

Strongest As 1851

Chapter 1851: Immortal ascension palace killing

Su Jingwen looked at the talent testing magic artefact but didn't reach her hand out to test it. She knew her talent, in the entire Luo Yue continent, there was probably no one better than her. Otherwise, she wouldn't be the first to ascend to the immortal realm in such a short time.

These people came to test talent clearly for taking in sect members. If they found her talent was very good they definitely wouldn't let her go easily.

"Place your hands into the testing immortal artefact. It can test your talent and age to determine your talent." The fat cultivator smiled at Su Jingwen.

"Sorry, I don't want to join these sects. My husband is in Gong Hua Heaven I just want to go to Gong Hua heaven to find my husband." Su Jingwen clenched her teeth and said.

Before the fat immortal said anything, someone on the side laughed "looking for a dao partner? There's people everywhere, why run to Gong Hua heaven..."

Su Jingwen glared at that person furiously. Seeing this, the person said "I said it, so what? Are you going to kill me? I want to see how a newly ascended hollow immortal is going to kill a golden immortal, haha..."

Su Jingwen turned to leave, she knew she couldn't beat anyone here. Plus, she knew this place forbids fighting.

"Haha..." that immortal laughed again "you shouldn't go look for your husband, an insect like him is probably long dead. There's one right here..."

The fat immortal's face sunk, Su Jingwen dared to go without testing. Before he reproached Su Jingwen, Su Jingwen released her dual moon ice blades. How dare this person curse that Ye Mo was dead.

The two ice blades carried a white ray of ice shooting at the immortal who laughed.

Seeing this, everyone shook their heads. The rule here was the strong immortals must not attack the newly ascended cultivators. If a low level cultivator dared to attack an immortal here, those with high power didn't need to hold back. He could deal with the attacker however he liked.

Su Jingwen was tricked into attacking, this meant that this person could do whatever he wanted to Su Jingwen.

Crack crack. The golden immortal just casually released his magic artefact and Su Jingwen's dual moon ice blades were broken.

Seeing this, Su Jingwen was very anxious. Ye Mo gave her these blades, it had more meaning than the magic artefact itself.

Just when Su Jingwen wanted to go up and take it back, she heard a sound transmission "you're a newly ascended cultivator, hurry up and run. Offending immortals here is asking for death."

Hearing this, Su Jingwen suddenly realised, this place wasn't the cultivation realm anymore but the immortal realm. she had no right to talk, she could only find Ye Mo first. Thinking about this, Su Jingwen forcefully turned and flew towards outside.

This golden immortal was waiting for Su Jingwen to come up and take her magic artefact and then attack her. This way, it would seem as though Su Jingwen started all this.

However, Su Jingwen suddenly changed directions and flew out of the immortal ascension palace.

The golden immortal dazed and chased out, the fat cultivator also chased out. Seeing this, the rest of the people of the immortal ascension palace all flew out.

How could Su Jingwen not know she was in big trouble now? The immortal attacking her was already grabbing at her.

At this moment, she saw a huge tablet outside, the tablet said, Mo Yue Immortal Sect welcome all immortal ascension cultivators from Luo Yue continent.

Su Jingwen charged over without hesitation and grabbed one corner of the tablet saying loudly "I'm a cultivator of Mo Yue Immortal sect."

The golden immortal saw this and stopped attacking but sneered "Mo Yue Immortal sect only welcomes Luo Yue continent cultivators, what do you have to do with this? Place, you dared to attack me at immortal ascension palace, I must take you away."

The first immortal to ask Su Jingwen looked at her and asked "didn't you say you came from Shen Qiong continent? How come you're from Luo Yue continent now?"

Su Jingwen was lost for words.

The immortal shook his head, he's certain that Su Jingwen just wanted to escape this golden immortal and said she came from Luo Yue continent. Mo Yue Immortal sect was dominant but they wouldn't intervene in such thing.

Seeing the Mo Yue Immortal sect immortal shook his head, Su Jingwen was desperate. She knew that Ye Mo probably set up this sect. she quickly said "my husband is called Ye Mo, since you're from Mo Yue Immortal sect you should know him."

What confused Su Jingwen was that the immortal shook his head "sorry, I really don't know some Ye Mo."

Little people knew that Ye Mo was the sect leader of Mo Yue. Even Lu Feng only knew later.

"Haha, keep making up stories..." The golden immortal laughed.

"Hmm, you're brother Ye's dao partner?" A joyful voice interrupted the golden immortal's words.

Su Jingwen immediately said “yes, qian bei, wan bei’s dao partner is really Ye Mo, he told me to go wait for him at Gong Hua heaven.”

“What proof do you have?” another voice sounded. A square faced man landed in front of everyone. No one could tell the power of this person.

“Qian bei, this woman just ascended and dared to attack immortals in the immortal ascension palace. What she said was full of lies.” This golden immortal quickly said.

“Piss off.” The man yelled at the golden immortal.

Su Jingwen immediately took out a crystal card and said “qian bei, this is my husband’s image.”

The man didn’t even take it and just scanned with his spirit sense before laughing “it’s real indeed, you can put it away. brother Ye, I’ve finally helped you a bit.”

The square faced man said to Su Jingwen “I’m Yin Hui, you can call me by my name. I’m friends with Ye Mo, he’s always been helping me. I came to join him this time, but I didn’t expect to be able to help him, this is great.”

Out of the friends Ye Mo knew, Yin Hui was the most mysterious one but he was a worthy friend.

Yin Hui reached immortal king this time and he came to low heaven domain not to join Ye Mo but to repay his gratitude. Since Ye Mo was opening a sect here, he would come to cheer and support Ye Mo.

“Yes, brother Yin.” Su Jingwen called out in joy. of course she wouldn’t call him Yin Hui directly, she couldn’t imagine the cultivation level of this Yin Hui.

“It was this insect who dared to attack you?” Yin Hui pointed at the golden immortal and asked.

Su Jingwen nodded but before she said anything, the golden immortal said shakily “qian bei, wan bei...”

“How dare you lie to a king, die...” Yin Hui let out a sword chi and the golden immortal was dead.

Slaughter was forbidden in front of the immortal ascension palace but an immortal king was going to kill a golden immortal here, no one dared to say a thing.

The fat immortal still wanted to bring out his sect but hearing the word king, he didn’t dare to say anything else and scurried away.

Su Jingwen immediately went up to get the dual moon ice blades.

“Hmph, so what if you’re an immortal king? An immortal king can kill people at our Yu Wan heaven immortal ascension palace?” A cold voice sounded.

An extremely powerful pressure came, even Yin Hui couldn’t help retreating a few steps under this powerful pressure.

A green robed old man appeared before everyone. Yin Hui could tell this old man was at least an immortal king peak stage or even half way immortal monarch.

Chapter 1852: Nine heads appears again

Yin Hui signaled Su Jingwen to stand behind him and saluted with his fists to this old man “a golden immortal dared to attack my friend’s dao partner, so what if I kill him?”

He couldn’t beat an immortal king peak stage but he wasn’t scared. He had seen quite many immortal emperors already.

“A newly ascended cultivator?” Seeing that Yin Hui wasn’t scared of him, the green robed old man acted a little more careful.

“Yes, qian bei, wan bei is a newly ascended cultivator. That person was going to attack me so brother Yin intervened.” Su Jingwen quickly said.

“What happened, someone tell me.” If it was some ordinary person, the green robed old man would’ve used force.

Yin Hui was not only an immortal king but wasn’t scared of him at all.

Who dared to speak about Mo Yue Immortal sect things? That immortal from Mo Yue quickly went up and bowed “qian bei, she’s a newly ascended cultivator from Luo Yue continent. The golden immortal whom Yin qian bei killed lusted after her beauty and wanted to take away her by force. Yin qian bei knows the elder of Mo Yue Immortal sect so he attacked in anger.”

This immortal from Mo Yue truly believed Su Jingwen was from Luo Yue continent now. She lied probably just to be careful. He almost made a mistake.

Although some people knew that this immortal didn’t speak the complete truth, no one wanted to say something extra now.

Some people had recognized this green robed old man to be heaven lord alliance vice alliance leader Lu Yong.

Ten years ago when Ye Mo disappeared with Chang Tian immortal monarch and Lu Zhengqun, he knew that Chang Tian immortal monarch was quite possibly dead. As for whether immortal king Luo was dead, he still wasn’t sure.

Regardless, before he reached immortal monarch, he wouldn’t go look for their trouble. Hearing that this involved Mo Yue Immortal sect, he didn’t want to intervene anymore. Offending Mo Yue for a mere golden immortal, he wouldn’t do this unless he was brain damaged.

Lu Yong sneered to everyone “if anyone dares to attack newly ascended cultivators, death.”

Then Lu Yong looked coldly at Yin Hui “one who attacks a newly ascended cultivator deserves to die indeed but it’s not the job of a foreign immortal king. If you dare to kill at the immortal ascension palace, then don’t blame the heaven lord alliance.”

Lu Yong finished and his force rose drastically. The nearby immortals retreated. In fact, Lu Yong didn’t want to fight Yin Hui at all but he was in a tough situation. He was too free and came here for a spin, he wanted to assert dominance to relieve some annoyance he had but now he met a tough one.

A few immortal city and sects in the low heaven domains had all been devoured for no reason. As the vice alliance leader, he clearly had to investigate this.

Yin Hui could tell that Lu Yong only wanted a way down, just when he wanted to say some nice words, a terrifying scream sounded. The next moment, nine huge disgusting heads appeared in the sky. Sticky mucous that was thicker than buckets dripped down from the head.

Nine headed void devouring bug?

There were too many knowledgeable people in the immortal realm, almost everyone recognized it immediately.

Countless immortals immediately released their magic artefact to run.

The nine headed void devouring bug was a ferocious bug fed with souls, its mouth could devour space, its saliva could corrode all things. When the nine souls fused together, it would be invincible in the cultivation realm. when the nine headed void devouring bug came to the immortal realm and devoured large amounts of immortal essence living beings, it would grow out crests. Once there was crests, it can even devour immortal kings.

There are five colors to the crests, red, green, blue, purple, gold. The red crest is the most ordinary king bug, ordinary immortal kings are no match for it at all. When the crest reaches green and blue, even immortal monarch would have to flee. Purple crested nine headed void devouring bugs aren’t even scared of immortal emperors. Usually, golden crested nine headed void devouring bug never appears.

This nine headed void devouring bug’s crest was pale green.

Seeing this nine headed void devouring bug, Lu Yong immediately realised. Those immortal city and sects were all annihilated by this nine headed void devouring bug. If it was something else, he would be willing to fight it but against this level of nine headed void devouring bug, even he can't do anything. Plus, he didn't know if the nine headed void devouring bug had a master.

Seeing this, Lu Yong disappeared in a dashing light without hesitation.

Lu Yong was the strongest here, of course the nine headed void devouring bug wouldn't let him go. It's other heads sucked casually in the immortal city and then chased out in a black figure.

The instant he saw the nine headed void devouring bug, Yin Hui knew it was over. Against such level nine headed void devouring bug, there was no way out except death.

He was ready to deal a heavy blow to the nine headed void devouring bug before he died but instead the nine headed void devouring bug chased after that green robed immortal king.

Even with its casual suck, 60% of the immortals on the ground had disappeared. Those who could survive were mostly great immortals.

Yin Hui knew that after the nine headed void devouring bug killed Lu Yong, it would come back to this city and devour everyone.

Yin Hui took out a rune and the urne instantly enveloped Su Jingwen. He patted out a rune too.

Two dashing lights flashed and the two disappeared from the city. Countless immortals took out the transmission runes and left.

Lu Yong flew like crazy but this nine headed void devouring bug was faster than him. Seeing that he couldn't get away, Lu Yong stopped and turned around releasing a yellow lamp.

Lu Yong activated a few hundred yellow flames. When they first appeared, they were only the size of a thumb but when they neared the nine headed void devouring bug they were arm sized and growing.

Then, a few hundred more yellow lights were born.

The nine headed void devouring bug didn't expect Lu Yong had such power. It was swept by a few yellow lights and a few bloody holes appeared on its head.

The nine headed void devouring bug was infuriated and roared shooting out countless black mist water lines.

The yellow lights were immediately dimmed and Lu Yong's immortal king domain was crippled by this.

Lu Yong felt his immortal essence stop and realised he was completely controlled by the nine headed void devouring bug. This nine headed void devouring bug was much stronger than he expected. Lu Yong didn't dare to keep fighting, he burned immortal essence and used a mobility technique.

As soon as he left, the huge ugly head bit down.

There was still some distance between the two but when the nine headed void devouring bug bit down, Lu Yong and the space between them disappeared.

"Space devour..." These were the last words of Lu Yong.

The nine headed void devouring bug didn't stop at all and went back to Xi Hao immortal city. Those immortals who didn't get away were all devoured. In a short time, the popular Xi Hao immortal city was like a ghost city.

...

At the immortal ascension palace of another city, Yin Hui said desperately to an abstruse immortal "take Su Jingwen to Mo Yue immortal sect immediately and tell the few immortal kings that nine headed void devouring bug has appeared. I have some emergency I need to leave."

This abstruse immortal was the cultivator waiting at this immortal ascension palace for Luo Yue continent cultivators.

Yin Hui was desperate, he had to bring this news to the grand heaven domain. Luckily he knew there was a teleportation formation to middle heaven domain and it was in extreme wind heaven. Usually, this teleportation formation wouldn't be opened unless it was a significant event.

Chapter 1853: Blueish grey world no exit

"Goddess Jingwen, this is Mo Yue Immortal City." The grey robed abstruse immortal pointed at the grand city and said.

"So beautiful." Su Jingwen looked dazily at the huge city standing in the clouds.

She had been to two immortal cities and they were a far cry to this.

"I'll take you to city lord estate, Luo Yue continent cultivators don't need to be tested. The least they can do is become an outer sect member." Abstruse immortal said politely.

"You're a cultivator from Luo Yue continent?" A crisp voice interrupted this grey robed abstruse immortal asking Su Jingwen.

The two immediately saw a blue robed female immortal. She was extremely pretty and her figure was unparalleled. Even Su Jingwen felt ashamed comparing herself to this female immortal.

"Yes, may I ask who you are goddess sister?" Su Jingwen bowed.

The grey robed abstruse immortal quickly saluted with his fists "Mo Yue Immortal sect outer sect members Yi Chao greet qian bei."

The blue robed female immortal smiled sweetly “I’m Zhen Bingyu, not some qian bei.”

Hearing this, Su Jingwen quickly said “Su Jingwen greet goddess Bingyu.”

Zhen Bingyu nodded and asked again “did you come from Luo Yue continent?”

She heard Ye Mo say that he came from Luo Yue continent. She had been in solitary cultivation for a decade and just reached great extreme immortal. She really couldn’t resist coming to see Ye Mo so she came here. She didn’t know about Ye Mo disappearing with Lu Zhengqun.

“Yes, I came to find my husband Ye Mo, my husband told me to come find him at Gong Hua heaven.” Su Jingwen said.

Zhen Bingyu shivered and her face changed a little but she soon recovered. She knew Ye Mo’s wife was on Luo Yue continent but now she finally ascended. This Su Jingwen was this pretty, she was certain that if Su Jingwen cultivated the body refinement cultivation method Ye Mo gave her, she would be on par with her.

Women are the most sensitive, even though Zhen Bingyu was countless times stronger than Su Jingwen, Su Jingwen had some thoughts after seeing the expression on Zhen Bingyu’s face.

“Qian bei, if you have no business, wan bei will take her inside the city.” The grey robed abstruse immortal said seeing that Zhen Bingyu didn’t talk nor leave.

Zhen Bingyu woke up and shook her head “I’m fine.”

She knew that Ye Mo had wife, she even thought that she didn’t care Ye Mo had wife but now when Su Jingwen stood before her, she realised how hard it was to face it.

She didn’t care about other things but she didn’t dare to stay in front of Su Jingwen for long. She found that she had plans to leave before even entering the sect.

Seeing the two walk off, Zhen Bingyu suddenly said “Su Jingwen isn’t outer sect members she’s inner immortal spirit beast.”

Then, Zhen Bingyu turned to leave. She suddenly wanted to go back to the chaos star realm and keep cultivating.

...

Ye Mo stood in this endless blueish grey space, the ugly Zi Xu still hung on his back. He had a sense of lost, this was his 10th year in here.

In this time, his power completely stabilized at immortal king middle stage but there was no improvements. But in terms of battle power, Ye Mo believed even an immortal monarch tertiary stage was no match for him.

He didn’t know if Susu, Yangzhu, Jingwen, Qingxue and them were fine. He didn’t know how Yimo was, he didn’t know how Xiaoyun was. He was an immortal king now but he still couldn’t go looking for them and was instead trapped here.

In here, Ye Mo was a king but this wasn’t what Ye Mo wanted.

Small ginseng and shadowless stood by Ye Mo’s side, the two knew that boss wasn’t in a good mood and talking to boss now was asking for it.

All the star beasts were extremely far, not a single one came over. Even those ones taller than 100m would pretend Ye Mo didn’t exist if Ye Mo didn’t go over.

“Boss, that tree is 70 centimeters tall. I heard that if it grows to 3 meters it can serve you as master but growth gets harder and harder.” Small ginseng said quietly.

Ye Mo patted small ginseng’s head and said “good job, you’ve done very well. As for when it can grow to 3 meters, let it go naturally.”

Seeing small ginseng being praised shadowless immediately said “boss, did you notice although these star beasts are scared of us...”

Small ginseng interrupted shadowless “so shameless, those star beasts aren’t scared of us, they’re scared of boss. Why do you keep bringing yourself into it.”

Shadowless laughed awkwardly “at least I can eat a bunch of star beasts, you haven’t contributed at all.”

Ye Mo waved his hand stopping the argument “you want to say that these star beasts won’t allow us to go to the River Forest Valley in north west?”

Ye Mo decided the directions here himself, the River Forest valley was a special place. Almost all the 100m or larger star beasts were gathered there and there was a hanging river. There were also trees with no leaves. The only place with trees in this space was there.

The valley was shrouded in blueish grey and spirit sense couldn’t scan in. They neared there a few times but was stopped by 100m tall star beasts.

Although they couldn’t do anything to the three, neither could the three do anything to them. Later on, Ye Mo knew that with his current power they couldn’t get in so he left.

Shadowless quickly said “I meant to say that recently, all those star beasts larger than 30 m are heading there. But there are very little star beasts below 30 m going in.”

Hearing this, Ye Mo realised it was indeed so. The star beasts around him were all below 30m.

Ye Mo immediately felt something happened at the River Forest Pond.

“We’ll go see as well.” Ye Mo said and then he heard roars. A few star beasts larger than 30 m appeared in Ye Mo’s spirit sense.

Soon, Ye Mo noticed that all the star beasts who came over were missing arms and legs. Their face was full of worry.

A few star beasts ran up to Ye Mo and beckoned while pointing at River Forest pond with a desperate face.

Ye Mo looked at the star beast and asked “what do you mean? Did something happen there? You want me to help?”

The star beast kept nodding.

Ye Mo frowned, he guessed the valley probably wasn't some exit but where the star beasts cultivated. That's why he didn't plan that he must go there.

While Ye Mo was hesitating, shadowless immediately said “boss, these blue furs clearly want to harm us. If it's something even they can't beat, then they probably have some evil plans calling us to help.”

Small ginseng said too “that's right boss, these beasts might have bad intentions.”

But Ye Mo knew these star beasts weren't cunning, he thought for a moment “let's go see, if things go bad we can run.”

Chapter 1854: Metal Devouring Bug

A few injured star beasts saw that Ye Mo was willing to help so they joyfully went ahead to lead the way.

With their speed, they just used 15 minutes to get outside River Forest Valley.

The inside was still filled with a blueish grey mist, even with spirit sense, one could only obscurely see some river flowing and empty tree branches. Other than this, there were a few hundred star beast bodies at the entrance to the valley. The bones were bitten and filled with holes.

There were some shiny black ants attached on the bones, clearly the star beasts were devoured by them. Ye Mo knew these ants.

Before Ye Mo spoke, small ginseng and shadowless called out in shock “metal devouring bugs?”

Ye Mo nodded “that’s right.”

Ye Mo had seen these once in the seven refine tower of Yuan Le heaven. At the time, he only saw around tens of thousands of them. They were from level three to level five. With his power, he could only hide on the side while they flew over.

Although Ye Mo hadn’t seen just how many metal devouring bugs there were here but there were definitely more than tens of thousands and they would be more than level five. It was impossible for level five metal devouring bugs to even make a mark on the star beasts.

A few metal devouring bugs noticed them and charged up. Ye Mo hacked out with Zi Xu and there was the sound of hard metal clashing. Those metal devouring bugs were hacked away but they only wobbled a bit and were lightly injured.

“This is level seven metal devouring bugs, you guys go inside.” Ye Mo immediately knew that these weren’t things that shadowless and small ginseng could take on.

If there were only a few it would be fine, but once there were too many even shadowless would have to await death.

No wonder these star beasts would be devoured clean. If the level seven metal devouring bugs attacked together, even the most powerful star beast would have to die.

Since it was metal devouring bugs, Ye Mo wasn't too worried. They were fast but he wasn't slow. If he was no match for them, he could run away.

This time, the star beasts didn't stop them going in the valley. When Ye Mo went in, he immediately spread out his spirit sense. He finally realised why these star beasts would be scared and gradually killed off.

A tidal wave of metal devouring bugs covered tens of 100m tall star beasts, those below 100 meters were long dead.

These 100m star beasts blocked the entrance of the valley clearly so the metal devouring bugs can't charge out of it. These star beasts were very powerful but they couldn't do anything against the metal devouring bugs, they could only rub or smash. That way, even if a small portion died, most of the metal devouring bugs would still be fine.

Ye Mo looked at a 110 m star beast collapse due to metal devouring bugs. That star beast only struggled a little and were enveloped by the metal devouring bugs. The metal devouring bugs went in through the star beast's eyes and nose and soon devoured the star beast from the inside out.

Ye Mo took in a cold breath, even that 110 m star beast only struggled a little and most of these metal devouring bugs were mostly level six, some level 5 and little level seven. There were about tens of thousands of them. There were two that reached level eight. If such terrifying metal devouring bugs went into the immortal realm, it would be a disaster. Even the grand heaven domain would be devoured by these terrifying metal devouring bugs unless someone had the Heaven Flame Nine Suns like him.

Ye Mo didn't doubt people having god arts similar to the Heaven Flame Nine Suns in the immortal realm. the immortal realm was boundless and there were countless masters, there would be large scale massacre god arts.

Seeing Ye Mo come in, a few taller star beasts whined and couldn't make anymore sounds.

Now that they called Ye Mo, it was clear that they asked for help.

Before Ye Mo attacked, the metal devouring bugs charged at Ye Mo like a tidal wave.

At this moment, Ye Mo didn't dare to hold back, five blue golden suns rose up.

Ye Mo used Heaven Flame Nine Suns at full power immediately. He had two immortal flames now, the first was Blue Like Morning Sky and second was South Abyssal Void Flame.

Ye Mo used Blue Like Morning Sky straight up. Countless blue rays shot out sweeping over a thousand km radius. Sizzling sounds came up everywhere, everything that was burned by this flame would turn to dust.

Ye Mo's condensed spirit sense and immortal essence made these metal devouring bugs charging at him fall in the turn of an eye. The air that was filled with metal devouring bugs loosened up.

Those metal devouring bugs that fell to the ground smoked in a moment and disappeared.

The metal devouring bugs was terrifying but to them, the Heaven Flame Nine Suns was more terrifying. Those metal devouring bugs below level seven couldn't resist at all and the level seven ones were shaky.

Ye Mo called out shadowless and shadowless swooped all those shaky metal devouring bugs away.

As Ye Mo charged into the valley, the metal devouring bugs cracked like popcorn.

When Ye Mo used Heaven Flame Nine Suns, he only protected shadowless but not those star beasts. Those surviving star beasts seemed more withered under the Heaven Flame Nine Suns but the metal devouring bugs attached to them were completely burned.

They couldn't care about the damage brought to them by Heaven Flame Nine Suns, they were completely dazed. This neighbor had been with them for a decade but it was their first time seeing he had such terrifying power.

If Ye Mo used such sun on them, it was be extinction.

These star beasts looked fearfully at Ye Mo not daring to disrespect him at all.

They didn't know that even if Ye Mo used Heaven Flame Nine Suns he wouldn't be able to annihilate them much less Ye Mo didn't plan to annihilate them.

Ye Mo's slaughter finally made the two level eight metal devouring bugs scream in horror. The remaining level seven metal devouring bugs gathered together and charged at Ye Mo with the two level eight ones. Their wings were burned by Heaven Flame Nine Suns and could only wobble in the air.

It was perfect for Ye Mo that they gathered and charged at him together.

The instant they came, Ye Mo punched out. Five stack wave kill.

A terrifying immortal flame smashed out burning out ripples in the space.

Some injured metal devouring bugs died immediately, some survived but then the second and third wave came.

Then, the fourth and fifth wave came.

Even the most powerful metal devouring bug couldn't take Heaven Flame Nine Suns and five stack wave kill. In that moment, all level seven metal devouring bugs were destroyed.

The only two remaining level eight metal devouring bugs screamed and wanted to run.

How could Ye Mo let them get away. Although he used lots of spirit sense and immortal essence, he could still use another one or two god art.

As he released Zi Xu, Ye Mo waved out lightning sand.

Rumbling sounded in the void, countless lightning arcs fused together into a 30km long lightning spear.

The two level eight metal devouring bugs wanted to run but Ye Mo was waiting for them with tens of spirit sense blades on the side.

One metal devouring bug was hit by spirit sense blades and became wobbly. The other was hacked by Zi Xu and wanted to run.

Theoretically, level eight metal devouring bugs was equivalent to immortal monarch but their battle power relied on numbers. Individual metal devouring bugs were far weaker than ordinary immortal spirit beast of their level.

Rumble, the lightning spear pierced the two metal devouring bugs. They just made an even sharper howl and was smashed away.

Before Ye Mo said anything, shadowless dashed over and swooped the two metal devouring bugs into its mouth.

Chapter 1855: Entrance to outer realm star domain

Shadowless was busy devouring the metal devouring bugs but Ye Mo looked at these slanted rivers and was a little shocked. The colors were different but the deeper in the valley, the darker the water.

Ye Mo scanned his spirit sense into the river water but found his spirit sense had this hurting sensation. He quickly took back his spirit sense and walked to one of the rivers and felt his hand in. It was bone piercing cold, Ye Mo almost felt his hands were being corroded by this liquid.

Ye Mo quickly took out his hand but found his hand to be fine and his skin seemed smoother. A powerful feeling surged up.

"This is a body refinement place." Shadowless stared at these rivers with light in his eyes.

Ye Mo woke up, no wonder the star beasts were that powerful. They had such a body refinement place. and, there seemed to be a type of power in this river, would he be able to learn it?

Thinking about this, Ye Mo rejoiced, he couldn't cultivate in this place and could only kill, he was long sick of it. If he could body refinement, then it was still cultivation.

He was immortal spirit body tertiary stage, if he reached immortal god body, even if it was just primary stage, his body would be on par with ordinary immortal emperor body. In that case, even if his power was a little weaker, he wouldn't fear ordinary immortal monarchs anymore.

Ye Mo sped up to the second river and placed his hand in, a more painful scorching pain came up. Ye Mo knew that if he wanted to go in there for body refinement, he would have to use body refinement cultivation method. Ye Mo realised, the deeper he went, the stronger effect these rivers had.

Those tens of star beasts saw Ye Mo going around in the rivers but didn't dare to go up. Even those taller than 100m felt very threatened by Ye Mo. The metal devouring bugs almost annihilated them all but this new comer easily wiped them out. It was clear who was the strongest.

Ye Mo just went into a suitable river and said to shadowless "go find a place for body refinement, if those star beasts comes up to annoy us just eat them. If not, them don't provoke them."

"I don't want to eat those mosquitoes." Shadowless jumped excitedly into a river he had chosen in.

Seeing the two go in, those star beasts breathed easy. There were many rivers here, if Ye Mo just used them for body refinement, it didn't damage anything and so was fine.

After resting easy, those star beasts gathered up and crushed the remaining metal devouring bugs.

When things calmed down, those star beasts went into the river for body refinement but they would choose a rather further place from Ye Mo and shadowless.

...

After experiencing the ravage of the nine headed void devouring bug, the low heaven domain gradually calmed down, not because the nine headed void devouring bug didn't dare to devour immortal cities and sects but more than ten immortal emperors from the grand heaven domain came down together. They battled the nine headed void devouring bug and the owner, eventually no one could do anything to each other so they came an agreement.

That was the nine headed void devouring bug wasn't allowed to ravage the immortal realm and its master was allowed to set up his own sect in the grand heaven domain. Of course, they could only let it go for those immortal cities devoured.

Immeasurable people died in this disaster, even Mo Yue Immortal Sect lost a few disciples.

Now, it had been another decade since the nine headed void devouring bug disaster and more than three decades since Ye Mo disappeared.

At Fen Du Heaven, Zha Kui immortal city big square, countless immortals gathered again.

This time, there were a few thousand immortal kings and some immortal monarchs.

"Hmph, Yan Jiutian, it's this guy again." A handsome man sneered outside the square.

This grey robed man also had a handsome face and when he heard this, he just glanced at the blue robed man and snorted with equal contempt "a loser dares to be cocky?"

Then the grey robed man left.

"When Ye Mo comes I want to see how you will be cocky in front of me?"

A white robed, veiled female immortal walked over "martial brother Ding, I suspect Yan Jiutian hid his power, perhaps he isn't immortal king primary stage at all, he's immortal king tertiary stage."

These two were Ding Jie and Zhantai Yi. Because Ye Mo mentioned Yan Jiutian and Ding Jie couldn't find a match but he happened to find Yan Jiutian. Thus, the two fought without saying anything.

Ding Jie was unparalleled in the grand heaven domain but he couldn't beat Yan Jiutian. If he didn't have a few life saving magic artefact, he would've been killed by Yan Jiutian.

This time they came to Fan Du heaven because the outer realm star domain might be open. For this, almost all the immortal kings came. Of course, more great eternity immortal wanted to go in so they came too.

Ding Jie nodded but after a while he said "after coming back from the star domain, I'm going to find Ye Mo. Ye Mo said he's going to chaos star realm, I wonder if he went."

Just when Zhantai Yi wanted to answer, more than ten figures landed on the high stage in the centre of the square.

Most immortals knew the leading person, it was one of the four grand emperors, Feng Kong grand emperor. Behind him was Wei Feng and Dragon River grand emperor.

As soon as Feng Kong grand emperor came out, the immortals at the square fell silent.

Feng Kong grand emperor nodded happily and said loudly "there has been lots of things happening recently. Only a few decades ago we found the small heaven domain allowing many great eternity immortal who have been stuck to reach immortal king. And now in a short while, we found the entrance to another heaven domain.

Of course, it might not be a star realm but based on the chaos chi coming out of it, it's quite possibly the entrance to an outer realm star domain."

The people below immediately became excited especially some immortal king peak stages and great eternity immortal peak stages.

Everyone knew that there were entrances to the chaos star realm from low middle and grand heaven domain and going in from each entrance resulted in a different scene.

But over countless years, people have never seen outer realm sat domain.

If the outer realm star domain was nine levels of the chaos 36 domains, then this unexcavated star domain would have countless treasure.

Feng Kong grand emperor waved his hand “everyone calm down, the black whirlpool might not lead to chaos star realm, we only guess so. There’s some laws inside, it would strongly reject immortal emperor or immortal monarch who have mastered a law. Thus, it only allows people who haven’t mastered a law to go in.”

Hearing this, Yan Jiutian frowned, he didn’t know if he could go in. His power returned to immortal king tertiary stage and his space law was getting complete but because he wasn’t at that cultivation state, his law wasn’t mastered.

He had to go in this if it was the outer realm star domain. it would be dripping in wealth. He didn’t lack cultivation methods but cultivation resources.

“Of course, if this isn’t the entrance to the star domain then there would be danger going in. as for what danger it is, you will be responsible for it yourself.” Feng Kong grand emperor’s tone went cold.

Chapter 1856: Reach immortal god body

“How can we cultivators be scared of danger? If we fear danger all the time, we might as well hide at home.” Feng Kong grand emperor said and people immediately conformed.

Then, Feng Kong grand emperor threw out a huge crystal ball showing the entrance of the whirlpool.

If Ye Mo was here, he would notice that this whirlpool was much larger than the one he entered in. It was extremely black but spun far slower than the one he went in.

When the immortals saw the black whirlpool, Feng Kong grand emperor said again “At the same time, I need to remind everyone that according to our calculations, this whirlpool would spin the opposite way only after 12 years. That’s when everyone can come out so before you go in, you need to think carefully.”

For most cultivators, 12 years was the blink of an eye, it was nothing.

How to use these 12 years to find the most cultivation resources was the most important.

“But one thing I need to remind everyone is that if you don’t come out after 12 years, this whirlpool will disappear. As for when it would next appear, no one knows. After going in the star realm, you must hand up all level nine and above immortal spirit item, otherwise death. But those who hand them up will be rewarded heavily.”

Hearing this, everyone shivered. There was no way around this. but some smart people felt relaxed instead, if the grand emperors didn’t want anything, then that would be strange.

...

In a slanted river, Ye Mo was sitting inside. The river water formed ripples around him. extremely little impurities were excreted out of his body. His body and power was still increasing.

As time went on, the water rustled around him. eventually, the water left the river and circulated around Ye Mo.

Soon, Ye Mo was encompassed by the water and obscured.

Rumble. A huge explosion sounded blasting away all the water around Ye Mo.

Just when the water evaporated in the air, the river Ye Mo was in dried up.

At this moment, Ye Mo's long hair flowed down, the muscles on his body were perfect.

The star beasts saw the explosion and didn't even dare to come near, they all moved away. Ye Mo gave himself a few dust removal spells and took out a clean set of clothes and flew into the air howling.

After all these years of hard work, he had changed countless rivers and today, he finally reached immortal god body.

Even in the immortal realm, immortal god body was very rare. Although theoretically, the immortal emperor body was on par with immortal god body but its recovery and defensive capabilities were weaker than immortal god body.

Reaching immortal god body meant that Ye Mo had the power to stand firm in the immortal realm. Even against an immortal emperor, he would have some chance of getting away.

Plus, Ye Mo learned a new law in the river and that was power law.

In the ancient times, power law was the most basic and simple law in the immortal realm but it was the hardest to reach the highest state. In all the ways of dao vindication, vindication through power was the hardest. No one has ever succeeded.

It was easy to learn power law but hard to reach initial mastery. So as time went on, there were very little people in the immortal realm who went to learn power law. Eventually, power law disappeared.

Until today, Ye Mo finally learned power law in this blueish gray space.

Even if he didn't vindicate dao with power law, power law was extremely important.

"Boss, you reached immortal god body?" Shadowless ran over.

Ye Mo waved his hand “I’ve begun looking into power law and I reached immortal god body. There’s no point in staying here, we can go and try find a way out.”

However, it was a pity that he couldn’t take the river away. if he did, it would lose the body refinement power law. Otherwise, Ye Mo would at least take half the rivers here.

Shadowless was long bored of this place nad quickly followed behind Ye Mo.

All the star beasts quickly moved out of the way.

On the way, Ye Mo was thinking about where those metal devouring bugs came from. There definitely was none here before but then suddenly so many appeared.

...

“What is this place?”

A few hundred immortals appeared in this blueish gray area.

Then, a few hundred more appeared. Soon, there were more than ten thousand people here.

“This doesn’t seem to be the outer realm entrance to chaos star realm.”

“Not necessarily, when you first enter the chaos star realm, it’s blueish grey too like here.”

“Yes but this place is barren, there’s nothing. And...”

This immortal king didn’t finish but everyone knew there’s almost no immortal spirit chi here, it would be strange if there were immortal spirit items here.

Most people guessed that this might really not be the entrance to chaos star realm but an independent dimension. As for what dangers there were, no one wanted to try first.

“Hmm, look, what are those immortal spirit beasts?” One great eternity immortal peak stage pointed at two star beasts and said in shock.

“What level immortal spirit beast are they?”

“Can’t tell, they’re covered in blue fur they seem very strong.”

“I’ll go have a look.” One great eternity immortal tertiary stage flew out of the crowd and neared the two star beasts. the two other git also followed carefully.

Seeing this great eternity immortal get close, the two star beasts immediately ran. They had the subconscious feeling that those people who came were like Ye Mo.

Seeing this, the great eternity immortal immediately released his magic artefact “these immortal spirit beasts are very scared, they’re probably not strong. I’ll kill one first.”

Then, the great eternity immortal attacked with his magic artefact.

His magic artefact struck the star beast head on but the star beast wasn’t injured at all. Seeing he was attacked, the star beast roared and slapped with his palm.

Splurge. This great eternity immortal was smashed to pulp.

Chapter 1857: Encounter Kai Mi again

This immortal spirit beast was too absurd, a great eternity immortal attacked with magic artefact but didn't do any damage and was instead slapped to death.

The other two great eternity immortals saw this and quickly ran. This star beast saw that although these people looked like Ye Mo but was far weaker, they stopped running. They charged back and slapped down too.

These two great eternity immortals couldn't even break free from the force binding of the star beast and was instantly slapped to death.

Then the two star beasts charged into the crowd, finally someone in the crowd recognized and yelled out "this is star beast, their hide is extremely thick, ordinary magic artefact can't damage them at all. They live on the border realms, they don't cultivate immortal essence nor spirit sense but they have extremely strong power."

Rumble. The palm of a star beast clashed with an immortal king's magic artefact. This time, the lower than 30 m star beast was smacked away.

But even so, the star beast wasn't injured at all. But the two realised that there were people who could beat them here so they retreated and disappeared.

"Luckily they left, this thing is too scary. Those below immortal king would meet certain death." One great eternity immortal said with fear.

The immortal king who struck the star beast away said heavily "you don't understand star beasts at all, they appear in packs. They would be overwhelming. There might just be two here but there would be countless times more than us coming."

"And...." This immortal king changed to a more serious tone "I heard that there are star beasts larger than 30m, if we encounter these, it would be extremely hard for us to even run... but I heard that star beasts are usually very violent and would never retreat. It's very strange that these two retreated."

Hearing this, the immortals fell silent. If that was the case, then they wouldn't be thinking about how many immortal spirit herbs to collect in these 12 years but how would they survive?

Now, pretty much everyone had been teleported in. With discussion, most people started to think about a way out.

First, there were star beasts everywhere, second this wasn't chaos star realm.

"We need to leave here quickly and find a safe place first." Someone suggested.

"Leave? In the habitat of star beasts, there are star beasts everywhere. We're very lucky that there was just two here." One immortal king said in contempt.

As soon as he said this, he saw a few thousand star beasts charge over.

With this, everyone tensed their minds.

"Don't worry, form teams and attack with magic artefact. Attack one together, we have lots of people. All the immortal kings extend out your immortal king domains to stop these star beasts." One immortal monarch primary stage immediately yelled.

The strongest person here was only immortal monarch primary stage and ones who could come in didn't achieve great mastery in law.

With this, people started to form teams.

There were about 20,000 people here, and five immortal monarchs. There were 2000 immortal kings and the rest were great eternity immortals.

The 20,000 people clashed with the few thousand star beasts.

Magic artefact ravaged, immortal essence burst everywhere. There were great eternity immortals and immortal kings being slapped to death non stop but there were also star beasts being killed.

Although star beasts were powerful, most of the star beasts that came didn't exceed 30 meters.

Their weakness was obvious, these immortals soon found the weak spots of star beasts after some battle.

As everyone spread out this experience, the even battlefield skewed towards the immortals. As more and more star beasts died, they finally couldn't resist retreating.

Soon, the rest of the star beasts were gone leaving behind a ravaged land and a stack of bodies.

This battle was short but a few hundred immortals died. Meanwhile, only a few hundred star beasts died and this was because star beasts over 30m didn't come. Otherwise, at least half the immortals here would die.

"These things are so powerful, there's so many of us and we only barely won. It seems we can't wonder off alone, we must act together." One immortal king panted.

"I don't think it's so simple." The leading immortal monarch frowned "a few thousand star beasts isn't a lot at the border realm, it's little. The most important thing is that there isn't star beasts beyond 30m, according to what I know, there's not only 30 m tall star beasts but also some 100 m tall star beasts. If it's one of these, even I would have to run and I might not even get away."

Hearing this, the scene fell silent again. If not even an immortal monarch can get away, the rest of the people's fate was clear.

Some essence spirits who have lost their bodies floated helpless in the air not knowing where to go.

"Immortal monarch master what do we do now?" One immortal king broke the silence and asked what everyone wanted to ask.

"Do you guys have a better idea?" That immortal monarch couldn't think of a better idea.

Another immortal monarch said “The only way is to build an immortal city here, we don’t need to build a huge one, we just need it to block these star beasts. We can use their beast cores to concoct top level body refinement pills. We can hunt star beasts as we find a way out. If we can’t cultivate we’ll use these beast cores for body refinement.”

“That probably won’t work. Powerful star beasts are taller than 30m, no matter how sturdy the immortal city wall is, it probably won’t stop them.” Another immortal monarch said.

The immortal monarch who suggested this said again “of course we can’t just rely on the immortal city but star beasts have a weakness and that is they don’t cultivate essence spirit and spirit sense. They just rely on more power. If we set up large amounts of illusion formation and stealth formation or even transmission formation, we’d pretty much be fine.”

Almost everyone agreed to this suggestion.

With hope comes motivation. These immortals immediately began building a city. With 20,000 people building a city and the weakest being great eternity immortals, this immortal city was built with extreme speed.

Of course, the city walls weren’t built with the best materials but the formations were set up with good materials.

...

Ye Mo was searching for a way out.

Ye Mo saw star beasts move away but he stopped. He found that many star beasts were wounded. They seemed like magic artefact wounds.

Did people come here? Or was it Kai Mi? thinking about this, Ye Mo immediately came up to an injured star beast and grabbed it.

All the star beasts here knew Ye Mo and shadowless, seeing Ye Mo grab him, he didn't dare to move at all.

Ye Mo checked the wounds carefully, it was indeed caused by magic artefact.

"It really did seem that foreigners have come, this isn't the work of Kai Mi. They were injured by different magic artefacts. I'll go have a look." Ye Mo left the star beasts behind.

Soon, Ye Mo saw a immortal city being built and there were all sorts of formation outside.

There really were people here. Ye Mo didn't know where they came from and was about to go look.

"Boss, it's Kai Mi that old bastard..." Shadowless called out.

At the same time, Ye Mo found Kai Mi too. Without hesitation, he charged at Kai Mi.

Kai Mi also looked at Ye Mo immediately, he had been hiding in here for a few decades and found that many people have suddenly arrived.

Without hesitation, Kai Mi started to run. He wasn't scared of Ye Mo, he was certain Ye Mo would chase up. He thought the same as Ye Mo, to kill him at a place where there was no one.

Chapter 1858: Blood river nine falls vs Void

Ye Mo and Kai Mi came and went quickly. Those people building the immortal city didn't notice them at all.

Ye Mo only chased for five minutes and knew that Kai Mi's cultivation level was much stronger than before. And, these star beasts feared him but Kai Mi as well as they didn't stop Kai Mi either.

At the same time, Ye Mo felt that Kai Mi wasn't really trying to escape from him but was instead trying to draw him somewhere. Kai Mi wasn't even scared of him realizing this meaning that Kai Mi already knew he wouldn't let him go.

"Shadowless, this old bastard is trying to lead us somewhere. When I fight with him later, you stay on the side and find an opportunity to ambush him." Ye Mo sound transmissioned to shadowless.

Shadowless immediately nodded. He loved ambushing people but when he reached heaven tao, his body changed and couldn't ambush people with the size of a pea.

...

The immortal city built here was called Star Defense immortal city. This immortal city was built very fast but the formations were set up slowly.

However, with tens of immortal formation masters and great masters, the city defense formation was finally set up. It was made up of a few level six immortal formations.

But in here, star beasts might not even be able to break a level four immortal formation unless it's those star beasts that mastered the power law and all came to attack but that was impossible.

Those star beasts who mastered power law would be at least 100m or higher. These star beasts rarely came out. They are pretty much all at River Forest Valley to protect the body refinement area.

There were hundreds of millions of star beasts in this blueish grey area but there weren't many star beasts who could reach 100m and above. it not only required talent but also fortune.

The immortals in the city immediately felt they had nothing to do after the star beasts stopped attacking. It was hard to cultivate here and they couldn't go out easily. Helplessly, most immortals could only choose to body refinement.

Soon, many people found that the body refinement pills made with star beast cores were extremely effective. There was even a sliver of chaos wave inside making people understand more about their god art and cultivation method.

Realising this, two things became precious. One was body refinement cultivation method, the other was star pills.

They were pills made from star beast core.

No matter where it was, as long as there was incentive, there would be those fighting for it. many people started forming teams and left the city to hunt for star pills.

Some people came back loaded, some could never come back again but more and more people went outside the city.

Yan Jiutian also went out but he didn't go for the star beasts. Since there was chaos chi here, he only needed to find the source of it and he would be able to find something precious.

...

"This can be the place of your burial." Kai Mi suddenly stopped and stared coldly at Ye Mo.

At the same time, he reached out a huge hand and grabbed at Ye Mo. As soon as his hand reached out, the fingers turned into five boundless mountains and smashed from above Ye Mo.

Five extremely yin sha killing intent locked the nearby space. It was as though the sky was falling.

Ye Mo was chasing Kai Mi but he was on alert. Seeing this, he smashed out the world rock without hesitation.

A powerful immortal essence backlash came. Ye Mo felt his chest go heavy and he was shocked. His power was many times stronger than when he came in here but this Kai Mi improved at a faster speed than him. he had the upper hand on the first attack.

It had only been a few decades and Kai Mi surpassed him. If this guy had more time how could he be a match.

“Hmm...” Kai Mi was surprised that the world rock stopped his yin sha heaven claw.

His yin sha heaven claw dominated in this dimension. Even the sturdy body of the star beasts couldn't take his yin sha heaven claw much less Ye Mo's mountain magic artefact.

But the magic artefact stopped it.

“Blood river nine falls.”

Kai Mi roared and waved his hand. The blood spear was released and at the same time, nine blood rivers fell from the sky. There was less quantity of the river but the power was many times stronger.

The dense bloody smell with this shocking killing intent instantly loomed over this space. The invisible lethal force squeezed the nearby void cracking.

Ye Mo knew that even if he called shadowless out, shadowless wouldn't be able to devour this blood river.

None of his god art would be able to stop this blood river.

Seeing Ye Mo who was illuminated red by the river, Kai Mi snarled “I want to see how you're going to keep acting cocky? You dare to hunt me for a few decades, letting you die is too simple...”

As Kai Mi spoke, the blood spear made a petrifying sound and charged at Ye Mo with even more ferocity.

Ye Mo suddenly reached out his arms and howled.

“Void...” then he punched out nine consecutive punches.

Ye Mo’s face went pale, if he wasn’t immortal god body, just using void nine times would cripple his body.

Against this powerful blood river nine falls, there was no other way for Ye Mo other than void.

“You’re asking to die...” Kai Mi sneered seeing Ye Mo dare to punch his blood river. No one knew the blood river better than him, it would corrode everything. Plus, he fused the yin sha he found in this space inside.

The endless lethal force in the void suddenly split apart. Some were swept away by the blood river, some formed a lethal force whirlpool and smashed with the blood river.

Rumble rumble rumble.

In the clash, the nearby space and domain were shattered. Blood splashed and immortal essence dispersed.

Ye Mo’s face went pale, there was a sliver of blood on his lips. He knew Kai Mi was far stronger than he expected. He was heavily injured.

“This is impossible...” Kai Mi looked at the shattered blood river in disbelief. It was impossible for an immortal king to punch his blood river. Unless...

Ye Mo was at least immortal god body.

Chapter 1859: Evenly matched

Before Kai Mi could say that Ye Mo was immortal god body, a shadow dashed towards him.

It was that guy again. Kai Mi recognized shadowless as soon as he came out. He hated shadowless just as much as he hated Ye Mo, it was shadowless who forced him to this world.

But shadowless was too fast. Just when he reacted, shadowless bit over with its big mouth. Kai Mi heavily injured Ye Mo but he paid a price for it too. In that blink of an eye, shadowless actually ate Kai Mi.

“Idiot, spit him out quickly...”

Ye Mo said desperately. Kai Mi was an divine emperor, although his immortal essence was damaged, his essence spirit was still very powerful. Unless shadowless was immortal tao, it would be suicide to eat Kai Mi.

Shadowless felt something wrong after he ate Kai Mi and spat Kai Mi out immediately.

It was only a blink of an eye but shadowless was also heavily injured. however, Kai Mi also seemed withered. He was covered in shadowless’s stomach acid and his immortal essence was chaotic. Ye Mo released Zi Xu before Kai Mi could attack.

Crevice.

The endless space and the nearby void was all gathered here, gradually squeezing into a sword ray. This sword ray fell down along Kai Mi’s brows.

Kai Mi had long seen the power of this strike. Kai Mi smashed out the blood spear.

Crack.

The nearby space was ravaged again like a volcanic eruption. The ground turned to oblivion. Huge rinks appeared between Ye Mo and Kai Mi. the earth shattered and stretched out into tens of miles. Kai Mi was hacked tens of km away by this strike and a gash appeared between his brows with blood dripping down.

Ye Mo didn't retreat much but he sighed. His immortal essence and spirit sense was extremely deprived due to using void nine times. He only released the look of crevice but the actual force of it. Otherwise, Kai Mi would be heavily injured from that strike.

Kai Mi seemed to be hacked away that long but most of it was intentional.

As soon as Kai Mi stopped, the gash had recovered and the blood spear swirled in the void again.

Ye Mo's face was cold, he didn't know if Kai Mi could use blood river nine falls again but if Kai Mi did, he wouldn't be able to use nine voids again. But he believed Kai Mi wasn't that strong.

"You indeed have some fortune, you actually reached immortal god body here." Kai Mi didn't attack Ye Mo again and instead said coldly.

Seeing Ye Mo not talk, he said again "but no matter what, don't think of escaping from me today."

Then, the blood spear turned into blood shadows in the void.

"Blood river..."

Ye Mo's heart sunk, he didn't expect Kai Mi to really be able to use blood river nine falls again. If Kai Mi used it again, he wouldn't be able to escape at all. His only opportunity would be now but Ye Mo didn't want to do that. He suspected that Kai Mi was bluffing. Kai Mi was at most immortal king middle stage now, or maybe tertiary stage.

How could an immortal king tertiary stage use a god art like blood river nine falls twice.

Ye Mo clutched Zi Xu tightly and stared coldly at Kai Mi. he didn't believe Kai Mi could use it another time. If Kai Mi really could, then he would run immediately.

The three big blood rivers hung in the air but didn't fall. Ye Mo breathed easy, Kai Mi could only use three rivers.

But Ye Mo didn't attack Kai Mi, Kai Mi didn't attack him either. Clearly both of them felt someone was coming over.

Ye Mo recognized it was Yan Jiutian.

"I can encounter you everywhere." Yan Jiutian sneered and released his mist line without hesitation. The region it dominated was no smaller than the blood river.

"Yan Wudao, you should join up with me to kill this Kai Mi. he came to rob my time formation disk. If you kill me, you would be no match for him, he's a divine emperor..." Ye Mo said.

"Kai Mi? You're Kai Mi divine emperor?" Yan Jiutian wasn't clueless like Ye Mo and immediately called out in shock.

Kai Mi said coldly "it seems I still have some fame left. I thought after all these years, even some cats and dogs don't take me seriously."

Then Kai Mi looked at Ye Mo with contempt. In his eyes, Ye Mo was an insect.

In order to increase his power these years, he forced it and it wasn't beneficial for him fusing with the body. However, he fought a big battle before fighting Ye Mo making him unable to use blood river nine falls twice. Otherwise, Ye Mo was dead for sure.

Ye Mo's heart wasn't calm at all. Now that Yan Jiutian confirmed Kai Mi was divine emperor, it was clear that Kai Mi was an essence spirit body due to fighting true divine emperor.

Truth divine emperor was able to kill that many people while being ganged up on. Just how strong was he? He only knew Truth divine emperor was very strong before but after seeing Kai Mi, he realised just to what extent truth divine emperor was powerful.

Kai Mi was about the same cultivation level as him but wasn't scared of him at all. That Truth Divine emperor killed a few of the divine emperors joined up with Kai Mi, just how scary Truth divine emperor was.

"Hmph..." Yan Jiutian's mist line already attacked towards Ye Mo.

Ye Mo knew things couldn't end well today. If it was just Kai Mi, Ye Mo would be confident in killing him but now with Yan Jiutian, Ye Mo decided to leave first.

As soon as Yan Jiutian's immortal king domain reached out, Ye Mo's immortal king domain and spirit sense blades hacked out. There was an indistinguishable crack and Ye Mo's figure disappeared.

Yan Jiutan's mist net clearly attacked at Ye Mo but when it fell it instantly fell towards Kai Mi.

This wasn't the first time he fought Ye Mo. He knew that even if he attacked with full power, he wouldn't be able to kill Ye Mo nor keep him.

But he knew this Kai Mi well. He was an ancient divine emperor and now possess another body and knew Ye Mo had time formation disk. He had to kill one today. He couldn't kill the cunning Ye Mo but he could try to ambush this Kai Mi.

Even just the secrets of a divine emperor was enough for him to attack.

Rumble rumble rumble.

As the three blood rivers fell, Yan Jiutian's mist net clashed with it. Yan Jiutian's mist net was instantly bound by the blood rivers.

Kai Mi thought the same as Yan Jiutian. He knew Ye Mo just as well. Although he was contemptuous at Ye Mo, he knew Ye Mo's capabilities clearly.

Now that Yan Jiutian knew about the time formation disk too and he seemed to have quite a lot of good things, killing Yan Jiutian first was the same for Kai Mi.

It was because the two had the exact same idea that their magic artefacts clashed.

Just with that clash, Kai Mi realised that this Yan Jiutian was not much weaker than Ye Mo. He definitely couldn't kill Yan Jiutian in his current state.

Realizing this, Kai Mi didn't want to fight at all. The blood spear twisted and the blood rivers exploded. Meanwhile, Kai Mi's figure dimmed instantly.

Yan Jiutian's mist net instantly turned into a fine mist spear and pierced that dimming figure drawing out blood. After leaving that blood, Kai Mi disappeared like Ye Mo.

Chapter 1860: Fusing Void

Seeing this, Yan Jiutian felt regretful. If Kai Mi left a second later, he would've been able to keep him.

Ye Mo and Kai Mi left, the few hundred star beasts surrounded over immediately. They were scared of Ye Mo and Kai Mi but not this newly arrived Yan Jiutian.

Yan Jiutian was very annoyed that he got nothing out of this and now that these star beasts surrounded him, he didn't hold back. His mist lines turned into countless mist rays that accurately pierced these star beasts.

These powerful star beasts were defenseless against the mist rays. They were slaughtered and soon, the remaining star beasts fled.

They were different from when Ye Mo just came in. When Ye Mo first came in, no matter how many died, they would keep attacking Ye Mo. But now, they are scared. Seeing someone could instantly kill them, they grew smart and immediately retreated.

Even if Ye Mo saw Yan Jiutian here, he would compliment him. Yan Jiutian knew the weak spots of star beasts very well. These mist rays struck the weak spots of the star beasts immediately.

...

At the same time, Ye Mo instant transmissioned into the star beast crowds. However, the star beasts immediately recognized Ye Mo and moved away.

"Boss, what do we do now? should we follow one of them?" Shadowless had recovered from his injuries and asked.

"My cultivation level is a little stronger than Kai Mi but I can't kill him for certain. Kai Mi that old bastard grew strong this quickly. If he could use his blood river nine falls consecutively, even if I can get away, I would lose a layer of skin." Ye Mo shook his head.

Shadowless suddenly said "boss, although I devoured Kai Mi only for a short time. I felt that this guy's immortal essence was used before. he was even lightly injured. I'm certain it's not due to the fight with us. Perhaps he fought with someone before."

"Are you certain?" Ye Mo's face went serious again.

"It's true." Shadowless nodded affirmatively.

If shadowless was right, then his cultivation level wasn't a little stronger than Kai Mi but much weaker. This meant that if Kai Mi encountered him before the fight, Kai Mi would be able to use blood river nine falls twice. With that, he might even die.

“Boss, I feel that Kai Mi grew stronger this fast must be because he found something better than those body refinement rivers.” Shadowless guessed.

Ye Mo knew that Kai Mi found a huge fortune in here.

“That old bastard is experienced, perhaps he already knew there were good things in here so he went for that straight away. Only we were dumb enough to fight with our lives.” Shadowless ranted unhappily.

Shadowless’s words struck Ye Mo. Kai Mi was once a divine emperor, his experience must be bountiful. But so was Yan Jiutian, he was a half divine emperor. Yan Jiutian left that immortal city probably to come find resources here.

Thinking about this, Ye Mo immediately called out small ginseng and told him his idea. Small ginseng quickly patted his chest and said “boss don’t worry, we’ll follow him. if I sense any immortal spirit item chi, we can find it ourselves.”

“Okay, let’s do this.” Ye Mo immediately said.

With small ginseng’s help, Ye Mo soon found Yan Jiutian’s tracks.

Ye Mo didn’t need to use his spirit sense to lock onto Yan Jiutian to follow him, small ginseng would remind him.

But even so, after three days, Yan Jiutian noticed something wasn’t right. He even stopped and used his spirit sense to search around. However, in this blueish grey space, his spirit sense really couldn’t search much.

On the fourth day, small ginseng immediately told Ye Mo “boss, I felt an extremely dense chaos chi. Even without that Yan, we can find it.”

“Okay.” Ye Mo instantly sped up and charged at Ye Mo. Ye Mo knew that under such circumstances, it was impossible to ambush Yan Jiutian.

As soon as Ye Mo appeared, Yan Jiutian saw it and waved out his mist line.

Tens of thousands of mist arrows shot and crushed the void squeezing all the nearby space.

Ye Mo didn’t release Zi Xu at all but instead punched out nine times.

Nine voids, nine space lethal force whirlpool instantly formed. When Ye Mo completely released these nine punches, the nine void drags released a huge rumbling sound.

Crack. Yan Jiutian’s mist arrows were swept into the whirlpools and made explosions.

After tearing some mist arrows, the nine whirlpools gradually gathered together creating an even louder rumbling sound. A terrifying huge whirlpool formed between Ye Mo and Yan Jiutian.

Seeing this, Yan Jiutian’s faced changed immediately. He immediately took away his mist line and disappeared.

Ye Mo didn’t chase Yan Jiutian. He knew that he might not be able to catch up to Yan Jiutian. Ye Mo’s face was pale but he was very excited.

Ever since knowing that Kai MI could use blood river nine falls, Ye Mo had constantly been thinking about how to counter that move. Compared to Yan Jiutian, Ye Mo wanted to kill Kai MI more.

So during these few days, he had been thinking about how to fuse his nine voids together into a new fist god art.

Using this battle with Yan Jiutian, he finally created the form of his new god art. Yan Jiutian was very cunning. He knew that Ye Mo was testing a new god art on him, if he kept fighting Ye Mo it would be helping Ye Mo and he might get injured. How could Yan Jiutian do such a dumb thing.

So after noticing this, he left immediately.

Ye Mo was still in the enlightenment of the new fist god art and couldn't care about Yan Jiutian leaving.

After the nine voids fused together, it completely annihilated this region of space.

Rumbling sounds went on non stop. The nearby space rattled. Ye Mo knew that this punch really devoured space and used space law into it. there was a fundamental difference between this and void.

Void couldn't stop blood river nine falls but this punch could stop it.

If he could use it more than once, he could even ambush Kai Mi and tear him to pieces after blocking one blood river nine falls.

"Thud..."

Ye Mo put away the fist force and the whirlpool in the void exploded and soon dissipating.

"Boss, such a powerful punch." Shadowless immediately came to suck up.

Ye Mo's face was a bit pale and shook his head "this punch is indeed much stronger than the nine voids I used fighting Kai Mi but I can only barely use this punch once. If I can't use two, I would be no match for Kai Mi."
