

Strongest As 1731

Chapter 1731: Ye Mo's god art

How could Lu Mang not hear the scorn in Ye Mo's words. He had been prideful to be called little immortal king but now he was scorned.

"Lu Mang, if you have no business then we'll be going." Li Kun was very unhappy that Lu Mang suddenly stopped Blue Moon and interrupted Ye Mo's cultivation. Then, he asked who Ye Mo was rudely, now her tone had a sliver of disgust.

Lu Mang's fury flashed and immediately knew that if he continued down like this, it would only make Li Kun hate him more. Li Kun wasn't a goddess that he could do anything to. He couldn't casually abuse even an ordinary sect members of Long Yue emperor sect much less a core disciple.

Thinking about this, Lu Mang suppressed his fury and smiled "Since Xi Yue goddess is busy Lu Mang won't interrupt. Next time I will come visit you at Long Yue emperor sect, goodbye."

Then, Lu Mang disappeared, he really left.

"Having a heaven lord dad makes all the difference." Ye Mo looked at Lu Mang and sighed.

Lu Mang was half way immortal king, his immortal essence was very dense and stable.

Li Kun smiled "Qian Ze immortal emperor isn't his dad but his master. however, Qian Ze immortal emperor is very nice to him and his talent is top grade in Chang Rong heaven. He has the right to be arrogant. Seeing him go pass here, he seems to be going to the Ping Liang immortal city to take the teleportation formation. He's probably going to the Yuan Dong heaven dao discussion social."

Ye Mo didn't have the mood to find that spirit sense mark anymore after this, he sat in Blue Moon chatting with Li Kun instead.

Blue Moon flew only for half a day and another issue happened. Two great eternity immortals were fighting ahead and even blocked Blue Moon's road.

Ye Mo wanted to control Blue Moon to move aside but one of the great eternity immortal threw out a rune and soon disappeared. Seeing this, the other great eternity immortal vented his fury on Ye Mo and Li Kun, he blocked Blue Moon with his magic artefact.

Before he attacked, another flying magic artefact came over quickly. There were two great eternity immortal on there as well. These two were great eternity immortal middle stage but the first one was great eternity immortal tertiary stage.

"Martial brother Pang Tai, where is the person?" One great eternity immortal middle stage asked.

Pang Tai sneered "He got away because these two stopped me."

"You're asking to die..." The two great eternity immortal middle stage immediately surrounded.

Pang Tai said to the two "Ming Cai, kill that small great extreme immortal, Guang Hui and I will take on this woman."

Ming Cai's killing intent immediately rose and so did his power. Clearly he really wanted to kill Ye Mo.

Li Kun released her magic artefact without hesitation. She had never seen such unreasonable people.

Ye Mo sneered "Lu Mang only sent you guys?"

Li Kun instantly realised that these three guys were sent over by Lu Mang. He couldn't attack himself so he sent these three. If two of them stop her, the other one could kill Ye Mo.

Li Kun just wanted to grab Ye Mo but Pang Tai attacked. With this Guang Hui also seemed off Li Kun.

Now, Ming Cai released a fire red stone sword. To him, Ye Mo was dead. The fire sword raised a 3 km long red rainbow and hacked down.

Space and sound turned to nothing with this strike, as though evaporated by fire.

Rumble...

The sword seemed to have melted all the space nearby and all that was left was black void.

The pressure that landed with this strike in the heaven gave people a feeling of despair.

Even Li Kun felt the despair from this sword and called out in shock "If Lu Mang dares to kill my brother, I'm going to fight him with my life..."

She was really shivering, this strike was clearly going to kill Ye Mo. How could a great extreme immortal primary stage stop this.

Ming Cai indeed wanted to kill Ye Mo with this strike. The order they received was to kill Ye Mo as quickly as possible. Then they can run.

In that moment, the heavens were covered by the red color and Ye Mo was traceless inside.

Li Kun in her desperation was full of openings but her opponents didn't deal killing blows. They seemed to be fighting with her at full power but only really blocked her off.

It was someone who played with fire, Ye Mo felt the endless fire and special pressure. This immortal had a special flame, this wasn't bad for a great eternity immortal middle stage.

When the huge sword fell down with the flame, Zi Xu hacked out.

Ye Mo's first god art, rainbow.

This wasn't even a god art yet, it only had a sliver of god art. It was between magic artefact and god art.

Ye Mo wanted to test how strong the god art he learned at the dao seeking tower was. This was only his weakest move.

A purple color lit up amongst the red. The purple color instantly filled the red flaming sky. The purple color soon turned to countless colors and the black void was turned colorful.

The void seemed to be filled with life now.

Rumble.

The rainbow and red clashed together, red color splashed everywhere and the rainbow color expanded rapidly.

Crack. A terrifying explosion sounded in the air, their fights even paused for a moment while scanning their spirit sense over.

Zi Xu and the stone sword clashed, the stone sword made a cracking sound as though it was about to break.

When the rainbow colored sword rays came at him, Ming Cai just realised in shock that his lethal blow was gone.

At this moment, he felt the threat of death. How could there be such a powerful great extreme immortal? He was only a great extreme immortal primary stage?

Ming Cai didn't dare to think about it and released a hemisphere barrier immediately. He was scared. Never had there been a person a few levels lower than him make him feel this scared.

Thud thud thud.

The endless rainbow sword ray smashed on his barrier and the barrier immediately dimmed down.

He was definitely no match for this guy, Ming Cai immediately realised.

Run. In just a few seconds Ming Cai knew that if he didn't run he would die here. The young master's order was important but his life was more important.

He immediately activated mobility technique.

"Void, kill."

Ye Mo didn't even care, he didn't even take back Zi Xu and just punched.

Void!

This was a true god art, his first real god art. It fused hao heaven finger and space law. He had tried rainbow and this half god art gave him results far beyond his expectation. He wanted to try what his real god art was like.

The space nearby seemed to have compressed over and the endless killing intent was closed together by space into this fist.

This fist had terrifying and unrelentless killing force that dazed Li Kun and them. They looked at this fist in terror. This wasn't something a great immortal could release, not even immortal king might be able to release such a terrifying punch.

Immortal king would have more damage but they wouldn't have this killing and grand force.

What fist was this?

Whirlpools swirled in the void, no this wasn't whirlpool, this was killing chi and killing force forming into a destructive chi.

Thud.

Blood sprayed in the air.

Ming Cai wasn't even able to walk one step away and was turned to nothing by this punch. The killing force of this punch still hadn't completely dissipated and it swept Ming Cai's terrified essence spirit into the whirlpool.

Chapter 1732: Search for Will Mountain

The two great eternity immortals fighting Li Kun looked at Ye Mo in pure shock. What power was this? It was only less than 10 seconds and a great extreme immortal killed a great eternity immortal. If Ye Mo was great eternity immortal peak stage and Ming Cai was great eternity immortal and then after an intense battle, Ye Mo killed Ming Cai, that would be more logical.

But Ye Mo was only great extreme immortal primary stage but Ming Cai was great eternity immortal middle stage. The difference in power was huge, how could this happen?

The two woke up instantly. Ye Mo was this terrifying, if he came to stop them, they wouldn't even be able to get away.

Run, the two great eternity immortal immediately used mobility technique and disappeared tracelessly.

Ye Mo looked at his fist dazily, that rainbow half god art already gave him great confidence but this void made him realise what was real god art. Thinking about the hao heaven finger that almost annihilated him, Ye Mo was more and more satisfied with his void.

He didn't know the two great eternity immortal ran away but even if he did he didn't care. He had a few god arts now and he only used one strike and punch to kill that great eternity immortal middle stage. This meant that he could fight great eternity immortal peak stage or even kill them.

“Brother.” Li Kun flew over in joy. she didn’t expect Ye Mo was stronger than her. Were all immortal spirit body immortals this terrifying?

Ye Mo breathed and took Ming Cai’s storage ring before calling “Sister Xi Yue.”

“I was so scared, I didn’t expect you were this strong. Was that punch god art?” Li Kun couldn’t hide the joy and surprise on her face.

Ye Mo nodded “Yes, it’s a god art I created, I’ll mark a jade slip for you. But that punch requires a sliver of space law…”

Just when Li Kun wanted to say she didn’t need it, she heard space law and spoke in shock again “You actually know a sliver of space law?”

Ye Mo nodded “In this occasion, I touch a sliver of space law. So I combined it with an attack from my opponent to creat this punch.”

“Let’s go first.” Li Kun pulled Ye Mo on Blue Moon and then said “Brother, you must not tell people you know space law. If people know you can master law as a great extreme immortal they might think you have some secret.”

“I understand.” Ye Mo replied seriously. More talented people find it easier to control a sliver of law but this wasn’t definite. It’s mainly about learning capabilities and fortune. No matter how great your talent was, if you had bad learning capabilities or fortune you wouldn’t be able to master such thing.

“Now that your tracks are exposed, the Ethereal Immortal Pond would know you’re fine even if you hide. When we’re at Yuan Dong heaven, come see my master with me. I’ll ask my master to help explain things.” Li Kun said.

Ye Mo fell silent for a moment and said “Sister Xi Yue, at Yuan Dong heaven I want to find a solitary place to cultivate and wait for things to calm down before coming back.”

Li Kun thought about it and agreed, she nodded "Okay, after I settle your things you come and find me. However you killed Lu Mang's men, he wouldn't dare to attack you overtly but he would attack from the dark, be careful of that person."

"I know, I think even if he's fake immortal king I won't be afraid of him." Ye Mo had a direct sense of his god art. As long as Lu Mang didn't reach immortal king, he really wasn't afraid of him.

Li Kun also felt proud, who was Lu Mang? He didn't have a match below immortal king but Ye Mo said he wasn't afraid of him. she knew Ye Mo wasn't bullshitting.

The two chatted on the way and took another teleportation formation. It was only two days and they arrived at Ping Liang immortal city.

The two didn't walk around the city and headed straight to the teleportation formation. The two had decided that at Yuan Dong heaven, Ye Mo would leave alone. Staying with Li Kun was too eye catching.

"Brother Ye..."

As soon as they arrived at the teleportation formation, there was the greeting from Ji Shu. Ji Shu was overjoyed to see Ye Mo but then he dazed, he saw Li Kun next to him.

Ji Shu, Qi Beicang, Jiu Ruyan, Yin Hui and them all looked at Ye Mo in shock as well as Li Kun next to her.

"Haha, brother Ye, I bluff in front of you before, you're the real master. amazing, amazing." Qi Beicang raised his thumb believing Ye Mo was with Li Kun now.

Ye Mo smiled "Brother Qi, you got it wrong, Li Kun is my sister."

"Yes, yes, I know, sister and brother, of course I know." Qi Beicang's face was covered in understanding.

"Brother Qi, brother Ji, you guys are going to Yuan Dong heaven dao discussion social right? We can go together." Ye Mo said.

Qi Beicang quickly signaled to Ji Shu but Ji Shu already knew. He quickly said " Brother Ye we still have some business, we'll go later. You can go with goddess Xi Yue first, we'll talk at the dao discussion social."

Then, they quickly left the teleportation formation as though they were just here to have a look.

Ye Mo shook his head and could only go on the teleportation formation with Li Kun first. He would explain this misunderstanding later.

...

"I think you all guess wrong." Jiu Ruyan said.

Seeing the four look at her in confusion, she said "I feel martial brother Ye was serious, he really became brother and sister with Li Kun."

"Huh..." They immediately stopped talking and looked at Jiu Ruyan. If this was real, it would be too strange.

"Sigh, let's chase over quickly. I have a few questions I need to ask brother Ye." Ji Shu quickly said.

They all agreed and hurried back to the teleportation formation. They moved away before to give the two personal time.

...

Ye Mo didn't know they came back wanting to go Yuan Dong heaven with him. He had separated with Li Kun now.

Ten days later, Ye Mo appeared at the extreme south where the Hao Heaven heritage was, he came to find Will Mountain.

Ye Mo thought will mountain would be very famous but he had been asking around for a few days and still didn't get an exact location.

He was wasting time. At the same time, he looked down on Hao Heaven grand emperor for only leaving a bead and mountain name for heritage.

Ye Mo came to an immortal town, he came to ask about the will mountain. This town was very distant, the main reason for the establishment of this town was to convenience trade for those cultivators finding cultivation resources. Thus, the biggest place in the town was a market place.

Ye Mo walked into a spirit rest tower and just when he wanted to ask about the Will Mountain, he heard people talk about Feng Kong grand emperor.

Ye Mo listened in, this Feng Kong grand emperor seemed to be related to him.

The immortal wine at this town wasn't on the same level as the drunk jade well but it had enough immortal spirit chi.

It was four immortals, two abstruse immortal tertiary stage and two great unity immortal primary stage talking about Feng Kong grand emperor.

"It's said that other than Feng Kong grand emperor, Dragong River grand emperor would also be going to this dao discussion social. "

"I heard there's three grand emperors going this time, Wei Feng grand emperor would also be going. Although he hadn't become a grand emperor for long, he might be one of the new four great grand emperors."

"Yes I believe this, Wei Feng grand emperor is very powerful and is on par with the other three grand emperor. However, it has never happened that this dao discussion social was taken so seriously."

“You don’t know, I just got news that this dao discussion social will be held at fallen emperor mountain. There are plenty of rewards, even emperor dao heritage.”

“Isn’t it held at Ling Ji immortal city? Why is it fallen emperor mountain now?”

Chapter 1733: Emperor fall mountain

After hearing their discussion for a while, Ye Mo finally understood something. For some reason, all the grand emperors came to Yuan Dong heaven. Because of this, this dao discussion social became important.

They didn’t talk about Feng Kong grand emperor anymore nor did Ye Mo dare to go up and ask. One can discuss a grand emperor with respectful tone but if people investigated grand emperor, people might report you.

Ye Mo was very careful about this.

“Do you know why they would suddenly change the location to emperor fall mountain?” Someone joined the discussion.

“No, do you know immortal friend?”

“I know, that’s why I’m planning to go.”

“Immortal friend, please explain it.” The others asked.

This immortal was straight forward “It’s said that some strange things have been happening lately at emperor fall mountain. There’s frequent emperor rays shining, it’s said an ancient ruin is about to appear. Thus, this dao discussion is chosen to be at emperor fall mountain so some prodigies can go in to find the ancient ruin.”

"I've heard about the emperor rays in the mountain these few years, it's said that emperor light is emperor dao crystal. Many people went to find the ruin but all of them who went in died." Someone else said.

Ye Mo heard and thought, emperor dao crystal? Was that emperor fall mountain will mountain? He didn't plan to take the emperor dao crystal but with it was a few immortal ranges.

Just when Ye Mo wanted to ask about emperor fall mountain, someone said "Can people go in the emperor fall mountain? Going in is certain death. If we let those prodigies enter that mountain and something happens, it would be a loss for the grand heaven domain."

"I don't know but there's a reason it's set there. I heard a few immortal emperors would be using heavenly means to set up formation and restriction at the mountain allowing the prodigies to go in safely." One immortal said.

Ye Mo really wanted to know if the will mountain was the emperor fall mountain. If it was, why didn't the immortal emperors go in themselves? But he didn't want to arouse suspicion so he didn't ask.

"Yea, before people just couldn't go in the mountain but there was no emperor light. Recent years, there's not only frequent emperor light but also dense immortal spirit chi. It might really be an ancient ruin."

Ye Mo heard this and suddenly realised something.

A few years ago was when hao heaven's essence spirit completely died. It was when the last sliver of essence spirit turned into a will bead. Hao heaven emperor said this bead could find his heritage. Was it due to his death that something happened to the emperor dao crystal?

Perhaps even Hao Heaven grand emperor didn't know this would happen. Regardless, Ye Mo had decided to go to emperor fall mountain.

"This emperor fall mountain is a strange name, it doesn't seem very auspicious." Ye Mo carefully added.

Hearing this, they were contemptuous but seeing Ye Mo was great extreme immortal, those expressions quickly disappeared.

One abstruse immortal sucked up “Qian bei must be from some other place. the reason it’s called emperor fall mountain is that the will power and pressure of the mountain is too great, the higher the power, the more likely you are to die inside. If immortal emperor went in, it’s 99% chance they will die.”

“Will power?” Ye Mo asked.

The abstruse immortal immediately explained “Yes, will power, there’s not only that but also endless void pressure. It’s like the entire universe is on your shoulders. Once you go in, you can’t retreat. If you reach your limit, you would be crushed by the pressure. The higher the power, the greater the pressure.”

“Yes, will power not only contains the pressure of the void but pressure of time, there’s time distortions inside. Sometimes you’re very young when you go in but if you encounter this power of time, your life might soon reach an end. Or you might return to an infant and disappear from this world.” Someone else explained.

“Thank you, I didn’t expect this emperor fall mountain to be this powerful.” Ye Mo thanked.

Ye Mo was 90 % certain that emperor fall mountain was will mountain. He didn’t understand why Hao Heaven grand emperor didn’t call it emperor fall mountain?

Now, Ye Mo realised why the grand emperors located the dao discussion social at the mountain. They were using them to go inside and find Hao Heaven grand emperor’s heritage for them.

As for them joining up to reduce the pressure, Ye Mo was dubious about this. perhaps they had such capability but the reduction was definitely very limited. Otherwise, they wouldn’t need other people to find the heritage for them.

Ye Mo quietly left the immortal rest tower and released Blue Moon heading towards emperor fall mountain.

He had to go see it regardless. The immortal ranges mattered to Ye Mo too much.

With all those immortal range and his immortal pill and fruits, Ye Mo was confident in reaching great eternity immortal peak stage in one solitary cultivation. Then, he would have chance to reach immortal king. Ye Mo also decided to go to Gong Hua heaven as soon as he reaches immortal king. He had ascended for a long while, who knows if there are Mo Yue City people ascending to immortal realm?

The immortal realm isn't that perfect, Ye Mo was worried about them especially Su Jingwen, her talent was the best. She would be the first to ascend.

...

The mountain wasn't very far from the town Ye Mo was at. Ye Mo only used a day or so and came to the outskirts of the mountain.

A temporary huge marketplace was formed here, more and more immortals were coming.

Ye Mo easily found out that this was indeed the place of the dao discussion social and there really were emperor lights shining. It's been frequent a few years ago but less in these two years. Ye Mo scanned his spirit sense out and he couldn't see the whole outlook of the mountain. It was obscure in his spirit sense.

Ye Mo left the crowded area and head towards the emperor fall mountain secretly. When he was still very far from the foot of the mountain, he felt a terrifying pressure. He couldn't handle it, Ye Mo wasn't able to ensure he would last till the foot of the mountain.

He took out that will bead and as soon as he did, an arrow inside the bead pointed towards the mountain.

Such a sneaky Hao Heaven grand emperor, it really is the emperor fall mountain, why didn't this guy explain it or was there some story behind it. Regardless, Ye Mo wasn't going to die for those few immortal ranges.

Just when he wanted to put away the bead, the bead shot out a faint barrier that enveloped him. Instantly, Ye Mo felt the pressure disappear, or reduced by 90% specifically.

What was going on?

Ye Mo put away the will bead and that terrifying will pressure came again. He picked up the will bead and the barrier formed again to protect him.

Ye Mo put away the will bead. This will bead was morphed from a grand emperor. He was certain hao heaven's essence spirit had dissipated but relying on other's protection to go in and get his heritage, Ye Mo didn't believe things were so good.

Although he agreed to give the emperor dao crystal and other heritage to Cang Jie, he didn't believe Hao Heaven grand emperor would believe him.

Hao Heaven had no choice to give the heritage to him but if he did something such as the protection suddenly disappearing when he found the heritage, then he would die.

Hao Heaven grand emperor knew he had very precious items, what if he schemed something, Ye Mo wouldn't be able to see it.

Ye Mo didn't think he was smarter than a grand emperor who had lived for countless years. The only thing he could do was be very careful.

Chapter 1734: The middle aged man's mark

If he couldn't find a way to stop the pressure without using the will bead Ye Mo would rather not go in the mountain. His memories of the void ghost ship were still clear. If he didn't have the power, he would rather not be greedy.

Ye Mo didn't use the will bead to stop the pressure this time, he tried using the spirit sense net he saw at the Ethereal Immortal Pond.

If he could change his spirit sense net towards that spirit sense net, perhaps it would be able to stop this will pressure.

The dao discussion social hadn't begun yet, it was time for him to slowly try. Ye Mo slowly reached out his spirit sense domain, when it reached to a certain range, Ye Mo immediately felt that the pressure really dropped a little, but it wasn't obvious.

Feeling this way would work, Ye Mo started to reminisce the spirit sense net he saw in the pond and the direction it was set up as he modified his own spirit sense net.

Time passed as Ye Mo tried.

Ten days later, a vibrant light suddenly thought of from the depth of the emperor fall mountain into the clouds. A chi of great dao artefact shot out from the white light. Those immortals outside immediately knelt or sat and focused on feeling this dao chi.

Ye Mo was shook by that light and instantly realised how to set up spirit sense net to block the will power. When he saw that vibrant emperor light, he had the feeling to worship it. He wanted to fuse that emperor dao crystal into his soul and completely forgot he was setting up spirit sense net.

Ye Mo closed his eyes and forced that thought away. That wasn't his dao, he didn't need emperor dao crystal.

After five minutes, Ye Mo's sea of consciousness and essence spirit cleared up. He immediately set up his newly learned spirit sense net. As soon as it formed, all the will power and pressure nearby disappeared.

Ye Mo didn't rejoice, there was just serenity in his heart. He knew that his mind state went one level higher. His Spirit Will Nine Transformations went from the obscure level two soul shatter to level three domain birth.

When Ye Mo opened his eyes again, that emperor light had disappeared. Ye Mo breathed easy, he relied on Spirit Will Nine Transformations and that spirit sense net from the Ethereal Immortal Pond to find a way to stop the will power pressure.

But even so, Ye Mo didn't go into the emperor fall mountain immediately. He was able to stay alive on the ghost ship because he was careful.

Ye Mo retreated and left on Blue Moon instead. A hundred thousand km later, Ye Mo stopped. He could set up long distance teleportation formation but that would take a long time. In a short while, 100,000 km was the maximum distance he could set up.

This was enough for him to escape from the mountain and leave casually.

After setting up the teleportation formation, Ye Mo didn't go into the emperor fall mountain immediately. Instead, he left to another far location and went into the golden page world.

The first thing he did was to take out the star core flame. It was meant to be used to upgrade mist lotus heart fire but Ye Mo wasn't really going to use it on the mist lotus heart fire. Blue Like Morning Sky was purple nirvana level three, of course he would use it to upgrade Blue Like Morning Sky.

He would prepare himself as well as he could. If he upgraded Blue Like Morning Sky to immortal flame, he would have an extra chance of survival.

Even though Ye Mo knew the middle aged man probably wouldn't do anything to the star core flame, Ye Mo still checked it carefully before letting out Blue Like Morning Sky.

Ye Mo then threw the star core flame into Blue Like Morning Sky.

Rumble.

The terrifying blue flame charged into the sky, Ye Mo quickly moved to the side. Luckily he was prepared this time and tested in the corner of the golden page world. otherwise, this blue smoke can dry up his immortal spirit herb garden.

The vibrant blue immediately illuminated the entire golden page world.

Even though Blue Like Morning Sky was his own, Ye Mo felt the intense scorch.

The blue flame rolled in the air but Ye Mo felt waves of chaos chi charge into the Blue Like Morning Sky and was quickly devoured.

Suddenly, Ye Mo felt there was something extra in the golden page world, that thing seemed to be circulating around Blue Like Morning Sky. Ye Mo was certain that if the golden page world wasn't his, he wouldn't be able to feel that.

This was because that thing only existed in will, it had no physical body.

The Blue Like Morning Sky was his and so was the golden page world. the star core flame had been devoured by Blue Like Morning Sky and the chaos chi was devoured by Blue Like Morning Sky too. He could feel all of this, if there was something he couldn't control in here it wasn't his. What would it be then?

No color, no body, even the upgraded Blue Like Morning Sky couldn't burn it?

Ye Mo sweated cold immediately. He finally understood what this was, it was definitely the spirit sense mark of that middle aged man. He just thought that there was no way he would leave it in the star core flame but immediately he found it now.

If he really upgraded mist lotus heart fire with the star core flame, he might not be able to detect it even with the golden page world. after all, mist lotus heart fire was too low grade. Once the heaven flame upgrade, he would take it back. That invisible thing would immediately fuse into his body.

This old thing was too scary, Ye Mo finally realised how cocky he was before. if he really thought he would be able to find it, it would be a joke. Even if he was at immortal king, he might not be able to find it if it was on his body.

But the old guy miscalculated he had Blue Like Morning Sky and golden page world. now, the mark was forced out by Blue Like Morning Sky. Blue Like Morning Sky couldn't burn it but the mark couldn't go in

the Blue Like Morning Sky anymore. It could only circulate Blue Like Morning Sky. If Ye Mo took Blue Like Morning Sky back now the thing would still go into his body.

Ye Mo wasn't going to let that happen of course. Blue Like Morning Sky had finished the upgrade, it was a true blue flame now with four golden lines around it.

Ye Mo kept setting up restriction and formation flags. He was going to trap this spirit sense mark in the golden page world. this world was his, he could do anything he wanted here.

Even though he couldn't see the spirit sense mark, Ye Mo used three days and completely trapped it. then he took back Blue Like Morning Sky and left the golden page world.

As for the yellow middle plum, Ye Mo decided to study it later. That old monster's things weren't to be easily taken.

...

Ye Mo felt great after upgrading Blue Like Morning Sky and finding that spirit sense mark. He came back to the emperor fall mountain. This time he didn't use his spirit sense net and instead used the will bead to protect him.

It could allow him to preserve his spirit sense.

The barrier formed completely covering Ye Mo. Ye Mo sped up forward. The bead couldn't stop all the will power and pressure but it could save Ye Mo's life. He just needed to walk slower.

Half a day later, Ye Mo was near the foot of the mountain. Ye Mo instantly put away will bead, the terrifying pressure and will power came. Before they could act on his body, Ye Mo used spirit sense net.

Ye Mo found in joy that his spirit sense net had better effect than the will bead but nearer the mountain, it would just be more taxing.

Realizing this, Ye Mo took out the will bead again and released the spirit sense net. His spirit sense already scanned in this brief moment, the longevity of time. Ye Mo believed that if he didn't use will bead nor spirit sense net he would be able to learn time law here.

Time law is very terrifying, countless times more terrifying than space law but Ye Mo didn't do this. he felt his power was too weak. He decided to come back and learn time law once he reached immortal king.

Chapter 1735: Will river and dao discussion social

He was introduced to time law at the dao seeking tower. If he came back here to learn the time law, he would achieve a lot.

At the bottom of the mountain, Ye Mo slowed down, he could only walk towards the mountain step by step.

The emperor fall mountain seemed to be just before his eyes but all he could see was just a fuzz. The will bead still had a clear arrow leading Ye Mo in the direction.

One day, two days...

Another ten days later, Ye Mo found that the emperor fall mountain was still blurry. Ye Mo stopped and even frowned, if he didn't get in the emperor fall mountain before the start of the dao discussion social and the few grand emperors came, would he be found.

Ye Mo immediately cast these thoughts aside, when the grand emperors came, they would definitely see him.

Ye Mo decided to use another three days, if in three days he still didn't find Hao Heaven grand emperor's heritage, he would leave the emperor fall mountain.

After making up this decision, Ye Mo didn't hesitate and kept following the emperor fall mountain. Another day later, an ethereal river stopped in front of Ye Mo. There was a misty narrow bridge above the river.

The faint misty bridge stretched across the river, there was a stone tablet. Two words will river was on it. the arrow in the will bead pointed towards this bridge.

It seemed he found the right place, there was will river, and will mountain. This bridge is will river.

He couldn't see the other side of the river and his spirit sense was obscured. Ye Mo stood here for a long time thinking about things.

Just those few immortal ranges was worth for Ye Mo to take this risk. If there was really danger, he would go into the golden page world.

After making his decision, Ye Mo stepped onto the will river.

A terrifying feeling came, it was as though Ye Mo entered a time space tunnel. The tunnel kept crushing the will bead and just as he heard before, it was indeed as though the entire universe was crushing down on the will bead.

The will bead barrier was shaky, as though it would crack at anytime. Even so, the bead wasn't able to stop the full power. The will power changed the shape of the will bead.

Ye Mo took another step forward and the pressure and will power seemed even greater.

Ye Mo realised now that Hao Heaven grand emperor left other means. Regardless if he truly wanted to give the heritage to him or not, Ye Mo felt this guy wasn't genuinely giving the heritage to him because he didn't speak of the dangers here.

Because here, he wouldn't even have a chance to return. If the will bead cracked, he would die. Meanwhile, Hao Heaven grand emperor said nothing about this. he just said it was dangerous.

Ye Mo also had the feeling that the will bead wouldn't be able to last him on the way back. If that was really so then Hao Heaven calculated that he would die in the will mountain.

The will bead was barely able to stop the danger but with it, Ye Mo could use his immortal spirit body to barely take it.

The body refinement cultivation method and Three Birth Chant was used at the same time. With Ye Mo's immortal spirit body and the will bead, Ye Mo walked further and further until disappearing from the will river.

...

Outside the emperor fall mountain was completely different to when Ye Mo came a month ago, there were countless immortals sitting in an orderly fashion around a high altar. The altar was around ten meters tall but 10 km wide.

There were cups of wine and plates of immortal fruits floating around in the air everywhere, anyone could take it and consume it.

A man walked up the main altar slowly, he glanced at the immortals below him before saying loudly "I'm the heaven lord of Yuan Dong heaven Zheng Ren, thank you immortal friends from the different heaven domains who have come to participate in the dao discussion social."

A heavy round of applause sounded mixed with countless screams of Zheng Ren immortal emperor. The voices of admiration immediately affected all the immortals here.

Zheng Ren immortal emperor smiled and lifted his hand "The reason this dao discussion social is set at emperor fall mountain is because there is emperor dao crystal light in the mountain. This light might be the heritage left behind by Hao Heaven grand emperor, so..."

Before Zheng Ren immortal emperor finished, his voice was taken over by boisterous discussion. Emperor dao crystal, everyone had fire in their eyes.

There weren't many immortal emperors even in the boundless grand heaven domain. but emperor dao crystal could allow immortals to become immortal emperor.

Zheng Ren immortal emperor raised his hand again "Everyone calm down, the light appeared a few years ago. This time, we're having the dao discussion social here so the elite immortals of the grand heaven domain can go inside and seek the emperor dao heritage.

The emperor fall mountain is full of danger, even immortal emperor would most likely die going inside. So, in order to get the emperor dao crystal heritage, the two grand emperors Feng Kong grand emperor and Dragon River grand emperor would be coming. At the same time, Qing Wei heaven lord, Wei Feng grand emperor would also be coming."

Then, three emperor crested men stepped down from the air and landed on the altar.

Countless immortals went silent and all of them looked at the four with respect.

"I'm Feng Kong grand emperor..." One middle aged man walked up to where Zheng Ren immortal emperor stood and smiled.

Then, there was a fervent wave of applause and respectful cheers of his name.

Feng Kong grand emperor smiled and after the immortals calmed down, he said slowly "Everyone knows that the 33 heaven domains has four grand emperor. I was lucky enough to become one, we four grand emperors are close like brothers. We discuss dao together, wander the heaven domains together, protect the 33 heavens together. Unfortunately, Hao Heaven grand emperor was suddenly ambushed and gained up on. This has always been a pity..."

The dao discuss square fell silent.

Feng Kong grand emperor's voice sounded light but it clearly transmitted to everyone's ear.

"Dragon River grand emperor, Blood Cauldron grand emperor and I have been investigating for countless years but we still have no clue. Now that there's emperor light at the emperor fall mountain,

we speculate that it might be Hao Heaven grand emperor's emperor dao crystal here. So, we came to hold this social. We also want to select a few elite immortals to go into the emperor fall mountain and find Hao Heaven's heritage.

No matter who or what power level, as long as you find Hao Heaven grand emperor's heritage, the emperor dao crystal will be your reward. Of course, everything in the heritage belongs to the person who obtains it. at the same time, that person will become Dragon River and mine personal disciple. If his talent is exceptional, he would replace the last grand emperor..."

Hearing this, everyone was excited. This was equivalent to being taught by three grand emperor together. Who would be able to resist such glory.

"Of course, the emperor fall mountain is full of danger. In order to preserve elite immortals and reduce lethality rate, me, Dragon River grand emperor, Wei Feng grand emperor and five other immortal emperors will be setting up a huge restriction together to suppress the will power of the emperor fall mountain."

Suddenly, Feng Kong grand emperor's tone changed to a little heavier one "Although this is so, the will power will still exist. We can't suppress it completely. There will still be chances of death, so it's up to everyone if they want to go in or not. If you don't want to, you will still be rewarded if you show excellence in the social."

Before he finished, the immortals were already cheering to go in the emperor fall mountain. Who didn't want the hao heaven grand emperor's heritage?

"The dao discussion social will now officially begin. Those prodigy immortals who are invited get on the altar, those immortals who want to challenge them get ready..."

The top prodigies of the heaven domains all walked up to the altar. Li Kun was amongst them but her spirit sense kept scanning outside trying to find Ye Mo.

...

Ye Mo watched the surrounding scene on the bridge. He felt that after walking three steps the road behind him was gone. However, he felt assured instead and kept walking forward.

It had been nearly ten days and even Ye Mo was a bit confused. However, he suddenly saw that the bridge seemed to have reached an end.

Chapter 1736: Peak of the will mountain

After crossing the will bridge, Ye Mo just saw clearly that an ethereal mountain appeared. There was also a huge tablet in front of it with the words Will Mountain.

This was the Will Mountain, Ye Mo just realised. The Emperor fall mountain wasn't the will mountain.

Ye Mo picked up the will bead in his hand and wanted to see the direction on it. However, he found in shock that arrow had disappeared already.

Before Ye Mo could return to his senses, that barrier that had been protecting him emitted even more mesmerizing light.

Not good, before Ye Mo could react, that light swept Ye Mo from the bottom of the will mountain and disappeared.

Just when Ye Mo wanted to forcefully expand his spirit sense, he realised that he landed on solid ground. He stood up again and scanned his spirit sense out, he found that he was at the top of the Will Mountain.

A terrifying time will power came and that bead kept changing shape as though it was about to be crushed at any time.

Ye Mo looked at the will bead, he was certain the essence spirit inside had disappeared. Yet such a bead could still teleport him here, immortal emperor was too unpredictable.

Ye Mo found that all that was around him was ethereal mist. A baby fist sized broken orb seemed very obvious in this mist.

Ye Mo was an immortal forgery grand master, he could immediately tell that this orb was a small world.

Just when Ye Mo wanted to use spirit sense net to block the surrounding will power, he suddenly felt the will power around him disappear.

This terrifying will mountain suddenly became ordinary, Ye Mo frowned and walked forward a few steps. There was still no will power, did he mistaken Hao Heaven grand emperor? Did he really want to give his heritage to him?

Suddenly, the small world exploded and a golden ray charged into the sky. Endless dao chi instantly surged at Ye Mo.

Ye Mo had seen the power of emperor dao crystal and so he put a leaf of bitter bamboo in his mouth without hesitation had used the Three Birth Chant at full power. That terrifying emperor dao information wasn't able to affect Ye Mo anymore. Ye Mo breathed easy but found his will bead suddenly fly out.

Suddenly, the peak of the will mountain had a hexagonal crystal. The emperor dao crystal had disappeared. Ye Mo knew this hexagonal crystal was the emperor dao crystal. The will bead flew into the emperor dao crystal.

Ye Mo was very smart and experienced a lot. He instantly realised what had happened here. No matter how careful he was, he was still tricked. The final result would depend on their battle.

There was indeed no essence spirit in the will bead but Ye Mo brought it to Hao Heaven grand emperor's emperor dao crystal.

The emperor dao crystal had no essence spirit but the will bead came from hao heaven grand emperor's sliver of essence spirit. Now that the emperor dao crystal devoured it, it could revive that sliver of essence spirit.

No wonder hao heaven grand emperor turned into a will bead before he finished asking the questions. The earlier he became the will bead, the stronger his essence spirit would be.

Realizing this, Ye Mo ignored the emperor dao crystal. His main purpose here wasn't the emperor dao crystal. He grabbed at the small world immediately and scanned his spirit sense in.

Hao Heaven said there were a few top grade immortal range and one extreme grade immortal range. But now that Ye Mo looked at it, there was only half an extreme grade immortal range. Ye Mo was furious, Hao Heaven lied so much.

A dark drum was in the small world, Ye Mo believed this was the real hao heaven drum. Ye Mo knew its power but he didn't dare to use it. There were also some jade slips in the small world, magic artefact fragments. Ye Mo was speechless.

"I know your essence spirit has recovered." Ye Mo waved his hand and took the small world before saying coldly to that emperor dao crystal

As soon as Ye Mo said this, an essence spirit floated in the emperor dao crystal.

"No wonder you can get so many good things, you are very calm and still not surprised at all now. you're indeed significant." Hao heaven's essence spirit said calmly, a faint pressure came. He used a completely different tone to the good old man while in Ye Mo's golden page world.

Even though it was just a sliver of essence spirit, Ye Mo could feel the force of the immortal emperor, the pride of an emperor.

Ye Mo sneered "Whether I'm significant has nothing to do with you. I came in good will to help you take the heritage to your grandson but you used my good will against me, you're indeed bleak."

Hao Heaven smiled "You're wrong, I didn't use your good will to ambush you. You're just insolent. Plus I didn't trick you, I'm still going to give you the heritage but the arrangement before was unfair. Now, I just want a fair arrangement."

“Sorry, I’m not planning to deal with someone like you.”

Hao Heaven interrupted, “Do you think you have my heritage because you took the small world? or do you think you would be fine going in your chaos world. I’m certain you can’t go in your chaos world now, you can try it if you don’t believe me.”

Ye Mo frowned and tried to go in the golden page world, but he found he really couldn’t space nearby was locked.

Seeing Ye Mo’s face change, Hao Heaven’s essence spirit said slowly “My sliver of essence spirit won’t be able to revive, I’m still certainly dead. Our deal is still effective. As for the words before, I didn’t trick you. I indeed have a few immortal range but I used it to set up formation when I just got here. Otherwise, you would’ve been crushed by will power already. Pity, even though I set up formation, my essence spirit was wasted away after countless years.”

Seeing Ye Mo sneer, Hao heaven didn’t explain and his tone also became cold and harsh “Agree to my request and you can leave here whenever you want and take that half immortal range to cultivate. Otherwise, if I take away the formation, you will be crushed into nothing by the will power.”

Ye Mo sneered “is the other requirement for me to give the chaos world to you?”

Hao Heaven replied “No need for that, give your bitter bamboo to Cang Jie and help me do one thing.”

“Anything else?” Ye Mo’s killing intent rose, this was a grand emperor with only a sliver of essence spirit and he dare to be this cocky.

Hao heaven grand emperor clearly felt Ye Mo’s killing intent and sneered “Let’s not talk about if you can kill me but even if I use up my essence spirit power, you wouldn’t be able to stop the will power here. I’m a grand emperor essence spirit, unless you have immortal flame, you can’t kill me with that purple nirvana mist lotus heart fire. My request is simple, you have this many treasures, it’s okay to leave one to Cang Jie.”

“This request is simple indeed.” Ye Mo said.

“The second one is even easier, put my emperor dao crystal in your chaos world and help me find a chaos blue reed....” Hao heaven said as though it was easy like breathing.

“But I’m not going to agree to a single one.” Ye Mo sneered and released Blue Like Morning Sky. He looked at hao heaven’s essence spirit “Mist lotus heart fire isn’t enough but what about immortal flame Blue Like Morning Sky?”

“You actually have immortal flame Blue Like Morning Sky...”

Hao heaven’s essence spirit didn’t even finish and instantly took away the will power formation. Ye Mo was ready, as soon as the formation was gone, his spirit sense net expanded out. Even though Ye Mo was fast, the terrifying time power made his hair instantly white.

“So powerful.” Ye Mo was shook. If he wasn’t prepared he would turn into a pile of bones in a moment. After using the spirit sense net, he felt he could go back in the golden page world again.

“No wonder you’re not scared of will power, you know Spirit Will Nine Transformations as well...” Hao heaven stared at Ye Mo in shock.

Ye Mo said calmly “I helped you out of good will, you don’t show any gratitude and instead try to ambush me, I’ve seen too many people like you.”

“You hide quite a lot, you finally got my heritage. If you see Cang Jie please give the jade slip to him.” Hao heaven said, he knew he couldn’t threaten Ye Mo anymore.

“That’s my business, I’m not planning to use heaven flame against you. Don’t worry.” Ye Mo put away Blue Like Morning Sky and waved out a black shadow. He really didn’t care about that heritage, if he saw Cang Jie he can give it to him.

“Shadowless, look, emperor dao crystal, if you like it then eat it, if not go back to sleeping.”

“Shadowless worm?” Hao heaven was completely speechless. He really didn’t see shadowless sleeping in the bitter bamboo but now he did.

Seeing this, hao heaven didn't even have the mood to talk to Ye Mo. He turned into light orbs and disappeared into the emperor dao crystal making it light up more.

Shadowless looked at the emperor dao crystal with intense desire but didn't dare to go devour it. Ye Mo knew shadowless's level was too low and threw him back into the golden page world.

Chapter 1737: Return to Ethereal Immortal Pond

Ye Mo looked at the emperor dao crystal and breathed easy. This time, it was really an emperor dao crystal without a doubt. Ye Mo put the emperor dao crystal in a jade box and then put restrictions over it before sending it into his golden page world.

Ye Mo estimated that the dao discussion social had begun, he knew that if he used the teleportation formation disk, he must leave immediately or he would be caught by the immortal emperors. Those immortal emperors wouldn't be able to stop the will power of the emperor fall mountain but they can definitely feel any space ripples here. Even immortal king and immortal monarch would be able to notice it.

Realizing this, Ye Mo wasn't in a rush to leave and went into the golden page world first. In there, his spirit sense carefully scanned the spirit sense mark left by the middle aged man. He wanted to leave the spirit sense mark at the Will mountain but he didn't know what was the point in doing that.

As soon as Ye Mo's spirit sense went into the mark, it caused some ripples. Ye Mo was certain that if he didn't bind the spirit sense mark, he wouldn't be able to use spirit sense to check it.

When Ye Mo felt the spirit sense wave, he rejoiced. He was a formation great master, although he couldn't get out the spirit sense restriction inside the mark, it didn't mean he didn't know what it was.

This spirit sense mark was a teleportation formation disk, if someone touched it, it would teleport away the person with the spirit sense mark. This meant that if the spirit sense mark was on him, that middle aged man would be able to teleport him to the Ethereal Immortal Pond no matter where he was.

Ye Mo took in a cold breath, this guy had calculations upon calculations. If he wasn't lucky, he would have no freedom at all with this spirit sense mark on him unless he stayed in the golden page world.

It seems that red jade card was a fake. He didn't know what that red card was for but it definitely didn't lead to the Ethereal Immortal Pond. Ye Mo decided to use it first.

Ye Mo picked up the red jade card and neared the spirit sense mark. He had decided to force the spirit sense mark into the red card. However, before he did anything, the middle aged man's spirit sense mark hid in the red card already.

Seeing this, Ye Mo didn't hesitate and went out of the golden page world immediately. He threw out the teleportation formation disk.

The teleportation formation disk brought out a veil and swept Ye Mo away from the peak of the will mountain. The time will power here was terrifying but it couldn't stop the teleportation of teleportation formation disk.

As soon as Ye Mo came out, he threw out an explosion rune and left behind the red jade card with the middle aged man's spirit sense mark before teleporting away.

Immediately, Ye Mo took out that rune the middle aged man gave him for escape. It was very precious, the middle aged man said that as long as it wasn't an immortal emperor here personally, he would be able to get away.

It was too much of a pity to use it but he didn't dare not to. If he dared to be stingy under the eyes of a few immortal emperor, it was asking for death.

Thus, he only used instant transmission once, it was to let the immortal emperor spirit sense scan that the space ripple he caused was very ordinary. Now, he rested all his hope on that escape transmission rune, he just hoped it wasn't too bad.

...

At the outskirts of the emperor fall mountain on the dao discussion stage, an extremely young great eternity immortal was speaking confidently. A few immortal emperors sat in the clouds above the stage and listened.

Every word the great eternity immortal spoke was enveloped by special restriction on the stage and turned into dao sounds falling around people's ears.

"...Focus chi to soft, no will like infant, cleanse and observe the abstruse... material nourishment is aging, this isn't dao, early end if not dao..."

Many immortals listened carefully to this great eternity immortal's dao meaning. Even the immortal emperors nodded from time to time feeling this great eternity immortal had an unique understanding of dao.

At this moment, the immortal emperors looked at the space above emperor fall mountain at the same time. Ye Mo guessed right, his teleportation formation disk only created very minor space ripple and these immortal emperors noticed. Even some immortal king and immortal monarch noticed this too.

Almost instantly, all the Immortal emperors and immortal monarchs scanned their spirit sense out.

But after that space ripple, Ye Mo completely disappeared.

The few immortal emperors smiled, they knew this ordinary wave wasn't made by a powerful being. Such clear space ripple meant that this person was at most an ordinary immortal king or even below.

"Peng Yi immortal monarch and Ruo Ming immortal monarch go have a look." Zheng Ren immortal emperor smiled. He was the person in charge of this social so he couldn't go over, that way he can't let other immortal emperors go.

Feng Kong grand emperor and Dragon River grand emperor didn't feel this was wrong. They all felt the person who caused that space ripple wouldn't be strong. Even if he hid there, two immortal monarchs were enough.

...

Ye Mo felt a whirlpool wrap him away. when he woke up, he didn't find any space ripple wave behind him. this meant that their spirit sense wouldn't be able to scan here. He was safe.

"Such a powerful rune." Ye Mo sighed, even a careless immortal emperor might not be able to catch him.

But this was a pity, perhaps what he earned wasn't worth as much as this rune.

Just when Ye Mo wanted to check where this was, he saw two dashing lights come at him.

Ye Mo didn't move.

"It's you? You dare to come here?" a very enjoyable voice sounded.

Ye Mo saw who it was and rested easy. He scanned his spirit sense out and when he realised where he was he cursed. That old bastard teleported him to Ethereal Immortal Pond.

"What? weren't you with your sister?" That voice scorned Ye Mo again.

Ye Mo quickly saluted with his fists "Ye Mo greet Ning Eu saint."

Ye Mo felt strange, theoretically, Ning Eu should have the right to go to the dao discussion social, why was she at the sect?

"Thanks to you I'm being punished by the sect, I'm no longer a saint, are you happy?" Ning Eu looked at Ye Mo with colder eyes but she was also bewildered why Ye Mo's hair turned white.

Ye Mo looked at the immortal next to Ning Eu, he was near great eternity immortal peak stage and was extremely handsome. His hair formed a butterfly shaped crest behind his back making him seem very ethereal.

Looking at these two, Ye Mo thought of something. There were no male disciples in the Ethereal Immortal Pond. This great eternity immortal definitely wasn't from Ethereal Immortal Pond, yet he still appeared here alone with Ning Eu. The only explanation was that he was who she liked.

Perhaps she was kicked off saint because she didn't follow the rules.

Thinking about this, Ye Mo smiled "You agreed to let me go in, I'm very grateful for that. If there's anything I can help you with I will try my best. Of course, I apologise for leaving here secretly. But you being impeached from saint position has nothing to do with me right? Even if it is, it's not the main reason."

Ning Eu's face blushed, of course she knew this.

"Why did you come back here?" Ning Eu didn't let Ye Mo to be taken away by Ethereal Immortal Pond immortal king. If something happened to Ye Mo, she would owe Li Kun.

"I came to find my sister." Ye Mo said.

"Didn't sister Xi Yue go to emperor fall mountain dao discussion? How come you didn't go with her?" Ning Eu looked at Ye Mo in confusion.

Seeing her not ask about the Ethereal Immortal Pond, Ye Mo breathed easy. This meant that the issue wasn't as serious as the middle aged man said it was.

Ye Mo immediately said in 'shock'"Dao discussion social is at emperor fall mountain? Let me ask her."

Ye Mo immediately took out his communication bead, he was going to tell Li Kun to not go in the emperor fall mountain.

Chapter 1738: Li Kun leaving

"If it isn't for Xi Yue, you would be hunted by the Ethereal Immortal Pond right now. Xi Yue's master helped, now you just have to come with me and apologise to Ethereal Immortal Pond, otherwise..." Ning Eu said.

The handsome great eternity immortal suddenly said "Ning Eu, he's the great extreme immortal that made sect leader CHan furious?"

"It's him." Ning Eu stared at Ye Mo.

"I still need to go Ethereal Immortal Pond." Ye Mo sent the news and looked at Ning Eu with a troubled face.

"Of course." Ning Eu said without hesitation.

"Okay then, you two take me there. By the way, who are you immortal friend?" Ye Mo looked at the handsome great eternity immortal.

Ning Eu blushed "It has nothing to do with him, I will take you there."

"That's fine." Ye Mo nodded and said to himself "this immortal friend is so handsome, I'll aks the Ethereal Immortal Pond qian beis later."

"What's he got to do with you?" Ning Eu got annoyed.

Ye Mo said seriously "I see this immortal friend being so handsome, I have a good impression of him, of course I need to ask around."

"Brother Chen, let's go." Ning Eu glared at Ye Mo and turned to leave.

The handsome great eternity immortal glanced at Ye Mo with an intriguing look “You have a great future, but we don’t seem to know each other.”

Then he left with Ning Eu goddess.

Ye Mo breathed easy, he knew that the two appeared here because no one knew. If he told this to Ethereal Immortal Pond, there was no benefit to her. Indeed, as soon as he mentioned that great eternity immortal, Ning Eu really ran off.

Ye Mo knew he offended another person, it was that great eternity immortal. His words meant that Ye Mo didn’t know him but used him to threaten Ning Eu.

Nevertheless, Ye Mo didn’t care. His life mattered more. making him go to Ethereal Immortal Pond to apologise was just an excuse. If Ethereal Immortal Pond couldn’t find him they might let him go but if he really went to Ethereal Immortal Pond, he would be over.

Plus, that middle aged man’s power was terrifying. He was teleported here for no reason.

Now that Ning Eu left, Ye Mo immediately used mobility technique and left the range of the sect.

...

Outside the dao discussion stage, two immortal monarchs landed silently. One of them held a red jade card.

“Peng Yi, Ruo Ming, what’s going on?” Zheng Ren asked with a frown.

The two bowed the the immortal emperors on the side before reporting “Immortal emperor master, we didn’t find a trace of anyone there, there seemed to be a teleportation formation blown up by an explosion rune. Other than this, there’s also this jade card, there’s a spirit sense mark inside and we sealed it.”

“Oh, show me.” Feng Kong grand emperor immediately said.

The two immortal monarchs handed the jade card to Feng Kong grand emperor. As soon as Feng Kong took the cards, his face changed.

“What’s wrong?” Dragon River grand emperor immediately asked.

“Have a look.” Feng Kong grand emperor gave the card to Dragon River grand emperor.

Dragon River grand emperor had a look and his face also turned bad. He glanced at Feng Kong grand emperor before saying “The spirit sense mark is left by at least an immortal emperor peak or even half divine.”

“That’s right, but this person is quite heavily injured. If it’s such person, then the thing inside emperor fall mountain is probably gone.” Feng Kong grand emperor said with a bleak face.

“Then what about the dao discussion social?” Zheng Ren immortal emperor thought and asked.

“It will continue, after all, this is just a guess. But I’m confused, why did this master casually throw away his spirit sense mark?” Feng Kong grand emperor said.

...

It was another great eternity immortal on the stage now, he kept explaining his dao. Many low level immortals were immersed in this while Li Kun seemed to be out of it. She had already asked her master to help intervene so she really wanted to see Ye Mo now and tell him what happened.

At this moment, she suddenly received Ye Mo’s news. Ye Mo asked her to go back to Chang Rong heaven Flying Dawn immortal city immediately. Ye Mo didn’t say she couldn’t go into the mountain, he was scared the immortal emperors might see his message.

Li Kun didn't know how Ye Mo went to Chang Rong heaven again but she didn't want to stay here anymore.

Li Kun messaged her master saying her brother is looking for her and she couldn't stay here. Her master was only Immortal monarch power but she had the right to be on the panel of judges since she was from Long Yue emperor sect

Li Kun's master saw the space ripple at the mountain too. She didn't mind that her disciple couldn't stay here, she never planned to let her disciple go in.

Li Kun was talented but not the number one, there were many immortals much more talented than her and things seemed to have happened at emperor fall mountain.

Although Li Kun could leave, her master still asked to leave with Zheng Ren immortal emperor to pay her respects.

Of course Zheng Ren immortal emperor wouldn't mind.

Li Kun easily left and headed towards Flying Dawn immortal city.

...

A few days later, Ye Mo saw Li Kun again the a room inside Flying Dawn tower.

Li Kun was very happy to see Ye Mo and didn't seem to care about the dao discussion social at all.

"Why did you come back to Chang Rong heaven again? My master already intervened, I wanted you to go hear the dao discussion social. Hearing their debates will benefit our cultivation." Li Kun said excitedly.

Ye Mo smiled and poured a drunken jade well for Li Kun before setting up a few restrictions and saying "Sister Xi Yue, trust me, that dao discussion social is indeed good but having it at emperor fall mountain is a mistake."

"What's going on?" Li Kun asked seeing Ye Mo was so careful.

Ye Mo said heavily "Sister Xi Yue, the will power and pressure of the mountain is immense. Even with eight immortal emperor setting up restriction together, it's not enough. Perhaps everyone can pass the emperor fall mountain and reach the foot of the will mountain but they definitely can't get up the will mountain. If I didn't have enough fortune I wouldn't be able to get up there."

"You went to emperor fall mountain? What's going on?" Li Kun asked in shock, how did Ye Mo get in without the suppression of the immortal emperor formation."

"There's will river, will bridge and will mountain in the emperor fall mountain. Hao Heaven grand emperor's heritage is at the peak of the will mountain. In the blink of an eye, my hair turned all white."

Seeing Li Kun looked at him, Ye Mo added "After a few days of cultivation, I cultivated it back. I'm saying this because it's very dangerous there."

"How can you go to emperor fall mountain alone? It's said that no one can come out from there, you're too bold." Li Kun's face was bad.

Ye Mo felt a little awkward and Li Kun said helplessly "Are you worried about me going to emperor fall mountain and climbing the will mountain?"

Ye Mo immediately nodded "Yes, don't trust those immortal emperors, they definitely can't suppress the mountain completely."

Li Kun smiled "You underestimate those emperor sects, although many prodigies came and many may go into the mountain, I'm certain there won't be many prodigies going in. Those sects aren't dumb, they let their core disciple come just to participate in the dao discussion, not to go in the emperor fall mountain."

Hearing this, Ye Mo finally breathed easy “There’s actually not much to Hao Heaven grand emperor’s heritage, it’s only a Hao Heaven drum and an emperor dao crystal...”

“What? you got the emperor dao crystal?” Li Kun asked Ye Mo shakily.

Ye Mo nodded “Yes, and some old jade slips too...”

Li Kun shakily stopped Ye Mo “How can you say that, stop talking...”

An emperor dao crystal was enough to flip the 33 heavens and Ye Mo said it wasn’t much.

“I know, sister Xi Yue don’t worry, I have spirit sense domain here no one can hear us. Even if immortal emperor spirit sense scans over, I can feel it.” Ye Mo quickly explained.

Li Kun said carefully “No matter how confident you are you can’t casually expose that you got the emperor dao crystal. Do you know how many people would go crazy for it?”

Chapter 1739: Immortal Graveyard Range

“I know, but I’m not interested in this.” Ye Mo said.

He smiled at Li Kun “So, I came to you for one thing and that is to give the emperor dao crystal to you.”

“You’re going to give the emperor doo crystal to me?” Li Kun stared at Ye Mo in a daze, her eyes were red. She truly considered Ye Mo a brother, she didn’t know how Ye Mo thought before but now, she realised that Ye Mo truly treated her as a sister too.

If it wasn’t so, he wouldn’t tell her about the Hao Heaven heritage nor give the emperor dao crystal to her.

Ye Mo nodded “Yes, sister Xi Yue, I’m ont interested in this.”

“Thank you, brother.” Li Kun suddenly felt she wasn’t alone in the immortal realm. at least she had a brother.

Li Kun then stopped Ye Mo from continuing to give it to her “Brother, tell me why you don’t want it? do you know that with this you can reach the peak of the immortal realm, reach the status everyone wants. There’s not many immortal emperor in the 33 heavens all because of how hard it is to become one.”

Then she looked at Ye Mo without blinking, if she didn’t get a certain answer, she wouldn’t let Ye Mo waste it.

Ye Mo smiled with extreme confidence “I will vindicate my own dao, I definitely won’t walk the dao someone else walked. ”

Hao Heaven grand emperor was just an immortal emperor, his emperor dao crystal would at most let immortal monarch reach immortal monarch. Meanwhile, his opponents were dao vindication divine emperors, if he can’t even become an immortal emperor, how would he take on divine emperor? He might as well go into samsara.

“Okay.” Li Kun got up in excitement “brother you have your own god art, I knew you would vindicate your own dao. Your mind state is much higher than mine. When I was thinking about how to get the emperor dao crystal to become immortal emperor, you already set your goals to dao vindication divine emperor.”

Ye Mo smiled “Sister Xi Yue don’t compliment me, I’m only a great extreme immortal primary stage now. I’m still far from immortal king much less dao vindication. But that emperor dao crystal is indeed useless to me.”

“Brother, I’m going to use you as my role model, I will walk my own dao too. If I use the emperor dao crystal I would be ending my own dao. Maybe I will use it when I can’t break through to immortal emperor I might as well go samsara like you. I need to have the courage to seek my own dao at least.”

Then Li Kun looked at Ye Mo seriously “You keep it, don’t give it anyone casually nor tell anyone. Even if you don’t use it, it might be useful in the future.”

“Okay.” Since Li Kun was going to vindicate her own dao, Ye Mo didn’t force anything. Li Kun’s talent was very good, with some fortune, she can reach immortal emperor.

“I also want to talk to you about something.” Li Kun said.

“Continue.” Ye Mo planned to go find a place for solitary cultivation in Jin Shang heaven. With his current resources, he would be able to reach great eternity immortal.

“You said you’re level seven immortal pill great master peak how long would it take for you to reach level seven immortal pill grand master?” Li Kun asked.

Ye Mo thought and said “If I have level seven immortal spirit herb, I would only need a decade but my pill concoction heritage is different to others, one or two years is possible.”

Ye Mo said conservatively, if he had immortal spirit herb, he would be able to reach level seven immortal pill grand master in a year. But who knows what might happen with pill concoction. He found that using time formation disk was good but if he didn’t use time formation disk it was better for the learning of pill concoction and forgery.

“...” Li Kun looked at Ye Mo in a daze again. She thought that if Ye Mo could reach level seven immortal pill grand master in a century, she could enact her plan. No matter how much she trusted Ye Mo, she started to not believe Ye Mo could reach level seven immortal pill grand master this quickly.

Ye Mo saw her look and knew she didn’t believe him. Ye Mo just released the Shen Nong cauldron.

Seeing this, Li Kun’s eyes narrowed. She couldn’t tell what the grade of this cauldron was.

Corner soul weed? Li Kun saw it and felt her brother was very extraordinary, he always had things other people didn’t have.

In less than five minutes, a cauldron of spirit range dual spirit pill was before her. Only then did she realise Ye Mo wasn’t bluffing.

"Now do you believe me." Ye Mo smiled.

Li Kun took a deep breath and said after a while "Then I really earned big to be able to find a brother like you. Where did your corner soul weed come from? You must not spill you have such things. Sigh there's too many secrets you can't tell."

Li Kun shook her head.

Ye Mo didn't mind, he took out a few bottles of dual spirit pill and some dark weed and gave it to her "you can keep these."

"You have dark weed too?" Li Kun took them and nodded, she was a little immune to have insane Ye Mo was.

Li Kun also took out a storage ring and gave it to Ye Mo "It's some level seven immortal spirit herb inside, I asked for them from my master, take it."

Ye Mo rejoiced, he lacked high level immortal spirit herb the most. Li Kun definitely asked for these just for him. With these he can reach level seven immortal pill grand master in a short time.

"Are you going to find a place for solitary cultivation?" Li Kun could tell what Ye Mo thought.

Ye Mo didn't hide it "Yes, indeed I will leave Chang Rong heaven, I might go Jin Shang heaven."

"Then we'll meet here five years later. I'm planning to go find Peng Yue immortal fruit five years later, if you reach level seven immortal pill grand master then come with me. You will need it anyways. Otherwise, even if I get Peng Yue immortal fruit, I might not be able to get a Yi King pill." Li Kun smiled.

"Sister Xi Yue, you can find Peng Yue immortal fruit?" Ye Mo asked in surprise and joy. He had no pressure reaching great eternity immortal but it wasn't easy to go from great eternity immortal to immortal king. The main reason was the lack of Peng Yue immortal fruit.

Peng Yue immortal fruit is level seven immortal spirit fruit and a very rare one. It can could be used to concoct Yi King pill, it's a pill necessary for the break through to immortal king.

"Should be fine, but we need to go together." Li Kun nodded.

"Okay, five years later I will definitely be level seven immortal pill grand master. Don't worry." Ye Mo got up and said.

If he could get Yi King pill then he could break through to immortal king. Then, he would immediately go back to Gong Hua heaven. He needed to take care of Lu Zhengqun. Otherwise, all those who ascend from Luo Yue continent won't have it easy.

"Do you still have immortal crystals?" Li Kun was about to give Ye Mo another storage ring.

Ye Mo waved his hand "No need, I kill that great eternity immortal, I got more than 100 million immortal crystals. "

Then Ye Mo took out a new jade slip for Li Kun "Sister Xi Yue, you can use this for cultivation, I'm going."

Seeing Ye Mo leave from the tower and then the city, Li Kun felt her heart empty. She wanted to take him back to her sect to cultivate but she realised he had too many secrets, taking him back wasn't a good thing.

So she could only watch him leave. She hoped she would be able to reach immortal king five years later and protect him.

When Ye Mo had disappeared, she looked at the jade slip.

"Ancient spirit sense cultivation method, Spirit Will Nine Transformations?" Li Kun almost called out in shock. She didn't expect Ye Mo gave her such precious thing. She had guessed Ye Mo had spirit sense cultivation method but didn't expect it was Spirit Will Nine Transformations. Her brother was too generous, he was willing to give anything.

However, there only seemed to be the first four transformations but that was completely enough for her.

With this, she would have much greater chance of survival.

...

Immortal graveyard range.

The range spanned for a few hundred million km.

It was said that tens of millions of years ago, there was a heaven domain battle here, the armies of a few heaven domains attacked Jin Shang heaven together. The final battle was at this immortal graveyard range. After that battle, the sky was dark red and tens of billions of immortals died here. The bodies were piled up to mountains.

Later on, although the immortal spirit chi here was good and there were many immortal spirit herb very little immortals came. The yin chi here was too dense, even immortals couldn't take it.

Ye Mo stood outside the range and felt the bleak wind strike him.

The reason he came here was because the fragmented map Kai Feng immortal king gave him was here.

Chapter 1740: Shadowless caught

Ordinary immortals wouldn't be able to withstand the yin chi here at all. Ye Mo cultivated the Three Birth Chant and was immortal spirit body but even so, he felt the power of the bleak wind.

Perhaps no powerful being died here but there were too many dead ordinary immortals.

But this was the perfect place for Ye Mo to go into solitary cultivation, he cultivated in the golden page world.

Kai Feng immortal king said there was very precious forgery materials here. If that material could upgrade Zi Xu again, it would be magnificent.

The rainbow half god art required a lot on Zi Xu itself. The higher level of Zi Xu, the higher the power.

Ye Mo flew towards the depth of the range, the deeper, the lesser people and the safer he was.

Four hours later, that bleak wind was making Ye Mo shiver and thus Ye Mo stopped going forward. This wasn't the deepest part but it was enough for his cultivation. If he really wanted to go deeper he would just have to release spirit sense domain and the bleak chi would affect him minimally.

Just when he wanted to go underground and enter the golden page world, he noticed shadowless sent him a message. He wanted to come out.

Ye Mo didn't care, shadowless could devour essence spirit, it was normal that he wanted to come out and devour souls. But many spirits here have formed intelligence, he warned shadowless to be careful and threw him out. It was hard for shadowless to evolve, it would benefit him if he devoured many spirits here.

Shadowless told Ye Mo to rest assured and soon disappeared into the depth of the range.

Ye Mo entered the earth and set up a few stealth restriction as well as a few void activation restrictions before going into the golden page world. He was going into a long solitary cultivation here.

Then, Ye Mo took out the time formation disk inside the golden page world. he killed a great eternity immortal middle stage and got nearly a hundred million immortal crystals. That great eternity immortal middle stage was rather wealthy but his magic artefacts was bad. The only decent one, the stone sword was shattered by him.

Inside the time formation disk, Ye Mo took out the du luo heaven fruit immediately. One could only eat one. He got six and left one to Zhen Bingyu. He still has five now.

The du luo heaven fruit melted in his mouth immediately into a fresh aromatic liquid.

Before Ye Mo could taste it properly, powerful immortal spirit chi ravaged his meridians. The terrifying power of this fruit made Ye Mo worry if Zhen Bingyu could handle it. But soon, he didn't worry anymore, the magic about the du luo heaven fruit was that it would release different amounts of power based on the person. Even if one couldn't digest it, it would be stored as potential in the body.

But for Ye Mo, this was no problem. He washed in the Ethereal Immortal Pond, his meridians were wide and body powerful. It had only been a day inside the time formation disk but Ye Mo felt the du luo heaven fruits effects were fading and yet he was still some distance away from great extreme immortal middle stage. One fruit wasn't enough indeed.

Ye Mo ate the second fruit without hesitation. Even though the difference was just one day but the effect was clearly weakened. Ye Mo found that he was still that little bit from great extreme immortal middle stage. Without hesitation, Ye Mo ate the third fruit.

Rumble.

His immortal essence had a qualitative change again. Ye Mo felt endless immortal essence rush over and his spirit sense grew another level stronger. Ye Mo breathed, he knew he had reached great extreme immortal middle stage.

Great extreme immortal middle stage, Ye Mo then set up a spirit gathering immortal formation on the broken extreme grade immortal range. Even though it was broken it was still ten km long and the immortal spirit chi was extremely dense, it was countless times better than immortal crystals.

After setting up the immortal formation, Ye Mo immersed into cultivation again forgetting that shadowless was still at immortal graveyard range.

Immortal spirit chi cloud gathered in the golden page world forming an immortal mist that grew thicker and thicker above Ye Mo's head. Then, it formed waves of immortal mist and rushed at Ye Mo.

Ye Mo just kept using Three Birth Chant to digest the immortal spirit chi.

Time slowly passed and when it had been four years outside the golden page world, Ye Mo had cultivated in the time formation disk for four hundred years.

Crack.

The immortal spirit chi of the broken immortal range was dense and quite plenty but it couldn't last Ye Mo's terrifying devour. When he broke through to great extreme immortal tertiary stage and near great eternity immortal peak stage, it dissipated.

Ye Mo sighed, he finally understood the use of du Luo heaven fruit. It contained a lot of immortal spirit chi and top grade nourishment but it's mainly used for digging out the potential of immortals. Other immortals after cultivating for a long time would have hidden potential so they could use a fruit to break through a level.

He was different, he cultivated the Three Birth Chant and pretty much utilized all his potential. That's why his break through was so hard and even after he did, he devoured immortal spirit chi to supplement the lack of immortal spirit chi before he broke through. If he didn't use du Luo heaven fruit to reach great eternity immortal middle stage, he was certain that he was be great eternity immortal peak stage after devouring this entire immortal range.

But even so, Ye Mo didn't mind. He was only one line away from great eternity immortal peak stage. He still had tens of millions of immortal crystals. It should be enough for him to reach great extreme immortal peak stage. Once he did, he would immediately break through to great eternity immortal.

Tens of millions of immortal crystals were used up too quickly for Ye Mo.

Crack.

Just when Ye Mo reached great extreme immortal peak stage, those immortal crystals turned to dust, not a single bit was left. Ye Mo shook his head helplessly, he was certain that if he didn't have pills too, these definitely wouldn't be enough.

Now, Ye Mo immediately came out of the golden page world, he put away the surrounding formation flags and landed on the immortal graveyard range.

As soon as Ye Mo came out, he sent out spirit sense blades. He really wanted to know if his spirit sense blades got stronger.

Rumble.

One casual blade hacked open a huge boulder that was 10 meters long, the surrounding bleak chi was split like a parted river.

Ye Mo nodded in satisfaction thinking that since his spirit sense was so much stronger, the spirit sense blades have materialized. It seemed he could go find a place for divine damnation.

The bleak chi seemed to know Ye Mo's power and didn't dare to gather back.

Seeing this, Ye Mo suddenly thought of shadowless. Shadowless was out for four years and just disappeared.

Although shadowless could rarely help him now, Ye Mo brought him from earth and thus had a deep connection with him. He didn't want anything to happen to shadowless.

Ye Mo immediately began to search for shadowless and 15 minutes later, there was this faint mark emanating from the depth of the range.

If shadowless was fine, it would come back immediately when he called him but now, it went deeper instead.

Ye Mo's face sunk, he was certain that shadowless was either captured or trapped.

Ye Mo immediately released Blue Moon and shot out his spirit sense domain and flew into the depth of the immortal graveyard range.

Blue Moon flew faster and faster and the yin chi grew heavier but they were all blocked by Ye Mo's spirit sense domain.

Four hours later, Ye Mo stopped, three great eternity immortal were not far ahead of Ye Mo. Two women and one man, the man was very handsome and great eternity immortal tertiary stage. The two women were a middle aged beautiful woman and an extremely pretty young girl.

The middle aged woman was half way immortal king and the pretty young girl was also great eternity immortal tertiary stage. Shadowless was the young girl but restricted.
