Chapter 1811: Master and disciple reunion

Seeing this man, Qin Nianmei immediately forgot about Ye Mo and quickly held Zhen Bingyu's hand
"Martial sister Bingyu, this is martial brother Yan Jiutao. He's also a sect members now..."

While Qin Nianmei was ranting non stop about her boyfriend, Hai Wuchuan looked at Ye Mo with eyes like he was going to kill him.

"You're Ye Mo?" Yan Jiutao looked at Ye Mo plainly and said.

He had heard of Ye Mo many times, Qin Nianmei brought him in and Hai Chuanwu belittled Ye Mo more than once in front of him so he didn't have any good impression of him.

Ye Mo acted as though he didn't hear the words. He didn't even want to answer to this arrogant tone. Would an immortal king waste time with a great unity immortal?

"Ye Mo, martial brother Jiutao is talking to you." Qin Nianmei saw Ye Mo didn't answer Yan Jiutao and immediately became unhappy reproaching loudly. Without Yan Jiutao, Qin Nianmei had some gratitude towards Ye Mo but now that Yan Jiutao was here, her focus was on him.

"Martial sister Bingyu, where do you plan to go now?" Ye Mo ignored Qin Nianmei as well.

It was purely a deal between them. If Qin Nianmei didn't step on him to please the person she liked Ye Mo would act like before but now she can piss off.

Zhen Bingyu immediately said "martial brother I'm going to see my master first."

"Okay, in that case, I'll be going first." Ye Mo turned to leave without any intention of going up.

Qin Nianmei was furious that she was ignored in front of the person she loved and the person she loved was ignored too.

She stared at Ye Mo and said hatefully to Zhen Bingyu "Martial sister Bingyu, this person is too rude."

But what answered her was Zhen Bingyu's back figure and Zhen Bingyu saying "Martial brother Ye Mo, I'll walk you off."

Zhen Bingyu wasn't going to walk Ye Mo off but she didn't want to reply to Qin Nianmei. She was the sect leader's daughter and Zhen Bingyu didn't like reproaching martial sisters so she used this opportunity to leave.

"Martial sister Bingyu seemed to have changed, she wasn't like this before." Shi Youya said dazily.

"Martial sister Bingyu is innocent and after staying with that bastard for this long she would be tricked by him. this bastard, I'll never let him go." Hai Wuchuan said coldly.

Yan Jiutao said plainly "when I heard Nianmei mention him, he was only golden immortal middle stage but now he's great unity immortal primary stage. It seems his talent is quite good, I heard he's a level three immortal pill master too."

"Brother Jiutao, he's just an solo cultivator from a small town, great unity immortal is his limit, how can he compare with you. Aren't you level three immortal pill master too and about to reach level four immortal pill great master." Qin Nianmei explained.

Hai Wuchuan laughed "Of course, if martial brother Jiutao wasn't so excellent, the sect leader wouldn't loosen up so easy. But this Ye Mo isn't simple, one cauldron of his pill made the sect leader almost marry martial sister Nianmei."

"Martial brother Hai..." Qin Nianmei said unhappily.

“This person’s chi is soft and not sharp. He ignores me on the surface but he doesn’t release any killing intent. One could see he had never been through killing. An immortal who hasn’t gone through that will never understand the true secret of being strong. Even if he reaches immortal pill great master there’s nothing special.” Yan Jiutao said calmly.

Qin Nianmei said curiously “Brother Jiutao, if they really went to middle heaven domain how could they not experience killing?”

Yan Jiutao smiled “Martial sister Bingyu didn’t admit if they went first of all. Second, if they hide in a place to cultivate, I believe no one would know.”

“But I feel this Ye Mo is very attractive. After he left, martial sister Chunmo mentioned him more than once. Then, she left the sect herself.” Shi Yayou said on the side.

“Haha, that’s not worth mentioning.” Yan Jiutao.

To him, a person who’s stuck in lust would have a limited future no matter how talented he was. Reaching the top was everything, if anything stopped his path he would kick it aside. Even if Qin Nianmei blocked his cultivation, he would kick her away without hesitation.

It was because his heart was so firm that he went to the chaos star realm alone become far stronger than his peers. He was great unity immortal primary stage and about to reach level four immortal pill great master, he felt even middle heaven domain or grand heaven domain prodigies were only like this.

...

“Your master is here.” Before Ye Mo released flying magic artefact after the two left the city, Ye Mo stopped and smiled.

“Bingyu you’re really back.” A voice said with surprise and joy. at the same time, two figures landed. It was Zhen Bingyu’s master Yang Ren and sect leader Qin Peifu.

“Naster.” Zhen Bingyu went up and bowed. She thought she wouldn’t get to see her master for her entire life again but now she saw her master when she just came back to Gong Hua heaven.

Yang Ren was very happy too. Zhen Bingyu was her favourite disciple, she taught her like her own daughter. When she found out that Zhen Bingyu was heavily injured and carried onto an immortal ship she was almost going to leave Gong Hua heaven and chase over.

But Extreme Sword Sect needed to be rebuilt and she couldn’t leave. Freedom king was immortal king middle stage, she could stop him with Qin Peifu but if one left, it would be dangerous.

“I didn’t expect it to be you, Bingyu, was he the abstruse immortal who carried you away?” Yang Ren looked at Ye Mo and asked Zhen Bingyu.

Zhen Bingyu quickly said “Yes, master, if it wasn’t for martial brother Ye Mo, I would be long gone.”

Hearing this Yang Ren was shocked, how could she not have realised her disciple’s change? Zhen Bingyu’s tone meant that Ye Mo was equally as important to her. Although she was shocked, she kept calm on the surface and smiled to Ye Mo “Thank you for saving my disciples, I looked favourably of you before, you’re very good.”

Ye Mo saluted with his fists “Ye Mo greet sect leader Qin and elder Yang.”

Qin Peifu was also happy seeing Ye Mo just like before. he smiled “Pill master Ye’s progress is astounding. You were only golden immortal before but now you’re great unity immortal. Perhaps your pill concoction skills have sky rocketed too.”

Yang ren sighed, how could she not know what Qin Peifu felt. Qin Peifu really didn’t like that Yan Jiutao, he liked this pill master Ye. But pill master Ye was gone and Qin Nianmei found the person she really liked. He had no choice but to agree. His mindset also changed a lot too after the sect incident.

If it was before, Yang Ren would persuade Qin Peifu to go with Ye Mo but now her disciple was with Ye Mo. If her disciple liked Ye Mo too then of course she would help her disciple. If she wasn’t wrong, Ye Mo was probably immortal pill great master now.

But the dao heart she taught Zhen Bingyu was different to how Zhen Bingyu was acting now. She needed to ask Zhen Bingyu about this.

“We received Nianmei’s messenger flying sword and knew you were back so we came.” There were so many things Yang Ren wanted to ask but she couldn’t ask here.

Qin Nianmei and them were all walking out of the city.

“Pill master Ye, come to Extreme Sword sect together, it’s being rebuilt. When we’re done, it will be the top immortal king sect of Gong Hua heaven.” Qin Peifu looked at Ye Mo warmly. Of course he could guess what Yang Ren could guess too.

If he could choose between Yan Jiutao and Ye Mo he would definitely choose Ye Mo. Yan Jiutao was suitable for being core sect disciple and bring the sect to glory but not suitable for son in law.

Ye Mo saluted with his fists “Two immortal king masters, if I have time I will come visit again. I’ll be off now, good bye.”

Then Ye Mo released Blue Moon and instantly flew off. He didn’t want to talk with Hai Chuanwu and them. When Ye Mo left, Yang Ren sound transmissioned, be careful of Freedom king, he wants the mist lotus heart fire.

Ye Mo waved his hand and disappeared on Blue Moon. Be careful of Freedom king? If that mere immortal king middle stage dared to come, he would be the first to kill him.

“This person is too rude.” Qin Nianmei and them came up.

Chapter 1812: Instant kill Freedom king

Ye Mo stood on Blue Moon with a calm mind. It was good that Zhen Bingyu could go back to her master. he had too many things to do now, the first was to find a place with dense immortal spirit chi for his sect.

Ye Mo didn't plan to set up another immortal city in the immortal realm alone. He was going to build a sect to summon the cultivators from Luo Yue continent. The immortal city still needed to be set up too but it would be outside the sect.

But it's been half a month and with Ye Mo's speed he had gone through half of Gong Hua heaven but he still didn't find a place with dense immortal spirit chi. However, he did some good mountains on the way and collected them into his golden page world. he had already collected more than a hundred mountains in his golden page world.

Just when he was thinking if he should call out small ginseng or shadowless, his spirit sense scanned a familiar chariot. Ye Mo heard that immortal music again.

Such familiar sound. Before, Freedom king's one wave of spirit sense almost crippled him giving him an extreme sense of suppression. If he didn't have bitter bamboo and Three Birth Chant, he would be traumatized.

A few decades later, he was an immortal king now.

Thinking about this, Ye Mo breathed, he didn't stop Freedom king and instead turned to leave. He believed Freedom king would come hunt him, it was his rule that anyone who saw his chariot would have to stop and make way. Now that he turned to leave how could Freedom king let him go?

Plus, Freedom king knew he had mist lotus heart fire, he would definitely know what he looked like. The reason he turned to leave was because he didn't want to kill more people. There were at least a few hundred beautiful woman on his chariot.

Ye Mo's spirit sense scanned Freedom king but Freedom king's spirit sense took a long while to see Ye Mo and this was because Ye Mo let him see it. even Freedom king could only barely see Ye Mo's figure leave much less the other people on the chariot.

Seeing someone dare to leave after seeing his chariot, Freedom king was furious. To him, when his immortal music sounded, who didn't know it was him? yet this guy dared to leave after hearing it.

Just when Freedom king wanted to use spirit sense to suppress Ye Mo, he felt the chi of mist lotus heart fire.

Freedom king rose up out of the chariot and said " Wait for me here, I'll be back soon."

He had to speed up as that chi was about to disappear.

Ye Mo saw Freedom king chase over and sneered. This guy should be called arrogant king. All this guy did was ride in his chariot floating around everyday showing off.

"It's you indeed, you run quite fast..." 15 minutes later, Freedom king stopped Ye Mo.

"Hahaha...." Freedom king laughed hysterically. "I regretted so much letting you go before, but now it seems what is mine will be mine. My South Abyssal Hollow Flame is ready for nirvana. I heard you're a pill master too right? Perhaps you can work for me, I don't have to kill you, you can be my dog."

Suddenly, Freedom king stopped. He felt things wasn't right, Ye Mo didn't seem to be scared at all. His face was very calm.

"You're not scared of me?" Freedom king actually asked.

Ye Mo said slowly "Do you think it seems I'm scared of you. If I tell you that I've been waiting for you, would you believe it? are you an idiot? Those years ago, I could hide the mist lotus heart fire and prevent you from noticing. After all these years, you can sense it instead. Do you think you're immortal monarch or immortal emperor?"

Freedom king shook, that was true. He chased over when he sensed the mist lotus heart fire. He didn't sense it before but he sensed it now.

This thought flashed and Freedom king expanded his domain and grabbed at Ye Mo. He didn't need to use domain at all against a mere great unity immortal but he was scared by Ye Mo's words.

Ye Mo sneered and punched.

Freedom king felt his domain crippled like rag doll and then shatter under Ye Mo's domain.

"You're an immortal king..." Before Freedom king finished, he was swept by Ye Mo's fist wind whirlpool.

Rumble, Freedom king couldn't even release immortal artefact and was punched away. his immortal essence crippled and he spat many mouthfuls of blood.

Before Freedom king could even think of running, Ye Mo appeared before him and grabbed Freedom king in his hand like a little chicken.

Freedom king was full of shock. Wasn't Ye Mo just a small golden immortal? He was already very shocked that he reached great unity immortal but now he was clearly an immortal king, a very powerful one. He was instant killed.

"Immortal friend... qian bei have mercy..." Freedom king said worriedly.

Just when Ye Mo wanted to take Freedom king to a place for interrogation, his spirit sense saw a few familiar people. He reproached "how did you know I had mist lotus heart fire? And why did you annihilate Extreme Sword sect?"

"Don't attack, I'll say it." Freedom king no longer had that emperor feeling. He was like a rich second generation shivering. Ye Mo couldn't help shake his head.

Ye Mo didn't even do anything and this Freedom king said shakily "because Qin Peifu and Yang Ren found some good things in a ruin. This included a bottle of Yi King pill..."

"I heard from Gong Sunyin, it's also Gong Sunyin who said you had mist lotus heart fire. So I used that little girl as excuse, that girl called Zhen Bingyu. I saw her once, she seemed not bad, so, so...."

The more he spoke, the more Freedom king felt Ye Mo's killing intent.

Ye Mo realised, so it was Gong Sunyin this old bastard. He was friends with Qin Peifu and probably knew what Qin Peifu got.

"Qian bei, spare me, I'm willing to be your dog..." Freedom king begged.

Ye Mo thought, it was good to have a henchman to do things for him but he soon gave up the thought. This was too dangerous.

Even if he controlled Freedom king's essence spirit and could kill him at anytime, his secret could still be spilled. If news of him reaching immortal king from golden immortal in a few decades got out, immortal emperors would be lining up to find him.

Thinking about this, Ye Mo smashed out his immortal essence. Freedom king who had dominated Gong Hua heaven for countless years was easily killed. A white purple flame floated in the air, it had three golden colors, it was purple nirvana level three.

Ye Mo set up a few restriction and quickly put it inside a box. He knew this was South Abyss Hollow Flame, ranked 7th amongst all the heaven flames.

The next moment, he took a ring too. Ye Mo didn't have much hope towards this ring. After all, he killed two immortal king tertiary stage and didn't get much.

But when Ye Mo's spirit sense scanned inside, he was dazed. There were piles of level seven and level eight immortal spirit herb and even one level nine immortal spirit herb. there were 5 billion immortal crystals and two middle grade and three low grade immortal ranges.

After taking the ring, Ye Mo put a mask on his face and changed into a blue robed skinny middle aged man before heading to the people he saw before.

Chapter 1813: Found sect

At the entrance to a valley, a few immortals were discussing.

“Martial sister Jiang, I don’t want to go to Mo Yi heaven Zi Shuang immortal sect, brother Ye said he would come Gong Hua heaven. I want to go adventure with him.” One bulky man said with a frown.

There was a dark skinny female immortal next to the man, she immediately said “Sister in law, I want to wait for brother Ye with brother Yi at Gong Hua heaven, you really want to go to Mo Yi heaven?”

It was an extremely pretty woman being asked, her body was also very good. She immediately said “brother Yi, A Zhu, of course I wouldn’t go to Mo Yi heaven alone. Brother Ye has helped us a great deal, since we’re here, of course we’re going to wait for brother Ye.”

“Pill master Ye taught me, when my wife and I were fleeing around, pill master Ye took us in. We’re going to wait for pill master Ye here like brother Yi. If it wasn’t for pill master Ye, I would still be around golden immortal.” One abstruse immortal primary stage handsome man said.

These were Yi Teng, Tong Zhu and Jiang Jin that Ye Mo met at Black Weed town as well as North Far State Immortal Herb valley founding father Liu Zhongyan and his wife Liu Man.

Hearing this, a rather chubby man said worriedly “It’s fine if we stay here but martial sister Jiang Jin has passed through the first round of test and was chosen by Zi Shuang sect. If we don’t go to the second test I’m afraid they might get angry.”

“Yes, I heard that elder say that martial sister Jiang Jin is a natural seduction body. If we annoy such a big sect, we wouldn’t even know how we die.” A female immortal next to the chubby man said worriedly.

Jiang Jin sighed “If I knew this I wouldn’t have gone to the test.”

"It's me who is to blame. I just saw they were taking in sects but I didn't ask which heaven domain they were from. I didn't expect Mo Yi heaven would come to Gong Hua heaven for disciple. this is very rare..." Yi Teng frowned.

Before Yi Teng finished, he stopped and said respectfully "qian bei."

The rest of them all called qian bei respectfully. A blue robed skinny middle aged man suddenly appeared before them.

"Are you guys Yi Teng, Tong Zhu, Jiang Jin, Liu Zhongyan and Liu Man?" Ye Mo asked. He didn't know the other man and woman.

Ye Mo trusted them but he didn't want to casually expose his identity.

"Yes, qian bei, it's us." Yi teng quickly said.

These few people were very nervous. They couldn't see Ye Mo's power, he was quite possible a great immortal. If this great immortal was from Zi Shuang sect, then what they said was inappropriate.

Ye Mo nodded "I'm Ye Mo's martial brother, Ye Mo is in solitary cultivation right now. He asked me to come to Gong Hua heaven and help him establish a sect. he mentioned you guys to me and showed me what you look like. I was planning to go to black weed town to find you but I didn't expect to be able to see you guys here, saves me some time..."

"Huh..."

Yi Teng and them dazed. They came to Gong Hua heaven to find Ye Mo but it had been a few decades and there was no news of Ye Mo. They didn't feel Ye Mo had left. They thought their power was too low and couldn't find the entire Gong hua heaven.

"Qian bei, you're really sent by brother Ye?" Tong Zhu asked nervously.

Ye Mo smiled "Of course, Ye Mo said you guys would either be in black weed town or Gong Hua heaven. It's so indeed. He said wants to set up a sect so that all the cultivators who ascended from Luo Yue continent can gather here. This sect will be called Mo Yue immortal sect. If you guys are willing to join then come find a sect ground with me. if not, I won't coerce you."

"I believe, I'm willing to join." Yi Teng said immediately. Ye Mo mentioned to him about setting up a sect called Mo Yue before.

Plus who would be that bored to come trick them? Their talent wasn't great and they were very poor.

"I'm willing..."

Other than the two Ye Mo didn't know, the rest all agreed. Ye Mo was very happy.

"You guys don't need to call me qian bei, just call me martial brother Luo. I will be providing the cultivation method you guys will be using." Ye Mo said.

Hearing this, everyone else other than Yi Teng was very happy.

Yi Teng said "Yes, martial brother Luo but martial sister Jiang Jin was favoured by Zi Shuang immortal sect..."

Ye Mo smiled and waved his hand "I already heard your conversation. She only went through the first round test so she wasn't a part of the sect yet."

Plus in the low heaven domain, Zi Shuang immortal sect was at most an immortal king sect.

"Martial brother Luo, Zhuo Yueshen and Xue Meiyu have been teaming up with us, would they be able to join too?" Yi Teng pointed at the two Ye Mo didn't know and asked.

Ye Mo saw that one was golden immortal tertiary stage and one golden immortal middle stage. Yi Teng was only golden immortal peak stage now, Tong Zhu and Jiang Jin were just golden immortal primary stage.

“Of course, our sect is being built, we need to take in disciples. Of course I will welcome them.” Ye Mo smiled to the two.

“Since you guys all joined, we’re willing to joint too.” Zhuo Yueshen and Xue Meiyu said at the same time.

Ye Mo nodded, the friends Yi Teng made were good. If it was some ordinary person, he might wait for a while. After all, the Zi Shuang immortal sect thing wasn’t over.

“Okay, then we’ll all be part of the same sect. I’ll be the martial brother, the rules of the sect will be decided by us.”

Ye Mo then took out tens of immortal artefacts and said “Each one of you can pick three, as the founders of Mo Yue immortal sect, you can’t not have good magic artefact.”

“Top grade attack immortal artefact? Top grade flying immortal artefact, top grade defense immortal artefact?” All of them took in a cold breath, these things were used by big sects. Since when could they get to use it. Even if they had it they wouldn’t dare to use it, it would be robbed immediately.

What shocked them even more was to follow, Ye Mo threw out 7 storage ring “There are pills in these rings including great unity pill, one each.”

Hearing this, the seven were completely dazed. Such pills were only used by core disciples of top sects in the low heaven domain. yet this martial brother Luo gave them so much.

“Put the things away, Mo Yue immortal sect will be built in the grand heaven domain in the future. These things are really nothing.” Ye Mo reminded.

Finally, they put the magic artefact and storage rings away. they were more excited about the future now. how could someone who took out this many good things be ordinary?

Ye Mo then said “Now, we need to find a place to build the sect. you guys have been in Gong Hua heaven for a while, do you know which place has good immortal spirit chi?”

Zhuo Yuesheng’s heart was still beating fast. He almost felt this wasn’t real. He wouldn’t be able to afford these things after a few thousand years but now it just appeared in his hand out of thin air.

After getting so much, he was desperate to help build the sect so he got up and said “Martial brother Luo, I know a place, it’s very large and the immortal spirit chi is extremely dense. There’s mountains and rivers nearby, it’s a beautiful place.

“Where is it?” Ye Mo asked desperately.

Zhuo Yuesheng quickly said “It’s good but a level seven immortal spirit beast appeared there once and in the depth there are poison mists. Even great eternity immortal wouldn’t dare to go in, but I heard that the poison mist can be drawn away by formation. I just don’t know if it’s real or not...”

“Brother Zhuo are you talking about Shang Lai immortal mountain?” Yi Teng immediately asked.

Chapter 1814: Mo Yue immortal mountain

Shang Lai immortal mountain was very famous in Gong Hua heaven. The immortal spirit chi here was dense but one couldn’t cultivate here as there was poison inside.

Now, the group had appeared at the outskirts of Shang Lai immortal mountain. It looked obscure from a distance, there seemed to be a few extremely high peaks inside with clouds circulating around. In the middle, there was a huge lake that was nearly a hundred km square area.

This place was indeed a good place to build sect.

“Many sects have come prospecting here but they couldn’t draw away the poison. Even if they did, it would come back after a while. Therefore, no one came here.” Zhuo Yuesheng said.

Ye Mo thought for a moment and took out a jade slip and drew out the grand immortal cities of the grand heaven domain on it. After some thought, he drew some special features of Mo Yue city onto the jade slip. Then he gave it to Yi Teng and said “This is the plan for the immortal city. You guys set up an immortal city on the outskirts of the Shang Lai immortal mountain, the size can be the size of average immortal cities.”

Yi Teng took the jade slip and said “Martial brother Luo what if we can’t draw away the poison?”

There was something else he didn’t say, usually, it was immortal king sects that could build immortal city on the border of the sect.

Ye Mo smiled and took out 50 immortal crystals cards to Yi Teng “there’s 5 billion immortal crystals here, just go build it. 50 billion is far from enough for an immortal city but you don’t need to save. You can hire large amounts of immortals to build, as for building a sect on the mountain, I will deal with it.”

These people were completely dazed, Ye Mo took out 50 billion immortal crystals in one go, what was this? This martial brother Luo was too wealthy? They had never even seen more than a few million immortal crystals and Ye Mo just took out 5 billion straight up.

Ye Mo hesitated for a moment and said “these immortal crystals are definitely not enough but just use them. The city needs to look grand, don’t be scared of wasting materials. As for formations, you don’t need to find people to set them up. Our city will be called Mo Yue immortal city, if people are willing to invest in here or open by business or live here, you can record them based on the situation. I’ll come out after I remove the poison mist, this place can be called Mo Yue immortal mountain now.”

“Okay, martial brother Luo, I will definitely do this well.” Yi Teng said firmly.

Ye Mo nodded and took out a jade card to Yi Teng “This is a protection jade card, if there’s anything crush it and I will come immediately.”

Ye Mo was going inside the mountain to remove the mist, he can't watch them with spirit sense all the time. They were too weak and people would definitely notice them setting up immortal city here.

Seeing Ye Mo really take out all these things to build the city, everyone was overjoyed. If the city was built, they would be ancestor level immortals.

When they saw Ye Mo starting to build mountain protection formation, they immediately realised why martial brother Luo said they didn't need to invite people to set up formation. He was an immortal formation great master.

Ye Mo came from earth and knew that if any sect and power wanted to develop, there needed to be a flow of trade and a chain of supply. Otherwise, they wouldn't be able to progress.

He didn't know how many people would be ascending from Luo Yue continent but he knew clearly that he can't provide cultivation resources for everyone. The sect members needed to go find it themselves and trade. Mo Yue immortal city would be providing a platform for this trade.

Ye Mo went into the mountain and set up another stealth formation. Of course, this can't hide the entire mountain, he didn't have that much materials too.

The reason he set up the stealth formation was to call out shadowless.

"Can you devour the poison mist here?" Ye Mo called out shadowless and asked. According to his understanding, there was nothing shadowless couldn't devour.

Shadowless sniffed and suddenly said happily "boss, this is good thing but there's no use in me devouring it."

Ye Mo said with annoyance "of course I know it's useless for you to devour it. you devoured a level eight demonic immortal spirit beast core and you still can't reach heaven tao tertiary stage. It would be strange if this little mist would be enough for you."

Shadowless smiled “boss, I don’t mean it that way. I mean that if I devour the mist it would soon come out again. It’s released by something.”

“Oh, what is it?” Ye Mo thought the poison mist was naturally occurring.

Shadowless said “I heard small ginseng say that there’s an immortal spirit beast called spirit feasting beast in the immortal realm. it eats immortal range and immortal mines. It’s completely white and very small. It can also store extreme pure immortal spirit chi inside its body. After it eats immortal range, it would refine its body and remove any impurities. The poison mist are the impurities.”

“It seems you have learned quite a lot with small ginseng. This beast is probably something you want to eat. Catch this beast, if I’m in a good mood I might let you eat it.” Ye Mo immediately knew from shadowless’s tone that it wanted to eat the beast.

Shadowless quickly said “boss, I can’t catch it, there’s definitely an immortal range here and it hasn’t been found meaning there’s a top grade natural stealth formation. Only small ginseng would be able to find it. small ginseng said spirit feasting beast are the previous form of immortal marrow crystal, many immortal wells are formed after the beast dies.”

As soon as small ginseng was called out, it said “boss I can find this natural formation.” Then small ginseng charged into the mist.

Ye Mo followed small ginseng and shadowless could only followed behind Ye Mo.

Small ginseng passed through some valleys and caves, four hours later, he came before a water fall and pointed at a small lake “if you go down from here you can see the natural stealth formation.”

Ye Mo felt a dense immortal spirit chi here. If small ginseng didn’t show him the way, he really wouldn’t be able to find it here.

“Can you enter the formation?” Ye Mo asked.

Small ginseng said "I can but the beast is very cunning, if it's startled it would flee immediately. It's very fast, there's no one who can chase up to it."

Ye Mo said "don't worry, I'm certain it can't get away."

He was an immortal king and he's prepared, if a small immortal spirit beast still got away then it would be really embarrassing.

Hearing this, small ginseng moved and said "come with me."

Ye Mo and shadowless followed small ginseng into the earth. They walked for a thousand steps before the view opened up. They arrived at a small space that was tens of km squared area. There were three top grade immortal ranges placed neatly. Clearly, the other empty spaces were for immortal ranges but it was all gone.

"There's enough room for at least 9 top grade small ginseng but this bastard at six. Small ginseng tell me where that bastard is, I'm going to eat him." Shadowless said.

Ye Mo knew that shadowless said this so he could eat the beast but he didn't care. He patted small ginseng's head and said "not bad you can actually come in such high level natural immortal formation, very good."

Small ginseng said with embarrassment "boss, I'm just sensitive to natural formation. If it's formation set by some master, I can't go in."

At the same time, a white figure many times faster than lighting struck across and disappeared.

Small ginseng quickly said "boss, that's the spirit feasting beast catch him. if he gets out of this space we'll never be able to find it again. This guy would turn into immortal marrow crystal or the source of an immortal well..."

Chapter 1815: Eye Catching

Ye Mo already expanded his domain and used tens of spirit sense nets to block off the surrounding. An ordinary immortal king really wouldn't be able to stop it.

The spirit feasting beast doesn't have much better power, it's main ability was super speed.

In his domain and spirit sense domain, the beast soon slowed down. Ye Mo could feel the powerful immortal spirit chi wave of the beast, who knows how many immortal ranges this guy had devoured.

Ye Mo grabbed with immortal essence hand and the spirit feasting beast was in his hands.

Shadowless came over looking pitifully at Ye Mo.

Ye Mo didn't look at shadowless, the spirit feasting beast's chi was immediately gone when it came into his hands. There was only the terrifying immortal spirit chi.

Small ginseng quickly said "boss, it would lose its life force if any foreign chi got a hold of him. but after that, it would immediately turn into immortal marrow crystal. The immortal spirit chi inside the the most pure, it's cultivation effect is many times better. Some of them would turn into immortal marrow crystal after devouring many immortal ranges. Then after countless years, it would turn into all sorts of immortal wells. There's nine immortal ranges here, I'm afraid someone is keeping it."

So that's how immortal wells came to be. This was the first time Ye Mo heard of it, but this might just only be one of the ways immortal wells were formed. Ye Mo said "this is a natural formation, it's very hard for people to find. It might not be kept by someone."

At this moment, the dead spirit feasting beast turned into an immortal marrow crystal bigger than a cooking pot. Ye Mo thought that if he could devour this he might reach immortal king middle stage or even tertiary stage.

At the same time, Ye Mo thought that if he placed this in Mo Yue immortal mountain, it could definitely form an extremely dense immortal well.

Should he use it for cultivation or build an immortal well. Ye Mo was indecisive. As for giving it to shadowless, he had long forgotten about it.

Seeing Ye Mo hold the crystal, shadowless called in a whine.

Ye Mo immediately said “You can’t eat this, if you eat it one go, you will burst.”

Ye Mo believed that even shadowless wouldn’t be able to eat such a dense crystal in one go.

“I can eat it slowly, one bite at a time.” Shadowless argued.

This wasn’t easy to decide now, he did agree to shadowless but it was such a waste to give such a good thing to shadowless.

Thinking about this, Ye Mo coughed “can you reach immortal tao if you eat it?”

Shadowless hesitated for a long while and said “probably not.”

“Then you still want me to give you something this good to eat? How many people could break through with this? stop wasting food.” Ye Mo reproached in embarrassment.

“I knew it would be like this.” Shadowless said.

“Go devour the poison mist the spirit feasting beast let out, that can be your reward.” Ye Mo patted shadowless’s head.

Shadowless grumbled “boss, don’t trick me with such low level tricks, if you want me to do things then I’ll do it, don’t make it seem like a reward.”

Helplessly, Ye Mo could only take out that level nine immortal spirit beast core and gave it to shadowless "that's your reward."

"Hmm, this is good, boss you have so many good things. With this beast core, I can definitely reach tertiary stage." Shadowless ate the core immediately.

Ye Mo put away the three top grade immortal range and said "if there's a sliver of poison mist left, you're over."

"I promise there won't be half a sliver left." Shadowless said and rushed out to work.

...

A day later, shadowless and small ginseng returned to the golden page world. the poison mist was gone and shadowless desperately went back to the golden page world to refine the beast core.

Ye Mo stayed at the main peak of the Mo Yue immortal mountain thinking about how to set up this formation. Although he put away the immortal ranges, the immortal spirit chi here was still much better than ordinary places.

After three days, Ye Mo derived a defense formation. A hundred thousand void defense kill formation. This immortal formation would be set up with a hundred thousand refined mountains as formation flags. Each formation flag was closely linked. These were the clear formation flags, there would also be a set of stealthed formation flags.

These two sets formed a defense and attack immortal formation. The good thing is that it can be upgraded at any time. Ye Mo could only set up level six peak immortal formation now.

There wasn't a hundred thousand peaks in his golden page world but there were a thousand. With the mountain peaks already here, there were about 1200 mountain peaks. These were enough for the formation to be level six peak.

Ye Mo put all the peaks around the Mo Yue immortal mountain into the golden page world and left the main peak. He would spirit control the main peak outside while the rest inside the golden page world.

Ye Mo took out the time formation disk and used a day to spirit control the main peak. Then he went inside the golden page world and used time formation disk to spirit control the other ones.

The main peak of the mountain had a thousand km radius and soar into the clouds. The rest of the peaks were from a few km to tens of km radius. The biggest was only a few hundred km radius.

Two months outside the time formation disk had passed and Ye Mo had spirit controlled all the peaks.

Ye Mo left the golden page world and was about to set up formation when he felt the jade card he gave Yi Teng was crushed.

Ye Mo was very assured with Yi teng. He wouldn't crush the jade card if there wasn't something special. The next moment, Ye Mo appeared at the border of the mountain.

The framework of a huge immortal city was there. Not even ten percent of the city had been completed but it already showed its grand force.

But Ye Mo was furious, Yi Teng was bleeding over his face and suppressed to the ground. Liu Zhongyan and Zhuo Yuesheng next to them were also bleeding from a powerful force. The tens of golden immortal cultivators and below were fell to the ground. It was a great eternity immortal tertiary stage suppressing him.

Ye Mo sneered and a powerful force flew out like crazy. That great eternity immortal was immediately smashed away into a rock. Yi Teng and them instantly felt relieved. It was as though the mountain on them had been removed.

"Martial brother Luo..." Yi Teng called out in surprise and joy.

Ye Mo flicked a few pills into their mouths and asked "what is going on?"

Yi Teng saw Ye Mo easily sweep away a great eternity immortal with his force and was very shocked. He immediately said “we were building the city and hired a lot of people. Because we bought too many materials and they were too precious, five days ago a few great immortals came here.

Among them were people from Zi Shuang immortal sect, they came to take away Jiang Jin. The other people saw the work here was huge and the poison mist were gone so they said this was their land. They also sent out many news saying that the poison mist here was gone and people could come here to take land.”

“Where is Jiang Jin?” Ye Mo’s tone had a sliver of killing intent.

Zhuo Yuehseng immediately said “martial sister Jiang Jin had been taken away by Zi Shuang immortal sect people. Martial brother Yi Teng immediately crushed the jade card and we were suppressed by that person.”

The great eternity immortal tertiary stage came to his senses, just Ye Mo’s force almost tore him apart. He was already scared before Ye Mo spoke to him. he was a great eternity immortal tertiary stage and he almost died from Ye Mo’s force, Ye Mo might even be an immortal monarch.

“Qian, qian bei...” This great eternity immortal said fearfully.

“You said that my land is yours? And you’re going to take my people? If I didn’t come were you going to kill everyone here?” Ye Mo asked frigidly.

“Yes, no, no....” The great eternity immortal couldn’t even speak.

Ye Mo raised his hand and hacked out a sword ray, one arm immediately fell off. Ye Mo asked coldly “where was Jiang Jin taken to? Who took her?”

Chapter 1816: Pity I won’t allow it

“Jiang Jin was taken by Zi Shuang immortal sect, it has nothing to do with me... I’m just Peng Xie immortal city’s Immortal Ride Merchant Tower manager...” The great eternity immortal said in horror. He didn’t expect Mo Yue immortal city’s background was this strong. To him, Ye Mo was definitely an immortal king tertiary stage. Although their power was stronger in the Peng Xie immortal city, this place wasn’t Peng Xie immortal city. Even immortal king wouldn’t have time to save him.

Seeing this great eternity immortal can’t speak properly, Ye Mo threw another sword ray. Another one his ear disappeared. Then, Ye Mo’s voice sounded “be specific, if you can’t then I will sever your hands and feet slowly.”

“Yes, yes, I’ll say it...” The great eternity immortal used immortal essence to stop the bleeding and said “Mo Yue immortal city had bought too much materials lately, we merchants are bewildered, then we got some news so we came to see. at the same time, Zi Shuang immortal sect found out that Jiang Jin was here so they took her. There’s some connections between us so we came together.

After coming here, we saw the poison mist was gone and there’s about to be a beautiful city built here so we were all interested. Other than me, the rest of the people had gone back to Peng Xie immortal city to discuss how to divide things. Because Jiang Jin is here, Zi Shuang immortal sect wants a share too.”

“Martial brother Luo, Tong Zhu and Meishu also went with Jiang Jin.” Zhuo Yuesheng said.

Ye Mo nodded and waved his hand sealing the immortal essence of this great eternity immortal then he said to Yi Teng and Zhuo Yuesheng “You two come with me to Peng Xie immortal city.”

Then Ye Mo gave Liu Zhongyan a jade card “You and Liu man stay here to built the city. I will be back soon. There’s three of my spirit sense attacks in the jade card. If someone dares to attack the city use it.”

“Yes martial brother Luo.” Liu ZHongyan answered, Ye Mo let him see what was real power. A possible great eternity immortal was defenseless against martial brother Luo, this meant that martial brother Luo might be an immortal king.

Yi Teng brought up the great eternity immortal on the ground and jumped on a top grade flying immortal artefact Ye Mo released.

Peng Xie immortal city wasn't close to Mo Yue immortal mountain. Ye Mo only used a very ordinary top grade flying immortal artefact and took less than half a day to arrive.

The abstruse immortal city guards saw Ye Mo still flying in the air restriction and was about to go up to stop them. But when they saw the guy missing an arm and an ear in Yi Teng's hands, they immediately stopped.

No one didn't know the guy in Yi Teng's hands, he was the number one manager of the number one merchant tower in the city, Zhen Ying, great eternity immortal tertiary stage. Yet such a master was subjugated into that state, who would dare to go up?

They could only report this to city lord and Immortal Ride merchant association.

When Ye Mo went into the city, he scanned his spirit sense out. There was spirit sense restriction everywhere but they were like broken nets to Ye Mo.

Ye Mo came to assert dominance, how could he be merciful? For Mo Yue city to stand in Gong Hua heaven, he wouldn't be able to suppress those ambitious people if he didn't assert dominance.

The immortal realm was like the cultivation realm, power was everything.

The city lord of Peng Xie immortal city was a great eternity immortal peak stage, when he heard that someone dared to break the rules and take down the manager of Immortal Ride merchant tower, he was furious and was about to charge out.

But then, he felt a powerful spirit sense ravage through the spirit sense restrictions in the city, he was dazed. With such power, going up was suicide.

These spirit sense restriction were like egg shells to Ye Mo, what can he a mere great eternity immortal peak stage do? even if he wanted to suck up to Immortal Ride merchant association, he can't lose his life. the next moment, he sat back into his seat and calmed himself down.

This wasn't something he could intervene in. all he had to do was suck up to the winner at the end of this.

...

Immortal Ride merchant association was the number one merchant association in Gong Hua heaven. Even in the rest of the low heaven domains, it was famous and had business everywhere.

The reason it was so famous was because the number one association leader was an immortal king primary stage peak. With the large amount of resources of the merchant association, Zhen Zheng's power rose rapidly, he might even reach immortal king middle stage in another few decades.

At this moment, the top floor of the grand hall of Immortal Ride merchant association was filled with people, Zhen Zheng was sitting at the top. Next to him was a purple robed great eternity immortal peak stage. He was the vice sect leader of Zi Shuang immortal sect, Ji Wuliang.

Ji Wuliang was about to sit there because Zi Shuang immortal sect was an immortal king sect, the sect leader Li Kai was an immortal king middle stage.

Ji Wuliang had a face full of smile and said "We Zi Shuang immortal sect are outsiders after all, we don't want to intervene in that Shang Lai immortal mountain. As for Shang Lai immortal city, we just want ten percent of the land. Of course, we're willing to listen to Bi Qian immortal king master on the specifics of the share."

"Yes, sect leader Ji is right, we should listen to Bi Qian immortal king master." Another bearded great eternity immortal got up and said. He was the manager of the second largest merchant tower in the city, Half God merchant tower Hong Cheng.

With these two opening up, the rest of the people all got up saying they were willing to listen to Bi Qian immortal king.

Bi Qian immortal king Zhen Zheng smiled "since everyone says so I won't be too polite. Shang Lai immortal mountain has always been surrounded by poison mist, since the mist is gone, it's a great thing

for Gong Hua heaven. The immortal spirit chi there is dense, our merchant association is all over Gong hua heaven but we don't have a sect ground..."

Zhen Zheng paused and after seeing no one objected, he nodded happily "I'm planning to use it as the sect grounds for Immortal Ride merchant association. The city will be shared by everyone, other than the ten percent Zi Shuang immortal sect takes, everyone else can share the rest. I believe with its location, Shang Lai immortal city will be the number one immortal city of Gong Hua heaven.

Plus, everyone saw the framework of the city. It's grand indeed, there has never been such a grand immortal city in Gong Hua heaven. The founder is indeed talented."

Everyone agreed in unison.

....

Ye Mo's spirit sense blades pierced countless spirit sense restrictions and found the most luxurious building in the city. It had the four golden words, Immortal Ride Merchant Tower.

At the top of the building was a grand hall, there were some people gathered there. Other than some maids, the weakest were great eternity immortal primary stages, there was even one immortal king.

At the same time, Ye Mo's spirit sense saw Jiang Jin, Tong Zhu and Xue Meishu. They were locked in a room but weren't hurt.

Ye Mo scanned the hall, the immortal king was vigilant and got up in shock. Seeing this, everyone looked at Bi Qian immortal king in confusion.

Ye Mo just came here and heard these people discussing how to share Mo Yue immortal city and he was furious.

The next moment, the door to the hall as well as the restriction was kicked open.

“Pity I won’t allow it.” Ye Mo’s voice filled with bleak killing intent sounded.

Chapter 1817: You only have one chance

Everyone looked at the door, then they saw manager Zhen Ying. However, this glorious manager has lost an arm and ear. He was also in the hands of a small golden immortal.

No one in the hall moved, they all looked at Zhen Zheng. When Zhen Zheng saw Ye Mo, he suppressed his fury. He could tell Ye Mo was immortal king primary stage but his immortal essence was immeasurable.

“You’re an immortal king too, why did you break into our meeting hall? Do you think the Immortal Ride merchant association is easy to abuse?” Zhen Zheng said coldly.

Ye Mo grabbed Zhen Ying and threw him into the center before sneering “I didn’t think Immortal Ride merchant association is easy to abuse but do you think my Mo Yue immortal mountain is easy to abuse?”

“Mo Yue immortal mountain? Where is that from? I’ve never heard of this immortal mountain, friend is this a misunderstanding?” Zhen Zheng was furious, he was certain this was a misunderstanding. He wasn’t going to let things go like this.

Yi Teng saw the immortal king of Immortal Ride merchant association didn’t even dare to fight Ye Mo immediately, how could he not know martial brother Luo is an immortal king too. He immediately got out and said “Mo Yue immortal is the previous Shang Lai immortal mountain. Our martial brother Luo removed the poison mist and told us to set up Mo Yue immortal city and sect but you guys want to take over it by force and you also robbed martial sister Jiang Jin.”

With this, everyone understood what happened.

Zhen Zheng clearly understood what happened too. Mo Yue immortal mountain's background was an immortal king, but even so he wasn't scared.

He laughed instead "that's right, my Immortal Ride merchant association is interested in Mo Yue immortal mountain. You're a mere foreign immortal king, and you dare to set up a sect in Gong Hua heaven quietly. Since you're an immortal king too, I've give you some face. I'm going to take the mountain and that city, I'll compensate you one billion immortal crystals, as for injuring my manager, I'll let it go."

Ye Mo smiled and couldn't be bothered talking anymore. He waved out a flame and Zhen Ying turned to flying dust.

"You're asking to die." Bi Qian immortal king yelled in fury and released a red ray that instantly loomed over Ye Mo.

The rest of the great eternity immortals spat blood from the powerful immortal king pressure.

Ye Mo waved his hand and Bi Qian immortal king's terrifying pressure was gone.

As an immortal king primary stage, Zhen Zheng was far weaker than Freedom king. He was worthless to Ye Mo.

The next moment, Ye Mo released his immortal king domain and spirit sense blades. Zhen Zheng's body shook after being hacked by the spirit sense blades. His immortal king domain didn't even last one second and crumbled in Ye Mo's domain.

Zhen Zheng immediately realised that he was weaker than an insect to Ye Mo. Ye Mo didn't even use his real power, if he did, he would be instantly killed.

Zhen Zheng wanted Ye Mo to stop immediately but that spirit sense blade was too powerful. One mistake and it would hack into his sea of consciousness, he couldn't even talk.

Then Ye Mo walked up and slapped. The red magic artefact was slapped to the side. The instant Zhen Zheng called out stop, Ye Mo slapped on his face.

Zhen Zheng was an immortal king but he lost most of his teeth from this slap and his face was bloody.

Thud, the pressure in the hall was gone. Bi Qian immortal king was grabbed by Ye Mo like a small chicken.

The battle ended in a few seconds.

Ye Mo sealed all of Zhen Zheng's meridians and dropped him next to his feet. Then he sat down on where Zhen Zheng sat. He said to Yi Teng and Zhuo Yuesheng "you two sit next to me."

Yi Teng and Zhuo Yuesheng woke up, martial brother Luo was this powerful. He was definitely an immortal monarch, which immortal king would have such power. The two answered in surprise and joy "yes, martial brother Luo."

Then he looked at Zi Shuang sect vice sect leader and yelled "get off and invite Jiang Jin and them over, if they're missing one strand of hair, I'll go to Mo Yi heaven and wipe your Zi Shuang sect clean."

"Yes, yes..." this vice sect leader said shakily. This martial brother Luo was too scary. He instantly defeated Bi Qian immortal king, he was certain that the sect leader Sii Cheng immortal king was definitely no match for this murder god.

"Immortal friend, it was the immortal ride merchant association's fault, I apologise." Zhen Zheng struggled to crawl up, he was filled with fury but also regret.

If he knew the background of Shang Lai immortal mountain was this powerful, he wouldn't dare to scheme it even if it was ten times bigger. He hated Zhen Ying to the bones but pity he was dead so he couldn't vent out his anger on him.

Ye Mo scanned the shaky great eternity immortals in the room and said slowly "you all want a share of my Mo Yue immortal mountain?"

“We don’t dare qian bei, wan bei was blind...” Half God Merchant Tower Fu Hongchen looked bulky and clumsy but he was the smartest one.

Ye Mo said “since you were blind, then what should you do?”

“Half God Merchant tower is willing to compensate Mo Yue for the losses and give the greatest contribution to Mo Yue immortal city construction...”

As soon as he said this, Ji Wuliang had brought Jiang Jin and them over.

Jiang Jin and them saw Ye Mo sitting at the top and Bi Qian immortal king on the ground, how could they not realise what happened. They came up and greeted Ye Mo.

Ye Mo told them to sit next to him too and said to Ji Wuliang “you’re sect leader is about to be here.”

Ji Wuliang shivered, he knew that Ye Mo knew about him notifying the sect leader. He shivered “Wan bei know I can’t decide this so I notified sect leader Master...”

“Haha...” A laughter sounded “Zi Shuang immortal sect Li Kai greet immortal king friend.”

at the same time, an extremely powerful immortal essence wave came, the terrifying immortal king domain swept over the entire room. just when everyone was feeling unbearably uncomfortable, a golden robed man landed in the hall.

Ye Mo sneered and reached out his immortal king domain, at the same time his spirit sense domain complimented his immortal king domain. The room immediately eased up and then there was a light cracking sound.

Li Kai’s face changed greatly. He felt his immortal king domain dissipate, at the same time, he found he was bound.

His face changed greatly, even if he was bound for one second, then Ye Mo could easily kill him. he couldn't laugh anymore, he burned his immortal essence like crazy and broke free of that terrifying binding feeling.

At this moment, Ye Mo's calm voice sounded "if I wanted to kill you, not even your essence spirit would remain now."

Li Kai sweated cold, from what he heard from Ji Wuliang, he thought Ye Mo ambushed Bi Qian immortal king but now it seemed Ye Mo really had the power to instant kill Bi Qian immortal king and him.

Li Kai quickly saluted with his fists respectfully "Zi Shuang immortal sect Li Kai greet immortal friend. Thank you for having mercy, Li Kai is willing to apologise for any rudeness."

Hearing this, everyone in the hall realised that this martial brother Luo was far stronger than even immortal king sect.

"We can talk about the apology slowly, sit on the side first." Ye Mo said calmly. He came to assert dominance and get benefits not to kill. Without benefits, he can't even keep building his city and sect.

After Li Kai sat down, Ye Mo looked at Fu Hongcheng and said "you only have one chance, if you waste it, there won't be Half God Merchant tower anymore. Okay, you can talk about how you want to compensate now."

Chapter 1818: Great Harvest

Fu Hongcheng didn't dare to test his luck at all, he went up and bowed respectfully "master Luo, Mo Yue immortal city bought a lot of materials from my merchant tower, in order to show my genuine will, we're willing to supply 20% of the materials needed to build Mo Yue immortal city and supply one billion immortal crystals. If Mo Yue immortal city needs Half God merchant tower to buy materials from other places, we're willing to help for free."

Ye Mo nodded, 20% of the materials is quite a lot and this guy is willing to give one billion immortal crystals. He's quite serious.

"Very well, I'll take that 20% of materials. I won't let you give me the one billion immortal crystals for free, you can have a moderate level merchant tower in Mo Yue immortal city."

Hearing this, Fu Hongcheng rejoiced. His heart was aching from giving so much away but now that he got a merchant tower, he finally got some back. He quickly said "thank you master Luo, I will do my best to help build the city."

"Very well, you can go now. you can go to my martial brother Yi Teng later." Someone like Fu Hongcheng would be much more experienced in city building than Yi Teng.

Fu Hongcheng left happily, Ye Mo waved his hand and Zhen Zheng's restriction was removed, he looked coldly at him "what does your immortal ride merchant association plan to do?"

Seeing how Li Kai couldn't even do anything against Ye Mo, Zhen Zheng knew that Ye Mo could kill him all too easy. He had to grasp the opportunity, otherwise he would be over.

He quickly bowed "I'm willing to supply 5 billion immortal crystals and provide 50% of the construction materials."

Zhen Zheng was ready to give out a lot, he knew that if Ye Mo didn't like what he gave, he would be over.

Ye Mo nodded "on this account I'll let you go. If you offend me again, Immortal Ride merchant association will forever disappear."

"Yes thank you master Luo." Although Ye Mo didn't give him merchant tower, Zhen Zheng still thanked in horror.

Ye Mo thought and eventually said "that 5 billion can be your investment, you can have a merchant tower at Mo Yue immortal city too, the area will be double that of Half God merchant association."

Hearing this, Zhen Zheng breathed easy. He didn't care about the merchant tower in Mo Yue Immortal City but Ye Mo saying this meant that he wouldn't die.

After Zhen Zheng left, another black faced great eternity immortal came up "wan bei Yi Tian Merchant Tower Kui Gu. We're not as big as Half God Merchant tower but we're willing to supply 500 million immortal crystals and 10% of the materials."

"Okay, once you supply enough materials you can have a merchant tower at Mo Yue immortal city, the area will be half that of Half God Merchant Tower." Ye Mo said.

After Kui Gu left, another beautiful young woman came up. She bowed to Ye Mo and then said "Wan bei Hai Lan immortal city, Huan Feng Merchant Tower Lu Feng, I happened to come by. We're willing to supply the remaining materials needed for Mo Yue Immortal City construction as well as materials for future needs and supply man power for city construction. On top of that, we're willing to supply Luo qian bei with the materials to establish sect."

"Oh." Ye Mo looked at this Lu Feng in surprise. She didn't need to supply that much, she did so meaning she had something to ask. These things added together was so much more than what Zhen Zheng supplied.

"What request do you have?" Ye Mo asked.

"Wan bei want one chance of master Luo fighting for us." Lu Feng said.

Ye Mo immediately realised this Lu Feng was very cunning. It seemed this woman had a powerful enemy but on account of what she agreed to give, Ye Mo nodded "okay, I'm no good person but I don't kill innocent people. As long as you have reason on your side and the opponent is below immortal monarch, I can help you once."

"Thank you master Luo, wan bei definitely won't dare to ask qian bei to kill innocent." Lu Feng thanked.

Ye Mo gave her a jade card "when you need my help bring the jade card over."

“Yes.” Lu Feng took the jade card and retreated.

The rest of the people heard Ye Mo’s words and took in a cold breath. Ye Mo could kill anyone below immortal monarch, how dominant was such words. How many immortal monarchs were in the low heaven domain? He could pretty much kill anyone in low heaven domain.

Zhen Zheng’s mouth was bitter, Li Kai was shocked and rejoiced that there wasn’t big feud between them.

The rest of the people all said they were willing to contribute to construction, Ye Mo was happy with their attitude to let them go. Then Ye Mo looked at Li Kai.

Li Kai got up and saluted with his fists “If there’s anything you need just tell me immortal friend.”

Ye Mo smiled “okay, I’m happy with what sect leader Li said. There’s many warm hearted merchant associations helping with city and sect construction. But this sect is built on my martial brother’s request. My martial brother ascended from Luo Yue continent. He built this sect so the cultivators from Luo Yue continent can have a place to go.”

Ye Mo continued “I want to ask sect leader Li to help me set up a notification at the immortal ascension palace and major immortal cities in low heaven domain telling Luo Yue continent cultivators they can come to Mo Yue Immortal City, would you be able to do this?”

“Immortal friend Luo don’t worry, Li Kai can definitely do this.” Although this wasn’t easy, he was an immortal king and had a sect behind him.

“Okay, thank you sect leader Li. When you help me do this, I’m willing to help you concoct a cauldron of immortal pill.” Ye Mo saluted with his fists.

Just him alone couldn’t help a sect develop, it was easy to kill Li Kai but compared with dealing with Li Kai, he would earn much more by doing the latter.

“Immortal friend Luo is an immortal pill great master?” Li Kai asked in shock.

Ye Mo wanted to use his status as an immortal pill grand master to bring fame to Mo Yue, otherwise, he wouldn't say this.

Now that Li Kai asked, Ye Mo said “Sect leader Li is wrong, I'm not an immortal pill great master, I'm a level seven immortal pill grand master. I can concoct level seven immortal pill, but of course you need to supply the materials.”

“What....”

With this, Ye Mo threw a bombshell in the hall. Everyone else was shocked.

Level seven immortal pill grand master? The entire low heaven domain didn't seem to have one.

Yi Teng, Jiang Jin and them were already shocked by Ye Mo's power but now that Ye Mo said he was level seven immortal pill grand master, they opened their mouth wide in shock. In this case, Mo Yue immortal sect's future was boundless.

“Master Luo, you're really level seven immortal pill grand master?” Lu Feng asked shakily in shock.

Ye Mo nodded immediately “Of course, after my city and sect is built, I will be taking in disciples from the entire low heaven domain, at the same time, I will concoct pills for three days for the entire low heaven domain.”

Ye Mo believed that with this, it was impossible for Mo Yue sect not to be famous.

Lu Feng took out the jade card Ye Mo gave him shakily and another jade box, there was a Peng Yue immortal fruit inside “master Luo, wan bei wants to ask qian bei to help me concoct Yi King pill, wan bei only needs one pill.”

Seeing this, everyone looked at it with red eyes. This was priceless, they didn't expect Lu Feng had such thing.

If there wasn't such a powerful immortal king here, they would've fought over it already.

"You just asked me to help you fight once, if you use it now, wouldn't it be a pity?" Ye Mo took the jade card and Peng Yue immortal fruit asking.

Lu Feng said shakily "wan bei is stuck at great eternity immortal peak stage for more than ten thousand years, I started a merchant association to gather resources to break through. I got a peng yue immortal fruit but I can't find an immortal pill grand master to help me concoct pills, please help me."

"Okay, I can promise I will concoct the Yi King pill. seeing how you're helping me build Mo Yue immortal sect, I'll give you three Yi King pill. come wait for me at Mo Yue Immortal City a month later." Ye Mo said.

Ye Mo had plenty of Yi King pills in his storage ring.

Chapter 1819: Immortal formation close, immortal city rise

News of Mo Yue Immortal City's construction spread through Gong Hua heaven in the quickest way possible and then the entire low heaven domain.

There was no other reason but that there was an extremely powerful immortal king behind it and he was a level seven immortal pill grand master. When some people who came to visit saw immortal king Luo enclose the mountain with formation, they just realised he was an immortal formation great master.

Countless immortals flocked to Mo Yue Immortal City, countless merchant associations also came to here. How attractive would a city with a level seven immortal pill grand master be?

The most talented immortals all wanted to join Mo Yue Immortal City, the merchant association who wanted the most profits all wanted to have a merchant tower at Mo Yue Immortal City.

Countless people came to Yi Teng. For the first time, Yi Teng saw there was this many people giving him immortal crystals and materials. Eventually, he couldn't even handle them all. Even with Liu Zhongyan and them to help, he was still too busy.

Luckily, Lu Feng came. As the association leader of the number one merchant tower in Hai Lan immortal city, she had high means and experience. Under her lead, Mo Yue Immortal City construction rapidly went on way.

Although Ye Mo wasn't at Mo Yue Immortal City, Lu Feng and all the other merchant towers came to help. Even Bi Qian immortal king came to Mo Yue Immortal City to help. With their experience and status, how could they not see the future of Mo Yue immortal sect and immortal city?

Mo Yue Immortal City was being perfected rapidly. There were too many merchant towers contributing materials. In the end, Mo Yue Immortal City used more grand and luxurious materials.

There were tens of thousands of immortals working on construction. Because Ye Mo wasn't at the city, those people who came for Ye Mo sucked up to Yi Teng.

During this time, people could only constantly hear huge rumbling sounds in Mo Yue mountain but no one dared to go in and see.

They could all guess it was probably master Luo setting up the formation. Just looking at that huge immortal mountain, how big would the formation have to be. Because of this, people respected Ye Mo even more.

After what happened last time, Ye Mo gave Yi Teng and them a spirit sense attack jade card. But now who dared to attack the Mo Yue Immortal City managers? If they did, other people would already be helping.

...

At this moment, Ye Mo was setting up his hundred thousand void defense kill formation. Ye Mo laid down the 1200 mountain peak formation flags. Two top grade immortal range and one middle grade immortal range and three low grade immortal range.

The framework of the formation started to show. To make the formation stronger, Ye Mo added in the extreme grade and top grade immortal artefact he collected and forged into the formation too.

Ye Mo focused on the formation that he forgot about his arrangement with Lu feng. This was the end of the second month and Ye Mo finally finished this infinitely close to level seven immortal formation.

There was one main peak of Mo Yue immortal sect, eight vice peaks, 99 side peaks and 11000 elder peaks. There were 1208 peaks in total. These were the sect member cultivation grounds.

When the formation was about to close, Ye Mo was very excited too. He stood on the main peak Mo Yue peak and started to close the formation.

As the peaks were joined up, the entire mountain made huge rumbling sounds.

With this getting louder and louder, the immortals at the city all stopped what they were doing and looked at Mo Yue immortal mountain.

"The mountain protection formation is closing." Zhen Zheng looked at the obscuring mountain and murmured in shock.

Hearing Zhen Zheng say this, everyone looked nervously at the mountain. Some immortals who wanted to join Mo Yue immortal sect all knelt down.

Yi Teng and them also knelt down piously. This would be their sect. Mountain protection formation closing is a major. It is very important to big sects.

More people started to kneel.

The rumbling sound kept growing louder until 15 minutes later, everyone heard a huge crack. The heavens and earths seemed to have changed. From a distance they could only see rainbow clouds circulating mountain peaks. Below the rainbow cloud seemed to be a huge lake. A few extremely crisp immortal spirit trees reached out from the rainbow cloud seeming very lively.

The dense immortal spirit chi gathered and despite being stopped by the formation, everyone outside Mo Yue Immortal City could feel it.

Such a good place, countless people were amazed and more were thinking about how to join Mo Yue immortal sect.

Ye Mo stood at the main peak looking at the sect in joy. this place was just what he wanted, if he was going to build a sect at the grand heaven domain he would use this place as a blue print.

With the dense immortal spirit chi from these immortal ranges, Ye Mo was certain it was on par with some of the grand heaven domain sects.

The next moment, Ye Mo opened the formation and came out.

Everyone saw the scenery inside and the circulating immortal spirit chi. This was where everyone wanted to cultivate.

“Hmm, the immortal city is almost done construction?” Ye Mo looked at the grand immortal city and sighed in amazement.

“Very well very well, I’m very happy.” Ye Mo nodded.

Yi Teng and them came next to Ye Mo, Yi Teng said proudly “We received a lot of help. Lu Feng qian bei stayed in the city the whole time helping out as well as Bi Qian immortal king master and Fu Hongcheng sect leader as well as Peng Xie immortal city lord.”

“Thank you brother Zhen.” No matter what Zhen Zheng thought, he did help Mo Yue Immortal City construction a lot. Ye Mo was grateful.

Zhen Zheng's teeth grew back long time ago. Hearing this, he came up to Ye Mo and saluted with his fists "brother Luo, I was blind before, it's right of me to help the city a little."

"Okay, we'll leave the unpleasurable things in the past. If brother Zhen stays like this, I won't mistreat you." Ye Mo waved his hand.

Zhen Zheng wanted to hear this. when Ye Mo called him brother Zhen, he knew what he did wasn't in vain.

Peng Xie immortal city lord was called Wang Wangchuan, great eternity immortal peak stage. His face was sallow but his eyes were bright. However, he did contribute to Mo Yue Immortal City construction, Ye Mo thanked him politely and promised to help him concoct a cauldron for free.

Wang Wangchuan used almost half of his savings to help Ye Mo other than sucking to Ye Mo was to hear this sentence. Now that Ye Mo said this, he was very thankful.

"Lu Feng, I'm very sorry, I said I would give you Yi King pill in one month, I didn't expect the sect formation took two months. I wasted a lot of your time but you help me so much here." Ye Mo said.

Lu Feng bowed "master Luo, I've already waited for ten thousand years, how could I care about this one month. Plus, I'm truly happy doing things at Mo Yue Immortal City."

"Okay, just from what you said, Mo Yue Immortal sect can't mistreat you, come with me." Ye Mo came to a huge empty ground outside Mo Yue Immortal City and set up formation flags.

In a brief 15 minutes, Ye Mo set up a level six immortal spirit chi gathering formation and threw out a few hundred million immortal crystals. Then he set up a defense and stealth formation outside the spirit gathering formation.

Ye Mo gave a jade bottle to Lu Feng "this is Yi King pill, you can go in and have your immortal king divine damnation now, I'll help protect you as compensation."

Lu Feng took the jade bottle blissfully. She didn't expect she would get a immortal king to protect her.

Lu Feng still couldn't believe the Yi King pill in her hands. She didn't even dare to open it.

"Thank you master Luo, Lu Feng will definitely repay your help." Lu Feng walked into the formation excitedly.

A great eternity immortal was about to break through to status immortal in front of everyone, this heated up the scene. Some people might never get to see the scene of immortal king break through but now they could. This was an opportunity for enlightenment.

Everyone outside the city found a good place ready to watch Lu Feng's immortal king divine damnation.

Zhen Zheng sighed. If Lu Feng reached immortal king, her gratitude to immortal king Luo would be coming from the bottom of her heart.

Chapter 1820: Fight over building sect

Lu Feng walked into the formation and calmed down her mood before opening the jade bottle.

"Special grade Yi King pill? three." Lu Feng could no longer control her excitement. With her talent and foundation she only needed one special grade Yi King pill and she would have 60% chance of reaching immortal king. All these years, she had hoped so much to get one low grade Yi King pill but now she got three special grade ones. This meant that as long as she survived the divine damnation, she would definitely be immortal king.

Five minutes later, Lu Feng calmed down again. No matter what, she must reach immortal king this time.

Lu feng put one Yi King pill in her mouth. It melted into immortal liquid immediately and nourished her meridians.

Lu Feng never had special grade immortal pills before. She couldn't feel even a sliver of impurity inside and the effects were very potent.

She quickly started to use her cultivation method to direct the potency at that not very distant immortal king barrier.

...

In just one short day in the formation, those people outside could notice the change in the sky.

Rumblings sounded in the sky, the nearby people all knew that the immortal king divine damnation was about to come.

Those high level immortals were shocked, the higher the grade of the Yi King pill, the quicker the divine damnation came. Since the divine damnation came in one day, Ye Mo's Yi King pill might be top grade Yi King pill.

"Crack..." a few lightning bolts blasted across the sky. Three bolts that were thicker than thighs struck down.

Lu Feng as the master of a merchant tower had defense magic artefact of course, it was extreme grade defense immortal artefact. She also had a top grade immortal armor.

The three bolts were ferocious but she blocked them. Unlike Ye Mo, she could only digest the immortal spirit chi in the formation and use the Yi King pill to charge at that barrier. She couldn't devour the lightning source. However, the lightning arcs could refine her meridian and body while cleansing her sea of consciousness. These were important factors in reaching immortal king.

To Ye Mo, this divine damnation was far weaker than his. It was weaker than even his great immortal divine damnation.

However, it was quite something for Lu Feng.

Seeing this, Bi Qian immortal king knew Lu Feng's potential was great than his. His immortal king divine damnation wasn't this huge.

As Lu Feng blocked the bolts of lightning, the nearby immortal sat down feeling the immortal dao waves from the divine damnation.

Lu Feng's divine damnation went on longer than Ye Mo's divine damnation. After 27 bolts, it stopped. Until after a long time did the second wave come but they were getting thicker and stronger.

The immortal king divine damnation was an extremely hard divine damnation to pass. Although it was beneficial to view it, a small part of immortals were also defeated and lost confidence in their dao heart.

When the 81 bolts of divine damnation was about to be over, a powerful force rose from the immortal spirit chi gathering formation, the immortal spirit chi turned into mist form and was devoured by Lu Feng. Half a day later, an immortal spirit cloud fell, even Ye Mo benefited from the powerful dao waves in the cloud.

Everyone knew that Lu Feng succeeded in becoming immortal king.

This was the time to feel the dao wave, everyone held their breath and silently felt it.

Three days later, the immortal spirit chi in the formation stopped. Lu Feng changed into a clean set of clothes and came out of the formation joyfully.

She immediately came up to Ye Mo and bowed "thank you master Luo for letting me reach immortal king. Lu Feng wants to join Mo Yue immortal sect, please take me in."

Mo Yue sect's power was much stronger than her merchant association alone. Although she earned large amounts of wealth, she still couldn't reach immortal king.

If she joined such sect, it would definitely benefit her cultivation much better.

Ye Mo wanted to congratulate her but didn't expect her to ask to join Mo Yue sect. He dazed and said happily "okay, welcome. You will be the sect elder from now on. There are 1208 peaks in the sect, there are eight side peaks, you can go choose one."

Even if Lu Feng wasn't an immortal king, Ye Mo welcomed her to join greatly due to her capabilities.

"Lu Feng greet sect leader Luo." Hearing this, Lu Feng bowed in joy.

Ye Mo quickly said "I'm not the sect leader, I'm just the vice sect leader, the sect leader is still in solitary cultivation."

Hearing this, everyone was more shocked. Immortal king Luo was already this powerful but he wasn't yet sect leader, was there a more powerful sect leader in solitary cultivation?

With this, more people claimed they wanted to join Mo Yue immortal sect. Seeing this scene, Ye Mo was dazed, he didn't expect people to be this fervent.

Ye Mo quickly flew high and said "Mo Yue immortal sect construction isn't finished yet, Lu Feng has great contributions to us so she joined ahead. When the sect is finished, we will take in disciples at the Mo Yue Immortal City square. But don't have too much hope, although the sect just started out, our standards are very strict. As for the specific details, I will tell you guys later."

Then Ye Mo looked at Lu Feng "Elder Lu just reached immortal king, go find a place to stabilize your power first."

Lu Feng quickly said "Due to the top level Yi King pill, I've already pretty much consolidated my power. Mo Yue immortal sect needs people right now, I'll bring people to help with construction."

"This is great." There were more than a thousand peaks, it was no small feat.

Ye Mo took out a jade slip he prepared "I will go build my own main peak, build the remaining 107 peaks based on the jade slip. When these are done, you can arrange people to build the other 1100 peaks."

Ye Mo then said loudly “for all those sects or merchant association who helped with Mo Yue Immortal City construction, as long as I’m satisfied, I will concoct a cauldron of pills for you after the sect is completed. The pill concoction time is the three days I promised before but if I find the peaks you build are bad quality, I suggest you don’t apply because that wouldn’t be helping you concoct pills...”

Hearing this, more people were excited. Level seven immortal pill, just one was priceless much less a cauldron. As for Ye Mo’s threat, no one even cared, they would be working their best, how could it be bad quality?

With this many people wanting to help, Lu Feng only needed to organize them. There wasn’t even enough peaks to distribute. People would be competing on how to make the sect leader pleased.

Ye Mo called his people over and told Jiang Jin and Xue Meishu to help Lu Feng in construction. Meanwhile, Yi Teng, Liu Zhongyan, Liu Man, ZHuo Yuesheng and Tong Zhu would be responsible for people applying to stay in the city.

The first batch entering the city would be a few big merchant towers. The rest would be some immortals who wanted to stay in the city to cultivate. Everyone who wanted to come in had to disclose their background and pay some immortal crystals.
