

Strongest As 1841

Chapter 1841: Ye Mo king naming

At the same time, the three landed in a space shrouded in mist. Ding Jie and Yi Yi felt relieved.

The next moment, they saw the huge peak of a tower that stretched down forever.

“We’re at the top of the tower?” Ding Jie looked at this in a daze.

“That’s right, this is the top of the tower.” Ye Mo felt the world law and knew they weren’t inside anymore.

“What is this?” Zhantai Yi pointed at the mist.

Ye Mo said “if I’m not wrong, below the mist is the immortal king tablet.

“Doesn’t that mean we reached the highest place of the immortal king tablet and we’ll be named the most powerful immortal kings?” Ding Jie said in extreme shock.

Ye Mo answered “not necessarily, walking out of the tower meant that we have surpassed the world laws inside the tower. I’m not certain if the immortal king tablet can even name us.”

“Even if it can’t, I don’t mind. I believe that the benefits I’ve received are far beyond king naming.” Zhantai Yi said.

“Let me try first, I’m going to get named now.” Ding Jie said and was going to jump down into the mist. However, he landed on the mist and couldn’t go down.

Before Ding Jie said anything, six faint golden words suddenly appeared on the immortal king tablet “North Time immortal king Ding Jie.”

Then, there were immortal music surrounding the three as though congratulating North Time Immortal king.

“Oh, so I’m North Time Immortal king, I didn’t need to write my name and the immortal king title came out. I’m much stronger than ordinary immortal kings indeed. Hahaha...” Ding Jie laughed.

Ye Mo was very shocked too, he didn’t expect king naming would be like this. The golden words floated above the tablet, meaning that people probably couldn’t see these words from the immortal king tablet square.

Zhantai Yi’s heart was on fire. She charged into the mist and said “Jiu Fan Immortal Pond Zhantai Yi is here for king naming.”

Another round of immortal music sounded and then a few seconds later, faint golden words hung above the mist “Heaven Moon immortal king Zhantai Yi.”

Both of them were very happy with their immortal king name. Remembering that Ye Mo hadn’t been named yet so Ding Jie said “Ye Mo, come get named too, I really want to see what name someone like you would get.”

Ye Mo really wanted to know what his name would be. He jumped on the mist.

Ye Mo landed on the tablet and before he even spoke, there were rumbling sounds everywhere that didn’t stop at all.

“What’s going on?” the two looked around, they saw nothing but the rumbling sound was getting louder.

There was no immortal music nor golden words. Just when Ye Mo wanted to say “Ye Mo is here for king naming, there was a few huge cracking sounds. Tens of golden lightning circulated around here.

This didn’t seem right. His divine damnation wasn’t right, Ye Mo wondered if this king naming wouldn’t be right as well.,

At this moment, four rows of golden words appeared, the three looked at these words with extreme shock:

“God Realm Disappeared, Stars Are Gone.

Chaos Opens Again, World Order Re-established.

Stars Aligned, Yin Yang Separated.

Three Birth Immortality, Name is Eternity!”

Above these four rows were five even larger golden words “Eternity Immortal king Ye Mo.”

Ding Jie and Yi Yi’s names were written vertically but Eternity Immortal king Ye Mo was written horizontally.

Looking at this, Ding Jie and Zhantai Yi were placed on the sides of Ye Mo.

“Such powerful name, Ye Mo, your title is Eternity.” Ding Jie applauded and suddenly said “Ye Mo do you think that disappeared realm needs to be saved us so we stand on top of everyone for king naming.”

Ye Mo knew Ding Jie was very happy and thus made this joke so he didn’t take it seriously. He didn’t expect his title was eternity, this meant existing forever.

But Ye Mo didn’t lose his mind with this immortal king name. Ding Jie and Yi Yi had immortal music when they were named but his naming was filled with lightning.

“How do we go back now?” Ding Jie asked.

Ye Mo calmed down, he didn't know how to get back but it wasn't as simple as jumping down.

"I think we will go back automatically when the tower opens?" Zhantai Yi said.

Ye Mo and Ding Jie nodded. They just needed to wait for the tower to open now. Although Ye Mo suspected he could go back from here but he wasn't certain which heaven domain it would be. Plus he needed to go back and kill Lu Zhengqun.

"Ye Mo, are you planning to go back to Mo Yue immortal sect after this? If I go back it would still be at Great Red Heaven, how about I come to you?" Ding Jie rubbed his hands. He really wanted to cultivate next to Ye Mo. It would be more beneficial than using immortal well.

Yi Yi could only admire Ding Jie, she was the saint of Jiu Fan Immortal Pond, clearly she can't go to a low heaven domain sect to cultivate.

Ye Mo said "I still have some personal business to deal with. After this is done, I'm going to chaos star realm. This time I saw more than ten people from the grand heaven domain reach immortal king there. I want to go see if there's something good there."

"Okay, wait for me to go with you. That heaven lord is no match for you at all." Ding Jie clapped his hands.

Zhantai Yi hesitated and looked at Ding Jie "I'll go Chaos Star Realm at all, why don't we go find brother Ye at Mo Yue Immortal Sect together?"

Zhantai Yi respected and trusted Ye Mo to the bones. She knew Ye Mo was the strongest immortal king in the immortal realm for sure.

"Okay, after I annihilate Lu Zhengqun, I'll wait for you at Mo Yue Immortal Sect but if some accident occurs, I can't guarantee anything." Ye Mo said.

"Ding Jie laughed "I can annihilate Lu Zhengqun without using any god art."

Ye Mo said “don’t underestimate that Lu Zhengqun, he might not be as talented as you but he’s definitely not that much weaker than you. When he fought with me, he definitely hid his power. As for how much, I couldn’t tell.”

“Oh, there’s such an interesting guy?” Ding Jie immediately changed his perceptions of Lu Zhengqun, he trusted Ye Mo’s eyes.

Ye Mo looked at Zhantai Yi and asked “I want to ask about someone, do you know goddess Yu Jinxiang?”

Zhantai Yi looked at Ye Mo in shock “of course I know elder Yu Jingxiang but she had left the sect for tens of thousands of years. I don’t know where she went. Brother Ye how do you know elder Yu Jinxiang?”

Ye Mo thought of the golden skeleton in the chaos star realm so he could only answer “I heard someone talk about her and you happen to be from the same sect as her so I just asked casually.”

Zhantai Yi was confused but she didn’t care. She hadn’t seen goddess Yu Jingxiang, she was a fabled sect qian bei.

There was still a few days before the tower opened so the three began discussing cultivation experience and each benefited from each other.

Time flew by quickly, this day, the mist suddenly cracked open.

“The tower is about to close, everyone is going to be teleported out. We might be going back to our own immortal king tablet squares.” Ye Mo immediately said.

“Okay, wait for me to come find you.” Ding Jie said and then disappeared with Yi Yi in a crack.

Ye Mo fell from another crack at the same time. When Ye Mo landed, he was standing at the Mo Yi heaven immortal king tablet square.

Chapter 1842: Facing immortal monarch

At this moment, all the immortal kings inside the tower had been teleported out to the square. No one noticed where Ye Mo came from. These immortal kings who just came out would be thinking about what titles they got.

Ye Mo landed and didn't see Ding Jie and Yi Yi.

As soon as Ye Mo appeared here, a spirit sense locked onto him. The ice cold killing intent made everyone realise that Yue Heaven Heaven lord Lu Zhengqun has enmity with sect leader of Mo Yue Immortal Sect. Some immortal kings moved aside to prevent from being caught in the crossfire.

Everyone on the square knew that they weren't a match for either one of these two.

Lu Zhengqun was thinking about subjugating Ye Mo before he got named. Ye Mo's power might rise even more after king naming.

Ye Mo thought the same but just when he wanted to charge at Lu Zhengqun, he stopped. He felt an extremely powerful spirit sense lock on him. This was his first time encountering such powerful and intense spirit sense.

In that instant, Ye Mo saw an extremely skinny faced man walk towards him.

It was an immortal monarch, Ye Mo looked at this man and knew it was an immortal monarch primary stage.

Ye Mo didn't know where this immortal monarch came from but his intense killing intent stopped Ye Mo.

Lu Zhengqun felt the powerful pressure of this spirit sense as he was the closest to Ye Mo.

Lu Zhengqun couldn't tell this person was immortal monarch power. He could only tell that this skinny man was much stronger than him. Just when he wanted to talk to that essence spirit and ask about this skinny man's power, the essence spirit sounded "This person is an immortal monarch primary stage, don't talk to me anymore. Otherwise, he might notice..."

Hearing this, Lu Zhengqun's heart shook. He could only watch that immortal monarch walk towards him and Ye Mo.

"Lu Zhengqun greet master." Lu Zhengqun bowed.

The immortal monarch frowned and said "you're the Lu Zhengqun that got your heaven lord estate wiped out?"

Lu Zhengqun answered "yes, it's me."

"Such an useless guy, the idiots of heaven lord alliance actually chose a useless heaven lord like you. I'm Chang Tian..."

Lu Zhengqun was annoyed thinking so what if this guy was immortal monarch, he was going to become one too sooner or later. But when the man said the last sentence, he realised this person was heaven lord alliance Chang Tian immortal monarch.

Lu Zhengqun bowed "Lu Zhengqun greet Chang Tian immortal monarch master, Wan Bei wasn't at Feng Gang immortal city and thus let this guy take advantage of me. Today, I'm here to bring this person to Feng Gang immortal city heaven lord estate to punish him."

Ye Mo heard this on the side and realised this immortal monarch was from the heaven lord alliance. He heard there was two immortal monarchs from the heaven lord alliance.

Chang Tian immortal monarch nodded "in that case attack now, I'll watch."

Lu Zhengqun breathed easy, as long as Chang Tian immortal monarch didn't take away Ye Mo things would be good.

Lu Zhengqun thanked and released a long sword. At first, it seemed like an ordinary immortal artefact but when Ye Mo's spirit sense scanned it he immediately felt his spirit sense scanned some clear water. Above the clear water was seven specks of starlight.

Seven star sword?

Ye Mo didn't expect seven star sword was in Lu Zhengqun's hands. It wasn't a god artefact but was a top level immortal artefact that was on par with any low grade god artefact. It was one of the most famous immortal swords in the immortal realm. How did Lu Zhengqun dare to take this out, was he not afraid of the immortal monarch wanting it?

"Hmm?" that immortal monarch murmured in shock.

Before the sword was even released, Ye Mo felt the square go cold. Those immortal kings who still hadn't written their names stopped doing so. They all wanted to see who would be killed.

Ye Mo thought and realised what was going on. Lu Zhengqun released this sword clearly to kill him and then give the sword to Chang Tian immortal monarch.

That way, even if Lu Zhengqun takes him away, Chang Tian immortal monarch wouldn't be able to say anything. This bastard was indeed full of calculations.

But Ye Mo wasn't going to let him have it his way, he just sound transmissioned to that immortal monarch "Chang Tian immortal monarch, you know why Lu Zhengqun wants to kill me? Do you think it's because I wiped out his heaven lord estate? Not at all, it's because Lu Zhengqun knows I have chaos tree sapling..."

"What...." Chang Tian immortal monarch exclaimed forgetting to even use sound transmission.

His body was shaking with excitement and he reached up to Ye Mo grabbing at him.

Ye Mo was prepared and the instant the immortal monarch attacked, he broke free from the immortal monarch domain and sound transmissioned “if you dare to attack one more time, I will immediately yell out I have chaos tree.”

Chang Tian immortal monarch paused and didn’t dare to reach for Ye Mo anymore. If Ye Mo spilled things, could he kill everyone here? Clearly not, there were so many immortal kings here, some from grand heaven domain. if he killed them all, where would he hide?

Just when Lu Zhengqun wanted to talk, Chang Tian immortal monarch waved to Lu Zhengqun “You have no business here, you can... stay on the side...”

Chang Tian immortal monarch was going to tell Lu Zhengqun to leave but thinking about the chaos tree, he changed his mind. Lu Zhengqun knew about this, how could he let this person go? He had to take him away later too.

Just when Lu Zhengqun was dazing, Ye Mo sound transmissioned Lu Zhengqun “this Chang Tian immortal monarch might’ve sensed the chaos tree chi on me. If you want to protect it, then help me kill Chang Tian.”

Hearing this, Lu Zhengqun immediately realised he came to the right person. Ye Mo really had chaos tree. Even though he knew his guess was 90% correct, he was still shaking with excitement after Ye Mo admitted it.

Ye Mo had chaos tree but he didn’t have any chaos tree spilling out, this guy definitely told Chang Tian on purpose.

Lu Zhengqun also guessed that Ye Mo also had chaos world, time formation disk. Since he could get Truth Divine emperor’s heritage, nothing would seem strange.

This thought flashed in Lu Zhengqun’s head and before he could make a decision he saw Ye Mo use an instant transmission and disappeared.

Just when Chang Tian immortal monarch was thinking of a proper excuse to take Lu Zhengqun and Ye Mo away, Ye Mo ran off himself. This was perfect for him. He chased up without hesitation, he didn't even use his full power as he wanted to give Ye Mo time to run.

Seeing this, Lu Zhengqun chased up without hesitation.

Chang Tian immortal monarch hoped Lu Zhengqun would follow and now Lu Zhengqun seemed to have obediently come.

Ye Mo knew that even if he ran at full power he couldn't get away from their trackings. But even if he could, he wouldn't. Chang Tian immortal monarch and Lu Zhengqun wanted to kill him but so did he.

Running away wasn't the most important thing. The most important thing was to kill Lu Zhengqun and Chang Tian immortal monarch. There was no other way to kill Chang Tian immortal monarch other than joining up with Lu Zhengqun. Ye Mo was confident but he knew he couldn't kill an immortal monarch alone right now.

As the three chased, they gradually went further and further away from King Naming city.

If Ye Mo fled towards an immortal city or a place with many people, Chang Tian immortal monarch might've attacked already but Ye Mo was running near the border of Mo Yi heaven domain. This was perfect for Chang Tian immortal monarch, he would go to the border and kill Ye Mo and Lu Zhengqun.

Chapter 1843: Lu Zhengqun's ambush

Chang Tian immortal monarch knew this place was the best place to attack. Just when he wanted to speed up and kill Ye Mo first and then wait for Lu Zhengqun to come and kill him too, he found that Ye Mo suddenly sped up.

Low grade flying god artefact?

Chang Tian immortal monarch was even more excited than hearing about the chaos tree. After all, Ye Mo just claimed he had the chaos tree, there was no way of proving it until he caught Ye Mo. Who knows if it's just a way Ye Mo was using to run away. But this low grade god artefact appeared before his eyes. Even an immortal emperor would want that greatly.

But soon, he noticed something wrong. When Ye Mo changed flying magic artefact, he went faster and faster and instantly drew up the distance between the two. Chang Tian immortal monarch sped up his extreme grade flying immortal artefact and flew at Ye Mo as fast as he could.

He was afraid if Ye Mo went into the void, he would really lose this low grade flying god artefact.

After these few days of observation, Ye Mo was certain that Lu Zhengqun wouldn't lose to Chang Tian immortal monarch in speed. Indeed, Chang Tian Immortal monarch sped up and Lu Zhengqun changed a flying magic artefact and sped up too.

Chang Tian immortal monarch noticed Lu Zhengqun using a flying immortal artefact faster than his but he didn't doubt Ye Mo's words now. If Ye Mo didn't have chaos tree, Lu Zhengqun definitely wouldn't chase all the way here without using max speed.

Knowing that Ye Mo had so many secrets, Chang Tian immortal monarch calmed down instead. The most important thing was that he had to kill these two.

A day later, Ye Mo saw the border of Mo Yi heaven.

Seeing Ye Mo easily find the weakest place of the chaos void flow and charge in, Chang Tian immortal monarch breathed easy instead. He believed with Ye Mo's experience, he definitely has been in the void for a long time. Ye Mo came to the void probably to use it to escape.

Ten seconds after Ye Mo went into the void, Chang Tian immortal monarch and Lu Zhengqun followed in as well.

Although the two were getting closer and closer to Ye Mo, they wouldn't be able to catch up quickly.

At the third day, Ye Mo stopped.

Chang Tian immortal monarch was already a bit desperate. Even though Ye Mo used a low grade god artefact, Ye Mo was only immortal king. He didn't understand how an immortal monarch couldn't catch up to him.

Seeing Ye Mo stop, how could he hesitate. He immediately sealed off Ye Mo's exit. At the same time, Lu Zhengqun came nearby.

"Chang Tian master, wan bei will seal off this person's escape route. He has a low grade god artefact, if he keeps running it would be really hard to catch up to him. Wan Bei's seven star sword isn't as good as his low grade god artefact but I can give it to master as gratitude after master kills this bastard..."

How could Lu Zhengqun not know Chang Tian immortal monarch was suspicious of him, but regardless, he would at least let Chang Tian immortal monarch know he respected him.

This would make Chang Tian immortal monarch underestimate him.

Ye Mo hacked out with Zi Xu, this was his half god art, Rainbow.

Ye Mo didn't use full power this time as well, he only used 80% power. He believed Lu Zhengqun would use this opportunity to attack Chang Tian immortal monarch. So Ye Mo didn't even signal Lu Zhengqun at all.

Since Lu Zhengqun dared to chase him into the void, Ye Mo wasn't confident in saying he could Lu Zhengqun for certain. Lu Zhengqun definitely had secrets, otherwise, how could Lu Zhengqun not know that Chang Tian immortal monarch would be killing him next.

Seeing this rainbow, Lu Zhengqun immediately knew that Ye Mo hid his power at the title status tower and not just a bit. But Lu Zhengqun knew that even if Ye Mo used full power it wasn't enough for Chang Tian immortal monarch. He was far from it.

Lu Zhengqun used seven star sword and smashed at Ye Mo.

Ye Mo ignored this, he could tell that Lu Zhengqun's strike only used half of his power at the tower. He could tell that Lu Zhengqun was definitely going to ambush Chang Tian immortal monarch. They were in a delicate balance now. how to make him benefit the most was the most important.

Seeing Lu Zhengqun attack Ye Mo, Chang Tian immortal monarch was surprised, he thought Lu Zhengqun would be watching on the side.

In that instant, Ye Mo's rainbow arrived.

The heavenly covering purple sword rays surrounded one large ten km long purple sword ray and flew over. Although Ye Mo didn't use Crevice, the crevice hacked out by the sword formed a faint mark in the void.

The nearby void lethal force was swept into this crevice by the strike.

Chang Tian immortal monarch was shocked too. Ye Mo's lethal force was far stronger than ordinary immortal kings. Lu Zhengqun's seven star sword was stronger than ordinary immortal kings but far from as strong as Ye Mo.

The next moment, Chang Tian immortal monarch released a huge seal. This seal was pitch black and turned into a huge seal that had 100 km radius and smashed above Ye Mo's head.

The void above Ye Mo's head was instantly under the control of Chang Tian immortal monarch's domain. Even Zi Xu became slower.

Rumble...

The huge black sealed hacked onto Zi Xu and the heaven covering purple sword rays instantly disappeared. The void lethal force also withered away.

Ye Mo was full of shock. Clearly, if he couldn't break free of this domain in a second, even if he didn't die, his body would crumble. Even an immortal monarch wouldn't be able to take such a seal.

Chang Tian immortal monarch sneered and reached out an immortal essence giant hand wanting to take Ye Mo's body away.

But as soon as his giant hand formed, his face changed. Before he could take back his immortal essence and spirit sense, a white light with seven stars hacked towards him.

"Lu Zhengqun how dare you attack me..."

This time, the seven star sword formed seven star lights with some formation waves inside it. the seven star sword Lu Zhengqun used before was a fake, this was the real one.

Even so, Chang Tian immortal monarch didn't consider it a threat. He was more furious that Lu Zhengqun dared to attack him.

Moments later, Chang Tian immortal monarch's face changed. He felt his immortal king domain cracked open instantly.

"Immortal monarch domain..."

Chang Tian immortal monarch called out in shock and tried to take back his seal to fight off Lu Zhengqun.

Despite this, Ye Mo was swept by the huge seal and flew back out spitting many mouthful of blood in the air.

There was the sound of flesh being pierced.

"Splurge splurge..." seven blood arrows flew out, Chang Tian immortal monarch's heart was pierced.

"Lu Zhengqun, you sly bastard."

Chang Tian immortal monarch roared and the huge seal fell down again with his immortal monarch domain.

Rumble, Chang Tian immortal monarch was covered in blood but acted like an enraged bull.

Lu Zhengqun saw that Ye Mo didn't use this opportunity to run and instead sat on his flying magic artefact to recover and breathed easy.

Of course Ye Mo wasn't going to run, he could tell that the terrifying domain Lu Zhengqun used before wasn't his. He was also shocked, if Lu Zhengqun suddenly used this terrifying domain during a battle with him, he might be instantly killed.

Chapter 1844: You can only die if you don't be cunning

Although Chang Tian immortal monarch was heavily injured, he attacked with full power so clearly he won't stop if he didn't kill Lu Zhengqun.

While the seal smashed at Lu Zhengqun, Lu Zhengqun brought out seven star light runes towards the seal.

Although the two haven't clashed yet, the powerful immortal essence wave was like the ravaging waves of the ocean. The great seal covered all the nearby void and Lu Zhengqun had nowhere to hide. The only thing he could do was clash head on with it.

Ye Mo was recovering on the side but in fact he didn't get very serious injuries. He saw clearly that Lu Zhengqun didn't attack alone, there seemed to be an essence spirit body on him. That essence spirit's spirit sense is very powerful and can use spirit sense to stop Chang Tian immortal monarch's domain.

Rumble.

Cracks sounded all throughout this void. The space ripples spread out in the void.

When the first wave of seven star sword light smashed the seal, the seal immediately slowed down and even shrank down a lot. Lu Zhengqun's face was also much more pale. Before the first wave disappeared, the seven star sword created another wave of seven star sword light smashing at the seal.

The rumbling sound grew more intense, the splashing out immortal essence clashed with the seven star sword light giving a vibrant display of colors in the void.

After using the sword rays three times, the seven star sword finally slowed down. At the same time, Lu Zhengqun spat multiple mouthful of blood.

How could Chang Tian immortal monarch not know that Lu Zhengqun hid his power too. He grunted and released a red axe.

Ye Mo was shocked, he didn't expect Lu Zhengqun was this powerful. Even though he had an essence spirit helping him attack, Lu Zhengqun's means were beyond strong. Of course, Ye Mo didn't know that Lu Zhengqun had his hardships.

Not only did he need that essence spirit to help him stop the immortal monarch domain but he even needed the spirit sense of the essence spirit body to help him use the seven star sword.

This was completely the opposite of what Lu Zhengqun wanted. Although the essence spirit was under his control and he usually respected him a lot, he had never thought of completely opening up his sea of consciousness to him. that way, if the essence spirit attacked him he would be gone. However, he had no choice now. his ambush didn't break Chang Tian immortal monarch's dan tian.

According to his calculations, his sneak attack would almost certainly break Chang Tian immortal monarch's dan tian. But in fact, he only made Chang Tian immortal monarch lose half his battle power.

Luckily, that essence spirit had no intentions of attacking him and helped him defend against Chang Tian immortal monarch's attacks with full power.

Although Lu Zhengqun could barely stop the attacks with the essence spirit, his immortal essence was a far cry from Chang Tian immortal monarch. He could only keep using star light from the sword to reduce the immortal essence pressure. Even so, he spat a few mouthfuls of essence blood.

Ye Mo was recovering on the side, he wouldn't expect Ye Mo to help him. Chang Tian immortal monarch's huge red axe was almost going to hack apart this void. If he didn't think of a way quickly, even if he stopped the seal he would be hacked in half by the axe. Immortal monarch wasn't something immortal kings could compare with indeed.

Lu Zhengqun thought and burned his essence blood and immortal essence, he even started burning his spirit sense. he even burned the spirit sense that didn't belong to him.

The seven star sword emitted even brighter radiance. The sword shot out seven star light sword rays which split apart into seven each again.

This kept going and instantly, there were hundreds of sword rays.

These few hundred sword rays seemed to have fell from the void and rapidly clashed with the seal.

Rumble.

The seal finally couldn't block the sword rays anymore and was smashed away. However, the sword ray didn't weaken at all and kept smashing at the huge axe.

The red axe was powerful but wasn't released by Chang Tian immortal monarch at full power. After being charged by the sword rays, it dimmed down.

More than half of the few hundred sword rays were also gone. The remaining weakened sword ray pierced apart Chang Tian immortal monarch's body.

A wave of weakness struck him. even though Chang Tian immortal monarch knew Lu Zhengqun was extremely weak as well but he didn't dare to stay. Lu Zhengqun was fine but that essence spirit next to him was too terrifying. If he didn't go he would have to stay here forever.

Without hesitation, Chang Tian immortal monarch disappeared past Lu Zhengqun in a dashing light. There was nothing Lu Zhengqun could do and could only watch as Chang Tian immortal monarch got away.

Seeing Chang Tian immortal monarch run away and in his direction, how could Ye Mo not know this guy wanted to take him with him.

He suddenly got up and punched out.

Fist god art, void.

Chang Tian immortal monarch was heavily injured Lu Zhengqun and now seeing that a mere immortal king primary stage dared to resist, Chang Tian immortal monarch was furious.

He had seen Ye Mo attack but even if this punch was as powerful as that strike so what? even though he was heavily injured, he wouldn't care about a small immortal king primary stage. without hesitation, he reached out his immortal monarch domain and grabbed at Ye Mo's punch.

Buzz, buzz. The void suddenly rippled and at this moment, endless lethal force seemed to have gathered from the void forming a lethal force whirlpool. It grew larger and stronger.

Crack crack..."

Chang Tian immortal monarch just released his immortal monarch domain was completely shattered. He found in shock that an immortal king domain was not much weaker than his weakened immortal monarch domain. He also discovered in shock that Ye Mo had spirit sense domain.

But these weren't important, what was important was that this punch swept up the terrifying destructive lethal force of the void.

This punch was more than many times stronger than that rainbow strike.

“Such a sly thing, you dare to hide your power...” Chang Tian immortal monarch roared in fury. He was tricked by Lu Zhengqun and now this Ye Mo.

More terrifyingly, both of these guys were top level immortal kings. This Mo Yue sect leader was no weaker than immortal king peak stage. If Lu Zhengqun didn’t have the help of the essence spirit, even he was no match for this person.

Chang Tian immortal monarch knew that now, the strongest was this ‘injured’ immortal king primary stage but he chose the strongest one to attack.

Regardless, Chang Tian immortal monarch knew he had to block this punch.

Rumble. Chang Tian immortal monarch’s arm was turned into nothing by this punch, the next moment, Chang Tian immortal monarch’s body crippled in this punch and blood splashed everywhere.

“I hate you.” Chang Tian immortal monarch spat and then even his essence spirit was annihilated.

Chapter 1845: Battle Lu Zhengqun

After killing Chang Tian immortal monarch, Ye Mo picked up his storage ring.

Lu Zhengqun didn’t run nor leave. He just ate a few pills and looked at Ye Mo with a bad face. It was like Chang Tian immortal monarch gave his storage ring to Ye Mo. Ye Mo killed Chang Tian immortal monarch too fast.

“It seems I need to give this Jun Zi immortal king title to you, you’re the real Jun Zi.” Lu Zhengqun sneered.

Ye Mo sneered "Lu Zhengqun, I don't dare to take your Jun Zi immortal king. I'm calculative to enemies but not friends. Meanwhile, you're probably very Jun Zi to both friends and enemies right?"

"Sect leader Luo, you know it's impossible to kill me. I'll admit defeat today, we'll end this here. You go your path I'll go mine." Lu Zhengqun said slowly, there wasn't any killing intent on him at all.

Ye Mo clapped his hand and said "okay, we'll agree to that..."

"Crack..."

As Ye Mo's voice sounded, Zi Xu clashed with seven star sword. Clearly the two thought the same thing and were going to ambush each other. In order to attack quickly, both of them didn't use god art.

The two swords clashed together in the void creating waves of immortal essence ripple.

"It seems this Jun Zi title is indeed mine." Lu Zhengqun sneered again.

"I never wanted your Jun Zi immortal king title." Ye Mo said and then used rainbow again. However, unlike when he attacked Chang Tian immortal monarch, he used full power this time.

Seeing this, Lu Zhengqun used seven star sword again but this time, he had seven of them.

Ye Mo didn't expect that Lu Zhengqun still had tricks up his sleeve. Only one was real, the rest were fakes.

"Hmph, you only used 40% power when you fought with me in the tower and facing an immortal monarch, you dare to hide 20% of your strength, you really do need the title Jun Zi immortal king..."

Lu Zhengqun sneered and the seven star sword spun rapidly forming a sword formation.

Ye Mo looked at this sword formation in contempt, how dare this guy play with sword formation in front of him.

Ye Mo didn't even have the will to break this formation.

Ye Mo waved and a huge mountain fell above Lu Zhengqun's head. It was no smaller than the seal Chang Tian immortal monarch used.

This mountain gave Lu Zhengqun an extremely strange feeling, it seemed to have crossed the void and fell down but there was no tracks of it. the essence spirit next to Lu Zhengqun couldn't resist spurting "space law god art?"

Hearing this, Lu Zhengqun didn't dare to be careless at all. He immediately used the seven star sword formation to smash at world rock. In the spur of the moment, he could only release an ordinary defense immortal artefact to block this rainbow.

Dense clashing sounds occurred, Lu Zhengqun's defense immortal artefact was immediately cut into pieces.

Rainbow sword ray shrunk and formed a purple beam smashing at Lu Zhengqun.

At this instant, a powerful domain appeared instantly stopping Ye Mo's rainbow. Lu Zhengqun retreated crazily but the beam still drew a long mark on his chest.

While blood splurged out, the sword formation was smashed in the door by the world rock.

Crack, six swords shattered, only the real one remained but was falling down wobbly. Lu Zhengqun forcefully took it back.

How could Lu Zhengqun not know he was no match for Ye Mo at all? Even if he was at his peak, he would need the essence spirit to help in beating Ye Mo.

Lu Zhengqun wanted to run.

But how could Ye Mo let Lu Zhengqun run? Countless lightning blasted in the void. Lightning sand instantly formed a huge black lightning spear with some gold color. The spear fell down and the nearby void was instantly locked by the lightning spear.

“Kai Mi qian bei, please help me...”

This huge golden lightning spear filled Lu Zhengqun’s heart with despair. He really couldn’t understand how a mere immortal king primary stage was this powerful.

“Give me your body, otherwise, I can’t stop him too.” The essence spirit said heavily.

Lu Zhengqun didn’t expect Ye Mo was this powerful. Even an immortal king might not be a match for Ye Mo.

He was suppressed by a cultivator who only ascended for a few decades.

Seeing that the seven star sword was about to clash with lightning spear, Lu Zhengqun knew that if he didn’t make a decision his essence spirit would be destroyed too. Thus, he could only let open his mind and let the essence spirit control his sea of consciousness and body.

Rumble.

The lightning spear hacked the seven star sword and an explosion sounded. The sword flew out instantly. The lightning sword just eased and smashed at Lu Zhengqun again.

The terrifying force swept past the entire void causing ripples. This entire region of the void was under the force of the spear.

Splurge.

Blood and flesh flew, half of Lu Zhengqun's body exploded from the lightning spear. The spear pierced his body and went into the void.

Ye Mo's eyes narrowed. He knew the power of lightning sand. It definitely wouldn't just tear open half the body and disappear into the void. The body would definitely explode after being pierced but Lu Zhengqun only lost half his body.

This wasn't normal.

"Kai Mi you old bastard..."

Lu Zhengqun's furious voice sounded. Ye Mo was shook, the next moment, he saw a extremely hollow figure seep out. It was Lu Zhengqun's essence spirit but it was incomplete too probably due to the lightning spear.

However, the half bodied Lu Zhengqun grabbed the figure and sent it into his mouth.

Eating his own essence spirit? Ye Mo dazed for a moment and realised that Lu Zhengqun was possessed. A guy who could devour essence spirit was not ordinary.

A guy like Lu Zhengqun deserved such predicament, Ye Mo sneered. Instantly, the damaged body of Lu Zhengqun recovered.

"Kid, Lu Zhengqun is dead, the conflict between you is over. We don't have any conflicts, we'll go our own paths." A coarse voice sounded from Lu Zhengqun's mouth. Ye Mo knew that Lu Zhengqun was really possessed.

Ye Mo sneered, he'd be an idiot to believe this guy would let it go.

This guy could dodge lightning sand and make it unable to release its full power. He even used the lightning spear to weaken Lu Zhengqun. His calculations and power was stronger than both him and Lu Zhengqun.

Ye Mo said nothing and released world rock while hacking out.

This person gave him much greater danger than Lu Zhengqun. If he didn't kill this guy while he was weak, it would be too late when this guy recovered.

Seeing Ye Mo dared to attack him, Kai Mi sneered but wasn't scared. He punched at the world rock and released a blood spear.

The spear formed blood rivers in the void, the putrid smell of blood was revolting.

If Lu Zhengqun was still alive, he would see that amicable looking Kai Mi qian bei was like a demon king now. The blood river charged at Ye Mo's Zi Xu fell down.

Thud.

A heavy thud sounded and the blood river was torn apart by Zi Xu.

"What god art is this?" Kai Mi yelled in shock.

"I'll let you try my Crevice Strike..." Ye Mo's force was even more dominant after breaking the blood river. The crevice swept the lethal force in the void and was slicing towards Kai Mi's forehead.

Chapter 1846: Hunt

Thud, Kai Mi's fist smashed with the world rock and in that instant, the fist cracked apart like a turtle shell and then in another crack, the entire fist disappeared.

After the blood river was hacked apart, Ye Mo's Zi Xu still kept sweeping in lethal force like crazy. At this moment, Kai Mi knew he couldn't fight Ye Mo head on. It's not that he couldn't beat Ye Mo but that he didn't have full control of the body.

When Kai Mi saw his forehead slowly crack open under this strike, he didn't want to fight with Ye Mo anymore.

The spear flew back and the blood river rushed into Zi Xu.

Zi Xu didn't slow down at all. Space itself in the void was drawn over by Zi Xu. If Kai Mi's blood river was like a waterfall in the sky, Ye Mo's Zi Xu was like an endless black hole devouring the entire blood river.

The blood river dissipated but after that Kai Mi was gone.

Ye Mo immediately stretched out his spirit sense domain, one second later, Ye Mo caught a sliver of immortal essence wave in the void.

Kai Mi could use Lu Zhengqun's body and immortal essence and his spirit sense was this powerful, he was definitely no weaker than Yan Jiutian. However, they used different methods of possession.

Yan Jiutian wanted to cultivate back to dao vindication divine emperor slowly himself. This type of possession was not match different to rebirth. Yet Kai Mi could even use Lu Zhengqun's immortal essence. This meant that he used to be a divine emperor.

This person knew all the secrets of Lu Zhengqun and definitely knew about the chaos tree. Kai Mi was weak now, how could Ye Mo let him go? When he found the immortal essence of Kai Mi leaving, he immediately chased up.

Kai Mi indeed could use Lu Zhengqun's immortal essence. other than due to his powerful spirit sense, another main reason was that he knew Lu Zhengqun's immortal essence and sea of consciousness too well. He was studying Lu Zhengqun's immortal essence and sea of consciousness constantly.

Kai mi knew that Ye Mo had a low grade flying god artefact but he wasn't worried. He believed that Ye Mo wouldn't even know when he left.

But soon, Kai Mi realised that was impossible. The weak space ripples of when he left didn't trick this immortal king primary stage. Ye Mo chased up and was getting closer and closer.

Now, Kai Mi was really beginning to worry. If he had one year, he wouldn't be afraid of Ye Mo at all but now Ye Mo didn't even give him 15 minutes. He chased him closely. No matter what stealth cultivation method or mobility technique he used, Ye Mo would soon be able to find him and chase up.

He didn't have any high level mobility rune.

As the two chased, they went further and further in the void. Kai Mi was experienced, he could slowly fuse into the body while running. Meanwhile, Ye Mo's low grade god artefact was very fast and thus followed him closely.

Kai Mi was annoyed, he didn't understand how this immortal king was this ferocious. There was no way Ye Mo could track him this closely without a powerful spirit sense domain. Powerful spirit sense domains required a powerful spirit sense cultivation method. Only those ancient powerful beings could use it. he didn't understand where Ye Mo got it.

If he didn't have a blood spear, he wouldn't be able to get away from Ye Mo's low grade god artefact.

Ye Mo was depressed too, he could clearly chase up to Kai Mi but after a month he didn't even know where he was and he still didn't catch Kai Mi. low grade god artefact had a steady speed but it was hard to accelerate. He didn't dare not to use it or he wouldn't be able to keep up.

Another two months had passed, the two's distance didn't close nor get further.

If Kai Mi didn't keep changing directions and stealthing, Ye Mo even wanted to tell small ginseng to control the space time boat.

Kai Mi was annoyed at first but after a few months, he settled instead. He started to fuse his body and immortal essence even faster as he ran away. If he just used mobility technique once in a while and suddenly changed direction, he wouldn't be caught up.

But sometimes when he thought about how he was a divine emperor and yet he was getting chased like a dog, Kai Mi was furious.

...

The king naming had finished. Every immortal king got their own title.

At the immortal king tablet square, there was news that Yue Heng Heaven lord hunted an immortal king with an immortal monarch. It's said the three went into the void but they all went missing in the void. It was nothing new that someone went missing but it was no simple thing if one of them was an immortal monarch. An immortal monarch hunting an immortal king went missing, this was unbelievable. Of course, it was possible that the immortal monarch was just busy and so didn't come back.

Only the heaven lord alliance immortal kings knew that Chang Tian immortal monarch wasn't busy, even if he was, it would be at Extreme wind heaven.

Chang Tian immortal monarch should be coming back to Extreme Wind Heaven as soon as he killed that sect leader Luo. But neither Chang Tian nor Lu Zhengqun came back.

After the two went missing, the heaven lord alliance didn't hold another meeting. As for the new heaven lord of Yue Heng Heaven it was put on hold. No one mentioned this.

As for Mo Yue Immortal Sect and Mo Yue Immortal City, no one would dare to offend them.

Gong Hua heaven lord Ji Zhi immortal king Meng Changxue rejoiced of his decision. Even Chang Tian immortal monarch went missing hunting that sect leader Luo, much less him if he did something against Ye Mo.

...

After the king naming finished, Lu Feng got Huan Yi immortal king, her ranking wasn't low. It was top grade in the low heaven domain. Lu Feng heard it was an immortal monarch hunting him but there was nothing she could do.

She could only stay at Mo Yue Immortal sect and protect the sect and city.

Chapter 1847: Shadowless wake up

Ye Mo had never thought he would chase someone for five years, nor did Kai Mi expect he would be chased for five years.

If it was someone else, Ye Mo would've long stopped wasting his time but he couldn't let go of this Kai Mi.

Kai Mi not only knew who he was and knew he had chaos tree. If this guy got away and recovered his power, he would have nowhere to go.

In five years, Ye Mo went through countless void fissures with Kai Mi and countless void chaos flows but Kai Mi was always fine.

Ye Mo knew he has the golden page world himself, at the same time, he also realized that this old bastard must have a sturdy world ,even a true spirit world.

Kai Mi felt so frustrated, he couldn't shake off Ye Mo even after crossing void fissure many times.

The true spirit world of Lu Zhengqun was originally his. Kai Mi used the time while he was running to spirit control it again. Although this truth spirit world was incomplete and even a little damaged but it was still a world. It didn't affect his control of the world. so when the truth spirit world crossed the void fissure, Kai Mi could clearly feel that Ye Mo could control his world too.

Kai Mi had long proved that Ye Mo not only had chaos tree but chaos world. any of these things would shock the entire immortal realm and make countless people go crazy for it. Even divine emperor was of no exception. He was very crazy about it now but he couldn't beat Ye Mo.

Kai Mi just wanted to shake off Ye Mo now and quickly recover his power. When he was strong enough, the first thing he would do is go to Mo Yue Immortal sect and annihilate it forcing Ye Mo out.

But now, he felt that if Ye Mo chased for one more year he would fall into Ye Mo's hands. That's why he was beginning to worry.

Ye Mo also knew that his chaos world was exposed so he had made up his mind. Even if he had to chase this guy for a few hundred years, he would kill this guy.

After these five years, Ye Mo had calmed down. He didn't ask that he closed up on the guy but just that he didn't fall behind. He was getting closer and closer to Kai Mi, Ye Mo believed he would be able to kill Kai MI in a year or two.

Although Ye Mo didn't cultivate these five years, his spirit sense kept getting refined in the void as he had to keep using it to find Kai Mi. It was already on par with immortal monarch middle stage. These few years, he had completely stabilized his power on the space time boat and learned more about his god arts.

And, Ye Mo's spirit sense was beyond ordinary immortal monarch middle stage spirit sense. As he had to search for Kai Mi, he had to keep his spirit sense domain open constantly. His spirit sense has even materialized.

Today, Ye Mo suddenly felt some waves coming from the golden page world, Ye Mo knew that shadowless had woken up.

After Ye Mo agreed, shadowless appeared on the space time boat, small ginseng came out too.

"You're at heaven tao tertiary stage?" Ye Mo asked.

“Boss what do you expect, I never waste resources.” Shadowless said gloatingly.

“One level nine immortal spirit beast core, even if a dog ate it he would become great eternity immortal and yet you say you never waste resources.” Ye Mo was speechless, shadowless was too shameless.

Shadowless kept saying “boss, I’m not a dog, I’m....”

“Small ginseng immediately said “big brother, I know you’re not a dog, you said it before.”

Small ginseng then added “you’re a bug right? A pea sized bug, I didn’t expect a bug like you could become this big.”

Hearing this, shadowless’s face sunk. But he didn’t dare to teach small ginseng a lesson in front of big boss.

Plus, there was a forbidden ground in the golden page world, that was around the chaos tree.

Even in the golden page world, if small ginseng goes in there, there would be nothing he could do.

He could only say “it’s because I ate emperor dao crystal, and then I mutated to heaven tao.”

“Oh, I thought you only ate a level nine immortal spirit beast core, there’s emperor dao crystal too. These are both emperor grade things and you could eat both of them, you’re too good.” Small ginseng raised his thumb.

How could shadowless not be able to tell that small ginseng was scorning him.

Small ginseng was misbehaving more and more. when he first came to the golden page world, small ginseng called him big brother all the time. But now, he kept scorning him.

“Hmm, big boss, we’re in the void again.” Shadowless suddenly realised that they were in the void.

Small ginseng said in contempt “we’ve been flying in here for five or six years. Your information is really timely.”

Shadowless spread his wings and said “boss, I’m the most familiar with space itme boat, let me control it. Just tell me where to go, hmm, where is there no markings on the location disk?”

Small ginseng said in contempt “if you could control it, I would be helping control it already. I’m better than you at controlling the ship. Boss is chasing an idiot, that guy knows nothing but running. We’ve been chasing him for five years but we still haven’t caught up.”

Hearing this, shadowless reached out his spirit sense and saw Kai Mi who was running away like crazy.

“Boss, I can chase up to this guy in a short time.” Shadowless saw the red spear under Kai Mi and said.

Hearing this Ye Mo thought, shadowless was different to small ginseng. Small ginseng was fast but had no battle power. Letting small ginseng stop Kai Mi was like throwing food at a dog.

But shadowless was different, he was heaven tao tertiary stage now so he was on par with immortal king primary stage. Even though he was no match for Kai Mi, he could still stop him.

Thinking about this, Ye Mo got up and said “small ginseng you control the space time boat. shadowless catch that guy immediately, this guy might be a divine emperor essence spirit, if you catch him you can eat him.”

“Haha, watch me boss.” Shadowless laughed.

But just when he was about to go out, he thought of something and pitifully turned around “boss, aren’t I just going to be food if I go chase a divine emperor?”

“Idiot.” Ye Mo slapped shadowless’s head and said “if this guy still had divine emperor power, would he run away? This guy is only possessing a body, he’s at most an immortal king.”

With this, shadowless dashed out in a golden line. His burst of speed in a short time was faster than even the space time boat.

At the same time, Ye Mo released world rock.

Kai Mi’s power was recovering too slow as Ye Mo was chasing so closely.

When he saw shadowless dash over in a golden light, he immediately felt things weren’t right. Shadowless’s huge mouth already bit down on him.

Kai Mi instantly released the blood spear smashing blood rivers at shadowless but shadowless opened his mouth fearlessly wanting to devour the blood river.

“What is this thing?” Kai Mi looked at shadowless in shock. He had been through countless years as a divine emperor but had never seen such immortal spirit beast. Was this some ancient god beast?

“Rumble...” shadowless ate a few blood rivers but the blood river flow was endless, shadowless was eventually struck and flew out in pain.

Seeing this, Ye Mo knew that Kai Mi’s power improved by a great deal.

Ye Mo charged out of the space time boat and hacked with Zi Xu while smashing world rock down.

Chapter 1848: Blueish Grey Dimension

With this slice, the nearby space and lethal force gathered, a terrifying purple crevice appeared in the void before the strike was completely released.

Kai Mi looked at this with a shiver, just looking at this, he knew that Ye Mo's god art improved again since a few years ago. If he took this move with force, his body would cripple again.

But, Kai Mi knew he had to stop it. This move had completely bound the nearby space. He could even feel that Ye Mo's spirit sense was actually on par with his.

Seeing this, Kai Mi's heart sunk. He knew there was no other way around it. If he forcefully ran away now, he wouldn't be able to stop Ye Mo's next move. Then, even his essence spirit would be destroyed.

Kai Mi was furious. Lu Zhengqun's body was perfect for him but he just got it and now it was going to be destroyed. He didn't even know if his essence spirit would be able to escape. Even if there was no one hunting him, it was uncertain if his essence spirit could survive in the void.

He released the blood spear sweeping out hanging blood rivers again.

The rumbling sound echoed in the void, Kai Mi had been through countless battles. Even if he couldn't stop Ye Mo's attack, he wouldn't lose the will to battle.

Just when the blood rivers were about to smash into the purple sword rays, a black whirlpool appeared a few hundred km away. the entrance was a whirlpool that was spinning to the extreme, spirit sense would be shredded upon contact.

It was so black it was shining, it was like dark ink.

Seeing this, Kai Mi burned his essence blood and lifespan without hesitation. His face went from middle aged to extremely frail. But the instant Ye Mo's crevice fell, Kai Mi disappeared.

Rumble.

The remnant blood river was hacked in hack and exploded in the void.

Ye Mo's spirit sense saw Kai Mi dashing into that black void. In an instant, Ye Mo made up his mind. He took small ginseng and shadowless and chased into that whirlpool too.

The instant he went in, Ye Mo went into the golden page world.

Inside the golden page world, as soon as Ye Mo reached his spirit sense out, he felt his sea of consciousness rumble. He quickly took back his spirit sense. In some places, it would at most destroy the spirit sense he sent out but never before had a place affected his sea of consciousness like this.

Ye Mo's heart sunk. His determination to kill Kai Mi was huge but in here, he couldn't release his spirit sense at all. How was he to find Kai Mi.

"Boss did I do something bad? That old guy is so strong, I couldn't eat him in one go." Shadowless said quietly.

Ye Mo waved his hand "it has nothing to do with you, this guy is a tough bone."

Ye Mo could only helplessly wait and see now.

...

Kai Mi scanned his spirit sense out as soon as he went in the whirlpool too. When his spirit sense was destroyed and even his sea of consciousness rumbled, Kai Mi was instead happy. He knew that he had finally escaped from Ye Mo.

Kai Mi breathed easy and started to recover in his truth spirit world. Shadowless's ferocious speed and that powerful mouth still scared him. This was a breed he had never seen before. He could tell that immortal spirit beast was only at child stage. If it matured, it would be terrifying.

Kai Mi shook his head and cast these thoughts aside focusing on cultivation.

But two days later, Kai Mi felt things weren't right. His truth spirit world was slowly cracking, chaos flow swept in.

Not good, his truth spirit world was about to crack. Kai Mi was instantly anxious. In this place, if the world cracked, he would be crushed to nothing.

Suddenly, he heard a crack, Kai Mi's heart sunk. He knew his world had crippled.

Kai Mi then noticed something wasn't right. The nearby black whirlpool was gone, he was safe. He was in a blueish gray world. the cracked truth spirit world was below his feet. The mountains, rivers and immortal spirit herb were all just waste now.

Just when Kai Mi wanted to study where this was, he thought of the whirlpool that swept him in. It was long gone now, there was only a sliver of remaining wave.

Kai Mi wanted to take the pieces of the truth spirit world again but suddenly there was another sliver of wave in the blueish grey space.

How could Kai Mi not know that this person would probably be Ye Mo. He instantly, used his mobility technique to disappear without even picking up his truth spirit pieces.

Ye Mo came out of the golden page world.

The pile of truth spirit world rubble laid before him. Ye Mo immediately knew that Kai Mi came here too and he got away. What was this place? It was blueish grey everywhere, looking quite similar to chaos star realm.

Ye Mo didn't have time to care about the truth spirit world. His spirit sense scanned out, he was going to find the tracks of Kai il, he couldn't let this guy get away.

As soon as Ye Mo scanned his spirit sense out, he realised that spirit sense was suppressed here. He then heard a loud roar and then a 50 meter tall immortal spirit beast charged over.

It had an ape face and its body was covered in blue fur. It could stand on two legs.

Ye Mo reached out his immortal king domain, this giant immortal spirit beast just waved its hand and a light crack sounded. At the same time, Ye Mo felt the backlash and his immortal essence coagulated.

What was this? Ye Mo released world rock in his shock.

Rumble.

The world rock smashed the arm of the immortal spirit beast creating this ear shattering sound.

Ye Mo's world rock flew out a few km but this tall immortal spirit beast's arm was fine.

Ye Mo was shocked, he had never seen such terrifying immortal spirit beast. This immortal spirit beast seemed to have been enraged by Ye Mo, it flung up its arm and slapped over at Ye Mo.

The terrifying pressure squeezed this space. Ye Mo was shook, this pressure purely came from this swing. It had no spirit sense pressure nor domain pressure, it was just pure power.

Ye Mo burned his immortal essence and instantly broke free and then used an instant transmission.

The immortal spirit beast slapped where Ye Mo was and immediately, a huge ravine with tens of km radius appeared.

Nothing on that area of land remained.

Chapter 1849: Terrifying Star Beast

Ye Mo was shocked, he didn't dare to keep fighting this thing now. If it wasn't that this beast didn't have spirit sense nor magic, Ye Mo would be no match for it at all.

Seeing Ye Mo retreat, the immortal spirit beast chased over. Its speed was like a comet. Ye Mo quickly released space time boat and sped off running.

When Ye Mo started running he was dumbfounded.

In his spirit sense and before him, there were these immortal spirit beasts everywhere. Some were very small only 6 meters tall but those big ones were larger than the immortal spirit beast he just fought. Some of them even had wings, how could he run?

Ye Mo's battle with that immortal spirit beast startled the other immortal spirit beast and they all came charging at Ye Mo.

Seeing that he was surrounded by these immortal spirit beast, Ye Mo didn't dare to waste time. The space time boat seemingly instant transmissioned out. As for whether Kai Mi was alive or dead, Ye Mo couldn't care.

Ten seconds later, Ye Mo found that no matter where he went, there were these immortal spirit beasts. Some places had more some places had less.

Ye Mo found a place with less immortal spirit beast before calling shadowless and small ginseng out.

"Which of you know these immortal spirit beasts?" Ye Mo asked.

Shadowless shook his head.

Small ginseng said "boss, they are called star beasts. They're neither immortal spirit beast or god beast, they a type of beast living at the border. They only cultivate bodily power and strength, not essence spirit nor spirit sense. they have no god arts or magic but ordinary god arts can't do anything to their

power. When power is at a certain level, no immortal essence nor spirit sense is needed. Just pure power will tear through everything.”

Ye Mo nodded. Even his immortal king domain was useless under the pure power of these star beasts.

Seeing Ye Mo agree, small ginseng looked at shadowless gloatingly “where star beasts are, it must be the border of a realm domain. Usually, there would be chaos chi here, star beasts love that. Now, there are very little places with chaos chi, so there’s very little star beasts, it’s quite strange that there are so many here.”

Shadowless said awkwardly “small ginseng, your knowledge is quite good.”

Small ginseng said happily “of course, I also know that star beast cores are called star cores, they’re used to make the top grade body refinement immortal pills.”

As they spoke, some star beasts saw Ye Mo and already charged over.

Ye Mo knew that it wasn’t too plausible to keep running in a place like this, so he could only fight them.

This time, the star beasts were all below 30 meters. Ye Mo hacked out Zi Xu.

Rainbow.

The leading star beast saw this and roared, punching at Zi Xu.

Fist and Zi Xu sword ray clashed creating a huge blast. The ground collapsed.

The sword ray left a mark on the beast’s body. A blue liquid dripped out.

Small ginseng couldn't fight so Ye Mo put him away. meanwhile, shadowless charged out. Small ginseng behaved well just then, if he didn't do well and boss was unhappy, then small ginseng might be appointed big brother.

Shadowless roared and opened his mouth, a 6 meter tall star beast was devoured.

Ye Mo was quite surprised with shadowless's ferocity.

The star beasts that fought Ye Mo was furious and roared as it charged at Ye Mo again.

Ye Mo put away Zi Xu and flung out lightning. Lightning splashed in the air whizzing everywhere.

Then, in an explosion, the lightning gathered into a bucket thickness lightning spear.

The spear tore through the air and pierced down from the void.

Thud.

The pressure field turned to nothing under the lightning spear.

Rumble. The spear pierced through the star beast's chest but didn't stop there. It penetrated the hard ground and nailed the star beast.

The star beast looked dazily at the spear before falling down.

Ye Mo breathed easy, this thing was too hard to kill. He used two god arts to just kill one star beast that wasn't even 50 meter tall.

"Wuwu, this thing tastes bad." Shadowless sounded.

With this countless star beasts charged over.

Ye Mo knew that lightning swords were probably completely useless, Heaven Flame Nine Suns would have quite some trouble and it was too taxing on immortal essence and spirit sense. So, Ye Mo just used four stack wave kill.

Waves of hundred meter tall lava waves charged over. In the blink of the eye, it was a sea of flames before Ye Mo and shadowless.

The first wave swooped the countless star beast with terrifying force but Ye Mo saw in shock that only some short star beasts were killed by the wave. Most of the star beasts were fine, at most just a bit withered. He just burned their layer of blue fur.

Ye Mo rushed his immortal essence pushing out the second, third and fourth wave.

The terrifying heat instantly melted this place. explosions sounded and after the four waves, these few thousand star beast were either dead or injured.

Some smaller star beasts had completely turned to dust while some larger ones were injured.

Ye Mo was very shocked, four stack wave kill was extremely consuming on immortal essence and spirit sense and even such terrifying attack couldn't kill all of them. These star beasts were too powerful.

A roar sounded from the distance, Ye Mo knew he had to quickly run. If he didn't, he wouldn't be able to use four stack wave kill non-stop. If there were 50 meter tall star beasts, four stack wave kill wouldn't be able to injure them anyways.

Ye Mo took the star beast he killed with lightning spear into the golden page world and dashed into the ground in golden page world.

Ye Mo then threw the star beast to shadowless. Shadowless ate it in a gulp.

Although this thing tasted bad, shadowless knew it benefited him so much.

...

A day later, Ye Mo took shadowless out of the golden page world again. The surrounding was filled with star beasts. Ye Mo didn't use four stack wave kill again.

Ye Mo just released Zi Xu and started fighting them. Meanwhile, Zi Xu kept devouring them. At first, shadowless could only eat 5 meter tall ones but later on, he even dared to eat anything below 30 meters.

If he was having trouble digesting, shadowless would go into the golden page world immediately and come back out once he was done.

Ye Mo was amidst the star beast crowd slaughter. He slowly understood that not only was immortal essence and spirit sense needed to kill them but also a power law.

This power law was very hard to control but as long as you captured one sliver of it, you can even kill 30 meter tall star beasts with one strike not using any god art. But if the star beast was taller than 30 meters, it surpassed this ordinary power law.

As Ye Mo fought, those terrifying fists kept striking him. even with his immortal spirit body tertiary stage power, his skin and flesh cracked. Ye Mo could only keep using body refinement cultivation method at the same time.

Shadowless kept going in and out of the golden page world while devouring star beast. In this endless slaughter, they would immortal city run to another place if a star beast taller than 30m came.

Ye Mo wanted to learn the power law through killing while shadowless just wanted to break through. Plus, there was no other way out in here other than killing star beasts.

Chapter 1850: Su Jingwen immortal ascension

The place star beasts lived at was boundless. Ye Mo and shadowless fought for a few months and flew for a few month. Eventually, Ye Mo just kept killing star beasts while cultivating his god art and refining his immortal essence and spirit sense.

As for cultivation level, Ye Mo didn't plan to cultivate it. The main problem was that he didn't have enough cultivation resources. In this place, there was only star beasts, there would occasionally be some high level forgery material but no immortal range and immortal spirit herb.

Ye Mo's main cultivation resources were from Chang Tian immortal monarch. Ye Mo got a top grade immortal range and two middle grade immortal ranges from there, there was also 1 billion immortal crystals. This really wasn't many immortal crystals for an immortal monarch but he had large amounts of immortal spirit herb and forgery materials. These things were more important than immortal crystals for Ye Mo.

A year later, shadowless's power was rising steadily after devouring large amounts of star beasts but Ye Mo's power didn't change at all. However his immortal essence and spirit sense were more refined. Even a star beast that was taller than 30 meters would be affected by his world rock.

Two years later, shadowless was near heaven tao peak and Ye Mo's Tang Mengrao could injure a star beast taller than 30 m.

This endless slaughter and running would drive someone mad.

But luckily, Ye Mo would go sit under the bitter bamboo everyone once in a while to meditate and digest what he learned before he went out to slaughter again.

At the fifth year, shadowless was heaven tao peak stage, just one step away from immortal tao. Meanwhile, Ye Mo mastered all his god arts and reached immortal king middle stage. However, the three immortal ranges were gone.

When Ye Mo first came here, a 50 m tall star beast could slap Ye Mo away easily and the world rock couldn't do anything against them.

But now after five years, Ye Mo no longer feared the 50 m tall star beasts. Those below 30m couldn't even last one round in Ye Mo's hands. Even 50 m tall star beasts were often killed by Ye Mo.

His god art whether it was void, crevice, Tang Mengrao or lightning sand were all many times stronger.

Another reason Ye Mo killed them so easily now was because only striking the lethal spot of the star beast would kill them in one move. Each star beast had different lethal spots.

Shadowless could devour star beast that were below 50 meters now. the only one who didn't improve was small ginseng but his main ability wasn't in fighting.

Ye Mo estimated now that even if he faced immortal monarch middle stage, he wouldn't lose. Immortal monarch middle stage wasn't necessarily as strong as star beast but the only concern was that they not only had immortal essence but also spirit sense and god art.

If there was a 100 m tall star beast, then Ye Mo would have to run. There were many of these, he had only seen them six times in these five years.

Due to Ye Mo and shadowless's crazy carnage in this area, the star beast recognized the two and if they came over, pretty much no star beasts wanted to fight them.

Ye Mo and shadowless were tired of killing too so as long as they didn't come, they would just go their own way.

These star beasts weren't completely dumb too. Seeing that if they didn't attack Ye Mo and shadowless, they wouldn't get attacked, they knew to move away when Ye Mo and shadowless came.

The subtle rule that came to be was when Ye Mo and shadowless came, the star beasts would move aside. When they left, they would go back. If there was a 100m tall star beast, Ye Mo and shadowless would move away.

What disappointed Ye Mo was that after searching for this long, he still didn't find a way out. There was no space fissure nor space whirlpool. He didn't have the power to tear this space open.

...

Su Jingwen stood at the immortal ascension palace feeling the dense immortal spirit chi. She was shaking with excitement. She really wanted to ascend with Susu and them but she really couldn't wait. She was thinking about Ye Mo every moment, she cultivated so hard just so she could come to see Ye Mo earlier.

Now that she finally ascended, she just wanted to find Ye Mo quickly and go into his arms.

"Yu Wan Heaven Xi Hao immortal city, immortal ascension palace." The words made Su Jingwen realise she came to a low heaven domain in the immortal realm.

Su Jingwen had been in the cultivation realm for a while but she did come from earth and didn't know the hardship and cruelty of the immortal realm. When she just got to Luo Yue continent, she lived a hard life and almost died but after seeing Ye Mo and going to Mo Yue City, her power rose drastically.

With Ye Mo's authority on Luo Yue continent and Mo Yue City's status on Luo Yue continent, Su Jingwen could do whatever she wanted there. But she didn't like to show off. However, if she said something, not even South Peace State but no one in the entire Luo Yue continent would dare to rebuke.

Su Jingwen thought that as long as she could find. Teleportation formation, she would be able to make it to Gong hua Heaven.

Walking out of the immortal ascension palace, Su Jingwen immediately felt extremely powerful spirit senses and immediately felt lacking confidence. She realised, this was no longer Luo Yue continent Mo Yue City, but a strange immortal realm.

Feeling those powerful and contemptuous spirit sense, Su Jingwen shivered and suppressed her excitement. She quickly looked down. She suddenly felt that the immortal realm in her mind was completely different to the real one.

“Which cultivation realm did you come up from?” A loud voice interrupted Su Jingwen and Su Jingwen saw a middle aged immortal stop her path.

His hair wasn't long but his power was much higher. Su Jingwen didn't know what power this person was but she could tell it was many levels higher than her. Remembering Ye Mo telling her not to expose where she came from and just to meet up in Gong Hua heaven, Su Jingwen hesitated for a moment and said “I came from Shen Qiong continent.”

Hearing this, the man shook his head and lost interest.

“Shen Qiong continent? Great, our San Cai Jade Immortal sect's found father came from there, welcome.” A fat immortal heard this and his eyes turned into a fine line with his smile.

There were many immortals here at the immortal ascension palace coming from big sects, they were here to fight the most excellent sect members for their sect.

Most of the solo cultivators in the immortal realm were disqualified from rounds and rounds of selection.

So, in order to get good disciples one had to search among the newly ascended cultivators.

Usually, unless you were extremely extraordinary, people wouldn't even be bothered fighting over you.

This fat immortal saw Su Jingwen was quite pretty and from Shen Qiong continent, that's why he was a little interested.

“Sorry, I want to ask where the teleportation formation to Gong Hua heaven is, I just want to go Gong Hua heavne. I don't want to join a sect yet.” Su Jingwen quickly said.

As soon as Su Jingwen said this, the nearby immortals laughed. A newly ascended truth realisation state cultivator wanted to take the teleportation formation before even leaving the immortal ascension palace, this was too funny.
