

Strongest As 2051

Chapter 2051 Ye Mo's Ambush

"I have one more thing to ask brother Kong. Do you know if one can leave this place in the end? Do you have to reach Primordial Essence Divine Emperor before you can go out?" Ye Mo asked.

Kong Chengtian said affirmatively "You can definitely go out but the place you get out too is not necessarily the broken divine dao realm. You might appear in other realms. As for Dao Essence Divine Emperor, there might not be one in everyone hundred thousand divine emperors. Plus, how can there be that many divine emperors in the world? Of course, if you truly reach dao vindication divine emperor, you might be able to easily tear the space here and leave."

Ye Mo rejoiced and asked "May I ask brother Kong where the way out is?"

Kong Chengtian shook his head "I only know the way out is at the life crippling restriction grounds. I've only been at the God Necropolis Domain for no more than a few hundred years. Now that I reached Dao Nourishment Divine Emperor, I want to go life crippling restriction grounds and see. There are many old monsters who have stayed here for countless years. Perhaps if you ask them you might know."

"Thank you brother Kong, let's meet again at the life crippling restriction grounds." Ye Mo said.

It had been one month since Ye Mo separated from Kong Chengtian. In the golden page world, Ye Mo spirit control the two golden bones to the 99th restriction. The golden light was getting dinner but the terrifying murderous chi in the arrow was getting heavier.

Ye Mo couldn't go any further over 99th level of restriction.

Then, Ye Mo continued to spirit control the bow and the other arrows to the 99th restriction. Despite this, the bow and arrow was still called Golden Bow of Immortal Extermination.

After he had done all that, the time formation disk had ran for 4 months.

Feeling the bow and arrow increase in power by tens of folds, Ye Mo was very satisfied. Before that Dao Nourishment Divine Emperor could grab his bone arrow but now probably even that pale faced man couldn't grab it.

Suppressing the desire to test it, Ye Mo took out the 36 lightning orbs. He had 48 right now, 12 were fake.

Ye Mo knew these orbs had restriction but they were completely different to the ones Golden Bow of Divine Extermination had. There was 108 restriction and Ye Mo spent nearly half a year and could only reach 99th level.

It seemed they were something of equal caliber to the Golden Bow of Divine Extermination, Ye Mo guessed.

There was powerful lightning source killing intent and lightning law in the orbs. Ye Mo immediately realised the power of these 36 orbs.

"I finally have some self protection means." Ye Mo put these 36 orbs into his sea of consciousness and breathed.

He had spent about a year in the golden page world.

After Ye Mo left the golden page world, he immediately took out Kong Chengtian's jade card. As soon as he took it, he sensed the spirit sense marks Kong Chengtian made.

"Not bad." Ye Mo felt Kong Chengtian was a really nice person.

Since Ye Mo walked the path that Kong Chengtian walked, there wasn't anything good left as Kong Chengtian would've taken them.

But Ye Mo didn't care, that way he would go faster.

As Ye Mo travelled, he vindicated his god art. The God Necropolis Domain space was very tough. Even if his god art can annihilate a star, it wouldn't cause much disturbance in the God Necropolis Domain.

Four months later, Ye Mo's 36 lightning orbs could form a formation. Accompanied with his Dao Moulding Divine Emperor domain, he could completely bind a Dao Nourishment Divine Emperor. Plus, the lightning orbs could attack sea of consciousness with lightning.

Ye Mo could barely release two falling mark sword runes. If he shot all six Golden Bow of Divine Extermination arrows, he could instant kill Dao Moulding Divine Emperor but that would be too taxing on his essence chi and spirit sense.

The only pity Ye Mo had was that his Great Primordial God Rune didn't improve much.

As for the world rock and Hao Heaven drum, they were rarely used. The hao heaven drum was high level but Ye Mo didn't like drum sound god arts and rarely studied it. As for the world rock, it was powerful but Ye Mo got too little. The world rock could be powerful in the immortal realm but in the God Necropolis Domain, it didn't seem very useful.

Ye Mo really liked this world rock magic artefact. If it wasn't so small, he would often use it.

He even thought, if he spirit controlled the entire World Mountain, it would be a huge lethal weapon. It was no weaker than a prenatal spirit treasure. However, he didn't have the power. Even now, he might not have the power to spirit control it.

Ye Mo was still deriving his falling mark sword rune but he was captivated by this 10km tall pale light. Ye Mo immediately knew that there were two masters who were at least Dao Nourishment Divine Emperor fighting.

Another pale crescent flew with a faint red mark. Ye Mo immediately recognized that one of them was the pale faced man. To be able to fight him, the other person must be at least Dao Actualisation Divine Emperor.

If it was some other Dao Actualisation Divine Emperor fighting, Ye Mo would move as far away as possible but that pale faced man was someone he wanted to kill the most in here. He immediately flew over without hesitation.

The two were going as they were fighting. Ye Mo had to follow to keep up. In order to prevent the man from knowing he was following, Ye Mo had to stealth his figure.

This chase went on for a few days. When he was getting closer and closer, Ye Mo finally saw who the pale faced man was fighting. It was an ordinary looking middle aged woman.

However, she was definitely Dao Actualisation Divine Emperor and her dual silver swords shot out pale lights too that entwined with the pale faced man's spear.

Rumble.

The swords and the spear clashed. The silver white veil receded and the woman flew out spitting blood in the air.

The pale faced man didn't have it easy too. Although his spear hit the woman's chest, he was also shot by the silver white light. However, his injuries were much lighter than the woman's.

The two fought for many days and now they were both injured. Ye Mo knew this was the best time to ambush. But then, he saw the pale faced man land in a valley and there were 8 people there.

Ye Mo hesitated and released falling mark sword rune.

Chapter 2052 - Wu Ding Valley

Although the pale faced man was already a Dao Actualisation Divine Emperor, his power was greatly weakened after fighting that woman for a few days and getting injured. When he saw there were quite some people in the valley, he focused his attention being wary of them. He didn't expect the ambush to come from behind his back.

When two twisted sword runes were about to tear him apart, he suddenly realised. He couldn't even smash out the moon spear and released it. At the same time, he burned his essence chi while lighting up his armor.

Rumble.

The falling mark sword rune Ye Mo had been preparing for a long time fell on the spears. The dao waves on the sword rune spun and completely tore apart the wave brought about by the spear. The spear couldn't handle such attack and the spear veil that hadn't been formed was instantly broken.

Splurge. The twisted sword rune easily broke that vibrant armor bringing out a spray of blood.

The man's face went pale. Seeing how he was about to be sliced in half, a huge essence chi hand pulled him away.

Ye Mo didn't keep attacking. The hand that grabbed the man came from a Dao Actualisation Divine Emperor and he knew that even if the pale faced man wasn't pulled, Ye Mo wouldn't be able to kill him.

Ye Mo planned that if his ambush landed, the pale faced man would be torn open. However, Ye Mo didn't expect the the pale faced man had such a top grade armor. He was also a body refinement cultivator too.

If the strike wasn't lethal, someone like the pale faced man could definitely run away.

Ye Mo's ambush finished in an instant and now almost everyone stared at Ye Mo.

Ye Mo seemed to be only immortal emperor but he dared to ambush a Dao Actualisation Divine Emperor. This made everyone realise Ye Mo was no immortal emperor.

The pale faced man was injured very heavily. The core of his body had been injured.

"Thank you brother Yunli, please protect me." the pale faced man said as he quickly ate pills.

“Thank you for helping divine brother, I’m Gan Xintong.” The middle aged woman said.

Ye Mo saluted with his fists “I’m Ye Mo, this little pale faced bitch took my things. I came here to settle things with him.”

Ye Mo saw that there were two Dao Actualisation Divine Emperors in the valley, the rest of them were below Dao Actualisation Divine Emperor. Ye Mo breathed easy seeing that there were no Dao Essence Divine Emperor. At the same time, he saw Ji Xi was here but she didn’t come out and talk with him.

With so many people staying here, this valley definitely wasn’t ordinary. Thus, Ye Mo didn’t leave.

There were two Dao Actualisation Divine Emperors here before, the brother Yunli and an old man. Now there were four Dao Actualisation Divine Emperors.

However Gan Xintong was injured and the pale faced man was heavily injured. Most people looked at the old man while a few looked at Ye Mo and Gan Xintong.

Ye Mo dared to ambush a Dao Actualisation Divine Emperor and succeeded. Gan Xintong was with Ye Mo. Their power was not to be underestimated. Everyone was guessing if Ye Mo was Dao Actualisation Divine Emperor.

“Mu Han divine emperor, there’s more than ten people here. Speak up.” A chubby Dao Nourishment Divine Emperor said.

The old man nodded and saluted with his fists to Ye Mo and Gan Xintong “My title is called Mu Han, you two just came here but probably don’t know why we’re staying here.”

Mu Han divine emperor said as he studied Ye Mo. He couldn’t see through Ye Mo’s cultivation level. That’s why he was concerned with Ye Mo. He still felt a little shocked about the two sword runes Ye Mo ambushed the pale faced man with.

“May I ask brother Mu Han why everyone is staying here?” Gan Xintong asked.

Mu Han divine emperor said "Have you heard of God Necropolis Domain Wuding valley?"

Ye Mo never heard about it but Gan Xintong said in shock "Is this place Wuding valley?"

Mu Han divine emperor nodded "That's right, we're certain it is but the formation outside is too high level. We've been searching for many days but still didn't find an entrance."

Gan Xintong said with disappoint "Wuding old man is unparalleled in formation. It seems no one can break the entrance formation?"

Mu Han divine emperor said with awkwardness "That's right. Although we have a lot of people here, there are no top level formation grand masters. My formation skills are higher but I can only barely set up level eight immortal formation."

Ji Xi stared at Ye Mo. She knew that Ye Mo's formation skills were definitely higher than everyone here.

Ye Mo's spirit sense searched this valley. He didn't know who Wuding old man was but since so many people were looking for this place, it wasn't simple.

"My formation skills are simple, what is your opinion brother Mu Han." Gan Xintong said.

"I think we should attack the valley in batches. We would eventually find an entrance." Mu Han divine emperor said.

Gan Xintong subconsciously said "That way, there's only ten percent chance of finding the entrance. There would be 90 percent chance that the space here would be completely sealed and never to be opened."

Mu Han divine emperor was helpless "In fact we've already discussed this. There's nothing else we can do."

Ye Mo suddenly asked “Martial sister Gan, may I ask the story of the Wuding valley?”

Hearing this, everyone except Ji Xi looked at Ye Mo with shock. They were too speechless that Ye Mo didn’t even know about such place.

Gan Xintong looked at Ye Mo in confusion “Brother Ye, you really don’t know about Wuding valley?”

Ye Mo said awkwardly “I’ve been cultivating with master in the cultivation home. I’ve only come out for a few years.”

“So that’s it.” Gan Xintong said and then explained “Wuding old man is a legend in the divine dao realm. He’s very powerful but his formation skills are even greater. I’m not sure if he’s a Primordial Essence Divine Emperor but everyone knows he lives at this region of the God Necropolis Domain and his home is called the Wuding valley.

Then, there was a big battle in the divine dao realm. This area was affected too. Some Primordial Essence Divine Emperor fought their way here. Wuding old man didn’t want to be involved in the battle and thus set up formation completely sealing the space around his valley.”

Ye Mo realised. There was definitely large some of treasures in Wuding old man’s home and maybe even his heritage.

“Martial sister Gan, you’re saying Wuding old man is still in this valley?” Ye Mo thought that if Wuding old man was on par with Primordial Essence Divine Emperor, his life would be unlimited.

Mu Han divine emperor said “After he sealed the valley he wasn’t able to hide inside and was caught by the battle. His best friend asked him for help and in the end brought over a huge enemy. Wuding old man died in that battle.”

Ye Mo’s spirit sense scanned this valley but didn’t find any clues. However, he believed that at the very least he could find the formation door.

Just when Ye Mo was thinking about asking for benefits, he saw the pale faced man get up.

Ye Mo suddenly thought of something and smiled. He had decided to start with this guy first.

The man was very cunning and seeing Ye Mo's evil smile, he immediately knew what Ye Mo wanted. He still remembered Ye Mo's formation in the black lake, clearly, Ye Mo was a top level formation grand master.

Chapter 2053 - Generous Ye Mo

"Brother Yunli, thank you for your protection." The pale faced man said to the divine emperor.

Yunli smiled "It's no big deal, don't be so polite."

Yunli divine emperor knew that he did an easy favor. Even if he didn't help, the pale faced man could easily get away.

The man took out an exquisite gourd and gave it to Yunli "I know you like collecting magic artefact fragments. I have a gourd here. But the bottom is gone, please have it."

Yunli divine emperor frowned. He liked magic artefact fragments but if you're giving gifts you can't give a fragment. However, this gourd was quite exquisite. He took the gourd without showing any annoyance, "Then thank you brother Jian..."

Before he finished, Yunli divine emperor's face changed and grabbed the gourd tightly "What gourd is this?"

The pale faced man regretted giving the gourd out. If he knew this would happen, he wouldn't stay here to recover. He was certain that Ye Mo wouldn't be able to catch up to him. But if he wanted to go now, Ye Mo would ask the Dao Actualisation Divine Emperors to catch up to him and kill him. He was this heavily injured, he didn't feel confident escaping a Dao Actualisation Divine Emperor at all.

This pale faced man "This gourd is the black lake..."

“You’re saying the three treasure primordial essence gourd?” Almost everyone stared at the gourd with beams coming out of their eyes.

This was a prenatal spirit treasure. There were that many divine emperors but no one was said to have a prenatal spirit treasure.

Immediately, people thought of another thing, the 36 lightning orbs. These two magic artefacts were spirit controlled. Everyone all gazed at the pale faced man.

Ye Mo cursed. He didn’t expect this man to be this shameless. He did intend to tell Mu Han divine emperor that he can find the entrance and the condition was to get the gourd off the pale faced man. But Ye Mo didn’t bring this up as he knew it would backfire.

However, this pale faced man immediately saw this and took the thing out. Next, the man would definitely say the lightning orbs were on him. that way, those greedy looks would come to him. These old things were all extremely cunning.

“That’s this is the three treasure primordial essence gourd. However the bottom is dug out. I believe since this person can dig out the bottom, he must have something on par with it. When I was spirit controlling the gourd , at the entrance...’

Ye Mo interrupted “There were 12 lightning orbs right?”

“Hmm, there’s clearly 24...” As soon as the pale faced man said this, he knew he was tricked by Ye Mo. He wanted to say 36 and Ye Mo took all 36 but he spilled the truth because of Ye Mo’s tricks.

The value of 36 orbs and 24 orbs were definitely different. 24 was at most a powerful magic artefact but it’s power would be much lower than 36.

“The black lake is really spirit controlled?” Someone immediately stared at the pale faced man desperately. Even Mu Han divine emperor looked at the man with fervor.

Ye Mo didn't run immediately. He knew that even if he did the news would spill and if he fled, everything would be pushed onto him.

"That's right, this is the person who spirit controlled the black lake." The man pointed at Ye Mo "He not only took the botto of the gourd and also took 24 lightning orbs. Do you know why he ambushed me now? It's because he has the bottom of the gourd but not the gourd itself."

Everyone looked at Ye Mo.

Ye Mo got out and saluted with his fists "How long has the black lake been at the God Necropolis Domain? Why has the gourd and bead not been taken? Let me tell everyone. I was travelling at the God Necropolis Domain and then as I was getting close to it, there was a huge explosion. There was 12 consecutive sounds. I immediately came to the black lake but found the dao wave chi in there weaken. I was greedy so I jumped in the lake without hesitation."

The pale faced man didn't know how Ye Mo entered the lake so he couldn't argue about this. Only Ji Xi knew Ye Mo was lying but she didn't expose Ye Mo.

Seeing this, Ye Mo knew that everyone believed him so he said "I heard there was lightning and dao wave law in the black lake. However, when I went in, there was no violent chi and there was a huge hole at the bottom of the lake. The hole was getting bigger so I went I nthe hole."

Then, Ye Mo pointed at this man "This guy probably saw me jump in so he followed me. However, he was actually faster than me. When I got to the entrance of the gourd, he already started spirit controlling the gourd. I could only spirit control the 24 lightning orbs. However, it wasn't a complete set. Although I spirit controlled the 24 orbs, its power is average..."

"A divine emperor is full of lies." The pale faced man looked at Ye Mo with scorn "I did go down first but the hole wasn't getting bigger but smaller. Plus, were you alone?"

Ye Mo said all that just to bait the man to say this. Ye Mo said calmly "There's enmity between us, you can add whatever you want. Even if you say I have a partner here, it's up to you."

The pale faced man laughed “Your partner is indeed here. Ji Xi joined up with you to attack me, do you not dare to admit?”

“You’re saying I was staying with Ji Xi?” Ye Mo looked at the man with surprise.

The pale faced man immediately realised that Ye Mo was setting up traps. If he said Ye Mo was with someone else, people would believe it but Ji Xi was from Immortal Goddess Sacred Sect.

Seeing the man’s face change, Ye Mo said seriously “Little white face, you can rob things but you can’t say the wrong things. You robbed my gourd but there’s no bottom so I don’t care. But you’re saying I was with the immortal goddess. If this gets to the divine sect, I won’t be the only one involved.”

“Ji Xi isn’t not only an immortal goddess, she’s the saint of the Immortal Goddess Sacred Sect.” Gan Xintong sneered helping Ye Mo.

With this, people started to doubt the pale faced man. There was no way the saint of Immortal Goddess Sacred Sect would mix with Ye Mo.

Ji Xi’s face was cold. Ye Mo felt very good, he knew Ji Xi wouldn’t admit she was with him.

Seeing the man about to talk again, Ye Mo suddenly took out 12 blueish grey orbs and said “I got 24 lightning orbs but I know to share good things just like this Wuding valley. Since everyone was willing to share with me, so I’ll take out 12 orbs to share with everyone.”

The pale faced man didn’t expect Ye Mo was this generous. He was willing to give out half of what he got. Many people thought Ye Mo was scared and wanted to share a portion to calm everyone’s jealousy.

“You only got 24 lightning orbs, did 12 explode and that’s why the gourd’s bottom was blasted away.” One Dao Moulding Divine Emperor said.

Hearing this, everyone immediately connected this to the 12 explosions. There really might be 12 lightning orbs exploding and blasting the bottom of the gourd.

Chapter 2054 - Wuding Entrance

There was 24 orbs in total and Ye Mo took out 12 in one go. Ye Mo spirit controlled the orbs and it had nothing to do with everyone here. Ye Mo did things to the extreme.

Although most people believed Ye Mo's words, Ye Mo still felt a subtle cold spirit sense scan over him. No matter how subtle it was, Ye Mo still felt it. However, Ye Mo acted like he felt nothing and didn't scan his spirit sense back.

"Since dao friend Ye is willing to share the lightning orbs I think we should keep it on dao friend Ye first. After we break the seal, we'll see who contributed the most. If everyone has one, the lightning orbs would lose instant second original value."

Mu Han divine emperor got up and said without disappointment.

He believed Ye Mo that the 24 orbs' power was ordinary. Otherwise, Ye Mo wouldn't take out 12.

The gourd was good but it didn't have a bottom. That was no good.

Yunli divine emperor calmed down now. He looked at the gourd and sighed. This gourd was useless. It's was a pity to throw it away but it was not much use and caused people to be jealous.

"I don't have much need for this..."

Before Yunli divine emperor finished, Ji Xi walked up and saluted with her fists "Yunli qian bei, wan bei is interested in this gourd. Wan bei is willing to trade it with a purple yin god well bead. If qian bei isn't willing them never mind."

When Ji Xi was heavily injured and fell into the huge fist hole, she fell into a purple well. After she recovered, she found out that the well was purple yin god well. After she devoured it, she found a bead there.

You have purple yin god bead? Of course I'm willing." Yunli divine emperor gave the gourd to Ji Xi without hesitation.

The bead was more useful than the well. It can empower god art, rebuild the six meridians. Yunli divine emperor even suspected that Ji Xi didn't know the main use of the bead and that's why she was willing to trade it with him.

Ye Mo didn't dare to ask for the gourd. If he did, then people would really suspect it was on him. Seeing Ji Xi get the gourd, he immediately said "Everyone, I have a way to find the entrance."

People's attention was immediately caught by Ye Mo. Ye Mo said "I'm a top level immortal formation grand master.

With time I can definitely find the entrance. Even if I can't break it, I can find a way to open it. I only have one condition, I have a blue bottle..."

Before Ye Mo finished, the pale faced man immediately turned into a dashing white light and disappeared. He knew what Ye Mo wanted. The blue bottle wasn't Ye Mo's. Ye Mo clearly wanted it to exchange the gourd with Ji Xi.

Seeing the pale faced man flee before Ye Mo finished, Ye Mo couldn't do anything.

Ye Mo could only say "The reason I ambushed him is because a blue bottle of mine was robbed by this guy. I wanted everyone to help but this little bastard got away too quickly."

Mu Han divine emperor showed a sliver of guilt on his face "I didn't take note but dao friend Ye don't worry. The next time we see this person, I will definitely help without hesitation."

The other divine emperors expressed that they were willing to help Ye Mo next time.

Ye Mo smiled and saluted with his fists. However he knew this was all bullsh*t. When the valley was open and everyone share the wealth, it would be strange if anyone remembered helping him.

He didn't ask for more after the formation entrance was found because he knew it was full of sh*t. When everyone saw good things, no one would leave anything for him.

Ji Xi was disappointed. She knew that Ye Mo was experienced in formation and might be able to find the entrance. That's why she traded for the gourd so she could remind Ye Mo to get the blue bottle. However, the man reacted too fast and fled.

Ye Mo started to search for the entrance. Everyone waited at the valley, some people didn't believe Ye Mo was a top immortal formation grand master but they had no choice.

As Ye Mo threw down formation flags, he caught some formation waves. When Ye Mo saw the ripple formation flags, he was dazed. He felt this was extremely familiar. He saw new formation means again. It was formation set up using formation rune dao waves. He had never thought of this before.

This wasn't why he was shocked. The reason he was shocked was because he saw the shadow of Great Primordial God Rune in these formation runes. Ye Mo immediately realised, Great Primordial God Rune was left by Wuding old man.

Ye Mo suddenly regretted. He suddenly didn't want to keep breaking the formation. He would come back here himself later. How much fortune would be in the valley if the owner could use a terrifying god art like the Great Primordial God Rune.

As soon as Ye Mo paused, Mu Han divine emperor said "Dao friend Ye is capable indeed. We searched for a few days and couldn't feel the formation at all but Ye Mo just used half a day and we felt it. It seems there is a chance to open the valley."

Hearing this, Ye Mo knew that this cunning fox saw through his hesitation. If he didn't continue, there would be fighting.

A day later, the formation waves were getting clearer and clearer. Even those who didn't understand formation well knew that it would only be a matter of time before Ye Mo found the entrance to the seal.

Another day later, Ye Mo stopped setting up formation flags. An extremely faint formation whirlpool appeared before everyone. Ye Mo's face was calm but his heart wasn't. He knew that this formation whirlpool was formed by many formation runes, it wasn't a real whirlpool.

If one didn't understand Great Primordial God Rune, it was impossible to break open here. He also felt confused. It didn't seem very hard for him to learn the two Great Primordial God Rune. Why was it left there for countless years and no one could learn it?

Now that the formation whirlpool appeared, people knew that if they attacked this, the entrance would soon show.

"Haha, dao friend Ye is indeed amazing. Your formation skills are at such level. If it wasn't for you we would definitely not find this entrance. Let us attack the entrance together. Dao friend Ye can rest of. Of course, don't take out those 12 lightning orbs. It's what you deserve." Mu Han divine emperor laughed and was the first to come to the formation entrance.

If he didn't have to put in more effort, of course Ye Mo wouldn't. Ye Mo was speechless he couldn't give away the 12 orbs. They were fake. If someone wanted them, he would give it without hesitation.

Ye Mo watched as the nine divine emperors attacked. He knew none of the divine emperors would use their real power. They wouldn't even take out their real magic artefact.

All sorts of light smashed at the seal. Ripples sprung and even the space was making cracking sounds. Those ripples that were damaged would soon recover. However, with so many people attacking, it soon slowed down.

The entrance seemed about to fall under the constant attack of nine divine emperors.

One day and night passed, that whirlpool finally made a crack. Then, there was a more terrifying roar.

Chapter 2055 Battle Dao Nourishment Divine Emperor again

With this roar and extremely fast shadow dashed out from the whirlpool. It's powerful force forced back the divine emperors. The Dao Moulding Divine Emperor at the front was suppressed by this force and couldn't move at all.

Thud. This divine emperor cracked open like a ball. Not even his essence spirit was able to escape.

Seeing this, everyone's head was tingling. What god beast was this? It was this terrifying' killing a Dao Moulding Emperor with just one ram.

Ye Mo was also shocked. He had released Zi Xu already.

Swoosh. The figure didn't battle with the rest of the divine emperor and rapidly disappeared from the entrance.

After a long while, people stared at that figure and asked "What was that? God beast?"

"It's a god beast on par with Dao Essence Divine Emperor. Luckily it didn't do anything to us." Mu Han divine emperor said.

Then, the rest of the people realised the valley was open and all charged in.

Ye Mo was the last. He looked at the direction the shadow disappeared to but calmed down. The most terrifying thing about it was its speed.

Seeing everyone go in the valley, Ye Mo charged in without hesitation.

Before going in, if you scanned your spirit sense in from outside, it would be pitch black. But after coming in, Ye Mo found it was brighter than the outside. There was a round orb shooting out light that seemed like sunlight. Ye Mo knew this was some formation.

What appeared before him was a valley that wasn't spacious. There was not any grass on the sides. It was probably all eaten by the god beast that escaped. The chi here was much calmer than outside and there were no space fissures.

Ye Mo entered the valley rapidly and in just five minutes he saw three separate tunnels.

Ye Mo chose the left one and sped up. Wuding old man quite possibly was the person who left the Great Primordial God Rune. Ye Mo cared about it a lot. If he could get the heritage, his Great Primordial God Rune would be even stronger.

Ye Mo didn't go very long and felt he was followed.

Ye Mo wasn't worried. The strongest here was only a Dao Actualisation Divine Emperor. Even if one was following him, he could get away.

As soon as Ye Mo stopped, a purple figure appeared and spoke in a sharp voice "Not bad, you're very vigilant."

Ye Mo knew that this person was the man who scanned him with spirit sense. Dao Nourishment Divine Emperor, his eyes were very small and was probably stronger than the Dao Nourishment Divine Emperor he killed.

"I already opened the valley, you can go find your things. Why are you following me?" Ye Mo said.

The Dao Nourishment Divine Emperor said "I know you found the entrance and there's plenty of good things in here. But the valley is very big, I'm in no rush. I do have some private matters with you."

Ye Mo looked calmly at this Dao Nourishment Divine Emperor and didn't talk. He was thinking about if they would be evenly matched or if he would win.

The Dao Nourishment Divine Emperor continued "Other people think you're Dao Nourishment Divine Emperor or above but only I know you just reached Dao Moulding Divine Emperor. I admit your stealth

cultivation method is the best. It's extremely natural. If you didn't fight, no one would think you're a divine emperor."

"If you have something to say then hurry up, I'm busy and don't have time to waste with you." Ye Mo said with impatience.

A sliver of sharp ray shot out the Dao Nourishment Divine Emperor's eyes but he didn't get angry. He calmed down again and said "Other people don't believe little white face Jian Kui's words but I do. You not only have the bottom of the gourd but you also have a dagger that can dig it out. I'm very excited to see this dagger. I won't rob you. Hand over the dagger and gourd bottom. I will get the gourd from the woman."

Ye Mo knew that someone would remember when the little white face said he had a dagger.

"Leave your storage ring and piss off." Ye Mo said and released Zi Xu.

He hacked out crevice god art. This purple ray sliced across space and didn't gather void lethal force slowly like before, it swept the nearby space and smashed over. The endless lethal force completely bound the space making the person unable to escape.

Compared to crevice, Ye Mo's move was tens of times stronger than before.

Seeing that Ye Mo dared to attack him first, the Dao Nourishment Divine Emperor was furious. He waved up a golden rain that shot out countless powerful long nails in the air blocking Ye Mo's crevice.

Crack. Explosions sounded non stop. The purple sword ray went from 30km long to only 3km long but the golden nail rain thinned down. After some ear screeching sound, the nail rain stopped and Ye Mo's crevice disappeared.

Ye Mo attacked first but he casually stopped Ye Mo's crevice. However, he stared at Ye Mo in shock. Did he see wrong? A Dao Moulding Divine Emperor stopped his tai chi abstruse water nails in one move.

Ye Mo tested that this man was much more fluent in his control over dao wave laws. Although he just mixed in some simple space law in that move, it crippled under the rain.

Before Ye Mo could recover, the water nail formed tens of long rivers and shot at Ye Mo.

It wasn't actually a river but countless nails that formed a river of nails. The nails were golden colored before but when it completely surrounded Ye Mo, they turned dark red.

A corrosive chi came. Ye Mo's face changed. This nail magic artefact was too evil. Nails were usually small, hidden and sharp used for ambushing but this person's nails were dominant, powerful and wanted to corrode the entire landscape.

Even if he forcefully break free from the space he would be swept by the nail river.

If he didn't go into the golden page world, Ye Mo was certain that he would die even with his immortal god body.

The 36 lightning orbs could block the river but Ye Mo didn't want to use it. It wasn't that he was afraid of this Dao Nourishment Divine Emperor finding out he had all 36 but there was another person watching on the side.

As the nail rivers fell, the corrosive chi grew stronger. Ye Mo didn't dare to hesitate and used a huge painting that shot out countless golden rays.

These golden beams soon formed golden waves. On top of the waves were tens of golden robed monks.

As soon as they came out, their metal staffs smashed with the nail river creating a huge explosion.

The nail river blasted apart. Black water flew everywhere and nail beams shot but the dominant force was stopped. When the nails struck the monks, their body soon dimmed and dissipated. However, those monks with more golden shines still stood.

“Adamantium Great Vehicle Painting...” The Dao Nourishment Divine Emperor called out in shock as his eyes shot out more greed.

Chapter 2056 - Want Dragon Race God Frui

Seeing Ye Mo use sword rune again, the Dao Nourishment Divine Emperor immediately focused. He had seen this before and it almost hacked a Dao Actualisation Divine Emperor in half. Although it was an ambush, it didn't mean the sword rune wasn't terrifying.

The water needles formed a needle river again sealing all the space around it.

However, the falling mark sword rune's power was on a completely different level to crevice. Although this Dao Nourishment Divine Emperor immediately sealed the space the sword rune was heading to, the twisted sword runes still tore open the nail river.

The nail river seemed to have suddenly broke apart from the middle and the Dao Nourishment Divine Emperor's figure showed.

The Dao Nourishment Divine Emperor's face changed. He knew Ye Mo's sword rune was powerful but didn't expect it to be able to tear open his nail river. At the same time, he released another towel.

With a heavy thud, the two sword runes were stopped by this towel.

The Dao Nourishment Divine Emperor breathed. The next moment, his force rose drastically. He shot out that needle again while the towel formed materialized space that wanted to seal Ye Mo's escape.

“Great Primordial God Rune...”

at the same time, Ye Mo waved out another two runes. These two runes were very subtle and looked not much different to the other two runes. However, there was a fundamental difference between them. These two runes instantly came before the Dao Nourishment Divine Emperor.

A terrifying dark grey destructive chi swept over. The Dao Nourishment Divine Emperor shivered as though next moment, his body would be ripped apart by the two convoluted ripples.

“Great Primordial God Rune...” The Dao Nourishment Divine Emperor instantly burned his essence chi and life like crazy when he recognised the Great Primordial God Rune. He broke free from the Great Primordial God Runes and instantly left.

Ye Mo’s Great Primordial God Rune didn’t improve much but due to his power increasing, it was much stronger than before. At the same time, this Dao Nourishment Divine Emperor was much stronger than the Dao Nourishment Divine Emperor he killed. He was very decisive in burning his life and fled away.

But Ye Mo clearly saw that when the Dao Nourishment Divine Emperor disappeared, he was completely aged.

“Splurge...” The Dao Nourishment Divine Emperor left so desperately that he didn’t even have time to take his magic artefact. The towel was torn to pieces by Ye Mo’s Great Primordial God Rune and Ye Mo took the taichi abstruse water nail into his storage ring.

Ye Mo looked at the direction the Dao Nourishment Divine Emperor disappeared and didn’t chase. At the same time, he cared more about the Great Primordial God Rune. Two Dao Nourishment Divine Emperor immediately fled upon seeing the Great Primordial God Rune. One could see just how terrifying the Great Primordial God Rune used to be.

He had many ways to kill this Dao Nourishment Divine Emperor. He could use instant second and kill him with Great Primordial God Rune. Even when the Dao Nourishment Divine Emperor fled, Ye Mo could use the Golden Bow of Divine Extermination to shoot him.

Ye Mo didn’t do any of that because there was someone watching on the side.

If he used instant second to kill the Dao Nourishment Divine Emperor, his power would greatly weaken.

Luckily he took the abstruse water nail. It seemed like a good god artefact.

Ye Mo just walked off without caring about the person on the side.

When Ye Mo disappeared, an old man suddenly appeared. It was Mu Han divine emperor.

Mu Han stared at Ye Mo's figure and murmured "This person is probably on par with me and he's so calculative. How does he know Great Primordial God Rune? This is too terrifying."

The reason he stayed here was because he thought the same as the Dao Nourishment Divine Emperor. He believed the pale faced man.

Ye Mo not only had the gourd bottom but also a powerful dagger. As for the 24 lightning orbs, he really didn't care as Ye Mo took out 12 and he checked. It was really ordinary.

Although it was ordinary, he didn't believe Ye Mo could forge it. He was set on taking out Ye Mo but when he found Ye Mo knew Great Primordial God Rune, he didn't want to mess with Ye Mo at all.

Ye Mo stopped and took out a jade card. Inside the jade card, it showed Mu Han divine emperor standing where he was with a surprised face.

Ye Mo sneered and put the jade card away. He knew it was Mu Han divine emperor lurking in the dark. This guy was a Dao Actualisation Divine Emperor, otherwise, he might force him out.

After searching in the valley for a half a day, Ye Mo was disappointed. There should be many good things here but he didn't find anything.

The layout seemed grand. The deeper you were, the stronger the natural feeling.

Luckily the god spirit chi here was rather dense. Ye Mo waved out small ginseng "Small ginseng help me find if there's god spirit chi here? We can't go back empty handed."

"Don't worry boss, if there's god spirit range here I can find it immediately." Small ginseng dashed out quickly. He would go back and show off to shadowless later.

Shadowless sat under the bitter bamboo and sighed "Boss is getting more and more unfair. It's always me outside before but now small ginseng goes out more than me."

Qiu Rang called shadowless big brother but he didn't dare to offend small ginseng. He loved wine like his life. If he offended small ginseng, it would be hard to get wine.

But he didn't dare to offend shadowless either. He comforted "Big brother shadowless, you used to go out so often because boss needed your help in fight shut now your cultivation level isn't improving and boss are always fighting divine emperors. They can easily annihilate you. Of course you can't go out."

Shadowless glared. Qiu Rang immediately became scared and said "Big brother shadowless, if you want to go out more you have to get stronger. That way, boss would need you the next time he fought."

"Improve my mass, I'm just an eater. If I don't have things to eat how do I get stronger?" Shadowless sagged his head.

"Boss you come from dragon race. You probably know about Hun Tian pan dragon fruit right?" Qiu Rang carefully said.

"I don't know sh*t. I was kicked out. Don't show off in front of me kid, you were kicked out too." Shadowless said angrily.

Qiu Rang smiled "I'm different. I stayed at the dragon race for a while and at least know where the dragon palace is."

Seeing shadowless about to get angry again, Qiu Rang immediately said "Big brother shadowless, Hun Tian pan dragon fruit is one of the most precious god fruits of the dragon race. It's said one can allow an immortal monarch level dragon to break through. If you eat plenty of it, it's not hard to break through."

Qiu Rang spoke with his eyes spinning quickly. Shadowless wasn't dumb and immediately stared at him "Your eyes are spinning so quickly, are you thinking of some scheme?"

Qiu Rang saw this and quickly said “Bbig brother I just want you to tell boss to bring us to the dragon race Hun Tian pan dragon fruit garden. I just want one.”

“You know where it is?” Shadowless’ eyes spun and asked. He already considered the entire garden to be his even though he didn’t know where it was yet.

Qiu Rang patted his chest “Boss, as long as we get to the dragon race I can find it. There’s also a dao fruit inside called Heaven Li fruit. It can allowed someone to seek dao. It’s the top treasure of the dragon race. Many divine emperors go there to seek one but they only have Heaven Li fruit tree and it only produces 3 fruits every ten thousand years.”

Shadowless laughed and patted Qiu Rang’s head with his foot “Not bad, haha, I’ll take both of them...”

Seeing Qiu Rang’s strange smile, shadowless shivered and changed his word “I meant boss would have it all. If boss has it, we would have it. Qiu Rang do you think I should tell boss quickly.”

“Hun Tian Pan dragon fruit?” Ye Mo repeated in confusion. If it could allow shadowless to evolve, then of course he was willing to go but he didn’t know where the dragon race was.

Just when Ye Mo was going to ask Qiu Rang, his spirit sense scanned two divine emperors stopping small ginseng.

Ye Mo was furious and immediately dashed to small ginseng and glared at these two divine emperors coldly “You two, I opened the entrance to the valley and let you guys in yet you want my immortal pet. People really can’t be nice these days?”

Chapter 2057 - Formation rune formation

These two divine emperors were depressed. They thought there would be plenty of treasure in the valley but they haven’t found anything in here.

They only became happy when they saw small ginseng. Small ginseng was ice ginseng king and had been with the bitter bamboo and chaos tree for so long. How could these two let small ginseng go.

They were one Dao Moulding Divine Emperor and one Dao Nourishment Divine Emperor. Both of them knew Ye Mo. They glanced each other and saw small ginseng not move behind Ye Mo. They already believed it was Ye Mo's.

“So this ice ginseng king is brother Ye's. Sorry for the offense.” The Dao Moulding Divine Emperor said.

Ye Mo nodded and he got less angry. After all small ginseng was extremely precious. It was normal that they wanted it before seeing him.

However, the Dao Moulding Divine Emperor didn't stop there. He said “I've been stuck at Dao Nourishment Divine Emperor for countless years. I was thinking of getting something good in the valley and break through to Dao Nourishment Divine Emperor but I found find anything here.”

Ye Mo frowned and thought, what does this have to do with me?

The Dao Moulding Divine Emperor took out a storage ring and said “Brother Ye I have a million god crystals here. I don't need this if I don't break through. I want to give these to brother Ye.”

“Thank you. Although I like god crystals but I don't accept free things. Please go.” Ye Mo said.

Ye Mo knew how fast small ginseng was. Since he stayed here, it meant there was something strange here. After the two were gone, he would ask small ginseng.

Hearing this, the Dao Nourishment Divine Emperor frowned before the Dao Moulding Divine Emperor spoke. His force rose and dao rune flowed. Clearly he was very unhappy with what Ye Mo said. This place wasn't Ye Mo's, what right did he have to tell them to go.

Ye Mo knew they were unhappy about this.

The Dao Moulding Divine Emperor smiled “Of course we would leave here. It's no rush. Of course I'm not giving these god crystals for free. I want to negotiate with brother Ye. Your ice ginseng king is

already missing an arm. It's probably from a deal with someone. I don't want much. I just want one leg of the ice ginseng king. Brother Ye..."

"Piss off..." Ye Mo couldn't control his anger anymore. This guy was still after small ginseng. Small ginseng was no immortal spirit herb to Ye Mo. He was alive to Ye Mo.

The Dao Moulding Divine Emperor's face changed and he released a blue spear "I gave you face but you didn't take it. Now it's not up to you if you want to sell or not. Brother Jingyi watch out for me. I want to see what he has to be cocky for..."

Ye Mo knew what this guy meant. He was inviting that Dao Nourishment Divine Emperor to attack together. Ye Mo attacked with Zi Xu before he finished. Since they were going to fight, Ye Mo would attack first.

After Zi Xu hacked out two twisted sword runes, it fused with Ye Mo's domain forming a new space domain binding. Only one sword rune attacked that Dao Moulding Divine Emperor. The other rune hung above Ye Mo's head twisting with lethal force as though ready to charge at that Dao Nourishment Divine Emperor.

At the same time, Five Lightning Spear Destruction appeared out of nowhere carrying heaven shocking lightning. Ye Mo didn't need to use Great Primordial God Rune against a Dao Moulding Divine Emperor.

The Dao Nourishment Divine Emperor had seen the terror of that falling mark sword rune. Now that one was about to attack him, clearly he didn't have the effort to mind that Dao Moulding Divine Emperor. He immediately released his magic artefact to prevent the rune from falling on him. He was also unhappy. Although he was partner with that Dao Moulding Divine Emperor, he should at least ask him before attacking Ye Mo.

While the Dao Moulding Divine Emperor was bound by domain, he could only barely release his blue spear.

Rumble. The twisted sword rune smashed away the spear.

Before the Dao Moulding Divine Emperor could break free from all of this, the Five Lightning Spear Destruction came. In the shine of lightning, the Dao Moulding Divine Emperor's essence spirit didn't even come out and was pinned to death by the Five Lightning Spear Destruction.

The next moment, the Dao Moulding Divine Emperor's storage ring and the million god crystals fell into Ye Mo's hands.

The Dao Nourishment Divine Emperor stared at Ye Mo with a pale face. If Ye Mo didn't ambush that Dao Actualisation Divine Emperor, he would even think Ye Mo was Dao Essence Divine Emperor. He used just one move to kill a Dao Moulding Divine Emperor. He could definitely not defend against such means.

"Brother Ye, I was too rash, goodbye..." The Dao Nourishment Divine Emperor immediately fled.

Ye Mo looked at this and sneered but he didn't chase the Dao Nourishment Divine Emperor.

Seeing that Dao Nourishment Divine Emperor, small ginseng said without Ye Mo needing to ask "Boss, it's here. There's a natural formation. I just found it and those two guys came."

Ye Mo rejoiced. The god spirit range left by Wuding old man wouldn't be ordinary. He even hoped that extreme grade god spirit range would appear.

With small ginseng leading the way, Ye Mo soon found the entrance to the natural formation but after small ginseng walked a few steps, he could no longer go forward. Small ginseng lost sense of direction inside the formation too.

"Wait." Ye Mo stopped small ginseng.

Ye Mo threw out a few formation flags and pointed at the formation runes "Wuding old man is very powerful. He found this natural formation and then set a stealth and defense formation inside it. You can't find the way because this formation is set with formation runes. I've just learned such things. Go to the golden page world, I can handle this here."

After small ginseng went in, Ye Mo started to derive Wuding old man's formation. He kept throwing out his own formation flags. As time went on, a subtle space passage appeared before Ye Mo.

Ye Mo went in and threw out more formation flags. The deeper he went, the more sophisticated Ye Mo felt this formation was. meanwhile, this formation became clearer.

A few days later, there was another crack and the scene before Ye Mo brightened up. The stealthed things cleared up. A narrow stairway appeared before him. The stairway was ancient and lead to some unknown place but the dense god spirit chi seeping out made Ye Mo realise that this stairway led to the core of the Wuding valley. It was the source of god spirit chi.

Ye Mo realised that Wuding old man purposely made the formation go from easy to hard so that people who came in here could learn. If it was the extremely complex formation, then it would be many years later that he came in.

Realizing this, Ye Mo quickly bowed "Thank you qian bei for leaving behind this formation, wan bei benefited greatly

Ye Mo sped across the long stairway and a huge palace appeared before him.

There were just a few spirit barrier formations and nothing else. When Ye Mo walked into the palace, he was very shocked. The extremely dense god spirit chi seeping out made him feel very clear minded. What shocked him was the god spirit ranges he saw here.

18 god spirit range were laid out. Many were joined up with formation flags and formation runes. Clearly, these god spirit ranges supplied god spirit chi for the entire valley.

Ye Mo walked forward a few steps and more than ten god spirit ranges made light cracks and turned to dust in this palace.

Ye Mo sighed and wasn't too surprised. He felt this was the situation when he came in. Their level was high but not many could remain after the countless years.

Chapter 2058 - Arousing envy

2058 Arousing envy

Ye Mo waved out a palm wind and swept away all those god spirit range that turned to dust. The remaining five god spirit range instantly showed. Ye Mo put his hand on one of them. Pure god spirit chi came. Ye Mo immediately knew this was a top grade god spirit range. The remaining five were used a lot but top grade god spirit range was much more useful to him than low grade god spirit range.

Ye Mo sighed. Because this place was sealed, the dissipated god spirit range couldn't replenish instant second god spirit chi. From the placements of these god spirit ranges, Ye Mo guessed that those god spirit ranges that turned to dust might be extreme grade god spirit range.

Ye Mo took away the few remaining god spirit range and the palace suddenly dimmed. Then, there were cracking sounds. The palace was collapsing.

Ye Mo dashed out of the palace rapidly.

Countless dust and stones were stirred up. Ye Mo waved his hand and they formed a huge whirlpool that was soon compressed into a ball.

After the palace disappeared, the formation disappeared too. Ye Mo's line of sight cleared up. Ye Mo finally realised that there was nothing in the valley and why the extreme grade god spirit ranges were used up.

There was a huge herb mountain in front of him. It was completely lush green and there were god spirit herbs or top immortal spirit herbs everywhere.

With this many things growing on this mountain, it would be strange if the god spirit ranges weren't used up.

It seemed the best things were on this god herb mountain. He risked his life to go into the Mu Hua god mountain and got less than 0.1% of what was here. This was definitely Wuding old man's herb garden.

Ye Mo glanced past these god spirit herb and his eyes eventually set on a blue fruit tree. It had tens of dark grey fruits. This was Ye Mo's first time seeing such fruit.

When his spirit sense landed on the fruits, he almost called out in shock. This was definitely a dao fruit. The powerful dao wave and law chi made Ye Mo very certain.

Ye Mo felt a sense of familiarity from the fruit. There were subtle runes on the fruit that contained endless dao wave law. It was the dao wave law of Great Primordial God Rune.

Ye Mo suppressed his excitement. This was definitely the dao fruit Wuding old man used to learn Great Primordial God Rune. If he got these dao fruits, he knowledge of Great Primordial God Rune would rise to an unbelievable level.

No wonder his Great Primordial God Rune was hard to break through. It seemed he needed these dark grey fruits.

Ye Mo immediately threw out formation flags to take away this god spirit herb mountain but he soon found he couldn't take it away.

When a few figures appeared in Ye Mo's spirit sense, he became worried. He could tell people were drawn over by the god spirit chi and god spirit herbs here.

Ye Mo couldn't care about taking this entire mountain. He immediately dashed to the top and dug up this tree and sent it to his golden page world.

At the same time, a few figures landed at the foot of the mountain.

They saw what Ye Mo did but no one cared. They started to take the god spirit herbs.

Ye Mo did the same.

But before digging even 0.1%, the god spirit herb mountain suddenly cracked a destructive chi released. Violent heaven law spewed out of the crevice.

Ye Mo stood at the top and immediately felt things weren't right. He dashed and left the mountain.

At the same time, the other divine emperors felt this too and all dashed away.

At the same time everyone left, the entire god spirit herb mountain turned to dust.

This was so close. Ye Mo would've been locked on by the destructive chi if he was just a little slower. Wuding old man was really strange. He didn't give the god spirit herb mountain away and instead destroyed it.

This might be because he took the god spirit range but Ye Mo wasn't disappointed. He received enough from here. He looked around and saw the stealth formations from before become useless.

No wonder these people saw the god spirit herb mountain.

"Brother Ye benefited quite a lot from this." Yunli divine emperor looked at Ye Mo and said.

Those disappointed divine emperors gazed at Ye Mo.

because Ye Mo dug a dao fruit first before they started collecting god spirit herbs. They at most collected just over ten and the mountain exploded. No one knew what tree Ye Mo took but they could guess it was something significant.

Yunli divine emperor and another Dao Nourishment Divine Emperor subtly sealed off Ye Mo's front and back.

Ye Mo sneered, they were dreaming to want his dao fruits. No matter how much he got he wasn't going to take out one.

“It’s nothing, I just happened to see an ordinary peach tree and I like peaches so I dug it out.” Ye Mo said.

Because Ye Mo took out the 12 lightning orbs, everyone thought Ye Mo was scared of trouble so they weren’t worried Ye Mo wouldn’t give it out.

Seeing Ye Mo not bring the dao fruit free up, Yunli divine emperor’s face sunk. He said nothing but the other Dao Nourishment Divine Emperor said coldly “Ye Mo, everyone opened the valley together and we got nothing here. Since you found the god herb mountain and got the most precious thing inside, you should share it with everyone.”

Ye Mo was furious. He found the entrance and he opened the place. This bastard didn’t think about who gave him the opportunity to get the god spirit herbs he just collected. One really couldn’t be too timid. Just because he took out the 12 orbs before, these people were certain they could take him on.

Ye Mo suppressed his anger and looked at the Dao Nourishment Divine Emperor “Dao friend, do you have a dual cultivation dao partner?”

“What does this have to do with the god spirit herb mountain? I’m only going to ask you once, are you going to take it out or not?” The Dao Nourishment Divine Emperor’s tone grew more serious as his powerful Dao Nourishment Divine Emperor force rose.

“Then that means you do? Can you take out your dual cultivation dao partner out and share her around?” Ye Mo sneered.

Not every divine emperor had a dao partner but talking about this in this way was the greatest insult to every divine emperor.

With this, the Dao Nourishment Divine Emperor could no longer hold in his anger. An ancient qin was released. At the same time, he struck out tens of sound chords. He already considered Ye Mo dead. He not only had a dao partner and she was also master of qin like him.

His dao partner was the most beautiful in his eyes and had same importance to him as his cultivation.

He released his god art without hesitation.

Strung strung... The chord sounds attacked rapidly, cutting the space between him and Ye Mo into pieces. Ye Mo was in this space and there was no more life force left. One could imagine that once the space shards hit Ye Mo, Ye Mo would become shards too.

Ye Mo didn't like to waste time talking. Since this man attacked first, he sliced out with Zi Xu and punched.

Fist god art shatter space and crevice attacked at the same time forming multiple lethal force whirlpools while sweeping some of the space shards. This force struck the space shards creating a huge explosion. Essence chi burst and space rattled.

Zi Xu and the qin clashed together.

Chapter 2059 - Can't take out Ye Mo

A string chord was severed by Zi Xu and Zi Xu was flicked away by the chord and couldn't continue attacking this Dao Nourishment Divine Emperor.

The powerful clash of space made Ye Mo and that Dao Nourishment Divine Emperor retreat a few steps each. But everyone could tell that in that quick clash, the Dao Nourishment Divine Emperor was at the lower hand.

Ye Mo sighed. His Zi Xu was too low level. Otherwise, it wouldn't just be one string breaking in that clash.

The Dao Nourishment Divine Emperor immediately knew he was no match for Ye Mo and stared at Yunli divine emperor.

Yunli divine emperor sneered and suddenly saluted with his fists "I suspected that Ye Mo took a dao fruit tree. Those who want a share cme out."

Then, he grabbed a green mist and stopped in front of Ye Mo. He glanced his eyes across the other divine emperors especially Mu Han divine emperor. If Mu Han divine emperor stood out, there would be two Dao Actualisation Divine Emperors here. Ye Mo wouldn't be able to get away no matter what.

Unexpectedly, Mu Han divine emperor didn't look at him and just looked down as though in contemplation.

Yunli divine emperor immediately frowned. Ye Mo was just an solo cultivator. He didn't understand why Mu Han divine emperor had such attitude.

Just at this moment, another sneer sounded. A purple robed thin eyed divine emperor got out and sealed off Ye Mo's other path.

This divine emperor was almost killed by Ye Mo and had a powerful nail magic artefact.

Yunli divine emperor rejoiced. He wasn't afraid of unable to beat Ye Mo but was afraid Ye Mo would escape. Now that them three cornered Ye Mo Ye Mo definitely wouldn't be able to escape.

It was easy to take Ye Mo down but it wasn't easy to share things. If everyone attacked, it was fine but he didn't believe those people on the side would be calm after they got the good things.

"Shameless things, I, Gan Xintong, will stand by brother Ye. I want to see who dares to attack." Seeing Yunli a Dao Actualisation Divine Emperor ask for help against Ye Mo, Gan Xintong couldn't resist it anymore.

Seeing this, Yunli divine emperor's heart sunk. There was a Ji Xi on the side who didn't speak. He didn't doubt the pale faced man. He always thought there was something between Ye Mo and Ji Xi. Now that Ji Xi didn't speak, she quite possibly would help Ye Mo when they fought. With Mu Han divine emperor acting dumb, Yunli divine emperor was no longer certain he could take out Ye Mo.

He looked at Ji Xi and Mu Han before sneering "Goodbye."

The other two Dao Nourishment Divine Emperor saw Yunli divine emperor go and left without daring to say a word. "Cowards." Gan Xintong sneered at them in contempt.

Mu Han divine emperor saw this and saluted with his fists to Ye Mo "I'm going too, we'll meet again if fate calls for it brother Ye."

Ye Mo sneered. He knew why Mu Han divine emperor felt threatened by him. This old guy wanted to take him out but was scared his old bones couldn't handle his Great Primordial God Rune.

"Thank you for helping sister Xintong." Ye Mo said.

Gan Xintong smiled "I haven't heard people call me sister in years. It's fresh but I like it. Ye Mo, it seems that Mu Han feels threatened by you."

Ye Mo nodded "That guy is a hypocrite. He originally wanted to ambush me but was scared by me and thus didn't attack."

Gan Xintong didn't ask about the details and just said "Then I'm going first, be careful."

No one was dumb as Dao Actualisation Divine Emperors. She believed the pale faced man a bit. Ji Xi might have some relations to Ye Mo and now that Ji Xi was she didn't want to disturb them.

"Sister Xintong, are you going to the life crippling restriction grounds?" Ye Mo quickly asked.

Gan Xintong said casually "My cultivation level is too low to go there. I suggest you don't go now too. If you don't reach Dao Essence Divine Emperor, it's 90% of death going there. You wouldn't even be able to pass the life crippling bridge much less the forbidden grounds. I have to go elsewhere to seek dao essence opportunity. Once I reach dao essence I will go check it out."

Ye Mo took out that taichi abstruse water nail to Gan Xintong "Sister Xintong, I don't have much but I have quite some magic artefact. I don't have any use for this, you can have it."

“Great magic artefact.” Gan Xintong’s spirit sense scanned the nail casually and immediately knew it was extraordinary.

“Thank you brother Ye. I lack such a magic artefact.” Gan Xintong was straight forward and she liked this magic artefact so she accepted it.

After taking it, she glanced at Ji Xi and then saluted with her fists “I’m leaving, we’ll meet again in the God Necropolis Domain.”

Then, Gan Xintong turned to leave.

Ye Mo knew that Ji Xi definitely had business with him. He had business with her too. The gourd was in her hands. He only had a gourd bottom. If he got the entire gourd, he would have a truly powerful magic artefact.

“Let’s do a deal. I’ll still take you to the life crippling forbidden grounds and you give me the gourd bottom. If we see Jian Kui on the way, help me rob the blue bottle.” Ji Xi saw Ye Mo look at her and said.

Ye Mo sneered “I have to give the gourd bottom to you and help you get back the blue bottle and all I get is to stay with you right? Are you very aromatic? I need to stay with you? I’m not chasing you, why should I let you have all the benefits?”

“I said I’ll take you to the life crippling forbidden grounds.” Ji Xi’s face looked bad.

“Sorry, I can go there myself. I don’t need your help.” Ye Mo said.

There was a sliver of scorn in her eyes “You were using an excuse to stay with me before. Why don’t you keep using excuses? You said you didn’t know where it was but now you know. You really change your words quick.”

Ye Mo couldn’t be bothered explaining Kong Chengtian to him and said “Ji Xi, give me the gourd and you can say what conditions you have.”

Ji Xi wobbled and disappeared in a white light. Her voice remained “Bring Jian Kui’s blue bottle and you can exchange for the gourd. Otherwise, no deal.”

In a short while, this place became cold and desolate again. Ye Mo didn’t care. He was going to find a place and check out that grey runed fruit to see if it really helped him cultivate Great Primordial God Rune.

He had tested the Great Primordial God Rune’s power many times. With his current power, he can use Great Primordial God Rune to surely take out a Dao Nourishment Divine Emperor. If this dao fruit could improve his Great Primordial God Rune to another level, then he wouldn’t even fear Dao Actualisation Divine Emperor.

Chapter 2060 - Yimo encounter dead city

Great Primordial Dao Rune fruit. Ye Mo opened his eyes and looked at his empty palm. He was enlightened by that fruit and it disappeared. He learned that the fruit was called Great Primordial Dao Rune fruit.

For those who didn’t cultivate the Great Primordial God Rune, the fruit was worthless but after using this dao fruit, Ye Mo could clearly feel his god rune become clearer. It was still two runes but its power was completely different to before.

This fruit was indeed for cultivating the Great Primordial God Rune. Ye Mo was very happy. He planted that fruit tree into the golden page world. The tree had 56 fruits in total. If he used them all, he believed his Great Primordial God Rune would become an extremely powerful great god art.

Ye Mo spent a year or so using the Great Primordial God Rune fruit. Ye Mo didn’t use time formation disk as he feared it would affect him learning the dao laws inside.

Then, on the way to the life crippling forbidden grounds, Ye Mo kept practicing his god art while improving his Great Primordial God Rune. His god art and Great Primordial God Rune improved rapidly. It couldn’t let him reach Dao Nourishment Divine Emperor but the powerful feeling of the god art settled Ye Mo’s mind. He just used five Great Primordial God Rune fruits and stopped.

Before he increased his cultivation level, using more of the fruits would at most make his Great Primordial God Rune a little stronger. It couldn't help him form more runes. This was a waste.

While Ye Mo was still in God Necropolis Domain, Yimo was flying rapidly in a place in Wen Ju heaven.

When the first immortal city appeared in Yimo's spirit sense, she was extremely excited. She finally saw her first immortal city after immortal ascension.

She didn't even know how she ascended. She just remembered she was in the West Extreme State sand river and suddenly felt the chi of immortal ascension. She could only leave a messenger flying sword and was swept away by the immortal ascension spirit cloud.

Then, she appeared on this ruin. She suspected it was an ancient battle ground. Luckily, she had experienced all sorts of things on Luo Yue continent and wasn't scared. She just left the ruins immediately and flew for a few days before seeing her first city.

When Yimo saw this city, she immediately became happy. She hadn't seen an immortal yet since immortal ascension. Since there was a city here, there must be immortals. She could ask them about the immortal realm.

But as she came near the city, she felt more worried. This immortal city city was lifeless. The immortal realm was different to the cultivation realm, in the cultivation realm, she had enough power to deal with anything but in the immortal realm, her power was at the very bottom.

When she came outside the city, she could still see the worlds Bing Qiong immortal city. There was not a single person at the city gates. Yimo carefully neared the city gates.

The city gates restrictions were wide open but the dried up blood gave Yimo a very bad feeling.

When Yimo walked in, she was completely dazed. This was truly a dead city. She didn't see a single live person. The streets and shops were covered in dried blood. The immortal shops and towers were all ravaged.

Yimo subconsciously shivered when the lifeless chi came striking her. Her spirit sense couldn't even scan 0.1% of the immortal city but there was not a single person here. This was too terrifying.

Who were they all killed by? Was this caused by war?

But soon, Yimo knew that it wasn't caused by a war. It was something sudden.

The reason she made such judgement was because she not only saw some storage rings on the streets but also some scattered immortal crystals. These immortal crystals were much higher level than the low grade immortal crystals she used before. She didn't need to ask to know they were top grade immortal crystals.

This immortal city was very eerie. Yimo had been to many eerie places but still felt chills down her spine. She quickly picked up the immortal crystals and the storage rings.

This made her extremely uncomfortable but there were this many storage rings and immortal crystals here. She didn't want to just leave like that. These were all cnm resources.

After half a day, Yimo collected more than 100 storage ring and then quickly left the city. She believed if she stayed there she would soon pick up more than ten thousand storage rings but when she was young, Song Yangzhu taught her that people needed to know content or they would eventually suffer due to their greed.

Another reason was that she felt uncomfortable staying in this city, it was as though the next moment, she would become a part of the dead chi here.

After leaving this immortal city, she immediately released her flying magic artefact and sped off.

Not long after she left, she felt this shiver all over her body. A powerful killing intent rose from behind her. She hadn't even converted her cultivation essence yet. She couldn't fly fast at all.

That terrifying lethal force made Yimo feel that if she touched it, she would be dead for certain.

Under such terrifying force, Yimo didn't dare to keep running and quickly landed. At the same time, she scanned her spirit sense out. She saw a huge bug open its mouth.

The bug was extremely disgusting. It had countless legs and nine heads. The sticky liquids dripped from the bug's nine heads making Yimo feel disgust. She almost vomited.

The bug just opened instant second mouth and the city immediately turned to ruins. Yimo felt a dent appear at the city. Even her spirit sense was devoured by that dent. She finally realised why the place she ascended to was in ruins. It was devoured by this nine headed bug.

Yimo wasn't dumb. She knew she was in danger. There was no way that she could hide from this nine headed void devouring bug with her little cultivation level. If that bug sucked, she wouldn't be able to live.

She wasn't afraid of death but being devoured by such bug was too disgusting.

The nine headed void devouring bug just devoured everything in the city and then opened instant second mouth towards Yimo. The powerful space collapse made Yimo fall into despair. She couldn't stop this at all.

Before she could show her despair, a 30km long dark red beam smashed over. Yimo felt the suction force disappear from her and then she saw a grey figure arrive with that long sword ray.

Seeing this sword light, the bug immediately swept into a whirlpool and disappeared. The grey figure chased down too.

Yimo didn't even see who saved her. She was dazed but such power. Both the bug and grey figure had heaven shocking power. Even if her power increased by ten million times, she was probably no match.
