

Strongest As 2031

Chapter 2031: Immortal Goddess Sacred Sect

Even if Du Qixi didn't tell him, Ye Mo wouldn't go offend Shan Yingyao. Plus, he pitied her.

"Brother Du, what is the Immortal Goddess Sacred Sect she spoke of? She seemed very scared of that sect?" Ye Mo asked.

Du Qixi said seriously "Even Dao Essence Divine Emperor don't dare to challenge Immortal Goddess Sacred Sect in the God Necropolis Domain. In the God Necropolis Domain only Immortal Goddess Sacred Sect people can be called immortal goddess."

"They're this dominant?" Ye Mo asked in surprise.

"No, they're not dominant. The reason the women from Immortal Goddess Sacred Sect are called this way is not due to their own accord but people respect the Immortal Goddess Sacred Sect. You must not go into the Immortal Goddess Sacred Sect range, otherwise that is suicide." Du Qixi said.

"Why?" Ye Mo didn't understand God Necropolis Domain at all and could only ask.

Du Qixi explained "God Necropolis Domain is the original Divine Dao Realm. Due to battles between ancient powerful beings, the realm itself crumbled. Eventually, the divine dao realm was about to be pulverized and those powerful beings fled the broken divine dao realm. However, the saint of Immortal Goddess Sacred Sect Qing, didn't flee. She used the utmost high god art and turned herself into the law of the divine dao realm. That stopped the crumbling of divine dao realm and now it became the God Necropolis Domain.

In order to pay tribute to her sacrifice, the Immortal Goddess Sacred Sect members are respected as immortal goddess. They rarely come out though. With the divine dao realm so broken, sects stronger than the Immortal Goddess Sacred Sect have disappeared but they remain in tact."

Seeing Ye Mo's shock Du Qixi smiled "Those sect members of Immortal Goddess Sacred Sect are all extremely beautiful. The more you cultivate their cultivation method, the prettier you become. So everyone wants an Immortal Goddess Sacred Sect member as dao partner."

"True." Ye Mo nodded, everyone loved beauty even immortals.

"Hehe." Du Qixi smiled "Brother Ye, I need to remind you that the Immortal Goddess Sacred Sect members never dual cultivate with people and rarely even speak to outsiders. The hardest thing in the God Necropolis Domain isn't finding a dao fruit but getting an immortal goddess as dao partner. But if you think that way, you're not far from death. You understand?"

"I understand?" Ye Mo wasn't dumb. He had to be respectful to immortal goddess.

Whether it was the immortal realm or the cultivation realm, he had seen too many beautiful women. He had even lived with someone like Zhen Bingyu. His wives were all extremely beautiful. He wouldn't be surprised no matter how pretty the woman was. No matter how pretty the immortal goddess was, she would at most be Qing Ru's level.

"Brother DU, I have one more thing to ask you. Do you know a sect called Xu Yue divine dao?" Ye Mo asked.

"Xu Yue divine dao?" Du Qixi repeated in confusion and then shook his head "I've never heard of such sect but the God Necropolis Domain is boundless and despite being broken, it's not something a Dao Moulding Divine Emperor like me can travel across."

Ye Mo didn't ask anymore. The sect wasn't far from this city. Since Du Qixi didn't know, this meant that the sect was extremely ancient.

Ye Mo started asking about all sorts of stories of the God Necropolis Domain. He also learned the terror of God Necropolis Domain border. Even Dao Moulding Divine Emperor might be crushed by the dao runes there. There was a dao wave line at the border. Those weaker people would be diced.

Since ancient times, countless immortal emperors and half divines died at the God Necropolis Domain border. Countless divine emperors never came back after entering that dao wave line.

...

About tens of thousands of km from Ye Mo's place, two women were desperately looking around. One wore blue robes while the other wore yellow robes. They were both extremely beautiful.

"Sister Biyue, how come we're not at the same place with master after using that transmission rune? Is this the God Necropolis Domain? Why does everything seem so barren?" The yellow robed woman asked.

"Xiaoyun, it's probably due to the space being unstable here that some problem occurred. We held onto each other so we're not separated but master is probably very far away from us." Sister Biyue said.

Zhen Zhong divine emperor didn't know the space here was this unstable. When he brought his two disciples here, he immediately saw someone stronger than him come. In his desperation, he immediately used his only space transmission rune. It was a battle lost of his.

After using it, Zhen Zhong divine emperor immediately realised he did something stupid. The space here was extremely unstable. It was suicide to use such rune here. When he grabbed at his two disciples, they were already very far from him.

The two girls were lucky that they didn't fall into void crevice and instead survived here.

Without their master to take care of them, both of them were worried. They didn't even dare to talk and just hurried wanting to leave this barren place.

...

A day later, two dashing lights landed before Luo Biyue and Mu Xiaoyun.

They finally saw people. Luo Biyue and Mu Xiaoyun rejoiced but were also nervous. They heard master say that the people at God Necropolis Domain were very scary.

But soon, they were shocked. It was two women before them, they were too pretty.

“Where did you two come from? How did you come here?” The taller woman glanced at the two and frowned.

“My martial sister and I followed our master here but we got separated and lost.” Luo Biyue quickly said.

The taller woman stared at Mu Xiaoyun for a while and suddenly frowned and released a blue long sword.

The shorter woman quickly stopped her and said “martial sister An Hai, don’t attack first. Since they appeared next to our sect, it means they have fate with us. Why don’t we don’t them back first.”

Luo Biyue and Mu Xiaoyun were dazed. They didn’t even do anything and that taller woman wanted to kill them. Was the God Necropolis Domain this unreasonable.

An Hai sneered “This woman has lost her virginity and dares to come to our sect? it’s an insult to us. What’s the point in not killing such shameless person?”

Luo Biyue was dazed, what reason to kill was this?

Mu Xiaoyun’s character was soft and yet strong. Hearing this, she was furious. Ye Mo was her husband. So what if she gave her virginity to her husband? There was such crazy woman in this world.

Luo Biyue had been with Mu Xiaoyun for a long time and knew her well. She quickly pulled her signaling her not to talk.

The woman was still going to attack. Luo Biyue was ready to fight. She knew the two of them combined was no match for this woman but she wasn’t going to sit and wait.

“Wait...” Another dashing light came.

“Martial Uncle Qilan.” The two women quickly bowed.

Luo Biyue and Mu Xiaoyun stared at this woman with even more shock. What sect was this? One was prettier than the other.

“You two probably came from the immortal realm?” The woman’s tone was much softer.

Luo Biyue and Mu Xiaoyun were dazed.

Chapter 2032: Dao Discussion Begins

“You don’t need to say anything. I already know. How about this, come with me to the divine sect first. Otherwise, even if you leave here, you wouldn’t be able to get to the nearest god corner of divine dao city.” The woman’s tone was very nice.

“Wanbei is willing to follow qian bei to the sect.” Luo Biyue saw that Mu Xiaoyun wanted to talk and quickly said before her. She was afraid Mu Xiaoyun would reject.

...

When they came the the outside of the sect, Mu Xiaoyun and Luo Biyue were completely dazed. All they had seen on the way was the devastated landed but now what was before them was lush green immortal mountain and god water. It was like heaven and hell.

They weren’t just dazed at the scene. The small heaven domain they lived at was extremely beautiful too. they were dazed at the extremely dense god spirit chi. They almost didn’t need to cultivate and could feel their progress.

“This is such a good place.” Luo Biyue sighed.

“Immortal Goddess Sacred Sect.” Mu Xiaoyun saw the four words before the sect and felt worried. She felt this wasn’t a place she should come but she couldn’t resist at all.

“Martial sister Qilan, why did you bring a woman who’s chi is impure?” They just walked into a palace and heard a displeased voice.

The woman who brought them in quickly said “Martial sister Yunhuai, these two are called Mu Xiaoyun and Luo Biyue. They came from the immortal realm. Although Xiaoyun is only abstruse immortal cultivation level, she has extremely pure immortal wood spirit root.”

“Martial sister Qilan, you want to take someone who has lost her virginity into the sect?” Yunhuai said coldly.

Mu Xiaoyun was extremely uncomfortable. She never said she wanted to join here and these people brought her here and reproached her. She had given virginity to her husband, what did it have to do with this Immortal Goddess Sacred Sect?

“Yunhuai, everything has fate. Since Qilan wants to take her as disciple, it’s fate and fortune. Plus, there are such precedents in our sect. Qilan take your two new disciples and leave. No need to see me. Remember, don’t do this again.” Another voice sounded.

There was surprise and joy in Qilan’s eyes and she bowed “Thank you sect leader, Qilan understands.”

...

15 minutes later, Qilan took the two and came to a distant mountain peak.

She took them to a hall and said “I believe you don’t really understand the Immortal Goddess Sacred Sect but that’s fine. Just remember that our sect is the number one sect in the divine dao realm. I’m called Lan Qilan, I will be your master.”

“Qian bei, martial sister Biyue and I already have master.” Mu Xiaoyun felt this Qilan qian bei were much better than the other women.

Lan Qilan smiled “I know that but it’s fine. After you understand this place, you will know what I mean.”

Mu Xiaoyun didn’t speak this time. She could tell Lan Qilan had good intentions towards them. If it wasn’t for her, they would’ve probably been killed already.

“Master, Biyue and Xiaoyun are willing to join master’s sect.” Luo Biyue said. It was common occurrence to have a few masters in the immortal realm. She was confused why this place became divine dao realm but not God Necropolis Domain but she didn’t dare to ask.

Hearing this, Mu Xiaoyun kneeled down too “Mu Xiaoyun greet master, thank you for saving my life master.”

Lan Qilan nodded and sighed “You can cultivate at my Lan Yi peak. Try not to leave here.”

“Yes master.” The two responded. They had nowhere to go anyways.

Seeing this, Lan Qilan smiled “Do you know why I took you guys in as disciples?”

Luo Biyue looked at Lan Qilan, didn’t she say that Xiaoyun was extremely pure immortal wood spirit root?”

Lan Qilan said “Immortal Goddess Sacred Sect is a saint heritage. They don’t like non virgins. My martial sister was locked in the prison door mountain and tortured to death due to losing her virginity. My mother brought me here and before I even saw my master, she was killed by people of the sect. The reason is the same as Xiaoyun, because she wasn’t a virgin.”

Lan Qilan’s eyes went a dim “My master saved me in time and took me back to the sect. But due to me, the Immortal Goddess Sacred Sect split apart. My master was very powerful and in order to save me, she calmed this disaster all by herself. However due to this internal conflict, my master was weakened

and soon went into reincarnation. Before she left, she handed me over to my martial uncle ancestor who is the current sect leader.”

Mu Xiaoyun was ashamed. She realised that her master was saving her. But this Immortal Goddess Sacred Sect heritage was too absurd. How could there be heritage if women didn’t get pregnant? Without heritage, what was the Immortal Goddess Sacred Sect?

“No need to think much, just stay here and cultivate. With Xiaoyun and Biye’s talent, you guys will have the chance to vindicate dao.” Lan Qilan comforted.

“Yes, master.” Mu Xiaoyun quickly answered. Her master didn’t ask them about the immortal realm clearly not wanting to know about these things. Mu Xiaoyun knew she had to bring her power up quickly or she would never be able to see her husband.

...

Ye Mo and Du Qixi chatted happily and learned a lot of things here.

“Brother Du, monk Ye, may I sit here?” Shan Yingyao interrupted their conversation with her crisp voice.

“Of course, please have a seat.” Du Qixi quickly said. He could tell Shan Yingyao was interested in Ye Mo. He didn’t understand why such a beautiful woman would be interested in a monk but he didn’t want to offend her.

Shan Yingyao sat down and smiled “Just call me Yingyao. My cultivation level is much weaker than brother Du.”

He wasn’t worried Shan Yingyao could recognize him as the two spirit sense marks weren’t something ordinary people could remove. Now that he had zero spirit sense marks on him, how could she recognize him.

“Monk Ye, may I ask which branch of the buddhist sect you’re from?” Shan Yingyao spoke politely too Ye Mo.

Ye Mo said calmly “Goddess Yingyao, no need to call me monk just call my name. I’m just a cultivator that’s finding my own path. I don’t dare to say which branch I belong to. At most a small branch of buddhism.”

Just when she wanted to talk, she heard a clear voice “The divine emperor dao discussion begins now. I now invite Dao Essence Divine Emperor Sikong qian bei to discuss dao for us...”

The skinny Sikong Shan suddenly appeared in the air. He sat in mid air and said calmly “This dao discussion was originally going to go for half a year and I would discuss the world great dao meaning in the last month. However, due to some special reasons, I have to go in God Necropolis Domain quickly so I will be discussing my dao vindication experience in the first month. After this month, I will be heading to the God Necropolis Domain to seek primordial essence.”

Ye Mo knew that the fruit he gave Sikong Shan wasn’t simple and it was probably why he changed his mind.

Ye Mo didn’t mind, the quicker they went to God Necropolis Domain the better it was for them.

The place was silent. Everyone held their breath getting ready to listen to a Dao Essence Divine Emperor’s understanding of dao. Such opportunity was once in a life time.

Chapter 2033 - Ye Mo Understand Dao

“Dao person, it’s origin, before the world. Dao enlightenment is learning the heavens and the earth. Gather millions and then see the true path. Tai Chu once said, dao is with spirit. Spirit is dao. Mortal dao, the world is united and yet have hundreds of troubles. Same path but different endings. No art no dao. No root, no stem. No leaf no blossom. Dao is everything becoming alive and then forming. This is called human way earth, earth way heaven, heaven way dao, dao way nature...”

Sikong Shan was getting to the exciting part and completely forget he was discussing dao. The people below were immersed in this. Some of their essence spirit even left their body and used the essence spirit to feel the world dao.

Ye Mo nodded hearing this. Sikong Shan's understanding of dao was far stronger than him. there were many things he didn't understand but after Sikong Shan explained it, he immediately connected the dots. Sikong Shan's dao in some places were in sync with the Three Birth Chant. This made Ye Mo very happy.

He had never had a master and this was the first time he listened to dao. This dao explanation was perfect for him.

Sikong Shan meant that dao formed before the heavens and earth. It's ethereal and indescribable. There were all sorts of different dao and you couldn't say anyone of them is wrong. This meant that people used different ways to vindicate dao but their direction was the same and the result they pursued was the same.

At the same time, Sikong Shan believed dao was nature. Learn dao from the heavens and earth just like everything else in the world.

"Immortal dao, essence chi, the elite of essence chi. Chi dao is life. Immortal dao person, full but doesn't spill. Prosper but not cocky, diligent but not boastful..."

Sikong Shan talked about heaven dao and then immortal dao. Then, he spoke from immortal dao about how to reach dao vindication. People were mesmerized by his discussion. Ye Mo also combined Sikong Shan's dao with his Three Birth Chant and was very shocked. A Dao Essence Divine Emperor was this terrifying.

There were many things which if Sikong Shan didn't say would take him maybe hundreds or maybe millions of years to think of. This dao fruit wasn't wasted. It was really worth it.

Later on, Sikong Shan stopped talking and just emitted his dao waves. His voice spread in the dao waves making everyone feel his dao waves and his understanding of dao.

One month passed quickly. When people were still immersed in this, Sikong Shan suddenly stopped.

Everyone woke up abruptly and felt time went by too quickly.

Ye Mo breathed. He benefited the most. There were many dao theories that his Three Birth Chant could derive but he didn't understand. Now, he understood a lot.

He gradually perfected his dao. Everyone's dao was learned through all the constituents of the universe but the Three Birth Chant was different.

He finally understood the what Sikong Shan's theory of dao's origin from nature was. Sikong Shan meant that dao gave birth to one, one gave birth to two, two gave birth to three and three gave birth to everything else. This meant that dao existed before the world and everything. Everything was derived from dao.

But the Three Birth Chant didn't describe it that way. It's opening statement was "Chaos birthed one, one birthed two, two birthed three and three birthed everything..."

Ye Mo didn't really understand this before but he had an approximate understanding now. This sentence could be understood as, "Chaos gave birth to 'one' and this 'one' might be dao. Then, dao gave birth to the world, then everything else was born in the world."

In the universe, chaos was first, then dao and then the world. This was the theory of the Three Birth Chant. Since Ye Mo got the Three Birth Chant and cultivated it, he could only borrow Sikong Shan's dao but not listen to it. If he did, he would be vindicating a small dao.

A light flashed across Ye Mo's brain. In order to vindicate dao through Three Birth Chant, he needed to understand the law of all things and surpass heaven dao and vindicate chaos instead of learn the law of all things and then vindicate heaven dao.

Chaos dao and heaven dao were two completely different things. Chaos was before, heaven dao was after.

Ye Mo breathed. He knew his dao was too hard but he cultivated the Three Birth Chant and had the chaos world so he had to vindicate chaos. Otherwise, the divine damnation of the heaven dao wouldn't let him go. He had seen this countless times. At this moment, Ye Mo finally realised why his divine damnation was always many times stronger than others. It was because he cultivated the Three Birth Chant and needed to vindicate chaos dao. Heaven dao wouldn't allow a being who can surpass it to exist. If he didn't practice body refinement, he would've long disappeared in the divine damnation.

Sikong Shan glanced at the people still immersed in his dao and said "My dao discussion has ended. The remaining time will be for other divine emperors to explain the heaven dao. I need to go to the God Necropolis Domain immediately. The ten fortunate people please come with me..."

Sikong Shan waved out a dark grey cloud and ten people immediately got up.

Ye Mo saw that including him, there were 11 people. Clearly, Sikong Shan didn't take one off.

Ye Mo knew clearly that at this time, the last person to go up would be left behind mercilessly. The 11th person would be the unfortunate person Sikong Shan implied. Ye Mo quickly said to Du Qixi "brother Du, I'm going first. We'll meet again."

Then, he dashed up to the dark grey cloud. Shan Yingyao had been staring at Ye Mo. Seeing him go up, she followed without hesitation and stood next to him immediately.

She didn't understand why Ye Mo dashed up so quickly but when she saw everyone else come up quickly and Sikong Shan throw down the last person, she finally realised.

The immortal emperor who was thrown down glared at Ye Mo. Ye Mo took his spot and he wanted to kill Ye Mo but he didn't dare to go up again.

"Go." Sikong Shan disappeared with the ten from the cloud.

With Sikong Shan gone, many people weren't interested in the dao discussion and some left. Du Qixi wanted to listen for longer but seeing many people leave, he left without hesitation. He had been with Ye Mo and Ye Mo offended too many people.

Sikong Shan was extremely fast. The grey cloud formed a barrier of cloud. There were only the ten people inside but Sikong Shan was nowhere to be seen.

Ye Mo carefully used his spirit sense to check outside and immediately felt this dizziness. He was very shocked. A Dao Essence Divine Emperor's speed was this terrifying that his spirit sense couldn't even

sat outside the cloud. There were void fissures how. Just how fast would Sikong Shan be if there were no void fissures. If Sikong Shan didn't take them, how fast would he be?

"Brother Ye, you don't seem to be liked here." Shan Yingyao said seeing people glare at Ye Mo coldly.

Ye Mo glanced at these people and said "I'm a monk. I'm not gay, why do I need to be liked by them?"

For the first time, Shan Yingyao felt Ye Mo was this interesting and laughed "Brother Ye, there's a few extremely pretty goddesses here."

"Not interested." Ye Mo said.

After she said these two sentences, Ye Mo immediately annoyed the other eight people.

A woman who looked on par with Shan Yingyao just wanted to talk but the grey cloud suddenly shook. Everyone subconsciously scanned this spirit sense out.

Terrifying time whirlpool mixed with space whirlpool. There were also dense fissures and dao runes that sliced across the heaven every now and then that instantly destroyed their spirit sense.

Their faces were all pale.

"This is near the entrance of the God Necropolis Domain. Be careful, don't scan your spirit sense out." A half divine said with a pale face.

Chapter 2034 - Find Trouble With Ye Mo

Ye Mo said nothing. He found that amongst these ten people, he lost the least spirit sense. This was probably due to his spirit sense being strong and him refining his spirit sense in the time whirlpool in the Mu Hua god mountain.

Sikong Shan didn't remind them at all and just scurried with the grey cloud.

Sikong Shan's speed wasn't slow but even with his speed, it had been many days and he still didn't reach the border of the God Necropolis Domain. This made Ye Mo doubt if Dao Moulding Divine Emperor could leave the God Necropolis Domain like this.

Those people who wanted to look for Ye Mo's trouble didn't have the interest to keep talking. They were carried by someone flying outside the God Necropolis Domain, if Sikong Shan was in a bad mood and threw them somewhere, none of them would be able to live.

Luckily, they didn't stay very long in the grey cloud. In just half a day later, the ten felt the ground shook and then they heard Sikong Shan's voice "This is the God Necropolis Domain, find your own fortunes, good luck..."

Sikong Shan was long gone.

These ten people had never been to the God Necropolis Domain border. After hearing this voice, they used their essence chi to protect their body while searching around. Some people released their magic artefact and was very vigilant.

The place they were at was dark grey. There were many time and space whirlpools and even void fissures but these whirlpools were slow and the laws inside weren't strong. Even ordinary immortal emperor primary stage could deal with them much less them.

Ye Mo extended his spirit sense out and found why it was easier to vindicate dao here. There were all sorts of broken word laws. The nearby law was very weak too. If you wanted to vindicate dao, start with the weaker laws and gradually move inside the God Necropolis Domain. If you learn a law and fuse it into your dao, then you're not far from dao vindication.

Whether it was the highest dao or small dao, it was a path for people to vindicate dao. A few immortal emperors who realised this left alone.

Ye Mo wanted to leave. He didn't want to stay with these people but as soon as he was preparing to leave, he was stopped.

“Monk, I heard you’re very cocky. You know that little dragon is kept by someone and yet you still dare to take it.” An immortal emperor peak stage with a powerful force said.

Those few people who wanted to leave saw this and all stopped to enjoy the show. They knew each other here and now there was a conflict, of course they wanted to see their means.

“It has nothing to do with you.” Ye Mo stopped and said.

The immortal emperor released his magic artefact five element abstruse yellow ring and said in contempt “The emperor is Zhu dragon god tower, Tai Wang immortal emperor Lian Qisui. That dragon is kept by my sect, do you think it’s my business or not? Hand over the cultivation home you keep the little dragon in and let me check your storage ring. Perhaps the emperor will let you leave.”

Lian Qisui spoke with intense killing intent. Even the people on the side could tell that he would kill Ye Mo regardless if he listened or not.

“Brother Lian just do as you please. I, Zhongsun Gangjie, will back you up.” Another half divine stopped behind Ye Mo.

“My Chi Xiao god corner’s two spots in here had one squeezed off by you bastard. I’ll see what powers you have to be this cocky.” Another bearded half divine stood out.

Moments later, the three had circled Ye Mo.

Everyone knew that this bearded guy was called Hong Haoyan. He was definitely a powerful person. It was pretty much extremely hard to survive a battle with him if your cultivation level was the same as his.

Ye Mo knew no one here and no one stood up for him.

Seeing Lian Qisui about to attack, Shan Yingyao quickly said “Wait.”

“Goddess Yingyao, even though you’re the young mistress of the Shan Du god estate but this Ye guy is my Zhu Dragon god tower’s big enemy. Are you going to help him?” Lian Qisui said with annoyance.

Shan Yingyao smiled “Of course I won’t but I have a few questions to ask Ye Mo. I was planning to ask later but since you guys want to attack now. I’ll just ask him one question. Please give me some face.”

Lian Qisui’s face was bleak. Zhongsun Gangjie had been pursuing Shan Yingyao for a long time. Hearing this, he immediately waved his hand “Goddess Yingyao, just ask. It’s only a few moments of time, no matter how strong he is, he wouldn’t be able to escape after being trapped by us.”

“Thank you everyone.” Shan Yingyao saluted with her fists and stared at Ye Mo “Brother Ye, I’m going to ask about someone, he’s called Taba Feiyang. Have you heard of him?”

She stared at Ye Mo, if Ye Mo showed even the slightest reaction she believed she could sense it.

Ye Mo said without hesitation “I’ve never seen Taba Feiyang.”

Hearing this, Shan Yingyao breathed. She knew she thought of the wrong person.

“Hurry up and leave from my side. Hong Haoyan’s power is terrifying. He’s not someone you can beat.” Shan Yingyao sound transmitted to Ye Mo.

Ye Mo was confused, he didn’t expect her to help him. For their relationship, this was very nice.

But Ye Mo didn’t plan to go. Two half divines and an immortal emperor peak stage wanted to suppress him. they were dreaming.

Seeing Ye Mo have no intentions to go, Shan Yingyao sighed and retreated to the side. She knew what Lian Qisui was after and that’s why tried to help the innocent Ye Mo. Since Ye Mo didn’t want to go then never mind.

Their domains stacked together and it seemed Ye Mo was bound in the domain.

Ye Mo didn't attack first. They didn't pose a threat to him. He was interested in Lian Qisui's ring. Five element magic artefact were very hard to make but once made they were very powerful.

When the ring rose and five colored light rose, Ye Mo was certain it was a five element magic artefact. Just when Ye Mo was about to release Zi Xu another dashing light came.

This dashing light's force was very powerful, far stronger than a half divine. Clearly, it was a Dao Moulding Divine Emperor.

Even Lian Qisui didn't dare to keep attacking.

Everyone even Ye Mo felt a bit hard to breathe as the person was too beautiful. Even though she just wore an ordinary yellow dress, her beauty made the dress pretty.

It was usually clothes making people look better but she made the clothes look better. Even Shan Yingyao felt embarrassed of herself.

Chapter 2035 - So Powerful

"Greet immortal goddess..." Everyone bowed including Lian Qisui.

Ye Mo just realised now that this extremely beautiful yellow robed woman was from the Immortal Goddess Sacred Sect.

For the first time, Ye Mo saw a woman who could match Qing Ru.

The woman stood before them and didn't go but Ye Mo dazed. He didn't daze due to this woman but because he thought of Susu. The first time he saw Susu, she also wore a yellow robe in the desert.

The woman glanced at everyone and seeing Ye Mo didn't move, she said nothing and asked "Did Sikong Shan bring you over?"

"Yes, immortal goddess." Other than Ye Mo everyone else nodded.

The woman nodded and was about to leave but Ye Mo heard Shan Yingyao sound transmission to him "Brother Ye, she's the immortal goddess of the Immortal Goddess Sacred Sect, ask for help."

The yellow robed woman glanced at Shan Yingyao clearly hearing her sound transmission. However, she turned and disappeared in a yellow line before Ye Mo asked for help.

Ye Mo smiled. He never planned to ask for help. Luo Ying's figure flashed before him again. It was such a similar encounter with Luo Ying but this woman left without wanting to help him at all but Luo Ying was willing to give him everything.

Lian Qisui didn't care about what Ye Mo was thinking and released the five element ring again.

Ye Mo looked into the distance and made up his mind to quickly vindicate dao and leave here and get back to the immortal realm. His golden page world was complete. He could bring people inside. When he went back to the immortal realm, he would try to get back to the cultivation realm.

Seeing the activated five color light, Ye Mo extended his domain. Lethal force stacked in the domain. Hong Haoyan and Zhongsun Gangjie just extended their domain and hadn't stacked it with Lian Qisui's domain yet and Ye Mo's domain pressed over while he released Zi Xu.

The purple ray didn't fall but instead swept the five element ring, at the same time, Ye Mo released Five Lightning Spear Destruction. He felt Lian Qisui's weak domain could do nothing against his domain. The difference in power was huge.

If it wasn't to protect the ring, Ye Mo wouldn't even release Five Lightning Spear Destruction and just kill this Lian Qisui in one strike.

When Ye Mo's domain pressed over, Lian Qisui felt his domain crack like an egg.

Seeing this, Lian Qisui immediately knew that he was too cocky. He was a far cry from Ye Mo. Not just him but the three of them added together was still far weaker than Ye Mo.

Once this thought rose, Lian Qisui no longer had the fighting will. He wanted to flee but the Five Lightning Spear Destruction had completely locked onto him. Lian Qisui forcefully released a defense magic artefact. His five element ring was stopped by the purple ray and couldn't break free.

Crack.

Lian Qisui's defense magic artefact cracked like paper and was pulverized by the Five Lightning Spear Destruction. Those lightning spears didn't change at all and kept smashing down.

Five blood lights shot. Lian Qisui was killed before he could even resist.

This entire process only took a few seconds.

Clank. The five element ring fell to the ground.

Ye Mo waved the ring into his hand. After looking at it for a while, he put it into his storage ring and then collected Lian Qisui's storage ring.

Not just Hong Haoyan and Zhongsun Gangjie but everyone else looked dazily at Ye Mo.

Ye Mo was clearly an immortal emperor peak stage. How was his power similar to a Dao Moulding Divine Emperor/

The reason dao vindication divine emperor were so terrifying was because they understood the world law and could put laws in their god art. They were far stronger than immortal emperors. No matter how strong the immortal emperor, he would be killed by Dao Moulding Divine Emperor. Ye Mo killed an immortal emperor peak stage in an instant just like a Dao Moulding Divine Emperor would.

“So powerful.” Shan Yingyao took in a cold breath.

No wonder she called him to run a few times but he didn’t. He didn’t need to run at all. Hong Haoyan and Zhongsun Gangjie needed to run now.

Everyone else looked at Ye Mo with concern. Ye Mo was far stronger than they had expected.

Ye Mo’s domain swept out and bound Hong Haoyan and Zhongsun Gangjie.

Their faces were bad. Hong Haoyan was prideful but after seeing Ye Mo attack, he knew he was no match for Ye Mo. Their domains combined couldn’t stop Ye Mo.

“Brother Ye, I’m no match for you. I’m just a helper asked by Zhu Dragon god tower. It’s my bad that I offended brother Ye, please name a price.” Hong Haoyan said.

Just when Ye Mo wanted to talk, his face changed and he quickly took back Zi Xu “Prepare a million god crystals each and I will come collect it...”

Then, Ye Mo dashed away.

“Why doesn’t he want it now?” Another immortal emperor looked at Ye Mo’s direction and asked in confusion. Moments later, another figure landed here only three seconds later.

Everyone looked at this figure and immediately knew why Ye Mo didn’t want it now. They were shocked at the same time as they didn’t sense a Dao Moulding Divine Emperor coming but Ye Mo felt it.

This person was tall and had this lethal force but his hair was messy and his chi was unstable.

Chapter 2036 - Scurrying away

“Truth Mang divine emperor master.” Seeing this person, everyone bowed. This person was extremely famous. He was Chi Xiao god corner Dao Nourishment Divine Emperor Bian Xinde, divine emperor title Zhen Mang.

Hong Haoyun breathed easy. Zhen Mang divine emperor was his Chi Xiao god corner qian bei. He feared Ye Mo even more, this many people didn’t sense the Truth Mang divine emperor coming back Ye Mo did.

Bian Xinde looked at Ye Mo’s direction and said “Who left immediately after seeing me come?”

“An solo cultivator called Ye Mo. He just called Zhu Dragon god tower Lian Qisui...” Hong Haoyan spoke about what happened before.

Bian Xinde frowned. He said to the people nearby “Go find your own dao. I’m going to talk with Hong Haoyan.”

After they left, Bian Xinde looked at Hong Haoyan and asked “Did you say he killed Lian Qisui with just one move? What magic artefact did he use. Tell me about the specific process? And why were you three gaining up on him?”

Hong Haoyan spoke of Ye Mo’s magic artefact Zi Xu and Five Lightning Spear Destruction. When he heard Ye Mo was lightning element, Bian Xinde was even more shocked.

Hearing that Ye Mo took away Zhu Dragon god tower’s small dragon, Bian Xinde frowned and said “God Necropolis Domain is a part of chaos world. Now that the laws are incomplete, how can you use small world or cultivation home to bring people to the God Necropolis Domain border?”

Hong Haoyan quickly said “Qiu Rang is dragon not human...”

Bian Xinde sneered “Sikong Shan doesn’t like people to hide things. If that Ye Mo really used small world to bring dragon race without telling him, he would’ve kicked Ye Mo off immediately. Do you think a small world or cultivation home can trick a Dao Essence Divine Emperor like Sikong Shan? It can’t even get past me.”

“Martial ancestor means, Ye Mo didn’t bring the little dragon here?”

Hong Haoyan suddenly thought of something and said “I know, he probably gave that little dragon to Du Qixi. This time, Zhu Dragon tower lost big. They didn’t get anything and lost a Lian Qisui.”

Bian Xinde frowned and after a long while he said “What if Ye Mo really brought that little dragon in?”

“What?” Hong Haoyan didn’t understand yet.

Bian Xinde just said quickly to Hong Haoyan “When you encounter that Ye Mo you must avoid him, you’re no match for him.”

Then, he dashed in the direction Ye Mo left.

Bian Xinde saw things clearer than Hong Haoyan. If Ye Mo didn’t bring the small dragon in then Hong Haoyan was right. Ye Mo might’ve given Qiu Rang to Du Qixi. But what if Ye Mo really had Qiu Rang with him and Sikong Shan didn’t notice this, then there was only one reason. Ye Mo had a five element world or something beyond it.

Only five element world or something beyond that could be hidden in the essence spirit or sea of consciousness. As long as Sikong Shan didn’t intentionally look for it, he wouldn’t be able to find it.

While Bian Xinde was chasing after Ye Mo, Du Qixi was running like crazy. After he left the dao discussion place, he immediately realised. Ye Mo took Qiu Rang to Sikong Shan’s cloud but Sikong Shan didn’t throw Ye Mo down. This meant that Sikong Shan didn’t notice it. What cultivation home could allow Sikong Shan to not discover it? Only five element world or something beyond that.

He was certain Ye Mo had such thing as only he knew that Ye Mo didn’t give the little dragon to him. this was why he had to run.

Clearly, other people could think of this too and while they would definitely send people after Ye Mo at the God Necropolis Domain. They would send people after him.

Luckily he had ran early for many days but didn't find any signs of people chasing him. Du Qixi panted. He had decided to not come back to Chang Fei divine dao city unless he reached dao essence. Whether Ye Mo was dead or alive, it was something beyond his control.

Bian Xinde was shaking with excitement. With the news he got from Hong Haoyan, he was almost certain that Ye Mo had something beyond five element world, otherwise, Ye Mo wouldn't be able to instant kill a peer.

He had been stuck at Dao Nourishment Divine Emperor for countless years but couldn't press one bit. In order to reach Dao Actualisation Divine Emperor, he had spent hundred thousand years at the God Necropolis Domain border but still got nothing. He didn't dare to go inside the God Necropolis Domain, if he crossed that ling, he would've been long dead. Now that he had the chance to get the five element world, how could he let it go. He was thinking about getting Ye Mo's five element world before other people caught him.

Ye Mo didn't know this and just kept using mobility technique at the border.

If Ye Mo knew that Dao Nourishment Divine Emperor was looking for him, he would've long gone into the depth and not dare to use mobility technique at the outskirts.

The border of the God Necropolis Domain was huge and spirit sense was limited heavily. That Dao Nourishment Divine Emperor wasn't able to find Ye Mo in a short time

Five days later, Ye Mo stopped. He stopped in a chaotic space and felt a shaking from his essence spirit. There seemed to be a huge invisible wall that separated the inside from where he was.

Ye Mo's spirit sense carefully reached into this space and immediately felt all sorts of laws entwined together in like a net and grinded his spirit sense to pieces.

This was probably the inside of the God Necropolis Domain. No wonder dao vindication divine emperors could only stay at the border. Other than powerful beings like Sikong Shan, who would be able to go in.

Ye Mo didn't dare to go in. No one who went in has ever come out. Even if someone has, he didn't dare to go in.

Ye Mo's spirit sense scanned around and decided to set up a formation and then find a time whirlpool to learn time law.

A subtle wave appeared in Ye Mo's spirit sense, when Ye Mo felt the danger he went into the golden page world without hesitation and controlled the golden page world to fly into the huge wall he didn't want to go into.

He had seen the power of divine emperors. He couldn't even beat a Dao Moulding Divine Emperor. He felt the danger from that wave. If an immortal emperor came over, he definitely wouldn't feel danger. So this meant that it was a dao vindication divine emperor coming.

Thinking about the Dao Nourishment Divine Emperor he saw before, Ye Mo went into the terrifying law whirlpool wall without hesitation.

As soon as Ye Mo disappeared into the wall, a figure landed where Ye Mo was. It was Bian Xinde.

Bian Xinde's spirit sense scanned around but he frowned more and more.

"Is it not that guy?" He muttered to himself. He didn't see Ye Mo go in the wall and he didn't believe Ye Mo dared to go into the wall.

Bian Xinde investigated for a long while and was finally certain that Ye Mo went in the huge wall with some magic artefact, it was probably the five element world.

Despite knowing the dangers in here and how it's fabled that everyone who went in never came out, Bian Xinde still clenched his teeth upon thought of Ye Mo's five element world and released a yellow fan. Then, he released countless fan shadows that circulated him before he charged in the wall.

Ye Mo didn't know that Bian Xinde had followed him in here. He could only float around in this place. He could control the golden page world but couldn't allow it to choose a direction and run as his spirit sense couldn't go out.

Ye Mo couldn't extend his spirit sense out so he meditated in the golden page world.

Ye Mo's face didn't seem so good so usually shadowless and small ginseng wouldn't interrupt Ye Mo at this time. Qiu Rang who already liked this place listened to big brother shadowless and didn't dare to go to Ye Mo.

Chapter 2037 - Great Primordial God Rune

A day later, Ye Mo checked the outside with his spirit sense. Just like before, his spirit sense was grinded as soon as it scanned out.

Ye Mo could only hand himself over to fate. If there was a powerful being looking at his golden page world, he would be dead.

After that, Ye Mo would check with his spirit sense once a day. On the fourth day, his spirit sense wasn't grinded. Ye Mo found in joy that his golden page world had brought him out of the chaotic law whirlpool.

Ye Mo immediately came out of the golden page world, the golden page world had chaos chi so it was extremely dangerous to leave it outside.

An ancient chi came rushing into him. Countless dao waves circulated around him. Ye Mo was dazed. What was this place? Was this the real God Necropolis Domain? There were so many dao waves here making it many times easier to vindicate dao than outside.

Before Ye Mo could check with his spirit sense, another cold ancient chi swept over in his spirit sense. Ye Mo held his breath and didn't dare to move. He felt with his measly power, he would be instantly turned to dust.

Dang dang. A few bell sounds came from the extreme distance. It seemed to convey an ancient sorrow, it seemed to rob the soul away as each strike of the bell struck on Ye Mo's heart. Ye Mo couldn't stop it at all. His heart cracked and he spat a mouthful of blood.

The chaos tree immediately released countless life force to repair Ye Mo's injuries. Ye Mo took in a cold breath. If this was the inside of the God Necropolis Domain, it was too scary. Without the chaos tree, how could he survive here?

The bell seemed to have cross the universe. It came and left quickly, in just a few seconds.

The sound of beasts yelling, bell sounds, drum sounds and magic artefact sounds smashed together...

As it came, Ye Mo gradually got used to the terrifying environment here. If it wasn't for the chaos tree, he would've been dead many times.

Ye Mo turned around and wanted to find that chaotic law whirlpool. He felt that although it was scary, he could still comprehend it. There was nothing he could comprehend in here.

No matter how he searched, he couldn't find anything. The chaotic law wall was gone.

Ye Mo carefully walked forward a few steps. His footsteps landed on the solid black ground. Each step created this echoing sound.

Two wave like cracks appeared on the pitch black ground. Ye Mo's spirit sense scanned it and there was this dizzy and murderous feeling.

Ye Mo knew there were eerie things everywhere. He didn't dare to cross this rune. Instead, he took out a top grade immortal artefact and carefull threw it on the rune. When the top grade immortal crystals fell on the ripple rune, it was instantly pulverized.

Ye Mo took in a cold breath. Such powerful ripple rune. Who left such rune behind. It's been who knows how many years but it was still this terrifying. He carefully sta down as his spirit sense cut into the border of the rune.

That dizzy and murderous feeling came again but there were more things mixed.

The endless space of the universe seemed to have been pressed on these two ripple runes and then it disappeared. Space was devoured and everything nearby seemed to have been destroyed by these two runes forming a dark void.

Ye Mo seemed to have been taken in by the two ripple runes and sunk into darkness.

“My dao great primordial, great beginning person, the beginning for form, Great Primordial God Rune, tear the heavens and shatter the earth, destruction to everything...”

This was great god art Great Primordial God Rune. Ye Mo rejoiced and sunk all his mind into this rune. This was just a rune fragment left after battle but it was a treasure to Ye Mo. This was his first time coming in contact with great god art, a great god art he could touch.

Even though this god art was fragmented, Ye Mo didn't mind.

The dao waves and the powerful god art chi was devoured by Ye Mo and slowly became Ye Mo's. That sliver of dao wave cleared up in Ye Mo's brain.

After an unknown amount of time, Ye Mo suddenly woke up. He waved two god runes out. These two runes didn't leave any ripples in the sturdy space but Ye Mo knew his two god runes had a sliver of the Great Primordial God Rune essence. When he perfected his own god art, this god rune would be his powerful lethal blow.

“This is indeed the place of great dao.” Ye Mo sighed.

He finally realised. Those bell sounds, drum sounds, beast roars were all sorts of god art dao runes and all sorts of law chi. If you had the capability, you can learn all sorts of god art law and learn all sorts of top means.

Ye Mo looked at the two Great Primordial God Runes. They seemed to be blurring. Ye Mo threw another top grade immortal artefact on it but there was no reaction. Ye Mo realised that the dao wave and chi of the two Great Primordial God Rune had been taken by him. From now on, the two Great Primordial God Rune would slowly fade and disappear.

Realizing the benefit of the God Necropolis Domain, Ye Mo never thought about leaving again. Cultivation was struggling in danger. If he retreated in fear facing such great fortune, he would never achieve great dao.

Ye Mo took out Zi Xu and put it on his back as he carefully moved forward.

Ye Mo wanted to find a place to vindicate dao first and then his survival abilities in here would be much strong. Then, he would be able to gradually go to the center of the God Necropolis Domain.

Rumble. A huge explosion sounded and Ye Mo was shocked.

Was there someone fighting in the God Necropolis Domain? thinking about this, two figures dashed to him. Ye Mo looked dazily at these two figures. He had seen both of them.

The yellow robed figure was the Immortal Goddess Sacred Sect immortal goddess and the other one was the Dao Nourishment Divine Emperor.

As soon as Ye Mo saw this Dao Nourishment Divine Emperor, he turned to flee but then he gave up this action. The Dao Nourishment Divine Emperor's chi was mess and his spirit sense wave was erratic. Clearly, he was heavily injured, however, that immortal goddess was in a worse situation.

Her clothes were broken and her snow white skin covered with blood. There was a terrifying wound on her chest. She was clearly in the lower hand and moments later, she would be killed by the Dao Nourishment Divine Emperor.

Ye Mo was shocked. Were all immortal goddesses respected? Why were they fighting like this.

Ye Mo didn't underestimate her at all. She was only Dao Moulding Divine Emperor but could fight with Dao Nourishment Divine Emperor to this degree.

Ye Mo didn't leave. That Dao Nourishment Divine Emperor was clearly at his wits end. He placed his spirit sense on the Golden Bow of Divine Extermination. When the two were almost done fighting or

when the Dao Nourishment Divine Emperor killed the immortal goddess, he would draw the bow and kill that Dao Nourishment Divine Emperor.

Chapter 2038 - Nine flower petals fall

When Ye Mo saw the two, they also saw Ye Mo.

Bian Xinde was overjoyed. He didn't expect Ye Mo to appear before him. he came here to find Ye Mo. Now that Ye Mo appeared, he didn't want to fight this woman anymore. He was very annoyed. If it wasn't that he was already injured, how could this Dao Moulding Divine Emperor be a match for him? Now, they were both heavily injured.

But even so, he wasn't worried. As long as he had one breath here, Ye Mo this immortal emperor peak stage would be an insect to him. he was further sure that Ye Mo was able to come here due to five element world.

When the immortal goddess saw Ye Mo, she was also shocked. Ye Mo was only immortal emperor power level, how could he come here? Even if he used means to cross to God Necropolis Domain border, it would be suicide to stay in such place covered in dao waves.

When she saw that Ye Mo didn't leave she knew that Ye Mo wanted to wait for them to both be heavily injured and then come in.

Thinking about this, she sneered. Even if her or the Dao Nourishment Divine Emperor only had one breath left, Ye Mo, an immortal emperor, wouldn't be able to take them both out.

Thud. Another grey beam pierced the woman's ribs. There was a sliver of despair in her eyes. She knew that if she kept fighting she would be dead for certain. She subconsciously looked at Ye Mo. At this moment, she wanted to ask Ye Mo to help. If Ye Mo could help, she might be able to kill this Dao Nourishment Divine Emperor.

But Ye Mo just stared at them and didn't intend to fight at all. Seeing this, the woman sighed. She knew that the reason Ye Mo didn't help was because she didn't help him when he was about to be killed.

There was karma in this world indeed. She ran her god essence more crazily after knowing that Ye Mo wouldn't help. A blue beam flashed and nine flower petals fell. The killing intent dimension instantly became sad. An extremely sad chi diffused from these flower petals.

The extremely terrifying lethal force of the Dao Nourishment Divine Emperor was also affected by the flower petals. It was as though it didn't want to damage these nine flower petals.

Ye Mo felt an extreme sadness come. He suddenly couldn't control his emotions and wanted to use his body to block that dark ray so that the woman wouldn't be hurt at all.

At this moment, the yellow robed immortal goddess became Luo Ying and looked at him deeply "If I go, don't miss me..."

When the nine petals drifted down, it was powdered.

If she's going to die, why should I live alone...

Endless sadness rose up in Ye Mo's heart. He could no longer control his sadness and instantly released Zi Xu.

At this moment, the chaos tree waved sending over life force and chaos chi. Ye Mo instantly woke up and sweated cold. Such a terrifying god art.

He had been cultivating under the bitter bamboo for so long and cultivated the Three Birth Chant but was almost caught in this.

However, he didn't put away Zi Xu. Instead, his killing intent grew as though he was going to get revenge for the woman.

Bian Xinde saw these nine flower petals and his face changed. However, his fan spun and enveloped him. When the sad dao waves struck his fan, it only created some ripples.

Seeing Ye Mo raise his magic artefact in sadness, he rejoiced. His target was no longer this woman but Ye Mo.

The woman saw Ye Mo's sadness and resolution and suddenly felt guilty. Her flower petals powder suddenly gathered and formed nine flower petals again. These petals formed a blue light that wrapped around her as she disappeared.

"I will get revenge for you..." These were her last words before she left.

Ye Mo sneered but didn't really attack with Zi Xu. He had released Golden Bow of Immortal Extermination and shot the first arrow out.

The nearby space that was filled with sadness instantly became dead. Dense destructive chi was shot out from the golden bone arrow.

This space was filled with dao waves but due to this arrow, the dao waves dispersed. At this moment, there was only this arrow in this space.

Bian Xinde could've stopped the woman from leaving but Ye Mo was here so how could he chase after that woman. He set his gaze on Ye Mo and released the yellow fan at Ye Mo.

To him, it was all too easy to catch Ye Mo. He could catch Ye Mo like a small chicken.

The fight golden scroll of destructive chill came at him and broke all the dao waves nearby.

"Golden Arrow of Divine Extermination..." Bian Xinde immediately recognized this arrow. He swept the fan at this arrow without hesitation.

Rumble.

The golden arrow shot on the fan and the lethal force split apart. The destructive killing intent was blocked by the fan.

But at the same time, the fan exploded.

Bian Xinde didn't rejoice at all. He knew there were nine arrows to the Golden Bow of Divine Extermination. He didn't know how many Ye Mo had. If Ye Mo had more than five and could shoot them all, he would be in danger today.

Luckily, he saw from the first arrow that Ye Mo didn't completely spirit control the arrows. He could only release less than five percent of instant second power.

To Bian Xinde, it was this little immortal emperor's cunning mind that was the scariest. He pretended to be mesmerized by the nine flower petal god art but he was actually very conscious. He released the purple sword but he was actually releasing the Golden Bow of Divine Extermination. If it wasn't that their difference in power was too great, he would've been shot by the arrow.

He didn't have the mood to check the broken fan. He released a huge seal. If his full power was here, he could crush Ye Mo just by reaching out his hand but now he was too heavily injured.

Ye Mo was shocked at the same time. This Dao Nourishment Divine Emperor was too powerful. He was at his wits end and could still block that ambush first arrow. If the Dao Nourishment Divine Emperor wasn't heavily injured, then even if he had all nine arrows he wouldn't be able to touch him.

At this moment, Ye Mo shot the second arrow without hesitation.

The destructive killing intent swept up again taking away all the life force of this space.

Rumble. The second arrow was blocked by the fan again but completely destroying it this time. Bian Xinde sneered. This fan had been with him for many years but was destroyed today.

He wasn't annoyed. If he dodged all the golden arrows then he would win. The Golden Bow of Divine Extermination was hundreds of times better than his fan and the five element world was something of his dreams.

Ye Mo shot the third arrow without hesitation. He knew that even if all four arrows were blocked he would have to fight with his life, if he ran, he would die a gruesome death.

Thud. The third arrow smashed with Bian Xinde's huge seal. Even the sturdy space here was cracking. The golden arrow and seal flew out at the same time and smashed into the sturdy black ground creating a terrifying ravine.

Bian Xinde sneered. If it wasn't that his injuries were too heavy, how could Ye Mo shoot his seal away with one arrow?

Wait, Bian Xinde suddenly woke up. His fan was destroyed and his seal was smashed away. Even though the arrow was shot at him and blocked by the seal, how could it fly away. It should fall before him.

Moments later, Bian Xinde woke up. The third arrow wasn't shot at him but the seal so it could fly away.

Bian Xinde immediately knew that since Ye Mo shot his seal away, Ye Mo wouldn't allow time for him to call back his seal.

Chapter 2039 - Terrifying Dao Nourishment Divine Emperor

Such terrifying calculations. Bian Xinde actually shivered as he grabbed at the golden bone arrow with his hand.

With his current state, the golden bone arrow would quite possibly crack his hand open but as long as he grabbed it he would have greater returns. As long as he had the five element world, he could grow his hand back at anytime.

Ye Mo's face was extremely pale. He didn't expect a Dao Nourishment Divine Emperor was this terrifying. He was already in such weakened state and yet his four arrows didn't do much damage to him. If he didn't use instant second, this fourth arrow would definitely be stopped and at most blow his hand up.

If Bian Xinde stopped the fourth arrow, then he would be dead for sure.

“Instant... Second...”

Ye Mo waved his hand and used his most powerful god art.

When instant second was used, the surroundings paused. This entire space stopped moving. Bian Xinde’s expression froze.

When the golden bone arrow passed Bian Xinde’s hand and shot at Bian Xinde’s chest, Bian Xinde’s hand suddenly moved. The entire space was moved away by him and even the arrow was moved away.

The golden bone arrow was aimed at his heart but now, it could only pass through his shoulders brining out a spray of blood. Bian Xinde’s face instantly became fatigued. Clearly, it wasn’t easy for him to use space god art.

Ye Mo was extremely shocked. He had already tried to overestimate Dao Nourishment Divine Emperor but this Dao Nourishment Divine Emperor was still this powerful. He broke free from his instant second and moved the space in front of him.

Compared to the Dao Nourishment Divine Emperor’s space law, Ye Mo felt like his space law was a baby learning to walk. This was a true great god art. Moving space. If Bian Xinde was fine, then even if he used instant second a hundred times, it would just be a joke to him.

Bian Xinde saw that his shoulder blade was blasted away and his face sunk. He grabbed the golden bone arrow and said coldly “A little immortal emperor actually learned time law. No wonder you dared to stay behind. But I’m going to show you what true despair is...”

Ye Mo’s face went as grey like his hair. For the first time, he saw such a terrifying person. Was Dao Nourishment Divine Emperor truly this terrifying? And this was an extremely heavily injured Dao Nourishment Divine Emperor.

Ye Mo truly realised how terrifying that Dao Moulding Divine Emperor immortal goddess was to be able to fight with this Dao Nourishment Divine Emperor to this degree.

Seeing the intense killing intent of this Dao Nourishment Divine Emperor, Ye Mo knew he had no chance to hesitate.

All his god art was nothing to this Bian Xinde. Ye Mo instantly decided to fight one last time and use the newly learned god art at full power, Great Primordial God Rune.

Great Primordial God Rune was a great god art but Ye Mo didn't have the power to release such god art.

essence blood and god essence was all burned by Ye Mo like crazy. His hair instantly grew out and he went from a bald monk to a long haired man. However, his hair was grey and getting whiter. When Bian Xinde released his god art, Ye Mo raised his hand and said slowly "Great Primordial... God Rune... Tear the heavens and shatter the earth, destroy everything..."

"Great Primordial God Rune..." Bian Xinde's face changed and he immediately gave up his god art and turned to leave.

The instant he turned, Bian Xinde was full of regret. There were countless regrets in one's lifetime but Bian Xinde knew his greatest regret wasn't stopping Ye Mo but turning away from the Great Primordial God Rune.

Great Primordial God Rune ignored space and time law but Ye Mo was a mere immortal emperor. Even if he released Great Primordial God Rune, it would only have the look but not the actual force. He didn't need to be scared.

Such Great Primordial God Rune wouldn't even be able to break through his space law, why did he need to run? Even if he took it on by force, he could still run away.

However, there was only one chance and now it was gone. He subconsciously wanted to run upon hearing the name of this terrifying great god artefact.

Two subtle Great Primordial God Runes hit Bian Xinde and his body started to distort and cripple. A Dao Nourishment Divine Emperor died to the name of a god art. This was sad but it also showed the

terrifying name Great Primordial God Rune had. Only those who have heard of it would know instant second terror.

Ye Mo looked dazily at this Dao Nourishment Divine Emperor. He really didn't believe this, he didn't understand why Bian Xinde ran when he released Great Primordial God Rune.

With Bian Xinde's power, even if he walked over the two Great Primordial God Runes, he wouldn't die much less his newly learned Great Primordial God Rune. It might injure him more but definitely wouldn't be able to kill him.

"Just what is Great Primordial God Rune? It made a Dao Nourishment Divine Emperor this scared of it?" Ye Mo murmured and looked at his hand.

He was planning to use instant transmission the instant Bian Xinde stopped Great Primordial God Rune. He couldn't even care about his four boen arrows. However, he didn't expect that the Great Primordial God Rune just annihilated this Dao Nourishment Divine Emperor.

A wave of weakness came. Ye Mo didn't dare to keep thinking. He quickly took his golden bone arrows as well as Bian Xinde's storage ring and magic artefact and turned to leave.

He desperately needed to find a place to recover.

Ye Mo's injury was worse than Bian Xinde but luckily the chaos tree kept nourishing his body. Even with one extra second, his injuries would recover a lot.

After Ye Mo left for 15 minutes, he suddenly felt things weren't good. He didn't see the essence spirit of that Dao Nourishment Divine Emperor. Was his essence spirit killed by the Great Primordial God Rune?

Ye Mo was suspicious. If a Dao Nourishment Divine Emperor essence spirit hid, it was normal that he couldn't see it. Thinking about this, Ye Mo became more worried. He changed a direction and fled. Regardless if that essence spirit was killed, he had to find a place to recover and vindicate dao first.

After Ye Mo left, Bian Xinde's essence spirit suddenly appeared. He stared at Ye Mo's direction and cursed "If I, Bian Xinde, don't pull your bones and burn your soul, I swear I'm not human."

As soon as he said this, he screamed. A crack appeared in his essence spirit and his essence spirit dimmed down even more.

"I hate this... Great Primordial God Rune's runic path..." Bian Xinde's essence spirit howled and finally disappeared.

The terror of the Great Primordial God Rune wasn't just with instant second rune but also the runic path left behind. If the person was still within the range of the rune, he would be killed by the runic path left behind.

Chapter 2040 - Sever Dao Dao Moulding

When Bian Xinde's essence spirit disappeared, a bead fell down. However, Ye Mo didn't know about this at all. He just wanted to find a place to recover.

"Hmm, who took the two Great Primordial God Rune dao waves here?" A bald headed old man stood where at where the two Great Primordial God Rune waves were.

"Who dares to rob my business?" The old man roared but then he calmed down.

The reason the Great Primordial God Rune rune was left here for countless years without being learned was because ordinary people couldn't learn it at all. Almost everyone who entered the God Necropolis Domain would come here to learn the Great Primordial God Rune but none of them have succeeded.

Gongyang An got quite some fortune at the God Necropolis Domain this time and came back to see if he could learn the Great Primordial God Rune. However, the Great Primordial God Rune was gone. He calmed down so quickly because he could image that the person who learned this rune wouldn't be simple. Since the person learned Great Primordial God Rune, even he might not be a match for this person.

Gongyang An sighed dejectedly “It seems I can only go to life sucking barren restriction. I’ve stayed outside all these years just for the two Great Primordial God Runes but it’s still not mine, sigh...”

Gongyang An sighed and disappeared.

In a very subtle place in the God Necropolis Domain, Ye Mo let out a long breath in the golden page world. He had been recovering in the golden page world for many years with the help of the chaos tree before recovering.

There were too many dangers in the God Necropolis Domain but there were equally as many fortunes. If he didn’t see the two Great Primordial God Runes and learned it, he might’ve been dead already.

He completely didn’t expect that a Dao Nourishment Divine Emperor would be this terrifying. Although he knew he would benefit more if he went out, Ye Mo didn’t dare to go out. There were divine emperors everywhere in this God Necropolis Domain, before dao vindication, he was worse than an insect.

If he vindicated dao, he believed that he wouldn’t even fear a Dao Nourishment Divine Emperor.

He opened the two storage rings. He got a decent magic artefact from Lian Qisui’s ring and 300k god crystals. As for god pills and god spirit herb, they were very rare. What made Ye Mo overjoyed was the Dao Nourishment Divine Emperor’s ring. There was not only a low grade god spirit range but also 2 million god crystals as well as all sorts of god spirit herbs and forgery materials that were stacked in piles.

If it was before, Ye Mo would definitely organized the god spirit herb and materials first but now, Ye Mo immediately took out the god crystals and god spirit range into the golden page world and set up a top level spirit gathering formation.

He needed god crystals and god spirit range to vindicate dao. Although dao vindication was mainly about learnings and enlightenments and not infinitely devouring god spirit chi, god spirit chi was still a necessity.

Just in case, Ye Mo set Qiu Rang, shadowless and small ginseng into the blue bead world. It wouldn't be good if something went wrong with his dao vindication due to these three.

Ye Mo sat under the bitter bamboo. The chaos tree spun in his dan tian. In the golden page world, Ye Mo completely relaxed. His essence spirit and consciousness had fused into one with his chaos world.

Ye Mo choose to vindicate dao in the golden page world. He didn't have time to go find time law whirlpool nor space law whirlpool. After learning Great Primordial God Rune, he had given up that way of dao vindication.

Using law whirlpool to vindicate dao could allow him to learn law god art and then vindicate dao. But this changed when Ye Mo killed a Dao Nourishment Divine Emperor with Great Primordial God Rune. He believed it was easy to vindicate dao with the law whirlpool but there was limitations to this dao. It would make him unable to surpass dao in the future.

The Three Birth Chant dao vindication was different to other dao vindication methods. Three Birth Chant vindicated the chaos dao and surpass the heavens.

So when the five elements were united in the golden page world, Ye Mo had decided to vindicate dao in his chaos world. He was going to use golden page world as a bridge to vindicate the chaos great dao.

"At the great primordial, there was nothing, nothing had the name nothing. At the beginning of one, there was one but no form."

"Great primordial person, the beginning of chi..."

"Great primordial had dao, dao existed with spirit..."

Waves of great primordial law and great primordial dao wave formed in Ye Mo's will. The more he understood this dao wave, the greater the great primordial dao wave was.

Ye Mo's face suddenly changed. Great Primordial God Rune was just a Great Primordial God Rune of his. He had already decided to not vindicate dao through god art. How come everything he learned was

related to great primordial? If this continued, even if he vindicated dao, he would never vindicate the dao he needed.

Plus “Great primordial had dao, dao existed with spirit...” Such will was not even accept by Sikong Shan, even Ye Mo felt it was wrong. How could such theory exist in his will?

The Three Birth Chant derived a dao with great courage, great wisdom and great perseverance not small tricks and games in god art dao vindication.

Ye Mo showed resolution on his face. He severed with his spirit sense without hesitation “Sever Great Primordial God Rune...”

Rumble. An explosion sounded in Ye Mo’s spirit will. Ye Mo’s face went paler and he spat out a mouthful of essence blood. The newly learned two Great Primordial God Runes were severed.

“At the beginning of chaos, dao formed, five elements bom, something flowed, it had no shape nor matter, it was time...”

“The instant of time, can become eternity...”

Ye Mo’s face changed again. In order to vindicate dao he severed Great Primordial God Rune god art but it turned into instant second time god art. At this rate, he was going to vindicate dao through his instant second god art and time law. He was certain that if he did this, his instant second god art would be hundreds of times stronger.

But Ye Mo dind’t want such dao. Such dao was no different to Great Primordial God Rune.

“I will vindicate dao chaos, the most high dao, sever...”

Ye Mo was extremely resolute and severed his god art instant second.

Sever god art shatter sky...

Sever god art Five Lightning Spear Destruction...

Sever god art crevice...

Ye Mo's face went paler. The god arts he learned after countless hard work were severed mercilessly by him. he would sever any god art that influenced him from vindicating great chaos dao.

Rumble. When Ye Mo severed his final god art void, he had fused with his chaos world.

At this moment, he was connected to the chaos world, he saw everything and heard in the golden page world. He knew when a speck of dust moved in his golden page world.

There started to be space ripples in the golden page world space as though the entire world was waving. The border of the chaos expanded. The entire golden page world expanded more than a hundred times.

Under the bitter bamboo, Ye Mo found that the laws of this world became more perfected. The laws that he saw before but didn't understand became easier to understand.

Ye Mo's figure condensed and he suddenly got up. A powerful chi filled the golden page world. His grey hair turned black and no longer had the weakened chi.

The god arts he severed circulated around him and soon fused with the chaos chi. They were learnt by Ye Mo again and soon completely fused as one with Ye Mo.

There was no lightning, just a chaos rainbow cloud falling from the sky and landing on Ye Mo. There was an extremely satisfying feeling. Ye Mo raised his fist and punched. A huge ripple formed before his fist. He could let this punch smash any corner at this moment.

Ye Mo breathed. He realised that after fusing with the god arts again, they became stronger. More importantly, they truly became his. He could easily turn them into great god art in the future.

Ye Mo devoured the chaos rainbow cloud and suddenly a message appeared in his spirit will. He had moulded chaos dao.
