

Strongest As 2011

Chapter 2011: Insect Without dao vindication

This divine emperor immediately woke up when Ye Mo escaped and sneered. He stepped out and punched without even releasing magic artefact.

At this moment, Ye Mo was one km from the divine emperor but this punch rattled the entire lake water. The lake water smashed onto Ye Mo as a whole body. Ye Mo couldn't even resist and spat a few mouthful of blood. His body felt like it was about to collapse. If he wasn't immortal god body, his body would've been completely pulverized.

Ye Mo was extremely shocked. He was originally planning to fight this divine emperor. After all, Dao Moulding Divine Emperor was just the beginning of dao vindication. He thought that if he could fight with a half divine, he might be able to fight a few rounds with Dao Moulding Divine Emperor. However, this Dao Moulding Divine Emperor's punch shattered Ye Mo's fantasy. This was at a 1km distance. If it was face to face, Ye Mo probably couldn't even move.

He was on par with half divine but he was a far cry from dao vindicators. Realizing this, Ye Mo dashed towards the lake surface.

"Hmm, a top level body refinement cultivator..." The divine emperor thought that an immortal emperor middle stage would certainly die to this punch but Ye Mo actually escaped and only just spat a few mouthfuls of blood.

Ye Mo brought over a Dao Actualisation Divine Emperor and saw his secret. How could he let Ye Mo go.

But just when he moved, the formation flags he set up hummed and seemed to about to explode. The divine emperor's face changed. Of course he knew that the Dao Actualisation Divine Emperor was doing this. If the formation was broken, all his work would've been for nothing,

He had to give up Ye Mo and go back to that door again and keep spraying down formation flags. He had to seal this formation completely shut.

Ye Mo's spirit sense was watching the actions of this Dao Moulding Divine Emperor. Seeing him go back, Ye Mo's heart relaxed. He dashed out of the lake as quickly as he could. He couldn't care about time whirlpools and used a few instant transmissions and used mobility technique for an entire day before stopping.

He escaped to a swamp but Ye Mo wasn't happy at all. He finally realised the difference between dao vindicators and ordinary immortal emperors. This was the difference of great god art.

Even if he reached immortal emperor peak stage, if he didn't know a big god art, he might not be a match for a dao vindication divine emperor.

That divine emperor's attack carried space law. All the waters within his law range were moved by his law. He completely used the force of the world to pressure him. This definitely wasn't something that his god art could counter.

Ye Mo felt he was quite lucky. He originally thought that even if he was caught up to by that Dao Actualisation Divine Emperor, he would use great transmission god art and fight with his life. But now, he realised that if he was really caught up, the Dao Actualisation Divine Emperor might bind the entire space. This wasn't the space binding of domain. Once space was bound, he wouldn't be able to use any god art.

The insolent was fearless. If you didn't reach that level, you would never know the power of that level.

Ye Mo didn't have the confidence he had before. In this world you're an insect if you didn't vindicate dao. If he wanted to survive in this world, he would have to quickly vindicate dao or he would die.

Luckily, his golden page world was complete and he could use that to vindicate dao. But before this, he would have to understand how to vindicate dao.

Ye Mo immediately called out small ginseng and shadowless and said "We're too weak right now. We have to find god spirit range and god crystals to speed up cultivation. You two go out immediately and find god crystals and god spirit range.

Small ginseng and shadowless were very happy to do such things. They immediately went outside.

A day later, small ginseng found a small god crystals mine. Ye Mo dug inside for a whole day and only got a few thousand top grade god crystals and tens of thousands of middle grade god crystals.

The second day, small ginseng seemed to have found something top level and ran around like mad. Ye Mo and shadowless knew of small ginseng's capabilities and immediately became excited.

Two hours later, Ye Mo looked at where small ginseng pointed speechlessly. He saw a god spirit range, a low grade god spirit range and it was surrounded by hills.

Even a low grade god spirit range was worth more than tens of extreme grade immortal ranges. More importantly, it contained god spirit chi that was suitable for Ye Mo's cultivation now.

Ye Mo was speechless because he saw more than ten people surround it. No matter how shameless he was, he couldn't go up and rob it. plus, there were two half divines there. If they joined up, he would be out matched.

"Never mind, there's already people here. Let's go to another place." Ye Mo shook his head.

Small ginseng said desperately "Boss, I'm not talking about this one. A few thousand steps ahead of this one, there's more god spirit range. I don't know how many exactly but I have to get close to be sure."

Shadowless pretended and said "Yea boss I feel there's god spirit range over there too."

He knew he was a far cry from small ginseng in terms of treasure hunting but he said this to prevent boss from thinking he's useless and throw him into the golden page world again.

Ye Mo saw the people ahead and said "Why don't we wait till they dig it before we go."

"No, if they dig it, they can sense the other god spirit ranges there. They don't know yet because they haven't pulled the god spirit range out. If they don't pull it out, the natural spirit stealthing formation won't be broken." Small ginseng said desperately.

"In that case, let's hurry and go there" Ye Mo dashed over the sky. He was more desperate than small ginseng.

When Ye Mo came here, people already saw him. They haven't decided on how to split it so they haven't dug it yet. Seeing an immortal emperor middle stage dare to come here seemingly wanting a share too, those immortal emperors looked at him with contempt.

God spirit range was good but one needed the power to get it.

But soon, they realised Ye Mo didn't come for them and went alone to another mountain and released a shovel magic artefact and dug. He didn't stop at all.

They were shocked because this shovel was an extreme grade immortal artefact and had no offensive capabilities. It was purely designed for digging god spirit range. With each shovel, a small mountain sized mud was swept away.

"Haha, there's someone like him..." One immortal emperor laughed. They were like watching a clown put on a show. They just dug out a low grade god spirit range and now someone wanted to try their luck on the side. If there were that many god spirit ranges, they wouldn't need to have discord in deciding how to split it.

"He seems to have an ice ginseng king next to him. That's something equivalent to a dao fruit or even better." Some people already saw small ginseng.

Many people didn't say anything. They were planning to follow Ye Mo when he left.

"There really is god spirit range..." Someone called out in shock. When Ye Mo dug for the third shovel, dense god spirit chi came out.

"It's not one, it's two, it's yin yang duo range..." Another voice said.

Ye Mo didn't understand yin yang dual range before but now he did. It was the best range for setting up sect formation. Putting the two together could automatically fill in god spirit chi that was tens of times better than a single range. Its use for cultivation was much better than one god spirit range too.

He had dug out yin yang dual range at the Luo Qu 18 disks and 36 heaven domains but he didn't understand it at the time and waste it.

Ye Mo was very quick. Before these people could come up, he already sent the two god spirit range into this golden page world.

Chapter 2012: If You Can't Reason Then Fight

"We chose the spot and haven't begun digging but you took the yin yang range away. Aren't you a bit too dominant?" One immortal emperor middle stage who was signaled by a half divine stopped Ye Mo who was going to leave and said.

Ye Mo ignored the immortal emperor middle stage and put away small ginseng before saying to shadowless "Get ready to fight."

"Haha... I, Nie Minglie, have never seen an immortal emperor middle stage this cocky before. If it wasn't that my eyes are still open, I would've thought it was a divine emperor talking to me. Brother Lou, have you seen him before?" A half divine said from the distant.

Unexpectedly, the Luo half divine smiled "I've really seen it."

Nie Minglie sneered clearly thinking that the half divine was saying this to compete god spirit range with him. He said to that immortal emperor middle stage "Kill him."

In this world, power was everything. You could be weak but you needed to know to respect the powerful. If you didn't, then people would kill you for no reason. In his view, Ye Mo should've long been dead.

That immortal emperor middle stage was waiting for the half divine to say this and immediately released his am.

But as soon as he did, he felt a powerful domain binding. The next moment, his magic artefact slowed and even the light from it dimmed.

Ye Mo hacked out with Zi Xu. God art crevice.

The small basin land couldn't cover the heaven shattering purple beam. This purple beam was much more stronger than when Ye Mo used crevice before.

The purple ray sliced across the entire basin and didn't care about the two half divines and more than ten immortal emperors standing in front of it.

When this god art sliced down, all the people under it released their magic artefact. When they sensed the lethal force, even that half divine's face changed.

Splurge. That immortal emperor middle stage who wanted to stop Ye Mo was killed before he could release his god art.

The purple ray disappeared. Zi Xu was still floating above but the basin was very quiet.

Ye Mo scanned the rest and said "If no one else wants to rob me I'm going."

Nie Minglie's face changed. Even he couldn't kill that immortal emperor middle stage in one move before he could activate his god art.

What made him so annoyed was that Ye Mo was only immortal emperor middle stage but he used god art so recklessly. Everyone was under the attack.

"This person is too cocky. Brother Luo what do you think?" Nie Minglie would've attacked already if he was the only half divine here.

However, the other half divine smiled and said "Brother Nie, although we came first but now I've changed my mind. I only want half of this low grade god spirit range. You can have that god spirit herb from before."

Then, Lou half divine waved his hand and that low grade god spirit range was brought up. He hacked with his magic artefact and it was split evenly from the middle. Then he sliced one half of it into five pieces and said "You guys split it equally."

Hearing this, the five took a piece without hesitation.

Seeing this, Nie Minglie's face changed and split the other half into six and he took the larger piece.

Ye Mo didn't say anything. He knew things weren't over yet. He was ready for a big battle but from the attitude of that Lou half divine. Ye Mo didn't feel he wanted to fight him.

After they split the god spirit range, they found there was a broken natural stealth formation.

"So that's it." Nie Minglie finally understood why Ye Mo was going to dig out the two god spirit ranges immediately.

The Lou half divine's face was bad. He realised this too. Although Ye Mo didn't dig the god spirit range they found, it was pretty much robbing their thing.

"If we dig out the first god spirit range, the yin yang dual range would be exposed. You dug it before us, if this isn't robbing what is?"

Nie Minglie released his magic artefact and stopped in front of Ye Mo. The other five stopped in front of Ye Mo too.

The Lou half divine didn't leave and subtly sealed off Ye Mo's exit path. Clearly, he was unhappy with what Ye Mo did.

"When I dug the two god spirit ranges, did you know about it or not?" Ye Mo asked.

Nie Minglie didn't want to fall into Ye Mo's word traps.

"Hmph, I clearly knew there were two low grade god spirit ranges there." Nie Minglie sneered.

What he didn't expect was that as soon as he said this, Ye Mo punched over. He thought Nie Minglie was going to reason and he was going to explain. But since this guy was this shameless, what's the point in talking.

As Ye Mo released shatter sky, he smashed out Five Lightning Spear Destruction. While pressing over with his immortal emperor domain. Ye Mo had decided to kill Nie Minglie first so he used spirit sense god art crevice as well.

Ye Mo used this move before and almost killed Feng Kong Grand Emperor. Feng Kong Grand Emperor's power at the time was no weaker than this half divine. In Ye Mo's eyes, if Feng Kong Grand Emperor's immortal essence was completely converted to god essence, this Nie Minglie would be no match at all.

The void fist force immediately swept over lethal force. Nie Minglie, who was amongst this terrifying lethal force, was very shocked. Facing against this terrifying space lethal force punch, he was like a small ship in raging ocean waters.

Before he could think, he released his magic artefact three god flame sand. It instantly formed three heaven sand rivers, black, white and red. They were separated at the beginning but as time went on, they were completely mixed forming a whirlpool with soul shocking flame.

Rumble.

Ye Mo's shatter sky fist force was swept in and disappeared in a few seconds.

Ye Mo was shocked too. This was his first time seeing such terrifying magic artefact.

When the two fought, no one came to gang up on him.

Only Ye Mo knew it was because his domain's murderous chi was too ferocious and the others weren't that close with Nie Minglie so they wanted to conserve strength. No one wanted to be killed like that immortal emperor middle stage.

Nie Minglie was more shocked. Usually, when his sands devoured a god art, it would activate the flame in the middle of the sand. At this moment, if he activated the flame with full power, he would easily be able to kill his opponent.

But today, his sands didn't ignite the middle flame. This meant that he would need to use his own god essence to light it up. That was very god essence consuming. He was also annoyed that no one else attacked Ye Mo.

He couldn't care about that much and just when he was going to use his god essence to activate the flame, he felt a 10km long purple sword ray appear in his sea of consciousness suddenly. It appeared from the edge of the heavens and was about to slice his sea of consciousness in half.

He was all too familiar with this sword ray.

Now that it appeared in his sea of consciousness, he immediately realised it was a top spirit sense god art.

Nie Minglie couldn't care about activating his sand flames. He stacked up spirit sense walls wanting to seal this terrifying purple sword ray.

Chapter 2013: He doesn't dare

Crack. That extremely terrifying tearing sound exploded in Nie Minglie's sea of consciousness. His face went pale as a paper. In his sea of consciousness, the purple sword ray easily broke his spirit sense wall and smashed into his sea of consciousness. Nie Minglie knew he was over.

Other people couldn't hear the terrifying sound but Nie Minglie knew how unbearable it was. There was a huge long crevice in his sea of consciousness and his spirit sense withered rapidly. He could no longer control his magic artefact and god art.

The three color sand whirlpool slowed down and couldn't even defend much less attack.

Rumble. A few more lightning sounds came. Five 300 meter long lightning spear suddenly arrived. Nie Minglie knew he should use the three color sand to stop it but he couldn't control it.

In just one second, the Five Lightning Spear Destruction drowned Nie Minglie.

When the lightning disappeared and people could see clearly, Nie Minglie's burnt corpse remained on the ground. His storage ring and three color sand were already taken by Ye Mo.

Those immortal emperors who surrounded Ye Mo quickly retreated in shock. The other half divine was extremely shocked too. he could feel that Ye Mo wasn't ordinary. That's why he didn't agree to join up with Nie Minglie. Now that Ye Mo killed Nie Minglie in such a short time, he was truly shocked.

He knew Nie Minglie's means clearly especially that three colored magic artefact. He didn't have the absolute confidence to beat Nie Minglie but this immortal emperor middle stage killed Nie Minglie easily. His power was definitely much stronger than him.

Nie Minglie's face was suddenly pale and his magic artefact dimmed. Clearly, he was ambushed by spirit sense cultivation method. Spirit sense cultivation method wasn't rare in the God Necropolis Domain but to use it to ambush a half divine meant it was definitely a top spirit sense cultivation method. He didn't believe Nie Minglie was underestimating the enemy so the only possibility was that the spirit sense cultivation method was too strong and this immortal emperor middle stage's spirit sense was too powerful.

Ye Mo ate a few dual spirit pills. The level wasn't high but it was very helpful in recovering spirit sense. it was a huge toll on his spirit sense to ambush a half divine.

If the other five attacked him together or that other half divine attacked too, Ye Mo wasn't going to keep fighting. But Ye Mo calculated that when he killed Nie Minglie so quickly, the other people wouldn't dare to come up.

He guessed right, those immortal emperors not only didn't dare to gang up on him but retreated instead. The other half divine didn't seem to want to fight at all.

"Dao friend you're strong. I'm Star Fall Castle, Lou Guanyu. What's your name?" The half divine saluted with his fists.

Ye Mo said plainly "I'm just passing by, if brother Lou doesn't have any other business then farewell now."

Lou Guanyu didn't expect that Ye Mo didn't want to connect with him at all. He felt a bit awkward but soon a dashing light came.

Seeing this, Ye Mo stopped wanting to leave. He knew this dashing light, it was Heng god corner young mistress. She was covered in blood right now and no longer had her pride. There was only horror in her eyes. Ye Mo's spirit sense immediately saw someone hunting her. He also knew the person hunting her. It was a half divine who escaped from him and his magic artefact was the heaven shocking lamp.

It gave him a strong impression as it could buff domain.

The young mistress was very tattered. Seeing a few people here she immediately charged over and called out "I'm Heng God corner Heng Wanman, dao friends..."

She saw someone familiar and immediately landed next to Ye Mo "Ye Mo please help me on Runan's account. The Heng god corner will thank you greatly..."

She was so desperate that she didn't even ask how Ye Mo got in here. Ye Mo's power was nothing to her but she needed to ask him for help. She knew that if she kept fleeing she would truly die.

Ye Mo sneered, her words were like shit to him. If it wasn't for Runan, he would've attacked her already.

But Ye Mo didn't look attack. He didn't care if she looked down on him because they would be people of two worlds. He hasn't left yet because she has something he wants.

He knew from Runan that she had at least two lightning sound ages fruits. He really needed it now so he immediately said "These are all my friends here. If you give me a lightning sound ages fruit, I promise you'll be fine."

"How do you know I have it?" The young mistress looked at Ye Mo in horror but she calmed down a bit as she saw the half divine didn't come over to Ye Mo.

She had the feeling that the half divine wasn't looking at her but at Ye Mo.

"You don't need to worry about that. You just need to give me one and you'll be safe. Otherwise, even if I don't attack you, everyone here has heard it and you won't get away." Ye Mo said casually.

Young mistress's face changed. She looked around at everyone and saw they were all looking at her.

Now that it was exposed, she was certain if she left here, it wouldn't just be a half divine hunting her.

This basin was silent but Young mistress could tell no one came over. She subconsciously looked at the burnt body on the ground and actually believed these people were all Ye Mo's friends. Otherwise, why did no one attack her.

At this moment, one immortal emperor tertiary stage suddenly saluted with his fists "Everyone I'll be leaving first."

Clearly he didn't want to mess with Ye Mo nor wait at this troublesome place.

But just when he said this, Ye Mo said "It's no rush. I'm discussing business with someone. Go after I'm done with this. Perhaps I might have some business to discuss with you."

The immortal emperor tertiary stage's face changed. How could it be good that Ye Mo was discussing business with him? But he didn't move his foot at all. He had seen Ye Mo's power, if Ye Mo attacked him how could he get away?

Young mistress who was very dubious saw that with one word from Ye Mo, an immortal emperor tertiary stage didn't dare to leave. She was more certain of Ye Mo's words. Regardless if these were Ye Mo's friends, they were scared of him.

She didn't hesitate and took out a lightning sound ages fruit jade box "This is one, it's yours."

Ye Mo felt the powerful time wave in the box and took it while saying "Let me check it's authenticity."

The Young mistress was furious. She felt Ye Mo was targeting her with this.

Ye Mo opened the box and indeed the flow of time came from the dao fruit. There was a calling for him to explore. Ye Mo immediately closed the jade box and took in a long breath while putting the jade box away. He knew this was the real lightning sound ages fruit for sure.

At this moment, Ye Mo saluted with his fists to everyone "I've just made a deal with this person. Dao friends please give me some face and let this Heng god corner Young mistress leave 5 minutes early. After that I won't care about anything else. Do you have any opinions?"

No one replied but no one left.

Ye Mo turned around to the extremely shocked Young mistress "You have five minutes, that's enough right?"

Young mistress suppressed her shock and immediately said "That's completely enough. I'm worried about the person who came hunting for me."

Then, she looked at that half divine clearly fearful of his god art.

Ye Mo sneered "He doesn't dare to. I've let him go before. If he dares to attack I will chase him through the entire Mu Hua god mountains if need be to kill him."

The Lou half divine was even more shocked. He knew who this half divine hunting the Young mistress was. Yet, even he lost to this immortal emperor middle stage. Five minutes was nothing to him and he was willing to give Ye Mo some face. He didn't need to fight Ye Mo for this five minutes.

However, the half divine who chased over's face was green. There was killing chi circulating his body. It was as though he was about to explode at anytime.

Chapter 2014: Get something good again

Although the half divine was threatened by Ye Mo and wanted to immediately kill him, he thought of Ye Mo's powerful attacks and stopped his impulse.

Soon, he thought of something else and showed some coldness in his eyes. His expression calmed down and he listened to Ye Mo, staying where he was.

Seeing that the half divine with a green face and not dare to hunt her, she rejoiced and disappeared in a dashing light.

Seeing her leave, Ye Mo saluted with his fists and said "Thank you for helping dao friends, now that there's five minutes left, let's do some business."

Hearing this, no one answered. Ye Mo just did some business with the young mistress and a lightning sound ages fruit was gone like that. Who else dared to do business with Ye Mo? Did they think they had too much good things on them?

Ye Mo didn't mind seeing this. He took out a stone table and placed a big jade bowl on the table. Then, he poured down at the jade bowl with the jade bottle.

Everyone was confused with what Ye Mo was doing. They all stared at the jade bowl wanting to see what Ye Mo was pouring out.

"It's seven star extreme well..." People immediately recognized and stared at it with their eyes wide open.

Was this something that could be taken out so easily? This was a treasure that could compare with dao fruits. If it wasn't that Ye Mo's power was too absurd, there would be people going up and robbing it.

Ye Mo didn't mind and said "That's right, this is seven star extreme well. I'm using it to exchange for fake chaos spirit herbs or some divine dao spirit items."

God spirit herbs were fake chaos spirit herbs. It didn't have level difference but different god spirit herb had huge difference in price.

Ye Mo wanted to exchange for these god spirit herbs to get ready to break through to divine pill emperor. Those who could concoct god level and above pills were divine pill emperors. Whether you concocted pills for Dao Moulding Divine Emperor or Primordial Essence Divine Emperor, they were all called divine pill emperor.

Since the ancient times, it was extremely rare for people to reach pill divine as it not only required pill concoction skills but also cultivation level. You even had to have god flame or you couldn't become divine pill emperor. You could concoct god pills with immortal flames or even nirvana flames but that was the lowest level god pill. It didn't even have god runes much less dao runes or world law. If it involved dao fruit or top level god spirit herb, then god flame was required.

In order to concoct god pill, you must fuse inside your understanding of world law and preserve the world law of the dao fruits. You couldn't do this if you didn't have high enough cultivation level.

Although everyone who could concoct god pills were called divine pill emperors, but in order to divide them there was names respective to the cultivation level. Those who could concoct dao moulding god pills were called dao moulding divine pill emperor. Those who could concoct dao acutalisation god pills were called dao actualization divine pill emperor.

In fact, after immortals vindicate dao, they rarely use pills as the cultivation after dao vindication is determined by your understanding of world laws. Fusing these understandings into your great god art required not just pills.

Most importantly, there were pretty much no divine pill emperors after dao essence. Therefore, people had to rely on themselves to learn world laws and because of that, dao fruits and chaos spirit items are so precious. Even if dao fruits and chaos spirit items are consumed directly, their effects are amazing.

Ye Mo didn't take out the well water to be cocky. He had his plans. He had the yin yang dual range and the ages fruit. He was planning to go to a place for solitary cultivation. He wasn't going to wait till the mountain closed and then go out with everyone. If he dared to go out, it would be suicide.

Ye Mo asked Niu Runan about the Mu Hua god mountain. If the place closed, you had to go out or the time whirlpools would ravaged everywhere.

Ye Mo didn't want to go out but he had his own way. His golden page world's five elements were complete. If he stayed in here, even if he couldn't go anywhere else he could stay inside the golden page world and cultivate. Ye Mo suspected that the dao vindication divine emperor at the Cheng Zehng lake had been cultivating in the mountain. With this precedent, what would Ye Mo be afraid of?

Seeing the well, the eyes of that Lou half divine lit up. He immediately took out more than ten types of god spirit herb to Ye Mo and said "Dao friend, have a look at how much these god spirit herb can get?"

Ye Mo saw that the god spirit herbs were very ordinary. They were hard to find in the immortal realm but not so extraordinary in the God Necropolis Domain so he said "You can get one bottle. I'll give you the bottle, you put it in yourself."

Then, Ye Mo waved out a jade bottle.

Seeing this, the Lou half divine rejoiced feeling that this trip was worth it. He was only expecting half as much.

With this, the other immortal emperors took out their god spirit herbs to trade with Ye Mo. They wouldn't take out their precious ones, it was just ordinary ones but Ye Mo didn't reject them at all.

Five minutes later, the bowl of well water was long gone.

Only that half divine with the heaven shocking lamp didn't come but he didn't leave either. His eyes were very calm as though the differences between them were settled.

Ye Mo put away everything and said "Thank you everyone. The business will end here today, it was a pleasant deal. Good bye."

Then, turned and left.

Everyone said goodbye to Ye Mo.

After Ye Mo left, the half divine followed the direction Ye Mo left.

...

Just after ten seconds, Ye Mo stopped and looked coldly at the half divine and said "Do you want to fight with me again? I promise you won't get away this time."

Ye Mo had his concerns. He used too much spirit sense before and although he didn't fear fighting this half divine, it was probably hard to keep him here.

"I'm no match for you, it's pointless to keep fighting." The half divine said calmly.

"Then what did you chase me up for?" Ye Mo asked.

The half divine took out a gust of grey lines and said "Because of this, if you want it we can collaborate."

Ye Mo scanned the line and his eyes narrowed quickly. This line gave him the same feel as the ages fruit. However, this line carried the murderous chi of the ages.

This was definitely a top level treasure.

"What is this?" Ye Mo asked calmly.

However, this half divine just through it to Ye Mo and said "Have a look, if you like it, we can discuss the collaboration."

Ye Mo grabbed the grey line and felt the impure time chi. He blurted out "This is primordial abstruse string?"

The half divine laughed "You're right, it's only a bit but if you're willing to collaborate we can get tens or even hundreds of times more.

Ye Mo didn't think this half divine would be good enough to collaborate with him but he didn't want to give this line back so he said "Sure, how much for this string?"

"This string is nothing. If we collaborate, there's large sums of them waiting for us to collect." The half divine persisted.

Ye Mo smiled "I have to get this deal done before we collaborate, name your price."

"Okay, you can give me any bowl of seven star extreme well water. The main part is the discussion on how we share things." The half divine spoke as though he didn't care about the well at all.

Ye took out a bowl only one tenth of the one before and gave it to him "Done deal, and I gave you a jade bowl for free."

Since this guy wanted to act cool, he'll let him have it. If he had smaller bowls, he would take it out.

Chapter 2015: Improve Power

To Ye Mo, he would deal without hesitation even if he took out a few of the first big bowls. Getting this ball of primordial abstruse silk was a big earn for him. He wouldn't hesitate at all.

"Okay." This half divine put a few restrictions on the jade bowl while the corner of his lips spasmed "Okay, let's talk about our collaboration."

He meant a bowl that was as big as before but he didn't expect Ye Mo to give such a small bowl. However, he said nothing. With how greedy Ye Mo was, he would fall into traps eventually.

"Tell me, I'm listening." Ye Mo said casually.

"The place I'm talking about is Shan Yun cliff. It's ten thousand km from Shan Yun cliff. I got my string there. If you're willing to collaborate, we can go there together." The half divine didn't seem to be worried.

Ye Mo couldn't see any signs of lying from the half divine's eyes but he still asked "Since there's such a good place why would you invite me over?"

The half divine said plainly "Although I want to kill you but I know only you have the right to get the strings with me. If it's someone weaker, he would be no match for that person."

"You're saying there's already someone there?" Ye Mo asked with a scorn.

The half divine said "It's because I can't deal with him alone that I left helplessly. Don't worry, although that person isn't weak, he doesn't know where the exact location of the primordial abstruse strings are.

"I've seen your heaven shocking lamp. Who's god art could be more powerful than that. You wouldn't be lying to me right?" Ye Mo's tone went cold. He wanted the primordial abstruse strings but his spirit sense power hasn't recovered yet. He didn't trust this half divine at all.

"It's because that person knows a great god art so..."

"What you're saying he knows great god art?" Ye Mo interrupted.

"Yes, it's because of that that I want to find a powerful help."

Ye Mo sneered "You can go find one then."

Then Ye Mo ignored this person and left in a dashing light. If that half divine still chases him, he would kill him without hesitation even if it meant him using his spirit sense again.

If it was before, Ye Mo might really impulsively go fight an immortal who knows great god art but after seeing the dao vindication divine emperor's god art, he completely realised that no matter how invincible he was amongst peers, he would be no match for dao vindication divine emperor. Those who knew great god art was divine emperor for sure. This half divine wanted to trick him over so he could kill him using someone else.

Even if that person was not divine emperor, Ye Mo wasn't going to fight him if he knew god art. He knew that before he reached dao vindication, he definitely wouldn't be able to beat those powerful beings with great god art.

That's why Ye Mo left without explanation. The half divine's face went green but he didn't dare to keep chasing Ye Mo. If he dared to, then Ye Mo would kill him. He didn't expect Ye Mo to have fought someone with great god art. If he knew, he might try another way.

Usually, no matter how powerful the immortal emperor, if he fought with a being with god art, he would die. How could Ye Mo live freely?

“Such a cunning guy. When I reach dao vindication, the first I will kill is you.” The half divine said.

...

A few days later, Ye Mo found this extremely far barren lands and went underground and into the golden page world.

After coming in, Ye Mo found in shock that his world had completely changed. The world was almost changing every moment. He stood in the air and felt that once his cultivation level reached a certain level he could control the weather in this world.

Ye Mo looked at the chaos tree. It withered quite a lot due to saving him before but now it had completely grown and was greener than before. Ye Mo could still feel it's intimacy and calling to him.

Ye Mo thought of what small ginseng said. If his world was completed, the chaos tree could recognize him as master.

But Ye Mo didn't do this immediately. He wanted to do this after he vindicated dao. Chaos tree was a spirit item and even had its own thinking. Ye Mo had the feeling that when he vindicated dao, the chaos tree and golden page world could all help him.

Everything was going as Ye Mo pleased. He put down the rest of the things and started to organize the storage rings. What made Ye Mo rejoiced was that in these storage rings, he found nearly 200k top grade god crystals and half a low grade god spirit range.

Other than this, he found tens of god spirit herb and even two dao fruits. Regardless if it was law dao fruit or not, it was still extremely valuable.

Ye Mo was forgery grand master so he didn't care about magic artefact but even so, he still found a low grade flying god artefact. it was even faster than the space time boat.

Ye Mo held a fist sized rock. It was completely blue and had strong spiritual power.

“There’s a purple wei stone.” Ye Mo rejoiced. This stone was almost as valuable to him as dao fruit. It’s said that only purple wei stars would have this stone. It’s a top level god artefact forgery material. He didn’t expect a half divine to have this.

His Zi Xu desperately needed an upgrade and getting the purple wei stone and the primordial abstruse strings was perfect.

With these two materials, Ye Mo could definitely keep upgrading his Zi Xu. He was a top forgery grand master and he wasn’t worried about flame. His Blue Like Morning Sky was already a top immortal flame. He just needed astral flame marrow to upgrade it and he happened to have it but just haven’t used it yet.

He put away these things and started to set up the yin yang dual range and the time formation disk. He cultivated to immortal emperor peak stage, he would large amounts of god crystals and god spirit chi. As for dao fruits, Ye Mo didn’t use it now. He didn’t even take it out to look again. He knew now that if he used them now, it would be a waste.

...

At the bottom of the Cheng Zheng lake, the Dao Moulding Divine Emperor eventually didn’t trap the Dao Actualisation Divine Emperor. After his golden gate was attacked a few times, that Dao Actualisation Divine Emperor smashed it open with magic artefact. Those tens of immortal emperors tricked in came out with the Dao Actualisation Divine Emperor. Seeing this, the Dao Moulding Divine Emperor immediately ran off.

However, what he didn’t expect was that this Dao Actualisation Divine Emperor didn’t chase after him immediately and instead kept looking for Ye Mo. Clearly, he knew from other immortal emperors that Ye Mo got more good things. Even that yellow cloud robe half divine was looking for Ye Mo.

Chapter 2016: Difficult decision

Time flew by, Ye Mo had been in the Mu Hua god mountain for a few decades and that Dao Actualisation Divine Emperor who waited outside left that desert.

But before he left, he still set up all sorts of formations and restrictions. If Ye Mo came out and touched these formations and restriction, he would know immediately.

He didn't believe that immortal emperor middle stage would die. He was certain that Ye Mo didn't die. The blue bead Ye Mo took from the purple robed man was beyond truth spirit world. Such thing might really survive the Mu Hua god mountain.

...

In a place outside the immortal realm 33 heaven domains, there was an extended mountain range. The nearby rivers surrounded this mountain range and extremely dense immortal spirit well surrounded the area. Immortal birds and immortal spirit beasts ran around.

If one didn't come here personally, they would definitely not know there was such a beautiful place outside the 33 heaven domains. This place was the small heaven domain.

On the main peak of the mountain range, there was an extremely ancient yet exquisite palace doors opening. Two women came here with dashing light.

"Come in." A benign voice sounded.

"Sect members Luo Biyue and Mu Xiaoyun greet master." The two women came in and bowed down.

There was a man sitting at the top of the palace who's age couldn't be seen. He seemed really old in one moment and really young in another moment. He nodded and said "Stand on the side."

Luo Biyue and Mu Xiaoyun carefully stood on the side and this man said "I've been out once. There was a battle at the top of snow volcano. The top is heavily damaged, it's probably very hard for you to rebuild the gemini sect..."

The two listened intently.

Seeing this the man nodded and continued "I went out of solitary cultivation and heard about something. There's a tunnel to the God Necropolis Domain from the immortal realm. This is a realm formation door. However, you must be at least immortal emperor to enter. Biyue, you're cultivation speed recovered quickly and you're already immortal emperor primary stage. Xiaoyun is an unbelievable prodigy, you've reached abstruse immortal in less than a hundred years."

"Master, what is the God Necropolis Domain?" Luo Biyue asked in shock.

The man sighed "The sacred grounds for dao vindication. I heard it's extremely broken down but even so, dao vindication is common there. One can not only reach dao vindication but also go beyond that. You can surpass Dao Moulding Divine Emperor and even reach dao essence or higher. There's no dao vindicator who doesn't want to go to God Necropolis Domain. I've seen divine emperor from the God Necropolis Domain come. He didn't reach dao essence but the immortal realm is broken due to him. His great god art still scares me when I think about it..."

"Master, are you going to the God Necropolis Domain?" Luo Biyue asked in confusion. she felt this place was very good. She wanted to rebuild the gemini sect, not go to some God Necropolis Domain.

The man said "Yes, you're already immortal emperor power. There's no pressure going to God Necropolis Domain. As for Xiaoyun, I can barely bring her in with my dmbd. Her talent is extremely absurd, if she can cultivate in the God Necropolis Domain, she can probably surpass me in the future."

"Master, disciple don't want to go to the God Necropolis Domain." Mu Xiaoyun quickly said.

"Why? You have more future and potential there. I've seen the void formation door, it's formation means are extremely high. Even so, it won't last very long. Once the door breaks, the God Necropolis Domain people can come into immortal realm. everyone in the immortal realm will be fish on chopping board. Entering the God Necropolis Domain is for self protection." The man said.

"My cultivation motivation has been to find my husband. Now, I've come to the immortal realm. It's even further than the magical continent. If I go to the God Necropolis Domain, I wouldn't know when I would be able to see my husband again." Mu Xiaoyun quickly said.

The man frowned upon hearing this “Even a dao vindication divine emperor like me can’t break into the cultivation realm easily much less enter a mortal realm. I’ve went out once just for your matter. There’s an ancient realm traversing formation in the immortal realm. If you find that formation and then use them runes, you can go to the cultivation realm...”

“Master...” Mu Xiaoyun called out in excitement. If there really was that formation, she could go back to the magic continent and see Ye Mo again. According to martial sister Biyue, Ye Mo might be foundation establishment state. If she kept wasting time and Ye Mo couldn’t reach golden core state, she wouldn’t be able to see her husband again. If she could see Ye Mo, she wouldn’t care about some cultivation or dao vindication.

The man sighed “But after I’ve been to that place, the formation is already broken due to use. At least three bunch of people used it. Even with my capabilities, I can’t repair it. Despite having some top level realm traversing runes, it’s pointless if we don’t have the formation.”

Seeing Mu Xiaoyun’s pitiful look, the man could only say “Xiaoyun, other than that person, you’re the most talented person I’ve seen. With your talent, if you can reach dao vindication quickly and reach dao actualization, you can probably tear the realm barrier of the immortal realm and return to the cultivation realm. So it’s not hard for you to go to the God Necropolis Domain and it’s not bad either. Your cultivation method has a very big origin, even I can’t see through it. That will benefit you even more.”

“Master, after going in the God Necropolis Domain can I come back to the immortal realm?” Mu Xiaoyun felt more sad. No matter how much she trusted Ye Mo, in a spirit chi arid place like the magical continents, Ye Mo wouldn’t be able to reach golden core state. She didn’t believe Ye Mo could find the place she went.

Even if Ye Mo found that place and entered the cultivation realm, it was the law of the jungle everywhere. Would Ye Mo be lucky to get protected by a sect?

She hoped Ye Mo reached golden core state and found a place to hide so she can go find him after she reached dao actualization.

Hearing this, the man said slowly “No, if one can easily return to the immortal realm from the God Necropolis Domain, I believe the immortal realm would’ve long been taken over.”

“Master I don’t want to go.” Mu Xiaoyun said in a low voice.

She had her plans. If she stayed in the immortal realm, even if she couldn’t go back to the magical continent one day, Ye Mo might be able to ascend to the immortal realm. then, she would be able to see Ye Mo again. If she went to the God Necropolis Domain then there was almost no chance to see Ye Mo.

The man clearly knew what Mu Xiaoyun thought and said calmly “I can understand what you think. I can clearly tell you that the formation door will only last a few hundred years. After that, the formation door will break and people from the God Necropolis Domain can easily entre the immortal realm. if they do, it might mean the entire immortal realm would be forged into a truth spirit world.”

Luo Biyue shivered. This would mean that everyone in the immortal realm would be insects and livestock.

Mu Xiaoyun shivered. She clearly knew what this meant to.

Seeing this, the man continued “And I feel that an enemy of mine hasn’t died. His soul has gathered and in at most a hundred years, he would rebirth. If this person returns to life, my small heaven domain would be crushed. This is why I have to go to the God Necropolis Domain.”

“Who is this person master?” Luo Biyue subconsciously asked.

The man sighed “He’s called Truth divine emperor. Although I’m a divine emperor and have a title called Zhen Zhong divine emperor. I feel the things I did before wasn’t careful at all. Since this has already happened, there’s no point complaining.”

Despite this, the man was satisfied as he was the only one who survived the battle with truth divine emperor entirely.

Chapter 2017: Immortal ascension young girl

“Do you come from Luo Yue continent?” Outside an immortal ascension palace in Mo Yi heaven, an abstruse immortal carefully asked a pretty blue robed girl.

She looked like she was 18 and was extremely pretty. It was like she was a true immortal and the rest of the immortals here were mortals.

Luo Xuan shook her head “No, I’ve never heard of Luo Yue continent.”

She carefully scanned her spirit sense out and thought, was this the immortal realm? The immortal spirit chi here was indeed very dense.

She fell off the dual stone cliff and went into a void teleportation formation and was teleported to a cultivation realm called Shen Qiong. Unlike Mu Xiaoyun, she was teleported to an immortal estate ruin. It was left behind by someone called Ling Bo goddess. There were not only plenty of cultivation resource but also a precise description of the cultivation realm. After she ascended to the immortal realm, she left behind that immortal estate.

Luo Xuan’s cultivation knowledge came from Ling Po estate. She reached foundation establishment state in the estate before going out carefully. After going out, she realised how cruel the cultivation realm was. there were many times she almost fell into the hands of other people. She also realised what cultivation slave was.

So she went back to the estate and cultivated. Due to the top level resources left behind and her talent was top notch, she reached truth realisation state peak stage in a few hundred years.

After that, Luo Xuan spirit controlled the estate and roamed the Shen Qiong continent. Her cultivation level was peak of the entire continent. No one would offend a truth realisation state peak stage for no reason.

She travelled the entire cultivation realm to find a way back to the magical continent. She finally realised that Ye Mo was a cultivator and why Ye Mo said to her that his dream would never be realised. At the same time, she realised the terrifying value of the two golden pages she gave Ye Mo.

However, she didn't care about the golden pages. She wanted to go back and see Ye Mo and help him fulfill his ideal. Ye Mo helped her fulfill her wish. She knew that after all these years, her sect would be vastly different. If there was one person she knew she could see, it was Ye Mo. After all, Ye Mo was a cultivator.

She really wanted to find Ye Mo and see if the small jade bottle she left Ye Mo was still there.

But she had searched for a few decades and had no results. Her cultivation level reached peak and couldn't keep staying so she was forced to ascend to the immortal realm.

Hearing Luo Xuan wasn't from the Luo Yue continent, the abstruse immortal moved aside in disappointment but still said "Our Mo Yue Immortal Sect is taking in disciples, if you want to join I can bring you there."

"Thank you qian bei, wan bei don't want to join a sect yet." Luo Xuan rejected.

The abstruse immortal nodded and said "You've just ascended. I suggest you cultivate in the city and consider leaving after you convert your cultivation essence to immortal essence."

Luo Xuan thanked again.

...

At the same time, in a small mosque in Huang Zeng heaven, a woman who was sitting with her eyes closed opened her eyes and said in disbelief "You got my heritage and came to the immortal realm? Let me see who this person is."

She suddenly got up and seemed ethereal.

She had this serene feeling to her as though some dao wave was emanating from her.

She didn't need to use any music instrument and there was buddhist sounds surrounding her making her seem like the goddess of the immortal realm.

She moved and disappeared from the mosque.

"Goddess, I'm from Zi Shuang sect Mo Yi heaven. It's an immortal king sect. if you're willing to join us, I can test your immortal spirit root." Another man came up and saluted with his fists.

Before Luo Xuan could answer, she heard a cold voice "She won't join your Zi Shuang sect, move aside."

The man was going to get angry but found it was an extremely beautiful goddess. There was a rainbow behind her back like she was some female buddha. The sect members quickly ate his words and retreated with his hands together.

Even the rest of the people moved aside.

Luo Xuan looked at this goddess than made people want to worship her and had this strange feeling.

"Do you want to come with me?" She said calmly but her voice seemed to lure Luo Xuan into nodding.

Seeing this, the goddess waved up a rainbow and disappeared with Luo Xuan.

...

After a while, Luo Xuan reacted and bowed "Qian bei, wan bei just ascended to the immortal realm, why did qian bei bring wan bei?"

The goddess smiled "Due to fate."

"Fate?" Luo Xuan stared at her in shock.

“There is fate between us. When I was in the cultivation realm, I had a title called Ling Po, people called me Ling Po goddess...”

Hearing this, Luo Xuan immediately bowed “Wan bei greet Ling Po qian bei. Wan bei got qian bei’s immortal estate and that’s why I was able to ascend to the immortal realm.”

Ling Po smiled “That is fate. Before I was powerful and left a few tunnels to the cultivation realm in a few mortal realms. Only you got my heritage. This is fate. Which realm did you come from?”

“Wan bei came from magical continent?” Luo Xuan quickly said.

“It’s that place?” Ling Po repeated with a strange face but instantly recovered and asked “What’s your name?”

“Wan bei Luo Xuan.” Luo Xuan said.

Ling Po goddess nodded “Luo Xuan, you cultivated the heritage I left behind in the cultivation realm. Do you want to be my disciple and keep cultivating with me?”

Luo Xuan hesitated briefly and said “I’m willing.”

“Okay.” Ling Po goddess nodded in satisfaction “I have another title called Ling Po divine emperor. You don’t know now but it’s okay, you will eventually know.”

She looked into the distant void and said “I should’ve long left here but I always felt I lost something. Now that you came, that feeling disappeared. One could see there’s indeed fate between us. There will be a huge turmoil in the immortal realm. I’m too weak and can’t change things. The only path is to go to the source of the turmoil.”

Luo Xuan didn’t know what divine emperor was and now that Ling Po goddess said her power was too weak, she thought her master was only an ordinary being in the immortal realm. so she asked “Master, where is the only path?”

“God Necropolis Domain.” Ling Po divine emperor answered seriously, “I really want those smart people in the immortal realm to head towards the God Necropolis Domain and offer their power in preserving the immortal realm. however, there aren’t many like this. A few went to the God Necropolis Domain but it’s purely for themselves.”

...

No matter what, just because a few grand emperors went in, didn’t mean that more people went in. There was no news of those who headed towards the God Necropolis Domain yet.

No one would care about how many from the immortal realm went to the God Necropolis Domain nor did Ye Mo.

Ye Mo was in a crucial moment. His cultivation level was no longer immortal emperor middle stage. After the time formation disk ran for a hundred years, almost 10,000 years had passed inside. Ye Mo’s cultivation level was almost immortal emperor peak stage.

Crack. The yin yang dual range turned to dust. The god crystals he got were used up but he was still only at immortal emperor tertiary stage.

Ye Mo sighed. He had used plenty of seven star extreme well water but his body refinement cultivation was still stuck at immortal god body peak stage. Now that he used up all his god crystals and god spirit range, he was still that bit from immortal emperor peak stage.

Chapter 2018: Instant or eternity

If there was something he got out of these years, he upgraded his Blue Like Morning Sky to god flame and raised Zi Xu to half god artefact. Zi Xu changed from an ugly look to a pretty murder weapon. It carried a slab of purple color and when released, it seemed there were blue stars circulating it. Even if it wasn’t released, there was a sliver of aged feeling.

It wasn't that the materials Ye Mo had weren't good but Ye Mo's forgery skills weren't good enough. The aged feeling was due to the primordial abstruse string. The stars circulating it was caused by the purple wei stone.

"Time passed really quickly." Ye Mo sighed and put away the time formation disk but didn't dare to come out of the golden page world.

He expanded his spirit sense out of the golden page world and it was immediately annihilated by the time whirlpools. They seemed to be everywhere. Ye Mo could imagine that if he wasn't in the golden page world and went out, he would be instantly torn to pieces or turned to bones.

That's right, his power was much higher than immortal emperor middle stage but was there any use? If he wasn't experienced in time law he wouldn't be able to walk in here.

Ye Mo concocted a pile of dual spirit pill and started to carefully sense the time law outside the golden page world. His spirit sense kept getting annihilated but he kept sending his spirit sense out.

If it was some ordinary person, he would've crippled already or his sea of consciousness would've exploded but although Ye Mo's face was pale, he didn't give up.

He reached out his spirit sense again and again. Although Ye Mo didn't learn the time law, this method of cultivation made his spirit sense tougher. However, his spirit sense was receiving a huge toll.

He ate again the dual spirit pills again and again. He was even ready to eat that lightning sound ages fruit.

It was a waste to eat it now but Ye Mo had no choice. Even if it was a waste he would have to eat it. as long as he could learn a sliver of time law by eating it, he could improve his power.

At this moment, he felt that he was about to capture that sliver of time chi but he couldn't completely grasp it. it was like something was in his hands but every time he tried to grab it, it would slip out.

Ye Mo opened the jade box and grabbed that ages dao fruit. He had decided to use it. Regardless if it worked or not, he would have to try. Time law was one of the hardest law to master.

Ye Mo held the fruit in his hand and there was this indescribable feeling of time emitting from the fruit. Ye Mo immediately felt that he stood in a river of time.

Endless waters of time flew past him. He felt the house in Ning Hai, the prosperity of Luo Yue city. He felt Qingxue he carried on his back before, he felt that small house under the mountain and Luo Ying who embraced him...

Time flew by like water. Like falling leaves that turned to rotten leaves on the ground before disappearing... Time flew by and life seemed to be in the flick of a finger.

This subtle law flowed into his essence spirit and consciousness from the ages fruit. He just obscurely felt the passing and flow of time.

Perhaps countless years passed, perhaps it was just an instant.

At this moment, Ye Mo felt everything around suddenly stop. The fruit brought out a lightning spark that went into his consciousness.

Ye Mo suddenly woke up and subconsciously grabbed with his hands. That sliver of time chi seemed to have been grabbed by his hand. The world seemed to have stopped in this instant in eternity by his hand.

The four seasons were all in his will.

Ye Mo suddenly had this sliver of enlightenment. He released Zi Xu and a 30km purple sword ray split the space apart. There was sliver of lightning around the sword ray as though the thunder god was striking down.

The purple ray landed and Ye Mo suddenly took a step forward. The light breathe in the space seemed to have been paused. The entire space paused. But that purple ray still sliced across this silent world and smashed into the ground creating a terrifying ravine.

After everything passed, the light wind continued to blow forward and everything returned to animation.

“Instant, eternity... eternity, instant...” Ye Mo looked at he long ravine and murmured with a pale face. When he paused the space in that instant, everything was eternity.

“I understand.” Ye Mo put away Zi Xu and murmured.

His move could pause the surrounding time for one second. He could kill anything in this second. That second was instant but the time in that instant was eternity.

This was just a sliver of time law. His move was near great god art but was far from great god art. He used this one move and all his god essence was sucked dry.

“Such terrifying time law. This move will be called instant second. Perhaps one day, I can hack out a move truly worthy of being called eternity.” Ye Mo murmured.

He raised his hand and that lightning sound ages fruit was long gone. He didn’t eat it, it just disappeared in his hand.

“It’s good indeed.” Ye Mo said with a pity and then ate a few pills. 15 minutes later, Ye Mo raised his hand again. That 30km long ravine was instantly repaired.

“So that person didn’t use a great god art. It was just the difference in cultivation level.” Ye Mo was at the border of creating a great god art and finally knew that Dao Moulding Divine Emperor’s move wasn’t great god art.

True great god arts were god arts fused with law. That Dao Moulding Divine Emperor controlled the Cheng Zheng lake water but he forcefully used his powerful essence chi and domain. It only had a sliver of space law inside. If it was a real great god art, the lake water could easily kill him.

Ye Mo breathed easy. Although his instant second only went for a second, one could do many things in a second. His Zi Xu could completely use this second to kill someone and his shatter space could tear the opponent apart. Ye Mo realised that time law was more terrifying than space law.

Just when Ye Mo carefully extended his spirit sense outside the golden page world again, there was this cracking sound in his bones. At this moment, his god essence seemed more powerful and his sea of consciousness was clearer as it expanded even more.

At this moment, Ye Mo looked at his meridians and dan tian in disbelief. After learning it, his cultivation level reached peak stage.

All sorts of dao runes circulated in Ye Mo's will. Ye Mo knew he was immortal emperor peak stage.

Ye Mo could no longer suppress his joy. "It was time to go out." Ye Mo soon calmed down and scanned his spirit sense outside the golden page world again. Now that he mastered a sliver of time law, he could go out. Even if he couldn't leave the mountain, he was going to leave the golden page world.

Chapter 2019: Battle divine emperor

Ye Mo's spirit sense just appeared outside and moments later, a time whirlpool swept by. Ye Mo felt his sea of consciousness twisting in pain and soon, his spirit sense disappeared.

Ye Mo ate a few dual spirit pills and his face was bad. Although he learned instant second, going out now was suicide.

If he couldn't go in the mountain, it meant that if the mountain didn't open again, he would have to stay here forever.

It wasn't easy for the mountain to reopen. From the news he got, it sometimes opened once every tens of thousands or hundreds of thousands of years. Sometimes, it was just in two or three years. There was no rule to it.

Ye Mo suddenly thought of the Dao Moulding Divine Emperor next to the lake, he wondered if that guy went out. Ye Mo was certain that Dao Moulding Divine Emperor had always been in the Mu Hua god mountain and was cultivating there. That divine estate at the bottom of the lake probably helped him stay there.

Thinking about this, Ye Mo immediately wanted to go over to the Cheng Zheng lake and see. He couldn't go over but he could control the golden page world to go over. He definitely wouldn't be able to beat that Dao Moulding Divine Emperor despite him being immortal emperor peak stage and knowing instant second god art.

He had a trump card against divine emperors, but if it couldn't kill the divine emperor, he would have to wait for death.

But Ye Mo wasn't very worried. Even if he couldn't kill the Dao Moulding Divine Emperor, he could run away.

...

A few months later, Ye Mo came back to the Cheng Zheng lake. His face was pale and his sea of consciousness was heavily injured. It was very slow to control the golden page world to fly and he had to keep scanning his spirit sense out.

If it was some other immortal emperor, he probably wouldn't be able to come this far. Luckily, he knew a sliver of time law and had plenty of dual spirit pills.

Next to the lake, Ye Mo started repairing his sea of consciousness. After an entire year, Ye Mo's sea of consciousness recovered. After all this, his spirit sense became sharper and more powerful. It was also more flexible.

The lake was still the same but there was a thin layer of mist. Ye Mo scanned his spirit sense out again.

Ye Mo was soon shocked. He found that if he reached his spirit sense near 30 meters of the lake, there was no time whirlpool.

Ye Mo suppressed his joy and continued to watch for a day before confirming it really was so.

Ye Mo breathed easy and came out of the golden page world standing at the border of the lake.

The blood red lake water looked eerie and scary. At this moment, he seemed to see countless souls screaming.

His spirit sense couldn't scan to the bottom so Ye Mo flew out into the lake without hesitation. He needed to check that divine estate so he would have to dive down.

Ye Mo was very careful. He was scared that the Dao Moulding Divine Emperor hadn't left.

As soon as Ye Mo went into the water, he felt a powerful special pressure squeeze at him. there was this lethal force that wanted to shatter his soul squeeze in from the two sides. The invisible space had completely bound him making him unable to escape.

Ye Mo was carefully watching out at every moment. When this space lethal force squeezed over, he immediately attacked.

Shatter sky punch smashed out.

There was clearly a space law covering the lake. If he couldn't break it, he would have to wait and die.

The shatter space also carried a sliver of space law. Ye Mo learned a sliver of space law when he was just an abstruse immortal. Although he didn't progress much from it, the Dao Moulding Divine Emperor only learned a sliver too.

The shatter sky punch brought out the nearby blood lakewater and formed nine space fist forces and smashed on this invisible space barrier.

Rumble.

The space binding broke apart with the shatter sky punch. An invisible crack appeared on the space barrier. There was only small cracking sounds.

Ye Mo dashed out as soon as the clash happened. The space binding already cracked once and with Ye Mo dashing like this, it disappeared like the nearby water bubbles.

Without this space binding pressure, the lake water instantly squeezed out forming a one km tall water pillar. Ye Mo used this blood water pill to dash out of the lake and land next to the lake.

At this moment, a red axe hacked open where Ye Mo was before. After being hacked, the lake didn't seem to be a lake but a huge water melon that was sliced open from the middle.

In a second, the water closed up again and a man dashed out of the lake. It was the Dao Moulding Divine Emperor who attacked you again.

"It's you again..." The Dao Moulding Divine Emperor stared at Ye Mo and said word by word. "You ruined my business before and now you fell into my hands again. It seems you have quite some good things to be able to stay in Mu Hua god mountain and break my space barrier. You not only have your own world but also know a sliver of space law."

Ye Mo glanced at the red axe and reached out his hand. Zi Xu suddenly appeared in his hand. Then he said slowly "I guessed that there was something strange about this lake. Luckily I came today otherwise, I wouldn't know what time I would be locked up till. You probably cultivated in the mountain for many years. What a pity, the immortal emperor essence blood that you needed for cultivation was lost due to the Dao Actualisation Divine Emperor I brought over."

"Hahahaha..."

The divine emperor laughed “You think it’s good? You were able to reach immortal emperor peak stage from immortal emperor middle stage in a mere hundred years. It seems you have more secrets than me. So what if you’re immortal emperor peak stage. You’re still an insect to me, Taba Feiyang. Do you think you can escape? You want to escape from me using the little sliver of space law you know, keep dreaming. Even though I didn’t get a single immortal emperor essence blood, you can make up for it...”

Suddenly, the red axe smashed down. A 30km long red axe figure sliced across the time whirlpool place outside the lake.

The terrifying space pressure came. Ye Mo could feel he was in mud while fighting with Taba Feiyang. He didn’t even move and the space was bound by the axe. He felt like he couldn’t dodge this and could only wait as he was hacked apart.

Ye Mo didn’t dare to waste time. He released Zi Xu and Five Lightning Spear Destruction at the same time.

He couldn’t escape casually. He couldn’t get into the golden page world in time with the space pressure. Even if he got into the golden page world, how far could he go into the time whirlpool outside.

Plus, Taba Feiyang had been living here for countless years. If he knew how to travel outside, he would be over.

Ye Mo stacked his immortal emperor domain and spirit sense domain. but even so, Zi Xu crevice still slowed down a lot. The divine emperor only knew a sliver of time law but it was much more than him.

The Five Lightning Spear Destruction was very clear. It wasn’t as fast as before.

“You still want to struggle under my space? Just wait to be disembodied by my blood refining axe and taste my six glory soul shaking light...” Taba Feiyang sneered and shot out this pale light.

As soon as this light came out, Ye Mo felt his soul and essence spirit wanting to leave his body. This was definitely an extremely fierce magic artefact. Ye Mo didn’t think and punched out.

Shatter space god art. He had to break the space binding. Otherwise, how could he fight this battle.

Rumble...

The punch swept over the nearby space lethal force and tore through the space. Taba Feiyang's space instantly made cracking sounds.

Five Lightning Spear Destruction also sped up and clashed with the six glory soul shaking light. At the same time, the red axe also clashed with Zi Xu.

Chapter 2020: Ye Mo's lethal blow

Rumble. The rays splashed out. Ye Mo's Five Lightning Spear Destruction turned into flash lightning and disappeared. Meanwhile, an eerie light seeped out of the Five Lightning Spear Destruction and smashed on Ye Mo. Even with his immortal god body peak stage body, Ye Mo couldn't take it. but after the light went into Ye Mo's body, it was already weak and was easily burned by Blue Like Morning Sky.

Crack. The purple sword ray of Zi Xu smashed together with the red axe shadow but created a materialized sound.

Even though the space here was extremely stable, there were ripples.

So powerful. Ye Mo was shocked and flew back. He forcefully controlled his body and didn't leave the safety range of the lake.

"No wonder you're so cocky. You have a few moves." Taba Feiyang didn't move but he was more shocked than Ye Mo.

He had seem quite some immortal emperor peak stage and even half divines but never an immortal emperor as powerful as Ye Mo.

An ordinary immortal emperor peak stage would've long been killed but Ye Mo was only at a slight lower hand.

"Six glory soul shaking light, soul shaking extermination..." The stronger Ye Mo was, the more Taba Feiyang wanted to kill him and take everything.

Ye Mo knew this person was stronger than him. if he allowed the light to completely activate, it definitely wasn't good. It just shot out one light before and his Five Lightning Spear Destruction couldn't stop it. If it was completely activated, it would be overwhelming.

He didn't have the right to stall out the battle with this divine emperor. He had to finish the battle quick and if he was outmatched, run immediately.

Ye Mo calmed his essence chi and took out a golden bone arrow and at the same time, a big golden bow appeared in his hand.

This terrifying heaven chi rustled rolling in all the nearby space. The extreme lethal force of the Golden Bow of Immortal Extermination fused with the world and seemed to rip the space the next moment.

Ye Mo's cultivation level was far stronger than Zhi Zong immortal emperor and he refined to a much higher level of restriction.

"Golden Bow of Divine Extermination..." Taba Feiyang called out in horror. His body was shaking with terror. He only activated half of the six glory light but he didn't dare to keep activating anymore.

He didn't dare to move at all. He knew that if he was shot by the golden bone arrow of divine extermination, he would definitely die.

He was shaking. Half out of fear but half out of excitement. The Golden Bow of Divine Extermination appeared. This meant that if he killed this small immortal emperor, it would be his. Once he found nine bone arrows, he would dominate the entire God Necropolis Domain. Even if he didn't find the nine arrows and just found five arrows, he wouldn't fear ordinary Dao Actualisation Divine Emperor anymore.

But now, the killing intent of the Golden Bow of Divine Extermination was getting more and more intense. He didn't dare to move at all. All the lethal force of the space was drawn to the arrow, even the bleak killing intent of the lake. It formed this materialized killing intent around the golden bone arrow.

Taba Feiyang was scared but he didn't think he would die to it. He believed that even if Ye Mo got all nine arrows, he wouldn't be able to completely spirit control it.

The original nine arrows of the Golden Bow of Immortal Extermination were invincible in the God Necropolis Domain but many people knew that four of the arrows were lost. There were only five true arrows with the Golden Bow of Immortal Extermination. The owner of the Golden Bow of Divine Extermination found the top forgery grand master of the God Necropolis Domain to make four more arrows. However, these four arrows were far weaker than the original five.

It was because of this that Taba Feiyang believed he could dodge Ye Mo's golden bone arrows. If he did, then Ye Mo was his to play with.

So it was Golden Bow of Divine Extermination, Ye Mo realised. Perhaps when he reached 72th level or higher restriction, the name of the bow would change again.

Seeing Taba Feiyang's nervous and worried look, Ye Mo was very satisfied. He was threatened by these bow and arrows before but now he could use it to threaten others. It seemed this bow was extremely famous in the God Necropolis Domain. If he killed this Taba Feiyang, no one would know he has the Golden Bow of Divine Extermination.

Ye Mo's spirit sense was very powerful and sea of consciousness was very sturdy. Even so, it was very difficult for him to draw open the bow. He had to constantly insert his lethal force in. He couldn't let the lethal force fall or the opponent would grasp the opportunity. He had to preserve strength as he knew the first arrow definitely wouldn't be able to kill Taba Feiyang.

Compared to Ye Mo, Taba Feiyang found this more unbearable. He didn't know when Ye Mo would shoot the arrow nor how many arrows Ye Mo had.

As the lethal force grew bigger, Taba Feiyang felt greater pressure. He knew he couldn't move first.

When the lethal force gathered to a peak, Ye Mo knew he couldn't keep holding it. Otherwise, the lethal force would drop.

There was another thud from outside the lake. Ye Mo shot the arrow without hesitation at the same time.

The crisp sound came like phoenix chirping as the arrow tore open all space in front of it. The arrow's lethal force left no return.

As the bow sounded, the bone arrow shot out.

In that instant, Taba Feiyang's six glory light was completely activated. A horrid light veil shot out. At the same time, Taba Feiyang released the blood axe. He deeply knew how powerful the Golden Bow of Divine Extermination was. With the power of this immortal emperor, there wouldn't be just only one arrow.

The golden arrow shot into that veil and the veil melted extremely rapidly.

Crack. The pale veil finally disappeared but the killing intent of the bone arrow was completely wiped. Its force was still there but it just didn't have the original lethal force.

Taba Feiyang's face was calm, he quickly took back the six glory light. He knew Ye Mo didn't have just one arrow.

How could Ye Mo let him take back the light. The sound of arrow release came again, two golden arrows shot in the left and right of Taba Feiyang.

Their killing intent almost materialized. Even if Taba Feiyang wanted to dodge it, he couldn't.

Taba Feiyang knew that the golden bone arrow couldn't be dodged easily. One arrow had possibility of being dodged but if he tried to dodge two arrows it was suicide. If he dodged one arrow, his force would

weaken. The second arrow would lock on him and kill him. if the Golden Bow of Divine Extermination and arrow was so easily dodged, it wouldn't be feared so much.

At the same time Ye Mo shot the second and third arrow, Taba Feiyang's blood axe was released and smashed at the golden bone arrow.

Crack, the blood axe was completely broken by the bone arrow and turned to blood coloured pieces. However, with this the golden arrow paused a bit.

Taba Feiyang couldn't block the third one. The terrifying killing intent completely enveloped him.

A substitute wooden clone appeared next to his body suddenly and blocked the third arrow. This was his essence spirit substitution clone. It would use up a portion of his essence spirit but it could save his life.

The instant the essence spirit clone came out, it was completely smashed by the third arrow. The clone was instantly torn to pieces but the third arrow was blocked by the essence spirit pieces and the killing intent eased.

Before Taba Feiyang could be happy, he saw the fourth golden arrow shoot at him. Before the sound of the bow rung, that extremely terrifying killing intent swept over.

The space around Cheng Zheng lake became dead. It seemed that almost all life force was taken away by this fourth bone arrow. That terrifying killing intent locked the entire space leaving him nowhere to escape. The fourth arrow was the real lethal arrow.

Taba Feiyang suddenly realised.. Ye Mo knew the three arrows couldn't kill him so he gathered all the lethal force on the fourth arrow. He was certain that Ye Mo only had four arrows. Even if he had a fifth, he wouldn't be able to shoot it.

Ye Mo's extremely pale face showed that he had used all his power. If he survived this fourth arrow, Ye Mo would be defenseless.
