

Strongest As 1991

Chapter 1991: Convert to God Essence

“You still want my cultivation stones? I don’t have many, but you can have them if you trade with something in exchange.” The woman glanced at Ye Mo’s jade slip and instantly took it.

Ye Mo took out the Liu Ming Guang Yan Bell and the broken Immortal Subjugation Metal Tree root. “See if you want these two magic artifacts.”

“Hmm...” The young girl was clearly knowledgeable. The broken tree root was so-so but she immediately grabbed the bell and exclaimed.

“This is a magic artifact that can be upgraded and it has been upgraded to extreme grade immortal artifact?” The young girl grabbed the bell in disbelief.

She added, “You’re going to sell me this magic artifact?”

An upgradeable extreme grade immortal artifact was worth far more than a low grade god artifact. That’s why this girl was so shocked.

Ye Mo nodded. “That’s right, if you want it then name a price.”

Ye Mo had no use for the bell and those who were close to him didn’t use fire element magic artifacts. Plus, he needed god crystals to stabilize his cultivation level.

The woman felt the bell with love. “I really like this magic artifact, but even if I give you all my god crystals, I can’t afford it. Plus, you have two. Although the other one is a bit broken, I still really like it.”

“How many god crystals do you have?” Ye Mo asked. At the same time, he rejoiced. He didn’t know how much the bell was worth, but since this woman said she couldn’t afford it, it meant that it had high value.

"I still have 3000 top grade god crystals, 10,000 middle grade god crystals and less than 10,000 low grade god crystals," the woman said with embarrassment. She knew that her few god crystals couldn't even buy a corner of the magic artifact.

Ye Mo thought that this woman was this rich but only gave him ten god crystals, and they were low grade. At least she was rather honest.

"Then how much is my bell worth?" Ye Mo asked.

"I'm not certain of its price, but probably a few hundred thousand. But if it's to be upgraded again, it would need countless materials. I believe even if it can't be upgraded it's worth tens of thousands of god crystals. I'm very poor. Even if you ask for 50,000 god crystals, I can't afford it." The woman put down the bell in pity.

After thinking about this, she took out a black ore. "I have a decent God Abyss Rock, but even together, it's still not worth your bell."

Ye Mo took the tree root back and said, "I can sell you the bell, just give me all your god crystals and that God Abyss Stone. Then you write me an IOU for 40k top grade god crystals, is that okay?"

Ye Mo had heard of God Abyss Stone, but had never seen it. It could be used to forge storage magic artifacts that were beyond immortal artifacts. Ye Mo needed this. His storage ring was too low level. With this stone, he could reforge his storage ring.

"You're willing to accept an IOU?" The woman looked at Ye Mo in joy. She didn't know Ye Mo, but he was still this generous and willing to accept an IOU. This thing had no binding power at all.

Of course Ye Mo was willing, he just arrived in this realm and hadn't even stabilized his power. If he didn't quickly do that, it wouldn't be good.

Now that this black faced woman seemed like a nice person, he might as well try to get her god crystals. Plus, the bell had no use for him.

"Of course, you just need to tell me where I can find you. I believe your character. At least you saved me once right?" Ye Mo said.

Hearing this, the woman really believed Ye Mo and took out a storage bag for Ye Mo. "All my god crystals are in here, I'll write the IOU."

She marked an IOU as quickly as she could on the jade slip and grabbed the bell.

"I'm Niu Runan from Heng God Corner. I need to say that in the short term, I won't be able to pay you back," Niu Runan said.

Since Ye Mo let her write the IOU, he never planned for her to give the god crystals to him. He just needed time to convert his immortal essence to god essence.

"I know, since I let you owe me, then of course you can pay me back when you can. What are you doing here alone?" Ye Mo waved his hand.

Niu Runan said, "Of course to hunt Mist Demon Beasts. Their beast cores are very valuable. I missed the time due to solitary cultivation. Otherwise, I wouldn't be coming alone. If you have nowhere to go, you can come with me to Heng God Corner. We can team up to hunt mist demon beasts and go to the Tuo Dragon Castle to exchange for god crystals and god pills."

Ye Mo needed to stabilize his power so he wouldn't be leaving now.

"I won't go now. I have some business. After I'm done, I will go to the Tuo Dragon Castle and see. Perhaps I will go to your Heng God Corner," Ye Mo said casually.

Niu Runan clearly wanted to go back quickly and spirit control the bell, so she said, "In that case, I'm going. By the way, what's your name?"

"I'm Ye Mo, I'll come find you in a few months," Ye Mo said.

“No problem,” Niu Runan replied and left.

Seeing this, Ye Mo left quickly too.

...

Six hours later, Ye Mo found a cultivation home in a slanted peak. He went inside and set up a stealth formation before going in the Golden Page World.

He carefully put seven low grade god crystals on the time formation disk and found that the time formation disk didn't go much faster, but the usage of god crystals was much slower.

Ye Mo started to use low grade god crystals to convert his immortal essence. The god crystals contained god spirit chi and were constantly devoured by Ye Mo. Soon, he pressurized his immortal essence into a new god essence.

When Ye Mo used the low grade and middle grade god crystals, most of his immortal essence was converted to god essence. With his immortal essence being pressured, his cultivation level started to drop while his power was increasing. As he devoured more god crystals, his cultivation level didn't drop very fast.

A few months passed in the time formation disk and Ye Mo used 3000 top grade god crystals. All his immortal essence were pretty much converted to god essence.

His cultivation level didn't increase, but this powerful feeling shocked even Ye Mo.

Chapter 1992: Heng God Corner

Ye Mo stopped cultivating and used the God Abyss Stone to forge a new storage ring. Although it wasn't a low grade god artifact yet, it was a top extreme grade immortal artifact. Due to this, he could put Zi Xu inside.

Zi Xu's level was too low and Ye Mo really wanted to reforge it, but he really didn't have many high level materials. He got a few ores from the void palace, but he didn't know any of them.

After he packed his things, he left the Golden Page World.

As soon as Ye Mo walked out, another dark figure dashed over. With his past experience, he knew this was a Mist Demon Beast ambush. His immortal essence had pretty much converted to god essence. He released Zi Xu the same time the black figure came charging.

Red mist splashed out with a scream. A dark grey beast core fell to the floor. If there wasn't that laying on the ground, Ye Mo would've thought he killed a gust of mist.

The Mist Demon Beast was on par with the one that ambushed him before. Previously he was evenly matched with that Mist Demon Beast, but after 90% of his immortal essence was converted to god essence, his power increased so much.

After taking the beast core, Ye Mo left here quickly to find Niu Runan.

Ye Mo walked for a few days and the land finally eased up. There were less messy mountains and ravines. There was more god spirit chi and less void crevices in the space. Ye Mo had decided to take out his space time boat to travel.

Rumble

A terrifying space chi wave immediately made Ye Mo stop. Before he could scan his spirit sense out, a few figures dashed past him.

The next moment, a huge palm print appeared in his spirit sense. At the same time, a fist print not much smaller than the palm appeared in his spirit sense. His sea of consciousness was bursting with pain, he couldn't even look directly at this clash.

The explosion sounded and the nearby space immediately dimmed. The nearby rocks and rivers seemed to be tipped over a few times. As the fist and palm clashed, the flat earth was ravaged and the rivers were tipped over.

After that clash, the two fighters were gone instantly.

Ye Mo took in a cold breath. The powers of these two fighters was something he couldn't even look at. Most importantly, this was where everyone lived. If these powerful beings fought however they liked, wouldn't this broken world be more broken?

Looking at these terrifying ravines and cracks, Ye Mo was speechless. He could imagine that if this continued, this broken realm would eventually cease to exist.

Those few people running came back to Ye Mo.

"Dao friend, how do I call you? You're much bolder than us." A short haired man came up and studied Ye Mo.

Ye Mo saw that amongst the three, there were two who were just immortal monarch peak stage and the short haired man was immortal emperor middle stage. However, their cultivation level was dense and might be much stronger than people of the same level in the immortal realm.

"I'm Ye Mo, I'm not bold. It's just that when the two qian beis fought, I couldn't dodge at all." Ye Mo saluted with his fists.

"That was two Dao Actualisation Divine Emperors fighting. You were lucky. If you were bound by a Dao Actualisation Divine Emperor's domain, you would've long since disappeared," the immortal emperor middle stage said.

Ye Mo quickly thanked him and asked, “May I ask how to get to Heng God Corner?”

“You’re from Heng God Corner?” The short haired immortal emperor studied Ye Mo.

“No, I have a friend there. I have nowhere to go, so I’m planning to join her,” Ye Mo answered.

The short haired man shook his head and took out a jade slip, marking a simple route for Ye Mo. “This is the map to Heng God Corner. I’ll be straightforward – if it’s your first time going there and your friend is an ordinary friend, perhaps you won’t even get a servant job there.”

“Why?” Ye Mo asked.

“That Heng God Corner is around Tuo Dragon Castle, so it’s a decent place but they’re very xenophobic. It’s very hard for outsiders to enter Heng God Corner.

Especially the young mistress of Heng God Corner, she’s not only extremely beautiful but also strong. She’s just one step from dao vindication. Her words are very powerful in there. She dislikes outsiders joining. Be careful and don’t get caught in her hands. Otherwise, it may be hard to even survive. But if you can get a foothold there, you can get some cultivation resources and live much better than us running around everywhere.”

Then, the short haired man shook his head and left with the other two.

Ye Mo smiled. He didn’t want to join Heng God Corner. He mainly wanted to ask if Niu Runan had god crystals to give him. If not, he would ask for some information about the God Necropolis Domain from her and ways to earn god crystals.

Ye Mo spent another two weeks before he saw the outline of the Heng God Corner.

It seemed like a distant village, but coming here, he could tell it wasn’t. There were dense restrictions and formations. The god corner was closely guarded. If one didn’t go from the front, then they would be caught no matter which direction they approached the place.

Other than a huge formation at the door, there was a wide road filled with blue stone boards. There were some trees on the two sides. There was god spirit chi seeping out from the trees, but Ye Mo didn't recognize a single one of them.

Ye Mo was speechless standing outside the god corner. Although this was a broken realm, it was still a realm higher than the immortal realm. Yet, looking at the design of the Heng God Corner, even an ordinary great immortal sect was countless times grander than here.

Before Ye Mo went in, two guards blocked his path.

Ye Mo quickly saluted with his fists. "I'm Niu Runan's friend. I came to find her, please report to her."

"You're martial sister Runan's friend? How come I didn't hear about you?" It wasn't the two guards talking but a man behind Ye Mo. His face was pale and long, like a horse.

There was a grey robed man next to horse face. Their cultivation level were both immortal emperor tertiary stage.

"Yes, Niu Runan told me to find her here, that's why I came," Ye Mo said.

Then, Ye Mo felt a spirit sense scan over him. It came from inside the Heng God Corner, but when his spirit sense wanted to scan in, it was blocked by a restriction.

With Ye Mo's current spirit sense power, he could break the restrictions, but he didn't dare to do this.

"The Heng God Corner doesn't allow foreigners, go," the horse face said coldly.

"Let him in!" a cold voice sounded. Ye Mo knew this was a woman and it was the one who scanned him with spirit sense.

"Yes young mistress." The two guards said and bowed.

The horse face sneered and went past Ye Mo going in the door first.

Ye Mo didn't mind, he came here to ask about things and collect some debt. Then he would leave.

Ye Mo walked along the path and soon a figure flew over. It was Niu Runan.

"Why did you only come here today? If it was a few days later, I was going to leave Heng God Corner. Good thing you came today. By the way, when you see the young mistress, you need to thank her. If it wasn't for her, you wouldn't be able to come in today," Niu Runan said.

Chapter 1993: Mu Hua God Mountain

Ye Mo could only say, "I want to go check out Tuo Dragon Castle, so I came by Heng God Corner wanting to ask..."

Niu Runan interrupted him and said, "You don't need to tell me, and I know you're coming to ask for debt. This isn't the place to talk, come with me first."

Ye Mo followed her and left this blue stone road. Immediately, he felt a sliver of spirit sense sticking to him. He knew this spirit sense, it was the spirit sense that scanned him at the door.

His Three Birth Chant had great sensory capabilities and his instinct was very powerful. There was no way that he couldn't sense this spirit sense that scanned him down so much.

When Ye Mo followed Niu Runan into her room and Niu Runan closed the door, the spirit sense left. Ye Mo breathed easy. He really didn't being secretly watched like this. He just came here and didn't know most of the people here, but he was planning to leave already.

Niu Runan's room was simple and tidy, like her. There was just a jade bed and a small stone table with some cups.

Niu Runan poured a cup of tea for Ye Mo and said, "Ye Mo, I know you came to ask for god crystals from me, but I get limited amounts each year and I need to cultivate too, so I don't know how long it will take for me to pay you back. I'm thinking that I can ask for the young mistress to help you get a job here. At least you wouldn't need to venture out and find your own cultivation resources."

Ye Mo drank the tea and found it was worse than some sect's immortal teas. There was not any god spirit chi nor taste.

He put the tea down and said, "I've always been in the cultivation home in solitary cultivation. I don't know a lot of things, so I want to ask you about some things. As for the god crystals you owe me, we can talk about it later."

"Okay, ask me. The bell you sold me is quite good. Even if I paid you all the debt, I still owe you a favor," Niu Runan said.

"I only know that we're living at God Necropolis Domain, but I don't know how big it is. I heard it was a complete realm before, but for some reasons, the realm is broken. Is this so?" Ye Mo asked.

As for the 40k she owed him, he really didn't care. He trusted with his capabilities, he would earn it sooner or later.

Niu Runan thought and said, "I don't know very well. When I was born, this place was the broken God Necropolis Domain. As for borders, it's boundless. No one knows where the border of the God Necropolis Domain is, but this realm is indeed broken. There are very few habitable places in this realm. There aren't many safe havens like the Heng God Corner and Tuo Dragon Castle."

"Then can the strongest person here dominate the God Necropolis Domain?" Ye Mo asked. He wanted to know what the strongest person here was.

Niu Runan shook her head. "No, Heng God Corner is strong in this region, but compared to the boundless God Necropolis Domain, it's nothing. I don't exactly know what the strongest person here is, but I heard it was Dao Actualisation Divine Emperor."

“Isn’t it dao essence after dao actualization?”

“Yes, dao essence is divided into four stages: primary, middle, tertiary and peak. After dao essence peak, you can pursue primordial essence. I heard that the God Necropolis Domain is broken and the laws are incomplete, one can’t reach Primordial Essence Divine Emperor here.”

“Was the God Necropolis Domain called the god realm before it was broken?”

“You can call it that. I’ve seen in ancient texts that the God Necropolis Domain used to be called ‘divine dao realm’. Only those immortals who vindicated dao can enter here. Then something happened to the divine dao realm and it became broken.”

“Then whose power is the strongest in the God Necropolis Domain? What degree is it at?” Ye Mo asked his final question.

Niu Runan laughed. “Hearing this I know you know nothing. If there’s a strongest person in the God Necropolis Domain, would there be all this fighting everyday? People fight for things everyday, not caring if the God Necropolis Domain is broken or not. In the God Necropolis Domain, as long as you have power you can do anything.”

Hearing this, Ye Mo frowned. His cultivation level was at the bottom and there were countless people stronger than him. If he wasn’t careful one day and encountered a murderous guy, wouldn’t he be seeking death?

“You don’t really need to worry. Those dao vindication powerful beings won’t care about us little immortal emperors. Their level isn’t something we can reach. Plus, most Dao Essence Divine Emperor peaks choose to leave the God Necropolis Domain.”

“Why are they leaving? Plus, where else can they go?” Ye Mo was worried those Dao Essence Divine Emperor peaks would go find the immortal realm.

Niu Runan looked at Ye Mo speechlessly. “The God Necropolis Domain’s laws are broken, but the space is still stable. However, one can’t reach Primordial Essence Divine Emperor. Once you reach a certain level, you can leave the God Necropolis Domain and enter the universal space. There are countless

planets floating outside the God Necropolis Domain. They go out in search of an opportunity for Primordial Essence Divine Emperor.

But I've only heard Dao Essence Divine Emperors leave, but never heard of them really reaching Primordial Essence Divine Emperor. In time, many divine emperors rarely leave the God Necropolis Domain even if they reach dao essence."

"Thank you for teaching me martial sister Runan. I'm going to leave now. Pay me back some god crystals, I don't mind how many you have. I have no god crystals on me now." Ye Mo got up and saluted with his fists.

Niu Runan blushed. "I really don't have much, but you used them up so quickly. It has only been a few months."

Ye Mo was a little disappointed. He didn't want to stay here anymore. Just when he wanted to leave, he heard Niu Runan say, "This time the Mu Hua God Mountain is opening. Our Heng God Corner is participating. The mistress will definitely let me go. If I don't die inside, I can pay you back."

"Mu Hua God Mountain?" Ye Mo repeated.

Niu Runan answered, "Yes. Sometimes, this mountain will open a few years in a row. Sometimes, it will open after a few hundred years, but there are plenty of good things inside. There are large amounts of god crystals and ores. If you're lucky, you can find some time dao fruits and magic artifacts for learning time law."

"Why is it all time related things?" Ye Mo asked.

"Because Mu Hua God Mountain is formed by all sorts of time law. Some places, you can feel time flow rapidly, some places you can feel time paused or even rewinding. If low cultivation level people encounter such a situation, not many of them can survive. If you feel time flowing too fast, then before you break free from that time whirlpool, your lifespan might be at its end." Niu Runan said.

"There's such a place?" Ye Mo felt this place was like the Will Mountain in the immortal realm. he was planning to go there to learn time law.

If this Mu Hua God Mountain could really help him learn time law, then it was too perfect for him. Those god arts without laws were small god arts. Only with the use of law could a god art be considered great god art.

Ye Mo touched on a sliver of space law but it was far from initial completion.

Thinking about this, Ye Mo said, "Martial sister Runan. I don't want the 40k god crystals, I have one request – get me a spot in the Mu Hua God Mountain. With this, I can find my own god crystals."

"You want to go?" Niu Runan stared at Ye Mo dazily and then she reacted and quickly shook her head. "No, definitely not. I can't get you a spot, but even if I can, the young mistress won't let you. It's seeking death if you go."

Chapter 1994: Participation spots

Seeing Ye Mo frown and not talk, Niu Runan could only continue, "No one will team up with you. Even if you enter the mountain, it would just be suicide."

Ye Mo immediately said, "I won't go near the time whirlpools. I'll just stay at the safest area."

Niu Runan rubbed her forehead and said, "Even if you want to find such a time whirlpool, it's extremely hard. You can't even see time whirlpools at the outskirts of the Mu Hua God Mountain. You would have to go to the deepest part of the mountain to find them. Only those who learned time laws would go in.

"We don't dare to go deep in the Mu Hua God Mountain, at most to the outskirts. The reason I'm saying you're seeking death is because there are many god beasts in the mountain. And if you encounter another squad and you're alone, then no one will let you go. You will die for certain."

Ye Mo's main purpose was to actually go to the time whirlpool and feel the time law. Now that Niu Runan said this, he could only say, "Martial sister Runan, I want to go to Mu Hua God Mountain. I will be

responsible for my own life and death. Please help me. If you can't, then please tell me how I can get in there."

Then, Ye Mo picked up that tree root Niu Runan wasn't able to afford and said, "You can have this too as payment."

Niu Runan blushed. She wanted to reject it. She already owed Ye Mo 40,000 god crystals and now she was going to owe Ye Mo even more.

"How about this, you can come with me to see the young mistress and see if I can give my spot to you." Niu Runan's words troubled Ye Mo. It was a fortune to go there. And if he took her fortune like this, he would be embarrassed.

"It's okay, the Mu Hua God Mountain opens frequently. If I don't go this time I might have better luck next time. I'm just worried that young mistress won't let you team up." Niu Runan sighed.

"In that case, thank you martial sister Nan. Regardless of whether it works out or not, I owe you a favour." Ye Mo really didn't want to let this opportunity go. If he went to Mu Hua God Mountain, it would mean that his power would increase another level.

Niu Runan nodded. "I'll take you to see young mistress. She's extremely beautiful and... just don't stare at her rudely. She hates this sort of people."

"I understand." Ye Mo immediately nodded. He already has people he loved and could even just casually glance at someone as beautiful as Qing Ru. How could he stare at a woman he didn't know rudely?

...

"Runan, you want someone irrelevant to represent our Heng God Corner to enter the Mu Hua God Mountain?" a blue dressed woman asked Niu Runan in front of Ye Mo.

Ye Mo studied this young mistress. Sharp faced, thin lipped – she was indeed extremely beautiful, but her beauty was far lesser than Luo Ying and Zhen Bingyu in Ye Mo's heart, much less Qing Ru.

But hearing this, Ye Mo's heart sunk. The young mistress wasn't so easy to talk to.

"Sister Wanman, I owe you quite some favors. He's my friend too. I want to give my spot to him."

Before Niu Runan finished, she was interrupted by the young mistress and reproached in a serious tone, "Runan, every spot of our Heng God Corner is very precious. How can you give it away like that?"

Young mistress looked at Runan's disappointed face and said, "Of course I can give him a challenge spot. If he has the capability, then he can go in. If not, you've tried your best."

There was disappointment in Niu Runan's eye., "Sister Wanman, Ye Mo is only immortal emperor middle stage. Those who passed the challenge to enter the mountain are at least immortal emperor tertiary stage. Most of them are immortal emperor peak or half divine. Making Ye Mo challenge them is..."

Ye Mo thought and asked, "Martial sister Runan, may I ask what this challenge spot is about?"

Niu Runan explained, "There are limited spots to enter the mountain each time. There are 16 god corner powers in this region and five castles. The spots are pretty much split. But in order to take solo cultivators into consideration and some powers feel they don't have enough spots, they left 20 spots for challenge. Those who could pass the challenge are at least immortal emperor tertiary stage."

Ye Mo immediately understood what this was. He actually was confident in winning so he quickly said, "Thank you martial sister Runan. I'll just have a challenge spot. If I fail, then I only have myself to blame. I won't blame martial sister Runan."

"Sigh, we can only do this. But those challengers are crazy. They won't show you mercy. If you feel you can't beat them, then admit defeat and leave." Niu Runan felt very bad that she accepted so many things from Ye Mo but couldn't even get him a spot.

She felt even worse that the challenge didn't need a spot. Anyone who came to the outskirts of the Mu Hua God Mountain could sign up and challenge.

...

Three days later, Ye Mo followed Heng God Corner's people to the Mu Hua God Mountain. After these three days, he realised he was scammed by the young mistress.

But Ye Mo didn't care, he just needed to follow the group to the mountain. Without them, he wouldn't even know where the mountain was.

From Niu Runan, Ye Mo learned that each time the mountain was open, the number of people entering from the different powers were different. It was distributed based on their power. The stronger a power was, the more spots they had. Heng god Corner was ranked upper medium, so they had 20 spots.

These 20 people could form four squads.

Ye Mo stood in one corner of the flying ship. No one talked to him. If it wasn't for Niu Runan, he would've been kicked off already. That horse faced cultivator disliked him a lot.

Niu Runan seemed close to the young mistress, but couldn't really take care of him.

Ye Mo didn't mind. He noticed that the leading man and woman of the flying ship were far beyond immortal emperor peak stage. Ye Mo didn't know Dao Actualisation Divine Emperors, but he felt even if the two weren't Dao Actualisation Divine Emperor, one of them was at least a Dao Nourishment Divine Emperor.

...

Five days later, Heng God Corner's flying ship landed on this ancient desert. Ye Mo hadn't got off from the flying ship yet and felt the ancient chi of this place.

Then Ye Mo followed everyone off the ship. The chi of time flowing was so deep that he could even touch it. Ye Mo was very shocked. This wasn't even Mu Hua God Mountain yet, but there was such chi. If one entered the mountain, just how powerful would the time chi or the time law be there?

The time here seemed to flow towards the distance and there seemed to be a whirlpool that spirit sense couldn't touch. Ye Mo guessed that place was the Mu Hua God Mountain.

There were many cultivation homes here. Ye Mo saw a decent sized marketplace.

"Ye Mo, sorry. I wasn't able to help you with anything, but don't worry – when I come out of the mountain, I will repay your god crystals," Niu Runan said.

Ye Mo smiled. "No need, I'm already very grateful that martial sister Runan can bring me here. I will deal with the rest myself."

Chapter 1995: God Heart Stone

Niu Runan took out 100 top grade god crystals and gave them to Ye Mo before saying shamefully, "I only have these crystals on me, good luck. When you fight, if you find yourself outmatched, surrender immediately. There are no limits here if you don't admit defeat."

Ye Mo wasn't dumb. He wasn't going to keep fighting if he clearly knew he was outmatched. That was asking to die, but Ye Mo didn't reject the 100 top grade god crystals.

Ye Mo came up to the challenge sign up place alone and found there were many people signing up here. There were at least a few thousand people and there were more coming.

After coming here, Ye Mo realised that the sign up fee was 1000 top grade god crystals. He couldn't even afford the sign up fee.

Ye Mo finally why there was such a humane management in this law of the jungle world. Clearly, it was for gathering money.

One person needed 1000 god crystals, how many would that be in total? That would be over a million god crystals!

Ye Mo was speechless and understood why Niu Runan felt so ashamed. She knew the 100 god crystals she gave him wasn't even enough for the sign up fee.

Speechlessly, Ye Mo walked out of the sign up line, thinking about where to get the remaining 900 god crystals.

"What? You see all these challengers are higher level than you so you're scared?" A bearded immortal emperor tertiary stage was behind Ye Mo and laughed.

Ye Mo said helplessly, "After coming here, I realised the sign up fee was 1000 god crystals. I don't have that many."

"How much do you have?" The bearded man asked.

"I only have 100," Ye Mo answered honestly.

The bearded man looked at Ye Mo in confusion. "Dao friend, you don't seem too weak. You're at least an immortal emperor middle stage, how can you not even have 1000 god crystals? If you're missing tens or a hundred I can help you, but you're missing so many. I'm not wealthy either. I can't help you. However, I can point you a way. You can check out Mu Hua Market. If you have good magic artifacts, you can sell a few. Such an opportunity is rare. If you go in the mountain and don't die, you will definitely get a huge fortune."

Ye Mo was immediately interested. He got god crystals from Niu Runan with magic artifacts before, and he had plenty of magic artifact. Although most of them weren't high level, he could try.

"Thank you for your reminder, dao friend. I'll go try now." Ye Mo quickly thanked him and left for Mu Hua Market.

...

There were many people at Mu Hua Market, but it was disordered and chaotic. One stall here, another shop there.

Ye Mo entered a decent looking shop and was planning to ask about the price about extreme grade immortal artifacts, but when he saw the price list, he immediately gave up. It wrote clearly that the lowest price for extreme grade immortal artifacts was only 100 top grade god crystals, extreme grade flying immortal artifacts were 150 top grade god crystals.

Ye Mo didn't have a lot of extreme grade immortal artifacts because the materials for them were rare, even in the immortal realm.

Compared to that, some of the materials Ye Mo had never heard of were extremely pricy. Tens of thousands or even a hundred thousand crystals.

Ye Mo thought about the ores he got from the void palace and called a worker over. "May I ask if there are jade slips with information about the materials and spirit items in the God Necropolis Domain?"

The worker glanced at Ye Mo with confusion and took out two jade slips for Ye Mo. "These two jade slips contain information about god spirit items and some dao fruits. As for forgery materials, it's even more complete. Each jade slip is one top grade god crystal."

Ye Mo didn't bargain and quickly threw out two god crystals and left the shop with the jade slip.

Ye Mo left the shop and found a distant place before looking at the jade slips carefully. He immediately saw the names of the ores he got and was overjoyed.

Flowing Light Cloud Stone, top grade material for forging god artifacts. The god artifacts forged with this material got a speed advantage. The rock was dark red and had a lightly numbing sensation in the hand. This was one of the things he got from the palace. It was perfect for upgrading Zi Xu.

Silver Wing Glass, top material for forging flying magic artifact. God Heart Stone, White Jade Stone used for nourishing spirit sense and empowering the soul. It can quickly recover used spirit sense and help

improve spirit sense power. It was a rare soul material in the divine dao realm. No wonder that when he got this stone, he felt a satisfying sensation holding it.

...

After going through the jade slip once, Ye Mo found that everything he got in the palace was top level stuff.

Realizing what they were used for, Ye Mo put the jade slip away and moved his spirit sense onto that white jade stone.

It was called God Heart Stone. The use of this stone would be more precious to others than all the other materials combined. For spirit sense nourishment, he had Corner Soul Weeds and Dark Weeds.

After thinking about it carefully, Ye Mo had decided to sell this God Heart Stone. Of course, he wasn't selling the entire thing. He cut off a third and found a spacious place and put up a stall. He only had one thing and it was this one third of God Heart Stone.

Ye Mo didn't know its exact price, but he guessed it was definitely over 1000 top grade god crystals.

Ye Mo put a restriction on the stone and yelled, "I happened to get a God Heart Stone that I want to sell it, those who want it can bid for it..."

Without the need to call a second time, people flocked over immediately. There were even some half divines, but not a single divine emperor.

"Hmm, it really is God Heart Stone? It's quite high quality."

"Wait, it doesn't seem to be complete, there's more than half gone."

"Good item, dao friend, how much?"

...

A few desperate immortal emperors already started to bid towards Ye Mo.

Ye Mo didn't know the exact price of this and thus couldn't name a price. He saluted with his fists. "I only have this God Heart Stone, so while there's a lot of people here, I want to sell it for a good price. I won't name a price myself, everyone can bid. I only sell to the highest bidder."

"I'll pay 10 thousand top grade god crystals!" someone immediately bid.

Ye Mo rejoiced, he didn't expect it was priced this high.

Another voice sneered. "A mere 10k god crystals dares to buy this God Heart Stone? If it's not that it has a part missing, I would pay 100k immediately. Even though it's missing a part, I'm willing to pay 20k..."

"Wait, I'll bid 50k." A cold voice interrupted everyone.

Ye Mo didn't need to look to know who this person was. It was that young mistress of the Heng God Corner. She seemed to be called Heng Wanman.

"I'll bid 100k." A skinny bodied man with a black mask walked over.

Ye Mo looked at this person and knew he was definitely half divine. He was very happy with 100k and didn't want to keep waiting.

The young mistress's face sunk and she frowned at Ye Mo. "Ye Mo you came from our Heng God Corner. If you trust me I'm willing to pay 100k too. I don't have that much on me now. I'll pay you the remaining 50k when I go back. I can even give you a few thousand more."

Niu Runan next to her also gave Ye Mo a pleading look.

Chapter 1996: No Rule Competition

“Sorry, I don’t take debts,” Ye Mo said plainly and then turned to the man. “Pay 100k god crystals and the God Heart Stone is yours.”

“Thank you.” The man threw a storage bag to Ye Mo without hesitation. Ye Mo scanned it, there were 100k god crystals, not one less. He immediately took the God Heart Stone out of the restriction and put it in a jade box, giving it to the skinny man.

The young mistress’s face was green. She didn’t expect that Ye Mo dared to reject her. Ye Mo followed their ship here, and even if he didn’t – how could a mere solo cultivator dare to reject her?

“Shameless person, why did our Heng God Corner even help you that much. Pfft!” the horse faced man said furiously.

Ye Mo sneered. “Help? What help did your Heng God Corner help me with? Did you give me a spot into the mountain or did you pay my challenge sign up fee? I used your Heng God Corner’s flying ship to come here, but I paid 40k god crystals. You dare to talk about help with that horse face of yours? Do you have any face?”

That horse faced man was going to fight immediately, but the young mistress sneered and turned to leave. The horse face glared at Ye Mo and turned to leave.

Niu Runan was extremely shameful and said nothing.

When the horse faced man said that Ye Mo didn’t pay back their help, everyone despised Ye Mo. Although it was the law of the jungle here, people took promises and favors seriously.

When they heard Ye Mo’s explanation, they realised what help it was. Ye Mo just used their ship to come here and paid 40k. 40k was enough to come from Heng God Corner here many times.

If you gave 40k god crystals to any power, they would politely send you to Mu Hua God Mountain and sign up for you.

...

Ye Mo immediately paid the sign up fee. After he left, he saw that bearded man again. The man saw Ye Mo and immediately walked over. "Dao friend, you had a God Heart Stone, but it's such a waste to sell it. It's hard to find such treasure even in the Mu Hua God Mountain."

"I just want to see the Mu Hua God Mountain. I didn't think that much." Ye Mo smiled.

Then, Ye Mo raised his jade card. "How come there isn't even a competition schedule and rule? There's just a jade card marked with a number."

The man laughed and pulled Ye Mo over before saying quietly, "This competition is just for collecting god crystals. There are nearly 3000 people signing up, there will be a few million god crystals collected. There's no law, they probably just mark a number on the jade card to see how many are sold."

"What do you mean?" Ye Mo asked.

The bearded man said, "When the mountain opens, it would be those god corner people going in first. After they go in, the challenge starts. So this means that after the challenge finishes, those guys would've searched the mountain for a few days. Even if there were good things at the outskirts, they will be all gone. Each time the mountain opens, it would be a different location, so there are many good things at the outskirts. Even if you go in by challenge, you won't be able to get some things."

Ye Mo was speechless. They had no bottom line. They took god crystals and then went in early themselves too.

"Don't be too disappointed. Even so, those who win are usually immortal emperor peak stage or half divine. I need to tell you that some cultivators who have reached Dao Moulding Divine Emperor also come. If you see such a person, just admit defeat." The bearded man said.

Seeing Ye Mo stop talking, the man pointed at a row of cultivation homes at the border and said, "You can use your magic artifact to set up a cultivation home there. I will be there too. Three days later, the mountain will open. After people go in, the challenge tournament will begin."

...

Ye Mo heard this and could only set up his cultivation home. Just when he stayed in his cultivation home, he knew he was being watched. At least seven or eight spirit senses kept scanning towards his cultivation home. Ye Mo was very speechless.

There were no concerns here at all. These people were clearly onto him because he took out a God Heart Stone. One could imagine that if he failed the challenge, he would be followed immediately.

But Ye Mo didn't care. He was very confident in the challenge. Even if he failed, he wouldn't be afraid of them. Out of the spirit senses that scanned at him, there was only one that was near half divine. The rest were just ordinary immortal emperors.

Immortal emperor was the peak of the immortal realm, but here, although they weren't at the very bottom, they were just ordinary.

It was easier to reach immortal emperor in the God Necropolis Domain because of the god crystals and the laws here. God crystals were much more powerful for cultivation than immortal crystals.

Three days passed quickly. Ye Mo didn't bother to look what happened outside until the third day. He felt the time chi form a clear flow and thus he left the cultivation home.

The bearded man next door also came out. Seeing Ye Mo shocked at the time flow, he laughed. "This is the sign that the mountain is about to open. You see that time whirlpool on the sand clearing up? That's the entrance to the mountain."

"Thank you for your pointers, dao friend." Ye Mo quickly thanked.

The bearded man didn't mind and said, "This isn't a pointer. Those who came to the Mu Hua God Mountain know this. Mu Hua means when you go in you're very young, but if you accidentally encounter a time whirlpool, you'll immediately become an old man."

As the two spoke, a huge formation door appeared. Ye Mo saw that this formation door was made using top materials but couldn't last long. Ye Mo immediately frowned. Even if he successfully challenged, he would need to go in three days later. Could this formation door last three days?

Those from the god corners and castles already released their flying magic artifacts and went along the sand into the whirlpool.

Ye Mo counted. There weren't a lot of people going in, only two or three hundred. He couldn't see through the cultivation level of the strongest. They were definitely divine emperors.

As flying magic artifacts went inside, that huge formation door dimmed down.

A man whose power level Ye Mo couldn't see came out into the middle and waved out ten huge stages. There were powerful restrictions circulating the stage.

"Now, those who want to challenge please enter the stage. The time is a day, once the incense burns out, those who are still on the stage have the right to enter the mountain. Those struck off cannot go up again, otherwise – death..."

Before the man finished, people erupted.

"Isn't it supposed to be three days?"

"There aren't 20 spots? How did it become ten?"

...

No matter what people said, the man didn't care and released a long incense stick that was lit up.

There were no rules and anyone could challenge. They could even gang up on people. Clearly, those who went up first would be disadvantaged.

The bearded man next to Ye Mo sighed. "It seems I have no hope. Looking at this, no matter how strong you are, you will be brought down in the end."

Chapter 1997: Seeing the Purple Robed Man Again

The man didn't say anything after waving out the stages. Even if no one went on the stage, he still sat there calmly.

Five minutes passed quickly. One blue faced immortal emperor tertiary stage couldn't resist flying to the stage and placed his challenge jade card into the ring. When he landed there, no one challenged him, but more immortal emperors flew up.

In the blink of an eye, nine out of the ten stages had someone on there.

Before the tenth person could go up, an extremely white skinned woman charged towards the sixth stage. There was a handsome looking man on the sixth stage. He had a metal fan.

The woman charged up and said nothing. She released a huge pair of scissors. It instantly turned into a huge scissors shadow and sliced towards that handsome man. Even though the stage was covered by restrictions, people outside could still feel the powerful and lethal force of the scissors. One could imagine that without the restrictions of the stage, that pair of scissors would destroy the nearby space.

This scissors shadow's remaining power struck the border of the restriction creating ripples.

When people didn't fight, no one came up. When people fought, it was this intense.

Everyone knew that the woman probably didn't come for the spot, she came to kill this handsome man.

The handsome man saw this and yelled in fury, "Bao Huaiping, are you crazy?"

The woman said nothing and just attacked more and more crazily. There was even red mist appearing on her body. Clearly, she was burning her essence blood.

Seeing this, the man released his metal fan that turned into a heaven covering black cloud, stopping the woman's scissor shadow.

Sword rays flew out of the black cloud, tearing Bao Huaiping's domain to pieces and even some of her clothing.

Bao Huaiping didn't care and attacked more crazily. The blood mist surrounding her grew thicker. She was almost naked but she didn't care and kept attacking the man like crazy. One could see how furious she was.

Rumble...

The scissors clashed with the metal fan as the scissors shadow dispersed. Bao Huaiping was struck flying out. Her huge scissors smashed against her. She didn't even have the power to take her magic artifact away and just kept panting.

The handsome man was covered in wounds. There were multiple holes in his fan. He didn't look as mannered as before. He walked towards Bao Huaiping hideously and was about to strike with his metal fan.

The audience saw this and sighed. Bao Huaiping's battle will was stronger, but the difference in power between them was too huge.

Just when the man was about to kill Bao Huaiping, the scissors suddenly exploded. Countless shadows struck out, and in less than one tenth of a second, they completely surrounded the man.

The man reacted quickly and took back the fan, wanting to block the explosions, but even so, countless blood holes appeared on his body. Bao Huaiping suddenly jumped up and struck out thousands of sword ray shadows. These sword ray shadows formed a huge thick net that struck the wounded man head on.

Splurge

Blood light flashed, and in this short time, the handsome man was split into tens of pieces of meat.

A terrified essence spirit seeped out. Bao Huaiping released a flame and burned the essence spirit to nothing.

At this moment, she finally eased up and put on some clothes. She picked up the storage ring and fan and jumped off the stage, disappearing into the crowd.

Seeing this bloody scene, the rest of the people were a bit dazed. Although all means could be used, rarely did they see such a gruesome battle.

No one would burn essence blood and god essence to go in, because without top level medicine, they couldn't be recovered.

After the bloody battle, more people fought on the stage.

People were starting to get killed.

At the start people fought one on one, but later on, there were battle royales.

The powerful being sat on the side and closed his eyes as though nothing mattered as long as you put your jade card in.

An immortal emperor who was smashed down from the stage was extremely furious and wanted to go back again. However, a huge palm reached over and crushed that immortal emperor to powder. This

immediately woke up the nearby people. There was at least one rule here, and that was everyone could only come up once.

Gradually, the battle royale reduced, but Ye Mo was in no rush. The incense had only burned less than halfway. He would only go up when it was almost out.

Clearly, quite a lot of people thought like Ye Mo. As the match went on, stronger and stronger people went up. An axe wielding immortal emperor peak stage and a long haired woman made Ye Mo keep an eye out. He found these two beat their opponents in a few moves and didn't need to use much god essence. The blue faced immortal emperor who went up first was still standing there.

Ye Mo also noticed a few half divines who were planning to go on at the last moment.

At this moment, a purple robed man charged up onto the fifth stage. Seeing this, Ye Mo immediately became excited. If he wasn't experienced, he would charge up.

Luckily, he stopped himself. He would have to wait till the battle was over before he went up. Otherwise, he might be fighting a one vs two.

That purple robed figure was the man he had chased from the immortal realm until here. The man that might have the fifth stone stool.

Seeing this man, Ye Mo made up his mind. If the man won, he would go to the stage and challenge him. If the man lost, he would give up the challenge and hunt this man.

He wasn't going to rest until he got the fifth stone stool. The purple robed man probably didn't expect Ye Mo to come here.

No one dared to scan their spirit sense around here. There were countless powerful beings, and those with strange tempers could kill you for any reason.

On the fifth stage, the purple robed man fought a grey robed immortal emperor. The grey robed immortal emperor had won eight fights in a row, with one of them being two people ganging up on him.

He killed five people and showed no mercy. His magic artifact was a blue lightning pike. It had yin lightning effect – ordinary immortal emperors couldn't stop it at all.

Ye Mo understood this way of competing. They would go on first and show their means to scare off people from challenging them.

Seeing the purple robed man come up, the grey robed immortal emperor snarled. He killed five people quickly to scare people and yet this insolent purple robed man still dared to challenge him. He would kill the purple robed guy quickly in case people came to challenge him again.

Chapter 1998: Adamantium Great Vehicle Painting

When the purple robed man just came up, the blue lightning pike was already released. Previously, his opponent used fist sized lightning balls, but this time, there were heaven covering lightning needles. Each one was a few inches long and in the middle of the needle was a lightning ball that was larger than a fist.

When these lightning needles and lightning balls fused together, the audience realised that they formed an eight trigram formation.

Ye Mo didn't watch the grey robed immortal emperor. He wasn't scared of lightning element attacks. He watched the purple robed man. He probably would fight the man, so he would need to know his means.

Although Ye Mo didn't care about the lightning formation, the purple robed man didn't have Ye Mo's capability of devouring lightning. Before the lightning formation formed, he released a huge drum.

Ye Mo had Hao Heaven Drum and had only used it once. When he was weak, he didn't dare to use it. When he was strong, he didn't need to use it. Ye Mo wondered which drum was stronger.

With a dong, sound blades struck out from the drum. Even with the restrictions, some of the audience were affected. Those who were weak powered moved back.

After this initial sound, the remaining sound echoed nonstop with each wave stronger than the previous wave. The grey robed immortal emperor's lightning formation slowed and the lightning needles and balls seemed to have been stopped by the sound waves.

The grey robed immortal emperor's face sunk. He could tell this purple robed man wasn't so easy to deal with. If it wasn't that his foundation was unstable, he might not be a match for him.

In that instant, the grey robed immortal emperor used countless hand signs. The nearby domain space ripple could be seen with eyes.

The drum sound only stopped the lightning formation for a brief moment and then it swept at the purple robed man again.

The purple robed man was very calm as though knowing this would happen. He activated the drum again.

Dong dong dong

One sound was already enough to stop the formation. These three sounds were each louder than the one before.

The formation surrounding the purple robed man paused and was about to cripple.

The grey robed immortal emperor's face changed. He didn't expect the drum sound was this terrifying. Only he knew how terrifying the drum sounds were. Each sound would cripple his domain a bit while the purple robed man's domain was a bit stronger.

Most importantly, the drum sound seemed like a huge hammer that struck the bottom of his heart, making him feel helpless. It was as though he couldn't even use his god essence and could only wait to be torn apart.

The three sounds echoed again forming attacks like tidal waves.

The grey robed immortal emperor couldn't hold it anymore. He spat out a yellow mist that immediately smashed on his lightning formation.

Immediately, the lightning needles and balls exploded. Huge explosion sounds came that instantly covered the sound waves. Tens of thousands of these needles were activated and exploded, tearing apart the purple robed man's immortal emperor domain.

The purple robed man's face changed and he struck the drum even more.

Dong dong dong...

Six consecutive strikes and the sound blades instantly blocked most of the lightning needles, but a small part still pierced the purple robed man.

The purple robed man's heart sunk. He didn't expect this immortal emperor had such means. That yellow mist could activate the lightning formation attacks and make them tens of times stronger.

The reason he came up was not just for the Mu Hua God Mountain but for the blue lightning pike. It's origin wasn't ordinary. That's why he came up early. If he got the magic artefact, he would've reached his goal. If no one strong challenged him, he would stay on. If powerful people came, he would get off immediately.

He had watched this immortal emperor for a few matches and knew his god art. He didn't expect the immortal emperor to have such a powerful god art up his sleeves.

He received some injuries and couldn't hold back anymore. He struck the Soul Robbing God Illusion Drum crazily.

Dong dong dong.. feng feng feng...

The sounds changed to a ghastly sound. Before it was murderous, but now it was ghastly, as though countless ghosts were passing by. Even the surrounding environment seemed ghastly.

The grey robed immortal emperor was calmer than the purple robed man now. Countless yellow mist sprayed out. The lightning formation that had dimmed down due to the sound blade attacks were circulating with lightning again. In the rolling thunder, waves of exploding lightning arcs and lightning needles shot out.

The yin chi drum sounds clashed with the needles nonstop and made all sorts of explosions. The fighting sound was gradually covered by the yin chi. Ordinary people's spirit sense could no longer scan in. Ye Mo forcefully used his spirit sense blades to scan in and was very shocked. The purple robed man was strong, but that grey robed immortal emperor was equally as strong.

Ye Mo could tell that none of them used their trump card yet, but the battle was already of this scale. If they used all their trump cards, even he would need some means to kill them.

If this continued, it would probably be the grey robed immortal emperor to win. This was beyond Ye Mo's expectations. If the grey robed immortal emperor killed the purple robed man, he would go up first and steal the storage ring.

Just when Ye Mo thought of this, the purple robed man patted his waist and a white scary huge skeleton wolf charged out. Ye Mo's spirit sense scanned this wolf, its chi was at least level nine immortal spirit beast.

Ye Mo had spirit sense so he could see the skeleton wolf immediately, but those who didn't have spirit sense cultivation method couldn't see the skeleton wolf. They could only see from the rattling restriction that the battle was very intense.

As soon as the wolf came out, it opened its white mouth and bit towards the dense cluster of lightning needles and balls. It actually looked a little like Shadowless.

Because the wolf swept the nearby lightning needles, the grey robed immortal emperor's domain opened up.

Dong dong dong

Six drum sounds came, and due to the wolf devouring the needles, there was a hole in the grey robed immortal emperor's domain and thus the sounds charged at the immortal emperor through this hole.

The grey robed immortal emperor was struck by the drum sound and spat a few mouthfuls of blood before flying out. Just when Ye Mo thought the grey robed immortal emperor couldn't do anything, he released another magic artifact.

Ye Mo watched this grey robed immortal emperor intently. As soon as he released the magic artifact, Ye Mo saw it clearly – it was a painting. There seemed to be some monks. As soon as the painting was released, the battle scene cleared up.

Ye Mo heard the nearby voices call out in shock, "Adamantium Great Vehicle Painting!"

There were some buddhist sounds coming from the painting that blew away the yin chi.

At the same time, yellow robed monks flew out from the painting and released their magic artifacts, surrounding the purple robed man and his skeletal wolf.

Rumble

A monk smashed a metal staff on the wolf and the wolf howled in pain wanting to flee. Before it could run far, another monk appeared before it and smashed down.

The wolf howled again and bit that huge metal staff. The monk twisted his staff and the wolf's teeth fell.

The purple robed man was dazed by this painting, but he immediately realised he was no match for the grey robed immortal emperor. Before he could leave, two monks smashed down their staffs at his head.

Ye Mo's heart sunk, he immediately knew that the purple robed man actually lost. Ye Mo scanned his spirit sense at that grey robed immortal emperor. He was shaking. He definitely couldn't control the painting. Even if he won, he would leave the stage.

Seeing the nearby people seemingly wanting to go on, Ye Mo didn't hesitate and flew up immediately while putting his jade card in.

Chapter 1999: Fleeing into Mu Hua God Mountain

As soon as Ye Mo came onto the stage, the purple robed man had the lower hand. If it wasn't that the grey robed immortal emperor had trouble controlling the painting, he would only have to attack with the pike again and the purple robed man wouldn't be able to escape.

But even so, the purple robed man withered under the two metal staffs of the monks. The grey robed immortal emperor was still holding, on but there was bloody mist around him. Clearly, he couldn't last long.

Seeing Ye Mo come up, the grey robed immortal emperor suddenly woke up. This was the battle stage and one without rules. If he paid an extremely heavy price, then even if he won he wouldn't be able to stop this man.

Realizing this, the grey robed immortal emperor was immediately going to take back the painting. Meanwhile, the heavily injured purple robed man used the opportunity of the monk disappearing to suddenly go up and grab the painting. The next moment, he immediately took the painting and turned to leave. He didn't even want to take his main target, the blue lightning pike.

How could Ye Mo let this man leave the stage? He immediately expanded his domain and hacked out with Zi Xu's Crevice god art.

"It's you?" The purple robed man immediately recognized Ye Mo and tried to escape the stage with his life. Clearly, he knew he was no match for Ye Mo.

But he was already at his wits end. When Ye Mo activated his domain with full power, how could he escape?

Ye Mo collected the lethal force around the stage and formed a murderous lethal force, locking onto the purple robed man tightly.

Rumble

The crevice smashed onto the purple robed man's drum, creating a heavy thud.

"You want to rob the five element..." Before the purple robed man could finish, Ye Mo's crevice turned around to cut the purple robed man in half. At the same time, he stacked his spirit sense domain on top completely suppressing his sound.

In his worry, the purple robed man wanted to expose Ye Mo's purpose and retreat. At this moment, the grey robed immortal emperor recovered and smashed his blue lightning pike out without hesitation. The purple robed man could no longer block this and made a hideous cry before being sliced to pieces.

When his essence spirit came out, it was still caught by the lightning net of the blue lightning pike. A blue light flashed. Ye Mo, who had been watching, caught it.

There had only been a few seconds between Ye Mo coming onto the stage and the purple robed man being killed. When the purple robed man was killed and Ye Mo grabbed the blue light, most people realised and charged onto the stage like Ye Mo. There were no rules and there was the Adamantium Great Vehicle painting, who would want to fall behind?

The grey robed immortal emperor was too exhausted. Ye Mo was much more powerful than him. When Ye Mo killed the purple robed man, he already grabbed a blue light from the purple robed man's essence spirit and took the storage ring.

"Leave my Adamantium Great Vehicle painting..." The grey robed immortal emperor knew he was no match for Ye Mo, but when his painting was taken he went crazy.

Ye Mo was planning to leave the stage now that three more people came up. When the grey robed immortal emperor attacked him, he saw the dao vindication powerful being who set up the stage show killing intent. Ye Mo didn't dare to stay here.

The divine emperor's target wasn't the painting but the blue bead he took. Ye Mo knew that no matter how powerful the painting was, it wasn't as valuable as the blue bead. Ye Mo didn't dare to keep challenging on a stage where there was a divine emperor lurking.

He immediately brushed past the immortal emperors and used an instant transmission.

A giant hand grabbed at Ye Mo, but it was only an afterimage of Ye Mo.

"How dare you, rat!" The divine emperor saw that he missed Ye Mo and was furious as he chased over the space ripple.

Ye Mo guessed right. This divine emperor not only wanted the painting but also the blue bead. When he saw the painting, he already messaged people to get the painting for him, but when the blue bead appeared he couldn't handle it anymore.

He knew the value of the blue bead all too much. It might be a five element world that was higher level than a truth spirit world. Plus, the purple robed man spat the words 'five element'. Although he was a divine emperor, he didn't even have a truth spirit world, much less a five element world.

That's why he suddenly attacked.

Ye Mo decisively used instant transmission when he guessed the divine emperor's thoughts. If he was one second slower, he would've been caught.

"Can you escape?" The divine emperor snarled and chased in Ye Mo's direction.

Ye Mo was extremely experienced in running. How could he not know he couldn't escape a divine emperor's hunt? If it wasn't that the five element stool was too important, he would rather not rob the thing and leave.

So when the divine emperor chased over, he chose the direction of the formation door.

The dim door was still open. Ye Mo immediately charged in without hesitation and disappeared.

The divine emperor came here and saw that Ye Mo dared to use this opportunity to get inside the Mu Hua God Mountain. He was even more furious now and charged in too without hesitation. Even if he chased to the ends of the world, he would catch Ye Mo and rob his items.

See Ye Mo and that divine emperor powerful being both enter the Mu Hua God Mountain, the rest of the people all charged in.

The door was already dim. After a few more people went in, its color immediately faded and soon there was a crack. The formation door collapsed and the tunnel inside was completely shut.

Since they couldn't go in anymore, the tournament was pointless. Those who paid god crystals rushed towards the sign up place.

Moments later, a huge battle erupted. Countless magic artifacts and essence chi flows stirred.

In the countless years, this was the first time something like this happened at the opening of the Mu Hua God Mountain. When another divine emperor came to hold the scene, the sign up place was already beaten down and those who attacked all left.

...

When Ye Mo entered the door, he felt time flow like water past his body. He felt he went from birth to maturity and then old age...

Ye Mo was shocked.

Luckily, just when he was still worried, he landed. Ye Mo knew he was in the mountain.

His spirit sense scanned out and found he could only scan a radius of a thousand km. He didn't dare to stay here.

As soon as he landed, Ye Mo instant transmissioned again. Doing that here was carrying his head in his hands. The space here wasn't stable and there was time chi everywhere. If he instant transmissioned into a time whirlpool, it would almost be certain death.

Ye Mo had no choice, he knew that divine emperor would chase over. Ye Mo had no choice, but of course he could rely on the Golden Page World. If there was a time whirlpool he would go in immediately.

After a few more instant transmissions, Ye Mo used the five element mobility technique and kept changing direction. Two hours later, Ye Mo used earth mobility under an ancient tree. At an extreme depth, Ye Mo set up a stealth restriction and entered the Golden Page World.

Unless a divine emperor specifically checked where he was, it would be impossible to find his Golden Page World.

A few seconds after entering the Golden Page World, the divine emperor stopped at where Ye Mo last instant transmissioned.

Ye Mo didn't know this, or else he definitely wouldn't dare to stay under the tree. He thought with all the time chi ravaging here, the space ripples he created would be extremely faint. Even divine emperors might not be able to find it after a while.

However, this divine emperor did.

The five element mobility technique created even smaller space ripples than instant transmission that would disappear in just a few seconds. The divine emperor stood for a long time. He even searched the ground carefully but found no sign of Ye Mo.

"I don't believe you can get away!" The divine emperor searched and chose a direction to keep chasing.

Chapter 2000: Spirit Controlling the Blue Bead World

15 minutes later, the divine emperor who chased Ye Mo sunk his face. He completely lost Ye Mo's tracks, but he soon said, "Three months later, when the Mu Hua God Mountain Closes, I don't believe you won't come out."

...

Ye Mo immediately checked his lifespan and meridians in the Golden Page World. When he went into the mountain, he felt as though his life was flowing away.

After checking multiple times, Ye Mo was certain that his body wasn't damaged and he didn't lose any life. It seemed that tunnel didn't really harm the life of those who went inside.

With this, Ye Mo immediately started to check the storage ring of the purple robed man. Other than that huge drum, there were some god crystals and immortal crystals. There were also some ordinary immortal pill and immortal spirit herbs. Ye Mo didn't see anything he needed in the storage ring. He didn't even see the Adamantium Great Vehicle painting.

Ye Mo breathed easy. It seemed his guess was right, that blue bead was a decent level world. Since the painting wasn't in the storage ring, it was definitely in the blue bead. This purple robed man's blue bead was countless times higher leveled than Qing Ru's blue bead.

He threw the storage ring to the side and set up the time formation disk to start spirit controlling the blue bead.

There were many dao fruits and time whirlpools in the Mu Hua God Mountain. If you were lucky, you could learn time law near there. Those dao fruits could quite possibly help you breakthrough or comprehend a god art. If it wasn't for the purple robed man's blue bead, Ye Mo would've charged out to search for these things already.

To Ye Mo right now, the most important thing was to spirit control the blue bead and find the fifth stone stool to complete his Golden Page World. If his Golden Page World was complete, then he would have hope in dao vindication.

The time formation disk spun rapidly. A few years later, Ye Mo had completely immersed in the process of spirit controlling the blue bead world.

...

Ten thousand km from Ye Mo's ancient tree, a small hill surrounded by lightning light had more than ten people. More people were still coming over.

There was nothing on the hill but a three meter tall grey tree. It had no leaves or branches. Instead of a tree, it looked more like a wooden stick. There were nine blue fruits on it that were surrounded by lightning. If you put spirit sense on these fruits, you would feel the endless ages of time.

The surrounding people looked at these nine fruits greedily as though ready to go up and rob them.

Two more immortal emperors came to this peak and a red robed man called out in shock, "Lightning Sound Ages Fruit?"

As soon as he said this, he charged up as quickly as possible.

"The Lightning Sound Ages Fruit isn't mature yet, you can't go up..." Before his friend finished, this man already charged up.

This red robed man didn't think much when his greed acted out. By the time he got to the middle of the hill, he realised things weren't right. He found that no one charged up with him. Those people didn't even stop him.

Not good – the red robed man instantly reacted but before he could turn around he felt the endless ages press against him. He felt it was difficult to even breathe. At this moment, all he could feel was his life flowing away.

The people outside saw this red robed man slowly age. His hair turned white and his face withered.

He turned very slowly, as though it took him tens of thousands of years to turn. By the time he completely turned, he was aged till he was only a skeleton.

He looked at the people outside and slowly fell. When he fell, he still had bones, when he landed, his hair and skin completely dissipated.

In less than five minutes, an immortal emperor middle stage died like this and couldn't even take a step before he died.

The hill was still that hill, but those people standing outside had less greed in their eyes and more caution. However, no one chose to leave and waited for the Lightning Sound Ages Fruits to mature.

Four more dashing lights came, two men and two women. If Ye Mo was here, he could recognize at least three of them. There was the young mistress of Heng God Corner Heng Wanman, Niu Runan, and the horse face.

"Young mistress, this is the Lightning Sound Ages Fruit..." an old man called out in shock. He was the strongest of the four and someone Ye Mo had never seen.

"It really is Lightning Sound Ages Fruit." The young mistress gasped.

Niu Runan clearly knew less and asked, "Elder Nian, young mistress, what is Lightning Sound Ages Fruit?"

Elder Nian said, "Lightning Sound Ages Fruit is a dao fruit that can help one learn time law. If you get one, you can use it to learn time law god art. It's priceless. It can grow under a five element environment or mutated environment.

This Lightning Sound Ages Fruit is growing in lightning element chi. If you use this Ages fruit to learn time law, you can have a sliver of lightning in your god art in time law. It's extremely precious.

Niu Runan took in a cold breath. She had been in the God Necropolis Domain, how could she not know the terror of the time law?

There weren't many who learned time laws in the God Necropolis Domain, much less those who were experts in it. Such a dao fruit that could help people learn time law was insanely absurd.

Just as they were speaking, a few people suddenly left.

"Elder Nian, since there are Lightning Sound Ages Fruits, why don't these people fight for it? Why are there people leaving? Is there danger on this mountain?" Niu Runan asked.

Elder Nian nodded. "That's right, if you charge up to a Ages Fruit before it's mature, then it's suicide. It's completely surrounded by time whirlpools. They will disappear when the fruit matures. If you go up before the fruit is mature, it's suicide unless you're a powerful being that has complete mastery over time law. However, those powerful beings are at least Primordial Essence Divine Emperor. They wouldn't come here.

Those who left know this, so they left here to find other treasures and come back in a few days, or they went to contact their friends so they can fight for one. There's at least half a year before the fruit matures, by the looks of things."

"So that's it." Niu Runan looked at the ages fruit and knew this was something that she could never get.

"Young mistress, why don't we go look for other things too? Staying here for half a year is a waste," Niu Runan said.

The young mistress's face was full of uncertainty and trouble.

"Elder Nian, I suggest we wait here. It seems that it's going to take half a year to mature, but look at the top of the blue fruit. There's a yellow mark. It might actually mature in three to five days," the young mistress sound transmissioned.

Elder Nian nodded to young mistress with approval. "You're right, you don't need half a year for these fruits. I only saw those yellow marks later. It seems it's not just us who saw this, those who didn't leave probably all saw it."

The young mistress smiled and said nothing. She just sound transmissioned to Niu Runan and horse face, "When the Lightning Sound Ages Fruit matures, elder Nian and I will go up to take it. Runan and martial brother Wenyan get ready to help us at the outskirts. We'll leave as soon as we get the fruit."
