

Strongest As 1741

Chapter 1741: Devour emperor dao crystal

The three great eternity immortals were shocked, a great extreme immortal dared to use flying magic artefact in here and flew this fast. Was he not afraid of the yin chi here. They looked as Ye Mo landed but no one spoke.

Ye Mo saluted with his fists "I'm Ye Mo, hello three immortal friends."

The middle aged woman didn't underestimate Ye Mo and also saluted with her first "So it's immortal friend Ye, Ren Fu greet immortal friend. Why did you suddenly catch up to us?"

The middle aged woman could tell that Ye Mo had some business, Ye Mo's eyes stayed on Li Jin the most as though he had some business with her.

Seeing this, Ye Mo nodded "I have a bug that was playing in the immortal graveyard range, when I came out of solitary cultivation, it was gone. I wonder if you guys have seen it."

With this, Ren Fu immediately realised that the shadowless worm belonged to this great extreme immortal. He was so lucky to get a shadowless worm. They were have to evolve but if they did they would have huge power.

"So that shadowless worm is immortal friend Ye's, good fortune immortal friend Ye. Half a month ago, we saw a wobbly bug and when we caught it we found it was a shadowless bug so we kept it. Since this shadowless worm is immortal friend Ye's of course we'll return it to you." Ren Fu was unexpectedly so easy to talk to.

If they weren't going to return shadowless, he was about to fight. but then Ye Mo realised, shadowless already recognized him as master, it was pointless to take it.

"Yes, shadowless is indeed mine, sorry for troubling you three, thank you." Ye Mo said.

“Li Jin, since shadowless worm is immortal friend Ye’s, return it to him.” Ren Fu said to that great eternity immortal young girl.

The girl was very unhappy that her aunty admitted they had it and now that she had to give it back, she was more unhappy.

But the owner had already chased over, so she groaned “This shadowless had no owner in the immortal graveyard range, I’ve kept it for half a month, who knows it belongs to him? Aunty Fu, would he be tricking us?”

Ye Mo’s face sunk, he was annoyed. It was clear that even if he was scamming, they would know if they let shadowless out. If he was the master, shadowless would fly back immediately. This young girl clearly wanted to keep shadowless. Although it can only recognize one master but each time it evolved, its silk could be forged into top grade immortal robes.

Not only Ye Mo’s face sunk but Ren Fu was unhappy too, she reproached “Li Jin, what is ours others can’t take, what isn’t ours, we can’t force it. Take it out.”

The handsome great eternity immortal smiled “Li Jin, whether shadowless worm belongs to this immortal friend, you will know if you take it out. If it is his, I don’t want you to keep it too.”

“Okay then.” The girl took out a rune, shadowless was restricted by the rune. Immediately, shadowless saw Ye Mo and squeaked.

“You pig, you have the face to squak.” Ye Mo roared angrily. Shadowless didn’t dare to make a sound again.

Clearly, shadowless was owned by Ye Mo.

Seeing this, the young girl knew that if she tried to keep shadowless it would be unreasonable so she could only put away the rune.

Immediately, shadowless flew onto Ye Mo.

The three just realised that if shadowless wasn't wobbly because of eating so much, they really wouldn't be able to catch it.

"Thank you three immortal friends for treating shadowless well." Ye Mo was grateful that they didn't fight and resolved the matter.

Ren Fu clearly realised that Ye Mo wasn't ordinary and smiled "You're too polite immortal friend Ye. I see you can still release flying magic artefact and go rapidly here, not being affected by yin chi, I believe your Yang Lin pill must be very high grade?"

"Yang Lin pill?" Ye Mo looked at Ren Fu in confusion but soon realised that the reason they could come here unaffected was due to this pill.

Ye Mo immediately answered "I didn't use Yang Lin pill nor do I know what it is."

Hearing this, Ren Fu's eyes lit up "Then what pill did immortal friend Ye use? Or what way do you have to not be affected by yin chi?"

"Umm..." Ye Mo was lost for words, how could he say that it was due to his immortal spirit body, Three Birth Chant and spirit sense domain.

"My bad." Ren Fu was clearly well mannered.

The male cultivator frowned and said nothing clearly feeling Ye Mo wasn't good enough. They gave back shadowless without asking for anything and yet Ye Mo didn't want to tell that his way of avoiding yin chi.

The young girl sneered "Aunty Fu, I told you, not everyone is as generous as you."

"Li Jin, don't say that." Ren Fu reproached the girl and then smiled to Ye Mo "In that case, we won't disturb immortal friend Ye."

She wanted to bring Ye Mo along with them but since Ye Mo didn't even want to spill this secret, there was no need.

Seeing the three leave, Ye Mo had no choice.

He glanced at the fearful shadowless and knew this guy fell into other people's hands because he ate too much. He was very unhappy but he didn't have time to waste with shadowless. He was planning to break through to great eternity immortal and then find the extreme grade material according to Kai Feng immortal king's map.

Because he didn't have immortal crystals, he needed to find a place with dense immortal spirit chi and set up spirit gathering immortal formation.

Ye Mo threw shadowless into the golden page world and just wanted to leave but then he noticed shadowless immediately charge at that restricted emperor dao crystal.

"You want to eat it?" Ye Mo asked and shadowless immediately gave an intense desire for it.

Ye Mo was confused, a few years ago, shadowless didn't even dare to eat it but now he wanted to?

Shadowless sent Ye Mo more information and Ye Mo realised, shadowless devoured too many yin chi and souls in these few years, eating the emperor dao crystal now was perfect.

Ye Mo didn't mind, if he had the deal with Hao Heaven grand emperor, he would give it to Cang Jie but now, shadowless can devour it.

Ye Mo removed the restriction and shadowless immediately ate the fist sized crystal.

This time, shadowless' body immediately expanded like a ball. This made Ye Mo worried, it was as though this ball would explode at any time.

But shadowless flew down to the bitter bamboo wobbly and fell into sleep again.

Ye Mo wondered what this guy would be like when he woke up. Just when he wanted to find a place for divine damnation, he heard a terrified scream of pain and an intense space wave.

Those three were in trouble, Ye Mo could immediately tell that scream was from the young girl.

Ye Mo flew over immediately. Ren Fu gave him a good impression, he didn't mind helping them.

Tens of seconds later, Ye Mo saw with his spirit sense that Ren Fu and the handsome man were attacking a dark faced old man. They all had the lower hand. Ren Fu didn't seem quiet and peaceful like before, her hair was messy and she attacked with her magic artefact like crazy.

Li Jin had lost an arm, the clothes on her body had been torn and two sturdy balls on her chest were revealed. She was completely restricted and laid on the ground in shock.

Chapter 1742: Immortal graveyard range treasure

Another great extreme immortal tertiary stage man was going to pull down the other half of her dress.

No wonder she was screaming. Ye Mo could tell that the man pulled off her dress not to rape her but to insult her.

Everyone saw Ye Mo arrive.

"Immortal friend Ye, please save Li Jin..." Ren Fu said worriedly but before she finished, another ice arrow shot into her shoulder bringing out a spray of blood.

Although Ye Mo had a bad impression of this girl, the man and Ren Fu gave him a good impression.

Seeing Ye Mo come over, the great extreme immortal tertiary stage man didn't continue. He got up and retreated a few steps.

Ye Mo opened the girl's restriction and gave a pill to her before saying "Put on your clothes and connect your arm."

The girl's face was very pale, she immediately put on her clothes and connected her arm. She didn't even look at Ye Mo's pill and just ate it.

"Who are you? How dare you intervene with our business?" The great extreme immortal tertiary stage saw Ye Mo's power was stronger than his and didn't dare to fight.

The old man looked at Ye Mo, he seemed to know Ren Fu and stopped as though fearing Ye Mo would suddenly attack that great extreme immortal. Clearly, that great extreme immortal was important to him.

Ren Fu quickly charged up to the girl and helped her recover.

Ye Mo studied this black faced old man, he was also half way immortal king and was one step away from immortal king. No wonder these two great eternity immortal were no match for him.

"You're a mere great extreme immortal and you dare to intervene with my business?" The black faced man said coldly.

Ye Mo didn't care at all, even though this guy was just one line from immortal king, he still wasn't immortal king. The difference between the two here huge, it was a qualitative and quantitative difference.

Ye Mo smiled "if I wanted to intervene, I would've attacked now, do you see me attacking?"

If he wanted to kill this great extreme immortal, he only needed one move. This old man wouldn't even be able to save him in time.

Ye Mo just knew Ren Fu and owed them one, that's why he helped. He didn't care who was right or wrong, he didn't want to get involved.

The old man stared at Ye Mo for a while and didn't attack him. Ye Mo dared to fly here and he easily removed the restriction of the young girl, this made him a little concerned.

He set the restriction and yet Ye Mo easily opened it. this meant that Ye Mo might be stronger than him. Plus, now that the girl's restriction was open, they had an extra great eternity immortal. Plus this, supposed great extreme immortal, he wasn't scared but he wouldn't be able to protect his disciple.

"Since you don't want to intervene, then please leave. This is our private affairs." The old man said.

Ye Mo said "Of course I'm going to go but I owe these three immortal friends. If I didn't see it then never mind, but I saw it so I need to pay them back or I wouldn't be able to rest at heart."

"What are you going to do? You think I can't kill you?" The dark faced man said as his killing intent spilled out.

Ren Fu handed the girl to the man and released her magic artefact standing next to Ye Mo "Hei Wuren, try it then, you think the Yue Ren immortal residence is easy to abuse?"

Ye Mo really didn't care about this Hei Wuren, he was great extreme immortal peak stage now.

Ren Fu said "The reason Hei Wuren is fighting us is because he knows we have a map of the immortal graveyard range. Immortal friend Ye, thank you for saving Li Jin, although my map piece might not lead to the treasure but there's some hope. You're not afraid of yin chi, we can cooperate."

"Immortal treasure?" Ye Mo asked in confusion.

Ren Fu nodded "Yes, you should know how the immortal graveyard range came to be right?"

"I know." Ye Mo answered.

“That’s right, after that battle, many immortals died here leaving behind countless treasures. Although the battlefield was roughly cleaned, they weren’t able to do it precisely due to the emergency of the situation. However one immortal king didn’t die and he collected the countless good things here and hid it somewhere.

However, the immortal king wasn’t lucky and when he was planning to go, he saw someone who planned to do the same thing. They fought and both were heavily injured with only essence spirit escaping. Ever since, there was no more news of the two. A few million years passed and everyone gradually forgot about this. my map might be from the essence spirit of the escaped immortal king.”

Ren Fu said.

Ye Mo was dazed, the battlefield of billions. How many things would be left behind. Ye Mo was interested but he didn’t know why Ren Fu would say this in front of Hei Wuren.

Ren Fu seemed to know what Ye Mo thought and explained “Our Yue Ren immortal residence has been searching here for countless years. People would come every few decades. Because the map is incomplete, we have no clue up until now. but somehow, Hei Wuren got news of this and came probably to rob my map.”

Hei Wuren stared coldly at Ren Fu and didn’t argue. He only guessed they had a map, the residence never gave up searching the immortal graveyard range, many people were bewildered and so was he. He only knew why after he got a map piece as well.

Ren Fu sound transmissioned to Ye Mo “You know why he’s called Hei Wuren? It’s because he has a brother called Bai Wuren. The two had the name meaning that they wouldn’t tolerate anything. Their means are very cruel and inhumane. Luckily Bai Wuren didn’t come today, otherwise, we’d die a very gruesome death.”

“Hmph.” Hei Wuren sneered “Ren Fu, you think I came to rob your map? Look at this.”

Hei Wuren threw out a jade slip “Your map is incomplete, I have a share too. If you’re willing to cooperate, bring out your jade slip and we can work together to find the treasure.”

Ren Fu dazed not expect Hei Wuren to have a map too.

Ye Mo thought, he had a jade slip too, was it a part of it as well?

Thinking about this, Ye Mo said to Ren Fu “Immortal friend Ren can I have a look at the map?”

“Of course.” Ren FU gave the jade slip to Ye Mo without hesitation. Ye Mo looked at the map and realised that his piece could fit perfectly with hers but even so, there were still many missing part.

Ye Mo looked at Hei Wuren, he was staring at Ren Fu’s map with fiery eyes. Ye Mo realised that his map might be a part too.

Ye Mo gave the jade slip back to Ren Fu and said “We’ll do it this way, we can work together to find the treasure and after finding it, we’ll split it in three parts, how about it?”

“You didn’t take out anything, what right do you have to get a third? We can go find the treasure together but I can only agree to splitting things in half, I have half and you four have half.” Hei Wuren glared at Ye Mo coldly.

Ren Fu looked at Ye Mo in confusion. she felt Ye Mo was asking for too much as well. Ye Mo was only a great extreme immortal and she didn’t mean to split evenly with Ye Mo just because she said to bring him there.

Ye Mo took out a jade slip and said “Because I have a part of the map too, do I not deserve a third?”

“Huh...”

The two were dazed.

Chapter 1743: Rely on own fortune

“What you don’t believe I have this?” Seeing the two daze, Ye Mo raised his jade slip.

Ren Fu breathed and said “Immortal friend Ye came to immortal graveyard range and possesses a map piece I believe you.”

Hei Wuren scanned Ye Mo’s jade slip and said “Regardless of authenticity, everyone put their jade slip in the middle and open the restriction. Then we’ll all scan it and mark their own complete map.”

Then Hei Wuren threw his jade slip out first, he looked at Ye Mo coldly “If someone dares to use fake jade slip to trick me, don’t blame me for what happens.”

Ye Mo ignored the threat and threw his jade slip out after his spirit sense scanned that Hei Wuren’s map was real.

Seeing this, Ren Fu threw the jade slip in the middle too.

They immediately marked the map into their own jade slips.

Moments later, Hei Wuren put away his jade slip and said “The three pieces together isn’t the whole map, it seems to be missing a corner.”

Ye Mo put away his map and said nothing. The map was indeed missing a corner.

Ren Fu looked worriedly at Ye Mo, Hei Wuren put away his jade slip quickly, she could only barely finish, some parts were blurry.

She was speechless, she didn’t know Hei Wuren was this bleak. She should’ve just marked hers and borrow Ye Mo’s later. Ye Mo was a great extreme immortal and his spirit sense must be lacking, the three pieces definitely wasn’t fused together.

Ye Mo sneered, he knew what Hei Wuren did of course but in actual fact, he had combined the three pieces together before he even threw his out.

He had seen Ren Fu's map and scanned Hei Wuren's map as soon as he threw it out.

Ye Mo used less than one tenth of a second to complete the map but Hei Wuren used two seconds. Ye Mo guessed that Ren Fu probably didn't finish. He borrowed hers to look at, if she asked the same thing, he wouldn't hesitate.

"We have confirmed this map to be real, now everyone has a copy. The map is missing a corner but we should be able to find it. we'll split the treasure into thirds, what do you think?" Hei Wuren said. Now wasn't the time to deal with these two, he would find the treasure first.

"I'm fine with it." Ren Fu said.

"Same." Ye Mo said.

Hei Wuren nodded happily "In this case, let's go."

Then he took the great extreme immortal and flew off.

Ren Fu then said "Ren Fu thank immortal friend Ye for saving my life."

She then pointed at the young girl and the handsome male "This is my niece Ren Lijin, and Chu Chi."

She didn't say who Chu Chi was but Ye Mo wasn't going to ask.

Ren Lijin's arm was attached, she walked up to Ye Mo with red eyes and bowed "Lijin thank brother Ye for saving my life."

Chu Chi also came over and saluted with his fists. If Ye Mo didn't appear, Ren Lijin would be in a worse state. If they didn't run, they would eventually die too.

Ye Mo knew Ren Lijin's feeling, any young girl would feel dejected after her clothes were torn off and her private area seen by stranger.

Ye Mo didn't want to mention it and changed the topic "No need to mention such minor things. Hei Wuren had left, let's chase up."

...

The three map pieces were indeed clearer after combined. The missing part was about the interior of the treasure, it didn't affect the routes outside. Hei Wuren was very fast and in just two hours, he found a very hidden stealth formation. From the map this formation should be the entrance.

The four followed behind Hei Wuren and didn't feel the route was wrong.

"Sigh, we used countless years and only secured a hundred thousand km radius but now that the three pieces combined we instantly found the entrance..." Ren Fu sighed.

Ye Mo smiled "If you didn't secure the radius, we wouldn't be able to find here so quickly."

"Really? In that case, then you guys take me in here, there's a stealth formation here, how come I can't find the entrance?" Hei Wuren scorned.

He believed his piece was the most complete.

Seeing them say nothing, Hei Wuren sneered "Since you can't find it then I will. But I need to say this before hand, if I find the entrance first I get first choice on the treasure."

Ye Mo who couldn't even be bothered talking suddenly said "Hei Wuren, you mean that if I'm the first to find the entrance, then I get first share when we split things?"

“Of course, whoever finds it first can get first choice but you can’t break the stealth restriction here with force. Otherwise, the things in here would be revealed.” Hei Wuren said in contempt.

“Then is it first choice for everything or just once?” Ye Mo asked again.

Ren Fu knew she couldn’t find the stealth restriction quickly so she said “Just once.”

Ye Mo knew what she thought and nodded, then he threw out a few formation flags.

With this, an obscure entrance appeared before them before eventually forming into a stone door.

“You’re an immortal formation great master?” Ren Fu asked in shock.

Hei Wuren also looked at Ye Mo in disbelief. He could find the entrance but not as easy as Ye Mo.

“Let’s go.” Ye Mo walked in first.

Seeing this, the rest of them all followed.

Just when Ren Fu wanted to ask how to hide their entrance, Ye Mo waved his hand and took the formation flags. Then, the entrance disappeared. Ren Fu felt vigilant seeing this feeling Ye Mo wasn’t ordinary.

No one knew that Ye Mo threw out eight flags but only took back seven.

The stone entrance door was very simple, after going in, there was a platform. Under the platform were coarse steps, this place was indeed set up in a rush.

After coming in, the yin chi immediately disappeared, clearly there were formations here to block it.

Ye Mo knew no one would attack his disciple here so he went down the stairs first, Ren Fu followed closely, Ye Mo was last.

Before going down, Ye Mo had scanned his spirit sense out. There was spirit sense barrier here but he broke it easily with his spirit sense blades. He saw there was a skeleton below the stairs.

As soon as Hei Wuren went down, an immense pressure came. That pressure almost suppressed all the space nearby. Hei Wuren knew things weren't good and quickly released a huge bell, Ren Fu also released her defense magic artefact. Only Ye Mo did nothing.

Clank clank clank.

It was like raining hail as countless things hit the bell.

Ye Mo was amazed, that thing attacked too fast. Even he didn't see what struck the bell.

Ren Fu quickly took a few steps back. Luckily the ambush focused the first person and she only took some pressure.

Now, they both saw the skeleton on the ground and realised that this skeleton found here first but was ambushed.

Hei Wuren was scared sweating but he knew he survived. He then reached out and picked up a jade slip on the floor.

At the same time, Ren Fu took the skeleton's storage ring while Ye Mo casually took a hexagonal black card.

Chapter 1744: Ancient Rune

At this time, the three people behind him came. Hei Wuren didn't care, his spirit sense scanned that jade slip and he rejoiced. This jade slip was the last part of the map. Now, he had the complete map.

Ren Fu thought the same, she found she had 200 million more immortal crystals in her storage ring and an extreme grade immortal artefact.

She saw what Hei Wuren did but even if he got the fourth part of the map she didn't care. They were all working together now, Hei Wuren had no right to search for treasure alone.

Seeing Ye Mo still act like nothing had happened, she felt Ye Mo's experience was too little.

Hei Wuren thought the same but he didn't care about a storage ring, he cared about the entire immortal treasure.

When Ren Fu subconsciously looked at Ye Mo, she realised that Ye Mo had a frown. She asked "Immortal friend Ye, did you notice something?"

Ye Mo was shook and quickly said nothing "Nothing I just feel a bit weird."

Ren Fu was confused but said nothing. The group walked past the skeleton for about tens of meters before seeing another restriction stone door.

"It should be here." Hei Wuren said.

"Master, are we going to break this door open by force?" The great extreme immortal asked.

Ye Mo sneered "Idiot, if you attack with force this door would immediately disappear. This is just a transition formation."

The great extreme immortal's face changed but he didn't dare to speak since his master said nothing.

Hei Wuren's face was bad but he didn't rage, he asked "What do you think we should do immortal friend Ye?"

"If I say it do I get an extra share?" Ye Mo asked calmly.

Hei Wuren sneered "Do you want to act against our arrangement. We agreed to split three ways evenly. What's the meaning of you asking for more now?"

Ren Fu said nothing, she felt Ye Mo shouldn't be asking for this now.

But unexpectedly, Ye Mo saluted with his fists "Haha, I forgot about this, sorry, sorry."

Even Hei Wuren looked at Ye Mo in confusion, he felt Ye Mo wasn't someone easy to talk to but now he's so easy to talk too and apologized.

"I'll open this door restriction." Ye Mo threw out four more formation flags. Then the door made ripple like waves before four rinks appeared.

Ye Mo pointed at the four rinks "There should be four pieces to the map, there's four rinks here. It should be done if we put the pieces in."

Hei Wuren frowned "But we only have three pieces..."

Ye Mo interrupted him immediately "Really? How come I saw you take a jade slip before?"

Hearing this, Hei Wuren's face changed. He wasn't certain if Ren Fu noticed it but he was certain Ye Mo didn't see it. If Ren Fu mentioned this, he would say Ren Fu got a storage ring.

But unexpectedly, Ye Mo brought this up. Did the two communicate or did Ye Mo really notice?

Ye Mo said coldly “I found a jade slip indeed but that’s what I found. According to the arrangement before, one jade slip for a share. If I have two shares then I will take out the jade slip. Otherwise, why should I take out two jade slips?”

Ye Mo said calmly “Using what you just said, do you want to act against the arrangement? We agreed to splitting three ways evenly. What’s the meaning of this? if I do something, it’s free, if you do something you need to get paid?”

Now, Ren FU realised that Ye Mo had long saw Hei Wuren pick up the fourth jade slip.

Ren Fu suddenly shivered, she wasn’t certain if Ye Mo saw her picking up a storage ring. Was Ye Mo really a great extreme immortal? Hei Wuren seemed to be played every single step much less her?

Thinking about this, Ren Fu decided to avoid Hei Wuren and split half the immortal crystals with Ye Mo. As for that extreme grade immortal artefact, she would keep it herself.

“Plus, we already settled things outside, if you really don’t agree. I’m going to attack the door.” Ye Mo said.

“You...” Hei Wuren had nothing to say to that but he immediately found something else “Okay, then in that case, how come I saw Ren goddess pick up a storage ring?”

Ren Fu’s face froze and then immediately took out a storage ring “That’s right, it’s here if you want it then take it, I don’t want it.”

Ye Mo scanned with his spirit sense and knew it wasn’t the same one she picked up. She had seen what was inside. Only the extreme grade immortal artefact was valuable but for an immortal forgery grand master, it was only so so.

Hei Wuren’s face was very bad. He was certain this wasn’t the same storage ring but he had no evidence.

Seeing the four rinks, Hei Wuren thought for a while and smiled "In that case, we'll do what we agreed on before. I'll lose out a bit, sometimes that's not a bad thing."

Then, he threw his two jade slips in the rink.

Ren Fu's spirit sense immediately chased over but saw nothing. The jade slips were gone. Her face didn't look so good but she still put in her jade slip.

When Ye Mo threw out his one too, the ripple restriction on the door disappeared. A grand and ancient chi came into their face. It was as though if they entered this door, they would see everything in the ancient times.

"This isn't the immortal treasure." Ren Fu's face changed immediately and realised this place was no immortal treasure. It was an ancient rune.

"It's an ancient rune?" Even Hei Wuren dazed upon seeing this and then he rejoiced. Without a map, it was very hard to get around ancient ruins, only he had the complete map.

Ye Mo immediately realised, perhaps that the immortal king was finding a place to hide his treasure and accidentally found this ancient rune. Then, he used it to hide his treasure.

Of course, it was also possible that the immortal king had this ruin map and found here.

The first stone door and those coarse steps were set up by that immortal king but the restriction stone doors were a part of the real ancient ruin.

"We don't have map, can we join up and kill Hei Wuren." Ren Fu asked Ye Mo.

Before Ye Mo answered, Hei Wuren seemed to have noticed something and took the great extreme immortal in.

As soon as they did, Ye Mo's spirit sense couldn't find them.

"Sigh, he noticed it." Ren Fu sighed.

Ye Mo shook his head "There might be nothing here, it's probably a ruin that was dug up before but was just used by that immortal king. If we're lucky we might be able to find the immortal king's treasure."

He left a formation flag outside because he knew that it wasn't just Hei Wuren here. Even if Hei Wuren didn't run, Ye Mo wouldn't gain up on him.

Ren Fu said in disappointment "It should be so, I got a storage ring before. there's some immortal crystals, I'll share some with you."

Then, Ren Fu gave Ye Mo a storage ring filled with 100 million immortal crystals, Ye Mo took it.

Then he gave a jade slip to Ren Fu "This is the map of the four pieces combined. You can have a share too. Once we go in, we'll rely on our own fortunes."

Ren Fu took the map in joy. She never expected Ye Mo to have the entire map. It seemed he not only saw the fourth jade slip and marked it too.

Chapter 1745: Void kill again

If Ren Fu didn't give him the 100 million immortal crystals, Ye Mo wasn't going to give her the map for free.

To Ye Mo, the map was precious but Hei Wuren already knows. Plus, Ye Mo felt people had been to this ruin so there probably wasn't anything good left. However, that hexagonal card gave Ye Mo some anticipation.

The card wasn't put into the storage ring meaning that it had equal importance as the map jade slip.

“Thank you immortal friend Ye, good luck to you.” Then Ren Fu took Chu Chi and Lijin and entered the door.

Now, Ye Mo was the only one here. Ye Mo seemed desperate and quickly entered the door too. Then, he disappeared.

“It’s an ancient ruin, lucky, this this pure luck. These four bastards dares to split things with my brother, they’re asking to die.” As soon as Ye Mo disappeared, this voice sounded.

It was a pale faced man, he was dressed in white and his hair was white too. He was the exact opposite of Hei Wuren.

Then, he walked towards that stone door without hesitation.

Just when he made half a step, he immediately noticed things weren’t good. There was this terrifying feeling, he didn’t even have the chance to release his magic artefact and he felt the space around him completely change. It became fierce and grand and killed with killing intent.

“Rumble...”

There was nothing material but the space kept making this terrifying explosion sound. In this explosion, space went chaotic, even spirit sense couldn’t see anything.

Moments later, bloody mist sprayed in the air and it gradually recovered. A man with half a body appeared in this space.

At the same time, Ye Mo appeared before him but now there was a purple sword in his hand.

It was Ye Mo who ambushed this man, it seemed like he went into the door but instead, he stealthed himself on the side. He left a formation flag outside, he noticed it as soon as this man came.

“You dare to ambush me.” The white man’s face was hideous, a white flashy bone had appeared in his hand.

It gave Ye Mo a strange feeling as though there was endless power contained in it.

“Die.” The white man released the bone in his hand. Bleak killing chi filled the space. It seemed that against such killing force, Ye Mo would be killed no matter where he ran.

Ye Mo was shocked, he was certain this person was Bai Wuren. He didn’t expect this guy to be alive after ambushing him and still have the power to retaliate.

If he gained up on Hei Wuren before and this Bai Wuren came. Ren Fu and them would be in a dire situation.

Ye Mo had the confidence to stop Bai Wuren but Ren FU and them wouldn’t be able to stop Hei Wuren. Although Ren Fu was also half immortal king, her power was quite weaker than Hei Wuren.

He knew that the reason the two didn’t jump out together at the start was for fearing that he crushed the jade slip.

But now there was just a Bai Wuren.

Humm.

Zi Xu splashed the skies with purple light and hacked open the killing chi filled space.

Sword god art rainbow.

The sword ray instantly turned to countless rainbow sword rays and the killing chi Bai Wuren started up were instantly melted. In a short time, they completely disappeared.

Seeing this, there was extreme shock on Bai Wuren's face. He completely realised that even if Ye Mo didn't ambush him, he wouldn't have it easy with Ye Mo. This powerful sword force meant that Ye Mo was on par with him.

Realizing this, Bai Wuren regretted that he didn't run when he was ambushed. However, he still had time to run.

Crack.

There was a terrifying cracking sound when Zi Xu hit the white bone. Bai Wuren couldn't care about his magic artefact, he instantly released a rune.

Ye Mo wasn't going to give him the time to do this and punched.

Void.

This fist seemed to have come from the void, void annihilation, no annihilation no return. All the remnant killing force and the rainbow sword ray in the air were taken away by this punch forming a huge killing force whirlpool.

Bai Wuren was caught in this killing force whirlpool and was extremely shocked. He completely didn't understand how a great extreme immortal could be this insane. He was half way immortal king, even though he was ambushed, he shouldn't be suppressed like this. even his rune was caught by the whirlpool, this was space law.

"Have mercy..."

Bai Wuren could only say this and was churned by the space killing force.

Ye Mo reached out his hand and a white storage ring flew in as well as that bone magic artefact.

The bone magic artefact had this death annihilation chi, clearly it wasn't ordinary. Ye Mo just put on a few restriction and threw it into his storage ring. He was more interested how many good things were in Bai Wuren's storage ring.

When Ye Mo broke the restriction and scanned his spirit sense in, he was dazed.

This was the first time he had seen such a wealthy storage ring. Even hao heaven grand emperor's small world didn't surprise him this much.

There were at least 1 billion immortal crystals piled up, they were like huge mountains. This wasn't even Bai Wuren's main fortune, he had 20 immortal crystals cards and each had 100 million. this meant that Bai Wuren had 3 billion immortal crystals.

On top of that, there were immortal spirit herb and forgery materials piled up in mountains. He had 8 extreme grade immortal artefact and countless more pills and lower grade ones.

Just how many did this bastard rob? He was too wealthy.

Ye Mo immediately thought of Hei Wuren, if Bai Wuren had this many good things how many would Hei Wuren have? Thinking about this, he even wanted to fight with Hei Wuren.

After his joy, Ye Mo put away the storage ring and formation flags and opened the restriction stone door.

Ye Mo just entered the door and heard a few cracks, then he saw four jade slips on the back of the door.

He didn't expect them to fall. Ye Mo picked them up and found them to be the same before they threw them into the rink.

Ye Mo just realised that they needed the jade slips to go out. Even if Hei Wuren got things, he wouldn't be able to get away as long as the jade slips were in his hands.

Thinking about this, Ye Mo rejoiced. It seemed they needed to meet again, that guy was unlucky.

Ye Mo looked around, it was barren wilderness everywhere. There were endless hills and dead trees everywhere. Dried up river bed had spider web like cracks spread all over it. Ye Mo reached his spirit sense out and was immediately blocked. Even his eyes and could only see about tens of meters.

Ye Mo didn't move. He soon noticed something wrong, these endless hills and spider webs seemed to have some pattern to them. Those dead trees didn't seem to grow casually.

Ye Mo took out the map and immediately realised that the scene was correspondent to the map.

A moment later, Ye Mo put away his jade slip, he had a very clear route.

Although they had the same map and came from the same way but the route formed in their brain might be different.

Ye Mo flew into the dried river and rushed into the depth of the ruin.

...

"Not right..." Hei Wuren suddenly stopped.

"What's wrong master?" the great extreme immortal asked respectfully.

"The routes should be born based on people's sea of consciousness. The marks I left behind should allow your martial uncle to come here but after coming in, he wouldn't be able to follow my marks." Hei Wuren patted his head.

"Hmm, it really is so, what do we do?" The great extreme immortal scanned and didn't find the marks they just made.

Chapter 1746: Surprise

“Lijin, don’t take what happened today to heart, things like this will happen when you come out for trial. You will only have the chance to be independent if you increase your power.”

Ren Fu saw her niece was dejected and comforted.

“Yea, Lijin cousin, your talent is so high, you can definitely reach immortal king in the future. Once you reach immortal king, I will go with you to kill that bastard, and then we can have our wedding.” Chu Chi said.

Then, Chu Chi held Ren Lijin’s hand.

Getting Chu Chi’s comfort, Ren Lijin felt a little better but the killing intent in her eyes were dense. Not only was she going to kill that great extreme immortal but also Hei Wuren. Even though she was no match for him but one day she would be able to kill him.

Ren Fu knew what her niece thought and said “Lijin, Hei Wuren and Bai Wuren usually appear at the same time. Although I don’t know why Bai Wuren didn’t come today but you must not go attack Hei Wuren. Even if you do, you must go with Chu Chi and your power must be higher than him. My cultivation level is almost the same as Hei Wuren but I’m far from a match for him. plus, that Bai Wuren wouldn’t be any weaker than Hei Wuren.

The three fell silent. The three gained up on Hei Wuren but Hei Wuren still subjugated Ren Lijin first. If Ye Mo didn’t come, she would be in a worse situation.

“Who is Ye Mo? Hei Wuren seemed to be concerned with him.” Ren Lijin asked in confusion.

“Not only Hei Wuren but I feel concerned with him too. I think Hei Wuren probably suspects that Ye Mo hid his power. Otherwise how could a great extreme immortal not fear us great eternity immortals at all. This great extreme immortal not only has shadowless worm but is also an immortal formation great master, this is also strange.” Ren Fu said.

Chu Chi nodded "This person is not bad, we helped him once and he helped Lijin. But I suspect he didn't hide his power, he can probably kill people above his level like Hei Wuren. Hei Wuren probably guessed this and that's why he was worried about Ye Mo joining up with us."

"Chu Chi is right, from how he instantly carved the entire map, he's probably stronger than me. I suspect he already knows what I got from the storage ring. Regardless, Ye Mo is no ordinary person and he helped us. Even if he didn't, you guys need to treat him with respect." Ren Fu said seriously.

Chu Chi said "What I don't understand is, since Ye Mo could carve down the jade slip, he clearly knew about it. why did he not touch the storage ring nor the jade slip?"

Ren Fu fell silent. The only explanation was that Ye Mo found something better but even she didn't see what it was.

"It's that bastard, I'm going to kill him." Ren Lijin suddenly roared.

Ren Fu and Chu Chi saw that great extreme immortal coming back but they didn't see Hei Wuren. Ren Fu immediately nodded "Kill him."

The great extreme immortal was focused on going but when the three saw him, he also saw the three. He was a mere great extreme immortal, how did he dare to go upon seeing three great eternity immortal. Instantly he changed a direction and ran.

Before he could move, a terrifying space tearing force tore him to pieces.

Seeing this great extreme immortal just disappear, the three sweated cold on their back. They knew they could only go along the route formed in their brain but the consequence of not following it was too terrifying.

...

After walking for half a day, Ye Mo found that this place was filled with ore mountains and immortal spirit herb mountains that had been excavated. He suspected that this place used to be a trial ground.

A ten meter tall immortal spirit beast carcass suddenly blocked his road. Ye Mo stopped, a terrifying power came from this body making Ye Mo retreat a few steps subconsciously.

In this barren and wild place, Ye Mo felt this strange sense of suppression. It made his mind worry and this tall immortal spirit beast body made him feel like the sky was collapsing on him.

Such a powerful immortal spirit beast Ye Mo took in a cold breath in. He had seen level seven immortal spirit beast in the seven refine tower.

But this immortal spirit beast that was dead for countless years gave Ye Mo a more powerful feeling. This body was much smaller than that level seven immortal spirit beast but Ye Mo felt this immortal spirit beast was might even be a level nine immortal spirit beast.

Thinking about this, Ye Mo was shocked. Level nine immortal spirit beast was equivalent to immortal emperor. If this was really so he would be earning big.

Ye Mo just wanted to send the body into his golden page world when he saw a faint golden light come out from the body.

Immortal spirit beast core? Ye Mo instantly realised, he held down his excitement and took the fist sized immortal spirit beast core.

The pressure of the immortal spirit beast was mostly from this immortal spirit beast core. It was powerful but it couldn't attack. Ye Mo was immortal spirit body and great extreme immortal peak stage and thus could take the pressure.

Ye Mo knew that just this beast core was invaluable.

There were many means for immortal monarch to break through to immortal emperor but very little could succeed. It could be said that only one percent of the means would succeed and not everyone might be able to use it. Emperor Start pill was a mean everyone could use, the main ingredient was a level nine immortal spirit beast core.

Level nine immortal spirit beast were extremely rare in immortal realm. They usually took humanoid form too. They were equivalent to a real immortal emperor, who would dare to touch immortal emperor dan tian?

This was unimaginable luck that Ye Mo found a level nine immortal spirit beast core.

He put it in a jade box and placed restrictions before sending into the golden page world. Ye Mo wasn't interested in the body of this immortal spirit beast, it's bones were top grade forgery materials but nothing compared to the beast core.

Ye Mo dug a place on the spot and buried the body. Level nine immortal spirit beast were very respected in the immortal realm. If he didn't get the immortal spirit beast core he would bring this body out for immortal crystals but since he got the immortal spirit beast core, he would bury it in return.

...

Four hours later, Ye Mo stopped again. A huge black palace appeared before him again, the doors were tightly shut and there was a hexagonal rink in the middle.

Ye Mo immediately thought of that hexagonal card he got. He took it out immediately.

Ye Mo put the card in.

Creak.

The door seemed to have not been opened for a long time.

A sorts of chi came out, each one representing an immortal artefact or treasure.

Ye Mo just stared at the centre of the palace. There was a dark red stone derelict in the centre. It was about 3 meters wide. It was that stone that made Ye Mo's heart skip. He finally realised what the extreme grade forgery material Kai Feng immortal king talked about was.

Ye Mo didn't know how Kai Feng knew there was this ore here but he knew this ore. It was refine star rock that wasn't in the 33 heavens.

It sounds ordinary but it's very extraordinary. It could be compared with star core flame as it's also obtained from refining a planet.

If you wanted to obtain the refine star rock, you needed to refine a large planet.

Even Ye Mo suspected if this was real. How many planets would be refined to get a refine star rock this big. Even an divine emperor wouldn't do something this boring.

Regardless, Ye Mo had decided to take it into his golden page world first.

"You really found the key to the palace." Hei Wuren's shaky voice sounded, it was extreme joy.

Chapter 1747: Buddhist god art

Ye Mo already noticed Hei Wuren when he came. Before Hei Wuren could attack, Ye Mo went into the palace first and wanted to put the refine star rock into his storage ring.

What confused Ye Mo was that the refine star rock didn't move at all.

"Haha, you want to put refine star rock into your storage ring, do you think your storage ring is half god artefact?" Hei Wuren laughed and entered the palace.

Ye Mo frowned and stopped trying. According to Hei Wuren, it required half god artefact or above storage ring to store.

Although he could put it in his golden page world but he didn't do so. He wasn't scared of Hei Wuren but he was certain he could keep Hei Wuren here. If Hei Wuren got away, news of him owning half god artefact would spill.

"You probably don't want to see me the most now right. Haha, I underestimated you, you actually got the key to this palace. Answer my question and you can kill yourself. I'll allow you to go into reincarnation." Hei Wuren glanced at Ye Mo contemptuously.

To him, no matter how strong Ye Mo was, he was no watch if he didn't have Ren Fu and them to help.

Ye Mo raised his hand and Zi Xu was in his hand. Then he said "Actually, I really want to see you, do you believe me?"

There was a cruel smile on Hei Wuren's lips but he didn't attack and asked "My only confusion is how did you get here. You need to get four parts of the map, how did you get here?"

"If I tell you will you not hurt me?" Ye Mo asked plainly.

"Keep dreaming." Hei Wuren sneered.

"Then stop farting and fight." Ye Mo said and attacked.

Hei Wuren saw that Ye Mo dared to initiate the attack and was furious. A golden crack appeared out of nowhere as though it had always been here.

Then, there was Buddhist chants in the palace like huge hammers that smashed in Ye Mo's sea of consciousness. This spirit sense knocking almost made Ye Mo spit a mouthful of blood. He immediately expanded his spirit sense domain and severed the buddhist chants. This wasn't a spirit sense cultivation method but was much more powerful than ordinary spirit sense cultivation method.

If he didn't have spirit sense domain he would be heavily injured from that.

At the same time, the golden crack landed, it was a ten meter long golden staff.

This gave Ye Mo a very familiar feeling. At the bottom of the pond in the chaos star realm, he saw a staff and a skeleton. He didn't touch the staff next to it but he felt the two staffs were similar.

This murderous inhumane Hei Wuren actually cultivated authentic buddhist cultivation method. Even Ye Mo didn't expect this.

Zi Xu's purple light was no weaker than the golden light. Instantly, the purple rainbow clashed with the golden light.

Light splashed everywhere creating space tearing sounds in the palace.

Clank.

Zi Xu and the staff clashed together creating huge sounds in the palace.

Ye Mo's face didn't change, his rainbow god art was only half god art. Hei Wuren was a little stronger than Bai Wuren. He could easily kill Bai Wuren because he ambushed him first but against Hei Wuren, Ye Mo would need to use other ways to kill him.

However, shadowless was asleep or shadowless could ambush him and grab a second of time for him.

Hei Wuren's face changed, although he released his staff casually, it was a Buddhist god art, Brahma sound gold shatter.

When the Brahma sound entered the sea of consciousness, his golden staff could easily tear the opponent in half but now, Ye Mo easily stopped it and didn't seem to break sweat at all.

"You hid your power?" Hei Wuren felt a great extreme immortal would definitely not be able to stop this move.

Ye Mo released Zi Xu again, Illusion Cloud division strike. He wanted to kill Hei Wuren quickly just like what Hei Wuren wanted to do to him.

His sword ray split rapidly and in the blink of an eye, before the Brahma sound dissipated the palace was covered in Ye Mo's purple sword rays again. At the same time, Ye Mo punched.

All the sword ray suddenly spun, it was as though the entire palace was spinning due to Ye Mo's punch. A terrifying grand killing intent surrounded the palace and swept over at Hei Wuren.

Hei Wuren couldn't handle the shock in his heart anymore. He thought that move was Ye Mo's biggest killing blow but this punch was about to tear open the void. Perhaps if Ye Mo wasn't limited by his cultivation level, this punch would've torn open the void.

Hei Wuren didn't dare to hold back, he released a golden futon and shot out hundreds of hand signs. The golden futon formed golden ripples around him.

With each hand sign, the ripple would expand a little. The golden ripples grew larger and larger in the void and wave after wave. Everytime Ye Mo's void killing force was stopped by the ripple, it would slow a little.

Ye Mo's heart sunk, he hadn't fought with immortal king but it didn't mean he knew nothing. This futon with Hei Wuren's hand signs for the basic immortal king domain.

The immortal king was so powerful because they were like truth realisation state in the cultivation realm, they could completely expand their domain. immortal king's domain was called immortal king domain. the space in the immortal realm was stable so it was too hard to form one's own domain. even the most powerful great eternity immortal could only bind space nearby with his immortal essence but this wasn't domain.

This was like Ye Mo's sword domain and spirit sense domain. Ye Mo was an expert in domain knowledge but his cultivation level prevented him from forming his own domain in the immortal realm.

When great eternity immortal broke through to immortal king, it was a qualitative chance. This change was forming domain. It was much more powerful than his spirit sense domain. spirit sense domain

would only work below immortal king. Perhaps it was more agile and fluent but it was far weaker than an immortal king domain.

But Hei Wuren used this futon to form his domain.

Ye Mo knew if Hei Wuren's domain enveloped him completely, he wouldn't be able to retaliate.

Ye Mo really wanted to use world rock and give this guy a Tai Mountain Crush but Ye Mo knew that the god art used too much power. If Tai Mountain Crush couldn't kill Hei Wuren, he would be at a definite disadvantage.

Ye Mo sighed, he learned quite some god art but his cultivation level was too low. The more powerful the god art, the more immortal essence and spirit sense it required. If he used all his god arts together, two Hei Wuren would be dead.

But Ye Mo knew to be able to use many god arts at the same time, he would have to be at least great eternity immortal tertiary stage.

Rumble.

Void killing force clashed with the golden futon again. The terrifying sound almost flipped the palace.

The ripple also started to cripple, after all, this wasn't Hei Wuren's own domain, he used the futon to set it up.

The division sword rays also became messy and scattered everywhere.

Tens of sword ray had sliced open Hei Wuren's clothes and created some blood.

Some of the golden light struck Ye Mo but Ye Mo was completely fine. Ye Mo's immortal spirit body prevented any injuries.

Hei Wuren's face was worse.

Clearly, Ye Mo's punch was far more terrifying than that strike.

For the first time, Hei Wuren felt fear. His fake immortal king domain was also very taxing on spirit sense and immortal essence.

But then, the fear was instantly swept away, if he didn't want news of him having Buddhist cultivation method to spill, he would have to kill Ye Mo.

"Die!"

He burned his immortal essence and attacked even faster. His futon shot out denser and greater ripples while his golden staff turned into a tidal wave of golden color at Ye Mo.

Chapter 1748: Punch of destruction

There were denser and faster Brahma sounds as though they were going to tear at Ye Mo's sea of consciousness constantly. However, they were stopped by Ye Mo's spirit sense domain.

Ye Mo knew this was Hei Wuren attacking at full power, victory or defeat depended on this move. He was also certain that if Hei Wuren couldn't kill him with this move, he would leave.

Realising this, Ye Mo didn't hold back, there was not a third person here.

He released world rock but this wasn't god art, he knew he couldn't use two god arts at the same time now.

The world rock covered by void secret silver suddenly smashed down like a huge mountain into that golden sea.

The pouring golden sea immediately slowly after being blocked by the world rock. The golden color retreated and the Brahma sounds weakened.

Hei Wuren was more and more shocked, he didn't expect Ye Mo to have this small mountain like magic artefact. No wonder this Ye wasn't afraid of him nor Ren Fu and wanted to take a part of the immortal treasure.

Realizing Ye Mo's terror, Hei Wuren wanted to kill Ye Mo even more. He burned his immortal essence like crazy and the immortal king domain spread rapidly, in just another second, his immortal king domain would sweep Ye Mo in. then, Ye Mo would be on the chopping block.

How could Ye Mo let himself get in the immortal king domain? he sent out tens of spirit sense blades and punched a second time.

Wave kill.

Rumble.

A ten meter tall, hundred meter wide blue flame wave rose into the air and instantly formed a fire wall as it collided into Hei Wuren's golden futon.

Sizzle.

The blue flame easily crippled the golden ripples and charged at Hei Wuren but this wasn't the end. A second even more terrifying blue wave filled the palace and also pressed towards Hei Wuren.

The first wave of flame quenched Hei Wuren's domain and instantly came before Hei Wuren. The intense scorch made him no longer able to suppress his terror. If he knew Ye Mo had such a powerful punch he would rather run away immediately.

But now, it was too late. He could only block it. Hei Wuren suppressed the horror in his heart. The golden futon turned into a huge golden round shield blocking in front of him.

Rumble.

The fire smashed the golden futon and the golden futon immediately dimmed down. In the turn of an eye it became black. Hei Wuren's body was full of a burnt smell. He successfully blocked Ye Mo's first fire wave but before he could get away the second one came.

The second wave burned the futon like paper.

"Blue Like Morning Sky... immortal flame god art..."

Hei Wuren spat these words and was devoured the flame.

Ye Mo spat a mouthful of blood and flew back sitting on the ground. His wave kill punch could punch out three waves of flame and sweep all the killing force of the void over making the opponent unable to escape.

But now, he only used two waves and collapsed to the ground.

He didn't even punch out the killing force of the fist. It could be said he only released a third of the real power of wave kill.

Ye Mo's body was deprived of immortal essence, his spirit sense was extremely depleted. If a hollow immortal came now, he might not be able to beat him.

Ye Mo ate a few pills.

This situation occurred because he didn't know that Blue Like Morning Sky and wave kill combined would cost this much after Blue Like Morning Sky reached immortal flame.

This meant that if wave kill was used, he would wait to be killed if it couldn't kill.

This meant that even in his prime state, he wouldn't be able to use the entire wave kill with Blue Like Morning Sky. He would have to reach great eternity immortal, even so, he wouldn't be able to use it easily.

If he used it, he would be weakened to the extreme.

The pills immediately turned to immortal essence and Ye Mo recovered a little. He looked forward at the charred area. There was only a golden staff on the side, nothing else.

Ye Mo sighed, Hei Wuren definitely had more things than Bai Wuren but he couldn't control wave kill. Wave kill destroyed the storage ring too.

After recovering some immortal essence, Ye Mo immediately put that refine star rock into the golden page world as well as the golden staff.

Ye Mo just realised that the battle caused nearly all the storage ring here to explode. These storage ring were clearly collected by that immortal king at the battle field. He never came back after placing them here.

Most of the things inside the broken storage ring were destroyed. Only some spare immortal crystals remain and some immortal artefacts. There were from low grade to extreme grade immortal artefacts. They were stacked up in piles.

Ye Mo shook his head, it was too much of a pity.

Ye Mo found ten uncracked storage ring and found it was just some immortal artefact and immortal crystals and ordinary level forgery materials. Clearly, these storage ring had been harvested once already.

Ye Mo then studied this palace and confirmed these was nothing else but the refine star rock.

There was some slight space ripples from outside the palace. Ye Mo immediately knew that Ren Fu and them were here.

Ye Mo didn't want to see them now. there was nothing else attracting him in the palace so he left the palace without hesitation.

...

Ye Mo just left the palace and three figures landed just where Ye Mo stood. It was clearly Ren Fu and them.

"Aunty Fu, this doesn't seem right, someone seemed to have just fought here." Ren Lijin said. She felt much better after killing that great extreme immortal.

Ren Lijin walked inside carefully and immediately, they found countless broken magic artefact and storage ring.

"This is the immortal treasure but these storage ring seemed to have been destroyed by the battle, tens of thousands of them were destroyed. This is such a pity." Ren Fu said.

Chu Chi said "Aunty Fu, would it be caused by Ye Mo and Hei Wuren fighting? The temperature here is very high, there seems to be a fire element. Hei Wuren isn't fire element. If Ye Mo is fighting then he's probably fire element."

"Huh..." Ren Lijin opened her mouth wide in shock for a while before saying "He only seems to be great extreme immortal. Even if he hid his power he can't be a match for Hei Wuren right?"

Ren Fu shook her head "This is hard to say, Ye Mo is very mysterious and both of them aren't here. Regardless, we should hurry up and take what we can and leave."

...

Ye Mo used less than half the time to come back to the restriction stone door.

But Ye Mo didn't go out, he threw the four jade slips on the door and let the stone door open before hiding on the side.

A day later, three figures came here rapidly. Ye Mo saw they were Ren Fu and them. They all had a joyful face, clearly they were happy with what they got at the palace.

The three didn't even think and left the door. Ye Mo waited for another two hours before leaving the door too.

He scanned his spirit sense out and found the three had left indeed.

Ye Mo stood at the door to the restriction. He waited for the four jade slips to fall.

Chapter 1749: One's person's ruin

But soon, Ye Mo was disappointed. He waited for five minutes but nothing came off.

Ye Mo shook his head in disappointment. He was planning to use Zi Xu to smash the door.

The reason he was going to do this was because he didn't want other people to come in. Ye Mo felt there were more things in this ancient ruin but he just didn't find them yet. Plus, he didn't want Ren Fu bringing more people here.

Thud.

Ye Mo didn't attack with full power but when Zi Xu struck the stone door, it immediately sprouted some ripples.

Ye Mo felt that the position he was at was spinning. He really wanted to check with spirit sense but he couldn't see anything around him.

This was indeed space transition formation but it was a bit different than he had thought. Ye Mo thought that the formation only took the door away but it also took him too.

Ten seconds later, the space nearby stabilized again. Ye Mo breathed easy, he was prepared to go into the golden page world if something was wrong but now it didn't seem he need to.

Clap clap.

When the space stabilized, Ye Mo found that the four jade slips fell down again. Ye Mo immediately picked them up.

It seemed that when the jade slip was attached to the door, the transition formation would take the people nearby with it as well. But if the jade slip wasn't attached to the door, attacking the door would only cause the door to be taken. This way, the stone door would completely disappear.

This ancient ruin was so meticulously designed.

After getting these four jade slips, Ye Mo was overjoyed. If he didn't have a place to hide, this was the best place. without the jade slip, no one can open that restriction door no matter how powerful one was. If someone attacked the door by force without the jade slip, the door would immediately be transported to a new place.

Ye Mo scanned his spirit sense out and he found that there were no coarse stairs outside. The entrance restriction at the immortal graveyard range was gone. He had a formation flag mark at the entrance but he couldn't even sense it now.

To be specific, in front of him was completely undug earth.

Ye Mo wasn't going to dig those stairs. The immortal king did that so his descendants could find this place but he didn't need to. Only he needed to know here, this ruin became his alone.

Ye Mo came out of the earth and found his position was still in the immortal graveyard range.

Ye Mo expanded his spirit sense domain and checked the nearby surrounding. This place was indeed not where he came in from and was quite far.

Ren Fu and them were gone, he seemed to be the only one left here. Yin chi flowed making ghastly sounds. Ye Mo didn't stay here. He released Blue Moon and prepared to find a place for divine damnation.

But after flying for 5 minutes, Ye Mo realised that his divine damnation would definitely be heavenly shocking. If he had divine damnation outside the immortal graveyard range, it might startle powerful beings. Meanwhile, there was no one near the immortal graveyard range.

Thinking about this, Ye Mo threw out 500 million immortal crystals without hesitation. He knew he would need quite a bit immortal crystals to break through to great eternity immortal. This place wasn't like the flame river where he only needed to set up immortal spirit chi gathering formation.

Luckily he had 3 billion immortal crystals, it was definitely enough.

The 500 million immortal crystals were set up into a huge spirit gathering immortal formation. Then, Ye Mo added a stealth formation on top of that. When the divine damnation really came, this stealth immortal formation wouldn't help that much. It definitely wouldn't be able to stop Ye Mo's terrifying immortal spirit chi whirlpool but for Ye Mo, even a little bit would help.

Ye Mo had a few bottles of extreme jia pills, they were all special grade.

He ate the pills and ran the Three Birth Chant at full power, charging at the bottle neck of great eternity immortal.

An invisible barrier formed in Ye Mo's will, Ye Mo just had to keep charging at these barriers, the barriers that stopped his break through.

It was invisible. For ordinary immortals, even if they want to break through they would have to sense that barrier. If they can't even touch that barrier with their immortal essence and spirit sense, there was no way they can break it. This was the bottleneck, sometimes, one wouldn't be able to pass it their entire life.

Ye Mo cultivated till now and every time he was at the peak stage of a big state, he could touch the barrier easily. He just needed to charge and break it.

This time was the same time. In less than three days, his immortal essence swept all of his meridians and passed through his dan tian. The great eternity immortal barrier was right before him.

Rumble..

Ye Mo's immortal essence just touched the barrier and his immortal essence wasn't enough. A heavy crackle sounded in the air, his first wave of divine damnation was about to come.

Crack crack crack...."

36 explosions sounded, 36 bucket sized lightning bolts rained down at the same time from all directions striking Ye Mo.

The yin chi nearby was completely torn apart. Yin chi feared lightning much less such terrifying lightning. With the yin chi fleeing away, the temperature of this place rose up immediately.

Ye Mo released world rock and Zi Xu and blocked nine of the bolts.

The rest of the 27 bolts all fell on Ye Mo. Instantly, Ye Mo's clothes turned to dust.

Tearing sounds of flesh came, blood flew all over Ye Mo's body. Even though he was immortal spirit body, he couldn't take the 27 bolts without injury.

Ye Mo knew these bolts were much stronger than the ones in the flame river.

Thud thud thud.

Ye Mo was smashed into a pit by the lightning bolts. Even though not a single part of his skin was unharmed, Ye Mo didn't care. He had experience, the most dangerous part of his divine damnation was the first and second wave. After these two waves, the divine damnation wouldn't affect him at all.

Ye Mo devoured the lightning source like crazy and the mist formed by a few hundred million immortal crystals all rushed at Ye Mo. In the blink of an eye, Ye Mo was enveloped by immortal spirit chi.

The 500 million immortal crystals kept cracking and turned to dust. At this moment, Ye Mo's meridians expanded greatly and devoured all the immortal spirit chi that came.

Ye Mo's power rose rapidly, his immortal spirit chi was closer to that barrier and even begun charging at it. More and more immortal essence were added by Ye Mo charging at the barrier.

Crack.

The second wave of lightning bolts were here. Ye Mo guarded his mind, this second wave was the most dangerous.

Seeing 48 thick bolts land, his heart felt heavy. He didn't break through to great eternity immortal, it was really difficult to stop the 48 bolts.

Without hesitation, Ye Mo released octagonal cauldron again and 108 lightning sword. Zi Xu and world rock blocked nine, octagonal cauldron could only block one. The 108 lightning swords could only weaken nine lightning bolts.

In that instant, Ye Mo's position was blasted with lightning. Magic artefact chimed and Ye Mo was covered by lightning.

Chapter 1750: Level eight immortal artefact

Crack.

Ye Mo's fake octagonal cauldron crashed with the lightning bolt and instantly split apart into pieces but the lightning bolt was barely stopped.

The lightning swords and lightning bolts clashed too, lightning exploded and the nearby space was permeated with lightning.

29 lightning bolts struck Ye Mo's body pushing him deeper into the ground. The instant these bolts hit Ye Mo, his immortal essence suddenly surged up and broke open the barrier. Then, the weakened nine lightning bolts also fell, there was just two seconds difference between the first 29 bolts.

The terrifying immortal essence needed to break through to great eternity immortal was shown now. most of the 29 bolts and the 9 weakened bolts were devoured by Ye Mo.

Ye Mo didn't have the time to be happy, he just devoured the immortal spirit chi like crazy. Every divine damnation, if he wasn't killed by it, it would be a feast for him.

The immortal crystals in the formation kept cracking as the immortal spirit chi spilled were devoured along with the lightning source by Ye Mo.

Ye Mo's injuries also recovered rapidly. In just 15 minutes, his body had completely recovered.

Feeling the immortal spirit chi digesting speed of great eternity immortal, Ye Mo rested easy. The second wave had passed and he reached great eternity immortal. This meant that he didn't have to worry about the next waves of divine damnation.

As expected, the later lightning bolts still came more than ten at once but it was nothing much but a ticklet for Ye Mo.

The last immortal crystals on the spirit gathering immortal formation cracked, Ye Mo looked at the sky in disappointment. He reached great eternity immortal but not a sliver of immortal spirit chi cloud fell.

It could only be said that he was lucky he had the immortal spirit chi cloud last time. Perhaps it was due to the location being the endless flame river. Ye Mo had decided to have his immortal king divine damnation in the void fissure, perhaps there he would get immortal spirit chi cloud again.

His power wasn't very stable yet, Ye Mo wanted to cultivate for a few days and consolidate his power, however, the immortal crystals had been used up. Ye Mo didn't take out more immortal crystals to cultivate here. He put away the formation flags and went underground to go into the golden page world.

In the golden page world, Ye Mo used another 100 million immortal crystals to set up a spirit gathering immortal formation. He just reached great eternity immortal and his immortal essence was spilling out, this was not good for hiding his cultivation level.

Ye Mo was about to go back to Chang Rong heaven. Anyone would be suspicious of him for reaching great eternity immortal from great extreme immortal in a few years.

Ye Mo didn't use time formation disk to consolidate his power. Two month later, Ye Mo had completely consolidated his power.

There was still seven month till the time he agreed to meet up with Li Kun.

With the help of the immortal spirit herbs Li Kun gave him, Ye Mo reached immortal pill grand master but unfortunately, he didn't have anymore level seven immortal spirit herbs left for pill concoction.

With this, Ye Mo decided to spend his time to study that refine star rock. Even till now, Ye Mo doubted if it was real.

The chi of the rock did seem similar to what was on the books but it also said these rocks came from refining planets. Sometimes, a huge planets might only get a 30 cultivation method stone. This stone was 3 meters.

The refine star rock could only be melted with immortal flame.

Under the severing of the Blue Like Morning Sky, Ye Mo found he easily cut open the rock.

Ye Mo's heart sunk. He hadn't used this rock to forge immortal artefact but he knew it definitely wouldn't be cut open so easily. This meant that this rock might be fake.

Seeing this, his heart was filled with disappointment.

Ye Mo looked carefully at the rock he cut down. It seemed better than void secret silver but not that much better. This meant this was at most level seven immortal material.

In his disappointment, Ye Mo stopped. He finally got a good material to upgrade Zi Xu but under scrutiny, he found it wasn't refine star rock.

Ye Mo was immortal forgery grand master now and could even forbidden grounds level eight immortal artefact. He really wanted to upgrade Zi Xu but if he only had material equivalent to void secret silver then never mind.

Just when Ye Mo wanted to put away the heaven flame, he felt something wasn't right. If this was really only level seven immortal material, he should be able to put it in his storage ring but he couldn't before.

Thinking about this, Ye Mo threw the piece he cut off into the storage ring. This time, it was easily taken in.

Ye Mo immediately realised what was going on and kept cutting this stone with Blue Like Morning Sky.

Many hours later, a 60cm dark red ore appeared before Ye Mo.

This ore had much denser chi than the pieces he cut off before. It had this terrifying and ancient calling.

Blue Like Morning Sky couldn't melt this one easily.

This was the real refine star rock. Ye Mo resisted his excitement. Just like his world rock, this refine star rock was covered with something.

With this, Ye Mo had decided to cut half and use it upgrade Zi Xu.

Three days later, Ye Mo could only give up on cutting it in half. He chose to cut a tenth. Six days later, Ye Mo gave up a tenth and chose to cut a baby fist sized.

This stone was too hard to cut.

Two month later, Ye Mo barely melted the fist sized refine star rock. Ye Mo took out Zi Xu, before he even put the two near each other, Zi Xu vibrated itself. Clearly, this rock was extremely suitable.

Ye Mo fused the metled refine star rock into Zi Xu. Zi Xu immediately began to change but soon he found something wasn't right. Even with his help, ti was very hard for Zi Xu to upgrade. He couldn't control the shape nor could he completely fuse the rock into Zi Xu.

If he couldn't fuse it into Zi Xu, the chi would be exposed like the Blue Moon in the cultivation realm when he first added the Kun scale.

In the cultivation realm he could use it but in the immortal realm Ye Mo definitely didn't dare to use Zi Xu in this state.

It was probably because his power and flame level were too low. Even his immortal forgery skills were too low.

Realizing this, Ye Mo used his immortal essence like crazy and even started to burn it. He couldn't care about the look of Zi Xu now. The most important thing was to fuse the refine star rock completely into Zi Xu.

Another three months passed, Zi Xu made a crisp sound and spun above Ye Mo's head. Ye Mo breathed easy.

He finally completely fused the refine star rock into Zi Xu. Zi Xu was upgraded to level eight immortal artefact.

The only pity was that the beautiful Zi Xu was forged into a magic artefact that was uglier than a kitchen knife. It looked like a strange butcher knife.

Ye Mo shook his head. He didn't even use the pretty Zi Xu for a while and it became uglier.

At least it was many times stronger than before.

Ye Mo got up and was ready to go to Chang Rong heaven. There was still two months left. He could take the teleportation formation but time was short.

But then, Ye Mo was at a loss for words. He found he couldn't send Zi Xu into his storage ring. This meant that he could only put Zi Xu in the golden page world.

How could this be? Putting it in the golden page world was inconvenient. If people noticed the existence of the golden page world, it wasn't good.

Helplessly, he could only forge a simple sheath and put Zi Xu inside and hung the sheath on his back.
