Chapter 1771: Who is lying

Ye Mo used this opportunity to ignite his immortal essence and punched out trying to stop this grab.

Rumble.

Immortal essence exploded and the nearby void shook, Ye Mo was struck flying out splashing blood in the void.

Immortal essence and spirit sense disappeared from Ye Mo's body, even with his immortal spirit body his chest bones cracked. His immortal spirit body saved his life again.

Ye Mo's heart sunk, he just took back the world rock and was full of weakness. He couldn't release it again. Now, an ordinary foundation establishment state could kill him much less an immortal king peak stage.

Uncle Ji's heart sunk, he thought that his grab would kill Ye Mo for certain. Even a great eternity immortal peak stage wouldn't be able to escape under his immortal king domain.

Yet a great eternity immortal primary stage could open a sliver in his immortal king domain and stop this grab and then burn his immortal essence to break out. This was beyond insane.

His heart sunk not because Ye Mo could escape, he knew Ye Mo wouldn't be able to live after that but he didn't expect killing a great eternity immortal primary stage would cause this much commotion.

If this startled the immortal emperor master, he would have no place to bury himself. Thinking about this, uncle Ji sweated cold and charged forward wanting to pulverize Ye Mo.

Seeing this, Ye Mo sighed. He had used his spirit sense blades to stir up the immortal ship restriction, why was there still no news now? Just when he was thinking if he should hide into the golden page world when he heard a sneer. Ye Mo rejoiced and didn't move. It seemed his action was useful.

Ye Mo could tell that Mi Kuan immortal emperor made this sneer, he didn't believe Mi Kuan immortal emperor would let an immortal king kill before him.

Uncle Ji heard this too because this sneer was targeted at him. his immortal essence backlashed and blood spilled out of the corner of his mouth immediately. There was terror in his eyes, he didn't dare to keep attacking Ye Mo and said "Uncle Ji greet Mi Kuan immortal emperor."

A great hand grabbed uncle Ji and brought up Ye Mo taking them back to the immortal ship deck in just a few steps.

The deck was filled with immortals who had returned, Ye Mo's heart felt a little easy. As long as he was in public view, he wouldn't be threatened with death.

When Ye Mo was thrown onto the deck, Li Kun screamed and immediately charged over holding Ye Mo while putting pills into Ye Mo's mouth.

"Brother what happened to you?" Li Kun asked in fury and worry.

Everyone saw Ye Mo was beaten this heavily and all tuned in wanting to know who did this.

Some people saw uncle Ji who was thrown onto the deck by Mi Kuan immortal emperor and immediately released what happened. Many people still didn't believe that Ye Mo was beaten by an immortal king. If immortal king attacked, how could Ye Mo live till now? Immortal king didn't kill a great eternity immortal primary stage in one strike, this was too astonishing.

Ji Shu and Qi Beicang quickly came over, Li Kun realised that it was uncle Ji who beat Ye Mo. He got up and stared at uncle Ji saying furiously "You're an immortal king and you attack a great eternity immortal, do you not know the immortal ship laws of Mi Kuan immortal emperor master?"

A few immortal monarch and Mi Kuan immortal emperor were here but Li Kun didn't dare to curse uncle Ji.

Mi Kuan immortal emperor was already annoyed that uncle Ji dared to attack Ye Mo and near the ship. This was not taking his words seriously. Li Kun's reproach meant that his words had no authority at all and his made him more uncomfortable.

Jiu Ruyan quickly pulled Li Kun over "Sister Xi Yue, don't worry, Mi Kuan immortal emperor master will get justice for brother Ye."

Jiu Ruyan's words were soft but all the nearby great eternity immortal heard. How could Mi Kuan immortal emperor not know what Jiu Ruyan wanted. He ignored the two girls and just stared coldly at uncle Ji "You're an immortal king, yet you ignore the immortal ship rules to kill a great eternity immortal. Do you think my words are meaningless or are you divine emperor master?"

Hearing this, Hua Ruxue quickly went up and bowed "Immortal emperor master, there must be a reason for uncle Ji to attack Ye Mo. Please have mercy immortal emperor master, even if Ye Mo was rude first, I will order uncle Ji to apologise..."

Ye Mo heard this and sneered but he didn't argue. He knew this woman was better than an Oscar winner in acting.

He didn't care about Hua Ruxue, he cared that Yan Jiutian was fine. He saw Yan Jiutian in the middle of the crowd. His face was very bad, seemingly due to loss of blood.

When Ye Mo stared at him, Yan Jiutian stared back with great killing intent.

Ye Mo sighed, Yan Jiutian was quite amazing. He was only this far from the ship but didn't get away. If it wasn't for Mi Kuan immortal emperor, he would almost be disintegrated. Yan Jiutian was chased by Uncle Ji but came back alive. This guy was a running away specialist.

Seeing the degree of Ye Mo's injuries, his sea of consciousness was probably injured too. Yan Jiutian felt a little satisfied seeing this. but thinking about how Ye Mo almost made him die to uncle Ji, his teeth itched with hatred. He was in no better state than Ye Mo before, if he didn't use blood sacrifice, he wouldn't be able to stand here.

Mi Kuan immortal emperor really wanted to kill uncle Ji straight up but he knew Hua Ruxue's background. He wasn't afraid of demon joy sect but it wasn't smart to offend a sect like that.

How could uncle Ji not know what Hua Ruxue meant, he bowed "Mi Kuan immortal emperor master, I saw Ye Mo on the way back alone so I asked out of good will but instead he insulted me and used all sorts of foul language. As an immortal king, I was cursed by a great eternity immortal like this, I really couldn't take it so I wanted to teach him a lesson."

Mi Kuan's face eased, he didn't believe Ye Mo would be stupid enough to curse an immortal king but this was an appropriate excuse. Uncle Ji wasn't completely disregarding the rules here so he had a little face. After all, offending someone with a higher cultivation level was taboo in the immortal realm, they could be killed at any time.

"My brother would definitely not curse you, you have no evidence..." Li Kun said in desperation.

Ye Mo waved his hand signaling her to stop talking and then took out a few pills to eat before bowing to Mi Kuan immortal emperor "Mi Kuan immortal emperor master, wan bei was definitely very respectful to uncle Ji immortal king, cursing him is completely false..."

Uncle Ji interrupted "Of course you wouldn't admit it now, you already forgot how you cursed me?"

"Oh, what did I say?" Ye Mo asked.

Seeing uncle Ji's face paused, Hua Ruxue immediately said "Ye Mo, uncle Ji is much older than you, you cursed him and he feels uncomfortable, is he to repeat it?"

Ye Mo said calmly "Since he can't say it, it means that I didn't curse him. If he says what I said and I don't have evidence then he's right and I can stop chasing this up."

"Hmph, you don't have the right to chase it up. Now, we're going to chase up with you. Uncle Ji, say what Ye Mo cursed you with." Hua Ruxue immediately said.

Mi Kuan immortal emperor's face was bleak but said nothing, clearly he wanted both sides to take out evidence.

Uncle Ji immediately said furious "He's a great eternity immortal but he calls me garbage animal, he says I'm raised by a bitch. Hearing this, I really couldn't handle it so I attacked immediately..."

All the immortals fell silent now, what Ye Mo said was enough for death sentence.

Mi Kuan immortal emperor didn't believe this but in the logic of the immortal realm, if both parties didn't have evidence, then whom ever was stronger had the reason to his side.

He looked at Ye Mo coldly "Ye Mo, you're a mere great eternity immortal and you dare to curse an immortal king like this, you deserve to die."

Ye Mo bowed "Immortal emperor master, I didn't curse him at all and I was very polite to him. However, he said "Keep running, do you think I won't dare to kill you just because you ran here?" Then he immediately attacked to kill me."

"Immortal emperor master, I never said this, Ye Mo didn't say anything respectful to me." Uncle Ji argued.

Ye Mo bowed again "Immortal emperor master, wan bei has evidence."

"Oh..." Mi Kuan immortal emperor looked at Ye Mo in confusion "If you have evidence why don't you take it out earlier?"

"Yes, wan bei was wronged, in my worry I forgot." Then Ye Mo took out a crystal ball and released it into the air. At the same time, he sneered to himself, if I took it out earlier, I wouldn't be able to hear this old thing curse himself

Chapter 1772: Kill immortal king

Seeing Ye Mo take out the crystal ball, uncle Ji's face went pale. He finally realised why Ye Mo was so respectful to him when he saw him and called him master, this little bastard had a scheme already.

The huge crystal ball released a clear scene. In the scene, Ye Mo respectfully saluted with his fists "Immortal king master may I ask why you stopped me?"

But uncle Ji sneered inside "Why don't you keep running, do you think I don't dare to kill you here?"

Then he attacked and the crystal ball went blurry.

Just an instant, those who wanted to see Ye Mo's pitiful fate all looked at uncle Ji with sympathy. An immortal king was played by a great eternity immortal primary stage with his hands and cursed himself so cheerfully. Ye Mo took out the crystal ball later and asked what he said clearly wanting the immortal king to curse himself first.

Ye Mo bowed to Mi Kuan immortal emperor and said "Thank you immortal emperor master for saving my life, Ye Mo will repay you once my cultivation is successful."

Although Mi Kuan immortal emperor didn't come just to save him, Ye Mo was still very grateful.

Mi Kuan immortal emperor nodded, how could Ye Mo's little tricks get passed him. However, since Ye Mo had evidence it was easy for him now. he was an immortal emperor and didn't expect Ye Mo to pay him back but Ye Mo's will was good.

"Uncle Ji, do you have anything to say?" Mi Kuan immortal emperor looked coldly at uncle Ji.

Uncle Ji's face was pale, the evidence was so clear, what could he say? If Mi Kuan immortal emperor didn't intervene in this personally, he could say the crystal ball was fake. But everyone knew this wasn't fake, there were too many ways to tell and plus, Ye Mo didn't have the time to make a fake.

Ye Mo saluted with his fists to uncle Ji "uncle Ji immortal king, if you didn't say it yourself, I wouldn't even know you were raised by a bitch."

“You...” uncle Ji was furious and spat a mouthful of blood.

Hua Ruxue’s face was cold, she knew that it was pointless to beg Mi Kuan immortal emperor for mercy. She could only walk up to Ye Mo pitifully “Brother Ye please let uncle Ji go this time, Ruxue will definitely pay you back.”

The killing intent in Ye Mo’s heart didn’t seep out at all, he would never show mercy to those who wanted to kill him.

But Ye Mo wasn’t dumb, he knew the reason Mi Kuan immortal emperor didn’t judge uncle Ji yet not because there wasn’t evidence but he was concerned with demon joy sect a little.

Ye Mo nodded to Hua Ruxue and said to Mi Kuan immortal emperor “Uncle Ji immortal king bound me with immortal king domain and grabbed at me. As a great eternity immortal facing an immortal king, I’m willing to repay hatred with good will...”

Hua Ruxue’s face lit up, in her heart she already considered Ye Mo dead but she couldn’t show it now.

Mi Kuan immortal emperor nodded and seemed to realise Ye Mo’s predicament. He thought Ye Mo just wanted uncle Ji to compensate some immortal crystals but then Ye Mo said “So, I want to also punch him while he’s bound. I know my punch wouldn’t even be able to move his clothes but this is fair...”

Hearing this, the atmosphere paused again. Many had seen the power of Ye Mo’s punch. With that, even if uncle Ji wasn’t dead, he would be heavily injured. Many people didn’t understand, since Ye Mo gave up on revenge, punching this would only draw more enmity.

Hua Ruxue’s face changed. She had seen Ye Mo’s punch, could uncle Ji block this?

Just when Hua Ruxue wanted to argue, Mi Kuan immortal emperor nodded “That’s fine, he can’t move now, punch him. After you’re done I will take him away and deal with him according to the rules.”

Mi Kuan immortal emperor didn't know the power of Ye Mo's punch, he thought Ye Mo was just finding a way down. With this said, Hua Ruxue could only shut up. Taking uncle Ji away to deal with was just letting him go.

Even uncle Ji signaled Hua Ruxue to stop talking. Ye Mo was strong but he wouldn't be able to kill him with one punch especially how Ye Mo was heavily injured.

The other immortal monarchs and immortal kings tensed up. They knew that his last sentence was spoken to them. He probably wouldn't kill uncle Ji but would be teaching him a lesson and even make demon joy sect pay greatly.

Ye Mo had recovered more than half of his immortal essence and spirit sense. If an immortal king was controlled and he couldn't kill him, then he would be too weak.

"Do it." Mi Kuan immortal emperor said.

Ye Mo took a breath and walked up to uncle Ji, he didn't prepare at all and just punched.

Seeing this, everyone knew Ye Mo gave up on killing uncle Ji. Otherwise, he could use a much more powerful punch than this.

But Mi Kuan immortal emperor's eyes narrowed, he could feel that all the invisible lethal force in the nearby space being sucked away by this punch, he knew this punch was probably going to kill uncle Ji.

Despite this, he still didn't really believe that a great eternity immortal could kill an immortal king with one punch. However, he did approve of Ye Mo to be able to punch without spilling out any lethal force. No wonder he could escape from immortal king as git.

Seeing this punch, uncle Ji breathed easy. It seemed Ye Mo knew demon joy sect wasn't easy to mess with.

But when this punch neared his heart, there was a sudden extreme terror rising up in his chest. As an immortal king, he realised that Ye Mo secretly contained all the lethal force in the punch.

Ordinary people wouldn't be able to tell at all. It seemed as though Ye Mo didn't use full power but this punch was trying to kill him.

Uncle Ji immediately wanted to resist but he was already subjugated by Mi Kuan immortal emperor. There was despair in his eyes.

Seeing this despair, Ye Mo sneered, his void punch could be dramatic or silent like this. the terrifying lethal force swept over in uncle Ji's meridians forming small lethal force whirlpools.

He wouldn't do this to other people but for this uncle Ji, he must kill this guy.

The crazy lethal force rolled around in his body, uncle Ji could only feel the whirlpools expand in his body tearing all the meridians.

Seeing blood flow out of uncle Ji's eyes and ears, Hua Ruxue immediately knew things weren't good.

Thud, before Hua Ruxue could stop it, Ye Mo's punch landed on uncle Ji's chest. Uncle Ji's despaired eyes dimmed down.

Moments later, his body turned into a bloody mist. Not even his essence spirit remained.

Other than a few immortal monarch and Mi Kuan immortal emperor who saw the premonition, everyone else was dazed. Ye Mo really was this decisive and killed an immortal king with one punch? No wonder he said not even uncle Ji's clothes would flip, there would be no clothes after this.

That skinny immortal monarch primary stage frowned. He dealt with the business between Ye Mo and uncle Ji. He even went against the rules, not it seemed this little great eternity immortal was very vengeful.

"Very well, the demon joy sect remembers you." Hua Ruxue stared at Ye Mo coldly.

Di Wencheng's heart shivered upon seeing this. He didn't believe Ye Mo really dared to kill immortal king. If he fell into Ye Mo's hands, he wouldn't need to use his sect to threaten Ye Mo. This guy didn't care at all.

Only Yan Jiutian sneered, using an emperor sect to threaten Ye Mo was a joke. He knew very clearly what sort of a person Ye Mo was. Ye Mo didn't even take him, a half divine, seriously, emperor sect was nothing.

Mi Kuan immortal emperor interrupted this eerie scene and said "Three months time is about to be up. Please all great eternity immortal go up and tally the void flying snow they got and wait on the side for results. Exchange of void flying snow is not allowed on the ship, offenders will be disqualified."

Ye Mo just wanted to give some void flying snow to Li Kun and heard this so he immediately stopped.

Chapter 1773: Feng Kong grand emperor

Mi Kuan finished and the immortals and the deck started lining up to hand up their void flying snow. Soon, Ye Mo found there were only tens of thousands of immortals handing them up. This meant only one in ten was handing it up. Ye Mo guessed that to get top 1000, most of the void flying snow were gathered on one person.

The big screen on the deck started to show a leaderboard. Ye Mo saw that those who were ahead had tens, the most had 80. Some solo cultivators only had one or two.

Ye Mo handed out three void flying snow and stood on the side. Three was quite a lot for one person.

A day later, the tally was finished. Three months time was up, as the ship restriction closed, those immortals who didn't get back had no chance to come back on even if they were alive.

On the ranking, Li Kun was ranked 636 th, Ji Shu and them had no ranking. Li Kun got 37 void flying snow, Ye Mo knew that Ji Shu and them gave all their void flying snow to Li Kun.

Chu Chi got 53 and was ranked 278 th. Ye Mo looked at Yan Jiutian, he got 34 and was ranked 907 th.

There were quite a lot of people who got the same number of void flying snow, their rank was divided based on the quality of the void flying snow. Most people didn't care about their rank, they only cared if they could get into top 1000.

"Sister Xi Yue, did your team give all the void flying snow to you?" Ye Mo asked.

Qi Beicang answered "No, only me, Ji Shu, Yin Hui and Jiu Ruyan. The rest of the people aren't here, but we didn't get much, Xi Yue got most of them."

Li Kun smiled "luckily we had Mi Yun saint's jade slip and I was lucky so I got 29."

Ye Mo understood what Li Kun meant, she got 29 not because of Mi Yun's jade slip but because of Spirit Will Nine Transformations.

...

After the ranking was done, Mi Kuan immortal emperor said loudly "The top 1000 can come up and get their jade card now. The rest of you will be able to get a reward based on the void flying snow you have contributed..."

Ye Mo didn't choose any pills, he chose tens of tasty level five immortal spirit fruit.

...

Everyone left after the ranking was done but Ye Mo had some news saying that the top 1000 might not get peng yue immortal fruit straight up, they would be getting a spot to go find peng yue immortal fruit. Ye Mo didn't care, no matter what, as long as he got a peng yue immortal fruit, it would be fine. He believed even if it was just one spot, Chu Chi would come to him.

Even if he didn't get the fruit, he didn't want to go see a few immortal emperor.

Feng Kong immortal emperor was immortal emperor tertiary stage, Ye Mo wasn't certain if this was the emperor Feng who threw him into Luo Yue cultivation realm but if it was, then that immortal emperor tertiary stage might be able to realise something.

The main reason was that Ye Mo was scared they could see his sea of consciousness. If the chaos world was exposed he would be over.

A few months later, Ye Mo was still in cultivation. He didn't want to go out and cause trouble, at the same time he needed to cure his injuries. On top of that, he wanted to keep refining hao heaven drum.

Ye Mo didn't expect it to have such power, he only controlled a few levels of restriction and could release such huge power. If he completely controlled the drum, how terrifying would its power be?

But Ye Mo knew that only Yan Jiutian knew about it and he didn't dare to spill it. If someone else knew, no good would come out of it.

Half a year later, Ye Mo came out of solitary cultivation.

Based on time, Ye Mo calculated that they were almost at Qing Wei heaven. Qing Wei heaven was extremely far but Ye Mo knew this immortal ship was very substantial, it could be ranked into top five in all of the immortal ships in the grand heaven domain.

It was extremely fast and sturdy. This ship was even faster than his replica space time boat.

When he came out of solitary cultivation, he found that all the great eternity immortal who saw him greeted him politely. He didn't want this but Ye Mo knew that his name spread out.

Ji Shu and them immediately invited Ye Mo over. Due to Ye Mo, challenges had nothing to do with them these half year.

Another month later, the immortal ship stopped at a square near Qing Wei heaven Hong Yu immortal city. Ye Mo followed a few hundred thousand immortals and got off the ship to where they were arranged to stay.

Some big sect people already came here and they met up with their sect members immediately. Li Kun's sect also had people to come greet them. Those who got into top a thousand were greeted nicely.

Ye Mo didn't have the jade card and was an solo cultivator, they had the worst treatment and could only follow everyone to the most ordinary cultivation home and wait for the call of immortal emperors.

A few killing intent scanned passed Ye Mo, Ye Mo breathed easy instead. It was an immortal monarch from demon joy sect here meeting with Hua Ruxue. It wasn't an immortal emperor, plus even immortal emperor didn't dare to easily kill people.

Three days passed quickly, Ye Mo didn't leave his residence. He had decided to go as soon as he got the Peng Yue immortal fruit. Qing Wei heaven definitely wasn't an easy place to stay, it was too dangerous here. Li Kun had the emperor sect to take care of her so he didn't need to worry.

On the fourth day, it was the day that the few immortal emperor saw the 1000 great eternity immortals. Including the 100 chosen from Qing Wei heaven, 1100 great eternity immortals will be seen by the top immortal emperors.

Ye Mo and those who weren't called stayed at the square seeing the formation screen. Ji Shu and Qi Beicang were young city lords but their status here weren't much higher than Ye Mo and could only watch the formation screen just like Ye Mo. Ren Lijin had no one she knew so she could only follow Ye Mo.

The formation screen was very clear, in it a huge palace was decorated with the best immortal materials. 1100 great eternity immortals were led into the palace by female immortals on the two sides.

Five minutes later, a few emperor crested immortal emperors walked onto the stage. Even through the formation, the great eternity immortals at the square felt the power and authority of immortal emperor.

"Brother Ye are you okay?" Jiu Ruyan asked.

She was by Ye Mo's side and Ye Mo was shaking, his face was pale.

"I'm fine, it's some cultivation problem and my body is reacting to the emperor chi." Ye Mo quickly said and released his clenched fist. He rejoiced his decision, if he was seen by immortal emperors, his attitude would definitely be noticed by all immortal emperors.

Ye Mo breathed easy. The reason he had such reaction was because he recognized one of them to be emperor Feng. That person is without a doubt Feng Kong grand emperor. He saw it very clearly at samsara dao in the seven refine tower. It was the image of his past life.

At this moment, he had a smile and seemed very amicable but Ye Mo would never forget the scene where that crying woman hugged this immortal emperor's leg and begged for mercy. However, this Feng Kong grand emperor kicked him and that woman off the stairs without hesitation and then ordered him to be thrown into a spirit chi deprived cultivation realm.

Ye Mo's fists were shaky, he suddenly thought of that woman, who was that woman to him, where was she? But Ye Mo didn't even dare to ask.

Seeing this smiling Feng Kong grand emperor, Ye Mo remembered Hao Heaven grand emperor's words "Feng Kong is the most sinister and bleak character, on the surface he seems the weakest but in fact, he's the strongest of the four grand emperors."

At the top of the palace, tens of extremely beautiful female immortal danced bringing out waves of immortal clouds. The dance was extremely beautiful and captivating but Ye Mo didn't even look at them. He was thinking about why Feng Kong grand emperor wanted to kill him.

Chapter 1774: Little heaven domain

After the dance, a group of female immortal carried immortal wine to these 1100 great eternity immortals. The great eternity immortals on the square looked in admiration, without a doubt the wine was made from the best immortal liquid that was beneficial for both cultivation and dao.

After the immortals drank, a long bearded handsome man walked out. He signaled the great eternity immortals to sit before saying "Every peng yue immortal fruit harvest season gives people anticipation. It's also the time that our immortal realm prodigies shine. To be able to come here today, you're the

very elite great immortals of the 33 heaven domains. As the Qing Wei heaven lord I welcome you all greatly,”

Ye Mo looked and recognized it to be Wei Feng immortal emperor. It's said he's a grand emperor. Ye Mo immediately thought of Wushuang immortal emperor seeing this guy. Wushuang immortal emperor was probably ambushed in this Hong Yu immortal city. Just what woman made Wushuang immortal emperor unable to forget?

Wei Feng immortal emperor's voice continued to sound “Not only Feng Kong grand emperor and Dragon River grand emperor came this time but also Yuan Dong heaven Zheng Ren immortal emperor, Teng Sheng heaven Kui Qian immortal emperor, Fen Du heaven Yuan Yun immortal emperor. On top of that, there are valuable guests from the emperor sects and monarch sects of the big heaven domains. Although there's some problem with this peng yue immortal fruit social but I believe after Feng Kong grand emperor explains things, everyone would have even greater hopes.”

Feng Kong grand emperor smiled and nodded “Last time at Yuan Dong heaven emperor Fall mountain, we lost some elite great immortals. It pains my heart greatly. We're all old, the future of the immortal realm and the 33 heavens would need you all. Everyone here is great eternity immortal tertiary stage and the elite of the big heaven domains. I believe the most excellent immortal emperor of the 33 heavens will be coming amongst you.”

Ye Mo didn't like Feng Kong grand emperor but he had to admit he was right. This place indeed gathered the best great eternity immortal in the grand heaven domains.

“Every immortal emperor and immortal monarch here came from great eternity immortal, we know the hardship of reaching immortal king from great eternity immortal.”

Feng Kong grand emperor spoke slowly and seemed very amicable but perhaps due to his experience, Ye Mo felt Feng Kong grand emperor seemed very fake.

“To be able to sit here, you have all proved your ability. But this isn't enough for you to get a peng yue immortal fruit without any effort. Ever since the immortal realm split apart, Peng Yue immortal fruit have become rarer and rarer.”

Hearing this, Ye Mo frowned. He felt he was tricked. Feng Kong grand emperor said nice things but they were meaningless.

Not only Ye Mo but the other great eternity immortals in the palace noticed something wasn't right.

Feng Kong grand emperor didn't seem to notice this and continued "This time, the Qing Wei heaven Peng Yue immortal fruit garden is mature again but the fruits can't be distributed to your hands. The Peng Yue immortal garden had withered a few thousand years ago. In order to not crush everyone's hopes, we didn't say this..."

Discussion rose everywhere in the square.

Peng Yue immortal fruit was an extremely rare immortal fruit, it was rarer than level eight and level nine immortal spirit herb. many great eternity immortal peak stage were stuck there due to not having Yi King pill.

Some people even began to doubt Feng Kong grand emperor saying that the immortal spirit herb garden suddenly withered.

The peng yue immortal fruits would mature once every a hundred thousand years and during this time, there would be a Peng Yue immortal fruit social held in Qing Wei heaven. The previous heaven lord of Qing Hei heaven Hong Yu immortal emperor never stopped it once. Many immortal kings of other heaven domains reached their state due to the Peng Yue fruit social.

At the prime, a third of the great eternity immortals coming would be able to get Peng Yue immortal fruit. Later on, there were less and less people getting peng yue immortal fruit. This time, there was only 1100. But even so, no one dared to say anything.

Now, Feng Kong grand emperor said they withered a few thousand years ago and this broke everyone's hopes and dreams. People immediately became suspicious.

"I remembered when Hong Yu immortal emperor had the Peng Yue social, the glory of that was unforgettable. Hong Yu immortal emperor called all the great eternity immortal in Qing Weiheaven over.

“Yea, now the heaven lord is Wei Feng immortal emperor, why is there less and less people called to the social?”

“Now they’re saying there’s none left, aren’t they playing with us?”

...

Most of these people guessing came from other heaven domains.

Ye Mo heard of Hong Yue immortal emperor, Hao Heaven grand emperor told him Qing Wei heaven lord was Hong Yu immortal emperor but for some reason, it changed to Wei Feng immortal emperor.

Feng Kong grand emperor said pitifully “We are also regretful that the Peng Yue immortal garden is withering, this would mean less and less immortal kings. This is a huge blow to the 33 heavens, if one day there was not a single Peng Yue immortal fruit left, wouldn’t that mean the end of the immortal realm heritage?”

Feng Kong grand emperor’s tone seemed to have influenced everyone and they stopped talking.

“In fact, we immortal emperor are more worried. Luckily, the heavens doesn’t end our hope. After searching for a few thousand years we finally found a place no one has been in before. there’s not only peng yue fruit but also level seven and above immortal spirit herb as well as chaos immortal spirit items...”

These words immediately lit up everyone’s excitement. Even some big sects were in shock. If Feng Kong grand emperor didn’t say this, they wouldn’t know these few immortal emperor found a place with chaos spirit item.

In that instant, Feng Kong grand emperor’s public image became great.

A grand emperor found such a valuable place but still took it out to share with everyone. Such manner, such magnanimity was worth everyone worshipping.

The immortals whether in the palace or in the square became restless. Some sect members wanted to bring this news back immediately but it was impossible to send news across heaven domains.

Ye Mo didn't know if Feng Kong grand emperor was telling the truth but he believed Feng Kong grand emperor was definitely not that generous.

"Hundreds of millions of years ago, the divine emperor battle split apart the immortal realm into 33 heavens. In fact, there's actually some smaller heaven domain forgotten in the void. Those heaven domains without great fortune became void planets and asteroids. Some dissipated after the ravage of time but some had small fortune and was lost in the corners of the void becoming small heaven domain."

Feng Kong grand emperor described an ancient history and even Ye Mo only heard these things for the first time.

Feng Kong grand emperor continued "Most of these small heaven domains have dissipated but a small part of them are protected by natural formations in the void and even has atmosphere forming a small astral region. These astral regions have never been damaged nor been stepped foot on so there's immortal spirit herb everywhere. Even some chaos items hide in here."

Just when everyone was expecting Feng Kong grand emperor to say where it was and let everyone go in harvest, Feng Kong grand emperor said dejectedly "However, not everyone can go in."

Chapter 1775: Jade card

It was indeed so, if it wasn't, Ye Mo would feel it wasn't right.

Many people thought the same as Ye Mo but more were disappointed.

Seeing everyone calm down, Feng Kong grand emperor continued "The small heaven domain existed for countless years and some void chaos items hid in there too. If status immortal goes in, their chi would startle these chaos items and make them flee. So after discussion, we decided to not touch small heaven

domain and use this peng yue immortal fruit social to send the top 1100 great eternity immortals into the small heaven domain...”

The square went into discussion again, if it was really so then wouldn't the 1100 people be digging a gold mine? They wondered if these people would get to keep what they found.

Ye Mo was confused was this the reason why they used void flying snow to decide the rankings? Ye Mo definitely didn't believe that status immortals going in would start chaos spirit items. He knew he wasn't the only one who didn't believe this but he couldn't find a reason not to believe it.

“The things inside the small heaven domain belongs to everyone. Although we choose 1100 representatives to go in, it's for the entire heaven domain to benefit. Those who go in must only agree to keep 10% of what they get and let the rest be distributed. If they're not willing, they can give their spot to someone else. Chaos spirit items must be handed over and planted in the Qing Wei heaven peng yue immortal fruit garden.

No one was unhappy with Feng Kong grand emperor's words. How could the immortal spirit herb inside a heaven domain that hadn't been opened for a hundred million years be simple? 10% was very much already as for chaos spirit item, who could even find it?

“This batch can only stay for three days, after three days you must come out.” Feng Kong grand emperor's words bewildered everyone again. How big would a small heaven domain be? How many things would they be able to get with just three days?

Feng Kong grand emperor said “This is because there's spirit crippling demonic chi inside. If you stay in there for too long, your spirit root would cripple. The higher your power the faster your spirit root would cripple. Thus, those above immortal king isn't suited to go in.”

Ye Mo realised, no wonder Feng Kong grand emperor and them didn't want to go in. This was the main reason.

Zhen Bingyu's spirit root crippled when her nirvana failed too. He helped Zhen Bingyu find void flying snow to concoct flying snow pill.

Ye Mo realised now why the great eternity immortal had to go catch void flying snow.

Feng Kong grand emperor continued “The main reason of getting everyone to capture void flying snow is to concoct flying snow pill. It can not only stop spirit root crippling but also purify the spirit root of those who enter the small heaven domain. However, we can only give three flying snow pill to everyone who goes in. Each pill will last a day, three pills can only last three days so after three days, everyone who goes in must crush the jade card to teleport out.

Now, it wasn’t just Ye Mo sneering but also some knowledgeable immortal monarchs and immortal kings. Even if they got something precious in the small heaven domain, three days wasn’t enough for them to use it for cultivation. This way they could only hand the best things to the immortal emperor to distribute.

Ye Mo sneered also because he had a few bottles of flying snow pill and a hundred or so void flying snow. He could forge them at any time.

Ye Mo guessed these immortal emperors wouldn’t make these rules for ordinary level seven and level eight immortal spirit herbs. There was definitely something they wanted inside but they couldn’t go in to search.

“Other than these 1100 people, the rest of the great eternity immortal from Qing Wei heaven have a chance to go in too. I will arrange a specific time. Flying snow pill concoction needs a few days, ten days later, everyone gather at Hong Yu square.”

Feng Kong grand emperor waved his hand and a few female immortal sent jade cards to the 1100 people in here.

Seeing this, the few immortal emperors got up to leave but Ye Mo was confused. They gave out the jade cards to go in this early, were they not scared of something happening?

Everyone would want these jade cards and if people fought over it, many sects would be willing to take risks. When the immortal emperors left they said nothing about this, clearly they meant people could fight over it.

Ren Lijin was worried, clearly she knew the dangers of this. If they were from an emperor sect or big sect it would be fine but they were alone like Ye Mo. They were like a three year old holding a gold bar walking in robber's lair.

Li Kun was taken away by Long Yue emperor sect as soon as she came out. Chu Chi came nervously to Ye Mo. He really wanted to give the jade card to Ye Mo but was afraid of brining trouble to him. Even if he gave it to Ye Mo, other people wouldn't know and perhaps he would be harmed too.

"Brother Ye what do we do?" Chu Chi asked.

Ye Mo knew that not only Chu Chi couldn't take the card but he couldn't too.

"Show me the jade card." Ye Mo said.

When Chu Chi showed the card, countless eyes stared at it. If this wasn't the square people would've come over to rob it already.

Ye Mo scanned with spirit sense and found it was indeed a teleportation formation.

Ye Mo was an experienced level five immortal formation great master. With his Spirit Will Nine Transformations, his spirit sense could cut into the card and look at it carefully. In a short while, Ye Mo remembered the teleportation formation.

After remembering how the card is made, Ye Mo gave it back to Chu Chi "Sell this jade card, don't sell for too much, 100 million immortal crystals is enough."

Seeing Ji Shu and Qi Beicang tempted, Ye Mo immediately said "Don't buy it, your backgrounds aren't powerful enough, buying it is harming yourself."

Chu Chi knew there was no other way around this, he said guiltily "Brother Ye I'm truly sorry. I thought I would be able to get a Peng Yue immortal fruit straight up but instead this happened."

“Don’t worry, it not impossible to reach immortal king without it.” Ye Mo patted.

Chu Chi was decisive and knew the earlier he dealt with this the better.

Chu Chi took out the jade card and said “I know my capabilities are limited, now I will sell a small heaven domain jade card, 100 million immortal crystals who wants it, take it.”

“I do, this is 100 million immortal crystals.” Someone took out an immortal crystals card immediately.

Chu Chi didn’t want for a second bid and just took the immortal crystals and handed the jade card over.

“I’ll pay 500 million immortal crystals...” another bid sounded.

Chu Chi didn’t regret selling it for 100 million immortal crystals at all. He breathed easy instead. 100 million immortal crystals was nothing to the great eternity immortals here.

“Brother Ye, we’ll go visit Xi Yue.” Qi Beicang and them said.

Chu Chi knew Ye Mo didn’t care about this 100 million immortal crystals and didn’t even take it out. He said to Ye Mo “Brother Ye, we’ve benefited something here, I’m planning to go visit other places in Qing Wei heaven with my cousin. ”

Ye Mo approved “okay if the opportunity arises I will go visit you guys at Jin Shang heaven.”

Chapter 1776: How to enter small heaven domain

What troubled Ye Mo was that he didn’t know how to go in. Every jade card was extremely precious and sects would be guarding it very closely. Those people like Chu Chi would’ve handed it out already.

Ye Mo went back to his place, even though he had many secrets but he didn’t know how to go in.

He really wanted to discuss with Li Kun but he knew she was definitely protected heavily.

A day later, Ye Mo decided he wasn't going to keep waiting like this. Just when he wanted to go out for a walk, the restriction at his door sounded.

Ye Mo opened it and saw the purple dressed female immortal and asked in shock "Mi Yun saint how did you get out at this time?"

Mi Yun immediately came in and put on the restriction before saying "Why can't I come out? The Ethereal Immortal Pond got two jade cards this time and they're not on me. Who dares offend the Ethereal Immortal Pond?"

Ye Mo thought about it and agreed.

"What business do you have with me? Your Ethereal Immortal Pond immortal monarch qian beis are all here, coming here again..."

Mi Yun smiled "because someone reported me, so my master knows about me coming to you on the immortal ship. So, I might as well not hide it. By the way, my master is very interested in you, would you be interested in coming to see my master?"

Ye Mo's heart was shook, what did Mi Yun's master want to see him for? Her master would at least be immortal monarch, he wouldn't dare to go see an immortal monarch alone.

Thinking about this, Ye Mo quickly waved his hand "I like being alone, I would be very rude seeing qian bei, I won't go."

Mi Yun seemed to know Ye Mo didn't want to see her master and said "Martial brother Ye, after I cultivated your stealth cultivation method I realised I'm a frog at the bottom of a well. There's such wonderful cultivation method, it's probably immortal grade peak right?"

Ye Mo's face sunk, what Mi Yun mean by saying this?

Mi Yun didn't seem to see Ye Mo's complexion and continued "By the way martial brother Ye, I heard there's an extremely huge social tonight at Hong Yue immortal city. You know the immortal monarch selling the five element stone stool on the ship? It's said he's participating this auction..."

Ye Mo was shocked, why did she say this? Did she realise he was interested in the stone stool?

Plus, this immortal monarch dared to sell that stone stool publicly here, did he not want to live? there were so many immortal emperors here, which immortal emperor didn't know five element stone stools involved the chaos world?

Ye Mo didn't believe an immortal monarch wouldn't realise this. Since he still dared to do this, it meant that he wasn't afraid of immortal emperors.

"I want to go see the auction, are you willing to go? If so, we can go together." Mi Yun suddenly looked at Ye Mo and asked again.

Ye Mo didn't know what she meant and shook his head "I didn't get the right to go small heaven domain, I'm planning to leave here tomorrow. As for the auction, I'm not interested."

Ye Mo had decided to send Li Kun a message and leave immediately seeing that Mi Yun mentioned the stone stool and her master wanted to see him.

Mi Yun fell silent for a while and said "I thought you were interested in that five element stone stool, it seems I saw wrong but I can tell you for sure that even if it's an immortal emperor he wouldn't really be selling it. the five element stone stool is 100% fake. The seller also knows that others would be able to realise this. this person wants everyone to know the real one is on him."

"Why?" Ye Mo subconsciously asked but immediately realised what was going on.

"My master said that this person is quite possibly a half divine. He might be desperate to vindicate dao. If the five element stone stools gather, he can vindicate dao through the five elements even if he doesn't have a chaos world. a truth spirit world would be enough." Mi Yun explained.

Ye Mo realised, if Mi Yun's master knew this, the other immortal emperors definitely knew this too. Unless there was an immortal emperor who didn't want to live, no one would dare to go find this guy. If someone went to this guy, he would definitely think the other stone stools are on this person and take it.

That person would also keep an eye on those who seemed the slightest interested in him.

Realizing this, Ye Mo was definitely not going to the auction.

"I heard there's also a low grade god artefact and a half god artefact in the auction."

Mi Yun's words made Ye Mo vigilant again. He got a low grade god artefact pill cauldron. He didn't know if Hua Ruxue could tell or not.

It seemed he needed to leave quickly.

Seeing this, Mi Yun knew that Ye Mo probably wanted to go even more, she bit her lips and suddenly said "Martial brother Ye, if I can bring you into the small heaven domain, you..."

"What?" Ye Mo dazed, she could take him into the small heaven domain under the eyes of a few immortal emperor?

"That's right I can take you in." Mi Yun said calmly.

Ye Mo asked calmly "Whether or not you can even bring me in is one thing but why are you helping me?"

"If I say I suddenly like you and want to help you would you believe it?" Mi Yun said calmly.

Ye Mo smiled "no."

Mi Yun didn't care but instead took out the jade slip Ye Mo gave her and looked at it "You said this stealth cultivation method is slightly different to the one you use, I'm thinking..."

Seeing her look at him, Ye Mo sneered "So you want mine stealth cultivation method?"

"Yes, I don't know if the one you're using is better but I really need a powerful stealth cultivation method like this. Even if I don't stay saint and pay everything I have I'm willing to." Mi Yun stared at Ye Mo and said adamantly.

Ye Mo guessed that she probably had big plans but it had nothing to do with him. He was thinking if she could really bring him into the small heaven domain, it wasn't impossible for him to give her the stealth cultivation method.

"I also know you have a good body refinement cultivation method..."

"Don't even think about it, I won't agree." Ye Mo interrupted.

"Tell me about how you can bring me in ." Ye Mo said.

"I have a small world..."

Ye Mo shook his head in disappointment before she finished, she was too naïve.

Small world, truth spirit world were completely different to chaos world. Chaos world could be hidden in the depth of the sea of consciousness. As long as someone's spirit sense didn't reach there, they wouldn't be able to know but the small world and truth spirit world were different. It could only be turned into a bracelet or ring to be worn. It was impossible to hide it from an immortal emperor's spirit sense.

Mi Yun said "I will hang it on my chest, even if the immortal emperor notices it, he wouldn't ask me to take it out. I believe I wouldn't be the only one using small world to bring people in. How could Feng

Kong grand emperor not think of this but he didn't mention it so it means he allows it. Even if it fails, I'll let you out and you wouldn't lose anything."

Ye Mo sneered, not lose anything? As soon as he came out of the small world, the immortal emperors would check him with spirit sense immediately.

"Plus, I haven't spirit controlled my small world..."

Suddenly, Ye Mo had an idea upon hearing this.

Chapter 1777: The stressed female immortal on the streets

"Martial sister Mi Yun I have a way but I don't know if you will agree to it." Ye Mo thought and said.

This way was best for Li Kun to do but he couldn't even see her right now.

"Tell me, if I can do it I won't disagree." Mi Yun immediately said.

Ye Mo said without hesitation "You need to give me your jade card first, I'll go out the city and after seven or eight days come outside to meet me. Then I'll tell you how to bring me in. Of course, if you don't trust me then never mind."

"Of course I trust you." Mi Yun said and then gave a jade card to Ye Mo "It's here, as for the rendezvous point, you can tell me later."

"You didn't hand up your jade card?" Ye Mo looked at her dazily.

Mi Yun said proudly "Hand it up? Who here needs me to hand up something?"

Ye Mo immediately realised, the saint had extremely high status in Ethereal Immortal Pond. If she wasn't willing no one could force her to hand it out.

She didn't need to worry about giving the jade card to him, even if he wanted to take it, it was impossible as ten days later, those going to the small heaven domain would gather together. You wouldn't even know where the small heaven domain would be.

The two exchanged communication beads.

After she left, Ye Mo immediately checked out of his room.

...

As the number one city of Qing Wei heaven and the place of the heaven lord estate, this place was very prosperous and even more now due to the peng yue fruit social.

Ye Mo felt there were too many people on the streets but he didn't have the mood to admire this prosperity. He needed to go to a rather large merchant tower in here.

At this time, everyone merchant tower was full. Things were constantly sold and taken in.

Ye Mo barely squeezed to the front and before he spoke, the attendant asked "Immortal friend, may I ask what you need?"

Ye Mo breathed and said "I want some truth abyssal mud."

With this, the surrounding quietened down immediately.

The attendant smiled bitterly "Immortal friend nice joke, our Hao Wei immortal tower isn't small in here but we don't have something as precious as truth abyssal mud. Even the top grade immortal tower such as Hong Sheng immortal tower wouldn't have such things."

Then, the attendant looked at Ye Mo vigilantly clearly thinking Ye Mo was here to cause trouble.

Ye Mo cursed himself for being so impulsive, how could something as precious as the truth abyssal mud be bought at regular merchant towers.

Even the lowest grade truth abyssal mud he bought on that ship cost 200 million immortal crystals and this was because the seller was desperate for immortal crystals and sold it for a low price.

His truth abyssal mud here would at least be 1 billion immortal crystals here.

“My bad.” Ye Mo saluted with his fists and quickly left. He suddenly regretted using all the truth abyssal mud he had before.

Ye Mo only walked for a few hundred meters and noticed something wrong, he seemed to be watched. Ye Mo just wanted to turn around when a voice sounded by his ear “If friend wants to talk, we can find a place, I have something good for you.”

Ye Mo’s spirit sense immediately saw a great eternity immortal peak stage woman. She looked pretty but seemed a little stressed.

This female immortal definitely followed him out of the merchant tower. Ye Mo could guess why she came up to him and said “Okay lead the way.”

Someone coming to him at this time would definitely be for the truth abyssal mud. Plus even if this was outside, he wouldn’t be afraid of a great eternity immortal peak stage.

The female immortal led the way and five minutes later, she took Ye Mo to a room in a distant spirit rest tower.

Ye Mo kept watch, this place was far off but the city was filled with people everywhere. She wasn’t ordinary to be able to find a room at this moment.

After entering the room, the female immortal put on restriction and said to Ye Mo “Immortal friend, Hong Ling invited you over suddenly please forgive me.”

Ye Mo scanned this room and after confirming there was nothing wrong with it he said "What business does Hong Ling goddess have calling me over?"

Ye Mo didn't say his name.

Hong Ling didn't mind and signaled Ye Mo to sit and said "You cultivated Spirit Will Nine Transformations?"

Ye Mo suddenly got up and looked coldly at this great eternity immortal saying coldly "Who are you?"

"You cultivated Spirit Will Nine Transformations indeed but it seems a different to the one I know. If you Spirit Will Nine Transformations progresses one more step, I would've be able to feel it even if I'm standing next to you." Hong Ling sighed.

She was a great eternity immortal peak stage so she wouldn't be afraid of Ye Mo of course.

Ye Mo was very shocked, every little people knew he cultivated Spirit Will Nine Transformations unless he attacked. How did Hong Ling know? He didn't use spirit sense attack on anyone, he just used spirit sense to protect himself.

Was there a flaw in his Spirit Will Nine Transformations?

Hong Ling waved her hand "Immortal friend don't worry, regardless how you got your Spirit Will Nine Transformations I have no ill will for you. And your Spirit Will Nine Transformations is different, once you reach great eternity immortal tertiary stage or if you reach fourth transformation. Not even my master would be able to know."

Hong Ling paused and said "I invited you to do a deal with you..."

Ye Mo interrupted her "Answer two questions, first who are you? Second, how did you know I cultivated Spirit Will Nine Transformations, otherwise there will be no deal."

Hong Ling shook her head “You’re only great eternity immortal primary stage but your tone is this impulsive. Ordinary people wouldn’t be able to take it but your character is quite similar to our young master. However there’s no way I’m going to tell you who I am. As for how I know you have Spirit Will Nine Transformations, I can’t tell you either.”

“Then sorry.” Ye Mo didn’t want to have anything to do with her now.

“It’s not so easy to go.” Hong Ling got up and the space nearby seemed to have slowed.

The next moment, she released a red band that covered the entire room.

“Don’t worry, I won’t kill you...” she said but before she finished, she was dazed. Immediately, there was terror in her eyes.

She clearly she the great eternity immortal primary stage wasn’t affected by the red band at all and instantly a terrifying lethal force swept over at her. Space wasn’t under her control anymore.

This punch seemed to have come from the void and released incessant destruction. Soon, it formed a lethal force whirlpool and swept her completely away.

The red band quickly changed direction and covered her body again. If she was dragged in she would die for certain.

How was there such a terrifying great eternity immortal? Was this person an immortal king? Otherwise, there was no way she would be in the definite lower hand in one clash.

“Don’t attack, I didn’t mean to kill you.” Hong Ling called in her terror.

Ye Mo sneered and the lethal force disappeared. Hong Ling fell hard onto the ground. At this moment, she heard Ye Mo say “If you had killing intent before you would be long gone. Now tell me how you know I have Spirit Will Nine Transformations?”

The flaw to his cultivation method was the most important thing to him.

Chapter 1778: Loyal maid

Hong Ling got up in shock and wiped the sweat from her forehead. She had never seen a great eternity immortal as insane as Ye Mo in her hundreds of thousands of years of cultivation. Even her young master was far from this great eternity immortal.

She quickly cast these thoughts aside and saluted with her fists to Ye Mo before setting up a few sound restrictions.

Seeing that it was too ordinary, Ye Mo casually waved out a few even powerful ones and said “No one can listen in now, speak.”

Seeing this, she was extremely shocked. Even immortal formation great master would need some formation god artefact to be able to do it this easily.

But she had seen a lot and even divine emperor so she quickly collected her mood and said “Have you heard of Wushuang immortal emperor?”

Ye Mo realised, Wushuang immortal emperor’s most powerful feature was the spirit sense cultivation method. Did she belong to Wushuang immortal emperor? Perhaps Wushuang immortal emperor created Spirit Will Nine Transformations.

“I heard he was ambushed by more than ten immortal emperor and he killed 9 before fleeing.” Ye Mo nodded.

Hong Ling’s eyes went red, her mood became agitated “I wanted to ask if you were related to Wushuang immortal emperor. Wushuang immortal emperor cultivated Spirit Will Nine Transformations, where did you get Spirit Will Nine Transformations?”

As though fearing misunderstanding, Hong Ling quickly said “I cultivated Spirit Will Nine Transformations, it’s very good to use it with corner soul weed. I did this too so I can sense those who used corner soul weed to cultivate Spirit Will Nine Transformations.”

Hong Ling then gave Ye Mo a jade slip, Ye Mo had a look and his face changed. This was the Spirit Will Nine Transformations, he only got four transformations but this was the entire thing. On top of that, he realised why his Spirit Will Nine Transformations chi was spilling.

He derived his own Spirit Will Nine Transformations but after seeing this complete Spirit Will Nine Transformations, he only needed some time to derive it again. In just a short while, Ye Mo repaired his Spirit Will Nine Transformations and the spilling chi was gone.

“Hmm, your Spirit Will Nine Transformations chi is gone?” Hong Ling felt it immediately and was dumbfounded. Just who was this, he completely fixed the flaw in his Spirit Will Nine Transformations in just ten seconds?

Ye Mo gave the jade slip back to her “Thanks.”

Hong Ling didn’t take it and continued “I don’t know what your name is but seeing that you’re an honest person you can keep it. I just want you to answer my question, of course I will tell you who I am.”

Ye Mo smiled “I indeed cultivated Spirit Will Nine Transformations but it’s different to yours. I’ll keep cultivating mine. I’m Ye Mo, if you have anything just ask.”

Ye Mo guessed a little about Hong Ling’s identity and didn’t feel so revolted.

Hong Ling took the jade slip and said “Immortal friend Ye can probably guess, my master is Tian Xing grand emperor. My master created the Spirit Will Nine Transformations, my young mistress is called Yue He, my young master is Mu Wushuang.”

Ye Mo understood, Hong Ling was Mu Wushuang’s maid. No wonder she was hiding in here, she probably wanted to scout information about Wei Feng immortal emperor. Wushuang immortal emperor died to Wei Feng immortal emperor. She had never forgotten about this but the difference between her

and Wei Feng immortal emperor was too great. Ye Mo guessed she would never be able to catch up her entire life.

Hong Ling said dejectedly “When my master was ambushed he was half divine already. My master really liked young master Wushuang but there was one flaw about him and that was he liked too many girls. If it wasn’t due to this, my master would definitely let Wushuang young master inherit him. Due to him having too many girls, the master didn’t agree to the wedding between him and the young mistress.”

Hong Ling continued “Wushuang young master’s character is very stubborn. He adamantly refused to give up on his other concubines so he left Tian Xing mountain but the young mistress really loves Wushuang young master. she took me and left Tian Xing mountain secretly and found young master Wushuang. In time, the master wasn’t going to keep caring about this and they slowly started connecting again but at this time, Wushuang young master was ambushed and young mistress disappeared.”

Hearing this, he couldn’t help sighing how ruthless Wei Feng immortal emperor was. Even Mu Wushuang’s concubines were gone.

“At the time of the incident, I was serving the master at Tian Xing mountain. The master immediately headed to Wei Feng immortal emperor wanting to bring back young mistress but master never came out again.”

“I didn’t dare to stay at Tian Xing mountain. After leaving, I roamed outside for tens of thousands of years before coming back to Hong Yu immortal city wanting to find out about young mistress and master. But my talent is limited and even after all these years I could only stay at great eternity immortal peak stage. I wasn’t able to find out anything.”

Hearing this, Ye Mo had great respect for Hong Ling.

“Pardon my rudness before, martial sister Hong Ling what do you need to ask me of?” Ye Mo saluted with his fists.

Seeing this Hong Ling dazed but soon she realised what Ye Mo thought. Ye Mo respected her character and she felt very grateful.

She was prepared for the worst before but now it seemed Ye Mo wasn't going to report her in and instead treated her with respect. She felt very grateful and relieved. All these years, no one knew her hardship and what she did but for once, her heart resonated with Ye Mo.

"Brother Ye Hong Ling beg that if one day you reach divine emperor take Hong Ling to the heaven lord estate and see if my mistress and master is still there..." Hong Ling knelt down.

Ye Mo quickly pulled her up "Martial sister Hong Ling, I'm only great eternity immortal primary stage, still very far from immortal king much less divine emperor. I might disappoint you."

"No, brother Ye, you're the most talented great eternity immortal I've ever seen, no one can surpass you. I trust my eyes, you will be able to reach the peak of the immortal realm. If you're willing to help ask about my mistress and master, Hong Ling is willing to be your maid forever." Hong Ling said pitifully.

Ye Mo fell silent for a while and said "No need to be my maid, my Spirit Will Nine Transformations didn't come directly from your master but it still originated from him. If I have the ability I will help go check for you."

Seeing Hong Ling about to kneel again, Ye Mo waved his hand "I don't know how many years this will be so don't be hopeful. If I don't have the ability I would never go to the heaven lord estate. And, you're much older than me just call me martial brother Ye."

"Yes, martial brother Ye." Hong Ling said "I've waited a few hundred thousand years how could I care about waiting for tens of thousands of years?"

"This is the question you want to ask me?" Ye Mo asked.

Hong Ling quickly said "No, I wanted to ask martial brother Ye where you got your Spirit Will Nine Transformations."

Ye Mo nodded 'you want to know where Wushuang immortal emperor is right?"

“Yes.” Hong Ling said “I have a feeling that young master isn’t dead but it had been a few hundred thousand years and there is still no news of him. I’ve been to chaos star realm but I found nothing there.”

Ye Mo hesitated for a moment and said “Martial sister Hong Ling I suspect your young master isn’t dead, he’s recovering in the chaos star realm but it’s probably not easy for him to completely recover. Don’t have too much hope for this.”

Although he almost died at chaos star realm, Ye Mo didn’t mind too much. Mu Wushuang didn’t target him.

“Huh...” Hong Ling looked at Ye Mo in surprise and joy.

Ye Mo waved his hand “You don’t need to go find your young master, it’s not good for either of you.”

Hong Ling bowed to Ye Mo “Thank you immortal friend Ye, Hong Ling knows.”

Hong Ling said again “Martial brother ye do you want truth abyssal mud?”

Ye Mo quickly said “Yes, I need it, do you have it martial sister Hong Ling?”

Hong Ling shook her head “No but I know where there is. The auction tonight will have it but the price will be shocking...”

Ye Mo dazed, he didn’t want to go to the auction but now it came to it again. Should he go or not?

Chapter 1779: Real octagonal cauldron

If he didn’t have the golden page world nor the stone stools, Ye Mo would go to the auction but now he didn’t want to. Although if he didn’t focus on the stone stool he wouldn’t be noticed but what if he was unlucky and that guy scanned him with spirit sense?

Seeing Ye Mo in silence, Hong Ling thought Ye Mo didn't have immortal crystals so she immediately said "The truth abyssal mud is indeed very expensive, I have 60 million immortal crystals. These can't even buy a corner of the truth abyssal mud but having even just one extra immortal crystals would be good in an action."

Seeing this, Ye Mo dazed, Hong Ling was a great eternity immortal peak stage and had spent so many years in the city but she only had this much immortal crystals. It really wasn't much for a great eternity immortal peak stage. Even some wealthy abstruse immortals had more than this.

Ye Mo waved his hand "I have immortal crystals, the truth abyssal mud is very precious, I'm afraid people would come for me if I buy it."

"This is easy, I have a mask." Hong Ling took out a thin mask and gave it to Ye Mo.

There were too many powerful beings in the immortal realm and so Ye Mo never bought some mask after he came to the immortal realm. He didn't even forge one himself.

As soon as he touched this mask, Ye Mo knew it was extreme grade immortal artefact.

Because the materials in side masks were the most precious and the forgery process was extremely difficult, masks were more expensive than pill cauldrons and flying immortal artefact.

Hong Ling didn't have a lot of immortal crystals, how could she possess such a precious mask?

Hong Ling seemed to know what Ye Mo thought and sighed "After knowing my master was in trouble, I snuck back to Tian Xin mountain and took some valuable things. However, Wei Feng that bastard still found the mountain a few years later."

Ye Mo nodded and simply spirit controlled the mask and wore it. His chi immediately changed and he could change his face however he liked.

"Okay, let me borrow this mask but next time we can't meet here."

Ye Mo thought the stone stools definitely won't be found in his sea of consciousness. Was that person going to use spirit sense to crush his sea of consciousness?

Even the most dominant guy wouldn't crush the sea of consciousness of every guy at the auction. As long as he paid no attention to the stone stool, no one would keep an eye on him.

Ye Mo sighed, that small heaven domain was too important to him. Otherwise, he really didn't want to go to this auction. There were chaos items in there, if he could move it all to his golden page world, then his world would be perfected even more. There was only one such opportunity.

Hong Ling immediately nodded "After all these years, I know my current power is too weak, it's impossible to find out about things at the heaven lord estate. Now that I know young master isn't dead I can rest assured. I will leave Qing Wei heaven and search for fortunes. As for this mask, I don't need it, you can keep it."

Hearing this, Ye Mo immediately said "After I'm done with things here I will be going to Jin Shang heaven Yue Ren immortal residence. If you can go to Jin Shang heaven you can meet me there."

Ye Mo said this because he thought he might get Peng Yue immortal fruit. If he could get it, he wouldn't mind giving her a Yi King pill.

Then, Ye Mo gave her two dual spirit pills "You cultivate the Spirit Will Nine Transformations, dual spirit pill should be useful to you."

Hong Ling didn't reject, she took it and left this immortal rest tower with Ye Mo.

Two hours later, Hong Ling took the teleportation formation to leave the city meanwhile Ye Mo changed into a coarse looking great eternity immortal tertiary stage and went into the auction.

...

This auction was indeed extremely huge, the entrance price was a huge sum, 500k immortal crystals just for the worst position. Only 1 million immortal crystals would get you a slightly better place. ordinary rooms cost 5 million, pretty much all the immortals who came here were very wealthy.

When Ye Mo came, the price rose to 6 million a room, Ye Mo threw out 8 million and got an ordinary room, C453.

After going in, Ye Mo checked with his spirit sense carefully. There were spirit sense shielding formation all around the room but the formation was set up in a special way that other people couldn't scan their spirit sense in but the people inside could scan their spirit sense out.

Ye Mo frowned, he didn't like this way of auction. He liked a display formation so the participants wouldn't need to use spirit sense and could see everything in their room.

This method of auction could allow the participant's spirit sense to touch the items but it would also disclose spirit sense information.

Ye Mo soon guessed that the auctioneer did this on purpose, or the person selling the stone stool was doing this on purpose. The spirit sense barrier formation also had some flaws, it couldn't stop all the spirit sense coming in.

Ye Mo breathed but he didn't fix these backdoors.

There was teleportation formation in of corner of the room, one could use this to go outside onto the square whenever he wanted to.

Ye Mo used the Three Birth Chant and completely suppressed his emotions, then he poured himself some immortal spirit chi tea and waited for the beginning of the auction.

Four hours later, a black robed old man appeared on the immortal jade table. Ye Mo could tlel his power was immortal monarch primary stage.

He just stood there and didn't even scan his spirit sense out but his force dominated the scene.

The immortal monarch nodded and said “Many people know me, I’m Hei Yu immortal monarch...”

Many immortals got up and bowed.

Hei Yu immortal monarch pressed with his hand “Everyone sit down, this auction is the biggest auction in ten thousand years of Qing Wei heaven. Using the opportunity of the peng yue fruit social and the opening of the small heaven domain, many people have come. No matter why you have come, the Hong Yu immortal city welcomes you but at the auction, everyone has to follow the rules. I won’t talk too much, the auction begins now, hopefully everyone can get what they want.”

Then, Hei Yu immortal monarch sat on the side and an extremely beautiful great eternity immortal female immortal got up. She bowed and said sweetly “The first item is a level seven immortal spirit herb Wen tiger beast core, starting bid 10 million immortal crystals, each increment must be no lower than 1 million...”

This was extremely valuable in the immortal realm and immediately biddings sounds began. Soon, it was bought by an immortal in a room with 53 million immortal crystals.

There was one level eight immortal spirit herb that Ye Mo was interested but he resisted the urge. He didn’t want anyone to notice him, if he bid, it would have to be the truth abyssal mud.

“The next item is defensive magic artefact octagonal cauldron, it’s lacking a lid but it’s definitely on par with the best extreme grade immortal artefact. If that lid is found this octagonal cauldron would be near god artefact. Of course this is just a guess, the starting price is 80 million, each increment must be no lower than 5 million...”

Ye Mo was shocked, the real octagonal cauldron has appeared. Should he buy it?

Chapter 1780: Stone stool appear

Ye Mo lacked a defensive magic artefact and this octagonal cauldron was too perfect for him. The only pity was that it was lacking a lid but then again, if it was complete, it wouldn’t be this price.

Ye Mo scanned his spirit sense out, it was exactly the same as his damaged one. The reason this octagonal cauldron dropped to an extreme grade immortal artefact was not because its quality wasn't high enough but it was lacking a lid and the cauldron itself was damaged.

Even so, the price soon rose to 160 million. many people could see its flaws just like Ye Mo.

When the price rose to 180 million, the people bidding became less. This price was not cheap for this broken extreme grade immortal artefact.

"200 million." Ye Mo bidded. The octagonal cauldron was very good in defense, he liked it. Ye Mo would rather have octagonal cauldron than a pristine extreme grade defensive immortal artefact.

Ye Mo's price was far beyond the value of the cauldron so no one bidded again in the palace.

Ye Mo breathed easy.

"205 million."

Just when Ye Mo thought the octagonal cauldron was his, another bid sounded.

"210 million." Ye Mo sighed. If the person was going to keep bidding he wouldn't have it anymore. If he kept competing with him, it would be offending that person. now, wasn't a wise time to do so.

However, what confused Ye Mo was that no one bidded after he made that bid. It was as though the person just wanted him to pay an extra 10 million.

As the hammer fell, Ye Mo bought this octagonal cauldron with 210 million immortal crystals.

Moments later, a female immortal carrying the octagonal cauldron came to Ye Mo's room. Ye Mo paid them and checked the octagonal cauldron before putting it back into this storage ring. At the same time, he felt a few spirit sense can on him.

Ye Mo didn't seem to notice this, he just kept watching the next item. There were so many loopholes in the spirit sense barrier formation of this room. Some stronger people could easily scan in.

Later on, even a half god artefact appeared and a few top materials but Ye Mo resisted his urge to buy. He also began to worry, if the truth abyssal mud came too late, he wouldn't have time to do what he needed to.

Ye Mo really wanted the truth abyssal mud to come first before the five element stool.

However, after half a day, the great eternity immortal female immortal carried a stone stool and put it on the table.

Ye Mo almost couldn't control himself seeing but it but luckily he was prepared.

The instant he saw it, he knew it was real, not fake.

Ye Mo knew this moment he was in extreme danger, his glance turned into one that of confusion bewilderment, his spirit sense scanned around on this stone stool.

Ye Mo knew if he took back his eyes immediately or had the slightest emotions, he would be a target of heavy investigation.

Indeed, when Ye Mo was looking at the stone stool, a subtle spirit sense scanned past him and even stopped for a while. If he didn't cultivate the Three Birth Chant, he would never feel it.

This definitely wasn't immortal monarch power Ye Mo knew immediately but he didn't care about it, he kept studying the stool with interest.

Caring too much or too little about the stool would both be targets of investigation, how could Ye Mo not know this.

Unlike before, the great eternity immortal said nothing after taking the stool out.

If he didn't cultivate the Three Birth Chant, he would've been exposed. Even the slightest emotional waves wouldn't go undetected by that spirit sense.

If someone else had the stools, he would've been exposed.

No matter if people had the stools or not, they would seem more or less excited. The person behind all this would determine the degree of excitement and compare it to their attitude towards the stool.

After a while, the great eternity immortal smiled "Many people don't know what this stone stool is, let me introduce now. It has another named called chaos five elements, it's a water element stone stool. Whether you have small world or truth spirit world, with the chaos five elements, your world would improve a level or even grade..."

Hearing this, the place went into rupture, who didn't want this.

With this, Ye Mo also showed excitement. At this moment, that subtle spirit sense scanned him again.

Moments later, the spirit sense disappeared. Ye Mo knew he was out of danger for now, that spirit sense wanted to find who really had the stone stool, he definitely wouldn't stop there.

"I believe many people know more about the chaos five elements than me. I can only say this much, however, this five element stool is incomplete. There is only a water element. Although this would greatly depreciate its value but if you have the power to store it, then perhaps one day you might find a second one."

The great eternity immortal then smiled "Because the five elements are incomplete this stone stool isn't very price, the bottom price is 1.5 billion and a middle grade immortal range, each increment must be no lower than 100 million immortal crystals..."

Not everyone like Ye Mo knew this was a bait. Although no one could afford this price on the immortal ship, people here immediately bidded. 16 immortal crystals plus a middle grade immortal range.

Ye Mo calmed his face. He knew he didn't need to keep acting. If he was still excited at such a high price, it meant he was interested in this.

As soon as Ye Mo calmed his face, that subtle spirit sense scanned him again.

Ye Mo breathed easy, this guy was definitely a psychologist.

He was lucky to have guessed the mentality of this person and had the Three Birth Chant to protect him, thus he wouldn't be suspected.

There was too many wealthy people in Qing Wei heaven. The price was soon raised to 2 billion and two middle grade immortal range.

These people weren't dumb they just didn't know the stone stool had been to many auctions.

When the price of 2 billion and one extreme grade immortal range, Ye Mo knew the owner of the stone stool intervened.
