Chapter 1891: Secret of the Palace

"I really didn't expect it." Ye Mo saluted with his fists and admitted to his mistake.

Kai Mi waved his hand, "You haven't seen their power, it's normal. Now, I'm going to talk about this palace. I don't know who set this palace up but I'm certain that the qian bei who set it up did so to seal the passage between that realm and the immortal realm. Perhaps this was to protect the immortal realm but the formation foundation was broken by those idiots."

"Why didn't you stop them?" Ye Mo's face changed.

Kai Mi said with contempt "Do you know whose body this is? It's Feng Kong's henchman. If I came out, I would probably be killed by Feng Kong before I can even talk. Even if he listened to me he would still kill me."

"Since they opened the space here and you can leave through the void, why didn't you leave?" Ye Mo asked again.

Kai Mi sighed, "What's the difference? I didn't have the chance to go but even if I did I feel there's no meaning. The formation here is broken, the immortal realm will definitely be discovered by people of the other realm. once that happens, they would come to the immortal realm and spirit control all the heaven domains. Even if I go out to any heaven domain, I would still be spirit controlled."

Ye Mo realised what Kai Mi meant. Kai Mi thought that he had the chaos world, that's why he stayed to see him.

But Ye Mo was thinking who set up this huge formation? Since that person did this, it meant his power was immense and wouldn't be going back to the broken realm. How come he hasn't heard of such person?

“Because I had a broken truth spirit world and I thought you had the chaos world so I wanted to join you. But you don’t. the truth spirit world is good enough. I’m willing to hand over my soul print and give you the way out of here if you protect me.” Kai Mi said.

Ye Mo sneered “And then possess me like you did to Lu Zhengqun right?”

Kai Mi smiled bitterly “I can’t even possess at all now. Your sea of consciousness is probably much much stronger than mine. Plus, if I give you my soul seal, you can kill me with one thought. How can I possess you? Plus, I have a body now, how do I possess you?”

Now that Kai Mi said this, Ye Mo felt Kai Mi was right.

Thinking about this, Ye Mo nodded “Then hand over your soul seal and tell me how to get out. I’m the sect leader of Mo Yue immortal sect, you will be one of my sect members now.”

“Yes, sect leader.” Kai Mi said and then severed a sliver of soul seal without hesitation.

Ye Mo grabbed the soul seal and immediately knew that Kai Mi was being for real. He could really kill Kai Mi with one thought.

At this moment, Ye Mo’s face relaxed and patted Kai Mi’s shoulder, “Kai Mi, as long as you don’t talk shit and do wrong things I will let you live very well. Okay, tell me how to get out of here.”

...

Ye Mo was certain that his formation skills were beyond level seven immortal formation grand master but after hearing Kai Mi, he realised that many things couldn’t be solved with just formation skills.

Kai Mi was just a level seven immortal formation grand master but his experience was much greater than Ye Mo’s. With his help, Ye Mo found the formation door he couldn’t find in a hundred years in just 45 minutes.

After leaving the void formation door, Ye Mo let Kai Mi move to the side. He didn't use Kai Mi's method and open another void on the void Feng Kong and them opened. That way, the immortal realm would be exposed faster.

Ye Mo derived the space formation door while thinking about how to remedy the leaked chi. At the same time, he was thinking about who had the power to set up such a formation.

Kai Mi didn't care at first but later on he noticed something wrong. Ye Mo's powerful formation dao rune made him feel that even his own formation skills were improving.

Kai Mi's heart skipped and only now did he truly feel how extraordinary Ye Mo was. He released such powerful dao waves when he was just deducing formation. How powerful would it be when he was cultivating?

Kai Mi soon sat and felt Ye Mo's dao waves. His body was destroyed and he slumbered in the truth spirit world for countless years. After waking up, he possessed twice. He had long lost the possibility of seeking dao again. Yet feeling Ye Mo's dao waves now, he had new hopes.

Time flew by and in another decade, Ye Mo suddenly woke up and started to build formation flags.

Seeing Ye Mo used refine star rock and immortal flame Blue Like Morning Sky, even Kai Mi was dumbfounded.

Even Truth divine emperor didn't have this many good things.

But soon he woke up, what was Ye Mo doing?

Looking at Kai Mi's inquisitive look, Ye Mo said "Kai Mi, you're right. This formation door is indeed the formation foundation of this dimension. It's been damaged heavily and the qi is spilling. I finally understand why there are so many immortal ranges here. They are the immortal spirit chi source for this formation. A powerful being set them here and now we dug so many away. The formation foundation was also damaged by Feng Kong that bastard."

“You want to repair this formation foundation?” Kai Mi asked in shock.

Ye Mo shook his head, “I don’t have the ability to repair it but I can remedy the situation. I can’t stop the chi from spilling but I can delay it. I don’t know exactly how long I can delay it for.”

Kai Mi was astonished. He didn’t expect Ye Mo could repair such a powerful formation foundation.

Seeing Kai Mi’s shocked eyes, Ye Mo could only explain “In fact, I’m setting up another simple stealth formation. I can’t connect it to the original formation.”

When Ye Mo got out, he would use the time he bought to bring up his power. Even if he can’t reach that Dao Actualisation Divine Emperor or Dao Essence Divine Emperor, he would at least have to reach immortal emperor. If possible, he hoped he could use his golden page world to vindicate do.

Another year later, Ye Mo turned all his refine star rock into formation flags. This hurt his heart a bit. He could have used it to upgrade Zi Xu.

Seeing Ye Mo throw out tens of extreme grade immortal range to provide immortal spirit chi, Kai Mi respected Ye Mo.

“Kai Mi, why did that qian bei leave this palace and so many restrictions? Why did he leave behind a formation door? Isn’t that giving people a chance to break it? And why did those restriction disappear?” Ye Mo asked.

Kai Mi thought and said “I’ve thought about this many times as well. Maybe that powerful being did this on purpose. He probably didn’t expect so many immortal emperors to come here. If only one person came, then the powerful being left the door for him to leave.

As for the things inside the restriction, it was probably for people to reach immortal emperor peak so they can leave.”

I know a few immortal emperor peak stages left through the void formation door but they didn’t get out. They came back and broke the formation foundation.” Ye Mo said with confusion.

Kai Mi rubbed his head, "I don't understand this too."

Then he looked expectantly at Ye Mo, "Do you have a way out now?"

Ye Mo nodded, "I do."

Then, Ye Mo threw out a few formation flags he didn't use, "It can open this place for a few seconds. Just follow me."

As soon as Ye Mo spoke, a crevice opened up. Ye Mo took shadowless and went inside immediately. Kai Mi followed Ye Mo without hesitation. After the two left, the crevice shut immediately and the palace became dead silent again.

Ye Mo stayed in the void and didn't leave immediately. He left a few formation flags here. When he was strong enough, he would come back to repair this formation and completely stealth the immortal realm.

Chapter 1892: Purple Robed Person Selling Stone Stool

Three years later, Fen Du Heaven Zha Kui Immortal City.

A blue robed young man walked into the city. He carried a sword immortal artifact on his back. From head to toe, he was dressed in the most ordinary clothes.

Zha Kui Immortal City was the largest immortal city in the grand heaven domain because many immortal ships left from here. People gathered here for the opening of secret realms. Kui Zha Immortal City had a ruin itself and so it was usually always full here.

Those who could come to Kui Zha Immortal City would at least wear immortal armor, even if it was low grade immortal armor. No one dressed like this young man.

But since no one could see through his power, people didn't dare to look at him.

This was Ye Mo. He came to Fen Du Heaven as soon as he and Kai Mi came back to the immortal realm. One was because that Fen Du Heaven was the closest to get back, and the second was because Saint Yi Yi was in Fen Du Heaven.

He was hunted by Wuhui immortal emperor at the Wujia Sound River and Ye Mo had been worried what happened to Yi Yi and Ding Jie. Although he knew the Wujia Sound River didn't dare to do anything to the two, he was still worried. So when he came back, he went to Fen Du Heaven immediately. When things here were over, he would search for Xiaoyun. Xiaoyun disappeared from Wujia Sound River. Even if he couldn't find her, he would make Wuyin immortal emperor pay.

The first thing Kai Mi did was to go pick up the things he left behind so he separated with Ye Mo at Fen Du Heaven.

Ye Mo had been to Zha Kui Immortal City a few times. He knew this city was very busy and he hid his power to immortal king middle stage. He publicly announced he hid his power before so all the immortal emperors he had seen didn't know his cultivation level. This way, if he exposed his cultivation level, people would only think he was already immortal monarch tertiary stage.

If he didn't expose his cultivation level, then when he reached immortal emperor, he would say he was already immortal emperor.

No matter how strong he was, he shouldn't get public outrage. If everyone knew he had time formation disk, then he would be attacked by everyone. Truth divine emperor was a good example.

Ye Mo came to this city wanting to use the teleportation formation here to go to Jiu Fan Immortal Pond but when his spirit sense scanned a purple robed man, he immediately changed his plan.

He could tell this purple robed man was immortal emperor tertiary stage and was the image that Ji Lei immortal emperor showed him. This person appearing here was probably so he could auction the stone stool again.

He didn't dare to buy it before, but if this guy still dared to sell it here, then don't blame him.

Thinking about this, Ye Mo didn't follow this man and instead found the most luxurious immortal rest tower in the city. He wanted to ask around if there was a large auction in the city. If there was an auction, he would buy the stone stool. If there was no auction, then he would follow this man out of the city and rob him.

He was immortal monarch tertiary stage, but he had been stuck here for so long and used so many immortal ranges. He didn't believe he would be scared of a mere immortal emperor tertiary stage.

Plus, Ye Mo had to have that stone stool. He didn't know how long the formation in that palace could cover up the immortal realm's chi. If those powerful beings came to the immortal realm, it would be a catastrophe. Only if he perfected his chaos world could he take the people with him away.

He didn't know what was going on with Zha Kui Immortal City, but there were many people in the city and the immortal rest towers were full.

As an immortal king, Ye Mo was immediately respected upon walking in. However, the tower had no seats and even the lobby was full. These immortals came from everywhere and all sat in the lobby clearly to get some more news.

Ye Mo knew that if he asked someone to move off a table, no one would object, but Ye Mo didn't like doing that.

"Qian bei, I'm going to leave, you can sit here." An honest looking great eternity immortal got up and saluted with his fists to Ye Mo.

Ye Mo immediately replied, "Thank you friend."

Ye Mo sat down and the attendant on the side immediately came up asking what tea or fruit Ye Mo wanted. He was afraid that Ye Mo would get angry for having no seat.

"Get me any kettle of immortal spirit tea." Ye Mo took out a thousand top grade immortal crystals.

Spending 1000 top grade immortal crystals for just a kettle of tea, the nearby people could already tell Ye Mo was wealthy. Everyone quietened down with Ye Mo's cultivation level being immortal king middle stage.

Ye Mo was speechless. With a high cultivation level, he couldn't even find out some news here.

The attendant took out a jade kettle from his storage ring and took out a jade cup pouring a cup of tea for Ye Mo.

"Wait." Seeing the attendant was about to leave, Ye Mo stopped him.

The attendant was just a golden immortal. Seeing Ye Mo stop him, he quickly stopped and asked carefully, "Qian bei, what other orders do you have?"

Just when he wanted to ask if there was some big auction in the city, Ye Mo's spirit sense scanned a familiar figure who was hurrying out of the city.

Ye Mo rejoiced and immediately dashed out of the immortal rest tower.

He saw the first immortal king he had seen in the immortal realm. He only knew this female immortal was a blue dressed status immortal, but didn't know her cultivation level. Now, he could see it clearly. She was an immortal king middle stage. She was probably an immortal king middle stage before as well.

Ye Mo was excited because Nie Shuangshuang was taken away by her. Finding her meant finding Nie Shuangshuang. He really wanted to know how she was doing.

Yu Xie was very anxious. As soon as she reached the city with her martial sister, she received her martial sister Yu Xiang's urgent call. She was hurrying over there but not long after leaving the city, she was stopped.

She could immediately tell that the person who stopped her was an immortal king middle stage. She was desperate, but she didn't dare to get angry.

“You are...” Yu Xie recognized Ye Mo and there was inexpressible shock in her face.

Ye Mo smiled. “That’s right, I’m the person whom you said could at most reach golden immortal, but I’m not here today to repeat that. I’m here to thank you for saving my friend Nie Shuangshuang and I want to take her away. Of course, I’ll compensate you for that.”

“You’re already an immortal king? This...” She stared at Ye Mo with pure shock, forgetting to even ask how Ye Mo came to the grand heaven domain.

How many years had it been? The hollow immortal she saw became an immortal king. She said he could at most reach golden immortal, but now, she was still immortal king middle stage while the hollow immortal reached immortal king middle stage.

Ye Mo stopped her, “That isn’t the point, the point is where is Nie Shuangshuang, is she ok?”

Ye Mo’s tone was getting impatient.

The immortal king suddenly realised what she needed to do and quickly said, “Shuangshuang is fine, my martial sister is in danger I need to go see her first.”

Then, the blue dressed immortal king dashed away. Ye Mo frowned but didn’t stop her and followed behind instead.

Chapter 1893: Know Each Other

“Brother Ye, I’m Yu Xie. I was wrong about what I said before. Sorry. Shuangshuang is fine. After I find my martial sister, I’ll tell you more,” Yu Xie saw Ye Mo followed over and quickly explained. She even felt she was no match for Ye Mo so she was very polite.

Ye Mo was anxious about Nie Shuangshuang, but she had to go save her martial sister. Everything was good as long as Nie Shuangshuang was fine. Plus, he knew this martial sister of Yu Xie. It was probably that young girl who was great eternity immortal.

Ye Mo's spirit sense soon scanned the young girl who played with him but helped him. She was stopped by two immortal kings, one immortal king middle stage and one immortal king tertiary stage who was very tall. A small bear-like immortal spirit beast rested on her shoulder with a sliver of fear in its eyes. The fiery red fur of the immortal spirit beast was very catchy.

"Martial sister!" Yu Xiang already saw Yu Xie and called out.

She still looked like a young girl and had a huge chest.

Seeing people come, the two immortal kings didn't talk and just looked at Yu Xie.

Yu Xie knew her martial sister caused trouble and quickly went up to the two immortal king and saluted with her fists. "My martial sister is immature. If she offended you two, please forgive her."

Haha, a person who cultivated to great eternity immortal has lived for countless years and you say she's immature? Do you think I'm a fool, or are you a fool?" The Tall looking immortal king tertiary stage laughed and scorned.

Yu Xie heard this and knew that Yu Xiang caused quite some trouble this time. Her face changed and she yelled, "What did you do?"

Yu Xiang knew things weren't good and she didn't have time to look at Ye Mo. She just said sadly, "I just caught an ordinary immortal spirit beast and roasted it with Nuan Nuan, but they say the immortal spirit beast belonged to them. I, I..."

She really wanted to say that the immortal spirit beast wasn't necessarily theirs and wasn't necessarily a Spirit Seeking Rabbit, but she knew this wasn't the low or middle heaven domain.

Hearing this, the immortal king middle stage moved his eyes away from Ye Mo and coldly said, "You ate our Spirit Seeking Rabbit and you say it's not ours. Do you see Spirit Seeking Rabbits everywhere?"

Yu Xie's face changed. If it really was a Spirit Seeking Rabbit, then even if they gave everything, they wouldn't be able to compensate for that. Although her martial sister liked to do some cheeky things, she wouldn't be that dumb.

Although she knew that she couldn't afford to compensate it, Yu Xie still asked, "Dao friends, my martial sister is indeed immature. May I ask how to compensate for this Spirit Seeking Rabbit. We will try our best to compensate to you."

"Compensate? Can you afford it? My Spirit Seeking Rabbit can find an immortal range in a month and tens of level seven and higher immortal spirit herbs? How are you going to compensate us?" The tall immortal king tertiary stage sneered.

Yu Xie's face went pale. She really couldn't afford it. This was the grand heaven domain, she didn't even have a place to ask for help.

Small Ginseng laughed and sound transmissioned to Ye Mo, "I don't know if the Spirit Seeking Rabbit was eaten by the girl, but I know the bear on her shoulder is an Immortal Range Bear."

Ye Mo has heard of Immortal Range Bears before. He didn't expect it to be so small and red haired. The Immortal Range Bears ate immortal crystals and immortal ranges and could find the best immortal ranges immediately, but Ye Mo knew it wasn't very rare and precious. It grew very slowly and only when it matured could it find immortal ranges.

Ye Mo didn't know if Yu Xiang ate their Spirit Seeking Rabbit, but he was certain the two immortal kings recognized Yu Xiang's red bear was an Immortal Range Bear.

"What's going on, you tell me." Ye Mo walked up.

"Huh, you're Ye Mo..." Yu Xiang recognized Ye Mo immediately.

She didn't see Ye Mo at first, but now she immediately said in surprise and joy, "You're actually at the grand heaven domain. Your cultivation level definitely won't be golden immortal – hmm, Ye Mo, I can't see your cultivation level."

Seeing Yu Xiang's joy and her completely different attitude to her martial sister, Ye Mo was happy too. Before Ye Mo said anything, Yu Xie reproached, "Yu Xiang, martial brother Ye is an immortal king now, don't be so casual."

"Ye Mo, you're really an immortal king. My martial sister said you would be golden immortal at most, haha..." In Yu Xiang's eyes, Ye Mo was still the noob who bought Return Soul Fruit at a low level marketplace.

Yu Xie said helplessly, "Brother Ye, I'm really sorry, my martial sister..."

Ye Mo waved his hand, "It's fine, we're old friends. I'm happy she calls me Ye Mo. Yu Xiang, tell me what happened before? If it's not your fault, I'll help you get justice."

"Pfft, a mere immortal king middle stage dares to get justice. Piss off. If you utter one more word, I'll slay you here," the tall immortal king tertiary stage said in contempt.

Ye Mo's face sunk, "Piss off. Regardless whether your rabbit was eaten, you can piss off."

"Haha..." The immortal king laughed in anger. "So arrogant, I've really never seen someone as arrogant as you..."

Before he finished, his Purple Runed Ghost Scissors was released. It turned into two huge blades and cut at Ye Mo.

Yu Xie immediately felt the powerful immortal king domain. Her face changed. She knew she was no match upon seeing this immortal king domain.

Before Yu Xie could react, Ye Mo kicked.

This was a casual kick, no god art nor space lethal force.

Yu Xie dazed. An ordinary kick attacking half extreme grade immortal artifact scissors? Was Ye Mo a fake immortal king or was his head dumb?

This tall immortal king was dazed too. He didn't expect there to be such an idiot. Was this guy dumb?

But immediately he noticed something wrong. If Ye Mo was an idiot, how could he kick in his immortal king domain?

Rumble...

When they were still dazed, Ye Mo's foot struck the scissors. That ordinary kick suddenly cause space whirlpools the instant before it hit the scissors. The space lethal force and immortal king domain of the immortal king tertiary stage was dissipated in this kick.

The scissors was kicked away like an ordinary metal scissors. Meanwhile, this tall immortal king spat a few mouthfuls of blood due to the backlash. This didn't end. His immortal king domain spun rapidly and instantly pulverized his own arms.

"You..." The tall immortal king was dazed. He had never thought that someone could kick his scissors away just by standing there and then twist his arms with his own immortal king domain.

The other fatter immortal king, Yu Xie, and Yu Xiang were also completely dazed. What immortal king was this? Even the strongest immortal monarch shouldn't be able to do this.

Seeing Ye Mo walk towards him, the tall immortal king called out in shock, "I'm a sect member of Black Lightning Emperor Sect, if you dare to kill me you will die..."

Ye Mo laughed, "This is the first time I heard of Black Lightning Emperor Sect. I'm going to kill you, what can Black Lightning Emperor Sect do to me?"

But Ye Mo didn't attack immediately and instead glared coldly towards the city. At the same time, a sneer sounded, "This emperor shall see who dares to kill my Black Lightning Emperor Sect's member!"

The tall immortal king breathed easy hearing this voice. He glared at Ye Mo and his face went cruel. He knew this powerful immortal king was dead.

Ye Mo immediately said in contempt, "I'm going to kill him, what are you going to do?"

"Huh..." Before the person landed, he already saw Ye Mo's look.

Chapter 1894: Zha Kui Secret Realm

He didn't look carefully who started a conflict with the tall immortal king. Only an immortal king would have a conflict with an immortal king. He was an immortal emperor tertiary stage and immortal kings were like insects to him.

When he saw this person was Ye Mo, he immediately knew this wasn't someone he could mess with. He had heard of Ye Mo's ferocious name and seen it with his own eyes. He even asked Ye Mo questions.

"So it's sect leader ye, Nong Yan didn't see clearly." Ye Mo looked more ordinary now but Nong Yan immortal emperor knew that Ye Mo's power grew once again. Ye Mo showed he was an immortal king but who knew what his power was. Ye Mo admitted himself that he hid a little of his power but who knew how much that little amount was?

Ye Mo said plainly, "I heard you say who dares to kill your Black Lightning Emperor sect member so I am still shaking."

Despite saying that, Ye Mo's killing intent was soaring.

Nong Yan immortal emperor was very awkward, "I didn't see things clearly. I believe sect leader Ye wouldn't take things seriously with a mere immortal king. It must be that my sect member offended sect leader Ye. If so, I won't let it go easily."

Nong Yan immortal emperor was awkward but his words caught Ye Mo. As long as his sect member didn't offend Ye Mo first, then Ye Mo can't really kill the immortal king in front of his face.

Everyone was dazed. Not just Yu Xiang and Yu Xie but even the tall immortal king opened his mouth wide in shock. What was going on?

Nong Yan immortal emperor was the strongest immortal emperor in Black Lightning Emperor sect. He was at the top of Jin Shang heaven. Who was Ye Mo? A mere immortal king and yet he dared to say such words in front of Nong Yan immortal emperor.

What shocked them more was Nong Yan immortal emperor's reaction to such words? Was this how an immortal emperor tertiary stage talked to an immortal king? Was there some powerful backup Ye Mo had? Even if sect leader Ye's backup was the four grand emperors, he can't be so rude to Nong Yan Immortal emperor.

Ye Mo sneered and his killing intent soared. Nong Yan immortal emperor saw this and was more shocked, he didn't believe he could beat Ye Mo.

Although Ye Mo and his dragon horse made Li Long immortal emperor back out and he was a little stronger than Li Long immortal emperor but who knows if Ye Mo had new encounters these years. He had no confidence in beating Ye Mo at all plus, Ye Mo's sect also had immortal emperor tertiary stage.

Plus, the four grand emperors weren't going to let Ye Mo go, why start conflict with Ye Mo now?

Seeing Ye Mo's killing intent rise, Nong Yan immortal emperor didn't dare to take things lightly. He yelled at the tall immortal king, "What happened? If you dare to lie at all, I will turn you to dust."

Seeing even his martial ancestor this concerned with Ye Mo, how could the tall immortal king not know that Ye Mo wasn't someone he could mess with. He quickly explained, "Xun Hao immortal king and I saw an spirit seeking rabbit so we chased it but we lost it. when we found it again, we found she was roasting our rabbit, so..."

Ye Mo thought they were just scamming Yu Xiang but such thing actually existed. he subconsciously glanced at Yu Xiang. She woke up from the shock and quickly said, "Sorry, Nuan Nuan wanted to eat that rabbit as soon as he saw it. Nuan Nuan was too fast and caught the rabbit. I helped Nuan Nuan roast it. I didn't expect it tasted so good so I ate some too..."

Yu Xie, Ye Mo and Nong Yan immortal emperor had realised what happened. Yu Xiang indeed roasted the rabbit but the rabbit didn't belong to the two immortal king and they used this to stop Yu Xiang.

Realizing this, Nong Yan Immortal emperor's face sunk, "So you used this to rob her immortal range bear, is that so?"

"Yes, yes..." The two immortal kings said shakily.

"My bear is an immortal range bear?" Yu Xiang looked at her bear in shock.

Nong Yan immortal emperor could tell the three already knew each other so he said to Yu Xiang, "This is the fault of my sect members, please forgive."

Yu Xiang knew Nong Yan immortal emperor did this all because of Ye Mo, she didn't dare to really accept the apology and quickly bowed with Yu Xiang, "Master Nong Yan, it's wan bei's martial sister being naughty. I don't dare to accept such apology."

Nong Yan nodded, "your immortal range bear's level is too low. It needs a lot of time to grow. I have a feeding manual here, have a look."

Then, Nong Yan immortal emperor threw a jade slip and Yu Xiang quickly caught it before bowing again.

"Sect leader Ye, this is the wrong of my sect member. If you have any punishment, I will support it." Nong Yan immortal emperor saluted with his fists to Ye Mo again.

Ye Mo didn't really intend to kill this immortal king. Now that Nong Yan immortal emperor said this, he saluted with his fists "Since brother Nong Yan thinks it's fine, then this will do."

"Hurry up and piss off..." Nong Yan immortal emperor yelled to the two immortal kings.

The two had long wanted to go. They quickly bowed to Ye Mo and Nong Yan immortal emperor before leaving.

“Haha, so sect leader Ye already made it out. I have been worrying. Brother He Chong has been worried about brother Ye too...” Nong Yan immortal emperor acted as though the incident before didn’t happen at all and they were long lost friends.

“Brother Nong Yan, how is my sect and brother He Chong?” Ye Mo asked.

“Brother He Chong is definitely fine, don’t worry sect leader Ye. Feng Kong grand emperor has been taking care of him, perhaps it’s better to find news from Feng Kong grand emperor.”

Nong Yan immortal emperor’s words made Ye Mo’s face sink. How could he not know that Nong Yan immortal emperor meant Feng Kong grand emperor already knew about him and didn’t like him. Regardless of whether Nong Yan immortal emperor had good or bad intentions, at least he knew that Feng Kong grand emperor had his eyes on him and might even take He Chong to the grand emperor estate.

“Thank you for your remind brother Nong Yan. After things here are done, I will go visit Feng Kong grand emperor at his estate.” Ye Mo said calmly.

He saw in the reincarnation dao of dao seeking tower that Feng Kong grand emperor treated him badly in his past life and there was a woman carrying him who was kicked down the stairs. He had to ask where that person was now.

Hearing that Ye Mo was going to visit Feng Kong at his estate, Nong Yan immortal emperor’s heart skipped. He knew he was far from a match for Ye Mo.

Realizing this, Nong Yan immortal emperor changed the topic and smiled, “Does sect leader Ye have business to do at Zha Kui immortal city? Or did you bring your sect members to participate in the opening of the Zha Kui secret realm?”

“Zha Kui secret realm?” Ye Mo asked in surprise. This was the first time he had heard of this.

Yu Xie quickly said “Zha Kui secret realm is one of the biggest immortal spirit herb secret realms in the grand heaven domains. It has large amounts of high level immortal spirit herb and opens every ten

thousand years. Only those immortal king and below can go. I brought my martial sister here this time to go as well.”

Nong Yan immortal emperor nodded, “That’s right, there’s large amounts of high level immortal spirit herb every time. Sect leader Ye is an immortal pill grand master, you can buy some immortal spirit herb outside.”

Chapter 1895: Nie Shuangshuang’s whereabouts

Nong Yan immortal emperor was old and cunning. Seeing Ye Mo’s slight change in expression when he said high level immortal spirit herb, he immediately noticed what Ye Mo wanted.

Nong Xie heard this and although not daring to ask Ye Mo, she was very extremely shocked.

Ye Mo was now not only immortal king and didn’t even fear immortal emperor. She even heard Nong Yan immortal emperor call Ye Mo sect leader clearly meaning that Ye Mo started his own sect. On top of that, Ye Mo wasn’t even scared of the four grand emperor and his own sect had immortal emperor too.

If this was shocking enough, Nong Yan immortal emperor’s words that Ye Mo was an immortal pill grand master just turned her world upside down.

Those who could be called immortal pill grand master could at least concoct level seven immortal pill. How long has it been since Ye Mo reached the immortal realm. Even if he was constantly concocting pills, he wouldn’t be able to reach level seven immortal pill grand master.

“Haha, okay, I will definitely go buy immortal spirit herb.” Ye Mo laughed. It wasn’t that he couldn’t reach level nine immortal pill grand master but that he didn’t have large amounts of level nine immortal spirit herbs. Without it, he couldn’t practice it.

It was fine that he couldn’t go in the Zha Kui secret realm. he could buy things from outside. With his current power, who would dare to stop him buying immortal spirit herb?

Reaching level nine immortal pill grand master was extremely important to Ye Mo too. He had emperor carrot. If he didn't reach level nine immortal pill grand master, he couldn't concoct Taiwei Emperor Return Pill. His cultivation level was stuck now but if he reached immortal monarch peak stage, the first thing he would do was to concoct the emperor pill.

Plus, his emperor pill lacked a few supplementary immortal spirit herbs. He needed to buy them too.

"Sect leader Ye, I stay at Black Lightning Immortal tower. If sect leader Ye just came you can come stay there." Nong Yan immortal emperor invited.

Ye Mo could tell that it was their own immortal tower. He waved his hand, "I still have some business. We can meet when the secret realm opens again."

Nong Yan immortal emperor saw this and saluted with his fists before leaving.

Since Yu Xie was this familiar with Zha Kui city, Ye Mo planned to ask her so he didn't ask Nong Yan Immortal emperor about the auction.

"Ye Mo how did you suddenly reach immortal king and you're not scared of immortal emperor?" Yu Xiang immediately asked.

"Yu Xiang I told you not to be so rude." Yu Xie reproached.

Ye Mo waved his hand to Yu Xie. He didn't like people like her. He would rather talk more to Yu Xiang.

"I just had some fortune." Ye Mo was then prepared to ask about Nie Shuangshuang.

Yu Xie seemed to know how Ye Mo felt and said without being asked, "When I woke Nie Shuangshuang, I took her out once and she was taken away."

"Who is it?" Ye Mo's face sunk. He thought that finding Yu Xie meant he would be able to see Nie Shuangshuang easily. He didn't have to take her away but he had to see her at least.

Yu Xie quickly explained, "It's the Ice God Palace's second palace lord. She happened to come to middle heaven domain and saw Nie Shuangshuang. She immediately wanted to take Nie Shuangshuang in as disciple. I didn't dare to say anything to the immortal god body so I could only watch them take her away. at least Ice God Palace is an emperor sect, it's better than having Shuangshuang stay with me."

Ice God Palace? Ye Mo immediately thought of the conflicts between him and the Ice God Palace. He killed the palace lord Lang Yin at the Heartless Sea.

Plus, he got a small blue bead word in the ice god forbidden grounds. There was an extremely beautiful woman in there called Qing Ru. Even now, Ye Mo still hasn't seen a woman with more perfect body than hers. Even Zhen Bingyu was at most on par with her.

Thinking of Zhen Bingyu's perfect body, Ye Mo's heart rustled a bit. He shook his head. He had been with her for so long and she even completely undressed in front of her and said she was willing but he rejected her. Now that she wasn't with him, he was instead missing her?

Yu Xie was a woman and caught Ye Mo's daze in expression. She believed the two were lovers.

Thinking about this, she said, "The three palace lords of the Ice God Palace are all immortal emperors. It's said there's also a grand immortal emperor. They're a top level emperor sect in Qingwei Heaven."

"Ice God Palace is in Qingwei Heaven?" Ye Mo asked in shock.

Yu Xie immediately answered, "Ice God Palace is a complicated sect. They have sects in the low and middle heaven domain but then they disappeared. Only the grand heaven domain sect remains and they rarely come out into the world."

"An emperor sect would have annihilated branches?" Ye Mo asked in confusion.

Yu Xie explained, "At first, they only took in female disciples but later started to take in male disciples. Their cultivation method is very unique and male and female disciples started to cultivate together causing some complications."

Ye Mo didn't ask, he knew this complications meant lust.

"The original Ice God Palace is sacred and clean but because of this situation, it made Ice God Palace no different to Demon Joy sect. Due to this internal conflicts erupted and this caused Ice God Palace to weaken."

Yu Xie clearly knew this thing clearly and continued, "after that, those elders who only wanted to take in female disciples left the Ice God Palace. Then, some powerful elders left causing Ice God Palace to greatly weaken. Because their sect location was very good, the Ice God Palace was gradually annihilated in sect battles."

"The Ice God Palace in Qingwei heaven was created by the elders who left?" Ye Mo asked.

Yu Xie nodded, "Yes, those elders took away 90% of Ice God Palace's cultivation methods and heritage and established a new Ice God Palace. When the original Ice God Palace perished for countless years, the new Ice God Palace came out but the new one was immortal emperor level. No sect dared to underestimate them. They are now a powerful emperor sect that only takes in female disciples."

"Where is the Ice God Palace located?" Ye Mo asked. He had decided to go to Ice God Palace after this. He needed to go to Qingwei heaven to test that Feng Kong grand emperor.

"No one knows the location of the Ice God Palace. They only know it's on top of an ice mountain in Qingwei heaven. They detest men and it's said if men appeared near their sect they would be killed immediately. With their power, even Wei Feng grand emperor didn't want to say much..."

Ye Mo didn't ask about the Ice God Palace anymore, "Do you know if there's an auction in the city?"

Yu Xie breathed easy seeing that Ye Mo didn't keep asking about the Ice God Palace, "Because the Zha Kui secret realm is about to open in a few days, today is the highest level auction in the city. Martial sister and I bought entrance tickets. It's said there aren't many things but every thing is the top level items."

Ye Mo immediately realised that purple robes really went to every big auction. Tonight, he had to get that stone stool.

Ye Mo gave an extreme grade immortal sword to Yu Xie, “thanks for saving Shuangshuang, this is for you.”

Then, he gave a jade bottle to Yu Xiang, “Hope you can reach immortal king soon. And, I need to go to the city now. After the secret realm opens, I’m going to buy immortal spirit herb at the gate. If you get immortal spirit herb inside you can sell it to me.”

Then, Ye Mo turned and disappeared.

Chapter 1896: Mysterious Thing

“Martial sister, why is this Ye Mo this wealthy. He casually gave you an extreme grade immortal artefact. I think he wants to thank you for saving that Nie Shuangshuang?” Yu Xiang looked at the extreme grade immortal artefact in admiration.

Yu Xie’s face went red. She said Ye Mo would stop at golden immortal and gave him some pills and measly amount of immortal crystals but now Ye Mo gave her an extreme grade immortal artefact. This was irony to the extreme.

She didn’t know that this extreme grade immortal artefact to Ye Mo was about the same as ten thousand low grade immortal crystals that she gave to Ye Mo. Instead, the thing Ye Mo gave Yu Xiang was more valuable.

After admiring her martial sister’s extreme grade immortal artefact, Yu Xiang opened her jade bottle too. When she saw the immortal pill inside, she was dumbfounded and subconsciously exclaimed, “Yi King pill?”

Yu Xiang was also dazed. She quickly grabbed the jade bottle and found it was a Yi King pill, a special grade one.

“Pack it up quickly, we need to go.” Yu Xie subconsciously looked around and quickly grabbed Yu Xiang followed the direction Ye Mo disappeared at.

...

The biggest merchant tower in the Zha Kui immortal city was the Xian Lan merchant tower. The square at its door was filled with people. The Zha Kui secret realm was about to open. Many people came to participate in the auction but it's caliber was extremely high. The entrance fee was 100k. Many people didn't want to pay that much. That amount could be used to buy a lot of things.

These immortals set up all sorts of stalls outside the merchant tower to trade things forming a popular temporary market place.

When Ye Mo came to the entrance, the ordinary tickets were sold out. Only 500k immortal crystals front row seats were left. As for rooms, they were bought out by the sects coming here.

Ye Mo didn't care, he just paid 500k immortal crystals and bought a front row seats. He came to this auction only to buy that stone stool.

Other than this, he wouldn't care about anything else. He would only buy if there was level nine immortal spirit herb but Ye Mo knew that this auction was before the opening of the secret realm so there would probably be less immortal spirit herbs.

Four hours later, the auction commenced. Ye Mo went in first. He knew that if the purple robed man was going to fish, the stone stool wouldn't be coming out later on. That purple robed immortal emperor wasn't going to waste much time here for it.

There almost wasn't much difference between the 500k ticket and 100k ticket. Only the seat was more front and had a few simple blinds. These blinds couldn't even stop spirit sense.

The auction grounds were huge, people sat on all sides. The stage was at the center and its area was huge. There were formations on the side. Just the ticket earnings for this time was 10 billion.

Ye Mo knew he wouldn't be staying in here for long but he didn't care. This was his first time sitting in the hall of an auction. If it was before, he wouldn't dare to do this. Sometimes power could save you a lot of trouble.

If one left the auction in the hall during the middle, then almost everyone could see but if you were in a room, no one would know.

People entered the auction grounds in an orderly fashion, people rarely used spirit sense to scan around. No one coming to the auction was a simple character. They hated people scanning around with spirit sense.

Ye Mo wasn't going to scan with his spirit sense. since that purple robed immortal emperor came to Zha Kui immortal city, he was probably here for the auction.

Five minutes later, everyone had come in and the gates closed.

In the center was a seductive great eternity immortal. She didn't wear much but her clothes wrapped her body perfectly. Immediately, she became the center of attention.

"Thank you qian beis for coming to our Xian Lan merchant tower for the auction. I'm the auctioneer for today, Han Yan..."

After this, an extremely powerful spirit sense swept the entire scene. This spirit sense scanned on Ye Mo and Ye Mo immediately knew that this person was an immortal emperor tertiary stage. Everyone knew what this meant, there was an immortal emperor guarding this auction. Everyone on the auction had to follow the rules or suffer the consequences.

But no one who came to the auction was stupid, no one would start trouble here.

After that spirit sense wave, Han Yan smiled "This auction will have a mysterious item. It's one of the top items in the entire immortal realm. Han Yan believe that everyone would want it after seeing it..."

After saying this, even Ye Mo wanted to know what it was. This woman really knew how to entice people.

Just when everyone hoped for her to say what the item was, she changed her tone, "But this item will be coming later on. Please wait patiently everyone. The first item of the auction today will be an emperor wood blue fruit. This item is very hard to see in the immortal realm and it can allow an immortal emperor to break through a level without no side effects..."

Han Yan's words immediately made some people excited especially those immortal emperors and immortal monarchs. Even this fruit wasn't the top item, just how amazing was that top item?

Hearing this, Ye Mo was shocked. He didn't expect it to only be the start and there to be such an item. There were some immortal emperors in the grand heaven domain but there weren't that many. One heaven domain had about ten to twenty. A powerful heaven domain would have no more than 50.

What shocked Ye Mo the most was that someone recognized this fruit. He could recognize it due to Kai Mi's jade slip. Now that someone else recognized it too then it meant other divine emperors saw this fruit.

People started bidding immediately and the bids clearly came from the rooms. The price soon reached 5 billion immortal crystals and an extreme grade immortal range. Even ordinary monarch sects wouldn't be able to afford this price, the extreme grade immortal range part.

But Ye Mo knew that this price wasn't high for people who went to that palace.

Eventually the price settled at that. This was mainly because Ye Mo took almost all the extreme grade immortal ranges off the immortal emperors.

Now that these immortal emperor came back to the immortal realm, of course they would use the immortal ranges for their cultivation home and sect.

Ye Mo was certain that this immortal emperor paying this extreme grade immortal range definitely came from the palace or he wouldn't be this wealthy.

“I will be auctioning the second item now...”

The great eternity immortal female immortal purposely stopped for a while and gathered everyone’s attention before she continued “The second item is a half god artefact, a defensive one. Yao Lang Abyssal Mist Seal. The starting price is 200 million immortal crystals, each increment must be no less than 10 million...”

Chapter 1897: Smash The Auction

Then, the great eternity immortal female immortal raised a palm sized seal. It had this faint mist surrounding it. It was obvious this seal wasn’t ordinary. Ye Mo could see that too but he didn’t want to buy it. He had a broken octagonal cauldron. If he repaired it, it was a god artefact and one much stronger than this seal.

Many people bided on this item and the price soared from 200 million to 500 million and was eventually bought by someone in a room.

The subsequent items were all beyond Ye Mo’s anticipation. Even he didn’t expect the items would be of such high caliber.

Although there were a few things Ye Mo wanted, he resisted the urge to buy. Before acquiring the stone stool, he didn’t want to do anything to garner attention.

Ye Mo noticed that the things were getting better and better and clearly other people noticed this too. The auction was getting more and more heated.

Level eight runes, level eight immortal pill and even one level nine beast core.

Other people were getting more and more excited but Ye Mo was getting more and more anxious. According to his estimates, the stone stool should be out now but it was nowhere to be seen.

Ye Mo thought about the man giving up on this fishing tactic. After all, it was no secret now but this was the best method for him.

Since there was such a huge auction here and the purple robed man was here, why hasn't the stone stool appeared yet.

If it wasn't that he might offend everyone, Ye Mo even wanted to scan all the rooms in this auction with his spirit sense.

"I believe everyone is very happy with this auction but I need to tell everyone that the climax is just about to begin. The next item is the mysterious item I spoke about. Before I show it, please allow me to introduce it..."

This great eternity immortal female immortal used tactics to gather attention on her again before saying "Everyone knows that in the immortal realm, what decides how high one can reach is whether they have a good cultivation method or not and cultivation resources or fortunes. But these are secondary. I believe everyone knows the main reason, that's right, immortal spirit root. Without a good immortal spirit root, no matter how much resources and fortunes you have, you can't reach higher levels."

"Immortal spirit root is settled after conversion to immortal essence, who can change it? Is there an item that can change immortal spirit root being auctioned?" Someone asked immediately.

When cultivators ascended to the immortal realm, their spirit root would convert to immortal spirit root.

Usually, the element of the spirit root wouldn't change but during the conversion process, many people would get impurities causing a prodigy in the cultivation realm to become an ordinary person in the immortal realm.

Of course, some people would get better immortal spirit root after the conversion. These people are highly sought after by the big sects.

Although the immortal realm had treasures that changed immortal spirit root, they are rarer here compared to the cultivation realm. Not even immortal emperors may be able to get it much less ordinary people.

Even immortal emperors desperately needed things that could change their immortal spirit root.

Seeing the atmosphere of the auction was at an all time high, the great eternity immortal female immortal continued, “The following item isn’t an immortal spirit herb that can change immortal spirit root...”

Before people could ask, she continued, “This is a prenatal immortal ice spirit root female immortal whose cultivation essence hasn’t converted yet...”

With this, the auction erupted.

Prenatal meant that this was a spirit root coming with birth. At the start, one couldn’t see the cultivation speed of this spirit root but after reaching disaster transformation state, the cultivation speed would suddenly sky rocket. After ascending to the immortal realm, the spirit root wouldn’t change at all. It would only get more and more pure.

Because this spirit root is immortal spirit root, after ascending to the immortal realm and the cultivation essence wasn’t converted to immortal essence, the spirit root could be stolen. The way to do that was simple, just one dual cultivation.

However, once the cultivator started cultivating immortal realm cultivation method and converted cultivation essence to immortal essence, this would no longer work.

There were other ways of taking the prenatal immortal spirit roots but dual cultivation was the most direct and simple way.

One could imagine that if a cultivator took this prenatal immortal ice spirit root away, then even the worst spirit root immortal wouldn’t have to worry about cultivation speed.

With such spirit root, even if you didn’t have much cultivation resources, there was hope of reaching dao.

The great eternity immortal female immortal suddenly waved her hand and a figure appeared next to her. An extremely beautiful woman wearing blue flowery dress appeared before everyone.

Her face was pitiful but she was clearly subjugated.

“Such a beautiful cultivator...” some people exclaimed. People already started asking about the price. The prenatal ice spirit root was already a huge surprise and yet she was such a beautiful female immortal.

Ye Mo knew all this too and he was amazed that the auction could even obtain such a cultivator.

But when Ye Mo saw the female immortal through the projection, his face changed. Without a thought, he torn open the formation at the auction stage and grabbed the female immortal into his arms while kicking away that great eternity immortal female immortal.

This all happened in less than a second and that great eternity immortal female immortal was kicked away spitting blood.

“How dare you start trouble at our Xian Lan Merchant tower, die...” A cold voice sounded and at the same time, a powerful immortal emperor domain came down.

The immortal emperor tertiary stage pressure made all the immortals here feel hard to breath. Everyone used their cultivation method to defend against such pressure while cursing Ye Mo for being an idiot.

Who didn't want good things? If people could rob things in an auction, then this world would be in chaos. All the good things would belong to the divine emperors.

The immortal emperor didn't even attack Ye Mo, Ye Mo was a mere immortal king middle stage. He wasn't worth it. at this moment, the four immortal monarchs on the side had charged on the stage and attacked Ye Mo.

One immortal king middle stage but four immortal monarch attacking together. One could see how tight this auction was.

Ye Mo sneered, his powerful immortal monarch domain expanded out and at the same time, Zi Xu let out a purple ring. The ring flashed and four blood arrows flew on the stage before landing on the ground.

“Clap...” Eight claps sounded and the four immortal monarchs turned into eight pieces of bodies. No essence spirit seeped out. Clearly their essence spirit was annihilated in that strike.

Chapter 1898: Immortal emperor Battle

The auction scene fell silent. No one made a sound. The people here weren't simple, there were many immortal monarchs and immortal emperor in the rooms.

But Ye Mo's strike silenced everyone. Killing four immortal monarchs in just a few seconds. No matter how strong these immortal monarchs were, Ye Mo's strike was the pinnacle god art of the immortal realm. Even an immortal emperor was at most like this.

People realised that this thing wasn't so simple. Clearly, it was an immortal emperor who killed the four immortal monarchs on the stage. He just hid his power to immortal king. There were some strange immortal emperors who didn't want rooms and instead sat in the hall. This was no strange thing.

Some immortal emperors in the room had recognized Ye Mo. Many of them stayed in that palace with Ye Mo. They knew Ye Mo was hard to mess with and wasn't simple. Nong Yan immortal emperor saw Ye Mo too. He was surprised. Ye Mo was strong but no matter how strong he was, he wouldn't be able to challenge a big guy like Xian Lan merchant tower right? They had three immortal emperors and a mysterious supporter.

This immortal emperor tertiary stage of the merchant tower realised things didn't seem to be right. He immediately flew down to the stage.

He was no idiot. He knew Ye Mo was no immortal king. Can an immortal king killed four immortal monarchs with one strike? This guy was not only not an immortal king but an immortal emperor who was no weaker than him or maybe even stronger.

"I'm Xian Lan merchant tower Sha Yu immortal emperor, who are you? Why are you starting trouble at our auction? Even if you're an immortal emperor peak, you will be held responsible for the incident today." The immortal emperor fell on the stage and asked.

Ye Mo was an immortal emperor stronger than him, the later he attacked, the more it benefited him. He wasn't the only immortal emperor at the merchant tower but because the caliber of this auction was too high, he came to guard here as he was the strongest.

Ye Mo ignored this immortal emperor, when he saw this selling item was Tang Beiwei, his fury was completely ignited. Even if the four grand emperors were here all in front of him, he would still kill much less a merchant tower with a few immortal emperors.

When Tang Beiwei saw Ye Mo, there was only excitement and endless joy. Her nose felt sour and tears welled up in her eyes. There were thousands of things she wanted to say but she couldn't speak a thing.

Ye Mo instantly released Tang Beiwei's restriction when the immortal emperor spoke.

"Brother..." Tang Beiwei ran into Ye Mo's arms. She could no longer hold her emotions and bitterness.

She had been separated from Ye Mo for two hundred years, she thought she would never be able to see her brother again. But when she was at her most helpless time, her brother appeared before her.

She didn't care about all the eyes glancing at her. She was only thinking that if she could see her brother before she died, she would have no regrets.

When Ye Mo really appeared before her, she thought it was an illusion. But feeling Ye Mo's arms, she knew this was real.

"Beiwei, it's my fault, I didn't take care of you guys..." Ye Mo felt very bad.

Tang Beiwei heard Ye Mo's voice and began crying out loud like a child. Finally, she found her family, finally she found a shoulder she could rely on.

She could only keep crying to express her happiness and bitterness at the same time.

This title made everyone realise what happened. No wonder this immortal emperor killed people in fury. The auction was selling his little sister. Could an immortal emperor's sister be sold at an auction? No immortal emperor would be able to take that.

Those greedy glances at Tang Beiwei immediately disappeared.

Sha Yu immortal emperor dazed. He completely didn't understand why an immortal emperor still had a newly ascended little sister. This was too absurd.

If they weren't real brothers and sisters, this female immortal wouldn't be able to express such genuine feelings.

Sha Yu immortal emperor soon cast this thought aside and casually saluted with his fists to Ye Mo, "Dao friend, we didn't know we were selling your sister. We're very sorry about this but we didn't capture her. Someone else captured her and sent her over. After seeing her you can pay our price and take her away but your tore open our formation and killed four of our immortal monarch. Do you think you're the strongest in the immortal realm? We don't have many immortal emperors but we have three."

Ye Mo took out a pill to Tang Beiwei and said coldly "Xian Lan Merchant tower? That's in the past, from today on, there will be now Xian Lan merchant tower in the immortal realm."

If he didn't happen to see his sister being caught, her end would be tragic. Ye Mo didn't want to reason with Sha Yu immortal emperor. If he didn't have enough power, Sha Yu immortal emperor wasn't going to reason with him. Even so, he was asking for compensations.

Hearing Ye Mo's words, Sha Yu immortal emperor was furious. His terrifying immortal emperor domain expanded. Ye Mo waved his hand and sent out shadowless who was talking shit in the golden page world.

As soon as shadowless came out, he opened his mouth and that powerful grand immortal emperor domain was crippled.

Sha Yu immortal emperor was shocked but Ye Mo already punched over, god art shatter space.

The terrifying lethal force whirlpool instantly swept the auction grounds. The sound of space tearing shook people's hearts. It was as though the next moment, this space would be crushed by Ye Mo.

Some low level immortals were spitting blood despite this god art wasn't targeted at them. The immortals rushed out of the auction grounds out onto the square. Other than some immortals who didn't want trouble, most immortals stayed at the square. Who wanted to miss the grand battles between immortal emperors?

Those immortal emperors in the rooms didn't leave, even some immortal monarchs didn't leave. They wanted to see this battle.

When his domain was bit open by shadowless, Sha Yu immortal emperor knew that if he didn't use black snow return life he was going to lose. This immortal emperor was stronger than him but now there was an even more absurd immortal spirit beast who could devour domain. He didn't even know what this immortal spirit beast was.

But now he didn't have the time to think. Ye Mo's shatter space was too terrifying. All the seats and blinds in here were torn to dust.

Even the rooms upstairs were beginning to crack. In another second, they were pulverized too. These powders didn't fall on the ground and instead joined the lethal force whirlpool and smashed towards him.

The people in the rooms retreated but no one intervened as that would mean helping Sha Yu immortal emperor attacking Ye Mo. Even those who didn't know Ye Mo didn't want to offend a powerful immortal emperor like Ye Mo now.

Even people from the merchant tower started fleeing. His god art lethal force whirlpool had been gathered within a certain range. Otherwise, with his current power, he could clap away the entire immortal city easily.

Sha Yu immortal emperor felt the lethal force whirlpool was formed by nine space lethal forces. When it swept over, he felt it wasn't nine but ninety or 900. It had the power and madness to destroy everything.

Sha Yu immortal emperor regretted a little but he wasn't slow or retaliation. A black three cornered flag and a blue bell was released.

There was this whimpering sound as soon as the black flag was released.

Even Tang Beiwei who was protected completely by Ye Mo began to daze. Those immortals outside couldn't stop this sound at all. Some people even stabbed into their chests with their own hands.

Chapter 1899: Black Snow Flying Dance

Some immortal emperors could tell that Sha Yu immortal emperor's magic artefact was half god artefact Tendon Breaking Twisted God Flag. Once released, even some weak willed immortal emperor would lose their minds for a short time.

Sha Yu immortal emperor used this flag to create a huge name for himself. More than a few immortal emperors had died in his hands.

Sha Yu felt threatened by Ye Mo and didn't want to fight with him but that wasn't because he was afraid of Ye Mo. His flag could control people's minds and Ye Mo didn't look very old. Even if Ye Mo's power wasn't weak, his mind cultivation definitely wasn't adequate.

However, what shocked him was that Ye Mo wasn't affected by the flag at all. Instead, the shatter space fist force was growing.

At the same time, Ye Mo yelled, "Shadowless..."

Without a need for this calling, shadowless already opened his mouth and bit to the flag. The whimpering sounds immediately disappeared.

However, the lethal force whirlpool became even more terrifying. When everyone had left this place, the merchant tower shook and this grand merchant tower was swept in the lethal force whirlpool too forming a terrifying flow striking towards Sha Yu immortal emperor.

The immortals who retreated to the square immediately knew that Ye Mo intentionally gathered force and didn't release. Otherwise, they wouldn't be able to leave at all.

Rumble.

Ye Mo's shatter space finally struck with Sha Yu immortal emperor's blue bell.

A terrifying sound swept over the place.

Sha Yu immortal emperor felt his blue bell pause and he immediately knew things weren't good. Ye Mo's domain was more fierce than he had imagined. Meanwhile, his domain shattered due to shadowless.

Clank clank. Although the blue bell stopped the shatter space fist force, the blue bell was struck away under the pressure of Ye Mo's domain.

The fist force was blocked but the remaining lethal force whirlpool still struck Sha Yu immortal emperor. In that instant, a huge ravine appeared below his feet. Sha Yu immortal emperor also spat many mouthfuls of blood.

Thud.

The merchant tower that was powdered by Ye Mo fell into the huge ravine. All the immortals on the square could hear the terrifying rumble and the flying dusts.

A few watching immortal emperors waved their hands and the dust disappeared. Now, the audience finally saw that the previously erect merchant tower was suddenly gone. A ravine that wasn't completely filled up took its place.

Just how many treasures would a merchant tower have but it was now destroyed and buried underground.

Sha Yu saw the extremely dimmed down flag and was very shocked. He thought that even if he was no match for Ye Mo, the difference wasn't too great. But after that clash, he immediately knew that he was far weaker than this immortal emperor.

"Stop..." Sha Yu immortal emperor immediately called out.

Ye Mo acted as though he didn't hear it and said to shadowless "Shadowless, take care of Beiwei..."

Then, he stepped in air and struck out Zi Xu, a 3000 meter long purple sword rays struck down. A ravine appeared in mid air as though space was severed in half. The nearby space all fell into that ravine.

Li Long immortal emperor knew that Ye Mo only hacked out less than 5 percent of his full power. He had seen Ye Mo's strike reach 30km but now it was only 3 km, clearly Ye Mo didn't want to damage the immortal city.

Even so, the force of this purple sword rays made people nearby not even dare to look at it. Some low powered people didn't even dare to scan their spirit sense.

The sword force was still gathering but the ground beneath had completely cracked and was getting deeper and wider.

Sha Yu immortal emperor's face was green. How could he not know that Ye Mo wanted to kill him. He was shocked and furious. He didn't understand how this random guy had no concerns at all killing an immortal emperor in the immortal city. He was more furious that there were so many immortal emperors watching and no one came up. Even his best friend Demon Joy sect Xuan Feng immortal emperor pretended that he didn't see anything.

The pressure from the purple sword ray was getting more and more terrifying and his immortal emperor domain was beginning to cripple again. Sha Yu immortal emperor couldn't worry about other things now. His flag whimpered again and in half a second, black snow flowers started raining.

When everyone saw these black snow flowers, it was as though these snow didn't land on the ground but on their hearts. A few weaker level great immortals who stared at the battle didn't even make a sound and palmed the top of their head.

The black snowflower didn't float into Tang Beiwei's sight yet and shadowless roared devouring the snowflowers.

Sizzling sounds arose. Those black snowflower looked weak but when they landed on the powerful purple sword ray, the sword ray paused and even the space near it began to slow down.

Ye Mo frowned, he didn't expect the black snowflowers would be able to do this.

He felt this uneasiness feeling in his heart.

A light wind blew past and Ye Mo felt those black snowflowers slowly surround him. They carried this extremely melancholic whimper.

In that instant, Ye Mo resonated with that feeling. These snow flowers should be white but due to that endless sorrow, they became black. How could he hurt them?

Ye Mo almost couldn't resist touching that black snow flower.

He almost couldn't resist walking towards them. It was as though Qingxue, Luo Ying, Yimo and them were there.

All the figures he had seen flew past him.

"Hold me tight, I have mobility rune..." Luo Ying said as she took him out of Magical Herb Sect.

"If I jump off, would you jump off with me..."

It was Luo Xuan, how was she now? Where was she?

“Husband, I’ll go wherever you go...” Xiaoyun called.

“Three birth eternal, the name is eternity!” His immortal king naming.

But why did he feel something was wrong? Just what was wrong?

...

Sha Yu immortal emperor’s face was pale. When he used black snow return life, he saw Ye Mo daze. He saw that sword ray slow down. Ye Mo was slowly walking towards him as though he had lost his mind.

There was a cruel look on Sha Yu immortal emperor’s face. A yellow beam shot out.

“Little sister wait, boss is in trouble...”

Shadowless immediately noticed something was wrong with Ye Mo. Ye Mo’s killing intent on the sword ray was disappearing. This wasn’t how the boss did things, boss never showed mercy once he attacked.

Shadowless flew in and bit down.

The endless black snow immediately crippled forming a black stream towards shadowless’s mouth.

“Crack...” A spear ray appeared in Ye Mo’s eyes. Ye Mo suddenly woke up. The Three Birth Chant flowed freely again too.

Chapter 1900: One sword one fist

The next moment, Ye Mo actually felt his cultivation level that hasn't risen after devouring countless immortal ranges rise. It was very slow but he clearly felt that if it kept increasing, he would eventually reach immortal monarch peak stage.

Rumble. Sha Yu immortal emperor's yellow beam had reached Ye Mo's chest. Ye Mo didn't care at all and instead charged towards it. at the same time, Zi Xu's crevice lit up again.

The 3km long purple crevice in the air smashed down with a terrifying black mark.

Splurge.

The crevice fell down from Sha Yu immortal emperor's brows and his eyes immediately dimmed down. He looked at Ye Mo unrelentingly but didn't want to fall. He didn't understand why Ye Mo didn't stop his lethal blow and wanted to die with him. When the yellow beam exploded on Ye Mo's chest, can Ye Mo survive?

Thud. At the same time, the yellow beam exploded on Ye Mo's chest. Ye Mo's clothes ripped and marks of blood flew up. However, he didn't fall down like Sha Yu immortal emperor. The yellow beam just bloodied Ye Mo's chest but didn't pierce through.

"I understand." Sha Yu immortal emperor said before blood mist shot out of his forehead. He finally fell and before his essence spirit could seep out, shadowless ate it and threw a storage ring at Ye Mo.

...

"Brother..." Tang Beiwei reacted and ran to Ye Mo.

Ye Mo's chest looked bloody but he was fine.

"I'm fine." Ye Mo patted Tang Beiwei's shoulder and ate another blue spirit essence pill while putting on a new set of clothes.

Ye Mo didn't say much to Tang Beiwei as he knew more people from Xian Lan merchant tower would come. But this time, it was two immortal emperor primary stage. One person hid amongst the crowd while the other charged towards him.

The two immortal emperors saw Ye Mo hack open Sha Yu immortal emperor and shadowless devouring the essence spirit. The immortal emperor appeared calm but there was extreme shock in his eyes. Devouring an immortal emperor? What immortal spirit herb was this?

"Dao brother, why did you kill Sha Yu immortal emperor? If our Xian Lan merchant tower offended you we're willing to compensate. Even if you're a divine emperor, you can't casually kill our immortal emperor like this." The immortal emperor primary stage said.

After killing Sha Yu and turning the Xian Lan merchant tower to dust, Ye Mo's anger was finally appeased a little.

"Kill Sha Yu immortal emperor? Little thing you're too naïve. Boss means that Xian Lan merchant will disappear forever. You dare to reproach him! Whatever, it's the last time you'll be doing it in your life." Shadowless laughed and sealed off the escape path of this immortal emperor. He was very satisfied to act so cool in front of so many people.

The immortal emperor primary stage's face changed. He didn't expect Ye Mo to be this dominant. There were so many immortal emperors here, why did no one say anything? If they were so easily annihilated, they wouldn't survive till today.

The immortal emperor primary stage glanced at the cold faced Ye Mo and the greedy shadowless and his heart sunk.

He didn't dare to ask Ye Mo anything and just looked at the watching immortal emperors and spoke "Xian Lan merchant tower is about to be exterminated. Everyone here are immortal emperors, beings who stabilize the 33 grand heaven domains. Wu Ming really want to ask why no one has come out to uphold justice?"

Zheng Ren immortal emperor was close to Ye Mo so upon hearing this, he sneered, "Your Xian Lan merchant tower was selling sect leader Ye's little sister in the auction. Sect leader Ye saved her but Sha Yu immortal emperor asked for sect leader Ye to compensate. Wu Ming immortal emperor, you've

reached immortal emperor for more than ten thousand years. Tell us how we should uphold justice? We should gang up on sect leader Ye and kill him to protect Xian Lan merchant tower so you guys can keep auctioning his sister?”

Zheng Ren immortal emperor’s words immediately caused some laughter. Ye Mo collected a lot of immortal ranges in the dimension but also connected with some people. There were six or seven immortal emperors from that palace here. Other than Li Long immortal emperor, the rest of them quite approved of Ye Mo.

Wu Ming immortal emperor dazed, he didn’t expect such things had happened. He only noticed Tang Beiwei next to Ye Mo now. He immediately recognized her now.

What shocked Wu Ming the most wasn’t Ye Mo killed Sha Yu immortal emperor but Ye Mo gaining the formal support of Zheng Ren immortal emperor.

Anything could be said in two ways. It depends which side the supporters we retaking. If Zheng Ren immortal emperor was supporting him, he would say that Ye Mo was being cocky and disrespecting the rules of the auction. Then he destroyed the merchant tower and killed an immortal emperor. This was seriously endangering the entire immortal realm.

Wu Ming had realised the situation at stake and quickly saluted with his fists to Ye Mo, “sect leader Ye, I was out and didn’t know we offended sect leader Ye. Wu Ming is willing to apologise and give our most genuine apology.”

Wu Ming wanted to calm Ye Mo down first. How could things end like that after killing their immortal emperor and bringing down their merchant tower. Ye Mo was going to regret going against Xian Lan merchant tower for a woman.

Ye Mo said calmly “I said Xian Lan merchant tower will disappear from now on. Second, compensate 100 level nine immortal spirit herbs, 10 billion immortal crystals. The third is whoever sent my sister to Xian Lan merchant tower, you guys must hand over the person to me.”

Wu Ming’s face changed and said with trouble “Sha Yu immortal emperor’s death is our fault. I don’t dare to judge if sect leader Ye is right or wrong on that matter. Personally, I’m willing to apologise to sect leader Ye. But us three immortal emperors aren’t the ones behind Xian Lan merchant tower but a

being above immortal emperor. Plus, as a member of Xian Lan merchant tower... I'm not going to spill the privacy of the customer, of course..."

Ye Mo didn't wait for Wu Ming to finish before expanding his domain. Lethal force instantly swept out. At the same time, Zi Xu hacked out too.

He gave them a few conditions but it didn't mean he was negotiating. Wu Ming dared to negotiate with him, constantly speaking about the merchant association and wasn't going to hand out the person who caught Tang Beiwei. He was also subtly threatening him.

So what if it was beyond immortal emperor? Kai Mi was a divine emperor? Did he think that bringing out a non-existent divine emperor would make him scared to attack. He could tolerate other things but his sister was almost ruined. Even if there was a Primordial Essence Divine Emperor behind him, he wasn't going to take it.

With Ye Mo's attack, Wu Ming's face changed again. He didn't expect Ye Mo to be this dominant. He didn't even say anything. He was at least an immortal emperor and spoke of a support who was beyond immortal emperor.

When Ye Mo's domain covered him, his immortal emperor domain was like a ship in a tidal wave.

Not good, he was far from a match for Ye Mo. Wu Ming realised immediately and released his magic artefact.

Before he could completely activate it, Ye Mo's shatter space had arrived. The sword rune tore apart everything in front of him. He could only barely block with his magic artefact before being hacked away.

"Wait, I agree..." Wu Ming was scared soulless. He didn't expect Ye Mo would be this terrifying.

Ye Mo didn't seem to hear this and punched again. Shatter space swept over.

Splurge..

Blood mist flew and Ye Mo's punch had pulverized this immortal emperor primary stage.

Shadowless looked at this in disappointment while licking his lips. An immortal emperor primary stage and he wasn't able to eat it, sigh.

The square outside was filled with people from hollow immortal to immortal emperor. There were even some mortal cultivators but when Ye Mo did what he did, the square was in complete silence.

Immortal emperor was already the peak of the immortal realm. How many people could cultivate to immortal emperor? It wasn't easy for them to see an immortal emperor much less see one get killed. But now, two immortal emperors were killed right in front of their faces without leaving behind a mark.
