Chapter 2121 Not A Rush To Piss Off

The water light was released too hastily and couldn't completely stop Ye Mo's falling mark sword rune. The sword rune sliced from from Zhu Guangqi's shoulder. Half of his body flew off.

"Castle Master Dong, save me." Zhu Guangqi said.

Dong An set up a barrier around himself. Those explosion essence chi were blocked by the barrier but he acted as though he didn't see this roof top being opened. He said slowly "I said before city lord Zhu attacked that I wouldn't be helping either sides. I'm a man of my words."

"Immortal friend Heng..."

Zhu Guangqi immediately looked at Heng Ran and barely released his water light again.

Thud. These were Zhu Guangqi's last three words. His water light exploded before he released it and his body was turned to bloody mist by Ye Mo's space lethal force.

The next moment, Ye Mo took a storage ring and appeared back on his seat.

The group sat in this open sky palace but no one dared to speak now. Other than those who knew Ye Mo, everyone in the Heng God corenr were scared by Ye Mo's attack.

Ye Mo killed a Dao Nourishment Divine Emperor in just about ten seconds. That Dao Nourishment Divine Emperor city lord who was about to get revenge from Ye Mo didn't have anything left of him after ten seconds.

Ye Mo looked at Heng Ran and said "You're the strongest at Heng God comer? I accidentally blew up your guest palace roof..."

"It's fine, it's fine, small matter. If the old doesn't go, the new won't come. I'll just build a new guest palace." From the looks of it, Ye Mo really killed the Du Ting god sect leader alone.

Heng Ran definitely wouldn't doubt that Ye Mo dared to annihilate his Heng God corner.

But Ye Mo didn't care and said with a sunken face "You're fine with it but I'm not. I told you before. I came to look for trouble. I've already killed one, I don't mind killing more."

Ye Mo knew the survival laws here. If he didn't have power, he would've long been killed. If he had this power and still acted timidly, people would look down on him.

Heng Ran sighed. What was to come eventually came. He didn't even think about asking for help from Dong An. He knew the two were much closer.

"If tower master Ye has anything, just make an order. If anything from the Heng god corner offended tower master Ye, I will definitely not let them go." Then, Heng Ran palmed down and the Dao Moulding Divine Emperor who wanted to attack Ye Mo was palmed out a few thousand meters.

Seeing that Dao Moulding Divine Emperor spit blood mid air, people knew that Heng Ran didn't hold back.

Ye Mo didn't even look at Heng Ran's act and just looked at Niu Runan's mother. "I'm friends with Runan and I saw her on the way. I heard you were kept here by force and they robbed your heaven fate dao fruit. Is that so?"

Hearing this, Heng Ran's face changed, he finally realised why Ye Mo came to here. Ye Mo came for the Heaven Fate dao fruit. He definitely wouldn't believe Ye Mo came to save Niu Runan and her mother.

Realizing this, Heng Ran stared at the two other Dao Nourishment Divine Emperors and asked "What is this?"

If it was someone else standing up for the mother and daughter, this Dao Nourishment Divine Emperor would dare to bullsh*t but he saw Ye Mo's power clearly. If he dared to tell any lies, he would be immediately killed.

Realizing this, he got up and said "Because we knew that Runan and her mother got a dao fruit so we had bad intentions... We know we were severely wrong to do this and we're willing to give the greatest compensation..."

"Embarrassment." The Dao Actualisation Divine Emperor cursed. If he really got the heaven fate dao fruit, he might have the chance to reach Dao Essence Divine Emperor but now, Ye Mo knew about this.

Niu Runan got up and said "The dao fruit isn't on us. It was taken by a Dao Nourishment Divine Emperor. That Dao Nourishment Divine Emperor then purposely spilled the chi of the fruit to make us the scapegoat."

Niu Runan's mother quickly added "That dao fruit was indeed taken away and I have some impression of that person."

Hearing this, Ye Mo knew that she didn't dare to say who took it before. This meant that the Dao Nourishment Divine Emperor was quite possibly here.

"Tell me, even if you think that Heng Ran took it, no one would dare to touch you." Ye Mo said coldly.

Facing Ye Mo's extreme condescension, Heng Ran was extremely furious but he didn't dare to attack. Ye Mo said this because he wanted to annihilate the Heng God corner but haven't found an excuse yet.

Niu Qianye pointed at the Dao Nourishment Divine Emperor who didn't speak and said "I don't believe I'm wrong, it's him."

"Bullsh*t, I never even saw the heaven fate dao fruit." This Dao Nourishment Divine Emperor said. This was no joke, if he pissed off Ye Mo, he would lose his life.

Heng Ran's face sunk and he looked at the Dao Nourishment Divine Emperor "Jian Jie, be honest, did you take the heaven fate dao fruit?"

"Grand sect leader, it's definitely not me." The Dao Nourishment Divine Emperor said without hesitation.

Niu Qianye was experienced, she knew that she had to be firm with her ground. She got up and said without hesitation "I have a power and that is if I touch any man, I would never forget his chi."

Niu Runan's face was red hearing this. She knew that her mother was quite promiscuous and had been with many men. So, she was very sensitive to men's chi.

Ye Mo didn't think about that. He knew that after reaching immortal emperor, people almost had no smell on them only chi.

Jian Jie was extremely furious and wanted to accuse Niu Qianye. Then, he felt a powerful twisted ripple fall from the sky that completely locked onto him.

"Great Primordial God Rune..." Jian Jie was scared soulless at this moment. The ferocious name of the Great Primordial God Rune was too great and now, the Great Primordial God Rune appeared in the Heng God corner.

In that instant, he wanted to run away by force but Ye Mo's Great Primordial God Rune was tens of times stronger than before.

His body was locked by the lethal force of the Great Primordial God Rune and that twisted space still sliced across his arm.

The next moment, his arm appeared before Ye Mo and Ye Mo pulled off a storage ring by force. That arm was thrown on the ground like hay.

Heng Rail's fury was completely quenched by that Great Primordial God Rune. He only had endless terror. Ye Mo had the great god art Great Primordial God Rune. Such ferocious god rune wasn't

something he could deal with. He was certain that if he fought Ye Mo, even if he wasn't instantly killed, he would definitely die.

Just who was this Ye Mo. He was too terrifying. Heng Ran just wanted to send Ye Mo out as quickly as possible. Ye Mo wasn't something they could take on. As for joining up with the Shui Yun god city against Ye Mo, he gave up this idea after seeing Great Primordial God Rune.

Ye Mo's spirit sense blades quickly broke the storage ring restriction and took out a jade box.

When he opened it, there was a yellow dao fruit sitting in the middle.

"Heaven fate dao fruit." Almost everyone recognized this.

Jian Jie's face went terrifyingly pale.

"Bastard, piss off." Heng Ran seemed extremely furious and palmed Jian Jie who flew out.

But half way, he was punched back by Ye Mo "Not a rush, let's sort things out first."

Chapter 2122 Ye Mo's Character

Heng Ran was scared of Ye Mo immediately killing Jian Jie and wanted to slap him away but Ye Mo dragged Jian Jie back.

Now, even Dong An said nothing. Although he knew that Ye Mo killed the sect leader of Du Ting god sect and was probably a bit stronger than him, he didn't really mind. He believed that even if he was no match for Ye Mo, he could run away. But now that he saw Ye Mo's great god art Great Primordial God Rune, he immediately knew that if he fought with Ye Mo, he probably wouldn't be able to get away from the Great Primordial God Rune.

When one reached a higher level with the Great Primordial God Rune, it could not long seal space, twist space but even lock and twist realms. The name of this ferocious god art was too terrifying. Now, he

thought of the Great Primordial God Rune dao fruit Ye Mo gave him. He immediately knew that it wasn't that Ye Mo didn't need it. It was either Ye Mo had too much or he wanted to know about the Void Marketplace too much.

"Tower master Ye, this is the fault of the Heng God corner. It's right for you to be angry. We're willing to be completely responsible for this."

Then, he came up to Niu Qianye and saluted with his fists "Immortal friend Qianye. This is the fault of the Heng god corner. We're willing to make compensations."

Niu Qianye breathed easy. Regardless with Ye Mo here, they would no longer be locked up at the Heng god corner. Ye Mo was rude to Heng god corner but she didn't dare to be like that. She quickly returned the favor "No need for compensation. I just want to leave here with Runan. I just hope the Heng god corner won't look for our trouble in the future."

Heng Ran rejoiced but before he could talk, Ye Mo sneered "If you leave so easily, then aren't you too easily abused? Runan..."

Niu Runan got up and said "Martial brother Ye, I've been taken care of by the young mistress and I owe her a lot. This can be let go."

"Owe?" Ye Mo glanced at Heng Wanman who didn't dare to talk "You've already paid her back at the Mu Hua god mountain."

Heng Wanman's face looked bad. Even though she knew that Niu Runan left Heng god corner due to what happened at the Mu Hua god mountain but when it was spoken out, it was something else. Ye Mo said to Heng Ran "If you mess with me I wouldn't be so easy to talk to. But since Runan is willing to let it go, then never mind. Compensate however much you need to compensate."

Hearing this, Heng Ran quickly took out two storage ring and gave it to the two "This is a small gift, please don't reject it."

The two knew that with Ye Mo here, they wouldn't be able to reject it so they took it.

Ye Mo gave the jade box to Niu Qianye “This is your heaven fate dao fruit. It’s returned to you.

How could she take it. Niu Qianye quickly said “Tower master Ye, we don’t dare to take it and we can’t take it. Thank you for helping us, it’s yours.”

Ye Mo didn’t hesitate and took it “Okay, in that case, let’s go.”

Dong An and Heng Ran weren’t surprised that Ye Mo took the heaven fate dao fruit.

Heng Ran wanted Ye Mo to go but he could still only say “it was our honour for tower master Ye to arrive at the Heng god corner...”

Dong An got up and said “Thank you for your treat immortal friend Heng. I’ll be leaving with tower master Ye. Farewell.”

Outside the Heng God corner, Dong An saluted with his fists “Immortal friend Ye, I’ll be off now. I’m about to go to the God Necropolis Domain to prepare to break through to Dao Essence Divine Emperor. I believe you’re going to the Void Marketplace right? Perhaps we will meet again there.”

Ye Mo saluted with his fists “Then good luck on reaching Dao Essence Divine Emperor soon but it’s not easy to come out of the God Necropolis Domain after going in.”

Dong An didn’t explain how to come out. He just said a few more words and left.

Three months later, the space time boat passed a new divine dao city. Niu Runan and her mother left the boat and said goodbye.

Ye Mo let them go and dashed off on the space time boat.

“We were lucky for martial brother Ye. If it wasn’t for him, we probably couldn’t leave the Heng God corner.” Niu Runan sighed.

Niu Qianye sighed "Runan, your friend is really good. He helped us a lot."

"Mhm, martial brother Ye is a very nice person. He would rather suffer a loss himself than let friends suffer a loss." Niu Runan said.

Niu Qianye patted Niu Runan's shoulder "Runan, tower master Ye is indeed a good person but not someone who would rather take a loss for himself. You've seen too little people. The men I've seen..."

"Mum can you mention something else you've seen." Niu Runan frowned. Her mother was much prettier, but she really didn't like her promiscuity.

"Plus, martial brother Ye is indeed a good person. If he isn't nice, there are no nice people in the world.

"Okay." Niu Qianye saw that Niu Runan was sided with Ye Mo and stopped. She hesitated before saying "If tower master Ye is really the type of person you said him to be, he wouldn't take the heaven fate dao fruit. Of course, even if he did take it, his character is the best I've seen."

Niu Runan frowned "He gave it to you but you didn't want it. Plus what do we need that dao fruit for?"

Niu Qianye poked Niu Runan's head with her finger "You idiot. What use is the heaven dao fruit for? Dao vindication of course? We have so many god crystals and cultivation resources now. You would soon be able to reach immortal emperor peak stage and then you can use the dao fruit to vindicate dao."

"If the dao fruit is left with martial brother Ye, it would have greater use." Niu Runan said.

"Let's not take about this, we'll go to the city and rent a cultivation home and start solitary cultivation. It's a waste not to use these things." Niu Qianye said.

"Okay... hmm..." Niu Runan took out a jade box from the storage ring.

"Isn't this the jade box for heaven fate dao fruit?" Niu Runan was shocked.

“Don’t open it.” Niu Qianye was experienced and quickly took the box. Before her spirit sense went in, she saw the words “Runan, you got this dao fruit, now I give it back to you. Vindicate dao quickly.”

Niu Runan immediately said “Since when did brother Ye put the box in my storage ring? How come I didn’t know?”

“Put it away quickly.”

After Niu Runan put the box away, Niu Qianye sighed “It seems I’m wrong this time. That tower master Ye is really the type of person you said he was.”

“Hmph, I knew it. How can I not know martial brother Ye’s character. He wouldn’t care about a dao fruit.” Niu Runan said.

Niu Qianye sighed “I thought wrong of him. the reason he took it and then gave it back to us was because he was scared people would come after us. I’ve met so many men, how come I didn’t meet tower master Ye. If I was with him, then...”

“Mum, can you stop being so embarrassing.” Niu Runan’s face went red and she left.

Ye Mo was flying faster and faster.

Dong An’s jade slip said he needed to leave the Divine Dao Realm and enter the void to find the Void Marketplace. You couldn’t leave the realm from anywhere. Even though the Divine Dao Realm was broken, it was still boundless.

The direction towards the Void Marketplace was set. If you missed the point then even with the location disk, you wouldn’t be able to find the right location.

Chapter 2123 Yimo meet with Bingyu

Golden immortal primary stage. Yimo opened her eyes in joy. She put away her immortal carnage tower and formation disk before walking out of a distant valley. Ever since she was scared by that nine headed void devouring bug, she didn't dare to go out. She had been hiding in distant places.

Yimo like Ye Mo grew up from all kinds of fights. She knew the hardship of cultivation and knew survival was hard. If it wasn't that 100km dark red beam that drove away the nine headed void devouring bug, she would probably be dead. Feeling the danger of the immortal realm, she chose to go into solitary cultivation immediately.

She collected more than 100 storage ring in the Bing Qiong immortal city. She got large amounts of immortal crystals and immortal artefact from inside as well as all sorts of immortal pill, due to these things, she was able to reach golden immortal primary stage in such a short time. The things she collected were far from being used up.

Yimo released a low grade flying immortal artefact and was ready to find a place with people to ask about Ye Mo. She had never seen an immortal she could talk to after all these years of immortal ascension.

A few days later, a huge immortal city appeared in Yimo's spirit sense again. Yimo had never seen such a grand city.

The four words Bi Yi immortal city hung high in the clouds. Many immortals were going in and out of the city.

This name was really good, Yimo thought as she landed at the city gates.

When she got to the door, she was dazed. At the city gates, there was a purple gold statue that was taller than the city and the statue was her father Ye Mo.

Next to the statue were some immortal essence words. Ye Mo grand emperor's immortal ascension city. There was a very precise introduction. After Ye Mo ascended from the cultivation realm, the first city he came to was the Biyi immortal city. There was even his old residence. It was written by the Wen Ju heaven lord Ge Baiwen.

Although in her heart, her dad was the strongest person in the world but she knew that was just what her thought, in fact, she knew her father was much stronger than many people.

When she saw this statue, she knew that if her dad wasn't strong, there was no way he would be made into a statue here.

Yimo became excited, if dad's statue was here, then it wouldn't be hard to find him.

"You know him?" A voice suddenly appeared next to Yimo.

"Of course." Yimo subconsciously answered.

Then she realised things weren't right. She knew no one here. She subconsciously turned around and saw a blue robed woman who was slightly taller than her.

She wore a blue veil on her face but Yimo was shocked. Even though she hadn't seen this woman's beauty, she felt amazed from the bottom of her heart.

Yimo was extremely pretty looking herself but she knew she wasn't as good looking as Susu and aunty Qingxue. This woman made her feel that just in terms of looks, even aunty Susu was not as beautiful as her. Yet, she hadn't even seen how this woman looked.

But then she shook her head, it must be a wrong feeling.

The blue robed woman frowned and sighed at the bottom of her heart "Why does every pretty woman know him?"

"Qian bei, I'll be going in the city first." Yimo said. She felt this blue robed goddess was countless times stronger than her. Even if she was to ask for her dad's whereabouts she wouldn't ask this qian bei.

The blue robed woman smiled "Let's go in the city together. I'm Zhen Bingyu. Don't call me qian bei anymore, just call me sister."

Yimo dazed but she quickly reacted and said “yes, sister Bingyue, I’m Ye Yimo.”

Ye Yimo? Your surname is Ye?” Zhen Bingyu subconsciously looked at Ye Mo’s statue and asked “Yimo, what relationship are you with brother Ye?”

Brother Ye? Yimo immediately realised that this qian bei knew her dad. She was speechless. She thought the same. Why did every pretty woman she meet knew her dad?

“Yes, sister Bingyu, Ye Mo is my dad. I just ascended to the immortal realm and I’m planning to find my dad.” Yimo said. “What? You’re Ye Mo’s daughter?” Zhen Bingyu looked at Yimo in disbelief.

But she soon calmed down. This was normal. If Ye Mo was willing to be with her at the time, maybe their daughter would be this old. Perhaps she would have a son with Ye Mo?

“Sister Bingyu, do you know my father?” Yimo asked. She then saw Zhen Bingyu blush a little and immediately knew that she must have some special relationship with her dad.

“Oh... Yes, I’m brother Ye’s friend. Is your mum Su Jingwen?” Zhen Bingyu asked.

Yimo immediately asked in joy “Sister Bingyu, you know aunty Jingwen? Where is she?”

Hearing this, Zhen Bingyu immediately knew that Yimo wasn’t Su Jingwen’s daughter. This meant that Ye Mo had other wives.

Zhen Bingyu felt a little bitter and pulled Yimo’s hand “Yimo, let’s go find a place to stay in the city and talk.”

“Sister Bingyu, no wonder my dad is friends with you.” Yimo felt that Zhen Bingyu didn’t have any condescension.

Zhen Bingyu smiled and didn’t explain. She wasn’t like this when she first met Ye Mo.

She changed due to Ye Mo. Everytime she felt lonely, she would think of the times she was with Ye Mo. That was the happiest moments of her life.

If time could flow back she would rather stay with Ye Mo or get carried by him. She searched for higher states and been to many places over the years but she had never met someone like Ye Mo. Perhaps there were but Ye Mo was unique to her now.

In an immortal rest tower, Yimo saw Zhen Bingyu's looks and was amazed "Sister Bingyu, you're really pretty."

Zhen Bingyu smiled "Yimo, you're very pretty too. To me, looks is just a skin bag, I don't care about it much."

Zhen Bingyu then started to tell Yimo about Ye Mo and Mo Yue Immortal Sect. She told Yimo everything she knew.

"Sister Bingyu, you're saying that Beiwei and aunty Jingwen are all at Mo Yue Immortal Sect? My dad went to the God Necropolis Domain?" Yimo felt sad. She didn't get to see her dad.

"yes, your dad went to the God Necropolis Domain but it's not easy to get there. Only immortal emperors can get to the God Necropolis Domain. The God Necropolis Domain is much more dangerous than the immortal realm. It's boundless and even immortal emperors are insects there."

These words made Yimo gasp. She wasn't just a newly ascended noob anymore. From the jade slips in the storage rings, she knew the cultivation levels of the immortal realm. She even derived her own cultivation method to golden immortal.

Immortal emperor was the highest status immortal being but in sister Bingyu's words, they were insects in the God Necropolis Domain. Wouldn't dad be in danger to go to the God Necropolis Domain?

"Sister Bingyu, my dad is only immortal emperor cultivation level. Wouldn't it be dangerous for him to go to God Necropolis Domain?" Yimo asked.

Zhen Bingyu smiled "Yimo, don't worry. He's different to ordinary people, I know him."

Chapter 2124 Border of the Divine Dao Realm

Hearing this Yimo finally felt more assured. She really wanted to ask if Zhen Bingyu was husband and wife relationship with her dad but she felt she shouldn't ask such things. She would go back to Mo Yue Immortal Sect and asked aunty Jingwen.

"Mo Yue Immortal Sect's Su Jingwen and Tang Beiwei are now at the chaos star realm, if you go to Mo Yue Immortal Sect, you probably can't find them." Zhen Bingyu said. She could tell Yimo wanted to go find them first. Zhen Bingyu didn't go to the Mo Yue Immortal Sect but she cared a lot about the news there especially people related to Ye Mo.

"Where is the chaos star realm?" Yimo asked.

"It's a place for trial that can allow people to break through quickly, especially body refinement..." Zhen Bingyu spoke as she thought of the times she cultivated body refinement with Ye Mo.

"Sister Bingyu, I want to go there too. I want to hurry up and reach immortal emperor and go find my dad." Yimo said.

Zhen Bingyu looked dazily at Yimo. When Ye Mo went, he was at least golden immortal middle stage but now Ye Mo was only golden immortal primary stage. But she soon said "Okay, I'll go alone with you. I'll teach you body refinement and take you to dig immortal crystals."

She thought of the times Ye Mo carried her to dig immortal crystals. Although she didn't care about those immortal crystals, she still remembered this. Only she and Ye Mo knew of that place and she had been there more than once. Everytime she went to the chaos star realm, she would go to the places she had been with Ye Mo.

"Huh..." Yimo was shocked. She knew that usually, someone as powerful as Zhen Bingyu couldn't go with a golden immortal primary stage to a place for trial.

“Wouldn’t that waste too much of your time?” Yimo asked.

Zbys miled “No, brother Ye cultivated body refinement with me and dug immortal crystals with me. Now, I’ll go with you...”

“Sister Bingyu... cultivated body refinement together?” Yimo realised.

Zhen Bingyu’s face froze for a moment and knew she said the wrong things. What did cultivating body refinement together mean? Most body refinement meant you were naked. She didn’t care about this before as she only pursued dao but now she did.

Seeing Zhen Bingyu’s awkward face, Yimo quickly said “Sister Bingyu’ then come with me, you can teach me body refinement.”

“Of course. My body refinement cultivation method came from brother Ye, now I’ll just give it back to you.” Zhen Bingyu said.

Seeing Zhen Bingyu’s extremely beautiful face, Yimo sighed. If this was on earth, this was unimaginable.

Ye Mo didn’t know about Yimo meeting with Zhen Bingyu. He was answering some of Fu Fei’s cultivation questions.

Fu Fei progressed very fast with Ye Mo’s tutelage.

Going to the Divine Dao Realm border wasn’t a matter of a day or two. Even with Ye Mo’s middle grade flying god artefact, it would take a few years.

Fu Fei went back to cultivation after asking questions. Qing Ru and Mu Xiaoyun’s state was low and they had the best cultivation resources so Ye Mo suggested them to stay in the golden page world.

Ye Mo separated the chaos chi of the golden page world. Fu Fei and them knew Ye Mo's golden page world wasn't simple but they didn't think it was a chaos world. They all thought it was a truth spirit world.

With the god spirit range powered spirit gathering formation and large amounts of resources, everyone's cultivation speed was fast except for shadowless and Qiu Rang.

Ever since shadowless could speak, Ye Mo tried to stop it from devouring essence spirit. It could help speed up his progression but Ye Mo knew there were side effects to this. Those divine emperor essence spirits he killed were impure. The more shadowless devoured, the more damage it did to him.

Essence spirit and emperor dao crystal was different. One couldn't simply devour it. In order to make shadowless evolve, he would need to use real treasures or find energy that has no self will.

Ye Mo flew the space time boat while practicing forgery at the front. To him, forgery or pill concoction or even travelling was a type of cultivation.

Divine emperor and immortal emperor were two completely different levels. Immortal emperors needed large amounts of cultivation resources and mastery of god art but divine emperor not only needed cultivation resources but also understanding of dao.

No matter which dao you choose, the dao you vindicate determines the height you reach. Even if you break through a small bit, you would need to have a deep understanding of your dao.

Ye Mo didn't use dao fruit nor god art law to vindicate dao. He severed all sorts of useless laws and god arts and eventually used the chaos world to fuse his body with chaos and vindicate the chaos dao. Through that, he then came back to perfect his chaos world.

Because he used himself as the dao foundation, he could learn anything in any world to perfect his dao.

Time flew by. Six years later, the space time boat was near the border of the Divine Dao Realm. Ye Mo's spirit sense scanned to some buildings. Ye Mo thought that the realm border to the Void Marketplace would be very barren but when he came here, he realised this wasn't the case. There was actually quite some people.

Ye Mo slowed down the space time boat. Fu Fei woke up now. Ye Mo's spirit sense scanned the golden page world and found that Qing Ru had reached great eternity immortal tertiary stage. Qing Ru and Mu Xiaoyun both didn't use time formation disk.

Qing Ru and Mu Xiaoyun came out of the golden page world.

Ye Mo wasn't sure if people went to the Void Marketplace from here so he called everyone out to prevent people knowing he had a truth spirit world. People could live in the small world and cultivation homes but no one would stay there for long term cultivation. If these people suddenly appeared, it would make people suspicious.

Ye Mo landed from the space time boat and immediately caught people's attention. Those who came here were without a doubt going to the Void Marketplace.

Dong An said it was usually Dao Nourishment Divine Emperors who went to the Void Marketplace but Ye Mo saw many immortal emperors here. There were even some immortal monarchs. There was not a single great eternity immortal like Qing Ru.

But soon Ye Mo understood what Dong An meant. Although there were immortal emperor and immortal monarchs here, they were clearly with Dao Actualisation Divine Emperors.

The reason this group caught attention was that the strongest of them was Ye Mo who seemed to only be immortal emperor power. Immortal emperor taking a great eternity immortal to the Void Marketplace? This was a huge joke.

"Four friends, have you come to find people or find a place to stay?" A cunning looking immortal emperor middle stage came up to them. To him, Ye Mo and them were definitely not going to the Void Marketplace but here to meet up with sect qian beis.

"No, we want to enter the void from here and go to the Void Marketplace." Ye Mo said.

"What?" Not only was this immortal emperor middle stage shocked but everyone else nearby.

Two immortal emperors, one immortal monarch and a great eternity immortal was going to the Void Marketplace?

This was suicide.

“You guys... are going to the Void Marketplace?” This immortal emperor asked.

Chapter 2125 Long Time Queuing up

Ye Mo could only repeat “Yes. We’re going to the Void Marketplace.”

The immortal emperor finally realised that he didn’t hear wrong and said “Did you book a spot?”

“Book spot?” Ye Mo asked in confusion and said “We’re going to fly over ourselves, we didn’t book.”

The immortal emperor middle stage realised that Ye Mo and them knew nothing. He said speechlessly “The lowest requirement to the Void Marketplace middle grade flying god artefact was before. Now, it’s very hard to go to the Void Marketplace alone.”

The immortal emperor looked at the three behind Ye Mo and shook his head.

Ye Mo could tell that the news he got from Dong An was a little different from reality. Seeing this immortal emperor about to leave, he quickly asked “Immortal friend, may I ask why it can’t be done anymore?”

This immortal emperor was a nice person and explained “Because the void realm to the Void Marketplace isn’t very stable. Ordinary flying magic artefact would dissemble mid flight. Only large vessels could stay intact in this void.

This was before. Now, there are void pirates on the way to the Void Marketplace. They knew that the people heading to the Void Marketplace had many good things so they rob people on the way. If you go

to the Void Marketplace alone, then even if you get close to the Void Marketplace, you would die for sure.”

Ye Mo realised what he meant and knew that Dong an didn’t lie to him. Dong An went to the void many tens of millenniums ago. At that time, the void pirates weren’t that strong. Plus, Dong An was from the Great Sun God Mountain. They probably had an extremely powerful flying magic artefact. Dong An didn’t say this probably because he thought that he was a pill divine and it wouldn’t be hard for him to get on.

“Then why are these people here?” Ye Mo pointed at the people going to and fro.

The immortal emperor laughed “There aren’t many ships flying to the Void Marketplace. There are limited spots too. there would be a vessel once every 100 years. These immortal friends are lining up for the ship.”

“Lining up for 100 years? This is so long.” Mu Xiaoyun took in a cold breath.

“How much longer till the ship comes? Ye Mo asked.

“Two more years. If you really want to go to the Void Marketplace, you would have quite some luck on the ship.” The immortal emperor smiled.

Ye Mo sighed “Indeed, since there’s only two years, we’ll order tickets too. Thank you immortal friend.”

The immortal emperor’s face was a little awkward “Immortal friend, by two years I meant the ship that’s about to head to the Void Marketplace. The tickets were sold out a few decades ago. If you want to buy tickets, you would have to order tickets for the ship 102 years later.”

“Line up for 102 years?” Ye Mo sighed.

The immortal emperor shook his head and didn’t answer. This wasn’t very long. Soon, it would be lining up for 200 years. The demand for tickets to the Void Marketplace was increasing. Who could be sure people wouldn’t mass buy tickets and resell them?

Ye Mo knew that going to the Void Marketplace wasn't as simple as he had thought so he saluted with his fists to this immortal emperor "Immortal friend, do you know if there's immortal rest tower here? We need some rest."

"There are, what sort of rooms do you want? A low grade room costs 500 top grade god crystals a day, middle grade room costs 1000 top grade god crystals, top grade costs 5000 top grade god crystals and small ginseng costs 10000 top grade god crystals..." The immortal emperor's face went bright hearing there was business.

Ye Mo took in a cold breath. This price was too absurd. How much would one year be? How much would ten years be? Was this robbery? Were all the people here that wealthy? How come no one was living outside the buildings?

As though seeing Ye Mo's confusion, this immortal emperor explained "Those who bought the ticket would live in this area. You guys haven't bought the tickets so you don't have to stay here but I suggest that you stay here. It would be much safer."

Ye Mo nodded. He understood that the large area of buildings here weren't for free. It was made to serve the people heading to the Void Marketplace and to earn their wealth. According to this immortal emperor, there seemed to be danger if you didn't stay here.

Although the price here was very high, Ye Mo could afford it now. So he said to this immortal emperor, "give me three middle grade rooms."

"Huh..." This immortal emperor was a little stunned but then he said happily "Okay, follow me."

He thought the four of them would at most stay in the same low grade room together but they were actually wealthy. Even some powers and sects only took middle grade rooms.

Four weak immortals not only lived in middle grade rooms but didn't have a sect to back them up. This immediately spread out.

Ye Mo didn't know about this. He stayed in here not to wait for the ship but to see if he could buy some materials and upgrade his space time boat again. Even if he couldn't upgrade speed he would upgrade defenses.

Of course, he also wanted to see if there were people who wanted to sell their tickets.

Ye Mo didn't think that immortal emperor was bull sh*tting. In the void, he might encounter powerful beings from any realm. No matter how confident he was, he didn't think he could dominant all of the void between the realms.

There definitely was Dao Essence Divine Emperor on the ship to the Void Marketplace and maybe more than one.

The middle grade room was pricy but the god spirit chi here was ample. There were all sorts of immortal spirit tea and wine. Of course, that would come at extra costs.

"Stay in room and cultivate, I'll go down and have a look." Ye Mo said to Mu Xiaoyun and them.

Now, Fu Fei had a room, Qing Ru had a room while Ye Mo shared a room with Mu Xiaoyun. Ye Mo learned that although there were a lot of buildings here, all shops belonged to powers here.

There were a lot of immortals living in this row of immortal rest tower and at the very bottom was a lounge. There were people coming in and out doing deals, discussing cultivation and resolving conflict.

Ye Mo was going to this lobby now. He needed to find out some news. If he really couldn't upgrade space time boat and couldn't buy a ticket off someone, he would go into the void alone. He had to go to the void and he wasn't willing to wait another a hundred years.

Ye Mo saw here that although there were a lot of people, it wasn't noisy. There were sound barrier restrictions set up everywhere.

In the middle of the lobby, there was a round sign spinning. It wrote what was needed and what was rewarded.

“Immortal friend, do you want to put up a sign? If you do I can help you.” An extremely pleasant voice sounded.

Ye Mo saw a pretty looking woman and immediately said “Yes, I want to write out my needs on the sign. I need top materials to forge flying magic artefact, second I need four tickets towards to the Void Marketplace for the ship two years later. Put this at an obvious place, the reward is...”

Ye Mo hesitated and said “Those who wants god crystals, we can discuss in person...”

Ye Mo wanted to say dao fruit. He had one but he gave up this thought. This wasn't Lun Lan divine dao city. Even if he said he only had one who knew what consequences would arise. His cultivation level wasn't the strongest here. Ye Mo saw that in this thousand people lobby, there were tens of Dao Actualisation Divine Emperors. Although there were no Dao Essence Divine Emperor, this was still very scary.

“Okay, if it's headline, then it costs 50k top grade god crystals for a day.” The pretty woman said.

“So expensive.” But Ye Mo could only give her 100k god crystals.

“Please be seated at 764, we'll immediately put the sign up for you.” The pretty woman said.

Chapter 2126 - The Thing Ye Mo took ou

Although it was just a seat, it was quite a good position and had a table, there were seats on all sides of the table. Ye Mo was very happy with this.

Ye Mo just sat for a while and Qing Ru and Mu Xiaoyun came to the lobby. Their cultivation level was too weak and didn't dare to scan around with spirit sense. They only dared to look around for Ye Mo in the lobby.

Mu Xiaoyun was extremely pretty and cultivated for many years at the immortal goddess peak and became even prettier. Qing Ru even surpassed Mu Xiaoyun. Her perfect body was unique to this world.

As soon as they stood in the lobby, they caught many attention.

“Two goddesses, I’m Feng Yingwei from the Cang Yu God valley, may I ask if I can help you?” One Dao Moulding Divine Emperor saw the two and immediately came up.

Qing Ru smiled “Thank you qian bei but we don’t need your help.”

“Xiaoyun, Qing Ru, come here.” Ye Mo got up and called.

The two immediately came over happily leaving behind Feng Yingwei who was going to keep talking.

Seeing these two pretty goddesses go over to an immortal emperor, he frowned but didn’t go over and instead found a position in the lobby.

“Brother Ye why are you seated here?” Qing Ru saw the lobby was filled with thousands of people who were all stronger than her. She felt worried.

“Sit, I bought some things here.” Then Ye Mo took out a wine kettle and a few cups pouring a cup for them.

“This is weed immortal wine, small ginseng made it. Try it.” Ye Mo raised a cup and smiled.

Qing Ru smelled this and couldn’t resist drinking. Then, she said in surprise and joy “Brother Ye, this wine seemed to be able to help with cultivation...”

Ye Mo nodded. This was made with corner soul weed and yin blue plum as well as many top level immortal spirit herbs. How could it not be good. It could cleanse essence spirit and immortal essence.

Mu Xiaoyun had drank it many times but still loved it. She pointed at the round sign and asked “Husband, is the first sign what we’re going to buy?”

“Mhm, I paid for two days of advertisement here. I’ll see how it goes first.” Ye Mo thought that if he could get the materials, he would stay here for a year or two and forge flying magic artefact, if he couldn’t, he would take them into the void in a few days.

“Brother Ye, the ticket might not be easy to buy.” Qing Ru saw the sign wrote four tickets.

“I know, I’m only testing my luck.” Ye Mo said.

“Good wine, your wine is probably made from yin blue plum and comer soul weed right? The manufacturing process is immaculate, definitely from the hands of a master.” As they spoke, a red faced man walked up to Ye Mo’s seat and saluted with his fists.

This was a Dao Nourishment Divine Emperor peak stage. Just from his red face, one could see he had drunk a lot of wine.

He just smelled the wine and knew of its components. He was definitely a wine lover. If Ye Mo had the time, he would invite this person to drink but now Ye Mo didn’t plan to.

Seeing Ye Mo just smile and not talk, this Dao Nourishment Divine Emperor didn’t go and laughed “Immortal friend, I heard you set up the first news but even if you keep it up there till next year, no one would come to you. If you listen to me, I’m certain people would come to you in a while.”

“Xiaoyun, come sit next to me, let this immortal friend sit.” Ye Mo said.

Mu Xiaoyun quickly sat next to Ye Mo.

Seeing this, the Dao Nourishment Divine Emperor sat down and smiled “I’m Xian Yuxue, I’m going to the Void Marketplace to test my luck too.”

Ye Mo took out a cup and poured him a wine and said “So it’s immortal friend Xianyu. I’m Ye Mo. I don’t know much about going to the Void Marketplace, please teach me.”

Qing Ru saw that Xian Yuxue sat opposite her and quickly got up and sat on Ye Mo's right.

Thank you immortal friend Ye." Xian Yuxue raised the wine cup and drank.

Seeing Qing Ru sit next to Ye Mo, he raised his thumb "Immortal friend Ye, you have nice skills. But you might not know what the people who want to go to the Void Marketplace want. Those who are going there aren't lacking god crystals. It definitely won't work if you trade materials with god crystals."

Ye Mo realised what the problem with his notice was now. He sighed. It seemed that if he didn't take out some good things, he really wouldn't be able to get the things he wanted.

Thinking about this, Ye Mo said to the goddess "Change my reward, if one has the materials I want, I'm willing to use a near top grade god artefact Cheng Ji Extreme Yang flag or seven star huang ji well to trade for it. If there's top level materials, I'm even willing to use more precious things to trade.

Even Xian Yuxue was dazed at the things Ye Mo took out. He didn't expect Ye Mo, an immortal emperor, to have this many good things.

"Immortal friend Ye, you really shock me. pity I don't have flying magic artefact materials or I would take it out myself." Xian Yuxue sighed and drank the cup.

After that, Xian Yuxue seemed to have thought of something and got up in shock "Immortal friend Ye, that Cheng Ji extreme yang flag seems to belong to the sect leader of Du Ting god sect Wei Xuan?"

Ye Mo smiled "Brother Xian is really knowledgeable. You're right."

Then, then why is it in your hands?" Xian Yuxue's hands were shaky. Clearly he was too shocked.

"because I slaughtered him." Ye Mo said directly. Since he took out some good things, he would need to show his power. Otherwise, he would be very annoyed.

Xian Yuxue's face showed extreme shock. Even his redness receded a little. He didn't expect this immortal friend Ye was this absurd.

He didn't dare to stay here and drink. Before he could say goodbye, another coarse voice sounded "You want to use the extreme yang flag and seven star huang ji well to trade flying magic artefact materials?"

The voice seemed as though if Ye Mo didn't answer right, he would attack immediately. The powerful force made Mu Xiaoyun and Qing Ru's face green.

A few other divine emperors who were going to ask heard this voice and saw a green robed old man come. They all subconsciously stopped.

Ye Mo raised the cup and the pressure on Mu Xiaoyun and Qing Ru was easily waved away.

After drinking the wine, Ye Mo said slowly "I have these two things but I'm not trading for flying magic artefact materials but flying magic artefact top materials. If you want my things, I would have to agree to the materials. If you want both of it, you would need to bring the right materials or no deal."

"Hahahaha, a small immortal emperor is very cocky." The green robed old man sat down on the empty space.

Chapter 2127 Don't Know What Death Is

Seeing this green robed old man come over, Xian Yuxue quickly got up and saluted with his fists before leaving.

The old man didn't even seem to see Xian Yuxue and glanced at Qing Ru and Mu Xiaoyun before his eyes lit up. He said plainly "Take out your things and show me."

This was a Dao Actualisation Divine Emperor peak stage who seemed even stronger than Wei Xuan but to Ye Mo this old man wasn't that much stronger than Wei Xuan.

Ye Mo poured a cup of wine for himself and put away the kettle. He didn't pour a cup for the old man. Not only that, he finished his cup first before saying "This is my seat, who are you?"

The old man sneered "You're very bold. That's right, you probably don't know who I am. Then I will tell you, Shentu Xinde is me. I have a title called green robed divine."

"You're finished, you can go now." If this wasn't the lobby, Ye Mo would've shot seven arrows at him and killed him.

Hearing this, Shentu Xinde pointed at Ye Mo and said in disbelief "You're a mere immortal emperor and you dare to tell me to go? I'll give you three seconds, show me the extreme yang flag and seven star extreme well."

Ye Mo frowned. He didn't know if one could fight here. He wasn't scared of this Shentu Xinde but if a Dao Essence Divine Emperor came, he would be no match.

"Why should I show you my things?" Ye Mo sneered.

"Didn't you want flying magic artefact materials? I have plenty, choose what you want." Shentu Xinde waved out materials on the seat.

This seemed like a large pile but they were all low grade materials like void secret silver, extreme lightning gold... there was even level two immortal material blue wind stone. The highest material extreme lightning gold could only be used to forge middle grade immortal artefact. Ye Mo didn't expect this Shentu Xinde was this shameless.

Ye Mo was ready to fight but he didn't plan to attack first. If this Shentu Xinde attacked first, he would beat him to death. Ye Mo felt annoyed. If he was strong enough, he wouldn't need to care. He would just fight.

"Shentu Xinde, do you think you can do whatever you want at my ship god harbor just because you have some power?" An angry voice sounded.

Ye Mo saw it was a white skinned, narrow eyed skinny man. He was Dao Actualisation Divine Emperor peak stage too.

Shentu Xinde saw this man and smiled “manager Wenlun, you’re being too serious. I’m just discussing business with this small friend. How can I cause trouble? It seems this friend isn’t happy with what I took out, I’ll change it up then.”

Then, Shentu Xinde waved away these materials and took out a basketball sized white ore and said “little friend, what do you think of this ore?”

“Small ginseng truth cloud sand.” The nearby people exclaimed. It was very white and had no impurities. It had this ethereal chi. Even those who didn’t know forgery knew this was material for making the best flying magic artefact.

Ye Mo’s eyes narrowed. This was definitely what he wanted. It was level 12 immortal material. With this large piece, even if he couldn’t make the space time boat top grade flying god artefact, it wouldn’t be far from it.

The manager was also shocked too.

This is small ginseng truth cloud sand. It’s enough for you to make two top grade flying magic artefact. Of course, if it’s just trading your extreme yang flag and seven star extreme well, I feel I’m losing. I don’t know how much seven star extreme well you have but I believe it’s not much. I won’t be greedy. I’ll just take the goddess on your right.” Shentu Xinde pointed at Qing Ru.

Ye Mo’s killing intent exploded and he said to Shentu Xinde “Piss off.”

“You’re asking to die...” Shentu Xinde exploded too.

Before he could attack, that manager said coldly “What, do you want to fight at the lobby?”

Shentu Xinde immediately calmed down. He knew people couldn't fight here. He grabbed his truth cloud sand and left. But he didn't leave the lobby, he just found another place to sit where he could see Ye Mo.

The manager glanced at Ye Mo and said nothing before leaving.

Ye Mo acted as though nothing happened and kept chatting to Qing Ru and Mu Xiaoyun while drinking.

Feng Yingwei saw that Ye Mo dared to tell the green robed divine to piss off. He got up and left.

Xian Yuxue was even more certain that Ye Mo killed Wei Xuan to get the flag. Otherwise, how could he dare to speak to the green robed divine like this.

Perhaps due to Shentu Xinde, no one else came to Ye Mo for trouble.

A day was about to pass, Ye Mo was very disappointed. No one else other than that Shentu Xinde came to him with materials.

Just when Ye Mo was about to leave, a Dao Actualisation Divine Emperor primary stage middle aged man came up to Ye Mo and saluted with his fists "Immortal friend, I like your extreme yang flag, do you think this can trade for it?"

He took out a storage bag. Ye Mo scanned inside. There was a red feather. Ye Mo's spirit sense touched it and he immediately felt a powerful yet light chi from it.

Mo Yu Qi feather. Ye Mo immediately recognized it was a level 12 immortal material. This could be used to forge top grade god artefact. It was on par with Shentu Xinde's truth cloud sand. In terms of rarity, the feather was rarer.

"Sure." Ye Mo took the feather without hesitation and took out a black flag to the Dao Actualisation Divine Emperor.

The Dao Actualisation Divine Emperor took the flag and scanned his spirit sense inside the restriction. His face rejoiced and he put the flag away. He then saluted with his fists and left the lobby.

Ye Mo was also very happy he got this. He knew there was no point in waiting anymore.

He called that maid over and refunded 50k god crystals and took Mu Xiaoyun and Qing Ru to his room.

After coming in, Ye Mo set up the restriction again and said to them "Stay in here and cultivate, don't go out."

"Husband, aren't you going to forge god artefact? Are you going to leave?" Mu Xiaoyun looked at Ye Mo in confusion.

Ye Mo nodded "I'm going out for a while. After I come back, I will be going in solitary cultivation."

Mu Xiaoyun seemed to know what Ye Mo was going to do and just said "Be careful."

Moments later, Ye Mo walked out of the immortal rest tower. He looked down as he walked out of the ship god harbor. He watched behind with his spirit sense.

Shentu Xinde had been watching Ye Mo's room, he was thinking about how to go in and kill Ye Mo. By then, he would just give the manager some benefits. He didn't believe the manager would look for his trouble for a few immortals.

But he didn't even dare to dream that Ye Mo dared to leave the harbor. Regardless of why, he immediately chased Ye Mo. He guessed that Ye Mo had means or stealthed his power and intentionally drew him out but he didn't fear Ye Mo. There was no way Ye Mo was a Dao Essence Divine Emperor.

Ye Mo was scared that Shentu Xinde wouldn't come. Now that Shentu Xinde came, Ye Mo breathed easy.

The skinny Dao Actualisation Divine Emperor who stopped Shentu Xinde from attacking saw Ye Mo dare to leave the harbor and dazed. When he saw Shentu Xinde follow Ye Mo out, he sneered "He doesn't know what death is."

It was unclear if he was talking about Ye Mo or Shentu Xinde.

Chapter 2128 Unable to retaliate

Ye Mo didn't leave the harbor very far. He stopped where he would barely avoid the spirit sense of Dao Essence Divine Emperor. In the Divine Dao Realm, due to space fissures and messy laws, spirit sense would be limited. Ye Mo reached hundreds of thousand of km away in a very short time.

"You drew me here probably because you have a lethal blow right. Don't disappoint me. But of course regardless, after I kill you I will be taking your two women." Shentu Xinde sneered at Ye Mo as his hand waved out a black arc.

Ye Mo actually couldn't see what that arc magic artefact was. His spirit sense blades pierced in and found it was a dense cluster of needles. The dark needles seemed to be shaking with killing intent.

"I believe your friend will come here in 15 minutes right?" Ye Mo sneered. He knew that the reason Shentu Xinde dared to come here was one he wasn't scared of him but two because Shentu Xinde brought someone along.

"You're very smart but in less than 15 minutes, I will be going back..."

Before Shentu Xinde finished, Ye Mo attacked. Ye Mo had decided to kill Shentu Xinde as quickly as possible. He was alone here and if another person came it wouldn't benefit him. He was certain that if things dragged out even that manager would come.

"You're right, it won't take 15 minutes..." Ye Mo said and shot over two Great Primordial God Runes. He could now barely release a third one but Ye Mo knew that doing that wouldn't allow him to kill Shentu Xinde in the shortest time.

Two Great Primordial God Runes would definitely injure Shentu Xinde but not kill him. It would startle this guy. Ye Mo couldn't release the terrifying name of the Great Primordial God Rune yet. To him, it would be enough just to scare Shentu Xinde.

Two twisted god runes instantly sliced open Shentu Xinde's domain. In the wake of the god rune, space time law had completely disappeared. All that was left in space was two twisted runes that ignored space and ignored time.

"Great Primordial God Rune?" Shentu Xinde's face changed, luckily he was experienced in battle and didn't turn away immediately like others. The countless abstruse yin essence needles drew the black arc into 1 km long that covered the path of the Great Primordial God Rune. The needles weren't defense magic artefact but he had to use it to defend now.

Thud thud.

The Great Primordial God Rune hacked on the needle arc. The twisted god runes opened two twisted arcs on the black arc and kept shooting at Shentu Xinde.

But due to the needles, Shentu Xinde had released a huge seal defense magic artefact. As soon as he released it, he felt this terrifying killing intent lock onto him.

"Golden Bow of Divine Extermination..." Shentu Xinde couldn't raise anymore courage to fight Ye Mo anymore. He was certain that Ye Mo was a Dao Actualisation Divine Emperor too.

With these two terrifying ancient means, who knew if Ye Mo had more.

"Rumble..." The two Great Primordial God Runes were hurriedly blocked by Shentu Xinde's seal and slowed down a bit. But the reason Great Primordial God Rune was so feared wasn't because it could be blocked but after you blocked it you didn't know its path. At the extreme, the Great Primordial God Rune would ignore space time law. Sometimes, it could cross multiple realms to kill an opponent.

After these two runes were blocked, it twisted space and hacked at Shentu Xinde from another direction but it was just much weaker than before.

Shentu Xinde couldn't even attack Ye Mo with the needles nor take back his seal. He quickly released a shield and used mobility technique.

The reason Ye Mo used Great Primordial God Rune and Golden Bow of Divine Extermination at the same time was to kill Shentu Xinde in the shortest time. Otherwise, even if he killed Shentu Xinde it would take a long time and he might get injured.

He didn't have any friends here but who knew how many friends Shentu Xinde had.

The instant Shentu Xinde turned, Ye Mo shot out three arrows.

He had seven arrows. Ye Mo believed that with the Great Primordial God Rune attacking Shentu Xinde, he didn't need to use seven arrows.

Golden beams sliced across and penetrated the needles that weren't controlled by Shentu Xinde.

Shentu Xinde tensed up. He felt the surrounding space turn into a cold hand that squeezed his neck making him unable to breath. His mobility technique was locked and he couldn't continue using it.

Shentu Xinde knew clearly that this was the lock of the Golden Arrow of Divine Extermination. If possible, he would rather beg for mercy but he knew that doing that would make him die faster.

He didn't understand why this random person who came here had such terrifying means.

Crack crack. Shentu Xinde's shield barely stopped the first rune. The second rune sliced under his waist. Blood mist sprayed and half his leg was gone.

Shentu Xinde cursed. If there wasn't the Golden Bow of Divine Extermination, the two Great Primordial God Runes wouldn't be able to slice off his leg.

If the two Great Primordial God Rune couldn't damage him, he would be able to retaliate. However, there was no if in this world.

Just when Shentu Xinde flashed this thought, the first golden arrow appeared before him. at this moment, all the life force in Shentu Xinde's surrounding space had been annihilated.

The world before him was grey now. Lifeless grey.

Shentu Xinde roared and smashed out both hands. Fist winds were punched out and rippled against the golden bone arrow.

The golden bone arrow seemed to have met resistance and slowed. The surrounding life force seemed to have recovered.

Crack. Space rippled crumbled and the golden bone arrow sliced across one of Shentu Xinde's fist. One of Shentu Xinde's hand started to disintegrate.

Shentu Xinde couldn't care about it now. He wanted to release another defense magic artefact and run away but an even colder killing intent locked onto him. Before he could still find some life force with his punch but now, he had no chance.

Three golden bone arrows came before him at the same time. Shentu Xinde looked at this in despair and lost the will to fight.

Thud. Blood splashed everywhere and Shentu Xinde's body exploded. Then, he heard the words "It seems I have overestimated you."

Even if Shentu Xinde was angry, he couldn't express it.

Ye Mo took Shentu Xinde's storage ring and his needles before burning the marks of the battle and disappearing.

Ye Mo knew that although it seemed easy for him to kill Shentu Xinde, he used all his means. Luckily Shentu Xinde only made him shoot four arrows. Although he used some stamina, he wouldn't need to

stop and recover. If Shentu Xinde came with someone else, Ye Mo wouldn't dare to use such means to kill Shentu Xinde quickly.

After Ye Mo left, he ate a few essence chi recovering god pills and went back inside the harbor quickly.

"Hmm?" That white skinned narrow eyed manager saw Ye Mo come in alone. He thought that this person would definitely be dead when Shentu Xinde went out. He said that Ye Mo was asking to die but this little immortal emperor came back but Shentu Xinde didn't, what was going on?

"Wait, where is Shentu Xinde?" This manager stopped Ye Mo and asked coldly.

Chapter 2129 Head There Alone

Ye Mo looked at this manager for a while and said "How would I know? I have some conflict with him, I wouldn't care about him."

"I know, what did you go out to do?" The manger's tone was cold.

Ye Mo said plainly "I've paid to live here, do I need to report to you for going out and peeing? Did I sell myself to you or are those who live here restricted from even doing anything?"

This manager was lost for words but Ye Mo went inside the immortal rest tower slowly.

He didn't keep asking Ye Mo and quickly left the harbor. In a short while, he arrived at the place Ye Mo and Shentu Xinde battled.

Just looking at this burnt place, he took a cold breath. He was certain that Shentu Xinde was killed but that Ye Mo killed Shentu Xinde in such a short time, this was unheard of.

Unless that Ye Mo wasn't an immortal emperor... No, he definitely was not an immortal emperor. He was at least Dao Nourishment Divine Emperor or stronger. No wonder he dared to go to the Void Marketplace alone. Realising this, the manager quickly returned to the harbor.

“What are you doing here?” Ye Mo stared coldly at the Dao Moulding Divine Emperor standing in front of Qing Ru’s room. He knew this person. This guy spoke to Xiaoyun and Qingru when then came down. This guy was called Feng Yingwei and was from the Cang Yu God Valley.

He clearly knew that Shentu Xinde went with Ye Mo and didn’t expect Ye Mo could come back. He wplanned to get one person before Shentu Xinde came back. When Shentu Xinde came back, he wouldn’t offend the Cang Yu God valley for a woman.

However, before Shentu Xinde came back, this Ye Mo came back.

“So it’s immortal friend Ye, I’m here to find...” Feng Yingwei was lost for words.

“Piss off.” Ye Mo kicked and Feng Yingwei spat a mouthful of blood.

When he landed on the ground, he didn’t dare to say anything. He left quickly. He wasn’t dumb. Shentu Xinde left with Ye Mo but Shentu Xinde didn’t come back. Ye Mo came back instead.

Not many people cared about Shentu Xinde going missing. Most people here were waiting for the ship towards the Void Marketplace.

At this moment, Ye Mo was organizing his things in the golden page world. He got tens of millions of top grade god crystals from Shentu Xinde’s storage ring but there was only one middle grade god spirit range.

Ye Mo had nearly 100 million god crystals now.

The god spirit herbs and materials in Shentu Xinde’s storage ring interested Ye Mo but Ye Mo still favoured the truth cloud sand the most.

After getting this, Ye Mo was prepared to upgrade the space time boat again.

Little Blue couldn't meet the Murder Dao Spear but he could easily melt level 12 immortal material and forge top grade god artefact.

In order to increase defense, Ye Mo almost completely changed space time boat's look. Not only were all the rooms changed but all the formations were either switched or empowered.

A year later, Ye Mo looked at this completely different space time boat and finally breathed easy. With these two extreme grade materials, space time boat was forged into a top grade god artefact, one that had very high defense.

It was also due to his formation skills that he was able to upgrade the space time boat to a top grade god artefact. When he sealed the tunnel between immortal realm and Divine Dao Realm, his formation skills sky rocketed.

Ye Mo knew that he shouldn't even think about tickets to the Void Marketplace. Now that his flying magic artefact was finished upgrading, he could head to the Void Marketplace. Ye Mo left the golden page world and found that both Qing Ru and Mu Xiaoyun were in the room.

"Husband, you finished solitary cultivation?" Mu Xiaoyun got up in surprise and joy. Qing Ru came over to ask some cultivation questions. Mu Xiaoyun didn't cultivate and helped Qing Ru answer them. Then, they spoke about Ye Mo. Mu Xiaoyun spoke about Ye Mo's story from Earth to the small world. Qing Ru loved it.

Ye Mo nodded and said "yes, Xiaoyun, call out Fu Fei. We're leaving now."

Hearing this, both Qing Ru and Mu Xiaoyun were a bit nervous. After all, there were many people who were stronger than them but they didn't dare to flying into the Void Marketplace with a magic artefact.

Fu Fei soon came out but he wasn't nervous at all. He was eager for this.

"What? You're heading to the Void Marketplace now?" The immortal emperor looked at Ye Mo and them in disbelief.

Even if it was four Dao Actualisation Divine Emperor peak stage, they wouldn't dare to head to the Void Marketplace like this but Ye Mo and them wanted to do this.

"Yes, there's no tickets, we have to go alone." Ye Mo said. He wasn't very worried. He had been in the void for a long time. He had all sorts of experience inside. Plus, even if there was an emergency, he would go into the golden page world. The main thing was that he had the location disk.

Ye Mo and them going to the Void Marketplace caused a commotion in the harbor. Only very few Dao Essence Divine Emperors dared to go there alone. Now, even Dao Essence Divine Emperor don't dare to go there alone.

Almost all the immortals of the harbor came out to watch. Even one Dao Essence Divine Emperor came.

When Ye Mo released top grade god artefact space time boat, some divine emperors sighed. These four ordinary immortals were so wealthy. No wonder they dared to venture.

"Wait." One Dao Actualisation Divine Emperor stopped Ye Mo.

Ye Mo signaled the three to go on first before saluted with his fists "We're going into the void, what do you want?"

The Dao Actualisation Divine Emperor didn't salute with his fists and just pointed at the void entrance, "This void entrance isn't private. If you want to go through here you need to pay god crystals but I need to remind you, even if you go into the void you wouldn't be able to survive. If you trust me, Bie Feng, I'm willing to find four tickets for you. The ship would come in a year or so."

Bie Feng seemed to be thinking for Ye Mo and them but Ye Mo could tell from his eyes that he wanted his space time boat.

"I'm not going to give you god crystals, what are you going to do to me?" Ye Mo looked at Bie Feng in contempt. He could tell Bie Feng wasn't from the harbor at all. He just wanted to trick them to staying.

Hearing this, Bie Feng's face changed, he didn't expect Ye Mo to see through his act. If Ye Mo stayed, he would definitely have a way to get Ye Mo's top grade god artefact but now, an immortal emperor ignored him. He was angry but there was nothing he could do.

This was the harbor, he couldn't attack.

The manager saw this and sneered. He knew how terrifying Ye Mo was now. If Bie Feng really kept Ye Mo, it would be suicide.

Ye Mo controlled the space time boat and left from the harbor. In a short while, it disappeared.

"Four mere insects dares to go to the Void Marketplace alone, this is asking to die." Bie Feng didn't get to trick Ye Mo but he didn't dare to rob it publicly.

"Not right." Ye Mo looked at the location disk and frowned.

"What's not right?" Mu Xiaoyun asked.

Ye Mo pointed at the disk "There's no direction on the disk, how do we get to the Void Marketplace?"

The void outside the Void Marketplace was endless, if you had no direction, there was no point flying.

"What do we do?" Qing Ru clearly knew the danger of the void. The immortal realm void was okay. After all, the 33 heaven domains split apart. Even if you had no direction you would eventually get to one heaven domain, but the Divine Dao Realm void was different. If you went in, perhaps you wouldn't be able to find a real land in tens of thousands of years.

Chapter 2130 Vast Dao Nourishmen

This is impossible? Ye Mo stared at this location disk as he watched. If it couldn't point out the direction of the Void Marketplace, what use did it have?

"I understand." Ye Mo pointed at the disk and a faint white line that was almost invisible suddenly appeared." It's far from the Void Marketplace here and the disk can't point out the exact location of the Void Marketplace but it can point out the approximate location. We'll go along this white line. Once we get to the border of the Void Marketplace, the disk should show the location of the Void Marketplace."

Ye Mo's space time boat went along that white line for a month. Indeed, that white line cleared up a bit more. It was still not that clear but Ye Mo noticed the subtle change.

The road to the Void Marketplace was distant and long. Dong An followed the Great Sun God Mountain to the Void Marketplace and used nearly 50 years. According to Dong An, the Great Sun God Mountain's flying magic artefact was also top grade god artefact. Ye Mo didn't think his flying magic artefact was that much faster than the Great Sun God Mountain's.

Fu Fei under Ye Mo's teachings was now immortal emperor tertiary stage.

Mu Xiaoyun was immortal monarch primary stage and Qing Ru was a bit far behind. In the end, Ye Mo took out the time formation disk to let Qing Ru and Mu Xiaoyun use in turns.

Qing Ru's talent was no weaker than Mu Xiaoyun's. in a short half year using the time formation disk, she reached immortal king in the golden page world.

Because Ye Mo didn't cultivate, he controlled the space time boat to be faster and faster.

Ye Mo was careful at the start but later on, the space time boat avoided all the hazards easily.

Ye Mo stood at the front of the boat and felt that vast space that was greater than the immortal realm's broken void and had this indescribable feeling.

His golden page world became smaller and smaller as his power grew stronger. It was now a speck of dust but later on, it might completely disappear. However, the space inside would only get bigger and bigger.

Eventually, it might even be endless like this vast void.

You didn't know if this vast void was big or small.

Ye Mo had this sudden enlightenment. In his eyes, the universe might be endless but one day once his cultivation reached a certain level, this boundless space void might be a speck of dust to him just like the golden page world?

If the universe this vast was only a speck of dust to him, then what sort of world would be outside this speck of dust?

At this moment, Ye Mo actually sat down. His mind and spirit had fused as one with this vast universe as though he wanted to fuse this boundless universe into his dao.

This was the 9th year the space time boat was flying in the void. During these nine years, Ye Mo had been learning the universal void while controlling the space time boat.

Now that he was in sudden enlightenment, the space time boat soon left its original path.

Qing Ru was now immortal monarch and gave the time formation disk to Mu Xiaoyun to break through to immortal emperor. She was planning to see the void of the Divine Dao Realm on the deck. At this moment, Ye Mo happened to go into sudden enlightenment and the space time boat lost control.

Qing Ru was shocked and quickly left the golden page world and took over control of the space time boat. She rejoiced that brother Ye let open the authority to leave the golden page world. Otherwise, if the space time boat rammed into an asteroid flow, it would be over. The clearing up line on the disk seemed to be blurring.

Qing Ru controlled the boat and wanted to pull it back to the original direction.

The Divine Dao Realm void was too vast. Even deviating a bit would make it hard to come back to the original position. Luckily, there was guidance on the location disk. However, Qing RU's speed was tens of times slower than Ye Mo.

Three months passed. Today, a large grey shadow suddenly appeared in her spirit sense.

This definitely wasn't asteroid nor a broken planet. Her spirit sense saw this and immediately knew it was a fragment of a small heaven domain.

Qing Ru knew that there might be large amounts of immortal spirit items or treasures. She immediately stopped the space time boat.

Qing Ru wanted to call out small ginseng. Small ginseng was naturally sensitive to small heaven domain as it came out of one.

At this moment, Ye Mo's force suddenly kept rising. This vast boundless chi spread from Ye Mo's body. Endless dao waves circulated around him. In Qing Ru's eyes, Ye Mo seemed to be the entire void of the universe.

Qing Ru subconsciously retreated a few steps and murmured "This is dao chi? How come I feel that brother Ye is everything in this universe?"

Qing Ru had seen her master reach Dao Moulding Divine Emperor. Li Xiu also had dao waves circulating around her but compared to Ye Mo's vast boundless dao, her master was only a small drop.

Ye Mo suddenly got up and the endless dao waves circulated him even more. His howl couldn't be stopped by the void.

His dao waves along with his howl gathered the entire void making his chi keep rising.

When the chi rose to a peak, Ye Mo's howl suddenly stopped. He opened his eyes and smiled at Qing Ru.

This was dao nourishment. This powerful feeling made Ye Mo almost unable to believe it. He finally realised why some people would be forever stuck at dao moulding with special fortune. Meanwhile, some people would be able to reach dao nourishment in a few decades or centuries.

He was like that. He had been in the golden page world for all these years and didn't reach dao nourishment but a few years in the realm void made him successfully reach dao nourishment.

Qing Ru looked dazily at Ye Mo and felt he had changed but at the same time not changed at all.

She soon reacted and walked up to Ye Mo "Congratulations brother Ye on breaking through."

Ye Mo was very happy. This time, he not just reached dao nourishment. He learned even more but these things were inexpressible. He even learned a great god art. It was related to the vast void but he couldn't form it yet.

"Thank you, did you stop here because you saw a small heaven domain?" Ye Mo smiled and asked.

Qing Ru quickly said "yea brother Ye. Look, that's a small heaven domain but instant second wrapped in grey. I was planning to call shadowless and small ginseng out to see but brother Ye you woke up."

"Lucky indeed. That's a small heaven domain." Ye Mo could tell that the small heaven domain was wrapped in cloud. Not every small heaven domain's cloud was poisonous. Ye Mo checked with his spirit sense. This was not poisonous.

"Do we go in now? Should we call out small ginseng?" Qing Ru asked desperately.

Ye Mo nodded "Of course. Call them out after we go in. I haven't congratulated you on reaching immortal monarch. Your talent is the top just like Xiaoyun."

Compared to brother Ye, this accomplishment is nothing." Qing Ru was shocked about Ye Mo's time formation disk. That thing was too absurd. At the same time, she realised why Ye Mo's cultivation speed was that fast.

Ye Mo nodded and suddenly asked "Qing Ru I have a question I want to ask you. Your master has seen a lot of things or maybe you know why too."

Qing Ru looked at Ye Mo in confusion. Brother Ye was much stronger than her and her master. What did he want to ask?
