

Strongest As 1701

Chapter 1701: What is dao

Ye Mo sped up and after he entered the golden door, a whirlpool swept him away instantly.

After an extreme sense of dizziness, Ye Mo suddenly woke up. The sound of cars rung by his ears, fashionably dressed young people walked past him and looked strangely at his outfit.

This was Ning Hai university. Ye Mo immediately realized what this place was. He just entered the dao seeking tower and he came to Ning Hai university. Was this all true?

Decades passed, the uni gates were changed. Ye Mo sighed, he heard Kai Feng immortal king say that the first level is heart demon dao. He had been cultivating the Three Birth Chant and used bitter bamboo, he didn't have heart demon at all.

"I have no heart demon, no need to dao seek heart demon!" Ye Mo ignored the people around him and said.

The next moment, he felt another wave of dizziness and he instantly disappeared from the entrance of Ning Hai university. Countless immortal spirit herb and rare materials appeared before him as well as all sorts of runes and formation materials.

A voice at the distant edge of heaven sounded, it was like the teachings of your master "The dao of art, pill, forgery, rune, formation, side dao they are... the path of pill dao has thousands but the thousands come together to one..."

All sorts of pill concoction methods, forgery methods weaved together in the air....

This was a level for people to learn about pill dao, forgery dao, rune dao and side daos. Ye Mo didn't expect the side daos came from the dao seeking tower, calculations, fortune telling were all side daos.

Soon, Ye Mo cast these thoughts aside. He wasn't interested in rune dao but pill dao and forgery dao as well as formation dao had completely encapsulated him. He devoured these knowledge like crazy completely forgetting about time. He even forgot he came to the dao seeking tower for dao seeking god art.

After an unknown amount of time, Ye Mo suddenly woke up. He didn't know how long had been in here for but he knew he couldn't stay anymore. If he did, he might stay here for a few hundred to a thousand years. Dao was endless, even the pill dao was enough for him to stay countless years. To him, he only needed to know some knowledge and the direction, then he would know what to do.

Thinking about this, Ye Mo ignored the sound by his ear and said loudly "I've passed art dao, no need to ask, please go to level three!"

This time, there was no reaction, it was still the sound of all sorts of art daos. Ye Mo's face changed, was he really going to study art dao here forever?

If that's so, then wouldn't all those people who came in here be forever stuck at level 2? Or was his golden card different to other dao cards?

Thinking about this, Kai Feng immortal king only told him there was heart demon dao seeking and magic art dao seeking, he didn't talk about art dao?

Ye Mo didn't have the mood to study art dao anymore. Half a day later, he said again "My pill dao, forgery dao and formation dao has entered the dao door, please go to dao seeking level three!"

Rumble. Ye Mo felt a huge sound in his sea of consciousness. Then there was the dizzy feeling and he was teleported away again.

When Ye Mo fell down, all he saw were magic arts. Ye Mo rejoiced, he finally understood what was going on. At level two, one must have at least one art dao that reached a certain level, then he could ask to go to level three. Otherwise, he could only wait till the tower felt his art dao was mastered before teleporting him to level three.

"Magic dao person, all magic is born, how is it up to the cultivation method, magic art, dao art..."

The ethereal voice sounded again but Ye Mo rejoiced. He needed to fuse his magic arts, he wanted god art.

But after a long while, Ye Mo saw and heard all sorts of cultivation method and magic artefact fusing together without be able to learn anything about god art. Even if he wasn't here, he could slowly derive those things from the Three Birth Chant. The best thing about this place was that it gave him a general direction and overview.

For other abstruse immortals, they might never be able to learn everything at level three but Ye Mo lost interest.

He said loudly "My dao art has entered the dao gate, I just lack god art, please give me the way to learn god art."

A golden stairway suddenly appeared before Ye Mo. Ye Mo immediately knew that going to level four wasn't through teleportation but these stairs.

Ye Mo stepped up the stairs without hesitation. When he got on the first stair a voice asked "What is dao?"

Then, Ye Mo felt a powerful pushing force, he found it difficult to stay on stair one much less go up to stair two.

Ye Mo knew that he had to answer or he would be pushed back to level three. He immediately said "Human way earth, earth way heaven, heaven way dao, dao way is nature, thus, nature is dao."

Ye Mo didn't know where he got this answer but when he used Three Birth Chant to derive cultivation method, there seemed to be this word so he used it.

As soon as Ye Mo said this, the pressure was gone. Ye Mo quickly went onto the second stairs, he heard that voice again "What is dao?"

Same question?

Ye Mo frowned, and said again “Matter born out of chaos, from the heavens and earth. Silent and lonely, solitary and unchanging, periodic and never ending, it is the mother of world. I don’t know its name, it is a word dao.”

Ye Mo walked up another step, then he got the same question again “What is dao?”

“One yin one yang is dao.”

“What is dao?”

“What people plant, making everything not know its point of existence, this is dao.”

“What is dao?”

...

Ye Mo sweated cold, he found that no matter what he said he could only walk a step forward. If this continued, he would be answering what is dao his entire life, is this dao seeking?

This seems to eerie. Ye Mo wanted to talk bullshit, that was a type of dao but who knows if he would be teleported out.

Ye Mo stopped on the 8th stair and thought for a long while “I came to seek dao, I want to know where to seek dao? If this repeats, there is no need for me to seek dao? Ask again, I am dao.”

With this, Ye Mo felt his essence spirit throb, his mind opened up. His answers had been other people’s dao, everyone has his own dao. My dao is myself.

He wanted to know where to seek dao? Now he realized dao was on himself, what need is there to seek dao?

Rumble.

Ye Mo felt the stairs below him disappear and he appeared at a new place. god art dao appeared before him, Ye Mo knew he was at level four now.

All sorts of magic arts and dao arts jumped around in his mind, making himself want to immerse into it.

Without thinking, his thoughts already dived in.

Ye Mo wanted to find a suitable god art for the world rock but when he immersed himself in this feeling, the first thing that appeared in his sea of consciousness was Guan Feijian's finger.

That finger was like the galaxy turning over, the mountain ranges exploding. It sucked in all the killing intent in the world and reappeared before him.

Rumble.

Ye Mo's sea of consciousness rumbled, it was as though in the distant heaven that finger appeared again pointing at his essence spirit.

There was a shocking voice in mid air "Hao Heaven first finger, annihilation..."

Annihilation?

Ye Mo's six senses were completely captivated by this finger. He kept taking in and digesting the laws in this god art.

Time flew by.

One day, one month, one year...

When Ye Mo woke up again, he punched out.

The entire level four was swept by this fist, space itself seemed to have been drawn in by this punch. It formed waves of death whirlpools, the entire space was getting annihilated, disappearing...

"Good punch." Ye Mo looked at this and said.

"This will be my first god art, void." Ye Mo suppressed his excitement and said.

Void was just one punch but it fused annihilation finger and space law. It even had a sliver of spirit sense attack in it. Ye Mo was certain that if he learned void before, this fist could completely stop the annihilation finger and hard suppress it.

Ye Mo didn't study the second punch, it was already great luck that he created the first punch. He didn't expect himself to be able to create second one.

Ye Mo took out his world rock. Void was a lethal blow but the world rock was his main method of attack.

Chapter 1702: Abandoned Son

Ye Mo didn't close his eyes in contemplation like before. He released the world rock and smashed around everywhere. The entire space was filled by his world rock, spirit sense and immortal essence dominated everywhere. Even the god art laws here were damaged by world rock.

Luckily there was no human nor immortal spirit beast here.

When Ye Mo used up all his immortal essence and more than 90% of his spirit sense, his world rock suddenly stopped. Then, it appeared a few km away suddenly and smashed down.

Ye Mo paused and looked dazily at the world rock, he actually learned a new god art, instant kill.

After releasing the world rock, who could defend against it if it suddenly appeared above one's head. Unless one had an extremely powerful defensive magic artefact, otherwise this was instant kill.

Ye Mo breathed easy, this move would be called Tai Mountain Crush. However, it used too much immortal essence and spirit sense, it was best to save it for crucial times. Ye Mo put away the world rock and stopped studying new cultivation method and god art. His thoughts stopped on the Tai Mountain Crush. If he used space law on running and travel long distances in an instant who can catch him?

Ye Mo couldn't teleport nor did he know transmission. But he heard that transmission was a powerful god art that could teleport a person from one planet to another or even one heaven domain to another. Ye Mo knew that it was impossible to use transmission with his current power. However, he could try study it.

Three months later, Ye Mo completely gave up on it. He just always seemed to lack that one little bit. However, he didn't ask to go into dao seeking tower level five. He still needed to fuse five element magic and Illusion Cloud technique. He offended to many people, other than increasing his own power, running away was also very important for him.

Two months later, Ye Mo's five element mobility was in great completion. Four months later, Illusion Cloud 9thstrike was created, rainbow birth.

Ye Mo didn't want to perfect the 9th strike of Illusion Cloud. Illusion Cloud dominated the cultivation realm but in the immortal realm it was rather useless.

He couldn't fuse Illusion Cloud into a god art as it wasn't in great completion. Thus, he just created the 9th strike.

It's the only strike that wasn't named after Illusion Cloud and the only strike that was between magic art and god art.

This time, the fourth level opened up a stairway itself. Ye Mo knew it was towards level 5. He was scared of it asking him countless questions but he had to go on it.

What shook him was that this time he wasn't stopped at all and easily came to the fifth level.

'law dao'

When Ye Mo saw these law daos, he was overjoyed.

Ye Mo knew clearly the use of law, he used law to save his life in that battle with Guan Feijian.

But he only knew a tiny sliver of law. Just that was enough to let him kill Guan Feijian, one could see how important it was in the immortal realm.

Ye Mo closed his eyes and felt the chaos chi here. It was indeed chaos chi, like his golden page world. however, his golden page world wasn't complete and he couldn't feel any laws.

This was a complete chaos dimension, all sorts of laws circulated around his body.

Metal, wood, water, fire, earth, wind...

Space, time, realm, life...

Countless laws rushed at him, Ye Mo remembered these information one by one and then tried to learn them.

Three month, half a year, one year had passed.

When Ye Mo slowly woke up, he found that all he knew well was still that tiny space law. He only remembered some information about other laws but he couldn't learn it.

What was going on? Was this law dao space worse than that palace he was in before? Ye Mo frowned.

In this year, he tried to learn all sorts of laws and tried to learn more about space law but he didn't improve one little bit.

Ye Mo didn't try to learn laws anymore, he realized that it was a huge fortune for him to be able to learn a sliver of space law. It was more because Yan Jiutian used it before him and he captured that law wave and immortal essence wave.

Now, no one used law before him and his power was limited so it was day dreaming to keep learning law. If Yan Jiutian was status immortal or great immortal then even if he used space law, Ye Mo might not be able to learn it.

Realizing this, Ye Mo stopped trying to learn law. He knew he benefitted something at least. There was the information of all these laws, one day when he could learn the laws, everything would work out together.

Ye Mo started studying instant transmission, he didn't want to give up that. This was top grade escape ability. A powerful tool in battle too.

This time, Ye Mo wasn't disappointed. Half a year later, with the help of that sliver of space law, Ye Mo learned a sliver of instant transmission. He could teleport 100km instantly. This wasn't big but as his power increased, this distance would only get bigger. The only drawback was that it used a lot of immortal essence and spirit sense.

After using instant transmission, Ye Mo was very excited. No wonder everyone wanted to come in here. This was a haven for cultivation. If he could stay a few hundred years in each level, how much would he accomplish.

Before coming in Ye Mo asked how long people could stay in here for. It depended on what you learnt, you couldn't stay here for as long as you wanted. Some people come out in a few years, some come out in a few decades. Some can even stay for a hundred years. It's said that the limit was a hundred years but rarely do people stay for that long.

The fifth level disappeared and the stairs appeared. Ye Mo knew it was good to stay here but his time was limited. He could only say "I've learned a sliver of space law, please take me to level six."

A light swept over him and Ye Mo landed on the 6th level. Ye Mo rejoiced that he knew a sliver of space law or he wouldn't even be able to come up here.

Ye Mo just looked up and saw the words samsara dao and he felt a wave of dizziness.

Clear pictures flashed before Ye Mo, merchants, soldiers, generals, emperors, workers, farmers...

Countless faces, countless lives flashing before him. It was as though he saw different versions of himself.

He saw himself born in Beijing and being ambushed, sitting in Ning Hai University classroom. So that previous Ye Mo was just a reincarnation of mine. I was still myself but reborn into another reincarnation.

Suddenly another scene flashed before Ye Mo, in an extremely beautiful garden, a messy haired woman carried a youth. She cried while kneeling before a middle aged man with an emperor's crest. There were more than ten youths before this middle aged man and tens of extremely beautiful women.

The woman was crying and trying to hold the leg of the emperor. The emperor frowned and sneered "What's the point of keeping such trash? He's not needed."

"Feng emperor master, please keep Yao Er..."

Before that woman finished, the emperor kicked and that woman and youth rolled down the stairs.

"Find a cultivation realm with little spirit chi and dump them there, whether or not he can reincarnate depends on his luck..." That emperor said and turned to leave.

"Feng emperor..." That woman cried like a weeping bird but that emperor continued to leave.

Two bulky men charged at the youth and took him away leaving behind the crying woman.

...

Ye Mo suddenly woke up but found he was covered in tears, only the words samsara dao appeared before him.

Was that youth one of his reincarnations? Was that spirit chi and cultivation realm East Black State? Who was that Feng emperor? Why did he abandon him?

Who was that woman? Why did she protect him like that? Where was that extremely beautiful garden?

An entire day passed but Ye Mo found that he didn't move at all.

Chapter 1703: I won't reincarnate

Ye Mo took a step forward and seemed to have understood something. He felt that youth was one of his reincarnations and that weeping woman was his kin.

Ye Mo clenched his fist, before reincarnation he was abandoned, after reincarnation he was still abandoned. From the beginning of his 8 element spirit root cultivation, he was still being abandoned. Heaven dao was abandoning too, it seemed that every divine damnation was set to ambush and kill him.

Without the golden page world, if he didn't know formation, if he didn't have the Three Birth Chant, if he didn't succeed in body refinement...

Without these, he would've been abandoned again. That divine damnation would've turned him into dust. But this time, with great fortune and perseverance, he controlled his own fate. At least up until now, the heaven dao and divine damnation wasn't able to do anything to him.

Looking at the samsara dao, after a long while, Ye Mo raised his hand and said slowly “From now on, no one dares to send me into samsara. From now on, I, Ye Mo, will exist as long as the heavens and earth, I will never go into samsara!”

Then, he waved with his palm and a golden light struck out.

The words echoed in the sixth level, never ending.

From today on, he would control his own fate, no one can abandon him, no one has the right to abandon him. He had the golden page world, Three Birth Chant, bitter bamboo... he didn’t believe he couldn’t be eternity.

Rumble.

As Ye Mo made his oath, the immortal essence in his body rumbled like the waters in a river. Ye Mo just stood there, his immortal essence grew strong without him needing to cultivate, from abstruse immortal tertiary stage to peak stage...

His sea of consciousness seemed to have materialized and condensed as though supporting his oath.

Waves of golden immortal essence circulated around his body as though refining his body.

One day, two days...

A month had passed and Ye Mo punched again, the void shivered as though the entire level six was shaking.

Ye Mo knew, it was time to go to level seven.

“From now on, I won’t enter samsara, no need to seek samsara dao, please go to level seven.” Ye Mo said.

“Won’t enter samsara, won’t use samsara dao, please leave samsara dao...” A voice sounded in the void.

Ye Mo immediately realized that this meant to send him out of the dao seeking tower. Ye Mo was certain there would be He Yi immortal king’s men watching, as soon as he left, how could he even live?

There was a wave of dizziness, Ye Mo was shook and quickly threw away the strand of hair Xun Ran goddess marked and then went invisible. He was planning to use this strand to teach her a lesson but now that he was going to be teleported out, he didn’t dare to keep such disaster.

At the same time, he understood what dao seeking was. There was two meanings. First when you’re in a level, you must understand a sliver of the dao meaning of that level.

When you did, then the dao of this level would become another meaning. That would be the real dao path. You could use this dao path to enter into the next dao seeking place.

When he was at level six the samsara dao, he said he won’t enter samsara dao. Clearly he couldn’t use the samsara dao to reach level seven. Even though he realized his own samsara he still couldn’t. if he wanted ot come to dao seeking tower level seven, he could only wait till next time or he might just appear at level seven straight away.

If he didn’t use samsara dao to enter level seven, clearly he would be teleported out of the tower.

When Ye Mo felt he landed in the dao seeking square, without hesitation he used a few instant transmissions.

It happened all within a second, after five instant transmissions, Ye Mo stealthed himself and didn’t move. When he left the dao seeking tower, there would be space nad immortal essence wave. He had stealth cultivation method but he wasn’t certain if people would pick up on the waves.

It had been a few years after the dao seeking tournament but the people at the square still hadn’t left. There were still feeling that dao wave.

“Brother Peng, did you feel a sliver of space ripple in the square?” A great eternity immortal asked another great eternity immortal.

Brother Peng frowned and said “Brother Fang Yi, I felt it but when I scanned with spirit sense I saw nothing.”

The two glanced at each other and looked serious. They said almost at the same time “Let’s have a look.”

After leaving the dao seeking square, Ye Mo felt no spirit sense scan nearby him. he didn’t dare to stay and kept using instant transmission. He was only a few hundred km from the dao seeking tower, he didn’t dare to overtly use mobility magic nor Blue Moon.

Both would release too much space ripple and people would notice it. Only instant transmission had the smallest ripple in space. Unless someone’s spirit sense was scanning at where he used instant transmission or knew he was using instant transmission, then he wouldn’t be found.

After using instant transmission more than ten times, Ye Mo was exhausted. If he continued like this, he didn’t need to great eternity immortal to kill him, even an hollow immortal would be able to kill him. So when he was nearly two thousand km from the dao seeking square, he was prepared to use mobility magic.

Ye Mo was planning to escape the city and then get on Blue Moon and fly as far away as possible. However, before he used mobility he immediately felt a terrifying sense of danger. Ye Mo instantly made the decision to hid his power at golden immortal middle stage and walk into a nearby merchant tower.

He didn’t dare to go into the golden page world.

As soon as he did, he felt a powerful spirit sense scan past where he was.

Ye Mo was worried, he was in the merchant tower but he didn’t have any mask on nor a way to change his face.

He shone brightly in the dao seeking tournament, most of the people in the city knew his face.

“Brother Peng...”

Fang Yi was interrupted before he finished “Brother Fang Yi, it’s been a few years since the tower opened. In less than two months we will be exchanging shifts. We need to watch the square carefully to prevent any accidents.”

Brother Peng immediately understood and smiled “You’re right we need to watch it carefully.”

They felt the immortal essence wave, they thought it was probably someone who left the tower. But if they couldn’t find this person and then He Yi immortal king blamed them, it wouldn’t be good. They really had no clue so they might as well pretend nothing happened. They would be exchanging shifts two months later anyways.

Plus, their main purpose was to watch Ye Mo. Ye Mo was a mere abstruse immortal middle stage, there was no way they wouldn’t be able to know he left dao seeking tower.

“The pill prices here are rising too quickly, let’s go to Feng Wei immortal city. It’s said that both pills and artefact prices there are cheap.” Two abstruse immortals walked around and said.

Ye Mo heard this and thought, he could use the teleportation formation to leave.

Ye Mo left the merchant tower quickly and came to the teleportation formation. He had this extreme feeling of danger as though the longer he stayed here the more danger there was. He couldn’t leave through the city gates so he would use the teleportation formation to go out.

There were many teleportation formations in the city, as long as it wasn’t the heaven domain teleportation formation, it wouldn’t be checked.

No one would check a mere golden immortal and he easily teleported to Feng Wei immortal city. Ye Mo didn’t even go out and teleported to Ze Ling immortal city...

After leaving Nuo Yi immortal city for less than five minutes, an extremely powerful spirit sense searched the city inch by inch.

The city fell silent immediately. Anyone could feel the anger of that spirit sense.

Chapter 1704: Great immortal divine damnation

Such powerful spirit sense was clearly immortal king spirit sense but this immortal king wasn't He Yi immortal king, it was Chang Xin immortal king. He was immortal king peak stage and one of the top immortal king of Yuan Le heaven. He's also the master of Guan Feijian.

The reason he took a heaven immortal disciple was purely due to Guan Feijian's potential. Plus, Guan Feijian gave him the jade slip for Hao Heaven finger, he really liked this disciple and felt Guan Feijian's future would be no lower than him.

He thought that on the mere dao seeking tournament, no one would be able to threaten Guan Feijian so he didn't care about it at all.

What he didn't expect was that when he came to the city, he got news of his disciple dying, he was killed on stage by his opponent. He didn't believe it at all at first but when he heard it was an abstruse immortal middle stage knowing a sliver of space law, he believed it.

However, that Mo Ying had went into the dao seeking tower and there was nothing he could do.

Just like He Yi, he set up someone to watch for him, it was a great eternity immortal too. He was more desperate to kill Ye Mo than He Yi as Ye Mo took all of Guan Feijian's belongings.

Other things were fine but that Hao Heaven drum concerned Hao Heaven grand emperor's heritage. Guan Feijian only got a small part of Hao Heaven emperor's heritage, he didn't get the real hao Heaven drum. He studied what Guan Feijian got and didn't find anything useful so he left Yuan Le heaven to find the heritage.

When he found the place where Guan Feijian got the heritage, he found that replica drum was very suspicious. He wanted to study it but then he found out his disciple was killed and the drum was taken away.

Regardless, he had to find that Mo Ying.

When Ye Mo came out of the dao seeking tower, Chang Xin immortal king's great eternity immortal also noticed the space wave but he didn't found out who came out of the tower. Unlike He Yi's two great eternity immortal, he immediately notified him.

What annoyed him was that when the news came, he was concocting an important cauldron of pills and didn't check it in time.

This news was very important for him as he used his spirit sense to search the entire city as soon as he could. He wouldn't believe that it wasn't Ye Mo.

From his perspective, Ye Mo could kill Guan feijian, his means weren't ordinary. Plus, Ye Mo knew a sliver of space law, it wasn't impossible to escape from the surveillance of great eternity immortal like that. More importantly, no one but Ye Mo needed to run.

It was because of this that Chang Xin immortal king was certain the person who escaped was Mo Ying.

Ye Mo had gone so he found nothing. His spirit sense startled the other immortal kings but he couldn't care.

15 minutes later, Chang Xin immortal king got the news that Ye Mo left from teleportation formation and his face was green. He didn't notify He Yi immortal king he just started tracking the teleportation formation and even planned to stop all the teleportation formation in Yuan Le heaven.

...

Ze Lin immortal city was a small immortal city, when Ye Mo came out of that city, he didn't keep using teleportation formation. He didn't know if he was being tracked but he had experience in running.

Even on earth, escaping through public roads was the stupidest idea. An immortal king would definitely be able to know all the situation about the teleportation formation in his heaven domain quickly.

Ye Mo didn't know it wasn't He Yi but Chang Xin immortal king hunting him. However, his carefulness saved his life again. He left the teleportation formation which meant he left the control of Chang Xin immortal king. Otherwise, no matter how many times he teleport, he would eventually fall into Chang Xin immortal king's hands.

Ye Mo left the city also because he wanted to break through to great immortal.

Even though he could kill great unity immortal but what if there was a great eternity immortal? He satisfied all the requirements to break through to great unity immortal. The earlier he reached that state the better.

After leaving the city, Ye Mo released Blue Moon and in a short while disappeared from the range of the city.

No matter how powerful Chang Xin immortal king was, he wasn't able to monitor all the immortals leaving a city everywhere in the heaven domain. Ye Mo mixed himself amongst the immortals and left the city, no one even noticed.

...

Half a months later, Ye Mo appeared in a desert. This was called West Barren sand. Ye Mo found this place from a jade slip in Guan Feijian's storage ring.

Ye Mo got large amounts of rare materials from Guan Feijian and Jian Sha's storage ring. Especially, Guan Feijian, he had large amounts of pills and immortal spirit herb as well as a crystal card with 100 million immortal crystals. It had an internal storage space.

It could store up to billions of immortal crystals inside. Usually, only extremely wealthy immortals would use it. ordinary immortals only needed to keep their immortal crystals in their storage ring.

After organizing the things, Ye Mo studied the Yuan Le heaven map.

The west barren sands were rather immortal spirit chi arid in Yuan Le heaven. Only low level immortals would trial here.

This region had an area of tens of millions of square km. It was like a palm sized place for the immortal realm but it was the best place for divine damnation to Ye Mo.

...

Ye Mo didn't touch the immortal crystals card but took out the remaining hundred million immortal crystals and set up a huge spirit gathering immortal formation.

Ye Mo knew the immortal spirit chi he needed to break through to great unity immortal wasn't little. He didn't dare to have his divine damnation without enough immortal spirit chi.

Reaching great immortal was a milestone, solo cultivator and sects all took great immortal divine damnation seriously. People would be protecting the person who broke through. If he lacked immortal spirit chi, people would supply it but Ye Mo didn't have such benefits.

After eating a special grade great unity immortal pill, Ye Mo used the Three Birth Chant at full power devouring immortal spirit chi.

The immortal spirit chi nearby slowly gathered to Ye Mo. More and more immortal spirit chi came as Ye Mo used the Three Birth Chant. Even in the desert, a terrifying amount of immortal spirit chi was drawn over from everywhere within a ten thousand km radius.

A day later, a huge immortal spirit chi whirlpool formed above Ye Mo's head. The immortal crystals around him turned to mist and the immortal spirit chi that seeped out completely enveloped Ye Mo's body.

The sky in the desert started to grow dark, there was a rumbling sound nearby as though lightning would fall at any moment.

He was ambushed by the divine damnation when he reached abstruse immortal, if he didn't have immortal nirvana body he would've been dead so Ye Mo didn't dare to be careless at all.

Crackle. A terrifying lightning exploded in the sky shocking Ye Mo's essence spirit.

Rumble rumble rumble.

Three lightning arcs fell. There was shock in Ye Mo's eyes, he had gone through divine damnation many times, he was ravaged by lightning and he ravaged lightning too.

Even so, he had never seen divine damnation this terrifying.

It was just three bolts but each one were bucket sized thick. It was as though the lightning was trying to strike his soul into hell. Just what divine damnation was this?

The lightning arcs were already above his head.

Even if his octagonal cauldron was fine, it wouldn't be able to stop such lightning.

This divine damnation was trying to kill him again. Ye Mo's eyes went red. While he released world rock, he threw out countless lightning swords. They only focused one lightning arc while he punched towards the last arc.

Even the divine damnation can't take his life.

Chapter 1705: Lightning sand

Crack, the sounds were endless, Ye Mo had plenty of lightning swords but it couldn't stop that single lightning arc.

Rumble, the world rock smashed into one arc and lightning splashed in a rain of sparkles.

But Ye Mo didn't have the mood to admire the scene, his fist struck one arc too.

Thud.

This punch wasn't a casual punch, it was void. His fist hadn't even clashed with the arc yet and the punch brought together the air flow and immortal essence together and crashed into the arc.

The arc slowed a little and then clashed with Ye Mo's fist instantly. The huge fist pierced the arc but couldn't stop its terrifying destructive power.

Countless lightning struck Ye Mo's body, the lightning that lightning swords couldn't stop struck Ye Mo at the same time.

Ye Mo felt a terrifying destructive lightning pillar strike his chest and he spat a mouthful of blood. The greatly weakened lightning arc struck into the sand and the scattered lightning light swept the sands and stones nearby into a whirlpool.

In the whirlpool, Ye Mo devoured lightning source like crazy while rejoicing he chose the desert for divine damnation.

The endless lightning power was rapidly devoured by him and converted by the Three Birth Chant all into immortal essence that nourished his body and improved his power.

The fist that only had bones left rapidly regenerated. Soon, Ye Mo's fist had recovered.

Ye Mo was very calm, he knew this divine damnation was trying to kill him. If he didn't learn his new god art he wouldn't have survive this no matter what.

Rumble. Rumble.

In the blink of an eye, six more equally powerful lightning arcs fell.

Ye Mo was very calm, he wasn't angry anymore. He knew that this divine damnation wanted to kill him and getting angry was pointless. The only opportunity was to use this divine damnation to improve his power. When his power allowed him to ignore any opponent, he would take out his fury today.

The six bolts were enough to kill him but Ye Mo knew that as long as he passed these six, then no matter how many more came he didn't fear. He believed these six bolts were enough for him to reach great immortal.

His lightning sword didn't have a god art not because he didn't want to create one but he wasn't able to.

Ye Mo released that top grade immortal artefact sword and tens of immortal artefact shields. He released all that he could release other than Zi Xu. He didn't want Zi Xu to be damaged by this terrifying divine damnation.

Rumble rumble rumble.

Crack crack.

The divine damnation was crazy and so was Ye Mo.

No matter how powerful the world rock was it could only stop one lightning arc. The top grade immortal artefact sword blocked one but it was smashed to pieces. Even though his lightning sword increased in power after devouring some lightning from before, there was still some difference in power. What it couldn't stop would fall on him.

The tens of shields were like paper and only stopped the divine damnation for a moment.

One thick lightning arc that wasn't weakened at all struck Ye Mo's chest. The arc that Ye Mo punched tore his clothes apart, his entire arm was stripped of flesh.

This was his first time getting injured this seriously since reaching immortal nirvana body.

Thud.

Ye Mo's chest spilt blood, his ribs were broken. Even the body protection immortal essence of the immortal nirvana body wasn't able to stop such a thick lightning bolt. A 3km deep ditch appeared where Ye Mo had his divine damnation. The divine damnation was like a terrifying plow that ravaged this desert and flipped it around.

Splurge. Ye Mo spat many mouthful of bloods but still stood there devouring lightning source. He wasn't sure if there would be more like this but if six or even three more came now, he would die.

The immortal nirvana body protected his body, otherwise, his body would've turned into a bloody mist.

When the sky became dark again, deep groans sounded in the heavens as though something was being prepared. Ye Mo was certain no one's divine damnation was this fast. There was almost no pause between the first and second wave. In the blink of an eye, the third wave was about to come.

Ye Mo knew that the next wave would be more terrifying but he was very calm as he devoured lightning source. He knew that if he didn't improve his power he would have no chance of surviving the next wave.

Large sums of lightning source was being devoured, so was the immortal spirit chi around him. together, they rapidly changed into immortal essence.

As peak stage, Ye Mo's power had reached a borderline now.

Rumble. All the immortal essence in Ye Mo's body seemed to have found a breakthrough point. The filled body became empty once again, countless immortal spirit chi and lightning source were devoured

by him like crazy. Ye Mo felt the terrifying power of his body. He believed that no matter how many immortal spirit chi and lightning power came now, he would be able to devour it.

This was because he had reached great unity immortal. At the same time, his devouring speed increased by many folds while the injuries on his body recovered rapidly. In a few seconds, his bony arm completely healed. Even the broken ribs healed. The power of the immortal nirvana body was evident.

Crack crack crack.

Nine more bolts crackled, nine bucket sized lightning bolts fell.

Ye Mo didn't use any means this time, he just punched "Disperse..."

The lightning still struck him.

Thud thud thud.

The lightning struck Ye Mo again but it could only break his skin, it wasn't able to hurt his flesh nor bones.

Ye Mo's power rose like crazy, great unity immortal primary stage, great unity immortal primary stage peak...

The immortal essence in his body was like the ravaging waves of the sea, restless and endless. His meridians were sturdier and wider.

A light crack sounded. Ye Mo knew he reached great unity immortal middle stage. Other people would take countless years to reach this but he reached it with one divine damnation.

Ye Mo sighed, he probably wouldn't have anymore lightning. He desired more lightning arcs to come down but he knew that once he was benefiting from the divine damnation, it would disappear.

It wouldn't even have the rainbow spirit clouds.

Indeed, as soon as Ye Mo devoured the nine bolts the sky grew clear again, there was no rainbow spirit cloud reward.

Ye Mo was certain that the reason the first wave was three bolts instead of nine wasn't because the divine damnation didn't want to kill him but there must be some law preventing it from doing so. Otherwise, it would be nine bolts in the first wave for sure.

Even without the immortal spirit chi rainbow cloud, Ye Mo recovered rapidly. In just half a minute, his body was without marks, just a sleek and perfect body.

Ye Mo didn't open his eyes now, he was still devouring the immortal spirit chi nearby. He still needed to consolidate his power.

After a while, Ye Mo raised his hand and a rumble sounded out of nowhere. A lightning bolt half the width of a bucket was released. It was like a thick spear and landed a few km away in the desert.

Rumble.

The lightning spear pierced into the desert creating a sandstorm.

Ye Mo smiled, he didn't learn a lightning god art in the dao seeking tower but after that terrifying divine damnation, he did.

This god art would be called lightning sand. It had nothing to do with sand, it was just like a spear but because Ye Mo created in the desert he called it lightning sand. Ye Mo looked up, he believed that one day he would charge above the 33 heavens and no matter who was attacking him like this, he wasn't going to let him have it.

He cleansed himself before changing into a new set of clothes. Then Ye Mo flew out of the ditch.

Chapter 1706: Chaos tree

Nearly one hundred million immortal crystals had disappeared. Ye Mo packed away the formation flags and looked back at the big ditch. He waved his hand and the sand outside were blown into the ditch instantly filling it up.

A day later, there was not a single mark anymore.

Ye Mo didn't leave the desert, he found another place to go underground.

In the golden page world, Ye Mo took out the cracked octagonal cauldron. He felt even though he was immortal nirvana body, he would need a defensive magic artefact.

The octagonal cauldron was cracked, Ye Mo's spirit sense searched it carefully and realized why he could only control five levels of restrictions. This octagonal cauldron only had five levels of restriction. The cauldron was called octagonal jia cauldron, it was only a replica.

Even a replica was this powerful, one could imagine how powerful the real octagonal cauldron would be. Ye Mo sighed, even if he had the materials he wouldn't be able to forge something this powerful.

Ye Mo suddenly thought of Guan Feijian's drum, that drum was this powerful but it was cracked by the world rock. It probably wasn't the original too.

Moments later, Ye Mo took out that drum. The crack was still there, Ye Mo scanned his spirit sense in. the inside seemed to be a little different.

If the drum was fine, Ye Mo might spirit control it because its sound attacks were too powerful but it was damaged now. Ye Mo knew he wasn't able to repair it so he just pulled off the two faces of the drum.

A black jade slip was inside. Ye Mo casually took it and found it was made of bamboo. The black bamboo was countless times harder than ordinary jade slip. Ye Mo was certain this black bamboo was a good forgery material.

Ye Mo scanned his spirit sense in, the words were clear “the person who gets my Hao Heaven Heritage must kill Dragon River Grand emperor, Blood Cauldron Grand Emperor, Feng Kong grand emperor for me. if you can’t do it, your heart demon will burn you to death...”

Ye Mo sneered, he couldn’t even be bothered to keep reading. He let out mist lotus heart fire and turned the jade slip into dust.

No matter who that Hao Heaven was, nor how powerful his heritage was, he’s dreaming to make him swear.

Even though he wasn’t affected by heart demon, Ye Mo didn’t want to make such an oath. Without question, those three grand emperors were very tricky people. Ye Mo didn’t think he would be able to kill those three by getting Hao Heaven’s heritage.

Plus he didn’t even know the three, why should he kill them?

Crack.

When the jade slip cracked, a light orb flew out of the jade slip. Ye Mo was shocked and wanted to burn everything with fire when the orb made a sound “Hahahaha, great, great, since you won’t accept you, you destroy it. very decisive, I like young people like you.”

“Who are you?” Ye Mo stared at the ball and asked coldly.

He wasn’t worried, this was his golden page world, it was his domain. he wasn’t going to be scared of an essence spirit that didn’t have any offensive capabilities.

“Such dense chaos chi... wait, you actually have chaos world and the bitter bamboo... you... who are you?” The voice asked, forgetting why it came out.

Ye Mo sneered “you have three seconds, if you don’t answer then die.”

"Wait...." The voice woke up, he knew it wasn't time for him to be asking questions.

"I'm Hao Heaven, one of the four grand emperors of the 11 grand heaven domains, this orb just has a sliver of my essence spirit on it. It has no threat to you, the jade slip is my heritage. You crushed the jade slip meaning that you don't a hypocrite, I have something to ask..." The voice quickly said.

Ye Mo nodded, he knew this guy was right. The light orb was indeed just a sliver of essence spirit and had no threat to him. The light orb would soon self destruct.

"Sorry, I won't make any oath. I wanted to let you go but you know about my golden page world, unlucky you." Ye Mo said calmly. Even if this thing didn't know about his golden page world, he wasn't going to let it go.

The light orb smiled "Even if you let me out I would dissipate soon. But don't worry, originally you can only get my heritage if you made the oath but you have chaos world and one of the ten great spirit items, I'm certain your future will be unlimited. I won't need you to swear and I'm willing to give my heritage to you, I just ask you to do one thing for me."

Ye Mo said calmly "Hao Heaven, perhaps you think your heritage is great but unfortunately, I'm not interested in your heritage. And, I know my capabilities are limited, I'm not able to kill some grand emperor for you."

"I'm not asking you to kill grand emperor, I'm one of them. Grand emperors are powerful but that's just within the 33 heavens. Outside the 33 heavens, there are dao vindication divine emperors. A mere grand emperor is nothing." The voice sounded dejected.

"Oh?" Ye Mo was interested now. He knew of the dao vindication seed and knew that after immortal emperor, it was dao vindication. He also knew that above the 33 heavens, there existed powerful beings but he didn't know just how powerful they were.

"Tell me about those dao vindication divine emperors, who are they? I heard that dao vindication divine emperor need primordial chaos seeds and because the heaven and earth are incomplete, one escape, one of the ten primordial chaos seeds are gone so there can only be nine divine emperor in the universe right?" Ye Mo asked.

Hao Heaven sighed "Your meaning is right but the words are wrong. I'm not a divine emperor and I can't guess the state of divine emperor but I know there's less than five dao vindication divine emperor in the world. the primordial chaos seed can indeed allow dao vindication but I'm guessing not a single one used it.

There's not ten seeds, there's only one. The seed appeared with the universe and disappeared. The nine other are bullshit. The primordial world is unique, how can there be ten?"

Ye Mo was speechless. That Peng Gandang tricked him and spoke as if he believed it was real. Was he really that good at acting? Or did he not know as well?

Ye Mo shook his head and just when he wanted to ask about dao vindication divine emperor, he suddenly thought of another thing. He waved his hand and the barrier formation was opened up. He pointed at the small sapling he got from the cultivation realm and asked "Hao Heaven grand emperor, help me see what this is?"

"This...." the figure shook so much that it was almost about to collapse.

Ye Mo quickly used a few spells and stopped the orb from dispersing.

"You actually have chaos tree..." Hao Heaven's essence spirit was completely agitated.

"What is chaos tree?" Ye Mo was a little excited too.

"Hooph..." Hao Heaven let out a long breath and spun around Ye Mo as though bowing.

Then it said to Ye Mo "You have chaos world, one of the ten great spirit items bitter bamboo and the chaos tree, you're someone of great fortune, in the future, in the future..."

The light orb didn't say what Ye Mo's future would be.

Ye Mo coughed and said "What is the chaos tree, you still haven't told me."

Hao heaven's voice grew serious, it could even be considered respect, he said word by word "Chaos tree is also called universe tree or tree of life. Because it grew from a primordial chaos seed..."

"What?" Ye Mo got up in shock and after a while he said in disbelief "You're saying I got the only primordial chaos seed in the universe?"

"That's indeed so but your chaos tree isn't yours yet as it hasn't considered you as master yet. If you expose any bit it, you will die. No one can resist not robbing this from you, not me as well."

Hao Heaven sighed.

How could he not know this.

"How to make it recognize me as master?" Ye Mo asked.

Chapter 1707: Gentleman immortal king

"You can't make it, it automatically will. After it recognizes a master, it will protect the essence spirit of its master for eternity. There may be a way to force this but I don't know." Hao Heaven's essence spirit answered.

Ye Mo was speechless. If he didn't rob the tree, how would Lu Zhengqun make it recognize him as the master.

"You're a person of great fortune, since you can get the chaos tree you must be approved by it. being it's master is of no rush. Plus, your chaos world is incomplete." Hao Heaven comforted.

Ye Mo smiled "Thanks for answering these questions but you don't need to ask me to help you kill a few grand emperors. I'm only a small great unity immortal, I don't have that courage."

Hao heaven quickly said "I know your future won't be ordinary, I just want you to help me with something that has nothing to do with the other three grand emperors."

"Tell me." Ye Mo nodded, if he could, he wouldn't mind helping.

"I have a grandson called Cang Jie, I want you to bring my heritage to him. Of course, if you can't find him then never mind." Hao heaven said.

Ye Mo thought for a moment and said "I can help you with this but I won't spend time searching for him. I have too many things to do myself, I can only promise that if I see him I will give it to him."

"Of course, if you see him then do it, if not then after you become a grand emperor, just send a news and Cang Jie will come for you." Hao Heaven said.

Ye Mo knew that grand emperor was at least immortal emperor peak and had enough people to respect him to give him this title. But he didn't think of becoming a grand emperor, they were usually a heaven domain lord or an overlord of a region.

"I was originally Yuan Dong heaven domain lord. There's only me, Dragon River, Feng Kong and Blood Cauldron who are grand emperors. I was ambushed by them for something. A sliver of my essence spirit escaped but it's not enough to turn the tides. Even my magic artefact has been detonated but hao heaven drum is still there. Along with it is a few top grade immortal range and an extreme grade immortal range...."

"What? you have a few immortal range?" Ye Mo asked.

He really didn't care about some heritage but he couldn't not care about immortal range. This was a necessity for cultivation. To him, if he didn't have immortal range he couldn't even progress. Using immortal crystals for cultivation was too much of a waste unless he had extreme grade immortal crystals.

Seeing this, Hao Heaven was happy too and felt a little helpless. Anyone would be overjoyed of getting a grand emperor heritage but Ye Mo this strange person crushed it without even looking at it. If he wasn't prepared his heritage would be over.

He was furious when Ye Mo did that but after seeing Ye Mo's wealth, he realized that compared to this small great unity immortal, he was a beggar.

In reality, those immortal range were the least valuable in Hao Heaven's eyes but it was these things that interested Ye Mo. If he knew this earlier, he would've collected more immortal range and then tricked this kid to be his disciple.

"Indeed, I have a few top grade immortal range and one extreme grade immortal range but they can move and I don't know if they are still there after all these years." Hao Heaven wanted Ye Mo to go as early as possible.

Ye Mo nodded, he knew this but even for immortal range he wasn't going to place himself under danger.

Seeing Ye Mo calm down this quickly, Hao Heaven sighed, this kid wasn't simple. No wonder he could get all these things.

"The most precious thing inside is the emperor dao crystal, it has my experience and dao will for becoming immortal emperor. If an immortal monarch can get it, there's 60% chance he can become immortal emperor..."

Hao heaven said while watching Ye Mo's facial expression but he found that Ye Mo was lacking interest. Hao heaven was speechless, he was planning to let Ye Mo give it to his grandson but Ye Mo's disinterest dealt a great blow to his confidence.

"I know, let's talk about the location, I'll go have a look when I'm free." Ye Mo nodded.

"It's on the will mountain in Yuan Dong heaven. The danger there isn't for ordinary people. When your power is there you will know. After my essence spirit dissipates, it will turn into a will bead, you can take it and find the heritage ground."

"I see." Ye Mo lost interest, Yuan Dong heaven was grand heaven domain. He was still in middle heaven domain. when his power was high, he would go down to find Lu Zhengqun, who knows when he would be able to go.

"One thing, do you know Qing Wei heaven Wei Feng immortal emperor?" Ye Mo asked. He was thinking about how he was ambushed at the chaos star realm.

Wei Feng immortal emperor stole Wushuang immortal emperor's woman and then ambushed him. Wushuang immortal emperor escaped into the chaos star realm and disappeared.

"I've heard of this person, he's a wan bei." Hao Heaven nodded.

"Wan bei? He's the heaven lord of Qing Wei heaven now." Ye Mo said.

Hao heaven sighed "He's actually Qing Wei heaven heaven lord? Where did that Hong Yu immortal emperor go?"

"How would I know?" Ye Mo asked.

Hao Heaven fell into a long silence "When you become immortal emperor you need to be careful of Feng Kong grand emperor, he acts as the weakest amongst the four grand emperors but he's actually the most sinister of them all and the strongest. If you fight with this person, don't talk much with him, just kill him. If you're no match for him run as far away as you can, don't play tactics with him."

"Feng Kong grand emperor?" Ye Mo frowned and felt this name was familiar.

"I have nothing to stay for, I'm about to leave. One last word for you, even if you're immortal emperor peak, don't expose chaos world nor the chaos tree because the power of divine emperor isn't something an immortal emperor can even imagine..."

With this, Hao heaven's essence spirit faded and disappeared. A longan sized pearl fell into Ye Mo's hands.

Ye Mo suddenly realized and remembered Feng Kong grand emperor, it was what the woman called the middle aged man in the dao seeking tower samsara dao.”

Seeing this bead, Ye Mo just remembered he still had a lot to ask this guy.

What was above dao seeking tower level seven? Where did the dao vindication divine emperor stay at?

Ye Mo shook his head and put away the bead and the drum while taking out time formation disk.

He set it on the refine immortal pond and then took out another 100 million immortal crystals. He was going into solitary cultivation.

He knew now was the best time to quickly improve his power. Hao Heaven was right if he exposed any of this he would be dead.

If he wanted to live, there was nothing but cultivation he could do.

He still had six Du Luo heaven fruit but Ye Mo knew he just reached great unity immortal middle stage. He needed to stabilize his power and then use the fruit.

The time formation disk ran like crazy and top grade immortal crystals disappeared one by one on the disk.

...

Feng Gang immortal city.

This was the biggest city in Heng Yue heaven but it wasn't very famous.

Today, the city was surrounded by rainbow clouds and immortal music. Countless immortal beasts flew around.

Today was the day to celebrate the day of Lu Zhengqun heaven lord reaching status immortal. Lu Zhengqun reached immortal king half a year again. Because he did things with justice and transparency, he was titled Gentleman immortal king.

Chapter 1708: Such a pretty sword

In a secret room in the city lord estate of Tian Gang immortal city, a short bearded white faced man stood with his hands behind his back. A great unity immortal stood next to him. After a while, he asked "How many did you find?"

The great unity immortal replied "two, one of them Wen Wen, another is called Yu Zizhen. She's very powerful, she killed a hollow immortal peak stage with hollow immortal middle stage power and fled out of Heng Yue heaven, there's still no news of him."

"Hmph." The middle aged man said nothing.

Hearing this, the great unity immortal shivered and quickly said "But I've brought over that Wen Wen."

"Bring him in." the middle aged man said.

"Yes." The great unity immortal answered and immediately left. Soon, he brought in a hollow immortal.

"Wen Wen greet master." the hollow immortal knelt down straight away and didn't even dare to look up.

The middle aged man said amicably "No need to be like this, sit up. I'm from Luo Yue continent too. It's been countless years but now I finally see immortals from Luo Yue continent. I feel very happy, you can cultivate safely in Tian Gang immortal city."

"Thank you master." Wen Wen said in excitement.

“Mhm.” The middle aged man asked “Which sect do you come from?”

“I came from Ice God palace.”

“Oh, then do you know Luo Yue continent demon realm?”

“I heard of it but it’s not a place ordinary people can go in. However...”

“However what?” the disappointed man immediately lit up.

Wen Wen quickly said “I heard that Nan Chan heaven’s demonic prison forbidden grounds opened up. I heard it’s related to demon realm but I don’t know if it is really so.”

“Very well, I’ve been there too. Tell me about the situation there? Who went in?” The middle aged man asked.

Wen Wen said respectfully “I was going to go there but as soon as I got to South Peace State, I felt the divine damnation. I really longed to come to the immortal realm so I ascended.”

Wen Wen ascended when Lang Ying was asking for help, he didn’t dare to speak of the real situation. If it wasn’t that this man could easily find out he came from Ice God palace he wouldn’t even dare to say it.

The middle aged man’s face sunk, this Wen Wen knew nothing.

Little did he knew that almost anyone from South Peace State knew about Ye Mo but Wen Wen didn’t as he was always in solitary cultivation.

The great unity immortal came in and bowed “Master, master Zhi Ji came.”

The middle aged man got up and said “Invite him in.”

Then he said to Wen Wen “You can go, if there’s any news from Luo Yue continent report to me. If you encounter Luo Yue continent cultivators you must invite them here immediately.”

“Yes.” Wen Wen left with the great unity immortal uncomfortably.

After the two left, the middle aged man clenched his fist “No matter who you are, I, Lu Zhengqun, will suck your soul and refine your blood for touching what is mine.”

If Lu Zhengqun still had some concern about searching for Luo Yue continent cultivators before, now he didn’t as he reached immortal king.

Moments later, a long haired skinny man walked in. when he saw Lu Zhengqun, he quickly bowed “Zhi Ji greet immortal king master.”

“Haha, master Zhi Ji please have a seat, we’re good friends, no need to be like this. Regardless if I’m immortal king, you’re my friend.” Lu Zhengqun laughed.

Zhi Ji smiled and sat down, he said “The person with karma between city lord is no longer in the lower heaven domain. If I’m not wrong, he’s gone to the middle heaven domain.”

“Can you specifically point out which heaven domain he is in?” Lu Zhengqun asked desperately.

Zhi Ji master shook his head “I can only calculate that he left from Gong Hua heaven. You can probably find the recent immortal ships that went to middle heaven domain from Gong Hua heaven...”

“Ok ok....” Lu Zhengqun.

...

Yuan Le heaven West Barren lands.

This was the second year after Ye Mo had divine damnation. Only a few low level immortals came occasionally.

Underground, Ye Mo still used the time formation disk to devour the refined immortal well.

He had devoured so much immortal spirit chi that the pond water was nearing the bottom. He had devoured more than half of the 100 million immortal crystals. At this moment, his power was infinitely close to great unity immortal tertiary stage.

The thick immortal essence rustled in Ye Mo's body and with the Three Birth Chant there was a loud rumble.

Crack. The powerful immortal essence flowed in his body, Ye Mo knew he reached great unity immortal tertiary stage.

The pond water had been used up, Ye Mo put away the time formation disk and got up from the immortal pond.

He gave a Du Luo heaven fruit to Zhen Bingyu, he still had five. Ye Mo didn't plan to use them. In fact, Ye Mo could use the fruit to reach great unity immortal peak stage and then break through to great extreme immortal but Ye Mo didn't feel this was good.

His power had increased fast enough. According to the outside time, he only used less than two years and reached from abstruse immortal tertiary stage to great unity immortal tertiary stage. Although he spent far more time in the time formation disk, this was still too fast.

The reason he could be this fast was due to large amounts of cultivation resource and the Three Birth Chant. That blue robed status immortal said his greatest achievement would be golden immortal, now, he had passed countless golden immortals.

However, his talent wasn't high and if he just kept trying to break through without consolidating his power, it might have the opposite effect.

Ye Mo stopped cultivation and started forgery.

He took out Zi Xu, Zi Xu's grade was too low. If he didn't upgrade it, he wouldn't be able to release the full power of moves like rainbow.

After seeing Guan Feijian's Hao Heaven drum, he realized how important magic artefact was to people. If he had a magic artefact that could stop the Hao Heaven drum, he wouldn't need space law to kill Guan Feijian.

He had prepared quite a lot of materials to upgrade Zi Xu including level six immortal material thousand blade sand and level seven immortal material will illusion crystal, phoenix gold. The last two were top grade material amongst level seven, ordinary people would never use it to upgrade a low grade immortal artefact.

But Ye Mo was willing, no precious material was as precious as Zi Xu.

As he let out mist lotus heart fire, all the materials started to melt. Ye Mo found that luckily his mist lotus heart fire had reached purple nirvana or it would take forever to melt these materials.

15 minutes later, the materials started to melt, the hardest phoenix gold was also melted to liquid and slowly poured onto Zi Xu.

Zi Xu started to distort. Ye Mo instantly saw the process of Zi Xu being upgraded.

He closed his eyes, he was captivated by this. moments later, he couldn't help shooting in forgery spells into Zi Xu. He didn't even realise he was upgrading Zi Xu nor did he realise that Zi Xu didn't need his help for the first time.

Zi Xu kept on transforming and made crisp sounds but Ye Mo didn't notice at all.

Three days later, Zi Xu suddenly flew up from Ye Mo's hand and rang in the air before slicing across the air in the golden page world in a purple ray. Instantly, there was a deep mark on the empty ground.

Ye Mo just woke up from that state, he felt he fused what he learned about forgery at the dao seeking tower with Zi Xu's upgrade process.

Seeing the purple long sword hanging above, Ye Mo realized that Zi Xu had finished upgrading.

Ye Mo waved his hand and Zi Xu landed in his hand. There were ripple waves on the handle, the sword showed a royal metallic purple color, it didn't look like a kitchen knife at all anymore.

"Such a beautiful sword." Ye Mo couldn't help praising, Zi Xu seemed to have heard this and vibrated in response.

Chapter 1709: Purple Nirvana Level Three Fire

Zi Xu had reached level six peak immortal artefact. It was almost like half a level seven immortal artefact. Ye Mo believed if he was a top grade forgery grand master then Zi Xu would definitely become a level seven immortal artefact.

After putting away Zi Xu, Ye Mo gave up the thought of using sky mobility gold to upgrade Blue Moon. Zi Xu was only level six peak meaning that his forgery skills lacked a bit.

Since he wasn't immortal forgery grand master, he didn't need to upgrade Blue Moon and waste the material. Blue Moon was equivalent to level six flying immortal artefact, if he can't bring it to level seven it was pointless.

This time, Ye Mo took out Blue Like Morning Sky. Blue Like Morning Sky was faint purple color. With this many seven refine stones, Ye Mo could nirvana Blue Like Morning Sky at any time. But Ye Mo didn't do this, he just took out a five color seven refine stone and put it near Blue Like Morning Sky. Immediately, it was swept away by the flame. The flame rumbled and went from faint purple to deep purple in a while.

Ye Mo didn't keep feeding more stones to it, he knew that if he did then Blue Like Morning Sky would nirvana. Seven refine stones were good but Blue Like Morning Sky's nirvana was too important to Ye Mo.

Mist lotus heart fire was the ordinary flame Ye Mo used but Blue Like Morning Sky was different, it was a trump card. He needed to nirvana it with the best thing.

The best thing was astral flame marrow but it was worth a fortune and even immortal emperor weren't able to get it easily.

But Ye Mo got that soft tofu stone from the cultivation realm's flame sea forbidden grounds. He didn't even dare to touch it with his spirit sense when he was truth realisation state.

Ye Mo always suspected that it was astral flame marrow. He tested it with mist lotus heart fire, perhaps mist lotus heart fire was too low grade or it wasn't astral flame marrow. Mist lotus heart fire couldn't devour the stone.

Now, he is great unity immortal power and Blue Like Morning Sky was time for nirvana so he took out that soft ore again.

Ye Mo opened the box made with extreme flame star gold. Before, he spat blood as soon as his spirit sense touched the ore. Now, his power was thousands of times stronger. His spirit sense should be able to go in.

As soon as his spirit sense touched the ore, there wasn't the terrifying feeling like before. Ye Mo relaxed a little and reached deeper.

Suddenly, an extremely terrifying flame shot out. Ye Mo felt his sea of consciousness in pain, it was as though that soft ore had endless flame inside. His spirit sense was swept in before even nearing the centre. If this continued, that flame would soon burn his sea of consciousness.

Not good, Ye Mo wanted to take back his spirit sense but he found that he couldn't. He lost some spirit sense everytime he felt pain.

Ye Mo spat another mouthful of blood.

Ye Mo quickly threw the box along with the ore into Blue Like Morning Sky.

Rumble...

Blue Like Morning Sky bursted into the sky and dashed out of Ye Mo's palm. It floated in the air and kept jumping around, beams of blue light shot out of the flame illuminating the entire golden page world in blue.

Ye Mo's face was pale as he retreated a few hundred meters away. He found shadowless also staring at the rolling blue in worry.

Ye Mo felt he did something bad and quickly took out formation flags setting up a few defense formation for bitter bamboo and chaos tree before hiding at the border of the formation with shadowless.

Blue Like Morning Sky released such power after devouring that possibly astral flame marrow thing. This was too shocking.

Drops of golden liquid fell from Blue Like Morning Sky's flame, Ye Mo's spirit sense captured it. It was the melted extreme flame star gold. It seems Blue Like Morning Sky was very picky, it threw away the metal but tightly surrounded the tofu.

The flame rolled bigger and bigger and Ye Mo's face went worse. If this terrifying flame neared, his immortal spirit herb garden and bitter bamboo would all be destroyed.

Ye Mo tried to contact Blue Like Morning Sky and found in surprise and joy that his spirit sense could contact Blue Like Morning Sky without resistance. This meant that his flame didn't leave his control after devouring the tofu.

Ye Mo told Blue Like Morning Sky to go further, indeed Blue Like Morning Sky flew away. The flame jumped with extreme excitement, clearly that tofu was very important to Blue Like Morning Sky.

Seven days later, Blue Like Morning Sky finally stopped jumping and shrunk. It was like a lotus flower that was half open. It floated in the air and when Ye Mo waved his hand, Blue Like Morning Sky immediately landed in his palm. There was a faint golden rim around the flower while the center was extreme blue.

The flame sent Ye Mo a joyful will letting Ye Mo understand that Blue Like Morning Sky was still his but it was purple nirvana level one now.

Unlike mist lotus heart fire, Blue Like Morning Sky still had some crisp blue color and Blue Like Morning Sky used seven days while mist lotus heart fire only used one day. It seemed Blue Like Morning Sky was much more powerful than mist lotus heart fire.

Ye Mo closed his eyes and communicated with Blue Like Morning Sky, but Blue Like Morning Sky's level was too low. It could only feel that it devoured something good but couldn't tell if it was astral flame marrow or not. Ye Mo could only let this go.

Blue Like Morning Sky's nirvana was very important for Ye Mo. If he used Blue Like Morning Sky for Heaven Flame Nine Suns, it would be many times stronger than mist lotus heart fire. All he needed to do now was to keep improving his spirit sense and immortal essence power.

Ye Mo decided to use Blue Like Morning Sky as the main offensive flame while using mist lotus heart fire for pill concoction.

Ye Mo threw ten more five colored seven refine stone into Blue Like Morning Sky.

Blue Like Morning Sky opened up the flower bud devouring them.

The stones were very important for Ye Mo, he could use it to cultivate Heaven Flame Nine Suns but Blue Like Morning Sky just went through nirvana. Ye Mo loved this flame a lot.

When Blue Like Morning Sky devoured 25 five colored, 3 six colored and one seven colored stone, it had upgraded to purple nirvana level three flame. Three faint golden rings formed around the flame.

Ye Mo knew that once the purple was completely gone, Blue Like Morning Sky would turn back to blue again. At that time, it would become an immortal flame. Then, the fire spirit of the flame would be able to communicate with him.

Ye Mo didn't keep wasting seven refine stones, he knew that even if he gave Blue Like Morning Sky all he had it wouldn't become immortal flame.

Ye Mo was very satisfied as he put away Blue Like Morning Sky, what he earned at Yuan Le heaven was unimaginable.

It seemed he didn't need to keep staying here, he had used up his resources and now he needed to find more. Now, Ye Mo even wanted to go to Yuan Dong heaven and find Hao Heaven emperor's Immortal ranges. If he could, then he would be able to reach great eternity immortal peak stage.

After leaving the golden page world, he didn't leave the ground immediately. He waved out that stone tablet and six floor boards from the cultivation realm and set up formation.

These were set up by Lu Zhengqun in the demon prison forbidden grounds.

There were runes inside. Ye Mo knew Lu Zhengqun wasn't going to let him go so he placed these things underground. If Lu Zhengqun had the power to find his way here, then congratulations, these things were his.

If Lu Zhengqun came here, he would be blasted by his explosion formation. Ye Mo didn't expect it to kill Lu Zhengqun but it would be enough to infuriate him.

Chapter 1710: Immortal king hunt

As soon as he flew out of the west barren sands, Ye Mo saw two great unity immortal. When they saw Ye Mo fly out of here, they were a bit suspicious.

But then they both showed a surprised look. Ye Mo frowned, before he asked, one of them said to the other "Brother Luo, I'll send brother Lie Shan to meet up here, how about it?"

The other nodded “yes, tell him to be quick, otherwise, people will get here first.”

Then, the great unity immortal sent out a messenger flying sword. The messenger flying sword wasn't ordinary and had a sliver of black ray.

Ye Mo felt things weren't right but he didn't know what was. But after the messenger flying sword was sent out, Ye Mo immediately knew what was wrong. He didn't say anything and chose a direction to run. After a few hundred km, Ye Mo stealthed and used a few instant transmissions while changing his direction.

If he had the time, he would kill the two great unity immortal without hesitation but he didn't have time. He knew the two wouldn't be able to find the right direction.

When the two showed a look of surprise when they saw him, clearly they recognized him. Then they quickly sent a message out, they must be asking for help. Even if the two had seen him in the Nuo Yi immortal city, they wouldn't be this shocked. Clearly, it meant that he was wanted and there were paintings of him at other immortal cities.

As for their conversation, Ye Mo knew it was bullshit.

To Ye Mo, it must be He Yi immortal king to have this special means. The messenger flying sword was special, perhaps it was given out by He Yi immortal king. If He Yi knew he was in west barren sand, then where would he go? If he was blocked by an immortal king in one corner of the heaven domain, even a great eternity immortal wouldn't be able to get away.

It was because of this that Ye Mo flew without even killing the two great unity immortal. He didn't believe he would be able to evade immortal king in the golden page world. if the immortal king found the golden page world, he would be over.

So the only thing he could do now was quickly charge out of immortal king spirit sense range. Then, he would have a sliver of hope. Of course, he hoped his judgement was wrong or an immortal king wasn't coming.

“He seems to have noticed, should we chase?” One great unity immortal looked at where Ye Mo disappeared and asked.

The other great unity immortal sneered “Chase? How do you compare with Guan Feijian? We’re great unity immortal but Guan Feijian can still kill us. Meanwhile, this guy can kill Guan Feijian, plus, if I’m not wrong, he’s a great unity immortal too.”

“Doesn’t that mean he can easily kill us? Then what you did...”

“Yes but I just we were finding friends to find a place, he has no excuse to kill us. Plus after sending that message, Chang Xin immortal king master will come quickly. We don’t need to chase, we just need to rememebre the direction he disappeared.”

“What if he changes direction?”

“It’s only a possibility he realized but if he really did then he would definitely kill us. So, we just need to wait here for immortal king master. Wealth is earned in danger, we’d be successful as long as we provide where he is.”

In less than two hours, a black faced man landed here, the two great unity immortal quickly bowed “Greet Cui Cheng immortal king.”

The man nodded “you sent out Chang Xin immortal king’s messenger flying sword? Did you see Mo Ying?”

“Yes, immortal king master. we just passed here and saw Mo Ying come out of the west barren sand and then flew east.” One great unity immortal quickly answered and pointed at where Ye Mo disappeared from.

The black faced immortal king nodded and left in the direction Ye Mo disappeared.

In less than five minutes, the immortal king came back to the two great unity immortals. Terrifying killing intent seeped out of his body.

The two great unity immortal couldn't take that killing force and shivered, they even knelt on the ground saying shakily "Cui Cheng immortal king master..."

"Hmph, how dare you trick me. with my speed, I didn't catch anything within five minutes, this meant that he didn't leave from east." The immortal king said with dense killing intent.

"Hmm..." the immortal king seemed to have caught a space ripple and stepped out.

The two great unity immortals shivered, they didn't even dare to get up after the immortal king disappeared. The two glanced at each other feeling perhaps they shouldn't have done this.

Ye Mo didn't even dare to use Blue Moon and just kept using mobility art. Even tens of millions of km was a short while for immortal king but he needed to fly for half a day. This concerned his life, he didn't dare to be careless.

After another five minutes, the black faced immortal king stopped. He realized how cunning Ye Mo was now, that space wave was just Ye Mo's trick, a spirit sense mark. This meant that those two great unity immortal were probably tricked by Ye Mo.

"A mere abstruse immortal is this powerful, no wonder Guan Feijian would lose to him. Such spirit sense mark, he might even have spirit sense cultivation method." The black faced immortal king sneered and changed a direction.

Ye Mo fled very far but he didn't feel safe at all. The same time his spirit sense mark disappeared, Ye Mo stopped and dashed into the earth as quickly as possible and went into the golden page world.

Ye Mo knew that it was very dangerous to go into the golden page world now, it might be captured by immortal king's spirit sense but he had no choice.

When his spirit sense mark was swepted, he knew an immortal king came. If he kept running, then he would fall into immortal king's spirit sense after he chased the other directions.

Ye Mo could only try to hide the golden page world as much as possible. If he was still caught by immortal king like this, then it was fate.

Ye Mo didn't hide for very long and a terrifying spirit sense swept over, it didn't even let go of underground but it didn't find the golden page world. However, the golden page world felt that spirit sense. even in the golden page world Ye Mo held his breath.

After that spirit sense scanned over, Ye Mo didn't come out. After another five minutes, Ye Mo dashed out of the golden page world and released Blue Moon and flew. He was gambling, he didn't know if the immortal king gave up on this direction but he had no choice.

...

"This is so strange, a mere abstruse immortal really ran outside of my spirit sense range?" The immortal king frowned and sent a few messenger flying swords.

His flying sword was different, it could be received if someone was still in Yuan Le heaven, he didn't believe that an abstruse immortal would be able to escape the hunt of a few immortal kings after knowing the approximate location.

Ye Mo sped Blue Moon like crazy while recovering immortal essence. once it was recovered, he would use mobility technique, once he was tired he would get back on Blue Moon.

Ye Mo knew that he had to escape Yuan Le heaven as quickly as possible. Although it was a bit difficult to go into the void without heaven domain immortal ship, he might even lose his life, he knew that if he didn't go into the void, he would have no chance at all.

His tracks were exposed, he couldn't hide in Yuan Le heaven no matter how big it was.

He Yi immortal king could lock down all the ways he can escape within a day or even less. If He Yi immortal king locked the path into the heaven domain void, there would be nothing he could do.

He burned his essence blood like crazy and used mobility technique like crazy, in less than a day, he saw the Yuan Le heaven heaven domain void.

He rejoiced that he chose west barren sands to have his divine damnation, it was near the heaven domain void.

Seeing the void, Ye Mo flew in without hesitation.
