

Strongest As 1871

Chapter 1871: Immortal Emperor Hunt

Rumbling sounds came, the entire Wuyin Peak was shaking.

“It’s over, boss we tried to be careful, why did it still create such a commotion?” Small Ginseng asked worriedly.

Ye Mo’s face changed and immediately said, “This immortal spirit gathering formation means is far beyond mine. Small Ginseng, hurry up and go into the Golden Page World, I’m going to take both of these immortal ranges and then we run.”

There was no need to keep being careful. Ye Mo took the two immortal ranges and dashed out of Wuyin Peak.

When he came out, he immediately knew that the sect sealing formation was open. His first reaction wasn’t to be happy but be worried. Xiaoyun and that woman left first, Wuhui immortal emperor would definitely chase Xiaoyun thinking it was him.

He couldn’t let Wuhui immortal emperor chase Xiaoyun, Ye Mo immediately dashed down.

“How are you still at Wujia Sound River?” The first person to stop him was the sect leader, Ji Sheng immortal monarch.

Ye Mo stopped and looked coldly at Ji Sheng immortal monarch. “Sect leader Ji Sheng, I politely came to find someone but your Wujia Sound River sealed the sect and sends an immortal emperor to hunt me!”

“So you used a trick to send away martial uncle Wuhui – die!” An immortal monarch tertiary stage released a golden sword.

As soon as it was released, a ten km long golden sword ray appeared, completely enveloping Ye Mo.

Ye Mo sneered. "Good sword but you're weak!"

At the same time, Ye Mo released Zi Xu, Shatter Sky.

Seeing this, Ji Sheng immortal monarch's face changed. Ye Mo didn't even completely use this move before and broke martial uncle Wuhui's binding. This time, the strike was fully released, Ji Yuan immortal monarch might not have it well.

Without immortal emperor on the side, Ye Mo had no concerns. This blade drew a crazy lethal force forcing away those immortal kings and low level immortals.

The nearby space was drawn nearby Zi Xu, forming a subtle sword mark. It was so shocking that people didn't even dare to scan it with spirit sense. It was as though if people were within range of it, they would be swept into the rune.

Crack

The purple sword mark swiped across the sky, completely shattering Ji Yuan immortal monarch's domain. As this purple sword rays struck the golden sword, the sword shook heavily and the golden ray immediately dimmed down.

Rumble

Ji Yuan immortal monarch retreated a few km before stopping, a faint bloodstain appeared across his forehead, but Ye Mo didn't move at all and just looked coldly at Ji Yuan immortal monarch.

Ji Yuan immortal monarch was very shocked, he had never seen such a terrifying immortal king. Ye Mo was just immortal king middle stage but his power was stronger than an immortal monarch tertiary stage. No wonder he could escape from martial uncle Wuhui.

That strike seemed like he only lost a little, but if Ye Mo kept attacking, he would eventually lose for sure.

Ji Sheng immortal monarch was more shocked, he had already heard about Ye Mo hurting Ji Xue in one move and thought it was Ji Xue underestimating Ye Mo. When he saw Ye Mo's Shatter Sky, he realised that at the sect, no one was a match for Ye Mo other than the four immortal emperors.

At this moment, Ye Mo's voice sounded, "Sect leader Ji Sheng, I believe you have messaged Wuhui immortal emperor, I'll be waiting for him at the sect. I hope he doesn't make me wait for too long."

Then, Ye Mo got on Zi Xu and charged towards the sect doors. Seeing Ye Mo fly above their sect, no one dared to stop him.

These few immortal monarchs were very furious, and just when they were thinking about if they should gain up on Ye Mo, they saw Ye Mo stop again and turned back saying coldly, "Today, I could have caused a bloodbath in this place, but I didn't. If something happens to my Mo Yue Immortal Sect then don't blame me for coming back."

Then, Ye Mo left in a purple shadow.

"A mere immortal king dares to be this cocky!" An immortal monarch primary stage was shaking with anger. Wujia Sound River was one of the top sects in the entire grand heaven domain.

Ji Sheng immortal monarch looked coldly at this immortal monarch primary stage and said, "Have you seen an immortal king who can easily beat an immortal monarch tertiary stage?"

"He's definitely not immortal king primary stage," an immortal monarch middle stage said heavily.

Ji Sheng nodded. "I know, just from how his move swept the lethal force and space itself, even an immortal king peak stage can't do it. It's not that they can't do it but they don't dare to do so. If an immortal king used such a powerful move, his own body would collapse before he hurt his opponent. Yet, after using such a move, he was completely fine."

"The four immortal emperors of our sect all aren't here – otherwise, how can he be so cocky here?" another immortal monarch asked unhappily.

But this time, no one said a thing. When Ye Mo was here, Wuhui immortal emperor was not only here but also tricked away.

...

Wuhui looked coldly at the space ripples. He was going to catch Ye Mo no matter what.

At this moment, he felt a message in his communication bead. His spirit sense scanned in and immediately saw the news.

When he saw that Ye Mo was still in the sect and even injured an immortal monarch and took the two extreme grade immortal ranges of Wuyin Peak, he almost spat blood. He didn't expect the person he chased for so long wasn't even Ye Mo.

Just when he was hesitating whether he should keep hunting these people, the second news came. An immortal king was waiting for him at the door of the sect.

Being slapped in the face like this, Wuhui immortal emperor was furious. For the first time, he felt like he was a clown being played. He turned back without hesitation and released a teleportation rune.

As soon as Wuhui turned, Luo Biyue felt it. She let out a long sigh and said, "I didn't expect this guy's chasing ability was this strong. I was almost caught by him. Luckily this guy left or I really wouldn't be able to keep up."

"Sister Biyue, why did he go back?" Mu Xiaoyun immediately asked.

Luo Biyue thought for a moment and said, "He's actually not here to chase us. If I'm not wrong, he's probably chasing the guy who made them open the Sound River and then he realised he was chasing the wrong people so he went back. But we need to leave quickly too, best to leave Yu Yu Heaven immediately."

...

Three months later, Ye Mo controlled the space time boat and scrambled everywhere in the void. Only now did he realise how Kai Mi felt when he chased him.

Since Wujia Sound River, he was chased by Wuhui endlessly.

He was only planning to stay at Sound River for a few minutes and leave. He wasn't really dumb enough to wait for Wuhui immortal emperor to come back.

But even in just that few minutes, Wuhui immortal emperor came back. Wuhui immortal emperor actually had the rune to teleport back to Wujia Sound River. Ye Mo didn't know this because he had never stayed at a big sect before.

In the end, he kept running, leaving from Yu Yu Heaven into the void but the Wuhui immortal emperor still kept chasing him and was closing in.

Wuhui immortal emperor cursed, he lacked too much in terms of space god art; if it was some immortal emperor who had mastery in space god art, Ye Mo would've been caught already. But when he saw that Ye Mo had a space time boat, he wanted to catch Ye Mo even more.

"Boss, let's go to blue grey space and ask those Star Beasts for help." Small Ginseng also knew that running like this wouldn't get them anywhere.

"Okay." Ye Mo flew crazily towards the blue grey space.

Five days later when Wuhui immortal emperor was about to catch Ye Mo, Ye Mo dashed into the blueish grey space.

When Ye Mo came in, he immediately knew he made the wrong decision, there was not a single Star Beast left.

Wuhui immortal emperor was right behind him. In his desperation, Ye Mo charged towards that new realm.

Terrifying tearing power came, Ye Mo put away the space time boat but breathed easy. This tearing power wasn't much to him, he was already immortal god body power. His body was stronger than an ordinary immortal emperor body.

Chapter 1872: Taking an Immortal Emperor Head On

When Ye Mo landed, he felt this wasn't the ground but the hardest metal magic artifact. Before he could keep running, tens of tearing beams and lightning arcs swept over.

These attacks were silent, Ye Mo couldn't even feel the killing intent from them before they smashed onto his body.

A few sizzling sounds occurred, a few blood marks appeared on Ye Mo's body.

Ye Mo was very shocked, tens more tearing beams mixed with lightning wept over, there were even flame and rocks in between them.

Ye Mo released that this wasn't someone ambushing him, there were these dangerous places everywhere. In other words, if he wasn't immortal god body, he would've been killed as soon as he came here.

Ye Mo's spirit sense scanned out. Indeed, where his spirit sense could reach, it was filled with lightning arcs, tearing beams, space fissures, flames, and rock flows. There were no immortal spirit herbs at all.

When the beams struck the ground, they only created some sparks.

Ye Mo took in a cold breath, just what was this place? Even an immortal monarch tertiary stage would be dead for certain if he wasn't a body refinement immortal, he would also have to be at least immortal spirit body too.

Only immortal emperors could survive here, and even they would have to constantly face the endless dangers.

Ye Mo was just dazed for a moment and rejoiced. This place was made just for him. That old bastard Wuhui had chased him for a few months, now it was time to get payback.

Thinking about this, Ye Mo stopped. Although the danger here was powerful, it couldn't truly harm his immortal god body.

Ye Mo didn't wait for long before another space ripple appeared. The next moment, Wuhui immortal emperor appeared in this space.

Wuhui immortal emperor was also attacked by the dangers here. He thought that Ye Mo was ambushing him so he sneered and released an umbrella.

The umbrella spun a little and blocked countless attacks.

Ye Mo sneered but didn't attack, he just watched Wuhui immortal emperor from the side.

Soon Wuhui realised that Ye Mo wasn't behind all these attacks, he had come to an extremely terrifying place.

Finally Ye Mo couldn't resist anymore, he waved his hands and rumbling sounds came into the void. Countless black with golden rimmed lightning mixed in with the dangers in the dimension. In a short while, a heaven covering lightning feast completely formed and even took away all the lethal force in this void, forming a Lightning Spear.

This spear immediately reached out to be 10km long, it tore through the void and pierced down.

Ye Mo could use Lightning Sand against an immortal emperor without resistance, this satisfied him greatly. He didn't conserve his immortal essence and spirit sense at all.

This terrifying fierce strike was noticed by Wuhui immortal emperor firsthand. He saw Ye Mo who didn't even block the attacks targeting him and new that he was at least an immortal god body body refinement immortal.

Fighting Ye Mo in here was asking for trouble.

Rumble

The black Lightning Spear fell, Wuhui could only barley release his Yang Dragon Wave Mirror.

Upon release, it immediately shot out a rainbow light illuminating this space.

The black Lightning Spear mixed with destructive chi smashed on the mirror.

The mirror's vibrance immediately dimmed down and shrunk, but Ye Mo's Lightning Spear was gone too.

Ye Mo was shocked, this immortal emperor was too savage. This was the first time his Lightning Spear was completely blocked without doing anything and this was when Wuhui immortal emperor had to focus on defending himself too. If it wasn't this space, he had no right to even talk to the immortal emperor.

Wuhui could only suppress his anger and keep inserting immortal essence into his umbrella. Although he was immortal emperor, he was no body refinement cultivator.

Ye Mo rejoiced and then smashed out Zi Xu using crevice.

"You coward..." Wuhui immortal emperor was almost about to spit blood. Fighting Ye Mo here was like fighting countless people plus Ye Mo.

But Ye Mo didn't care at all, he was full of annoyance after being chased for so long. He even hunted a divine emperor for many years before and now he was hunted by an immortal emperor for a few

months, how could he let this go? If he didn't find an opportunity to get back at him, he wouldn't be Ye Mo.

"Crack..."

Zi Xu swept the void lethal force whirlpool and clashed with the Yang Dragon Wave Mirror again, immediately sweeping away all the nearby lightning arcs and sword rays.

Wuhui breathed easy, the umbrella in his hands turned into a 30km long spear and smashed at Ye Mo.

The dark spear seemed to have pierced from outer heavens and mixed with dark star ray tearing the void between Ye Mo and Wuhui immortal emperor. Eventually, the entire space was filled with darkness.

Ye Mo felt difficulty of breathing, Wuhui immortal emperor's spear made Ye Mo realise just how big the difference between him and Wuhui immortal emperor was and this was under the help of this space. Just one move from Wuhui and it made him feel he couldn't resist it at all.

Ye Mo didn't dare to hesitate at all, he released world rock and god art Tang Mengrao. This was the first time he used an offensive god art as a defensive measure. The world rock turned into a huge mountain that had a hundred km radius. The mountain passed through the void and smashed at that terrifying black spear.

At the same time, he punched out twice using Shatter Sky.

Rumble... rumble rumble

The entire space rattled heavily, huge black spear rays were smashed away by the world rock creating sharp sounds.

The mountain immediately dimmed down after clashing with the spear. It flew out like a comet and turned into a rock.

Meanwhile, the black spear just dimmed down a little and kept attacking Ye Mo.

“So powerful...” Ye Mo was very shocked but released Shatter Sky at the same time.

He used two Shatter Sky attacks consecutively and more than ten lethal force marks expanded out forming lethal force whirlpools which instantly clashed with the huge mountain like spear ray.

The terrifying explosion sounded in this space. The lethal force whirlpool and the black spear ray entwined and almost tore everything here.

With the final explosion, Ye Mo was smashed out many km away. even though he was immortal god body, his fist was bloody and his bones were visible.

Meanwhile, Wuhui immortal emperor didn't have the time to kill Ye Mo before the huge spear turned back into an umbrella, stopping the endless beams and lightning arcs.

He had the definite upper hand when he fought with Ye Mo and wasn't injured the slightest bit, but he wasn't as calm as he looked. Ye Mo was a mere immortal king middle stage and fought him head on. However, he was only struck away, not even his body was destroyed – this was too shocking.

If Ye Mo could recover in a short time and continue holding him here, it wouldn't be good for him.

At first, he might have the definite upper hand and keep heavily injuring Ye Mo, but as time went on, it would be hard to say. Just in the time he injured Ye Mo, the space beams created a few blood gashes on him.

He wouldn't care about these few marks, but if Ye Mo kept holding him here and his wounds increased, what would happen?

Wuhui immortal emperor just hoped Ye Mo learned his lesson and would run away for now.

However, his wish was bound to not be realised. Ye Mo ate a few pills and released Zi Xu without even resting, bringing out a tearing purple ray and hacking over with the sword god art Crevice.

Chapter 1873: I am hunting you

Seeing Ye Mo still dare to come back after being beaten like that, Wuhui immortal emperor almost spat blood in anger but he had to face all the dangers in this dimension.

Ye Mo's crevice god art carried a sliver of space law and once released, it would gather the nearby space and everything in it. Now, this strike brought together all the lightning strikes and sword rays which amplified his attack.

Wuhui immortal emperor had to release Yang Dragon Wave Mirror to defend and the beam from the mirror struck Ye Mo away once again. Ye Mo's terrifying strike was also annihilated by the mirror.

However, before Ye Mo fell to the ground, another lightning sand came. The mirror again blocked the lightning sand.

Ye Mo seemed to have gone mad, lightning spear, crevice and world rock all kept attacking.

The explosions created waves after waves of space ripples but they were instantly swept away by the lethal force in this space.

Ye Mo was struck flying again and again but kept coming back to attack. Eventually, Ye Mo just considered Wuhui immortal emperor a cultivation sand bag. This sand bag was indeed powerful.

Ye Mo's injuries added up but so was Wuhui immortal emperor.

Because Ye Mo was immortal god body body refinement level, not only did he receive less damage but his recovery was much faster than Wuhui immortal emperor.

Eventually, Wuhui was going mad. Ye Mo was too tenacious. He ignored ordinary damage and kept coming back. He felt ravaged by this space and couldn't give Ye Mo a lethal blow.

Six hours later, Wuhui immortal emperor finally couldn't take it anymore. He didn't want to keep fighting with Ye Mo like this. he just went on his mirror and left.

The situation was already like this, how could Ye Mo let Wuhui immortal emperor go? Without hesitation, he chased with Zi Xu. There was many dangers here so Ye Mo didn't want to take out space time boat. This way, his speed was much slower than Wuhui immortal emperor.

Luckily, Wuhui immortal emperor had to defend against the dangers in this space and so his speed was slowed. Meanwhile, Ye Mo had no concerns at all.

Before it was Wuhui immortal emperor hunting Ye Mo, now it was Ye Mo hunting Wuhui immortal emperor.

Being hunted by a mere immortal king middle stage, Wuhui wanted to spit blood in humiliation. When he couldn't hold in his anger anymore, he would stop to fight with Ye Mo for a while. However, even though he struck Ye Mo away countless times, he couldn't kill Ye Mo.

Eventually, Wuhui immortal emperor focused on running away. He knew that in such place, it was too hard to kill an immortal god body body refinement immortal. He wanted to find a place without these disasters, only in such place would he be able to kill Ye Mo.

However, the two chased for a few days and this dimension was still filled with all sorts of dangers.

The reason Ye Mo didn't want to let Wuhui go was because he was scared if he did, Wuhui would immediately go to Mo Yue immortal sect. with this opportunity, Ye Mo clearly wouldn't waste it as he really had a chance to kill Wuhui immortal emperor.

This was the second month, Wuhui immortal emperor's speed clearly slowed down. Ye Mo could catch up to Wuhui immortal emperor now but he didn't completely stop Wuhui, he just kept coming up and

using a few lightning sands. Everytime Wuhui was about to fight with his life, he would run away. If Wuhui didn't fight with his life, Ye Mo would fight him head on.

After being hunted for two months, Wuhui really had lost all his temper.

Wuhui knew that if this continued, he might even eventually get killed. He really didn't want to admit this but this was reality. He even felt that immortal king could even cultivate while hunting him.

In fact, Wuhui immortal emperor was right, Ye Mo really could cultivate but he was cultivating body refinement.

After another month of hunting, Wuhui immortal emperor finally stopped. He knew that running would just waste his power.

"Just what do you want?" Wuhui looked hatefully at Ye Mo and asked.

Ye Mo said plainly "it's not what I want but what you want? I politely went to Wujia sound river to visit but what did you say? You said you're not going to let me see my friend, what am I going to do? I'm going to tell you now, I want to kill you old bastard."

Wuhui looked younger than Ye Mo but Ye Mo kept calling him old bastard. This made him almost attack again but he forced himself to stop. Fighting had no benefits for him at all.

Seeing Ye Mo finish and then about to release that stone, Wuhui immortal emperor quickly said "wait, I've never even heard of that Mu Xiaoyun. Since you say its at Wuyin peak , then go find her at Wuyin peak, why are you coming to me?"

"Is Wuyin peak's Wuyin immortal emperor from your sect? I came to the sect for the sect leader, what business did you have in this? You had to come out and mind someone else's business?" Ye Mo sneered,

Wuhui immortal emperor's face was bleak and seeing Ye Mo about to fight again, he could only force down his extreme fury and say "what do you want for you to stop following me?"

Ye Mo sneered “don’t make it sound so nice, I’m not following you, I’m hunting you, get it? hunting you, idiot.”

Then, Ye Mo released world rock again. He even had anticipation for what an immortal emperor possessed.

At the same time, a blue light shot into the sky in the distance. It soared up 10 km high and was frostily shining.

Ye Mo and Wuhui looked, they immediately knew someone was fighting here. This person was at least immortal emperor level.

Wuhui immediately flew towards this blue light, Ye Mo put away the world rock and followed over.

...

When Wuhui immortal emperor arrived, those two fighting immediately stopped. They were both immortal emperor middle stage and far stronger than Ye Mo, even Wuhui wasn’t enough to stand up to them.

“Wuhui immortal emperor, what are you doing?” One of the two fighting was an extremely ethereal looking middle aged man.

Wuhui immortal emperor’s hair was messy and was covered in wounds.

If it wasn’t that Ye Mo was only immortal king middle stage, he would even suspect Ye Mo hunted Wuhui immortal emperor over. He was more confused how an immortal king middle stage could come here.

Wuhui immortal emperor immediately saluted with his fists “Wujia Sound River Wuhui greet Zheng Ren immortal emperor.”

Seeing Zhengren immortal emperor's confused look, Wuhui immortal emperor didn't even care about saving his face, he was about to die. So he said without hesitation "brother Zhengren, Wuhui is really ashamed, I was hunted all the way over by this little bastard, please help me."

Zheng Ren immortal emperor looked dazily at Ye Mo and his heart was full of shock. He didn't expect Ye Mo, a mere immortal king, could really hunt Wuhui immortal emperor to this degree, did he hide his power?

That immortal emperor fighting with Zhengren also looked at Ye Mo's side with surprise but didn't plan to leave.

"This person ignored our Wujia Sound River and stole the immortal range of our Wuyin peak, please help a little brother Zhengren, we would be very grateful." Wuhui added.

Ye Mo laughed and saluted with his fists to Zheng Ren immortal emperor "Gong Hua heaven Mo Yue immortal sect leader Ye Mo greet Zhengren immortal emperor master. Wuhui this old bastard is twisting the truth, please see this Zhengren immortal emperor qian bei."

With such words, Zhengren immortal emperor and that other immortal emperor was completely dumbfounded.

What was going on? If Ye Mo was an immortal emperor hiding his power, he would never call Zhengren immortal emperor qian bei. No immortal emperor wanted to call another immortal emperor qian bei. The only possibility was that Ye Mo didn't hide his power and was really an immortal king.

Plus, Ye Mo said he was a sect leader from the low heaven domain. there would be no way an immortal emperor would be the sect leader of a low heaven domain sect. But an immortal king hunting an immortal emperor? This was too absurd.

"Just what is going on?" Zheng Ren immortal emperor was shocked for a long while before asking.

Chapter 1874: Wu Chen fruit

Ye Mo recounted what happened when he went to Wujia Sound River.

Zhengren immortal emperor realised what had happened before Ye Mo even finished the entire story. Ye Mo had shockingly high potential, even if Ye Mo didn't have much potential, he wouldn't help this clearly unreasonable Wuhui immortal emperor. Wuhui immortal emperor clearly thought Ye Mo had secrets and felt he had Ye Mo for certain but ended up getting hunted by Ye Mo. How could Zhengren immortal emperor get himself in this mess?

Seeing Zhengren immortal emperor not talk anymore, Wuhui immortal emperor immediately realised it was impossible to rely on Zhengren immortal emperor. He didn't know the other immortal emperor at all.

Seeing this, Wuhui could only say to Ye Mo "if you dare to do anything to me, then Wujia Sound River will completely annihilate your Mo Yue immortal sect."

Ye Mo said coldly "if anyone from Mo Yue immortal sect is harmed due to your sect, then I, Ye Mo, swear that in my life I will turn Wujia Sound River to dust."

Hearing this, Wuhui immortal emperor just felt shivers down his back, even Zhengren immortal emperor felt a little cold. They didn't believe Ye Mo was bluffing, with how Ye Mo could hunt Wuhui immortal emperor as an immortal king, if Ye Mo reached immortal emperor, Wujia Sound River would be nothing to him. Zhengren immortal emperor rejoiced that he didn't casually attack Ye Mo.

With how Ye Mo hunted an immortal emperor, even if he attacked Ye Mo he probably wouldn't be able to kill Ye Mo. If Ye Mo got away, then there would be endless trouble.

"Haha, great, I, He Chong, admire people like you, just kill this guy. I promise no one will stop you." The other immortal emperor middle stage raised his thumb and said.

Zhengren immortal emperor heard this and felt extremely unsatisfied but he was calm mannered and said nothing. Wuhui immortal emperor hated He Chong immortal emperor but didn't dare to say anything.

After hesitating for a moment, Zhengren immortal emperor said “Ye Mo, I feel it’s not good to form enemies, plus, you’re the leader of a sect. there are many more things here waiting for us to dig out, it’s really not worth it to waste on fighting.”

Ye Mo knew what Zhengren immortal emperor meant, it was that him hunting Wuhui immortal emperor had been exposed. If he killed Wuhui immortal emperor, then it was forming death enmity with Wujia Sound River. Zhengren immortal emperor reminded him to think about his sect.

Before Ye Mo answered, Zhengren said to Wuhui “Wuhui immortal emperor, the conflict between you two isn’t too deep. As long as you promise you won’t attack Mo Yue immortal sect I believe Ye Mo wouldn’t keep hunting you.”

Zhengren immortal emperor predicted that Ye Mo wouldn’t keep attacking Wuhui after this was exposed so he tried to be a mediator.

Wuhui immortal emperor knew this was his only chance so he quickly said “as long as sect leader Ye is willing to let go of this conflict, Wuhui would never have any excuse and wouldn’t touch Mo Yue immortal sect at all.”

Ye Mo sneered, if he didn’t know that Xiaoyun had left, then he would subjugate this Wuhui if not kill him. But now that Xiaoyun had left and he got two immortal ranges, he didn’t need to continue this conflict.

Ye Mo sneered “in that case I don’t mind, but because you hunted me, I took two immortal ranges....”

“If you’re willing to let go of this conflict I won’t caer about that two immortal range.” Wuhui immortal emperor quickly added.

“How come I heard that those two don’t belong to you but Wuyin immortal emperor? If she comes to me what do I do?” Ye Mo asked.

“I promise Wuyin won’t come for you, I’m an immortal emperor of Wujia Sound River, do you not believe me? I will do as I say, if Wuyin comes to you, I will take it.” Wuhui promised quickly.

Ye Mo raised a crystal ball and said “hope you honor your promise.”

Even though his words were recorded, there was nothing Wuhui could do.

Ye Mo put away the crystal ball and walked to that other immortal emperor middle stage and saluted with his fists “thank you qian bei for helping.”

“Haha, no problem, I like making friends like you. Calling qian bei is too polite, I’m He Chong, just an solo cultivator.” He Chong immortal emperor laughed.

“I’m Ye Mo, sect leader of Mo Yue immortal sect, you’re welcome to come visit brother He.” Ye Mo said.

“Okay, I will definitely go but now, there are lots of good things here...”

With them both saying there were good things here, Ye Mo couldn’t resist anymore. He lacked good things now the most. He quickly saluted with his fists and asked “Zheng Ren immortal emperor master, brother He Chong, just what is here?”

Zheng Ren immortal emperor immediately said “there are large amounts of immortal range buried under here and a top level fruit called Wu Chen fruit. It has no flower, leave, root nor branch but it can wash off the dust in one’s heart, it’s beneficial in vindicating dao. All the immortal emperors here all want this fruit but its very rare. However, there’s quite some immortal range.”

Ye Mo asked in confusion “how does this Wu Chen fruit survive then?”

Even Wuhui immortal emperor was listening carefully on the side.

“This fruit only exist in this space and floats in the lethal forces, it’s often puried by the lightning arcs, beams and flames. If a live person neared it, the fruit would flee. I saw it once since coming in but I had no fortune in getting it. This fruit has a light golden color. Even now, I don’t know why this fruit wouldn’t be destroyed here.” Zheng Ren immortal emperor sighed.

Ye Mo sighed, this world is too magical, there are all sorts of things never heard before appearing.

“Zheng Ren immortal emperor qian bei, I heard many immortal emperors have come in here, how come there’s only you and brother He Chong?” Ye Mo asked.

Zheng Ren immortal emperor immediately said “because there’s no way out in here and then immortal emperors found immortal range here so people split off to find immortal range. Then with the appearance of Wu Chen fruit, many people started searching for that. I fought with He Chong because there is immortal range here.”

Although Ye Mo respected Zheng Ren immortal emperor a lot, Zheng Ren immortal emperor didn’t dare to underestimate Ye Mo. He had considered Ye Mo as someone equal. A being who could hunt an immortal emperor as immortal king was definitely no simple character. Now, the four of them stood here, only Ye Mo didn’t use any defense magic artefact.

This meant that Ye Mo was at least an immortal god body body refinement cultivator. He wasn’t dumb enough to offend someone with such huge potential.

He Chong smiled at said “brother Ye Mo, it’s not easy to find immortal range here. You see nothing here but there’s actually an immortal range below. In this space, if the lethal force forms an arc, it means that there’s immortal range below. The bigger the arc the better the immortal range.

Hearing this, Ye Mo studied the surrounding carefully and indeed found that the lightning arcs, beams and flames formed an arc shape.

“Zhengren, we’ve fought for quite long, we can’t do anything to each other. Let’s split these two equally, if it’s two then one each, if it’s three, then...”

He Chong immortal emperor subconsciously looked at Ye Mo and Wuhui. Wuhui quickly said “I don’t want one.”

There was a sliver of contempt and continued “then brother Ye can have one.”

Since He Chong said this, Zheng Ren immortal emperor clearly wouldn't say no to offend Ye Mo. He nodded "okay let's do that."

Just when they released their magic artefact to dig this place, Ye Mo saw a faint golden ray come over.

Before it reached near, he smelled a faint aroma, this was Wu Chen fruit. Ye Mo immediately realised what this was.

Then, 8 immortal emperors appeared, clearly they were all chasing this Wu Chen fruit.

Chapter 1875: Fight again

Ye Mo had large amounts of experience catching corner soul weed and void flying snow. He knew that something as lively as this would be extremely hard to catch if he was chasing this behind. A few immortal emperors all couldn't catch up to it.

The Wu Chen fruit might not be as fast as the void flying snow but it was more lively than void flying snow. It had a sliver of space attribute too. Sometimes, you were clearly just about to catch Wu Chen fruit but it would suddenly speed up or jump through space and disappear.

If it wasn't immortal emperor chasing the Wu Chen fruit, it would be long gone. These immortal emperor could catch the weak ripples in space and thus didn't lose track of it.

Seeing the Wu Chen fruit fly towards him, Ye Mo immediately stealthed his chi and didn't even use spirit sense net. If spirit sense domain or net could catch it, the fruit would've been long caught.

Ye Mo's guess was really right, if Wu Chen fruit was touched by any spirit sense, it would immediately dash away.

When the Wu Chen fruit was near Ye Mo, Ye Mo suddenly reached out his hand and a jade box stopped the Wu Chen fruit. Then, Ye Mo put restrictions on the box and put it in his storage ring.

Now, these few immortal emperor landed around everyone. They were all very cunning. Although Ye Mo was only a mere immortal king, no one attacked immediately.

Ye Mo stood in this space without a defensive magic artefact and the nearby lightning arcs and beams didn't seem to affect him at all. They would immediately disappear upon striking Ye Mo. Clearly, Ye Mo was at least immortal god body.

In the immortal realm, immortal spirit body was already very rare, an immortal god body was extremely rare. Some people had never even seen someone who could practice body refinement to such level.

"Hehe, brother Zhengren and Wuhui immortal emperor..." One person came and saluted with his fists.

Zheng Ren immortal emperor quickly saluted with his fists and greeted. Ye Mo saw clearly that there was no grand emperor amongst these seven immortal emperors, there was probably no Wuyin immortal emperor too. The strongest was an old man, he heard Zheng Ren immortal emperor call him Nong Yan immortal emperor, he was immortal emperor tertiary stage.

Ye Mo found strangely that these immortal emperors all knew Zheng Ren immortal emperor and Wuhui but not He Chong immortal emperor.

One immortal emperor middle stage looked at Ye Mo in confusion and asked "who is he?"

"Oh, this is Gong Hua heaven Mo Yue Immortal Sect sect leader Ye Mo." Zheng Ren immortal emperor introduced.

Ye Mo went up and saluted with his fists "Ye Mo greet qian beis."

"You're really an immortal king?" that immortal emperor asked again clearly confused how an immortal king could appear here.

But then he immediately realised, Ye Mo was an immortal king but he was an immortal god body body refinement immortal.

Ye Mo didn't seem very old but not only was he immortal god body but also an immortal king, clearly he had quite some secrets.

Everyone said nothing but a few immortal emperor was already brewing intentions for Ye Mo.

Ye Mo cultivated Three Birth Chant and immediately felt a faint sense of danger.

But Ye Mo wasn't worried, in this space he was no match for these immortal emperor indeed but he could run away.

Zheng Ren immortal emperor sneered, if Ye Mo was so easily mugged he would've been in Wuhui immortal emperor's hands already.

No one knew He Chong immortal emperor and he didn't go up to greet anyone. He just kept smashing his magic artefact against the hard earth.

At this moment, the dense immortal spirit chi came up and everyone's eyes were immediately caught by the immortal spirit chi.

"Haha, it really is three extreme grade immortal range, I'll take one first." He Chong laughed and took out one.

Now, these immortal emperor just realised that Zheng Ren immortal emperor and them already found immortal range here.

Extreme grade immortal range was hot but no one fought for it. If it was outside, they might be fighting over it but in this space, it's not hard to find them as long as you tried.

Zheng Ren immortal emperor went up and took the second one. Just when everyone thought Wuhui immortal emperor would be taking the third one, they found that the immortal king middle stage Ye Mo went up and took the third one.

These immortal emperors were immediately in shock, there were only three immortal ranges, there was no way Ye Mo had a right to take it. Why didn't Wuhui immortal emperor take it? Wuhui felt he was embarrassed to the extreme but even so he didn't want to explain it.

"Haha, He Chong will be leaving first. Brother Ye Mo, this is my communication bead, contact me if you need." Then He Chong disappeared.

Ye Mo took it and then saluted with his fists to Zheng Ren immortal emperor and a few immortal emperor "immortal emperor masters, wan bei will be leaving."

"Wait..." that immortal emperor middle stage asking who Ye Mo was immediately stopped him.

He thought Ye Mo was related to He Chong immortal emperor and that's why Zheng Ren immortal emperor and Wuhui were concerned. But now, He Chong immortal emperor left and left Ye Mo a communication. Clearly, the two didn't know each other before.

A few other immortal emperors also came up. They had made up their mind, if Ye Mo had a top level body refinement cultivation method, they must get a copy no matter what.

Ye Mo stopped but didn't talk, he respected their power but didn't mean he was scared. He felt these immortal emperors had bad intentions, so he wasn't going to polite with the rest of them.

"I'm Demon Joy sect XXuan Feng, sect leader Ye could come here alone with just immortal king power, you're clearly not ordinary." Xuan Feng immortal emperor seemed polite but spoke in a qian bei tone.

Ye Mo didn't like demon joy sect people already and with this tone, Ye Mo didn't like him even more.

Xuan Feng didn't seem to care if Ye Mo would reply or not and just said "we chased that Wu Chen fruit over, you're quite lucky to be able to stop it for us..."

Ye Mo sneered and said nothing, he wanted to see how shameless Xuan Feng immortal emperor.

Seeing Ye Mo still not talk, Xuan Feng immortal emperor was a little unhappy, he sneered "as qian beis, we wouldn't ask a wan bei to help for no reason. If you give over the Wu Chen fruit, I will reward you a few pills."

"So this means, you guys were growing the Wu Chen fruit here?" Ye Mo sneered.

Xuan Feng immortal emperor's face sunk "you're a mere immortal king, what use do you have for it? Do you not want to take it out?"

"You're right, I don't like to take out my things." Ye Mo said while running his immortal essence.

Xuan Feng immortal emperor sneered and grabbed at Ye Mo.

No other immortal emperor wanted to say anything and Wuhui immortal emperor sneered on the side.

He knew this Xuan Feng immortal emperor, he was indeed a little stronger than him but that was because Xuan feng immortal emperor was immortal emperor middle stage. A mere immortal emperor middle stage dared to be so casual and use his hand to grab Ye Mo, he was too cocky. Wuhui wasn't going to remind Xuan Feng, he had suffered too much in Ye Mo's hands, if others didn't suffer in Ye Mo's hand he wouldn't feel satisfied.

Chapter 1876: Reach immortal tao

When Xuan Feng immortal emperor grabbed over, Ye Mo punched out, shatter sky.

The instant of that punch, all sorts of sword rays and lightning arcs were drawn over forming multiple space lethal force whirlpool.

The nearby immortal emperor saw Ye Mo release god art and their faces immediately changed. Xuan Feng immortal emperor's complexion also changed.

After an explosion, Xuan Feng immortal emperor's giant hand was torn to pieces while he was forced back 100 meters away. his purple immortal robes were torn too.

Wuhui looked and sneered. He was certain that if Xuan Feng immortal emperor encountered Ye Mo alone, with Ye Mo's madman character, he would definitely stick to Xuan Feng till the end.

Xuan Feng immortal emperor looked furiously at where Ye Mo stood, there was only an immortal essence whirlpool there while Ye Mo had long left and disappeared. In this space, he couldn't use his spirit sense to find where Ye Mo was.

And, he knew that it wasn't plausible to capture an immortal god body immortal king here.

"Good capabilities." Nong Yan immortal emperor applauded to himself.

Zheng Ren immortal emperor looked in shock at where Ye Mo disappeared. He finally realised why Ye Mo could hunt Wuhui immortal emperor everywhere.

Zheng Ren immortal emperor subconsciously looked at Xuan Feng immortal emperor and sneered to himself. This guy took the lead to stop Ye Mo. If he encountered Ye Mo in here in the future, he would surely have trouble.

Everyone knew Ye Mo took the Wu Chen fruit but they knew it was impossible to catch Ye Mo in here unless it was someone of the level of the four grand emperors.

...

Ye Mo wasn't worried that Xuan Feng immortal emperor would come chase him. In this dimension he wouldn't care about an ordinary immortal emperor middle stage like Xuan Feng.

Just as he guessed, Xuan Feng immortal emperor didn't chase him. Ye Mo had decided to find immortal ranges here first since there were ample of them here and then go into solitary cultivation.

Four months later, Ye Mo stopped searching and went to a far off place before going underground and going into the golden page world.

In this four months, he didn't find any way out but he collected one extreme grade immortal range, 12 top grade immortal range, 6 middle grade immortal range and nine low grade immortal range. He also saw another WU Chen fruit and chased it for a while before giving up. Ye Mo knew that with his current power it was impossible to catch Wu Chen fruit. Last time, he caught it purely due to luck.

With large amounts of immortal range here, Ye Mo was very satisfied. Extreme grade immortal range was rare but he had four in his hands now.

He went into the golden page world now to go into solitary cultivation. Ye Mo was certain that in this dimension he was the weakest.

No matter if he could leave this dimension or not, Ye Mo felt the most important thing for him to do was increase his power.

Small ginseng had no battle power and couldn't help, shadowless was still asleep but feeling the chi coming from him, Ye Mo felt that when shadowless woke up, he would reach immortal tao.

Ye Mo used a top grade immortal range next to the bitter bamboo to set up the immortal spirit gathering formation and time formation disk before dragging out an extreme grade immortal range to cultivate.

...

Time flew by in the time formation disk solitary cultivation.

Immortal range were used up by Ye Mo and turned into dust, he consumed many immortal pills. His immortal essence level grew slowly, this slow was only relative to Ye Mo.

The time formation disk was used continuously for 12 years. When more than half of Ye Mo's immortal range turned to dust, he was immortal king peak stage power.

Only the most talented immortal king and immortal monarch didn't need any supplementary pills. Ordinary immortal king and immortal monarch needed supplementary pills. Ye Mo's talent wasn't too good.

Not only did the Three Birth Chant require large amounts of resources but the cultivation method derived with Three Birth Chant also required large amounts of resources.

Ye Mo needed Monarch Will pill to breakthrough to immortal monarch. Ye Mo had the supplementary herbs for Monarch Will pill but he didn't have the main immortal spirit herb Jade Flow Void Mood.

Ye Mo had decided to go out to search for immortal range and find a way to leave. If he didn't leave here, he wouldn't be able to reach immortal monarch.

Plus, with Ye Mo's current pill concoction skills, even if he got a jade flow void wood, he might not be able to concoct Monarch Will pill. That pill was level eight immortal pill. Level eight immortal spirit herb was rare and if he didn't have enough to practice he didn't dare to casually concoct Monarch Will pill.

Returning to this lethal force space, Ye Mo started searching for small ginseng again. The benefit of small ginseng to him was immeasurable.

A month later, Ye Mo found another four top grade small ginseng but at this moment, he felt shadowless had woken up.

Feeling Ye Mo's will, shadowless charged out of the golden page world immediately. Shadowless landed and its two wings flapped immediately. Immortal essence flow immediately swept the beam and flames to the side.

Ye Mo didn't need to look to know that Ye Mo really broke through this time.

As expected, the first thing shadowless said was "boss, I already reach immortal tao!"

Ye Mo nodded with satisfaction and asked "what powers do you have now, don't be like last time when you can't even deal with Kai Mi's blood river."

Shadowless didn't seem ashamed at all, he gloated "now, I can devour domain, god art. Immortal king is only food for me, immortal monarch I can devour in one mouth if his bones aren't hard."

"What, you can devour domain and god art?" Ye Mo asked in shock.

"Of course but if an immortal emperor forms realm domain, I don't know if I can." Shadowless said.

Ye Mo waved his hand "I haven't even seen an immortal emperor with realm domain, don't worry. Those few immortal emperors I saw before are all powerful immortal emperor domain. At most they have the primal form of realm domain. If you can devour immortal emperor domain and ordinary god art and I reach immortal monarch, then we don't need to fear anyone here."

"Boss, what is this place? why are there so many random things." Shadowless's powerful body was on par with Ye Mo's immortal god body.

"This is a dimension next to the one we were at before. I don't know exactly what this place is but there are large amounts of immortal range, I reached immortal king peak stage due to these immortal ranges." Ye Mo said.

"That's good, call small ginseng out, we'll go find immortal range." Shadowless said excitedly.

Ye Mo replied "small ginseng can't come out to this dimension, see if you can find it."

"Of course, although my nose isn't as good as small ginseng, it's easy job to find a few immortal range." Shadowless immediately said hearing that he was doing something small ginseng was good at.

Chapter 1877: Jade box being robbed

Shadowless didn't bluff, Ye Mo took more than a month to find a few top grade immortal range but shadowless found an extreme grade immortal range in three days.

After following shadowless for a few days, Ye Mo realised that not all immortal ranges were like He Chong said. There were also immortal ranges in ordinary places and usually, these immortal ranges were purer.

This day, shadowless brought Ye Mo to a new place. Ye Mo just dug an extreme grade immortal range and a dashing light landed before Ye Mo.

"Hmm, it's you." A middle aged immortal emperor appeared before Ye Mo. He immediately recognized who Ye Mo was.

The next moment, his eyes landed on shadowless. And moments later, he immediately said "so it's you?"

These two questions made Ye Mo confused. He understood the first one as this immortal emperor was one of the immortal emperors chasing the Wu Chen fruit. But what did the second question mean?

Ye Mo wasn't scared of this immortal emperor middle stage, his cultivation level broke through and shadowless reached immortal tao.

Seeing Ye Mo not understand him but not become scared of him either, this immortal emperor wasn't surprised. After Ye Mo ran off, he knew from Zheng Ren immortal emperor about how Ye Mo hunted Wuhui immortal emperor. An immortal king hunting an immortal emperor, this news was way too shocking. Even in this dimension, it was very rare.

“Is your cultivation level immortal king middle stage or tertiary stage?” This immortal emperor looked at Ye Mo in shock. He felt last time Ye Mo was immortal king middle stage but now he saw Ye Mo was immortal king tertiary stage.

Ye Mo hid his power level to immortal king middle stage and said “just think I’m an immortal king middle stage.”

Seeing Ye Mo hide his cultivation level, this immortal emperor’s eyes narrowed. This was definitely the top level stealth cultivation method. This Ye Mo wasn’t an immortal king middle stage at all, he might even be immortal monarch power.

An extremely powerful immortal monarch with immortal god body could indeed hunt an ordinary immortal emperor primary stage in this place.

If Ye Mo was an immortal monarch, then how could he enter the small heaven domain last time? Thinking about this, the immortal emperor saluted with his fists “my name is Ji Lei, I come from Tan Shi Heaven. You must be very confused about the second, so it’s you? That’s because when the small heaven domain opened up, I was there too. Many people who came out from the small heaven domain saw your dragon horse pet.”

Ye Mo realised but he didn’t care. In this place, he needed shadowless to help him, hiding shadowless wasn’t plausible. He was about to reach immortal monarch, once he did, he would use large sums of immortal range to reach immortal monarch tertiary stage. Then with shadowless’s help, he wouldn’t fear ordinary immortal emperors even outside.

Ye Mo greet, Ji Lei immortal emperor, this immortal pet is given to me by my friend Ning Xiaoma. My friend indeed went to small heaven domain, he’s in solitary cultivation to break through to immortal king so this immortal pet is following me now.” Ye Mo said.

Ji Lei immortal emperor didn’t argue and smiled “you still have some distance till immortal emperor right? Wu Chen fruit is used by immortal emperor tertiary stage or even immortal king peak stage...”

“You want my Wu Chen fruit?” Ye Mo asked plainly.

Ji Lei immortal emperor said without hesitation “that’s right, I want it indeed. If it was some ordinary person, I would’ve robbed it already but I know it’s not too practicable so name a price, I’ll see if I can afford it.”

Ye Mo smiled, any immortal emperor who saw an immortal king had a Wu Chen fruit would rob it.

To be honest, Ye Mo didn’t need the Wu Chen fruit that much. He took the fruit out in the golden page world, it had this ethereal dao wave that was indeed helpful in being enlightened for a new state, it was similar to bitter bamboo.

“I don’t know the price of it very well but I know that immortal emperors need this and I don’t really happen to need it. if you want it, then name a suitable price and I’ll think about it.” Ye Mo said.

Ji Lei immortal emperor said without hesitation “I’ll pay 10 extreme grade immortal range and 20 top grade immortal range.”

To be honest, this price was very high. If it was outside, even he wouldn’t be able to afford it. extreme grade immortal range, even an emperor sect only had a few. Only an divine emperor would be able to suddenly pay out 10. If the Wu Chen fruit could really help with dao vindication then it wasn’t expensive even if it was ten times higher.

Ye Mo didn’t really want Ji Lei immortal emperor to take out ten times that price but he shook his head “your price is a bit low, I don’t really care about that 30 immortal range but I need 100 level eight immortal spirit herb and two jade flow void wood.”

“You’re really an immortal king?” Hearing this, Ji Lei immortal emperor immediately asked in shock. Only an immortal king would want the jade flow void wood for the monarch will pill.

Ye Mo shook his head “whether or not I’m immortal king is not the main point. The main point is my friend is in solitary cultivation and about to reach immortal king, I need to prepare that for him. if you can afford it then we can make a deal immediately.”

Ji Lei knew that the things Ye Mo added wasn’t very expensive compared to the Wu Chen fruit but he couldn’t take out jade flow void wood now.

Seeing Ji Lei's expression, Ye Mo knew he couldn't take it out so Ye Mo saluted with his fists and said "In that case, I'm going first."

"Wait..." Ji Lei quickly called.

Ye Mo's face sunk "does brother Ji Lei want to use force?"

An immortal king calling an immortal emperor brother, probably only someone like Ye Mo could do this but Ji Lei quickly said "no, can you wait for me here for two days, I'll come back and deal with you two days later?"

"You guys have a set location?" Ye Mo asked.

Ji Lei knew it was impossible to trick Ye Mo on this so he immediately said "that's right, we found a palace without the dangers. People can cultivate in there, most of the immortal emperors who came in are there unless they go out to search for immortal range. Just wait for me for two days and I can help ask if anyone has the wood."

He knew Ye Mo was definitely not going to go with him to that palace so he didn't bother asking.

"Okay, this is my communication bead, two days later, contact me." Ye Mo threw a communication bead to Ji Lei and left.

He wasn't going to meet those immortal emperor no matter what unless he reached immortal monarch.

...

Ji Lei was more desperate than Ye Mo. He was scared that Ye Mo would encounter other immortal emperor and trade with them instead.

In less than two days, Ye Mo received Ji Lei immortal emperor's news.

“You found what I want this quickly?” Ye Mo asked in confusion. His spirit sense saw that Ji Lei came alone indeed but Ye Mo felt a strange atmosphere.

Ji Lei threw out a storage ring to Ye Mo. Ye Mo’s spirit sense scanned inside and there were 10 extreme grade immortal range, 20 top grade immortal range and 130 level eight immortal spirit herb, one jade flow void wood.

“I only found one jade flow void wood but I got 30 more level eight immortal spirit herb. Is this okay?” Ji Lei stared at Ye Mo and asked.

Ye Mo suppressed his joy and nodded “okay, I agree.”

Then, Ye Mo threw out a jade box at Ji Lei immortal emperor. But before it landed in Ji Lei’s hands, a black figure swept past and the jade box disappeared.

“Li Long you old bastard...” Ji Lei’s face went pale and cursed.

Ye Mo breathed easy, no wonder he felt someone watching. There really was an immortal emperor hiding on the side.

Chapter 1878: Charging For Immortal monarch

Ye Mo breathed easy, no wonder he felt someone was watching. There was an immortal emperor hiding on the side. He felt even more how low his power was. Someone was hiding on the side and he didn’t even know about it. Little did Ye Mo know that Ji Lei immortal emperor didn’t know he was here too.

“Ye Mo, you took out the jade box, can you trace the jade box and help me catch up to that bastard based on the chi. If you can help me catch up to Li Long immortal emperor, I’m willing to pay you more.” Ji Lei immortal emperor turned and saluted with his fists to Ye Mo.

Hearing this, Ye Mo's impression of Ji Lei immortal emperor changed greatly. He thought that Ji Lei immortal emperor would regret the deal but instead he just asked for help.

If Ji Lei immortal emperor changed his mind then Ye Mo would not only not give back the Dustless Fruit but instead would try the combined power of him and shadowless.

"This is dustless fruit. Pity I don't have time now, if I do I don't mind taking out that guy." Ye Mo took out another jade box and gave it to Ji Lei immortal emperor.

Ji Lei immortal emperor dazed for a moment. Then he reacted and said with surprise and joy "The Dustless fruit wasn't taken away? Just the..."

Ye Mo sneered, "What thing is Li Long, he dares to dream of stealing Dustless fruit from my hands."

Ye Mo was not bluffing. He got jade flow void wood. The first thing he was going to do wasn't find trouble with Li Long immortal emperor but to concoct monarch will pill and prepare for immortal monarch break through. Once he reached immortal monarch, his power would be much much stronger.

Other people may need tens of thousands of years or even millions of years to reach immortal monarch from immortal king but he only needed a few thousand years.

Ji Lei immortal emperor took the jade box in surprise and joy. He didn't expect Ye Mo didn't take out the real dustless fruit the first time and now gave the real one to him. Ji Lei immortal emperor scanned with spirit sense and saw that this was the real dustless fruit. With this, he no longer had the mood to go after Li Long immortal emperor.

"Thank you sect leader Ye..." Ji Lei immortal emperor thanked.

Suddenly, he felt a little cold. Li Long was hiding on the side and he didn't realise. Ye Mo threw a fake jade box at him clearly because Ye Mo had already noticed Li Long. Luckily he didn't plan on coercing Ye Mo. If he really did, he would probably be in Wuhui immortal emperor's shoes.

Ye Mo smiled, "No need, this is what you deserve."

This sounded like the words of a qian bei to a wan bei but Ji Lei immortal emperor didn't feel offended at all. Ye Mo really had the right to say such words.

It seemed this sect leader Ye was a very characteristic person. Ji Lei immortal emperor had some understanding of Ye Mo's character now.

Seeing that Ye Mo was about to go, Ji Lei immortal emperor suddenly said, "Sect leader Ye, the person who just left is Fen Du heaven East Abyss Emperor Sect Li Long immortal emperor. In the Qing Wei heaven, he knew that your friend Ning Xiaoma killed his disciple Fu Zengsheng and he knows that Ning Xiaoma has a dragon horse. He definitely saw the dragon horse just then but he didn't attack probably because he didn't want more trouble when taking the Dustless fruit. You need to be careful if you encounter him again."

Ye Mo nodded, "Okay, thank you Ji Lei immortal emperor."

Ji Lei immortal emperor continued "When we went into the small world, a purple robed immortal emperor also was looking for your friend Ning Xiaoma."

Then Ji Lei immortal emperor marked a crystal ball and gave it to Ye Mo and then gave him a jade slip. "The crystal ball has the appearance of that purple robed immortal emperor. This jade slip is a simple map which has the location of that palace I spoke of. That palace is the exit. When you're stronger you can go have a look, good bye."

Then Ji Lei turned to leave soon disappearing.

Ye Mo scanned his spirit sense into the crystal ball and indeed saw a purple robed man. Without a doubt, this guy was the guy who pretended to be an immortal monarch and also had the 5th stone stool.

Putting the crystal ball away, Ye Mo took out the jade slip and had a look.

Ye Mo happily put it away soon while thinking that there were still some nice people. He didn't let Ji Lei immortal emperor suffer a loss so he immediately got some news that he needed desperately.

...

The only thing Ye Mo needed to do now was to go into solitary cultivation and cultivate. As for going out, it was not so much a rush for him now.

Ye Mo realised that his secret was exposed. That purple robed immortal emperor knew that the other stone stools were with Ning Xiaoma which was him. The dragon horse belonged to Ning Xiaoma but now appeared with him so when he went out, he had to be able to take on that purple robed immortal emperor or it would be suicide.

According to his estimate, even if he reached immortal monarch, he was probably no match for immortal emperor tertiary stage outside.

Ye Mo sighed, he just hoped no one could leave this dimension. That way, news of him wouldn't be exposed.

He found another place to go into the golden page world and started his second solitary cultivation. This time, it was for pill concoction.

He had some level eight immortal spirit herb already and now he got another hundred or so. His only goal right now was to reach level eight immortal pill grand master.

Level seven and level eight immortal spirit herb turned to dust rapidly or was turned into pills. His immortal spirit herb was limited so every cauldron of level eight immortal pills, he would stop to analyse for a few days to find his mistakes before continuing.

Six months later, Ye Mo could concoct ordinary level eight immortal spirit herbs. One year later, he could concoct top grade level eight immortal pills. Two years later, Ye Mo used more than 90% of the level eight immortal spirit herbs and had complete mastery over level eight immortal pills. Only then did he start concocting monarch will pill.

With two years of preparation, Ye Mo succeeded without any incidents. He got 12 pills, 10 special grade and two top grade.

Ye Mo was very happy with this result. It was his first time concocting monarch will pill after all.

After this, he immediately went out to prepare for immortal monarch breakthrough.

There were lightning arcs, sword rays, flames, asteroids all over this dimension...

It could be said that no one wants to have divine damnation here, not even Ye Mo but Ye Mo knew he had no choice. Luckily he was immortal god body so it didn't affect much.

This dimension was ravaged with lethality but the immortal spirit chi was dense. Ye Mo threw down an extreme grade immortal range to set up spirit gathering immortal formation.

Ye Mo didn't even set up a defense formation in this place and started to use Three Birth Chant to charge at the immortal monarch barrier.

Ye Mo swept all the immortal spirit chi over forming a huge immortal spirit chi cloud above his head.

The immortal spirit chi cloud came in circles and was constantly pierced by all sorts of lightning arcs and sword rays but it was getting denser and denser. Ye Mo didn't feel it at all, he just kept devouring the nearby immortal spirit chi.

Outside the spirit gathering immortal formation, shadowless looked around carefully.

As Ye Mo ate a top grade monarch will pill, more immortal spirit chi was swept over forming an extremely huge immortal spirit chi mist whirlpool.

Chapter 1879: Finish Divine Damnation and Reach Monarch

When Ye Mo felt his immortal essence was at the immortal monarch barrier, he didn't hesitate at all and ate another special grade monarch will pill. The rushing immortal essence swept with even greater force under the monarch will pill and smashed at the immortal monarch barrier.

"Rumble..." In the grey void, crackling sounds came. When Ye Mo's immortal essence charged at the immortal monarch barrier for the first time, the first wave of immortal monarch divine damnation came.

108 golden lightning arcs thicker than wooden buckets smashed down from all directions. The 108 arcs almost completely covered this dimension turning into a sea of gold.

Meanwhile, the lightning arcs and space rays were long gone.

With his previous experience of lightning arc smashing out from underground, Ye Mo didn't stay on the ground and instead rose up while smashing out space shatter.

Ye Mo's space shatter first fused from the nine void fists.

This time, Ye Mo didn't use any defense immortal artefact. He believed his immortal god body was enough to deal with it. His divine damnation was absurd but his power was even more absurd. He didn't believe that an immortal god body couldn't withstand to a divine damnation.

His immortal god body was theoretically as tough as extreme grade immortal artefact. With his immortal essence flowing in his body, it would be stronger than extreme grade immortal artefacts.

"Crack..."

This time, Ye Mo's space shatter didn't sweep up lethal force but instead was purely aimed at the lightning arcs. So this time, it attacked very fast.

Arcs of lightning were crippled and destroyed by Ye Mo. In that instance, golden rays spilled everywhere in this place.

More lightning struck on Ye Mo's body and his skin immediately cracked open. Cracking sounds came from his bones.

The power and recovery of the immortal god body was fully showcased now. Then, with his rapid devouring of lightning source, the injuries quickly recovered while his immortal essence and spirit sense rose drastically.

What shook Ye Mo was that this time, lightning didn't come from underground but like last time, the second wave of 108 arcs came before the first wave was even over.

Before Ye Mo could even keep using space shatter, the second wave struck him. Almost at the same time, Ye Mo felt his meridians expand and a powerful immortal essence arose.

Ye Mo knew that just when the second wave came, his immortal essence broke through the immortal monarch barrier. The second wave provided him with lightning source to devour.

Knowing that he broke through, there was no more lightning arcs. Ye Mo ran the Three Birth Chant like crazy as he devoured the lightning source.

Powerful lightning source and dense immortal spirit chi was devoured by Ye Mo like crazy. Ye Mo felt like his cultivation level was sky rocketing. His immortal monarch power started to consolidate and the bones that were broken recovered perfectly.

"Rumble..." The third wave of lightning arc fell.

Ye Mo thought there wouldn't be anything in the third wave but instead, there were still 27 bolts of golden lightning in the third wave. They were about double the size of the second wave.

But such lightning bolts really couldn't do any damage to Ye Mo now. Ye Mo had reached immortal monarch. These lightning bolts would only help him cultivate.

But then, the fourth wave landed, the fifth... What shocked Ye Mo was that nine waves of lightning bolts fell before this space of gold dissipated.

This divine damnation was unlike before. It was a complete divine damnation. Other than the first and second wave which had 108 bolts, the rest all had 27 bolts.

After the divine damnation, no immortal spirit chi cloud came just as Ye Mo expected.

Ye Mo didn't care. He was used to it now.

Feeling the immortal essence and spirit sense that was many times more powerful than immortal king tertiary stage, Ye Mo knew that he finally had a foundation.

After taking a long sigh, Ye Mo felt even more how powerful the cultivation method from the golden page world was. Its power wasn't something that humans could fathom. If he didn't cultivate Three Birth Chant, it would be pathetic to fight immortal emperor with immortal king and immortal monarch power. However, the Three Birth Chant did it.

Ye Mo cleansed himself and changed into a new set of clothes. Suddenly, he had this enlightenment.

Transmission god art? There were nine levels. The first level could move tens of thousands of miles. It was much more powerful than instant transmission. Instant transmission would cause huge space ripples and could only move one to two thousand km. It was too short.

When Ye Mo was certain that he learned transmission god art, he was overjoyed. He didn't expect that there would be this bonus god art after reaching immortal monarch.

This god art was the most practicable god art to him. Once he reached higher level of transmission god art, even if he was no match for the enemy, he would be able to get away.

Ye Mo suppressed his joy and put away the immortal range and formation flags before going back in the golden page world.

Ye Mo was certain now that if he encountered Wuhui immortal emperor, he would be able to kill him. If he encountered Wuhui immortal emperor outside, he wouldn't lose with shadowless's support.

But Ye Mo knew that Wuhui immortal emperor was the weakest amongst immortal emperor. Immortal emperor primary stage and didn't have a powerful god art. His power was worth nothing. He might need to face Wuying immortal emperor and that purple robed immortal emperor on his way out.

These guys were immortal emperor tertiary stage or even peak stage.

So, Ye Mo went back into the golden page world for solitary cultivation immediately. If he didn't cultivate to the maximum he couldn't, he wouldn't go out.

...

"Dustless Fruit was taken by Ji Lei immortal emperor and I saw a dragon horse. The dragon horse that appeared in the small heaven domain is in Ye Mo's hands." A long browed man spoke in a huge palace. This person was Li Long immortal emperor.

This palace seemed very ancient. It was as though it had been here for countless millions of years.

There were tens of cushion seats around the palace. Each cushion emitted extremely dense immortal spirit chi. Some immortal emperors were sitting on them cultivating.

But hearing this, most immortal emperors stopped cultivation and came over.

"You said you saw the dragon horse? The dragon horse most great eternity immortals saw in the small heaven domain?" One middle aged immortal emperor asked heavily.

"Yes Feng Kong grand emperor, I'm certain I saw it. In order to take the Dustless fruit, I retreated immediately. Later, I realised I was tricked by the bastard. There was just an useless stone in the box. The Dustless fruit is either in the hands of Ye Mo or Ji Lei immortal emperor." Li Long immortal emperor said.

“Ye Mo, Ning Xiaoma, dragon horse...” Fong Kong grand emperor murmured and sneered “No matter who he is, I won’t let him go for playing tricks with the small heaven domain.”

Wei Feng immortal emperor immediately said “Feng Kong grand emperor is right. This person is very cunning and snuck into the small heaven domain. Since he can survive the explosion of the small heaven domain, he might have some top level rune or other secrets.”

“We’ll continue to break the formation in this palace. As long as Ye Mo is in this dimension, he wouldn’t be able to get away. No matter where he goes, he has to come here to leave.” Dragon River grand emperor said.

Chapter 1880: Devour Domain

Although Ye Mo knew the position of this palace, he never thought about going there now. He was still in solitary cultivation now. More than ten extreme grade immortal range and tens of top grade immortal range. Ye Mo didn’t believe he couldn’t reach immortal monarch tertiary stage.

Other people used immortal crystals to cultivate but Ye Mo used immortal range to cultivate. Immortal ranges were used up and all these devoured immortal spirit chi turned into his immortal essence.

After the time formation disk spun for a year, Ye Mo suddenly left the time formation disk and came to an empty space in the golden page world. He didn’t prepare at all and casually released a god art.

Five extremely thick lightning spears with ten km of lightning arcs suddenly smashed down. There was no preparation or gathering of force nor void lethal force.

But when these five lightning spears landed, the nearby lethal force was instantly drawn over and attacked at the same spot.

“Rumble...” A huge ravine appeared in the golden page world, small ginseng and shadowless came to watch worriedly.

Ye Mo rejoiced. His lightning sword after going through immortal monarch divine damnation and devouring large amounts of golden lightning finally formed a new god art, five lightning spear destruction.

Compared to lightning sand, this Five Lightning Spear Destruction was much more powerful and more importantly, it didn't need to gather force. It released instantly. That was the most terrifying part. It could be said that up until now, Five Lightning Spear Destruction was Ye Mo's most powerful god art.

After learning Five Lightning Spear Destruction, Ye Mo continued to go into time formation disk for solitary cultivation. He was more certain now that even immortal emperor might not be able to take Five Lightning Spear Destruction especially with shadowless devouring immortal emperor domain.

Time flew by in Ye Mo's cultivation and Ye Mo's immortal ranges were rapidly consumed.

When he was immortal king, it would take two three hundred years to use up one extreme grade immortal range but now, he would use up one every few decades.

When his time formation disk ran for ten years, Ye Mo stopped cultivation. It wasn't that he didn't want to cultivate but that he had no more immortal range. Ye Mo was speechless. More than ten extreme grade immortal range and tens of top grade immortal range only lifted his power to immortal monarch middle stage peak. He didn't even reach immortal monarch tertiary stage.

If he didn't enter this space, there was no way he would reach immortal monarch middle stage outside.

Three Birth Chant used on tremendous amounts of resources later on and this was multiplicative. Ye Mo didn't dare to imagine how much resources he would need to reach immortal emperor and how much resources he would need for immortal emperor cultivation.

According to such calculation, even if he stayed here his entire life, he wouldn't be able to reach divine emperor. If he left, there would be even lesser chance.

Realising how much resources he needed, Ye Mo took shadowless on a frenzy digging for immortal range. He wasn't letting go even low grade immortal ranges.

...

A month later, Ye Mo found more than ten immortal range with the help of shadowless, there was one extreme grade immortal range. He was going to go to the palace that Ji Lei immortal emperor spoke up but he suddenly received a news.

It was from He Chong immortal emperor. He seemed very desperate, asking Ye Mo if there was a place to hide.

Ye Mo immediately replied to He Chong immortal emperor and charged towards where he was.

A few hours later, Ye Mo saw a He Chong immortal emperor covered in wound. He didn't even have the time to recover.

But what shook Ye Mo was that He Chong immortal emperor was immortal emperor tertiary stage and his chi was very stable. Clearly, he had reached immortal emperor tertiary stage for a while.

"Brother He Chong, what is this?" Ye Mo looked at He Chong in confusion.

He Chong immortal emperor saw Ye Mo and breathed easy, "I was hunted by that Xuan Feng immortal emperor and a long browed guy..."

Before he finished, his face changed, "those two bastards are here. We need to leave quickly. Brother Ye, do you have good recovery pills. I don't have any left."

Ye Mo smiled and waved his hand, "No need to leave, my immortal pet and I can take care of that long brows. I wanted to look for his trouble ten years ago and he dares to come today."

Then, Ye Mo took out a bottle of pills and said "This is a bottle of good pills, use it first."

“Blue spirit essence pill? You have such high level pills...” He Chong called out in shock and then quickly ate one saying “Thank you so much, this is really good.”

He even forgot to tell Ye Mo to run and when he woke up, two dashing lights came.

“Haha... kid, you hid for ten years and now I still found you.” A long browed man saw Ye Mo and laughed.

Xuan Feng immortal emperor fought with Ye Mo once and knew he wasn't simple. Although Ye Mo made him lose face last time, he was very calm this time.

“Ye Mo, my injuries have recovered a little. Leave that Xuan Feng to me, you can have the long brows.” He Chong immortal emperor released his magic artefact and stood with Ye Mo.

“You're Li Long? The bastard who stole my dustless fruit?” Ye Mo stared at this man coldly.

“You're asking to die.” Li Long immortal emperor sneered and an eerie white heaven tiger claw floated above his head. He didn't release it immediately but instead glared at Ye Mo asking “You're Ning Xiaoma? Or do you know Ning Xiaoma? Who was my disciple Fu Zengsheng killed by?”

Clearly, Ye Mo wasn't going to admit he was Ning Xiaoma even if other people knew it. Ye Mo couldn't even be bothered talking to Li Long immortal emperor now and hacked over with Zi Xu.

When the two fought, He Chong immortal emperor and Xuan Feng immortal emperor started fighting.

Ye Mo was immortal monarch now and didn't fear any sword ray or lightning in this dimension. His crevice strike was many times stronger than when he was immortal king.

Crevice swept up the nearby space and drew a faint void blade mark. All the lethal force in this space was swept up by this strike. Even a portion of space fell into this blade.

Li Long immortal emperor was immortal emperor middle stage and seeing this strike, he knew that Ye Mo definitely hid his power. He also realised that the stories he heard about Ye Mo wasn't bullshit. With Ye Mo's god art, it wasn't hard for him to hunt Wuhui immortal emperor.

But even so, Li Long immortal emperor wasn't scared of Ye Mo. He expanded his humongous immortal emperor domain. meanwhile, the heaven tiger claw turned into thousands of ten km white light and struck towards Ye Mo.

Ye Mo's crevice slowed immediately in the immortal emperor domain. seeing this, shadowless opened his mouth and started eating.

A few hundred of those white lights were also devoured by shadowless. Meanwhile, Li Long's immortal emperor domain had a large chunk bitten off by shadowless.

The slowed purple crevice soon sped up again. Then, Ye Mo ignored the white light and punched out after crevice.

"Buzz..." Space was vibrating under crevice and the crevices in space appeared more clearly. Li Long immortal emperor was enveloped in this purple crevice.

"Devour space?" Li Long didn't mind Ye Mo's crevice and didn't see Ye Mo's shatter space fist god art but he looked at shadowless in shock.

Li Long immortal emperor didn't dare to care about shadowless when the faint lethal force came. He released a huge cauldron while his light claws roared like a tiger piercing down from the heavens.

"Crack..."

Crevice struck the metal cauldron. There was an ear screeching sound while immortal essence exploded.

There were waves of void ripples and shakes. Even Xuan Feng immortal emperor and He Chong immortal emperor who were a few hundred km away stopped in shock and looked over.

“Rumble...”

Now, Ye Mo's shatter space god art just swept up space itself and clashed with the huge white tiger. The white tiger let out a roar and its front claw clawed out a 3km deep ravine.

Shadowless bit down on the tiger claw before it could go back.

The white tiger roared again but the light claws dimmed down a lot.

Li Long immortal emperor retreated a hundred meters before stopping. There was a faint blood mark on his forehead. He ignored it and just looked at Ye Mo in extreme shock.
