

Strongest As 2061

Chapter 2061 Learn Ice Space

Ye Mo stopped, what appeared before him was an endless grey desert. There were space crevice ravaging everywhere as well as the chaotic dao marks of all sorts of god arts. Ye Mo's spirit sense crossed in this chaotic place and was instantly grinded to pieces.

Some bones were scattered over this desert. Ye Mo forcefully hacked out a few spirit sense blades. His spirit sense blades fell on these bones and immediately felt this ancient chi. There was powerful dao waves mixed inside the chi. Ye Mo knew that these people were very powerful when they were alive.

Ye Mo looked at this place and guessed that he was probably at the outskirts of the life crippling forbidden grounds.

This was his 110th year in the God Necropolis Domain. 25 years ago, he lost Kong Chengtian's spirit sense marks. He didn't know if something happened to Kong Chengtian or what. Ye Mo had been in here for this long and although he couldn't sense the forbidden grounds, he could guess the way a bit.

Ye Mo carefully entered this desert and controlled his spirit sense to a hundred meter range. He started to walk along the border of the desert. Some faint space fissures and dao waves struck him instantly tearing his clothes open.

But his immortal god body immediately formed a faint essence chi barrier. Gradually, he got used to the sword marks on this desert. He could gradually get closer to the inside.

At the start, Ye Mo was thinking about how to use his essence chi barrier to block the near dao runes. When he was used to the crevice and the dao mark laws, he was completely immersed in the laws.

He needed to learn what he needed from these chaotic dao laws. In here, the law dao waves were very impure. Rarely could people separate the god arts they needed from this mess but Ye Mo could. He saw space law, time law and five element law. In these laws, he would empower it to his god art as long as it was beneficial to him.

Until one day, he caught a sliver of extreme cold chi. It was just a sliver but Ye Mo felt the terror of this extreme frost chi. This sliver completely grinded the nearby laws forming a small space.

Ye Mo guessed that as time went on, this sliver of chi would dissipate but Ye Mo felt another power is this chi.

He stopped and completely immersed his spirit sense into the frost.

One month, two months, a few months had passed but Ye Mo didn't move at all. He just kept waving his hand as dao waves circulated in his hand before eventually completely sealing this space.

Crack. A year later, Ye Mo suddenly roared and released countless hand signs. The space near him froze. This wasn't space law, it was a strange freeze. It was like a pond of water suddenly froze. Then, this pond started to crack from the Crack. It was like the entire pond shattered. The dao laws around Ye Mo disappeared and the space before him became extremely cold.

"Such powerful ice god art." Ye Mo murmured. He was certain that the person who left behind such ice god art must be an ancient powerful ice spirit root being.

This god art seemed like space god art but it was much direct than space god art. Perhaps this type of god art is far weaker than the space god art of a powerful being who was experienced in space law. However, if both people only knew a sliver about space law, then this ice god art was definitely much stronger than ordinary space god art.

This ice god art would form a frozen space which would then crack apart. The things frozen would turn into oblivion.

"It will be called Ice Space." Ye Mo said.

No wonder there were that many powerful beings willing to come to God Necropolis Domain. This place was a heaven for dao seeking.

Other than cultivation resource, Great Primordial God Rune and Ice Space god art were Ye Mo's greatest learnings in the God Necropolis Domain. It was even greater than his dao vindication. He would eventually vindicate dao anyways but god art was something that couldn't be learned without certain fortune and environment.

Suddenly, there was this pitiful howl. Ye Mo looked over. All he could see was chaotic messy laws that entwined in space. He couldn't see what made the howl.

Ye Mo didn't check with his spirit sense as his spirit sense couldn't withstand the broken chi yet.

Ye Mo sped up along the direction of the howl. Half a day later, he saw nearly 20 divine emperors. Some were sitting on the ground, some stood and didn't move and some were floating in space.

Ye Mo had been in this desert for a year or two. He knew that these people were here to learn the dao waves here.

The only difference was that most people used magic artefact to protect themselves. Only three didn't use any defense magic artefacts. Soon, Ye Mo realised that these people were Dao Essence Divine Emperors.

Ye Mo saw two familiar people too. One was Mu Han divine emperor and one was Ji Xi. Mu Han divine emperor seemed to be learning a god art there. Ji Xi stood by a broad bridge and frowned in contemplation. Even Ji Xi had to take out her nine lotus stand to protect her.

Seeing Ye Mo come, almost everyone was shocked.

They were shocked that an immortal emperor came and one who didn't use any defense magic artefacts. Even the Dao Essence Divine Emperors looked at Ye Mo with some shock as they couldn't see Ye Mo's real cultivation level too. No one believed Ye Mo was an immortal emperor. An immortal emperor would definitely not be able to reach Life crippling desert nor the life crippling bridge.

One bald old man came up to Ye Mo and studied him for a while before saying "Dao friend nice power. You're probably not far from divine body right? I'm Gongyang An, what's your name?"

As he spoke, the wrinkles on his forehead grew deeper. However, the powerful chi coming from him made Ye Mo realise this man was definitely Dao Essence Divine Emperor, a very powerful one.

Ye Mo saluted with his fists "Greetings dao friend Gongyang, my name is Ye Mo. May I ask where this place is?"

No one dared to speak when Gongyang An spoke. It seemed he was the strongest here. Ye Mo wanted to ask if he was at the life crippling forbidden grounds and if he was, was there a way out.

Since Gongyang An couldn't see his cultivation level, he might as well act. The stronger you were here, the more you were respected.

"Hmm, dao friend Ye, this is the outskirts of life crippling forbidden grounds, the life crippling bridge. Did you not come here sensing the forbidden grounds?" Gongyang An asked in confusion.

Ye Mo said with embarrassment "I cultivated a god art called dao severance. I've severed off the will to sense the forbidden grounds to prevent me from always thinking about this place. However, when I made some accomplishments to this god art, I casually got here."

Gongyang An didn't doubt Ye Mo's words and immediately raised his thumb "Dao friend Ye has a powerful intelligence.

I don't have your great wisdom and will. I saw two dao runes in the God Necropolis Domain and go back to try and learn it every hundred years. However, I've never succeeded in ten thousand years. When I went back 100 years ago, the two runes were gone. Only then did I make up my mind to come here. I'm far lesser compared to dao friend Ye."

Ye Mo immediately knew what Gongyang An was talking about. He was talking about the two Great Primordial God Runes.

"But that's good, I've made up my mind to cross the life crippling bridge." Gongyang An said in self comfort.

Chapter 2062 - Life Crippling Bridge

“So this place is the life crippling bridge.” Ye Mo purposely said with surprise. Then he said with regret “Although I know there’s such bridge here I’ve never come here before and have only heard of instant second name. Dao friend Gongyang, can you tell me about this bridge and how to enter the life crippling forbidden grounds?”

Ji Xi looked at Ye Mo with confusion. She thought about how Ye Mo said he didn’t know where the forbidden grounds were. Now, it didn’t seem to be lying. How did he find his way here though. Although it was much later than them, it was still extremely hard.

“It seems dao friend Ye really doesn’t understand this place.” Gongyang An laughed, “In order to get in the forbidden grounds, you must cross the bridge. The bridge ahead of us is the life crippling bridge. The river below is the life crippling river.”

Ye Mo looked at the life crippling bridge. The first time he saw the bridge, it seemed very broad. But hearing Gongyang An say he was going to cross the bridge to get to the forbidden grounds, he suddenly found the bridge was very narrow.

What was this? Ye Mo carefully checked the life crippling bridge with spirit sense.

He found the bridge was shrouded in mist and had no barricades nor border. Sometimes, it looked very broad.

“Sometimes, the life crippling bridge seems boundless, sometimes it seems to be a narrow passage. The yin chi on there is shocking. Once you go on the bridge, your soul would be drawn. Those weak minded wouldn’t be able to control themselves. If your soul isn’t stable on the bridge then no matter how powerful your god art is, you can only be a headless fly on the bridge and fall down eventually.” Gongyang An sighed.

“What happens if you fall into the river?” Ye Mo asked.

“Just soul annihilation.” Another Dao Essence Divine Emperor answered calmly.

Ye Mo realised why this many people didn't cross. They were scared of unable to cross.

"If you want to cross the bridge, you must learn the yin chi on the bridge and fuse your soul into it. That way, you wouldn't be defenseless when you cross it.

Seeing the strange positioned divine emperors, Ye Mo realised that they were here not to learn god art but to learn the yin chi.

He wondered if that Sikong Shan cross the bridge. Ye Mo asked again "Dao friend Gongyang have people ever crossed the bridge?"

Gongyang An fell into silent for a moment and said "That I don't know. I've never seen someone come out of the life crippling forbidden grounds. The life crippling bridge is boundless. If you fall off immediately, we can see it from here but if you go deep, neither spirit sense nor the eyes can see."

"Is there only the possibility to leave if you get to the life crippling forbidden grounds?" Ye Mo asked. His spirit sense just felt an extremely yin chi on the bridge. He didn't know if he could cross it too.

Gongyang An said affirmatively "That's right. Only once you cross the bridge and enter the life crippling forbidden grounds can you find the opportunity for primordial essence as well as the way out. I've been in the God Necropolis Domain for all these years and have no other choice so I want to go try."

Ye Mo looked around and knew that most people here thought the same. However, he didn't know why Ji Xi was here. She had been in here for this short and didn't even reach Dao Actualisation Divine Emperor. Why was she in a rush to leave?

He chatted with Gongyang An for a bit more and didn't waste more of his time. He found a place to learn the bridge too.

Ye Mo's spirit sense was different. After spending a hundred years in the God Necropolis Domain, it had reached the fifth level.

Spirit Will Nine Transformations fifth transformation, realm form. If he was willing, his spirit sense could form a small realm. This realm would be his spirit sense world. Anything that entered this realm would be annihilated by his spirit sense realm.

Ye Mo's spirit sense carefully landed on the bridge but instantly, it was completely eroded by yin chi.

Seeing the other pale faces of the divine emperors, Ye Mo knew their spirit sense was eroded too.

Ye Mo ate a dual spirit pill and then formed an extremely small spirit sense barrier on the bridge. His spirit sense wasn't eroded this time and instead wrapped a gust of yin chi.

An ancient calling sounded from the bottom of Ye Mo's heart. That calling seemed to have come from hell making Ye Mo very shocked. There was even a sliver of horror. It was as though there was a warning that if he didn't kneel down and follow what he was told, he would be annihilated. That calling was for him to go on the bridge and jump off. That way he would get eternal life.

Even with Ye Mo's firm mind, he couldn't resist such warnings and suppressions. Sweat seeped out of his forehead. The next moment, he released a few spirit sense blades and yelled, "Sever!"

A few spirit sense blades sliced out. The yin chi in his spirit sense realm was instantly annihilated.

Ye Mo breathed and recovered. He took back his spirit sense and his face was a bit pale. If it wasn't in his spirit sense realm, it would be hard for his spirit sense blades to cut those yin chi.

"You can check the life crippling bridge with spirit sense and sense it but before you get used to it, your spirit sense would be taken away by the yin chi if you go deep. At the same time, your soul would lose control and you would charge onto the bridge. Before you, a Dao Nourishment Divine Emperor came and charged on the bridge as he jumped off." Ji Xi's voice sounded by Ye Mo's ear.

Ye Mo was shook. He just found that Ji Xi was next to him. If Ji Xi was to ambush him, he would be over.

"Don't look at me with such expression. No one dares to ambush here. Otherwise, it would cause public outrage and everyone else would attack him." Ji Xi explained.

Ye Mo sound transmissioned "Saint Ji Xi, we don't seem to be that good? Do you want to give your gourd to me? If that's the case I need to thank you."

Unexpectedly, Ji Xi wasn't angry and said calmly "I know you have a lot of secret and even killed a gust of yin chi..."

Ye Mo was shocked. He did this in his spirit sense realm, how did Ji Xi know? If she knew did other people know too? Ye Mo subconsciously looked around.

Ji Xi said plainly "Don't worry, I have a magic artefact to learn the yin chi of the bridge and my body is extremely yin so I can sense deeper on the bridge. However, I can't go on the bridge."

Speaking of this, Ji Xi sound transmissioned "You can form your own spirit sense domain and sever yin chi inside it. It seems you have a way to get on the bridge. You can have my gourd but I need to do a deal with you."

"You want me to take you on the bridge?" Ye Mo said coldly. This was a life or death thing. No matter how much he wanted the gourd, he wouldn't take Ji Xi on the life crippling bridge.

Chapter 2063 - Cross Bridge

The life crippling bridge was already this dangerous. It was dangerous for him to go alone. If he brought another, it would be twice as dangerous. The prenatal spirit treasure was good but it wasn't as important as his life.

"I'm not asking you to agree now. People here would at least watch for a few decades to a few centuries before they dare to go on the bridge. After you study it, if you're confident we can do the deal. I don't need you to take care of me. You just need to bring over my lotus stand." Ji Xi said.

Ye Mo understood. Ji Xi wanted to hide in her lotus stand and then he could take it which was the same as taking her. This is a good idea. He could hide in his golden page world and control it to cross the bridge.

You can go yourself first. If there's danger, then go into your lotus stand." Ye Mo said.

Ji Xi said plainly "If one can enter another dimension then the life crippling bridge wouldn't have that name. No one can enter their own world on the If bridge. You can't use spirit sense on the life crippling bridge."

"I'm not close to you. Why do you trust me so much? Are you interested in me? Plus, aren't you scared that I would steal your lotus stand? Plus, you've only been in here for this long and you want to leave already?" Ye Mo doubted why Ji Xi asked him to bring her across the bridge. He didn't believe she would leave her life to his hands.

Ji Xi said calmly "You don't need to misunderstand. I won't be interested in anyone. As long as I'm in the lotus stand, no one can steal it from me. If one tries to spirit control it, I can detonate it and you wouldn't be able to get your gourd. As for why I want to go out desperately, it's my business. I trust you because your spirit sense can for a realm here and your expertise in formation is unmatched."

Ye Mo asked in confusion "Does one need to be good at formation to cross the life crippling bridge? How come I've never heard of this. What does my spirit sense forming realm have to do with crossing the bridge? Didn't you say spirit sense can't be used on the bridge?"

Ji Xi said slowly "You can't cross the bridge by walking straight. It's said those who are masters of formation can find the right pass. If you take me on the lotus stand I can help you check the right track inside.

If your spirit sense can form realm, you can protect your soul. Even if you can't release your spirit sense, you would have much greater chance of survival than others."

Ye Mo fell into silence. If he didn't collaborate with Ji Xi, then he would have to ask about that path thing.

"Saint Ji, I agree to the collaboration but we need to be honest with each other. First, what is that set path you were talking about. Give me a jade slip in it. Second, why are you in a rush to cross the bridge, you must tell me the truth." Ye Mo thought for a while and said in a more polite tone.

She came from a big sect. This means Ji Xi probably knew what was good in the life crippling forbidden grounds. He would want a share too.

Ji Xi said calmly "How to cross the life crippling bridge is the heritage from my sect. I can't tell you about it. As for why I need to cross the bridge, I can tell you. Because in the countless years of the Immortal Goddess Sacred Sect, they have never abandoned a saint unless she died."

"Oh, I understand. You were abandoned by the Immortal Goddess Sacred Sect so you're annoyed and want to go back and see what happened." Ye Mo asked.

Ji Xi shook her head, "I'm not annoyed. I'm afraid something happened to the sect so I have to go back and look. As long as I'm alive, I won't allow anything to happen to the sect."

Ye Mo sneered "If a Dao Essence Divine Emperor annihilated your Immortal Goddess Sacred Sect, can you go bite him."

Ji Xi said calmly "Dao Essence Divine Emperor can't annihilate the Immortal Goddess Sacred Sect."

She was really confident. Ye Mo didn't want to waste time talking and said "Give me the gourd, you can enter the lotus stand. I agree to your conditions."

"You're crossing the bridge now?" Ji Xi was shocked by Ye Mo's words.

Ye Mo had only been here for half a day and he wanted to cross the bridge. This was too absurd.

"Of course, if you're not willing I won't wait for you. I will cross myself." Ye Mo said.

He desired to cross the bridge much more. It was unbearable for him to keep staying here. Ye Mo knew that cultivating in the God Necropolis Domain was much better than going out but he didn't feel safe about Mo Yue Immortal Sect.

There was also the Luo Yue continent unable to immortal ascension. Did Kai Mi solve the problem? He was worried the most about truth divine emperor, was he reborn?

He didn't fear truth divine emperor now but he was worried about Yimo. From Su Jingwen, Ye Mo knew that Yimo got Truth divine emperor's immortal carnage tower. Regardless if Yimo ascended or not, truth divine emperor can probably sense his immortal carnage tower if he was Dao Nourishment Divine Emperor. That would be a disaster for Yimo.

Ye Mo didn't believe that Yimo could completely spirit control the immortal carnage tower to prevent Truth divine emperor from sensing it. With all this piled up, how could Ye Mo have the mood to cultivate here.

Ye Mo saw that Ji Xi frowned and didn't reply so he couldn't be bothered waiting for her.

Seeing Ye Mo really walk towards the life crippling bridge, Ji Xi quickly said "Wait, I agree but I can't give you the gourd now. I'll give it to you after we cross the bridge."

"Okay." Ye Mo said.

Seeing this, Ji Xi went into her lotus stand which transformed into a palm sized lotus and fell into Ye Mo's hand.

"Dao friend Ye, your'e going on the life crippling bridge as soon as you got here?" Gongyang An asked in shock.

Ye Mo said helplessly "Yes, dao friend Gongyang, I have some desperate matters to attend to. If I don't go to the life crippling forbidden grounds, I might not be able to get out. I know me. If I can't go over now, then I wouldn't be able to get over 100 years later."

"Okay, dao friend Ye, you're a decisive person, we're definitely should be friends. But I don't do things as decisively as you." Gongyang An raised his thumb.

As though remembering something, he added “Dao friend Ye, do you have something unfinished? If you fall off the river and I can do it for you, I will definitely help you.”

Ye Mo thought. He was originally going to ask Gongyang An to help with the immortal realm.

But then he gave up the thought. It wasn’t appropriate.

“I don’t have anything special. Chang Fei divine dao city has this Zhu Dragon god tower that wants to kill me. I’ll kill them after I go out this time. If I can’t go out, then dao friend Gongyang can help me with this. I will be very grateful.” Ye Mo said.

Gongyang An laughed “This is a small thing. As long as I can get out, it will be on me.”

Ye Mo saluted with his fists “Then thank you dao friend Gongyang, I’ll be going first.”

Then, Ye Mo grabbed the lotus and quickly got on the bridge and disappeared into the mist.

This dao friend Ye is a straight forward person.” Gongyang An raised his thumb. If it wasn’t that he could subtly sense some laws on the bridge, he might’ve crossed it like Ye Mo.”

As soon as Ye Mo got on, he was blown by the countless yin chi and felt his essence spirit uncontrollably wobble inside his body. There was nothing he could do.

Ye Mo thought of the path Ji Xi talked about. Ji Xi said she could contact him but he didn’t feel it.

Chapter 2064 - So Close

Ji Xi was also desperate. She found that the means the Immortal Goddess Sacred Sect taught her couldn’t contact Ye Mo.

Ye Mo knew that he couldn't rely on her to point the way so he stopped. He used his body refinement cultivation method and formed a barrier around his body. The yin chi was blocked by the barrier and weakened. Ye Mo then released a few spirit sense blades and formed a spirit sense realm inside the barrier.

Ye Mo breathed easy. Luckily his Spirit Will Nine Transformations was still useful.

When the spirit sense realm formed, Ye Mo's essence spirit no longer floated around.

Ye Mo sped up but as he went further, he felt it harder and harder to hold up the barrier. His spirit sense realm was also squeezed. Later on, his essence spirit became floaty again.

Ye Mo breathed and stopped.

At this moment, Ji Xi's voice sounded "Stand on the yin line, walk along the wall..."

Ji Xi just said these words and her voice fell silent. Clearly it was very hard for her to even say that.

Ye Mo looked at the bridge and really didn't understand what the yin line was. Where was the wall?

Crack. Ye Mo's heart sunk. He knew his body refinement barrier had broken. Without it, his spirit sense realm instantly crumbled.

Two lines flashed across Ye Mo's sight. One had an extremely heavy yin chi. Ye Mo didn't have time to look at the other one and stepped on the yin chi fine line.

When Ye Mo stepped on this line, he felt that his essence spirit that was almost blown out of his body came back. The extremely yin chi blew past his body. Although there was still some yin chi where he stood, it was much weaker.

Ye Mo breathed easy. This life crippling bridge was really strange. Although he was Dao Moulding Divine Emperor, Ye Mo knew that he was on par with even Dao Actualisation Divine Emperor. Yet with such power, he was defenseless on the life crippling bridge.

Luckily Ji Xi gave him a clue. However, he still didn't understand what walking along the wall was. He could only keep walking along the line.

He didn't form spirit sense realm again. It was too damaging to him for his spirit sense realm to break. Luckily he was a body refinement cultivator and had the power of the Three Birth Chant to allow him to barely protect his essence spirit.

The yin line was extremely thin but as Ye Mo walked, it grew wider and wider giving Ye Mo the feeling that it was wider than the bridge.

Ye Mo didn't dare to keep walking like this. He felt that if he did, he would probably fall into the river soon.

Luckily, where he stood had the weakest yin chi. His essence spirit could still feel the powerful calling of the river but it couldn't make his essence spirit leave his body.

Ye Mo forcefully used his spirit sense realm again and then, a long rusty wall suddenly appeared on the line.

The wall stretched very long as though to the ends of heaven. Was this walking along the wall? Ye Mo walked along the wall without hesitation.

The instant Ye Mo's feet fell along the wall, the yin line disappeared.

Two hours later, Ye Mo had to stop as the wall disappeared again. There was endless yin chi hallowing around him. His essence spirit and soul was rattling again for the third time as though about to jump off into the river.

Ye Mo forced himself to calm down. He knew that one could only keep walking forward on the bridge. Where he walked would disappear. If he walked back, he would just fall into the river. He knew that he couldn't stand still for long or he wouldn't be able to resist that calling.

"You're quite amazing to be able to get over here. You probably walked over using the yin line. There's no more road, stay here with the emperor." An extremely ancient voice sounded by Ye Mo's ear. Ye Mo was shocked and found that where the wall disappeared, a skeleton appeared.

It was extremely thin and sat at the corner of the wall.

Ye Mo didn't need to ask to know that it was another divine emperor that had crossed the bridge. He couldn't go on anymore and had to sit down as he watched himself become skeleton. But Ye Mo still admired this person. His body was gone but his essence spirit was still here.

"I did indeed..." Ye Mo just said a few words and suddenly stopped. He found he couldn't make a sound.

"Hehe, you're a mere Dao Moulding Divine Emperor and you dare to talk on the life crippling bridge? If you didn't walk along the wall, you would've jumped off already. Little kid, you won't be able to stop here for long. Before you die, find a place to sit and chat with me for a bit. I haven't spoken to anyone in tens of thousands of years." The skeleton laughed.

Suddenly, a bleak lethal force attacked him. Ye Mo instantly realised that this skeleton was ambushing him as they were talking.

At this moment, Ye Mo couldn't care about not leaving the wall. He quickly left and went around the skeleton. He couldn't think about why the skeleton attacked him.

The instant he left the wall, he could no longer feel that lethal force. Endless yin chi blew over and Ye Mo's soul loosened up.

Ye Mo burned his essence blood and god essence.

After that, the body refinement barrier formed again and he used his spirit sense realm again.

When he used this and saw what was before him, he immediately sweated cold. He was standing at the edge of the bridge, if he took one more step he would fall off into the river.

Ye Mo quickly went back. Feeling the intense yin chi scraping his body and the soul eroding calls of the river, Ye Mo knew that his barrier and spirit sense realm would only last ten seconds.

If he didn't charge out of the bridge before his spirit sense realm broke, he would definitely jump off.

Ye Mo dashed forward like crazy. As he sped up, his barrier made cracking sounds.

Crack. When Ye Mo heard this, he fell into despair. Even when he burned his life, he couldn't make it very far.

Suddenly, a dark blue appeared before Ye Mo's eyes. Ye Mo rejoiced, was he on the other side?

Swoosh. More yin chi blew over and Ye Mo saw that dark blue color was so close but it was something he could never reach.

Ye Mo looked at the lotus in his hand and threw it over. Whether she lived or died was her fate. He couldn't care. Ye Mo didn't even care that he didn't get the gourd. His life was gone.

The yin chi grew heavier. Ye Mo didn't dare to move. If he moved, his essence spirit would be taken by the yin chi. Ye Mo wanted to burn his life but his essence spirit was floating on the surface on his body. He couldn't even touch the golden page world much less go in.

Chapter 2065 - Fall in the Zhao Shadow Ranges

The instant Ye Mo entered that crack, he wanted to go into the golden page world but there was this terrifying spinning power from the crevice that almost tore him to pieces. If he wasn't immortal god body peak stage, he would be in pieces now.

The serious side effects of burning eb and essence chi began to show. As soon as he used spirit sense, he felt this wave of dizziness. That spinning power grew but there was nothing he could do. In a short while, he lost consciousness. Only his body refinement cultivation method was running automatically and barely protected his body.

Luckily there was just rotational power here, no space disposition and things.

Zhao Shadow Range wasn't very famous in Shen Qiong continent but rarely did people not know.

This was because the yin chi here was very heavy and was said to be connected to the underworld. It's said that everyone who died on this continent would go into the underworld from here to be reincarnated. Souls would come here for a while before entering the underworld.

Usually, cultivators who died not long ago would stay here for a while. Living people can come here and communicate with the dead. This communication was limited and it required powerful being's soul calling rune to work.

Not only so, one must go past the grey forest in here. The grey forest was also a very cold and scary place on the continent. There were large amounts of ghost cultivators and yin souls. Yin souls couldn't enter samsara and thus roam in the grey forests. As for ghost cultivators, they're people who don't want to go through reincarnation. The yin chi was too heavy and the gravity was extremely heavy too in the grey forest so ordinary cultivators couldn't fly at all.

Thus, it was very hard to cross the forest and come to the Zhao Shadow Ranges. On this continent, everyone knew the ranges was the place to communicate to the dead but rarely did people talk about it.

At this moment, there was a white robed woman with a ten year old boy in the forest. They were rushing forward worriedly. There was a huge light barrier that protected them and there were unknown things smashing against the barrier.

These shadows were very thin. The woman could see with her spirit sense but the little boy knew nothing.

The barrier was getting thinner and thinner.

“Sister Qiongying, can we really see my brother once we cross this forest?” The little boy asked.

The white robed woman nodded “Yes Heyi, we just need to cross this forest and we can talk to your brother.”

The boy nodded and sped up.

“Heyi, you must not fight with Pengxuan and them next time.” The woman added.

The boy said “Peng Xuan dared to say that sister slept with Xin Hai city’s master Meng just to get him to help. I was angry so I beat him up.”

The woman’s figure paused and her pale face grew paler but she sped up.

The boy seemed to know that sister was unhappy and didn’t speak anymore.

15 minutes later, their barrier finally couldn’t hold on and cracked. Luckily, they were out of the grey forest now but those shadows didn’t dare to dash out of the forest.

The bleak chi shivered the woman but she released a shield.

“Sister Qiong Ying, is this the Zhao Shadow ranges?” The little boy looked at this spooky place and asked in terror.

The woman looked around this bleak environment shrouded in mist and then said to the boy “Heyi, let’s call here.”

The boy didn’t understand these things and could only nod. The woman took out a rune and looked at it for a long while before releasing it.

A bleak mist chi spewed out from the rune and then the mist chi dissipated.

The woman stood there in a daze for a long time. She didn't expect that she worked so hard, used all her savings and was almost taken advantage of by that bastard and only got a fake soul calling rune in the end.

"Sister Qiongying, what happened?" The boy asked worriedly.

The white robed woman sighed. She looked back at the grey forest. She knew that it was extremely hard for them to leave.

At this moment, a whirlpool suddenly appeared in the void. The entire range was moved by this whirlpool. The bleak chis even made a whimpering sound.

Thud. There was this extremely loud sound in this distance. The white robed woman saw that the whirlpool disappeared again.

"Sister Qiongying, what is that?" The boy asked worriedly.

The woman checked with her spirit sense and said shakily "It seems to be a person but that person fell into a small swap. Only his head is outside."

"Sister Qiongying, didn't you say only souls can go into the Zhao Shadow Ranges? How can there be a person there?" The boy felt her nervousness and clutched her robes tightly.

"I don't know, don't move, stay here." The white robed woman said quietly as though fearing she would be heard by others.

Then, she pulled the boy to a corner and put the shield up in front of them. She took out a low grade spirit artefact with her other hand and stared nervously at the swamp.

When Ye Mo opened his eyes, he felt the bleak chi around him and immediately thought he was in the life crippling river. However, he soon realised he wasn't.

Although his essence chi was greatly depleted and his sea of consciousness was seriously injured and had less than one millionth of his power, these yin chi couldn't harm him at all. If it was the life crippling river, how could it be this safe?

Ye Mo struggled up from the swamp and wanted to go into the golden page world immediately but then his sea of consciousness ached. Ye Mo knew this was due to him using spirit sense realm again and again and then going into the crevice.

At least he was alive. His body refinement cultivation method ran automatically when he went into the crevice and blocked the damage of the whirlpool. However, he stayed in there for too long causing his body, sea of consciousness and essence chi to be greatly injured.

Ye Mo sat down and rested for 15 minutes. The chaos tree constantly nourished him and his spirit sense recovered a little bit. With that, he immediately went into the golden page world.

He cleansed himself and changed into new clothes before feeling something wrong. When he crawled up, there was no immortal spirit chi, it was the most basic spirit chi and it was extremely arid. There was more yin chi.

Ye Mo came out of the golden page world before even talking to small ginseng and shadowless. He suspected that he came back to Luo Yue continent. Otherwise, how could there only be spirit chi?

Coming out of the golden page world, Ye Mo almost fell on the ground. Ye Mo knew that it was because he was too heavily injured, even though he had many pills and the chaos tree kept nourishing his meridians and essence chi, he needed to go into solitary cultivation.

Ye Mo's spirit sense recovered a bit and could at least see the surrounding few hundred kms. He scanned his spirit sense out and saw a white robed woman with a little boy hiding and looking nervously at him.

Ye Mo frowned. He just went into the golden page world and came out. He didn't know if she saw this.

But soon, he saw that the woman was only golden core state primary stage and her chi was unstable. Clearly, she just reached golden core state.

Was this really Luo Yue continent? Ye Mo rejoiced. If it was, he could go back to Mo Yue City really quickly.

Ye Mo sped up going out. Even though he was heavily injured, he was a dao vindication divine emperor. A truth realisation state peak stage was still an insect to him. He had no concerns in the cultivation realm.

Chapter 2066 Familiar people at Shen Qiong

“Hao Qiongying greet qian bei.” The white robed woman bowed to Ye Mo.

She then stood waiting for Ye Mo to answer nervously. Although Ye Mo looked all too ordinary and didn’t have any fierce chi on him, Hao Qiongying was still very nervous. This person suddenly appeared in here and fell into the swamp but he could still walk out casually.

She was golden core state and could only walk at the very border of the ranges, she didn’t dare to go in at all.

Ye Mo glanced at this woman. Her hair was casually braided. She didn’t dress herself up intentionally. Her face was pale and had some nervousness. She looked not bad but was a far cry compared to Ji Xi and Zhen Bingyu.

“May I ask where is this place? Why is there so much yin chi here?” Ye Mo asked.

Hearing this, Hao Qiongying finally breathed easy. Ye Mo’s tone was rather polite.

“Huh...” Hao Qiongying then realised that Ye Mo’s words were a bit strange. Who didn’t know this place was the Zhao Shadow Ranges.

She then realised again that she shouldn't daze. She bowed and answered "This is Zhao Shadow Ranges."

"Zhao Shadow Ranges? Is this Luo Yue continent?" Ye Mo frowned and had a bad feeling. He had never heard of this place on Luo Yue continent.

Hao Qiongying wasn't dumb. With this, she immediately realised that Ye Mo wasn't from Shen Qiong continent. Thinking about how Ye Mo fell from the sky, how could she not know that this qian bei probably came from Luo Yue continent.

She suppressed her horror and said with even more respectful tone, "Qian bei, this is Shen Qiong cultivation realm, not Luo Yue continent. Wan bei had heard of Luo Yue continents. It's said that it's a similar place not far from Shen Qiong continent."

Ye Mo could see her nervousness and smiled, "Don't be nervous, I used a space breaking rune and accidentally came here."

Ye Mo didn't want to scare her. If she knew who he really was, she might not even be able to talk.

Hearing this, Hao Qiongying breathed easier. If one used the space breaking rune, even a Nie Shuangshuang cultivator could cross realms but those people who had such runes weren't simple so Ye Mo was still mysterious to her.

"Why is this forest so bleak. There's no one in a thousand km radius. What is going on?" Ye Mo's spirit sense recovered quickly, it was only 300 km before but now was beyond 1000 km. This was him not focusing on recovering too. The chaos tree was indeed absurd.

Hao Qiongying didn't dare to hide it and quickly said "Qian bei, this range is the place to seek souls, it's said that it's connected to the underworld..."

Hearing this, Ye Mo frowned. He felt he landed at a strange place.

The life crippling river and bridge were filled with yin chi and the place of lost souls. It's said that those who fall down would lose their souls and disappear from the universe forever. The swamp here had very dense yin chi and was the fabled entrance to the underworld. But Ye Mo doubted if this place was related to the divine dao realm's life crippling river.

Ye Mo had heard of the underworld and knew that it was a very ethereal realm. It's unheard of that someone could enter it. Even if cultivators reincarnated they could rarely remember anything about the underworld.

Ye Mo's cultivation level had dropped quickly but his power was at least a great unity immortal.

He scanned this place with his spirit sense "There's some yin souls here but they're all very dazed. I don't see an entrance to the underworld. Is there something wrong with this legend? Even if this fable is right I'm certain your husband's soul isn't here."

Yes, qian bei, wan bei knows now." Hao Qiongying said quietly. Regardless if her husband's soul was here or not she wouldn't be able to summon it.

Ye Mo nodded "In that case, take me out."

Ye Mo knew someone here. Meng Zhen was from Shen Qiong continent and his disciple Mang Cang came from here too. Meng Qi was also at Shen Qiong continent. Meng Zhen and Mang Cang had ascended and were at Mo Yue Immortal Sect now but Meng Qi hadn't ascended. He could go find her. When he recovered his power, he could cover the continent instantly.

Then, Ye Mo seemed to realise his words weren't too polite so he added "When you go out, I will give you something. You won't do it for free."

Hao Qiongying quickly said "Qian bei, wan bei should take qian bei out I don't dare to take qian bei's things. But there's many yin souls in the forest and some ghost cultivators. If, if..."

Ye Mo smiled, "It's fine, just lead the way, they won't dare to come."

“Yes.” Hao Qiongying couldn’t have gone out alone and now that Ye Mo told her not to worry, she was willing to take him out even more.

“Qian bei, my sister was tricked. Can you help her and teach that person a lesson.” The boy suddenly said.

“Heyi, don’t say that.” Hao Qiongying quickly stopped. She was afraid that if her brother in law offended Ye Mo, it would be over.

Ye Mo took out a storage ring and gave it to the boy, “You need to get revenge yourself. You’re already chi gathering middle stage. I’ll give you a storage ring. There’s cultivation method in here and some resources. When you’re strong, get revenge yourself.”

“Thank you qian bei.” Hao Qiongying said.

The three walked into the grey forest and Hao Qiongying became nervous. She sped up as she didn’t want to stay here one extra minute.

Five minutes later, she was confused. When she passed the forest, many shadows dashed on her barrier. Now, there was no barrier but they didn’t see any yin souls nor ghost cultivators.

Ye Mo was divine emperor and even though his power decreased a lot, his divine emperor domain was still there. With such domain expanding out, what dared to get close? Even if they did, they would turn to dust. With Hao Qiongying’s power, she wouldn’t even be able to sense Ye Mo’s domain.

Ye Mo wasn’t too unlucky and neither was Ji Xi.

When her lotus was thrown to the other end, her spirit sense scanned out immediately. She saw a blue color and immediately rejoiced. She knew that this meant she was at the life crippling forbidden grounds.

Before she could think, another crevice appeared before the lotus and before she could react, the lotus fell into that crack.

Chapter 2067 Behind the divine sect

Without the lotus stand, Ji Xi would've turned to nothing in the spinning space. However the lotus stand was a top level magic artefact and despite spinning in the void, it didn't slow down at all nor get damaged.

The Immortal Goddess Sacred Sect's prison door mountain was at the border of the Immortal Goddess Sacred Sect. The god spirit chi was arid there and it was filled with chaotic and messy chi. It wasn't good for cultivation nor for living. There was an extremely short hill with a dark passage that led to the depth of this mountain.

This short hill was where the Immortal Goddess Sacred Sect locked up sect members who were convicted. One's soul would constantly be burned by yin fire. Due to arid god spirit chi, there was no way to defend against the yin fire. The only way was to just endure it.

The people locked up here could only watch as their soul weakened and sea of consciousness withered.

Even when the divine dao realm was complete, the prison door mountain was the crudest place.

Outside the mountain, Mu Xiaoyun's eyes were red. She knew that her master was locked up in there due to her by her martial uncle.

"Sorry master, disciple brought this on you." Mu Xiaoyun said after visiting her master. Seeing the way her master was tortured, it was unbearable for her.

Lan Qilan's weak voice sounded by Mu Xiaoyun's ears "Xiaoyun, don't feel guilty. I'm already happy that the sect leader can let you visit me. Plus, she's giving me a light sentence. I'm only locked up for a hundred years. I can listen to my own dao voice here. Xiaoyun I really want you to see your husband again but as long as I'm here, you must not leave the sect alone. Otherwise, you would never have hope. Although you're the most cruelly treated saint, you're still the saint. Biyue's status in the sect is low, help me look after her."

Mu Xiaoyun sniffed "Yes, disciple will remember this."

She didn't realise what her master was implying. It was that if she died, then Xiaoyun should quickly leave. Lan Qilan didn't say it that way as she was scared that her every word would be heard. She was also scared that no matter how far Xiaoyun went, she wouldn't be able to escape from the Immortal Goddess Sacred Sect. She believed that as long as she was alive, the sect leader wouldn't do anything to Xiaoyun but if she died, Xiaoyun's fate would be tragic.

"Mhm, go first. The chi here is too messy." Lan Qilan said weakly again.

Before Mu Xiaoyun could reply, an extremely rapid light tore open the space from the distant mountain and into the valley of the prison door mountain.

The rays were shocking and had dao waves. Mu Xiaoyun was now great extreme immortal. She knew this was definitely a top treasure.

Mu Xiaoyun's only obsession was to see her husband Ye Mo and didn't really care about other things. Even though she knew that a top level magic artefact fell, she didn't charge up immediately. Instead, she closely got near where the magic artefact landed with her flying sword.

At the same time, in the sect leader palace of Immortal Goddess Sacred Sect, a few women sat on the side with one purple robed woman sitting in the middle. She was the sect leader, Ji Xinyi.

"Yunhuai, tell me about what you think. Xiaoyun is only great extreme immortal middle stage now. Even if she is to reach immortal king, she would need a hundred years. The Great Sun God mountain is too desperate. Our Immortal Goddess Sacred Sect already agreed to their request, what else do they want? Is our saint that worthless?" The purple robed woman sneered.

Yunhuai said respectfully "Sect leader, during these years our Immortal Goddess Sacred Sect has fallen quickly but the Great Sun god mountain has risen quickly. If the Xu Yue Divine Dao still existed, they could take on Great Sun God Mountain but Xu Yue divine dao is more declined than us. Their sect is in rubbles. No wonder the Great Sun God Mountain is so cocky."

The Primordial Essence war didn't involve the Xu Yue divine dao. No one dares to fight there. Their annihilation is probably related to the Great Sun God Mountain right?" One Dao Actualisation Divine Emperor said.

Yunhuai said “Martial sister Nanshuang is right. It’s said that the Xu Yue divine dao had a disciple called Duanmu Yuerong. His talent was unparalleled. He reached the highest primordial essence great dao in a mere tens of thousands of years and then left the Xu Yue divine dao and opened a realm to connect to the underworld.

The greatest suspect for annihilating Xu Yue divine dao was the Great Sun God Mountain. After they did that, they didn’t do anything else. The reason they waited till now was because they were scared Duanmu Yuerong would come back. But after countless years, Duanmu Yuerong never came back. Something probably happened to him as he opened the tunnel to the underworld. That’s why the Great Sun God Mountain has no fear and is now attacking us Immortal Goddess Sacred Sect.”

Nanshuang got up and said “Sect leader, regardless our Immortal Goddess Sacred Sect is the number one sect of the divine dao realm now. Even if our power isn’t as great as the Great Sun God Mountain who hides in the dark, isn’t it too insulting for us to give our saint to the Great Sun God Mountain? No matter how strong they are, it doesn’t mean the Immortal Goddess Sacred Sect is scared of them. The Xu Yue divine dao wasn’t scared of them and robbed the word Tan from their sect name. We don’t need to be scared of them too.”

Nanshuang’s words were very impolite.

The sect leader frowned but didn’t say anything. Yunhuai sneered “Martial sister Nanshuang. You know that Mu Xiaoyun is just a temporary substitute saint right? The reason we chose her was for her to stay at the immortal goddess peak for a hundred years and sacrifice for our sect. And it’s too rude for you to be talking to the sect leader like this.”

Then she added “Plus, our Immortal Goddess Sacred Sect is the number one sect of the divine dao realm but do you think we’re the strongest? We’re the number one sect because saint Qing sacrificed herself for the divine dao realm. Our power isn’t that strong. Martial sister Nanshuang, do you know how many Dao Essence Divine Emperors the Great Sun God Mountain has? Without enough power do you think they can annihilate Xu Yue divine dao?”

Nanshuang said coldly “Yunhuai how can I not know what you’re thinking. Regardless if you have conflict with martial sister Qilan, since we chose Xiaoyun to be saint we should treat her as the real saint, not someone to trade with the Great Sun God Mountain. The Great Sun God Mountain might be a lot stronger than us but I, Wang Nanshuang, would rather fight to the death than succumb to them.”

A blue robed Dao Nourishment Divine Emperor got up and said “Martial sister Yunhuai and martial sister Nanshuang are both doing this for the sect. Let’s just sit down and listen to the opinion of the sect leader.”

Nanshuang sighed and sat down. How could she not know what the sect leader wanted. Ji Xi’s soul lamp wasn’t gone but the sect leader took the flame from the lamp and forcefully lit up the lamp with half of Mu Xiaoyun’s soul. Clearly, she wanted to use Mu Xiaoyun as a substitute offering to the Great Sun God Mountain. However her power was too low. Even with her Dao Actualisation Divine Emperor power, it was nothing in the Immortal Goddess Sacred Sect.

She believed that martial sister Qilan guessed this and tried to prevent Xiaoyun from becoming saint. However, the sect leader was determined to protect Ji Xi. She would rather sacrifice a Mu Xiaoyun who has lost her virginity.

The Great Sun God Mountain requires our saint but it’s not like they’re not giving any compensation. They don’t dare to have too much conflict with us yet. Yunhuai, go tell them to wait till our saint becomes a status immortal.” The sect leader said.

Then, she looked at Wang Nanshuang and said “Nanshuang, I’m not giving the saint to the Great Sun God Mountain. We’ll drag it on for as much as we can. Perhaps things would change after a hundred years. Otherwise, if the Immortal Goddess Sacred Sect is annihilated due to me, I would be the greatest sinner of the Immortal Goddess Sacred Sect.”

Yes sect leader.” Yunhuai quickly answered.

Wang Nanshuang could only sigh helplessly.

Chapter 2068 Encounter With the Saint

Mu Xiaoyun hadn’t even walked there yet and saw another explosion. Beams of rainbow light shot out and a figure appeared in the light.

Mu Xiaoyun stopped. She saw that it was an extremely beautiful woman. The Immortal Goddess Sacred Sect lacked beautiful women the least but this woman was prettier than all the women she had seen at Immortal Goddess Sacred Sect.

“Who are you? Why did you appear at the Immortal Goddess Sacred Sect?” Mu Xiaoyun subconsciously asked.

Ji Xi just came out of the lotus stand and was looking around. She didn’t even care about Mu Xiaoyun. No Dao Nourishment Divine Emperor would worry about a great extreme immortal.

“I’m back at the divine sect?” Ji Xi murmured in disbelief.

She had always lived at the Immortal Goddess Sacred Sect. The land was big but she knew every part of it. This was the back of the prison door mountain, the most distant part of the Immortal Goddess Sacred Sect. She was very shocked to have appeared here after her lotus stand went into that void fissure.

Ji Xi was a bit dazed but Mu Xiaoyun said nothing. She didn’t feel any sense of belonging to the Immortal Goddess Sacred Sect.

“It really is the Immortal Goddess Sacred Sect, and the back of the prison door mountain.” Ji Xi breathed. She felt she was too lucky. There were countless realm fissures at the life crippling forbidden grounds but they led to different realms. Yet, she could come back to the Immortal Goddess Sacred Sect.

When she left the Immortal Goddess Sacred Sect, she was only an immortal emperor and now that she came back, she was Dao Nourishment Divine Emperor.

Suddenly, she thought of Ye Mo. When Ye Mo threw her lotus stand out, she was very grateful. If he didn’t throw it, her lotus stand would fall into the life crippling river too.

Despite Ye Mo did this for the gourd, Ye Mo fulfilled his promise but she didn’t give the gourd to him.

She sighed. Although Ye Mo fell down the river and it had nothing to do with her, Ye Mo didn't have to throw her back up.

She would find Ye Mo's descendants and give the gourd to them. If Ye Mo didn't have descendants then once she reached Dao Essence Divine Emperor she would go there again and throw the gourd down the river.

Casting these thoughts aside, Ji Xi suddenly asked "Did you just join the Immortal Goddess Sacred Sect? I remember you weren't here before I left."

Mu Xiaoyun saw Ji Xi was frowning and didn't disturb her. Now that Ji Xi asked, she quickly said, "So qian bei is from Immortal Goddess Sacred Sect too. Wan bei just joined the sect for 100 years."

"Hmm, wait, why do you have the chi of the saint? Do you live at immortal goddess peak?" Ji Xi asked.

Mu Xiaoyun knew that living at the immortal goddess peak would give her this saint chi. This immortal goddess peak was surrounded by the best marrow cleansing god range. Even if you didn't cultivate, you would have more temperament and better cultivation talent staying there.

Mu Xiaoyun could see that Ji Xi was even more powerful than her master. She quickly answered "Wanbei Mu Xiaoyun is now the saint of the Immortal Goddess Sacred Sect."

You're the new saint? So it's you..." Ji Xi looked at Mu Xiaoyun dazily. She could feel that Mu Xiaoyun was no longer a virgin. How could the sect let someone like her be the saint?

This saint wasn't even status immortal yet, this was absurd.

Ji Xi frowned and suddenly waved up a few restrictions and said to Mu Xiaoyun "Xiaoyun, tell me how you became the saint and what the sect leader did."

Mu Xiaoyun wasn't dumb, Ji Xi was this powerful and pretty. With how she kept talking about the saint, she guessed some things. After Ji Xi set up the restriction, she checked Ji Xi with her spirit sense boldly and found that she indeed had similar chi to him.

Mu Xiaoyun instantly realized that the flame the sect leader took from the soul lamp didn't go out. This woman was probably the previous saint.

Ji Xi knew this but she didn't stop it. She wanted to tell Mu Xiaoyun she was the last saint.

"Mu Xiaoyun greet sister saint." Mu Xiaoyun quickly bowed.

Ji Xi nodded "Tell me everything you know, I won't blame you."

"Yes." Mu Xiaoyun said.

After hearing Mu Xiaoyun's story, Ji Xi frowned "Xiaoyun, you're saying that the sect leader took out my lamp when it was still lit and forcefully lit up yours?"

Mu Xiaoyun fell silent, that's what she said before.

"What are you doing at the prison door mountain?" Ji Xi asked.

"The sect leader used half my soul to light up the land. My master tried to argue for me. Later, she was judged to be locked in there for 100 years. I came to see my master. If it wasn't for martial uncle Yunhuai, I wouldn't be saint and master wouldn't be in there." Mu Xiaoyun said slowly.

Ji Xi frowned even more and fell into a long silence "Why was half your soul used? Did it only take a sliver of spirit will to light it up?"

Mu Xiaoyun didn't answer and Ji Xi didn't need her to answer. She sighed and said "Marital uncle Qilan is in here, I'm going to see her."

She glanced at Mu Xiaoyun and said "Xiaoyun did you mean that you want me to become a saint again? You know if I tell this to martial uncle Yunhuai you would be dead for sure."

Mu Xiaoyun wasn't worried at all "I never wanted to be saint. If I didn't have to see my husband so what if I died?" Hearing this, Ji Xi looked at Mu Xiaoyun with greater light.

"Where is your husband?" Ji Xi didn't understand Mu Xiaoyun's feelings but still asked.

"He's in a mortal realm, I don't know if he reached golden core state or not. If not, I'm afraid..." Mu Xiaoyun thought that even if she gave the saint position to Ji Xi, Ye Mo might not be alive. She could no longer control her sorrow. She was scared that she wouldn't be able to see Ye Mo again.

Seeing this, Ji Xi shook her head speechlessly and sighed "Sigh, you've helped me be saint for this long. I'll go to master's place and take back half your soul. Thanks for your help. I can check for you if your husband is alive. As long as your husband didn't reach Nie Shuangshuang, I can check it. Take out something of your husband's. I need a sliver of his chi."

"Huh... You can check that..." Mu Xiaoyun was completely dazed. Why didn't her master tell her this?

Then Mu Xiaoyun realised she was too rude and said shakily "Sister saint please check where my husband Ye Mo is. This is a magic artefact he gave me..."

Mu Xiaoyun's voice and heart was shaky when she took it out. If her husband was really no longer in the world, she didn't want to stay here at all.

Ji Xi really didn't understand why Mu Xiaoyun was so devoted to this man. The reason she could check if the man was alive or not wasn't due to her own capabilities but that she had the nine lotus stand. She could use it to check the life or death of cultivators who haven't formed nascent suol yet.

"What did you say your husband was called?" Ji Xi suddenly reacted. This was too much of a coincidence. She seemed to have said her husband was called Ye Mo.

Chapter 2069 The Universe is Very small

"You're out of the grey forest like this?" Hao Qiongying stared at the forest behind her in shock.

Ye Mo felt the slightly denser spirit chi and didn't feel as bad as before, after feeling the world laws around him, he opened his eyes and nodded.

Immortals coming to the cultivation realm would be suppressed and even forcefully ascended. But the cultivation realm's world laws were very clear in his will. He didn't feel any suppression in terms of power. In here, he could casually write the top cultivation method suitable to the surrounding laws. This had nothing to do with wisdom, it was just power.

Although his spirit sense was only 1000km, the same as a nascent soul cultivator, his power could easily kill great unity immortal. After he learned the cultivation realm world laws, Ye Mo was more certain that even if his cultivation level completely recovered to Dao Moulding Divine Emperor, he wouldn't be limited by the world laws here as his knowledge of world laws had already surpassed this realm and even the immortal realm.

For a Dao Moulding Divine Emperor or Dao Nourishment Divine Emperor, even if the cultivation realm could be forged into a small world or truth spirit world, they wouldn't want it as the cultivation realm was too low caliber. Only the immortal realm would be attractive to divine emperors below dao essence.

Seeing Ye Mo close his eyes, Hao Qiongying didn't dare to talk.

After realizing the laws here were useless to him, he nodded to Hao Qiongying "Take me to your cultivation city."

Then, Ye Mo casually waved out an extreme grade flying spirit artefact. He had way too much immortal artefacts. Extreme grade spirit artefacts were like trash to him but Ye Mo didn't want to kill people. If he took out too many good things here, people would come to rob it. Then, he would kill.

Even though he was a Dao Moulding Divine Emperor, his heart didn't change. He could kill all those who tried to rob him but after he was gone, Hao Qiongying and her brother would suffer.

"Goddess Qiongying, I want to ask about a few people." Ye Mo said when they were all on the flying spirit artefact.

“Qian bei just call me Qiongying.” Hao Qiongying quickly said.

“Okay.” Ye Mo nodded “have you heard of Mu Xiaoyun?”

Mu Xiaoyun definitely ascended to the immortal realm or she wouldn't be at Wujia sound river. Since he didn't see her at Luo Yue continent, she probably ascended from another continent.

Unexpectedly, Hao Qiongying immediately said “I've heard of goddess Mu. She was one of the top three prodigies in a thousand years. She was the pride of Lotus Glory sect. Due to goddess Mu, Lotus Glory sect is one of the best nine star sects.”

“Huh, Mu Xiaoyun really came to Shen Qiong continent.” Ye Mo rejoiced. He had decided to go visit Mu Xiaoyun's cultivation grounds.

“Yes but goddess Mu had already ascended. She was ranked second for the top three prodigies of the continent.” Hao Qiongying was full of respect.

Ye Mo calmed down his excitement and asked in confusion “Xiaoyun's cultivation speed is that fast. How is she only ranked second? Who is the first?”

Hao Qiongying immediately knew that Ye Mo was close to Mu Xiaoyun or he wouldn't call her Xiaoyun.

Hao Qiongying quickly answered “The first is an solo cultivator called Dongfang Wang. He's very mysterious but his talent is absurd. He didn't join any sect and ascended to the immortal realm in a short time...”

“What?” Ye Mo almost got up. He never was able to find Dongfang Wang. He didn't expect this bastard ran to Shen Qiong continent. Not only so, he also ascended to the immortal realm. When he returned to the immortal realm, he would kill this Dongfang Wang immediately.

Ye Mo knew how powerful Dongfang Wang was. The three brothers were the best tacticians. Dongfang Wang was the best among the three. Now, even his cultivation speed was this fast. He would be a greater threat in the future. He would have to annihilate him before he grew strong.

Seeing Ye Mo's face sink when he heard Dongfang Wang, Hao Qiongying didn't dare to keep talking.

Seeing Hao Qiongying was a bit scared Ye Mo waved his hand "Don't be scared, don't call me qian bei. I'm Ye Mo."

"Yes, martial brother Ye." Hao Qiongying said respectfully.

"Who is the third prodigy?" Ye Mo asked.

Hao Qiongying answered "A prodigy from Ling Xiao sect Mang Cang. All three qian beis had ascended to the immortal realm."

Ye Mo was speechless. He actually knew all three.

When Ye Mo asked about Meng Zhen or Meng Qi, Hao Qiongying didn't know.

After asking for the whereabouts of Lotus Glory sect, Ye Mo stopped asking. He had decided to recover his injuries first at the Xin Hai city and then go to the sect and ask about Xiaoyun.

Ye Mo knew that the reason Xiaoyun was a prodigy was one due to her pure wood spirit root and second due to the primordial chaos chant he left her.

When he first got it, Ye Mo didn't care about the cultivation method. He thought Meng Qian was bluffing but now that he vindicated dao, he knew that Meng Zhan didn't bluff at all. Every sentence of the primordial chaos chant was very deep and contained all sorts of cultivation laws. No wonder it had no element. Different people would have different results cultivating this.

Ye Mo was very grateful to Lotus Glory sect. He hadn't been there but he could feel how well they protected Mu Xiaoyun. Otherwise, with her cultivation method, she would've been devoured to the bones. Not only did they not greed after her cultivation method, they were also protecting her.

Ye Mo only used an extreme grade flying spirit artefact but in his hands, it was no weaker than an immortal artefact. In half a day, a medium sized cultivation city appeared in his eyes.

"Qian bei, this is Xin Hai city. My husband is from Bi Yan sect. Not long ago, he died in the Shen Qiong sect tournament. We moved out from the sect and now live in the city." Hao Qiongying suppressed her shock and said.

After chatting with Ye Mo for this long, she could feel Ye Mo was an amicable person so she gradually let loose and wasn't that scared of Ye Mo. But when Ye Mo flew this spirit artefact and came to Xin Hai city in half a day, she was too shocked. Even extreme grade spirit artefact would take a few days to come here from the grey forest.

Hearing this, Ye Mo suddenly thought of something and asked "Qiongying, have you heard of a woman called Chi Wanqing?"

Chapter 2070 Lift of a hand

Hao Qiongying shook her head "Martial brother Ye, I haven't heard of her. Do you know which sect she is from?"

"I don't know." Ye Mo felt sad. He didn't find Chi Wanqing on Luo Yue continent and hoped she would be here.

"Don't worry martial brother Ye, the continent is having sect tournament. This tournament would go for half a month. Almost all the sects would participate. If Chi Wanqing is in a sect, martial brother Ye can find out about her." Hao Qiongying quickly said.

Ye Mo thought, when his power recovered, his spirit sense can easily cover the entire continent. How could he be scared he wouldn't find Chi Wanqing then?

“You said your husband died in this tournament?” Ye Mo asked.

“Yes.” Hao Qiongying said.

Ye Mo thought for a moment, “Let’s go find a place to rest at the Xin Hai city and then take me to the sect tournament.”

Ye Mo needed some time to recover. He didn’t know how long he had been rolling around for in the void. He looked okay on the surface but without the help of the chaos tree, he wouldn’t even be able to get up.

Half a day later, Ye Mo’s spirit sense had recovered to 10,000 km. He got up and decided to go to the sect tournament now.

Just when Ye Mo wanted to call Hao Qiongying, he saw a dark faced nascent soul cultivator standing at her door. There was a slap print on Hao Qiongying’s face. The little boy stared angrily at the cultivator.

“What happened?” Ye Mo walked to Hao Qiongying’s door.

“Martial brother Ye.” Hao Qiongying called.

You Heyi glared at the cultivator and said “This Meng guy tricked my sister and sold a fake rune to her. Now he’s beating her.”

Ye Mo’s face sunk and asked the cultivator “Is that so?”

Before the cultivator could talk, Hao Qiongying said “Martial brother Ye, let’s go in and talk, it has nothing to do with him.”

The cultivator sneered at Ye Mo “You need to be capable to sleep a widow. I’ve already decided she’s mine, piss off.”

“Really?” A mere nascent soul dared to be cocky in front of him. He didn’t even bother to ask about this and just threw out a fireball.

“haha...” The cultivator saw this and laughed. He didn’t expect there would be someone to throw fire balls.

This fireball wouldn’t even create a speck of dust on him. Even if he didn’t attack, Ye Mo would be dead too. Those who dared to fight in the Xin Hai city spirit rest tower would be dead for sure.

The city strictly forbids magic artefact. If violated, death!

Hao Qiongying saw Ye Mo dare to use fireball, her face went pale. As long as Ye Mo used magic art then no matter how much right they had, they would be killed. Plus, a fire ball wouldn’t hurt at all.

The cultivator only laughed twice and couldn’t laugh anymore. He found he couldn’t move at all.

He saw his body quickly disintegrate in the flame and in the blink of an eye, everything including his nascent soul and storage ring disappeared.

After the fire ball was gone, Ye Mo waved his hand and the dust disappeared. It was as though nothing was there.

Hao Qiongying stared dazily at this and couldn’t speak for a long time. This was too shocking. What fireball could annihilate a nascent soul? She had never seen such terrifying fire ball.

“I wasted some time, Qiongying, take me to the sect tournament.” Ye Mo patted You Heyi’s head and said.

“Martial brother Ye...” Hao Qiongying said hardly and then said “Meng Guangji is Xin Hai City rune master association leader’s disciple. The rune master association is very powerful in the Xin Hai city and Duan Ganyuan is truth realisation state middle stage qian bei. We killed Meng Guangji, we probably can’t leave the city.”

Ye Mo understood how she felt and dazed into reminiscence. When he was fighting his way up in the Luo Yue cultivation realm, it was like this too. He killed a Tian Aofeng and began to hide everywhere.

To Hao Qiongying, she probably wouldn't even be able to leave after offending this association. But to him, even if he slammed the entire city to the grounds, no one would dare to say a thing.

Ye Mo shook his head. If it was a strange character divine emperor, he might really palm the city flat.

Power was everything in the cultivation realm and immortal realm but when the power was strong to a certain degree with no restriction, it was terror.

"If the world laws are complete, the immortal realm and divine dao realm are completed, would it be as easy to come back to the cultivation realm?" Ye Mo murmured.

"If one day I have the capability, I will perfect the divine dao realm and the immortal realm. I won't let people come back to low level realms so easily." Ye Mo said slowly.

He didn't want to see high realm immortals come to the cultivation realm or mortal realm and slaughter everything.

Seeing Ye Mo daze, Hao Qiongying was worried too. after a long while, she said "Meng Guangji saw my husband die and wanted to use me as a sex slave. I said I wanted to go to Zhao Shadow range so he sold me a soul calling rune. Later I realised it was fake. He thought I wouldn't be able to cross the grey forest and would come back to him for help.

However, I have a top level defense rune and crossed the grey forest."

Ye Mo nodded "This person deserves to die, let's go."

Hao Qiongying's face was pale "We probably can't leave, the people from the rune master association wouldn't let us leave."

Ye Mo indeed saw a few people coming. He just smiled but didn't talk.

"You can't leave indeed. You dare to kill master Meng in Xin Hai city. If I don't slice you to mince, then you raised me up." A skinny man said.

"I don't raise dogs like you." Ye Mo said and threw another fireball. A mere cauldron filling state dared to be cocky in front of him.

Seeing this, Hao Qiongying dazed again. She forgot to tell Ye Mo that this person was one of the three masters of the city. A powerful cauldron filling state just below the city lord and association leader. How could someone like this be dealt with a fire ball but Ye Mo threw it out already.

Seeing Ye Mo used a fireball at him, the cauldron filling state laughed like Meng Guangji. Ever since he became a golden core state, he had never seen anyone use fireball at him. Today was quite fresh. Someone dared to use a fireball against a cauldron filling state peak stage cultivator. There was such a joke in the world.

But his ending was the same as Meng Guangji. He only laughed twice and stopped. Then he stared at Ye Mo with disbelief but he could no longer speak. His body turned to dust in this small fireball.

The few body condensation state cultivators next to him looked dazily as the dust flew away not daring to say a word.

"I'm going to leave the city. Call the rune master association leader here. If by the time I get to the city gates he still isn't here, then he won't need to come ever." Ye Mo glanced at them and said.

"Yes qian bei..." These cultivators reacted and quickly left.

Hao Qiongying's heart was skipping fast. Before it was due to terror of the rune master association but now because Ye Mo easily burned a cauldron filling state with a fireball.
