Chapter 1821: No one from Luo Yue

Mo Yue immortal city was a new city, it didn't build a slum region. Ye Mo built an immortal city not a charity city. Those who couldn't afford to stay can only wait till the day Mo Yue sect took in disciples. Those who were accepted didn't have to pay one immortal crystal and would have a better cultivation environment than Mo Yue Immortal City.

The immortal city was done, Ye Mo started to build the Mo Yue Immortal City defense formation as well as the immortal spirit chi gathering formation. He placed the last top grade immortal range below the city.

When the formation was done, Ye Mo didn't intervene in city management. Yi Teng and them were still responsible. He went into the main peak Mo Yue peak and started his construction. It would be him, Luo Ying, Ning Qingxue and them staying here so he must build it himself.

At the same time, Ye Mo decided to split the immortal marrow crystal into three parts, one would stay in the golden page world to form an immortal well and provide for his cultivation. Another part would be placed in Mo Yue immortal sect to form an immortal well for sect members but only people with certain contribution can go in.

The last part would be placed on Mo Yue main peak.

The largest thing in Gong Hua heaven now was Mo Yue immortal sect. Even the rebuilding of Extreme Sword Sect wasn't as hot as this.

...

"I want to go to Gong Hua heaven, there's two king sects being built. I heard that Mo Yue immortal sect just started and they need large amounts of disciples. It has very dense immortal spirit chi and the sect leader is a level seven immortal pill grand master."

“Wait, I see notifications in every immortal city that Mo Yue Immortal City are taking Luo Yue continent cultivators.”

“Luo Yue continent is just a cultivation realm, can there be that many disciples? It means that they would take in everyone from Luo Yue continent while the rest of the people just had to be alright in talent.”

“Really? Then I’ll go see too.”

Discussions like these were everywhere in the low heaven domain. Immortals flocked to Gong Hua heaven, some great eternity immortal tertiary stage and great eternity immortal peak stage rushed over. They heard that Lu feng of Huan Feng merchant tower reached immortal king on the spot with the help of the sect leader. Then she joined the sect and became a sect elder.

At Huang Zen heaven, Nuo Xi immortal city, two hollow immortal men were discussing.

“Jie Feng brother do you want to go to Gong Hua heaven?” one middle aged man asked.

The skinny scholarly looking man hesitated before answering “Brother Meng, Yue Heng heaven is capturing Luo Yue continent cultivators everywhere. If we were caught on the way, it wouldn’t be good. Plus, we don’t have that many immortal crystals to get there.”

If Ye Mo was here, he would realise that one was Meng Zhen who escaped to Luo Yue continent from another cultivation realm, and Zhu Yin island lord Jie Feng.

“I heard this notification was made by Mo Yi heaven Zi Shuang immortal sect, they even said they would pay for the travel fees. Zi Shuang immortal sect is a king sect and there’s immortal king master, they probably wouldn’t be scared of Yue Heng heaven lord Lu Zhengqun. Plus that Mo Yue Immortal City sounds very familiar. There’s a Mo Yue City in South Peace State. Perhaps the two are related.” Meng Zhen said quietly.

Jie Feng hesitated for a while before nodding “that’s good, we can’t hide forever. I’ve ascended for a few decades yet and my cultivation essence still hasn’t been converted.”

Just when they got up, they were stopped by a long faced immortal.

“Qian bei...” Meng Zhen couldn’t even see through the power of this immortal.

The immortal sneered “ascended from Luo Yue continent, very well, we need cultivators like you.”

“You’re from Yue Heng heaven?” Jie Feng asked in shock.

“You’re very smart, come with me. Otherwise don’t blame me.” The long faced immortal sneered.

Jie Feng’s heart sank to the bottom, he didn’t expect he would eventually fall into the hands of Yue Heng heaven.

“What enmity does Luo Yue continent cultivators have with Yue Heng heaven? Why are you capturing us?” Jie Feng asked word by word.

The long faced immortal said in contempt “you little things don’t have the right to know, just come with me.”

Jie Feng and Meng Zhen were taken away by this long faced immortal without resistance. No body said a thing.

In one small corner, a female immortal with her face covered saw this and thought in contempt “I heard of this Jie Feng, he’s Heartless Sea Zhu Yin island lord, he’s strong but he’s this careless.

Hearing their conversation I wanted to get to know them and go to Mo Yue immortal sect together but now, it seems impossible.”

...

At this moment, the huge square of Mo Yue Immortal City was filled with immortals.

Ye Mo was also excited standing at the main seat. He had been to quite some sect events but never had he had such an experience. This time, he was sitting at the top.

It had been nearly a year since he came to Mo Yue Immortal City. The construction of the city and sect was long complete. He built the main peak and the rest of the peaks were constructed with Lu Feng and them's help. He was very happy with the design.

The immortal city was running and today was the disciple intake for Mo Yue immortal sect.

The stage was filled with guests from big sects and immortal cities. The strongest were all immortal kings. Even sects from other heaven domains came.

"Immortal friends, thank you for coming to the first disciple intake of Mo Yue immortal sect. this time, Mo Yue Immortal sect will take in one thousand disciples..."

Before Ye Mo finished, the square erupted, there were at least a few million immortals here and more were coming but they were only taking in a thousand people.

Seeing this Ye Mo used his immortal essence to suppress the discussion in the square "everyone calm down, although only one thousand people are taken in this time, we will take in large amounts of disciples every year. As for some excellent immortals who weren't chosen they can still be an outer sect members and through performance reach inner sect members."

Hearing this, everyone finally calmed down.

It was mainly Lu Feng and Yi Teng taking the lead, as for the testing immortal artefacts, Ye Mo made them. Other than some talent testing immortal artefact, he also made a testing door.

It would test immortal spirit root, perseverance and intellect forming nine levels. Below level three would be disqualified, only those above level three would pass through to one to one testing.

The cultivation realm cultivators have spirit root and when they come to immortal realm, it would turn into immortal spirit root. A good spirit root in the cultivation realm doesn't necessarily end up becoming a good immortal spirit root in the cultivation realm.

The city square was huge, although there were a lot of people, it didn't seem packed. Only extremely talented immortals would be tested by Ye Mo and Lu Feng personally.

Due to Ye Mo's power, many big sects already came to congratulate, even extreme sword sect.

Lu Feng greeted them and for some friendly ones who gave lots of gifts, Ye Mo helped them concoct a cauldron of pills. It was also because the sect needed allies now.

...

This was the third day of testing, the first round was over but his face was very bad.

He asked Mo Yi heaven Zi Shuang immortal sect to notify the entire low heaven domains but not a single Luo Yue continent cultivator had come.

Liu Zhongyan was responsible for this and he was very awkward. The notification clearly said that Luo Yue cultivators had the lowest requirement for joining.

Chapter 1822: Lu Zhengqun you old bastard

Liu Zhongyan and Lu Feng didn't have any good ideas, they felt it was very eerie that no Luo Yue continent cultivators came to the city but they didn't know what went wrong.

Ye Mo got up and said "Luo Yue continent's immortal ascension restriction has been broken and there are quite a lot of truth realisation state peak stage in Luo Yue continent, there's no way that not a single person hasn't ascended. Lu Feng, I'll leave the Mo Yue sect disciple intake to you.

When I come back, we will have our sect opening ceremony.”

“Sect leader Luo, you’re going out?” Liu Zhongyan asked.

Ye Mo nodded “that’s right, I’m going to those immortal ascension palaces to see for myself. If anyone dares to do anything to my Luo Yue continent cultivators, don’t blame me for what happens.”

Lu Feng really wanted to go with Ye Mo but she knew that she was needed more here. She quickly got up and said “sect leader you can go, I’ll do my best here.”

...

Ye Mo released an extreme grade immortal artefact and flew off. He was going to the Gong Hua heaven immortal ascension palace to see first and then check the immortal ascension palace of other heavne domains.

After Ye Mo flew for just five minutes, his spirit sense saw two cultivators one ahead one behind flying rapidly towards Mo Yue Immortal City. Clearly the person behind was hunting the person in front.

The person in front was a hollow immortal woman, however her flying magic artefact was quite good, it was a level six middle grade immortal artefact. The person behind was great extreme immortal but his flying magic artefact was only a level four flying immortal artefact. This way, the two just kept their distance.

When Ye Mo saw who it was running, he was furious. That female immortal covered her face but under his spirit sense she couldn’t hide at all.

The next moment, he stopped the two.

“Qian bei...” The female immortal saw Ye Mo’s flying chariot and Ye Mo’s powerful pressure and knew she couldn’t get away.

Ye Mo sighed, this female immortal was called Xi Luan, South Peace State Heaven Demon sect. she helped him fight the flame sea forbidden grounds. At that time, she was only truth realisation state level seven but now she had ascended.

Even though Ye Mo didn't ask, he knew that there was a scheme behind no Luo Yue people coming to Mo Yue Immortal City. He just came out and saw one being hunted.

Resisting his fury, Ye Mo asked coldly "what's going on?"

"Qian bei, this woman is my maid but she stole my flying magic artefact and ran off. Wan Bei is chasing him, wan bei's master is Heng Yue heaven Jun Zi immortal king master." The immortal bowed.

He couldn't even see Ye Mo's power level, this meant Ye Mo was probably great eternity immortal tertiary stage or even half way immortal king.

An ordinary person would've believed this, Xi Luan was a mere hollow immortal primary stage, how could she have middle grade flying immortal artefact?

"Qian bei, this person is lying, my flying magic artefact came from my sect, I don't even know some Jun Zi immortal king master, how can I be his maid?" Xi Luan explained.

Ye Mo asked the great extreme immortal "how long has she been your maid for?"

"Over a hundred years, or we wouldn't trust her this much." The great extreme immortal lied.

Ye Mo sneered, a few decades ago he still saw Xi Luan at South Peace State. This great extreme immortal was full of shit.

"Bullshit, I've only ascended for a bit over ten years." Xi Luan rebuked.

Ye Mo ignored the great extreme immortal and looked at Xi Luan asking “you’re called Xi Luan, South Peace State Heaven Demon sect member right?”

Xi Luan looked at Ye Mo in shock, she never told Ye Mo her origin how did she know. But she quickly calmed down and bowed “yes, qian bei, wan bei is Xi Luan from South Peace State Heaven Demon sect, how do you know me qian bei?”

Seeing the two knew, the great extreme immortal was worried and looked around for a way to escape.

“It’s simple, I have a martial brother called Ye Mo, he asked me to help him build Mo Yue immortal sect to attract the immortals from Luo Yue continent. He gave some images of the friends he knew, you were one of him. he’s in solitary cultivation so I am dealing with these things.” Ye Mo smiled.

“Huh....” Xi Luan called out in joy, she didn’t expect Ye Mo ascended and still remembered someone like her.

“No wonder Mo Yue Immortal Sect notified all the low heaven domains, so this sect is built by city lord Ye.” Xi Luan breathed easy.

“Yes, but I’m curious why hasn’t a single Luo Yue cultivator come to Mo Yue Immortal sect. Is there too little people who reach immortal ascension?” Ye Mo sighed.

Xi Luan suddenly said desperately “qian bei, wan bei came here to report this to qian bei...”

Ye Mo smiled “call me martial brother Luo, take it easy, talk slowly.”

The great extreme immortal reproached “our heaven domain heaven lord is Jun Zi immortal king, if you dare to offend...”

Ye Mo sneered and before the great extreme immortal finished, killing intent swept out and the great extreme immortal was like struck by lightning. His immortal essence and meridians went chaotic. The next moment, his main meridian exploded and blood splattered.

His meridians felt like they were bitten by countless bugs. The pain was inextricable. He wanted to beg for mercy but he couldn't even speak. How could he not know now that this person was an immortal king too, a very powerful one.

"Speak." Ye Mo signaled Xi Luan to continue.

Xi Luan felt satisfied seeing this great extreme immortal who hunted her getting subjugated. She bowed "I heard many heaven domains are capturing Luo Yue continent cultivators, they are all very scared. Many have been caught already. It's said the captivators are from Yue Heng heaven, before I came, I saw Zhu Yin island lord Jie Feng getting captured. I was very careful on my way here but I was still caught by this person. there must be many people from Yue Heng heaven hiding in Gong Hua heaven."

"Lu Zhengqun you old bastard." Ye Mo roared furiously and his killing intent soared. Although the killing intent didn't target this great extreme immortal, he was already scared soulless.

Ye Mo waved a spirit sense blade into the great extreme immortal's sea of consciousness and asked coldly "how many people did Lu Zhengqun send to each heaven domain to capture Luo Yue continent cultivators?"

The great extreme immortal answered in horror "I don't know about other heaven domains, 30 came to Gong Hua heaven."

"Where are they?" Ye Mo was more and more furious.

"I don't know..." The great extreme immortal quickly said.

Ye Mo burst his immortal essence and this great extreme immortal was blasted into pieces.

"Martial brother Luo..." Seeing Ye Mo's means, Xi Luan felt a bit uneasy.

Just when Ye Mo wanted to speak, he looked into the distant sky and soon, a dashing light arrived before Ye Mo.

“Sect leader Luo, I just wanted to go find you at Mo Yue immortal city but you’re here this is great.” Zi Shuang sect leader Sii Cheng immortal king Li Kai smiled and stopped his flying magic artefact saluting with his fists.

Ye Mo’s face was very bad, he knew it had nothing to do with Sii Cheng immortal king but him not doing his job properly was one reason too. If he did do it seriously, he would know Luo Yue cultivators were being hunted.

Seeing Ye Mo’s face, Sii Cheng immortal king’s heart skipped, it seemed sect leader Luo also received the news he got.

Sii Cheng immortal king quickly said “sect leader Luo I believe you already know, for some reason Yue Heng heaven lord Jun Zi immortal king is capturing Luo Yue continent cultivators. I just got this news, I captured more than ten people in Gong Hua heaven. Now I came to ask for your opinion.”

Ye Mo nodded, he knew that after all, Sii Cheng immortal king was just helping. He said “I’m going to Yue Heng heaven to annihilate Lu Zhengqun and his heaven lord estate. I have something I want to ask you to help with.”

“Huh...” Sii Cheng immortal king was dazed by Ye Mo’s words, one can’t just simply say that so casually.

Chapter 1823: Wipe Out Heaven Lord Estate

“Brother Luo... Although there aren’t a lot of immortal monarch in the low heaven domain but there still is. Lu Zhengqun is a heaven domain lord, if you attack him, it might bring out domain protection immortal monarch or even more powerful being to attack. Even if they can’t come, there’s a heaven lord alliance in the 11 low heaven domains. If you annihilate a heaven lord estate for no reason, it would cause big chaos...”

He was a member of the low heaven domain heaven lord alliance, if they fought he would have to fight too but he already tested Ye Mo’s terrifying power. If an immortal monarch didn’t come, he believed even the Heaven Lord alliance would be no match for Ye Mo.

Ye Mo said coldly “I’m not annihilating a heaven lord estate for no reason. Lu Zhengqun is capturing Luo Yue continent cultivators for no reason. If I don’t kill this bastard, I can’t satisfy the hate in my heart. Sect leader Li, if you’re willing help me capture the people that Yue Heng heaven set everywhere to capture my Luo Yue continent cultivators and help me go explain to the Heaven Lord alliance.”

Hearing this, Sii Cheng immortal king sighed. He knew that Ye Mo knew he was a member of the heaven lord alliance. Now he had two choices, one was to continue staying on the good side of Mo Yue Immortal sect, second was to join the Heaven Lord alliance to annihilate Ye Mo. But he knew Ye Mo’s power clearly, even the strongest immortal king of the alliance was probably no match for Ye Mo.

Thinking that Ye Mo was a level seven immortal pill grand master too, Sii Cheng immortal king soon made his decision “brother Luo, I will gamble this once. I will help you remove all the nails from Yue Heng heaven and explain to the alliance what Lu Zhengqun did. If the heaven lord alliance still wants to fight you, I can only stay out of this.”

Ye Mo smiled “brother Li, don’t worry. You won’t regret the decision that you made today. If you told what happened to the alliance and they still want to fight me, then there’s no point for their existence.”

To be honest, Ye Mo felt strange that Lu Zhengqun so overtly went to capture Luo Yue continent cultivators. There was no reason for this, it should be a secret. Did he not care other people would go investigate it?

Sii Cheng immortal king took a cold breath in, sect leader Luo was so dominant.

...

Yue Heng heaven wasn’t very famous in the low heaven domains but once the heaven lord Lu Zhengqun reached immortal king, Yue Heng heaven’s status rose.

Due to this, Feng Gang immortal city, where the city lord estate was was more prosperous.

Ye Mo was very disappointed, from the news he got, Lu Zhengqun wasn’t at Feng Gang immortal city, he wasn’t even in Yue Heng heaven.

Lu Zhengqun's heaven lord estate was extremely grand, even on par with Qing Wei heaven city lord estates.

"Who are you, how dare you stay in front of the heaven lord estate?" Ye Mo studied the place a bit and a great unity immortal landed before him reproaching.

"Where did Lu Zhengqun go? I came to kill him today." Ye Mo said coldly.

Great unity immortal thought it was just a curious person but hearing Ye Mo's arrogant words, how could he take it. he couldn't see Ye Mo's power level but he saw Xi Luan was only hollow immortal, Ye Mo probably wouldn't be very strong. He was about to release his magic artefact to attack Ye Mo.

Ye Mo just waved a sword ray and killed this great unity immortal. Seeing Ye Mo had no intentions of taking this great unity immortal's storage ring so she quickly went up and picked it up.

Seeing Ye Mo dare to kill a guard at the front of the heaven lord estate, the nearby immortals immediately surrounded and looked over in shock. Jun Zi immortal king Lu Zhengqun had very high status in the city and now someone was attacking his door. This was too absurd.

Ye Mo looked around at the immortals and said "immortal friends, I'm sect leader of Mo Yue Immortal Sect, I have no enmity with Lu Zhengqun but my martial brother is a cultivator from Luo Yue continent. But Lu Zhengqun this bastard went crazy and hunted the immortal ascension cultivators of Luo Yue continent making them unable to survive. Today, I came to save the innocent cultivators and get justice from this Lu bastard."

The people nearby immediately realised what was going on. Mo Yue Immortal City was famous all over the world, most people already knew. They also knew of what Lu Zhengqun did.

Everyone realised that karma was here. Some immortals who wanted to intervene heard Ye Mo was an immortal king and didn't dare to even talk.

If Lu Zhengqun was still in here, he would definitely kill the guy who ordered to hunt Luo Yue continent cultivators. That guy misunderstood him, he just wanted to capture a few of them and asked what was going on, not capture everyone and make it known to the world.

But in reality, if Mo Yue didn't appear, no one would say anything even if Lu Zhengqun captured all Luo Yue continent cultivators.

Then, Ye Mo released an ordinary top grade immortal artefact and sliced down at this heaven lord estate.

As an immortal king, no matter how grand the heaven lord estate, it would be hacked in half.

The great eternity immortals and great extreme immortals of the heaven lord estate wanted to stop Ye Mo but was instantly killed. The rest of the immortals fled without even daring to fight.

Ye Mo couldn't be bothered chasing, he knew that Lu Zhengqun wouldn't spill the chaos tree, he would be keeping it in his heart.

In a deep rumble, the heaven lord estate with an area of tens of km radius was rapidly destroyed into rubbles.

Then, Ye Mo used immortal essence giant hand to form a huge shovel and scooped up all the rubbles. Then he tipped it into the void.

When the shovel was gone, no one could see anything on the land anymore. They didn't know where the things went either, all they could see was a very flat land.

The immortals watching took in a cold breath, this was really a wipe out.

To Ye Mo, getting justice for Luo Yue continent was necessary but his main reason was the chaos tree. Even if there was immortal monarch to stop him, he would have to kill Lu Zhengqun. Otherwise, if Lu Zhengqun spilled the news, then it wouldn't be immortal monarchs coming after him but immortal emperor and even divine emperors.

Then, Ye Mo hacked out the immortal artefact in his hand again and split the land in half. Then, Ye Mo reached out his immortal essence giant hand and grabbed out rows of cages below the earth.

However, these cages had restrictions.

Ye Mo waved his hand and the restrictions were removed, the people inside were exposed to the sunlight.

“Isn’t that Feng Gang immortal city, level six immortal pill great master Ku Mu qian bei? He had disappeared for a few hundred years, I thought he went to middle heaven domain. I didn’t expect he was locked up in the heaven lord estate.”

“Hmm, why is the great elder of our Gang Lin merchant association locked up in here too?”

“Mang Cang, isn’t he the number one prodigy of Feng Gang immortal city, wasn’t he sent to middle heaven domain immortal monarch sect by the city lord? Why is he here?”

...

The people inside were all locked up and had their ribs chained. When suddenly exposed to the light they were dazed.

Seeing the many familiar faces, Ye Mo was furious. There were five people he knew here, Meng Zhen, Jie Feng, Xie Zhengshi, Chi Pei, Quan Luan. Meng Zhen and Jie Feng were his friends but their meridians were sealed and ribs were locked. Clearly, they suffered greatly.

These people were all overlords in the cultivation realm but now they were so easily trapped.

Chapter 1824: Fake Gentleman

Ye Mo felt a little guilty, these people were here due to him.

Ye Mo didn't go save Meng Zhen and them first, he turned to the people nearby and saluted with his fists "I believe I don't need to say what sort of a person Lu Zhengqun is. He calls himself Jun Zi immortal king, I think he can add a fake in front of it."

TL note: Jun Zi means gentleman

"Lu Zhengqun doesn't have a proper immortal king title, he just named it himself to increase his fame."

"With what he does, he wouldn't get a very high spot on the status title tower nor would he get a very good title on immortal king tablet. Jun Zi immortal king my ass!"

...

Without Ye Mo needing to do anything, Lu Zhengqun's name was infamous.

Ye Mo felt strange, what was this immortal king tablet? He had never heard about it.

Although many friends and familiar people were locked up in the cage, Ye Mo pulled the cages out. The immortal king hasn't spoken yet so no one dared to touch it.

"Is it Xi Luan goddess ahead?" Chi Pei saw Xi Luan and quickly called out. He was friends with her and since Ye Mo set up the four states teleportation formation, the truth realisation state peak stage masters almost all knew each other.

Luan Xi looked at Chi Pei and said in shock "martial brother Chi, you ascended too."

Chi Pei smiled bitterly "I was locked up here as soon as I ascended. Xi Luan goddess, how can you be here?"

Xi Luan waved her hand “we’ll talk about this later.”

Ye Mo flung out tens of flame blades and the immortal artefacts locking their ribs were hacked apart, at the same time, their restrictions were released.

Ye Mo threw out a hundred immortal pills and said “everyone have one and the hidden injuries will be healed. I’m Mo Yue Immortal sect leader, if there’s anyone who wants to go, I’m very welcome. At the same time, Luo Yue continent cultivators can stand on the side, you can join the Mo Yue Immortal sect or you can leave.”

Meng Zhen and Jie Feng rejoiced upon hearing Mo Yue Immortal sect. This sect was indeed doing things to help Luo Yue continent. They came as soon as they were captured.

Those Luo Yue cultivators who were locked up early were confused. They heard of Mo Yue City, was this Mo Yue Immortal sect related to it?

Xi Luan came up and explained. Hearing that the sect leader of Mo Yue Continent ascended from Luo Yue continent, everyone realised what was going on. They didn’t know what the sect leader was called but since he came from Luo Yue continent, it was normal that he took care of people from there.

Those people who were saved all realised what happened, Ye Mo not only saved them and gave them immortal pills. They all came up to thank Ye Mo.

At the same time, level six immortal pill great master Ku Mu came after chatting a little with familiar people. He was a skinny old man and bowed to Ye Mo “Ku Mu thank master for saving my life.”

Ye Mo waved his hand “immortal friend Ku Mu no need to be so polite, we’re all pill dao pursuers. This is nothing.”

Ye Mo said this intentionally. He heard the conversation Ku Mu had with others. He was stuck in level six immortal pill great master for tens of thousands of years unable to progress. Thus, he wanted to leave the city and go to middle heaven domain to bt.

Lu Zhengqun was very nice to him in the city and they were friends. So, when he was about to leave he notified Lu Zhengqun but he didn't expect that he wasn't allowed to leave. Then, he was thrown into prison.

Ye Mo said he was a pill dao pursuer because he wanted to attract Ku Mu to go to Mo Yue immortal sect.

Hearing this, Ku Mu indeed asked in surprise and joy "master is an immortal pill master too? What level six immortal pill master?"

"Level seven." Mo Yue Sect lacked a powerful pill master other than him.

Ku Mu looked at Ye Mo in shock and after a while, he asked in disbelief "master is level seven immortal pill grand master?"

Ye Mo knew he was being doubted, he took out a pill and gave it to Ku Mu "this is a pill I concocted, what do you think?"

Seeing this pill, Ku Mu was shook.

"This is, special grade Yi King pill..." Ku Mu said shakily. He loved pill dao but that didn't mean he didn't care about his power. He had never had the chance to concoct Yi King pill in the countless years of his pill concoction.

As a level six immortal pill great master, he knew this special grade pill almost had no impurities.

With this, everyone looked at the Yi King pill in shock. Mo Yue Immortal sect was this wealthy. Even some emperor sect from grand heaven domain can't take out Yi King pill so easily.

Some great eternity immortal peak stage and great eternity immortal tertiary stage looked at this pill and their eyes went red. If they had this pill they would have the chance to become immortal king. If it wasn't that Ye Mo was an immortal king people would be going up to rob it.

Ku Mu looked at it for a while before giving it back to Ye Mo “good pill, since master can concoct such pill, it means you’re infinitely close to level eight immortal pill grand master. I want to be your disciple, please take me in master.”

Ye Mo laughed “there’s no need for that. My Mo Yue Immortal sect’s Immortal Herb Peak is lacking a big elder, if Ku Mu immortal friend don’t mind, you can be the big elder there. What do you think? Of course, I will give you some of my pill concoction experience to you. I believe it’s not impossible for you to reach level seven immortal pill grand master from that.”

Hearing this, Ku Mu immediately knelt on the ground “Ku Mu is willing to join Mo Yue Immortal sect become Immortal Herb peak elder.”

“Okay, get up first elder Ku Mu, this Yi King pill can be a little gift to you.” Ye Mo said happily. Liu Zhongyan didn’t intend to start another sect so Ye Mo decided to open up an Immortal Herb branch for him in the sect. Liu Zhongyan can manage that branch. Ku Mu is the big elder and directly responsible to the sect leader. Ye Mo could tell Ku Mu doesn’t really care about position, his passion is in pill dao.

Seeing Ye Mo casually give him such a precious pill, Ku Mu was more excited. With his great eternity immortal peak stage and immortal essence foundation, he just needed to bring himself to his peak state and there would 80% chance he could reach immortal king. Plus, the experience of Ye Mo was priceless. Even if Ye Mo had more stringent conditions he would agree.

Seeing this, people erupted. Some people were already asking if they could join Mo Yue Immortal sect.

Ye Mo saluted with his fists to them “everyone, the sect will have a member intake event every year. If you want to join you can go to Mo Yue Immortal City. It will be the number one immortal city in the low heaven domains because we have level seven immortal pill grand master.”

“Sect leader master, Mang Cang thank you for saving my life. I’m willing to join Mo Yue Immortal sect but my power is low, I’m willing to go do the test there.” A young golden immortal came up to Ye Mo and bowed.

Other people wanted to be taken in immediately but this golden immortal was willing to go take the test. This gave him a good impression. Thinking about the discussion before he asked “you’re the number one prodigy of Feng Gang immortal city? Why did Lu Zhengqun lock you up?”

Chapter 1825: Mo Yue Rising

“Originally I wasn’t too clear, Lu Zhengqun was very nice to me and I was very grateful to him. Until one day, he took me to his place and sealed my power. Then he called out an essence spirit body. I heard him say to that essence spirit “what do you think of the body I found for you?”

The essence spirit went around me and said “top talent but his immortal spirit root element doesn’t really match with me.”

“Only then did I know that Lu Zhengqun wanted to use me for possession. I was furious but I couldn’t move at all.” Mang Cang spat.

Hearing this, everyone started discussing contemptuously about what Lu Zhengqun did. Ye Mo rejoiced, he wanted this effect. When he killed Lu Zhengqun in the future, no one would say that Mo Yue did the wrong thing nor would people go find out why. However, that essence spirit body probably wasn’t so simple or Lu Zhengqun wouldn’t take it so seriously.

“But you weren’t possessed.” Ye Mo asked in confusion.

Mang Cang nodded “yes because at this moment, master Zhi Ji whom Lu Zhengqun invited had something desperate to tell him. Master Zhi Ji was invited to predict the future of Yue Heng heaven. He was very respected by Lu Zhengqun so Lu Zhengqun put away that essence spirit body and said would help him look for me. if he can’t find anyone better, it would be me.”

“Do you know why that master Zhi Ji came to Lu Zhengqun?” Ye Mo asked.

Mang Cang shook his head "I don't know but when I was taken away, I was no longer a VIP but a prisoner. I just heard that master Zhi Ji say go to middle heaven domain, as for where, I don't know."

Ye Mo nodded and reached out his hand checking Mang Cang's talent. Moments later, Ye Mo put down Mang Cang's wrist in shock and asked "how old are you?"

"Wan bei is 430 years old..." Mang Cang bowed, he felt very proud of himself too. He had never seen someone who cultivated faster than him.

"You reached golden immortal in 400 years?" Where did you ascend from?" Ye Mo immediately asked.

Mang Cang said respectfully "yes master, wan bei came from Shen Qiong continent."

Meng Zhen on the side immediately said "hmm, you're from the same cultivation realm as me."

"So immortal friend is from Shen Qiong continent too." Mang Cang said joyfully.

Ye Mo sighed, Mang Cang reached golden immortal primary stage in 400 or so years and this was him without having a sect. If he had a sect, his progress would be terrifying. Ye Mo said to Mang Cang "Mang Cang, today I will take you in as a temporary disciple. if you perform well, you will be my formal disciple. you have a few martial brothers before you, I will show them to you later."

"Thank you master." Mang Cang knelt down and bowed without hesitation. It was a dream to find an immortal king master in the immortal realm.

Ye Mo let Mang Cang get up, with his side, even an immortal emperor would take him as a disciple.

Xi Luan brought the rest of the Luo Yue continent cultivators to thank him. Ye Mo found there was two people he hadn't seen before.

After introductions, Ye Mo realised these two were called Wang Xiang and Chen Jianou. They were cultivators who kept a low profile. When Ye Mo broke the immortal ascension restriction, they

ascended. From this, one could see it was unknown how many powerful cultivators were hidden on a cultivation realm. they just didn't want to come out.

"If you guys willing to join Mo Yue immortal sect, then come back with me. If not, you can leave. There won't be people hunting Luo Yue cultivators in any heaven domain anymore." Ye Mo said.

As Ye Mo expected, almost everyone wanted to join Mo Yue Immortal sect. As a newly ascended hollow immortal, it was their fortune to join such a huge sect. How could they reject it.

When Ye Mo was prepared to take everyone to leave, his spirit sense caught a familiar figure. He seemed shifty and before he could get away, Ye Mo grabbed him over with immortal essence giant hand.

Ye Mo knew this guy, when he killed Lang Yin, this guy forcefully ascended to run away. He was probably the great elder of the Ice God Palace.

"Master, wan bei is just an onlooker, it has nothing to do with me." He was Wen Wen.

"Wen Wen you old bastard, you tricked me Quan Luan to come here and get caught and now you say this has nothing to do with you." A furious voice sounded. Ye Mo knew this woman, he taught her a lesson in the cultivation realm before. she was the number one master of West Extreme State Snow Forest Pond Quan Lan, she had a disciple called Mu Feihuan.

"Master, I know Lu Zhengqun..."

Wen Wen knew he couldn't get away so he wanted to say everything he knew but Ye Mo didn't want to ask him here. He took Wen Wen on the teleportation formation and left.

News of Ye Mo coming to Yue Heng heaven and wiping out the Heaven Lord estate soon shook the entire 11 low heaven domains.

The rest of the captivators all heard news of the incident and Lu Zhengqun's infamy, they all changed their names and hid themselves.

Because Ye Mo attacked too fast, Li Kai could only capture twenty or so people. Helplessly, Li Kai could only take these people to Mo Yue Immortal sect. Ye Mo killed them all without hesitation.

...

When Ye Mo brought the people back to Mo Yue Immortal city, 1000 sect members had been taken in. there were people ranging from hollow immortal to great eternity immortal.

With the people Ye Mo brought back, the sect opening ceremony was held earlier than Extreme Sword Sect. Everything Ye Mo did made the rise of Mo Yue become inevitable. Countless sects came to Gong Hua heaven to celebrate.

The city lord of Mo Yue Immortal City was Yi Teng and the vice city lords were Zhuo Yuehseng and Jiang Jin.

...

Time flew by, this was the tenth months of Mo Yue sect opening. The city and the sect went on right course. Ye Mo didn't even need to intervene. With Lu Feng's experience the sect was organized very well, some experienced great eternity immortals were sent to different positions.

Lu Feng was just the peak lord of one peak but what she did was like a vice sect leader.

Ye Mo felt strange that the heaven lord alliance didn't come to him. Things seemed to have just ended there.

But no matter what, Ye Mo knew things didn't end here. He knew from Wen Wen that Lu Zhengqun went o middle heaven domain. Wen Wen was a hollow immortal but he could know such thing, this meant he was a core member of the heaven lord estate.

Ye Mo knew why Lu Zhengqun went to middle heaven domain, he must've predicted his location and went to find him. however, he came back down to the low heaven domain.

Mo Yue sect has pretty much calmed down and Ku Mu was in solitary cultivation ready to break through to immortal king. Even Lu Feng didn't have much things to do now. Ye Mo hasn't built up the treasure library of the sect. It's not that he didn't have time too but there were too little people in Mo Yue. If he left, there wouldn't even be a person to guard it.

As for Mang Cang, Ye Mo gave him a new cultivation method and let him cultivate on Mo Yue peak.

After these few months, Ye Mo had decided to leave and after a while come back as his original identity.

However, Lu Feng suddenly came to him.

"Martial brother Luo, do you have time?" Lu Feng had some small talk and asked.

Ye Mo nodded "I'm free but I'm planning to go to master and see if martial brother is done with solitary cultivation. At the same time, I'll tell master and martial brother about the sect and then I'll go with master to Chaos Star realm. My martial brother might come back."

Lu Feng hesitated for a moment before saying "it's this, my cultivation level has stabilized, the time for king naming is about to come, I want to go to Mo Yi Heaven to get named. Would martial brother Luo be able to come with me?"

Chapter 1826: Title Status Tower, Immortal king Tablet

Just when Ye Mo wanted to ask what king naming was, he suddenly remembered hearing some rumors about Lu Zhengqun. His immortal king title seemed to be gifted by friends. There seemed to be a special place to give immortal king title. If he didn't know anything Lu Feng would be suspicious.

Thinking about this, Ye Mo said awkwardly "I just reached immortal king and my martial brother went into solitary cultivation. I was planning to be done with my martial brother's things before going to king naming, and now you came to me."

Lu Feng heard this and rejoiced “that’s great, martial brother Luo we can go together, I was worried about going alone.”

Ye Mo dazed and didn’t ask what there was to worry about. He said “I was in solitary cultivation before and came out after reaching immortal king, so I still wanted to go ask master, what I needed to watch out for.”

Lu Feng wasn’t suspicious and immediately said “martial brother Luo, you don’t need to go back and ask. King naming is very simple, I have some information here.”

Lu Feng gave Ye Mo a jade slip.

Ye Mo looked inside and rejoiced that he made a good excuse or he would’ve been exposed already.

There were three immortal king tablets in the immortal realm. Every immortal who reached status immortal could go to anyone and leave their name. After doing so, the immortal king tablet would show their immortal king title.

But not all immortal kings would accept this title, some people didn’t like it and would use a title of their own or given by friends. But that was only amongst friends, if they joined any event or tournament, they would have to use their title from immortal king tablet.

Once you were named on the immortal king tablet, you would enjoy the fortune of the immortal realm and sense the universal laws more clearly.

Lu Zhengqun accepted Jun Zi immortal king because he wanted to be more famous. It was just like Extreme Sword sect Qin Peifu and Yang Zai. They didn’t have a title but they made one up. Only this way would Extreme Sword sect seem more powerful.

Ye Mo breathed easy, he thought that you made your own title.

“One thousand years is up?” Ye Mo looked at the jade slip. King naming was very messy before but later on, system gradually formed and that was the king naming every millennium.

Lu Feng immediately said “no, there’s still there years before the 1000 years but those who wants to get named have to go beforehand. There’s a title status tower next to every immortal king tablet. One must go in first before king naming. You can sense the world dao waves inside and gain enlightenment on power and god art. The longer you stay there, the better it is for your future. Of course, most importantly, the better for king naming.

There’s 81 levels in the tower, each level has nine rooms. If we go in later, the rooms will be taken by others and we can only stay at the worst spot or wait for another thousand years. In the tower, the higher level you go, the more benefits you receive and the better your immortal king title. The level in the tower you reach corresponds to the spot of your name on the immortal king tablet.”

“In that case, people would be long there already. If we go now, wouldn’t we still be behind others. Plus, there’s 700 or so rooms. There wouldn’t be 700 immortal kings appearing together in 10000 years.” Ye Mo asked.

“It seems you really know nothing about the immortal king tablet and title status tower.” Lu Feng explained. “When the 33 heaven domains first split, there were three immortal king tablets. At that time, there wasn’t title status tower, immortal kings could go to immortal king tablet whenever they wanted. Later on, when the heaven domains united to agree to king naming every thousand years at the same time, a title status tower appeared next to each immortal king tablet out of nowhere.

At the same time, people found that if you wanted to get your immortal king title you would have to go to the tower. Only when you meditate inside the tower would your power be stronger after king naming. The tower opens a year before the immortal king tablet, the higher you go, the better the dao waves.”

Ye Mo realised “so that means if we go late, we can only stay at the bottom floor and not go to the top floor? But even so we don’t need to go a few years ahead.”

Lu Feng shook her head “no, you can’t easily go up to higher floors. Usually, if one can reach 50 levels, they would be extremely powerful amongst immortal king. I don’t know about middle and grand heaven domain but in the low heaven domain, ordinary immortal kings are around 20 to 40.

In fact, there's only 300 rooms or so from level one to level forty. The rooms below level 20 aren't very valuable. Thus, the people are fighting over a hundred or so rooms so it's very intense. Before the title status tower opens, those people going to get king names would stay at the immortal king tablet square to sense the tower's dao waves. The better they feel it, the higher they would be able to climb in the tower. Some people would even go ahead five or six years."

Ye Mo asked in confusion "even so, there should be enough for the low heaven domain. There would be an extra 100 or so immortal kings in the low heaven domain every a thousand years?"

Lu Feng sighed "if it was just the low heaven domain competing then this 100 or so is enough. But like the immortal king tablet, the tower is in three different heaven domains but it's the same thing. If you go in from any heaven domain, you will end up in the same place. So, all the immortal kings in the 33 heavens are fighting over the rooms.

The real competition is over the rooms from level 36 to 45 or so. People aren't interested in the rooms below that. People can't get into the rooms that are too high. It's a big competition every time, many immortal kings who lost inside the tower would stay at the square looking for trouble with others. That's why I asked if martial brother Luo could come with me.

"Then can't you wait till you're strong before you go there?"

"Every immortal king only has three chances since the tower appears, this means if you haven't gone within three thousand years of reaching immortal king you would never have the chance to do so again. Those who can't get named is said to be unable to reach immortal monarch. They might have to stay an immortal king for the rest of their lives."

Ye Mo nodded "my master is always in solitary cultivation, if you didn't tell me about this I really wouldn't know. This tower reminds me of Yuan Le heaven's dao seeking tower. I also heard there's a dao seeking tower in the grand heaven domain, what's this about?"

Lu Feng answered "it's pretty much the same as the immortal king tablet, the dao seeking tower at the grand heaven domain is the same one as the middle heaven domain one. However, dao seeking tablet, isn't the one outside the middle heaven domain. dao seeking tower tablet is made by an immortal forgery grand master using a dao seeking stone that flew out from the tower.

The real tablet isn't called dao seeking tablet but dao rune tablet. Dao rune tablet is in Fan Du heaven. It's said that if you enter dao seeking tower at Yuan Le heaven the max you can reach is level six. I don't know if it really is so."

Thinking about how he was teleported out before reaching level seven, Ye Mo suddenly believed Lu Feng's words. He might be able to reach level seven if he went to grand heaven domain's dao seeking tower.

"When Ku Mu reaches immortal king, we'll go together. It's fine if we wait a year or so." Ye Mo said. Ye Mo also hoped he would see Lu Zhengqun there.

...

Half a year later, Ku Mu reached immortal king in Mo Yue immortal sect. Mo Yue got a new immortal king who was also a level six immortal pill great master, this immediately shook the entire Gong hua heaven and all big sects came up to congratulate.

Mo Yue sect had three immortal kings, one of which who was extremely power. One could see that Mo Yue immortal sect was about to be the number one sect in the low heaven domain.

Ku Mu just reached immortal king and needed time to consolidate his power so he didn't decided to go king naming this time and stayed at the sect.

Chapter 1827: Once you fall in love

Countless immortals who wanted to join a sect would go to Mo Yue as their first choice. Luckily, Mo Yue didn't take in many and those who weren't chosen went to take Extreme Sword sect test.

Although Extreme Sword sect had their spotlight taken by Mo Yue, the entire sect was happy since they got two immortal kings and none of the core disciples were gone. Plus, there was news of Freedom king being killed by some anonymous master.

But in fact, there really was someone who wasn't happy and it was the number one elder Yang Ren's favourite disciple Zhen Bingyu.

Zhen Bingyu wasn't someone who could hide her thoughts. Her expression showed everything.

Even Qin Nianmei felt Zhen Bingyu's thoughts. Although they were friends they were far from close. Hai Chuanwu asked Qin Nianmei about Zhen Bingyu more than once but Qin Nianmei couldn't give him an answer.

Eventually, Hai Chuanwu even made Yan Jiutao ask Qin Nianmei about Zhen Bingyu. Qin Nianmei could only agree to go check out Zhen Bingyu and ask about things. If possible, she would call Zhen Bingyu out and everyone can go out together.

Before Qin Nianmei could, she was called over by her father first.

Qin Nianmei really didn't want to see her dad as her dad just didn't like Yan Jiutao. He seemed very favourable towards that Ye Mo and mentioned him more than once.

This made her lose the only little good impression she had towards Ye Mo. Ye Mo disappeared with martial sister Bingyu before so her dad barely accepted Yan Jiutao but now that Ye Mo appeared again, her dad wanted Ye Mo to be her dao partner.

She really couldn't understand how Ye Mo was better than Yan Jiutao. In her heart the two were very far apart.

She knew her dad asked her to come about this but she had to go.

As soon as Qin Nianmei sat down, Qin Peifu said "Nianmei, after my observation, I need to tell you that Yan Jiutao isn't a suitable dao partner for you."

"Is that Ye Mo more suitable for me?" Qin Nianmei asked with a headache.

Qin Peifu nodded despite knowing it was sarcasm “you’re right, that Ye Mo is indeed suitable for you. Sigh, your mother isn’t here, if she was here, she should be telling you this.”

Qin Nianmei’s eyes went red upon hearing this and her anger was gone. After some silence she said “dad, I have nothing with that Ye Mo, he was never interested in me. Why do you always try to get us to get together. We’re not suitable. I like Jiutao, he truly treats me well.”

Qin Peifu said seriously this time “Nianmei, tell me, with your looks and status, if Ye Mo was like Jiutao, would he treat you the same? He doesn’t treat you well because you didn’t treat him well. Think about it, when you guys first met was he like this? I heard that when you saw Ye Mo at the immortal city, you kept suppressing him to suck up to Yan Jiutao. Anyone would feel unhappy about that much less Ye Mo.”

Seeing Qin Nianmei not talk, Qin Peifu asked patiently again “tell me, if you treated Ye Mo with your whole heart would he do the same? I didn’t have time to ask you before but now the sect is back at its prime, and I need to go out now so answer me.”

“Dad you always ask these boring questions. How could I treat him the same as Jiutao? If I do, what about Jiutao then?” Qin Nianmei asked helplessly.

“You just need to answer my question.” Qin Peifu said adamantly.

Qin Nianmei said helplessly “I don’t know but he seems to be the type who treats the people who treat him with respect the same way. When I found him, he was very close to a few hollow immortals even though he was a level three immortal pill master. He probably isn’t someone arrogant. When I made contact with him, he didn’t seem to take advantage of people. That’s all I know.”

“Okay, Nianmei I hope you can stay with Ye Mo. Jiutao isn’t suitable for you.” Qin Peifu said bluntly.

“Why? Is Jiutao not as good as him? Jiutao is great unity immortal, and his power is stronger than Ye Mo. Jiutao is about to reach level three immortal pill great master. In what part is Jiutao inferior to that Ye Mo?” Qin Nianmei was annoyed.

Qin Peifu said heavily “Nianmei, trust my eyes. My talent isn’t so good but I’ve never seen wrong of a person. Jiutao’s dao heart is very firm, he’s an excellent sect member but he’s not suitable to be your dao partner. Trust me.”

“Then what makes you think Ye Mo is suitable for me?” Qin Nianmei argued back.

Qin Peifu didn’t answer directly but said slowly “do you know what dao heart your martial uncle Yang Zai cultivates?”

“I don’t know.” Qin Nianmei subconsciously shook her head.

“She cultivates the dao of no things, it’s a branch of dao of no emotions. It’s a little different but generally the same.” Qin Peifu said seriously.

“But I feel martial uncle Yang Zai is very nice, she treats me nicely too.” Qin Nianmei asked in confusion.

Qin Peifu shook his head “you don’t know what’s called dao of no things, you only see the surface. This dao heart has nothing inside other than reaching the highest state. You see that martial uncle Yang Zai is eager on rebuilding the sect but that’s because the sect is where she cultivates. If there is anything that affects her cultivation, she wouldn’t be trapped by emotions.”

“No wonder martial uncle Yang Zai doesn’t have a dao partner.” Qin Nianmei sighed but then she thought of something and asked in shock “dad, doesn’t that mean martial sister Bingyu is cultivating dao of no things?”

Qin Peifu nodded seriously “Nianmei this is why I called you over today to discuss with you.”

Seeing that his daughter was listening carefully, Qin Peifu said slowly “Bingyu is indeed cultivating such cultivation method. Her talent is very absurd and she was taught by Yang Zai since a young age, her dao heart is very firm. Theoretically, there is no way her dao heart would shatter. This means that Bingyu would never fall in love with anyone.”

“Dad, you mean to say that she...” Qin Nianmei asked in shock.

“Yes, Bingyu indeed fell in love, your martial uncle Yang Zai knows this too.” Qin Peifu sighed.

“Who is it?” Qin Nianmei asked but then a figure appeared in her mind.

“You can probably guess it, it’s that immortal pill master Ye Mo.” Qin Peifu said helplessly.

“Huh, I know, the Ye guy must’ve taken advantage of martial sister Bingyu while she was heavily injured. That’s why she was helpless. I’m not going to let him go.”

Qin Peifu sighed “Nianmei you didn’t understand what I meant. That Ye Mo never did anything to Bingyu and for someone who cultivates dao of no things, no matter what you do to her, it won’t affect her dao heart.”

Seeing his daughter still didn’t understand, Qin Peifu could only continue “if someone who cultivates that dao falls in love with someone, that will never change. But it is really difficult for someone who cultivates this dao heart to fall in love with someone, unless...”

“Unless this person has great perseverance, broad mentality and astounding capabilities, as well as extreme value on emotions and promise. On top of that, there must be an opportunity. Once a person of this dao heart falls in love with someone, her dao heart will turn into emotions that transcends life and death onto this person.”

“That’s impossible, even if martial sister Bingyu likes Ye Mo, it has nothing to do with great perseverance. Ye Mo is at most an immortal pill master, he has nothing to do with great power. Martial sister Bingyu is probably just grateful that Ye Mo saved her.” Qin Nianmei said.

Chapter 1828: He wouldn’t be interested in you

Qin Peifu said seriously “Nianmei trust me I won’t lie to you. Your martial uncle Yang Zai’s cultivation method has a huge history. I wouldn’t see wrong. If Zhen Bingyu is really in love with Ye Mo, then his future is boundless.”

“Then we can ask martial sister Bingyu what powers Ye Mo has.” Qin Nianmei said.

Qin Peifu shook his head “if Bingyu really loves Ye Mo even if you kill her she wouldn’t spill a word. Even if her master asks, she wouldn’t say it.”

“Since martial sister Bingyu already loves Ye Mo, dad, why do you still want me to be with Ye Mo, isn’t this...” Qin Nianmei said.

“Nianmei, if I’m not wrong, your martial uncle Yang Zai already see’s Bingyu’s situation. She would definitely try to make Bingyu reach her original dao heart. It’s hard but she’s immortal king and so she should be able to do it.”

Qin Peifu felt tired, talking about these things with his daughter really wasn’t what he was good at but he was about to go to immortal king tablet square for king naming.

Seeing her father’s expectant look, Qin Nianmei really couldn’t argue anymore. She favored Yan Jiutao but she knew her father was doing what was best for her.

Zhen Bingyu was sitting in her room dazing, other people didn’t know who Mo Yue immortal sect leader Luo was but she did, it was Ye Mo.

“Bingyu...” a soft voice woke her up.

“Naster.” Zhen Bingyu quickly got up, not expecting her master would come.

“Sit down.” Yang Zai sat down and said.

Zhen Bingyu did so obediently.

Yang Zai said directly “Bingyu, my immortal king title is a temporary one for rebuilding the sect, soon, I will be going to the immortal king tablet square with sect leader for king naming.”

Yang Zai sighed “although it’s only going to be a few years but I’m still worried about you.”

She raised her hand to stop Zhen Bingyu from talking, Yang Zai looked at Zhen Bingyu and asked “Bingyu, tell me, is your dao heart broken?”

Zhen Bingyu got up and bowed to her master “master, disciple is no longer cultivating a dao heart that only has the great dao...”

When Zhen Bingyu cultivated Ye Mo’s body refinement cultivation method, her dao heart subtly changed.

“Then do you have someone you love?” Yang Zai asked.

“I don’t know, I just know that I’ve been thinking about Ye Mo non stop these days. I just want to be with him, my dao heart isn’t firm, please punish me master.” Zhen Bingyu thought Extreme Sword sect no longer existed so she came back to check and would follow Ye Mo wherever he went. But now, the sect was here and both the sect leader and master came back.

“Would you still go find that Ye Mo after I punish you or would you cultivate the dao heart of no things again?” Yang Zai asked.

“Disciple probably can’t do it.” Zhen Bingyu’s voice was soft but her tone was firm.

Yang Zai smiled “Bingyu, sit down, I didn’t come to blame you this time.”

“Huh...” Zhen Bingyu sat down and looked at her master in confusion. She knew her seriously her master was with dao heart.

Yang Zai sighed "if I didn't reach immortal king, I would definitely make you keep perfecting your dao heart. But after reaching immortal king, I realised that dao of no things isn't perfect. Perhaps the cultivation method I got wasn't perfect, this cultivation method wouldn't allow us to reach the highest state. So even if you didn't lose your dao heart, I would make you realise this.

I saw that Ye Mo before, I've always thought he had great potential and is no ordinary person. he was probably beyond level three immortal pill master before. Since he can break your dao of no heart and make you love him, he's definitely a person of great capability and perseverance. His future is boundless, you chose the right person."

"Huh..." Zhen Bingyu looked at her master in confusion. She had never thought about that, she just purely wanted to be with Ye Mo. She missed everyday with Ye Mo.

Yang Zai knew what her disciple thought but didn't say anything.

She didn't ask what happened between the two, but she knew something beyond the ordinary definitely happened. Otherwise, even if Ye Mo had a great secret, he wouldn't be able to make Zhen Bingyu fall in love with him.

"If possible, you can invite Ye Mo to live here or you can keep staying with him, I won't blame you." Yang Zai smiled.

Zhen Bingyu finally understood what her master meant and said "Bingyu thank master."

She knew that she couldn't go find Ye Mo, if she could she would've long gone.

Ye Mo was now the sect leader of Mo Yue Immortal sect. if she went to find Ye Mo, wouldn't that mean Ye Mo was the sect leader?

Yang Zai smiled "Nlanmei is here again, you guys talk. I'm going to the sect leader to discuss about immortal king tablet. You need to cultivate hard too. If the difference between you two is too great, you would eventually get farther and farther apart."

Qin Peifu calculated many things but he didn't expect that Yang Zai's dao heart was beginning to change too.

Zhen Bingyu quickly got up to send off her master while thinking about what she said. Her master was right, she was growing further and further apart from Ye Mo. Thinking about this, Zhen Bingyu made up her mind. Since her master already agreed, she would use the rest of her time to cultivate hard. Plus, Ye Mo gave all those cultivation resources to her.

Then, Qin Nianmei walked in.

"Martial sister Nianmei." Zhen Bingyu knew what she needed to do now and brightened up.

"Martial sister you seem to be in a good mood." Qin Nianmei said.

Zhen Bingyu smiled "yes, master enlightened me."

Hearing this, she thought Zhen Bingyu set aside Ye Mo. Thinking about how her dad would be trying to bring her and Ye Mo together, she felt uncomfortable.

"What do you need?" Zhen Bingyu just wanted to put all her time on cultivation now.

Qin Nianmei rubbed her head "it's my dad, he forces me to be with Ye Mo and made me come ask you where Ye Mo is. Sigh."

Zhen Bingyu smiled "martial sister Nianmei, you don't need to worry at all."

"Why? My dad is pressuring me saying that Jiutao is not suitable for me and that I must grasp Ye Mo. I really don't get how Ye Mo is so good." Qin Nianmei said.

Zhen Bingyu nodded "it's not with you but with Ye Mo. He wouldn't be interested in you. Even if sect leader asks you to be with him he wouldn't be with you so you don't need to worry."

Zhen Bingyu's words were too blunt, Qin Nianmei was angry and she grunted "martial sister Bingyu, I'm quite famous in Gong Hua heaven for my beauty. Even if I'm not as pretty as you, I'm not low to the extent that Ye Mo wouldn't even be interested in me? Plus I knew Ye Mo way earlier than you. Is he interested in you instead of me?"

Chapter 1829: Heaven Lord Alliance

Zhen Bingyu didn't mind Qin Nianmei's attitude and said plainly "he wasn't interested in me but I know him better than you. You don't know him at all."

"Martial sister Bingyu, are you saying I'm superficial? I never liked that guy, but now I'm interested. I want to see if that Ye Mo likes the superficial me." Qin Nianmei said but she saw Zhen Bingyu's face not change at all.

When she found Ye Mo to act as her dao partner, that guy agreed quickly. She didn't believe that if things happened again that guy would reject.

Qin Nianmei didn't want to stay here anymore, she got up angrily but at the door, she couldn't resist asking "martial sister Bingyu, did you know that Ye Mo has a wife?"

"I know, he has more than one, he told me." Zhen Bingyu's reply almost made Qin Nianmei trip.

...

There were countless immortal cities in the immortal realm but they all had different names except King Naming immortal city.

There was three of them, one each in low, middle and grand heaven domain. The one in low heaven domain was in Mo Yi heaven.

The city was very popular now as it was the once a millennium king naming time. Although there weren't many immortals reaching immortal king in this millennium, there were about 30 people including the ones who didn't come before.

The city was popular as many people came to watch this event and sense the dao waves of the immortal king tablet.

The biggest place in the city was the immortal king tablet square. In the middle there was a huge tablet that one's spirit sense couldn't see the top. It wrote the immortal king title and name of the immortal kings.

Next to this tablet was a huge tower that also soared into the clouds. It was shrouded in cloud and spirit sense couldn't see it's full look as well.

There were 20 or so immortals sitting before the tower and tablet. Their eyes were closed as though feeling something. The square was huge but now, not an immortal below status immortal dared to come.

"This is immortal king square?" Ye Mo asked.

Lu Feng nodded seriously "yes, this is it. The tall tower is title status tower, many immortal kings are sitting before the tower feeling its chi and dao wave. When the tower opens, those who could feel the dao waves better would be able to climb up faster."

"Why are there levels on the immortal king tablet?" Ye Mo asked.

Lu Feng nodded "usually, your immortal king title depends on how many tower levels you can climb. There are 81 levels on the tablet. If you can reach the top of the tower, then once you get named you can walk to the top and mark your name. "

Ye Mo scanned the twenty or so people sitting on the square. They were all indeed immortal king primary stage. It seemed he overestimated how many people could reach immortal king in the low heaven domain. It had been a thousand years and only 20 or so. Perhaps many of them didn't go to the king naming in the millennium they reached immortal king.

“There’s actually quite some immortal king here, many people would leave low heaven domain after reaching immortal king to middle or grand heaven domain. Otherwise, it’s impossible to break through to immortal monarch.” Lu Feng said.

“Let’s go in too.” Lu Feng found a good spot and took out a cushion and sat down.

There was very little people so it was easy to find a good spot. Ye Mo sat next to Lu Feng and started to feel the tower’s dao waves.

Soon, Ye Mo felt it. This dao wave was a fusion of his power, god art, immortal essence and spirit sense. at the same time, it had a sliver of understanding towards immortal king dao status. It also included the power and weakness of every level. once you learn level one, then you can learn level two. Once you learn all 81 levels, a few decades would’ve probably passed.

These things were good for ordinary immortal kings but Ye Mo wasn’t really interested. He might as well sit under bitter bamboo for a year. Plus, he wouldn’t want to waste a year here. He would rather find a place for solitary cultivation.

Thinking about this, Ye Mo got up.

Seeing this, Lu Feng felt strange, Ye Mo quickly said “I have some business, you can stay here. I’ll come back when the tower opens.”

Lu Feng nodded and stayed there.

...

At this moment in Extreme Wind heaven, Yuan Xing immortal city in an ordinary immortal tower, more than ten immortals gathered around a huge hall. The immortal tower looked like an ordinary immortal cultivation home but there was no way ordinary people could get in. There was no road towards here and there were restriction formations everywhere.

This immortal tower was the number one immortal tower of the low heaven domains, heaven lord tower. Heaven Lord Alliance was here.

The atmosphere in the hall was heavy, no one spoke for a long time. There were 16 people sitting inside, they were all immortal kings.

“That Luo guy is indeed too cocky.” One chubby immortal king grunted.

“Mo Yue Immortal Sect rose up in Gong Hua heaven but not only did they not go through Gong Hua Heaven lord when they set up sect but they also forcefully wiped out the Yue Heng heaven lord estate. Bai Qi immortal king is right, this Luo guys is too cocky.” One dao robed immortal king said and then looked at a blue faced immortal king.

This blue faced immortal king grunted uncomfortably “Ji Dao immortal king what are you looking at me for? Although I’m Gong Hua heaven lord can I do anything about Mo Yue Immortal sect?”

Ji Dao immortal king sneered “this person opened a sect in Gong Hua heaven but he didn’t even go greet you, at least you can reproach him?”

Blue faced immortal king said in contempt “Freedom king has been cocky in Gong Hua heaven for more than some time now. when I asked everyone to help annihilate him what did you guys say? No one helped. Freedom king is that powerful and he was easily annihilated by sect leader Luo. Do you guys think I’ve lived for too long asking me to go find sect leader Luo? I haven’t been to his sect events a few times, it already shows my standings. Sii Cheng immortal king is very close to sect leader Luo, why do you go talk to him?”

“Okay, everyone stop fighting, there’s no point in this. Mo Yue Immortal sect’s sect leader Luo isn’t someone we can stop. Even I’m probably no match for him. He could instand kill Freedom king, suppress Bi Qian immortal king immediately and make Sii Cheng immortal king have no temper, this means he’s at least immortal king peak stage or half way immortal monarch. No one here is a match for him.” A green robed old man sitting at the top said.

Bai Qi immortal king saluted with his fists “I think if vice alliance leader Lu leads the charge and we all attack him, it’s still possible.”

The green robed man waved his hand "I've seen a recording of him fight. even if we all attack, we might be able to take him but we're going to lose more than half the people here. Everyone has heard of Wushuang immortal emperor and Wei Feng immortal emperor's conflict right? Wei Feng immortal emperor beat Wushuang immortal emperor but the grand heaven domain lost nine immortal emperors and Wei Feng immortal emperor was heavily injured himself.

We have very little immortal kings in the heaven lord alliance and Sii Cheng immortal king seemed to be wanting to join Mo Yue. If we fight with force, there's no good for us."

"So are we going to let it go?" One immortal king interrupted.

The green robed old man sneered "let it go? If he just set up a sect without notifying then we can let it go. But he destroyed Yue Heng heaven lord estate. If we just let it go, is there a need for this alliance to exist? He will soon understand that heaven lord estate isn't to be touched easily."

Chapter 1830: Lu Zhengqun returning

The green robed old man scanned the other immortal king and continued "two years later, Chang Tian immortal monarch will finish solitary cultivation. No matter how strong of an immortal monarch that Luo guy is, he can't beat an immortal monarch right?"

The green robed old man knew that when many people here mentioned Ye Mo, they used sect leader Luo meaning that some of them was scared of Luo. They didn't want to start trouble with him especially Gong Hua heaven lord Meng Changxue.

With Mo Yue's current dominance, if he really brought the heaven lord alliance to fight Luo, they wouldn't even need to fight and they would break up internally.

"Okay, we'll see how this Luo will be cocky after Chang Tian immortal monarch finished solitary cultivation?" Bai Qi immortal king agreed.

The green robed old man waved his hand "I just got news that Luo and his Lufeng elder went to king naming immortal city. Two years later, Chang Tian immortal monarch would be able to finish solitary cultivation right when the tower is about to close. Then we'll go together and seal the city. We must not let this person go, otherwise, there would be endless troubles."

"Alliance leader Lu is right, before we kill this Luo, we best not touch his Mo Yue immortal sect nor the sect members." One short immortal king said.

"That's right, this guy is a maniac, Lu Zhengqun just captured a few low level cultivators, he doesn't need to wipe out the entire heaven lord estate. If we touch his immortal sect, there would probably not be a day of peace in the low heaven domain. so before we kill this man, we can't touch the sect. once this person is killed, we can move the heaven lord alliance to Mo Yue Immortal Mountain. That's a good place indeed." The green robed old man nodded.

Most people from the heaven lord alliance had sects or cultivation home, if they pissed this mad man from Mo Yue Immortal sect and this maniac wasn't killed, who knows what would happen?

...

At the same time, in the west barren sands of Yuan Le heaven.

This place had arid immortal spirit chi and little people came. Ye Mo came here to break through to great unity immortal.

In the middle of the sands was a white faced short bearded man. He wasn't beautiful but he looked righteous. He grabbed a shard with immortal essence giant hand from the sands and after a while he said bleakly "it seems he purposely threw the teleportation formation card here and drew me here."

The man had nothing around him but suddenly, a hollow essence spirit figure came. He looked at this stone tablet for a while and said "he did place it here indeed but he didn't break the card. It was detonated by a low level self detonation formation. As for why he did so it's very hard to guess. From the explosion, it seems this person's power is around great unity immortal to great extreme immortal."

“Kai Mi qian bei, you’re saying this guy reached great unity immortal in just a few decades?” The middle aged man asked in shock.

The essence spirit said “this isn’t impossible, if his talent is absurd and his fortune amazing, then it’s possible. Other than that, there is something extremely powerful in the immortal realm, it can definitely let him reach this level quickly. It’s far from as powerful as the life tree but it’s definitely the best magic artefact in the immortal realm.”

“What is it?” The middle aged man asked shakily.

The essence spirit seemed to have sunk into thought and said after a long while “there was once an absurdly powerful person but for some reason we all gained up on him and both sides were heavily injured. This person is not only extremely powerful but he has many treasures that others don’t even dare to imagine. Our treasures combined couldn’t compare with his. This thing is one of his treasures too, it’s the time formation disk. If I’m not wrong, this person is still not completely dead.”

“Time formation disk?” The middle aged man repeated in shock.

The essence spirit nodded “that’s right, the time formation disk. If you use immortal crystals, it can slow down time to a one to 100 ratio. That means if you stay inside for a hundred years, the outside world has only experienced one year.”

“There’s such an absurd item in this world? It can indeed compare with the chaos tree.” The middle aged man’s face was green with excitement.

The essence spirit denied “the time formation disk is forged by someone, one can only say its use is sometimes on par with the life tree. But in reality, the time formation disk is far from as valuable as the chaos tree, not even worth one millionth of the chaos tree. The tree was born of chaos, how could it be comparable with something that is artificial?”

The middle aged man’s face suddenly changed and clenched his fist “Who? Who dares to destroy my heaven lord estate?”

Clearly this white faced man was Lu Zhengqun.

“Feng Gang immortal city’s heaven lord estate is destroyed?” The essence spirit asked in confusion.

Lu Zhengqun clenched his teeth “yes, the estate has my spirit sense mark, if it’s destroyed, I would know immediately.”

Suddenly, a flaming messenger flying sword landed in Lu Zhengqun’s hands. Lu Zhengqun opened it and said in confusion “master Zhi Ji said the person I’m looking for might’ve gone to low heaven domain. how is this possible. Didn’t he say the person was in the void before?”

The essence spirit said seriously “it’s very possible, if that person has a very good flying immortal artefact, he can fly to the low heaven domain from the void. Plus your heaven lord estate is destroyed, that person probably did it. if he knows the value of the chaos tree, he would see you as a threat to remove.”

“A great unity immortal dares to destroy my heaven lord estate?” Lu Zhengqun didn’t dare to believe it.

The hollow essence spirit sneered “don’t forget, he might have time formation disk. If he really got that person’s heritage, then he wouldn’t just have the time formation disk. There would be things even better than that.”

The essence spirit paused and continued “it’s been a few decades since he buried the stone card here. With the time formation disk and that person’s heritage, he might’ve reached immortal king. Because only you know about the chaos tree, the first thing he would do after reaching immortal king is to come kill you.”

Lu Zhengqun looked at this essence spirit in shock and after a long while he asked “Kai Mi qian bei, who is that person?”

The essence spirit fell into a long silence “you’ve never left the low heaven domain. if you went to the grand heaven domain, then you will hear his legend, he’s called Truth Divine emperor...”

“Of course I heard of Truth divine emperor, time formation disk is his? What else does he have?” Lu Zhengqun asked desperately.

“There’s no point in asking this now, if the person who destroyed your heaven lord estate is really the person you’re looking for, the first thing you must do now is capture him and all his things would be yours. If you’re too slow, then you would never be a match for him. For you, one year of cultivation equals to 100 years of his cultivation.” The essence spirit said slowly.

Lu Zhengqun replied desperately “but Kai Mi qian bei, even if I go back to Yue Heng Heaven now, I would need a few years. As for that realm domain teleportation formation, I don’t have the right to take it.”

The essence spirit smiled “you don’t have a way but I do. you just need two years and you can go back but you can’t go to immortal king tablet square to feel the dao wave, you can only go in directly.”

“Kai Mi qian bei, I don’t really care about the dao waves, I just want to get back what belongs to us. I can get my king name a thousand years later. But somethings can’t wait for a single day.” Lu Zhengqun said desperately.

“I know a secret teleportation formation in the middle heaven domain that can go directly to Extreme Wind Heaven but this teleportation formation needs to be repaired. With your pair and two years of preparing materials it should be fine. Once you prepare the materials I’ll teach you how to repair it.” The essence spirit said.
