

Strongest As 2001

Chapter 2001: Open Up Chaos World

Crack. The thin membrane on the blue bead cracked under Ye Mo's spirit control and everything in the blue bead cleared up to Ye Mo.

The endless green lush world almost made Ye Mo exclaim. He had been running his golden page world for many years but compared to this world, it was like a small hay house.

This wasn't a matter of high level or low level. in terms of level, Ye Mo was certain that his golden page world was countless times higher than this blue bead world but the purple robed man has been operating the blue bead world to better completion. Rivers appeared in Ye Mo's spirit sense. there were some immortal spirit beasts running around on mountain peaks. There were plenty of level nine immortal spirit herbs in the immortal spirit herb gardens and even more below level nine.

Immortal crystals and immortal ranges came in piles and piles. Top level magic artefact stacked up in mountains. There was this huge flag that gave Ye Mo a familiar feeling. Ye Mo immediately came to this flag. It was a flag that didn't have a pole but emitted a powerful ferocious chi.

Ye Mo's spirit sense fell on this huge flag and soon knew where it came from. The grey robed immortal emperor's blue lightning pike had the exact same chi as this flag.

At this moment, Ye Mo finally realised why the purple robed man was going to fight the grey robed immortal emperor. The flag and the pike were definitely a set. Once combined it would be a top god artefact.

That purple robed immortal emperor thought that he could definitely beat the grey robed immortal emperor after watching a few battles but he didn't expect that the grey robed immortal emperor was far stronger than he had thought. He had dominated the immortal realm but now died to a fighting stage in the God Necropolis Domain.

As Ye Mo moved his eyes away from the flag, he saw an ordinary stool. The moment he saw the stone stool, Ye Mo's heart started beating rapidly because he had searched for this fifth stone all too long.

Now that it was right before his eyes, he almost couldn't believe it. In this boundless universe, how hard would it be to find this stone stool. But he got the stone stool and gathered all five. One needed great fortune and luck for this.

Ye Mo looked at the stone stool and saw the word water. There was also some small worlds, five element united, world complete.

Ye Mo breathed easy. He realised what the purple robed man wanted. His blue bead world was going beyond truth spirit world. If he found the five element stone stools, his blue bead world would go a level higher. He could use it to vindicate dao and enter divine emperor sate.

But now that Ye Mo gathered the five stone stools, of course he wasn't going to use it to perfect the blue bead world.

Ye Mo immediately grabbed the stone stool out of the blue bead world and came into his golden page world.

As soon as he came here, the entire golden page world rumbled. Before Ye Mo realised what was going on, his water element stone stool flew out.

The other four stone stools suddenly flew out too. They spiraled in the golden page world and sped up into a blur. Soon, even spirit sense couldn't see them clearly.

The golden page world was rumbling louder and louder as lightning even exploded. Shadowless and small ginseng were scared and hid under the bitter bamboo not daring to move. Ye Mo wanted to check what was going on in the golden page world and felt his essence spirit hum. At this instant, his essence spirit seemed to about to leave his body and fuse with the golden page world.

The rumbling continued and Ye Mo's consciousness gradually separated from his body. Before Ye Mo could do anything, an extremely clear world appeared in his consciousness. This world seemed to be a blank sheet that needed him to complete.

Ye Mo subconsciously imagined the world he wanted. He imagined a river and an endless river appeared in this world.

At this moment Ye Mo realised what was going on. In his spirit sense and will, mountains, forests, lakes, rivers, seas and snow peaks erupted into existence.

As his consciousness expanded out, the universe, stars, moons... gradually formed around the golden page world.

Pieces of dao laws sprung into existence. The universe chi, law chi filled the space.

There was lightning, rain, ice and snow, there was night and day...

There was the four seasons, ice, wind, lightning and light...

All these formed with Ye Mo's will and there was no pause.

Those law power and the law of the heavens gave Ye Mo more understanding. Ye Mo expanded his consciousness out wanting to expand his world larger but when his spirit sense touched that obscure chaos at the border of his golden page world, his spirit sense felt a wave of pain. The next moment, he couldn't hold on anymore and fell unconscious on the ground.

...

Small ginseng and shadowless who had seen the entire process of the golden page world form were completely dazed. They clearly saw the golden page world go from a grayish dull world into world full of essence chi with a red sun hanging in the east.

Rivers flowed everywhere, fishes sprung out of the waves as though rejoicing for becoming alive.

"Boss opened up primordial world?" shadowless took in a cold breath and murmured "We're primordial spirits."

Small ginseng reacted and still reminisced the process of this world forming. He knew that after witnessing this chaos world forming, they were not only primordial spirits but could also have a world creation god art.

But soon he thought of Ye Mo and said "Shadowless, boss seems to be unconscious. His body doesn't seem to be right."

Shadowless realised and quickly came up to Ye Mo with small ginseng. Ye Mo's face was dimming, his skin was withering. Even his life force was dissipating.

"Small ginseng, what's going on?" Shadowless asked desperately. He had always been following Ye Mo and now that something happened to Ye Mo, he was really worried.

Small ginseng frowned and said after a long while "I remembered a legend of our universe's beginning. There was a powerful being called Pan Gu. After he opened up the universe, he died. Boss seemed to have done the same thing. Opening a chaos world. Boss's power seems much weaker than that Pan Gu. The world he opened isn't even complete."

"What do we do? Small ginseng, think of a way. I'm so worried. What if something happens to boss what do we do?" Shadowless spun around but couldn't think of a way. If it's acting cool and cursing at people, he would have all sorts of ideas but for this situation there was nothing he could do.

Small ginseng immediately said "We have to hurry and save boss. Once his life force completely disappears, even the best dao fruit can't save him."

"What?" Shadowless asked.

Small ginseng answered "Do you feel that the world law suddenly became complete? Not only that, the universe law is starting to become complete. If I'm not wrong, boss isn't strong enough and therefore he has to fuse with the heaven laws to make it more complete."

Then, small ginseng sliced open his arm and dripped a milky white liquid on Ye Mo but Ye Mo's life force was still slowly dissipating. It slowed down a lot but it didn't stop.

“Small ginseng, this doesn’t seem to work.” Shadowless said.

Small ginseng’s face was pale and stopped his wound “Indeed, but I thought of something that can definitely save boss.”

“What is it?” Shadowless asked desperately.

“Chaos tree. It’s also called tree of life and world tree. There’s only one of this in the universe and boss happens to have found it. it’s in here too and it’s almost 3 meters tall.” Small ginseng then lifted up Ye Mo’s arm and said to shadowless “Hurry up and help me lift boss to below the chaos tree.”

Chapter 2002: Ages Fruit ripe

Ye Mo was just lifted under the chaos tree and the tree spurred out a soft golden light that completely covered Ye Mo.

Feeling Ye Mo’s life force recover, small ginseng quickly pulled shadowless “Boss should be fine, let’s move aside and wait till he wakes up.”

Shadowless could tell that Ye Mo was probably fine now and quickly moved aside with small ginseng while watching the chaos tree.

The chaos tree illuminated a golden light that covered Ye Mo and released endless life chi. Even small ginseng and shadowless could feel this life chi clearly and then they saw Ye Mo’s body starting to float. The chaos tree’s life chi kept rushing into Ye Mo’s body.

Ye Mo’s withered body became filled with life chi and in a short time, Ye Mo recovered to what he was before but the chaos tree was getting more withered.

15 minutes later, Ye Mo opened his eyes and saw that he was floating around the chaos tree. The chaos tree's life force nourished his essence spirit and meridians. However, the chaos tree was only two meters tall now.

Ye Mo quickly stopped the chaos tree from nourishing him and got up. Feeling Ye Mo recover, the chaos tree emitted a joyful chi and then devoured the nearby immortal spirit chi like crazy.

Ye Mo took out a pile of god crystals and said to small ginseng "Small ginseng quickly use the god crystals to nourish the chaos tree, I need to learn the world laws."

Small ginseng ran over joyfully. Before Ye Mo gave him god crystals to play with but it was just a few, not a large pile like this.

Shadowless expanded his golden wings and flapped "Boss, you almost died just then, is the world tree this powerful?"

Ye Mo didn't have the time to watch the world he opened up. He felt a lot of world laws when he opened the world. These laws don't belong to him, it belonged to the chaos world but he felt it once. He desperately wanted to know if he could learn these laws and use it to perfect his god art.

He immediately sat under the bitter bamboo. Ye Mo started to learn the laws he felt before but a few days later, Ye Mo could only obscurely feel those laws. He couldn't grasp anything. It was as though those laws were close to him but when he reached out to grab it they became very far.

The only benefit Ye Mo got was a deeper understanding of space laws. He already knew a bit of space law. His instant transmission came from space law and because he experienced the golden page world forming, he understood instant transmission better. If he used instant transmission again, it would cause smaller space ripples. As his mastery of space law increased, he would cause less and less space ripples until it eventually disappeared.

Ye Mo stopped learning. No matter if he could get anything at the Mu Hua god mountain this time, he benefited quite a lot from this. Perfecting the golden page world was more important to Ye Mo than anything else.

Ye Mo got up and then checked his newly formed golden page world. He could feel the complete connection with it. He didn't even need to scan with spirit sense and could know every movement in the world. At this moment, Ye Mo knew that his golden page world truly fused into one with him. unless he died, no one could take the golden page world from him.

Mountain ranges were interconnected, green waters reflected the mountains. A red sun hung high in the east forming a beautiful landscape. The only thing missing were birds and immortal spirit beasts. Ye Mo was very satisfied with his world. This world was countless times more perfected than the blue bead world.

The sun and stars in the blue bead world were formed by formations but everything in his golden page world was formed by the five elements. His world was far from the outside universe. This wasn't that his golden page world was at a lower level but because his cultivation level was too low. He couldn't control that vast universe void. Once his cultivation level increased, his world would expand out infinitely.

Ye Mo flew up, the chaos world was his. He could subtly feel that this world was the same as an ordinary realm. If one had enough power, he could tear the golden page world and head towards the outside world.

Ye Mo knew this was extremely hard. The golden page world had all five elements and the world laws were becoming completed. Even the incomplete golden page world was very hard to tear open unless that person was almighty but how could Ye Mo let such a person stay in his golden page world?

He could leave now but he didn't choose to keep cultivating. Although he gave some god crystals to small ginseng, he still had tens of thousands of god crystals left. However, he was in the Mu Hua god mountain now. he can't miss this opportunity. Since he came, he would give this place a good search.

The mountain was this big, there was no way that divine emperor would be this lucky to encounter him again.

...

At this moment on the Lightning Sound Ages Fruit hill, the lightning was starting to disappear. The blue color on the fruit was gradually replaced by yellow. The chi of time gradually seeped out from the fruit.

Everyone outside the hill held their breath. There was more than 20 people here and most of them knew the fruit was about to mature.

The young mistress of the Heng Gof corner suppressed her excitement and sound transmissioned "The Lightning Sound Ages Fruit is about to be mature. I have lightning mobility technique. As soon as it matures, I'll be the first to charge up and elder Nian help me on the way. Runan and martial brother Wenyan hold still. When elder Nian receives the Lightning Sound Ages Fruit from me, he will throw it to Runan and martial brother Wenyan. After you two get it, immediately dash away. Elder Nian and I will help you cut the chase. When we're safe again, we'll contact each other."

"Okay." Niu Runan and martial brother Wenyan immediately nodded.

After five minutes, the last flicker of lightning disappeared. More than twenty dashing lights went over as quickly as possible.

The young mistress was the third to reach the top. She grabbed two Lightning Sound Ages Fruit. At the same time, she instantly left the Lightning Sound Ages Fruit tree. She put the fruits in two jade boxes and threw it to elder Nian while she took out her magic artefact and stopped the two immortal emperor trying to rob it.

When elder Nian caught it, he gave one each to Niu Runan and horse face. At the same time, he released his magic artefact to stop others from chasing the jade box.

At this moment, everyone charged up onto the tree and no one cared about Niu Runan and horse face who were outside the hill. As soon as they received the jade boxes, they instantly split off.

This process happened perfectly without any pause. Many people saw this and started to regret why they didn't think of such way.

Soon, the people here reacted and started to fight over the other Lightning Sound Ages Fruit. This hill was ravaged by essence chi and killing chi. No one cared about young mistress and elder Nian who didn't have the Lightning Sound Ages Fruit anymore. They didn't join the battle and instead quietly left.

After the nine fruits were picked, the tree immediately withered and turned to dust.

But not everyone gave up on hunting Niu Runan and horse face. There were at least two immortal emperors chasing behind Niu Runan.

Although Niu Runan left first, her cultivation level was too low. It was barely immortal emperor middle stage and she didn't even stabilize her power.

Seeing the two immortal emperors nearing she was very desperate. She couldn't shake them off no matter what.

Niu Runan knew that if they caught up to her, not only would she lose the fruit but she would also lose her life.

She quickly sent a message to the young mistress.

But she wasn't able to get very far before a dashing light stopped her path.

"Do you think a mere immortal emperor middle stage can escape from us brothers? Keep dreaming." It was an Immortal emperor peak stage who stopped her. His god spirit chi emanated around his body.

At this moment, the immortal emperor tertiary stage came behind her.

There was despair in Niu Runan's heart.

She could only hope elder Nian and young mistress could come quicker.

"Attack." The immortal emperor peak stage clearly knew Niu Runan had back up and didn't want to give her any chances. He released a five colored claw. It instantly surrounded Niu Runan. She could only barely release Liu Ming Guang Yan bell to form a protection.

"Good magic artefact." The immortal emperor peak stage said. He knew this was an attack and defensive magic artefact. Greed immediately showed up in his eyes.

Chapter 2003: Small Test of Strength

Rumble. The five colored claw smashed on the bell.

Although the bell was much stronger than the claw, Niu Runan's cultivation level was too weak. Just in that clash, she was smashed away. She spat a few mouthful of blood mid air. The bell dimmed and instantly fell to the ground.

If it wasn't for the bell, Niu Runan would be seriously injured. But even though the bell blocked the first attack for her, she couldn't escape from the second attack. Plus, the other person hadn't even moved yet.

The immortal emperor peak stage didn't pursue killing Niu Runan but charged towards the bell.

Before he could touch the bell, a wave flashed and that bell was gone.

A blue robed man held the bell and didn't even look at this immortal emperor peak stage. He stared at Niu Runan.

"Ye Mo, how is it you?" Niu Runan recognized this person and called out in shock. However, she wasn't joyful at all. She knew that even if Ye Mo helped her, they wouldn't be a match for the other too. That immortal emperor peak stage was too terrifying.

Seeing Niu Runan know this blue robed immortal emperor, the other immortal emperor tertiary stage stopped and stood with that immortal emperor peak stage.

"What's going on? Did you get something good? Why are there two immortal emperor tertiary stages chasing after you?" Ye Mo looked at Niu Runan in confusion. He was wondering where the other people of the Heng god corner was.

Before Niu Runan could reply, that immortal emperor peak stage landed before Ye Mo. If it wasn't that Ye Mo took the bell silently, he would've attack already. He was concerned with how Ye Mo took the bell and he didn't notice at all.

"Dao friend, are you going to intervene in our affairs?" The immortal emperor peak stage stared at the bell and said.

"Intervene? When did you see me attack?" Ye Mo said in contempt.

The immortal emperor peak stage pointed at the bell in Ye Mo's hands "The magic artefact is now mine. You robbed my magic artefact. If that's not attacking what is?"

Hearing this, Ye Mo raised the bell and said "This is clearly my magic artefact, when did it become yours? I sold this bell to Niu Runan and she still hasn't paid me the full sum yet. Did she sell this to you?"

Hearing this, the immortal emperor tertiary stage glanced at Niu Runan and immediately knew that Ye Mo was telling the truth.

"Attack..." The two immortal emperor made eye contact and attack. The other immortal emperor released a four seas god stump and attack Ye Mo.

At the same time, Ye Mo gave the bell back to domain while expanding his lethal force domain. Ye Mo quite approved of Niu Runan. He felt this dark skinned was a much better person than that beautiful young mistress.

With the bell in her hand, Niu Runan immediately wanted to go help Ye Mo but at this moment, she found in shock she couldn't break into Ye Mo's domain at all. Ye Mo's domain swept out like crazy.

This was the first time Ye Mo fused the lethal force from the Qing Wei abyssal river into his domain. Before, he was almost bound by that divine emperor. This made him feel his domain was lacking something. This meant that his domain was too amicable. The murderous chi from the abyssal river could make up for this.

The two immortal emperors immediately felt huge pressure. They felt that their domains stacked together was weaker than Ye Mo's domain. Under Ye Mo's pressure, their domain made cracking sounds.

The immortal emperor peak stage's face changed. He realised that Ye Mo was very powerful.

The five colored claw expanded and activated countless five colored lethal beams that loomed over Ye Mo. Niu Runan could only retreat back again. It was the best time now for her to run but she never even thought about it.

Ye Mo was ganged up on due to her, even if she couldn't help she couldn't just run away.

When the four sea god stump activated, boundless waves came.

Only now did Ye Mo release Zi Xu. If it wasn't that Ye Mo wanted to see what their god arts were like, they might even not get the chance to use it. Ye Mo was in a stage where he was fusing all sorts of god arts. The god arts he saw, the more inspiration he would get.

Even if his immortal essence hadn't completely converted to god essence, Ye Mo wasn't scared of the two immortal emperors. Now, almost all his immortal essence had converted to the stronger god essence. he really didn't care about their attacks.

Zi Xu was released, god art crevice.

The 30km long purple sword ray sliced across the void. The space that was touched by the sword instantly crumpled. It was as though the strike took away all the things in the space.

The extremely murderous lethal force fused with the sword ray and hacked past the five colored lethal beam.

The newly formed five color lethal beam was like snow that instantly melted under the hot sun.

Niu Runan was watching with her jaws wide open. She had never expected that insignificant purple sword Ye Mo carried on his back would be this powerful.

She didn't know that this was Ye Mo suppressing his power. If it wasn't that the space here was very tough and Ye Mo was holding back, he could easily hack out 300km long sword ray.

When Ye Mo hacked out the crevice god art, the surrounding 30km of space were bound under this sword ray. He was really despaired. He had never thought someone could use sword art god art to this degree.

He had seen god art that gathering space lethal force and crumbled space. However, he had never seen someone like Ye Mo gather all the space lethal force into an extremely fine sword ray.

The five colored lethal beam had completely melted. This immortal emperor peak stage didn't dare to think about anything and forcefully activated the five colored claws and blocked in front of him. at the same time, an extremely huge round shield appeared before him.

Even if he had to fight with his life, he had to block this move first.

The other immortal emperor's sea waves had zero chi. Those who were suppressed by it wouldn't even be able to breath. But just when he activated the first wave, a huge fist appeared before the wave.

Ye Mo didn't need to use crevice against an immortal emperor tertiary stage.

With the void god art smashed out, the first stump immediately tilted. The huge water wave had a hole inside and completely spilled out. The battle formed a huge flood sweeping all the nearby sand away.

Thud.

Zi Xu hacked on the round shield creating this heaven shocking sound.

The immortal emperor tertiary stage was smashed back and spat mouthful of blood in the air. He looked worse than Niu Runan.

The other immortal emperor's face changed. before he could react, his team was smashed away by Ye Mo. There was even a deep gash on the forehead. Immediately, he realised that them two combined was no match for Ye Mo.

The immortal emperor tertiary stage retreated desperately. The other immortal emperor peak stage landed on the ground. He immediately bowed to Ye Mo "Qian bei, wan bei offended you, please forgive me."

The immortal emperor peak stage put away his magic artefact and quickly retreated with the other immortal emperor.

Seeing the two leave, Ye Mo didn't go hunt them.

Only now did Niu Runan come out of her shock. She finally realised why Ye Mo was here. With his power, it would be strange if he didn't win the tournament.

Chapter 2004: Betrayed

Ye Mo interrupted Niu Runan and asked "Why did these two gang up on you? Did you get some top treasure?"

Hearing this, Niu Runan hesitated before saying "It's not mine, it's young mistress's lightning sound ages fruit..."

She felt Ye Mo was a good person and he just saved her life. He didn't know her and dared to let her own him god crystals so she said it. But then she immediately regreted, who knew if Ye Mo would fight for such dao fruit.

“What, Ages Fruit?” Ye Mo exclaimed in shock. From the jade slip he bought at the market place, he knew what the ages fruit was.

Even Ye Mo would dream to get such dao fruit. He didn’t expect Niu Runan was hunted for this. Ye Mo’s heart heated up. If he could get the fruit and learn time law or just a sliver, it would be a huge increase to his power.

Seeing Ye Mo’s shocked tone, Niu Runan’s heart sunk. She felt she shouldn’t have said this but then she thought, even if she didn’t say it, there would be a reason two immortal emperor tertiary stage were hunting her. Ye Mo could guess she got something good.

Thinking about this, Niu Runan quickly said “This time dao fruit isn’t mine. It’s young mistress’s. after she grabbed the fruit, she gave it to me and helped stall the people hunting me...”

“Wait...” Ye Mo interrupted her, “You’re saying she gave you the fruit and stayed to stop the others from robbing the fruit.

Niu Runan didn’t really want to show the fruit to Ye Mo and answered “Yes but this dao fruit isn’t mine. If it’s mine, I’m willing to give it to you to thank you for saving my life.”

Ye Mo smiled “Time dao fruit is very precious I want it indeed but I wouldn’t rob yours. Don’t worry. I just feel this thing is about strange. It’s not that I’m looking down on her but she’s indeed not so much a good person.

Hearing this, Niu Runan’s face became uneasy. If it wasn’t that she owed Ye Mo and he saved her, she would get angry.

Seeing her face Ye Mo said “Since she gave the dao fruit to you, she would catch up on time. However, you were gained up on by two immortal emperor tertiary stages. Other than me, no one came. Even now I don’t see your young mistress. Dao friend Runan, don’t tell me you didn’t send a message yet or that young mistress doesn’t know how to find you. I won’t believe this.”

Niu Runan’s face changed. Things were really as Ye Mo said. She sent messages but the young mistress still hasn’t come to help her. If it wasn’t for Ye Mo, she would’ve been long dead.

“She’s helping me cut the chase. She’s stopping all those who want to chase for the fruit or she would be here already.” Niu Runan said with low confidence.

Ye Mo sneered “Everyone saw her throw the dao fruit to you right? Since they saw it, would they stop her? Those two hunted you were a good example. Do you think she would waste time there having meaningless battle? If I was her, I would come back you up immediately but in reality, she didn’t come right?”

Niu Runan’s face was bad and she didn’t talk. Ye Mo added “Let’s imagine this. If the young mistress gave you the time dao fruit, she would chase up to you immediately. Other people knows the dao fruit isn’t on her so they wouldn’t waste time with her. She didn’t come over so this means she probably didn’t give you the time dao fruit. If she really didn’t give it to you, then she wouldn’t be coming to find you but get as far away from you as possible.”

Niu Runan’s face was getting pale. Since young mistress didn’t come to back her up immediately, it meant that she probably has a fake dao fruit.

Since she was given the fake box, there was only one reason. She was used as the decoy scapegoat. Niu Runan’s face was more and more pale. She didn’t dare to keep thinking. She had been with the young mistress for all these years. She had been very loyal. If she was just completely used, she wouldn’t be able to accept this fact.

Before Ye Mo said anything, she took out the jade box and opened it. There was a god crystals laying inside, no lightning sound ages fruit.

Although he knew what he said was probably, Ye Mo was still disappointed when he saw the box was fake. He really wanted to see the ages fruit.

Niu Runan’s face was pale. Her face was extremely dejected. If the young mistress was in trouble and her life was needed, she wouldn’t hesitate at all. But being used as a bait and sacrifice like this, she was just sad and disappointed.

Just when Ye Mo was thinking about how to leave Niu Runan, Niu Runan suddenly said “Since I was very young, my mother left me. The Heng god corner took me in and raised me up. I’ve been with the young

mistress since then and she never mistreated me. she even gave me a spot into the mountain. If it wasn't for her, I would've long been dead.

Ye Mo thanks for saving me. if it wasn't for you, I would be dead today. My life is pretty much returned to the young mistress. I don't owe the Heng god corner anymore. I owe you a life..."

Ye Mo quickly interrupted her "Don't take these small things to heart. I'm going good bye."

"Wait..." Niu Runan stopped Ye Mo.

Niu Runan took out a jade slip and gave it to Ye Mo "These are the places with the best dao fruits and materials in the mountain. You might not know since you have never been here. You can have this."

Seeing Ye Mo take the jade slip, Niu Runan said goodbye and left.

Ye Mo scanned the jade slip. The information was a bit obscure but had an approximate location. Shanyun cliff. There's often source abstruse silk appearing there. It's a material that could be used to time law magic artefact.

It's also said that there's a seven star extreme well there. This is a well that can refine the body. It can also fuse body refinement god art.

Cheng Zheng lake, there's frequent discovery of Qing Tao Qi Lan there. It's a top herb that can be used to concoct dao moulding pills.

...

The jade slip even marked out some routes where time whirlpools appeared.

Ye Mo put the jade slip and was very grateful to Niu Runan. She helped him quite a bit. The mountain was boundless and spirit sense was limited. God art was also suppressed. If Niu Runan didn't tell him,

even if he searched for a year he might not find these places. If he accidentally went into time whirlpools, he might die.

These God Necropolis Domain powers indeed had their own ways.

The first place Ye Mo chose to go was Muhua Floating valley. The seven star extreme well was very important to him. He was now immortal god body peak. Ye Mo felt annoyed he couldn't break through to divine body.

To him, break through to divine body was important but more importantly it was learning god arts. He had quite some god arts but didn't have a great god art nor a body refinement god art.

His body refinement is purely defense. If he could learn a body refinement god art, his power would increase many times.

As Ye Mo walked, his spirit sense carefully scanned out. He had to be careful of time whirlpools.

Six blueish green herbs appeared in Ye Mo's spirit sense. Ye Mo immediately recognized this was red cloud god herb. it was a spirit eye type god herb. it couldn't be found in the immortal realm. If there was an immortal cultivating spirit eye god art, this herb would be invaluable.

Chapter 2005: Instant Kill immortal emperor

Before Ye Mo could get close to them, two dashing lights charged over. Ye Mo knew this place was the god mountain and was very careful but these two dashed like lightning without any concern.

Moments later, these two were only ten meters from the herbs.

Ye Mo sneered, he found these herbs first, there was no way he was going to give it up easily. Just when Ye Mo was about to charge up, he saw the two people suddenly disappear.

This was the first time Ye Mo had seen such an eerie situation. They definitely didn't have a golden page world like him and suddenly went in.

Ye Mo subconsciously stopped. An extremely terrifying time flow seemed to have brushed past him. Ye Mo subconsciously retreated ten more meters before that feeling was gone.

At the same time, he saw the two figures again. They were just 3 meters from the place they disappeared. But now, they had become white bones.

They went for a few more steps and fell to the ground.

When Ye Mo looked carefully, he noticed there were many bones around those red cloud god herbs.

Ye Mo took in a cold breath. This was too scary. 3 meter distance, a few seconds and two immortal emperor tertiary stages became bones. Even divine emperors wouldn't be able to do this.

Ye Mo soon realised that there must be an invisible time whirlpool around the red cloud god herb.

No matter how much he wanted the herbs, Ye Mo didn't dare to joke with his life. He called out shadowless and small ginseng and told them the situation here.

Shadowless and small ginseng shook their heads clearly didn't know how to go past the time whirlpool.

Ye Mo's spirit sense carefully went forward. His spirit sense went past without any problem. Ye Mo didn't give up. He used a few spirit sense blades in the time whirlpool. As soon as he did, an extremely powerful time flow blew away his spirit sense. The feeling of losing life came up. Ye Mo quickly took back his spirit sense but found that the spirit sense the time whirlpool swept in was gone.

"Such a powerful time whirlpool." Ye Mo murmured. It would be fortunate if he wasn't heavily injured in front of this time whirlpool much less learn time law.

The people in the mountain were very careful, if it wasn't for the red cloud god herbs, they wouldn't rush like that. The time whirlpool was strange. It would only be activated with spirit sense waves.

It seemed his cultivation level was too low. He couldn't learn the time law here. He had to collect things to increase his cultivation level.

After making this decision, Ye Mo planned to ask small ginseng to help him find treasures. Ye Mo knew that since Niu Runan had that jade slip, other powers would have them too. Perhaps those places were plowed open already.

Ye Mo gave up the red cloud god herbs.

Small ginseng had an innate talent to sense laws. He would be able to sense some subtle time whirlpools. Ye Mo followed small ginseng and soon found tens of good god herbs and a golden colored golden bell buddha fruit.

It's value wasn't much lower than ages fruit but it had no value to Ye Mo.

It could allow one to learn buddhist god art. To Ye Mo, if he could see Du Feng monk, he would give him this dao fruit.

"Muhua hanging valley should be ahead. We'll go check if there's seven star extreme well. Small ginseng followed shadowless closely, don't go too far." Ye Mo saw small ginseng was some distance from him and called out.

Small ginseng agreed and ran off with shadowless.

Ye Mo was helpless. Although the golden page world was now a complete five element world, small ginseng and shadowless were too lonely inside. They had no play mates. In here, there were immortal spirit beasts and god beasts.

Ye Mo had decided to get some more immortal spirit beasts in to the golden page world after he went out to prevent his golden page world from being too boring.

A sharp scream sounded that interrupted Ye Mo's thoughts. He immediately dashed out.

The sound was made by shadowless.

In just ten seconds, Ye Mo landed next to shadowless and small ginseng. There were four people who had surrounded small ginseng and shadowless. There were two immortal emperor tertiary stages, one immortal emperor peak stage and one half divine. The immortal emperor peak stage had blue hair but his god essence was weaker than the two immortal emperor tertiary stages.

Rumble. Ye Mo smashed away the immortal emperor tertiary stage's black stick attack on shadowless while releasing Zi Xu that hung in the air.

"Who are you? How dare you stop me grabbing immortal pet?" The immortal emperor tertiary stage said.

"Stop you grab immortal pet? small ginseng and shadowless are my friends, what right do you have to grab them?" Ye Mo's face sunk.

"Your thing? There are all too many things in the mountain, what right do you have to say that this ice ginseng king is yours?" A woman behind the immortal emperor tertiary stage said.

"Why waste time with him. A mere immortal emperor middle stage, just kill him." The immortal emperor peak stage said impatiently.

The two immortal emperor tertiary stage agreed immediately "Okay."

Before they finished, two magic artefacts were released, one black one white that swept at Ye Mo.

Ye Mo released and his murderous immortal emperor domain stacked with his spirit sense domain. Ye Mo wasn't going to show any mercy to those who wanted to kill him. While they still underestimated him, he would kill two first.

Zi Xu sliced across the air and the man and woman immediately felt a powerful space binding. Their immortal emperor domains crumbled like eggs.

Rumble.

The white and black mag struck with Zi Xu splashing rays in the void. A subtle space ripple spread out.

The half divine's face changed, his heaven shocking lamp had been released.

He chose a very good time but even so, he was still a bit slow. Zi Xu brought out two bloody mists. These two immortal emperor tertiary stages were killed in one move. They didn't even completely release their god arts.

It's not that they couldn't use it but that they didn't take Ye Mo seriously at all.

However, as soon as they clashed, they realised they were severely wrong and this cost them their lives. Two essence spirits seeped out and was gulped by shadowless who was waiting on the side.

The immortal emperor peak stage was just a bit slower than that half divine. His face changed immediately and released his wither zen dual swords.

Ye Mo wasn't worried about that. He was worried about the heaven shocking lamp. Upon release, it formed heaven covering light that locked onto him. The endless light were like stars falling that smashed towards Ye Mo.

Ye Mo felt his essence spirit was about to cripple, he couldn't even gather his god essence. Although the half divine didn't stop him from killing the two immortal emperors, he chose the perfect opportunity to attack putting him at the lower hand.

Those lights spun more rapidly until it grew brighter and brigher. This reminded Ye Mo of his Heaven Flame Nine Suns. Heaven Flame Nine Suns grew more and more brighter later on.

Under the binding of the light, Ye Mo could clearly feel the terror of these lights and he could feel that the more the light spun, the stronger his domain was.

If this continued, Ye Mo wouldn't even be able to take back Zi Xu.

Shadowless saw this and flapped his wings towards that half divine and bit down.

Chapter 2006: Mu Hua floating valley

This gathering light domain was bitten a hole by shadowless. Ye Mo felt easy and before the lamp could fill the hole up, he punched out. Fist god art shatter sky.

At the same time, shadowless was smashed back by the backlash of the domain and smashed into a huge mountain rock.

Ye Mo was planning to burn his god essence to break free from the domain but shadowless helped him so he didn't hesitate at all.

Nine void lethal forces rose and this space was instantly swept inside. The endless light was suppressed by the fist wind before it could be repaired.

The nine fist forces clashed with the endless light. The endless light seemed to have been smashed by asteroid and scattered to a few hundred kms nearby.

The half divine saw that his heaven shocking lamp domain was broken by Ye Mo and was extremely shocked. He still had other means but only he knew that the time he picked to ambush Ye Mo was perfect and yet under such situation, he still wasn't able to make Ye Mo seriously injured. Ye Mo's power was definitely no weaker than his.

His heaven shocking lamp lit up again. An eerie light came up that charged at Ye Mo's fist wind.

At this moment, the blue haired immortal emperor tertiary stage finally released his magic artefact. The two swords sealed Ye Mo's surroundings like two sword dragons.

Ye Mo raised his hand and a huge drum appeared before him.

Dong dong dong.

Ye Mo struck the drum nine times but it sounded like tens of thousands of horses racing. The sky became dark with lethal force. The two immortal emperors attacking Ye Mo felt endless immortal soldiers raising their spears and attacking. This wasn't the battle between three but between millions.

Ye Mo didn't take back the fist wind and raised out a few more lightning bolts. Before, Ye Mo was almost backlashed by the drum sound with just one strike but now he struck it nine times and was completely fine.

The dual swords was suppressed by the drum sounds and could only circulate around Ye Mo's domain.

The eerie green light of the half divine was also suppressed and immediately slowed down. However, Ye Mo's five lightning lights were becoming clearer. Those drum sounds struck the half divine's chests making his god essence cripple.

But this wasn't the end. At the same time, five extremely clear lightning spears appeared. The half divine's face changed. Although his domain was bit open by shadowless, it was still under a slight upper hand. But when the drum sounded, he was at the lower hand. Now that the five lightning spears was about to smash down and he was completely bound to it, how could he keep attacking Ye Mo.

at the same time, the green light changed directions and swept at the Five Lightning Spear Destruction.

Rumble.

The lightning spears smashed with the green light creating this huge shocking sound that exploded all the nearby space destroying the nearby forest and small hill.

More than half of the lightning spears was gone but it kept falling. It just wasn't as powerful as before.

The heaven shocking lamp suddenly expanded becoming a red sun.

"Crack..." A few more sounds appeared and the remaining lightning spear completely smashed on the heaven shocking lamp. The lamp immediately dimmed down and even made a cracking sound.

The half divine blocked Ye Mo's shatter space god art and the drum sound as well as the Five Lightning Spear Destruction. However, his face became pale. After blocking the Five Lightning Spear Destruction, he immediately put away his lamp and dashed away.

A half divine and an immortal emperor peak stage was attacking Ye Mo together but he fled first.

Seeing this half divine run, Ye Mo had no power to chase him.

Seeing this, the blue haired immortal emperor peak stage's face looked back. He wanted to take back his magic artefact and run but Ye Mo was facing him alone now. how could he run easily?

Ye Mo's immortal emperor domain and spirit sense domain completely expanded binding this immortal emperor peak stage before punching again.

This shatter sky gathered a few void lethal force and completely sealed off his exit.

The blue haired immortal emperor was already no match for Ye Mo. Now that he just wanted to run, he had less chances of stopping Ye Mo's god art. He wasn't that half divine. Although he was immortal emperor peak stage, he was weaker than ordinary immortal emperor tertiary stage. Facing such a powerful lethal blow he could only beg "Don't attack, I'm Zi Cheng god corner's Helian Youle. I'm from the Helian family..."

For those who wanted to kill him, Ye Mo wasn't going to let them go even if they were the god lord. Shatter sky's fist force swept the blue haired immortal emperor to pulp.

Three storage rings fell into Ye Mo's golden page world. then he walked up to shadowless and asked "What was going on?"

Shadowless was thick skinned and although he was smashed away by the half divine's domain, he was fine.

Small ginseng quickly said "I felt a top treasure here and just when I was charging forward I was stopped by those four."

Shadowless quickly said "That blue haired saw through that small ginseng was ice ginseng king and wanted to capture small ginseng. Of course we didn't agree but before I attacked, I was attacked by that woman."

He offended another power. Ye Mo just didn't bother to think about it and said to small ginseng "Small ginseng lead the way, let's see where that treasure is."

He offended too many people. When the mountain was about to open, he would just stay in here. He found what he wanted anyways. If he wasn't afraid that people would find the tunnel to the immortal realm, he would rather go back to the immortal realm. Ye Mo really didn't like this God Necropolis Domain.

Hearing that Ye Mo was going to find what he sensed, small ginseng immediately came and dashed out in a white light. Ye Mo didn't dare to follow from afar and stuck close by small ginseng.

In less than two hours, small ginseng came to a huge valley. What made Ye Mo feel amazed was that there were steep cliffs on the two sides of the valley. The lower half of the cliff was covered by mist and only the top half showed. From a distance, it was like floating in the air.

The valley was wide and deep. Spirit sense couldn't even scan to its edges. Even if Ye Mo didn't ask, he knew this was Mu Hua floating valley.

Small ginseng didn't stop and charged in immediately. Five minutes later, small ginseng had to stop. Two immortal emperors were having a huge battle here that almost turned the valley around.

Ye Mo could tell that both of them were immortal emperor tertiary stage. The long haired man was stronger meanwhile the grey robed man looked older.

"Boss, there's just some way to there but these two are blocking our way." Small ginseng said angrily.

If there was no special situation, Ye Mo wouldn't want to fly in here. These two were having such an intense battle that it sealed the path shut. Ye Mo could only go up and say "You two please wait a bit, let us pass."

Chapter 2007: Seven Star Extreme Well

The two immortal emperor tertiary stages saw that a mere immortal emperor middle stage asked them to stop fighting and give way. They didn't understand where Ye Mo got the audacity from.

But the older immortal emperor moved to the side clearly agreeing. The long haired immortal emperor saw shadowless and small ginseng running behind Ye Mo. As though feeling that someone who could own these two weren't ordinary, he hesitated and moved aside too.

Ye Mo waved his hand and was going to pass between the two.

At this moment, the grey robed immortal emperor suddenly attacked. He released an extremely powerful ray that bound the entire space. Even Ye Mo felt the terror of this dark ray and suspected he might not be able to dodge it if he didn't convert his immortal essence.

At this moment, small ginseng and shadowless were in this bound space and was about to be pierced.

Shadowless was more experienced in battle and instantly stopped small ginseng and bit.

Crack. There was an almost indistinguishable sound and that bound spae was bit open a bit. Shadowless took small ginseng to retreat a few steps and escaped from the border.

Ye Mo was furious. He didn't expect this careful looking grey old man was this shameless and used him to ambush. If it was some ordinary person, he would've been dead already.

The next moment, his domain pressed over and used shatter space.

Nine terrifying void fist forces swept at the old man. Ye Mo didn't even hid the murderous chi. It fused with the void lethal force that would even make spirit sense shiver.

The old man wanted to use his dark ray rune but the long haired immortal emperor stopped him and prevented him from using it. Now that Ye Mo was going past here, he immediately caught onto the opportunity.

The instant the rune was activated, the grey robed immortal emperor breathed easy. He knew he was fine now, no matter how strong the long haired immortal emperor was he would be heavily injured or killed by the rune.

As for the mere immortal emperor middle stage, the grey robed old man felt Ye Mo was suicidal to intervene in the immortal emperor tertiary stage battle.

But the instant he activated the rune, he felt things weren't right. That dragon horse like beast bit open the dark ray domain. That immortal emperor middle stage who was bound by the dark ray domain could move freely and even punched over.

His face changed greatly. That extremely powerful lethal force already locked onto him tightly. He could clear sense it but he couldn't dodge it. The murderous killing intent hurt his body before it even reached him. His body was about to split apart.

Such a terrifying fist force, such murderous killing intent. The grey robed man instantly realised he caused a big trouble. This guy was no immortal emperor middle stage, this power was dao vindication divine emperor.

The nearby space was completely bound and even the old man's spirit sense was locked on. He couldn't even make a word even if he wanted to beg for mercy. He could only watch as the void lethal force came. His eyes were full of regret and terror. He didn't expect he messed with someone this tough so casually.

Thud. The void fist force smashed together and the old man's body exploded. He couldn't even move his finger and could only watch.

This only happened in a second.

The long haired immortal emperor noticed the ambush but that dark ray domain was too strong and he couldn't break free.

Luckily shadowless bit open the domain and Ye Mo's shatter sky tore this domain open. The long haired immortal emperor immediately used the opportunity to move aside but even so, the dark ray still took away all the clothes on him as well as some flesh.

One could imagine that if he was a bit later, that dark ray would heavily injure him.

Before he could breathe easy, he saw Ye Mo punch the old man to dust. That extremely fierce and terrifying lethal force made the long haired man shiver even though he wasn't at the full front of it.

Such powerful fist force. The long haired man rejoiced that he didn't forcefully block the way or he would be the one dead.

No wonder this immortal emperor middle stage dared to roam around with an ice gingseng king. With such power who would dare to attack him. He even suspected that Ye Mo was fishing for an excuse to kill people.

Just when the man wanted to walk to Ye Mo and thank him, a huge explosion stopped him. the long haired man didn't mind, he knew that it was the dark ray hitting a cliff.

“Boss, it’s this place, it’s been smashed open.” Small ginseng quickly came over and pointed at the cliff.

Ye Mo already saw it. an extremely dense god spirit chi chi with slivers of dao waves diffused. There was also an extremely good aroma that purified cultivation and the body.

“Seven star extreme well...” The long haired man called out in shock.

A huge stone pond appeared and inside was extremely clear liquid. The god spirit chi that seeped out squeezed away the clouds making it seem like an immortal pond floating in the air.

“It’s indeed Seven star extreme well, not bad. Small ginseng did huge work this time.” Ye Mo said happily.

The next moment, Ye Mo took a storage ring and landed on the side of the well. He took out a jade kettle that wasn’t very big.

Ye Mo was an immortal artefact grand master. Although it was hard to buy dimensional jade kettles for others but Ye Mo made a pile in the golden page world to collect treasures like this.

The long haired man’s face changed a few times but he eventually didn’t dare to do anything. The Seven star extreme well was precious but he didn’t have the balls to fight over it with Ye Mo.

However, he also flew over and saluted with his fists to Ye Mo “This dao friend, thank you for saving my life. I want to see if there would be Seven star extreme wells on the side. Would that affect dao friend?”

Ye Mo looked and nodded “Do as you please.”

The long haired man rejoiced and immediately started to dig places not far from Ye Mo’s Seven star extreme well. He had researched many information before and knew that around the Seven star extreme well, there would be side wells. This is still Seven star extreme well but just has less quantity. When the original Seven star extreme well was full, the liquid would flow to another place so that place was side well.

The liquid in the well was brought out by Ye Mo and flowed into the jade kettle like a water fountain. One couldn't even stop the extremely pure well chi from spreading.

Ye Mo knew that this would definitely attract people to come. He had to collect this quickly.

Crack. Ye Mo knew that the other man succeeded because after this crack, there was more well chi seeping out.

"Found it." The long haired man rejoiced. Ye Mo looked over. Ten meters from him, there was a sink sized well.

Ye Mo didn't plan to fight over it. He already had this much so he didn't need more. Plus, the man found it himself.

The man wasn't slower than Ye Mo and instantly took out a jade bottle and quickly filled up the well.

At this moment, a few more dashing lights came in and Ye Mo just finished collecting the well water.

Chapter 2008: Talk With Power

"Seven Star Extreme Well!" A few shocked voices and four figures landed. Then, two more dashing lights came and called out the same words.

Ye Mo landed and waved to shadowless and small ginseng "Let's go."

The long haired man saw this and quickly followed Ye Mo.

"Wait." At least three of the six came out and stopped Ye Mo.

Ye Mo frowned. He knew that he took all the well water so it was probably hard for him to leave peacefully.

“Hmm, ice ginseng king.” Another person saw small ginseng and exclaimed.

Ye Mo was only immortal emperor peak stage and yet got this many Seven Star Extreme Well water and the ice ginseng king. Even the dragon horse probably wasn't simple. Peoples' eyes immediately went red.

Ye Mo waved his hand and took shadowless and small ginseng. At the same time, Zi Xu floated in the air. Since this was unavoidable, he might as well fight. The strongest here was only immortal emperor peak stage and there was only one. One person here was even immortal monarch peak stage. Ye Mo didn't need to worry about this at all nor need shadowless' help.

Seeing Ye Mo put away small ginseng and shadowless, a few people sneered. It was pointless to put away things that were already seen.

At this moment, three more dashing lights came. Ye Mo was speechless as Ye Mo knew two of them. It was the two that stopped Niu Runan and was taught a lesson by Ye Mo.

The three immediately saw the empty Seven Star Extreme Well but then the other two immortal emperors recognized Ye Mo. Their faces changed but they didn't leave. they stood afar and watched.

Seeing one of the two was immortal emperor peak stage, the first six who came saluted with their fists to the three. The immortal emperor peak stage in the group of six was white skinned but his eyes looked evil.

He greeted the three and walked up to the long haired man “Dao friend, you've got quite some luck. The well is that big here, you probably got quite a lot right?”

The long haired man saluted with his fists “I got some well water but I got the side one. As for the main well, it's because I came a bit late.”

The immortal emperor peak stage dazed. To him, it was Ye Mo and the long haired immortal emperor who split the Seven Star Extreme Well. Ye Mo was weaker so he must've gotten less but the results were different.

Then he reacted and smiled to the long haired man "dao friend, you're a nice person. I admire you."

The side well was only the size of a water sink, not even one many tenths of the main well. Yet, the man still didn't rob Ye Mo's well.

The long haired man smiled but said nothing. Was he a good person? he felt Ye Mo was a good person. If it was someone else, he wouldn't even get the sides.

This evil eyed immortal emperor peak stage looked at Ye Mo and casually saluted with his fists "Dao friend, you're quite lucky to get an entire well of Seven Star Extreme Well. I'm Henghong god corner Yi kang. There's plenty of treasures in the mountain but the Seven Star Extreme Well is extremely rare. Since everyone saw it, can you share some?"

Ye Mo smiled "Of course, there's that many Seven Star Extreme Wells, I can't use it all."

Yi Kang laughed "Dao friend nice, how about this. Take out the Seven Star Extreme Well and I'll split it up?"

Seeing that Ye Mo was willing to share the Seven Star Extreme Well, he immediately knew Ye Mo was scared. He was facing nine immortal emperors and Ye Mo was only an immortal emperor middle stage. How could Ye Mo not be scared?

The two immortal emperors who had seen Ye Mo before knew he definitely wasn't so easy to talk to. They saw others go up but they stayed afar.

"Why should I let you split my things?" Ye Mo said plainly but killing chi was gathering around Zi Xu. He was about to attack.

Feeling Ye Mo's faint killing chi, Yi Kang frowned and said coldly "Didn't you say you can't use this many Seven Star Extreme Well water and wanted to share it. Are you regretting?"

Ye Mo smiled "Of course I won't regret but if you want my well water you need to trade it. You guys didn't take anything out and want me to share the well water with you. Do you want to rob me?"

Yi Kang heard this and was furious "So you're playing with me."

Then, his force rose as killing intent circulated around him. before he could attack, the brown robed immortal emperor tertiary stage next to him went up first and released a rusty ghost chain and attacked Ye Mo "Martial brother Kang, you don't need to deal with this cocky bastard. I, Guan Ruisi, am enough..."

As soon as the ghost chains came out, the valley became ghastly. It was as though countless ghosts came alive. Howling ghost voices sounded with the black smoke that was about to tear Ye Mo apart."

The long haired man standing not far felt his mind unstable and immediately retreated while releasing his defensive magic artefact.

"The ghost chains are not bad." Ye Mo said and sliced with Zi Xu. He really felt the ghost chains were good but this immortal emperor tertiary stage couldn't fully activate it.

Ye Mo expanded his domain out and the grey robed immortal emperor's domain cracked like an egg. The immortal emperor immediately knew he wrongly estimated Ye Mo's cultivation level but Zi Xu already smashed down on the ghost chains with the space lethal force.

Rumble. Essence chi blasted and the nearby immortal emperors released their magic artefacts while retreating quickly.

Yi Kang's face changed. He instantly realised that Guan Ruisi was no match for Ye Mo. He instantly released his magic artefact but the long purple sword ray had already hacked on the ghost chains.

Sizzling sounds came and the endless ghost figures were melted into nothing but the purple rays. Guan Ruisi felt his ghost chains shiver. The long purple sword ray suddenly cracked and then turned into heaven covering purple shards that enveloped him. at this moment, Guan Ruisi was completely in despair. He realised that even if he didn't underestimate Ye Mo, Ye Mo could still kill him easily.

Splurge. Blood mist sprayed and the immortal emperor tertiary stage who was going to kill Ye Mo a few seconds ago was turned to dust.

At this moment, Yi Kang's five flame qian kun wheel was just released. Ye Mo didn't put away Zi Xu. He flew up and punched.

Ye Mo felt very satisfied. His crevice god art finally broke through just then forming endless crevice shards. He derived this from Illusion Cloud nine strikes and heaven shocking lamp domain. After crevice cracked, the endless sword rays can form another domain strike. If it enveloped the opponent, it would kill for sure.

Before the five sun like rings of the wheel spread out, it was swept by Ye Mo's fist force.

Rumble rumble rumble rumble rumble.

After five huge explosions, flame shot everywhere and this space and earth was completely turned to dust. Even the two valleys were powdered.

Yi Kang flew back and there was a sliver of blood at the corner of his mouth. He was extremely shocked. Although he attacked in a rush, Ye Mo attacked after Ye Mo killed an immortal emperor. Ye Mo counter attacked in a rush.

Thinking about this, Yi Kang soon realised he was far from a match for Ye Mo.

Yi Kang stumbled a few steps. His face was pale. He finally realised why Ye Mo didn't care. He didn't need to care. Even if six more of them came, Ye Mo could just go. If Ye Mo wanted to go, who here could stop him?

The long haired man breathed easy.

Chapter 2009: Dao Essence Divine Estate

Out of the first six people who came, one was instantly killed and the immortal emperor peak stage was smashed away. The remaining four had one immortal monarch and two immortal emperor primary stages. Their faces were extremely pale and subconsciously looked at the three who came later. They finally realised why there was two who didn't come up. They already knew how strong Ye Mo was.

Eseeing Ye Mo take the storage ring and ghost chain and walked towards him, Yi Kang quickly put away his wheel and saluted with his fists "I was too impulsive, I'm willing to compensate for dao friend's losses."

Seeing Ye Mo completely ignore him, Yi Kang said again "There's a dao essence divine estate in the mountain. I've just got news and sensed the well chi here. That's why I came over."

Ye Mo stopped. Dao essence was the pinnacle of the God Necropolis Domain. He must go check out that dao essence estate. Up until now, his Three Birth Chant didn't have dao vindication cultivation method mainly because he had never come in contact with a dao vindication divine emperor. Even though he was hunted by one, he didn't fight one.

"Tell me where it is and I'll let you live." Ye Mo said plainly.

Yi Kang quickly said "the dao essence divine estate is at Cheng Zheng lake. People were searching for Qing tao Qi Lan there and accidentally activated the ancient dao essence divine estate. It's said that this place might be left behind by a powerful being before the God Necropolis Domain was broken. There would be top level divine dao cultivation method and god art."

"Okay, if you don't want my well water then piss off." Ye Mo said.

Yi Kang's face showed a sliver of anger but he quickly hid it and said "Dao friend, that three treasure ghost chain is one of the top magic artefact of our Henghong god corner, please..."

"You want it?" Ye Mo looked asked.

Yi Kang bit his teeth and said "Yes, that's something very important to us. We're willing to pay some price for it."

Ye Mo said "You can have it back if you use a dao fruit to trade it. Any dao fruit will do, otherwise, no deal. If you can give me lightning sound ages fruit I can not only give the chains back but also give you a bottle of seven star extreme well water."

Ye Mo said loudly but no one at the scene reacted. He knew that these people definitely didn't get the fruit.

Seeing Ye Mo about to leave, Yi Kang was really desperate. He quickly sound transmissioned to Ye Mo "Dao friend, I really don't have dao fruit but I know who does and I know he has two lightning sound ages fruit."

Ye Mo said coldly "What does that have to do with you? Do you think I'm going to give you the ghost chains if you told me who has the lightning sound ages fruit?"

Seeing Ye Mo speak out his sound transmission Yi Kang didn't dare to blame Ye Mo and said "I know that person will be going to the ancient dao essence divine estate and I know he really wants the well water. If dao friend is willing to trade with the well water, I believe he's willing to give out a lightning sound ages fruit."

"Lead the way, when I see the person I will give it to you otherwise you can wait to die." Ye Mo sneered.

Yi Kang was furious but he could only suppress his anger and lead the way at the front.

"Qian bei..." The two immortal emperors who were beaten away by Ye Mo before could only greet Ye Mo.

Ye Mo knew that they were only like this due to his power and if he was weaker, they would come attack him without hesitation. However, there were all sorts of people like this everywhere, he didn't need to care that much. He just needed to increase his power.

Seeing Ye Mo head towards the Chang Zheng lake, the rest of the people followed but the long haired immortal emperor changed direction and left.

...

The reason Cheng Zheng lake was famous was because Qing Tao Qi Lan would often be found here. It was a material used for concocting top level dao moulding pills. Those who came to the mountain would all go there for a spin.

Who would give up dao vindication? If one vindicated dao, the first step would be dao moulding. The best material for learning dao moulding was Qing Tao Qi Lan. However this herb was very rare in the God Necropolis Domain even in the Cheng Zheng lake.

Cheng Zheng lake was half a day's distance from the floating valley because they couldn't fly. If they could fly they would be able to get there in half an hour.

When Ye Mo came to the outskirts of the lake, he found there were already 50 people here.

These people surrounded a huge lake. The lake looked boundless and had a layer of mist. The white mist seemed to have materialized. Ye Mo's spirit sense blades scanned out and forced open the white mist. He found that the water underneath was red like blood. There was also some cold killing chi inside.

When Ye Mo and them came over, they just casually glanced and didn't care. Most of them were staring inside the lake.

Ye Mo frowned when he saw the lake water was this strange.

“Dao friend, it’s that person wearing the yellow cloud robes who has two dao fruits. He’s a body refinement cultivator and he definitely needs the seven star extreme well.” Yi Kang quickly sound transmissioned to Ye Mo.

Ye Mo already saw that body refinement immortal. His muscles bulged up and essence chi formed faint ripples around him. His cultivation level was half divine. It was no wonder he dared to appear after getting two lightning sound ages fruits.

“Who is this person? Give me a set off Cheng Zheng lake information.” Ye Mo said casually.

Yi Kang said “Cheng Zheng lake has been a place producing lots of Qing Tao Qi Lan since the ancient times. The lake water is red. It’s fabled that an ancient grey dragon moulded his dao here but he encountered an unprecedented divine damnation. This divine damnation took the divine damnation but his essence spirit cracked due to this and died here. Eventually, his essence blood and essence chi formed the lake and the Qing Tao Qi lan next to the lake has a sliver of dragon will. It’s more valuable than Qing Tao Qi lan from other places.”

“The lake surface is so flat, even if there were Qing Tao Qi Lan, wouldn’t it be harvested away?” Ye Mo asked.

Yi Kang answered “People can’t see the lake everytime the mountain opens as the mountain opens from a different position. So in time, people can find Qing Tao Qi Lan around the lake.”

Ye Mo nodded and looked at the half divine “Tell me about this person.”

“He’s very mysterious. It’s said he’s not from the 16 god corners and five castles. After he came here, he went around challenging everyone and no one was a match for him. He killed a few top prodigies. Later, there was dao vindication divine emperor attacking him but he has an extremely powerful space mobility technique. Even divine emperors find it very difficult to keep him. If any divine emperor attacked him, he would come back to revenge the divine emperor’s sect after a while. As time went on, no one dares to mess with him.” Yi Kang subconsciously looked at the half divine.

The half divine seemed to have felt someone look at him. He looked up and glanced over coldly.

Yi Kang subconsciously shivered and sound transmissioned "He knows we're discussing about him."

Ye Mo threw out the ghost chains and said "You have no business here."

Yi Kang took the ghost chains and quickly left. He didn't want to be connected with Ye Mo at all.

However, before Ye Mo went over, that half divine came over. He studied Ye Mo from head to toe before saying in a coarse voice "You were prying news about me?"

Chapter 2010: Divine Estate Scheme

Ye Mo just wanted to answer the yellow cloud robed half divine when the center of the lake shadowless exploded with a one km tall water pillar. However, it seemed quite eerie as the pillar was red.

"Okay, another formation flag opened." Someone clapped. Soon, a few figures jumped up from the bottom of the lake and landed by the river.

Before anyone said anything a few more people went into the lake. The water pillar gradually fell back. at this moment, a dao vindication divine emperor drew eight over to the side clearly wanting them to get prepared.

Ye Mo finally realised what was going on. It seemed that dao essence divine estate was at the bottom of the lake and people went down in turns to break the formation. When one formation flag was opened, the eight people who were just appointed would go down to attack the next formation flag. The divine emperor is probably the commander of this operation.

Ye Mo was shocked. There was such massive attacks at the bottom of the lake but nothing could be seen from the lake surface. Only when the formation flag was broken would there be a water pillar.

"I'm asking you something." The half divine saw Ye Mo stare at the lake and think so his tone grew cold.

Ye Mo turned around and saluted with his fists “I heard dao friend is a body refinement cultivator. I just came from Mu Hua hanging valley...”

“You’re not going to say you found the seven star extreme well right?” Beams shot out of the half divine’s eyes as though he was almost about to eat Ye Mo.

Ye Mo said calmly “That’s right, I found it and I got a big pond.”

The half divine rejoiced. He had been to the hanging valley many times but didn’t find any marks of the well. Yet, someone said he found a large pond of it. how could he contain his joy. The well was invaluable to him. He would rob it even if he had to.

Just when he was going to speak, he saw Ye Mo’s face change and he jumped into the lake without hesitation. The half divine dazed but he soon reacted. He followed Ye Mo into the river without hesitation.

The rest of the immortals didn’t expect someone would jump in the lake at this time. Those who didn’t understand thought the formation was opened and jumped in too. More and more people jumped in.

The divine emperor holding the formation saw that he was the only one here and gritted his teeth “A mere immortal emperor middle stage dares to mess up my plan. He brought over a Dao Actualisation Divine Emperor.”

Just when Ye Mo jumped in the lake, a Dao Actualisation Divine Emperor came over a few seconds later. The Dao Actualisation Divine Emperor also jumped in the lake. This divine emperor immediately guessed that the Dao Actualisation Divine Emperor was hunting Ye Mo.

Then, he jumped in the lake too.

...

Of course the dao essence divine estate's formation wasn't broken but Ye Mo had to jump in. His spirit sense sensed the divine emperor who was hunting him head towards the lake and his spirit sense locked onto him when it scanned the lake.

In just a few seconds, the divine emperor would be here. He didn't think he could get away this time. The Dao Actualisation Divine Emperor's spirit sense was locked onto him.

Ye Mo jumped into the lake. He couldn't think of anywhere else where he could escape the spirit sense. Ye Mo believed that no matter how strong the divine emperor's spirit sense was, it couldn't scan into the bottom of the lake.

As soon as Ye Mo jumped in, the spirit sense lock on was removed.

Ye Mo could go into the golden page world now but he didn't choose to. He still had an opportunity to run.

Ye Mo was at his max speed and kept dashing around at the bottom of the lake. He knew that the divine emperor was in the lake now but his spirit sense was limited in the lake so he couldn't be sure where he was.

Rumble. The water splashed apart and Ye Mo immediately knew something was going on at the bottom of the lake.

He carefully dived but found a huge golden door was wide open.

Ye Mo saw the dao essence divine estate's restriction was smashed open and a few people went inside. The latter people also dashed in. Ye Mo's first impulse was to go in too but he instantly changed his mind.

He didn't go in and instead threw down a surveillance formation disk like the rocks at the lake bed and left. He controlled the golden page world to mix into the mud at the lake.

Hiding in the golden page world, Ye Mo was confused. Why was there no dao essence chi in this dao essence divine estate. Ye Mo had never seen dao essence chi but there was very little ancient feeling to this estate. Soon, Ye Mo felt he was thinking too much. Perhaps that Dao Essence Divine Emperor didn't die for long.

With the dao essence divine estate open, even the half divine outside the divine estate couldn't resist. The dao essence divine estate attracted him too much. To him, the well was very important but it could be delayed. Going in the dao essence divine estate was the most important thing.

Seeing that divine emperor go into the dao essence divine estate, Ye Mo breathed easy. The only pity was that he couldn't go in to get rich and that half divine went inside. He couldn't even deal with him.

Just when Ye Mo wanted to leave the golden page world and flee, another figure appeared in the surveillance formation disk. Ye Mo quickly stopped. He almost forgot about the divine emperor breaking the formation. How did this guy come so late?

What shocked Ye Mo was that this divine emperor didn't go in and instead sneered before throwing down tens of formation flags.

This divine emperor was clearly setting up a top trap and attack formation. Even he can't set up such formation.

As the divine emperor kept throwing out formation flags, the golden door slowly shut.

Such an evil guy, Ye Mo took in a cold breath "Clearly, he wanted to catch everyone who went in.

At this moment, Ye Mo realised that this dao essence divine estate was just a bit. As for what it was used for, Ye Mo knew it was related to the divine emperor's cultivation method.

It was already extremely eerie with the blood red lake water and now with a dao vindication divine emperor trapping people here with a dao essence divine estate, Ye Mo didn't want to stay here an extra minute.

But the divine emperor kept throwing out formation flags and restrictions. Ye Mo didn't dare to leave at this moment.

Ye Mo watched the divine emperor and waited for the opportunity to go.

After 15 minutes, the divine emperor suddenly took out a red jade bottle and gulped at the bottle.

Once he finished he suddenly sensed something and frowned. The next moment, he landed next to Ye Mo's formation disk. He picked up that stone like disk.

Ye Mo was shocked. This old monster was so cunning. He didn't do anything and yet the surveillance formation disk was found.

With this, Ye Mo knew he couldn't keep hiding. It would only expose his golden page world. without hesitation, Ye Mo dashed out of the golden page world and charged out.

He just escaped from a Dao Actualisation Divine Emperor and was now wanted by a Dao Moulding Divine Emperor. Ye Mo was speechless.
