

Strongest As 1791

Chapter 1791: Ice Ginseng King

Wei Feng immortal emperor scanned the 900 or so people and said slowly “Which of you know who is Ning Xiaoma, stand out.”

No one spoke nor did anyone move.

Feng Kong grand emperor said plainly “This person schemed that much, he probably wouldn’t appear here. According to what he did before, he should still be in the small heaven domain attacking that mist formation.”

The purple robed man suddenly said “How long would it be possible to send people in the small heaven domain again?”

Wei Feng grand emperor shook his head “We’ve investigated small heaven domain for a long while, it’s completely surrounded by mist and is in a delicate balance. If we tear the outside space, it would draw some void elements in to the small heaven domain breaking the balance.

And, the amount of people, how long they stay there and their power would also affect the balance of the small heaven domain. We’ve calculated, the longest time 1000 or so great eternity immortal tertiary stage can stay in there is three days. Three days later, the balance would be broken and it would self destruct. Even immortal emperor wouldn’t be able to stand that self destruct.”

This was like a container containing all sorts of gas, if the inside was ravaged, then the container might explode.

The purple robed man nodded and said nothing. He knew his lead might break from here again. He suspected that great eternity immortal with dragon horse was definitely in the small heaven domain. But if the small heaven domain exploded, he would lose all clues.

Wei Feng immortal emperor looked at the great eternity immortals and said “those who got chaos spirit item or rare immortal spirit herbs come out.”

One great eternity immortal tertiary stage with a black mark on his face got up and took out a jade box “Immortal emperor masters, wan bei saw a spirit item with its own intelligence. It was too fast and wan bei was only able to keep one of its arm.”

When this jade box was taken out, the surrounding suddenly seemed cold. Even annoyed minds calmed down.

Before Wei Feng immortal emperor moved, Feng Kong grand emperor took the jade box and opened it. It wasn't an arm inside but a white root.

“Ice ginseng king?”

All the immortal emperors looked at this root and took a cold breath in. Ice ginseng king was definitely the top special treasure. If it was a complete ice ginseng king, it could even help people learn dao art and help immortal emperor peak stage vindicate dao.

If it was below immortal emperor, it would be even more useful.

This was definitely first class treasure. All the immortal emperors looked at the ice ginseng king root. Even the purple robed man stared at it with a sliver of desire.

Feng Kong grand emperor sighed “Pity it's only one root, if it's the entire ice ginseng king, it would be too perfect.”

He then gave the jade box to Wei Feng grand emperor “You can keep it first, we'll divide it later.”

“Okay.” Wei Feng nodded and then said to the great eternity immortal “You're very good, what is your name?”

“Wan bei demon joy sect Lu Jue.” The great eternity immortal quickly bowed.

“Okay, you can keep 20% of what you got.” Wei Feng grand emperor nodded.

“Thank you heaven lord master.” Lu Jue bowed again.

“Heaven lord master, wan bei saw this spirit item.” Yuan Sha said.

“You saw the ice ginseng king?” Wei Feng grand emperor quickly asked.

Yuan Sha said “Yes, we attacked the mist formation with Ning Xiaoma because the spirit item went inside. But there was a formation inside a formation and we only got peng yue immortal fruits from the first formation.”

Han Xiaofu and them came out to testify too.

“Sigh, it’s a pity.” Dragon River grand emperor shook his head.

“Indeed it’s a pity but we got something at least.” Wei Feng immortal emperor said and waved out a huge long immortal jade desk and said to the rest of the people “Take out what you have and place it on the jade table and then leave your name.”

No one dared to hide what they got inside and took it all out. Even Yan Jiutian didn’t dare to hide his immortal range, he took out both immortal ranges he found.

Immediately, immortal spirit chi spilled everywhere and the immortals below were blinded by this. there were even level nine immortal spirit herbs.

Dragon River grand emperor picked up peng yue immortal fruit up and looked “This is a top grade peng yue immortal fruit, if they matured on the tree themselves, they would be priceless.”

The other immortal emperors nodded, they didn’t expect to get this many Peng Yue immortal fruit in the small heaven domain. It was very hard for the fruits to mature on the tree, usually the were red while still on the tree. Only when picked would they slowly turn purple.

The fruits on the table were faint purple clearly due to being picked off.

If they were purple on the tree, then they would be the best peng yue immortal fruit. But turning purple on the tree was very rare. Not only was a long time needed but there even requires a sliver of chaos chi.

Those great eternity immortal who came out all must go through the heart door again. They would be asked two questions, one if you kept anything you got in the small heaven domain, second do you know Ning Xiaoma.

They all passed and no one lied.

The purple robed man sighed. He knew it would be like this. If Ning Xiaoma was so easily caught, he wouldn't have escaped in the first place.

...

Ye Mo just as they guessed brought shadowless back to the second mist formation.

Shadowless sucked it like a whale and all the mist was devoured.

Then, shadowless said gloatingly "Boss, see I'm useful. I knew those trash wouldn't be able to break this formation in half a day. Now we can get these things and find even better places. Without anyone in here, we can get wealthy all we like in here."

"Shut up and break the formation." Ye Mo released the world rock. He felt shadowless was much more useful than before. He still had a huge appetite but he could do something now.

But before Ye Mo smashed this formation, suddenly a white figure dashed out and Ye Mo subconsciously released his world rock to stop it.

But just when he did, the white light stopped. Ye Mo knew he didn't stop it, the white light stopped itself.

Only now did Ye Mo see that a pitiful looking baby came out of the formation. One arm was gone, it wore snow white clothes, even its hair was white.

"Boss, this thing looks very tasty." Shadowless stared at this baby and licked its lips.

Ye Mo realised, this was the spirit item Yuan Sha and them were talking about.

"Boss..." The baby copied shadowless and called.

Shadowless immediately yelled "Who told you to say that, do you have the right to? Answer boss's questions and I'll eat you in one gulp later."

The baby subconsciously retreated a little hearing this.

Ye Mo waved his hand making shadowless retreat and asked "You stayed on your own accord right? Otherwise I wouldn't be able to catch up to you right?"

"Yes, boss." The baby looked fearfully at shadowless on the side.

"Boss I can definitely chase it, if you don't believe me let it go first. I'll catch him soon." Shadowless quickly said. He had a bad feeling, he might have a competitor in the chaos world later.

"You definitely can't catch up to me." The baby said. If it wasn't that it had nowhere to do, it wouldn't stay.

Shadowless said in contempt "I can definitely catch up to you. Plus what's the use of just running? Can you scheme for boss? If it wasn't my idea, you would've been caught by those who broke the formation."

Ye Mo ignored shadowless and looked at this spirit item asking “What’s your original form? Why don’t you run?”

Chapter 1792: Authority of big brother

“My original form is ice ginseng, this place is about to be destroyed due to outsiders coming. I have nowhere to run to.” The baby said in terror.

“You’re ice ginseng king?” Ye Mo asked in shock but then added “How do you know this place is about to be destroyed?”

The ice ginseng king shook its head “I don’t know how I know but I feel this place is about to be destroyed. Perhaps I’ve stayed here for too long.”

Ye Mo extended his spirit sense out, his premonition had usually been very strong but this time he didn’t feel it at all. The small heaven domain would be destroyed? Why would it be destroyed? But after a while, he really felt some uneasiness. Ye Mo didn’t know if it was the placebo effect.

“Boss, I seem to have this feeling too, I thought I thought too much before, it’s real.” Shadowless added on the side.

“Boss can you take me away from here?” The ice ginseng king asked fearfully.

Ye Mo nodded “Yes but I have to go find some immortal spirit items, I’m not leaving now.”

Ye Mo looked at the ice ginseng king, he knew it was the top grade thing. Even if he didn’t use it for pill concoction and just ate it straight up, he would be able to reach immortal king without any damage to foundation.

But this ice ginseng king already had its own intelligence and even morphed into human. Eating it was like eating a human. Ye Mo really couldn’t take it. everything in the world had a spirit.

Hearing this, the ice ginseng king was worried but then it saw Ye Mo's eyes and suddenly's eyes, it looked like they were going to eat it and it immediately began shaking.

"Boss are you going to eat this small ice ginseng?" Shadowless asked shamelessly on the side.

Ye Mo sighed and waved his hand "No need, everything has spirit, ice ginseng king already formed into human, eating it is too ruthless. And, it told me this news, regardless if it's real or not, at least I'm prepared now."

"Thank you boss." The ice ginseng king was very grateful.

"You can follow me but you can only stay inside my world, without my order you can't come out." Ye Mo said very seriously.

Ye Mo wasn't going to let ice ginseng king leave after it went inside the golden page world. If it was caught by some other immortal, even his golden page world would be exposed. Not everyone wouldn't eat the ice ginseng king.

The ice ginseng king hesitated and said "I'm willing."

Although he had to stay inside Ye Mo's golden page world, it was better than dying.

Ye Mo nodded "Okay, I'll give you a name..."

"Boss, just call him small ginseng, it doesn't sound as cool as my name but it suits this small ice ginseng." Shadowless quickly said.

"Okay, small ginseng is good." Ye Mo immediately agreed.

The ice ginseng king wasn't satisfied but it had no choice but to agree. It existed much longer than shadowless but was called small ginseng.

“Boss, there’s an extreme grade small ginseng here.” The ice ginseng king said without Ye Mo asking.

Hearing this, shadowless quickly said “Boss, I’ll help you break formation.”

For shadowless, he could come out completely because he could find spirit items. How could he let the ice ginseng king rob his job. What if boss felt he was useless and threw him back into the golden page world then he wouldn’t be able to eat freely.

“Hit this position and then hit 50 cms left, 80 cms right ten times each. Leave one second in between and for the last time leave 7 seconds in between and you can break the formation quickly.” Ice ginseng king said innocently.

“What do you know.” Shadowless didn’t bite where small ginseng pointed but its bite only shook the formation a little.

Ye Mo released world rock and smashed at where small ginseng said.

Crack, this formation was broken.

Ye Mo dazed. The easier formation before took half a day with 80 or so people to attack but now this harder formation was so easily broken with the help of small ginseng.

Shadowless stood awkwardly on the side while Ye Mo looked at ice ginseng king in confusion “Small ginseng you’re experienced in formation?”

Small ginseng shook its head “I’ve been living here for countless years, I know this natural formation already.”

The dense immortal spirit chi came into his face, before Ye Mo moved, shadowless already dug open the earth.

“It’s extreme grade immortal range indeed.” Ye Mo was overjoyed.

With this, if he spent some time in the time formation disk, his progression won't be slower than Yan Jiutian.

Ye Mo then waved shadowless and small ginseng into the golden page world. He told them that he would be putting this extreme grade immortal range in.

When they went in, Ye Mo started setting up formation. This was harder than putting in top grade small ginseng, Ye Mo had to ensure the immortal range wouldn't be damaged.

...

"This place is chaos world?" Ice ginseng king stood in the golden page world completely dumbfounded. He thought Ye Mo's world was only going to be a small world, he didn't expect this was a chaos world. if he knew it was, he wouldn't leave even if he was asked to.

"There's also bitter bamboo of the ten great spirit items?" The ice ginseng king was in amazement. Comparatively, he didn't care that much about the yellow middle plum branch.

"Hillbilly." Shadowless said in contempt.

Shadowless then pointed at the bitter bamboo and warned "Let me warn you, you must not go in within a thousand centimere radius of the bitter bamboo or the boss will roast you and so will I. You understand?"

"I understand." Ice ginseng king quickly answered.

"Call big brother." Shadowless reproached.

Ice ginseng king quickly called big brother. Shadowless was very happy with this and nodded

“Don’t call boss brother Ye or he will skin you. I had to think for a long while before figuring out calling him boss. I gave you this benefit. Never mind, follow me first.”

Ice ginseng king nodded and followed shadowless to the other side of the golden page world. shadowless pointed at that place surrounded with restriction “You can’t go in a 6km radius of that place, even I can only stay outside of 3km radius.”

Ice ginseng king didn’t ask why shadowless could go closer. It was completely dumbfounded, it murmured to itself “I actually saw chaos tree, chaos world, chaos tree, boss is too amazing.”

Shadowless sneered “So you have some knowledge. Of course boss is great, but your compliments are too bad. You’re not allowed to suck up to boss, you understand?”

“I want to go up and see the chaos tree.” The ice ginseng king continued to say.

“Do you not want to live? did you not hear what I said? Even I can only stay outside 3km radius but you want to go up. If the boss comes back you will definitely be roasted and eaten.” Shadowless threatened.

Small ginseng shivered and eventually didn’t go up.

Seeing small ginseng being scared, shadowless pointed at the immortal spirit herb happily “This immortal spirit herb garden is yours, I will be sleeping under the bitter bamboo you can sleep in the immortal spirit herb garden.”

“These immortal spirit herb are all for me?” ice ginseng king didn’t care about these low level immortal spirit herb but he felt very happy to be taken seriously as soon as he came.

“Keep dreaming, last time I ate a few level three, no, no it seemed to be very low level immortal spirit herb and boss almost roasted and ate me. You dare to touch the immortal spirit herb here?” shadowless reproached.

“I don’t dare to but you said it’s for me?” Ice ginseng king asked nervously.

"I was taking care of it before, now it's up to you. You need to take care of their growth, if problems arises, boss will roast you and eat you."

Small ginseng's face was green from hearing all these roastings and eatings.

After a long while small ginseng asked softly "Big brother you gave the immortal spirit herb garden to me to take care of what are you going to do?"

Shadowless walked towards the bitter bamboo a few steps and said "Do you not see a bitter bamboo here? And the chaos tree over there, they need to be taken care of by me. You're so clumsy, what if you damage it?"

"Didn't you say you can't enter a 3km radius of the chaos tree?" Small ginseng looked at shadowless in confusion.

"..." Shadowless was lost for words. He could only stern his face up "I'm looking after it from afar, I would take a few glances at it once in a while."

Small ginseng was lost for words, it suddenly felt this big brother didn't seem to be very reliable.

Chapter 1793: Power increasing rapidly

Seeing small ginseng use some immortal crystals to set up things around the chaos tree and even pile up into mountains, shadowless couldn't take it anymore and rushed to small ginseng and reproached "Little thing, did you not hear what boss said? Do you not want to live? The first thing that boss will do after coming out of solitary cultivation will be to roast you."

Small ginseng looked feebly at shadowless and said "Big brother you seemed to have gone into a 3km radius of the chaos tree."

"I'm teaching you a lesson, did you not hear it?" Shadowless was shook, boss said he would definitely be roasted if he went inside a 3km radius of the chaos tree but in front of his henchmen, his tone definitely couldn't be weak.

“Oh, thanks for reminding me big brother when boss comes out, I will tell him what happened. I’ll say that I’m helping the chaos tree grow but big brother didn’t trust me and so he came next to the chaos tree...”

Hearing the latter half of the sentence, shadowless’s eyes immediately changed. He sneered “I just came to remind you otherwise I would never disobey boss’s order.”

Then shadowless turned around and murmured “No one took care of the immortal spirit herb garden, a few immortal spirit herbs died. When boss comes out, I will report what happened.”

“Of course I know that big brother has been taking of the immortal spirit herb garden for me and never came next to the chaos tree, thank you big brother.” Small ginseng immediately said.

Before he finished, shadowless already appeared at the immortal spirit herb garden. Shadowless suddenly realised that it seemed to be a long journey ahead to control this new little brother.

...

Time flew by and Ye Mo gradually forgot time in the time formation disk cultivation. He was planning to use void flying snow to fly but he went into a state of trance and didn’t even realise that seven years had gone by outside.

A top grade immortal range plus a few billion immortal crystals wasn’t something a small fragmented extreme grade small ginseng could compare with. Extreme grade small ginseng had denser immortal spirit chi but once it was broken, the immortal spirit chi would disperse really quickly. The cultivation effect wouldn’t be better than a complete top grade immortal range.

When the top grade immortal range cracked and turned into nothing, Ye Mo finally woke up. He got up and realised that he had spent 700 years in the time formation disk.

A complete top grade immortal range was completely used up, the pills he had prepared before were mostly gone, even the 4 billion immortal crystals only had 2 billion remain. What shocked him even

more was that the complete extreme grade immortal range was used a up little by the spirit gathering immortal formation.

Even though it was only a small portion of the extreme grade immortal range, it was still so much better than the immortal spirit chi of the top grade immortal range. Ye Mo was speechless. After using all these things in his solitary cultivation, he only just reached into great eternity immortal tertiary stage. He thought he would be able to barely reach immortal king middle stage with two immortal range but now it seemed he could only reach great eternity immortal peak stage at most.

Ye Mo felt the powerful immortal essence flowing inside his body, his spirit sense was more complete. The power made him feel safe but the resources he wasted made his head hurt.

In fact, reaching great eternity immortal tertiary stage from great eternity immortal primary stage wasn't really fast but wasn't slow either. Some prodigies could reach immortal king middle stage with 700 years.

The amount of resources he used up was enough to supply a small sect for a few years.

He was only at great immortal now, once he reached status immortal, just how much more resources would he need. Ye Mo's head ached upon contemplating this.

Shadowless needed a lot of resources to progress but compared to him, it was very little.

Thinking about shadowless, Ye Mo immediately put away the time formation disk and walked out. He wondered how the two were getting along these years.

As soon as Ye Mo came out, he saw shadowless sleeping in the immortal spirit herb garden while small ginseng was doing things around the chaos tree. However, the chaos tree was 15 cms taller. It was around 30 cms tall now. the growth speed was extremely rapid.

Ye Mo was overjoyed. The chaos tree had been in his chaos world for a few years but was only 6 cms taller than before. This growth must be due to small ginseng.

“Boss your power grew quite a lot.” Shadowless immediately crawled up and ran over.

Ye Mo nodded and looked at the immortal spirit herb garden “The immortal spirit herbs didn’t disappear from the garden right?”

“No no, although small ginseng is lazy and gave the job of looking after it to me, I took care of it very well. Even the lowest level immortal spirit herb didn’t go missing and they’re growing very well.” Shadowless immediately said.

“Boss you finished solitary cultivation.” Small ginseng’s voice scared shadowless. This little thing was too fast.

Ye Mo looked satisfyingly at small ginseng and said “It’s probably due to you that the chaos tree is growing so fast right?”

The small ginseng immediately nodded “Yes, at the primary stage of the chaos tree’s growth, it doesn’t really need immortal spirit chi but chaos chi. I set up a formation to draw chaos chi over so the chaos tree grows really fast. Big brother shadowless saw I was busy so he took on helping me look after the immortal spirit herb garden. Last time big brother warned me...”

How could shadowless let small ginseng say he went near the chaos tree, he quickly interrupted and said “Yes, yes, I saw small ginseng was very hard working taking care of the chaos tree so I took care of the immortal spirit herb garden.”

Although shadowless’ words were conflicting Ye Mo didn’t care. He cared about how small ginseng could draw chaos chi over to provide to the chaos tree for growth.

Before he set up a few spirit gathering formation just so the chaos tree could grow and he used countless immortal crystals but it didn’t do much. However, small ginseng had such ability, he really got a treasure.

“Not bad, not bad.” Ye Mo repeated a few times.

Ye Mo walked up to the chaos tree, a clearer chi came making Ye Mo feel very refreshed. The bigger the chaos tree was, the more clear its effects were.

“Small ginseng, I didn’t expect you know formation to draw chaos tree, I should reward you well.” Ye Mo patted small ginseng’s head.

Small ginseng quickly said “I’ve lived at the small heaven domain for countless years, I know a lot of natural formations that many spirit items rely on to survive. I slowly created this chaos chi gathering formation.

Ye Mo nodded “Very well you can be responsible for looking after the chaos tree, as for your broken arm I’ll think of a way to cure it.”

Small ginseng quickly thanked and said “Boss, it’s not easy to reattach my arm. Unless there’s an ice ginseng king the same level as me, my arm wouldn’t be able to be repaired. I can forcefully grow out an arm but that would use up my essence chi.”

Then ice ginseng king looked at Ye Mo awkwardly “If the chaos tree can grow to three meters tall I can use it to nourish my body. If it grows to 30 meters tall, my arm can recover in half a month. If it’s 300 meters tall, my arm would recover in a few seconds.”

“It’s this powerful?” shadowless was shocked. He also snuck up next to the chaos tree but no one said naything.

Ye Mo was truly astonished too.

“Boss when the chaos tree grows to 3 meters, you can make it recognize you as master and then move it to your dan tian. Then you will live with the heavens and earth and live for all eternity.” Ice ginseng king said.

Ye Mo waved his hand “That can wait.”

If he couldn’t vindicate dao, taking the chaos tree out and spilling its chi was suicide.

“Stay in here I’m going out to see where we’re at now.” Ye Mo dashed out of the golden page world.

Chapter 1794: Trapped

After coming out of the golden page world, Ye Mo immediately released space time boat.

In the vast universe, the endless void was so much larger than heaven domain voids.

Ye Mo stood before the location disk on the space time boat speechlessly. It was blank.

He just knew he was in the void, he didn’t even know which dimension he was.

Ye Mo called out shadowless and small ginseng. These two guys were clueless about this place too.

“Boss, where are we going now?” Shadowless wasn’t scared.

“You can control the space time boat, remember, if there’s a signal on the location disk tell me immediately. I’m going to keep cultivating.” Ye Mo pulled shadowless over and said.

Hearing this, shadowless was immediately excited “Leave it to me.”

“I can too.” Small ginseng licked its lips and said.

“Bo, look at your small body...” Shadowless kept shaking his head.

Ye Mo waved his hand “You guys can go in and out of the golden page world, I’m going inside for solitary cultivation. As for controlling the space time boat, shadowless and small ginseng can take turns.”

Then Ye Mo went inside the golden page world. He dragged the extreme grade immortal range before him.

He must quickly reached great eternity immortal peak stage and find a place for divine damnation. Once he reached immortal king primary stage, he would immediately go to low heaven domain Gong Hua heaven and set up his sect attracting the people who ascended from Mo Yue.

...

The space time boat sped ahead, the two had great fun on the way.

Ye Mo was still in solitary cultivation and he was great eternity immortal tertiary stage, there was still some distance before he reached peak stage. As for Yi King pill he could concoct that whenever he reached great eternity immortal peak stage.

“Big brother it’s my turn to control the space time boat.” Small ginseng saw that shadowless’ time was up but he didn’t intend to move aside at all.

Shadowless came down from the seat helplessly. He felt he should reset the time small ginseng controlled the space time boat. Each time he gave it to small ginseng, this guy would change a direction. However, small ginseng wasn’t scared of him now.

“You can control it but you can’t change direction. Big boss wants to find a heaven domain quickly. If you keep changing direction we’re going to keep wasting time in the void.” Shadowless brought up his opinion seriously.

“Shadowless brother, this is what I wanted to talk to you about too. Each time I choose a direction, I have this premonition but everytime you change my direction away. this way, how long would it take for us to find a small heaven domain?” Small ginseng rebuked.

“How do you know that the direction I chose isn’t special? I have a premonition too...” Shadowless said unhappily but before he finished, he heard small ginseng’s gasp of amazement.

“What is it?” Shadowless immediately asked.

“Something appeared on the location disk.” Small ginseng quickly said and then said “We must’ve found a heaven domain, shadowless you control this, I’ll call boss.”

Then small ginseng went into golden page world without even calling shadowless big brother.

Hearing this, shadowless didn’t notice that small ginseng didn’t call him big brother and immediately came to the location disk.

There was a black figure on the screen, at first it seemed to be moving but soon it stopped but there wasn’t a void location like boss said. This meant that they were still in the void.

Another half a year passed outside the time formation disk, Ye Mo received small ginseng’s news. He immediately stopped solitary cultivation and came out.

“Boss, there’s a black shadow on the location disk.” Shadowless quickly moved aside.

Ye Mo knew this black shadow wasn’t a heaven domain, otherwise it would be marked.

Ye Mo controlled space time boat to get near that black shadow.

Two hours later, Ye Mo slowed the boat down. He saw that the location disk outlined an immortal ship.

When space time boat went closer and Ye Mo was certain it was a real immortal ship, he stopped immediately.

He had encountered ghost ship before, was he this lucky that he encountered another one?

Ye Mo waited a long while and the immortal ship still didn't move. Ye Mo carefully went closer and this time he saw even clearer. That ship parked eerily in the void and was very similar to the ghost ship he saw last time but was much smaller.

Ye Mo decisively turned the space time boat and left rapidly. There were too much things between him and Truth divine emperor. He didn't want to encounter another ghost ship controlled by Truth divine emperor's fragmented soul.

...

"Hmm, why did this person leave?" At the top of the believed ghost ship, a white robed extremely beautiful woman stared at the huge surveillance screen and asked.

"Mistress should we send someone after him?" An equally beautiful purple robed female immortal said respectfully.

The white robed woman nodded "No need, let the immortal ship follow him. We're already lost, since he can appear here, it means he has void map."

As soon as Ye Mo left, he breathed easy. Luckily he noticed early, otherwise if he was sucked over by that immortal ship he would be over.

Suddenly, he saw that the black dot on the location disk grew larger and larger, clearly, it was coming closer to him.

Ye Mo was shocked. He quickly sent shadowless and small ginseng into the golden page world while increasing the space time boat speed to the max.

Space time boat was low grade god artefact and was very small. Yet, that immortal ship could keep up with space time boat, this was too terrifying. Ye Mo had really never seen a low grade god artefact that was this large.

What shocked Ye Mo more was that the ghost ship followed him. he had never heard that a ghost ship would chase someone.

Ye Mo sped up more and finally drew the distance between them but soon he was lost for words. Although the distance between them was getting larger, he couldn't lose them.

...

"Such a powerful flying magic artefact, it's probably a low grade god artefact. It should be a powerful being who owns such a flying magic artefact. Why did he run as soon as he saw us?" The white robed female immortal frowned.

"This person seems sneaky, perhaps he had done something bad." The purple robed female immortal said.

The white robed female immortal smiled "no matter what he has done, it has nothing to do with us. We just want to know the way. Plus, we're not powerful. If this guy is an immortal monarch, we're no match for him at all."

"It's all because of that pack of void iron winged bear, otherwise, how can we be forced here." The purple robed female immortal complained.

"We should feel lucky to be able to escape that many. If our immortal ship isn't fast, we wouldn't even be able to get out." The white robed female immortal said.

Ye Mo only focused on running and when a dark veil of void immortal spirit beast pressed over, he realised he was surrounded.

Void iron winged bear? Ye Mo's face went bad.

Chapter 1795: Enlightenment in slaughter

There were void iron winged bears all around. They were already stopped here waiting for him to fall into the trap.

The void iron winged bears were extremely fast in the void and were also very smart. Their hide was thick and they knew how to fight in an army. Their mouth was sharp like spear, their main talents were flame blades and tearing. Their teeth were like immortal artefact, even an immortal king would lose a piece of flesh after being bitten.

If it was just these void iron winged bears, Ye Mo wouldn't mind too much. He would call out shadowless and fight his way out.

But now, he couldn't, it would draw out time if he was surrounded by them. Then, the ghost ship would catch up. Compared to these void iron winged bears, Ye Mo was more worried about the ghost ship. However, he didn't have the time to think too much, the void iron winged bears had surrounded over.

Ye Mo released Zi Xu and shot out lightning sword arcs.

These void iron winged bears were all level four and above immortal beasts. Some were even level six peak stage.

Ye Mo breathed easy. Luckily there weren't level seven void iron winged bears. If there were, he would have to go into the golden page world even if it meant exposing it.

Ye Mo had seen level seven immortal spirit beast before in the seven refine tower.

After the lightning swords shot out, lightning splashed out in the void as lightning swords rained down.

Only now did Ye Mo found that his lightning sword went from pure black to a sliver of blue.

Crack.

Grey color splashed everywhere, it was the blood of the void iron winged bears.

At the same time, countless flame blades also swept at Ye Mo. Ye Mo quickly released a defensive cauldron he forged and put away the space time boat.

The octagonal cauldron was still broken, although he spirit controlled it, Ye Mo didn't want to use it yet. He wanted to use it after he repaired it. These void iron winged bears were only level four to level six, his level six defensive immortal artefact should be enough to stop them for half a day.

...

"Mistress, it's the void iron winged bears again, what do we do?" The purple robed girl said shakily.

"Quickly change direction and open attack restriction." The white robed female immortal regretted just being focused on the chase and forgetting about the cunning void iron winged bears.

Thud thud thud. The densely cluttered flame blades struck Ye Mo's defensive immortal artefact. In just 15 minutes, there were cracks on the immortal artefact.

Another 5 minutes later, the immortal artefact shattered completely in a crack. Without it, the endless flame blades soon tore apart Ye Mo's immortal essence and struck Ye Mo's body.

Ye Mo frowned, individual void iron winged bears were nothing but their combined power was this shocking.

Just when he wanted to call out shadowless to help he saw that immortal ship appear in his spirit sense. The ship started attacking void iron winged bears and there were even magic artefact released.

Seeing this, Ye Mo knew he had mistaken. This ship wasn't a ghost ship. If he knew this earlier, he wouldn't run and get caught in the void iron winged bears.

Knowing that it wasn't ghost ship, Ye Mo didn't dare to call out shadowless and even warned shadowless to not come out. He changed his face to a young ordinary face.

He couldn't let anyone have any clue of what he did at small heaven domain and Hong Yu immortal city.

Ye Mo didn't plan to run anymore after knowing it wasn't the ghost ship, he focused on fighting these void iron winged bears. He couldn't even be bothered using defensive magic artefact. With his immortal spirit body power, he could fight while practicing body refinement.

Ye Mo released waves after waves of dense lightning sword. He also kept hacking out Zi Xu, Illusion Cloud domain kill strike brought out waves of one km long sword rays in the void. From afar, they were like vibrant purple rainbows that were extremely beautiful.

In a short time, tens of miles of radius around Ye Mo was filled with sword ray and lightning rays.

Patches of void iron winged bears were killed and countless flame blades struck Ye Mo's body. All sorts of wounds piled up on Ye Mo's body but they quickly repaired under Ye Mo's body refinement cultivation method.

Half a day later, Ye Mo didn't know how many void iron winged bears he had killed but he was still surrounded by them. His body was covered in red, he was surrounded by the endless flame blades, some void iron winged bears even charged up to Ye Mo wanting to bite him.

Eventually, even those void iron winged bears attacking the immortal ship were drawn over attacking Ye Mo like crazy.

Lightning arcs, sword rays, flame blades, roars mixed up in this void and the range kept expanding. If this wasn't the void but a place with light, one could see that this entire area was filled with grey blood. Ye Mo was completely immersed in this slaughter.

Everytime when his immortal essence was about to dry up, he ate a pill, same with when his spirit sense was about to run out. Ye Mo didn't know his pills were rapidly depleting and the pill poison was building up in his body.

After those waves of lightning sword shot out, a domain of lightning formed in his mind. He could feel it even in the slaughter that there was this lightning he was about to grasp.

At the same time, waves of purple sword ray shot out forming an area of void around him. He felt he was about to have a new break through.

...

The immortal ship stopped not far ahead, they didn't run. All the people on the ship were dumbfounded, even the two immortal kings were dazed.

Just what sort of person was this, he was this terrifying. He didn't seem to have reached immortal king yet. There was such a powerful great eternity immortal? Even immortal king wouldn't be able to do this large area of carnage without domain.

That white robed female immortal looked at Ye Mo in disbelief. She had the feeling that the person in the slaughter was under this special state. sometimes, she couldn't even feel his presence.

Who could have sudden enlightenment in slaughter? But if this wasn't sudden enlightenment how could he be in that state.

"So powerful..." the purple robed female immortal breathed after a long while.

Just when his lightning sword was about to break through, Ye Mo felt his body suddenly crack and in a short while, he felt his body increase another level. his body refinement went from immortal spirit body primary stage to middle stage.

But then, he lost his sudden enlightenment. His lightning sword was stuck again. Ye Mo had this itching feeling, he was on the verge of break through but he couldn't.

Ye Mo no longer had the mood to slaughter these void iron winged bears one by one. He punched out, wave kill.

With this, the nearby temperature immediately rose up, before the wave kill even came out, the terrifying heat already swept the surrounding.

Rumble.

A destructive force was released, there was no confinements here and wave kill spewed out like a horse without reins.

The void was lit up by the flame wave. Endless void iron winged bears were defenseless in the wave. Low level void iron winged bears were instantly disintegrated and higher level void iron winged bears were killed even if they survived the first wave.

The red flame wave was like the violent seas mixed with huge rumbling sounds. After the second wave, the third wave rose out of thin air.

Chapter 1796: Void Exit

After three wave kills, Ye Mo didn't feel his immortal essence run dry, instead he learned the fourth wave kill. Ye Mo was overjoyed.

Before wave kill ended, the void iron winged bears loosened up. In a sharp shriek, the endless void iron winged bears retreated.

The nearby space cleared up immediately. Ye Mo breathed easy and didn't use the fourth wave kill. If it was somewhere else, he might try it but here, he didn't dare to.

The three wave kills didn't completely use up his immortal essence and spirit sense but he didn't know what the fourth wave would do. There was still an immortal ship here.

Just when Ye Mo ate two pills, he saw a hundred meter long figure charge at him. In a petrifying roar, a huge mouth opened up towards Ye Mo. Instantly, Ye Mo felt the confinement of the void.

Level seven void iron winged bears? Ye Mo saw it clearly, Ye Mo immediately used tens of spirit sense blades when he felt the pressure and broke free from this squeeze. At the same time, he used mobility technique.

Ye Mo didn't want to fight a level seven void iron winged bears head on.

The void iron winged bears didn't stop at all after missing. It charged at Ye Mo again. Clearly, it was furious that Ye Mo killed this many void iron winged bears.

Rumble rumble.

Two huge explosions sounded in the void. Ye Mo didn't keep using instant transmission, he saw the huge level seven void iron winged bears stopped by two immortal kings.

Ye Mo breathed easy. One immortal king might not be a match for the void iron winged bear but two were definitely enough to beat it.

The three clashed in the void and there were terrifying sounds under the explosions of magic. The level seven void iron winged bear was powerful but it couldn't beat two immortal kings combined. In less than five minutes, it roared and flapped its huge wings flying away.

The rest of the void iron winged bears completely disappeared.

...

Ye Mo gave himself a clear water spell and cleaned himself before changing into a new set of clothes. Then he came up to the two immortal king and saluted with his fists "Thank you two qian beis for helping me."

One of them was tall one was short but they seemed nice. Seeing Ye Mo come over, the two quickly returned the gesture "Immortal friend you're too polite, our mistress is waiting on the ship, if you're willing you can come on and have a seat."

"If so then sorry for the disturbance." Ye Mo agreed. He had no sense of direction, now that he was invited of course he was going to go in.

...

On the deck, the white robed female immortal studied Ye Mo non stop in amazement. She didn't expect Ye Mo to really be a great eternity immortal tertiary stage. He wasn't even great eternity immortal peak stage. Ye Mo looked ordinary and seemed very young.

Yet such a great eternity immortal had this powerful crowd attack immortal arts.

The purple robed female immortal pulled the white robed female immortal, she immediately woke up and quickly said politely "Luan Xinyin thank immortal friend for helping us, may I ask what your name is?"

If Ye Mo didn't attract nearly all the attention of the void iron winged bears and used wave kill to scare them off, it would really be hard for their immortal ship to break free.

"Goddess Luan you're too polite, I'm Mo Ying. I was hunting some void flying snow and was taken away by void chaos flow. I lost direction and then I saw your ship, I thought it was the fabled ghost ship so I left immediately." Ye Mo said.

"So that's it, no wonder you turned away immediately after seeing us." Luan Xinyin said with a sliver of disappointment. She didn't expect Ye Mo to be lost too.

After a while, she thought of something and asked "Brother Mo have you seen ghost ship before?"

'Ye Mo immediately said "I've heard of it."

"Brother Mo, since you're lost too why not take out immortal ship and we can find a way out together?"

Although Ye Mo was lost too but after seeing Ye Mo's terrifying crowd attack ability, Luan Xinyin wanted Ye Mo to join them.

Ye Mo knew what she meant but he didn't have such plans. His space time boat was no slower than her ship. There was no point in staying here. One he couldn't cultivate, second he would be watched by two immortal king.

But before Ye Mo could reply, the immortal ship rattled heavily.

Before Luan Xinyin went to check, the purple robed female immortal said worriedly "Mistress, we've encountered a huge void chaos flow, we can't come out."

"Open all the defense restrictions don't go the opposite direction of the flow, accelerate towards the flow. Uncle Gyi and uncle Ting help control the ship, we must make the ship pass the void chaos flow."

Luan Xinyin calmed down quickly and made the decision.

Ye Mo approved, immortal ships would usually avoid large void chaos flow. If one entered the void chaos flow whirlpool, he wouldn't be able to leave forcefully as it might break the immortal ship apart. In this situation, one had a sliver of chance only if they followed the chaos flow.

Ye Mo knew now wasn't the time to go.

This chaos flow seemed very long, after the immortal ship drifted for five days, the ship stopped.

Ye Mo scanned his spirit sense out, the two immortal kings and many people on the ship were repairing the restrictions. The ship was heavily damaged but it didn't dissemble.

"Huh, there's a mark on the location disk." The purple robed female immortal rejoiced.

Ye Mo immediately wanted to say goodbye but he stopped his words. He didn't know if his ship would be able to detect a location here. If he left the ship and found there was no mark on his boat, then it would be embarrassing to come back.

When Ye Mo came to the deck, Luan Xinyin was already there. Her face looked tired but she was full of surprise and joy.

“Brother Mo, fortune and misfortune indeed come together. Life is unpredictable.” Luan Xinyin’s tone was light.

“Congratulations goddess Luan, of course thanks to your ship for finding the way out and bringing me out of the void. Where are we now? How long would it take to get to the nearest heaven domain?” Ye Mo smiled.

Luan Xinyin didn’t mind and answered “We’re about three months away from Yu Yu heaven domain. We’re truly lucky.”

Ye Mo rejoiced, he hadn’t been here but he knew his space time boat would definitely be able to sense the marks here. Yu Yu heaven was a grand heaven domain. If he used his space time boat he might be able to reach Jin Shang heaven in less than half a year.

“Brother Mo, Xinyin wants to invite you to Luan Ze immortal residence, what do you think?” Luan Xinyin looked hopefully at Ye Mo.

Chapter 1797: Encounter immortal king again

Luan Xinyin was really observant and seeing that Ye Mo was about to reject, she smiled sweetly and said “If we’re quick we can make it to the greatest event of the residence.”

“What is it?” Ye Mo subconsciously asked.

“Brother Mo have you not heard of Luan Ze immortal residence?” Luan Xinyin asked in confusion seeing that Ye Mo didn’t react at all when she mentioned the place a few times.

Ye Mo said with slight embarrassment “I’ve always been in solitary cultivation and rarely go out, I’ve really never heard of it.”

“No wonder.” Luan Xinyin explained “We’re the number one immortal residence in Yu Yu heaven. If it wasn’t that the leader went out seeking dao and hasn’t returned yet, we would’ve been an emperor sect already. Even so, we’re still one of the three great immortal monarch sects of Yu Yu heaven.”

Ye Mo guessed this already, Luan Xinyin had two immortal kings protecting her and had such high level immortal ship. There was undoubtedly an emperor sect behind her.

“Our immortal residence gathers prodigy immortals to hold a flower viewing night. Of course, in actual fact it’s to select dao partners for the excellent female immortals of our residence. The ten female immortal participating are the most prodigious disciples of our immortal residence. Even the number one beauty of the immortal residence is participating. Brother Mo, your talent is exceptional...”

“Mistress, you’re going to participate too, you’re one of the three best goddess of the residence.” The purple robed female immortal smiled.

Luan Xinyin blushed a little but didn’t argue.

Ye Mo was already losing interest, a flower viewing night and a dao partner seeking activity, he didn’t have the mood to participate.

He saluted with his fists without hesitation “I’m really sorry, goddess Luan I happen to have things to do so I can’t go. If I come past the residence next time, I will definitely come to visit.”

“Brother Mo are you really going to go?” Luan Xinyin seemed a little disappointed. She had seen Ye Mo’s power with her own eyes, he might be admitted as a dao partner.

“Yes, please open the restriction goddess Luan.” Ye Mo had lost the interest to talk.

Luan Xinyin could see Ye Mo’s adamance and could only say “Then if you have time, remember to come visit the residence. We will always welcome brother Mo, this is a VIP card of the residence.

Luan Xinyin opened the restriction and handed Ye Mo a card.

Ye Mo thanked and quickly bid farewell. He released his space time boat and soon left.

“Mistress, this Mo Ying is indeed very powerful but he looks a bit ordinary.” The purple robed female immortal commented.

Luan Xinyin shook her head “This person is this terrifying just as a great eternity immortal, his future is boundless. How many great eternity immortals do you see with a low grade god artefact? Even our immortal ship can’t catch up to his boat, it’s low grade god artefact for certain. His wave god artefact makes me feel he has a high level heaven flame. If this person wants to stay at the residence, he would be so much better than those sect prodigies.”

Luan Xinyin sighed “Amongst the prodigies I have seen, only Chu Jiuyu who’s staying at the residence can compare with him. but even Chu Jiuyu is probably no match for this person.”

“Mistress, will brother Chu marry into our residence?” The purple robed female immortal asked.

Luan Xinyin thought for a moment and said “Chu Jiuyu is equally very talented, if he wasn’t just an solo cultivator, he might be immortal king now. But this person also has great ambitions. He is very prideful, it’s not certain if he would marry into our sect.”

...

Ye Mo wouldn’t know that Chu Jiuyu was at the Luan Ze immortal residence, he was on his space time boat checking the heaven domain mark. The nearest hevean domain was indeed Yu Yu heaven but Ye Mo didn’t want to go there, he wanted to go to Jin Shang heaven. He estimated he would need a year or so at max speed.

If he went to Yu Yu heaven and took the teleportation formation, he might reach there in less than 3 months but Ye Mo didn’t intend to take the teleportation formation.

Ye Mo chose to increase his power immediately, he believed he would reach great eternity immortal peak stage on the way to Jin Shang heaven. Then, he would go to the immortal graveyard and have his immortal king divine damnation. Once he was immortal king, he would be able to escape even from immortal monarch.

He didn't dare to have the immortal king divine damnation in the void, its many times stronger than his previous divine damnation. Ye Mo needed to be very careful. If he reached immortal king, he would be a status immortal. Status immortal was the symbol of long life and power.

Yan Jiutian was definitely an immortal king now, if he was still great eternity immortal and encountered Yan Jiutian he would be over.

Even the uncle Ji incident made Ye Mo extremely uncomfortable. He could fight on par with Yan Jiutian but Yan Jiutian could run from uncle Ji while he couldn't.

Yan Jiutian had many means while he was just using a few immortal artefacts he had. There were many immortal kings in the grand heaven domain, he would encounter one anywhere.

Ye Mo let shadowless and small ginseng control the ship again and told them to go Jin Shang heaven before going into the golden page world for solitary cultivation.

...

Half a year passed outside the teleportation formation, Ye Mo felt the roaring immortal essence in his body. The pill poison had already been removed. He felt the power within him, Ye Mo almost wanted to punch to test his power.

Ye Mo stood up again, he knew he was great eternity immortal peak stage. After his divine damnation, he would become an immortal king. Extreme grade immortal range was much better than top grade immortal range, it was easy to digest and still had around 40% left after he reached great eternity immortal peak stage.

Seeing Ye Mo come out of the golden page world, shadowless and small ginseng quickly came around them. Ye Mo checked the map and saw there was just two months journey until Jin Shang heaven. Ye Mo was very happy.

Ye Mo didn't take over control, he let shadowless and small ginseng keep controlling the ship while he felt the force of the void before the boat.

Calming down and feeling the vastness of the void would be beneficial.

Half a month later, Ye Mo felt his power grow more pure, even his sea of consciousness started expanding. Ye Mo knew that if he cultivating Spirit Will Nine Transformations now, he would be able to break through soon.

This day, Ye Mo was trying to use spirit sense to move the asteroids in the void but felt some waves in his spirit sense domain.

Someone was coming over and using spirit sense to watch him. this person's spirit sense wave definitely wasn't great immortal.

Ye Mo immediately let shadowless and small ginseng go into the golden page world. At the same time, he took control of the space time boat and hung Zi Xu on his back.

In just tens of seconds, a blue dashing light came. An extremely pretty chariot stopped, an eagle eyed man stood before the chariot.

It was an immortal king tertiary stage, Ye Mo frowned. This was almost on par with uncle Ji.

The immortal king clearly came for him but Ye Mo was worried. This person's flying magic artefact was only extreme grade flying immortal artefact.

"Hmm, space time boat replicate." The immortal king said with amazement as his eyes lit up.

Ye Mo was going to salute with his fists but hearing this greedy tone, Ye Mo gave up on the thought.

Chapter 1798: Difference with immortal king

"What was the immortal pet you put away?" However, this immortal king didn't ask about the space time boat.

This person was so rude, Ye Mo was already annoyed. He casually saluted with his fists "It's just an assistant helping me control the flying immortal artefact nothing worth mentioning. If you have no business, then I'm going."

"How dare you, did I let you go? Why did I detect a strong spirit item here and when I came over, it was gone? Is it the spirit item you put away?" The immortal king yelled.

Ye Mo was more annoyed, did this guy think he was easy to abuse because he was great eternity immortal? Bastard but this reminded him that small ginseng can't come out casually.

"What has my immortal pet got to do with you?" Ye Mo's tone growing angry. Ye Mo didn't need to suck up to him. Plus, he believed that with his great eternity immortal peak stage, even if he can't beat this person he can run away.

He didn't get away from uncle Ji because he was only a great eternity immortal primary stage while uncle Ji was immortal king peak stage.

"Haha, you have balls." The immortal king laughed and grabbed at Ye Mo.

Seeing this guy underestimate him, Ye Mo wasn't going to waste this opportunity.

He released rainbow and wave kill immediately.

The force of these two god arts were unparalleled. Sword ray covered the heavens and instantly tore apart the domain that this immortal king didn't intentionally release and sliced across the void.

Instantly, the immortal king realised he underestimated Ye Mo.

Splurge. The rainbow hacked onto the hand of the immortal king and blood flew everywhere but the rainbow kept hacking down without any impediment.

The immortal king dashed and broke free from rainbow's space confinement. However, his hand was hacked in half.

Just one move, he was an immortal king tertiary stage and was injured by a great eternity immortal peak stage. The immortal king was furious. He ate a pill and ran his immortal essence, his hand healed in the blink of an eye. At the same time, he released a blue spear.

Rumble.

The long spear attacked later but landed first and smashed Zi Xu. The rainbow sword ray dispersed and Zi Xu fell from the void.

The powerful immortal essence backlash came and Ye Mo spat a mouthful of blood. He quickly took back Zi Xu. Meanwhile, the immortal king domain formed again. It was completely different from before and bound Ye Mo.

Ye Mo knew that even if he could release four wave kill he can't beat this immortal king. The difference was too great.

Crack. Ye Mo released the first wave kill and the domain instantly became weak but the first wave was used up. When it came before the immortal king, it was worthless.

The immortal king tertiary stage was also very shocked. Although he felt he could kill Ye Mo, it was unimaginable that a great eternity immortal was this powerful. Since when was there such terrifying great eternity immortal? If this great eternity immortal reached immortal king what immortal king could be a match for him? Even as immortal king primary stage, he would dominate all immortal kings.

This person must die otherwise there would be endless repercussions. Thinking about this, the immortal king's spear turned into a blue sun.

Rumble.

But before this blue sun attacked Ye Mo, Ye Mo's second wave kill came over. This second wave was ferocious heaven flame.

The immortal king's eyes narrowed, he saw it clearly. It was heaven flame, one that reached immortal flame. This great eternity immortal not only had low grade god artefact but also this terrifying flame. His eyes heated even more.

He must capture this person alive, he had too many secrets on him. But he knew he must not let the heaven flame reach him. even immortal king tertiary stage wouldn't be able to take it.

The blue sun spear extended turning into a huge blue wall blocking the second wave.

Rumble. The two clashed creating terrifying rays of red and blue. In just a moments time, the second wave was turned into nothing. Meanwhile, this blue wall retracted rapidly. In less than half a second, the wall turned into a 300 meter long spear and pierced at where Ye Mo was.

As this spear went over, the space around Ye Mo rapidly shrunk as though when it shrunk to a certain point, Ye Mo would be pierced by that spear.

Thud. Void ripples formed, immortal king couldn't tear open void but this spear was so powerful that it created ripples.

Clearly, this immortal king only wanted Ye Mo's essence spirit.

After the explosion, the immortal king knew his spear missed. A great eternity immortal actually ran away from him during a fight, how could he bear this. He immediately took his spear and chased over.

But even if he made his immortal ship go the fastest, the figure on the location disk kept shrinking until completely disappearing.

The immortal king's face was green but he didn't give up. He chased over along where Ye Mo fled. He wasn't just going to get revenge, this great eternity immortal had too many secrets.

...

Ye Mo broke a sweat shaking that immortal king off. Luckily his experience was ample, after knowing that his wave kill couldn't take an advantage, he didn't release a third wave and used instant transmission to get away instead.

It's not that the wave kill can't kill the immortal king but his speed of using immortal essence was too slow compared to the immortal king. This immortal king could annihilate the second wave and kill him before he used the third wave.

If his third wave could attack as quickly as the immortal king, Ye Mo believed he would even have the upper hand. But he knew it was impossible to be faster than this immortal king under his domain.

After this fight, Ye Mo wanted to reach to immortal king even more desperately. The difference between immortal king and great eternity immortal was a fundamental difference.

He could kill ordinary great eternity immortal tertiary stage at great extreme immortal peak stage but at great eternity immortal peak stage he couldn't beat an immortal king tertiary stage. This was the difference.

Ye Mo flew on the space time boat at max speed. After half a month, Ye Mo called out shadowless and let shadowless keep controlling the boat to fly to Jin Shang heaven. Meanwhile, he went into the golden page world for pill concoction.

He needed Yi King pill to reach immortal king. Extremely rare prodigies didn't need it to reach immortal king but Ye Mo knew that person wasn't him. he had a Peng Yue immortal fruit tree.

What Ye Mo didn't expect was that in less than ten years, the fruits had a faint purple color.

"This is due to the chaos chi in here." Small ginseng explained.

Half a month later, Ye Mo concocted five cauldrons of Yi King pill. Other than a cauldron of top grade, the rest were all special grade.

...

Due to Ye Mo's speed, he arrived at Jin Shang heaven in less than two months.

He picked a direction and charged at immortal graveyard range immediately.

A few days later, Ye Mo appeared in the depth of the range before finally putting away the space time boat.

The bleak chi rushed over but Ye Mo didn't care.

Chapter 1799: Crazy immortal king domain

The remaining small half of the extreme grade immortal range was pulled out too. Ye Mo started setting up spirit gathering immortal formation. Half a day later, a level six spirit gathering immortal formation was set up. The immortal spirit chi nearby immediately became dense. Those bleak chi sensed Ye Mo's fire element chi and all retreated.

He also set up a level six barrier formation, even though he couldn't completely cover his traces but it was better than nothing.

Ye Mo knew this divine damnation wasn't simple, he prepared 100 level six immortal artefact and a level seven shield immortal artefact. It wasn't that Ye Mo couldn't forge level seven immortal artefact but that it required too much materials.

Ye Mo even prepared octagonal cauldron and Hao Heaven drum, of course, Ye Mo didn't want to use it if he didn't have to.

When he was surrounded by endless void iron winged bear, Ye Mo didn't even plan to use Hao Heaven drum much less now.

The Yi King pills made with purple peng yue immortal fruit emitted a faint purple aura. People would feel rejuvenated just by smelling it.

Ye Mo took out a Yi King pill and placed it in the center of his hand and started to use Three Birth Chant to charge at that barrier. The immortal essence in his body flowed like a great river but it was still far from that barrier, it couldn't even touch the barrier much less tear it open.

Ye Mo knew clearly that although he was great eternity immortal peak stage, his build up was far from those great eternity immortal peak stage who had cultivated for countless years. Their immortal essence had build up to a certain degree that if they just had a Yi King pill, they would have much greater chance of breaking through compared to him. but Ye Mo just reached great eternity immortal peak stage, his immortal essence and spirit sense was far from as condense as others.

If he didn't have bitter bamboo, it was impossible to try break through to immortal king after just reaching great eternity immortal peak stage. It was impossible. Bitter bamboo gave him a stable mind state but it couldn't give him the build up.

Other people could only keep building up but Ye Mo had his own method. He had extreme grade immortal range and more importantly the Three Birth Chant.

At this moment, that small half of extreme grade immortal range was like being evaporated and gathered towards Ye Mo quickly.

This immortal spirit chi devouring speed was many hundred times faster than when he was in the golden page world. If he had such speed in the golden page world Ye Mo would've long been great eternity immortal peak stage. But if he dared to do this in the golden page world, he would've exploded already. He ran his Three Birth Chant to the extreme just so he could charge at the immortal king barrier.

If he wasn't doing that, this cultivation speed was suicide. If the immortal spirit chi couldn't turn into immortal essence, it would tear open his meridians. This was why if cultivators failed to break through then their power would go down.

Even if one's immortal essence was ample to the extreme, there needed to be a time for it to settle down.

But that wasn't suitable for Ye Mo, he didn't have time. Even with the time formation disk, he didn't have enough time. Plus, he needed more than just time, he needed to pile up cultivation resources. He spent most of his time looking for resources.

When the terrifying immortal essence ravaged in his meridians, Ye Mo felt some danger. He tried to use his immortal essence to touch the immortal king barrier but he was still far from it.

Two days later, the virulent immortal spirit chi was controlled by the Three Birth Chant. Ye Mo felt his immortal essence calm down and he immediately ate the Yi King pill.

With this, Ye Mo suddenly felt some new enlightenment.

Ye Mo sunk into that enlightenment forgetting about the charging power that came with the Yi King pill. However, it still gradually let Ye Mo's power touch the immortal king barrier.

When Ye Mo felt that barrier, he suddenly shook. Ripples formed in his spirit sense and this indescribable force extended out.

This was the primal form of immortal king domain, Ye Mo immediately realised. He hadn't even reached immortal king and he was at this stage. This was so much more powerful than the domain he learned before. Ye Mo forgot about trying to break through and just kept trying to extend his domain.

Two days passed again, Ye Mo found he actually formed a complete domain. the barrier breaking effect of the Yi King pill had passed, someone else would be very annoyed but Ye Mo ate another pill.

He didn't use the second pill for breaking through but instead kept using it for enlightenment, stretching his domain.

One, two...ten... fifteen. Ye Mo kept eating Yi King pills and expanding his domain. his immortal king domain became more and more stable and controlled while getting larger.

When there was only three pills left in his second bottle, Ye Mo just realised that he had gone into solitary cultivation in here for a month and he was just consolidating his immortal king domain. If

someone came here now, he would be asking to die. He didn't have much extreme grade immortal range left too.

Ye Mo didn't dare to keep expanding his domain, he ate another Yi King pill and started charging at that barrier.

Rumble. Ye Mo felt his power touch that barrier heavily.

Ye Mo rejoiced but before he could charge at it again, there were crackles sounding from above him.

Ye Mo knew that what was to come would come.

At the same time, darkness spread above him and then eight golden lightning bolts shot down illuminating the immortal graveyard range into a golden color.

The bleak chi spread out but Ye Mo breathed easy. Luckily there were just eight bolts, they were thick but he should be fine.

But soon Ye Mo sensed danger and before he could react the 8 bolts changed directions and attacked Ye Mo from eight directions.

What shocked him even more was that after that they suddenly turned into 72 bolts attacking him from every direction.

Ye Mo released 100 level six defense immortal artefacts and one level seven defense immortal artefact. At the same time, Ye Mo released Zi Xu and world rock.

Ye Mo's eyes went red, the divine damnation was set on killing him but with his great eternity immortal peak stage power and immortal spirit body middle stage, he didn't believe he couldn't beat this divine damnation.

From his perspective, there was no meaning in just staying defensive on this. After releasing all of his defense immortal artefact, Ye Mo suddenly flew up and raised his fists smashed at the nine golden bolts above his head.

Rumble rumble

Earth flew everywhere, the ground seemed to have been plowed. Before the lightning above him struck, nine golden bolts rose out from the earth.

Ye Mo instantly realised, there were 81 bolts in this wave. The hidden nine bolts were the lethal ones.

Ye Mo took in a cold breath. If he didn't fly up to fight the divine damnation in the air, he wouldn't even have time to dodge the nine bolts from below.

Such evil divine damnation, Ye Mo was extremely furious but he calmed down instead. He released octagonal cauldron immediately.

This was the first time Ye Mo released so many defense immortal artefact. He spirit controlled them all but he didn't use any god arts. Even with his powerful spirit sense, he felt a struggle.

Rumble

Crack.

The divine damnation kept striking Ye Mo's shield and the world rock while hitting Zi Xu.

Meanwhile, Ye Mo's fists struck the nine golden bolts and explosions sounded throughout the immortal graveyard range. Some floating ghosts were instantly annihilated by the spilt lightning bolts.

Cracks sounded non stop and the defense immortal artefacts were falling down in pieces like a hail storm

Chapter 1800: Who is crazier

Ye Mo's defense magic artefacts clashed with the golden lightning bolts non stop. The entire space was shaking due to this dense cluster of lightning.

Some bolts were blocked but some bolts penetrated the defense magic artefact and struck Ye Mo's body.

Blood sprayed, Ye Mo's bones broke down inch by inch. There was no other way to defend against it.

Octagonal cauldron was a broken extreme grade immortal artefact but it was very useful now. It blocked seven of the nine bolts from underground. Ye Mo kicked down on the remaining two.

Splurge, crack.

Flesh flew and bones cracked, even with Ye Mo's immortal spirit body he couldn't stop this golden lightning bolt that was thicker than a bucket. The world rock turned into a huge mountain while Zi Xu turned into a patch of purple sword rays. In a rumble, the world rock was smashed away by the golden lightning and the vibrant purple sword rays couldn't stop the tens of golden lightning bolts.

Thud thud thud.

After blocking the majority of the bolts, the rest of them struck his body.

Thud, Ye Mo fell to the ground. With such powerful lightning bolts striking him non stop, even the Three Birth Chant can't refine them in time. Ye Mo's body was a mess.

When Ye Mo was struck into the depth of the earth, he felt it even hard to breathe. If there was just one more bolt, even his essence spirit might be shattered.

This divine damnation was trying to kill him, fury spewed out of Ye Mo's eyes. Although he couldn't move, he charged at the immortal king barrier like crazy. He knew his divine damnation was different to

others. Other peoples' divine damnation was more terrifying the longer it went on but the most terrifying part of his divine damnation was the first and second wave. If he survived the first two waves and broke through, then the divine damnation later on would be nothing for him.

Although he only had one breath left, Ye Mo's body refinement cultivation method still kept running. After devouring these golden lightnings bolts, his body refinement cultivation method kept strengthening his body. Meanwhile, his Three Birth Chant used the lightning to charge at the immortal king barrier along with the immortal spirit chi.

Rumble, lightning sounded again, the second wave didn't pause at all. It didn't give Ye Mo any chance for a breather. Seeing that it was about to fall again, Ye Mo pressed against the immortal king barrier even harder.

The sky lit up even more and was about to explode. Ye Mo knew clearly that if he couldn't reach immortal king before the second wave, he would have to die. It seemed that this divine damnation had already predestined his death. It was because he prepared so well that he survived for this long.

Ye Mo took out two more Yi King pills and ate it. terrifying immortal spirit chi instantly filled up Ye Mo's meridians. The immortal spirit chi and extremely dense lightning source were almost about to break Ye Mo's meridians apart. Even his immortal spirit body middle stage could only barely stop this barrage.

Suddenly, the immortal spirit chi supplied by the extreme grade immortal range and the Yi King pill joined up and smashed open the immortal king barrier like a hammer when Ye Mo's meridians were just about to explode.

Crack.

It was almost too quiet to hear but Ye Mo felt his body go lighter, the stacked up immortal essence and lightning source expanded. It was like water flowing into a larger container.

Ye Mo felt his power rise like crazy. A terrifying power tens of times stronger than great eternity immortal peak stage surged up and this power kept rising. Even his spirit sense started to expand like crazy.

This feeling of increase of power made Ye Mo almost feel he was dreaming. He had gone through break through many times but never had it been this crazy and clear.

The remnant immortal spirit chi didn't disperse and kept charging at Ye Mo's body refinement cultivation.

The torn meridians healed and the broken legs also repaired. Ye Mo's body refinement cultivation level increased rapidly.

This divine damnation was terrifying to the extreme but once blocked, the benefits were unimaginable.

Ye Mo felt his power kept being released. His immortal king domain was released, it expanded many times bigger and began to perfect. A terrifying immortal king chi spread out in the immortal graveyard range. Some yin element immortal spirit beast and ghosts all fled away. this force was too powerful, the divine damnation was too crazy.

Ye Mo felt his body cracked lightly again. The next moment, an even more powerful feeling came. Ye Mo clenched his fists and slowly got up. He knew that he reached immortal spirit body tertiary stage.

Crack.... Crack... rumble....

Explosions sounded above his head, 108 golden bolts of lightning rained down splitting off into tens of directions smashing at Ye Mo.

Ye Mo looked up calmly at these lightning bolts. He didn't even release a single defensive magic artefact this time and just flew up.

At the same time, he released lightning sword and punched out. He was going to keep using this golden lightning to increase his power and strengthen his lightning sword.

...

Immortal graveyard valley was too distant in Jin Shang heaven, not many people stayed here. Although Ye Mo's divine damnation commotion was huge but not many people could feel it. but this didn't mean there weren't any. Two great eternity immortals outside the immortal graveyard range felt this terrifying divine damnation and that almost indiscernible immortal king pressure.

"A level six immortal spirit beast is breaking through to level seven now?" One great eternity immortal stared in shock.

"How could there be immortal spirit beast in here breaking through to level seven?" The other grey robed great eternity immortal asked in confusion.

"This is definitely the power of level seven immortal spirit beast break through. If we don't leave quickly, we would die if that immortal spirit beast's spirit sense scans us." The red robed great eternity immortal said seriously.

The grey robed one nodded "okay, let's go now."

The two great eternity immortal sped off.

...

In the outskirts of Jin Shang heaven domain realm, the eagle eyed man walked around for a long while before finally finding a small void whirlpool and going in.

He always stayed in the void and knew about it much more than ordinary people. Soon he passed the realm domain.

If Ye Mo was here, he would recognize this person to be the eagle eyed immortal king he fought in the void. Ye Mo didn't expect this guy to chase him to Jin Shang heaven. But his flying ship wasn't as fast as Ye Mo's low grade god artefact and plus he needed to keep searching for Ye Mo's tracks, that's why he was one month behind.

If he didn't have a tracking disk, he would've long lost Ye Mo.

“You think I can’t do anything to you just because you fled to Jin Shang heaven?” The eagle eyed man sneered and kept searching.

Five minutes later, he chose a direction and flew towards it.

Seven days later, the immortal king stopped two fleeing great eternity immortal.

These two were the two who saw Ye Mo have divine damnation and ran away.

“Wan bei greet immortal king master.” The grey robed great eternity immortal immediately answered.

“Have you seen a person like this?” The eagle eyed immortal king casually waved out Ye Mo’s image in the air and asked.
