Chapter 1761: Ye Mo Challenged

The old man's face immediately changed, his hands turned shaky. He didn't expect that Ye Mo dared to ring the drum. He was more surprised that a mere great eternity immortal primary stage could not only notice but also stop his spirit sense attack.

He had never seen such a powerful spirit sense cultivation method. If it wasn't for that spirit sense cultivation method, a mere great eternity immortal primary stage wouldn't be fine even if he didn't attack with full power.

He didn't really want to check the depth of Ye Mo's sea of consciousness, he just wanted to mark it. He thought a great eternity immortal primary stage wouldn't be able to notice this, but as soon as his spirit sense touched Ye Mo's sea of consciousness, he felt the most powerful resistance.

Because of this, he increased his spirit sense attack power, otherwise his sea of consciousness would be injured first. Due to this, he heavily injured Ye Mo.

The punishment for status immortal attacking a great eternity immortal wasn't ordinary, it was soul annihilation – how could he not fear?

Ye Mo didn't know how heavy the punishment for this was, but even if he knew he would still strike the drum without hesitation.

Everyone looked at Ye Mo with admiration, this great eternity immortal primary stage really feared nothing. Even if a status immortal taught a great eternity immortal a lesson, no one would dare to ring the drum.

If he annoyed this status immortal or his friend, even if the great eternity immortal got his revenge he would be finished himself. Plus, everyone knew the sect where the old man came from, it was an emperor sect. Demon Joy Sect was a very murderous sect.

“You really dare to strike the immortal ship drum, you’re so cruel!” Hua Ruxue didn’t have the naivety from before. Her face was covered in killing intent.

As soon as she said this, a few powerful chis came, at the same time two immortal monarchs arrived at the marketplace.

“What happened?” a skinny immortal monarch primary stage asked. Just the pressure from his power made the people nearby feel it was hard to breathe.

He was clearly talking to Ye Mo, as Ye Mo was holding the drum stick.

Ye Mo put it down and bowed saluted with his fists. “This person ambushed me as a status immortal, making me heavily injured. If I didn’t know some simple spirit sense methods, my sea of consciousness would’ve been shattered and I would become an idiot. As a contestant invited to Qing Wei Heaven for the tournament, I kept to myself and have done nothing wrong, but now I have had this disaster brought upon me. Please bring justice, two masters!”

“Is this so?” The immortal monarch’s power rose and locked up the space nearby.

This was the first time Ye Mo saw an immortal monarch’s killing intent, it was this terrifying and direct. It was as though once this killing intent was activated, he didn’t even need to attack to tear people apart.

Ye Mo was shocked. This was just an immortal monarch primary stage and he didn’t even attack or activate his killing intent, yet he was this scary. Then what about an immortal monarch peak stage or even immortal emperor?

Now, Ye Mo doubted if he could guard his sea of consciousness against immortal emperor.

Just the immortal king spirit sense’s attack from before wasn’t at full power, if he used full power, would he be able to guard it?

“Yes, two masters, wan bei didn’t really want to attack this great eternity immortal, I just wanted to check his cultivation method but then there was a misunderstanding causing mutual attacks. Wan bei is willing to take responsibility. Please take it easy on me two masters.” The immortal king bowed.

Hua Ruxue also said, “Hua Ruxue greet Wind and Lightning masters, uncle Ji is my house servant. This is my fault too, I’m willing to compensate his loss and accept the punishment of the immortal ship.

The skinny immortal monarch asked, “You know us?”

“Yes, wan bei is Demon Joy Sect’s disciple, I’ve been on this ship with my master before.” Hua Ruxue bowed again.

“Your master is?” the immortal monarch’s tone eased up.

“My master is Demon Joy Sect’s Luo Zi immortal emperor, have two immortal monarch masters heard of him?” Hua Ruxue bowed again.

“So it’s master Luo Zi immortal emperor.” The skinny immortal monarch’s face changed and his tone eased up. Even his killing intent towards uncle Ji was greatly reduced.

Ye Mo’s heart sunk, he knew this wasn’t going to end well. The two immortal monarch’s attitude clearly changed. That skinny immortal monarch looked at him was some coldness.

The skinny immortal monarch looked back at Ye Mo and said, “They’re willing to compensate and apologise, are you willing to accept? If you do then name your condition. If not, then we will take this immortal king to punishment.”

Ye Mo wanted to ring the drum and bring law enforcer above immortal monarch but thinking about how he had no back up and if an immortal emperor really came and forcefully killed him, there would be nothing he could do. They would be able to attack him when he was in solitary cultivation.

Ye Mo sighed and felt very annoyed. No matter where it was, if you didn’t have power or backup, you were someone to be abused.

"I'm willing to accept the apology, I need two billion immortal crystals." Ye Mo said. Ye Mo knew he would be suspected if he went to auction after taking the 2 billion immortal crystals but he couldn't just let them go for free.

"Here, I'm afraid you won't be able to handle this well." Hua Ruxue just threw two immortal crystals cards at Ye Mo.

"Young people are brave indeed." The skinny immortal monarch saw this and sneered before disappearing with the other immortal monarch from this place.

"You probably can't go yet, you said you would accept my challenge. You need to go to the battle stage now, not somewhere else," Ge Ya immediately said.

Ge Ya thought if he killed Ye Mo, his storage ring would be his. Even if he didn't take the two billion immortal crystals, he would be connecting with Hua Ruxue.

If Hua Ruxue wanted this pill cauldron, the two billion immortal crystals would be compensation.

"As you wish, lead the way," Ye Mo said without hesitation.

...

There was a challenge and soon everyone on the boat knew about this including Li Kun and them.

Xiang Changyong was dazed upon hearing this. he saw Ye Mo's power with his own eyes, even he was no match. Who was dumb enough to challenge Ye Mo? But soon he realised there was a show to watch and took his people to the stage.

"Brother Ye, I didn't expect someone dared to challenge you, haha, there's a good show to watch. Brother Ye can you come over to my place for a few drinks after?" Xiang CHangyong saluted with his fists.

“Probably not these few days, we’ll talk about it at Qing Wei Heaven.” Seeing this, he knew that the problem between Xiang Changyong and Qi Beicang had been resolved.

Xiang Changyong was very famous on the ship.

Ge Ya knew about Xiang Changyong of course. Seeing Xiang Changyong so polite and familiar with Ye Mo, his heart sunk. He knew Xiang Changyong’s background very well, even Hua Ruxue could only flirt with him and not offend him because Xiang Changyong’s background was even stronger than hers. With what Xiang Changyong said, he was bound to lose.

“You challenged my brother? Then I’ll kill you first.” Li Kun said glaring coldly at Ge Ya.

“A mere great eternity immortal tertiary stage doesn’t need brother Ye or goddess Xi Yue to fight. I, Yin Hui, will be enough.” Yin Hui’s killing intent forced towards Ge Ya.

Ge Ya’s heart suddenly went cold, he found he didn’t even investigate the opponent he challenged.

Chapter 1762: No Need to Forebear, Magnificent Punch

“Really? This many people ganging up on one? Ge Ya go challenge this weak little kid, I want to see who dares to challenge you, I’ll challenge him first. Since when did Miao Cheng Heaven become so easy to abuse?” A cold contemptuous voice sounded. Xiang Changyong and Yin Hui immediately shut up.

They couldn’t mess with this person, the number one master below status immortal in Miao Cheng Heaven, Di Wenchen. He was one of the sect members in the number one sect in Miao Cheng Heaven, Jiu Qian Emperor Sect.

Li Kun raised her eyebrow and wanted to talk but was stopped by Ye Mo.

“Sister Xi Yue, you don’t need to come I’m fine.” Ye Mo’s killing intent soared. Being forbearing constantly on this ship wasn’t the way to go. If he was by himself, it was fine, but he had friends here too.

His spirit sense cultivation method had been exposed by that immortal king. Even if he kept laying low, Hua Ruxue would tell everyone, so he might as well be straightforward.

“Hurry up, my time is limited,” Ye Mo landed on the stage and said calmly to Ge Ya.

Ge Ya was very excited, he didn’t expect that after being challenged by so many people, he would get the sympathy of Di Wencheng. With this, he immediately flew on the stage.

“If you admit defeat now, you still have a sliver of chance otherwise, don’t blame me for killing you like a chicken,” Ge Ya said.

If there wasn’t Xiang Changyong and Li Kun and them supporting Ye Mo, he could’ve attacked already instead of making him admit defeat.

Di Wencheng was getting impatient, he said to Ge Ya uncomfortably, “Since you challenged him then take out your full power. Kill what needs to be killed, there’s nothing to fear.”

With this, Ge Ya’s only sliver of worry was gone. Before Ye Mo answered him, he took out a ten meter long black spear.

Tens of thousands of spear shadows appeared out of nowhere as killing intent spread.

Ye Mo was a straightforward person, he didn’t plan on holding back. His battle experience was ample and his spirit sense and immortal essence was far beyond Ge Ya’s. He didn’t even wait for Ge Ya’s killing force to send out a punch.

Thud

Ye Mo almost used full power. With this, tens of miles around the stage were encompassed by his fist wind and heaven covering killing intent completely covered that unformed spear force.

Even the immortals below the stage subconsciously skipped a heartbeat as though this punch was coming at their chest.

When Di Wencheng saw this punch, his face changed. He was the number one great immortal of Miao Cheng Heaven, of course he knew the power of Ye Mo's punch.

This was a god art punch. It was unstoppable.

Rumble

Ge Ya's spear was swept by the fist wind and become thousands of times heavier, he couldn't even lift it.

Crack

The fist wind struck the spear and a huge explosion sounded. Ge Ya's face changed and burned his immortal essence. If his spear was caught by the fist force, he would only be able to await death.

The terrifying killing intent was brought over by Ye Mo, Ge Ya wanted to break free but it was too late. An invisible killing force whirlpool swept up like a disk and crushed down. Ge Ya found it was hard to breathe as though a huge disk had landed on his chest.

Thud thud, the sound of space exploding grew louder and Ge Ya's pupils dilated as though he felt the chi of death and destruction.

Ge Ya was completely dazed, was this punch made by a great eternity immortal primary stage or an immortal king? How was there such terrifying fist god artifact.

"I admit defeat..." Ge Ya called in horror but soon he found his voice was enveloped by the killing force and couldn't make a sound.

Thud

The whirlpool struck Ge Ya head on.

Blood and flesh flew everywhere and instantly disintegrated amidst the whirlpool. A black spear was shot up 100 meters high before landing and piercing into the corner of the stage while wobbling.

Clank

A storage ring fell onto the stage making a crisp sound.

The killing force whirlpool disappeared and the stage returned to being calm. Ge Ya was gone, only piles of blood and the spear remained.

The area was silent, everyone stared at Ye Mo in shock.

At this moment, Ye Mo reached out an immortal essence hand and grabbed the storage ring. It was like a person walking under the afternoon sun and found a storage ring on the road so he picked it up peacefully and calmly.

There was silence.

A great eternity immortal primary stage used one punch to instant kill a great eternity immortal tertiary stage who challenged him. He didn't use any schemes nor magic artifact, he used his punch.

A few seconds later, a shocking applause erupted outside the stage.

The battle process wasn't fascinating at all but no one believed this battle wasn't exciting. Everyone thought they had never seen such a magnificent punch nor such a god artifact.

"Perfect..."

“Amazing...”

Praises sounded, this was a world of the strong, only strong people were recognized and supported. No one would remember the defeated dead.

Ye Mo breathed easy. He saluted with his fists to the people off the stage. He didn't feel he did wrong. His opponent wanted to kill him, he didn't need to act cowardly.

He might be in danger if he exposed his strength, but so what? At least no one dared to do anything to him on the ship. He just needed to be careful in the void. As for Qing Wei Heaven, he would be able to go anywhere.

Li Kun clenched her fist, she was full of pride. She knew Ye Mo could do it. She knew that Ye Mo's power was many times stronger than when he fought Ming Cai.

She was certain Ye Mo didn't hide his cultivation level before but she wouldn't tell anyone this secret.

Qi Beicang stared at Ye Mo in shock before murmuring, “I finally understand.”

He finally understood why Ye Mo could persuade Xiang Changyong to apologise. This punch was too terrifying. Facing against such a punch, Xiang CHangyong would have to apologise if he didn't want to die.

Ji Shu and Yin Hui alsos stared at Ye Mo in shock. Even though Ji Shu knew Ye Mo was immortal nirvana body peak he didn't dare to believe Ye Mo's punch was this powerful. If he knew Ye Mo was actually immortal spirit body, perhaps he would be more shocked.

Xiang Chongyong breathed slowly, he knew he was very smart in his decision. Ye Mo could indeed easily kill him.

Hua Ruxue opened her mouth in shock, she suddenly felt that Ye Mo's secret wasn't just spirit sense cultivation method, he definitely had more.

Yan Jiutian at one corner saw the battle and frowned. He knew Ye Mo's power and wasn't surprised Ye Mo could kill Ge Ya in one punch. He was worried that more people would notice Ye Mo after this, and that wasn't good for him.

Ye Mo had Spirit Will Nine Transformations, world rock and maybe even time formation disk as well as his space time boat. He didn't want them to be taken.

Di Wencheng's face sunk, he felt this great eternity immortal primary stage was strange. Even he wouldn't be able to easily stop that terrifying god artefact fist. He stared at Ye Mo coldly, thinking whether he needed to kill this threat on the stage.

Chapter 1763: Dangerous auction

Di Wencheng was thinking if he should challenge Ye Mo when he suddenly felt Ye Mo's eyes glance past him. His eyes were very placid and there was not a sliver of killing intent but Di Wencheng felt his body go cold. He had the feeling that Ye Mo was waiting for him to challenge him.

Di Wencheng clenched his fist and gave up on the thought. He had to investigate this great eternity immortal primary stage clearly before killing him. This was his habit, he didn't like doing things he didn't have confidence for. The best thing was to kill Ye Mo in the void.

Seeing Di Wencheng not planning to come up, Ye Mo was a little disappointed. He didn't release any killing intent so he could kill Di Wencheng. Since he already offended Di Wencheng, he didn't need to be scared. Di Wencheng's sect might be very powerful but so what? He was on the immortal ship now, no matter how powerful that sect was they couldn't immediately come to this immortal ship in the void right?

If that uncle Ji wanted to kill him in the void, perhaps he could only run away. If he killed Di Wencheng before running away, there would be a less powerful opponent to challenge Li Kun and them.

Seeing Ye Mo instantly kill Ge Ya, no one dared to go up the stage and challenge him. There was only sighs of amazement and congratulations. Qi Beicang and them went up immediately to congratulate Ye Mo.

“Ning Eu, do you know where this Ye Mo came from?” Fang Chen stared at Ye Mo and asked Ning Eu.

Ye Mo used him once and he felt a little uncomfortable. He was planning to teach Ye Mo a lesson if he saw Ye Mo alone. When he realised he might not be a match for this great eternity immortal primary stage, he was very shocked.

Ning Eu frowned “I don’t know, Xi Yue brought Ye Mo over and said he was her brother. I thought Ye Mo was her dao partner but later, I realised Ye Mo really was her brother. I didn’t ask how her brother came to be, he seemed to have appeared out of nowhere.”

“Then can you help me ask martial sister Xi Yue who this Ye Mo is? He’s too mysterious. Such terrifying power and he seems so young, he’s definitely not an solo cultivator. If this person is an solo cultivator, then the emperor sect people really lack eyes. I believe no emperor sect would let go such a prodigy.” Fang Chen said again.

Ning Eu nodded “I’ll ask Xi Yue when I have time but she seems to be very protective of him, she might not tell me.”

Fang Chen nodded and said “I heard Mi Yun seemed to have sat in Ye Mo’s room for a long while, what did she do?”

“What?” Ning Eu called out in shock “I’ll go ask her.” Then she quickly turned to run.

Fang Chen didn’t leave with Ning Eu and just looked at Ye Mo in contemplation.

...

Ye Mo didn’t go celebrate with Qi Beicang and them. He chose to go into solitary cultivation. He promised Li Kun that he would come out in half a month. He wanted to ask Li Kun to go check the auction for him but then he was afraid it would affect her after he ran through the void. He had decided to find little immortal king Lu Mang when they were searching for void flying snow.

Ye Mo collected his things and found that including Ge Ya's 1 billion immortal crystals he had 6 billion immortal crystals. He didn't even dare to think about this figure before but now he reached it.

Even if he was a level seven immortal pill great master, it wasn't easy to get this amount by selling pills. Plus, ordinary immortal pill masters have a success rate of pill concoction.

Seeing some of the forgery journals in Ge Ya's storage ring, Ye Mo realised that Ge ya was an immortal forgery great master. no wonder the guy could recognize the pill cauldron was a low grade god artefact.

After organizing his immortal crystals, Ye Mo took out that rusty pill cauldron.

The rust were all just restrictions, only those experienced in formation and restriction could see something. As for Hua Ruxue, it was probably due to her aunty.

Ye Mo was an immortal formation great master who could barely set up level five immortal formation.

Ten days later, Ye Mo completely refined the restriction outside. When the rest fell, an ancient pill cauldron appeared on his hands. The pill cauldron even emitted a faint herbal aroma. One could see that this pill cauldron had concocted countless pills before.

It had much less restriction than the replica space time boat but even so, Ye Mo estimated he would need half a month to refine all these restrictions.

In the next few days, Ye Mo found a random stealth cultivation method and used the Three Birth Chant to change it. he was planning to give it to Mi Yun saint.

After doing these, Ye Mo opened his room restriction and saw Mi Yun walking around his door. Seeing Ye Mo's room open, she immediately greeted up.

Ye Mo knew what she wanted and smiled "Martial sister Mi Yun please come in."

Mi Yun quickly entered and helped Ye Mo put on the restriction before saying awkwardly “Mi Yun congratulate martial brother Ye showing your power and instantly killed a shameless person...”

Ye Mo just took out a jade slip and gave it to her “This stealth cultivation method is slightly different to what I use but it’s rather good.”

Seeing this, there was surprise and joy but when she heard what Ye Mo said, the joy turned to a sliver of disappointment. Clearly, Ye Mo didn’t give her the jade slip she wanted.

Ye Mo knew why she was disappointed but couldn’t be bothered explaining. He wasn’t familiar with her, giving her a jade slip he had derived for five days was enough to repay what she did. If she still wasn’t satisfied, then sorry.

Her disappointment quickly disappeared and she took the jade slip, she forced a happy look and said “Thank you martial brother Ye...”

Then she scanned her spirit sense in, soon her face showed real surprise and joy. This was definitely what she wanted, even if immortal monarch didn’t use spirit sense to specifically check, they might not be able to see her real power.

“Mi Yun thank martial brother Ye...” Mi Yun put away the jade slip and genuinely thanked Ye Mo.

Ye Mo just smiled and casually asked “Martial sister Mi Yun, did anything important happen on the ship during my solitary cultivation?”

Mi Yun shook her head “No, the ship is about to stop in a day, we’re at the place to catch void flying snow. More importantly, the hottest topic for discussion is your one punch killing Ge Ya. Many people from Miao Cheng heaven want to challenge you but was suppressed by Di Wencheng...”

Then, she thought of something and quickly said “By the way, after you went into solitary cultivation, the top deck of the ship held a high level auction...”

“High level auction?” Ye Mo asked in confusion but his heart was overjoyed.

“Yea, I went into that auction. Many high level things came, there were three extreme grade immortal artefact, one extreme grade immortal artefact flying ship that can cross the void. On top of that, a level eight immortal spirit beast core came out too...”Mi Yun said.

“There was also a level seven immortal pill, Yi King pill and a five element stool, it’s said an immortal monarch was auctioning that...”

Mi Yun continued to talk but Ye Mo’s heart was overwhelmed, he almost couldn’t control himself. That five element stool might be the one he wanted. If he obtains it then his golden page world would be complete and become a true chaos world.

Thinking about this, Ye Mo was excited but Mi Yun stopped there.

Ye Mo quickly asked “Martial sister Mi Yun what is that five element stool for? What price was it sold for?”

Mi Yun said “the starting bid was too high and didn’t get sold. The immortal monarch asked for 1.5 billion immortal crystals and a middle grade immortal range. No one could even afford the starting price. It’s said that the immortal monarch wanted to sell this and went to many auctions but never succeed.”

Hearing this, Ye Mo’s heart went cold. He was 70% certain that this immortal monarch was fishing, fishing for those idiots who had stools too and wanted to complete it.

Chapter 1764: The terror of immortal emperor

Ye Mo rejoiced he didn’t go to the auction now. If he did, if he even just gave the stone stool a weird look, he might be noticed by the immortal monarch lurking on the side.

Ye Mo really wanted to ask what the immortal monarch looked like and what the stone stool looked like but he knew if he did, Mi Yun would definitely become suspicious.

Mi Yun was very excited about the jade slip, when she calmed down she would think about why he cared so much about the stone stool. Thinking about this, Ye Mo kept asking about the Yi King pill.

Mi Yun felt it was normal that Ye Mo cared so much about the Yi King pill. after all, almost everyone going to Qing Wei heaven was going for the Peng Yue immortal fruit which is the main ingredient for the Yi King pill.

Just when Ye Mo didn't want to keep talking, his restriction moved again. Ye Mo opened and found it was Li Kun and Ning Eu standing at the door.

Li Kun went in seeing Ye Mo opened the restriction but Ning Eu didn't come in and just stared at Ye Mo coldly and then looked at Mi Yun.

"Martial brother Ye, thank you, I'll be going first, we'll talk if we have time." Mi Yun greeted Ye Mo and Li Kun before getting up to leave.

Ye Mo ignored Ning Eu and closed the door again. Seeing that Ye Mo didn't even invite her in, Ning Eu's face was bad.

"Martial sister Ning Eu." Mi Yun greeted.

"Mi Yun, how dare you, do you not know what a saint should be doing? As the Ethereal Immortal Pond saint, you cast aside your guardian and often go into other men's rooms, you're not following the rules at all..."

Mi Yun's face sunk too and stared coldly at her "You're a mere core disciple and you dare to talk to me like this?"

Ning Eu's face changed and immediately remembered she was no longer saint. She was indeed way over the line to speak to Mi Yun like that.

Mi Yun said coldly again “As the saint of Ethereal Immortal Pond, I know what I should do. I don’t need you to teach me. But you went so close to a man when you were a saint and you dare to criticize me about this...”

Mi Yun sneered and ignored Ning Eu as she walked off.

...

“Brother if you really like Mi Yun...”

Ye Mo waved his hand before Li Kun finished “Sister Xi Yue, you think too much. It’s not what you think it is, I have no fetish for saints. Plus that woman doesn’t look as easy to talk to as she seems, don’t worry.”

Li Kun nodded and said no more. she knew Ye Mo wouldn’t lie to her. If she was to choose a dao partner for Ye Mo, she would rather choose Ning Eu than Mi Yun.

“Sister Xi Yue, you came to me probably because it’s time for capture void flying snow right?” Ye Mo asked.

“Yes, there’s one more day and the ship would be stopping. I’m worried that Di Wencheng would be harming you. Be careful. I also heard about what happened at the market place, I can also enter the void when we go capture void flying snow, be careful of Hua Ruxue.”

Li Kun seemed very worried.

“Sister Xi Yue, don’t worry I have my own way. The Spirit Will Nine Transformations is very useful in capturing void flying snow, oh and this...” Ye Mo gave a copy of how to capture void flying snow to Li Kun.

“I know, I would be entering second transformation of Spirit Will Nine Transformations soon. This is indeed a top grade spirit sense cultivation method.” Li Kun said excitedly thinking about the use of the Spirit Will Nine Transformations.

Ye Mo could give such cultivation method to her meaning he didn't doubt her at all.

"Brother, we both have Spirit Will Nine Transformations, if we work together we can definitely get more void flying snow. I believe other people would be working together too. One can't reach top 1000 alone. We'll work together, I'll give all the void flying snow I get to you and you can see the immortal emperor..."

Ye Mo quickly stopped her "Sister Xi Yue, even if someone goes, it's you not me."

"Brother I'm Long Yue immortal mountain sect members, if I get the fruit, it might be taken by the sect but you're different. You will eventually become level seven immortal pill grand master, once you do you can use it to forge Yi King pill. Just give me one then." Li Kun quickly said.

Ye Mo smiled "Sister Xi Yue, I'm actually level seven immortal pill grand master already, I just need the fruit."

"Huh..." Li Kun got up in surprise and joy.

Ye Mo only used a few years to reach level seven immortal pill grand master, this meant that her brother didn't need to rely on anyone to buy pills, he could reach the peak himself.

Li Kun grabbed Ye Mo's hand in excitement "Great, this is great."

"But I don't want to go see those immortal emperor." Ye Mo said seriously. After seeing two immortal monarch primary stage masters, he felt threatened by immortal emperor. It was best not to go see immortal emperor if he wasn't immortal king yet.

"Why?" Li Kun looked at Ye Mo in confusion. Most great eternity immortal would do anything to see immortal emperor. Sometimes, one word from immortal emperor might solve a problem a great eternity immortal was troubled with his entire life.

Ye Mo said without hesitation “Sister Xi Yue, I’m too weak and my cultivation method is special, I don’t want the immortal emperor to notice me.”

Li Kun understood what Ye Mo meant and nodded “I understand , if I can get the Peng Yue immortal fruit, I’ll leave one for you.”

The two discussed some specifics of capturing void flying snow before eventually deciding Ye Mo to act alone. Li Kun would stay with the Chang Rong heaven team.

...

A day later, the immortal ship stopped and a few hundred thousand immortals went onto the deck. Ye Mo followed the Chang Rong heaven immortals.

Soon, a powerful chi came. An ordinary man in blue robes landed at the top of the deck.

Just standing there, it was as though all the chi in the world circulated around him. Ye Mo knew this was an illusion as this person’s power was just too powerful to him. this was countless times stronger than an immortal monarch primary stage, Ye Mo guessed it was probably an immortal emperor.

Ye Mo immediately looked down and didn’t even dare to use spirit sense to check this immortal emperor’s power.

“Everyone can call me MI Kuan immortal emperor, although I just reached immortal emperor for a thousand years but I need to tell everyone that if status immortal and great immortal is the biggest milestone in the immortal realm, the difference immortal emperor and status immortals is a natural chasm. Today, capturing the flying snow is your first step towards status immortal...”

Ye Mo was shocked, this Mi Kuan immortal emperor was only an immortal emperor for a thousand years, he was definitely an immortal emperor primary stage. An immortal emperor primary stage didn’t even intentionally exert his pressure and he was this powerful, then how terrifying would Feng Kong grand emperor and the other immortal emperor tertiary stages be?

If he saw those immortal emperors, there was very high possibility he would expose his golden page world. he was one in a few hundred thousand facing Mi Kuan immortal emperor. If he saw Feng Kong grand emperor, it would be one in a thousand.

“Of course some people don’t need this to gain their fortune to immortal king but now, there are less and less opportunities to reach immortal emperor, the most direct way is to go to Qing Wei heaven and see immortal emperor. So I hope everyone can catch more void flying snow here. I also need to warn all immortal king and immortal monarch on the ship, you can go into the void too but if any status immortal dares to attack a great immortal, death!”

Mi Kuan immortal emperor’s last sentence was full of cold killing intent. Some immortal king and immortal monarch even shivered.

Even though Mi Kuan said this, Ye Mo didn’t plan to leave his life to this sentence. If an immortal king wanted to kill him, would this immortal emperor be watching on the side?

“The time limit is three months, now the ship restriction will open...” Mi Kuan immortal emperor said.

Chapter 1765: Only an idiot would leave such a mark

The great eternity immortals all entered the void, Ye Mo followed them into the void too. A very ordinary great eternity immortal tertiary stage squeezed behind Ye Mo and went into the void with him.

Ye Mo’s spirit sense casually scanned his spirit sense and saw that he was marked by spirit sense mark.

Ye Mo didn’t remove it and just sneered. He even found that half divine’s spirit sense, a mere great eternity immortal dares to mark his spirit sense mark.

Going into the void, Ye Mo didn’t go with Li Kun and them, he left quickly alone. Half an hour later, he placed that spirit sense mark in a jade box.

If it wasn't that Ye Mo didn't who marked this spirit sense mark, he wouldn't take it off at all. If it was by little immortal king Lu Mang and Di Wencheng, he wouldn't be scared at all. If it was marked by Hua Ruxue, he would need to worry about that uncle Ji.

Ye Mo released the space time boat replica, he wanted to test this thing's speed.

After Ye Mo mobilized the boat, it just shook in the void and instantly disappeared from its spot. Ye Mo scanned his spirit sense out and didn't feel used to this, it was too fast. It had all sorts of heaven domain directions clearly pointed. Ye Mo rejoiced this.

This thing was a necessity for running away. A low grade god artefact was this terrifyingly fast, just how powerful would the real space time boat be?

A day later, Ye Mo got off the space time boat, he knew he was far from the immortal ship. If he kept going, he might lose contact with the immortal ship.

Just one day and Ye Mo felt that he wouldn't be able to reach this far even if he flew on Blue Moon for a month.

Ye Mo put away the space time boat and took out that jade and set it next to an asteroid and the bound the asteroid. Then, he chose a rather far place and started catching void flying snow. He was fishing, he didn't know who would be coming. If it was immortal king level he would leave immediately. If it was below immortal king, he would fight first no matter who it was.

Ye Mo was just ready and his spirit sense caught a white color flash. Ye Mo knew it was void flying snow.

The void flying snow was rare because first it was hard to catch but second they were rare even in the void. Ye Mo had to wait ten days before just to catch one, sometimes a month. But here, there were so many. He saw void flying snow immediately. Was this why the immortal ship stopped here?

Ye Mo hesitated for a moment and the void flying snow disappeared. Ye Mo realised the void flying snow seemed faster here.

But Ye Mo wasn't afraid, all that mattered was that there were plenty here, he didn't care about their speed at all. He learned the new way to use spirit sense net from the middle aged man and now his spirit sense net use was far stronger than when he was an abstruse immortal.

Indeed, Ye Mo waited for less than five minutes and another figure came. It slowed down quickly in Ye Mo's spirit sense domain and was brought up to Ye Mo.

This was a high quality void flying snow.

Ye Mo took out a jade box and sent it in. Compared to before, it was almost certain he would catch void flying snow. Most importantly, he used very little time to catch one. He believed with his means, he can definitely catch more.

In the next few days, Ye Mo kept catching void flying snow with his spirit sense net and stored them away in jade boxes. Sometimes, he would get more than ten a day, even during the worst time he would get one every two days.

In just ten days, Ye Mo had caught nearly a hundred void flying snow.

But later on, there were less and less void flying snow. Later on, he only caught one every three days. Ye Mo was prepared to leave here. He couldn't even be bothered caring about the guy who left the spirit sense mark on him.

Just when he wanted to move the spirit sense mark, he retreated tens of miles back and went into stealth. Moments later, an obscure shadow landed on that asteroid.

"Since you're waiting for me, then come out." The figure cleared up, Ye Mo didn't expect this wasn't one of the three he had guessed, it was Yan Jiutian.

Ye Mo wasn't scared of Yan Jiutian just like how Yan Jiutian wasn't scared of him. He immediately showed himself. Yan Jiutian wasn't going to join up with someone so since he was here, he didn't need to worry about more people coming.

“You’re very powerful indeed, you spirit controlled my space time boat in such a short while. I thought you wouldn’t be able to spirit control it before coming out, it seems I underestimated you.” Yan Jiutian said.

Ye Mo smiled “You’re very strong too but that space time boat isn’t yours anymore. I spirit controlled my space time boat and you can still chase to here. It seems your spirit sense mark ability is quite good.”

Yan Jiutian snorted in contempt “Would I be leaving those garbage spirit sense marks? Since you know who I am and you still underestimate me, it seems even if you don’t encounter me today, your future would be limited.”

Ye Mo was shocked, he seemed to have mistaken. He didn’t expect Yan Jiutian to not have marked that spirit sense mark.

If it wasn’t Yan Jiutian then who did it? If Yan Jiutian didn’t make spirit sense mark how did he chase up to him? Did he not refine the mark on the low grade god artefact? But he threw his low grade god artefact in the golden page world. Even if he didn’t spirit control it, Yan Jiutian shouldn’t be able to chase up.

“How did you catch up to me?” Ye Mo asked.

Yan Jiutian said pridefully “Even if you use it to fly for a few months in the void I can still find the trace of the god artefact.”

Ye Mo frowned, did the god artefact really leave such an obvious trace in the void? If so, how could he avoid immortal king hunting him?

“Don’t worry, you’re strong but this time I’m not going to give you any chance. It’s my business to worry about the space time boat being found.” Yan Jiutian seemed to know what Ye Mo thought.

“Hahaha...” before Ye Mo spoke, another laughter sounded, a golden shirted man appeared.

Little immortal king Lu Mang, Ye Mo didn’t expect this dumb pig to have made the spirit sense mark.

“Hmm...”

Lu Mang flew up close and only then did he notice Yan Jiutian. Yan Jiutian was on the asteroid but his figure was one with the void, it was very hard to notice him.

“You ran quite far and asked a trash to help you. Do you think I would let you go just because of that? Or I can’t find you?” Lu Mang looked at Ye Mo in contempt and scanned coldly at Yan Jiutian.

He saw Ye Mo killing Ge Ya with one punch, he believed he could do the same. Plus, he had even greater trump cards.

“Idiot.” Yan Jiutian looked at Lu Mang and cursed speechlessly.

Lu Mang was furious, a mere great eternity immortal tertiary stage dared to call him an idiot.

“You’re asking to die.” Lu Mang attacked without thinking. Two faint black and white things were released by him.

Ye Mo scanned his spirit sense, it was a golden lantern and there were two colors in the middle but the bottom and top were gold.

The lantern spun and instantly enveloped a few hundred km radius around Yan Jiutian. There seemed to be countless voices calling for the people nearby to go into the lantern.

If this wasn’t the void, the place burnt by the lantern would have zero life force. It was as though all the life force were sucked into the golden lantern.

Ye Mo instantly retreated a thousand km away but he didn’t run. He wasn’t scared of both of them but the golden lantern was very powerful. He wondered what would happen to Yan Jiutian

“An idiot indeed.” Yan Jiutian sneered and released the mist like spear.

Lu Mang was already annoyed for not being able to bring Ye Mo inside, now that Yan Jiutian called him an idiot he was even more furious. The black and white exploded and it was as though void itself within the radius was going to be annihilated.

“Break...” Yan Jiutian’s face had sliver of seriousness upon seeing this.

Crack.

Rumble.

The black mist spear struck the golden lantern, the two magic artefact entwined together sweeping up waves of life force and destruction chi.

Chapter 1766: Battle Yan Jiutian again

The black and white space suddenly became volatile, Lu Mang was swept back and spat a mouthful of blood in the air.

“No wonder you are so cocky, so you have a yin yang lantern...” Yan Jiutian snorted in contempt but that black mist line pierced over without stopping. The nearby space wasn’t controlled by Lu Mang’s yin yang lantern but by Yan Jiutian’s black spear.

Lu Mang was scared soulless, he never thought that there would be a great eternity immortal in this world to be able to injure him especially under his yin yang lantern. Even his lantern was cracked, this was an extreme grade immortal artefact, the top grade amongst extreme grade immortal artefact.

“Hold it.”

Lu Mang couldn’t care about the lantern anymore and blocked it in front of him.

Crack... Ye Mo thought to himself, no wonder his octagonal cauldron cracked so easily and even his world rock couldn't stop this mist spear.

This thing was too scary, Ye Mo was even suspecting this guy's spear was top grade god artefact. However, the mist had become one with Yan Jiutian and even he couldn't tell. Yan Jiutian's power was even scarier, Ye Mo didn't have the confidence to beat him now.

Cracking sounds went on and Lu Mang's yin yang lantern was struck to pieces disappearing into the void.

Little immortal king's face was pale, he never expected that with his huge fame, he couldn't even beat an unheard of great eternity immortal tertiary stage. On top of that his yin yang lantern was destroyed, he could only wait for death.

Ye Mo saw little Immortal king was about to be killed but didn't want to intervene again. In fact, tactically, he should've helped and gain up on Yan Jiutian.

But Ye Mo would rather himself being no match for Yan Jiutian than save little immortal king nor would he work with him.

The black mist spear neared little immortal king's forehead. There was despair in Lu Mang's eyes. He never expected to die in some random guy's hands before even attacking his main target. He still had many means that he didn't even get time to use.

"Die in front of the emperor." Yan Jiutian's eyes went cold and the spear exploded out black rays wanting to tear Lu Mang to pieces.

"Who dares to kill my disciple!"

A furious voice sounded and a hollow figure appeared before little immortal king. A boundless force came sweeping over while a hollow hand grabbed at the black mist spear blocking all of the mist.

"Master, save me..."

Little immortal king said shakily after seeing this figure.

Thud

Yan Jiutian was pushed back by the force of the figure a hundred or so km before spitting blood and stopping.

“Mang Er go first, leave this to master.” The hollow figure said coldly.

“Yes master.” Lu Mang released an extreme grade flying immortal artefact and instantly disappeared.

The dominant figure then stared coldly at Yan Jiutian and said “You’re a mere great eternity immortal tertiary stage and you dare to kill I, Qian Ze’s, disciple.”

Yan Jiutian wiped the blood from his mouth but said nothing, clearly he wasn’t afraid of this figure.

Ye Mo was shocked, he knew this figure was probably Qian Ze immortal emperor. If he was to kill little immortal king before, he would be marked by Qian Ze immortal emperor. He didn’t care but he had a few friends at Chang Rong heaven, who knows what Qian Ze immortal emperor would do.

This figure was probably just a sliver of his spirit sense but it was this powerful.

Qian Ze seemed to care about little immortal king a lot and left a sliver of spirit sense on him.

After a while, Yan Jiutian said coldly “I didn’t kill your disciple but you ambushed me and injured me. This is over now, if you have to look for trouble with me, Yan will take this.”

Ye Mo and Yan Jiutian both knew that as time went on the spirit sense would weaken.

“Haha, insolent brat, I hope you can speak such words when you see me.” Qian Ze said and his figure disappeared.

Yan Jiutian ate a pill and said in contempt "A mere immortal emperor middle stage, back in my prime I can crush you at anytime."

Ye Mo wanted to laugh, Yan Jiutian was being abused after he fell from his prime, he was a half divine but an immortal emperor middle stage spoke to him in such manner.

"Okay, one cocky trash was sent off by me, now we can resolve the matter between us." Yan Jiutian landed before Ye Mo again. He could easily kill those of the same level but he didn't call himself emperor before Ye Mo. He knew Ye Mo was extremely powerful too and even if Ye Mo weaker than him it would be by a limited amount.

Ye Mo waved his hand and the world rock appeared above his hand "If you want to fight then fight stop talking."

Ye Mo didn't dare to underestimate Yan Jiutian. Yan Jiutian had a silver dragon and it still wasn't out meanwhile, shadowless was still in sleep.

Yan Jiutian rubbed the black mist in his hands and said "This time you won't get away."

Ye Mo sneered "It didn't seem to be me who ran away last time."

Yan Jiutian's face froze for a moment, it really did seem to be him who ran away last time.

The black mist disappeared from his hand and at the same time, void seemed to have turned to hell. Endless killing intent rose up everywhere humming in the void before forming a boundless black bell and struck down.

Ye Mo didn't move, he felt he was in a passive defensive state. He didn't know what Yan Jiutian was doing. He felt the threat of this bell wasn't as simple as smashing down, nor was it to bind him.

Soon, the bell suddenly stopped in the void and did nothing.

Just when Ye Mo didn't know what Yan Jiutian was doing, screeching sounds sounded in the void and tens of black arrows tore at Ye Mo.

He saw the bell floating in the air and the black mist didn't seem to reduce in size but tens of black mist arrows shot at him.

Ye Mo knew he was tricked, he wasn't enough compared to this cunning Yan Jiutian. Instead of waiting for Yan Jiutian to attack, he might as well attack first.

Ye Mo released Zi Xu and hacked out rainbow.

A purple rainbow stretched across the void vibrantly.

Thud thud.

The arrows were blocked by the rainbow as rainbow color splashed everywhere. Most of the arrows were hacked apart but a few gathered and didn't dissipate. It then continued piercing at Ye Mo.

Ye Mo was shocked and quickly punched without thinking. Only then did he feel that the nearby space seemed to be under the control of that bell.

The killing force whirlpool of hundreds of km radius was swept by Ye Mo forming waves of annihilation.

Yan Jiutian's eyes looked serious, he had seen this punch.

He raised his hand and suddenly more black mist appeared on his wrist. They gathered again forming a black thin spear. It tore through space and struck towards the killing force whirlpool.

Rumble.

The two clashed together and violent immortal essence splashed everywhere. Asteroids in thousands of km radius were blown away.

Ye Mo's fist wind paused and a black arrow broke free shooting at his chest.

Ye Mo knew the terror of this black arrow but before he could block it, the bell suddenly emitted a sharp sound. Ye Mo's heart was like struck by a hammer, his immortal essence crippled and his face went pale.

Chapter 1767: Crazy duel

Ye Mo's immortal essence crippled, his fist whirlpool weakened due to this.

Yan Jiutian's mist spear broke the weakened fist force whirlpool and pierced at Ye Mo's forehead. Ye Mo sweated cold and released Zi Xu while smashing out world rock.

Rumble.

Even though Yan Jiutian's spear was already blocked by the fist whirlpool, it still made Ye Mo feel back lash of immortal essence when Zi Xu clashed with the spear. He felt like his organs were on fire, his immortal essence was chaotic. On top of that, the world rock smashing on the bell created an even more terrifying sound as the world rock flew back too.

Luckily, the world rock did something and at least cut off the sound for a moment. The instant the bell was struck, the nearby bound space was freed, Ye Mo spat a few mouthful of blood and flew back out. But a few black arrows flew even faster and pierced into his chest.

Ye Mo had the complete lower hand in this battle and received quite some injuries. Luckily, he finally broke free using the world rock. If he wasn't immortal spirit body, those arrows would make his body crippled.

Ye Mo didn't even have time to check his wounds after flying back tens of km and ate a few immortal pills.

“No wonder you have the right to fight with me, you reached immortal spirit body.” Yan Jiutian saw the mist arrows didn’t damage Ye Mo as much as he thought it would and said in shock.

However, he didn’t ease up on his attacks. The scattered mist gathered into an even more terrifying mist spear. He stepped out and smashed at Ye Mo again. Even though Ye Mo was weaker than him now he had to use this opportunity to kill him otherwise he couldn’t rest easy.

The nearby space was immediately moved by this spear and completely bound Ye Mo’s exit.

There seemed to be black spear shadows everywhere in the void, Ye Mo couldn’t dodge at all.

Ye Mo never thought of dodging, if it was an immortal king beating him like this then never mind but it was a great eternity immortal beating him like this and he was very annoyed.

He had the lower hand before not because he was that much weaker than Yan Jiutian but due to his battle experience. Yan Jiutian was so much more experienced in battle than him.

“Tang Mengrao, smash...” Ye Mo flew back and threw the world rock at Yan Jiutian again while calling out lightning sand immediately. However, it was just gathering force and didn’t release, he was waiting for the perfect opportunity to teach Yan Jiutian a lesson.

This was the first time Ye Mo used two god arts at the same time, Tang Mengrao and lightning sand.

Yan Jiutian felt very satisfied to be able to easily suppress Ye Mo. He wasn’t going to give Ye Mo any breathing opportunity and released the mist spear again. His arrows were also ready, he even prepared mist net outside to catch Ye Mo if he tried to run.

But Ye Mo never thought of running away.

Yan Jiutian was very prideful but so was he. Yan Jiutian was only great eternity immortal tertiary stage, Ye Mo didn’t feel his great eternity immortal primary stage was much weaker than Yan Jiutian. Ye Mo had never lost to an opponent in the same big cultivation level, how can he run away now?

Yan Jiutian found that when there was still some distance between his mist spear and Ye Mo, Ye Mo's huge world rock landed.

Such a powerful god art, Yan Jiutian was shook. He was a space law controller, how could he not know that Ye Mo's god art fused space law. If it wasn't space law, the world rock wouldn't immediately be above his head. What made him speechless was that this space law seemed familiar.

Even Yan Jiutian had to admire Ye Mo, Ye Mo only saw him use space law once and could learn a sliver of it. to him, Ye Mo's learning capabilities were unprecedented.

Yan Jiutian's mist spear also formed a huge black mountain and smashed at the world rock. At the same time, he moved the bell hanging in the middle.

Seeing the bell make humming sounds, how could Ye Mo not know Yan Jiutian was going to use the same move again. He lost to this bell before. at this moment, Ye Mo immediately released Hao Heaven drum.

He couldn't keep hiding the drum anymore.

Dong dong.

The bell made soul captivating sounds and Ye Mo forcefully resisted the crippling of his immortal essence and punched with a pale face.

Void!

This was the first time Ye Mo used three god arts at once, waves of weakness came. His body was shaking. He didn't dare to use wave kill because it used too much immortal essence and spirit sense. Although it was powerful but it was hard to kill Yan Jiutian in one go. At most, it would make Yan Jiutian heavily injured. If Yan Jiutian didn't die and he exhausted himself, he would have to await death.

The space kill force of a hundred km radius was swept up again in this punch. Yan Jiutian sneered, Ye Mo was out of tricks, he used the same fist twice. It didn't cause him any damage the first time and now he dared to use it again?

Rumble.

The entire void was turned over, Ye Mo's world rock smashed with Yan Jiutian's mist mountain.

The void rattled violently, ripples appeared in the void space, it was as though just a bit more power and this void would be torn open to a new realm.

Crack, crack.

The void secret silver of the world rock splashed away and Yan Jiutian's mist mountain was also smashed away. Unlike last time, the world rock was evenly matched with the mist mountain this time.

However, a large layer of the void secret silver was gone.

Yan Jiutian sneered and he gathered his immortal essence and charged at the bell.

The bell made even more frequent sounds before forming a long ring.

Ye Mo's face went pale and couldn't resist spitting another mouthful of blood but his void punch wasn't dispersed this time. Instead, it gathered even more and the killing force whirlpool was complete.

Yan Jiutian felt something wasn't right, the kill force whirlpool wasn't coming at him but smashed on the drum he released.

Dong.

A terrifying slaughter sound occurred, it was like an army on ten million was charging and attacking. The killing force was boundless, endless killing intent and killing will swept towards Yan Jiutian.

Yan Jiutian's sea of consciousness felt weak under this sound and this uncontrollable fear rose up from his heart.

Dong.

The drum sounded a second time, void seemed to be crumbling. Heaven and earth seemed to be decimated, everything shook with this terrifying drum sound.

The sound wave spread out like a ripple, asteroids were pulverized by it.

Dong.

The drum sounded a third time, it was like the final battle call, void shook, the drum sound wave spread out non stop as if tearing this vast reality. Yan Jiutian couldn't handle such terrifying drum sound. He spat a few mouthful of blood. Yan Jiutian's face was white like paper now. He felt the spear of millions of soldiers pierce into his body. He spat blood while retreating like crazy.

"Lightning sand, attack..."

Ye Mo's face was also terrifyingly pale but how could he let up on this opportunity.

Lightning flashed in the void and a huge rumble sounded. Thick black lightning smashed out suddenly from the void onto Yan Jiutian's head.

Yan Jiutian grunted and dodged, the space ahead of him seemed much more spacious. The lightning sand was about to miss but Ye Mo was prepared for Yan Jiutian's space law. The lightning sand seemed to know where Yan Jiutian was going to retreat and suddenly split into two. A part missed but the other part still fell onto his head.

Yan Jiutian was scared soulless and roared "Tear..."

A hundred meter long silver dragon suddenly appeared, there was despair and sadness in its eyes but it went before the terrifying lightning sand without any hesitation.

Rumble, crack.

Blood splashed everywhere, the silver dragon's sad eyes dimmed down.

Chapter 1768: Then write a debt bill

Yan Jiutian's face was pale like snow, his chest was full of blood, his eyes were blood shot. He waved his hand and the black mist formed a shield in a rush to block the lightning sand that was filtered by the silver dragon.

Crack. The remaining lightning sand landed all on Yan Jiutian's shield. The shield split apart and Yan Jiutian howled in pain and was smashed away a few hundred km. When he got up, his body was completely charred, he was disfigured.

Ye Mo really wanted to give Yan Jiutian another lightning sand. He knew that one more and Yan Jiutian would be dead for sure. Yan Jiutian progressed much faster than him, if he didn't kill Yan Jiutian, it would be more dangerous for him the longer he dragged it on.

However, although he seemed to be in a much better state than Yan Jiutian, he exhausted himself just as much as Yan Jiutian. He couldn't even use Illusion Cloud much less lightning sand.

Using the Hao Heaven drum made Ye Mo's immortal essence in an extremely weakened state, Tang Mengrao and lightning sand only made things worse. Ye Mo just ate a few pills trying to recover his power as quickly as possible.

Yan Jiutian ate a few pills and put away the silver dragon that only had one breath left. He looked hatefully at Ye Mo's Hao Heaven drum. Although he didn't want to say anything, he was very shocked inside. He didn't expect Ye Mo's luck to be this absurd, he even got Hao Heaven grand emperor's drum.

None of them spoke nor did they have the time to speak. They were both trying desperately to recover their immortal essence and spirit sense. once their spirit sense and immortal essence recovered to a certain state, it would be the beginning of the next wave of battle.

Ten seconds later, Yan Jiutian suddenly growled and a fiery red barrier rose up around him. His mist net and mist mountain gathered together as though going to give Ye Mo a final strike.

Ye Mo knew Yan Jiutian still had a lot more cards, much more than him. Even if Yan Jiutian was no match for him, it was probably impossible to kill Yan Jiutian. This was an old monster who had lived countless years, he definitely had the best of the best escape means. Luckily, he had escape means too.

Hum.

The black mist formed a ten meter long spear this time, it hummed before even being released as though keen to devour blood.

Ye Mo caressed Zi Xu, waves of killing intent rose out of the air. The more he fought the more experienced he would become, especially if he fought people like Yan Jiutian.

Yan Jiutian's barrier was definitely to prevent his Hao Heaven drum, the following battle would only be more arduous for him. However, he didn't have Yan Jiutian's luck, he didn't have a defense magic artefact to stop the bell.

Even though Ye Mo made up his mind to get a top grade defense magic artefact no matter what he had to face Yan Jiutian now.

When the two was about to clash, Ye Mo's face suddenly changed. The next moment, he put away everything and instant transmissioned, disappearing completely.

Yan Jiutian dazed, he didn't know why Ye Mo suddenly ran. He didn't even have the thought of chasing Ye Mo when Ye Mo ran. Whether or not he could kill Ye Mo was one thing, but just this speed was something that even he might not be able to catch up to.

But he felt Ye Mo wasn't scared of him? Why did Ye Mo run away, he didn't understand? After just hesitating for a second, Yan Jiutian's face also changed and took back his bell in less than half a second and also disappeared. However, he went the opposite direction to Ye Mo.

Yan Jiutian just left for a few seconds and an old man appeared where they fought, it was clearly that immortal king uncle Ji.

Uncle Ji frowned and looked at the direction Ye Mo ran off to as well as the direction Yan Jiutian ran off to. He hesitated for a moment and chased after Yan Jiutian.

Feeling an immortal king was getting closer and closer, Yan Jiutian was about to spit blood out of rage for his misfortune. Ye Mo was a great eternity immortal primary stage but he was this cunning. This immortal king was quite possibly coming after Ye Mo. He was going to kill this Ye Mo no matter what.

...

The reason Ye Mo could notice uncle Ji was coming wasn't because his spirit sense was better than Yan Jiutian but he was more careful when he was heavily injured. He released his spirit sense domain to the max and watched the nearby area at all time. He wasn't afraid of Yan Jiutian, even if he can't beat him he can always run but if that uncle Ji came, he would be over.

He was lucky, uncle Ji's spirit sense was expanded to the max. although Ye Mo's spirit sense didn't touch uncle Ji's spirit sense but Ye Mo felt it so he instantly took everything and used instant transmission to get away.

From some degree, uncle Ji was indeed attracted over by Ye Mo. Uncle Ji felt there were people here, he wasn't sure who it was but he came to check it out.

Uncle Ji immediately knew there was a huge battle here and the two parties were quite strong.

Ye Mo was very lucky, he was the first to leave and left the disaster to Yan Jiutian. Even if Yan Jiutian doesn't, die, he would be suffering quite a lot.

Ye Mo used the instant transmission another ten time and kept using mobility technique. The immortal essence he barely gathered up before was depleted again.

But now, Ye Mo felt secure. He knew he completely escaped the hunting range of uncle Ji.

Even though he knew he was safe, Ye Mo released the space time boat and flew around for half a day before finding an asteroid and going into the golden page world there.

Although Yan Jiutian could find the trace left behind by god artefact flying in the void but Yan Jiutian was a half divine. Ye Mo didn't believe uncle Ji would be able to do it.

...

Ye Mo immediately started recovering his immortal essence in the golden page world. A few days later, Ye Mo had completely recovered. Then, he left the golden page world. he took out the void location disc to confirm his location. He could still sense the direction of the immortal ship.

In the next month, Ye Mo kept changing places to catch void flying snow. Ye Mo didn't find another place where the void flying snow grouped up but in the almost two months time, he caught tens of void flying snow.

He had nearly 200 void flying snow. Ye Mo estimated this was enough to get ranked very ahead so he released Blue Moon to get back.

Three days later, Ye Mo stopped, he felt immortal essence wave in the void. There must be a battle. there was also spirit sense barrier formation, clearly it didn't allow other people's spirit sense to scan over.

Just when Ye Mo was wondering if he should go over to see, two dashing lights came, it was two great eternity immortal tertiary stage. Ye Mo didn't move, these two weren't enough to worry him.

"Haha, we stopped another fat one, this person is definitely not bad to be able to appear here..."

The two great eternity immortal appeared on the two sides of Ye Mo.

Hearing their words, Ye Mo realised they were robbers. They were probably waiting on some route to return to the immortal ship.

“Hand over your void flying snow, I’ll let you...” The great eternity immortal was suddenly stuck for words.

He looked at Ye Mo worriedly and didn’t dare to keep talking, he recognized who Ye Mo was. It was that great eternity immortal primary stage who killed a great eternity immortal tertiary stage with one punch. He was someone not even Di Wencheng dared to challenge.

“Give what to you? And you will let me go over?” Ye Mo asked.

“So it’s immortal friend Ye, please go as you please, we’re just earning a small fortune here, we don’t dare to stop you...” The great eternity immortal quickly said.

Ye Mo didn’t go over but asked “How come I heard you talk about void flying snow? Do you have a lot of void flying snow?”

The great eternity immortal’s face went bitter and sour, he quickly bowed “We just came here, we gave all the void flying snow to the captain. We really have nothing.”

Ye Mo’s face sunk and his force expanded over, killing intent showed just like when he killed Ge Ya on the stage.

The great eternity immortal quickly said “We really don’t have anything, our captain is stopping there. Usually we would draw them to our captain and...”

“And let your captain attack right?” Ye Mo asked coldly.

"This..." The great eternity immortal couldn't even speak.

"I only have one..." The other great eternity immortal quickly took out one void flying snow and gave it to Ye Mo.

Ye Mo took it without hesitation and asked "How many can you get each time?"

"Five." The great eternity immortal quickly answered.

"Then write a debt bill, you two owe me ten, take me to your captain." Ye Mo said.

Chapter 1769: What can you do to me

The two hesitated for a moment and Ye Mo's voice went ice cold "What, you don't want to?"

The two great eternity immortal glanced at each other and said "We're willing, of course."

The two would bring Ye Mo over first. They would have the numbers advantage anyways, Ye Mo was alone.

Ye Mo extremely detested people blocking the way to rob others but he didn't want a lot of trouble here. He was just by himself, if they were a team and had quite a lot of people he would rather have less trouble.

The reason he needed an excuse was because his spirit sense blades had broken into the formation and saw that one of the fighters was Chu Chi. He owes him one, he had to help now no matter what.

There was also someone Ye Mo recognized who was watching on the side, it was Di Wencheng. Ye Mo wasn't certain if the captain was Di Wencheng, if it was, then he would use an excuse to make Di Wencheng challenge him.

From little immortal king, Ye Mo knew that Di Wencheng probably had a sliver of immortal emperor spirit sense on him. If this was so, he might not be able to kill Di Wencheng even if he fought him, that way, he might as well let Di Wencheng challenge him.

Chu Chi was only at the lower hand, he wouldn't be in trouble soon. Ye Mo had the time to look for trouble. He needed to infuriate Di Wencheng. As a captain and great eternity immortal peak stage, Di Wencheng wouldn't allow him to use such means to take his void flying snow.

...

Chu chi was on the brink of extreme fatigue but he knew if he wasn't careful he might lose his life here.

Ren Lijin was very worried on the side and wanted to charge up many times but she knew it wouldn't be helping Chu Chi, it would only make him die faster.

If she went up, the tens of people on that side could all go up.

Just when she was worried, she heard a rumble. A purple sword rays hacked in, the spirit sense barrier formation immediately crippled and three people appeared here.

"Brother Ye." Ren Lijin called out in surprise and joy. she knew that they were probably saved now that Ye Mo came.

Chu Chi also saw Ye Mo come but he couldn't break free from his opponent. His slight attention on Ye Mo allowed a flying sword to break through his defenses. Just when it was about to cut him in half, Ye Mo dashed over and punched this flying sword. The flying sword was hacked away. he then pulled Chu Chi over "brother Chu, long time no see."

Chu Chi panted and said "Thank you for saving me again brother Ye."

The great eternity immortal who was about to kill Chu Chi was furious but seeing it was Ye Mo he didn't dare to go up.

“What, you want to fight with numbers advantage? Two against one?” One great eternity immortal immediately yelled.

Ye Mo patted Chu Chi’s shoulder signaling him to rest on the side and then he turned around saying to that great eternity immortal “You’re right, what can you do to me?”

Ye Mo sneered, there were so many people surrounding the two of them and they had the face to say numbers advantage. He could tell there were three factions here, Di Wencheng’s side only had ten.

Ye Mo was annoyed for not being able to kill Yan Jiutian and now he was robbed on the way. He had zero patience now.

“You’re asking to die.” The great eternity immortal yelled and signaled a few great eternity immortal behind him.

Ye Mo waved his hand letting Chu Chi and Ren Lijin retreat. He took a step forward, killing intent exploded all over his body and rose crazily. In just a short time, he formed invisible killing intent ripples around him.

“Hurry up and fight, don’t waste time.” Ye Mo flung his hand and the world rock hung above his head. With this, the nearby space immediately became depressing, it was as though the world rock was the heaven and if it fell, people could only wait for death.

He didn’t even care if they gained up on him. He was waiting for Di Wencheng, if Di Wencheng dared to come up, he would kill him even if he had immortal emperor spirit sense protecting him.

“Cang Luo retreat.” A young great eternity immortal peak stage walked up and yelled. He then came up to Ye Mo and saluted with his fists “Immortal friend Ye, my friend was too blunt. Teng Sheng heaven Bi Tan hope immortal friend Ye won’t take that seriously.”

Ye Mo stared at this Bi Tan, he was very young and had golden hair. The chi from him was very strong, he was probably on par with Lu Mang.

“You’re the captain?” Ye Mo asked with disappointment. He thought the captain was Di Wencheng. If Di Wencheng wasn’t the captain, Ye Mo didn’t have a way to make him come to him.

“Yes.” Bi Tan smiled and saluted with his fists “I’m indeed the captain, it’s just a duel here, it’s definitely fair. Brother Di, brother Pang, brother Taishi are all just watching here and being a witness. Of course as a witness, we won’t mistreat them. If immortal friend Ye is willing, you can be a witness here too.”

Ye Mo immediately realised. Bi Tan was using duels here to collect void flying snow. The witnesses like Di Wencheng and them had a split of the profit. Bi Tan would be the bad guy and everyone else reap the profit. If they were reported, the rest of them could also vouch for Bi Tan.

Chu Chi sneered “Really? How come my cousin and I didn’t want to hand over the void flying snow so we weren’t allowed to go?”

Ye Mo stared coldly at Bi Tan and said “It seems that when I passed over here I needed to hand over void flying snow to pass. Friend is doing a good business, much more effective than collecting the void flying snow in danger.”

Bi Tan’s face changed, clearly Ye Mo was bullshitting to start trouble.

“What thing are you, let me test if your fame is real or fake...” A great eternity immortal tertiary stage went past Bi Tan and released a six headed spear at Ye Mo.

Bi Tan wanted to stop this great eternity immortal but then thought if Ye Mo wasn’t really that powerful, then all of them might be able to kill them.

Ye Mo’s killing intent had nowhere to go and this great eternity immortal was the perfect target.

Ye Mo punched just like with Ge Ya.

Void!

With this punch, Bi Tan's face immediately changed. He realised that Ye Mo's power was greater than his face. But he didn't even have the power to stop it, if he dared to go into the fist wind whirlpool, he would also die.

Di Wencheng sneered, if Bi Tan could surpass Ye Mo with his people, he would go help without hesitation.

But seeing this punch, Di Wencheng's face changed. He knew that Ye Mo's power increased greatly since a few months ago.

Di Wencheng originally wanted to challenge Ye Mo but seeing this punch he immediately gave up on the thought.

The great eternity immortal was caught by the kill force whirlpool, in that instant he felt endless void killing force sweeping at him. He would be sucked in the next second and if he went in there, he had the feeling he would turn to bloody mist.

In his fear, the great eternity immortal burned his immortal essence like crazy trying desperately to break free.

"Immortal friend Ye, please have mercy, I'm willing to pay five void flying snow..." Bi Tan saw the great eternity immortal was about to be torn to pieces and quickly said.

The killing force paused and Ye Mo kicked the chest of the great eternity immortal sneering "Piss off."

The great eternity immortal flew back and kept spitting blood in air but he didn't feel he was insulted. His face was covered in fear, if Bi Tan spoke a little later, he would be dead already.

With that kick, the killing intent and killing force nearby dispersed like nothing happened.

Bi Tan immediately gave Ye Mo a jade box "Immortal friend Ye, thanks for your mercy."

Bi Tan felt it ached his heart. Some of them didn't catch a single one for a few months but he paid five immediately.

Ye Mo threw it in his storage ring and then took out a jade slip for Bi Tan and said "This is a debt bill, see if it's fine, if it is, then clear it."

Chapter 1770: Battle immortal king

Seeing this jade slip, Bi Tan's face changed. The most he ever got in a day here was five void flying snow but he had to split out two and could only get three himself. Ye Mo wanted ten immediately now.

The reason he gave Ye Mo five before other than saving his great eternity immortal henchman was mainly because he didn't want to fight with Ye Mo. Ye Mo was too terrifying. Even though they had the numbers advantage, a lot of them would probably die.

But taking out ten void flying snow was going to hurt his bones. He didn't dare to reproach Ye Mo and turned around staring at the great eternity immortal "What is this?"

The two great eternity immortal thought Ye Mo wouldn't be able to take on them all but now they were completely wrong. They didn't dare to say Ye Mo wanted ten because of what they said.

Seeing the two great eternity immortal shaking and not talking, Bi Tan could only saluted with his fists "Immortal friend Ye, we've only collected less than ten void flying snow here..."

Seeing Ye Mo nod, Bi Tan lit up and said "so I really can't take out ten void flying snow."

"So this means you don't want to pay me back? Or should I find the two who wrote the debt bill?" Ye Mo said plainly.

Seeing this, Bi Tan could only clench his teeth and say "I'll pay."

If Ye Mo really did that, his authority would be gone and his team would disperse.

After taking ten more void flying snow, Ye Mo didn't even stay for half a second and took Chu Chi and Ren Lijin.

"Too cocky." One great eternity immortal peak stage looked at the direction Ye Mo left and cursed.

Di Wencheng sneered "You can challenge him, we'll cheer you on."

The great eternity immortal opened his mouth but didn't dare to say anything.

Di Wencheng ignored him and saluted with his fists to Bi Tan and left without even bothering to say anything. With this, Di Wencheng's team also left. The rest of the people saw this and all left too.

Soon, there was only Bi Tan's team left. It was a joke to try rob people on the way here with ten people. It would be fine for a few rare loners.

...

Four hours later, Ye Mo stopped and asked "Brother Chu, it's just you two? You didn't team up with Jin Shang heaven team?"

Chu Chi smiled bitterly "My Yue Ren immortal residence isn't small but we're nothing compared to those big sects. They don't want us to go with them and we don't want to beg them."

Ye Mo understood this, it wasn't that all of the big sect members were cocky but they weren't on the same level at all.

The reason he could become friends with those people was due to Ji Shu. If it wasn't due to Ji Shu, he wouldn't know Qi Beicang nor Jiu Ruyan.

"How many void flying snow did you get?" Ye Mo asked.

Chu Chi thought Ye Mo wanted void flying snow and quickly took out three handing them to Ye Mo “We were lucky and have a magic artefact for capturing it so we got three. It’s not use to us, brother Ye can have it.”

Ye Mo waved his hand “I don’t want your void flying snow, I want to give all mine to you...”

“What how can you do that?” Chu Chi rejected.

Ye Mo said “I want you to help me, once you get into top 1000 and get invited by the immortal emperor, give the Peng Yue immortal fruit to me. for compensation, I will give you two Yi King pill.”

“Huh...” Chu Chi looked at Ye Mo in a daze. Even one Peng Yue immortal fruit can’t trade for one Yi King pill but Ye Mo was willing to give them two.

Ye Mo coughed “I got a pill cauldron from you, I already owe you. Plus, I’m a level seven immortal pill grand master. With peng yue immortal fruit I can concoct Yi King pill.”

Hearing this, Chu Chi and Ren Lijin were completely dazed. A level seven immortal pill grand master had the same status as an immortal monarch to even immortal emperor. Ye Mo was actually one. This was too unbelievable.

Seeing the two didn’t dare to believe, Ye Mo explained “I’m indeed a level seven immortal pill grand master but I offended a powerful person, he has background in Qing Wei heaven, I’m afraid I would be ambushed if I go see immortal emperor there so...”

Ye Mo’s excuse was very bad but Chu Chi wasn’t thinking about this. He just wanted to connect well with this level seven immortal pill grand master so he quickly said “That’s fine, I can help this but it’s very hard for us to get into top 1000 with less than 20.”

“That’s fine.” Ye Mo gave a storage ring to Chu Chi “There’s fifty here, take it.”

Chu Chi was dazed again, he really didn't know how Ye Mo could get this many but he didn't ask. He shouldn't ask.

Ye Mo took out another jade slip to Chu Chi and said "Mi Yun saint of Ethereal Immortal Pond gave me this. if someone asks how you caught so many, this jade slip with your magic artefact and luck is the reason."

After this, Ye Mo let the two leave first. He didn't want them to be suspected. Chu Chi knew what Ye Mo meant and returned to the immortal ship with Ren Lijin.

Ye Mo wanted to wait for Li Kun to come and give her some void flying snow but an immortal king spirit sense scanned him. Ye Mo didn't dare to wait at all.

The spirit sense was very familiar, it was uncle Ji. This was near the immortal ship, Ye Mo wasn't certain if uncle Ji would risk attacking him. Ye Mo immediately used mobility technique and sped up to the immortal ship.

In just a few seconds, uncle Ji appeared at where Ye Mo was and chased towards him without hesitation.

Luckily, Ye Mo was very close to the immortal ship, with him burning immortal essence like crazy, Ye Mo could see the ship with his spirit sense in ten seconds. At this moment, uncle Ji stopped before him.

Ye Mo stopped and stared at uncle Ji calmly. This was near the immortal ship, he believed uncle Ji didn't dare to attack here.

"Immortal king master, may I ask why you stopped me?" Ye Mo saluted with his fists.

Uncle Ji sneered "Why don't you keep running? Do you think I don't dare to kill you just because you ran here?" then, he grabbed at Ye Mo not giving him any chance.

He believed he only needed two seconds to kill Ye Mo, that was enough time to clean here.

Ye Mo didn't expect this guy really dared to attack him here, he released world rock without hesitation. Immortal essence poured inside like crazy to stop this grab.

But as soon as he released world rock, he found he couldn't move at all. Ye Mo was very shocked, he knew he was in uncle Ji's immortal king domain. In here, there was nothing he could do but await death.

The pressure of the domain was about to make Ye Mo spit blood. He released spirit sense blades in his spirit sense domain like crazy trying to break open this domain even just by a little. That way, he would be able to use world rock to stop this grab.

Crack.

The immortal king domain just formed and a sliver of crack was created.

"Hmm?" Uncle Ji was shocked. He didn't expect a great eternity immortal could crack his immortal king domain a little. Even though he used it casually, it wasn't something a great eternity immortal could break free.

Ye Mo couldn't break free indeed even if the crack was ten times larger but this was enough for him to use world rock.

The world rock stopped that terrifying hand just when it was about to grab Ye Mo.

Rumble.

The world rock was smashed away.
