Chapter 1881: Scare Off Li Long

Li Long immortal emperor was different to Wuhui immortal emperor. Although this dimension affected him greatly, it wasn't as bad as it was for Wuhui immortal emperor.

Yet, Ye Mo had the upper hand in the clash with the help of the dragon horse and his immortal god body. How was this possible? Was Ye Mo an immortal emperor but just hid his power to immortal king?

Ye Mo was also sighing. Although he hunted Wuhui immortal emperor, he would be struck away if he fought Wuhui head on. He used his immortal god body to give Wuhui immortal emperor so much annoyance.

But now, he truly felt his progress. He could fight head on with immortal emperor middle stage Li Long immortal emperor. With shadowless's help, he didn't retreat a single step and Li Long immortal emperor was struck back instead. Li Long immortal emperor was different to Wuhui immortal emperor, his power was far stronger than Wuhui immortal emperor. Even Xuan Feng immortal emperor was far weaker than Li Long immortal emperor during immortal emperor middle stage.

Even so, he still had the upper hand. This meant that when he went out now, ordinary immortal emperor couldn't point fingers at him anymore.

But Ye Mo also knew that there was still quite some distance between him and the top immortal emperors.

Li Long immortal emperor retreated but Ye Mo didn't let him go. He released Zi Xu again and smashed another crevice over. At the same time, he expanded his domain. his spirit sense was very powerful. His immortal monarch domain was no weaker than ordinary immortal emperor.

Feeling Ye Mo's powerful domain and shadowless come up, Li Long immortal emperor immediately knew that he was no match for Ye Mo here. If he was caught by Ye Mo's domain, he would suffer greatly even if he can get away. plus he found out from other immortal emperors that Ye Mo was a madman, he chased Wuhui immortal emperor for two months or so.

Thinking about this, Li Long immortal emperor didn't want to keep fighting Ye Mo. Even if he was to, it would be after he left this dimension.

Li Long immortal emperor spun and disappeared in a dashing light. Ye Mo looked at the direction with a bleak face. He knew that if he chased up, he would be able to find Li Long immortal emperor but Ye Mo didn't have that much time to chase him.

Neither He Chong nor Xuan Feng immortal emperor thought that Li Long immortal emperor would run away. Xuan Feng immortal emperor turned to run without saying anything.

If he didn't go now, it would be staying to die.

"Haha, Ye Mo, I saw right of you indeed." He Chong immediately reacted. He didn't chase Xuan Feng immortal emperor but raised his thumb to Ye Mo.

Then he pointed at shadowless "This Dragon horse is so powerful. It can even devour domain and god art. What in the world can't it devour? I'm afraid even the legendary shadowless worm is so so."

Ye Mo didn't hide it and pointed at shadowless "This is evolved from shadowless worm."

Shadowless heard this and raised his head proudly.

"Brother He Chong, how come most of the immortal emperor don't know you? Are you not from the 33 heavens?" Ye Mo asked.

He Chong smiled and said "I am from the 33 heavens. I originally came from middle heaven domain Ji Yao heaven. I was swept into a void crevice when I was crossing the void. In there, I had my fortune and after tens of thousands of years, I reached immortal emperor middle stage from immortal monarch middle stage. Now, I even reached immortal emperor tertiary stage."

Seeing Ye Mo daze, He Chong immortal emperor said "I found a heritage in the void and used up almost all my resources to reach immortal emperor. Only when I reached immortal emperor middle stage did I

find an opportunity to leave that crevice. But when I left, I didn't get back to the immortal realm lands and came in here again."

No wonder the other immortal emperor didn't know him.

"By the way, brother He Chong how did you suddenly reached immortal emperor tertiary stage? How did that Xuan Feng immortal emperor reach immortal emperor tertiary stage?" Ye Mo asked.

"Ye Mo, you really hid your power level." He Chong saw that Ye Mo could see his cultivation level and replied in shock.

Ye Mo nodded "Yes, I'm actually an immortal monarch. Although I don't fear that long brows, my power level is probably the lowest here so I hid my cultivation level."

"No wonder." He Chong said and then added, "Don't feel bad about yourself. Although that Xuan Feng immortal emperor is immortal emperor tertiary stage, he's probably no match for you."

Ye Mo nodded, Xuan Feng immortal emperor was weaker than Li Long immortal emperor. When he was immortal emperor middle stage, he was only a little bit stronger than Wuhui immortal emperor. Even if he left this space, Ye Mo didn't fear him with shadowless's help.

"Two of these bastards chased me, otherwise, how can I fear them."

He Chong immortal emperor cursed and then said "There's a huge palace inside. There's no lethal force in that palace. It's not only quiet but also has abundant immortal spirit chi. You know that palace right?"

Ye Mo nodded, "Yes, Ji Lei immortal emperor told me. I haven't gone in yet because I'm all alone. I was planning to go in when I'm stronger."

"Let's go, we can go there together. Us two plus your shadowless worm, we won't even fear an immortal emperor peak." He Chong immortal emperor immediately said.

"I'm shadowless, don't call me other things." Shadowless said unhappily.

"Haha..." He Chong immortal emperor laughed and said to Ye Mo "That palace probably isn't something of the immortal realm. No one knows where it came from. After the grand emperors broke open the restrictions, a huge yard appeared. Spirit sense couldn't even scan to the edge of the yard. There were countless restriction and a space formation door inside. The space formation door is very strange, only those who can open it can go in."

Ye Mo immediately focused. After experiencing title status tower, he knew that there were realms that had disappeared. When he was given his title, he saw a few sentences and one of them was, "The God realm has disappeared, the stars are hidden."

He Chong immortal emperor didn't know what Ye Mo thought and kept saying "Those restrictions were very hard to open. Some people can't even open one in years. I worked with other immortal emperors and spent nearly a decade to open one. Inside the restriction was a blue fruit. This fruit can allow an immortal emperor to break through without any side effects. But everyone can only have one. What's shocking is that no one can recognize what fruit it is."

Ye Mo called out in shock, "Then wouldn't it be like a Du Luo heaven fruit?"

Du Luo heaven fruit could let people below great immortal break through once.

"That's right, it would be the Du Luo heaven fruit of immortal emperors. I was lucky to get two, Xuan Feng got one. I don't know if it's useful for you but you can have this one."

Then He Chong immortal emperor took out a jade box and gave it to Ye Mo.

Ye Mo opened the box and saw an extremely blue fruit. It had no smell and looked ordinary. Ye Mo couldn't recognize what fruit this was.

Closing the jade box, he gave it back to He Chong immortal emperor "Even if I don't use this fruit, I will be reaching immortal monarch tertiary stage soon. As long as I don't reach immortal emperor, this fruit would be a waste to give to me. you can keep it, when I need it I'll ask for it."

“Okay.” He Chong immortal emperor then said “I had conflict with that long brow due to this fruit. Long brows was speaking bad things about you in the palace. I didn’t like it and rebuked. However, the two were already scheming to rob my fruit. As soon as I left, the two bastards gained up on me. I had no help so I could only run while asking for help from you.”

“Then are the four grand emperors also in the palace?” Ye Mo asked.

He Chong immortal emperor shook his head, “The stronger people went into the space formation door. The weaker ones can only stay there to break restriction and find all sorts of immortal spirit items to improve their power in hopes of opening the door. I’m not strong enough to open the space formation door so I can only stay with the other immortal emperors in the palace.”

Ye Mo said without hesitation, “Let’s go, we’ll go to the palace.”

Ye Mo didn’t have much to worry hearing that the few grand emperors weren’t there.

Chapter 1882: Ask For Compensation

“This is the palace?” Ye Mo stood before an extremely ancient palace and asked. According to the jade slip Ji Lei immortal emperor gave him, the palace was here too.

“Yea, it’s here.” He Chong immortal emperor replied. He had fully recovered with Ye Mo’s supply of pills.

The palace had no gate, it was pitch black inside and one couldn’t see the surroundings of the palace clearly. One could only touch some obscure things with spirit sense. all the lethality of this dimension warped around the palace and disappeared.

Ye Mo just stood at this palace and watched from a brief moment before saying, “Let’s go in first.”

Then, he took shadowless into the palace. He Chong immortal emperor followed closely.

In the palace, Li Long immortal emperor ran off first and didn't tell Xuan Feng immortal emperor so the two didn't speak here. Xuan Feng was quite annoyed Li Long ran off alone.

The other immortal emperors glanced at them strangely but didn't ask. Li Long immortal emperor and Xuan Feng immortal emperor clearly went to hunt He Chong immortal emperor but now they were back and there was no signs of He Chong immortal emperor. He was probably dead. As for the two appearing not to be so harmonious, there was probably some discord on the division of loot.

"You dare to come here." Li Long immortal emperor immediately saw Ye Mo and yelled. After he yelled, he immediately realised, if Ye Mo really fought with him, he wouldn't be able to get help.

Ye Mo ignored Li Long immortal emperor and went into the palace. His spirit sense scanned this palace and glanced at the shocked looks of the other immortal emperors. He saw Zheng Ren immortal emperor who nodded at him.

This palace was extremely huge and there was a faint light formation. People could see the layouts of the palace clearly. There were more than ten cushions that had extremely dense immortal spirit chi seeping out.

In the middle of the palace, there was an extremely ancient chi swirling around making Ye Mo feel he returned to the ancient times.

Ye Mo studied the palace and the other immortal emperors said nothing.

When Ye Mo was still immortal king, Xuan Feng immortal emperor was very cocky to Ye Mo but now when Ye Mo scanned his eyes over, he quickly lowered his head. He really didn't want to have conflict with Ye Mo.

"Haha, sect leader Ye, long time no see." Zheng Ren immortal emperor reached immortal emperor tertiary stage. He greeted Ye Mo.

Ye Mo saluted with his fists "Indeed, Zheng Ren qian bei."

Zheng Ren immortal emperor saw that Li Long immortal emperor just yelled at Ye Mo once and said nothing more. How could he not know that this guy suffered in Ye Mo's hands just like Wuhui. Seeing how Xuan Feng immortal emperor didn't even say anything, he guessed that Xuan Feng immortal emperor was probably scared of Ye Mo.

He then smiled, "sect leader Ye, you can just call me brother Zheng Ren. I don't dare to be some qian bei."

Ye Mo didn't care that much. The respect in the immortal realm was determined by power. Now that his power was no weaker than Zheng Ren immortal emperor, Ye Mo saluted with his fists, "Okay, after I take care of some business, I'll come and chat with brother Zheng Ren."

Although there were seven or eight people here who hadn't seen Ye Mo, they've long heard of Ye Mo's name. seeing Zheng Ren immortal emperor so polite to Ye Mo and Ye Mo was indeed an immortal king middle stage, everyone was dazed. Was an immortal king middle stage really that powerful?

But shadowless caught more attention. Shadowless had golden wings and indeed looked like a dragon horse. However, he was uglier than a horse.

The reason Ye Mo kept his power hidden at immortal king middle stage was to tell people his cultivation level was long at immortal monarch. He just kept his power hidden that's all.

"Okay, no problem." Zheng Ren immortal emperor smiled. He knew that it was probably to do with Li Long immortal emperor and Xuan Feng immortal emperor.

Ye Mo then turned to Li Long immortal emperor "Long browed bastard, you robbed my dustless fruit and dares to ask me why I dare to come here. I want to see how strong you are. Shadowless, cut off their escape, we'll have our revenge here."

Seeing the strongest here was only immortal emperor tertiary stage and the immortal emperor peak stages weren't here, Ye Mo felt assured. As long as people like Feng Kong grand emperor weren't here, he didn't need to worry at all. If Feng Kong grand emperor was here, he would run away immediately.

He Chong immortal emperor admired Ye Mo seeing that he was looking for Li Long's trouble as soon as he came. Even he didn't dare to challenge Li Long here. Who knew if he had help here.

"Ye Mo do you have no shame? When did I take your dustless fruit? I just robbed an empty box. You cunning bastard. You let me take an empty box and now you come back asking for dustless fruit." Li Long immortal emperor was furious.

Ye Mo didn't attack immediately. He watched to see if there would be people to help Li Long immortal emperor as he sneered "So this means it's right of you to rob my things? If you put away what was in my box and say you stole an empty box, do I need to compensate you?"

"You..." Li Long immortal emperor was lost for words.

"Dao friends, please uphold justice. This guy is merely immortal king power and he dares to frame me for robbing his dustless fruit. He's too shameless." Li Long knew he was probably no match for Ye Mo and shadowless alone.

Even those few immortal emperor breaking restriction in the back yard of the palace came in to watch.

No immortal emperor was dumb here, no one said anything. If Ye Mo was really an immortal king why do you not go up but instead wait for us to bring justice. Do you think other people are idiots.

Ye Mo also saluted with his fists "I'm Mo Yue Immortal sect leader Ye Mo. Of course, I hid my power a little. I just hope that when I seek justice no one twists the truth. Otherwise, you will be fighting against Mo Yue Immortal Sect. As long as I don't die, I will visit you one by one."

Ye Mo was helpless, he didn't have the power so he could only threat.

"Haha, I've decided to join Mo Yue Immortal Sect. If anyone decides to twist the truth I will visit them with sect leader." He Chong immortal emperor laughed.

Hearing this, Ye Mo rejoiced but he didn't have time to talk to He Chong yet. He saluted with his fists "I'm about to reach level nine immortal pill grand master, those immortal emperor friends who wish to

uphold justice can come to my Mo Yue Immortal Sect for pill concoction in the future. I would welcome you all greatly.”

Ye Mo knew that many people would feel annoyed about his threat and might even attack him due to that. So, he threw out that he was about to be level nine immortal pill grand master. Which immortal emperor didn’t want to connect with a level nine immortal pill grand master.

Although there wouldn’t be people overtly speaking for Ye Mo, some immortal emperor had come over to chat with Ye Mo. No one believed Ye Mo would lie. Ye Mo wouldn’t dare to lie in front of so many immortal emperors unless he was dumb.

Li Long immortal emperor’s face went pale. He didn’t expect Ye Mo was about to reach level nine immortal pill grand master. If that was the case, no matter how right he was, not many would want to help him.

“Friends, after I deal with my private matter here, pill concoction will be easy.” Ye Mo saluted with his fists.

The immortal emperors here knew that Ye Mo was going to resolve personal issues with Li Long so they stopped talking. Li Long immortal emperor was very annoyed. If Ye Mo wasn’t going to reach level nine immortal pill grand master, he could get a few help. But with this, no one would stand on his side.

Shadowless roared seeing that his boss had stabilized the situation. He was ready to devour Li Long immortal emperor’s domain.

Without even fighting, Ye Mo had an immortal emperor tertiary stage on the side and a maniac that could devour domain. Li Long knew he had lost without needing to fight.

“What do you want?” Li Long immortal emperor looked hatefully at Ye Mo.

Ye Mo felt satisfied. He knew he couldn’t kill Li Long immortal emperor here even if other immortal emperors didn’t attack.

Chapter 1883: Eternity Immortal King

Ye Mo was using the excuse of dustless fruit to reap some benefits. Seeing that Li Long immortal emperor asked, Ye Mo said "Ji Lei immortal emperor gave me the price of 40 immortal range for the dustless fruit. Twenty of them are extreme grade. There's also 150 immortal spirit herb on top of that, decide for yourself."

Ye Mo added ten more immortal range. Since he didn't need jade flow void wood, he didn't say it.

Seeing shadowless and He Chong immortal emperor who were keen to jump in, Li Long immortal emperor knew that he fell for it today. He took out a storage ring and gave it to Ye Mo "I only have these things. If you're not happy, then let's fight it out."

He gave the things but he couldn't lose his face. Li Long immortal emperor said as though he knew that Ye Mo wouldn't regret.

Ye Mo looked at the storage ring, there were 9 extreme grade immortal range and 27 middle grade and top grade immortal range. Other than this, there were tens of level seven and above immortal spirit herb as well as 10000 extreme grade immortal crystals.

Ye Mo was planning on getting as much as he could. He knew that Li Long immortal emperor definitely didn't take out everything but if he asked for more there would be a huge fight. Ye Mo didn't want to fight now so thinking about this, he nodded "This is it then."

Li Long immortal emperor breathed easy and the other few immortal emperor on the side also breathed easy. If Ye Mo was to really fight, they could only persuade. They couldn't just watch Li Long immortal emperor getting killed.

Ye Mo put away the storage ring and smiled to He Chong immortal emperor, "Brother He Chong, you're an immortal emperor elder of our Mo Yue Immortal Sect now."

He Chong also laughed, "I didn't expect I was able to join the sect of a level nine immortal pill grand master. This is my luck."

Then, He Chong said seriously to Ye Mo "Sect leader, my name is Long Huangtian, title He Chong."

Ye Mo was happy thinking about an immortal emperor joining his sect. He didn't hide his title and said "My title is Eternity..."

"Eternity immortal king..." Before Ye Mo finished this, almost all the immortal emperors looked at Ye Mo. Ye Mo saying he was about to be a level nine immortal pill grand master was shocking enough but this title was going to shock the world.

Ever since the immortal realm had the title status tablet, no one had ever gotten Eternity. Eternity meant eternal life. Who dared to use such title for himself. There were many powerful titles in the immortal realm and even all sorts of god titles but not Eternity.

"Sect leader, are you really Eternity Immortal king? This..." He Chong immortal emperor asked dazily.

Ye Mo smiled, "Just call me Eternity immortal king, even if there's no such title on the title status tablet, I can name it myself."

"Okay, haha..." He Chong immortal emperor raised his thumb at Ye Mo. He admired Ye Mo's force.

Every title was unique so once you made others feel unhappy about your title, they could challenge you. For example sword king, if you got such title, then other sword immortals might feel you don't deserve it so you would have to accept all sorts of challenges.

Ye Mo's title was more powerful than any other title. But this way, no one would challenge him as this title didn't involve a specific domain. It just meant longevity and eternity.

Usually those who gave themselves such title were madmen or those who liked to fool themselves. Who would start conflict with such people.

Ye Mo was clearly thought to be such person by the immortal emperors here. His title didn't show on the title status tablet so clearly he named it himself.

Of course, if this title really appeared on the immortal king tablet, it would be something else. The Eternity immortal king approved by the immortal king tablet was no simple matter. It would cause shockwaves across the entire immortal realm. It would even catch the attention of divine emperors.

Every title on the immortal king tablet had a special meaning and was made based on the unique attribute of each person. There was no mistake.

"Sect leader Ye, I'm Du Yu, I come from Qing Wei heaven Heaven Martial Emperor Sect. This palace is ancient. According to the judgement of the few grand emperors, it doesn't belong to the immortal realm. We found large sums of restrictions and formation at the back of the palace. If sect leader Ye don't mind, you can join us and we can break the restriction together." Someone came over.

Even if Ye Mo just stayed as level eight immortal pill grand master, people wouldn't want to miss out on the chance to connect with him.

As soon as Du Yu immortal emperor invited, a few more immortal emperor invited Ye Mo.

Zheng Ren immortal emperor squeezed in front and said "Sect leader Ye, we already know each other. Why don't you and He Chong immortal emperor join my squad. Our restriction is almost done. I believe we can finish it in a few years."

Everyone invited Ye Mo but no one called him Eternity Immortal king. This title was too unrealistic. Every immortal emperor here had lived for countless years.

Ye Mo saluted with his fists around "I'm planning to go with He Chong immortal emperor to the back. Regardless, Ye is very happy to meet so many immortal dao qian bei here. As long as I can go out, Ye is very happy to concoct pills for everyone."

Although Ye Mo said qian bei, his tone clearly meant that he treated them as equals.

The other immortal emperors were just being polite, now that Ye Mo didn't want to go with them, no one would keep inviting. Sect leader Ye spoke clearly that he was willing to concoct pills but not for free.

After the discord was settled, everyone went back into the back yard again.

Ye Mo and He Chong immortal emperor went in too.

After coming in here, he saw that the immortal spirit chi here was extremely dense and his spirit sense couldn't seem to scan to the end. Waves of restrictions were very clear, even the space formation door was clear.

"You can't scan to the end with your spirit sense in here and there's no way to enter the back yard. However, you can try to open the restrictions here. There's extreme grade immortal spirit fruit as well as top level immortal materials." He Chong immortal emperor explained.

Zheng Ren immortal emperor also nodded "Brother He Chong is right. There are top level things in every restriction. The best is the blue fruit. Brother He Chong got two. Although we don't know what fruit it is, it can let immortal emperor break through a level. The only pity is that it's too hard to break open a restriction here. It might even take more than ten years."

Speaking of this, Zheng Ren immortal emperor subconsciously looked at the formation door and sighed "It's even harder to open that void formation door. Other than the five peak immortal emperors, no one else has been able to open it."

Chapter 1884: The Good Thing Inside The Restriction

Ye Mo went to a random wave restriction and felt it with his hand. He immediately felt the complexity of this restriction. This was a restriction he had never seen before. The means with which it was made was also completely different to the ordinary restrictions of the immortal realm.

“This restriction can only be solved but not forced open. If you break it by force, there would be an even greater repulsion force and everything inside the restriction would be ruined. I worked with them for nearly ten years before we broke one of the restrictions.” He Chong immortal emperor added on the side.

He was also hinting Ye Mo that they wouldn’t be able to open a restriction just by themselves.

Ye Mo didn’t seem to hear it and kept feeling the restriction. After a while, he said to He Chong immortal emperor, “I’ve never seen such restriction before indeed. Brother He Chong, go find another restriction and try to solve it or work with Zheng Ren immortal emperor. I need to study this restriction, it might take a while.”

Hearing this, He Chong shook his head. He knew that everyone who saw this for the first time wanted to see if they could solve it alone. In fact, after decades, rarely could anyone solve the restriction alone other than those few grand emperors. Even if they could, it wasn’t a matter of a year or two.

Ye Mo was different to the rest. He really had confidence. Touching this restriction seemed like seeing a new gate to him.

He wanted to settle down and use the Three Birth Chant to derive these restrictions.

Even though Ye Mo set down barrier restriction, no one cared. It was very common to do this.

Soon, Ye Mo immersed in the derivation of the restrictions. The Three Birth Chant’s dao waves were blocked by the barrier restriction but some still seeped out.

However, the immortal spirit chi of this place was extremely dense and there were ancient chis. Thus, the dao waves weren’t very eye catchy.

Sets of new restriction methods and theory were derived by Ye Mo and soon incorporated into his formation dao. restriction was a part of formation. When Ye Mo sunk into the derivation, his formation skills increased drastically too.

He Chong immortal emperor didn't ask to join Zheng Ren immortal emperor's team. Their restriction was almost done, if he asked to join in now, it would be like asking for a free share. He found a restriction not far from Ye Mo and tried to solve it alone.

A year later, He Chong immortal emperor saw that Ye Mo was still deriving inside the barrier restriction, he couldn't hold himself anymore. Ye Mo definitely wouldn't be able to break open it in a short time. There were two restrictions opened already and one of them had three Emperor Carrot. The other restriction had two Primordial Soul Stones.

Both things were invaluable.

Emperor Carrot is one of the best level nine immortal spirit herb in the immortal realm and the main immortal spirit herb for concocting Great Wei Emperor Pill. This pill gave immortal monarchs 30% extra chance of reaching immortal emperor. Compared to the other Emperor Pillar pill made with level nine immortal spirit beast core, it was much higher caliber. The two were incomparable.

...

Another half a year later Ye Mo suddenly opened his eyes and threw out a few hand signs. The restriction he had been deriving for a year and a half easily opened. A space of a few cubic meters appeared before him. An ancient jade vase with floral carvings sat peacefully inside.

But Ye Mo felt this vase wasn't simple. There were restrictions wrapping the outside of this vase. One's spirit sense couldn't go in at all.

By now, Ye Mo realised that this restriction was completely different to immortal realm restriction means. If immortal realm restrictions were the basics then the restrictions here were a new system after changing all sorts of basics.

This mean showed Ye Mo a completely new world to formation. After opening this world, he could fly free and devour all sorts of formation and restriction means. In a short year, his formation skills suddenly improved. Most importantly, his knowledge of formation was far beyond his original state.

The Three Birth Chant could derive everything but Ye Mo couldn't use it to create everything. He could only derive things if new things appeared and then expand on that.

After taking this vase, Ye Mo opened his barrier restriction. Ye Mo saw that everyone was focused on their own restriction and even He Chong was with another team solving restriction. Ye Mo didn't call him.

For the second restriction, Ye Mo only used half a month to solve it. There was a fist sized white stone. Ye Mo scanned his spirit sense into the stone and his spirit sense felt very comfortable. The fatigue from solving restrictions were instantly gone.

Other immortal emperor saw Ye Mo break the second restriction. He Chong immortal emperor charged up to Ye Mo and asked "Sect leader, you know how to solve the restriction here?"

Seeing all the immortal emperors come over, Ye Mo didn't hide it, "That's right, I've indeed mastered the way to solve the restriction here but this method uses up a lot of spirit sense. After solving two restrictions, my spirit sense will retreat a lot."

It would indeed use up some spirit sense but with Ye Mo's spirit sense power, he could recover very quickly.

Hearing this, some immortal emperor's eyes were glistening.

Ye Mo started to solve the third restriction. Ye Mo only needed two days to open it but since all those immortal emperors were watching, Ye Mo could only waste half a month of time before opening it. Inside was a small blue tree with five fruits hanging on it.

"It's this fruit, one can allow an immortal emperor to break through once." He Chong immortal emperor immediately called.

Those immortal emperors who hadn't got this fruit were looking at it with red eyes. Ye Mo took the tree immediately.

"Ye Mo, let's continue. There's so many restrictions here..." He Chong immortal emperor said.

Ye Mo knew that if he really did that he would be over. He waved his hand “Brother He Chong, that probably won’t do. It’s easy to solve these restriction but it’s a huge consumption on my spirit sense. According to my calculations, we can at most solve 99 restrictions here. If we go beyond that, there will be huge trouble.”

Ye Mo just had that feeling but his skills weren’t high enough to guess an exact number so he said 99.

Chapter 1885: Ye Mo’s Worry

“Then you’re intention is sect leader Ye?” A rather coarse voice said.

Ye Mo looked at this person. He knew this person, they had chatted before. He was called Nong Yan, immortal emperor tertiary stage, from Jin Shang heaven.

Ye Mo thought and said “With my own power, I can at most open seven or eight of these and I would receive backlash. However, I have another method and that is I tell everyone how to open the restriction. You can use your own immortal essence and spirit sense to solve the restriction. Although it would be quite taxing, it’s better than solving all the restrictions myself.”

“Good, sect leader Ye’s idea is great. We definitely won’t let sect leader Ye waste spirit sense for no reason, we will give you payment.”

All the nearby immortal emperor clapped in approval. They already guessed that Ye Mo was lying and they knew that Ye Mo said this so everyone won’t get angry at him for taking everything.

“Sect leader Ye, may I ask how long it would take to solve a restriction after you teach us?” Nong Yan immortal emperor asked.

Ye Mo thought for a while and said “That would depend on people’s cultivation level. If it’s someone like you, I believe three to five months would be enough.

“Sect leader Ye, I have an Emperor Carrot here. I want to trade for a blue fruit from sect leader Ye. At the same time, I want to ask sect leader Ye to teach me how to solve on restriction.” An immortal emperor walked up to Ye Mo with a jade box.

He could tell that Ye Mo wasn't immortal emperor yet so Emperor Carrot was very important to him.

Hearing this, Ye Mo was indeed a bit excited but he soon forced himself to stay calm.

If it was outside, he would definitely be overjoyed to trade an emperor carrot for a blue fruit and restriction solving method. But in here, Ye Mo wasn't that dumb.

He Chong immortal emperor saw this and said “Sect leader, this friend got his Emperor Carrot here.”

Ye Mo understood and smiled “Even if your emperor carrot can barely trade for my blue fruit but you still want me to teach you restriction. I'm at too much of a loss.”

The other immortal emperors looked on the side and said nothing. Although it was Ye Mo discussing business with this immortal emperor, they could use that price too once it was settled.

Seeing this immortal emperor daze, Ye Mo suddenly said “Each restriction here would take me some time and a lot of effort to know what to do. My spirit sense isn't deprived right now but once it is and there are mistakes, then it would take longer to solve the restriction. I'm actually more interested in immortal range.”

“I'll give three 3g immortal range for one restriction solution.” One immortal emperor couldn't bear waiting and named his price.

Ye Mo didn't answer clearly as he wasn't happy with this price.

The immortal emperor saw this and added, “Two more, five immortal range.”

Five extreme grade immortal range was a heavenly price outside but here it wasn't so special. Everyone had extreme grade immortal range and it could be dug at anytime.

"Okay, friend please point which restriction you want to solve." Ye Mo said.

In a short half a day, Ye Mo marked the restriction solution on a jade slip and gave it to that immortal emperor.

Seeing this immortal emperor start, the rest of the immortal emperors took out their immortal range and dealt with Ye Mo. The immortal emperor with emperor carrot quickly added another five extreme grade immortal ranges too.

More than ten days later, Ye Mo got tens of extreme grade immortal range. He was very happy with this. Almost everyone went to solve restriction and so did he.

Two months later, someone had already solved a restriction. This was far quicker than Ye Mo had anticipated.

At first moment, everyone else knew that the immortal emperor broke the restriction. Since everyone was working alone now, no one knew what he got nor did he show what he got. However, from his joyful look, people could tell it wasn't bad.

This immortal emperor immediately took out another five extreme grade immortal range asking Ye Mo to teach him another one.

Ye Mo came here for extreme grade immortal range so he didn't reject it at all.

He also took time seriously and solved a few more restrictions. This was him intentionally dragging it out. Otherwise, he would be able to do tens of restrictions. He didn't know anything that he got from the restrictions but he could tell they weren't ordinary so he threw it into his golden page world.

As time went on and the restrictions were solved, Ye Mo kept collecting extreme grade immortal range. When he had collected enough and people asked him for restriction help, he said with a pale face that if he kept doing that his sea of consciousness might be damaged.

Many people guessed Ye Mo was lying but since he didn't go solve anymore restrictions himself, they couldn't say anything.

Plus, they exchanged immortal ranges for things that immortal ranges couldn't buy so they didn't complain. Most of them left the palace to search for more immortal range.

Ye Mo said that he would start solving the space formation door once he has rested up. If he did, then they might be able to leave as well. According to Ye Mo's words, he would only need a few years to solve it so many immortal emperor went out searching for more immortal range during this time.

...

When Ye Mo started to study the space formation door, he realised it was so much harder than the restrictions. They were from the same origin but the difficulty was completely different.

Three years later, Ye Mo finally stopped studying. He had understood this space formation door. It wasn't something he could solve with his current cultivation level and formation skills. But once someone's cultivation reached a certain level, they could enter it even if they didn't understand formation.

Hearing this, the rest of the immortal emperors were disappointed but more of them chose to stay in the palace for solitary cultivation. Some with secrets chose to leave.

He Chong stayed in here but Ye Mo left this palace. He had enough resources now and he needed to go find a place for solitary cultivation and to break through to immortal emperor.

...

In the golden age world, Ye Mo used tens of extreme grade immortal range and the time formation disk ran for decades but Ye Mo found in shock that no matter how he used immortal range, he couldn't progress anymore.

Theoretically, Ye Mo should be able to progress to any level if he had enough cultivation resources. He cultivated the Three Birth Chant and had the bitter bamboo, he almost had no bottleneck.

When Ye Mo reached immortal monarch tertiary stage and couldn't progress after wasting tens of immortal range, he began to worry.

He was still that one step away from immortal monarch peak stage.

If he couldn't reach immortal monarch peak stage, then he couldn't reach immortal emperor even if he had Tai Wei Emperor Pill.

Chapter 1886: Danger of the Mo Yue Immortal Sect

Unable to cultivate, Ye Mo could only get out the things he got from the restriction and then study it again. He didn't know these two types of immortal spirit herb but he was certain it was at least as good as Clear Spirit Heart Lotus. And that white jade stone that could nourish spirit sense, Ye Mo only knew it was good but didn't know what it was.

At last, Ye Mo picked up the Jade Vase. He felt the thing inside this was the best. When Ye Mo's spirit sense carefully removed the restrictions, a frosty flow invaded his sea of consciousness almost freezing his sea of consciousness.

"Real Astral Flame Marrow?" Ye Mo blurted out immediately. He knew that only the real Astral Flame Marrow would be this cold and not freeze.

The next moment, Ye Mo put a restriction on the jade vase without hesitation. He almost couldn't contain his excitement. His Blue Like Morning Sky was about to reach level six immortal flame. If it

reached level six immortal flame and then devoured this Astral Flame Marrow, it would definitely become a god flame, the number one flame of the immortal realm.

He heard that Zhuo He divine emperor vindicated dao through a flame. Although he wouldn't do that, the flame that devoured this would be the best of the best flame. By then, just how powerful would his Heaven Flame Nine Suns be?

...

When Ye Mo got back to the palace, he was dumbfounded. There was not a single person left in this palace.

Ye Mo stepped in and found in shock that all the restriction had disappeared. Ye Mo remembered clearly that only tens of the restrictions were solved, how could there not be a single one left? Not only that, the space formation door was gone too.

Ye Mo immediately sent He Chong immortal emperor a message but there was no response.

"Shadowless." Ye Mo immediately called out shadowless. Even small ginseng came out since there was no one.

"Look at this, what is going on? Did everyone reach immortal emperor peak stage and then left through the space formation door? Even if they left, where's the space formation door?" Ye Mo looked at the two with confusion.

"This is still the same place but I feel the restrictions have been moved." Shadowless came to this conclusion.

Ye Mo nodded. He felt shadowless was right. This was still the same place but everything else disappeared.

"Boss, would those people have left here already and only we remain?" shadowless became nervous.

“What are you nervous about? Even if you leave, you would still be staying in the chaos world. There’s no fucking difference. The only difference is if boss makes it out. Last time Xiaoyun...” Small ginseng suddenly thought of something and quickly stopped.

Shadowless said in contempt “You know nothing. Although that boss is immortal monarch power, he’s not scared of even that Feng Kong. So when I go out, I no longer have to hide in the golden page world. But you, hehe...”

Small ginseng immediately showed a look of surprise and joy and said without hesitation “You don’t understand. If you can go out so can I.”

Shadowless thought and agreed.

Shadowless was right. Ye Mo had devoured that many immortal ranges over the years. His cultivation level didn’t increase but that didn’t mean his power didn’t increase.

His immortal essence power and sea of consciousness tenacity was no weaker than any immortal emperor. He even dared to test that Wuyin immortal emperor from the Wujia Sound River.

Ye Mo longed for Mu Xiaoyun and Mo Yue Immortal Sect and if people have ascended from Mo Yue City. But now, he was trapped here making him very desperate.

He searched every corner of this palace but still found nothing.

...

Gong Hua heaven Mo Yue Immortal City was the outer city of Mo Yue Immortal Sect. Those who wanted to go into Mo Yue Immortal Sect had to go through Mo Yue Immortal City.

Ever since the sect was established, it went straight up. Immortal kings came one by one and eventually it became the sect with the most immortal kings in the low heaven domain. At the same time, it also became the strongest sect in the low heaven domains.

It was great fortune for any immortal to join Mo Yue Immortal Sect. Everyone in the low heaven domains wanted to join.

Mo Yue Immortal Sect was strong and had a newly ascended level seven immortal pill grand master Ku Mu.

It was due to this that no one dared to start any trouble at Mo Yue Immortal Sect nor Mo Yue Immortal City.

But today was different. The formation outside the city was forcefully broken and the two golden immortal city guards were crushed to death.

Since Mo Yue Immortal City was so developed news spread very fast.

By the looks of it, people were going to completely stamp the Mo Yue Immortal City. This news spread extremely fast. Soon, countless immortals came to watch and see who had the power and confidence to start trouble at Mo Yue Immortal City.

“Qian bei, Mo Yue Immortal Sect and Mo Yue Immortal City has always obeyed the rules and never offended qian bei. Why did qian bei come start trouble here?” Lu Feng immediately came up and before her stood a man with a ferocious look.

She had reached immortal king for a while and could tell this man was at least immortal monarch power. If they fought, she couldn’t resist at all. There were a few people behind this man. They were all immortal king power. Two were even immortal king peak stage.

Lu Feng had guessed who this person was as she knew two of the people behind this immortal monarch. One was the heaven lord alliance’s Ji Dao immortal king Yang Ya, the other was Bai Qi immortal king Zhang Fangcai.

Both of them came from heaven lord alliance. The heaven lord alliance had two immortal monarchs, Chang Tian immortal monarch Wei Guang and Yue Xiang immortal monarch.

Chang Tian immortal monarch hunted sect leader Luo and disappeared with Lu Zhengqun. This person was definitely the other immortal monarch. Yuan Xiang immortal monarch was said to be much stronger than Chang Tian immortal monarch.

If Lu Feng knew an immortal monarch came, she would definitely not leave the sect. The sect protection formation was a hundred thousand void defense kill formation. Even an immortal monarch wouldn't be able to break it in a short time.

The man sneered and said "Mo Yue Immortal Sect will cease to exist from today, everything..."

Lu Feng's face changed and immediately said in shock "Qian bei, my Mo Yue Immortal Sect..."

The man was more annoyed seeing Lu Feng interrupted him, "You're the sect leader of Mo Yue Immortal Sect?"

"Qian bei, wan bei is Mo Yue Immortal Sect vice sect leader Su Jingwen. Our sect has never intervened in any Gong Hua heaven matters and usually, we're very righteous. Why are you going to destroy us?"

Su Jingwen was golden immortal tertiary stage now.

Mo Yue Immortal Sect had five immortal kings. Now, only Lu Feng and Ku Mu were here. Ku Mo only cultivated and concocted pills. As for Yin Hui, Hong Ling and Ren Fu, they were out seeking resources and weren't in the sect.

Otherwise, Yin Hui came from the grand heaven domains, she would be much more confident than Lu Feng.

"You're the vice sect leader? A mere golden immortal?" The immortal monarch studied Su Jingwen in shock. Her cultivation speed was fast and her looks were even better than before.

"Yes, I'm the vice sect leader." Su Jingwen said.

“Who is the sect leader to you? How can a mere golden immortal be vice sect leader?” The man yelled.

Chapter 1887: Mo Yue Immortal Sect's Immortal emperor

He could guess who Su Jingwen was but no matter if she was related to the sect leader or not, he had decided to take her away.

Su Jingwen immediately knew things weren't good. She could tell from this person's tone that they had enmity with Ye Mo.

Lu Feng was very cunning and knew things weren't good. Before Su Jingwen could talk, she saluted with his fists “Qian bei, our sect leader has an immortal spirit herb garden in the sect. There are more than ten level eight and above immortal spirit herb and one Emperor Carrot. We're willing to give this over, please let the Mo Yue Immortal Sect go.”

“Emperor Carrot?” the immortal monarch repeated. He really couldn't believe he could hear those words here.

“Take me to the Emperor carrot.” The immortal monarch said. Regardless of whether it's real or fake, he wasn't afraid of the two playing tricks.

Lu Feng showed a hard face, “Qian bei, why don't you wait here and we can take it for you...”

“Haha...” the immortal monarch laughed and then he stared coldly at Lu Feng, “If you don't take out the Emperor carrot today, you will regret living in this world. I won't even let a dog live in Mo Yue Immortal Sect.”

Lu Feng's face changed.

“A mere immortal monarch dares to annihilate my Mo Yue Immortal Sect? Pfft, the emperor shall see how you’re going to do it.” A contemptuous voice sounded and a middle aged man suddenly appeared outside Mo Yue Immortal City.

“You...” The ferocious man looked at the middle aged immortal in shock. The word emperor was too scary. Saying such word meant that this guy was an immortal emperor.

Since when did Mo Yue Immortal Sect have an immortal emperor? He didn’t dare to believe it but then he realised he couldn’t see through the power of this person. The dominant pressure from this man made him realise this middle aged immortal was an immortal emperor.

“Wan bei low heaven domain heaven lord alliance, Yuan Xiang greet immortal emperor master.” The ferocious looking man quickly bowed. Those few immortal kings behind didn’t dare to show any disrespect.

“You just said you were going to annihilate Mo Yue Immortal Sect?” The immortal emperor said coldly.

Yuan Xiang immortal monarch didn’t have his previous dominance and quickly bowed, “Wan bei don’t dare to, it’s a misunderstanding. I was tricked by someone...”

“Oh, I said nothing just then, how do you know it’s a misunderstanding?” The immortal emperor scorned.

Xiang Yuan immortal monarch sweated. He didn’t know this king sect had an immortal emperor?

Feeling the killing intent of this immortal emperor rising, Yuan Xiang quickly said “Wan bei was appointed by Feng Kong and Dragon River grand emperor to coordinate the 11 low heaven domains. If wan bei knew you were from Mo Yue Immortal Sect, wan bei definitely wouldn’t dare to come...”

Xiang Yuan quickly brought out Feng Kong and Dragon River to show that he was their dog. Otherwise, this immortal emperor could easily kill him.

This immortal emperor frowned when Yuan Xiang spoke of Feng Kong grand emperor but then he raised his arm and hacked off Yuan Xiang immortal monarch's arm and took the storage ring on it before throwing the arm down.

Yuan Xiang didn't dare to move. He wanted to say if you wanted my ring I'll take it off myself, no need to hack off my arm.

"Is that so, if you knew I was from Mo Yue Immortal Sect you wouldn't dare to come? I can only say you're lucky because if sect leader ye came back I can assure you that you won't live. Piss off..."

Hearing this, Xiang Yuan immortal monarch carefully picked up his arm and left with a bow.

After they all had left, Lu Feng said shakily "Mo Yue Immortal Sect Lu Feng greet immortal emperor master. Thank you for helping."

Lu Feng didn't dare to believe an immortal emperor was of Mo Yue Immortal Sect. Even in the grand heaven domain, an immortal emperor would be respected everywhere.

The immortal emperor smiled and waved his hand, "No need to be so polite, did you think I'm lying to you? Mo Yue Immortal Sect can't have immortal emperor?"

Lu Feng dazed, how could she dare to say that an immortal emperor lied to her.

The immortal emperor waved his hand "Although I'm not from Mo Yue Immortal Sect but they really do have an immortal emperor. Although that immortal emperor hasn't come, he will come eventually."

"Huh..." Lu Feng and Su Jingwen were both dazed by the words of this middle aged immortal emperor.

The immortal emperor said again "You guys don't need to thank me. I know your sect leader Ye Mo. When he comes back, that immortal monarch will be nothing to him."

The immortal emperor felt a little guilty. Those guys killed a few of Mo Yue Immortal Sect's people but he let that immortal monarch go. To be honest, he didn't want to give Feng Kong grand emperor any excuse. Otherwise, Feng Kong grand emperor might kill him immediately.

Hearing Ye Mo's name, Su Jingwen immediately became excited and asked "Qian bei, have you seen my husband? Where is he?"

"Your husband?" The immortal emperor asked with a frown.

Lu Feng quickly explained, "Jingwen is our sect leader Ye's dao partner so she's very worried about sect leader Ye. Wan bei is too, please tell us qian bei."

The middle aged immortal emperor realised and as an immortal emperor, he even saluted with his fists to Su Jingwen, "So it's sect leader Ye's dao partner, my bad. Sect leader Ye has helped me, I'm called Ji Lei. You guys can call me Ji Lei immortal emperor."

"We don't dare to..." Su Jingwen and Lu Feng answered.

Ji Lei immortal emperor waved his hand, "I respect sect leader Ye's power and character greatly. Although I haven't seen him, I know his power is far beyond mine now. I actually came to Gong Hua heaven to see if sect leader Ye was back but I didn't see him so I left. On the way, I heard other people say that people were attacking Mo Yue Immortal Set so I came back to look. That person has a strong background, I can't casually kill him but I'm sure that once sect leader Ye is back, he won't be able to escape."

This immortal emperor was Ji Lei immortal emperor. He hid in the lethal force space for a while and snuck back to the palace.

Once there, he saw that almost all the immortal emperors were there. He didn't know Feng Kong grand emperor and them had gone in the space formation door so he didn't mind seeing them there. Nor did he care that there were only four out of the five immortal emperor peak stage and the four of them were weakened.

But Feng Kong grand emperor's words made him sink into the bottom. Feng Kong grand emperor just asked, "is the dustless fruit on him?" and he knew that he wouldn't be able to keep it.

It was impossible to keep the dustless fruit as an immortal emperor middle stage. Although his heart was bleeding he had to give the fruit to the shameless Feng Kong grand emperor. Luckily Feng Kong grand emperor gave him a blue fruit saying that it would help him reach immortal emperor tertiary stage.

Due to this, he didn't like Feng Kong grand emperor but he didn't dare to overly offend him so he didn't kill that immortal monarch.

With the dustless fruit, Feng Kong grand emperor organized all the immortal emperors to attack the void formation door and then the door cracked open.

A small whirlpool appeared next to it and it shrunk rapidly. Some immortal emperors charged in and Ji Lei followed. After going in, he realised he was sent back to the void.

After decades of searching, he finally came back to the immortal realm and then he came to find Ye Mo immediately.

Chapter 1888: Dao vindication won't grant eternal life

Ji Lei immortal emperor trusted Ye Mo's capabilities. He knew from He Chong immortal emperor that Ye Mo taught Li Long immortal emperor a lesson and knew that He Chong immortal emperor joined Mo Yue Immortal Sect.

He came here wanting to ask if Ye Mo could take on Feng Kong grand emperor but didn't expect that Ye Mo wasn't back yet. Not only so, He Chong immortal emperor didn't come back as well.

"Qian bei, where can I find my husband?" Su Jingwen asked nervously.

This guy was an immortal emperor, the only one who knew news of Ye Mo. If he left, then it was all too hard to find news about Ye Mo again.

Ji Lei immortal emperor shook his head “Even if you’re immortal emperor power, it’s impossible to find sect leader Ye much less you’re an golden immortal. My suggestion is to cultivate here. I believe sect leader Ye will come back one day.”

Then Ji Lei immortal emperor took out a communication bead as well as the storage ring he took and gave it to Su Jingwen, “I’ve removed the restriction on this storage ring. This communication bead is mine, if the sect needs my help or if sect leader Ye is back you guys can contact me. I’ll be leaving first...”

As soon as Su Jingwen took the things, Ji Lei immortal emperor disappeared.

Lu Feng looked at the empty grounds and her heart went on fire. From Ji Lei immortal emperor, she knew that their sect leader Ye Mo was on par with an immortal emperor. How could one not progress in an sect like this.

“Jingwen, let’s go back to the sect first. Work hard on cultivation. Only once your power is high can you go find the sect leader.” Lu Feng said excitedly.

Su Jingwen handed the things to Lu Feng, “Sister Lu, let’s leave the things with you. I don’t have any use for it. I’m worried that after all these years, there’s still not a second person from Luo Yue continent who has ascended.”

...

Unable to find an exit in the palace, Ye Mo could only return to that dangerous space to keep searching for immortal range and then cultivate.

Time passed quickly and Ye Mo’s power rose up drastically. Constantly staying at this lethal force space, his body refinement cultivation broke through immortal god body primary stage and reached immortal god body middle stage. Later on, those lethal force couldn’t even reach his body and was smashed away.

At the same time, Ye Mo's immortal essence kept rising as well as his spirit sense and sea of consciousness. His Heaven Flame Nine Suns even formed the 7th blue sun. his transmission god art was near level four.

His space shatter god art increased multiple times and his Five Lightning Spear Destruction god art became invisible. However, his cultivation level won't increase. No matter how many extreme grade immortal ranges he devoured, his cultivation level was stuck at that little bit from immortal monarch peak stage.

This was the 107th year at this dimension. Shadowless also carried this ferocious chi and the space lethal force couldn't get near shadowless as well. Sometimes, he would even devour it.

Ye Mo had countless immortal ranges collected. They were stacked up in mountains in the golden page world.

Today, shadowless and Ye Mo came to the palace like usual.

Ye Mo couldn't find any other way out except in this palace. So, he would come check this palace every ten years to see if there was a way out. Everytime, he would precisely check every corner in this palace especially the back yard.

The palace was still ancient and Ye Mo still wasn't able to see through the secret of this palace. The palace was indestructible.

But today after checking the palace, Ye Mo didn't leave. he stared coldly at a cushion seat and said, "Shadowless, block the exit. We can collect some debt."

Shadowless said nothing and stopped at the gates. The instant shadowless did so, a figure suddenly appeared in this palace. It was a black faced man with a bitter smile. His cultivation level was immortal emperor primary stage.

However, the chi from this immortal emperor couldn't trick Ye Mo. Ye Mo scorned at this immortal emperor and said, "Kai Mi, you harmed another immortal emperor. I want to see where you can run to today."

Then, Zi Xu was humming above Ye Mo's head. The purple sword rays spread out without Ye Mo needing to activate them.

The black faced man didn't release his magic artefact and said "Ye Mo, there's no point in killing me. It's at most venting your anger."

This man was Kai Mi. He was hiding everywhere in here and meeting Ye Mo this time was a part of his plan. He didn't want to run and he knew that although Ye Mo was only immortal monarch tertiary stage, his immortal emperor primary stage was far weaker than Ye Mo.

"Since I can still vent my anger, it means that killing you serves a purpose." Ye Mo didn't fear Kai Mi at all.

"Ye Mo, if you kill me you will never be able to leave. if you don't kill me I can guarantee you a way out. I didn't plan to avoid you. If I did, you wouldn't even be able to find me." Kai Mi suddenly said.

Ye Mo frowned and said coldly "You can go out, then why don't you go out? Why do you think you're lying to?"

Kai Mi said calmly "Ye Mo, you know I'm a divine emperor and you know this is my second time possessing. To me, I would never be able to return to my original power and I would never be able to surpass you this entire life so don't worry about me. I can't leave indeed and I don't plan to leave. There are large amounts of immortal range in here and I can use them for cultivation. Of course, the main thing is that I don't dare to go out."

He paused and said, "I can tell you some things you don't even know about. After you listen, you will know why I don't go out."

"Do you think with my current power I still need you to tell me things? Even if Feng Kong grand emperor comes, so what?" Ye Mo sneered. Over the years, he had cultivated at least a few thousand years in the time formation disk.

He really didn't fear Feng Kong grand emperor.

Kai Mi sneered “Feng Kong grand emperor is nothing. He’s worse than trash in my eyes.”

Ye Mo said calmly “You’re a dao vindication divine emperor, when you recover your power of course you won’t consider Feng Kong grand emperor a threat.”

“Dao vindication divine emperor?” Kai Mi suddenly laughed and looked at Ye Mo more seriously, “Ye Mo, in the immortal realm dao vindication divine emperor is indeed the top and in the ancient immortal realm, there was no dao vindication at all. But, once you reach dao vindication divine emperor, you will know how insolent you are.”

Ye Mo didn’t sneer at Kai Mi this time. He knew that the stronger one got, the more they felt they didn’t know.

“Dao vindication divine emperor can have eternal life, destroy the world or tear any voids, cross realms. Isn’t that the top?” Ye Mo asked seriously.

Kai Mi didn’t sneer at Ye Mo this time and said plainly, “Who told you dao vindication divine emperor has eternal life? I can tell you that I have yet to see someone with eternal life. I can’t, not even Truth divine emperor.”

Ye Mo’s face went serious. He cultivated diligently to achieve eternity and then help the people around him to be eternal. Now, Kai Mi said that even a dao vindication divine emperor couldn’t have eternal life. He was a bit lost. But he believed that as a previous divine emperor, Kai Mi wouldn’t bullshit about this.

Realizing this, Ye Mo saluted with his fists “Kai Mi, I heard that dao vindication is very hard and you need all sorts of ways. Since you can vindicate dao, why can’t you attain eternal life?”

“Dao vindication is hard?” Kai Mi laughed in self mockery, “do you now dao seeking tower?”

Ye Mo nodded. Of course he knew, he had been in there in Yuan Le heaven.

Chapter 1889: Terrifying Person

“There’s nine levels to the dao seeking tower. The first six levels are heart demon dao, arts dao, magic dao, god art dao, law dao, reincarnation dao. Many people know these six daos and many have gone in.”

Then, Kai Mi’s tone changed “But rarely do people go into the last three levels. Even if people do, they can’t understand what’s inside. The seventh level if called great god arts dao, level eight is called chaos dao, ninth level is blank. No one can understand it.”

Ye Mo didn’t know why Kai Mi said these things.

Before Ye Mo asked, Kai Mi continued “Actually, although there were nine people in the immortal realm that vindicated dao but those were side daos including truth divine emperor’s dao. Then, the immortal realm crumbled and people couldn’t even vindicate side daos.”

“Tell me more.” Ye Mo was shocked. This was the first time he heard that the nine dao vindicators of the immortal realm vindicated side daos.

Kai Mi said heavily, “side dao doesn’t mean that you can’t become a powerful being. If you keep pressing forward, you can still become a powerful being and reach the pinnacle.”

Then, even Kai Mi shook his head, “But that’s too hard, it’s almost impossible.”

“What is a side dao?” Ye Mo asked again.

Kai Mi said “The so called side dao is vindicating dao through a great god art. For example, my law dao vindication, or Bai Zhuo’s flame dao vindication... When you learn a great god art law in the dao seeking tower and convert your god art to great god art, you can use it to vindicate dao if you’re talented enough. Great god art has the power to turn the world over. When Bai Zhuo vindicated dao, one speck of his flame could burn an entire planet.”

Ye Mo sort of understood this but he didn’t keep asking Kai Mi about this. instead he asked “Kai Mi divine emperor, why did you say that you can’t attain eternity even after dao vindication?”

Kai Mi showed a sliver of sneer, “Eternity? Ye Mo I admit you’re a prodigy amongst prodigy. You have the best fortune and the most powerful talent but no matter how you cultivate, you wouldn’t be able to be eternal. If dao vindication meant eternity, then truth divine emperor wouldn’t be beaten till only a sliver of his soul remained in the void. I wouldn’t only have a sliver of essence spirit left. The rest of the few divine emperors’ souls completely perished.”

Ye Mo touched his chin. This was the first time he heard someone say his talent was good but he didn’t interrupt.

Kai Mi also showed a look of confusion “It’s said in the ancient times, there’s a realm above the immortal realm. Some people call it god realm, some people call it divine realm. But later, that realm shattered and disappeared...”

“The realm that disappeared?” Ye Mo murmured. He thought of the words that appeared with his king naming. “God realm disappeared, stars don’t show. Chaos reopen, order resettlement...”

“Yes, the realm that disappeared.” Kai Mi said definitely “Ever since that realm disappeared, the world shall have no more eternity. After immortal emperor, people started to use the great god arts of dao seeking tower for dao vindication. When the first person succeeded, he became the first divine emperor. Then, people used all sorts of methods to vindicate dao. A few people succeeded but compared to the countless cultivators, the successful people were too little.”

Seeing Ye Mo about to ask, Kai Mi waved his hand and continued “dao vindication is just the first step. Divine emperor is an arrogant title. Because highest realm in immortal realm is dao vindication so they are called divine emperor. In actual fact, dao vindication is the beginning of dao art. The first step after dao vindication is Dao Moulding, the second step is Dao Nourishment, the third step is dao actualization. Only one who reaches Dao Actualisation Divine Emperor can be called divine emperor.”

Ye Mo was very shocked. If you don’t reach that step, you would never know how far that step was.

“So only once you’re a Dao Actualisation Divine Emperor can you be called divine emperor.” Ye Mo murmured to himself.

Kai Mi sneered, “Dao Actualisation? Dao Actualisation is nothing? After Dao actualization, you can gather your dao into essence to achieve Dao Essence Divine Emperor and after that there is Primordial Essence Divine Emperor? In fact, even Primordial Essence Divine Emperor isn’t the strongest divine emperor. Whether or not that is eternal life I don’t know but that’s not something I can know.”

Ye Mo took in a cold breath. He thought he was at the pinnacle of the immortal realm but he found he was still too far from that pinnacle. Luckily, there was nothing that could threaten him in the immortal

realm now. Those who could threaten him were only divine emperors but it's said that after the ancient battle they all disappeared so he didn't need to worry.

"How do you know there's three steps to dao vindication and there's Dao Essence Divine Emperor and Primordial Essence Divine Emperor after Dao Actualisation Divine Emperor?" Ye Mo asked.

Kai Mi didn't answer Ye Mo and asked instead, "Do you know how the 33 heaven domains of the immortal realm came to be?"

Ye Mo nodded "I heard it's caused by the battle of the divine emperor great battles. If I'm not wrong, you were probably in that battle too right. Why did many divine emperors attack truth divine emperor?"

Kai Mi nodded "that did indeed happen. After that battle, everyone was injured. But we're all from the immortal realm, only if our brains are fried would we ruin our own foundation. Do you think we would battle in the immortal realm and shatter the immortal realm causing laws to not even be complete?"

"You guys didn't break the immortal realm into 33 heavens?" Ye Mo asked in shock.

Kai Mi reminisced the ancient times, "The immortal realm was indeed split due to a battle but it's not that we broke it intentionally. Due to the limitations of the immortal realm laws, when we're at our stage, we can sense if new people reached dao vindication. In the immortal realm, it's always been nine divine emperors. But one day, we sensed a more powerful person appear in the immortal realm at the same time..."

If it was before, Ye Mo would be shocked and ask what was stronger than dao vindication divine emperor. But now, he knew that even truth divine emperor wasn't the strongest.

Kai Mi continued "At the same time, we appeared before that figure. That person was covered in wounds. He was heavily injured but the chi coming from his body shook us. That chi made us realise that if he wasn't injured, we couldn't beat him even if all nine of us joined up."

"So you guys joined up to fight that guy?" Ye Mo immediately asked.

Kai Mi nodded, "That person was rather polite. He first apologized for appearing at the immortal realm causing us to worry. He said he didn't do it intentionally and when he healed he would leave the immortal realm immediately. However, his greedy eyes exposed that he definitely wouldn't be leaving right after he healed. What we didn't expect was that truth divine emperor was the first to ambush him."

At the same time, truth divine emperor sound transmissioned us that this person had the secret to surpassing divine emperor and potential eternal life. if we didn't join up and this guy healed, he might kill us and control the entire immortal realm."

"In fact, other than truth divine emperor, a few others were planning to attack that guy. Even I was planning to attack because his eyes were too scary. With that, everyone attacked that person at the same time. But after fighting, we realised that despite being heavily injured, that person was still countless times stronger than us. We were no match for him even after joining up. That battle faded the light of stars and the sun.

We were from the immortal realm and worried about the immortal realm continent but that person didn't care at all. His god art was great god art that we had never heard of before. The immortal realm actually cracked under his magic artefact. We had never seen someone with such terrifying god art. He could annihilate an immortal emperor with one breath. Even if you go to Qing Wei heaven now, you can see Qing Wei abyssal river. If an ordinary person goes over, he would be annihilated by the murderous

chi there. This is because the river was created by that person's palm. After all these years, that person's killing intent is still there."

Kai Mi said with great after fear.

"What happened later?" Ye Mo asked.

Kai Mi murmured, "The immortal realm laws had formed but this person could break it and shatter the immortal realm causing laws to be incomplete. This was a heavenly means. Because the immortal realm was stable so despite breaking the immortal realm, it allowed the immortal realm to form the number of heavenly gang, 36 heaven domains."

Kai Mi continued "That person is too scary. In his fury, he formed a huge essence chi palm and grabbed a heaven domain smashing at Wuchen divine emperor. Wuchen was smashed to death with a heaven domain. then, he grabbed two more heaven domains..."

Chapter 1890: God Necropolis Domain

Ye Mo took in a cold breath. He knew that some immortal emperor and divine emperor could spirit control a planet and heard that Zhuo He divine emperor could burn an entire planet but in the vast space, there were too many planets. Most planets compared to a heaven domain was just a speck of dust.

He came from earth. If the earth was thrown into Luo Yue continent's Heartless Sea, it wouldn't even cause a splash. Yet, any heaven domain of the immortal realm was countless times bigger than Luo Yue continent and such a heaven domain was grabbed by hand to smash people? This was unimaginable.

Even if an immortal emperor can damage a heaven domain through battle and might even split apart a heaven domain with powerful magic artefact and god art but this was a far cry from grabbing a heaven domain and smashing people with it.

"Isn't this person almost Dao Actualisation Divine Emperor?" Ye Mo asked in shock.

Kai Mi shook his head, "According to my guess, this person is beyond Dao Actualisation Divine Emperor, he's probably almost Dao Essence Divine Emperor."

"How does no one hear of such a powerful person afterwards?" Ye Mo asked.

"In fact, we all thought it was over but truth divine emperor hid his cultivation level." Kai Mi sighed, "The immortal realm was about to crack. In that time of desperation, truth divine emperor's cultivation level suddenly rose and released a primordial spirit treasure Immortal Carnage tower that we had never known about."

At that moment, we were all dazed but even that heavily injured person was dead. He watched as he was locked on by immortal carnage tower and smashed. I remembered his last words were, primordial spirit treasure... In such a realm, you had reached dao nourishment..."

"You're saying that guy was killed by truth divine emperor's immortal carnage tower?" Ye Mo shivered thinking of that ghost ship. This truth divine emperor was a really scary guy.

“That’s right, after that guy was smashed by the immortal carnage tower, he released a magic artefact wanting to smash open the immortal carnage tower but the tower was too scary. Although his power was stronger than truth divine emperor and he seemed to have heavily injured truth carnage tower, his soul was still annihilated. The immortal carnage tower can annihilate all essence spirit. Not a speck of dust was left.” Kai Mi said definitely.

“But after truth divine emperor used the immortal carnage tower, his spirit was withered and his face pale. Even a fool could tell he was at his wits end. What we didn’t expect was that Zhuo He divine emperor ambushed truth divine emperor at this time and transmissioned to the rest of us.”

Kai Mi showed a sliver of helplessness and bitterness.

“I heard truth divine emperor was very arrogant and cocky. He never showed respect to the other divine emperors and always cursed at them. Was this why Zhuo He divine emperor ambushed him?” Ye Mo asked.

Kai Mi sneered, “Truth divine emperor cocky? He’s more forbearing than anyone? Zhuo He divine emperor’s daughter fell in love with truth divine emperor but after truth divine emperor took over her, he abandoned her. This might be the reason why Zhuo He divine emperor wanted to ambush truth divine emperor. Of course, this is just my guess.”

Ye Mo was speechless. This was completely different to the street story he heard. He heard that truth divine emperor pointed at the divine emperor daughter and said you are mine now.

“Zhuo He divine emperor was successful in his ambush. We knew that truth divine emperor was very strong and bleak so we all attacked. In the end, truth divine emperor self destructed and we didn’t end up good either. Other than one or two, the rest of us lost our bodies.

After my body crippled, my essence spirit was greatly depleted but I had a broken truth spirit world and I robbed a bloody spear. The spear came from that master. The information about dao vindication came from the spear. I used a blood spear too so I fused the two spears.” Kai Mi said.

Ye Mo was very shocked but his face was calm, “You stayed here to tell me all this and let you go? You know I have the time formation disk and perhaps the truth spirit world and chaos tree. Do you think I would let you go?”

“Yours is truth spirit world?” Kai Mi repeated in shock and was a little disappointed. He thought Ye Mo had a chaos world.

Ye Mo knew Kai Mi was very cunning and there was no way he would admit he had chaos world.

Kai Mi didn’t doubt Ye Mo’s words. He didn’t believe Ye Mo could get chaos world. Now that Ye Mo admitted it himself, he was disappointed but he believed it. Truth spirit world was still the most top level thing. He relied on it to stay alive many times before. That truth spirit world eventually cracked in the blueish grey space.

“I know your things are treasures in the immortal realm but if you agree not to kill me, I can swear I won’t spill it. I can even sever the memories of this away. of course, I don’t want you to just not kill me. As for whether or not you agree, let me finish first.”

Kai Mi took out a jade slip to Ye Mo and said “There are things recorded in here that you have never seen before. It’s organized from what I found in the blood spear. At my level I know I wouldn’t be able to catch up to you. Our path will be different in the future. I can’t threaten you at all and the dangers you face are much greater than me.”

Ye Mo scanned his spirit sense in the jade slip. He immediately saw many things he had never seen before including the blue fruit he got from the restriction. it was called emperor wood blue fruit.

Ye Mo immediately knew this jade slip was very important to him. He took it without hesitation. Kai Mi’s threat was very huge and he didn’t really plan on letting this person go but he wasn’t not going to take such good things.

“We came from the star beast place. They usually live at the border of a realm so we’re also at the border region. This palace has an ancient chi and a chi that doesn’t belong to the immortal realm. I’ve seen this chi before, the person who suddenly appeared in the immortal realm also had this chi. This means that the palace and that person came from the same place.”

Kai Mi looked calmly at Ye Mo and said “Feng Kong those idiots forcefully attacked the formation foundation and actually broke a crevice into the void here. Although those idiots got away, the void fissure closed too. However, the formation foundation sealing the chi here was opened. At the same time, the chi of the palace is seeping out. One day, those powerful beings not belonging to the immortal realm would sense this chi and come to the immortal realm.”

“How are you so certain?” Ye Mo asked in disbelief.

Kai Mi said heavily, “You haven’t seen the eyes of that outsider. It was pure frenzy and joy. It means that they saw a more beautiful place than they lived. His face showed that he wanted to eat the entire immortal realm. Later on from the blood spear, I realised how harsh their environment was.

Some of this is my guess, some of this is information from the blood spear. They belong to a higher realm but for some reason that realm crumbled and disappeared. And at that realm, the laws are broken too. This made them leave that broken realm and went to a place called the God Necropolis Domain to live.”

“God Necropolis Domain?” Ye Mo asked in confusion. This name was too strange. He had been to immortal graveyard valley and long graveyard valley. He knew that places related to graveyards were usually barren and bleak. If the God Necropolis Domain was a place like that then living there would be harsh.

Kai Mi said “That’s right, the God Necropolis Domain. The powerful being killed by the truth divine emperor came from there somehow. Think about it, if those people knew there was a place as beautiful as the immortal realm, would they let it go?”

Ye Mo frowned, “The 33 heaven domains are very big, even if we have them it’s fine.”

Kai Mi sneered, “Do you know what those people are? Would they live here quietly. I’m certain that as soon as they come the first thing they would do is take away every heaven domain and then spirit control it into their truth spirit world. The people of immortal realm are worse than livestock to them.”

Ye Mo’s face changed. Their realm was broken and the beautiful environment was gone. If they came to the immortal realm how could they just find a place to live? He was too naïve.
