Chapter 1711: Immortal Ship Parked In The Void

The heaven domain void wasn't the most dangerous to Ye Mo, the most dangerous was the moment that he entered the void. Even his immortal nirvana body wasn't able to take it. If anyone could go in the void casually, then there would be that much danger.

Usually, other than immortal ship, there were special areas to enter the heaven domain void. Yet, Ye Mo went into the void at a place that one couldn't enter, he immediately felt the terrifying tearing power of the void fissure.

Ye Mo knew clearly that this tearing force wasn't something he could take. He went into the golden page world without hesitation. He couldn't care, he would go wherever the golden page world was taken to.

After Ye Mo went into the void, Cui Cheng immortal king locked all the positions to enter into the heaven domain void, he was just one hour slower than Ye Mo.

...

"Are the heaven domain void locked?" Chang Xin immortal king asked immediately when he arrived. He knew that with Ye Mo's power, he could only run to the void. He knew Ye Mo would certainly die in the void but he couldn't allow Ye Mo to die easily.

"Yes, I've locked down all exits. If he dares to go into the void, he would know immediately and stop him before he does." Cui Cheng immortal king answered.

Chang Xin immortal king nodded "Search this place, even if we flip this place upside down I'm going to find him."

Chang Xin immortal king brought tens of great eternity immortal and six immortal king to find Ye Mo. Even an ant would be found much less Ye Mo. Plus, He Yi immortal king received news and were coming over too.

Chang Xin immortal king wasn't worried about He Yi coming over. He only wanted the replica Hao Heaven drum. He didn't want anything else. He knew Ye Mo probably had some secrets but what secret could compare with Hao Heaven grand emperor's heritage?

A few hours later, in the west barren sands, there was a huge explosion at where Ye Mo had solitary cultivation.

Chang Xin immortal king and them came here immediately.

"What happened?" Chang Xin immortal king immediately asked.

The injured great unity immortal said "I found a stone tablet and a few stone boards underground. When I went to take it, it activated an explosion formation. Mo Ying probably set this up."

Chang Xin immortal king frowned, why did Ye Mo set up explosion formation underground in the desert? Did he have nothing to do?

"Search that tablet." Chang Xin immortal king immediately ordered. He would take whatever move Ye Mo left here.

...

Ye Mo meanwhile had spent six days in the golden page world. Everytime he sent out a surveillance formation, it showed that he was still in void chaos flow. Thus, he could only keep staying in the golden page world.

A month later, Ye Mo left the golden page world and stood in the void again. Last time, he was here with Zhen Bingyu but now, he was by himself. However, at least he escaped the hunt of immortal king.

He didn't know where he was but he was sure it probably wasn't far from Yuan Le heaven.

Ye Mo wasn't afraid, he had a way to escape in the void. He took out a void flying snow.

Half a minute later, a void flying snow took Ye Mo and disappeared in the endless void. It flew faster and faster until it merged with the void. Even an immortal king won't be able to capture it with spirit sense easily.

Ye Mo didn't cultivate now, he used the seven refine stones to refine his Heaven Flame Nine Suns.

Five months later, Ye Mo came out of the golden page world and put away void flying snow. He knew he had completely lost sense of direction, he didn't know where this was.

The heaven domain void was boundless, countless times bigger than the 33 heaven domains combined.

Ye Mo didn't have enough cultivation resource here nor a sense of direction in the void but he wasn't worried. He started collecting asteroids to refine void secret silver.

After a while, he would let the void flying snow drive again while he practiced forgery in the golden page world.

He couldn't forge top grade immortal artefact yet. He could use this time to study immortal forgery. However, he didn't have enough materials for practice. The materials in the golden page world were his battle loot, they were all top grade and he wasn't willing to use it for practice.

Plus, he didn't have a lot of them, the void had the most void secret silver. If he could capture enough he could practice.

During this time, Ye Mo encountered void immortal spirit beast packs and void asteroid storms.

Two months later, he had collected a large pile of void secret silver. The grade wasn't very high but Ye Mo didn't care.

During this process, Ye Mo found his refining abilities grew better and better. If he released Blue Like Morning Sky, he could melt an asteroid very quickly and refine the silver out.

Ye Mo even got tens of beautiful void diamond jade. They were prettier than ordinary jade and came in all sorts of colors. They were the best ornaments for female immortals and could also be made into defensive magic artefacts.

At the third month, Ye Mo stopped collecting void secret silver. He had enough for a while. The materials were low grade but if he could forge low grade materials into high level immortal artefact, then that was skill.

Just when Ye Mo wanted to go into the golden page world and let void flying snow drive, he found in shock that there was a heaven domain immortal pill in his spirit sense.

It was enormous but seemed miniscule compared to the void.

“I finally don’t have to travel alone in the void.” Ye Mo knew that not all immortal ships were shameless like the one he first took.

This immortal ship stopped in the void clearly to collect asteroids. Ye Mo sped up towards the ship. He had already prepared his story. He would say he was collecting asteroids and then encountered an asteroid storm and missed the embarking of the ship.

But when Ye Mo neared the immortal ship, he noticed things weren’t right. This ship was too quiet, it didn’t have a sliver of life force. In other words, this was like a ghost ship.

Ye Mo was a great unity immortal and slayed countless evil spirits and ghosts, he wasn’t scared of these things.

But in the eerie silent void, a heaven domain stopped in eerie silence too was indeed eerie.

If an accident happened, this ship shouldn’t be so well preserved. The decks were still open as though waiting for the immortals to come back.

Ye Mo stopped, ghosts weren't scary but there were too many things scarier than ghosts in the void. He didn't want to go in and die.

He didn't plan to give up on the ship, he couldn't take it but if something really happened, there would be plenty of treasure on the ship. He might even be able to find a void location disk.

Ye Mo hid his power carefully and flew onto the deck of the first level without resistance.

Standing on here, Ye Mo just felt everything was too silent.

Chapter 1712: Eerie immortal ship

Ye Mo scanned his spirit sense in carefully, it was empty but all the facilities were perfectly fine.

Ye Mo broke into a few luxury looking places with his spirit sense blades but there was still no one inside.

Ye Mo carefully walked forward a step, he made no sounds but this voice rang in the bottom of his heart.

Ye Mo stopped again, if there really was nothing on this ship it wasn't worth him taking the risk. His spirit sense went back to the first level and there was still nothing.

There would at least be immortal king protecting a heaven domain ship. Even if there's someone powerful enough to kill immortal king, it wouldn't leave zero marks. Even so, it wouldn't just leave an immortal ship here.

Suddenly, there was this sensation from the bottom of his heart. Ye Mo walked forward ten more steps, there was this desperate feeling, telling him to go deeper into the ship. The deeper he went, the more intense that feeling was.

When Ye Mo scanned with his spirit sense again he found there was just storage ring, high level ores, magic artefact, pills, cultivation method and so forth scattered everywhere.

However, he didn't see these things before.

Ye Mo couldn't resist the excitement in his heart and sped up. If he took all of these, he would only need to focus on cultivation.

But after ten steps, Ye Mo suddenly stopped. Ye Mo woke up with the use of Three Birth Chant, did he need to be this excited? He had plenty of good things, these pills and cultivation method were nothing.

He had seen much better things than these before and he wasn't this excited. Ye Mo's heart shivered. He forcefully stopped himself from going forward and then released his spirit sense blades. He found that everything he had seen before had disappeared. It was just an illusion.

This ship isn't not right, Ye Mo shot out a spirit sense mark and instant transmissioned out to the deck without hesitation. Going back out, Ye Mo even had the feeling that when he was about to leave, the ship restriction was about to close but his instant transmission was too fast and the ship wasn't able to do so in time.

Looking strangely at this silent ship, Ye Mo's heart was skipping fast. That feeling was too strange, if he didn't have the bitter bamboo he would've gone into the depth of the ship.

Ye Mo subconsciously retreated a few km before stopping. He really didn't want to leave a big ship like this without getting anything.

Void mist came, Ye Mo had a strange feeling that this ship was about to disappear but when he checked with his spirit sense, the ship was still here.

Ye Mo frowned, when his spirit sense scanned in again and looked at the silo, Ye Mo was shocked.

This was the first time he had seen so much void secret silver, they were stacked up in mountains.

No matter how eerie this ship was, Ye Mo wasn't planning to let go of these void secret silver.

But would they be fake? Ye Mo used the Three Birth Chant again and when he was certain he was very awake, he hacked over with a few spirit sense blades. The spirit sense blades fell on the silver as though they were real.

This wasn't an illusion.

Ye Mo retreated a few thousands meters back before opening up his spirit sense domain ensuring there were no spirit sense scanning at him. then, he took out a bitter bamboo leaf and set up a few restrictions on it before placing it in his mouth.

Ye Mo had decided to take those void secret silver.

The bottom deck was usually for immortals with little immortal crystals. This deck was also called the refinery.

The door to the bottom deck was also wide open.

Ye Mo thought for a while but eventually didn't go in to risk it. He really wanted the void secret silver but what if he entered and the ship shut. Wouldn't he be dead?

Ye Mo wouldn't be able to open a shut heaven domain ship in a quick while. Who knows what would happen during that time.

Ye Mo eventually decided to find an escape plan first, he retreated a few hundred km and found a huge asteroid. Ye Mo used formation to stop this asteroid while setting up formation on the asteroid.

He was going to set up a simple teleportation formation. Ye Mo's idea was simple if he couldn't leave the ship in time or the ship closed, he would be able to teleport out.

Then, Ye Mo used materials to forge a formation disk.

This was the benefit of being an immortal formation great master. In a shut immortal ship, runes were useless but teleportation formations were useful.

After setting all this up, Ye Mo used stealth formation to hide the asteroid before nearing in on the ghost ship.

Ye Mo would never want to go in here if he didn't see all that secret silver. He felt there was this invisible power controlling this ship.

Ye Mo didn't hesitate this time and dashed to the bottom deck as quickly as he could and put the mountains of void secret silver in his storage ring while retreating.

This entire process only took about a few seconds.

But when Ye Mo wanted to leave, he found the doors were really shut. Before he could use the teleportation formation disk, the place became boisterous.

Walking sounds, yelling sounds talking sounds...

Ye Mo scanned his spirit sense out but saw nothing. Were these things even souls? The spirit sense mark he left on the top deck clearly saw countless people walking about and they all seemed to be coming to the bottom deck.

Even Ye Mo felt his skin crawl, he used the teleportation formation disk without hesitation while connecting his spirit sense to the time formation disk.

There was an ear screeching sound, Ye Mo felt his essence spirit was about to cripple. He was about to abandon the teleportation formation disk and charge into the deck but the clear sensation emitted by bitter bamboo made him wake up instantly and activate the teleportation formation disk like crazy.

Instantly, the teleportation formation disk was completely activated and swooped Ye Mo away.

At the same time, an invisible shadow swept past the place Ye Mo was at before and the instant Ye Mo left, the time formation disk Ye Mo left there also disappeared.

Ye Mo felt uncomfortable all over his body, there seemed to be this terrifying power dragging him back to the ship. He used mobility technique on the asteroid without hesitation. This ship was too eerie. If he knew there were all these things inside, he would rather not have the void secret silver.

The instant Ye Mo used mobility technique, he felt a powerful pulling force as though trying to pull him back. This wasn't just a material pulling force, it was also pulling his essence spirit and soul.

Even though Ye Mo used his Immortal essence, he couldn't break free from this force. The spirit sense mark he left felt the deck open again as though waiting for him to go back in.

The strong calling acted on Ye Mo's soul and essence spirit. Ye Mo was certain that if he didn't have the bitter bamboo leaf nor the Three Birth Chant, he would've charged inside already.

But there was no way he was going to go in now, the constant clear sensation from the bitter bamboo kept Ye Mo's essence spirit and soul awake. He tried very hard to break free from that force but even so Ye Mo felt he was going back and getting closer and closer to the ship.

His spirit sense couldn't even see what power was pulling him. The only thing he could do was use spirit sense blades and burn his immortal essence to break free.

Chapter 1713: Void Body Refinement

A void fissure appeared in Ye Mo's spirit sense. usually, Ye Mo would as far from that as possible. The heaven domain void fissure was far from something the cultivation realm void fissure could compare with.

ut now, Ye Mo couldn't care, he instant transmissioned into the void fissure without hesitation.

Ye Mo couldn't instant transmission very far with the terrifying pulling force of the ship but it was barely enough to let him make it into the void fissure. The instant he went into the void, his spirit sense scanned the ship head and saw three black words, ghost ship.

Ye Mo didn't have the mood to think about it, the instant he went into the void fissure, cracking sound came non stop.

In a very short breath, a few of his bones cracked, void winds tore through his skin like it was rags.

This was just less than a second, if this continued longer, Ye Mo would've been turned to pieces. However, he was in the golden page world now.

At the same time, the golden spot golden page world was swept away by the void fissure.

...

Ye Mo breathed heavily in the golden page world, the golden page world saved him again. Without it, he would've died countless times.

He was covered in wounds but Ye Mo felt assured. The void fissure would take him to some unknown place but in the golden page world he was safe.

The immortal nirvana body couldn't stop the ravaging of the void fissure but it could allow Ye Mo to recover quickly.

A few days later, Ye Mo had completely recovered and walked around the golden page world with after fear. He felt it was too risky what he did before. that ghost ship was this terrifying.

Ye Mo waved out piles of void secret silver, some of them have even reached level seven immortal grade.

Ye Mo threw out a few surveillance formation disks wanting to see if he was still in the void fissure but soon, he found that he didn't need it to see outside.

Before, he would need surveillance formation disks to see outside the golden page world. Otherwise, he would only have an obscure feeling but now, he could see very clearly.

It was a mess outside, space tearing, dispositions were everywhere. It was still extremely dangerous void fissure.

Ye Mo took back his spirit sense and ignored this situation. He had this many void secret silver, he had plenty of things to do. he didn't need to care where the golden page world was. He would just go out when the golden page world was in a safe place.

...

Time passed unknowingly while Ye Mo studied immortal forgery.

The mountains of void secret silver were forged into all sorts of immortal artefact by Ye Mo.

However, it had only been three months outside. Ye Mo could forge level seven immortal artefact now. when half a year had gone by outside, Ye Mo could use level six void secret silver to forge top grade immortal artefact.

Ye Mo was certain that if he had the materials he could even forge level eight immortal artefact but he didn't have level eight immortal material.

Half a year later, Ye Mo put away the time formation disk. It could be used to study but when he was forging his favourite magic artefact it was best not to use it.

He had too much void silver before, even after non stop forgery for decades, he still had a small mountain left.

This small mountain were all level seven, Ye Mo left it for the world rock.

The world rock was extremely powerful and with the Tai Mountain Crush god art, he would be using it quite often. However, the world rock had a lethal flaw and that was people could easily recognize what it was made of.

After forging so many void secret silver, Ye Mo had an idea. He would cover the world rock in void secret silver. This way, it would increase its power while not exposing it.

The purple nirvana level three Blue Like Morning Sky melted the void silver rapidly and refined it to a very high purity. As layers of silver liquid were tipped on the world rock, it was slowly covered.

A month later, the small mountain of void secret silver disappeared and the world rock had a thick layer of dark silver cloak. Ye Mo spirit controlled his world rock again, half a day later, a small weighting stone the size of his palm appeared.

It was done. Ye Mo looked at this world rock and was very satisfied. Now, he could use it without restraint even before immortal king.

Ye Mo immediately took out his level seven material sky mobility gold and upgraded his Blue Moon.

With a few pairs of shadowless vulture main feathers added too, Blue Moon was upgraded to level seven flying immortal artefact.

Seeing this, Ye Mo sighed. When Lu Wuhu forged his Blue Moon for him, he would've never expected it to become a top grade immortal artefact. Only a few decades had passed. He wondered where Lu Wuhu was now and if he ascended to the immortal realm yet.

Ye Mo also reforged that octagonal cauldron replica. It should be able to be used in crucial times.

With all these things done, Ye Mo scanned his spirit sense out again. He found that the outside environment seemed much better. At least there were much less void dispositions and weaker void storms.

After leaving the golden page world, Ye Mo just realized that the environment was still dangerous but no longer lethal. Ye Mo didn't go into the golden page world but instead let out void flying snow.

It had the ability to avoid danger in the void and was countless times faster than his top grade flying immortal artefact.

A month later, Ye Mo put away void flying snow. He knew that it was pointless to let it keep flying. He had left danger but he was probably still not even out of the void fissure.

If he didn't leave the void fissure and go into the heaven domain void, it was pointless to let the void flying snow fly for 100 years.

It wasn't easy to go from void fissure into the heaven domain void. It was either he had the power to tear open this void or he could find another void fissure to go out.

He wasn't able to do either of those. Tear the void, probably not even immortal monarch could do this. The void here was very stable, not something the cultivation realm could compare with. As for leaving through void fissure, Ye Mo didn't want to. He was mere immortal nirvana body, he would probably be torn to pieces before even getting close to it.

Perhaps he could go into the golden page world and test his luck but he didn't believe he would be that lucky.

Ye Mo collected his mood and studied the environment around him. In this situation, there was one more possibility of going out, that was body refinement. If his body refinement reached a level, he would be able to leave through void fissure.

The void fissure was suitable for body refinement whether it was in the cultivation realm or the immortal realm.

Ye Mo started to find small void storms to refine his body. At the start, he was desperate but slowly, he forgot he was still in the void fissure.

From small void storms to large ones and then asteroid flows and void whirlpools...

As Ye Mo's body refinement kept improving, he also changed places.

Three years later, Ye Mo's cultivation level didn't progress but his body refinement reached immortal nirvana body peak stage. He was just one step away from immortal spirit body.

This void fissure was perfectly set up for body refinement.

Ye Mo had decided to leave here first. He would find a better place to break through to immortal spirit body.

Chapter 1714: Endless Flame River

Just when Ye Mo wanted to release Blue Moon, he found a very rapid figure pass in his spirit sense. Ye Mo saw clearly that it was a person.

There were people here? Ye Mo was dazed but then he immediately rejoiced, this meant that he would be able to know where this place was now.

Ye Mo quickly used a mobility technique to go over. That person was going fast, but he wasn't intentionally flying away. Five minutes later, Ye Mo saw that figure and greeted with his spirit sense.

As Ye Mo expected, that person stopped.

It was a great eternity immortal, Ye Mo saw this person's power before even going up to him.

"Immortal friend hello, do you have business with me?" The great eternity immortal saw Ye Mo was only a great unity immortal and his eyes showed a sliver of confusion, but he still greeted Ye Mo first.

This great eternity immortal didn't have any attitude towards a great unity immortal, this made Ye Mo have a great impression of this person, he quickly saluted with his fists. "Immortal friend, I accidentally came into the void fissure and I still haven't been able to find a way out. Did you come in here by accident too?"

"You came into the void fissure accidentally?" The great eternity immortal stared at Ye Mo in shock.

Void fissure's most terrifying part was the same as a heaven domain void, when it was first entered. It wasn't something ordinary immortals could handle. If someone forcefully went in, he would be torn apart. Yet, Ye Mo said he came in awkwardly.

Ye Mo touched his head in an awkward manner. "I came with a heaven domain immortal ship to collect asteroids but then there was a void fissure, luckily I had a top grade protection rune and I'm a low level body refinement cultivator, that's how I survived."

"So that's it." The great eternity immortal breathed easy.

Then he continued, "This is a place where many people come for body refinement. I'm a body refinement cultivator too but unlike you I was teleported in. There's a teleportation formation here. Usually, body refinement cultivators teleport here for body refinement. I thought you were teleported in here like me too."

Ye Mo rejoiced, there was a teleportation formation into void fissure for body refinement. This was the first time he had heard of such big means, which powerful being did this? With a teleportation formation, didn't it mean he could go out at any time? Thinking about this, Ye Mo saluted with his fists and asked, "Immortal friend, where is the teleportation formation?"

The great eternity immortal said, "It's a bit far from here, you haven't been there before so it will be hard to find it. I've only been here for a few years so I can't go out with you. The people here are very scattered, so it's hard to find someone. Everyone has a void location disk, but I only have one so I can't lend it to you."

Ye Mo quickly said, "It's fine, may I ask when immortal friend would go? I'm going to practice body refinement as well so I'll stay with you. I'm Ye Mo – of course, if it's not convenient for you then just tell me the exact location and I'll have a look myself."

The great eternity immortal laughed, "Of course it's convenient, if you don't mind then come with me. I'm Ji Shu, I'm planning to go to Endless Flame River to break through. We can go together. By the way, you're immortal nirvana body right? If not you can't go in."

Ye Mo nodded. "Thank you brother Ji, I'm already immortal nirvana body."

"Not simple." Ji Shu raised his thumb to Ye Mo.

After chatting with Ji Shu for a while, Ye Mo felt this person was good. He was easy to talk to and didn't act condescending because he was a great eternity immortal.

Both were immortal nirvana body and they spoke as they travelled. They didn't slow down at all and instead went faster and faster.

Ji Shu was amazed that Ye Mo could keep up with his speed and applauded Ye Mo again.

"By the way, brother Ji, which heaven domain did you come from?" Ye Mo couldn't help asking, he hoped he was further away from Yuan Le Heaven.

"I'm from Chang Rong Heaven, what about you brother Ye?" Ji Shu said.

"Chang Rong Heaven?" Ye Mo was shook. He didn't expect to have come to a grand heaven domain from the void fissure.

"What's wrong?" Ji Shu looked at Ye Mo in confusion.

Ye Mo rejoiced and said, "I came from a middle heaven domain, I didn't expect walking in the void fissure for a few years brought me to a grand heaven domain. Life is really full of the unexpected."

"This is very normal, you're very lucky. Some people may never be able to come to a grand heaven domain from a middle heaven domain, but you can so easily," Ji Shu smiled and said.

Ye Mo smiled bitterly, there were so many times he almost died, it wasn't easy at all.

In these two days, the two chatted very nicely. Ji Shu found that Ye Mo knew many things he didn't understand about body refinement. What shook him was that Ye Mo's body refinement level was higher than him. He was immortal nirvana body middle stage, but Ye Mo was tertiary stage.

Ye Mo didn't say he was peak stage. He knew Ji Shu was here to break through immortal nirvana body middle stage. Once he reached immortal nirvana body tertiary stage, Ji Shu would leave and he could follow.

So when Ji Shu asked about body refinement, Ye Mo told him everything he knew hoping Ji Shu would break through earlier.

Ye Mo was the perfect teacher since he cultivated the Three Birth Chant, and in a short two days, Ji Shu's understanding of body refinement increased a level. He was very grateful and said to Ye Mo, "Brother Ye, if you don't know anything about cultivation just ask me, I won't hide anything from you."

Ji Shu felt his cultivation level was higher than Ye Mo so he would be able to help him.

Ye Mo didn't make him feel bad and asked him a few slightly harder questions, making Ji Shu feel great.

Three days later, the three stopped. Ye Mo was dazed, this was the first time he saw such a terrifying flame river.

It was endless and dark red, the waves rose into the sky. No wonder this place was called the Endless Flame River. Ye Mo could feel the scorching heat at the side. If one went in, wouldn't he turn to dust immediately.

"This is the flame river, we're only immortal nirvana body so we can only stay at the border of the river. You must remember not to go into the river. The temperature inside is terrifyingly high, not even someone with an immortal spirit body can go in," Ji Shu said.

Ye Mo nodded seriously.

Ye Mo took out a communication bead and said, "Brother Ji, we'll each go find a place to cultivate. If you finish then tell me, I can leave at any time."

"Okay, we'll do that. You're a good person brother Ye, when we get to Chang Rong Heaven I'll introduce you some friends. We can practice together, it's very useful." Ji Shu patted Ye Mo's shoulder.

The two bid farewell and each chose a direction.

Ye Mo walked along the river a few hundred km before choosing a rather calm place to enter.

As soon as he entered, the terrifying heat wave came over him. his clothes were instantly turned to dust. In just one second Ye Mo could smell burnt flesh.

Ye Mo didn't dare to keep thinking and immediately used his body refinement cultivation method. He didn't understand how Ji Shu entered such place. He shouldn't be able to go in.

However, this place had dense immortal spirit chi and Endless Flame River waves. It was indeed the best place for body refinement.

As Ye Mo used his body refinement cultivation method, he slowly forgot he was in the flame river. The bones and blood in his body were refined once again.

The burnt skin slowly turned red and then back to its original color while Ye Mo felt his skin and bones rapidly growing stronger.

Crack crack

After that sound, the immortal essence and blood in his body flowed clearly. Moments later, the sounds lowered and the temperature around him seemed to have dropped a lot.

Immortal spirit body?

Ye Mo soon knew that he indeed reached immortal spirit body.

This was such a good place Ye Mo couldn't help sighing. If it was some other place, it would take some time. But here, he didn't even feel it and he was immortal spirit body.

Chapter 1715: Wave Kill

When Ye Mo continued to devour immortal spirit chi, he felt that he needed to break through again. If he didn't break through there was no point in cultivation.

But how could he break through here? He didn't have immortal crystals or immortal ranges. He had Extreme Xia Pills but that wasn't enough, he needed immortal spirit chi too. Ye Mo knew that after his divine damnation finished, there wouldn't be a rainbow immortal spirit chi cloud.

Ji Shu was a good person but he was still in body refinement. Even if he wasn't, Ye Mo was too embarrassed to ask a person he just met for immortal crystals.

Plus, he needed a few hundred million.

Ye Mo thought for a long while and eventually decided to have his divine damnation here. His body refinement was now immortal spirit body, if he could set up a spirit gathering immortal formation here, perhaps the immortal spirit chi from the river was enough.

At this moment, Ye Mo was some distance away from the river. He planned to use a few top grade materials to forge formation flags, but when he saw the ores at the bottom of the river, he immediately changed his mind.

He hadn't seen the ores before but he knew they would definitely be sturdier than the materials he used for formation flag. The river was too hot, the formation flags might get melted.

Ye Mo picked up the ore and immediately knew it wasn't ordinary. At least it was on par with Void Secret Silver. He also found the redder they were, the higher their level.

In just half a day, Ye Mo found more than ten of these nearby. With these materials, Ye Mo forged formation flags even faster.

...

The spirit gathering immortal formation had been set up, Ye Mo was helpless. If he had enough immortal crystals, he definitely wouldn't have his divine damnation here. Even though he was immortal spirit body this wasn't a good idea.

Thus, Ye Mo had no choice but to rest his hopes on the immortal spirit chi here. He even set up three joined spirit gathering immortal formation.

After eating the Extreme Xia Pill, Ye Mo sat at the bottom of the river and started to break through to great extreme immortal. The speed at which the Three Birth Chant devoured immortal spirit chi was terrifying. In a short while, the nearby immortal spirit chi rushed over to Ye Mo like crazy. The area almost increased to ten thousand square km.

The most immortal spirit chi actually came from the bottom of the river. With the spirit gathering immortal formations, the immortal spirit chi was pulled up.

Ye Mo was very shocked. What was in this river? There was such dense immortal spirit chi! If he had such immortal spirit chi during his divine damnation, he didn't need to worry at all.

After resting easy, Ye Mo devoured immortal spirit chi even faster. The immortal spirit chi here had a faint red color, but Ye Mo felt this immortal spirit chi was more useful in expanding his meridians and empowering his immortal essence.

Clearly, the red coloured immortal spirit chi was of higher quality than ordinary immortal spirit chi.

This time, the divine damnation came very slowly. Three entire days passed and only then was there a deep rumbling in the sky.

Before Ye Mo got up, 36 bucket-width lightning bolts smashed open the river.

Ye Mo dared to charge against nine lightning bolts when he just reached great unity immortal. Now, these lightning bolts weren't much stronger than before, Ye Mo wasn't going to be scared.

The next moment, he was out of the river and released Lightning Sword. His fist greeted the lightning bolts too. As for the world rock and Zi Xu, Ye Mo didn't even release them.

At the West Barren Sands, he was ravaged by the bucket sized lightning bolts, now that he was immortal spirit body, it was his turn.

Crack crack crack

The black Lightning Sword struck the lightning bolts.

Meanwhile, Ye Mo punched lightning bolts, splitting them apart and causing endless rumbling sounds in the air.

The waves of the flame river were extremely loud so this sound was immediately covered.

The rest of the lightning bolts all struck Ye Mo. Ye Mo's immortal spirit body skin was burnt by the bolts of lightning but all Ye Mo knew was to devour the lightning source like crazy, his body wasn't affected at all.

A few years ago when he reached great unity immortal, six bolts almost killed him, but now he took 36 bolts unaffected. Each of these bolts were stronger than those six bolts combined.

Even Ye Mo felt his power and body refinement were good indeed. If he didn't reach the immortal spirit body, he would be abused again.

“Hahaha...”

Seeing that the lightning bolts couldn't hurt him, Ye Mo laughed and stood on top of the endless river like a god while waiting for the divine damnation to rain down.

The dense immortal spirit chi nourished Ye Mo, making him feel very comfortable.

Rumble rumble rumble

Ye Mo just devoured the 36 bolts when another wave of thunder sounded. Ye Mo stood on a flame wave and charged over.

Another 36 bolts fell, Ye Mo punched nine times consecutively. He really wanted more lightning bolts to fall, but this divine damnation wasn't good enough. The lightning sparks shone again and were swept away by the terrifying flame waves.

Two waves and a total of 72 bolts fell. Ye Mo's power rose drastically, just one more wave and he would reach great extreme immortal for certain.

Ye Mo knew clearly that as long as he didn't break through, the divine damnation couldn't leave. So despite knowing that it couldn't do anything to him, it still had to keep falling.

Indeed, the third wave of divine damnation fell. However this time, there were only nine bolts. He couldn't even be bothered stopping it and just took the blow.

Rumble

The immortal essence inside Ye Mo's body underwent qualitative change and his sea of consciousness expanded again.

Feeling this powerful immortal essence power, Ye Mo knew he was great extreme immortal now. From now on, he wouldn't fear any immortal below status immortal, this was his confidence.

Just when Ye Mo thought there weren't going to be more divine damnation, the space above his head crackled again. Ye Mo looked up in shock. These bolts fell down one by one. It looked like there was a lot but it would only benefit him. why did it keep falling? According to his understanding of divine damnation, if he broke through, there wouldn't be any more. Today seemed a bit irrational.

But soon Ye Mo cast these thoughts aside, the more bolts the better it was for him.

Ye Mo focused on devouring lightning source and refining his Lightning Sword and lightning sand.

When the last bolt disappeared, Ye Mo actually saw immortal spirit chi cloud fall down. What happened? Did the divine damnation change personality? It was willing to give him rainbow immortal spirit chi cloud?

Regardless, the cloud was very good. It had extremely dense immortal spirit chi and a sliver of dao law inside.

Five days later, Ye Mo stopped cultivation. He benefited quite a bit this time from divine damnation. He put away the spirit gathering immortal formation.

The heart of the river had such dense immortal spirit chi, clearly there was something good but his power was too low, he wouldn't be able to reach the center. When his body refinement power is high enough, he would come back to have a look.

Ye Mo stood on the river surface feeling very good. Waves of flames brushed past him but Ye Mo didn't feel them at all. These waves couldn't pose a threat to him anymore. Instead, he felt this flame river was a beautiful scene and he was just enjoying this beauty. Watching the waves follow one after another, it was like he was the controller.

Controller?

Ye Mo had a sudden enlightenment. After a long while, he suddenly opened his eyes and punched.

This wasn't void, this was a new punch. After this punch, the waves instantly stopped. Ye Mo's punch punched out flames like the flame wave but this flame was blue. Three consecutive waves of blue flame, each one higher than the other. These flames covered the flame river.

Second fist god art, Wave Kill.

Taking back his fist, the three waves disappeared. Ye Mo looked at his fist, his heart was full of surprise and joy. He didn't expect to suddenly create this god art, fusing this flame wave and Blue Like Morning Sky.

Chapter 1716: Chang Rong Heaven

Reaching great extreme immortal and immortal spirit body primary stage as well as creating a new god art, Wave Kill, even Ye Mo was satisfied with himself. His power had increased many times since he left Yuan Le Heaven.

Now that he was at a grand heaven domain, he would be able to cultivate till great eternity immortal peak stage if he found Hao Heaven grand emperor's heritage. He had seen an immortal king's power. Although he knew that even when he was great eternity immortal peak stage, he might not be a match for an ordinary immortal king, he believed that it wouldn't be easy for an immortal king to kill him once he was great eternity immortal peak stage.

Ye Mo stopped cultivation, he practiced body refinement in the river while searching for those red ores. He felt they were good things.

Soon, one year had passed and Ye Mo left further and further from the river bank. His body refinement power soon stabilized at immortal spirit body primary stage. He found more and more red ores and even a few extremely red ones.

At this moment, the communication bead sounded. Ye Mo knew it was Ji Shu calling him. It had been two years, Ji Shu probably reached immortal nirvana body tertiary stage.

Ye Mo soon left the river and saw Ji Shu with a joyful face.

“Brother Ji, congratulations on reaching immortal nirvana body tertiary stage.” Ye Mo saluted with his fists.

Ji Shu was clearly in a good mood, but then he looked at Ye Mo dazedly and asked, “Brother Ye, you’re great extreme immortal power now?”

Ye Mo nodded. “Yes, I’ve been at great unity immortal peak stage for many years. Now that I reached great extreme immortal, it’s just all past effort.”

Ji Shu didn’t know how many years was many years, he thought it was a few millenniums so he congratulated, “That’s good, we both acquired something here. I reached immortal nirvana body tertiary stage and got a few good Endless Flame River Gold.”

“Endless Flame River Gold?” Ye Mo was dazed and then took out a few ores he picked up to Ji Shu. “You’re talking about this?”

“You have it too? Yeah, this is Endless Flame River Gold. It’s very valuable. Your ones are all level six immortal materials. If you can get level seven ones then people would be fighting over each other to buy them even in the immortal cities. Congratulations brother Ye, you’re quite lucky,” Ji Shu said.

Ye Mo thought that he had collected a large pile after all these years, if he sold them for immortal crystals, he should be able to get a lot right?

“The Endless Flame River Gold are in the depths of the Endless Flame River, the brighter red they are, the higher their level. Usually, immortal nirvana body people can only get level six Endless Flame River Gold. If you want to get better ones you would have to go deeper, but then you would at least need to be immortal spirit body,” Ji Shu said.

Ye Mo nodded, he didn’t take out his level seven ones. Since they were useful, he would learn what their use were first.

“By the way, brother Ye, something seemed to have happened a year ago at the Endless Flame River, did you notice it?” Ji Shu asked.

“What thing?” Ye Mo asked in confusion.

Ji Shu said seriously, “A year ago, I suddenly felt the immortal spirit chi become volatile as though being swept away. This lasted for a few days and there were lightning sounds too. The lightning sounded more terrifying than an immortal king divine damnation. I was scared there was some powerful immortal spirit beast having its divine damnation nearby. I wanted to alert you but I was afraid of offending that immortal spirit beast, luckily you’re fine.”

Seeing Ye Mo in a daze, Ji Shu quickly said, “Usually if you don’t mess with immortal king level immortal spirit beasts they don’t attack you. Other than a rare few hot tempered ones, most wouldn’t go kill immortals casually.”

Ye Mo let out a long breath and nodded. “I understand.”

He didn’t expect Ji Shu to have thought of him as an immortal king immortal spirit beast, but Ye Mo didn’t tell him the truth.

“Let’s go, we’ll fly to the teleportation formatio. There are void fissures and space storms everywhere here, it’s not good to use flying immortal artifacts,” Ji Shu said and flew.

Ye Mo had spirit sense domain, but since Ji Shu said it was bad he could only follow behind him.

The two talked as they went, conversing body refinement experience. Soon, Ji Shu found that even though he was immortal nirvana body tertiary stage, Ye Mo still knew much more than he did about body refinement.

Half a month later, the two came to an asteroid platform that was a few thousand km wide.

The asteroid was frozen in place by a huge formation, there were some cultivation homes on the asteroid and a few simple merchant towers with immortals walking about.

“There are only body refinement cultivators here, almost all the body refinement immortals of the 11 grand heaven domains come here. Even so, some immortals still die here each year. Sometimes they die due to natural disasters, sometimes due to body refinement failure,” Ji Shu explained and sighed.

Ye Mo sighed too, if he didn't have Golden Page World, he would've been gone already. The journey of cultivation was extremely hard. One mistake and your soul and body would be gone.

Ji Shu brought Ye Mo to a big palace. There was nothing else but a teleportation formation here. A great eternity immortal sat expressionlessly next to the teleportation formation.

“Brother Ye, it costs 20 million top grade immortal crystals each time.” Ji Shu saw Ye Mo had no intention of taking out immortal crystals and reminded.

“What? This much?” Ye Mo was dazed, even heaven domain teleportation formations didn't require that much.

Ji Shu smiled bitterly. “Brother Ye, this is a grand heaven domain. this is only the price to exit, the price to enter is even higher. If you don't have enough immortal crystals I can lend you.”

Ye Mo felt his nose and said, “I have immortal crystals but I just didn't expect it to be this high.”

Then, Ye Mo took out his only 20 million immortal crystals. With this, he was broke again.

Body refinement was indeed not for the poor. Ten million immortal crystals was countless years of savings for a great extreme immortal.

These powerful beings really knew how to earn money. Just how much were they able to earn each year? Ji Shu clearly was no ordinary person to be able to come here.

It cost this much to come in, people clearly would want to stay longer. Perhaps Ji Shu left early for him. Thinking about this, Ye Mo saluted with his fists “Brother Ji, you spent this much immortal crystals and you only stayed inside for a few years, I really feel ashamed.”

Ji Shu smiled. "I didn't plan to stay inside for long anyways. Brother Ye, we get along really well. I consider you my friend, no need to mention this anymore. Perhaps you will be able to help me in the future."

Ji Shu felt Ye Mo wasn't ordinary and he really did want to be friends with Ye Mo. He was planning to stay a few extra years but due to Ye Mo he left early. Plus, he really didn't care about tens of millions of immortal crystals.

Ye Mo nodded. "Okay, I have some confidence in forgery, if brother Ji needs me to forge something you can come to me."

Ye Mo thought he could forge level eight immortal artifacts, he might really be able to help him.

"Hmph, arrogant." Two immortals behind them heard this and one of them sneered. A good immortal forgery great master took countless years. Ye Mo didn't seem very old.

Ji Shu pulled Ye Mo into the teleportation formation. "Let's go."

Ji Shu didn't mention forgery either. Clearly he felt Ye Mo could at most forge ordinary middle grade immortal artifacts, this was nothing to a great eternity immortal. Plus, what immortal artifact didn't his family have?

Ye Mo smiled, he wasn't going to do anything even if Ji Shu didn't pull him.

Leaving the teleportation formation, they came to a planet like place and then took the teleportation formation back to Chang Rong Heaven. When they got there, one month had passed.

"Brother Ye what plans do you have?" Ji Shu asked.

He felt that Ye Mo knew a lot of things and his understanding of cultivation wasn't something that his other friends could compare with.

“I’m planning to go around Chang Rong Heaven and then leave,” Ye Mo said.

Ji Shu said hospitably, “Brother Ye, if you don’t mind come with me to Fei Xia Immortal City. I have many friends there, I can introduce them to you. I believe you will soon get their recognition. My father is Yi Yang immortal king, city lord of Fei Xia City. He’s great friends with Chang Rong Heaven’s heaven lord...”

“Your father is an immortal king? And a city lord?” Ye Mo repeated in shock.

Chapter 1717: Familiar Female Immortal

Ji Shu smiled. “Yes, but I never rely on my father. I have what I have today purely through my own effort. Of course, other people might give me some help on my father’s account.”

Ye Mo believed his words, Ji Shu could go into the void fissure alone for body refinement, this meant the was different than other city lord young masters.

“Okay, let’s go to Fei Xia Immortal City then,” Ye Mo agreed.

...

Ye Mo had seen immortal cities of low and middle heaven domains. The first time he saw Bi Yi Immortal City he was overwhelmed, and eventually when he saw Nuo Yi Immortal City, he didn’t think much.

But coming to the Fei Xia Immortal City, he felt he came from the countryside. Even the immortal spirit chi outside the city was extremely dense. For someone who was used to middle and low heaven domain immortal spirit chi, he really wasn’t used to this.

The city gates were 300 meters wide and the city walls couldn’t be touched by spirit sense. He knew there was a city wall but didn’t know how high nor what it was made from.

Ye Mo knew this must be due to a top grade formation.

After entering the city, what caught Ye Mo's attention the most wasn't the immortal spirit chi but all the merchant towers. Many signs were made by top grade immortal jade, some doors were also ornamented with all sorts of top grade immortal materials.

The streets here were at least ten times wider than in a middle heaven domain immortal city. Ye Mo found that the immortals going in and out of the merchant towers all wore good quality immortal artifact clothes. They were pretty and defensive magic artifacts.

"Is everyone in grand heaven domains this wealthy?" Ye Mo asked in shock.

"Haha, this is all just superficial. In the grand heaven domain, if you don't dress well, people will look down on you. Many people wear all the fortune they have on them. Don't admire them." Ji Shu patted Ye Mo's shoulder.

Ye Mo shook his head, so the main theme of grand heaven domain immortal cities was to compare wealth. This was a bit too low.

For the real wealthy immortals, their clothes on the outside was nothing, the real treasure was their inner armor.

"Ji Shu..." a coarse voice sounded and the two looked up at the same time.

It was a square faced immortal, he's also great eternity immortal tertiary stage.

"Haha, I wanted to find you guys but as soon as I came back I met you all." Ji Shu smiled and pulled Ye Mo over.

Ye Mo saw three men and two women coming over.

Ye Mo stared at one extremely beautiful female immortal and was dazed. He felt she seemed familiar.

But she didn't seem very hospitable, nor did she have much expression. Clearly, there was something on her mind.

She wore a blue fitted immortal dress with a long flute on her back. Her looks were on par with Xun Ran goddess.

Ye Mo was confused, he should know this person is he felt she was familiar.

"Brother Ye, Ye Mo..." seeing Ye Mo stare at that female immortal without blinking, Ji Shu felt a little awkward. He pulled Ye Mo and wanted to laugh. Brother Ye knew a lot but probably hadn't come in contact with pretty goddesses before, he would introduce a few to him later.

"Hmph..." that thin eyed great eternity immortal already saw what Ye Mo did and grunted to show his dissatisfaction.

Ye Mo woke up and realized his rudeness. He quickly took back his gaze and saluted with his fists. "It's my first time seeing such a pretty goddess, my apologies."

"Brother Ji, your new friend is really interesting. Great, some people who know they are being rude wouldn't dare to say it. I'll make this friend."

It was another great eternity immortal, he was extremely handsome and had a golden fan in his hand showing his scholarly look.

"Haha, let me introduce." Ji Shu said, "Ye Mo, this is Qi Beicang, Ping Liang Immortal City's young city lord. It's said he's a goddess killer, any goddess he's interested in would eventually fall into his hands."

Ye Mo quickly saluted with his fists and greeted.

"This is Sii Shiyu, Long Yue Mountain's core disciple, Long Yue Immortal Mountain is one of the top sects of Chang Rong Heaven, it's an emperor sect. So, brother Ye needs to get closer with brother Sii..."

Sii Shiyu was that great eternity immortal who grunted at Ye Mo. He interrupted, "I don't really like being friends with lustful people, thanks for your good will brother Ji."

Ji Shu didn't mind and pointed at the green robed female immortal. "Brother Ye, this is immortal monarch sect Sound Sword Sect's, sect leader's private disciple Jiu Ruyan."

Jiu Ruyan was polite and greeted Ye Mo.

Then, Ji Shu pointed at that square faced great eternity immortal "This is brother Yin Hui..."

Yin Hui used that coarse voice and laughed. "I'm a solo cultivator, I don't have their grandiose background."

"I'm a solo cultivator too." Ye Mo felt that Yin Hui seemed to be the strongest of them.

"This is Li Kun, Yue Long Mountain core disciple, her master is..."

Ye Mo was completely dazed, Li Kun, no wonder she seemed so familiar. If Ji Shu didn't say her name he wouldn't even remember who she was.

She was the main female character of the Lost Soul Ruins. Her father was called Li He.

Her fiancé was Feng Xi, Feng Chun's son. Both of them were ambushed by Feng Chun.

Feng Chun wanted Li Kun's spirit root and used a spirit transfer formation to trick his son into believing it was soul nourishing formation.

His son was deeply in love with Li Kun and would rather him become a normal person and lose his life span to use his soul to nourish Li Kun's essence spirit. (Note: The story is between chapters 1212 and 1220.)

It was because Li Kun had a sliver of Feng Xi's soul that Ye Mo felt she was familiar. He still had the tear bead that contained two blood tears from Feng Xi after he died.

Ye Mo didn't expect her to have ascended to the immortal realm and in a few thousand years reach great eternity immortal tertiary stage. Her talent was too absurd. No wonder Feng Chun wanted her spirit root.

Since he met her, he should give her back the tear bead.

Feng Xi was a tragic person. even Ye Mo felt touched by their love.

"Brother Ye..." Ji Shu pulled Ye Mo again helplessly. He believed Ye Mo was no ordinary immortal, but his performance today was below standard.

"Haha, Ye Mo is a friend I met during body refinement, he has exceptional understanding of body refinement..." Ji Shu introduced awkwardly.

Sii Shiyu sneered. "Brother Ji, your friend is too high caliber, I can't be friends with him. Martial sister Li, let's go."

Then he turned and said no more. Li Kun glanced at Ye Mo once and said nothing. Then she was about to leave.

Ye Mo quickly called, "Martial sister Li Kun I have some business with you."

Ye Mo didn't speak of Feng Xi, he didn't know if she liked him or not. If she didn't, then it was bad to bring it up.

Chapter 1718: Truth divine emperor

Seeing Ye Mo's failure, Ji Shu laughed "Let's go, we'll go to the Flying Dawn Immortal Tower and sit for a while."

Yin Hui, Qi Beicang, Jiu Ruyan all felt it was a good idea so the five just went there straight away.

Ji Shu was afraid Ye Mo would be dejected so he changed the topic. "Brother Ye, Flying Dawn Tower is the biggest restaurant in the city. There's the best immortal wine, Drunk Jade Well, and there's also top grade spirit fruit. Even the tastiest immortal spirit beast meat is here too."

Ye Mo patted Ji Shu's shoulder. "Brother Ji, don't worry about me. I just have some business with her, it's not what you think."

"You know her?" Ji Shu smiled at Ye Mo.

Ye Mo was speechless, how could he say he knew her? There were too many things involved.

"Don't think about that, I'll introduce a few pretty goddesses to you." Ji Shu laughed. Ye Mo didn't know her but still had business with her, it was clear what he wanted.

"Brother Ye, Ji Shu is right, it's simple to meet pretty goddesses, our Ruyan goddess is on par with Li Kun. Or you can go to those female sects in Chang Rong Heaven, I promise you'll get what you want there." Qi Beicang laughed.

Jiu Ruyan grunted, "Qi Beicang, why did you involve me, what did I do to you?"

"Please forgive me." Qi Beicang smiled and saluted with his fists.

Ye Mo could tell that they were really close and thus joked around like this. At the same time, he felt very grateful. Ji Shu's friends were all very nice, they said these things to help him forget what happened before.

Soon, some immortal fruits and Drunk Jade Well was brought up.

The Drunk Jade Well was indeed good, the taste was lingering and the immortal spirit chi inside was extremely dense. The wine would automatically turn into immortal essence.

“There’s actually another name for this Drunk Jade Well called Poorest Wine. If you fall in love with this wine, you will spend all your immortal crystals on this and eventually become poor.” Yin Hui laughed.

Ye Mo forgot about Li Kun already, if he saw her in the future he could bring it up. If not, never mind.

As they drank, they started discussing cultivation methods and the conversation went very well. When the three knew Ye Mo was immortal nirvana body immortal, they were even more hospitable to him. Ye Mo didn’t explain he was immortal spirit body, he didn’t need to show it off.

When they discussed cultivation method and cultivation with Ye Mo, they indeed found that Ye Mo had his unique perceptions. Sometimes, one sentence from him would enlighten them on a trouble that had confused them for half a day.

Jiu Ruyam asked Ye Mo a few questions and raised her cup to Ye Mo. “Martial brother Ye, your cultivation is lower than mine but your understanding of cultivation method is very succinct and clear; sometimes you explain things better than my master, I’ll cheer you one.”

Then, she finished the cup, Ye Mo quickly did the same.

Seeing this, Jiu Ruyan said, “Martial brother Ye, martial sister Li Kun is very pretty, there are many people chasing her, I suggest you not to. I heard other than martial brother Sii Shiyu, small immortal king Lu Mang is also deeply in love with her.”

“Lu Mang is Chang Rong Heaven’s heaven lord, Qian Ze immortal emperor’s personal disciple, he has very high status in Chang Rong Heaven. Although my father is friends with Qian Ze immortal emperor, his status to the immortal emperor is much lower than Lu Mang’s,” Ji Shu said.

Ye Mo knew what the two meant, if he offended Lu Mang, even Ji Shu’s father wouldn’t be able to help.

“Lu Mang is a top grade prodigy of Chang Rong Heaven, half a year later, there will be an extreme grade great immortal dao discussion social in Yuan Dong Heaven. Almost all the prodigious great immortals of the grand heaven domains will go. Little immortal king Lu Mang will definitely go too, we can go as well.”

Ji Shu wanted to take Ye Mo to see Lu Mang, perhaps Ye Mo would give up his thoughts after he saw how talented Lu Mang was.

“Yes, it’s all the best prodigies below status immortal going, some of them are halfway to status immortal. It will benefit us to go listen.” Jiu Ruyan nodded.

Ye Mo asked in confusion, “Lu Mang is already an immortal king, why is he still going?”

Qi Beicang laughed. “Lu Mang is a small immortal king, not an immortal king. Although he’s great eternity immortal peak stage, he’s no weaker than an ordinary immortal king, thus the title small immortal king.”

“Lu Mang and Li Kun are both the top grade prodigy of Chang Rong Heaven, both of them are great immortal power, they are invited to go. We can’t participate but we can listen in. There will also be large auctions there. I came out after reaching immortal nirvana body tertiary stage partly due to this dao discussion social,” Ji Shu explained.

“Okay, thank you, I want to go see too.” Ye Mo agreed without hesitation.

“Brother Ye, we’re quite similar. It’s definitely worth a go.” Qi Beirong laughed.

Ye Mo was speechless, he wasn’t similar to this guy.

Seeing Ye Mo’s awkwardness, Yin Hui laughed “Even if you’re not similar you can still go. I heard there will be a god artifact, Outer Realm Flying Spear. It can cross heaven domains and even realms, but it seems to be incomplete.”

“Cross heaven domains and even realms?” Ye Mo asked in shock.

He knew that it was usually top grade immortal ships that could cross heaven domains and realms, but they were too big and spent a lot of time in the void. They were very sturdy and small void fissures couldn't affect them at all, but large ones would still destroy the ship. However, they usually had specific routes that avoided most of them.

But god artifacts were different. They were beyond extreme grade immortal artifacts. The immortal realm was large but there were very few people who could forge god artifacts. Those who could were called divine masters.

Due to very few people possessing this skill, there were no divisions amongst divine masters.

God artifacts weren't the best magic artifacts in the immortal realm, the best magic artifact weren't forged, they were naturally born. Beyond god artifact was primordial artifact, above that was chaos artifact.

"I heard of that Outer Realm Flying Spear, it's incomplete but only a few ordinary restrictions are broken, it doesn't affect its flying capabilities. I heard a divine master made it according to Void Flying Snow's properties. It's even faster than Void Flying Snow and can accurately avoid void storms and asteroids..." Ji Shu said.

Ye Mo suddenly thought of that ghost ship he had encountered.

"Immortal friends, I want to ask, have you heard of a ghost ship?" Ye Mo asked.

The room fell eerily silent.

Seeing this, Ye Mo coughed "What's wrong, everyone?"

Ji Shu breathed. "Those who often go in the void all know about the ghost ships. Those who encounter ghost ships would die for sure. If it's a high level ghost ship, not even immortal emperors can escape..."

"There's different levels of ghost ships? Are there many?" Ye Mo asked in shock.

“Judging by your tone, don’t tell me you’ve encountered one?” Qi Beicang coughed and said, “My bad, Ji Shu you explain to Ye Mo.”

He thought that if Ye Mo encountered ghost ship he wouldn’t be sitting here.

Ji Shu nodded and said seriously, “Do you know truth divine emperors?”

Ye Mo shook his head, he actually didn’t know.

Remembering Ye Mo came from a middle heaven domain, Ji Shu didn’t think much and explained, “Truth divine emperor is the strongest of the nine dao vindication divine emperors.”

Ye Mo was confused, from Hao Heaven emperor, he was told that there wouldn’t be more than four or five dao vindication divine emperors. How come there were nine now? Ji Shu’s story sounded like what Peng Gandang said.

Ji Shu continued, “Truth divine emperor is not only immensely powerful, he’s the one with the most treasures. It’s said that he not only has a time formation disk, but he also got the Bitter Bamboo and even the World Mountain...”

Hearing this, Ye Mo’s back went cold, why did Ji Shu speak of the things he had?

Chapter 1719: Ye Mo’s sense of danger

“I’ve heard of the bitter bamboo, it’s one of the ten great spirit plants, cultivating under it can prevent you from being attacked by heart demon and also increase your learning abilities.” Jiu Ruyan said.

“That’s right.” Ji Shu nodded and continued “It’s because that all his things were so unique that people were jealous. It’s said that truth divine emperor was very cocky and never reasoned with people. He would kill whoever offended him.

In the gathering of nine divine emperors, he was interested in the daughter of another divine emperor and just pointed at her saying "You will be with me from now on." One could see how dominant he is. Finally, his actions caused the other eight divine emperors to attack him together."

Qi Beicang said in contempt "Of course they needed an excuse to gain up on him. Who knows why they really did it? I heard that the reason truth divine emperor was gained up on was because he got the bitter bamboo. However, the bitter bamboo wasn't willing to recognize him as the master so other divine emperors told him to bring it out and see who could become its master. truth divine emperor disagreed and so they fought."

Yin Hui quickly said "Beicang, don't discuss the other divine emperors."

Qi Beicang nodded.

"Although truth divine emperor was ambushed, that battle was tremendous. The heavens and earth changed, the stars shifted. It's said in the ancient times the immortal realm only had one heaven domain, due to that battle, the immortal realm was split into the 33 heavens. As time went on, void severed and the immortal spirit chi of the 33 heavens were different forming the now grand, middle and low heaven domain."

Ji Shu's words shocked Ye Mo. He had never thought the 33 heavens came to be in this way. Just how many people died.

"Then wouldn't the people during that time be..." Ye Mo asked.

Ji Shu nodded "that's right, it's said less than ten percent of the people lived. And the law of the immortal realm was broken making it harder for immortals to grasp laws. So after that battle, no divine emperor ever came into existence. After that battle, only four to five of the divine emperors remain."

No wonder Hao Heaven emperor said four to five divine emperor, Ye Mo finally understood. Thinking about what he had, he asked worriedly "Brother Ji what about that truth divine emperor?"

"Truth divine emperor lost his body and essence spirit under their attack but I heard that truth divine emperor didn't truly die. A sliver of his essence spirit escaped into the void. In order to avoid being

annihilated, that sliver of essence spirit turned into countless spirit cultivators. These spirit cultivators would keep growing stronger and devour souls in the void. Many heaven domain immortal ships would be devoured clean if they encountered such spirit cultivator.”

Now, Ji Shu looked at Ye Mo “now do you know what ghost ship is? The ghost ship is a sliver of divine emperor’s essence spirit turning into spirit cultivator, it’s invisible. Any immortal who see it isn’t far from dying. There are also different levels of spirit cultivator. The higher they were the more chances of dying. Of course, this is only a legend. I’m not really certain if the ghost ships are made from divine emperor soul.”

“Then isn’t it like the nine headed void devouring bug?” Ye Mo asked. The nine headed void devouring bug split out souls that grew stronger individually before fusing back together.

“It seems similar but is actually very different. The nine headed void devouring bug divided souls need to be controlled by people while truth divine emperor’s essence spirit would seek other souls to merge together once it grew to a certain level.” Ji Shu explained.

Ye Mo was more and more shocked. This was too scary. If this was true, then he was too lucky to be able to escape that ghost ship. Regardless, Ye Mo rejoiced him putting on stealth restriction on the bitter bamboo leaf. but even so, he wasn’t certain if it was exposed.

“Why doesn’t the other divine emperors care about the ghost ship?” Ye Mo asked.

Ji Shu shook his head “I heard that after the battle, the other divine emperors rarely came out. They were unseen. They were probably heavily injured. as for the ghost ships, as long as they didn’t enter the heaven domain no one would care.”

“What about the top grade magic artefacts of truth divine emperor?” Ye Mo asked.

Qi Beicang said “I heard about this, it’s said his top grade magic artefact flew into the corners of the 33 heavens, some even in the world. Some low grade magic artefact went into the cultivation realm...”

Hearing this, Ye Mo was shocked. Luo Yue continent’s Truth Fall Palace was truth divine emperor’s magic artefact.

The more he thought about it the more he thought it was right. There were spirit cultivators at level seven of the Truth Fall Palace, they were controlled by truth divine emperor's sliver of soul. If this was so, then the opening of Truth Fall Palace was a shenanigan. Every 30 years, countless elite cultivators would go into the Truth Fall Palace to give their souls to the spirit cultivators. Only those talented and with a strong soul could reach level seven.

At the same time, Ye Mo thought of the bitter bamboo and world rock he got at the Truth Fall Palace forbidden grounds. They all belonged to truth divine emperor. Now that he had it, the first thing truth divine emperor would do after he recovered was to annihilate him.

If he could still defend a little against He Yi immortal king and Lu Zhengqun, then against a divine emperor, he could only await death.

Although Ji Shu said these were just legends but Ye Mo was very clear that at least more than half was real.

Seeing Ye Mo's face was bad, Ji Shu said "Let the gathering today end here, brother Ye are you going to my cultivation home or..."

Ye Mo quickly said "I'll go rent a cultivation home in the city."

"No problem, I'll handle it." Ji Shu answered.

...

This was the third day after the gathering but Ye Mo was still in his cultivation home in contemplation.

Ji Shu helped rent this cultivation home, the immortal spirit chi was very dense and the environment was great too. However, Ye Mo was still full of thoughts in his head.

He really didn't take Lu Zhengqun seriously nor He Yi immortal king. It would only be a matter of time before he surpassed them.

But what about truth divine emperor? If truth divine emperor recovered, where could he live?

Ye Mo no longer had the mood to stay here, he planned to go to Yuan Dong heaven and get Hao Heaven grand emperor's heritage first.

With this, Ye Mo immediately went to find Ji Shu to say good bye. He didn't find him however, he left with his friends as though he had something important.

...

Walking on the streets alone, it was evident he was poor.

Everyone had pretty magic artefact clothes and luxurious armor while he only had a normal shirt. His armor was very ordinary too. Ye Mo had been in divine damnation and body refinement frequently and used up all his defense magic artefact much less armor. His magic artefacts on him now were all made from void secret silver. It was good for forging defensive immortal artefact and attack immortal artefact but not good for armor.

Ye Mo didn't care about this, he was thinking about how to get to Yuan Dong heaven.

The heaven domain teleportation formation costed a few million. Ye Mo needed immortal crystals so he decided to go sell something at a merchant tower.

A beautiful instrumental music sounded and Ye Mo was immediately captivated. He then saw 12 goddess coming over on clouds, they were playing music as they went.

The rainbow clouds moved in an aesthetic rhythm that seemed very pleasing. There was a huge lotus cloud in the center that was empty.

The people on the road moved aside. Ye Mo also moved aside, giving the spacious street over to these goddesses.

“Who is Ethereal Immortal Pond greeting this time, such big scene...”

“This is nothing, look, it’s the Ethereal Immortal Pond 12 sounds.”

Ye Mo was shocked. Ethereal Immortal Pond was a 8 star sect in South Peace State. He didn’t expect that Ethereal Immortal Pond had such huge status in the immortal realm? they were even in the grand heaven domain.

Chapter 1720: Li Kun’s sorrow

A blue dressed female immortal walked out of a luxurious immortal rest tower with the company of a thin eyed great eternity immortal.

Ye Mo immediately recognized the two. It was Long Yue emperor sect’s Sii Shiyu and Li Kun. Ye Mo thought she had left here but instead she was still here.

“The Ethereal Immortal Pond 12 sounds were ordered by the saint to come greet Xi Yue goddess.” The 12 goddesses standing on the clouds had very crisp voices and spoke in unison.

Seeing them each hold a different music instrument, Ye Mo realized why they were called the 12 sounds. Even though Li Kun came from an emperor sect, this greeting was too serious for her.

Li Kun’s name was called Xi Yue goddess, she probably still didn’t forget Feng Xi so she used this name? However, that martial brother of hers stuck to her non stop making Ye Mo unable to talk to her. Now, he couldn’t go up as well.

Ye Mo shook his head, when his power was high enough, he would go to Long Yue emperor sect. If this Li Kun was already married then never mind, if not, then he would give the bead back to her.

“Ye Mo come over.” A crisp voice sounded by Ye Mo’s ear. Ye Mo looked back in shock seeing that Li Kun was staring at her.

Her tone was very cold and prideful as though he would be running over as soon as he heard this.

Because Li Kun used sound transmission, no one noticed. Ye Mo thought and ignored her. Who knew what she was thinking, if she set him up to offend her or the Ethereal Immortal Pond 12 sounds, he wouldn't be able to take it.

Ye Mo who had experienced all too much, not only didn't go over but instead used mobility technique to disappear from this street. Ye Mo sped up to fly out of Fei Xia immortal city. He didn't want to offend anyone nor any power now.

He approved of Feng Xi but there was no way he was going to risk his life to offend the emperor sect or Ethereal Immortal Pond. He already had enough troubles. He didn't offend any power in the grand heaven domain yet and it was perfect for him to cultivate.

Even that little immortal king was quite enough for him.

She thought Ye Mo like everyone else was coming for her due to her beauty but now, Ye Mo ran away instead. She told Ye Mo to come over indeed because he wanted to teach him a lesson. She detested people who stared at her non stop the first time they met her and even told her to stay.

If it wasn't on the other people's account, she would've taught him a lesson. But now, Ye Mo ran away instead. Did he know what she was going to do or did she really misunderstand him?

Did he really know her?

Li Kun didn't believe Ye Mo knew her, she had ascended to the immortal realm for nearly 10000 years. Ye Mo didn't seem that old, so there was no way she knew him from the cultivation realm. In the immortal realm, she rarely made friends other than people from her own sect.

As Ye Mo left, Li Kun suddenly felt she lost something. She had this feeling three days ago but it wasn't intense. Now, it was more and more intense. After a long while, this feeling disappeared.

Li Kun breathed and greeted the 12 goddesses “Xi Yue thank 12 sisters for coming to greet me. I still have some business, 12 sisters please return. Xi Yue will definitely come visit sister Ning Eu at Ethereal Immortal Pond afterwards.”

“Martial sister LI, where are you going?” Sli Shiyu asked.

Li Kun disappeared from the spot but her voice sounded “Martial brother Sii I have some private matters. After this I will be going to Ethereal Immortal Pond straight away, martial brother Sii can go back to the sect first.”

Sii SHiyu’s face was very bad, Ye Mo was in one corner of the street and left quickly. He didn’t expect a mere great extreme immortal was enough for his martial sister to chase out. If he met this guy alone outside, he might even kill him.

He thought that Ethereal Immortal Pond people would invite him to the sect too but instead this happened. Now he didn’t even have an excuse to go.

Just when the 12 sounds didn’t know what to do a voice sounded “In this case, you guys go back first. I will go with Xi Yue goddess later.”

“Yes...” The 12 sounds left the city.

...

Ye Mo breathed easy after leaving the city. He didn’t exchange immortal crystals but it was fine, the teleportation formation to Yuan Dong heaven wasn’t at Flying Dawn city anyways. He would get to Ping Liang immortal city first. The young city lord was Qi Beicang.

This Qi Beicang seemed like a fancypants but he was a genuine person.

Just when Ye Mo was about to release his Blue Moon, a space rippled came. Ye Mo was shook and just when he wanted to use mobility technique, he heard LI Kun’s voice “Do you really have business with me?”

Ye Mo didn't answer her, he scanned his spirit sense out and ensured there was no other people before breathing easy "that's right."

"Then tell me." Li Kun's tone eased up a bit, she felt that sense of calling grow stronger when she neared Ye Mo.

Ye Mo frowned, this was too close to Flying Dawn city, if people saw him with Li Kun it wasn't good.

No one would reason with a mere great extreme immortal. Even if they knew there was nothing between them some people would still kill him without hesitation.

"I can't say it here, if you want to know then follow me." Ye Mo released Blue Moon and dashed away.

Li Kun frowned but said nothing. She released a flying magic artefact and followed over too. It was also a top grade flying immortal artefact and seemed to be higher level than Ye Mo's.

In less than 5 minutes after they left, another figure landed where they were. It was Sii Shiyu, he wanted to confirm if Li Kun was here with Ye Mo but he found a spirit sense mark here.

It was left behind by Li Kun, her tone was very uncomfortable and even warned Sii Shiyu to stop following. Sii Shiyu sneered and left.

Four hours later, Ye Mo finally stopped. This was an extremely distant valley with ordinary immortal spirit chi, no immortal would come here.

Even so, Ye Mo still set up a few restrictions covering up their chi.

Seeing Ye Mo's fluent means, Li Kun was surprised. Even the top immortal formation sects wouldn't have such prodigies.

She just waited for Ye Mo on the side. She wasn't afraid of Ye Mo suddenly attacking, Ye Mo was only great extreme immortal primary stage while she was great eternity immortal tertiary stage.

After finishing this, Ye Mo looked at Li Kun and said "before I say it I want to ask you one thing. Just tell me clearly."

"Okay." Li Kun said.

"Your martial brother Sii Shiyu seems to love you and I heard that little immortal king Lu Mang feels the same way too and wants to engage with you. Is this real? What do you think?"

However, Li Kun didn't reproach Ye Mo for asking this, she said calmly "Yes, you're right but I already love someone, I won't engage with anyone. No one can force me, not even heaven lord disciple."

"You love Feng Xi? You didn't forget him?" Ye Mo suddenly realized why Feng Xi loved her this much.

"You know Feng Xi, where is he, where is he...." Li Kun's tone became very shaky.

Seeing this, Ye Mo thought to himself, this woman was indeed worth Feng Xi loving her. From her actions, Ye Mo knew she never forgot him.

"Feng Xi's spirit transfer formation, he was tricked by his father, he wanted to set up soul nourishing formation, using his own soul to nourish yours...." Ye Mo started explaining.

"I know all this, I know..." Li Kun murmured.

When Ye Mo said that Feng Xi was injured by Li Kun's father and then used by Miao Huizhen as a soul jar and even when he lost his soul, he murmured non stop "Where is my Kun" Li Kun's face was covered in tears.

"When I saved him he's soul was gone, he turned his will into a tear bead. I've brought this here, you can have it." Ye Mo took out the bead and gave it to Li Kun.

Li Kun grabbed the bead shakily, a familiar chi came, the two red tears on the bead made Li Kun unable to control the sadness in her heart. She knelt of the ground and in a heart tearing cry

“Feng Xi....”

Two blood tears flowed out and fell onto the bead.
