

Strongest As 2041

Chapter 2041 - Sain

He just suddenly moulded dao. Ye Mo was a little surprised. He thought dao vindication would be very hard but after he resolutely severed dao, he vindicated dao. If he was any bit reluctant, he wouldn't be able to vindicate the dao he needed.

Feeling his powerful strength and the clear world laws, Ye Mo knew he needed to go into solitary cultivation and organize what he had learned as well as the follow up cultivation method of Three Birth Chant in dao vindication. After dao vindication, it was mainly about learning dao but it didn't mean you didn't need cultivation method. Without it, your cultivation couldn't progress.

Ye Mo didn't know how much time he used to vindicate dao. When he called shadowless and small ginseng, Ye Mo realised that despite seeming like a short time, it had been more than ten years.

Ye Mo went into solitary cultivation again.

Time flew by but Ye Mo knew dao moulding even clearer. There was Dao Moulding Divine Emperor, Dao Nourishment Divine Emperor and Dao Actualisation Divine Emperor after immortal emperor. After reaching Dao Actualisation Divine Emperor, you could enter the second stage. Dao Essence Divine Emperor was the second stage powerful being.

In order to Dao Essence Divine Emperor, it's purely about learning and stacking of resources. Even if you're extremely smart, you wouldn't be able to achieve dao essence. Even if you have mountains of resources, if you don't have great learning capabilities, you couldn't achieve dao essence.

It was because of this that even in the easy to vindicate dao God Necropolis Domain, Dao Essence Divine Emperor were extremely rare. Each Dao Essence Divine Emperor was extremely powerful and unique.

As he derived, Ye Mo felt the dao he moulded was different to ordinary Dao Moulding Divine Emperor. Although his power increased infinitely, he only vindicated a part of the chaos dao. Only when he reached primordial chaos would he perfect his dao.

Far away from Ye Mo in the Immortal Goddess Sacred Sect, Mu Xiaoyun got up in surprise and joy. She reached great unity immortal.

“Xiaoyun, you reached great unity immortal?” Luo Biyue came over.

Mu Xiaoyun opened the restriction and said with a face of joy “Yea, sister Biyue, I feel cultivating here is better than the small heaven domain. My immortal essence is also denser.”

“Xiaoyun, we’re cultivating with god spirit chi here. Of course our power would be stronger. You need to be used to saying god essence, immortal essence isn’t this dense.” Luo Biyue said happily.

Mu Xiaoyun nodded “Mhm, if I was still at the small heaven domain, I would at most be abstruse immortal middle stage. If I continue at this speed, it wouldn’t be long until I reach immortal emperor.”

Luo Biyue knew what Mu Xiaoyun thought and said “Xiaoyun, I know you want to bring up your cultivation level fast but you must know that if you rush cultivation, it will be detrimental. Even with how I’m recovering my cultivation level, I’m doing it in an orderly fashion. Later on, cultivation isn’t just about taking in more essence chi it’s also about learning and enlightenments.”

Mu Xiaoyun quickly answered “I know, sister Biyue.”

Just when Luo Biyue wanted to talk, a few distant bells sounded. She looked at the direction and said “There must be something at immortal goddess peak. It has nothing to do with us. Immortal Goddess Sacred Sect sounds like a big sect but they’re so stingy. If master didn’t take us in, we would’ve been dead already.”

“Sister Biyue, I want to find a place to test my power.” Mu Xiaoyun asked.

“Okay, as long as we don’t leave Lanyi Peak. No matter how arrogant those people are, they wouldn’t come to our peak.” Luo Biyue also wanted to see how Mu Xiaoyun was after reaching great unity immortal. Mu Xiaoyun’s cultivation method was a top notch cultivation method that even her master felt was good. Other than learning the beauty cultivation method of the Immortal Goddess Sacred Sect, she didn’t need to change anything.

"It's good that both of you are here, you don't need to go test your cultivation level. There's something big in the sect, come with me to Immortal Goddess palace." Lan Qilan said softly.

Seeing their master come, the two quickly bowed.

"Master, are we going too? Xiaoyun..." Luo Biyue said hesitantly. Lan Qilan understood of course. They were hiding in Lan yi peak as they didn't want to go out and get abused by other disciples.

Lan Qilan smiled "It's fine coming with me this time. Don't go to other places after the immortal range palace. Just come back here directly. This thing is very serious. All the direct sect members of the Immortal Goddess Sacred Sect must participate, so you guys must come too."

"yes master." Luo Biyue and Mu Xiaoyun quickly said.

The tallest peak in Immortal Goddess Sacred Sect was the immortal goddess peak and the biggest palace was the Ice God Palace palace. The distant bell sound spread across the sect. Countless Immortal Goddess Sacred Sect members flew towards the palace.

The two knew they had little status here so they followed their master closely.

Dang. When the final bell sounded, almost all the sect members were here.

There were at least more than a thousand sect members here. There was indeed no ugly women in the Immortal Goddess Sacred Sect. Mu Xiaoyun couldn't see through their power level but in this palace, she felt she was the weakest.

At the very top sat a purple robed woman. Mu Xiaoyun just snuck a glance at her and felt a powerful spirit sense fall on her. She quickly looked down.

The palace was silent. The purple robed woman scanned the sect members and said slowly "Our Immortal Goddess Sacred Sect had been in the divine dao realm for countless years and have even become the most powerful and respected sect in the divine dao realm. We're respected because our sect once saved the divine dao realm but also because of our power.

The divine dao realm is broken and dao vindication is getting harder and harder. Our Immortal Goddess Sacred Sect is far better than other sects but we're still facing such trouble. A hundred years ago, our saint Ji Xi left the sect and went to God Necropolis Domain to seek dao. However, twenty years ago, her soul lamp became extremely dim and these few days it's about to go out..."

The quiet palace finally erupted in chatter. A high status divine emperor asked desperately. In the Immortal Goddess Sacred Sect, the saint's soul lamp must always remain lit. If it was annihilated, it would mean that the Immortal Goddess Sacred Sect was going to decline. So every saint of the Immortal Goddess Sacred Sect would have escape means even if they were about to be killed. At the very least their essence spirit would be able to escape.

Luo Biye and Mu Xiaoyun could tell this purple robed woman's voice was a bit coarse and she was the sect leader that let them stay.

After the chatter went down a bit, the purple robed woman said again "I think everyone knows why the immortal range bell was rung."

The palace fell silent. Everyone realised that it was the day to choose a new saint and light up the saint soul lamp again.

The saint had very unique status in the Immortal Goddess Sacred Sect but she had unique responsibilities. She must be ready to sacrifice for the sect at anytime.

She lived and died for the sect.

The purple robed woman sighed "We have plenty of sect members but it's very hard to find one with saint talent..."

"Sect leader, in terms of talent we really do have one. Her talent is even better than saint Ji Xi." A grey robed woman got up and said.

The sect leader's face changed as she said "Yunhuai, which one?"

The grey robed woman quickly said “Out of the two disciples Qilan martial sister took in, there’s one called Mu Xiaoyun. She reached great unity immortal from abstruse immortal primary stage in twenty years. Such cultivation speed is extremely hard to find even in the divine dao realm.”

This Yunhuai woman was the one who looked at Mu Xiaoyun with killing intent. Mu Xiaoyun didn’t understand why this Yunhuai always tried to sabotage her.

Qi Lanqi couldn’t resist it and got up “Sect leader, Xiaoyun is only great unity immortal cultivation level and she has married someone before, how can she be saint? Martial sister Yunhuai, you said before that Xiaoyun lost her virginity and didn’t allow her to stay in the sect. What is your intention proposing for her to be saint?”

Chapter 2042 - Lose Half Soul

Seeing her master’s desperate tone, Mu Xiaoyun knew there was something strange about this saint.

Yunhuai calmly said “Martial sister Qilan, I thought wrong before. Sect leader already told me, the ocean takes in all the rivers. Our sect had people who lost their virginity before.”

Lan Qilan’s face went green. She knew Yunhuai was talking about her mom and martial sister but she knew now wasn’t the time to argue about this, she immediately got up and wanted to say something but the purple robed woman said “Qilan, you don’t get to decide this. Xiaoyun, stand out.”

Hearing this, Qi Lanqi didn’t dare to say anything and sat down with a pale face.

Hearing this, Mu Xiaoyun quickly stood out and bowed “Lanyi peak Mu Xiaoyun greet sect leader.”

“Mhm.” The sect leader studied Mu Xiaoyun for a while and said “Not bad, dense essence chi and astounding cultivation progress. Xiaoyun, you’re a sect members of the Immortal Goddess Sacred Sect, are you willing to be our saint?”

Mu Xiaoyun replied respectfully "Sect leader, I'm already a married woman, my life goal is to cultivate successfully and go back to see my husband."

The purple robed woman frowned and asked "Who is your husband?"

Mu Xiaoyun didn't dare to hide and told her everything about Ye Mo.

The purple robed woman said nicely "According to what you said, there's no way your husband can find the teleportation formation you left the magical continent with. It seems your husband is probably not alive anymore. The magical continent doesn't even have spirit chi, how can one cultivate dao?"

"Sect member only has husband in my heart, I don't dare to seek the saint position. Please see this sect leader." Mu Xiaoyun said.

Lan Qilan was very worried. She could reject Yunhuai but it didn't mean she could reject the sect leader. Mu Xiaoyun was her disciple and yet dared to object to the sect leader.

"How dare you, Mu Xiaoyun, you're a small sect member of Immortal Goddess Sacred Sect and you dare to talk to the sect leader like this." Yunhuai reproached.

Yunhuai then said to the purple robed woman respectfully "Lan Qilan is a Dao Moulding Divine Emperor of the Immortal Goddess Sacred Sect and yet the disciples she taught are this rude. Sect leader, if our Immortal Goddess Sacred Sect continues like this it would no longer have the attributes of the number one divine sect. I believe many people have already forgot about the prison door mountain, sect leader..."

The purple robed woman raised her hand and looked calmly at Mu Xiaoyun "We'll do things like this. Qilan, Mu Xiaoyun is your disciple. She has no respect for elders and it's your responsibility. Your master was extremely talented but fell to such consequence due to one decision. I hope you make your decisions wisely."

Lan Qilan knew that if she dared to say anything else, she would be sent to the prison door mountain. Her master died in there and if she went, she wouldn't be able to come back too.

Mu Xiaoyun didn't dare to talk anymore too. Her master told her the story about it.

The purple robed woman waved out a bronze lamp, there were slivers of sparkles inside that could be annihilated at anytime. Everyone looked at the lamp and realised that it was indeed about to go out.

The purple robed woman grabbed and Mu Xiaoyun felt something leave her body. The purple robed woman took out the small light in the lamp and put the thing she grabbed into the lamp.

Finally, the spark went out but the lamp lit up brightly.

Lan Qilan's face changed and couldn't resist saying "Sect leader, only one sliver of spirit will is needed to light up the lamp, why..."

Before Lan Qilan could finish, the purple robed woman said coldly "Qilan, you've made many mistakes. If you do so again, then go to the prison door mountain."

"Yes, sect leader." Lan Qilan bowed with a pale face.

The purple robed woman then looked at Mu Xiaoyun "Xiaoyun, you're now the saint of Immortal Goddess Sacred Sect, you can't go back to Lanyi peak. Stay at immortal range peak."

"Yes, sect leader." Mu Xiaoyun's heart was cold. How could she not know now that if she resisted, her master would be thrown into the prison door sect.

Without her master, she would've long been killed already.

Seeing Mu Xiaoyun agree, the purple robed woman's face eased. She looked at Yunhuai and said "The previous saint is still stuck in the God Necropolis Domain. You and Ruicai go have a look."

"Yes, sect leader." Yunhuai bowed and another blue robed woman bowed too.

“Master, is Xiaoyun okay?” Luo Blyue asked immediately when they returned to Lanyi peak. Mu Xiaoyun was already like a sister to her, she didn’t want anything bad to happen to Mu Xiaoyun.

Lan Qilan sighed and shook her head “Xiaoyun is fine for now but I always have a bad feeling. It’s definitely the sect leader’s will for Xiaoyun to be saint. As for what the sect leader wants Xiaoyun to do, I don’t know. Sigh, one only needed a sliver of spirit will for the soul lamp but the sect leader took half of Xiaoyun’s soul...”

Lan Qilan felt this thing was very strange but she couldn’t think of why.

Luo Biyue was shocked. People had three souls and seven spirits. If half a soul was gone, it meant that the soul was incomplete. One couldn’t* achieve dao through this, how could the saint of Immortal Goddess Sacred Sect not vindicate dao? Even if master didn’t respond, she realised that Mu Xiaoyun was not the real saint. She was just a temporary substitute.

Such sect dared to call itself Immortal Goddess Sacred Sect, it was insult to these words. There was nothing her master could do and nothing she could do. She could only pray that Mu Xiaoyun would be fine.

In the God Necropolis Domain, 10000km from Ye Mo’s solitary cultivation grounds, there was an extremely huge. Even spirit sense couldn’t scan to the bottom of this fist print. There were dao waves ravaging in the fist print. People can easily be torn to pieces by the dao waves.

Those who came to the God Necropolis Domain all knew that this fist was punched out by an ancient Primordial Essence Divine Emperor.

In the depth of the fist print, there was a pond filled with purple water and above the pond floated a woman with broken yellow robes.

If Ye Mo was here, he would recognize her to the immortal range who fought the Dao Nourishment Divine Emperor. Her chi was very weak and seemed about to die at anytime.

But the purple well water below her rose up purple chi that enveloped her. Her chi was getting weaker but her heavily injured body was getting smoother. The wounds left by the battle were already gone.

Eventually the purple chi dimmed to a stop. When the purple chi completely disappeared, the life force of this woman disappeared.

A few seconds later, her life force suddenly rose.

The woman flipped up and stood in the air of the colorless pond. She murmured "Where is this? How did I get here?" She soon realised she was in rags and quickly put on a new set of clothes.

After this, she exclaimed in shock, "How come I don't sense the divine sect soul lamp? What is going on?"

She looked at her white hand in even more shock. She moved and the nearby space was taken away.

"There's no connection to the soul lamp but my cultivation level reach Dao Nourishment Divine Emperor. What is going on?" She stood dazily in the void.

She walked over the pond and landed on the side as she recollected her memories.

Before, she battled a Dao Nourishment Divine Emperor and they were both injured, then, both of them saw an immortal emperor peak stage who was the one she didn't help before. That immortal emperor wanted to be the ultimate hunter behind them so she used that idiot immortal emperor to escape.

Then, she came to the primordial essence fist ditch. She wanted to fly over it but she was too heavily injured and was brought inside by the dao waves. Luckily, her protection laws around her were activated and let her survive. She was swept by a nearby space whirlpool and floated above a purple pond.

Right, the purple pond turned her into this, what pond water could let her go from Dao Moulding Divine Emperor straight to Dao Nourishment Divine Emperor? It also washed off everything related to the divine sect on her.

Ye Mo stood on the God Necropolis Domain surface again. The nearby ancient chi gave him less shock but Ye Mo felt his chi was strange. In the golden page world, he was definitely Dao Moulding Divine Emperor but in the God Necropolis Domain, he felt his chi was still at immortal emperor peak stage. It was at most half divine.

Ye Mo was certain that he didn't steal his cultivation method but his cultivation level showed at immortal emperor. Was the dao he vindicated inside the golden page world not recognized by the outside world?

In his shock, Ye Mo raised his hand and punched out. Fist god art void. This was his earliest god art and had a sliver of space law. Before, he could brought about the space lethal force with killing intent but now, all the space was brought up in the fist force and the sharp killing intent gathered in the space.

Thud. The sturdy space was punched out ripples but this punch. The sturdy ground was punched out a huge ravine. This punch was no longer killing intent brining out space lethal force but fist force bringing about space. This was far stronger than before. Ye Mo breathed easy. Although his chi showed at immortal emperor, his cultivation level was completely a real Dao Moulding Divine Emperor.

As long as his cultivation level was there, it was fine for Ye Mo. Without the actual power, it was pointless even if he appeared to be Primordial Essence Divine Emperor.

Two hours later, Ye Mo stood before a huge fist ditch. He was extremely shocked. Ever since he vindicated dao, he had a systematic understanding of laws. His god art was changing into a law god art and he punched out a huge ditch as well.

This fist ditch was countless times bigger than his. His spirit sense couldn't even scan to the bottom. He didn't even know how big this fist hole was. Ye Mo had seen many battle marks and ones more terrifying than this one outside the God Necropolis Domain. But Ye Mo knew that the space here was more than 100 times stronger and so was the ground.

What shocked him the most wasn't instant second size but the terrifying dao wave chi inside. Even with his Dao Moulding Divine Emperor spirit sense, it was grinded immediately.

To be able to leave such terrifying fist hole and such terrifying dao wave, this person was more than 100 times stronger than him. Ye Mo's join of vindicating dao was long gone.

He didn't know if this was left behind by Primordial Essence Divine Emperor or not. If it really was, then the terror of Primordial Essence Divine Emperor was unimaginable.

"One can actually cultivate to such extent and leave such a terrifying fist hole in the God Necropolis Domain. If it was outside, couldn't one punch destroy half the broken divine dao realm..." Ye Mo murmured. After saying this, Ye Mo seemed to have grasped something but this thing was very subtle making it hard for him to completely grasp it. "Insolent." A cold voice sounded. And then, a yellow figure rose out of the fist hole.

"It's you..." Ye Mo took a few steps back and stared at her with vigilance. She knew this woman, she was the Dao Moulding Divine Emperor who fought with that Dao Nourishment Divine Emperor. She was now a Dao Nourishment Divine Emperor too.

There was a sliver of shock in her eyes as she said coldly "I didn't expect a mere immortal emperor like you can not only survive in the God Necropolis Domain but also escape a Dao Nourishment Divine Emperor. I underestimated you."

Although she said this coldly, her voice was extremely pleasant.

She guessed that Ye Mo had a lot of secret but she didn't ask. Who here didn't have secrets. Those who didn't have secrets have long turned to dust in the river of time.

Ye Mo just stared at her coldly and said nothing. Despite this woman being extremely pretty, he knew she wasn't easy to mess with.

When she was still a Dao Moulding Divine Emperor, she could fight to death with a Dao Nourishment Divine Emperor, now that she was Dao Nourishment Divine Emperor, who knows if she could match with Dao Actualisation Divine Emperor. Plus, his spirit sense was immediately grinded to nothing inside but she could fly out of the fist hole. Just from this, she was stronger than him.

Ye Mo had never fought with Dao Actualisation Divine Emperor but he knew that it was probably a bit hard for him to beat a Dao Actualisation Divine Emperor but it wasn't easy for Dao Actualisation Divine Emperor to beat him either.

"On the account of what happened before, I'll tell you something. I said you were insolent as you don't know what this place was when this punch landed. When this punch landed, this place was still the hardest place in the divine dao realm. It was ten times harder than now." The immortal range said coldly.

Ye Mo knew that she meant on the account of using him to escape before, however, he was still shocked by what she said. The space was ten times tougher than now? What notion was that? That punch wouldn't even be something he could fathom.

"If you dare to go in the fist hole, the dao waves could kill you at anytime." Then, the immortal range was turning to leave.

"Wait..." Ye Mo suddenly stopped her.

The immortal range stopped and looked at Ye Mo calmly "I'm saying this because you happened to help me a little bit. If you think that's saving my life and want to use that against me, then I suggest you give up that thought. Even without you, that person wouldn't be able to kill him."

Ye Mo said "Use that against you? You think too highly of yourself. I just want to ask what's the way out. If you tell me, then I won't care about you using me before."

Won't care? The immortal range shook her head.

"Don't even think about going out. Coming in the God Necropolis Domain is for vindicating primordial essence. If you don't reach Primordial Essence Divine Emperor, no one wants to go out and no one can go out." The immortal range said calmly.

Ye Mo frowned and she added "Those divine emperors who came in here and didn't die would go to the outskirts of the Life Crippling Barren restriction. Some of them have gone in. If you have the guys to go, you can ask them. I've only been in here for a few decades. But on the way to the Life Crippling Barren

restriction, there's law dao waves everywhere. Some are calm but some are lethal. Countless divine emperors have died on the way there."

Her last sentence was clearly to warn Ye Mo not to go as he was only an immortal emperor.

"Where is it?" What she didn't expect was that Ye Mo still asked how to go.

The immortal range looked at Ye Mo speechlessly. She said it so obviously but Ye Mo still wanted to know how to go there.

"You really want to go there?" The immortal range repeated?

"That's right, tell me where it is and our conflict is gone. Otherwise, even when you vindicate dao essence you will feel bad as you used an innocent person and almost got him killed." Ye Mo said.

She had never even cared about using Ye Mo. She didn't care at all if Ye Mo died.

But now it was different. Ye Mo brought this up and said it might affect her dao essence. This was very sly. She didn't care about it at all and definitely wouldn't remember it at dao essence but now that Ye Mo said it, her mind set might actually crack a little due to this. This might ruin her dao essence.

For the first time, she looked at Ye Mo seriously. Without a clear understanding of great dao, he wouldn't be able to say this. Only those who vindicated dao and understood dao vindication would say this. Was Ye Mo a Dao Nourishment Divine Emperor too and just hid his power?

The more she thought about it, the more she felt it was possible. Otherwise, how could he escape from a Dao Nourishment Divine Emperor?

"I told you a lot before just because we've had a common enemy. You might have casually helped me but I don't feel you owe me anything." The immortal range said coldly. She must not leave a mark in her heart due to this.

Chapter 2044 - Primal Stage Sword Dao

Ye Mo smiled. Playing dao mark shenanigans with me. Even if you're Dao Nourishment Divine Emperor, you're still a far cry from me. Ye Mo said calmly "Because you used me. You feel guilty, that's why you said a lot. In fact, your words didn't help me at all. It just wasted some time. You used me, it's a small thing to you but it's life or death to me. If I wasn't lucky, I would be dead now. You need to know that you were the one who was supposed to die."

The immortal goddess's face went pale. She knew she couldn't keep talking now. This thing has already left an extremely deep mark in her heart. If she didn't remove this mark, she definitely wouldn't be able to reach dao essence.

"The road to life crippling barren restriction is very far. Even if a Dao Nourishment Divine Emperor comes in, there's less than half chance that they can reach there. It's not that I don't want to tell you where it is but even I don't know where it is." The immortal goddess said.

Ye Mo dazed. He thought that the reason she argued with him till now was because she doesn't want to tell him where it is. In the end, she actually didn't know. Why didn't she say it earlier?

"Are you not going to life crippling barren restriction?" Ye Mo asked in disappointment. If she wasn't going, he would leave immediately.

"I am going to the life crippling barren restriction." The immortal goddess said helplessly.

Ye Mo sneered "You just told me you didn't know where it is and now you're telling me you're going there. Haha, your Immortal Goddess Sacred Sect is such a trash sect? Full of lies."

The immortal goddess's face sunk "If you dare to say anything else about the Immortal Goddess Sacred Sect I will kill you here."

Ye Mo laughed and raised his hand. Zi Xu appeared in his hand and he also said "If you want to fight then fight, would I be scared of a woman like you?"

The immortal goddess didn't fight. Ye Mo could escape from that Dao Nourishment Divine Emperor and she felt things was strange. But if Ye Mo stealthed his cultivation level, why did he keep asking her about the life crippling barren restriction?

"All those who vindicated dao in the God Necropolis Domain can feel the calling of the God Necropolis Domain. You're a mere immortal emperor, of course you can't sense it. feeling it's call doesn't mean you know where it is. Some people have felt its calling and haven't been able to get there after a few hundred years." The immortal goddess said calmly.

Hearing this, Ye Mo's face blushed. He vindicated dao in the golden page world, no wonder he couldn't feel the calling of the life crippling barren restriction.

"Are you going to the life crippling barren restriction?" Ye Mo put away Zi Xu and asked casually.

Seeing this, the immortal goddess got less angrier and answered "Yes."

"Very well, I will follow you. After we get there, the conflict between us will be over. You can cast aside the burden and reach your Dao Essence Divine Emperor." Ye Mo immediately said.

Ye Mo then added "As long as you're heading towards the life crippling barren restriction, even if I'm killed by the dao waves of the God Necropolis Domain, it has nothing to do with you and our conflict will also be gone.

The immortal goddess ignored Ye Mo and started to go. She didn't believe a mere immortal emperor can keep up with her. If something happened to Ye Mo on the way, she definitely wouldn't help.

Ye Mo knew what she was thinking of course but he didn't care.

She went very fast and didn't even care about some of the dao waves.

Four hours later, she stopped and looked coldly at Ye Mo "You're a dao vindication divine emperor and yet you act as an immortal emperor. You're following me with such low means. Don't you think it's shameless? If you're thinking of getting close to me in such way, I'm telling you, it won't work."

Since Ye Mo could keep up to her, he definitely wasn't an immortal emperor. In that case, Ye Mo can definitely sense the calling of the life crippling barren restriction. Since he knows how to get there and still wanted to follow her, he was clearly doing this on purpose.

Since Ye Mo didn't know what treasures she had, he came for her.

Ye Mo sneered "You're not the princess you think you are. I heard the women from Immortal Goddess Sacred Sect aren't very talkative. Why do you have so much sh*t to say? Just lead the way, any of my wives are prettier than you."

The immortal goddess was almost shaking with anger. Luckily she still had reason and just ignored Ye Mo as she sped up.

Three days later, she stopped. Before her was this land of pebble stones filled with death. There was a long single edged sword rune and a long double edged sword rune crossed together.

The heaven covering dao wave was emanating murderous intent. It made the already lifeless place more suffocating.

As soon as the two walked in, the pebbles on the stone immediately turned to dust.

The immortal goddess came up to the doubled edged sword rune and sat down. Ye Mo knew that she wanted to learn the god art there. He went to the single edged sword rune and sat down.

Even if she didn't sit down, Ye Mo would sit down to feel the sword dao waves. If she didn't want to wait for him, he would use words to make her.

Ye Mo devoured waves of dao runes. He saw a huge man waving the sword ray in his hand. The sword ray sliced a crack in the void. Meanwhile, his opponent pierced out a double edged sword. It seemed very plain but it could stop that heaven tearing single edged sword ray.

Ye Mo gradually learned the sword dao chi and even forgot he was still learning it. the next moment, that deep sword mark on the ground turned into a true sword mark god art.

At this moment, the immortal goddess suddenly felt a sword mark slice from the void at her forehead.

In this desperation, her will brought out the sword will on the ground and smashed against the sword mark.

The clear sound of swords clashing appeared. The sword mark turned into all sorts of sword beams while the double edged sword will turned into countless sword chi.

The sword beams and sword chi clashed together turning all the pebbles to nothing. The sturdy black ground was carved with sword marks.

At this moment, Ye Mo and the immortal goddess didn't know this at all. They were immersed in this slaughter and didn't dare to let loose at all. It was as if that if they let loose for one moment, they would be killed.

Ye Mo felt that he had too many sword marks but it couldn't stop the sword chi. Suddenly, the scene of him killed the Dao Nourishment Divine Emperor appeared in his sea of consciousness. The Dao Nourishment Divine Emperor was killed by the Great Primordial God Rune. What if he fused the two Great Primordial God Rune into his sword mark?

Chapter 2045 - Vindicate God ar

Ye Mo was immersed in this enlightenment of sword dao. When he thought of the two Great Primordial God Runes, he immediately started to fuse it. But no matter what Ye Mo did, the two Great Primordial God Runes wouldn't fuse into the sword mark.

Ye Mo derived his own god art, cultivation method and even dao. He immediately knew what was going on. The Great Primordial God Rune god art and the sword mark god art he learned himself weren't on the same level. The level of the Great Primordial God Rune was too high. His newly learned sword mark was good but a far cry from the Great Primordial God Rune.

After giving up this idea, Ye Mo immediately felt his sword mark change. His newly learned sword mark god art didn't fuse into the Great Primordial God Rune but it was inspired by the Great Primordial God Rune. It now had some ripple shape too. It wasn't big but the ripple would sweep over the nearby lethal force with each pulse.

Rumble.

The rippled shaped sword mark smashed on the sword chi. Her sword chi dispersed and the powerful killing intent made her unable to keep learning.

A blood light flashed across her chest. She was hacked away a few thousand km before barely being able to stand.

She woke up from the enlightenment and stared at her bloody chest in shock. She even forgot to heal herself.

She was just learning sword dao and knew the change in the sword mark very clearly just like how Ye Mo knew her sword dao change clearly. Before, the two swords were equally matched but later on, the single edged sword mark suddenly changed and formed a ripple shaped sword rune. That sword rune seemed to be able to distort space. It gathered the space lethal force in an eerie way and smashed over.

After that, her sword chi could no longer stop the sword mark and she was smashed out. She was heavily injured too. She knew that this had nothing much to do with cultivation level but since Ye Mo could injure her, clearly he was no ordinary person.

Just what was the sword rune that made it become so ferocious?

Ye Mo didn't feel guilty injuring her at all. He was using her to learn god art but so was she. Even if he was killed, she probably wouldn't feel guilty. Ye Mo deeply felt the power of this sword rune.

At this moment, he closed his eyes and learned the sword rune god art. That last ripple rune was learned from the Great Primordial God Rune. He would name it Falling Mark Sword Rune.

Although he only had one rune for it now, the falling mark sword rune would be complete when runes fell like flower petals.

Ye Mo opened his eyes and looked at the immortal goddess and saluted with his fists "Sorry, I accidentally injured you there."

The immortal goddess didn't care at all if Ye Mo was genuinely apologizing. She just stared at Ye Mo in shock "What was that sword rune god art? It definitely wasn't learnt here."

Great Primordial God Rune was one of his lethal moves, Ye Mo wasn't going to tell people so easily. He said __It_s something I came up with on the spot. It's nothing."

Nothing' can hurt her? Immortal goddess didn't care about Ye Mo's conflicting words. She suddenly said "I can take you to the life crippling barren restriction but one thing, if I see a dao wave god art I need to learn on the way, you must attack and help me."

She felt Ye Mo's powerful learning capabilities. The reason she was the saint of the Immortal Goddess Sacred Sect was because her learning capabilities were unparalleled.

With her powerful learning capabilities, she still lost to Ye Mo. One could see that Ye Mo's learning capabilities were larger than hers. Not just that, after Ye Mo learned the sword mark, he fused what his own thing into it and hacked out that extremely terrifying sword rune. She had never seen such insane learning capability.

If someone like this helped her learn, she would go much further. She would also be able to find her weaknesses easier.

Ye Mo thought this was perfect, she needed someone to attack her but so did he.

Ye Mo nodded "Of course but I have a condition too. if I stop to learn god art, you must wait for me."

"Ok." The immortal goddess agreed without hesitation. Even if Ye Mo didn't want her to wait she would still wait. Such a good opponent was hard to find.

After the two left, the sword mark and rune disappeared slowly.

On the way, the two encountered many dao waves and law god art. After learning it, they fought each other without hesitation.

The both of them knew clearly that they were fighting for real. If the other was killed then too bad.

The two encountered all sorts of god arts and even buddhist great palm god arts. Their cultivation level grew rapidly. Due to fighting, the two were injured many times. Ye Mo didn't show mercy and the immortal goddess was very fierce in her attacks. Luckily, Ye Mo had the chaos tree so he would rapidly heal back.

Seeing Ye Mo heal back so quickly everytime, the immortal goddess knew Ye Mo had a great secret but Ye Mo never asked about her secret. She never asked about Ye Mo's.

The God Necropolis Domain was boundless and they didn't even have a direction to the life crippling barren restriction but both of them weren't in a rush. They were learning god arts and practicing them. They would reveal their dao wave laws from time to time to make learning and correcting their god art easier. At this time, both of them wouldn't use lethal blows.

This never before method of practicing allowed their cultivation level and god art to progress rapidly. Both of them felt their weaknesses from each other and wanted to learn more from each other.

The immortal goddess came from Immortal Goddess Sacred Sect and had been taught by powerful beings at a young age. Her cultivation method heritage came step by step and the foundation was very big. Ye Mo understood a lot of things through fighting with her.

Compared to Ye Mo, the immortal goddess learned even more. Ye Mo's cultivation and god art came from the understanding of the Three Birth Chant. The Three Birth Chant god art and dao waves would be shown on Ye Mo's god art. This was pretty much opening another world to the immortal goddess.

"Black lake?" The immortal goddess stopped and looked at this pitch black lake.

She had been walking with Ye Mo in the God Necropolis Domain for half a year.

Ye Mo saw that this immortal goddess was always very calm and never spoke other than fighting.

Even if she learned a god art, it would just be some slight joy. But today, it was Ye Mo's first time seeing her so shocked "What's the black lake?" Ye Mo asked strangely.

There was not a single drop of water in this lake. It was extremely black and the banks of the lake were cracked open.

"It's said that the black lake is transformed from two magic artefact. Two Primordial Essence Divine Emperors died here together. Two prenatal spirit artefacts that were just below chaos artefacts were locked here and turned to the black lake. Some say that it's not prenatal spirit artefact locked here but postnatal spirit artefact." Immortal goddess said.

Ye Mo was very shocked. He knew that chaos artefacts were like his chaos tree and golden page world. His bitter bamboo was only prenatal spirit artefact but now, there were two prenatal spirit artefacts trapped?

Ye Mo didn't care about magic artefact but prenatal spirit artefacts were different. He didn't even want to let it go if it was postnatal spirit artefact. God artefacts were powerful but it could be forged, he had never heard anyone forge postnatal spirit artefact.

"What treasure is it?" Ye Mo asked immortal goddess.

Chapter 2046 - Black Lake

The immortal goddess looked at Ye Mo plainly and said "Don't tell me you want to take the two magic artefacts here? Do you know how many Dao Essence Divine Emperors have come here but these two magic artefacts remained here. The only change is that the black lake shrunk by a third.

"Is this a legend too?" Ye Mo stared at the black lake and asked.

If it was before, the immortal goddess wouldn't answer this. But now they were using each other. In this half year, her cultivation level had been rising straight up so when Ye Mo asked she nodded "That's right, ancient legend."

Ye Mo laughed "Before, you told me that the legend said those who went in the God Necropolis Domain never went out. If you come in God Necropolis Domain you can only stay in here forever. Since no one went out, where did the black lake legend come from?"

She couldn't beat Ye Mo in a battle of words or she wouldn't have lost to Ye Mo before in the dao mark shenanigan. She fell silent for a while and said "It's said that the black lake is formed by a three treasure primordial essence gourd and 36 lightning sea god orbs. The 36 orbs locked the gourd and turned into the black lake."

"What?" Ye Mo was very shocked. He didn't know other things but he knew the lightning sea god orbs too well. He got 12 in the cultivation realm and gave it to his daughter. He then got 24 in the immortal realm but these 24 were different.

The first set of 12 was the same as the ones in the immortal realm but the 12 he got in the abyssal river lightning kill palace was completely different. It had a vast and powerful chi with devastating lightning lethal force. At that moment, Ye Mo knew that the ones he got before were fake but the ones he got from the palace were real.

There were only 36 orbs. If he got 12 real ones, how could there be 36 orbs here?

Ye Mo looked at the black lake again. It did look like a gourd indeed.

"The black lake had always been in the God Necropolis Domain but it's said to constantly change position. Not everyone who comes in is lucky enough to encounter it. There's also many god art and restriction dao waves in the lake so it's a fortune."

Then, the immortal goddess sat down next to the lake and started learning the dao waves.

Ye Mo didn't do this. He jumped into the bottom of the lake without hesitation. The dao wave laws there were extremely powerful but after fighting with the immortal goddess all this time, Ye Mo could face it. He jumped to the bottom not for the dao waves but for the 36 orbs.

When he got the 12 fake orbs, Yimo was so happy. If he got the 36 real ones, Yimo would be overjoyed.

As soon as Ye Mo jumped in, he felt all sorts of dao wave lethal force as well as a whirlpool force suck him and drag him to the bottom of the lake.

Ye Mo wanted to check the bottom of the lake so he didn't resist this suction force. He just shielded his entire body.

The immortal goddess saw Ye Mo really jumping in and was dazed. Moments later, she realised that Ye Mo was after the two spirit artefacts. She hesitated for a brief moment and jumped down too.

On the way here, although she didn't say it but she extremely admired Ye Mo. His learning capabilities were far stronger than her and dealt with things in much smarter ways. Since Ye Mo dared to jump in, it meant he had a way. If she followed him closely, she might be able to get a prenatal spirit artefact too.

Who didn't like such treasure. It would increase her power by many times.

But as soon as she jumped down, the immortal goddess noticed something wrong. She could block the law lethal force here but there were whirlpools sweeping at her from the bottom of the lake. She couldn't resist at all and could only take out a powerful magic artefact to protect herself.

This black lake didn't seem deep but the suction force was endless. The two had been spinning for many hours but still didn't reach the bottom.

The immortal goddess began to regret. She had a few top defense magic artefact but it wasn't some prenatal spirit artefact. It wasn't even extreme grade god artefact.

Later on, the suction force grew very strong and the bottom of the lake shot out lightning. These lightnings were extremely ferocious. Even with her defense magic artefact empowered by her god essence, it was making cracking sounds.

Crack. Two bolts finally pierced her defense magic artefact and smashed on her body. A large part of her robes were torn bringing out bloody mist.

The immortal goddess was extremely shocked. She began to regret. During the half year of fighting with Ye Mo, she felt that her cultivation level was no weaker than Ye Mo, maybe even a bit stronger but now, she almost couldn't hold on.

Her spirit sense scanned Ye Mo. He wasn't far from her but when she saw Ye Mo casually let the lightning hit him, she realised she was being over confident. This immortal emperor looking guy had too many means. He was probably a lightning element body refinement cultivator.

To be able to block such lightning, his body refinement cultivation would be at least immortal god body peak.

Thinking about this, the immortal goddess took in a cold breath. This person hid so much power.

Splurge.

Another bolt struck her and her ribs sprayed bloody mist again.

At this moment, she couldn't care about anything and waved out a nine petal lotus stage. This stage emitted blue light that instantly wrapped around her.

The lightning at the bottom grew denser and fiercer but when striking the stage, it only created some blue beams.

"Hmm..." Ye Mo knew she was in trouble but he didn't want to help. She clearly followed him for the spirit treasure. It was limited, if he saved her, he would lose some.

Even if he were to save her, it would be when she had no power to spirit control the prenatal spirit treasure. Now that she released this lotus stand, Ye Mo immediately recognised that it was what she used when she fled.

It's worth was no lower than a prenatal spirit treasure. Perhaps it was a prenatal spirit treasure.

The immortal goddess sat in the stand and breathed slowly. She had never released the lotus stand in this half year fighting Ye Mo but now she exposed it.

It was her secret, her greatest acquisition in the God Necropolis Domain, it's defenses were amazing but it also had offensive and escape effects. She still hasn't completely spirit controlled it up until now. This definitely wasn't some ordinary thing. It was something no weaker than a prenatal spirit treasure.

But now, she exposed her treasure before even getting the prenatal spirit treasure. She didn't know if Ye Mo would greed after her magic artefact but if Ye Mo did, she would fight with her life for it.

Ye Mo didn't have the time to greed after it. He had too many good things. He was now busy refining his lightning sword.

The golden page world was his so his break through didn't have any divine damnation. He lost the chance to refine lightning sword. Lightning sword was his earliest magic art. It was far from a god art but it gave birth to a few god art. The Five Lightning Spear Destruction and lightning sand all came from lightning sword.

Ye Mo just begun refining it and then his foot hit solid ground. He was at the bottom of the lake but that terrifying suction power wasn't gone. However, it just couldn't move him at all. The bottom was filled with murderous and chaotic law dao waves. With these striking Ye Mo, even his body started to bleed.

Ye Mo's heart sunk. He couldn't barely even stay alive here much less find the prenatal spirit treasure. His powerful spirit sense and body refinement can only protect him for now. No wonder there was no bones at the bottom. Even the toughest bones would disappear in a place like this.

The immortal goddess's lotus stand landed at the bottom too. She scanned her spirit sense out immediately but the terrifying chaotic law chi instantly grinded her spirit sense into nothing.

Chapter 2047 - One Each

Ye Mo's spirit sense couldn't be released outside but he was in a much better state than the immortal goddess. At least he didn't need to go in the golden page world.

Ye Mo knew that with the situation here, even if he wanted to spirit control a magic artefact, he would have to set up a formation first to block the chaotic law dao waves. At least part of it.

Ye Mo started to set up formation flags. The immortal goddess didn't know what Ye Mo was doing. She could only hide in her lotus stand. She had a mean to escape but that was just escape. She was very shocked that Ye Mo could stand at the bottom of the lake without using any defense magic artefact.

Ye Mo threw out formation flags and the nearby violent killing intent and lightning grew less. At this moment, the immortal goddess scanned with her spirit sense for the second time and immediately noticed what happened. She came out of the lotus stand.

"You're actually a formation grand master..." She could tell that Ye Mo's formations were beyond ordinary immortal formations.

She was truly shocked. She knew that Ye Mo didn't understand a lot of things. To be honest, Ye Mo probably got a very insane cultivation method and reached here purely by himself.

Yet, it was already extremely shocking for a person like Ye Mo to reach immortal god body but now he was a top formation grand master, this was unheard of. Any of these two things would cost a life time.

Ye Mo glanced at her and said nothing. He still continued his formation set up. After he blocked some of the chaotic laws and lightning. The bottom of the lake cleared up slowly.

Two golden bone arrows were scattered at two corners. Ye Mo almost exclaimed seeing these two golden bone arrows and immediately grabbed at one.

The immortal goddess also saw this. Without thinking, she grabbed at one too.

There were all sorts of chaotic dao waves here and terrifying lightning. Under such cruel conditions the two bone arrows were still perfect. Clearly, they weren't ordinary. They were probably from one divine emperor.

When Ye Mo grabbed one, the immortal goddess grabbed the other.

"Give that bone arrow to me." Ye Mo immediately knew it was the golden bone arrow he was looking for.

The immortal goddess sneered "Why should I give something I grabbed to you? Don't say that you set up the formations there. We said we were collaborating. If I didn't take you to the black lake, you wouldn't even be able to come here."

Ye Mo dazed. In his impression, the immortal goddess was no match for him in arguments. It had only been half a year, how did she become so good.

Seeing Ye Mo unable to rebut, the immortal goddess felt a little happy. Half a year ago, Ye Mo almost gave her a sliver of dao mark in her heart. She had been thinking about this problem.

A month ago, she found the real answer. If she just said that Ye Mo stayed there to take benefits from them, she didn't owe Ye Mo anything.

However, she didn't think of this at the time. A month later, she thought of it but she didn't want Ye Mo to leave. After all, she learned a lot from Ye Mo.

Plus, as soon as she grabbed this bone arrow, she knew it's origin. How could she give it to Ye Mo.

Ye Mo saluted with his fists "My name is Ye Mo. I've come with you all this way and we've learnt from each other. Thank you, what's your name?"

The immortal goddess's face was calm. She could tell that Ye Mo really cared about the arrow. It was quite possible that the Golden Bow of Divine Extermination was in his hands. Just where did he get all these good things?

Even if the Golden Bow of Divine Extermination was in Ye Mo's hands, she didn't want to give the arrow to Ye Mo so easily. The value of Golden Bow of Divine Extermination was too precious. Even if her sect got it, it would be a huge benefit.

"We're just using each other. You don't need to ask for my name, after we get to the life crippling restriction ground, then we have nothing to do with each other." The immortal goddess said calmly.

You know that if I take the formation flags away from here, you can only hide in your lotus stand. If you give me the bone arrow I promise to take you up." Ye Mo promised.

The immortal goddess couldn't even be bothered answering. She took out a rune and said "You don't need to worry. I can go out at anytime. But you should think about how to get out yourself."

Ye Mo's face was bad. She had this rune to escape but he didn't. Even if he wasn't scared of these lightning, could he escape these whirlpools.

Ye Mo thought about what he could use to exchange for that bone arrow.

Ye Mo also started to study the bottom of this lake. Although it was pitch black, it was much smaller than the surface area of the top.

Ye Mo released Zi Xu and hacked at the dark bottom. Zi Xu didn't leave any marks on it.

So tough, Ye Mo was shocked.

"It's said that the black lake is formed from the three treasure primordial essence gourd. If a mere half god artefact can hack it open, it wouldn't be this famous." The immortal goddess saw Ye Mo's naive actions and said.

Ye Mo ignored her. Since this was a magic artefact, he would find a way to spirit control the core.

“You can check here, I’m not going to stay.” The immortal goddess said. She used her rune. The rune enveloped her in yellow light and the next moment, she flew out from the bottom of the lake.

The immortal goddess was scared that Ye Mo would suddenly take away the formation and trap her in the lotus stand. Although she could leave in the lotus stand but she would need to use another defense rune. She didn’t want to waste it.

“I don’t believe I can’t get to life crippling restriction grounds without you.” Ye Mo said. He knew from what she said that she saw through the dao mark he left her.

But even so, Ye Mo didn’t care. There might be two prenatal spirit treasures here. Ye Mo didn’t want to give them up.

After she left, Ye Mo didn’t follow. He had decided to spirit control these two treasures. To do that, he needed to find the entrance to the core of the magic artefact.

It was very dangerous trying to spirit control these sealed magic artefact as one might be devoured by the magic artefact too. Ye Mo wasn’t scared because he had the golden page world.

He threw out a few more formation flags. Although he couldn’t completely seal the dao wave chis, there weren’t much chaotic law chis anymore.

“Small ginseng check with your spirit sense, see if you can find the core of this gourd. We’re probably at the opening to the gourd.” Ye Mo sound transmissioned to small ginseng. Small ginseng had an instinct to natural formations. Since this gourd was a prenatal spirit treasure, it was something natural too.

“Boss, we’re not at the entrance to the ougrd, we’re at the center.” Small ginseng said.

“How do you know?” Ye Mo asked.

Small ginseng immediately said “I have this natural instinct to natural spirit items. This gourd is definitely natural.”

“So this means, this gourd really is a prenatal spirit treasure?” Ye Mo rejoiced.

Small ginseng quickly said “I don’t know if it is a primary stage but this gourd was reforged before becoming this.”

Ye Mo was very satisfied. He just needed to open the blockage in the middle and land at the entrance.

Chapter 2048 - Who Spirit controls faster

A day later, Ye Mo’s formation was broken by the chaotic dao laws. He went around a few times at this place and didn’t find any marks. He used all sorts of ways, whether it was smashing with the world rock or magic artefact or burning with fire. They were all ineffective.

But Ye Mo didn’t want to give up like this. He set up another defense formation and started searching again.

A day passed again, seeing that his defense formation was about to be broken again. Ye Mo sighed. No wonder these two prenatal spirit treasures stayed here for this long.

Crack. The formation flag made a slight sound and Ye Mo knew his formation was about to shatter. The formation flags corresponded to each other. If one formation flag completely broke, then the rest would be smashed by the chaotic dao laws.

Just when Ye Mo wanted to give up, that lotus stand came from down. Ye Mo immediately knew that the immortal goddess came back again.

Ye Mo knew that she definitely came down for these two magic artefacts. She was scared that he would take it all for himself. He had made up his mind that he must get this bone arrow. He didn’t like robbing other people’s things but the golden bone arrow was a set. He had to gather it all. This immortal goddess had far less experience than him, perhaps he could trick it over.

As soon as lotus stand came down, the immortal goddess came out. Ye Mo saw her change a set of clothes but there was still blood seeping out of her clothes. Her state was withered and chi very unstable. Ye Mo knew she was heavily injured.

The same time he found she was injured, Ye Mo thought of something. Before, he wasn't confident in taking her out but now he was.

"There's no point in killing me. A Dao Actualisation Divine Emperor has chased here. If we don't work together you will die too." Ye Mo was furious. This woman led a powerful foe to him.

Before Ye Mo could rage, she threw the golden bone arrow to Ye Mo "You can have this bone arrow but you must fend off the enemy with me. I have an extremely powerful dao bead. It can heavily injure him. You just need to attack when he's heavily injured. If you kill that Dao Actualisation Divine Emperor, I just want a blue bottle. The rest is yours."

Ye Mo's anger finally appeased a bit. The golden bone arrow was the most important.

He had six arrows now in total. He wondered if the arrows he got from the lightning kill palace were from here.

Thinking about this, Ye Mo suddenly had an idea. He got a dagger at the palace. In order to dig this gourd, he used everything but the dagger.

He remembered that after spirit controlling the dagger, it had a name called melt space.

Thinking about this, Ye Mo took out the dagger and dug at the hard ground.

Screech. Melt space was like digging through tofu. Everywhere it went past, the materials melted and soon a black hole was formed.

Ye Mo jumped in the hole. The immortal goddess saw this and woke up from her shock. She jumped in without hesitation. At this moment, Ye Mo's formation finally cracked apart.

The chaotic chi filled this place again. That huge hole Ye Mo opened with melt space closed again. By the looks of it, it would close up to what it was before in just a few seconds.

Before the hole could recover, another figure landed here. He had a pale face.

The nearby chi struck his body like it was striking a powerful magic artefact, it couldn't hurt him at all. Even the lightning couldn't do any damage to him.

"Hmm, where did that Immortal Goddess Sacred Sect girl go? She clearly ran here. Even if she was killed by the laws here her lotus stand should still be here..."

Suddenly, he stopped talking as he saw the fist sized hole.

Seeing this, he dashed towards the hole without hesitation.

He had heard of the black lake of course and knew what it was. he immediately guessed that the way to spirit control it was in the black hole.

When Ye Mo and the immortal goddess came in, that pulling feeling from whirlpools were gone. There was no lightning, just a greyish space.

Moments later, that man came in the hole too. Ye Mo and the immortal goddess both sensed it. They sped up running towards the entrance of the gourd.

The man arrived later but was faster than Ye Mo and the immortal goddess. He charged towards the entrance first. He couldn't care about them two, he wanted to charge to the entrance and spirit control this prenatal spirit treasure.

Ye Mo was worried, he threw out a few pills to the immortal goddess and said "Hurry up and heal, I need to speed up."

Ye Mo had to help her. Even if he got to the gourd entrance alone he would be no match for that man.

The two had to work together to fight that man. Otherwise he would have to leave. Ye Mo didn't want to give up the lightning orbs he was about to get.

The immortal goddess didn't reject this at all.

Ye Mo burned his god essence to speed up.

Five minutes later, Ye Mo and the immortal goddess landed at the entrance. They immediately saw the man sitting on the side. He was holding a rune with one hand. Clearly, he was starting to spirit control the three treasure primordial essence gourd.

Ye Mo was furious, he was the one who opened this place up.

Just when he wanted to attack, he saw 24 lightning surrounded orbs at the border of the entrance.

There was 36 spots but only 24 remained.

Ye Mo rejoiced, he charged up to spirit control these 24 lightning orbs immediately.

He knew why the man didn't go for the lightning orbs first as 12 was missing. Even if he spirit controlled it, it wouldn't be a complete magic artefact. Perhaps he also thought that when he spirit controlled this gourd, he could easily kill them.

The immortal goddess had pretty much recovered now. Seeing the man spirit control the gourd and Ye Mo spirit control the lightning orbs, she actually had nothing to do.

Just when she was thinking about if she should spirit control a few lightning orbs and exchange things from Ye Mo, Ye Mo suddenly sound transmissioned to her "Hurry up and go out. If this guy spirit controlled the gourd, none of us would get away. We're all inside the gourd."

“The middle of the gourd is sealed, how do I get out?” The immortal goddess said.

Ye Mo threw the dagger to her “Hurry up and spirit control part of this dagger and then slice off the middle of the gourd. Don’t stay here. I think that barrier at the middle is definitely very important. It must be a crucial part to the gourd. If you cut it away, even if this bastard spirit controls the gourd, he wouldn’t be able to trap me.”

Hearing this, she knew time was of the essence. She immediately grabbed the dagger and went back while thining about why Ye Mo dind’t do this himself.

She didn’t know how much the 24 lightning orbs were to Ye Mo.

The man was immersed in spirit controlling the gourd. There was dao waves circulating around him and a defense formation disk there.

Chapter 2049 - Too Wicked

Ye Mo knew that if he was to spirit control all the lightning orbs, he definitely wouldn’t be able to beat that man. But he had to spirit control one layer of restriction for each orb to remove it from the orb. Seeing this, Ye Mo set up a stealth formation and threw out the time formation disk and started to spirit control the orbs.

As soon as the man started spirit controlling the gourd, he knew his plans had some error. He didn’t attack the two immediately because he was certain that they couldn’t escape.

He knew it would take at least half a day to escape from the entrance. He definitely would’ve spirit controlled the first layer of restriction by then. With that, the gourd would be his. They were inside his gourd, how could they escape?

There was 24 orbs here but he definitely wouldn’t spirit control them first as the set was incomplete. If he chose the gourd, those two would definitely go after the 24 lightning orbs. No one can ignore such treasure. If they did so, they would waste more time in the gourd which would benefit him even more.

But soon, he realised he thought of things too simply. Each level of restriction was extremely hard to spirit control. He would need a long time even for just the first level. He knew that Ye Mo set up a stealth formation but he couldn't care. He just wanted to finish the first layer quickly and take the gourd away.

With the time formation disk set up, Ye Mo immediately sped up. When he pulled all 24 orbs from the gourd, it only took four hours.

Ye Mo didn't even take the stealth formation flags and just left the gourd entrance. He knew that he would spirit control this gourd faster but he didn't dare to do it. The man can't stop now but if he tried to go spirit control the gourd too, the man might just come to kill him.

The man immediately knew when Ye Mo left but he couldn't stop now. His first level of restriction was almost done.

By then, he would be able to put the gourd away. If he did that, there was no way the two in here could get away.

Ye Mo clearly knew what the man was planning. After taking the 24 orbs, he immediately charged up.

When Ye Mo came to the middle of the gourd, he saw the immortal goddess desperately holding the dagger.

When she saw Ye Mo come, she quickly said "I've dug out the middle of the gourd but I can't spirit control it so I can't put it in the storage ring."

"I'll do it." Ye Mo took the dagger and immediately started spirit controlling the barrier at the middle.

Ye Mo just spirit controlled a bit and there was a huge laughter.

"Not good, he finished spirit controlling the gourd, we can't get away." The immortal goddess immediately released that rune wanting to run away.

Ye Mo couldn't care anymore. He just took this blockage and sent it into his golden page world.

Just because a storage ring couldn't store it, didn't mean that his golden page world couldn't store it.

Indeed, before the man finished laughing the blockage was sent into the golden page world.

"Hmm, how did you do it?" The immortal goddess looked dazily at Ye Mo.

Ye Mo sneered "Hurry up and run do you want to wait for him to put away the gourd?"

Then, Ye Mo dashed towards the black lake. The two of them noticed that after Ye Mo took the blockage, the whirlpools and lightnings were gone. So were the chaotic laws.

Seeing this, the immortal goddess immediately followed.

You still want to run when you're in my gourd? Haha..." The man laughed.

If someone was next to the black lake, he would notice that lake was gone. What remained was just a huge basin. The man was holding a gourd standing at the basin laughing.

"Haha..." Another wave of laughter sounded. The man dazed and then he noticed that the one laughing was the immortal emperor little brat. He didn't think Ye Mo was an immortal emperor. Otherwise how could he come here? He was dazed. Wasn't he in the gourd? How was he laughing outside?

Ye Mo really wanted to laugh. He was laughing so much his stomach was hearting. He felt he was too smart. The blockage he cut from the gourd was definitely the bottom of the gourd. For some reason, the bottom of the gourd shrunk and fell to the middle. This was what caused the black lake. The black lake was a gourd but one that could be entered from the bottom.

When the man laughed, Ye Mo and the immortal goddess were indeed scared but then they saw a sliver of light. The two dashed out from there without trouble.

If a gourd didn't even have a bottom, how could it trap people?

The man saw Ye Mo laugh so much and dazed for quite a while before raising the shrunken gourd and looked from the entrance. Then, he saw that he could see through to the other side. He saw from the entrance of the gourd Ye Mo laughing and raising his middle finger.

Although he spirit controlled one layer of restriction, the bottom of the gourd was gone. The man immediately realised what happened and his face went purple.

"Do you see me? You're so old and you're using a gourd to be a telescope. Hahahaha." Ye Mo felt he was too smart to have dug the bottom of the gourd out.

Although he didn't know what telescope was nor why Ye Mo raised his middle finger, but the immortal goddess saw the man's face and then looked at Ye Mo. She couldn't resist laughing too. She had never laughed like this ever since entering the Immortal Goddess Sacred Sect. But today, this Ye Mo guy was too wicked. He dug out the bottom of the three treasure primordial essence gourd.

"Is it very funny?" The man's face recovered and he stared at Ye Mo asking coldly.

Ye Mo raised Zi Xu and said seriously "That's right, it's very funny. You're this old, probably tens of thousands or hundreds of thousands year old but you still play with kaleidoscopes like a little kid. Can you not see me directly with your eyes? Do you have to look at me through a gourd without a bottom?"

"Die!" The man could no longer control his anger. His sun and moon eight trigrams spear carried out a pale crescent strike at Ye Mo. At the same time, his Dao Actualisation Divine Emperor domain smashed out. The surrounding space time seemed to have been bound by him.

The immortal goddess immediately released her lotus stand and smashed nine blue rays at the man. She knew that if something happened to Ye Mo, she would have to keep running.

Ye Mo who was seemingly bound smiled. Zi Xu suddenly started to distort and broke free from this binding. The space distortion around Zi Xu grew bigger. Before the crescent landed above Ye Mo, countless purple beams were bom out of nowhere. They rapidly formed a twisted sword wave and smashed out.

Thud. The pale white crescent clashed with the purple twisted sword wave and the crescent immediately exploded. Then, a faint red sun wheel that was about to form also crippled.

Before the man could be shocked, he swept up countless spear shadows with his spear that formed a barrier around him.

Crack. The barrier completely blocked the lotus stand's beams.

The man didn't keep releasing his spear but looked at Ye Mo in disbelief "What god art is this? It stopped my crescent moon?"

"Give me that gourd telescope and I'll tell you." Ye Mo smiled. This falling mark sword mark was indeed powerful. He just learned it and only released one but it stopped half the attack of a Dao Actualisation Divine Emperor.

Seeing Ye Mo was this powerful, the immortal goddess felt assured and rejoiced that she fled to here.

The man's face sunk. He knew that neither of them were a match for him but the two joined up making it quite impossible for taking them out.

"Give me the bottom of that gourd, name a price." The man didn't keep fighting and chose to negotiate with Ye Mo.

Chapter 2050 - Scare off

How could Ye Mo give the bottom of this man. If he did, this man would have the complete gourd.

"Same, I want your bottomless gourd, name a price." Seeing the man negotiate, he knew that the man couldn't take them out. The main thing was that the immortal goddess's lotus stand was too powerful.

The man sneered and said to the immortal goddess “Ji Xi, I’ll give you the blue bottle. You can go. You’re a powerful person from the Immortal Goddess Sacred Sect, I won’t do anything to you. Why stay with this wild brat? If you keep doing this, I’ll report all your tracks to the Immortal Goddess Sacred Sect, I think...”

So the immortal goddess was called Ji Xi. Ye Mo immediately knew his predicament. If Ji Xi agreed to this, he would be in extreme danger.

Ji Xi dazed. She completely didn’t expect that the man was willing to give her the blue bottle just so she wouldn’t attack. She then immediately knew that he was using the blue bottle to trade for everything Ye Mo had. This was a huge profit.

And, she knew that the man also planned to keep hunting her after he killed Ye Mo and then take the blue bottle back. She sneered. When the blue bottle was in her hands, he dared to think about getting it back. He was dreaming. As for reporting to her sect, she didn’t care at all.

The man was certain that Ji Xi would agree to his condition. He knew that Ji Xi had a lot of secrets and he might not be able to get back the blue bottle but he wasn’t worried. He just needed to take out Ye Mo. Ye Mo had much greater secrets on him.

Ye Mo took the 24 lightning orbs before he could spirit control the first layer of restriction. Clearly, Ye Mo had some time manipulation magic artefact or even time formation disk. Otherwise, there was no way Ye Mo would finish before him.

Both of them stared at Ji Xi. Ye Mo didn’t explain the man’s intentions. He knew that Ji Xi would be able to think of it.

Ye Mo was thinking that if Ji Xi agreed, he would run immediately. The man was thinking that as soon as Ji Xi agreed, he would seal this place.

Ji Xi hesitated. She really wanted to get the blue bottle so easily and she wouldn’t feel guilty at all. After all, she gave Ye Mo a golden bone arrow but Ye Mo didn’t help her at all. She didn’t get a share of the gourd nor the lightning orbs. Although she discussed with Ye Mo to use a dao bead to heavily injure the man but whether they would be able to keep him was another matter. Plus, the bead was too precious to her, she only had one.

Ye Mo's heart sunk. He was ready to release instant second. In that second, he would be able to instant transmission away.

"Pale face, people really do meet everywhere." Another dashing light came.

It was a Dao Nourishment Divine Emperor. The man looked younger than him. His red hair was braided but his eyes were icy blue. There was a sliver of arrogance and wildness on his face but his hands were long and white.

"Kong Chengtian. I didn't go find you but you dare to come to me. I don't have time to waste with you today. Move away." The pale faced man said.

If it was another time, how could he take this Kong Chengtian seriously but at this crucial moment when Ji Xi was about to agree, he suddenly popped up.

"Are you two fighting this pale face? Count me in, we can gain up and beat the sh*t out of him..." Kong Chengtian said.

Ji Xi sighed, she knew she had no chance. Regardless if she agreed or not, there was no point in staying here. Even if she agreed, the pale faced man wouldn't agree. Now that another Dao Nourishment Divine Emperor came, even if she didn't join, Ye Mo and that guy wouldn't fear the man.

Seeing Kong Chengtian release his magic artefact, the man's saluted with his fists ace changed. He disappeared into a dashing light without hesitation. If it was three ordinary Dao Nourishment Divine Emperors, he wouldn't care but he knew that Kong Chengtian and Ji Xi were peerless. This strange immortal emperor wasn't easy to mess with too so he might as well flee.

"Hahaha." pale face, you finally fled in front of your granddad..." Kong Chengtian laughed.

Ye Mo had a golden immortal of this Kong Chengtian not because he saved him but he seemed to be like Ding Jie.

Ji Xi hesitated before and now she didn't have the face to keep staying with Ye Mo. She said nothing and turned to leave.

"hmm, isn't she your woman? Why did she leave?" Kong Chengtian asked in confusion.

Ji Xi didn't go far and hearing this she almost tripped and wanted to come back and fight Kong Chengtian. Luckily she had some reason and knew she was no match for Kong Chengtian.

"Haha, I would never want such woman. Thank you for helping brother Kong, the white face was scared off." Ye Mo saluted with his fists.

"That's true, pretty women are usually bad, that's what my dad told me." Kong Chengtian laughed and then saluted with his fists "My name was said by that pale face, what's your name? I respect you for daring to stand off with him."

"I'm Ye Mo. This white face came looking for my trouble for no reason. One day, I'm going to take him out." Ye Mo said without hesitation.

The reason he was going after that man was because he wanted the gourd. Plus, he knew that even if he didn't go after the man, he would come for him.

"Okay, I want to kill him too but I can't beat him yet. We used the woman's threat a bit too but that woman just walks off." Kong Chengtian was annoyed that Ji Xi just left.

But then he immediately patted Ye Mo's shoulder "Not bad, you're only an immortal emperor but you dare to appear in the God Necropolis Domain. It seems your power isn't ordinary."

Ye Mo didn't mind Kong Chengtian patting his shoulder. He seemed to be this straight forward person, it was impossible for him to leave any marks on his body.

Ye Mo wanted to admit he was Dao Moulding Divine Emperor but then he thought that if he admitted that he couldn't sense the life crippling restriction grounds, then Kong Chengtian might be able to guess

he vindicated dao in the five element world, thinking about this' Ye Mo laughed ' _I have some luck but I don't fear ordinary Dao Moulding Emperors."

"Great, I respect people like you. I'm going to the life crippling restriction grounds. Are you going? If so, let's go together. Don't worry, I'll protect you since that woman is gone." Kong Chengtian said generously.

"I want to go. I went with her before for her to bring me there. Now that she's gone, if brother Kong can take me there I would be very grateful." Ye Mo thanked.

Kong Chengtian waved his hand "Then what are we waiting for? Let's go."

Ye Mo thought that he was indeed a Dao Moulding Divine Emperor now but he could only at most survive in the God Necropolis Domain. He had six golden bone arrows and 36 lightning orbs. If he didn't turn that into his means, he would be an idiot.

Thinking about this, Ye Mo saluted with his fists "Brother Kong, I have some private matters to deal with. It would probably take a few years so please go first. I'll go after I'm done dealing with my own things."

Kong Chengtian said generously "No problem. I'll leave some spirit sense marks on the way. Have this jade card, you can use it to find my spirit sense mark."

Ye Mo rejoiced and quickly "Thank you brother Kong."
