to roar.

At this moment, a few more dashing lights lit up. Ye Mo knew more people came to level four.

With this, the chimera roared and charged over. Before the four could react, the chimera spewed a fire mountain. One of them was instantly enveloped by the fire mountain. The other three ran away in three different directions.

The first to run just flew up and was tied by a vine that sprung up. Then, this abstruse immortal fell into the thorn brush and disappeared.

The two other abstruse immortal were scared soulless, they immediately crushed their jade card and disappeared from level four.

In just a few seconds, two abstruse immortal tertiary stage were killed without resistance and the other too got away.

Ye Mo didn't dare to act like he was in level three and flew around on Blue Moon everywhere. He carefully shifted himself while stealthed. He would avoid places with lots of vegetation.

On the way, he encountered many devouring vines and level four immortal spirit beast but he avoided them all. Instead, he found large amounts of level four immortal spirit herb and they were all very aged. Ye Mo rejoiced on his decision to come here.

Half a month later, Ye Mo collected a few hundred level four and level five immortal spirit herb and large amounts of seven refine stones. There were more stones at level four probably due to long time with no people coming here. Some of them weren't even guarded by immortal spirit beast.

He killed a few level four immortal spirit beast but he would immediately go if he saw level five immortal spirit beast. Luckily there were little level five immortal spirit beast at level four. Ye Mo only encountered two in half a month.

After going through just under half the area of level four, Ye Mo found the entrance to level five and went in without hesitation.

There were so many good things at level four, level five was undoubtedly more wealthy.

Ye Mo guessed right, level five was like a immortal spirit herb silo. There were all sorts of aged immortal spirit herb and the stones were at least 5 colored.

In five days, Ye Mo got tens more level five immortal spirit herb and a few five colored stones.

There were large amounts of level five immortal spirit beast and bugs at level five but none of them were able to find him.

At this moment, Ye Mo felt he was walking on the edge of a blade.

Another seven refine stone appeared before him. Ye Mo scanned his spirit sense out, moments later, he was certain there was no danger. A level five dual horned tiger was sleeping.

This wasn't the first time he stole stones like this. as long as he got to the stone before the guarding immortal spirit beast woke up and grabbed it, he would be fine.

When Ye Mo was tens of meters away, he suddenly felt things weren't right. Before he could react, an insignificant flower had expanded and eaten him.

Immortal devouring flower, Ye Mo realized immediately.

This flower can instantly turn what they devour into nothing.

Someone else would probably go into the golden page world immediately but Ye Mo knew that it would be extremely hard to get out if he went in the golden page world. Level five immortal devouring flower and its consciousness already. It wasn't good to expose the golden page world.

Ye Mo immediately released Heaven Flame Nine Suns.

Four purple suns circulated around his body turning him into a huge fireball. Ye Mo felt that his heaven flame seemed to be joyful as though it found something good.

The flower let out a sharp howl and instantly withered. Ye Mo dashed out immediately and ran away.

A few hundred km later, Ye Mo stopped. He rejoiced, not expecting his heaven flame to be this powerful being able to burn level five immortal devouring flower.

This place was too dangerous. Ye Mo then started throwing some seven refine stones into the jade card. It would be bad if he encountered danger and wasn't able to turn the stones into points.

Chapter 1679: Heaven flame nirvana

As time went on, more and more people were teleported out of the square. The rankings changed rapidly too.

But what people didn't expect was blood robed immortal Xue Chengxuan being teleported to the square. He wasn't the most powerful abstruse immortal in Yuan le heaven but he was definitely the most ferocious one. Yet such a person was teleported.

Blood robed immortal had a strange temper and his face was bleak. No one dared to ask what happened. As for the two who teamed up with him, they didn't dare to say anything before blood robed immortal spoke. Two Zong Piao heaven abstruse immortal who were forced by him to crush their jade cards saw blood robed immortal come out and quickly hid on the side. They didn't know why blood robed immortal came out but they didn't dare to say anything.

In the vip room of the square, a few Yuan Le heaven immortal kings saw Xue Chengxuan being teleported out. They didn't have a good face too. To them, the more people they had staying in the tower, the more spots they had going into the dao seeking tower.

But all the immortal kings were together now and they couldn't really go out and ask.

"That 79th team is interesting. They were always second last and suddenly rose to 36th a month ago. Later on, it rose to 17th. Now, it just rose to 146 points, it's 7th." One grey robed immortal king laughed.

"I noticed it too, this team has a strange way of getting points. It seems to wait many days before adding points again. Each time it adds much more points than other teams. This way, this 79th team might really get first." Another immortal king added.

"I thought it was Yuan Le heaven Xue Chengxuan but now it doesn't seem so. Which heaven domain is this squad from?" That immortal king said and didn't look at the bad faces of Yuan Le heaven immortal kings.

Everyone knew what he meant, Xue Chengxuan liked slaughter. That way, he would get the seven refine stones of others when he killed them and get a lot of points.

The immortal kings of weaker heaven domains said nothing. They knew this team definitely wasn't from them. They didn't care about being first, they just wanted a spot in the top ten.

"That zero points team still didn't get a single point and nor was anyone teleported out. I think they all died." One Tang Yao heaven immortal king mentioned 41stsquad, he kept feeling that this squad was related to him.

It was very strange indeed, level one of the tower had no threat for an abstruse immortal. How could they not get a single point.

...

Ye Mo left some seven refine stones and sent the rest all into the jade card. No matter what he would get a top ten spot. He didn't know how many points were needed to get into top ten, he was by himself after all. So, he sent in all the stones he could except for some.

Ye Mo didn't wander around freely after being devoured by the immortal devouring flower. That was level five, what if it was a level six or level seven? He might not even be alive.

After calming down, Ye Mo remembered that after releasing Heaven Flame Nine Suns, his heaven flame sent an emotion of excitement.

Was there something near there that could help heaven flame evolve? Or was there a material for mist lotus heart fire to nirvana? Thinking about this, Ye Mo's heart grew excited. He even wanted to run back there and check but he didn't lose his mind. The fight with the flower definitely woke up that dual horned tiger. Going over there again was suicide.

He didn't dare to fight the tiger at all, even if they were evenly matched, who knows if suddenly a vine would pop out from below him and drag him away.

Ye Mo thought carefully, when he released heaven flame, there was nothing but immortal devouring flowers. If there must be something, it would be...

Seven refine stone?

Ye Mo was shook, he was almost certain it was seven refine stone. When he got the first seven refine stone, he felt there was a fire element inside.

Thinking about this, Ye Mo grew excited. He immediately set up a stealth formation and went into the golden page world.

Ye Mo immediately released mist lotus heart fire and took out a 5 colored stone.

As soon as he did, mist lotus heart fire jumped in excitement. Ye Mo carefully sent the stone to mist lotus heart fire. Before Ye Mo could react, the mist lotus heart fire swept the seven refine stone away.

Immediately, the mist lotus heart fire jumped around and its temperature rose again. The flames color kept changing too.

What is this?

Ye Mo dazed for a moment and immediately grew excited. He could tell that mist lotus heart fire was undergoing nirvana. He had never been able to find something for heaven flame nirvana but now the seven refine stone was it. a five color one could allow mist lotus heart fire to nirvana, then what about six and even seven colored ones?

In his joy, Ye Mo kept throwing 5 color stones into the rolling purple heaven flame.

Ye Mo didn't know how many stones were needed for mist lotus heart fire to succeed. After he threw all of his stones in, he realized he didn't have that many. He began to worry, what if nirvana failed?

Seeing the rolling flames, Ye Mo stopped throwing in seven refine stones. He only had lower than 5 colored ones now. If nirvana failed, he could only use Blue Like Morning Sky.

Because of Qin Nianmei's ore, his Blue Like Morning Sky is purple now but it was a very faint purple.

Ye Mo didn't plan to use ordinary materials to nirvana Blue Like Morning Sky. He didn't get this flame easy, it's very rare and one has to get the flame's recognition to own it. Ye Mo decided that if he couldn't find astral flame marrow, he wouldn't nirvana Blue Like Morning Sky.

He would either not have it or have the best.

A day later, the mist lotus heart fire calmed down and turned into a purple flame floating in his hand.

Ye Mo looked at the surroundings of this flame in shock, there was a faint golden ring around it, the second golden ring was also visible sometimes.

Mist lotus heart fire not only succeeded but was also about to reach purple nirvana level two. This seven refine stone gave Ye Mo too much surprise.

Feeling mist lotus heart fire that was many times stronger than before, Ye Mo couldn't help exclaiming. It was too powerful.

After looking at the flame for a long while, Ye Mo put it away. He finally understood what the seven refine stones were for.

No wonder the tournament was to gather seven refine stones. With this thing being this powerful, Ye Mo wasn't going to keep sending it into his jade card.

No matter how dangerous it was, it wasn't going to stop Ye Mo from seeking seven refine stones. He was already imagining his heaven flame reaching purple nirvana level four and evolving to an immortal flame.

Ye Mo didn't keep wasting time in the golden page world, his main purpose wasn't immortal spirit herb anymore but seven refine stones.

In the next two weeks, Ye Mo gathered seven refine stones at level five like crazy. Sometimes, even if there wasn't a sleeping level five immortal spirit beast he would go steal it.

He was injured a few times and almost eaten a few times. Luckily, his powerful five element mobility and stealth cultivation method saved his life again and again.

When Ye Mo found the entrance to level six, he already had 32 five coloured stones.

Chapter 1680: Terrifying claw

Ye Mo was very careful, even though he was at the entrance to level six, he stealthed himself carefully. Those who could come in level five weren't necessarily strong, even the strongest abstruse immortal wouldn't be able to dominate level five.

Those who could come in were very good at stealth just like him. His stealth cultivation method wasn't something ordinary people could have. Ye Mo didn't really believe there would be other people here except for him.

But when he saw a black figure dashing past at the entrance to level six, he realized he had underestimated people.

That black figure was definitely an abstruse immortal and his speed seemed faster than his. Ye Mo didn't move and just stared at that person wanting to know who it was.

That abstruse immortal's stealth cultivation method is very good as well, even Ye Mo could only faintly see a figure. Ten seconds later, after a level five iron foot bear passed, that figure showed itself.

Ye Mo thought it would be someone from a big heaven domain but when he saw who that person was, he realized it was an abstruse immortal from Zong Piao heaven. Ye Mo only knew his name seemed to be Mang Yong.

Ye Mo remembered this guy because his moves were clean when he challenged. He could actually come to level five alone. It was clear that he either left his team behind or he was the only one left.

On top of that, Mang Yong had a red mark on his forehead.

Mang Yong didn't see Ye Mo, he waited for the bear to pass and immediately dug out the two stone essence fruit nearby and changed a direction before leaving. He didn't go to level six entrance.

Ye Mo didn't call Mang Yong, he had his own business.

...

After reaching level six of the tower, Ye Mo immediately stealthed himself. He knew that most of the immortal spirit beast here were level six immortal spirit beast. He didn't have any chances of victory against them.

Ye Mo's carefulness was useful. As soon as he hid, tens of thousands of level five gold sucking ants flew by. With ants of such level, it would be useless even if he used Heaven Flame Nine Suns and all of his immortal essence.

After the ants flew past, Ye Mo finally felt the dense immortal spirit chi of level six. He was certain that if he took out time formation disk to cultivate now, it would be on par with the immortal well. However, Ye Mo didn't have the time to do so, nor did he dare to.

Level six immortal spirit herb were higher level and more precious. Ye Mo even found more than ten three leafed jia lan. He moved them all to his golden page world without hesitation. In the Qing Mo city, two great extreme immortal fought over just one and now he got more than ten.

Other than this, he got more of Xu Ling, seven heart mushrooms. Xu Ling was just a level five immortal spirit herb but it was the best ingredient to concoct extreme dusk pill. Extreme dusk pill could increase the chances of breaking into great extreme immortal. So, it was worth more than ordinary level six immortal spirit herb.

This was Ye Mo sneaking around, he was certain if he walked around openly he would get much more.

Ye Mo was more careful at level six. He didn't even dare to make any big movements digging immortal spirit herb nor did he scan his spirit sense around. However, he felt that level six was much smaller than the previous levels.

Because Ye Mo moved slower, he was safer than he was at level five except for when he stole seven refine stones.

A few days later, Ye Mo found 7 six colored stones and saw the entrance to level seven. From the bottom of his heart, Ye Mo didn't want to go to level seven. If he had some chance at level six, he had zero chance at level seven.

But Ye Mo knew that he wouldn't be able to stay at level six for long as three months time was about to be up.

Moments later, Ye Mo took out his jade card and held it in his hand while going into the teleportation ray to level seven. He would immediately crush it if there was danger at level seven.

As soon as Ye Mo came to level seven, he saw three seven refine stones, they were all seven colored. In his joy, Ye Mo dashed out and took them while scanning his spirit sense out.

The first thing he saw was a purple fruit. The fruit has been there for countless years but there was slivers of dao radiance.

Ye Mo's heart shivered, Peng Yue immortal fruit?

This was definitely it, it was said that Zhen Bingyu's sect was annihilated for one.

Even Ye Mo couldn't control his excitement anymore. With this fruit, it meant he would be able to reach immortal king for certain. He had to get this.

Just when Ye Mo wanted to dash over, a terrifying pressure came and then there was a roar. Immediately, Ye Mo had a sense of despair. He didn't dare to think about the Peng Yue immortal fruit anymore. He crushed his jade card without hesitation.

Rumble.

The instant Ye Mo teleported away, Ye Mo saw his after image being crushed by a claw that was a few stories big.

Ye Mo was certain that if that claw landed on him, there wouldn't be any pieces of him left. This was the power of level seven immortal spirit beast?

That terrifying force, pressure and speed. He wouldn't even have time to go into the golden page world.

Ye Mo wasn't disappointed not getting the Peng Yue immortal fruit, at least he got three seven colored stones.

Ye Mo knew he got no points for going into level seven as he didn't stay there till the end. However, this wasn't the greatest pity, he didn't get anything good from level 7. If he stayed there for just a day, no half a day, he would be rich.

...

At level four, a blue dressed female immortal was standing on a huge blue rock. Four other abstruse immortals surrounded the stone. This female immortal was Yuan Le heaven Xuan Len goddess, ranked third on the heaven immortal ranking, no one was superior than her in use of god art.

"Xuan goddess, do we not need to search for seven refine stones anymore?" One square faced abstruse immortal asked.

"Su Qian, we just need to do as she tells us. She wouldn't be mistaken." Another team mate said.

Xuan Len goddess smiled, that extreme beauty was amplified in her smile. She didn't move at all but her immortal temperament made people feel she was flying and dancing.

"There's 5 minutes until the trial ends. We will be teleported to the square. It's pointless to keep searching for stones now. we were lucky, we found a large bunch of four colored seven refine stones. It should be fine getting top 3. If lucky we might even get first."

Xuan Len goddess's voice was like a dripping clear well making people immersed in her voice.

Seeing no one talk as they were all enchanted by her, Xuan Len goddess didn't mind. She had seen this all too frequent. She was thinking, this time she could finally crush Xun Ran goddess under her feet.

She had always been on par with XUn Ran goddess. Although she was ranked third but everyone knew that Xun Ran who was ranked fourth was on par with her.

...

The instant Ye Mo came to the square, rays of dashing lights were teleported out too. Ye Mo knew his luck was too bad, as soon as he crushed the jade card, the trial time was over. If only that level seven immortal spirit beast found him later and he got the Peng Yue immortal fruit, things would be perfect.

If he was teleported out at the end, he would get 160 more points. But now that was gone.

Ye Mo desperately took out the jade card wanting to know how many points he had. He crushed the outer layer but the inner layer was still there.
