Chapter 1941: Ye Mo has quite a lot of good things

By the river side, a middle aged immortal monarch with a face covered in dark spots stared at the river in shock. He suddenly found this passage with extremely weak murderous chi. Even an immortal king can go in. Did something occur at the river or was there another tide?

He soon took out a ship and threw it onto the river. He going forward a few hundred meters he realised that what he saw was real. As long as he followed this passage, the murderous chi would be extremely weak.

Realizing this, he suppressed the excitement in his heart and sped up. His ship soon disappeared.

“What’s going on? Why did I see Gu Xu immortal monarch go into the river on a boat alone? Did I see wrong?” the white haired Gai Xiangcheng stared at the river in shock. There were a few people next to him. Some came from the Duniang hotel, some joined half way.

“You didn’t see wrong, there’s a tunnel here. The murderous chi is extremely thin. Gu Xu left from this tunnel.” The scrawny old man frowned at the tunnel.

The old man and the woman glanced at each other. There would be tides on the river every 100,000 years. This would result in regions of weak murderous chi.

Tunnels like this would form and only then could one get in the lightning kill palace easily. Otherwise, more than ten immortal emperors would have to join up to go in.

Even with that, there would have to be immortal god body cultivators. But this wasn’t at that time, how could there be such a tunnel?

The scrawny old man and the old woman knew why they came here. They didn't come for the palace. If they could they would've long gone. They came for Ye Mo. Ye Mo could easily take out an extreme grade immortal range and emperor wood blue fruit. This meant that he had a lot of good things on him.

Of course, if Ye Mo didn't dare to go into the river they would still follow him.

"Unless he has a treasure that can split the murderous chi..." The old woman's spirit sense scanned the tunnel and frowned.

The old man sneered "Since there's a tunnel here and any immortal king can go through it there's no need to team up."

Then, the old man released an immortal ship and soon disappeared on it.

Seeing this, the old woman didn't waste time too. She brought her disciple and disappeared in the tunnel. The rest of the people all released their immortal ships and went into the tunnel.

...

The three had stopped now. they were at the center of the river. A whirlpool appeared before them. The map pointed to this whirlpool.

This whirlpool was very strange. There was not a drop of water inside. The water of the river seemed to have went around the whirlpool. This whirlpool was like a well in a river. It was very eerie.

"It's probably here." Yu Lesheng said.

"Let's jump in together." Ye Mo's spirit sense scanned a sliver of lightning source murderous chi. Ye Mo didn't need to absorb these murderous chi anymore. He just needed to find a place to settle and then fuse the killing force into his god art.

His dao wasn't the dao of carnage so he didn't need to keep devouring murderous chi here. He just needed to understand the killing force inside.

Ye Mo jumped down first. To prevent the couple from being affected by the murderous chi, he devoured the murderous chi here.

In the tunnel, Ye Mo's spirit sense saw a big palace. Moments later, the three and shadowless landed in this palace with lightning flickering everywhere. There was less murderous chi in here.

The palace was huge and there was spirit sense restriction. Ye Mo's spirit sense couldn't even see what the border of the palace was.

"Thank you brother Ye, without you we would never be able to make it here. This is the outer palace." Yu Lesheng bowed to Ye Mo thanking him from the bottom of his heart.

Ye Mo didn't mind and said, "Without your map I wouldn't be able to find here. We're collaborating. I need to go in alone to find something. I believe you guys are doing the same. When we leave, you guys can leave with me."

Yu Lesheng bowed, "Brother Ye we already troubled you enough. Even for this well, if you didn't refine the murderous chi we wouldn't be able to go in. We didn't put in any effort on the way. If we still need to trouble you to go out then we would be too useless. We have transmission space rune. We can leave at anytime."

Shi Qiong saluted with his fists and said, "yes brother Ye, so let's split off here. We're leaving the abyssal river after this palace too."

"Oh no." Ye Mo suddenly thought of something.

"What's wrong?" Yu Lesheng looked at Ye Mo with confusion.

Ye Mo patted his head, "I've been devouring murderous chi on the way and forgot that it would form a tunnel for some time. This is pretty much telling people how we got here and we paved the path for them for free."

Ye Mo was in a state of enlightenment as he learned his god art. He didn't think of this.

"Then we..."

Ye Mo stopped Yu Lesheng from talking, "It's pointless people are already here. We don't have time to block that tunnel."

As soon as Ye Mo said this a middle aged man with dark spots on his face landed not far from them.

"Gu Xu immortal monarch?" Yu Lesheng recognized this person.

"So you two got here first. It seems you got some nice immortal artefact." The middle aged man recognized the couple. As for Ye Mo he ignored him. Shadowless looked extraordinary but he didn't care.

Yu Lesheng's face sunk. Although their cultivation level was weaker than Gu Xu immortal monarch, they weren't scared of him.

"Boss who is this kid, should I eat him in one gulp?" Shadowless bared his teeth towards Gu Xu immortal monarch.

"Haha, nice pet, it wants to eat an immortal monarch in one go. No wonder you don't want to team up with us. You can come here alone." A sharp voice sounded, it was that old woman.

As soon as she said this, the scrawny old man landed first in the palace. The old woman followed and another 9 figures landed.

“Your immortal pet is quite nice.” The old man stared at shadowless and laughed. He was shocked about who Ye Mo was, how did he have so many good things.

“Qian bei...” Yu Lesheng greeted them. Ye Mo could ignore the two but they couldn’t.

“Ye Mo you really have a lot of good things.” The old woman laughed bleakly while staring at shadowless for a long while.

Chapter 1942: The Old Woman Attacks

“Brother Ye...” Yu Lesheng was a bit worried. He didn’t know Ye Mo’s cultivation level, but that old woman was an immortal emperor.

Seeing Yu Lesheng worry, Ye Mo immediately said, “Brother Yu, you guys go first. Don’t worry about me. By the way, my sect is Gong Hua Heaven’s Mo Yue Immortal Sect. You can visit my sect when you’re free.”

Yu Lesheng was dazed. How could Ye Mo say that? Even if he was going to say this, it should be via sound transmission – why would Ye Mo expose who he was? Even if Ye Mo ran away today, they could find his sect.

But he couldn’t really point out Ye Mo’s fault and could only saluted with his fists. “If there’s a chance to, we’ll definitely come visit. Goodbye.”

Then, the two dashed into the palace.

Ye Mo wasn’t scared of course. He didn’t need to hide his sect. People from everywhere already knew. These people just hadn’t gone out yet and thus didn’t know.

Seeing Ye Mo tell them his sect name without hesitation, the scrawny old man and the old woman frowned. Ye Mo didn't seem to be an idiot, why did he say something this stupid?

"Everyone go do your own things." The scrawny old man didn't expect Ye Mo didn't even hide who he was. He was more surprised that Ye Mo came from a low heaven domain sect. If that was the case, things would be much easier.

Many people wanted to go, but these two immortal emperors hadn't spoken yet. Now that the scrawny old man said this, they all saluted with their fists and left. Soon, only the scrawny old man, the old woman, and Ye Mo remained.

"Ye Mo, your immortal pet is really good. It paved the way when you came right? I'm always staying near the river, I really lack a pet like this. Name a price, I'll have him." Cai Liu couldn't be bothered pretending.

"You can't afford it." Ye Mo scorned. A mere immortal emperor middle stage dared to threaten him.

"Since the emperor can't afford it, then I won't buy it. After taking the pet I can't even be bothered looking at the other things." The old woman's tone turned tough and a jade staff appeared before her head.

The scrawny old man laughed and actually took a step back. Ye Mo's pet was good, but he understood the old woman's words. She only wanted the pet and the rest of the things were his.

Seeing Ye Mo not even move after she released her magic artifact, the old woman was completely furious. A mere body refinement cultivator dared to take her this lightly. Was he the only body refinement cultivator in this world?

In her fury, the jade staff swept up a green veil that completely enveloped Ye Mo. At the same time, her immortal emperor domain was extended. She didn't plan to kill Ye Mo immediately. She had planned to teach this guy a lesson first.

The violent green colour squeezed at Ye Mo like spilling mercury. If Ye Mo was really an immortal king, he would be squeezed into pieces by this domain.

Shadowless opened his mouth and didn't even devour the domain. To him, this old woman was so weak that he didn't need to help.

At the same time, Ye Mo's domain expanded.

Cracking sounds appeared and the old woman's face changed. She felt her domain cracking under Ye Mo's domain.

"Staff..." The old woman felt Ye Mo's immortal essence even more powerful than hers and her face changed. Her staff turned into a green color that was filled with dead chi.

When Ye Mo released Zi Xu, Shadowless couldn't resist biting.

With a crack, the old woman's immortal emperor domain instantly crippled and cracked open. A purple ray swept all the nearby killing force and hacked open her green death chi.

Rumble

Zi Xu sword ray clashed with her staff, easily tearing open the green rays. When the fierce killing force bound the old woman, she completely realised that she was nothing to Ye Mo.

No wonder Ye Mo didn't consider her a threat. With his power, how could she even be a threat to him?

Splurge

The purple sword ray drew a gash on the old woman.

"Devour domain..." How could the old man not realise that he saw wrong. This Ye Mo could easily kill an immortal emperor middle stage. In that case, even he was no match for him. Not only that, his pet could devour immortal emperor domains.

When he saw Ye Mo's god art clearly, the old man smashed out a red mist. At the same time, his scrawny bold grew tall and bulky.

The red mist instantly went into Ye Mo's domain, forming red ripples and blocking the purple ray.

Crack...

The red mist instantly went into Ye Mo's domain, forming a wall of red ripples blocking before Ye Mo's purple ray.

Crack crack

Ye Mo's Crevice god art carried space lethal force and smashed on the red ripple wall.

The next moment, the wall was filled with cracks and the purple rays ended, unable to pursue the old woman.

Light cracking sounds also came from the ground.

The extremely hard Lightning Kill God Palace floor had small cracks. The old woman picked up her broken arm and connected it with a pale face. The young girl she brought had a purple face. She had never seen her master completely lose in one move and lose an arm. If the old man didn't help, her master would be in a worse position.

The red mist wall magic artifact had disappeared. Clearly the scrawny old man put it away, but his tree skin face was full of shock.

"No wonder you're so cocky, you're already immortal emperor tertiary stage." Ye Mo felt the old man's power as soon as he fought.

The scrawny old man was even more shocked and saluted with his fists to Ye Mo seriously. “Good eyes immortal friend, good god art.”

“My god art is ordinary, I’ve cultivated for too short a time – but your god art is quite amazing. You probably cultivated it countless times, amazing.” Ye Mo raised his thumb towards the old man.

The scrawny old man was even more shocked. Did this mean that Ye Mo could see his origin?

Ye Mo ignored the scrawny old man and walked towards the old woman carrying Zi Xu. “You still haven’t taken my immortal pet yet, why are you leaving?”

“I’m blind, I’m willing to compensate for any losses.” How could the old woman not know that if she kept fighting, she would die? She might be able to use a space transmission rune, but if she left, her disciple would be dead for certain.

No wonder Ye Mo wasn’t scared to have his origin known. With his dominance, who would dare to look for trouble with him? She began to doubt whether the scrawny old man saw wrong. Ye Mo had such powerful immortal essence and spirit sense, how could he not be an immortal emperor?

She knew she hadn’t used her real god art yet, but seeing how relaxed Ye Mo was, she knew that even if she used her trump card she would be no match.

The scrawny old man landed next to the old woman and saluted with his fists “Immortal friend Ye, I saw wrong, please have mercy. Martial sister Cai Liu and I are willing to compensate for your losses.”

The old woman knew what the scrawny old man meant. If they joined up they could defend against Ye Mo, but if they separated they had no right to talk to Ye Mo.

Ye Mo laughed. “Do you have something that I would want? If not, then move to the side, I will deal with you later.”

“I have Duniang’s wine recipe. If you’re willing I can give it to you.” The old man returned to his scrawny look.

“You’re with that Duniang.” Ye Mo’s tone was contemptuous. This guy didn’t admit it before, but now he admitted it himself.

Chapter 1943: Chu Chen Divine Emperor

The scrawny old man didn’t explain and just took out a jade slip and threw it to Ye Mo. Ye Mo’s spirit sense scanned in. It was indeed the recipe for the wine. There were all sorts of wines inside, including Duniang’s wine.

“It seems you’re very good at making wine.” Ye Mo put away the jade slip while his killing intent slowly dissipated. His tone was scornful.

“You have a share of Duniang’s hotel?” The old woman looked at the scrawny old man in surprise.

Ye Mo glanced at the old woman. “Little Mud has given the road toll – where’s yours? I don’t see it.”

The scrawny old man got angry. “Ye Mo, I gave you the recipe for the wine and didn’t ask for the Emperor Wood Blue Fruit, what else do you want? I was just showing some respect to you on behalf of the both of us, since when did it become road toll?”

He was regretting to the extreme now. He should’ve used the recipe to trade the emperor wood blue fruit. Now, he gave the recipe but didn’t get the fruit.

“I opened the path into the palace. You guys came in without any effort, don’t you need to pay a road toll? You guys come in ungratefully and try to rob my immortal pet? Do you think I’m easy to abuse because my cultivation level is low?” Ye Mo asked coldly.

“What do you want?” The old woman stared at Ye Mo. She knew that if she pissed Ye Mo off, Ye Mo would really kill her. Even if she abandoned her disciple, she only had a 50% chance of running away.

“Level nine immortal pills and level nine immortal artifacts are trash to me. I don’t even care about level nine immortal spirit herbs, what can you give me?” Ye Mo asked.

The old woman and the scrawny old man’s faces changed. Level nine immortal things were trash to Ye Mo, what did he want?

Ye Mo really didn’t intend to get anything from the old woman. He said these things to see if the old woman knew some specific secrets about the palace. Ye Mo didn’t believe she had no secrets when she was the one who proposed to the team to come here.

Seeing the old woman with a sunken face, Ye Mo wanted to remind her when she suddenly took out an arrow from her storage ring and threw it at Ye Mo. “This arrow is from the Golden Bow of Immortal Extermination. It’s not something ordinary level nine immortal spirit items can compare with. If you’re still not satisfied, then even if I die I will fight you.”

Ye Mo grabbed the arrow. When he took it, he felt it was exactly the same as the first arrow. He almost couldn’t contain his excitement. Ye Mo didn’t expect that before he even started looking, he got the second arrow.

“This is not bad, I’ll take it.” Ye Mo forced down his excitement as he played with the arrow calmly.

Seeing Ye Mo take her thing, the old woman breathed easy. As she used her immortal essence, the broken arm was connected to her.

“Seeing that you’re so genuine, I’ll tell you something.” Ye Mo looked at the old woman and suddenly smiled.

“What?” The old woman looked at Ye Mo warily.

“This is my guess. Little Mud stayed at the Qing Wei Abyssal River all these years probably to recover his cultivation level. Of course he’s relying on the murderous chi and Duniang wine. Perhaps he made the Duniang wine,” Ye Mo scanned the scrawny old man and said.

The scrawny old man sneered and was about to leave.

Ye Mo said calmly, "I heard many years ago, someone used a broken heaven domain and smashed a divine emperor to death. I wonder if that divine emperor is really dead or just faking it."

"Who the hell are you?" The scrawny old man suddenly turned around and stared at Ye Mo coldly. If he was threatened by Ye Mo, he would've released his magic artifact and killed Ye Mo already. He knew that if he fought with Ye Mo, he would lose a lot of power even if he didn't lose. The current him couldn't afford that.

"I've already said who I am, I'm Mo Yue Immortal Sect's sect leader. So what?" The old man only used one move but Ye Mo already recognized him.

His ancient feeling was very similar to Kai Mi. That red rippled wall formed so casually. Ye Mo had never seen someone use a god art with that ease. Only divine emperors and some top grand emperors would be able to do that.

The old man's chi made Ye Mo realise that he was definitely once a divine emperor. He stayed at the river to use murderous chi to recover his power, but another reason was that his cultivation level fell and he could no longer hide his divine emperor chi. He had to use the murderous chi here to hide it.

Plus, the scrawny old man gave him the recipe. How could Ye Mo not know?

A divine emperor called Little Mud; Ye Mo thought of that Chu Chen divine emperor who was smashed to death.

(TN: The Chen character in Chinese is made up of the characters for 'little' and 'mud')

Seeing that Ye Mo didn't even care about his threats, the scrawny old man's force sagged down.

"You're really a divine emperor?" the old woman asked in shock.

The scrawny old man sighed dejectedly “Yes, I’m Chu Chen, but now I’m no longer a divine emperor. Ye Mo, who told you I was smashed to death by another heaven domain?”

Ye Mo had some interest in this Chu Chen divine emperor, but he didn’t have time to waste now. He needed to go find the bone arrows and spirit control the one the old woman gave him.

“I heard it from an elder in my sect.” Ye Mo didn’t lie, Kai Mi was indeed an elder now.

“Impossible, how can an elder from your low heaven domain know how I disappeared?” Chu Chen rebuked in contempt.

Ye Mo laughed, “That elder of mine is called Kai Mi. I heard he used to be a divine emperor too.”

“Kai Mi? He’s not dead?” Chu Chen said in shock. Then he immediately said, “How can Kai Mi join your sect?”

“Because he sees potential in my sect, so he joined. Kai Mi is now an immortal emperor elder of Mo Yue Immortal Sect.”

Chu Chen opened his mouth and eventually said nothing. He actually believed Ye Mo a little. Ye Mo definitely wasn’t old and his cultivation level seemed immortal monarch tertiary stage, but his battle power is no weaker than immortal emperor tertiary stage. This was unheard of.

If there was a prodigal immortal king tertiary stage peak who could kill an immortal monarch middle stage, Chu Chen divine emperor would believe it a little, but the difference between immortal monarch and immortal emperor was like heaven and earth. An immortal emperor primary stage could easily kill a few immortal monarch tertiary stages.

Ye Mo was a mere immortal monarch, but he could kill immortal emperor middle stage. Even with the help of his pet, this was absurd.

“Chu Chen I heard you say you can find some life corners in here. It seems you’re quite familiar with this place. Can you sell me a jade slip?” Ye Mo smiled and wanted to pat Chu Chen’s shoulders.

Chu Chen divine emperor dodged and said, “No.”

Then he ignored Ye Mo and left like the other immortal monarchs.

Seeing this old woman about to go, Ye Mo suddenly said, “Where did you get that bone arrow? Is it from the palace?”

“No, a few thousand years ago an immortal emperor escaped from the river. He was heavily injured. I saved him and he repaid me with this.” the old woman said and looked vigilantly at Ye Mo.

Ye Mo doubted her words. He suspected she killed that guy and robbed his things, but regardless, Ye Mo wasn’t interested.

Seeing Ye Mo stop bothering her, she saluted with her fists to Ye Mo and took her disciple and disappeared.

Ye Mo soon left. 15 minutes later, he found a corner to set up a stealth formation and took out the time formation disk as he went in.

He had to spirit control this bone arrow first. Ye Mo didn’t choose to go into the Golden Page World in here.

With two bone arrows, even if he encountered a top level master, he would have more confidence.

Chapter 1944: The big hall flickering with lightning

Ye Mo spirit controlled the bone arrows once. The first time it took him nearly 3 years to refine the 48 restrictions. But this was the second time and he was familiar with the restrictions. According to what Ye Mo thought, he only needed less than one month to spirit control it.

One month in the time formation disk was less than half a day outside. It didn't affect him finding things in the palace at all.

But the time formation disk ran for a day and Ye Mo only spirit controlled to the 13th restriction. Ye Mo put away the time formation disk in disappointment. He didn't expect that the restrictions of the second arrow was completely different to the first one. This meant that the two bone arrows were forged with different means. The restrictions were similar but weren't the same type. The person who forged this bow and arrow was a genius.

If Ye Mo wanted to spirit control the 48 levels, he would need more than a year. Ye Mo couldn't waste that much time in the outer palace so he stopped spirit controlling the bone arrow.

...

Ye Mo put away the time formation disk and stealth formation and quickly went into the depth of the palace.

As Ye Mo went deeper into the lightning kill palace he felt another murderous chi. This murderous chi was different to the murderous chi on the river but was also very sharp.

There was also a sliver of lightning in this murderous chi. Ye Mo was certain that ordinary immortal king and immortal monarch primary stage wouldn't be able to stay for long if they didn't have special means. He didn't know how the previous immortal monarchs came here.

The murderous chi here was powerful but couldn't affect Ye Mo at all. Ye Mo easily passed through this area.

Rows of broken restriction appeared before Ye Mo. There were even some dried skeletons here.

These were clearly restrictions with things inside but the restrictions were broken and the things inside were gone.

Ye Mo carefully took shadowless past these broken restrictions. A grey mist path appeared before Ye Mo. There was extremely fierce killing chi inside but much less murderous.

This wasn't anything to Ye Mo and was even weaker than the chi on the river. He took shadowless in the tunnel without hesitation.

There were some scattered bones along the tunnel. Clearly, some immortals had been killed by this tunnel.

After this tunnel Ye Mo saw more broken restrictions. However unlike before, there were some restrictions not yet broken. A few immortal monarchs were attacking these unbroken restrictions. Ye Mo had never seen these few immortal monarchs. Clearly while he was spirit controlling the bone arrow, more people come.

Ye Mo took shadowless inside and those immortal monarchs started at Ye Mo in shock. When they saw Ye Mo had no wounds on him, they started attacking that restriction again. No one came to talk to Ye Mo.

The palace seemed to have a simple layout. Ye Mo didn't stop and took shadowless past these broken restrictions and went into the next tunnel.

The murderous chi here was much fiercer than before. On top of that there was a sliver of heart demon calling.

"Hmm, how are you fine?" That dark spotted immortal monarch tertiary stage looked at Ye Mo in shock.

Clearly, they saw the scrawny old man and the old woman pass here. They thought Ye Mo was dead for sure but it's been a day and Ye Mo appeared here too.

Ye Mo looked at this level 3 palace. Most of the immortal monarchs were here. He saw the long haired immortal monarch and that monk like immortal monarch from the Duniang hotel. However, the white skinned immortal king tertiary stage was gone.

Ye Mo didn't see Yu Lesheng couple. They were probably either gone or at somewhere else.

A little less than half the restrictions in here had been broken but there were quite some complete restrictions.

Ye Mo knew this black spotted immortal monarch, he was called Gu Xu. But of course Ye Mo wasn't going to talk to him. He was going to take shadowless to the next level. Seeing Ye Mo ignore him, Gu Xu was about to go up to talk. Just at this moment, a sudden rumbling sound appeared in the palace.

An extremely terrifying sharp killing chi bursted out. It was far more powerful than the killing chi in the tunnel. The three immortal monarch primary stages couldn't even resist against this and was grinded to pieces. The rest of the immortal monarchs no longer dared to keep attacking the restrictions. They all released their magic artefacts.

Ye Mo's spirit sense domain extended out. Those killing chi immediately calmed down on contact with his spirit sense domain and normal domain. Shadowless gulped on the side and the calmed down killing chi were actually all devoured.

The killing chi came and left quickly. Moments later, it disappeared from this hall.

After that, only four immortal monarchs remained alive in the hall. Even so, they were covered in wounds. Their faces were pale and eyes fearful.

Gu Xu immortal monarch was fine but was also injured by the killing chi. When he looked up and saw Ye Mo was completely fine and didn't even half a single fold on his clothes, there was shock and fear in his eyes.

Ye Mo ignored Gu Xu but shadowless sneezed at him, "Kid, the next time you dare to act cocky to me I'll eat you."

Ye Mo shook his head. Shadowless lacked vocabulary, it's always eating.

Ye Mo didn't care about this mere immortal monarch, he sped up and went into the tunnel to the next level.

The bone arrows weren't simple. Even in this palace, it probably wouldn't be in the outer palace.

In this tunnel, there weren't only murderous chi but also dense clusters of lightning attacks. To others, this tunnel was many times harder than the previous one. Even lightning immortal spirit root immortals wouldn't dare to face this lightning. Even shadowless didn't dare to face this lightning alone.

To Ye Mo, the lightning arcs were easier than the previous tunnels. When he came in, those lightning arcs struck him. He devoured some and the rest didn't affect him at all.

After passing this tunnel, Ye Mo found the hall to be smaller than before. Despite that, there were tens of restrictions inside and not many were broken. The palace was empty and even Ye Mo's spirit sense could only scan within a hundred meter radius.

"I'll open a restriction." Shadowless charged up to a restriction and smacked down with his leg.

Before Ye Mo could speak, shadowless already stepped on this restriction.

At the same time, a terrifying sound erupted in the hall as though it was divine damnation.

Shadowless was so scared that he quickly hid behind Ye Mo. The next moment, countless lightning arcs and lightning smashed down. They instantly filled the entire palace. Ye Mo and shadowless was drowned in this lightning.

But Ye Mo didn't care, he felt this lightning kill palace was very familiar.

Chapter 1945: Stairway Lightning Palace

Ye Mo soon remembered why he had this feeling. He felt this feeling when he was in that lethal force dimension palace. The restrictions here were pretty much similar to the same. Due to this discovery, Ye Mo believed more that the person who set up the palace in the lethal force dimension came from the same place as the person who left this palace.

Seeing shadowless have some trouble defending against the lightning, Ye Mo threw shadowless into the golden page world. He didn't care if he faced the endless lightning alone.

Ye Mo walked up to the restriction shadowless attacked and hacked with Zi Xu. Unlike others, he could see a little of what was inside the restriction.

This strike hacked at the weak part of the restriction. In just one strike, a crack opened in the restriction.

After that, more lightning rained down in the palace. Ye Mo didn't care at all and hacked out again.

The restriction cracked and was completely hacked apart by Ye Mo's strikes. Ye Mo looked at the empty restriction and was very disappointed. It seemed not all the restrictions here had things. Many restrictions were empty.

Ye Mo hacked open a few restrictions but found 90% of them were empty. Only from one restriction did Ye Mo get a small dagger. When he grabbed it, Ye Mo felt a powerful pulling force that seemed to want to teleport him out.

Ye Mo's spirit sense domain and domain quickly extended out blocking this power. Then, he began looking at the dagger in his hand. It was only 9 cms. Ye Mo scanned with his spirit sense and found that he couldn't see through the restriction on it.

Ye Mo put the dagger into the golden page world and immediately felt the pulling power become much weaker. He wasn't interested in opening more restrictions here so he sped up going forward. The more forward Ye Mo went the denser the lightning was.

However, he no longer saw more tunnels. The path was completely covered with lightning and all sorts of fierce killing chi. This lightning was mixed with murderous killing intent.

Ye Mo thought that this was indeed the lightning kill god palace. Even an immortal emperor might not be able to get forward safely.

Ye Mo wondered if Yu Lesheng couple got here and if Chu Chen divine emperor and the old woman could come here.

Half an hour later, Ye Mo felt the place he was going getting more and more narrow and slanted. It was as though he was walking into the depth of the earth.

At the same time, Ye Mo's spirit sense was getting more and more suppressed so he used Spirit Will Nine Transformations's god art rainbow.

His spirit sense formed an invisible sword rainbow and swept out. Immediately, the spirit sense binding was broken.

The scene within 10km were in his sea of consciousness. He saw Chu Chen divine emperor and the old woman. The immortal king disciple of hers was completely fine. They stood at a place and there seemed to be less lightning at that place.

Ye Mo immediately realised that was so called the life corner.

Other than these two, Ye Mo scanned two more. They were standing at a spot with very little lightning. That was probably a life corner. One of them was an immortal emperor primary stage and one was immortal emperor tertiary stage.

Ye Mo's spirit sense scanned the four and they immediately sensed it. however, Ye Mo could see them but they couldn't see Ye Mo. Only Chu Chen divine emperor frowned and glanced at Ye Mo's position but shook his head.

Just when Ye Mo wanted to go over, the four got up at the same direction and dashed in a direction. The next moment, they disappeared from Ye Mo's spirit sense.

Ye Mo sped up too. In a few seconds he came to where they disappeared but there was a space formation door.

Seeing four immortal emperors go in, Ye Mo went in without hesitation.

As soon as Ye Mo did, the nearby lightning and lethal force grew scarce. He found himself in a golden stairway palace.

As soon as Ye Mo came here Chu Chen and the old woman noticed but they said nothing. The other two immortal emperors stared at Ye Mo with uncertainty. All those who could come here were either immortal emperor or came with immortal emperor.

Now Ye Mo was here. Although he showed his power to be immortal king middle stage, he was probably an immortal emperor.

They were confused because they haven't seen Ye Mo before.

There were six immortal emperors always staying at the river and they all knew each other but they have never seen Ye Mo.

"Immortal friend how come you seem unfamiliar?" The immortal emperor tertiary stage saluted with his fists to Ye Mo. He looked amicable.

Ye Mo smiled, "I'm a passerby, so I came to see. No need to mind me."

at this moment, Ye Mo's spirit sense had seen this entire palace completely. The further one went ahead, the narrower the stairs became and the more lightning there was. They were standing at the bottom of the stairs.

As they went up, there would be denser lightning arcs and lethal force. There was no life corners anymore. One's spirit sense couldn't reach into the lightning killing force. One couldn't see what was on the other side of the stairs.

Ye Mo didn't use spirit sense rainbow to check. Even if he was, he wouldn't do it in front of the other immortal emperors. All the immortal emperors came here clearly because this was where the good things were.

"We have five immortal emperors here. Although it's not many but we can stack our domains together and release our defense magic artefacts. We might still be able to get inside." The only immortal emperor primary stage said.

"I'm fine with it." The immortal emperor tertiary stage said.

Chu Chen divine emperor and the old woman nodded, "I'm fine too."

Seeing Ye Mo not talk, everyone looked at Ye Mo.

Ye Mo turned back and smiled, "You guys can team up, I like to go alone."

Then, Ye Mo sped up and walked on the stairway.

Hearing this, Chu Chen divine emperor and the old woman seemed normal as they had seen Ye Mo's power but that immortal emperor primary stage's face sunk and said coldly "Insolent fool, are you the only immortal emperor here? Who isn't an immortal emperor here?"

Ye Mo heard this immortal emperor primary stage of course but he didn't have time to waste here.

"Brother little mud, this person is too cocky. We've been at the river all these years but haven't seen someone as cocky as him." The immortal emperor primary stage saluted with his fists to the scrawny old man.

He was immortal emperor primary stage but at the peak, he was just one step away from middle stage. In terms of power, he was on par with the old woman and could even suppress her.

Chu Chen immortal emperor coughed a few times before saying, "Oh, I've seen Ye Mo at Duniang hotel, I can't really say much. Cough, cough cough..."

Hearing this, the immortal emperor primary stage knew that Chu Chen divine emperor didn't want to help. He wasn't asking Chu Chen divine emperor to help. He just wanted to notify Chu Chen divine emperor in case he was no match for Ye Mo. He wanted the scrawny old man to resolve the conflict.

Ye Mo seemed to be an immortal king middle stage but only an idiot would take him for one. Ye Mo didn't look very old so he suspected Ye Mo was an immortal emperor primary stage.

He didn't ask the old woman and then turned his eyes to immortal emperor tertiary stage, "Brother Ku Ang, I'm going to teach this guy a lesson..."

The immortal emperor tertiary stage smiled bitterly and interrupted him while pointing at Ye Mo "Yinfa Immortal emperor, have a look. Do you think you can do it? if so, then go challenge him."

Chapter 1946: Thing in the tunnel

Yin Fa immortal emperor just noticed Ye Mo. Ye Mo had walked into the lightning lethal force. The dense cluster of lightning arcs and lethal force had completely enveloped him but he was completely fine.

Yin Fa immortal emperor stared at Ye Mo with shock. He knew that to walk in the lightning arcs, at least a few immortal emperors must stack their domains together. He thought Ye Mo would stop after feeling the pressure but the reality was completely opposite. Just who was this person? How could he walk into there alone?

"It's not that immortal pet, he can do it himself..." Chu Chen divine emperor murmured.

Chu Chen divine emperor originally thought that the reason Ye Mo could pave a path on the river was due to his strange pet. Chu Chen divine emperor even thought that the pet was no immortal pet but god beast.

When he saw Ye Mo go into the lightning freely he knew he completely guessed wrong.

“Martial sister Cai Liu, who is he? Is he very strong?” Yin Fa immortal emperor woke up and asked the old woman.

The old woman sneered, “If he wants to kill you he wouldn’t need more than 15 minutes.”

Yin Fa immortal emperor took in a cold breath and felt timid. Luckily that immortal emperor wasn’t someone to start trouble. If it was some strange tempered guy, he might be fighting Ye Mo now.

“We’ll join our domains and go in. staying here isn’t the way.” Chu Chen divine emperor said seeing that Ye Mo’s spirit sense had disappeared from spirit sense.

The other people immediately agreed. The immortal emperors released their defense magic artefacts and walked onto the stairway together. As for the old woman’s disciple, she was sent into a small world.

...

The lightning lethal force here was strong but for Ye Mo, it didn’t affect him much. He was devouring part of the lightning arc lethal force. A part of it hit his immortal god body middle stage body and couldn’t do much damage.

When Ye Mo’s spirit sense completely couldn’t see Chu Chen divine emperor and them, he used a rainbow cut to break open here. Ye Mo’s spirit sense could clearly see what was ahead.

More than ten lightning arc tunnels appeared in his spirit sense. there seemed to be different things in each. Ye Mo immediately realised that this was a really good place to cultivate carnage god art. If he learned all the killing chi here, then his carnage god art would be in great completion.

But Ye Mo wasn't interested in this, he cultivated Three Birth Chant not carnage god art.

Ye Mo's spirit sense scanned into one of the tunnels and a jade platform restriction appeared in his spirit sense. Some of the restrictions were broken. There was a platform after every restriction and a rink. They were shaped in different forms but were all in the form of swords.

When Ye Mo's spirit sense scanned another tunnel, he also saw another jade stone platform. However, the rink were spear shaped.

Ye Mo soon realised that the platforms were for placing magic artefact and the empty platforms meant that the magic artefact were taken away. those platforms with complete restriction would have top magic artefacts inside.

Realizing this, Ye Mo's heart lit up. His spirit sense scanned in a few more tunnels. He had to find which tunnel golden bone arrow was.

Tens of seconds later, Ye Mo found the tunnel with arrow shaped magic artefact. It was on the far left. Ye Mo dashed in without hesitation.

He didn't even care what the other tunnels have. The Golden Bow of Immortal Extermination was too useful to him.

After going into the tunnel, Ye Mo immediately sensed that the lightning arcs and murderous chi in here was completely different to outside. It was calmer at the start but the deeper you went the more volatile they were.

The few jade stone platforms at the front had been broken. Ye Mo sped up and eventually he even had to use his domain to help defend himself.

Ye Mo passed more than ten jadestone platforms but some of the restrictions were broken. There were some unbroken but Ye Mo didn't touch it. Ye Mo wasn't looking for any arrow he was looking for the golden bone arrow. These rinks were very ordinary, there was no way it would be the golden bone arrow.

At the 13th platform, Ye Mo finally stopped. The restriction was broken and the ring had the exact print as Ye Mo's golden bone arrow. However, it was empty.

Ye Mo came to the next platform but the restriction was also broken. The shape was exactly the same as the bone arrow.

15th, 16th platform... when Ye Mo reached the 18th platform and saw the restriction was also broken, his heart sunk. He didn't check one by one, he knew these nine platforms would be joined together.

Ye Mo scanned with his spirit sense and indeed found that till the 20th platform, the restrictions were all broken. There was only the 21st platform and the restriction here wasn't broken. However, even with his spirit sense and using rainbow technique, he felt it difficult here.

Ye Mo took back his spirit sense god artefact and stacked his spirit sense domain with his immortal monarch domain. He carefully moved forward. At the latter part of the tunnel even he felt it was tough. How did the previous 20 people come in here. This wasn't a place ordinary immortal emperors could come in.

Zhi Zong immortal emperor would at most be able to come to the 9th platform and this was if he relied on a top magic artefact. otherwise, he couldn't be able to come to here.

Zhi Zong immortal emperor definitely had some magic artefact or someone to help him take the Golden Bow of Immortal Extermination.

However, he didn't get Zhi Zong immortal emperor's storage ring so he doesn't know.

Ye Mo came to the 21st platform and found that this was the final platform.

Thinking about all the other platforms left, Ye Mo's dejected mood was a little better. He had decided to break the restriction here and then go to other tunnels.

This was a similar restriction to the one in the void palace. Ye Mo spent 15 minutes to study this restriction and then hacked down with Zi Xu.

Rumble, Zi Xu sword ray was blocked completely and Ye Mo was shaken a few meters away.

Such powerful restriction. Ye Mo didn't expect he could break it in one strike. He hacked another strike. The rumbling sound mixed in with the lightning sound in this tunnel creating an echo. Ye Mo hacked down again and again.

The restriction cracked a little under Ye Mo's attack but they soon repaired.

Ye Mo attacked faster and faster and the marks he made were deeper and deeper. When he saw the crack get larger, Ye Mo found in shock that there seemed to be an extremely powerful force in the palace pulling him wanting to teleport him away.

Ye Mo was shocked and quickly smashed out Zi Xu. Eventually, he even used crevice god art.

"Crack..."

Finally, the restriction was completely broken and the jadestone platform appeared.

Chapter 1947: Abyssal River Loot

A faint golden bone arrow was placed in the center of the rink. Ye Mo rejoiced and grabbed that bone arrow without hesitation. As soon as it came in his hand, the terrifying killing intent let Ye Mo know that he got the real golden bone arrow.

Immediately, that terrifying teleportation power filled all of Ye Mo's body and was about to tear Ye Mo away not allowing him to stay in here anymore.

Ye Mo's spirit sense domain and domain smashed out and could only barely stop this pulling power.

Ye Mo clearly didn't want to be teleported out like this. There were so many good things here. He quickly sent the golden bone arrow into the golden page world and prepared to defend against this pulling power was all of his might.

The same time the golden arrow was thrown in the golden page world, the pulling force grew much less but was still there. It just wasn't as scary as before.

Ye Mo breathed easy. If he didn't have the golden page world, he would definitely not be able to resist the pulling force.

From this, Ye Mo believed that ordinary people could only take one item away here. How did Zhi Zong immortal emperor take the bow and the arrow?

Ye Mo didn't keep breaking the restrictions here. He probably only had one more chance. Even if he was teleported out, he would spend a lot of time to come back in.

After leaving this tunnel, Ye Mo started using his spirit sense god art to see what was inside the restrictions. He only had one chance so he had to find something suitable for him.

Ye Mo's spirit sense scanned and each tunnel seemed to be filled with different magic artefacts. Ye Mo had decided that if he couldn't find anything really good in these tunnels he would go to the sword tunnel to find a sword he need.

But soon, Ye Mo realised that there were too many good things here. One tunnel was filled with all sorts of pill cauldrons. This itched Ye Mo's heart. Although he had a Shen Nong cauldron and a low grade god artefact but as a peak immortal pill grand master, it was better to have more pill cauldrons.

Ye Mo resisted the urge to go into the pill cauldron tunnel and kept scanning his spirit sense. His heart itched more. He saw flying magic artefact tunnel. Flying boats, ships, carts... Ye Mo wanted to go in and find a top level flying magic artefact and swap out his fake space time boat.

He was a level eight immortal forgery grand master but he couldn't forge his own flying god artefact. Plus, he didn't have the materials to make one.

When Ye Mo's spirit sense scanned the most right tunnel. He was dazed. There were only three platforms there and two of them were broken. Each platform were bead shaped and had 12 rinks on each platform.

The shape was quite familiar. Ye Mo subconsciously took out the 12 lightning orbs he had. This was the lightning sea god orbs he was finding for Yi Mo. At the time, he was only hollow immortal and fought a golden immortal for this and almost died.

Ye Mo immediately charged into the right tunnel.

Ye Mo even thought he had collected all 36 orbs. Yimo had 12 on her and he had 12. He found another 12 here. Then wasn't it complete?

Ye Mo started attacking the third platform restriction.

As he attacked, he threw out formation flags. He knew he could use formations to help him.

The restriction here was stronger than the restriction for the golden bone arrow. Ye Mo even suspected that the restriction was attacked before and didn't break, that's why it was left here.

Zi Xu hacked out purple ray god art while Ye Mo threw out break formation flags.

Half a day later, the restriction was completely surrounded by Ye Mo's formation flags.

Ye Mo knew that if he could calm down and slowly derive this formation, he would not only be able to solve the restriction and increase his formation knowledge. Attacking it with force now would also help but not as good as slowly deriving.

Ye Mo didn't have the mood to slowly derive. He felt the more he broke the restriction, the greater the pulling force was.

Ye Mo suspected that if he calmed down to derive he would soon be teleported away. it wasn't easy for him to see this 12 orbs, how could he let himself be teleported away.

He used another crevice god art. This time, the god art gathered all the lightning arcs and lethal force nearby and smashed on the brittle restriction. The restriction was instantly torn open creating a loud thud.

12 orbs with lightning sparks around it appeared before Ye Mo. Ye Mo felt it was a bit different to the lightning orbs he got before but he couldn't care that much. He didn't even check it and just threw it into his golden page world.

"Rumble..." A wind pipe like sound pressed on Ye Mo. That extremely powerful pulling force stopped Ye Mo from staying here and teleported away.

...

Ye Mo felt his head dizzy. When he woke up, he found himself at the side of the Qing Wei abyssal river. This was the place he entered the river.

Ye Mo released an immortal ship and dashed in the river again. This lightning palace had things he had never seen before. How could he leave with just three items.

The tunnel Ye Mo had opened before was completely gone. Ye Mo didn't refine murderous chi here to pave a way. He just charged at the palace.

Ye Mo was extremely fast and in just half a day he came to that whirlpool place. The whirlpool was still there, Ye Mo breathed easy. Without hesitation, he dashed into the whirlpool.

However, Ye Mo was extremely disappointed to find that as soon as he went in, he was pushed out by a powerful force. This whirlpool remembered that he came in here and didn't allow him to go in a second time.

Ye Mo fell in the river. When the murderous chi and killing intent invaded him, Ye Mo realised that one could either come in here once or would have to wait a long time before coming back again.

Ye Mo thought the powerful being who palmed out the river left this here but now he abandoned that idea. There was no way he would leave something this orderly here. That person would even destroy the immortal realm, how could he leave this for the immortal realm. This palace was here almost as if to encourage people to increase their power to get the magic artefacts.

No wonder those immortal emperors didn't like up to come here again and again. Ye Mo had made up his mind to come back again when his cultivation level was higher.

When Ye Mo was surrounded by the murderous chi, he felt very uncomfortable all over his body. Just when he wanted to charge out, a figure dashed at him like lightning.

It was abyss dark shark. Ye Mo saw this immediately. He swept his purple sword ray out and blood spread in the water.

Although he killed this shark in one strike, he was pushed back tens of meters by the shark's force.

A white stone appeared before Ye Mo. Ye Mo grabbed it and a powerful killing intent and murderous chi instantly filled Ye Mo's sea of consciousness and body.

This was wine kill stone, a white one. Ye Mo remembered that he had the wine recipe but didn't have the stones so he didn't leave immediately and instead dove into the bottom of the river and started to find the wine kill stone.

Ye Mo was at a place where the murderous chi came in cycles. This place was easiest to form all sorts of wine kill stones. Ye Mo found large amounts of blue and white wine kill stone. He even found a pile of black wine kill stone.

Chapter 1948: Pitiful Ice Forrest

Three days later, Ye Mo dashed out of the bottom of the river. During this time, he found a few thousand blue and white stones and more than 100 black stones. He even killed a few hundred sharks. There was no more point staying here. Ye Mo had decided to leave the river and head towards Ice God Palace.

After coming back to his ship, Ye Mo called out shadowless and let shadowless control the ship. Shadowless can't defend the murderous chi at the heart of the river yet. But after these days, Ye Mo had some understanding of the murderous chi. Plus, he kept breaking the restrictions in the palace.

So Ye Mo set up a few defense formations for the murderous chi. That way, shadowless could control the boat.

Ye Mo immediately went into the golden page world. He wanted to check if the orbs he got this time was different to the ones he got before.

These 12 orbs were blueish grey out the outside. Ye Mo took out the 12 orbs he had and placed it with the ones he just got.

If he didn't compare, he really wouldn't be able to tell the difference between but after comparing, Ye Mo immediately realised that the 12 orbs he got before were fake just like his space time boat.

The 12 orbs at the lightning kill god palace were the real ones. These 12 orbs contained boundless lightning source killing chi and endless power. It wasn't something the other 12 orbs could compare with.

Ye Mo put away the 12 real orbs and wasn't really disappointed. Yimo had 12 fake ones, he had 12 fake and 12 real ones. Regardless, he helped Yimo gather 36 lightning orbs.

Even though they were fake, the combined power of 36 orbs were extremely powerful.

Ye Mo gave the wine recipe and wine kill stone to small ginseng as he began spirit controlling the golden bone arrow.

He had three bone arrows now. One of them was spirit controlled to the 48th restriction, one was to the 13th restriction and the third one wasn't spirit controlled at all.

Seven days later, Ye Mo spirit controlled the second arrow to 48th restriction and then the third one to level nine when he received news from shadowless.

Ye Mo immediately took the golden arrows out from the golden page world. The third arrow was many times harder than the previous two arrows. He needed to find a peaceful place to spirit control it to the 48th level.

Leaving the golden page world, Ye Mo realised why shadowless called him out. There was no direction on the ship.

The boat was still on the abyssal river but the murderous chi was gone. Instead, it was this soul freezing coldness.

Just like Yu Lesheng. The frost here was etched into the bones and even the sea of consciousness and soul.

"Boss, there's no more way to go." Shadowless pointed at the direction disk on the ship and said.

Ye Mo looked at the direction disk. It stopped moving. Ye Mo scanned out with his spirit sense, this place seemed to have left the range of Qing Wei abyssal river. There was less spirit sense restriction and weaker sky restrictions.

"The sky restriction is much weaker, we'll change to space time boat." Ye Mo said and then released the space time boat.

The space time boat instantly left the misty river and went into a bone chilling ice forest. Ye Mo felt that as soon as he left the abyssal river, he was in this forest, there was no middle area.

The sky restriction was weaker but was still there. The space time boat could only travel in the ice forest but couldn't fly too high.

Shadowless opened its mouth and sucked. All the nearby ice was sucked into its mouth.

Ye Mo's spirit sense domain and immortal monarch domain reached out. The soul freezing frostiness eased up a lot.

The space time boat sped up and made light cracking sounds as it travelled this frosty dimension.

Ye Mo had been to a few bone chilling places. In the cultivation realm, he had been to the ice god forbidden grounds. That cold was chilling but it didn't invade the sea of consciousness and freeze the soul. He was too weak at the time and could only use winter's arrival to devour that coldness.

Ever since winter's arrival devoured some ice, it stayed motionless in the golden page world. Ye Mo didn't plan to use winter's arrival. His power was more than tens of millions time stronger than before.

"This Ice God Palace really knows how to hide. Who would be able to find a place like this?" Even shadowless' powerful body was shivering.

"This place is eerie." Ye Mo suddenly stared at the ice forest and said.

Shadowless quickly asked, "Boss what is eerie?"

Ye Mo thought of the ice god forbidden grounds in South Peace State. He saw a pitiful scene, there were frozen extremely beautiful women everywhere. The ice mountains here were sleek and slender. This immediately reminded Ye Mo of that scene.

“In the cultivation realm, I went to the Ice God forbidden grounds. I saw a few hundred beautiful woman frozen at the outskirts of the forbidden grounds. This ice forest is giving me the same feeling. I don’t like this place.” Ye Mo sighed.

“Let me see.” Shadowless said and flapped down on an ice peak.

Crack. The ice peak cracked and a frozen woman appeared before them.

This woman was covered in ice and this ice had the effect to blur spirit sense..

Ye Mo took in a cold breath. All these ice peaks were frozen women, how many women died here?

Shadowless was shocked and broke a few more ice peaks. They were all extremely beautiful women inside. Shadowless quickly said, “Boss it seems every peak has a woman frozen to death inside.”

Ye Mo frowned and detested the Ice God Palace even more. This was no good sect.

Even if Nie Shuangshuang is there, he would take her away. This sect wasn’t suitable for Nie Shuangshuang, he wouldn’t allow her to cultivate here.

...

The space time boat sped up and shadowless sensed Ye Mo’s fury. It’s force grew too. If boss was angry, it meant that there would be battle. If there was battle, then he could eat.

Traveling in the ice forest didn’t make Ye Mo’s body cold. Instead, it’s temperature soared with his fury.

Ye Mo thought of the blue bead small world in the golden page world and a woman called Qing Ru. She was from Ice God Palace. When Ye Mo first saw her, he suspected she wasn’t from the cultivation realm.

The reason he kept the blue bead world in his golden page world up until now was mainly because he pitied her. Seeing this pitiful Ice God Palace scene twice, this made him lose good impression of Ice God Palace altogether. If he had time now, he would definitely spirit control that blue bead small world and ask Qing Ru what this was.

Ye Mo wasn't someone who liked to mind others' business but what the Ice God Palace did touched his line.

The space time boat flew for another two hours and the ice forest was behind him. The ice peaks that appeared was no longer sleek and slender. It was grand and monumental. That uncomfortable feeling finally disappeared.

Although there was ice mountains and peaks everywhere here, the cold that froze essence spirit and sea of consciousness was gone.

"These ice peaks should be real right?" Shadowless raised his big foot and kicked on an ice peak.

Rumble, this ice peak was kicked to pieces and ice shards flew everywhere.

Ye Mo saw this was a real ice peak, no one was inside.

"Who dares to ravage our Ice God Palace?" A cold voice sounded and then a blue dressed female immortal flew over.

Chapter 1949: Ice God Palace Palace lord

Ye Mo's spirit sense already saw this woman. She was extremely beautiful and her body was amazing. She flew over rapidly. She was immortal king tertiary stage power.

“Did you guys come from Qing Wei abyssal river?” The immortal king dazed in front of Ye Mo and shadowless. She felt a powerful killing chi from shadowless. Only someone who crossed the Qing Wei abyssal river would have this but who could cross the river?

“Is this Ice God Palace?” Ye Mo saluted with his fists and asked.

The female immortal king immediately said “That’s right, this is Ice God Palace. Since you know it’s our place, why did you break our ice peak?”

“Oh, my pet is stupid but I already criticized him.” Ye Mo said casually.

“...”

Shadowless looked at Ye Mo speechlessly too.

“I came to visit Ice God Palace palace lord, lead the way.” Ye Mo said.

The female immortal king sneered, “Do you think you can visit our palace lord whenever you want? Our Ice God Palace won’t allow outsiders to come. Anyone who enters our domain will be killed.”

Then, this immortal king released an ice moon shovel and attacked Ye Mo.

Ye Mo had heard of this rule.

But with the Ice God Palace being here, ordinary people wouldn’t even be able to come here. Ye Mo knew the Ice God Palace probably had a safe and hidden entrance. Only people from the Ice God Palace would know.

As for the immortal king, she didn’t have any killing intent when she attacked. She wasn’t a bad person and probably just wanted to shoo them off.

Ye Mo didn't trouble her and hacked with Zi Xu hacking the spade away. With his power, if he didn't want to show any respect, he could grab the spade with his hand and remove her spirit sense mark very quickly.

Before the immortal king could be shocked another dashing light came.

"Martial sister Luo Yue, what is this?" An icy cold voice sounded.

Ye Mo and shadowless studied this woman. She was immortal monarch primary stage and was half a head taller than that martial sister. She wore a white immortal robe.

If the immortal king still had a sliver of emotion, the immortal monarch had no life force in her voice. It was completely icy cold.

Even shadowless was uncomfortable hearing this voice.

"Martial sister Zhi Wen, this person brought his immortal pet into our Ice God Palace forbidden grounds. I was planning to capture them." Luo Yue bowed and said.

"A mere insect, kill them." The immortal monarch sneered and released a silver blade hacking at Ye Mo without asking anything.

This silver blade brought tens of thousand of sword rays and swept Ye Mo and shadowless in at the same time.

The immortal king couldn't bear to look at them grinded to pieces and subconsciously looked away.

Shadowless was furious and bit down. Countless silver blades were immediately devoured and disappeared.

A dimmed silver blade fell from the sky and Ye Mo pulled it into his hands while punching.

Before Zhi Wen immortal monarch could wake up from her shock, Ye Mo's fist force away. She was punched flying and smashed into a mountain a few hundred meters away.

The mountain was pulverized but she was paralysed on the ground as she kept spitting blood. Her meridians were broken.

Ye Mo released a blue flame and threw the silver blade into the fire. In a few seconds, the blade was turned to dust.

At this moment, Luo Yue immortal king finally woke up and charged towards her martial sister. She took out a pill and put it into her mouth immediately. She didn't have the time to think how Ye Mo could beat an immortal monarch into heavy injury with one move.

Ye Mo wasn't in a rush to leave, he was waiting for this immortal king to save her martial sister Zhi Wen.

He showed mercy just then. If he didn't, that martial sister Zhi Wen would've been torn to pieces. Nie Shuangshuang was still in the Ice God Palace. Before he saw Nie Shuangshuang, he didn't want to kill Ice God Palace people.

With the help of that immortal king, the immortal monarch's body wasn't destroyed. She was held up by the immortal king as she stared at Ye Mo with shock and terror.

At this moment, she finally realised that Ye Mo was immortal emperor.

At the same time, she sent out a message.

He was waiting for the three Ice God Palace palace lords to come. It really wasn't easy for him to find where the palace was. There were restrictions and stealth formations everywhere.

Soon after Zhi Wen made the message, seven dashing lights came over. Ye Mo's spirit sense saw clearly that the one leading the charge was an immortal emperor primary stage.

They were all women. The immortal emperor seemed even younger than Luo Yue immortal king. She had a white veil on her face and wore faint green robes. No one could see her real appearance but just looking at her body, people would know she couldn't be ugly.

Out of the six people following, three were immortal king tertiary stage and two were immortal monarch. One was only great extreme immortal.

"Greet third palace lord." When the green robed immortal emperor came, Luo Yue and Zhi Wen immediately bowed.

So this was Ice God Palace third palace lord. Yu Xie was right, the three palace lords were all immortal emperors. It was the second palace lord who took Nie Shuangshuang.

Looking at Zhi Wen's injury, the third palace lord immediately frowned. She took out a pill and gave it to Zhi Wen. Before Zhi Wen could thank her, the third palace lord turned to Ye Mo.

"Ye Mo greet third palace lord." Ye Mo saluted with his fists and asked.

"Why did you barge into our Ice God Palace territory and injure my Ice God Palace sect member?" The third palace lord's tone was as cold as Zhi Wen's.

Ye Mo was very annoyed. Did this place produce ice people? Why did they speak in the same tone.

"Regardless if this place is your Ice God Palace, I have no ill intention here. I just came to visit the three palace lord and bring a message for Ice God Palace. Yet your sect members has no manners. The first sect member at least said something but the second one didn't even ask anything and attacked. I already gave you huge face by not killing her." Ye Mo said with annoyance.

Third palace lord sneered, "What a huge face."

Then, her force suddenly rose. The nearby icy space seemed to be swept by her domain. Her domain had terrifying frosty killing chi.

The nearby sect members all retreated. They knew the terror of the third palace lord.

Shadowless glanced at Ye Mo and seeing his boss annoyed he immediately called, "A mere immortal emperor primary stage dares to be cocky, you're not taking the respect we're giving you, I'll eat..."

Shadowless opened his mouth and the immortal emperor domain was instantly bit open. At the same time, third palace lord's face changed. Before she could release her magic artefact, shadowless sucked and her domain completely disappeared.

Shadowless chewed a few times before moaning, "This domain is so shit, it's far weaker than Chu Chen divine emperor's domain and even Wei Feng grand emperor's domain. This isn't satisfying..."

Ye Mo stared at shadowless with his jaws open. When did this guy know how to bluff like this. since when did he bite Chu Chen divine emperor's domain. plus, Chu Chen divine emperor was probably weaker than Wei Feng grand emperor now.

Chapter 1950: No Joy in reunion

Ye Mo wasn't going to call shadowless out of course.

The third palace lord saw her domain didn't even bring up the corner of Ye Mo's clothes and was devoured by Ye Mo's pet. This Ye Mo didn't even move nor release magic artefact.

A pet that could devour immortal emperor domain was already shocking enough but now this pet said her domain was too weak and was weaker than Chu Chen divine emperor and Wei Feng grand emperor. Of course she had heard of these two. Chu Chen divine emperor was a legendary powerful being. she didn't expect he was still alive and the two fought. She had see Wei Feng grand emperor. They wouldn't say such things if they weren't truly able to take Wei Feng on.

"Boss, should we invade first?" shadowless saw that his words shocked an immortal emperor and immediately said gloatingly.

Ye Mo knew that these things shouldn't go over the line so he yelled, "Shut up."

The third palace lord didn't have the force with which she came with. She made an extremely simple bow to Ye Mo, "Immortal friend, why did you charge into our Ice God Palace?"

Ye Mo knew that this palace lord didn't dare to use force after seeing his power. Ye Mo didn't keep abusing her since Nie Shuangshuang was still in her. He saluted with his fists and said "I already said that I came to visit Ice God Palace to visit the three palace lords and to bring a message for someone. That's all, but your way of hospitality isn't polite at all."

"So that's it, I'm the third palace lord Ru Shu. Sorry for my rudeness. This way please immortal friend Ye." The third palace lord changed her manners as though she was truly sorry after knowing why Ye Mo came here.

Ye Mo knew that this couldn't be it. He sound transmissioned to shadowless and let shadowless be wary. Who knew if there would traps laid out for that.

...

Zhi Wen was taken care of by someone. Ye Mo and shadowless followed the third palace lord and crossed many ice peaks but still didn't see Ice God Palace.

On the way, Ye Mo's spirit sense scan all sorts of restrictions and stealth formations. He didn't know what was inside but he had less good feelings towards the Ice God Palace.

Another five minutes later, a huge black ice door appeared before Ye Mo. Three words floated above the door, Ice God Palace.

Ice God Palace smiled to Ye Mo, "Immortal friend Ye, the Ice God Palace is here, please go in."

Ye Mo went in the door with shadowless without hesitation. He knew there was some problems with the way they were taken here but he wasn't scared.

When Zhi Wen asked for help, the third palace lord soon arrived there but now, it took more than 15 minutes to get here.

Ye Mo didn't know if the place here was the real Ice God Palace as there were spirit sense restrictions everywhere. His spirit sense couldn't reach further.

Although Ye Mo's spirit sense god art could easily break in, he didn't do this. He was still a guest here. If he broke the restrictions, he would be offending them.

Moments later, the third palace lord brought Ye Mo to a round hall. Seeing Ye Mo come in, a wealthy looking lady sitting inside came up.

"Su Lian welcome immortal friend Ye to the Ice God Palace." This wealthy lady came up and bowed.

"Palace lord." Third palace lord bowed to this woman and said to Ye Mo, "Immortal friend Ye, she's our big palace lord."

Ye Mo returned the gesture. He knew the Ice God Palace was prepared, he didn't even speak and the big palace lord knew his name. This big palace lord seemed much more lively than the third palace lord. Her cultivation level was also far higher, she was immortal emperor tertiary stage.

This hall was very round but other than the big palace lord and the third palace lord, there was only some bland tasting immortal tea. It was a far cry from Ethereal Immortal Pond's welcome to him.

Although the two were rather polite, Ye Mo felt a sliver of discomfort. He cancelled the thought of telling them that he brought their small world over. He had decided to see Nie Shuangshuang first.

"Palace lords, I heard there's also a second palace lord of Ice God Palace how come I don't see her?" Ye Mo asked.

The big palace lord frowned but this action immediately faded. She smiled and said, "Martial sister Tan Yao is still in solitary cultivation. What matter did immortal friend Ye come to Ice God Palace for? I heard you say you were here to deliver a message to Ice God Palace, what message is it?"

"Oh, I mainly came here to see Nie Shuangshuang. Is she alright now?" Ye Mo didn't want to say anything before he saw Nie Shuangshuang.

"Nie Shuangshuang?" The big palace lord repeated in surprise. She had never really expected Ye Mo to come to see Nie Shuangshuang.

"Immortal friend Ye knows Shuangshuang?" Third palace lord asked in surprise.

Ye Mo got up and saluted with his fists "That's right, Shuangshuang is my friend and we come from the same place. I came to find here. If she's here then please call her over."

"Martial sister Ru Shu, stay with immortal friend Ye here I'll bring SHuangshuang over." Unexpectedly, the big palace lord didn't reject at all and got up.

It seemed Shuangshuang had some status here. Otherwise, the big palace lord wouldn't go to call her over personally. Ye Mo eased up and sat down while saluted with his fists to big palace lord.

After the palace lord left, the third palace lord was more hospitable to Ye Mo. Unlike how she didn't want to talk before, she kept asking Ye Mo all sorts of questions.

But soon Ye Mo found that her questions were a bit strange. She didn't ask where he came from nor how he knew Shuangshuang nor how he knew Shuangshuang was here. She asked about how Ye Mo crossed the Qing Wei Abyssal river and what he saw on the way? She would ask every detail.

Five minutes later, Ye Mo still didn't see big palace lord bring Shuangshuang over. He was confused. The Ice God Palace only needed a few minutes to bring someone over.

15 minutes later, Ye Mo suddenly got up. No matter how hospitable third palace lord was, he didn't want to keep waiting.

At this moment, Ye Mo heard Nie Shuangshuang's shaky and joyful voice, "Is that brother Ye?"

Ye Mo looked up and saw Nie Shuangshuang standing at the door with teary eyes. The big palace lord wasn't by her. She wore a faint green dress just like when they first went on a date.

The third palace lord got up and said softly, "Immortal friend Ye please talk to Shuangshuang, I'll leave for a moment."

Shadowless seemed to know it shouldn't stay here and went into the golden page world.

"Brother Ye it's your immortal pet?" Nie Shuangshuang noticed shadowless.

Ye Mo quickly said, "No need to mind him. Shuangshuang it's only been a hundred years and you're golden immortal primary stage. How did you cultivate so quickly?"

When Ye Mo brought her into the immortal realm, she was only an ordinary chi gathering cultivator.

"Brother Ye if it wasn't for you, Shuangshuang would've been dead already. I didn't expect I would be able to see you again in my life time. I..." Shuangshuang couldn't resist sniffing.

Ye Mo felt a little wrong. He couldn't feel what was wrong but he felt that his reunion with her shouldn't feel like this. He didn't feel any happiness seeing her again.

"Shuangshuang, give me your wrist." Ye Mo went up and grabbed her wrist. He really wanted to know if she was the real Nie Shuangshuang and if there were some sort of restrictions on her.

Nie Shuangshuang had been in the golden page world for all these years. Ye Mo was used to her chi already.

After running his immortal essence in Nie Shuangshuang's body, he immediately knew this was the real Nie Shuangshuang and she had no restrictions.

Ye Mo breathed easy, "Shuangshuang, what was the situation at the time?"

Nie Shuangshuang looked around carefully and suddenly sound transmissioned to Ye Mo, "Will you take me away later?"

"Yes, Shuangshuang, I don't feel this place is good. I really don't like this place. I don't want you to keep staying here so I want to take you away." Ye Mo said.

Nie Shuangshuang breathed easy, "After we leave here I'll tell you. All these things that happened is hard to say in a few words. But I'm happy to see you again here."

"No, Shuangshuang, you were frozen by the shadowless worm to save me..." Thinking about this, Ye Mo wanted to ask about her shadowless worm but was pulled by Nie Shuangshuang "Let's talk in my room, I don't like it here."
