Chapter 1981: The news Wuhui brought

Ye Mo stood on the high stage reading the announcements of Mo Yue Immortal Sect.

They weren't willing to talk, no one wanted to offend them.

But at this time, a loud voice interrupted the silent square, "Wujia sound river Wuhi immortal emperor, sect leader Liu Li come to congratulate Mo Yue Immortal Sect sect opening ceremony and have something to report to Dragon River grand emperor, Wei Feng grand emperor and sect leader Ye."

Ye Mo just finished and was taken over by Wuhui immortal emperor. He was a bit annoyed.

If someone else dared to be like this, there would be people to reproach him but Wuhui immortal emperor, despite being an immortal emperor primary stage, was still an immortal emperor.

Ye Mo glanced at Wuhui immortal emperor's face and said plainly "Thank you Wuhui immortal emperor, please have a seat. The sect opening ceremony isn't over."

Wuhiu immortal emperor who had always been scared of Ye Mo actually continued speaking "Sect leader Ye, this issue today isn't small I have to tell everyone as quickly as possible..."

To Ye Mo, there was nothing as important as his sect opening ceremony. Just when he was going to interrupt Wuhui immortal emperor, Wuhui immortal emperor continued "My Wujia sound river martial ancestor Wuhua was probably killed. Before he died, he sent back an important news. And I found news about Mu Xiaoyun, sect leader Ye please..."

"Wuhui immortal emperor, please come in with me." Hearing Mu Xiaoyun, Ye Mo said excitedly.

Xiaoyun disappeared at Wujia sound river. He asked the people there and they said Wuying took her. Wuying was killed by his divine damnation and so there were things he couldn't ask.

“Sect leader Ye, Wuhui ask that all immortal emperor masters come together.” Wuhui immortal emperor then gave Ye Mo a jade slip, “Sect leader Ye, this is the person who took Mu Xiaoyun and the place she might go.”

“Okay.” Ye Mo nodded. He was slightly calmer now and then thought of Wuhua immortal emperor. He heard that Wuhua immortal emperor was a half divine. In the immortal realm, he was definitely the top amongst the top, how could someone like him die for no reason.

...

Ye Mo put away the jade slip and understood who took Mu Xiaoyun.

In the immortal realm there was an ancient emperor sect called Gemini Emperor sect. They took in disciples that were twins.

They had this twin cultivation method that could allow twins to be invincible amongst their peers.

Although one didn't dare to say Twin cultivation method had no weaknesses, it had the least weakness. Whether there was weakness in domain or god art, it would be filled up by the other person.

The person who took Mu Xiaoyun was from this sect, she was called Luo Biyue. She has a twin sister Luo Xiuhua.

Luo Biyue was secretly taken back to Wujia sound river by Wuying immortal emperor. There was no reason why but Ye Mo could tell that Luo Biyue had a way to vindicate dao. Wuying immortal emperor wanted to take this and thus imprisoned Luo Biyue.

After Wuyin immortal emperor brought Mu Xiaoyun back, Luo Biyue somehow broke free and fled with Mu Xiaoyun.

Ye Mo knew that Wuhui immortal emperor's jade slip was probably authentic. After all, Wujia sound river just lost two top immortal emperors. The remaining Wuhui and Wuyin immortal emperor were much weaker.

“Wuhui immortal emperor, where is that Gemini emperor sect?” Ye Mo asked.

Wuhi immortal emperor smiled bitterly “Sect leader Ye, Gemini emperor sect had disappeared for countless years. It’s even more mysterious than the Ice God Palace. I don’t know the exact location.”

“I know the Gemini emperor sect but that was countless years ago before the immortal realm broke apart. It’s in the palce of the current Yu Yu heaven near the Falling snow volcano.” Wu Chen divine emperor added.

Ye Mo looked at the other immortal emperors. Only Kai Mi nodded. No one else knew about the location. The Emperor sect was really too ancient. Even someone like Dragon River grand emperor didn’t know its exact location.

“Thank you Chu Chen qian bei, everyone please sit.” As they spoke they have come to the guest hall.

When everyone sat down, Ye Mo said to Wuhui immortal emperor “Wuhui immortal emperor, say what important thing you have to say.”

“Thank you sect leader Ye.” Wuhui quickly got up and saluted with his fists.

Then Wuhui’s tone became serious “Our Wujia sound river number one immortal emperor Wuhua was hunting Jiu Fan immortal pond’s Luan Xiao immortal emperor. They’ve been chasing in the void for a hundred years and they both went into a void palace. From there, they went into another realm. However, Wuhua ancestor found something extremely terrifying there. He saw two people whose cultivation level he couldn’t see through battle. He found that if he faced any of them he wouldn’t last more than ten seconds...”

“What?” Wuhui immortal emperor’s words shocked all the immortal emperors here. Only Ye Mo and Kai Mi glanced at each other seeing the worry in each other’s eyes.

Clearly that palace was the palace they had been to. That palace was the formation heart of a formation that segregated the chi of a realm. Because Feng Kong Grand Emperor and them forced it open, it

crippled a formation base and the chi was seeping out. Ye Mo repaired the formation base but didn't expect it stopped working this quickly.

In the eyes of the other immortal emperors, Wuhua immortal emperor was the pinnacle of the immortal realm. Other than divine emperor, he almost had no match. If someone could kill him in ten seconds, wouldn't that person be beyond divine emperor?

"We've been to that place, it's probably that palace after you go through the void lethal force dimension. I've been in there but there's nothing there. It's all mist there and you can't go very far. Wuhui immortal emperor, what happened afterwards?"

Dragon River grand emperor frowned, he did go with Wuyin and Feng Kong to that palace. There was mist everywhere and one couldn't go out at all. They worked together and left after a few decades. It was unimaginable if there was someone that strong in there but they didn't encounter them.

"Wuhua martial ancestor knew that they saw him so he immediately sent back a crystal ball saying that he would be killed for sure. At the same time, he suspected that he went into the fabled realm that disappeared. But there are still countless masters in that realm. If the people of this realm enter the immortal realm, the immortal realm will no longer exist. It will be forged into a truth spirit world. These people definitely have this capability."

Then Wuhui immortal emperor showed a crystal ball and said "This is the crystal ball Wuhua martial ancestor sent back through the crack. He suspects that this crack would eventually be found."

In the crystal ball, two immortals were battling. Everyone here was immortal emperor and they could easily tell how terrifying the battle was.

There was no sound of their god art but the world destroying dao runes were obvious. It was as though with one move of a finger an entire heaven domain would crumble. This power was too terrifying.

At this moment, the scene was dead silent.

After a long while, Wei Feng grand emperor asked "Wuhui immortal emperor, is there anymore news from Wuhua immortal emperor after he sent this back?"

Wuhui immortal emperor shook his head “No, I think the martial ancestor is probably in grave danger.”

Kai Mi sighed and got up “I’ll explain this to everyone because Chu Chen and I both know what that place is called.”

“What is it?” The immortal emperors asked in unison.

“God Necropolis Domain.” Kai Mi and Chu Chen said at the same time.

Chapter 1982: Snow Fire Mountain

Kai Mi scanned the immortal emperors here before saying heavily “This thing actually has to do with many of the immortal emperors here. That formation is broken due to you guys.”

Seeing everyone look at each other, Kai Mi just told them what he and Ye Mo saw and heard as well as what Ye Mo did.

Hearing this, everyone looked at Ye Mo. Everyone didn’t expect that Ye Mo filled up such a threat for everyone alone. It wasn’t completely filled but it lasted a few decades.

“Sect leader Ye, thank you for your contribution to the formation. This isn’t personal relations but whether our immortal realm heritage can be continued. I’ve heard that the reason the immortal realm was split into the 33 heaven domains was because a master charged into the immortal realm. If I’m not wrong, that person probably came from the God Necropolis Domain right?” Dragon River grand emperor got up and saluted with his fists to Ye Mo.

Chu Chen divine emperor said with a bleak face “That’s right, this person came from God Necropolis Domain.”

His soul was almost disintegrated by that person throwing a heaven domain at him. If it wasn't truth divine emperor who released the immortal carnage tower, he wouldn't even be able to sit here. He had this detest towards people from the God Necropolis Domain.

Dragon River grand emperor bowed to Chu Chen divine emperor and said, "Everyone, it's no bluff saying that Mo Yue Immortal Sect is the number one sect in the immortal realm. I'm not trying to bring enmity towards Mo Yue Immortal Sect because it's the fact that they have two divine emperors. In the 33 heaven domains, there might be a few sect with more than six immortal emperors but would you say any emperor sect is stronger than Mo Yue Immortal Sect?"

Dragon River grand emperor glanced around and almost all the immortal emperors nodded. Mo Yue Immortal Sect was indeed the number one sect. They might not have a solid foundation. They lacked masters below immortal emperor but the measure of an emperor sect's power is not on immortal monarch and immortal king but immortal emperors.

So even if a sect only had an immortal emperor primary stage, it wasn't something that countless monarch sects could compare to.

Seeing everyone agree, Dragon River grand emperor waved his hand again and said "God Necropolis Domain is something everyone knows now. Only one person came and our immortal realm was split apart with laws missing. If a few or more than ten came, they would definitely fight over our immortal realm. By then would there be a palm sized land of the immortal realm left?"

"I agree to Dragon River grand emperor. If we let people from the God Necropolis Domain come into our immortal realm, our immortal realm might become the backyard in someone's pocket." Zheng Ren immortal emperor got up and said.

The other immortal emperors all signaled that they agreed.

Dragon River grand emperor nodded and continued to say "I wasn't the only one who went to that void palace formation heart. Many people have been there. I believe that palace may have been set there by a qian bei of the immortal realm. however, we weren't able to recognize the place and instead broke the formation heart. If sect leader Ye didn't remedy the situation, the consequence would be unimaginable."

Nong Yan immortal emperor immediately said “Dragon River grand emperor, if you have any suggestions then say it. As long as it can prevent people from the God Necropolis Domain from discovering our immortal realm, I will definitely support it to the end.”

“Okay.” Dragon River grand emperor said “The urgent thing is that we organize the immortal emperors of the immortal realm to block this formation and repair it. sect leader Ye can repair this formation so his formation skills are probably better than ours. Since sect leader Ye is also the number one sect of the immortal realm I suggest sect leader Ye take the lead and lead us to repairing this formation. Of course we also need to gather the top formation grand masters in the immortal realm to help sect leader Ye.”

Dragon River grand emperor’s words immediately got the approval of everyone.

Just when Ye Mo wanted to talk, Dragon River grand emperor said again “I’ll reveal something here. When we left from the void formation door, we searched for decades in the mist before we could come back. I got a few ores that are similar to immortal crystals but it doesn’t contain immortal spirit chi. However, it’s very beneficial to our cultivation. My power has recently grown due to this ore. I feel its beyond immortal crystals.”

Then, Dragon River grand emperor took out an ore that wasn’t very big but emitted a milky white aura.

Seeing this, Wei Feng grand emperor took out one too “I got a few too.”

Kai Mi and Chu Chen divine emperor immediately took the ore and studied it for a while. Kai Mi then said “If I’m not wrong, this is the cultivation crystal of that realm. It seems our guess is right, God Necropolis Domain is indeed a higher realm that was destroyed.”

Kai Mi then gave the ore to Ye Mo. Ye Mo clutched it and lightly absorbed. He was very joyful. This ore was more beneficial than immortal crystals. He was immortal emperor middle stage now. Using immortal crystals and extreme grade immortal ranges to cultivate was very slow. Plus, extreme grade immortal crystals and extreme grade immortal range was rare.

Just when Ye Mo was troubled about how to improve his power, he didn’t expect to encounter such ore.

“Sect leader Ye, how is it?” Dragon River grand emperor asked.

Ye Mo put the crystal down, "It's indeed something beyond immortal crystals."

Ye Mo was thinking about how to get these stones already. He knew that the reason Mo Yue Immortal Sect had its status wasn't because he repaired the formation but due to his power.

Seeing everyone look at him, Ye Mo thought and said "Kai Mi and I have seen that formation heart. We know that it must be repaired and sealed up again or the immortal realm will be destroyed. I think we should let my Mo Yue Immortal Sect's martial brother Kai Mi and Dragon River grand emperor take people there first. I'll go to Falling Snow fire mountain first and then I'll come."

"okay, then we'll go first. Wei Feng grand emperor go invite Feng Kong Grand Emperor and the other formation grand masters. At the same time, open the teleportation formation between the low, middle and grand heaven domains. We must stop the catastrophe at all costs." Dragon River grand emperor said.

Some immortal emperors left but the sect opening ceremony was still going on.

...

Su Jingwen and Tang Beiwei were unwilling to see Ye Mo leave when he only came back for ten years but they knew he had to leave.

Ye Mo left behind large amounts of cultivation resource. Tang Beiwei and Su Jingwen had decided to put all their time on cultivation to try help Ye Mo earlier.

It was easier for Ye Mo to leave this time. Not only was his cultivation level at the peak of the immortal realm but his status was completely different too. The teleportation formations that he couldn't use before could now be used.

...

Ye Mo headed straight for Yu Yu heaven.

Ye Mo had another purpose here and that was to find the purple robed man and get the fifth stone stool.

He asked Dragon River grand emperor and then knew that this purple robed man was very powerful, only slightly weaker than Dragon River grand emperor. Plus, no one knew this purple robed man's origin. He had caught Dragon River grand emperor and Feng Kong Grand Emperor's attention when he kept selling the stone stool. They had come in contact and knew that he was strong and came from Yu Yu heaven.

This was because his first auction was held in Yu Yu heaven. Even Dragon River grand emperor didn't know the specifics of this man.

Chapter 1983: The battle at the top of the mountain

The snow fire mountain was just as its name describes. Snow falling everywhere onto the volcano forming a strange scene.

Ye Mo stood at the outskirts and was a bit disappointed. All the immortal spirit chi nearby had been removed by the ice and fire. There was no sect within hundreds of thousands of km radius. Clearly, this place wasn't suitable for sect survival.

Ye Mo slowly neared the mountain. When he came to the bottom of the mountain, that terrifying flame wave charged into the depth of his meridians. Before his immortal essence completely blocked them, a deep frost chi came striking by. Even at the outskirts of the immortal god body, it was only extreme cold not extreme cold mixed with terrifying heat.

In that instant, the outer layer of clothes on Ye Mo disappeared. Ye Mo's body refinement immortal essence moved and that extreme cold and heat could only stick to the surface of his body and not go inside.

So powerful, Ye Mo exclaimed. In this place of extreme heat and cold, even an immortal emperor wouldn't be able to take it if he wasn't immortal god body.

After running his body refinement cultivation method, Ye Mo found that this place was very suitable for body refinement. He could even feel his body refinement constantly improving.

Ye Mo used all his immortal essence to refine his body while slowly moving to the top of the mountain.

As Ye Mo gradually went into the mood, his body refinement immortal essence formed a balance with the outside world. it completely barricaded external influence. When those palm sized snow flakes fell on the volcano, it would slowly melt but when it fell on Ye Mo, it couldn't melt and just stacked up.

A few days later, Ye Mo was completely covered in snow. From a distance, he seemed like a moving snow mountain.

This was the first time Ye Mo entered into a state of enlightenment for body refinement. He felt his body refinement cultivation constantly improve. He reached immortal god body peak stage from immortal god body tertiary stage.

After an unknown amount of time, just when Ye Mo was about to break through immortal god body and reach divine body, his body refinement cultivation suddenly paused. Ye Mo still hadn't woken up from that feeling. He kept gathering the immortal essence in his body to refine his body.

Waves of extreme heat and cold charged at Ye Mo. Ye Mo kept using these chi to charge towards divine body. A few hundred or thousand times had passed but he still couldn't reach divine body.

Ye Mo frowned, he felt that state of enlightenment was disappearing. Just when he decided to try again, he sensed a different chi. The next moment, Ye Mo completely woke up and scanned his spirit sense out. He found he was at the top of the mountain.

Where he stood had flames seeping out. The snow had formed a mountain peak on him but he wasn't the only one here. There were many peaks and when he scanned his spirit sense inside, he found there were bodies inside just like the ice forest of the Ice God Palace. Clearly, those who were dead were once powerful beings.

Ye Mo's spirit sense fell only a thousand meter ahead. There was a person laying there. The different chi he sensed was from this person. Ye Mo knew this person wasn't dead yet but she wasn't far from death.

It was a woman who was immortal emperor tertiary stage. Her clothes had long been melted. Only a thin layer covered her chest and lower abdomen. Every other part of her body was exposed to the flame and snow.

She was definitely immortal god body cultivation level, otherwise she wouldn't be able to live till now. just when Ye Mo wanted to shake off the snow on him, he heard this sound. He immediately knew someone else came to the top of the mountain. He didn't shake off his snow and instead stealthed his chi.

A few seconds later, a white light landed on the top of the mountain. Ye Mo could tell this defense flying magic artefact was a half god artefact.

"This is a half god defense artefact. Without it, we wouldn't be able to get here even though we're immortal spirit body tertiary stage." A immortal emperor tertiary stage man wearing grey robes said.

There was a female immortal behind him, immortal emperor middle stage. She was extremely pretty.

"How is it brother Han, I didn't trick you right. Even though she's immortal god body, she wouldn't be able to open Gemini Emperor sect's ancient teleportation formation and leave." The woman sneered at the female immortal laying on the ground.

"martial sister Binglan is smart indeed." Brother Han grabbed the woman's hand. The love in his eyes seemed like it was about to melt the woman.

Binglan smiled sweetly "Brother Han, we can't dual cultivate here. After we leave..."

"After we leave, I'm going to dual cultivate with you..." Brother Han said excitedly.

Binglan smiled again, "Of course, I'm going to see my dear sister Xiuzhu. Brother Han we only have immortal spirit body so we need to be careful.

"Sister Binglan don't worry, how can I not be careful." Brother Han laughed and sped up to Binglan.

"Aiyo..." Binglan seemed to have noticed something and suddenly sped up to the woman on the ground.

"Look, brother Han..." Binglan's tone was desperate.

Just when brother Han went up, he suddenly felt a powerful tearing force surround him. The next moment, brother Han knew he was ambushed. He immediately released defense magic artefact but it was too late.

"Rumble..." Binglan's snow white hand smashed on brother Han. Brother Han immediately spat blood and flew out. Before brother Han landed, Bing Lan released another red band. A white glove appeared on her hand.

"Ay Binglan, you bitch. We were just sleeping together a few days ago and now you attack me. Slut..." Brother Han was spitting blood while cursing. He released a black shining flame dragon tooth.

Binglan sneered in contempt "Lu Huahan don't disgust me. Don't think I don't know what you're thinking. After I tricked my martial sister to the mountain top, I know you're going to kill me next. Plus, why should I let you use my Gemini Emperor sect teleportation formation? I gave my virginity to you, be grateful. Plus, if I don't ambush you you're going to ambush me. Pfft, Lu Huahan, I've long seen through what sort of thing you are."

Ay Binglan said but she didn't attack slow at all. The red band already brought waves of red flowers that surrounded all the space near Lu Huahan.

The two weren't immortal god body and despite using half god artefact to come to the top, it was hard for them to battle here.

In just a few moves, the two couldn't handle it anymore. They had to stop in this disastrous environment to use their cultivation method to protect themselves. However, Lu Huahan was ambushed and more heavily injured. His cultivation level was higher than Ay Binglan but the key thing here was body refinement cultivation level.

Ye Mo shook off the snow on him and slowly walked over. Ye Mo didn't plan to let these two go nor let them die.

Seeing a nearby snow peak melt and Ye Mo slowly walk out, the two were completely dazed.

Ye Mo's cultivation level was only immortal emperor middle stage but he casually walked at the peak as though not affected at all. They immediately knew that Ye Mo was definitely a top level body refinement immortal.

"Who are you?" The two asked at the same time.

"It's not important who I am but you guys spoke about Gemini emperor sect right?" Ye Mo walked towards the naked woman and asked casually.

Ay Binglan and Lu Huahan glanced at each other. They were just fighting to the death before but now they jumped Ye Mo at the same time.

Chapter 1984: Gemini Sect Member

The red wave flowers swept towards Ye Mo. Ay Binglan was very annoyed. If this wasn't the peak of the mountain, her red band could sweep all the nearby space and make Ye Mo defenseless. Of course, that's just what she thought.

Lu Huahan's flame dragon tooth made humming sounds as a hideous black dragon appeared. Rings of flames circulated the dragon's head.

Roar. The black dragon carried this heaven devouring force that almost devoured Ye Mo and the woman on the ground.

Ye Mo stopped, his domain surged out and the surrounding space seemed to have paused at this moment. That extreme cold and hot was also swept away by Ye Mo's domain. A barrier that almost materialized stretched out. The two's face changed. Such powerful domain, such powerful force, they were definitely no match.

Plus, at the top of the mountain, they would need to use extra power while Ye Mo wasn't affected at all.

The red band wave was swept back while Lu Huahan's black dragon made a sharp shriek.

But this wasn't the end. The next moment, a piercing purple ray shout out from behind Ye Mo. When the purple ray sliced by, Lu Huahan and Ay Binglan just felt their body shivering.

That huge dragon heard immediately withered after the purple color passed. Meanwhile, the purple color didn't weaken at all. There was a bloody mist on LU HUahan.

Scratch. Ay Binglan's red band was weaker than the dragon tooth and was just ripped apart by the purple light. Before Ay Binglan could think, she smashed at the purple ray with the hand wearing the glove.

A thud later, the purple colour moved aside a little and sliced past Ay Binglan's shoulder bringing out a bloody mist too.

The two looked dazily at Ye Mo but both of them lost an arm. Lu Huahan was worse, half of his body was gone.

There was terror in their eyes. Even though the fire mountain could affect them, they were still immortal emperor power. Two immortal emperors couldn't even last one round in his hand? What was this person? Even if a divine emperor came he would probably only be like this.

"Your glove is quite good." Ye Mo glanced at Ay Binglan's glove.

Then he threw a pill into the mouth of the woman laying down. Moments later, the woman woke up. She immediately got up but realised she was pretty much naked. In her embarrassment and fury, she quickly put on a set of clothes and yelled at Ay Binglan "Big sister, why did you harm me?"

She soon saw that Ay Binglan and Lu Huahan was missing an arm. She had completely realised now that their arms were probably cut off by Ye Mo. Perhaps she was saved by Ye Mo.

"No need to look I saved you." Ye Mo glanced at the two and said "Tell me your purpose of coming here and tell me about the Gemini sect too. If you hide anything I will kill you."

The woman cast her embarrassment aside and quickly bowed to Ye Mo "Qian bei, wanb bei Ay Xiuzhu. I came from Gemini sect. qian bei can ask me. Xiuzhu will tell whatever I know."

Ye Mo nodded. He was happy with Ay Xiuzhu's attitude, "Tell me where the Gemini sect is and which people are in the sect as well as what your purpose here is?"

Ay Xiuzhu immediately said "The Gemini sect is long gone. Only some scattered sect members remain outside trying to find talented twins to inherit the cultivation method. I'm from the sect but I've never been to the sect. I only know I's around here. Other than twin cultivation method, the sect also has body refinement cultivation method. The snow volcano had always been the body refinement cultivation grounds. I came here this time because my martial sister lured me here. She said there's a teleportation formation to the sect at the top of the mountain. I came to look for that teleportation formation."

Ay Xiuzhu looked at Ay Binglan and said "Sister said that she didn't want to go to the sect as she found someone she liked so she wanted to be with him. She gave me the teleportation formation jade card. Now I know it's not teleportation jade card but the formation card to activate the extreme heat and cold."

Ay Xiuzhu sighed. After activating this jade card, I realised that those with these cards would be surrounded by extreme heat and cold and unable to escape. If no one is around to save you when you're unconscious you would die."

"Why do you want to kill your sister?" Ye Mo looked at Ay Binglan.

Ay Binglan quickly said “The snow volcano is the place for Gemini sect members to break through to immortal god body. Usually, it’s two people breaking through at the same time. My talent isn’t as good as Xiuzhu and she reached immortal god body first. I was planning to use her to reach immortal god body, then...”

Ye Mo didn’t need her to explain to know what was going on. Ay Binglan wanted to use Ay Xiuzhu’s body to cleanse the extreme heat and cold and then use that to refine her own body. That way she would have a chance to reach immortal god body. From this, Ye Mo knew that Ay Binglan was shameless and had no morality.

Ye Mo said with disgust “Since this is a cultivation ground why would Ay Xiuzhu fall unconscious?”

Ay Binglan answered “Because no one has cultivated here for countless years. The extreme heat and cold and stacked to an extreme. Even immortal god body tertiary stage might not be able to withstand it much less immortal god body primary stage.”

Ye Mo scanned where Ay Xiuzhu was laying and found a subtle stealth formation there. The formation was probably where the sect members came for body refinement. The extreme heat and cold was very pure.

Ye Mo walked over to there and ran his body refinement cultivation method. Extremely pure heat and cold filled Ye Mo’s body and constantly refined his body.

This place was much better for body refinement than other places. There were all sorts of impure chi at other places and even with the Three Birth Chant, Ye Mo would have to remove it first. But here, one could just devour that chi for body refinement straight away.

Soon, Ye Mo left here. It was indeed suitable for body refinement but he had reached the peak of immortal god body. There was no point in cultivating here.

Seeing Ye Mo go into the formation and come out so casually, there was more shock in Ay Binglan’s eyes. Ye Mo was the strongest body refinement cultivator she had seen. His power was also out of this world.

She had actually never heard of such person.

“So that teleportation formation is fake? You don’t know where the sect is?” Ye Mo’s tone became harsh.

Ay Binglan said in horror “Qian bei please have mercy.”

Ye Mo sneered “If you tell me things that satisfy me I won’t kill you. If you keep bullshitting you wont need to keep talking.”

Ay Binglan rejoiced and quickly said “Qian bei, the teleportation formation is real. When my master taught us, she didn’t take us to the sect so we don’t know where it is too.”

“Where does the teleportation formation lead to? Where is the teleportation formation? Who is your master?” Ye Mo asked.

Ay Binglan didn’t dare to hide anything at all “It’s said to teleport to where the sect used to be. As for the location I only know it’s near the snow volcano. My master is called Luo Biye...”

Hearing this name, Ye Mo was overjoyed.

Ye Mo’s tone calmed down due to his mood “Where is your master Luo Biye?”

Seeing Ye Mo’s tone go calm on mention of her master’s name, Ay Binglan wondered if Ye Mo was related to her master but she realised she didn’t know where her master was either.

Seeing Ye Mo’s face grow worse, Ay Binglan quickly said “Qian bei, my master never came back to us after leaving us. I think she might’ve left through the teleportation formation.”

Disappointment surged in Ye Mo’s heart, he then asked “Where is the approximate location of the Gemini Emperor sect?”

“30,000km to 300,000km west of the volcano.” Ay Binglan said.

“Last question, where are there so many snow peaks at the top and why are there bodies underneath it?” Ye Mo asked.

Chapter 1985: Fill Broken Realm, Repair Immortal Realm

“Wan bei don’t know this but I know what happened at the sect. There was a huge battle at the top of the snow volcano. Wan bei don’t know if the snow peaks were left from then.” Ay Binglan quickly said.

Before she finished, Ye Mo already disappeared in a dashing light.

Ay Xiuzhu looked dazily at Ye Mo’s figure. Ever since she came out, she had never seen someone as terrifying as Ye Mo. At the same time Ye Mo left, Ay Binglan’s red band swept at Lu Huahan.

Lu Huahan didn’t dare to do anything in front of Ye Mo but facing Ay Binglan, he didn’t fear at all. While Ay Binglan ambushed him, he ambushed her at the same time. They both thought the same thing.

“Sister hurry up and help me. This person tricked me to ambush you...” Ay Binglan looked at Ay Xiuzhu asking for help.

Ay Xiuzhu suddenly released a blue ray. Her cultivation level was the highest and her injuries had recovered. She was immortal god body so she wasn’t affected by the mountain. The instant Ay Xiuzhu released the blue ray, it locked onto Lu Huahan and sliced past his body bringing out bloody mist.

“From now on, we are no longer sisters.” Ay Xiuzhu said and then disappeared in a dashing light too.

...

Ye Mo had left the snow volcano. His spirit sense expanded quickly. He was desperate. After all, he had to go to that void palace soon and he didn't know what dangers were there or when he could come back.

So he had to find Xiaoyun quickly and send her back to Mo Yue Immortal Sect. otherwise, his heart can't go to rest.

...

The void palace was once again filled with people and everyone here were famous in the immortal realm. Even the few immortal monarchs here were peak formation grand master. Ordinary people didn't have the right to be here.

"Dragon River grand emperor, what's going on? The formation here seemed to have been repaired?" A formation grand master studied the space formation door and asked.

Then he shook his head "With my formation skills, I definitely can't repair this place. I can't even see 10-20% of it."

The other immortal emperors and Dragon River looked at Kai Mi. Dragon Drive grand emperor asked "Kai Mi qian bei, is the formation here repaired by sect leader Ye? If it is, then we can't help at all. Everyone here are top formation grand masters but none of them can understand this formation.

Kai Mi looked at it carefully "No, I'm certain that after sect leader Ye and I left, someone else came here to repair the formation. When sect leader Ye repaired the formation I was there. Sect leader Ye's repair definitely wasn't as perfect as this. There was still chi spilling. But now, this formation isn't spilling anything at all. It's a hundred times better than sect leader Ye's repair."

The immortal emperors and formation grand masters glanced at each other. What Kai Mi meant was that after Wuhua immortal emperor came in here, another powerful being repaired the barrier formation completely.

“When sect leader Ye repaired this formation, he used a few years. If that powerful being really repaired the formation after Wuhua immortal emperor went in, then that powerful being is too scary. It’s less than a few months.” Kai Mi stared at the formation door and said in shock.

Nong Yan immortal emperor said “If I’m not wrong, when we broke the formation, it started the powerful being that first set the formation. That qian bei came back to repair it.”

“So that means we don’t need to repair this formation?” Another formation grand master asked.

Kai Mi nodded “If this formation is really repaired by that qian bei then we don’t need to repair it indeed. This formation is so profound and I’m guessing it’s not something of the immortal realm. We have the best immortal formation grand masters in the immortal realm gathered here but only sect leader Ye can know a little about this.

Even sect leader Ye can only repair it a little. He couldn’t completely reset it like this. Since this qian bei repaired this formation, I thin we should send people to guard here to prevent similar things from happening again.”

“I agree to Kai Mi qian bei.” Wei Feng grand emperor immediately said.

Since Wei Feng grand emperor said this, other people agreed.

“Hmm, there’s a stone tablet here.” Another immortal emperor looked at the formation door and said.

Next to the door, a huge stone tablet was slowly revealing itself. Soon, it became clear and everyone could see the words on it.

“This formation seals the chi of the immortal realm but it’s not a long term solution. Eventually, the people from the broken realm would come into the immortal realm from here. How can the immortal realm be safe? Those with great will can enter the broken realm and vindicate primordial essence dao and protect the two realms. Those with great wisdom can enter the broken realm from here and perfect the laws, fill broken realm and repair immortal realm!

To prevent insidious people coming back to spirit control immortal realm after achieving dao essence. Those who enter from here can't come back. Those who aren't immortal emperors can't enter too! After repairing this formation, I've lost all my power. If this formation breaks again, there's nothing I can do."

...

After reading this, everyone looked at the grand emperors in confusion.

"What does this mean? What's vindicate primordial essence dao? Can the immortal realm be repaired?" Yuan Yun immortal emperor asked the question everyone wanted to know.

Kai Mi got up and saluted with his fists "Since the formation is repaired, I'll explain things here. I completely understand this stone tablet."

Everyone held their breath and listened "In the ancient times, there was a realm above the immortal realm. It's just like how cultivation realm ascended to immortal realm. But for some reason, the realm was destroyed but not all the people there died. Those who could survive in that realm are powerful beings."

"Kai Mi qian bei, you're saying that dao vindication divine emperor isn't the highest state?" Zheng Ren immortal emperor asked in shock.

Kai Mi nodded "That's right. Dao vindication divine emperor is only the first step to seeking dao. The first step of dao vindication divine emperor is Dao Moulding Divine Emperor, Dao Nourishment Divine Emperor and Dao Actualisation Divine Emperor. Only once you reach Dao Actualisation Divine Emperor can you barely be considered a divine emperor."

"What?" Those who haven't heard about this took in a cold breath. Even Feng Kong Grand Emperor and Dragon River grand emperor were speechless. They had always thought that if they vindicated dao they would be the pinnacle of the immortal realm. However, dao vindication was only the first step.

Kai Mi said seriously "At that time, we only knew after battling with someone from the God Necropolis Domain. The immortal realm had nine divine emperors but only Truth divine emperor reached Dao

Nourishment Divine Emperor. That's why the immortal realm was beaten into 33 heaven domains by that powerful being. If that powerful being wasn't seriously injured and Truth divine emperor had immortal carnage tower, the immortal realm would've been someone's truth spirit world already."

"Kai Mi qian bei, may I ask what the second step and third step to dao seeking is?" Dragon River and Feng Kong Grand Emperor had completely set aside their attitude as grand emperor and bowed to Kai Mi asking. The other immortal emperors also listened intently.

Kai Mi divine emperor continued "After the first step Dao Actualisation Divine Emperor, it will be dao vindication second step Dao Essence Divine Emperor. I know that after dao essence it will be third step Primordial Essence Divine Emperor. Only once you become a Primordial Essence Divine Emperor can you be truly called divine emperor."

Everyone fell silent. They had thought that immortal emperor was at the pinnacle of the immortal realm but now they realised that immortal emperor was nothing.

"No wonder the two beings in Wuhui's crystal ball were that powerful. They're all beyond Dao Moulding Divine Emperor. If these people came to the immortal realm, how can the immortal realm be safe?" Zheng Ren immortal emperor said in shock.

"So that's what vindicate primordial essence dao meant, this isn't easy at all." Another immortal emperor said with dejection.

"I'm going in this space formation door to seek higher level fortunes. Otherwise, if I stay here, I'm just waiting to die of old age." Jin Hui immortal emperor said.

Those who reached immortal emperor had very firm minds. The immortal emperor who sighed was rare. Many other immortal emperors conformed to what Jin Hui immortal emperor said.

Dragon River grand emperor stood out and said "Everyone, we've always been chasing that slim chance of reaching higher levels of dao. Now that we know there's chance to higher level, I believe no one wants to give up this opportunity.

At the same time, the immortal realm is our root. If the immortal realm is destroyed we would have no root. I hope that after we enter the new realm, we can let other people have a chance to come in too.”

“Dragon River grand emperor just say it. Only now do I realise I’m the frog at the bottom of a well. After I enter the new realm, I will support to the end no matter what request grand emperor has.” Feng Zheng immortal emperor said.

Dragon River got straight to the point “I hope we set a top level formation here and a teleportation formation. Those who reach immortal emperor and want to enter the broken realm to cultivate can go through here. Another thing is to send someone here to guard it.”.

Chapter 1986: Who’s the expert at playing with fire

Outside the snow volcano, Ye Mo had searched for four days. He almost searched within a 500,000km range west of the snow volcano carefully but still didn’t find any signs of the Gemini sect. he didn’t even see a stealth formation.

This region was barren and little immortal spirit chi. It was just a frozen land.

When the fifth day was about to pass, Ye Mo became more disappointed. He was certain the gemini sect’s location wasn’t here. It seemed a bit hard to find the sect and then find Luo Biyue and then find Mu Xiaoyun.

Ye Mo’s spirit sense extended further and a familiar dashing light crossed the border of his spirit sense. Ye Mo immediately caught that dashing light, it was Xian Lan merchant association’s Zhong Kong immortal emperor. He didn’t expect to see this guy again today.

Originally, Ye Mo didn’t want to care about it but when another dashing light passed the border of his spirit sense, Ye Mo’s killing intent rose immediately.

The dashing light who was hunting Zhong Kong immortal emperor was someone Ye Mo had never seen before but he recognized this person immediately. He looked like a block of wood and his face was tree skin. Who else would it be other than that Yuan Muxian who captured Tang Beiwei?

It was too normal that Yuan Muxian was hunting Zhong Kong immortal emperor. Zhong Kong immortal emperor spilled the news of Yuan Muxian capturing Tang Beiwei to him. Zhong Kong immortal emperor knew that he was going to be hunted when he said it. Now, it really seemed so.

Ye Mo immediately hunted over but found Zhong Kong immortal emperor turn into the direction of the snow volcano. Clearly, Zhong Kong immortal emperor wanted to go in there and use the environment to fight for his life.

Yuan Muxian's speed was clearly faster than Zhong Kong immortal emperor. If it wasn't that Zhong Kong immortal emperor's flying magic artefact was better than Yuan Muxian's, Zhong Kong immortal emperor would've been caught by Yuan Muxian already.

Ye Mo stopped, Zhong Kong brushed past Ye Mo but Ye Mo didn't care. He was going to stop Yuan Muxian.

When Zhong Kong immortal emperor brushed past Ye Mo, he immediately saw Ye Mo and turned back in surprise and joy.

"Sect leader Ye..." Zhong Kong immortal emperor quickly bowed to Ye Mo.

"The person hunting you is Yuan Muxian?" Ye Mo stared at the nearing dashing light and asked coldly.

Zhong Kong immortal emperor breathed and answered "Yes, that's Yuan Muxian. I came to hide at Yu Yu heaven but that bastard is still hunting me. please help me sect leader Ye."

Ye Mo nodded "I'm going to kill this block of wood without a doubt."

Feeling Ye Mo's dense killing intent, Zhong Kong immortal emperor subconsciously shivered and didn't answer. He was hiding from Yuan Muxian everywhere that he didn't even know Ye Mo's battle with Feng Kong Grand Emperor nor the Mo Yue Immortal Sect sect opening ceremony.

When Ye Mo finished the sentence, Yuan Muxian appeared before Ye Mo and glanced at Ye Mo and said Zhong Kong immortal emperor in contempt "You found an immortal emperor middle stage to escape from me? Keep dreaming, I'll let you know what fear is."

"Little bastard, if you don't want to die then piss off, don't wait till your ancestor Mu to annihilate you." Yuan Muxian waved his hand and a bell appeared in his hand. It made a casual ring and Ye Mo felt his heart seemed to have been burnt by fire. What made it more unbearable was that this person's voice was like rats biting rotten wood. It was disgusting.

Ye Mo nodded, this should be Yuan Muxian's famous magic artefact, Liu Ming Guang Yan bell. No wonder Zhong Kong immortal emperor felt so threatened by Yuan Muxian. Yuan Muxian hid his power but Ye Mo could tell Yuan Muxian was immortal emperor tertiary stage.

"You're Yuan Muxian?" Ye Mo waved his hand and Zi Xu appeared in his hand while his killing intent spurred.

"Who are you?" Yuan Muxian frowned and asked when he felt Ye Mo's powerful killing intent and dominant domain.

"Mo Yue Immortal Sect Ye Mo, I've wanted to kill you for a long time." Zi Xu flashed and god art crevice was released.

This crevice god art was different to before. It fused the killing intent of the Qing Wei abyssal river.

"So you're Ye Mo. I was planning to go to Mo Yue Immortal Sect to kill you but now that I see you today, it saves me the trouble of going there." Yuan Muxian said and released the bell.

A soul shocking sound came from the bell that mixed with the flame which then fused with his domain. This flame domain was actually burning Ye Mo's domain.

Ye Mo waved shadowless out and said “Shadowless prevent this old rotten wood from running away. if necessary eat him.”

As Ye Mo’s power increased, he didn’t need shadowless many of the times. Shadowless was very bored and now that Ye Mo let him out to eat, how could he give up such opportunity “Don’t worry boss, although the wood might not taste good I’ll still eat it.”

Yuan Muxian was furious, the bell burst out and rings of invisible flames ravaged the nearby space. Small cracks appeared in the space. Zhong Kong immortal emperor looked at this shock. Such magic artefact that could burn space meant a few of him wouldn’t be a match for Yuan Muxian.

Zi Xu’s god art sword ray had sliced through tens of kms of space. That lethal force made Zhong Kong immortal emperor quickly retreat.

Zhong Kong immortal emperor was quite dejected. Whether it was Yuan Muxian or Ye Mo, they weren’t someone he could take on.

Clank. Sword ray clashed with Yuan Muxian’s immortal emperor domain creating this metal clashing sound.

Yuan Muxian’s domain was immediately opened a crack. Before this crack could grow in size, the bell made a desperate ring and that crack was filled. The flame in the domain intensified.

The bell sound almost materialized and invaded the surrounding 10,000km of space. Zhong Kong immortal emperor was affected by this and spat blood again while retreating even more.

Even Ye Mo was affected by this bell sound a little and his crevice god art paused for a moment. His killing intent paused too.

Shadowless was furious and bit down. The terrifying domain of Yuan Muxian was immediately bitten off a piece. The broken domain could no longer stop Ye Mo’s Zi Xu. Zi Xu expanded and sliced across the entire space. Yuan Muxian felt his soul and essence spirit was taken away by this strike.

The extreme intense lethal force gradually bound him and he slowly lost his battle will inside the killing intent.

Not good, Yuan Muxian's battle experience was ample. He immediately knew he was no match for Ye Mo much less Ye Mo had a immortal spirit beast that could devour domain to help him.

Yuan Muxian could care anymore and threw out a few hand signs. The bell expanded and in just a second, the bell spewed out countless flame beasts.

They also had this soul devouring sound as they charged at Ye Mo.

Ye Mo was furious. He just needed to change his crevice god art a bit and could completely suppress the bell. However Yuan Muxian kept playing fire in front of him.

Ye Mo didn't use Zi Xu anymore and instead put it away. He punched out. Flame fist god art, five stack wave kill.

Rumble. A 30km tall blue fire wall erupted and the surrounding snow was instantly melted. The wall stopped all the flame beasts. Inside the wall, there was sounds of wails.

Zhong Kong immortal emperor from a distance called out in shock "Immortal flame Blue Like Morning Sky god art..."

He was completely numb. The reason he succumbed to Ye Mo was because he knew he was no match but now, he realised he underestimated Ye Mo.

"Immortal flame god art?" Yuan Muxian knew fire and this terrifying flame was definitely immortal flame. He knew Blue Like Morning Sky.

More than half the beasts were burned to death. Before Yuan Muxian could gasp, the second flame wall was here.

There was two walls, Yuan Muxian's heart sunk. He had decided to flee as far as he could after escaping from this god art.

Before he finished the thought, the third and fourth wall came. Despair flashed across Yuan Muxian's eyes. What guy was this. he could use four fire walls. If he knew Ye Mo was this powerful, he would've fled already. His bell flames were nothing compared to Ye Mo's flame god art.

Chapter 1987: The Mystery to Blocked Immortal Ascension

Yuan Muxian couldn't escape from the space binding coming with the flame waves. He could only take it head on. Yuan Muxian's tree bark like skin started to seep out black oil.

Yuan Muxian kept burning essence blood and immortal essence while the bell wailed. It grew even bigger, wanting to block Ye Mo's fire wall.

Thud...

The fire wall clashed with the bell. The bell instantly shrunk and Ye Mo's fire wall dimmed down.

Yuan Muxian breathed easy. This dimmed flame might heavily injure him, but there was no way for it to kill him.

But the next moment, he was completely dazed. He saw an even stronger fifth wall smashing over. This time, he was truly terrified. How much spirit sense and immortal essence would be needed to use immortal flame and smash out five walls consecutively like this? How terrifying was Ye Mo's control over flame?

He really wanted to flee immediately, but he was bound by the Wave Kill.

The only thing he could do was cover himself in the bell.

Rumble...

The fifth flame wall came and the bell was covered in flames. In a few seconds, it shrunk to a palm sized bell. Yuan Muxian howled and was thrown out by the bell and turned into a ball of flame.

Inside the flame, a tree root kept shaking and begging for mercy.

“So you really are a block of wood.” Ye Mo sneered as his immortal essence rose and the sound in the flame suddenly stopped. Dust flew everywhere.

There were tree roots becoming self conscious, but this was the first time Ye Mo saw one cultivate to Yuan Muxian’s level. However, since Beiwei almost died in his hands how could Ye Mo let Yuan Muxian live?

The five fire walls smashed out an extremely deep ravine at the battle field. Even space itself was rippling due to the flames.

“Sect leader Ye, thank you for saving my life. If I didn’t see sect leader Ye today, I probably wouldn’t be alive.” Zhong Kong immortal emperor suppressed his shock and bowed to Ye Mo.

He knew Ye Mo was strong, but didn’t expect Ye Mo was this strong. He could easily kill Yuan Muxian. None of the four grand emperors could do this easily. Didn’t this mean Ye Mo was equal to or even beyond the four grand emperors?

Ye Mo took Yuan Muxian’s storage ring and the dull bell. “I’ve long wanted to kill this bastard. Now that I saw him today, how could I let him go?”

Zhong Kong immortal emperor thanked again and said, “Sect leader Ye, I have nowhere to go now. Yuan Muxian is dead and the power behind Xian Lan Merchant Association still hasn’t come out. I’m quite unsettled. I want to join Mo Yue Immortal Sect, but I’m afraid that might bring trouble to Mo Yue Immortal Sect...”

Ye Mo smiled. "Zhong Kong immortal emperor, I annihilated Xian Lan Merchant Association and I ordered it to be shut down. Even if you don't join, would the merchant association not come for trouble? I'm never afraid of any trouble. If brother Zhong Kong wants to join my Mo Yue Immortal Sect, I welcome you greatly."

If what Yu Jinxiang said was true, the power behind the Xian Immortal Ascension Merchant Association is that Blood Cauldron grand emperor who might still be injured.

He wasn't even scared of Feng Kong Grand Emperor, how could he be scared of Blood Cauldron grand emperor?

"Thank you for taking me in sect leader Ye. Zhong Kong is willing to join Mo Yue Immortal Sect!" Zhong Kong immortal emperor said in joy.

Ye Mo gave a jade card to Zhong Kong immortal emperor. "Go to Gong Hua Heaven and find Ji Lei immortal emperor. Let him bring you into the sect."

"Ji Lei immortal emperor is now part of Mo Yue Immortal Sect?" Zhong Kong immortal emperor was dazed. He thought that after he joined Mo Yue Immortal Sect, he would be the strongest after the sect leader.

Ye Mo nodded. "Yeah, other than me, there are two divine emperors. They are Kai Mi and Chu Chen divine emperor. There are three immortal emperors, Qing Wei Abyssal River's Duniang, Ji Lei immortal emperor and He Chong immortal emperor. With you, there will be four immortal emperors."

Hearing this, Zhong Kong immortal emperor was completely numb. Was this a low heaven domain sect? This was clearly the number one sect of the immortal realm. With such power in the immortal realm, which sect could compare with them? He was an immortal emperor primary stage, this was nothing in the Mo Yue Immortal Sect.

After a long while, Zhong Kong immortal emperor recovered and said, "Sect leader Ye, are you going back to the sect now?"

Ye Mo shook his head. "I still have some things I can't go back yet. You can go and choose a peak for your cultivation home. As for the sect rules, Lu Feng will tell you."

...

Zhong Kong immortal emperor left and Ye Mo left Yu Yu Heaven in disappointment.

A few days later, Ye Mo came to the void palace. He thought there would be tens of people here.

But when he came, he only saw three here. Other than Kai Mi, there was Kui Qian immortal emperor and Shen Kun immortal emperor. On top of that, Ye Mo found there was a long distance teleportation formation here.

Before Ye Mo asked anything, the three immortal emperors came up to greet Ye Mo.

"What is this?" Ye Mo asked and then immediately saw the stone tablet there.

He had repaired this palace before, and now with one glance, Ye Mo knew this place was repaired again. The person who did this had much greater skills than him.

Ye Mo didn't look at the tablet and just studied the formation, thinking 'When did the immortal realm have such a formation master'?

"Sect leader, the formation here was indeed reset by a powerful being. The person is the person we guessed before. have a look at the tablet and you'll know," Kai Mi explained. He waited here for Ye Mo.

Ye Mo looked at the tablet once.

"Some immortal emperors have entered the other realm through the void formation door. Some people went back to their sects to arrange things. The teleportation formation here is newly set. It goes to Fen Du Heaven. Kui Qian immortal emperor and Shen Kun immortal emperor are the guardians here," Kai Mi said.

Ye Mo breathed easy. Since this formation was repaired, he wouldn't need to worry so much.

Although that the powerful being said this formation was only a temporary solution, Ye Mo believed he would reach dao vindication sooner or later. He had to go into the God Necropolis Domain. Plus, he needed to go see why the cultivation realm couldn't have immortal ascension again.

Kui Qian immortal emperor and Shen Kun immortal emperor saw that Ye Mo seemed to need to talk to Kai Mi, so they moved to the side. Ye Mo waved up a sound barrier restriction and asked, "Brother Kai Mi, I want to go to the cultivation realm but I can't find a way down. I can't tear open the immortal realm void now."

Hearing this, Kai Mi frowned "Sect leader, it's not easy to go to the cultivation realm. When I helped Lu Zhengqun go to the cultivation realm, I used an ancient realm traversing formation as well as a few realm traversing rune. It can only let hollow immortals go down or golden immortals who suppress their power to hollow immortal. Great immortals definitely can't go down and that ancient formation can no longer be used.

Ye Mo's heart sunk, if he can't go down, how he can solve the issue?

"Sect leader, why are you desperate to go down to the cultivation realm?" Kai Mi saw Ye Mo's face wasn't too good and asked.

"Luo Yue cultivation realm couldn't have immortal ascension. I broke a few seal flags in the West Extreme State. However, in such a short time, they can't ascend again, so I want to see." Ye Mo sighed.

Kai Mi blushed and bowed to Ye Mo. "Sect leader, I taught Lu Zhengqun to do this to protect some things. At the same time, I opened another formation. Not only the Luo Yue cultivation realm cultivators, but the other cultivation realm cultivators can't ascend either. The seal flag you broke has self repair function. Within time, it would completely repair and prevent the cultivation realm from ascending. Don't worry sect leader, leave this to me."

Ye Mo realised. No wonder the rest of the seal flags that exploded disappeared – they were stealthed and only made the illusion that they exploded.

Chapter 1988: Enter the broken realm

Not right. Ye Mo immediately remembered that Lu Zhengqun hid the world tree at Luo Yue continent. Why did Kai Mi seal the other cultivation realm's immortal ascension tunnel?

Kai Mi was cunning and without Ye Mo needed to ask, he said, "If only Luo Yue cultivation realm was prevented from immortal ascension and people noticed, perhaps they would soon be able to find out about the world tree. I took Lu Zhengqun to activate the ancient immortal ascension restriction formation, allowing countless cultivation realms to be unable to immortal ascend. That way, no one would be able to find their way to Luo Yue continent."

"The immortal realm has an immortal ascension restriction formation?" Ye Mo asked in confusion.

Kai Mi nodded. "That's right, this formation is to restrict the cultivators ascending to the immortal realm, since most immortal ascension cultivators are extremely talented."

Ye Mo asked with more confusion, "Isn't that good for the immortal realm? Why limit their immortal ascension?"

Kai Mi said, "I'm not very sure about this either. I just heard in the ancient times, the immortal realm wasn't just inhabited by immortals, there were also immortal spirit beast and immortal demonic realm. Comparatively, immortals were the weakest of the three, but whenever the immortal realm had talented cultivators ascend to the immortal realm, these cultivators would soon grow to the peak immortal emperors.

The immortal spirit beasts and immortal demons didn't have such an advantage. As time went on, immortals had more advantage and devoured large amounts of their land. Eventually, the entire immortal realm became the world of the immortals. Immortal spirit beasts and immortal demons diminished becoming the pets of immortals. Even if they exist somewhere, it would be faraway corners."

Hearing about immortal demons, Ye Mo thought of Zong Piao Heaven. They were almost annihilated by immortal demons. If he didn't use his Heaven Flame Nine Suns, there would be no immortals in Zong Piao Heaven. If there could be that many demonic immortal spirit beasts there, who's to say it would appear elsewhere?

"You're saying that the immortal ascension restriction formation isn't set up by immortals but demonic immortal spirit beast or immortal spirit beast?" Ye Mo asked.

"That's right. They want to prevent the prodigies of the immortal realm ascending so they set up that formation. Despite this, the immortal demonic realm was gradually taken over by immortals and the immortal spirit beast went into those harsh lands," Kai Mi answered and said.

"Where is that formation? Since you opened the formation, why can I break the immortal ascension restriction at Luo Yue continent?"

"This formation is Jin Shang Heaven. All nine divine emperors know about this formation. Jin Shang Heaven was named after this formation. Because this formation isn't complete and after this many years of ruins, it no longer has the effect to restrict immortal ascension. I used my secret treasure to barely allow Lu Zhengqun to repair the formation. Even if I don't touch it, the formation would disappear after a while. As for West Extreme State Sand River, I set up seal flags just for there. The thing was at Luo Yue continent and I was afraid its chi would spill so I set up seal flags just for it.

Ye Mo finally understood and said, "Go to Jin Shang Heaven and destroy this immortal ascension restriction formation. There's also another thing I want to ask you. You probably set up the demon realm in West Extreme State right? Is the heaven gang 36 domains in the West Extreme State related to you?"

Kai Mi denied, "I only set up a barrier formation at Luo Yue continent. I don't know about the 36 heaven domains and wouldn't care about such a little thing in the cultivation realm. I did let Lu Zhengqun set up the demon realm, but that's just to hide the chi of the tree."

"I understand," Ye Mo said.

“By the way, Dragon River grand emperor asked me to tell you something. You asked him about the purple robed man. There’s news of him now. He knew about the thing here and used the void formation gate to enter the broken realm,” Kai Mi said.

Ye Mo was shocked. “You said that the purple robed man entered through here? What about Dragon River grand emperor?”

Kai Mi could tell that the purple robed man was very important to Ye Mo and said, “Dragon River grand emperor went back to organize things. After that, he will be entering the broken realm from here.”

“When did that purple robed man leave?” Ye Mo asked desperately.

The purple robed man probably already knew about him and the stone stools, that’s why he wanted to go to the higher realm to vindicate dao. If he vindicated dao first, then Ye Mo would have to flee again.

Thinking about this, Ye Mo no longer had the mood to stay here. He quickly said to Kai Mi, “Open the immortal ascension tunnel to the cultivation realm and you can vindicate dao in the sect. I have to go into the broken realm now. If the other immortal emperors in Mo Yue Immortal Sect want to enter the broken realm, there has to be at least one immortal emperor guarding the sect.”

“I understand, before I vindicate dao again I won’t go to the broken realm,” Kai Mi said.

Ye Mo left things to Kai Mi and greeted the other two immortal emperors before charging in. He definitely couldn’t allow that purple robed man to vindicate dao first. The stone stool was too important to him. His dao and future would be related to it.”

...

At the same time in the Ice God Palace, tens of Ice God Palace sect members stood on the two sides. Sitting at the top was the big palace lord Su Lian.

“Qing Ru, master chose her own path. We need to respect her decision. Now that our saint has returned, the Ice God Palace will soon no longer shut itself in this icy world. it’s time for us to offer our power for the Ice God Palace.”

A green robed woman was speaking. This was the third palace lord.

“Yes, Qing Ru, we’re really happy you can come back. I believe the big palace lord is even happier. I just hope you can help Shuangshuang and let her lead Ice God Palace to be the number one sect in the immortal realm,” the big palace lord said softly.

Qing Ru got up and bowed. “Big and third palace lord, Qing Ru is determined to leave, but this is the first time our Ice God Palace is participating in the Eternal Night Forest trial. Qing Ru will help Saint Shuangshuang at all cost.”

Palace lord Su Lian sighed and said nothing more.

Qing Ru sighed. She knew others thought she was leaving because her saint position was taken away but only she knew it wasn’t. She wanted to leave because she saw the scene she saw in the cultivation realm here again.

Countless women were frozen into ice peaks just for the saint heritage of the Ice God Palace, just for the Ice God Palace to have an extremely strong saint. She was very disappointed in this practice. The previous big palace lord couldn’t stand this and thus resigned and left.

The Ice God Palace only had one true saint in history, and that was saint Shuangshuang. Every time Shuangshuang couldn’t reincarnate, they would find a substitute. The most powerful one in the Ice God Palace wasn’t the palace lord nor immortal emperor but saint Shuangshuang.

The Ice God Palace had always sealed their sect but one simple word from Shuangshuang broke this tradition of many years to participate in the Eternal Night forest trial, she just said, “If everyone hides at home to cultivate, we will never become the number one emperor sect in the immortal realm.”

Eternal Night Forest was a secret realm in Jin Shang Heaven that provided immortals below great immortal to go trial. There were some rare treasures, but the lethality rate was very high. That's why the big and third palace lord kept asking Qing Ru to protect Nie Shuangshuang.

Nie Shuangshuang sat at the right of the top seat and her face was extremely calm.

"In that case, let's move out now. I'll lead the sect members this time," third palace lord said.

...

Dashing lights left the Ice God Palace. Qing Ru controlled her flying ship calmly. She looked back at the distancing Ice God Palace and had made up her mind.- she would never come back again.

"Martial sister Qing Ru, can I ride your flying ship?" Nie Shuangshuang chased up to Qing Ru and smiled.

Chapter 1989: Nie Shuangshuang's Dao

"Of course." Qing Ru smiled and slowed her ship, opening the restrictions.

Nie Shuangshuang put away her flying magic artifact and landed on Qing Ru's flying ship.

"Martial sister Qing Ru, your flying ship is so pretty. Its design is completely different than ours." Nie Shuangshuang immediately felt something on this ship. The design was familiar to her, but it was different from all the other flying magic artifacts of the immortal realm.

"Mhm, a friend of mine gave me this. Saint Shuangshuang please have a seat." Qing Ru poured a cup of immortal tea for Nie Shuangshuang.

Nie Shuangshuang drank it and said, "Your friend is really nice to you. If I'm not wrong, this is an extreme grade flying magic artifact that's beyond a level nine immortal artifact."

Qing Ru smiled. "Probably, I still haven't congratulated saint Shuangshuang on returning to the Ice God Palace. Qing Ru will cheer saint a cup of tea."

Then, Qing Ru brought up the tea and drank.

Nie Shuangshuang sighed. "Martial sister Qing Ru, if you really consider me a sister than call me martial sister Shuangshuang. No matter what my previous life was you're my martial sister now. It seems so distant to call me saint Shuangshuang."

"Okay martial sister Shuangshuang, I'll drink first for respect." Qing Ru finished the cup.

Nie Shuangshuang drank the entire cup too and then said to Qing Ru, "Martial sister Qing Ru, are you so set on leaving the Ice God Palace due to me? Martial sister Qing Ru, your talent is no weaker than mine. In terms of looks, although I'm very confident, I know I'm far from you. You're the most beautiful out of all the women I've seen. You're actually more suited to be the saint than me."

Qing Ru fell silent for a long time before saying slowly, "Martial sister Shuangshuang, I'm not good at expressing my thoughts. If I say it's not due to you, then that would be a lie, but the real reason isn't what you think. Qing Ru is only happy that you can come back to the Ice God Palace and be the saint. I'm not jealous at all."

Qing Ru left the Ice God Palace not due to Nie Shuangshuang becoming the saint, but because of what Ice God Palace did in order to welcome back the saint and the heritage. After the big palace lord left, the Ice God Palace was no longer the same Ice God Palace.

Nie Shuangshuang fell silent. After a long while, she asked, "Martial sister Qing Ru, in the times you've had before, was there someone you liked or someone who liked you?"

Qing Ru looked dazedly at Nie Shuangshuang. They were all dao cultivators, so she didn't know why Nie Shuangshuang asked this, but now that she did, she thought carefully. She realised that there really wasn't someone she liked. As for whether anyone like her, she didn't know either.

“Do you have someone you want to repay a favor?” Nie Shuangshuang asked Qing Ru, but seemed to be asking herself too.

The face of the previous big palace lord flashed across her mind. She owed the most in her life to the previous big palace lord. Then, she thought of Ye Mo. He brought her from the cultivation realm to the Ice God Palace and saved her with level nine immortal pills and gave her a flying magic artifact.

Nie Shuangshuang asked but didn’t seem to need a response. She then said to herself “I couldn’t have come to the Ice God Palace in this lifetime, but he brought me to the cultivation realm and then to the immortal realm. He saved me more than once and even...”

“He’s the person you like?” Qing Ru saw Nie Shuangshuang stop talking and asked.

Nie Shuangshuang nodded. “Yes, if I didn’t know I was the Ice God Palace saint, if I didn’t know about all these things...”

Nie Shuangshuang fell silent. If she didn’t know all this, she wouldn’t do those things. When she became the first Ice God Palace saint, she swore to her martial ancestor and heaven dao that if she couldn’t lead Ice God Palace to be the highest sect in the immortal realm, she would never vindicate dao. Anything that prevented her from vindicating dao would be killed mercilessly.

Qing Ru did speak. She really wanted to ask who was the man Nie Shuangshuang liked and where was he now.

Seeing Qing Ru’s expression, Nie Shuangshuang laughed in self mockery. “In order to bring Ice God Palace to the peak, I wouldn’t mind even if I reincarnated again. So I hope that you can stay and help me at the Ice God Palace. Your talent is so excellent you will definitely be one of the top immortal emperors of the Ice God Palace.”

She continued talking, “That man came from a poor mortal realm. I don’t know how he brought me to the immortal realm, but it probably took quite some effort. When he just came to the immortal realm, his cultivation level was low and he wanted to buy a Soul Return fruit to save me. He met an immortal king and that immortal king liked my talent, so they took me away. That immortal king saved me, and I was taken to the Ice God Palace.”

“Miss Shuangshuang. You only took 200 or so years to come from the lower realm? Wouldn’t that person who brought you up be even weaker? Have you thought about looking for him?” Qing Ru asked.

Nie Shuangshuang looked at the clouds and said calmly, “When I woke up I did want to go find him. That immortal king who saved me said golden immortal would be the highest he can reach in his life. She said that he and I wouldn’t be of the same world and told me to give up looking for him. I didn’t bring this up again, but just used time to cultivate and planned to go find him when I had the power.”

“Then you came to the Ice God Palace and knew about your past life, so...” Qing Ru said.

Nie Shuangshuang sighed. “Yes, after realizing who I was, I knew it was the end for me and him. I severed all my ties with him and decided to forget about him. However, the world doesn’t go as you please.”

“What happened?”

Nie Shuangshuang fell silent for a long while and said, “He actually found his way to the Ice God Palace. I still don’t understand how he got here. I asked palace lord Shu and martial uncle Zhi Wen, but they said they didn’t know or didn’t want to tell me.”

“This man is so determined – then what happened?” Qing Ru almost broke the cup in her hands but didn’t notice it.

Nie Shuangshuang shook her head. “You don’t understand. He came to the Ice God Palace to find me or was worried about me, but I know that it has nothing to do with love. I once saved him, perhaps that’s why he came to find me.”

“Then, where is that person now?” Qing RU asked.

Nie Shuangshuang continued, “I once made the oath that I would not be distracted by anything else. In order to vindicate my determination...”

Qing Ru's heart squeezed as she got up. She took emotions and relationships seriously. She had the feeling that Nie Shuangshuang killed the person who saved her as well as the person she liked. She couldn't accept this.

Nie Shuangshuang laughed in self mockery "You probably guessed it, in order to prove myself. I killed him. I tricked him into that room. That room wasn't mine and then activated the number one formation, Ice God Formation..."

"I don't want to have anything to do with the Ice God Palace. Just tell me how to leave here and I will be very grateful."

"No need, thanks for bringing me out. I saved you, but you saved me too. We don't owe each other. Go back to Ice God Palace, don't worry about me getting revenge. I never thought about it."

...

Anyone who was hurt like this would be extremely sad. Qing Ru suddenly felt her decision to leave the Ice God Palace was right. She just realised that the person who saved her didn't lie at all.

At the same time, she realised why Ye Mo didn't want to have anything to do with the Ice God Palace. Nie Shuangshuang tried to kill him, but he still didn't want to get revenge, purely because Nie Shuangshuang saved him once.

So that's how Shuangshuang's flying ship came. Qing Ru was bitter in her heart.

"I asked the big palace lord to activate the Ice God Formation out of respect for him. Luckily the big palace lord agreed..." Nie Shuangshuang looked at Qing Ru. "Everything I've done is for the Ice God Palace. I hope you can do the same."

Qing Ru thought about Ye Mo being trapped and suddenly realised this had nothing to do with Nie Shuangshuang's sacrifice. The person who made the sacrifices was the person trapped. She got up and slowly shook her head.

Chapter 1990: Arrival at God Necropolis Domain

After Ye Mo entered the void formation gates, he felt a little dizzy. When he cleared up his mind, there was a patch of mist in front of him. It was different than what Feng Kong Grand Emperor and them said. There was a tunnel in this mist.

Ye Mo quickly went out along the tunnel and in just five minutes, he walked out of this tunnel. When he turned back, the mist was already gone. He was in barren wilderness.

As a top level immortal formation grandmaster, of course Ye Mo knew what was going on. This was probably left behind intentionally by those powerful beings. Otherwise, people would be walking around in the mist again for decades.

Despite knowing that he wouldn't be able to find a way back, Ye Mo still started to plant his spirit sense marks formation flags.

Now he couldn't find the way back, but that didn't mean he couldn't in the future. Once his formation skills reached a certain level, he would come back here again.

After doing this, Ye Mo started to look at what was in front of him. His spirit sense extended out only 1% that of the immortal realm. One could see that even though the space laws were broken here, it was still sturdier than the immortal realm. He felt the chi here was very impure. There seemed to be chi higher level than immortal spirit chi, but he couldn't really feel it or at least he couldn't really devour it.

He could only see barren wilderness here. Other than that, there were ravines everywhere. There were some subtle cracks in the void too. If flying magic artifacts went past these crevices, they would be torn apart.

Ye Mo took in a cold breath. This was no realm for survival, this was clearly a dangerous secret realm. He only saw these void cracks when he went in the Truth Fall Palace in the cultivation realm, but here they were everywhere.

Realizing the danger here, Ye Mo carefully moved deeper.

After walking for another half a day, Ye Mo realized that the void crevices he saw before were nothing.

On the way, his spirit sense saw endless abyss and rivers flowing down from the air. He saw dried cracked up river falling down in ruins. Huge mountain peaks were fallen and all sorts of cracks ravaged the grounds.

Just what happened here?

Ye Mo looked at the scene in extreme shock. He didn't believe how people could live here if everywhere was like this?

A sudden black figure appeared from a deep ravine and charged at Ye Mo. Ye Mo punched without hesitation using his fist god art Void.

Ye Mo's immortal essence and spirit sense had reached a certain level. Although he felt his god art seemed to be limited by heaven and earth and not as satisfying as in the immortal realm, it was still astoundingly powerful. This punch immediately swept up the space lethal force and clashed with the black figure.

Rumble

Ye Mo felt an extremely powerful concussion force. He was immediately struck flying and that powerful force instantly broke up his body protection immortal essence and smashed onto his chest.

Spitting out a mouthful of blood, Ye Mo immediately released Zi Xu. This black shadow was definitely stronger than Feng Kong Grand Emperor.

However, Ye Mo clearly worried too much. The black shadow was struck flying too. After being hit by Ye Mo's void punch, there was a hideous shriek and the figure left behind a shadow and feld.

“So powerful!” Ye Mo quickly ate an immortal pill and found that he was falling down into a huge ravine. Tens of space rays sliced towards at him.

At this moment, Ye Mo felt his immortal essence pause and couldn’t move aside in time. He sighed and could only wait till the space rays hit him before leaving the ravine. He felt the threat of these sword rays. Even if he didn’t move aside, they would at most tear open his clothes.

The instant that those sword rays were about to hit Ye Mo, a red beam swept over. When Ye Mo’s spirit sense touched that red beam, he knew that this red beam was trying to pull him away instead of hurting him. He immediately grabbed that red beam and used it to dodge the void sword rays.

Ye Mo landed and found that it was a woman who saved him, but even if she didn’t help him, he would be fine. This woman didn’t look old. Her skin was dark and her eyes big. Her waist was tightly bound and there was a gourd tied to it. Ye Mo was shocked to see that he couldn’t see her cultivation level.

Ye Mo felt very strange. He felt this woman wasn’t stronger than him, but he couldn’t see her cultivation level. Was this due to her stealth cultivation method?

“If I didn’t save you, you would be dead for sure if you fell into that ravine. Your cultivation level seems to reach immortal emperor, but your chi is unstable and your foundation is very shallow,” the dark face big eyed woman studied Ye Mo and said.

Her accent was different to the immortal realm but Ye Mo could still understand. The language difference wasn’t huge.

Chi not stable? Ye Mo was speechless, this was the first time he heard someone say this about him.

Although he used the time formation disk to cultivate, he had Bitter Bamboo, Golden Page World, and most importantly, the Three Birth Chant. How could his foundation be unstable?

“And you don’t have any god spirit chi on you, are you not from the God Necropolis Domain?” the woman guessed.

Ye Mo quickly copied her accent and said ,“I have been cultivating in a cultivation home for countless years and just came out. Thanks for saving me.”

However, this woman nodded. “You’re right. I did save your life. Otherwise, if you fell into the ravine, even a god wouldn’t be able to save you. So you’ve been solo cultivating in a cultivation home. You probably didn’t use god crystals to cultivate, otherwise your foundation wouldn’t be this unstable.”

The woman felt her face and said, “It seems I need to go into solitary cultivation for a while. Compared to you, I seem a bit dark.”

Ye Mo ignored these words. The only thing he heard was god crystals. He had realised now why she said his foundation was unstable. That was because he used immortal crystals and immortal ranges in the immortal realm. Immortal crystals were lower level than god crystals. Using immortal crystals to cultivate would seem shallow in this realm. Those who used god crystals to cultivate could tell easily. The reason he couldn’t see her cultivation level might be due to this.

“Yes, I have very few god crystals so my foundation is unstable. Can you lend me a few god crystals?” Ye Mo quickly saluted with his fists and asked.

The woman looked in a daze at Ye Mo. “I saved you and you didn’t show me any gratitude, yet you still want to borrow god crystals from me? Did I hear correctly ?”

Ye Mo could only say awkwardly, “I’m very poor right now and indeed don’t have anything on me.”

The woman nodded. “I can tell, so I don’t need any god crystals or god pills from you. I saw your punch striking away that low level mist demon beast was quite good. Can you teach me?”

That black shadow was a mist demon beast? How come it looked that similar to that demonic immortal spirit beast? Then Ye Mo realised that this woman probably saw him already and was waiting on the side to save him and ask for something in return.

“I can teach you but...”

Before Ye Mo finished, she threw out more than ten white crystals. “These are low grade god crystals. I really can’t believe you – I saved you and you didn’t even give me a gift, and yet you want god crystals from me first.”

Ye Mo grabbed these god crystals and found that they were the exact same as the ones Dragon River grand emperor brought back. He couldn’t devour the god crystals before because it was Dragon River grand emperor’s, but now Ye Mo immediately started devouring the energy inside.

It was powerful chi completely different to immortal spirit chi. It was very little in amount but it benefitted Ye Mo immeasurably. Ye Mo was certain that if he had enough god crystals, he wouldn’t need long to reach immortal emperor peak stage. This was even better than an extreme grade immortal range.

“Don’t devour golden core state here, it’s very dangerous here. There are mist demon beasts and if they come in packs we will never be able to leave,” the dark faced young girl said unhappily seeing Ye Mo forget to teach her his god art.

Ye Mo put away the god crystals awkwardly and quickly inscribed the Void god art on the jade slip and gave it to her. “This is my god art, it’s yours. Also, can you lend me some more god crystals?”
