

Strongest As 1781

Chapter 1781: Fight over truth abyssal mud

Regardless, no one dared to bid when this price came out. Many spirit sense scanned over at the room that made the bid. Ye Mo didn't scan his spirit sense this time. He knew regardless, he wouldn't be suspected anymore. If he scanned his spirit sense over again, he might get checked again.

Ye Mo sighed, he felt very uncomfortable that he couldn't show any emotions when he saw the stone stools.

He suddenly thought of the Tian Ze master who gave him his first stone stool. Ye Mo didn't think he got it on a whim. Tian Ze definitely gave it to him intentionally.

That Tian Ze wasn't ordinary for sure. He saw that old man on Luo Yue continent too. Ye Mo suspected that Tian Ze knew he had the chaos world and that's why he gave it to him.

This was because of his last words, now that he thought about it, it was very suspicious. Tian Ze said "other than chaos world, there's a fate and I can't tell..."

This meant that Tian Ze knew he had chaos world.

But Ye Mo didn't understand at all, who wouldn't be interested in chaos world and the five element stools. He didn't know Tian Ze master at all, why did he help him.

Ye Mo didn't feel too comfortable about this, he didn't like to leave his fate to other people, not even Tian Ze master.

Ye Mo shook his head and cast these thoughts aside he had decided to leave immediately after getting the truth abyssal mud and bring his power to immortal king.

...

"Congratulations friend on getting the five element stool, next, we're going to sell truth abyssal mud, this is a top grade truth abyssal mud..."

Ye Mo was overjoyed, he thought he had to wait another three days to get it but it came this quickly. He was planning to give up waiting after three days as it wouldn't be much use to him by then.

The great eternity immortal raised up a longan sized truth abyssal mud and said "everyone please look, there is no impurities in this truth abyssal mud. It's top grade of top grade. I don't need to introduce the use of truth abyssal mud I believe everyone here knows. The starting bid for this truth abyssal mud is 200 million top grade immortal crystals, each increment must be no less than 10 million..."

This truth abyssal mud was much smaller than the one Ye Mo got last time but it was so much higher level too.

"250 million." someone immediately bid.

Ye Mo definitely wasn't the only one who wanted this, he had nearly 6 billion immortal crystals so he wasn't worried. At most, this truth abyssal mud would be worth 500 million immortal crystals, he would be able to afford it.

"300 million."

"350 million..."

What Ye Mo didn't expect was that the price soared and soon passed 500 million.

Ye Mo didn't bid, his heart sunk. Did all these people want to use it to cheat? He had Three Birth Chant and level five immortal formation great master and immortal forgery grand master skills to dare to think about it, what right did others have to think that way?

If it wasn't so, why did so many people want it?

"650 million." Ye Mo bidded.

As soon as he made this bid, it was beaten by 700 million.

When the price rose to 800 million, Ye Mo took a cold breath. He was certain these people wanted to use it to cheat too. He had the time formation disk to cheat, even if others wanted to cheat, what could they do in these few days?

But when the price rose to 800 million, no one else bidded.

"820 million." Ye Mo said.

This was far beyond the value of this truth abyssal mud. Many people remembered Ye Mo buying the octagonal cauldron so many spirit sense scanned over again.

No matter what, Ye Mo had to get this truth abyssal mud. This was his only chance. Even if people would be following him he couldn't care. He would have no other way to get into the small heaven domain.

"900 million."

The people in the auction were completely bewildered with this price. 820 million was already far beyond the value of the truth abyssal mud and now someone bidded 900 million.

Ye Mo frowned, he remembered this voice, it was the guy who added price when he wanted to buy octagonal cauldron. Now that it was this guy bidding again, Ye Mo was very annoyed.

"910 million." Ye Mo added without hesitation, he couldn't give up on this.

"1 billion." The voice seemed equally furious as though annoyed that Ye Mo bought the octagonal cauldron the first time.

"1.01 billion." Ye Mo said.

The atmosphere became strange in the auction hall. Many people knew by now that the bid wasn't for the truth abyssal mud.

This was beyond 1 billion and they were still fighting over it. they were doing this for their face.

Ye Mo didn't know if the other bidder really wanted to beat him but he knew he didn't feel that way.

A powerful spirit sense scanned over as though warning him. Ye Mo didn't seem to know this and added another 10 million to the 1.1 billion.

"1.2 billion." The voice sneered as though extremely annoyed.

"1.5 billion." Ye Mo couldn't be bothered bidding bit by bit.

Ye Mo had plenty of immortal crystals, since this guy wanted to use bids to compete he would do it.

With this price, the auction scene fell silent. This truth abyssal mud was worth 500 million at most but now it was three times the price.

The voice sneered but didn't bid anymore as though knowing that this idiot would keep bidding.

Moments later, the truth abyssal mud was sent to Ye Mo's room. Ye Mo paid 1.5 billion immortal crystals without hesitation and put the truth abyssal mud in his storage ring. He was very excited.

He had the material now, he just need to leave without being followed.

But Ye Mo didn't leave after buying the truth abyssal mud, he was still very interested in the latter items.

Ye Mo didn't leave because he also felt a subtle spirit sense scanning him. Ye Mo knew this was to watch him, it was the spirit sense from the room fighting over the truth abyssal mud with him.

Ye Mo was extremely desperate inside, time was very important to him but he had to stay here calmly.

Half a day later, Ye Mo seemed very calm and didn't seem to want to leave at all.

That spirit sense seemed to feel Ye Mo wasn't going to leave for now and took his spirit sense back. After all, the auction was going to run for five days, it was quite tiring to watch Ye Mo without him noticing for five days.

Ye Mo cultivated the Three Birth Chant, he could feel the spirit sense constantly. The Three Birth Chant was derived from everything in the universe, it had a very clear sense of everything in the surrounding. Spirit sense was a part of everything, thus, Ye Mo could feel the subtlest spirit sense.

When the spirit sense was gone, Ye Mo immediately went on the teleportation formation without hesitation. After a faint immortal spirit chi wave, he was gone from the room.

Chapter 1782: You need to be capable to cheat

The auction was still going on, a handsome great eternity immortal in A 71 room suddenly got up "Martial uncle, should I send someone to wait outside in case that person suddenly leaves."

The square faced man sneered "Want to leave from my spirit sense, hmph. But you're right, I can't watch him constantly, send..."

Suddenly, the square faced man's face changed, he got up and cursed "Such a cunning bastard..."

"What happened?" The handsome great eternity immortal suddenly had a bad feeling.

“This person just left, send people after him immediately.” The martial uncle’s face looked very bad, he just slapped himself in the face.

The handsome great eternity immortal immediately got up and said to two middle aged man “Come out with me now, I’m going to catch that guy even if he runs to the ends of the heavens.”

...

When Ye Mo was teleported to the square, he left immediately. Just instantly, he changed his face and all his clothes.

A few seconds later, he had disappeared amidst the crowd and left the city. Five minutes later, Ye Mo released space time boat.

Four hours later, Ye Mo stopped in a dense forest. This was very far from Hong Yu immortal city. Ye Mo believed that even immortal emperor wouldn’t be able to find him if he didn’t know when he left. His time was limited, he didn’t need to keep flying.

Just in case, Ye Mo used his location as the centre and released the space time boat to fly in four directions each for five minutes and left extremely subtle stealth surveillance formations there.

These formations were marked on ordinary stones by him or on some leaves. Ye Mo believed that even if immortal emperor scanned with spirit sense, he wouldn’t notice the formations unless he specifically looked for them.

If he saw that he was being followed on the formation disks, he would rather not come out of the golden page world. Even if Mi Yun thought he stole the jade card, he wouldn’t care. Compared to his life, everything else didn’t matter.

After he had done these, Ye Mo went back to where he was before. he found a big tree and went into the bottom of the tree. Then he set up an extremely stealthed formation and went inside the golden page world.

Ye Mo set up the time formation disk and then took out that truth abyssal mud. He didn't even need this much but he couldn't go negotiate with people saying he only needed a little.

This mud was indeed top grade, very good top grade. It was so many times better than the big piece he got before.

He then took out the jade card Mi Yun gave him. he studied the teleportation formation inside the card, Ye Mo believed that if he had half a year to study this jade card, he would be able to become level six immortal formation great master and forge one exactly like this.

He had half a year's time as he had the time formation disk. To him, there was still two or three years before he went into the small heaven domain.

Even if he could forge the exact same jade card, Ye Mo wouldn't be really dumb enough to do that. He was going to use this sliver of mud to mark some runes on the teleportation formation. Ye Mo believed that if he fused the formation chi into it, one could have to take a good look at the jade card to be able to see it. he didn't believe the immortal emperors would check carefully the jade card they gave out.

...

Inside the time formation disk, half a year passed quickly. Ye Mo had been studying the teleportation formation in the jade card. He rarely used so much time to study an ordinary teleportation formation disk. But this involved the small heaven domain so he had to be careful.

Half a year later, Ye Mo not only derived every step of drawing the formation but also found a spirit sense mark inside the teleportation formation disk.

He was very sensitive to these spirit sense marks due to the middle aged man hiding it in the star core flame.

This meant that even if you could forge the exact same jade card, it wouldn't be real without the mark.

Ye Mo didn't touch this mark, he started to repair the teleportation formation inside and added a sliver of truth abyssal mud formation rune into it.

This was very simple to Ye Mo, he could be done within half a month but the hardest part was cleansing the chi of the truth abyssal mud and fusing it into the jade card completely.

Even though Ye Mo was an immortal forgery grand master and near immortal formation grand master, he needed to use Three Birth Chant to derive this and slowly make it. this would at least take a year or so to not touch the mark.

...

The auction at Hong Yu immortal city was very exciting, there was not only low grade god artefact in these five days but also all sorts of top grade things. The five element stool was sold for one extreme grade immortal range and billions of immortal crystals.

Seeing that the auction was about to end, in a subtle room a purple robed man frowned. Those who scanned with spirit sense would know this person was the final buyer of the stone stool.

He carefully thought about the specifics of before, quite a lot of people came to this auction and he investigated every one of them. According to his experience, these people probably didn't have stone stool. Their reactions were what he expected.

Some people were watching him with spirit sense but he didn't care. He was even waiting to see who would hunt him after he left the city.

By his side was a man who stood like a servant to him.

The purple robed man thought for a long while before asking "Ji Liang, do you have anything to add?"

The man bowed "master, the great eternity immortal tertiary stage in D453 is slightly suspicious."

“Oh, how so?” the purple robed man asked. He checked that coarse looking man in D453 room, he seemed very normal. But he knew his servant was also very meticulous, he had been with him for a few hundred thousand years and would sometimes notice things he didn’t notice.

Ji Liang answered “He bought a broken extreme grade immortal artefact octagonal cauldron, A71 room competed with him but it wasn’t intense. Later on the truth abyssal mud appeared and the two fought over it heavily. Eventually D453 bought it with many times the value of the mud.”

The the purple robed man man nodded, he knew this and said “Continue.”

“Yes.” Ji Liang continued “the great eternity immortal in D453 suddenly added 300 million to buy the truth abyssal mud, it seems he’s acting in arrogance and competition but just then I felt things didn’t seem to be so.”

“Oh?” the the purple robed man showed a serious attitude.

Ji Liang continued “his seemingly actions of impulse made A71 room give up the fight. But the master of A71 is the young master of Sword Abstruse emperor sect. Someone stole what he wanted twice making him very annoyed. This young master has an immortal monarch with him, I know that immortal monarch. He has a good spirit sense cultivation method and could watch people without people noticing. So that immortal monarch was constantly watching the great eternity immortal in D453.”

The purple robed man seemed to understand and his breathing went heavy.

“Continue.”

“But D453 had no intention to leave and seemed very interested in the tings later on. But as soon as the immortal monarch’s spirit sense moved away, the great eternity immortal left immediately.”

The purple robed man calmed down and said coldly “You’re saying this person knows about us checking him with spirit sense?”

The purple robed man didn't need Ji Liang to answer anymore. Now, he felt that great eternity immortal was a little strange, the time frame of him being excited and calm seemed a little too accurate.

Chapter 1783: Ye Mo's way

"Investigate where this person is immediately." The purple robed man got up and said. He no longer had the mood to stay here.

He didn't expect he used all that effort and let the real suspect escape under his eyes.

...

Ye Mo didn't know the owner of the stone stool was also looking for him. But even if he did, he wouldn't care.

Seeing the jade card in his hands, Ye Mo was very satisfied. He used less than two years and finished this intricate task. There was still three days before the small heaven domain opened up.

After putting away the time formation disk, Ye Mo had decided to leave the golden page world but then he noticed that there was a slight shaking from one of the surveillance formations he set up before.

Ye Mo immediately resisted his urge to go out and check and instantly focused on watching.

Terrifying earth shattering scenes were shown in the surveillance formation. As earth and rubbles were flipped over, a purple robed man appeared in the surveillance formation.

There was also a middle aged man in front of him, Ye Mo couldn't tell the power of the man but he was certain it wasn't below immortal monarch.

Ye Mo couldn't hear the sound as the surveillance formation was too far away. Ye Mo didn't understand lip reading either but he could guess the middle aged man fought with the purple robed man but the middle aged man was no match for the purple robed man.

Thinking about this, Ye Mo was very shocked. An immortal monarch couldn't even beat that purple robed man and he didn't even seem to break a sweat. Was this guy an immortal emperor?

Why was an immortal emperor and immortal monarch fighting here?

Such intense battle would definitely catch the attention of other Immortal emperors, why is there still no immortal emperors coming.

Ye Mo didn't dare to watch anymore, not even through the formation disk. The immortal emperor spirit sense was too powerful, one slight mistake and he might be caught.

Taking back his spirit sense, Ye Mo hid in the golden page world and didn't dare to expand his spirit sense. he just concocted a few cauldrons of flying snow pill.

Two days later, Ye Mo carefully checked his surveillance formation disk and found that the purple robed man had left and the immortal monarch was gone.

Only then did Ye Mo carefully leave his golden page world and put away his stealth formation. At the same time, he let out space time boat and quickly flew towards Hong Yu immortal city.

When he was near the city, Ye Mo put away the space time boat and sent Mi Yun a message.

Two hours later, Mi Yun came to where Ye Mo was in a hurry. Ye Mo checked and made sure there was no one following her.

Seeing Mi Yun so desperate, it was obvious she was scared Ye Mo tricked her.

"I was so worried, you disappeared for so many days. Luckily I trusted you and didn't go ask." Mi Yun said.

Ye Mo knew this wasn't the place to stay, he didn't notice anyone here so then he took out the jade card to her "Don't say anything now, I offended someone, I have to leave immediately. I won't go to the small heaven domain, if I get caught it would be very bad for me. I'll return the jade card to you, if you get more peng yue immortal fruits, just give me on, I'll be going first."

Then, there was a space ripple and Ye Mo disappeared.

"Instant transmission?" Mi Yun repeated in a daze.

Before she could react, Ye Mo stuffed a jade card back in her hands and disappeared.

Mi Yun was too shocked, she didn't expect a mere great eternity immortal primary stage could instant transmission. Instant transmission was high level god art. How could a great eternity immortal know this.

The only pity was that the space ripple Ye Mo created was too big, it wasn't hard to find him with it. If one day Ye Mo could minimize it, it would be a very powerful god arts. How does he have so many powerful god arts.

Just when she was still in her shock, there was another space ripple. Ye Mo appeared before her and as he landed, there was even more space ripple.

Ye Mo said apologetically "I'll give you my stealth cultivation method first, when you come out I'll send a message to you."

Then, Ye Mo threw Mi Yun a jade slip and disappeared.

Mi Yun shook her head. With such space ripples, she would rather not instant transmission.

Ye Mo breathed easy, he finally used the space ripples of a few instant transmission to slip into the teleportation rune inside the truth abyssal mud.

Because very little truth abyssal mud was used, there was barely enough space for a person to sleep but this was enough for Ye Mo. As soon as he came in, he used the Three Birth Chant to steal all his chi.

He was originally planning to tell her he was going in the jade card but he was afraid she would expose him. In front of an immortal emperor, a great eternity immortal didn't have much privacy at all.

Seeing the jade slip Ye Mo gave her, it was indeed much better than what she had before. She joyfully took the jade card and slip before rushing back to Hong Yu immortal city.

...

On the biggest square in Hong Yue immortal city, the place was filled. Today was the day to enter the small heaven domain.

Although there was only 1100 people, who didn't want to see what the small heaven domain looked like, who didn't know what to know what treasures laid inside.

As though knowing there would be a lot of people today, Wei Feng immortal emperor appeared on the stage very early. There was a teleportation formation on the stage and a huge surveillance formation screen.

As Wei Feng immortal emperor came out, the other immortal emperors all came. This time, 12 immortal emperors came.

Wei Feng stood high on the stage and saluted with his fists "Thank you friends from the heaven domains for coming to Qing Wei heaven's event. Once the small heaven domain opens, there will be large amounts of top grade materials that haven't been seen for thousands of years. Because the spot to enter is limited, we have decided to have an auction here at this square three days later when the prodigies come out. The auction items will be what they got in the small heaven domain.."

Immediately, the square's excitement soared. Immortals with large sums of immortal crystals were very excited. Some even decided to join up to buy top grade materials.

Wei Feng immortal emperor nodded happily to their reaction and continued “Now, may the 1100 elites of the heaven domains please come up...”

With this, 1100 great eternity immortals with jade cards entered the stage. Nonetheless, the huge square still seemed empty.

Li Kun scanned with her spirit sense but soon was disappointed. She didn’t see her brother Ye Mo, her brother didn’t get the jade card. He probably left the city.

“Now may Dragon River grand emperor explain the rules of the small heaven domain and inform us which people can’t go in the small heaven domain.” Wei Feng immortal emperor said and stood on the side.

As one of the four grand emperors, Dragon River grand emperor seemed very ordinary looking. He walked up with a smile seeming very amicable but everyone knew he was one of the four grand emperors, he could easily pulverize tens of immortal city, even a heaven domain couldn’t stand his havoc.

“It’s not easy to enter the small heaven domain, it requires ten immortal emperors to open a portal to the void at the same time. Only then can people barely go in, so spots are limited. For fairness, those with pocket dimensional worlds please stand out or your jade card will be confiscated.”

Chapter 1784: Enter small heaven domain

Dragon River grand emperor scanned the 1100 great eternity immortals and said plainly “Please those who brought pocket dimension worlds hand out your pocket dimension and walk under the god artefact heart door...”

Before Dragon River grand emperor finished, 8 great eternity immortal went off the stage and gave their small world to people.

No one didn’t know about the heart door in the grand heaven domain. It was a low grade god artefact. It was just a door but anyone standing below it who lied would be detected. Perhaps only someone liky Ye Mo who cultivated the Three Birth Chant could go try.

Because of this, those who tried to cheat handed out their pocket dimensions. Otherwise, they would be detected by the heart door. Dragon River grand emperor already gave you a way down, only an idiot wouldn't take it.

After the people lined up again, they all passed threw the heart door. Every one standing below it would be ask "Did you bring anyone else?"

Mi Yun felt lucky that Ye Mo didn't listen to her. Otherwise, things would be bad.

Even with the heart door there, one great eternity immortal was still caught cheating. This great eternity immortal was very wronged, he didn't cheat himself, his sect forged a small world into a defensive bracelet telling him to wear it. they didn't tell him about him.

He didn't even know but the immortal emperor noticed it. it was instantly taken away and more than ten people were scanned out of it.

Eventually, this sect was kicked out of the city. They not only lost the right to go in but even lost the right to participate in the auction.

Mi Yun carefully stood at the heart door and when she was asked she replied without hesitation "No."

The heart door showed no signs of lie, then she was scanned by a female immortal monarch. No problem was found and she passed.

Ye Mo didn't know he had passed, he was still stealthed in the truth abyssal mud.

When everyone had passed the heart door, Wei Feng immortal emperor got up and said "The teleportation formation will open now, everyone will be teleported to a set location. Then, ten of us immortal emperors will tear open the dimension to the small heaven domain and send everyone in. As for the guests at the square, you can watch the process with surveillance formation."

The great eternity immortals got on the teleportation formation and piles of immortal crystals were lit up. Five minutes later, a white barrier surrounded them all.

...

Most of the people in Hong Yu immortal city were at the square watching the small heaven domain open but there were exceptions. In a cultivation home with extremely dense immortal spirit chi, a purple robed man had a sunken face as he sat next to a huge immortal spirit chi fountain. The fountain water splashed on the jade and on the nearby immortal spirit herb and was rapidly devoured.

But the purple robed man didn't feel it was a waste at all, he still frowned.

After a long while, the purple robed man raised his head and said "Come in."

A servant dressed man came in, it was Ji Liang.

"Are there any clues?" the purple robed man asked.

Ji Liang bowed "Master, the great eternity immortal wasn't found. This person probably had a masquerade on, he might be out of the city."

The purple robed man nodded.

"He spent many times the price of truth abyssal mud to buy it meaning he has a big origin. Which ordinary person would have this many immortal crystals to buy truth abyssal mud..."

Before Ji Liang finished, the purple robed man's face suddenly changed, he palmed down and the fake mountains and rocks were immediately pulverized. Even the water in the fountain splashed out.

Ji Liang stood there calmly.

"I was wrong, I was wrong from the beginning." The purple robed man frowned.

"Master?" Ji Liang asked.

The purple robed man waved his hand "We shouldn't even be investigating that great eternity immortal, we should be investigating the truth abyssal mud."

Ji Liang was extremely smart and dazed for a moment and realised. They were too smart and instead made such low level mistake.

Anyone who spent this much to buy the truth abyssal mud would have a major purpose, they wouldn't be spending immortal crystals for no reason.

"I know, this person must be thinking of using the truth abyssal mud to forge a small space and let someone bring him into the small heaven domain..." Ji Liang suddenly said.

He felt his guess was very right, only the enticement of the small heaven domain would make a great eternity immortal spend that much to buy truth abyssal mud.

"Master, this person definitely appeared, Ji Liang is certain he isn't going to get in. There's the heart door this time, no one can evade it. if we go to Hong Yu square now we can find this person." Ji Liang said with certainty.

"Let's go." The purple robed man said and swept up Ji Liang disappearing.

When the purple robed man arrived, the teleportation formation already activated. A thousand people disappeared in the white light.

At this moment, the surveillance formation screen showed a huge asteroid platform. The asteroid platform was clearly stabilized there. Before the platform was a faint grey mist.

Some people guessed already that what was surrounded by the mist was the small heaven domain.

The purple robed man wasn't worried. He just landed on the stage and asked where the people who cheated were.

The immortal emperor who stayed on the stage clearly knew who this purple robed man was and quickly gave him a list of those who cheated.

...

At the asteroid platform, chaos space flow blew past. Even with formation protection, the great eternity immortals standing on the platform felt discomfort. But they had great hopes as they knew this definitely wasn't void that was in between heaven domains, this was outside.

Feng Kong immortal emperor suddenly got up and said "We're about to open the entrance to the small heaven domain. what you get in there, you get to keep 10%. If you hand up chaos item, you can keep extra 10% and receive other rewards from us."

Suddenly, Feng Kong grand emperor's voice went cold "You only have three days to stay in there, if anyone dares to use an spirit fruit or herbs inside, he will die."

The last words made everyone shiver here, no one would be able to use the spirit herb within three days and not be caught.

"Now I will be handing out flying snow pill." Wei Feng grand emperor took out jade bottles and gave everyone a bottle.

Then Wei Feng immortal emperor continued "Each flying snow pill will protect your spirit root for 24 hours. Three pills will last three days, crush the jade card and come out in three days or pay the consequences yourself."

Then, the ten immortal emperors flew into the void together and held their own formation flags.

When the formations formed, ten immortal emperor rushed their immortal essence and waves of terrifying chi came. It split the mist apart and an obscure space appeared before them.

As the immortal emperors released more and more terrifying power, the void finally opened up until it was 10 meters wide.

“Everyone go in immediately we can’t last very long. Three days later crush the jade card to come back.”

Dragon River grand emperor roared and the 1000 or so great eternity immortals flew into the void fissure. Everyone flew in as fast as possible, the first person in would get the most things.

Chapter 1785: Shadowless mutation

Rumble, before those great eternity immortal have completely gone into the small heaven domain, the tear rapidly decreased as though about to close at anytime.

Flashes of lightning fell from the void, a few great eternity immortal who fell behind were blasted to dust without any resistance.

“Abandon the formation, this is heaven restriction lightning. We forcefully opened the stealth heaven domain of another realm causing top grade resources to be revealed. This start heaven restriction lightning. If we continue, there will be more people killed by lightning.” One immortal emperor yelled.

The other immortal emperors knew this too. They took back their immortal essence and the tear closed up.

With this, heaven path couldn’t sense the resources again and the lightning disappeared.

...

The a thousand great eternity immortals sunk into the endless mist, their spirit sense couldn't spread out, nor did they have any sense of direction. This was far from their expectation. They should they should be landing on a new continent filled with immortal wells and immortal spirit herbs.

But they've been in the mist for 15 minutes and were still rolling inside. There was also frequent void chaos flow, some of which were very powerful and one could be swept away.

When they sensed the decline in their spirit root, these great eternity immortals immediately ate a flying snow pill.

Even so, no one was willing to crush the jade slip to go out.

Ye Mo didn't know if he was in the small heaven domain so he still didn't dare to let his spirit sense out.

Mi Yun didn't know Ye Mo was in her card and just rolled around in the mist like everyone else.

The void seemed endless, after four hours, she couldn't see anyone around her but she was still rolling.

Ye Mo felt it was about time they were in the void so he sent his spirit sense out carefully.

Rolling mist appeared in his spirit sense, even with spirit sense blades, he couldn't send his spirit sense further.

Ye Mo knew he wasn't in the watch of immortal emperor and used instant transmission immediately.

Mi Yun frowned, she felt there was some space ripples around her but when she checked with her spirit sense there was nothing.

...

Ye Mo breathed easy, he finally went in the small heaven domain. he changed his look and became a beardless middle aged man.

In this mist, Ye Mo felt his immortal essence slow, he knew this was spirit root dissipating so he immediately ate a flying snow pill.

Void chaos flows struck him but Ye Mo didn't seem to feel it at all.

These chaos flows might be able to sweep away ordinary great eternity immortal but it would at most leave a few red marks on his body.

When he stopped, he released spirit sense blades. Other people wouldn't be able to extend their spirit sense for more than 100 meters but his spirit sense broke out to more than one km.

Soon, Ye Mo decided the direction he was going in and sped up. In just two hours, Ye Mo was completely free from the mist void and saw the atmosphere.

At the same time, he saw a few other great eternity immortal also appeared in the atmosphere. He wanted to cross the atmosphere and land on the ground as quickly as possible just like the rest of them.

At the same time, Ye Mo felt slivers of invisible chi invade his body that had the effect of corroding spirit root and immortal essence but that chi was immediately melted by the effect of the flying snow pill. They were probably the spirit corroding demonic chi.

Ye Mo saw that he was the first to be here but suddenly a figure appeared not far ahead.

Ye Mo recognized this guy immediately, it was Yan Jiutian.

Yan Jiutian looked at Ye Mo in surprise. It was unknown if he recognized Ye Mo but he didn't look for trouble and just disappeared.

There were too many good things here, no one would waste time here. Ye Mo chose an opposite direction to Yan Jiutian and left.

He wasn't afraid of Yan Jiutian but it was smarter to use the time here to find cultivation resource.

In just five minutes, Ye Mo found a patch for level seven immortal spirit herb, they were very high quality and aged.

Ye Mo just took the entire place and threw it into the golden page world.

The deeper Ye Mo went the more he was amazed, this trip was too worth. This was just as he imagined, level five to level seven immortal spirit herb in piles and even level eight immortal spirit herb. However, Ye Mo hadn't seen any level nine immortal spirit herb nor any chaos spirit item yet.

Half a day later, the immortal spirit herb garden in the golden page world was a few km radius. There weren't a lot of top grade immortal spirit herb but there were plenty of ordinary immortal spirit herbs.

What shocked Ye Mo was that there was no dangers here other than the demonic chi, there weren't immortal spirit beast.

There were waves of space ripples from the distance, Ye Mo knew this was the other great eternity immortals crossing passed the atmosphere.

This small heaven domain was vast and there weren't many people here so no one fought over cultivation resources.

Just when Ye Mo wanted to go deeper and find more things, he felt there was changes in his golden page world. Ye Mo looked in and found that a little less than half of what he threw in just then was ruined.

A huge horse like beast was ravaging the immortal spirit herb garden. Ye Mo was shocked, this horse was completely black but had a pair of golden wings. However it's head looked more that of a dragon. It was happily devouring and expanding his wings.

Ye Mo was furious, he didn't know when such strange immortal spirit beast appeared in his golden page world. luckily he noticed this early, if it was later, his bitter bamboo, chaos tree would all be eaten by this bastard.

Ye Mo went straight inside the golden page world and punched.

Rumble.

In his own chaos world, this punch was more than ten times stronger than outside. As soon as this punch came out, endless lethal force gathered and formed a lethal force whirlpool.

"Brother Ye don't attack, I'm shadowless..."

What shocked Ye Mo more was that this horse actually spoke but luckily Ye Mo heard it and stopped his attack. He looked below the bitter bamboo.

The big ball like shadowless was gone, Ye Mo realised, this shadowless went from a pea sized thing to a huge mutated dragon horse with wings.

"What is this?" Ye Mo looked at the ravaged immortal spirit herb garden and almost raised his fist.

"Brother Ye..."

"Stop, that sounds disgusting."

Ye Mo reproached ruthlessly. However, he was very bewildered why shadowless changed into this state.

Didn't those pretty martial sister call you brother Ye? Shadowless's eyes were very innocent but thought, why could pretty girls call him brother Ye but he couldn't?

“Boss, I mutated after devouring the emperor dao crystal so I became like this. If I wasn’t under the bitter bamboo and this was the chaos world, I would’ve turned to dust.” Shadowless said pitifully.

“Mutated?” Ye Mo frowned. He knew that the top god beasts would mutate.

“What level are you now?” Ye Mo asked. According to Zhen Bingyu, shadowless’s second state was called heaven tao.

Shadowless said carefully “I’m heaven tao tertiary stage stage now. The emperor dao crystal is too powerful, I need immortal spirit herb to stabilize my power after the mutation. I didn’t dare to touch other things but I saw you bring in some immortal spirit herb so I ate some none important herbs...”

Chapter 1786: The use of shadowless

Seeing more than 70% of the level seven immortal spirit herb being devoured by shadowless and the level four and level five ones were left untouched yet shadowless said he ate none important immortal spirit herbs, Ye Mo was furious. He kicked shadowless out of the immortal spirit herb without hesitation.

“These are the very not important immortal spirit herb you said? So this means those level four immortal spirit herb are very important to me?”

Hearing Ye Mo’s tone was wrong, shadowless quickly ran up “Boss, I can help you find more immortal spirit herb. Isn’t there a chaos star realm, if you take me there I can definitely find more.”

Ye Mo thought, he was planning to throw shadowless out to find spirit items but his face was still stern “I have a few things you can’t touch in here you know that right?”

“Of course I know, that bamboo, where I sleep. That small sapling, there must be a reason why boss protects it. Hehe, I didn’t even touch the yellow middle plum how can I not know?” shadowless said sycophantically.

Ye Mo saw that was indeed the case and had less anger, he stared at shadowless "You can touch it but I'm going to tell you, if I see one missing leaf from bitter bamboo or you go near 3km of that sapling, I will skin you and roast you."

"If a leaf falls of itself, you can't blame me...." Shadowless said in a shiver.

Ye Mo's face went cold "No matter what reason, if the bitter bamboo or the sapling is damaged, it's your fault. Even if one leaf falls off itself, I will roast you."

Shadowless's huge body shivered and subconsciously moved away from Ye Mo. He suddenly felt this golden page world was dangerous, if he accidentally wandered near 3km of the sapling, he would be roasted and eaten. His boss seemed a bit unreasonable.

Seeing shadowless was scared, Ye Mo didn't keep threatening him and asked casually "You're from the dragon race right?"

"Yes I'm originally from dragon race but not really now. my bloodline mutated, I'm a mutated god beast." Shadowless said with pride.

"Mutated god beast should be quite strong right?" Ye Mo asked plainly.

Shadowless said with even more pride "Not just strong, in the heavens and earth, the endless universe..."

Ye Mo interrupted shadowless's gloating and said coldly "You're this strong and but you only evolved one state after eating my emperor dao crystal. If it was some other god beast, he wouldn't just be evolving one state right."

"This..." shadowless was lost for words and said after a while "Boss, I'm actually evolving pretty fast. It's just a mere emperor dao crystal, it's really nothing. If I get tens more, I think it's not impossible for me to evolve one more state..."

Ye Mo almost wanted to kick this bastard. Did he think emperor dao crystals were just laying around on the ground.

“How long would it take you to reach immortal tao?” Ye Mo was very disappointed that the emperor dao crystal only let shadowless progress a small step.

“About 30... no, ten, or maybe 8 of those crystals.” Shadowless quickly changed seeing Ye Mo’s face getting bleak.

“Then you can stay at heaven tao your entire life.” Ye Mo waved his hand and threw shadowless out of the golden page world while coming out himself too.

He got such a big immortal spirit herb garden, if he reached immortal king, he would be good just concocting some pills and he wouldn’t need to go around looking for resources. But now, shadowless took out more than 80% of the valuable things.

After coming out of the golden page world, Ye Mo saw that shadowless was like a dumb bird gazing around. He said after a long while “There’s so much chaos demonic chi here?”

“This is spirit crippling demonic chi, see if it would cripple your spirit root, if it does, I’ll give you a pill.” Ye Mo said.

“Cripple my spirit root? This is huge nutrition for me.” shadowless shook and all the demonic chi nearby were devoured by him. He then opened his mouth and demonic chi of a tens of km radius were sucked in.

Ye Mo immediately felt the spirit crippling chi weaken. He didn’t even need the flying snow pill now, the use of the Three Birth Chant turned them into immortal essence.

“This is something good.” Ye Mo murmured and continued to refine these demonic chi.

Half a day later, Ye Mo felt his power increase many times before remembering his main purpose here. He slapped shadowless and said "Hurry up and go find good things, we can devour these demonic chi later."

"Yes, yes." Shadowless woke up and disappeared from Ye Mo's sight in a golden ray.

This fast? Ye Mo was shocked at shadowless's speed and quickly chased over. Shadowless was no spirit seeking beast but this guy had a big appetite, he loved eating good immortal spirit herb and items.

Another half a day later, Ye Mo felt a little embarrassed. Shadowless found him much more high level immortal spirit herb, this included a hundred or so level eight frost wheat.

Ye Mo knew other people could only stay here for three days but he didn't. Even if they had more flying snow pill they wouldn't dare to stay as their names were recorded.

When the second day was about to end, shadowless suddenly stopped at a damp mountain range.

Ye Mo looked at this place in confusion, there was no immortal spirit herb and the immortal spirit chi was rather little compared to other places.

Just when he wanted to ask shadowless, shadowless opened its mouth spewing out tens of sword chi. The nearby space made a cracking sound.

In just ten seconds, this damp mountain range was filled with dense immortal spirit chi.

"Natural spirit hiding formation..." Ye Mo called out in joy. soon, he realised there was a top grade immortal range below but was hidden by the formation. He didn't check it carefully so he couldn't tell but shadowless had the natural instinct to sense it here.

"It seems you have some use." Ye Mo nodded and applauded shadowless.

Hearing this, shadowless was very satisfied and clawed the earth a few times. Earth of one km blocks were rolled up and moments later, a white top grade immortal range appeared before Ye Mo.

If Ye Mo was to take it, he would have to go underground and then set up formation to take it. But shadowless was more powerful he just flipped it out.

“Immortal range?” a voice said in shock and a figure landed before Ye Mo.

Ye Mo had seen this person, he was a great eternity immortal peak stage. Ye Mo hid his power to great eternity immortal tertiary stage.

“The witness has a share, we can split this immortal range in half.” The great eternity immortal saluted with his fists.

There were lots of immortal spirit herb but compared to immortal range, those immortal spirit herb were nothing.

Before Ye Mo spoke, shadowless said “Boss should I eat him?”

“You can eat him?” Ye Mo’s knowledge of shadowless stayed at what he was before.

“Hehe, look.” Shadowless opened its mouth.

The great eternity immortal dazed hearing what shadowless said. He had seen immortal spirit beasts but they were all sect guarding immortal spirit beast.

Everything around here was controlled by shadowless’s mouth and swooped in.

The git felt a powerful suction force and quickly released a blue light.

Rumble. The blue light smashed with shadowless’s huge head shaking the nearby space.

The great eternity immortal's face changed immediately, he blocked the attack but he felt shadowless was stronger than him. He didn't dare to ask for the immortal range and turned to run.

Shadowless felt he lost his face. He just said to Ye Mo he could eat this person but now his opponent got away. he chased over in a blur immediately.

Ye Mo forgot to take the immortal range. He really didn't expect shadowless was this ferocious after evolving. Even a great eternity immortal peak stage was no match for him, wouldn't that mean he would have an equally powerful assistant?

Thinking about this, Ye Mo rejoiced and threw out formation flags moving the immortal range.

Chapter 1787: Sly shadowless

This immortal range wasn't small but it wasn't a very big one either. Ye Mo easily pulled it into the golden page world.

This was his first top grade immortal range. It was much better to cultivate on the immortal range than using immortal crystals.

Just when he put the immortal range away, he heard shadowless's roaring. Ye Mo's spirit sense scanned over and saw shadowless was surrounded by 6 great eternity immortals.

Seeing this, Ye Mo was furious and instantly landed before them.

What confused Ye Mo was that the great eternity immortal from before wasn't dead, he looked a little shabby.

Seeing Ye Mo come over, those great eternity immortals stopped attacking. Shadowless came back to Ye Mo with a disappointed face.

“This immortal friend, this immortal spirit beast is your immortal pet right. He chased my friend so we stopped him. Now that everyone is fine, I suggest to leave things at this.” One half way immortal king saluted with his fists.

Seeing this person being polite, Ye Mo nodded. He didn’t care. They only said this because they saw shadowless’s power. He didn’t need to fight with other people since there were treasures everywhere here.

“You dare to rob my boss’s immortal range, next time I see you, I will eat you.” Shadowless threatened with annoyance.

These few people dazed, their friend greeded over someone else’s immortal range, no wonder they chased up.

Immortal range was precious but compared to this small heaven domain it was nothing. After all there were too many good things here, instead of fighting over it they might as well get something else. Their time was limited.

At this moment, a flare shot into the sky. These few great eternity immortal saw it and left without hesitation. Ye Mo could tell that this flare wasn’t ordinary, it was like a one time use middle grade immortal artefact.

“Let’s go over and see.” Ye Mo said immediately and sat on shadowless.

Shadowless moved and instantly shook away those great eternity immortals. Those few great eternity immortals saw shadowless’s speed and were shocked. This beast was not only strong but also very fast.

Five minutes later, Ye Mo arrived at the flare. There were nearly a hundred people gathered here, Li Kun and Mi Yun were amongst them.

There was a huge mountain ahead surrounded with mist.

“Boss, this is a natural formation.” Shadowless said immediately.

Ye Mo could tell this mist was a huge top level natural defense formation. At least Ye Mo couldn't break it.

Seeing Ye Mo riding a strange black horse with wings over, people already gave him strange looks. Now that this horse spoke, they felt even more bewildered. Usually, only big sects or powerful beings could own immortal spirit beast that could speak.

Some people eyes showed greed, many people saw shadowless' speed.

"Immortal friend, do you sell this pet? I can pay any amount of immortal crystals. I'm from Dong Ming emperor sect. you know, our Li Long immortal emperor master would be very interested in such pet. I suggest you sell it otherwise..." The great eternity immortal tertiary stage walked up to Ye Mo and saluted with his fists.

Dong Ming emperor sect was very powerful, it had three immortal emperor.

"Piss off, say one more word and I'll eat you alive." Ye Mo didn't even say anything but shadowless roared. How dare this guy seduce his boss to sell him. With how he didn't perform very well before, he was really scared Ye Mo would sell him.

Unless he was dumb, why would he leave the chaos world and bitter bamboo. Plus, he already had a master, he couldn't leave. If he was sold, he might be roasted and eaten.

"An animal dares to insult me." The great eternity immortal's face sunk and grabbed at shadowless.

How could shadowless tolerate this, he opened his mouth. This great eternity immortal was weaker than the one who fought him before.

When the great eternity immortal felt the powerful suction force and how he couldn't control the nearby space anymore, he was very shocked. He knew he underestimated this animal.

Shadowless was desperate to show himself in front of Ye Mo so he tried his best.

Seeing that this great eternity immortal was about to be devoured, two other people on the side charged up wanting to save him.

Ye Mo sneered, and palmed out. If one person fought shadowless and shadowless lost, then shadowless was useless. But if they gained up on shadowless, they were acting as though he didn't exist.

Ye Mo's spirit sense and immortal essence was far beyond ordinary great eternity immortal peak stage. If he could control domain, he would be on par with ordinary immortal king.

The space in the small heaven domain wasn't as stable, as Ye Mo struck out with his palm, nearby space rattled and shook. The two great eternity immortals quickly released their magic artefact to stop the two palms from Ye Mo.

Thud thud.

The two great eternity immortal were smashed away a few km before falling down.

Crack, the great eternity immortal who asked to buy shadowless was gone. One could still hear the crushing sounds in shadowless's mouth.

The great eternity immortal who wanted to rob Ye Mo's immortal range saw this and was very scared. He subconsciously walked around Ye Mo and shadowless to the other side.

Those few great eternity immortals who were with him rejoiced that they didn't fight Ye Mo. This white faced young great eternity immortal was too terrifying.

The near a hundred people here took in a cold breath. In less than a few seconds, this great eternity immortal and the beast ate a great eternity immortal and struck two great eternity immortal tertiary stages flying away. some people have recognized that Ye Mo didn't come in with them.

But no one suspected a thing, after all, some people used masks here too.

Li Kun stared at Ye Mo in shock, she felt that Ye Mo's means of attack was familiar but she didn't dare to go up and ask.

A half way immortal king walked out and smiled "I'm Great Red Heaven Yuan Sha, what's your name immortal friend?"

"I'm Ning Xiaoma." Ye Mo saluted with his fists.

"Hello brother Ning, this mist mountain is a natural formation, I believe brother Ning knows. We such a spirit item with intelligence run inside so we trapped this mountain. I want to invite brother Ning to break it together, there might be ample top grade spirit items inside, we can split things."

Yuan Sha smiled and waited for Ye Mo to reply. Ye Mo and his immortal pet's power was too strong. He sent out the flare to ask for some help but instead a master like Ye Mo came. Even he was probably no match for Ye Mo.

Ye Mo knew what Yuan Sha meant, it was to tell him that they found this mountain and if they break in, the things should be shared around.

"Of course, but since we're all working together, there would be people who contribute more and less. I believe sharing equally wouldn't be too appropriate right?" Ye Mo asked.

"Of course, I think so too. This natural formation is very sturdy, we need to attack together. Brother Han, come tell us." Yuan Shua turned around and said to a young great eternity immortal tertiary stage.

The young great eternity immortal tertiary stage saluted with his fists in front of Ye Mo "Hello immortal friend Ning, I'm Han Xiaofu, I come from Qing Wei heaven heaven lord estate."

"You're Wei Feng immortal emperor's disciple?" Ye Mo asked.

"No, my master is just great friends with the grand emperor so I get to stay in Heaven lord estate." Han Xiaofu said with a genuine tone.

"I'm a level five immortal formation great master, I can't break this natural formation but I know how to attack it. If immortal friend Ning is willing, I can command the breaking of the formation." Han Xiaofu said.

Just when Ye Mo wanted to agree, shadowless sound transmissioned "Boss, there's too many things inside. We must not split with them, let's do it ourselves."

Ye Mo looked back at shadowless, this guy was quite sly.

Chapter 1788: Formation break

Just when Ye Mo wanted to ask Ye Mo how he knew, he felt something was wrong. Ye Mo subconsciously looked around and saw most people were looking at him and shadowless.

Ye Mo instantly realised and slapped shadowless's head "If you don't know how to sound transmission then don't, idiot, now everyone knows what you said."

Shadowless reached heaven tao but his heritage wasn't perfected. He studied sound transmission himself and thus was very coarse method. Most people heard what he said. This was like saying in front of everyone, I know there's lot's of good things here, boss and I won't take you guys.

Shadowless didn't feel embarrassed at all and said pitifully "Boss I just figured it out myself, I wanted to test it."

Li Kun, Mi Yun and a few female immortal couldn't hold it anymore and laughed out.

Ye Mo quickly taught shadowless a few chants and told him to study it himself.

Yuan Sha laughed and saluted with his fists "Everyone work together and brother Han command us, what do you think brother Ning?"

He felt secured, due to this beast's sound transmission, Ye Mo can't go find the treasure alone or everyone will gang up on him.

Ye Mo knew this power of this defense formation, shadowless and him together wouldn't be able to break it for a few days so they had to cooperate.

"Of course, my opinion is the same as immortal friend Yuan, everyone work together..."

Suddenly, Ye Mo got shadowless's sound transmission again "Boss, I can break the mist outside, it's good nutrition."

Ye Mo looked around and made sure shadowless really learned sound transmission this time. He breathed easy a little.

The mist around the mountain has dense spirit crippling demonic chi, tens of times than when they first entered this place. If they attacked it, it would disperse everywhere.

Now that shadowless could devour it, it meant he had an extra trump card. Thinking about this, Ye Mo said "Immortal friend Yuan, there's large amounts of spirit crippling demonic chi in the mist. If we attack it by force, it will disperse and exacerbate the spirit root crippling and lengthen the attack on the mountain. We only have one day later, one day later, we will be teleported out. I think reducing the time is very necessary.

"Yes, my suggestion to break the formation from a certain place is to prevent the demonic chi from spilling." Han Xiaofu quickly said.

"Brother Ning, do you have a good way then?" Yuan Sha asked.

Ye Mo gave a confident face "Indeed, immortal friend Yuan if I can break this mist in a short time and let everyone break the formation, how many shares would I get?"

Yuan Sha dazed and immediately asked in joy "Brother Ning, you can really break the mist?"

Yuan Sha immediately woke up and said “How many shares do you want brother Ning?”

Ye Mo knew there were a lot of people here, 87 in total, he couldn’t take too much but he must have the distribution right and get the spirit item that ran inside.

Thinking about this, Ye Mo said “I don’t want too much, I’ll take 20% of the things here but the condition is that I have the distribution rights.”

“I agree.” Yuan Sha said without hesitation, he then looked at everyone else “Immortal friends, immortal friend Ning will break the demonic mist chi alone. He will have 20% of the things and the distribution right, I have agreed, what do you think?”

“I agree too.” Han Xiaofu said.

“Agree...”

The rest of the people all agreed, even the two Ye Mo slapped away. If it was some other place, they would be unhappy that Ye Mo took 20% when there was 87 people here but their time here was limited, if they could open here quickly, they would have more time to search other places.

“Attack.” Seeing everyone agreed, Ye Mo said to shadowless.

Shadowless was waiting to perform and hearing this, he charged into the mist and sucked.

The mist that tightly surrounded the mountain rolled around. Everyone saw clearly that the dragon horse devoured the mist into its mouth. Such terrifying spirit crippling demonic chi was eaten by this immortal spirit beast.

Everyone was shocked, just what immortal spirit beast was this? This was too absurd. Some great eternity immortals were thinking, a immortal spirit beast that could ignore this demonic chi would be able to stay here however he wanted.

Yuan Sha's face changed, he didn't expect Ye Mo's immortal spirit beast was this powerful. With this ability, this immortal spirit beast would be able to get everything when they were teleported out.

In five munes, the mist completely disappeared revealing the formation behind it.

A few great eternity immortal saw the mist was gone and wanted to charge up and attack but shadowless spewed a stream of mist like a smoke pipe. Those few great eternity immortal immediately retreated in terror.

Shadowless pridefully sucked the smoke back as though warning people he could spew it at anytime.

Ye Mo was speechless, he knew that shadowless could only spew the smoke he hadn't digested yet. A day or so later, it would be all gone.

Yuan Sha said calmly to the shocked Han Xiaofu "Brother Han, come over and arrange the attack."

Yuan Sha calmed down but in his heart, he considered Ye Mo's shadowless something he must have. This immortal spirit beast was not ordinary, it might even be god beast but in here, there was nothing he could do against Ye Mo. But he had made up his mind to report this immortal spirit beast to his sect.

Han Xiaofu was also thinking about this immortal spirit beast and decided to report to his master no matter what. as for how to deal with Ning Xiaoma, it wasn't his problem.

Seeing everyone's dodgy eyes, how could Ye Mo not know what they thought.

The immortals didn't dare to get near shadowless seeing he could spew the smoke back out.

Han Xiaofu was a level five immortal formation great master and thus could still find a place to attack. It wasn't the weakest spot but with 87 people attacking at the same time, even the most stable natural immortal formation would be grinded down.

Half a day later, the immortal formation cracked and everyone became excited. They knew the immortal formation was about to be broken.

A dense immortal spirit chi came pouring into their face, a hundred meter tall ancient tree appeared before them. Hundreds of red fruit hung on the branches seeming very beautiful.

“Peng yue immortal fruit?” almost everyone called out in shock.

Before they could rejoice, a black figure dashed into the formation and stood before the Peng Yue immortal fruit and spewed out demonic chi. Then he said “Boss the formation is broken now you can distribute them. Those little guys near the formation move aside, the further away you are, the more priority boss will give you.”

Chapter 1789: Stomach ache

“Hmm, there’s some rotten fruits on the ground, it’s a waste to abandon them. I’m an animal anyways so I don’t mind.” Shadowless said and swept up more than ten peng yue immortal fruit and ate them.

The people immediately realised what shadowless meant and some of their faces looked bad. There was only a peng yue immortal fruit tree in the formation, nothing else. If shadowless just stopped them, it was fine, after all they had decided on a distribution method. Everyone would probably get one or two fruits in the end.

But were the fruits on the ground not Peng Yue immortal fruit? This guy said he didn’t mind and just ate more than ten.

No one said they didn’t want the fruit on the ground. This guy swooped them away just because he was fast, so shameless. The fruits on the ground were mature and had a little purple color, it wasn’t rotten at all.

But there were demonic chi mist before shadowless, they were controlled all by shadowless. If shadowless used it to attack someone, they would have to use the jade card to teleport out.

Yuan Sha's face was bad, if it was some other fruits it was fine but more than ten peng yue immortal fruit was eaten like snacks by this immortal spirit beast, it was too wasteful.

Ye Mo knew shadowless's greed was going to cause public outcry, he quickly went up and slapped "Take away your mist, you think everyone will pick up and eat the things on the ground? Move away."

Ye Mo took back the mist and walked off to the side proudly.

Ye Mo saluted with his fists "Immortal friends, there are 201 fruits on the tree, immortal friend Yuan and Han put in more effort, they get three each, the rest of the immortal friends get two each. What do you all think?"

Yuan Sha's face eased up hearing this and said "Immortal friend Ning put the greatest effort in and we've decided on this already so of course I'm fine."

201 fruits, if Ye Mo was to get 20%, it would be 40 but according to the way Ye Mo divided it now, he would have less than 30. If one didn't count the amount shadowless took, Ye Mo would be getting below his share.

No one mentioned what shadowless ate anymore. That guy already said he was an animal meaning that he wasn't human and he talked about eating from the ground. If anyone mentioned what shadowless ate, they would be dropping their status.

Everyone here had high status backgrounds, if they got no fruits at all, they might bring it up but now that everyone got two, who would mention it again. Even if they mentioned it, Ye Mo would could just say I got less than 20%.

Overall, everyone was happy with the outcome.

Just when Ye Mo gave three fruits to Yuan Sha, shadowless said happily "Boss, according to 20% rule you should get at least 40. Now, we're losing out."

The great eternity immortals on the side looked at shadowless with contempt but no one wanted to say anything here. They were about to get their fruits, it wasn't wise to offend this immortal spirit beast now.

Ye Mo didn't seem to hear shadowless and split out the fruits. Soon, everyone got their fruits and there was only 27 left on the tree.

"Hmm, I know, boss you should take the tree away. Although we're still be losing but it's better than nothing." Shadowless suddenly said.

Ye Mo approved of shadowless's cunning, he wanted to move the tree away and he knew that he wasn't the only one. Just when he wanted to say it, shadowless mentioned it.

With this, Yuan Sha's face changed again. He didn't ask for more fruits because he wanted this tree but now, shadowless mentioned it again.

But before he could talk, shadowless walked up to the tree and opened his mouth pulling the entire tree up. Ye Mo then casually threw it into his storage ring.

"Sigh boss you're such a good person, if it was me I would take at least 41 fruits but you only asked for 20 or so." Shadowless sighed.

Everyone cursed shadowless for being so shameless, was 27 20 or so?

Just when Yuan Sha wanted to negotiate with Ye Mo and get the tree back, the earth from which the tree was pulled away cracked.

The people immediately retreated so did Ye Mo.

A few seconds later, the formation completely collapsed and then a new mist mountain appeared. This mist mountain was blocked by the formation surrounding the tree.

“No wonder that spirit item that ran in was gone, there’s another formation here.” Someone said in joy.

Yuan Sha immediately gave up the idea of wanting to ask for the tree, he immediately saluted with his fists to Ye Mo “Brother Ning, there’s another formation ehre, it seems the real good things are inside.”

Those who remained here were very excited. One could only imagine that the things behind would be even better.

Ye Mo sneered, he had to break the first formation, even if he didn’t other people would at most need half a day to break. This second formation was clearly going to waste more time than the first. Now, there was only half a day before they had to leave. Only an idiot would make shadowless break the formation. He would rather wait till these people left and then come here with shadowless.

Shadowless seemed to know it was his time to perform and he immediately said feebly “Boss, I seemed to have eaten too much before, I have a stomach ache now, am I going to die?”

“Did something happen when you ate the spirit crippling demonic chi?”

“Yes, yes, I ate too much mist.” Shadowless said quickly.

Ye Mo slapped over “Then hurry up and spit it back out, do you want to die keeping it in your stomach.”

Shadowless cursed himself for being so stupid, compared to boss he seemed to be lacking a bit. He spewed tens of waves of demonic chi out and suddenly there was another layer of demonic chi ahead of this formation.

Ye Mo saluted with his fists to Yuan Sha apologetically “immortal friend Yuan, I’m truly sorry, my pet seems to have eaten too much. I need to take him to a place to rest. The things here are precious but it doesn’t seem to have any fortune with me.”

Then Ye Mo didn’t wait for a reply and just hoped on shadowless. Shadowless blew away instantly, without any signs of weakness.

“Too shameless.” One great eternity immortal tertiary stage said.

Everyone else’s face was very bad, everyone knew what the two was scheming.

Shadowless wasn’t scared of the demonic chi and Ning Xiaoma definitely had a way to avoid it. when they all went out, these two shameless guys would come back for sure.

To make things worse, they spewed another barrier of demonic chi before they left adding to the difficult to break the formation.

Yuan Sha looked bleakly at the direction Ye Mo disappeared and said after a moment “Our time is limited, it’s probably very hard to break this formation, immortal friends, I’ll be leaving first.”

Then he disappeared with his two partners.

Seeing this, everyone else left quickly.

...

Now, Ye Mo had moved that peng yue immortal tree into his golden page world. he felt really good about himself.

“Good work today.” Ye Mo applauded shadowless. He was very happy with shadowless saying the right things at the right time.

“Boss, I learnt all this from you but I just realised today that I’m a far cry from you.” Shadowless said sycophantically. He was wondering if he should spit back out the fruits he ate.

These fruits benefited him greatly too.

Ye Mo’s face sunk “When did I teach you such things?”

Shadowless immediately knew he said the wrong things and quickly said “Boss, I picked up some fruits before should I spit it back for you?”

“No, you can enjoy it yourself slowly.” Ye Mo said speechlessly.

Hearing this, shadowless started to digest the fruits and demonic chi.

Chapter 1790: Three days time is up

Ye Mo and shadowless only walked for half an hour and felt dense immortal spirit chi.

Before Ye Mo spoke, shadowless already dashed over. When shadowless got there, Ye Mo saw why the immortal spirit chi was so good here.

There was a top grade immortal range. It was even bigger than the one he took before. In time, this immortal range might even reach extreme grade immortal range.

“Boss, I know this guy.” Shadowless said.

The great eternity immortal taking the immortal range was Yan Jiutian, there were battle scenes around him.

Shadowless knew Yan Jiutian because the first time Ye Mo fought Yan Jiutian, shadowless ambushed him.

Yan Jiutian also saw Ye Mo and shadowless. When he saw shadowless, his eyes lit up immediately but he didn't stop at all. In just a few seconds, he took the top grade immortal range into his storage ring.

Ye Mo really wanted to charge up and rob it. Yan Jiutian already progressed faster than him. he was great eternity immortal tertiary stage and with this immortal range and the high level immortal spirit herb in here, he would essence blood able to reach immortal king quickly.

But he knew that there was no point even if he charged up. It would only expose his identity quickly. Even uncle Ji didn't keep Yan Jiutian there.

"Friend are you willing to sell this immortal spirit beast, if you do I can give the immortal range I just got to you."

What confused Ye Mo was that Yan Jiutian didn't fight with Ye Mo and instead wanted to trade.

Shadowless hated when people asked to buy him and now that Yan Jiutian said this, he immediately growled.

Ye Mo patted shadowless, he knew that if they fought Yan Jiutian would be able to recognize him immediately. There was no point fighting. He didn't want anyone to recognize him here.

"Let's go." Ye Mo patted shadowless and shadowless disappeared with him.

Yan Jiutian frowned at the direction Ye Mo left and after a long while he murmured "It carries a sliver of dragon force, is this flying horse a mutated dragon race?"

...

Three days passed quickly, on the third day, there were more and more people at the Hong Yu square.

They were all waiting for the people from small heaven domain to come out.

There were a lot of immortal kings in the immortal realm but compared to great immortals, immortal kings were a rare existence. There might not be an immortal king in one million great eternity immortals.

Despite Yi King pill only increasing chance of great eternity immortal breaking through to immortal king by 30%, it was still a priceless pill.

In reality, the pill gave a slightly higher chance since many immortals have been stuck at great eternity immortal for countless years. Their foundation was at a peak, the pill only gave them an opportunity to break through.

There were too many good things in the small heaven domain but no matter what they had to go out. If they didn't, their jade card would be ruined. Without it, they would be trapped at small heaven domain.

Thus, the great eternity immortals all crushed their jade card and teleported out.

The ten immortal emperors had long been waiting at the asteroid platform. As they came out, the things in their storage ring became naked in the eyes of these immortal emperors.

1100 went in, 958 came out.

Five minutes later, these great eternity immortals and the ten immortal emperors were teleported back to the square.

At the same time, the void asteroid platform suddenly exploded and so did the surveillance formation images.

One immortal monarch saw this and his face changed, he immediately came to Wei Feng immortal emperor and bowed "heaven lord master, the asteroid platform exploded, how does the next batch of people go in?"

Wei Feng immortal emperor heard this and sneered "There is no next batch, the small heaven domain is about to explode, why send more people in?"

"Huh..." uh subconsciously said "But what if people still haven't come out?"

"Before going in, we already said there is only three days time. If they don't come out within three days then they have to pay the consequences." Wei Feng immortal emperor finished and couldn't be

bothered talking to this immortal monarch. How could he not know why this immortal monarch asked this. Clearly he had disciples or related people that stayed behind.

Wei Feng immortal emperor stood on the stage and said loudly “This trip has been rather fulfilling. Although some prodigies died, it’s a rather low lethality rate compared to other trial grounds.”

“Now, we will announce what was found at the small heaven domain before talking about distribution...”

Before Wei Feng immortal emperor finished, one great eternity immortal tertiary stage walked up and bowed “Heaven lord master, someone went against the rules inside. He ate Peng Yue immortal fruit and killed Dong Ming emperor sect’s Fu Cengsheng...”

Before this great eternity immortal finished, one long eye browed man flew over and grabbed this great eternity immortal “Who dares to kill Dong Ming emperor sect’s disciple? Speak, I, Li Long want to see who has the balls?”

The great eternity immortal quickly said “Li Long immortal emperor master, this person probably changed his face but I’m certain master can find him, he has a dragon horse immortal spirit beast...”

The stage below was noisy. To these immortals, they didn’t care if people were killed, they cared about Peng Yue immortal fruit being found inside.

Wei Feng immortal emperor walked over and smiled “Li Long immortal emperor, on my account please put down this great eternity immortal. No matter who it is, he’s dead for certain to disregard our rules.”

Wei Feng immortal emperor didn’t even take Li Long immortal emperor seriously but he was shocked about dragon horse. Dragon horse also belonged to the dragon race, how could it be a pet?

Li Long immortal emperor nodded and let go of that great eternity immortal “Be specific.”

They were a top big sect but they couldn’t disregard Wei Feng immortal emperor.

Feng Kong and Dragon River grand emperor as well as a few immortal emperor all walked over after hearing dragon horse.

The great eternity immortal quickly said “that person is called Ning Xiaoma, his pet isn’t necessarily dragon horse. It looks like a dragon horse but has a pair of golden wings. It devoured Fu Cengsheng in one mouth. Yu Chizhen and I tried to stop it but was struck back by that great eternity immortal in one blow. 89 people saw this, his pet can also devour spirit crippling demonic chi.”

“What?” almost all the immortal emperors were shocked, based on the descriptions, this was a mutated god beast for certain. That great eternity immortal was no ordinary person too to be able to defeat two great eternity immortal tertiary stage in one move.

“Everyone who saw this person and his pet stand out.” Feng Kong immediately said. Even Yan Jiutian stood out, he knew his power wasn’t enough and he couldn’t lie here. He cursed why he had to see Ye Mo.

Suddenly, a purple robed man appeared on the stage. No one saw how he appeared but when he did, even Wei Feng grand emperor, Feng Kong grand emperor and them saluted with their fists.

The purple robed man nodded and scanned these 86 great eternity immortals. He asked almost everyone who tried to cheat before and didn’t find who he wanted. He waited here to see if that person successfully cheated. When he heard that Ning Xiaoma was using a masquerade he wanted to find this Ning Xiaoma even more.

Wei Feng immortal emperor knew Han Xiaofu, he smiled to Han Xiaofu and nodded “You’re Feng Nian immortal emperor’s disciple right?”

Han Xiaofu quickly bowed “Yes, Feng Nian immortal emperor is my master.”

“Tell me about that Ning Xiaoma.” Wei Feng immortal emperor smiled.

Han Xiaofu didn’t hide anything and told them about how Ye Mo dominantly attacked and stole the Peng Yue fruit tree as well as 27 fruits.
