Chapter 2131 Just One Step Missing

“Brother Ye ask, Qing Ru will tell you anything I know.” Qing Ru said.

Ye Mo nodded “I’m still a body refinement cultivator and my body refinement has reached immortal god body peak stage...”

“What? Brother Ye, you’re already immortal god body peak stage?” Qing Ru asked in shock. It was nothing shocking that Ye Mo was a body refinement cultivator but it was too amazing that Ye Mo could reach immortal god body peak stage. That was just one step away from reaching divine body.

Ye Mo didn’t know if there was divine body in the Divine Dao Realm but in the immortal realm, even in the legends, there has only been one who reached divine body in the countless years. That was still uncertain.

“Yes, I’m indeed immortal god body peak stage but no matter how I cultivate, I’m still one step away from divine body. I thought before that my cultivation level was too weak and couldn’t handle the power of the divine body but now that I reached dao nourishment, I still can’t grasp divine body...”

After Ye Mo reached dao nourishment, he realised that not being able to reach divine body had nothing to do with cultivation level. The reason he couldn’t reach divine body might be because when he went through nirvana, he didn’t use the entire chaos blue reed. He gave a part to Zhen Bingyu.

But Ye Mo wasn’t very certain. He wanted to ask Qing Ru. If this was really the chaos he would buy another chaos blue reed in the Void Marketplace. Chaos blue reed was rare but all the races in the Void Marketplace probably had this thing.

Qing Ru heard this and realised that Ye Mo was Dao Nourishment Divine Emperor. She immediately said “Brother Ye, reaching divine body is no small deal. One’s talent had to be absurd and their cultivation method must be powerful. You must not have any flaws during nirvana. If one of these things didn’t hit the mark then you can’t reach divine body. In all the years of the immortal realm, it’s said only one powerful being reached divine body.”

Ye Mo heard this and realised the problem. He sighed "I think I know my problem. My cultivation method is fine. It's probably when I had nirvana, I didn't use the entire one."

Ye Mo believed that his Three Birth Chant body refinement cultivation method was very powerful.

"Huh..." Qing Ru realised and said "Brother Ye, you shouldn't share the chaos blue reed with people. Chaos blue reed is the best nirvana item. If you split it, you will never have the chance to reach the divine body, sigh..."

Ye Mo smiled "Chaos blue reed is rare but I don't believe you can't get this in the Void Marketplace. I will definitely get an entire chaos blue reed in the Void Marketplace and make up for the problem."

Qing Ru shook her head "No, the reason nirvana is important is because it can't be made up for. Even if you find a hundred chaos blue reeds, it's pointless."

Ye Mo dazed. He just split that bit to Zhen Bingyu and now he can't reach divine body?

Ye Mo suddenly thought of Zhen Bingyu's words. If you want to reach higher levels, it's best you use the entire one.

It seemed she knew this already but she didn't tell him.

Ye Mo didn't blame Zhen Bingyu. They were just using each other at the time.

If he was with Zhen Bingyu now and the same situation came, would she ask for that small branch? Ye Mo soon got the answer, she definitely wouldn't.

Seeing Ye Mo fall silent, Qing Ru suddenly said "Brother Ye' if your chaos blue reed was used by another man then there's no way. But if it's another woman, then there's a sliver of chance..."

Qing Ru suddenly stopped. That sliver of chance was duo cultivation but what if Ye Mo didn't know that woman or that woman was Ye Mo's sister or that woman had lost her virginity? If it was any of those situation, Ye Mo would have no chance.

"What chance?" Ye Mo quickly asked. Even if he reached Primordial Essence Divine Emperor, he had to reach divine body if he wanted to stand at even higher grounds.

Hearing this, Qing Ru knew that it was a woman who used part of the chaos blue reed. She hesitated and said "If that woman is willing to duo cultivate with you or..."

"So that's it." Ye Mo realised and thought about when Zhen Bingyu offered her body to him at the Blue Mo immortal city. She said giving her virginity and something else to him. Ye Mo finally realised what that other thing was.

Seeing Qing Ru looked at him in confusion, Ye Mo smiled "Qing Ru thank you. I understand now. We'll go to the small heaven domain and see if there's really a lot of good things there."

The space time boat passed through the mist and this extremely powerful repulsive force slowed down the space time boat immediately.

The cloud layer seemed endless. After going forward for 15 minutes, they were getting slower and slower until they couldn't go forward anymore.

"Qing Ru, go in the golden page world." Ye Mo knew that there was no way they could enter the small heaven domain with this space time boat.

Qing Ru knew the situation at hand and quickly went into the golden page world.

Then, Ye Mo put away the space time boat and released Zi Xu. Ye Mo stood on Zi Xu and his speed increased drastically.

The repulsive force of the grey layer was extremely powerful but it clearly couldn't push out a Dao Nourishment Divine Emperor.

Another 15 minutes later, the repulsion was gone and instead turned to a huge suction force. However, it couldn't affect Ye Mo at all.

Five minutes later, Ye Mo appeared in a more spacious place. This wasn't the void anymore. It was space that ordinary people could survive in.

Ye Mo landed on the grass. A few wild rabbits saw Ye Mo but didn't avoid him and instead stared at him. no wonder they weren't scared, after Ye Mo reached Dao Nourishment Divine Emperor, all his chi was collected.

Ye Mo's spirit sense scanned out and soon covered the entire small heaven domain. This place wasn't big, at most half the size of Earth.

What disappointed Ye Mo was that there wasn't high level immortal spirit herbs. Even the spirit herbs here weren't high level. There was no god spirit herb nor dao fruits. There weren't even spirit beast. Just some ordinary wild beasts.

Qing Ru, shadowless and small ginseng came out.

"Boss, this seems to be a very ordinary small heaven domain." shadowless said.

Small ginseng shook his head "Not necessarily, many small heaven domains look ordinary but the truly precious things are hidden."

Ye Mo trusted small ginseng more, small ginseng was naturally sensitive to spirit things.

Seeing boss look at him, small ginseng said satisfyingly "This is a small heaven domain outside the Divine Dao Realm. The chi here isn't dense but it's similar to the god spirit chi of the Divine Dao Realm..."

Hearing this, Ye Mo suddenly woke up. He was accustomed to the chi of god spirit chi and didn't realise that although these things here were just ordinary spirit items, it didn't have the same ordinary chi as Earth.

Small ginseng continued "Usually, there are two explanations. One is that this isn't a good place but I don't think that's likely. Second is that there's an extremely precious thing that sucked away 99% of the god spirit chi here."

Chapter 2132 Chaos Star Realm's Immortal emperor

Small ginseng might be right. Let's split apart now and find the spirit item." Ye Mo said.

In this small heaven domain, even Qing Ru's spirit sense can see everything much less Ye Mo's. When they split apart there was no danger.

In the fourth level of Chaos Star realm, Yimo carefully let her spirit sense out and she instantly felt her spirit sense being crushed clean. She quickly took back her spirit sense and said "Sister Bingyu. If it wasn't for you, I would probably be dead. I can't even come to the first level of the chaos star realm."

Zhen Bingyu nodded "Before, I came here only because I was with Ye Mo. Otherwise, I wouldn't be able to come here. There are shadowless vultures and space whirlpools everywhere. My spirit sense cultivation method was taught by Ye Mo too. If you want to learn I can teach you too."

"Sure, of course I want to learn. Sister Bingyu, I see people rarely fly in here but we can fly on our magic artefact, is this due to your spirit sense cultivation method?" Yimo asked.

"Yes, the spirit sense cultivation method I got is..." Before Zhen Bingyu finished, a powerful force pressed over. She was pressed on the ground with her flying magic artefact.

Zhen Bingyu's face changed as she called out in shock "Immortal emperor..."

"Hmph, little girl you have good talent and keen eyes. You can tell I'm an immortal emperor. Where is the young man that came with you? He actually knew that he came into my spirit sense world and ran away." A man landed before Zhen Bingyu and Yimo.

His face was expressionless and there was a sliver of coldness in his eyes.

Zhen Bingyu looked at this man in shock and said “You’re Wushuang immortal emperor master...”

“Hmm, I’ve been gone for many years but a wan bei knows my name. You’re quite pretty looking. Even I rarely see women as pretty as you. You can be my wife.” The immortal emperor said.

He really was Mu Wushuang. Zhen Bingyu’s face went bad.

Hearing this, Zhen Bingyu’s shock disappeared as she put Yimo behind her, “Wushuang immortal emperor, wan bei respect your power but I can someone I like. If you want to do it by force, wan bei will die.”

Hearing this, Mu Wushuang looked at Zhen Bingyu with more shock “I didn’t expect your character to be so fierce. But if I don’t want you to die, you wouldn’t even be able to die. Since you know I’m Mu Wushuang you still reject me? After I go out, I’ll crush the person you like and see what you have to say?”

Zhen Bingyu sneered but said nothing. This Mu Wushuang was dreaming. Ye Mo could probably killed Mu Wushuang with a finger now. Was immortal emperor very powerful? When it was Mo Yue Immortal Sect opening ceremony, how many immortal emperors came to congratulate them?

“What, you don’t believe me?” Mu Wushuang’s face sunk.

Zhen Bingyu said “If you can really crush him then come to me and speak.”

“Haha...” Mu Wushuang laughed “Your cultivation progress is not bad. The guy whom you fled with is the person you like that? Even if his cultivation speed is the same as yours, he’s only an immortal king. I really can crush him with a finger.”

Seeing Zhen Bingyu sneer, Mu Wushuang was annoyed and his tone went cold “The emperor shall kill him first and take you away. I never make bluffs. Tell me what his name is?”

Yimo could tell that Mu Wushuang wanted to kill her dad so she said "Sister Bingyu is talking about my dad Ye Mo. You want to kill my dad just with your little power? Keep dreaming."

"You're his daughter?" Mu Wushuang looked at Yimo in confusion and then at Zhen Bingyu.

"That's right, I'm Ye Mo's daughter." Yimo said with pride.

Very well, I won't touch you two today. When I bring Ye Mo's head over, I'll talk." Then Mu Wushuang flashed and disappeared before them.

Before they could say anything, Mu Wushuang appeared before them again "Tell me, do you know of Wei Feng immortal emperor's news lately?"

Zhen Bingyu answered "It's said Wei Feng grand emperor went to God Necropolis Domain."

"God Necropolis Domain? what is that?" Mu Wushuang frowned and asked. He had never heard of this God Necropolis Domain.

"It's said to be a realm higher than immortal realm. Many immortal emperors went over to vindicate dao." Zhen Bingyu said.

Mu Wushuang's face changed and asked "Divine Dao Realm? The place Jue Ya qian bei came from?"

Zhen Bingyu really wanted to ask what the Divine Dao Realm and Jue Ya qian bei was before she resisted.

"You don't know the Divine Dao Realm?" Mu Wushuang could tell from Zhen Bingyu's face that she didn't know about the Divine Dao Realm.

Yes, I've never heard of the Divine Dao Realm. It's just said that the tunnel from the immortal realm to the God Necropolis Domain is open. Those with immortal emperor can go over to vindicate dao." Zhen Bingyu said.

Mu Wushuang's face changed. He returned to immortal emperor peak stage and wanted to kill Wei Feng and then to get revenge. It would be all too easy but Wei Feng was no longer at the immortal realm. Since one can vindicate dao at the God Necropolis Domain, it was quite possibly the Divine Dao Realm. When Jue Ya qian bei gave him the corner soul weed, he said he came from the Divine Dao Realm.

If Wei Feng immortal emperor came back from the God Necropolis Domain as a divine emperor, then he would be slapped to death in one palm. No, he had to go to the God Necropolis Domain.

After a long while, Mu Wushuang asked "How do I go to the God Necropolis Domain?"

Zhen Bingyu didn't hesitate and threw a jade slip to Mu Wushuang again.

Mu Wushuang looked at the jade slip and there was a sliver of joy "Thank you. I will come back and take you under my wing. I promise I won't kill your lover. Here's a jade slip in return."

Mu Wushuang threw it and then disappeared.

"Hmm, so cocky." Yimo stared at Mu Wushuang's direction and sneered.

"This person was gained up on due to being too cocky. When he sees brother Ye in the future, he will be bashed up. Yimo, ignore him, let's go." Zhen Bingyu didn't even look at the jade slip and threw it into her storage ring while releasing her flying magic artefact. They wanted to go even deeper at the fourth level.

Even ordinary great immortals didn't dare to go deep into the chaos star realm level four but Zhen Bingyu was an immortal king.

"Sister Bingyu, why don't you look at what that guy marked in the jade slip? It might be something good?" Yimo thought about the jade slip. She detested Mu Wushuang but the thing an immortal emperor gave out shouldn't be too bad right.

Yimo's eyes were rolling. Zhen Bingyu suddenly patted Yimo's head and said "Yimo, how come I feel you're exactly the same as Ye Mo?"

Zhen Bingyu knew Ye Mo's character. He was someone who couldn't move seeing something that was good. Nevertheless, Zhen Bingyu still took out the jade slip. Her spirit sense just casually scanned and her face showed shock. "What's wrong?" Yimo came up and scanned her spirit sense in.

Chapter 2133 Yellow Middle Plum

"Immortal Marrow Pond?" Yimo called out in shock. Then, she asked in disbelief "Would that old guy be nice? He definitely took it already."

Zhen Bingyu was very excited and shook her head "Not necessarily. Mu Wushuang is already immortal emperor peak stage. If he wants to increase his power, it's not as simple as stacking up resources. The immortal marrow pond is useful to him but not as important as we think."

"Regardless sister Bingyu, why don't we go there and see first." Yimo's eyes were gleaming with light.

At this moment, Ye Mo was frowning to an ordinary grass. He had been searching for three days in this small heaven domain. He felt there was this calling.

Ye Mo carefully checked the grass patch before him and couldn't see anything. It seemed he could only call small ginseng over. Small ginseng had a natural instinct to natural formation.

Just when Ye Mo was going to call small ginseng over, his face changed. He disappeared from this patch of grass and appeared before Qing Ru.

There was a white haired man before Qing Ru. He was Dao Actualisation Divine Emperor primary stage. Ye Mo was shocked. When he came here, his spirit sense didn't notice this person.

"An immortal emperor, an immortal monarch and a decent god beast and a ice ginseng can find this place. You're bold indeed." The white haired man looked at Ye Mo and said.

“Brother Ye.” Qing Ru called with a pale face and stood behind Ye Mo.

“How did this guy find you?” Ye Mo stared at the Dao Actualisation Divine Emperor and asked. He was certain this Dao Actualisation Divine Emperor wasn’t human. There was a white mist around him.

“I saw a yin plum here and wanted to dig it. However, I dug open a natural stealth formation...” Qing Ru said.

Ye Mo nodded. Natural stealth formation usually appeared next to plum or peach trees.

“Hehe, luckily you dug me out. Otherwise, I closed off my senses to find things. Even if you suddenly left I wouldn’t know. It would be a pity that such a perfect cultivation woman would be gone. You’re a mere immortal emperor, I can kill you easily.” The white haired man said.

Ye Mo sneered “You’re only a Dao Actualisation Divine Emperor primary stage and you dare to be this cocky.”

You can see my cultivation level?” The white haired man’s face changed, he could tell from Ye Mo’s words that Ye Mo wasn’t an immortal emperor. He couldn’t see through Ye Mo’s stealth cultivation level.

As they spoke, shadowless and small ginseng came over too.

As they spoke, shadowless and small ginseng came over.

Ye Mo signaled shadowless, small ginseng and Qing Ru to retreat. At the same time, he released Zi Xu. This white haired man saw Ye Mo release a magic artefact that was barely a low grade god artefact and sneered. He released two blood colored rings.

Zi Xu fell bring this twisted purple sword rune that covered the entire small heaven domain.

Seeing this, the Dao Actualisation Divine Emperor's eyes narrowed. His heart skipped fast as he smashed out his two rings.

After the two rings came out, the sky of the small heaven domain became blood.

This blood red killing intent that was about to erode to the depth of the soul rose up.

Shadowless and them hid very far. Even so, they were invaded by the blood color and shivered.

Ye Mo sneered, falling mark sword rune shook and hacked into this blood color.

"Clank..." Ye Mo's sword seemed to have smashed a glass bottle filled with blood and the blood color splashed apart.

The soul eroding killing intent was also split apart and the heaven of the small heaven domain returned to its original color.

The Dao Actualisation Divine Emperor didn't expect Ye Mo to have his divine demon blood ring in one strike and broke the blood domain too. Ye Mo just used a low grade god artefact. That twisted sword rune was too scary.

Before the falling mark sword rune spread, Ye Mo smashed out Five Lightning Spear Destruction.

At the same time, a minor space ripple spread.

The Five Lightning Spear Destruction smashed down bringing up blood mist. That Dao Actualisation Divine Emperor disappeared after being smashed by the Five Lightning Spear Destruction.

Ye Mo's face looked bad. He didn't expect the Five Lightning Spear Destruction to only heavily injure the Dao Actualisation Divine Emperor.

If this Dao Actualisation Divine Emperor just used mobility technique to run, Ye Mo was certain that he couldn't get far. However, that guy released a terrifying rune. This rune broke open his Five Lightning Spear Destruction and even his domain.

This guy was evenly matched with him and only had a little lower hand but he was willing to use such a precious rune to run without hesitation. He was too careful. This rune was probably as valuable as an extreme grade god artefact.

Ye Mo regretted. He should've used the Golden Bow of Divine Extermination immediately.

"Brother Ye did he run away?" Qing Ru asked.

"This person is so timid. He turned to ran before the fight even began." Shadowless said in contempt.

Ye Mo nodded "he got away. I didn't expect there would be someone as careful as him. He used the best rune to flee before the battle even began."

Small ginseng said "Boss, this person definitely thinks the same as us. This place is filled with golden core state but has no high level immortal spirit herbs. He guessed that there's a top level good thing here and thus hid in the stealthed formation and shut off his senses to use his spirit sense to search."

"By the looks of it, he had been here for many years. How come he still found nothing? Even if there are good things, we might not be able to find it." Shadowless said.

Small ginseng said in contempt "What do you know? Real heavenly treasures need to be mastered. If the treasure thought the person didn't have the right or power to be instant second master, it would definitely not come out."

Ye Mo immediately thought about how he felt a strong calling and immediately said to small ginseng "Small ginseng, I saw a potential natural stealth formation but with my formation skills I can't find the entrance. Help me look at it."

The group soon came to that patch of grass. Small ginseng looked carefully and frowned “There’s nothing here...”

Before he finished, a figure gradually went from hollow to being real. Even Ye Mo looked at this figure in disbelief. There was a nearly 30m tall huge tree here. It was very lush green and there were yellow fruits on it. There was about 100 or so.

This heart soothing aroma spread and everyone’s mind felt cleared. Qing Ru even felt her cultivation level increase for no reason.

Ye Mo just wanted to say this tree was so familiar when small ginseng said in shock “Yellow middle plum.”

Chapter 2134 Void Pirates

Yellow Middle Plum of the ten great spirit items!” Qing Ru called out in shock.

Yellow Middle Plum was one of the ten great spirit items and was a very delicious chaos dao fruit. Eating it can help you learn world laws and your own dao. Therefore, Yellow Middle Plum has another name called the dao law fruit.

It was very hard for the Yellow Middle Plum tree to bear fruit. Each fruit had different world laws but each fruit was unique to the world.

Ye Mo could tell this Yellow Middle Plum was the same as the branch he had in the golden page world.

The branch didn’t have pure roots. The middle aged man he saw at the Ethereal Immortal Pond had a branch. The branch probably came from this tree.

Ye Mo looked at the tree and indeed, there was a mark of a broken branch.

“It really is the Yellow Middle Plum.” Ye Mo suppressed his joy and touched the tree.

108 fruits were a priceless treasure each.

“Boss, I know. The original owner of the Yellow Middle Plum died and so it hid here itself. Now, it wants to find a master, so...” Small ginseng said in joy.

Ye Mo had chaos world and world tree, it was normal that the Yellow Middle Plum wanted to recognize Ye Mo as master.

Ye Mo agreed to small ginseng. The chaos spirit items of the world each had their own consciousness. The reason he got the three golden pages were because they hid themselves on Earth. Who was to be certain that it wasn't because they wanted to serve him as master?

Thinking about this, Ye Mo communicated to the Yellow Middle Plum with his will and wanted to send it into his golden page world. As soon as he made the thought, the Yellow Middle Plum landed in his golden page world with a sliver of joy. It was on opposite sides to the bitter bamboo.

So this was it indeed. Ye Mo scanned his golden page world and smiled. He suspected that the reason Qing Ru came here was due to the Yellow Middle Plum.

Seeing Ye Mo take the Yellow Middle Plum so easily, Qing Ru knew that small ginseng was right. The Yellow Middle Plum wanted to recognize Ye Mo as master or it wouldn't be taken away so easily.

“I've heard it's very hard to bear fruits on the Yellow Middle Plum. Why is there so many fruits on this one?” Qing Ru asked in confusion.

Ye Mo knew but before he answered, small ginseng said “It's very hard indeed. It's said that it only bears a fruit every ten thousand years but if the number of fruits reached the number of heaven and earth, it would stop increasing. The tree has 108 fruits now so it means that the tree has been here for at least 1.08 million years.”

Shadowless said “Perhaps the Yellow Middle Plum had 100 fruits here when it hid here. How would you know.”

“Impossible.” Small ginseng said.

“How do you know?”

“The previous owner of the Yellow Middle Plum definitely died. That’s why the Yellow Middle Plum appeared here. There was no way he would waste the fruits of the Yellow Middle Plum before he died.”

Ye Mo felt both of them were right so he waved his hand “Now’s not the time to discuss this. Let’s leave here quickly.”

After leaving the small heaven domain, Ye Mo released space time boat and let them go in the golden page world to watch the Yellow Middle Plum. He tried to get back on the original tracks as quickly as possible.

This time, they seemed to have went off very far. It took four years for Ye Mo to see the line clear up.

Most of the times, Qing Ru chatted with Ye Mo on the deck or watched the void. She would occasionally go cultivate.

The vast void contained too many unknown. Even at Ye Mo’s level, there was still too much he didn’t know.

Shadowless and small ginseng wanted to control the ship but Ye Mo sent them away without hesitation. In this void realm, it was the safest only if he controlled the ship.

After another decade, the line pointing to the Void Marketplace became clearer and clearer. They wouldn’t need 50 years to reach the Void Marketplace.

The space time boat had reached an extreme speed under Ye Mo’s control. It was like a teleporting blur.

But despite this, under the search of a powerful spirit sense, the space time boat would be caught. A spirit sense scanned past Ye Mo's space time boat and even on Ye Mo and Qing Ru's body.

This spirit sense was extremely powerful and dominant. Ye Mo's spirit sense scanned and saw 11 people.

They surrounded a purple flying god artefact and kept attacking it. There were 5 Dao Actualisation Divine Emperors and 6 Dao Nourishment Divine Emperors.

Seeing this purple flying god artefact, Ye Mo was shocked. It was very strenuous and hard for him to get a top grade flying god artefact but now, he easily saw a half extreme grade god artefact.

The purple flying god artefact had two Dao Actualisation Divine Emperors protecting it but clearly the defense formation wasn't going to last long.

In a short time, Ye Mo's top grade flying god artefact was near here.

"That's an extreme grade flying god artefact." Qing Ru exclaimed.

"No, it's a half extreme grade flying god artefact." Ye Mo shook his head and said.

"Haha... I, Qiao Gen, had been ravaging the void for milleniums and this is the first time I see someone not thinking about running away and instead discussing flying magic artefact levels. Good." A man who was nearly 3 meters tall laughed. He left the group of 11 and stopped Ye Mo's space time boat.

"Don't just talk about other people's flying magic artefact, I think your flying magic artefact is not bad. It's a high quality top grade flying god artefact." Qiao Gen studied Ye Mo's space time boat.

"Void pirate." Qing Ru called out in shock.

You just realised? No wonder you dare to follow an immortal emperor in to the void." Qiao Gen studied Qing Ru and said "Such a pretty immortal. I've never seen such a perfect woman in all my life."

“Hu Xian, I’m going to take that woman.” A skinny man dashed over and cleared wanted Qing Ru.

Qiao Gen who was called Hu Xian said “I’m not interested in woman, I only want this flying magic artefact.”

He then stared at Ye Mo and laughed “Do you know why he called me Hu Xian? Because when I fight with people I like to burn them crisp. So I’m called Hu Xian...”

Ye Mo released Zi Xu shatter space before he finished.

Even in the void, it illuminated out a 100km purple ray that instantly annihilated. Qiao Gen’s voice.

Ye Mo reached Dao Nourishment Divine Emperor in the void and learned a lot of void laws. Shatter space was still the same god art but its seeping out lethal force was grinded out and what replaced it was this vibrant purple ray.

When the purple ray fell, the nearby void became purple. Qiao Gen was a Dao Actualisation Divine Emperor primary stage but he instant sunk into this purple ray.

But soon, he reacted. This wasn’t a purple ray, it was a death beam. One that he didn’t sense any killing intent from.

Shivers went across his body. As a Dao Actualisation Divine Emperor, how could he not know that the greater the god art, the more terrifying the lethal force. If lethal force was stealthed, then it was a god art that perfectly fused with world laws.

He sweat cold and immediately released a flame like grey magic artefact.

Chapter 2135 Gain Up

A terrifying scorching grey exploded like a bomb. In one instant, the surrounding void was covered by a terrifying grey flame. Some went against shatter space sword mark but more attacked Ye Mo.

Even amidst this flame, Zi Xu had this shocking purple ray.

Void grey flame. Ye Mo immediately recognized this heaven flame. It was a heaven flame ranked 14th. Ye Mo was certain this void grey flame had a fire spirit or it wouldn't be this mobile. It was at least a god flame level.

Ye Mo had never seen someone use a flame as his main attack magic artefact. Qiao Gen did this clearly because he had faith in his flame and had a flame god art.

Little Blue was jumping around in Ye Mo's dan tian eager to come out and attack the void grey flame. Even if Little Blue didn't react, Ye Mo planned to use fire to teach this guy a lesson.

Before void grey flame reached Ye Mo's space time boat Ye Mo punched. Ye Mo fused his flame into his fist god art.

A blue fire wall smashed out silently. There was no sound when the blue fire wall hit the void grey flame.

Two seconds later, there was a sharp shriek. The void grey flame seemed to have encountered a terrifying predator and immediately retreated. At this moment, the second and third blue fire wall came like waves.

"Blue Like Morning Sky..." Qiao Gen clearly knew flames well. It was too terrifying that Ye Mo fused flame into his fist god art and smashed out such flame waves. If he couldn't stop this flame, then even if he didn't die he would be heavily injured.

The divine emperors attacking the purple flying magic artefact noticed things weren't right. One Dao Actualisation Divine Emperor and three Dao Nourishment Divine Emperor flew over quickly.

With this, only five people still attacked the purple flying magic artefact.

The two Dao Actualisation Divine Emperors on the purple flying magic artefact immediately had much less pressure. The two just glanced over at Ye Mo and took back their spirit sense, at the same time, the flying magic artefact suddenly changed directions and left through gaps between the five divine emperors and disappeared.

“These people are too shameless.” Qing Ru cursed in anger. Ye Mo was helping them attack the void pirates but they ran away instead.

Ye Mo sneered. He detested such people. If he didn’t want to attack, Qiao Gen definitely wouldn’t be able to stop his space time boat. He stayed to help. He didn’t expect this to happen. Sometimes, you really couldn’t be too nice.

Qiao Gen used his essence chi like crazy. He just needed to defend this time. Things would be much easier when his team came.

But no matter what, the Blue Like Morning Sky swept away the void grey flame like nothing. A sharp shriek came from the grey flames. Ye Mo felt Blue Like Morning Sky’s level increase a lot instantly.

He immediately understood. The two flames were both god flames but Blue Like Morning Sky’s level was higher than the grey flame so he devoured the void grey flame.

The instant this happened, the fourth blue fire wall swept Qiao gen. Ye Mo knew that Qiao Gen was of no concern now. Ye Mo tried to send a message to Little Blue making it attack the skinny Dao Actualisation Divine Emperor with the fifth flame wall.

Ye Mo was rejoiced to hear Little Blue’s reply in a baby voice “No problem boss.”

Little Blue could speak now? He copied shadowless’s tone too? Ye Mo knew now wasn’t the time to ask about this. When the fifth flame wall attacked the skinny Dao Actualisation Divine Emperor, Qiao Gen used mobility technique.

When shatter space blade fell down and blood mist sprayed, Qiao Gen was hacked in half. His mobility technique was stopped half way. The blue flame swept and Qiao Gen’s essence spirit and body were destroyed. Only a storage ring remained that appeared in Ye Mo’s hand.

The skinny Dao Actualisation Divine Emperor barely stopped Ye Mo's fifth fire wall and retreated to the other people. The ten people looked dazily at Qiao Gen's place.

"How dare you kill Hu Xian..." The skinny Dao Actualisation Divine Emperor was the first to rage "Attack together, pull his soul and sacrifice to Hu Xian."

The ten divine emperors attacked Ye Mo together. Ye Mo knew his space time boat's defense formation wouldn't be able to stop their attacks so he came out of the boat. Qing Ru retreated instantly with the boat. The only thing she could do was not get in the way.

The ten void pirates ignored Qing Ru. To them, Ye Mo was dead now. Their domains stacked together. In their view, with this many domains and magic artefacts stacked together, Ye Mo would certainly be crushed.

Ye Mo had never been through such terrifying pressure. He felt his divine emperor domain getting completely tom apart. A terrifying force smashed on him about to tear him to pieces.

He spat a few mouthfuls of blood but didn't smash out Zi Xu. He shrunk his domain to ten meters and smashed out six shatter space spirit sense god arts.

Six Dao Nourishment Divine Emperors. If it was one on one battle, Ye Mo could kill one instantly.

But now, he could only use spirit sense god art to ambush.

Seeing Ye Mo spit blood, the four Dao Actualisation Divine Emperors rejoiced and attacked Ye Mo again. The six Dao Nourishment Divine Emperors paused due to being ambushed by Ye Mo's god art. Ye Mo quickly released Adamantium Great Vehicle painting.

With the sound of Sanskrit tones, tens of golden monks came out that joined up to stop the attacks of the four Dao Actualisation Divine Emperor.

“Adamantium Great Vehicle painting?” One Dao Actualisation Divine Emperor recognized this immediately and called out in surprise and joy.

Ye Mo knew that his Adamantium Great Vehicle painting wouldn’t last three seconds. After using the spirit sense god art, he smashed down with six lightning spears.

The six Dao Nourishment Divine Emperor’s sea of consciousness was torn apart. If Ye Mo was still Dao Moulding Divine Emperor, the Dao Nourishment Divine Emperors could possibly defend against this but now that Ye Mo was Dao Nourishment Divine Emperor, these six Dao Nourishment Divine Emperor had no chance.

Six extremely thick lightning spears struck down. Even the golden monks seemed a bit eerie under the illumination of the black lightning.

Splurge. The six Dao Nourishment Divine Emperors turned to bloody mist.

Crack. The Adamantium Great Vehicle painting made a cracking sound. Ye Mo knew that the painting wasn’t broken but it was useless now.

There was a sense of weakness coming from his sea of consciousness. The four Dao Actualisation Divine Emperors immobilized his Adamantium Great Vehicle painting and broke his meridians. If it wasn’t that his body was sturdy, he would be disembodied.

Ye Mo resisted the urge to spit essence blood and instead went in. He waved out two Great Primordial God Runes.

“Great Primordial God Rune...” One chubby Dao Actualisation Divine Emperor middle stage called out shakily.

“Don’t be scared, he’s almost done for.” The skinny Dao Actualisation Divine Emperor called out quickly and released a dragon tooth hell seal.

Chapter 2136 God Rune Doing Work

Ye Mo forcefully used his spirit sense and smashed down Zi Xu at the same time the two Great Primordial God Runes went out.

Great Primordial God Rune plus falling mark sword rune.

This region of void had become twisted. The two Great Primordial God Runes clearly had no target but the four Dao Actualisation Divine Emperors felt they were charging at them.

A Dao Actualisation Divine Emperor primary stage finally couldn't resist his shock and dashed away disappearing. He couldn't see through Ye Mo's cultivation level but to be able to kill one Dao Actualisation Divine Emperor and six Dao Nourishment Divine Emperor in one go wasn't simple.

"Coward, so what if he has Great Primordial God Rune? He's at his wits end. If us three join up we can kill him." The skinny man sneered as the dragon tooth hell seal protected him.

The other two released their defense magic artefact. They didn't run but they didn't attack. They would protect themselves first. The name of Great Primordial God Rune was too ferocious. It ignored space time. No one would be careless. To be able to reach Dao Actualisation Divine Emperor, who didn't spend countless years and endure countless hardships? If they were killed as simply as Qiao Gen, it would be such a waste.

Two Great Primordial God Rune attacked that chubby Dao Actualisation Divine Emperor middle stage. Ye Mo could tell he was scared of the Great Primordial God Rune the most.

The chubby Dao Actualisation Divine Emperor middle stage saw two Great Primordial God Runes came at him as well as the twisted sword rune, he couldn't care and immediately disappeared in a dashing light. He was certain that even if his partners could kill Ye Mo, he would be heavily injured or killed by the Great Primordial God Rune.

With two running, Ye Mo didn't hesitate. The Great Primordial God Rune and falling mark sword rune he purposely slowed attacked the other Dao Actualisation Divine Emperor tertiary stage and avoided the skinny man.

The Dao Actualisation Divine Emperor tertiary stage didn't run but released a pitch black ruler magic artefact, it wanted to block the two Great Primordial God Rune while his defense magic artefact became the second line of defense.

"Rumble..." The Great Primordial God Rune hacked the black ruler and instantly twisted. The twisting ripple seemed to have fused into the void and disappeared.

Ye Mo reached Dao Nourishment Divine Emperor in the void and fused the void into his dao. The Great Primordial God Rune swam like fish in the void.

Seeing this, this Dao Actualisation Divine Emperor tertiary stage's face immediately changed. He was scared of the Great Primordial God Rune because he knew it could ignore space time. Now, two Great Primordial God Runes disappeared before him but in his senses, they still existed. He immediately began vigilant.

Seeing Ye Mo didn't attack him, the skinny man's seal turned into a 100km tall mountain that smashed at Ye Mo.

Even so, he released a defense magic artefact shield to protect him. he was still worried about the Great Primordial God Rune.

When a subtle god rune seeped out from the back of the black ruler, this Dao Actualisation Divine Emperor tertiary stage could no longer resist his terror. What shocked him even more was that there was this powerful life force coming from Ye Mo. This wasn't something heavily injured people could have.

The Dao Actualisation Divine Emperor tertiary stage could no longer care. His black turn turned into a black line that disappeared with him. If Great Primordial God Rune could ignore space, it meant that the Great Primordial God Rune was in great completion mastery. Even Dao Essence Divine Emperor didn't dare to underestimate this, it was dreaming for him to take out these two Great Primordial God Runes. Plus, Ye Mo wasn't heavily injured.

But when he fled, he felt things weren't right. The Great Primordial God Rune was ferocious, even if he ran, it should chase up and heavily injure him. Why wasn't he injured. He was confused but he didn't have the courage to go back and fight Ye Mo.

Seeing his last team go, there was horror in the eyes of this skinny Dao Actualisation Divine Emperor. He also felt the dense life force coming from Ye Mo's body. He could care anymore. He grabbed the seal and turned to smoke.

The two Great Primordial God Runes crossed the black ruler but its power was greatly diminished. If this Dao Actualisation Divine Emperor didn't go, it would at most injure him slightly.

Ye Mo breathed. If these two didn't run, he would have to take out his Golden Bow of Divine Extermination.

Ye Mo didn't want to do that as if he did, he would have to kill them. Exposing his Golden Bow of Divine Extermination here was no small matter.

Ye Mo knew Li Xiu's character and she definitely wouldn't expose this but other people were different. The Golden Bow of Divine Extermination was something even Primordial Essence Divine Emperor wanted.

Ye Mo didn't even plan to take out the 36 Lightning Sea God Orbs unless he was certain he could kill all 11 of them.

Ye Mo knew that the two ran away also due to the chaos tree. The chaos tree couldn't repair his broken meridians but it could allow him to have powerful life force and recover his wounds.

Seven of the 11 divine emperors died and four ran away. Ye Mo was about to fall. Qing Ru was very worried and quickly came over on the space time boat dragging Ye Mo inside and then changed directions as they flew off.

Ye Mo was quite heavily injured this time. He left shadowless and them to control the space time boat while he went in the golden page world to recover.

Even a Dao Nourishment Divine Emperor would need the best god spirit herb or long time in solitary cultivation to recover from meridians being broken.

But for Ye Mo who had the chaos tree, he used just half a year to completely recover. He scanned with his spirit sense and found that they were on the right track to the Void Marketplace. He didn't go out and took off a Yu Miaodan fruit.

It was extremely tasty in his mouth when the fruit came in and turned into a well of dao waves that flowed in Ye Mo's body.

The fruit seemed to be able to sense Ye Mo's learnings and turned into void laws that helped Ye Mo fuse all his enlightenments together. At the same time, it helped Ye Mo grasp the god art laws that he couldn't reach.

Ye Mo went into enlightenment again and completely ignored his surroundings.

Chapter 2137 God art One Region

The void was boundless and endless. The universe had countless void realms. Once your cultivation level reached a certain level you could tear a void realm to enter another one.

The void of a realm was endless. If you controlled the entire void of this realm, you controlled the realm.

Ye Mo thought and suddenly grabbed with his hand. The space before him turned into a region of void. This region of void was far from a realm and was far from forming one but this region of void was in his control.

Ye Mo let go and stood up with his hands behind his back. He didn't try again. The region of void he grabbed was different to domain. If his opponent was in his region of void, then the opponent's domain and cultivation method would be completely separated. In that region of void, he was the master. He could kill his opponents before he could react.

If he controlled this region of void before, that Dao Actualisation Divine Emperor tertiary stage wouldn't be able to escape at all. Great Primordial God Rune could indeed ignore space time but Ye Mo couldn't do that yet. His Great Primordial God Rune needed to go around defense magic artefact to attack his

opponents. That way, Ye Mo couldn't release even one percent of the true power of the Great Primordial God Rune.

If he controlled one region of void, he could emulate the quality of the Great Primordial God Rune ignoring space.

Ye Mo wasn't too happy that he learned one region of void. Due to his limited cultivation level, he could only grab a limited amount of void space. Even if the space increased, it was another question if he could even envelope his opponent in this space.

The main thing was that in his golden page world, opening up this region of void was extremely taxing on god essence and spirit sense. If it was the outside world, Ye Mo even suspected if he would be able to do it quickly.

The golden page world was his world but the outside world wasn't his world. If he used one region of void, could he even have the effort to use other god arts to kill his opponent?

Ye Mo came up to the space time boat immediately.

"Brother Ye, you're out of solitary cultivation?" Qing Ru asked.

"Wait..." Ye Mo left the boat and grabbed in the void. The vast void seemed to have paused under Ye Mo's grab and this region of space that was different to other regions appeared before Ye Mo.

This space completely belonged to Ye Mo. He could do anything he wanted in that dimension even though it was just for a brief moment.

In just three seconds, Ye Mo let go. His face was pale. He learned how to grab out his own realm in the void but his cultivation level was far from keeping up with his learnings.

"I'll call it one region. This mean can only be used as a final lethal blow." Ye Mo sighed. To Ye Mo, if he could just trap the enemy in a world he grabbed for just one second it would be enough.

“Qing Ru, how long did I spend in recovery and solitary cultivation?” Ye Mo came back to the space time boat.

Before Qing Ru could reply, shadowless said “Four years. During this time, I’ve been controlling the boat. My speed now is definitely fast boss.”

Shadowless was scared of Ye Mo taking his control of the boat and said.

Regardless, Ye Mo didn’t let shadowless keep controlling the boat. When he took over, they were many times faster. Small ginseng said seriously “Shadowless, your speed of control is definitely fast.”

Shadowless saw that compared to Ye Mo’s speed, his speed was a turtle but he still replied “I was planning to accelerate but boss finished solitary cultivation early.”

Ye Mo wasted a few years in the void due to the void pirates but it didn’t affect him much. He got 7 storage ring and Little Blue got stronger. He also learned void god art one region. Ye Mo collected nearly 200 million top grade god crystals. In total, he had 300 million god crystals.

On top of that, there was two middle grade god spirit ranges and countless materials and god spirit herbs.

Another decade later, Mu Xiaoyun had divine damnation and reached immortal emperor and stopped cultivation. She left the golden page world and came on the space time boat. Fu Fei stopped too.

The line on the location disk was getting clearer and clearer. Clearly, the Void Marketplace was getting closer and closer.

Ye Mo spoke with them as he controlled the ship.

A huge black figure that had a diameter of 1000km appeared before Ye Mo. There were tens of huge ships stopped next to it.

“Is this the Void Marketplace?” Ye Mo subconsciously slowed the space time boat and asked in disbelief. But immediately, he released he was wrong. This wasn’t the Void Marketplace. Dong An said that the Void Marketplace was a continent.

This was a moving ship castle in the void.

This is probably a trading station on the way to the Void Marketplace. The ships on the side are probably from the different races.” Qing Ru said.

Ye Mo nodded “That’s probably it. Shadowless, you guys go in first.”

When they went in, Ye Mo slowly approached this huge ship castle.

There were city walls and a huge gate.

When Ye Mo got close, he saw that the castle was actually a huge asteroid that was locked in space by formation.

At the top were the words, shadow void castle.

“Stop, everyone who wants to go in has to pay 10k top grade god crystals.” An immortal monarch at the gate looked strangely at the group.

He had seen many people who flew here alone but he felt that this group’s power really wasn’t enough to travel the void. He couldn’t see through their power levels but Fu Fei and Mu Xiaoyun were at most immortal emperor. Ye Mo definitely wasn’t Dao Essence Divine Emperor.

Even if Ye Mo was Dao Actualisation Divine Emperor, it was way too risky to be travelling in the void with them.

Ye Mo took out 40k god crystals and asked “May I ask if this castle is a mid way stop to the Void Marketplace?”

“yes, the people who come here can participate in auctions and buy complete void location maps as well as other things for example the language jade slips of other races. You can also hire people from here to protect you to the Void Marketplace. Of course, that is very pricy.” The immortal monarch said.

Just as he had thought. Ye Mo thanked and took the three into the castle.

The castle area wasn’t huge, many immortal cities were much larger than this. Shops were closely linked together. Clearly, land was very expensive here.

There were all sorts of people walking in the not so spacious streets. Some of them didn’t have human faces.

Ye Mo went to the nearby shop and bought the language jade slips of all the races before finding an immortal rest tower.

“Hmm, brother Ye...” Just when Ye Mo came in, a voice called out in surprise and joy.

Ye Mo recognized this person. It was Xian Yuxue, the wine lover he saw at the harbor.

“So it’s brother Xianyu.” Ye Mo saluted with his fists and saw this place was seated full.

“Brother Ye, why don’t you come sit over with me. Two of my friends just went out. It will be a while before they come.” Xian Yuxue said.

Ye Mo saw there were many spots on Xian Yuxue’s table. Even if four more people came, it would fit.

Chapter 2138 Hal

“Brother Ye, only someone like you can cross the void alone. Many people at the ship harbor thought brother Ye was naive but only I knew brother Ye would definitely be able to make it. There are individual

ships heading to the Void Marketplace from here. Even if brother Ye don't fly yourself, you can take the ship from here." Xian Yuxue said.

Ye Mo smiled "I don't have tickets. If I had tickets who would want to travel the void alone. Did you just get here?"

Ye Mo said that but he didn't regret going the void himself. He collected the Yellow Middle Plum. He wasted four to five years on journey. Why was Xian Yuxue still at the castle?

Xian Yuxue sighed "It's a long story. Our ship has been here for nearly a year and it's about to leave but due to some things happening on the way, we wasted a few years' time."

"Did you encounter void pirates too?" Fu Fei asked.

"We didn't encounter void pirates. They rarely attack large ships. After all, the difference in power was too big. Of course, there were a few very strong pirates that would attack large ships. They have their own ships too. Our ship encountered asteroid flow and the ship was damaged. It's now stopped at the shadow void castle for repair." Xian Yuxue said.

"There are rarely any solo flying magic artefacts that don't encounter void pirates on the way to the Void Marketplace. It's very lucky that brother Ye didn't encounter void pirates." Xian Yuxue said. He thought that although Ye Mo was strong, he wouldn't be able to face off against pirates and be safe.

Ye Mo looked at Xian Yuxue and asked "Brother Xianyu, how do you know that I didn't encounter void pirates? And why do you say that rarely do people not encounter void pirates if they go alone? The void is that vast while the pirates are just minority."

Xian Yuxue sighed "brother Ye you don't know that the routes to the Void Marketplace are pretty much the same. Void pirates have their own scanning formation disk. These formation disks are very expensive. An expensive one would cost more than a billion god crystals. Even a cheap one would cost nearly 100 million."

"So that's it." Ye Mo understood.

It seemed that purple flying magic artefact was probably scanned while he ran into the void pirates on his own accord.

“If brother Ye encountered void pirates, you wouldn’t have it so easy. The weakest would have six to seven people and at least three Dao Actualisation Divine Emperors. Brother Ye didn’t fear fighting one on one battles but they have strength in numbers and they often fought in the void. Their power and experience is extraordinary.” Xian Yuxue said.

Ye Mo nodded and agreed. Those pirates were both experienced in fighting and running.

Just when Ye Mo wanted to ask Xian Yuxue about the castle, a man and woman rushed over.

One was a Dao Moulding Divine Emperor woman. She had a few dark marks on her face. Clearly she was slapped. The man was a Dao Nourishment Divine Emperor.

Even if a Dao Moulding Divine Emperor’s face split open, it would instantly recover but her mark remained on her face.

“Immortal friend Gu, immortal friend Xin, what happened?” Xian Yuxue got up immediately.

This Dao Nourishment Divine Emperor came up to Xian Yuxue and said in a quiet voice “We saw a stall on the side. There were six heart refining immortal herbs. Immortal friend Biying agreed with the stall owner to use a fist sized lightning fire treasure sand to exchange for the herb but she meant to trade all six...”

“Lightning fire treasure sand?” Ye Mo asked in shock.

This was definitely something good. It was a level 12 immortal material. It’s main purpose was for forgery. If he could fuse a lightning fire treasure sand, it would be perfect. It could allow Zi Xu to reach middle grade god artefact at least.

A fist sized one was enough to trade for even 16 herbs not just six.

But Ye Mo could understand what the female immortal thought. The heart refining immortal herb was an important god spirit herb that Dao Moulding Divine Emperor needed. It could be concocted into heart refining pill that had immeasurable benefits for reaching Dao Nourishment Divine Emperor.

But that was if it was made into the pill. If not, it had no value. Turning the herb into the pill was no easier than reaching Dao Nourishment Divine Emperor. Only dao nourishment pill divines could concoct heart refining pill. Even Ye Mo couldn't promise he could do it now.

The Dao Nourishment Divine Emperor didn't notice Ye Mo at first but when Ye Mo spoke he recognized Ye Mo. He said in shock "You're..."

Xian Yuxue smiled "Immortal friend Xin is right, brother Ye came to the castle alone on his magic artefact."

Then he pointed at the two divine emperors and said to Ye Mo "Gu Biying, Xin Zhuo and I came from the ship together..."

The two had released that Ye Mo was not an immortal emperor now.

The two immediately bowed to Ye Mo. No matter how high their status was in the Divine Dao Realm, they were at the bottom of the food chain in the shadow void castle. It was good to know a powerful being like Ye Mo.

Ye Mo returned to gesture and asked "Two immortal friends, I heard you talk about lightning fire treasure sand. Did you trade it already?"

Gu Biying answered "That stall owner is extremely shameless. He threw me a heart refining immortal herb and wanted to use one to trade my lightning fire sand. I said I wasn't going to exchange for one but that person slapped me. He was Dao Actualisation Divine Emperor power and I couldn't dodge it. Immortal friend Xin quickly pulled me away. Luckily I didn't give the lightning fire sand to him. At that moment, another Dao Actualisation Divine Emperor qian bei came to his stall to ask so we fled here."

Ye Mo saw this Gu Biying was rather pretty and wore a pink immortal robe. Her face was very white but there was a few black marks on it now.

Xian Yuxue quickly said "We should go quickly. I'm certain that person will chase here."

"Hmph, you took my heart refining herb but you didn't give me your thing and you want to run? Do you think you can get away? I don't believe such evil people like you exist in the shadow void castle." A cold voice spoke and a grey figure walked in.

Gu Biying shivered and subconsciously said "I didn't take your herb plus, I wasn't going to trade one."

There were restriction everywhere. When this person came in, Ye Mo saw who it was. he was one of the void pirates who fled first.

However, Gu Biying was confused. That Dao Actualisation Divine Emperor had a sliver of fear flash across his eyes and was about to leave.

Ye Mo sneered "Stop."

This Dao Actualisation Divine Emperor clearly recognized Ye Mo. His first reaction was to use mobility technique and get as far away as possible. Ye Mo appeared here meaning that his partners were definitely gone.

But then he thought that this was the shadow void castle. Here, no matter how bold Ye Mo was, he wouldn't dare to do anything. If he fled out of the castle, he would be in danger.

Chapter 2139 Cang Xu Dao Exchange Social

He walked up to Ye Mo nervously and saluted with his fists "Qian bei, I didn't offend qian bei. Not only did I not attack qian bei with full power but I was also the first to leave. Plus, I'm not a part of the flying void."

Ye Mo knew he couldn't kill this guy here and Ye Mo wasn't desperate to kill this guy. He wanted to kill that skinny Dao Actualisation Divine Emperor the most.

“What is that skinny Dao Actualisation Divine Emperor primary stage called? Where is his home?” Ye Mo asked coldly.

“He’s called Hao Junfeng. No one knows where he lives. We just gather at the Void Marketplace periodically.” The long haired Dao Actualisation Divine Emperor answered Ye Mo’s question without hesitation. Clearly, he didn’t plan to go back to the original priate team.

Ye Mo was a bit disappointed but he knew this Dao Actualisation Divine Emperor wasn’t lying to him.

“Qian bei, if there’s nothing else wan bei will be leaving.” This Dao Actualisation Divine Emperor said carefully.

Ye Mo sneered “You offended my friend as soon as you came here and slapped her. Do you think I will let you go so easily?”

Hearing Ye Mo’s tone get fierce again, the Dao Actualisation Divine Emperor quickly explained “Qian bei, wan bei really didn’t know he was qian bei’s friend. If I did, I would never...”

Ye Mo waved his hand “Bring out the culprit for this incident and leave.”

Yes, yes.” This Dao Actualisation Divine Emperor quickly took out six refine heart herbs and left not daring to say anything.

Qing Ru sneered “This guy said he gave one to sister Biying but now he took out six.”

Mu Xiaoyun smiled and said “He finally took it out himself.”

While they were talking, Xian Yuxue and them were completely dumbfounded. A Dao Actualisation Divine Emperor calling Ye Mo a qian bei. Was Ye Mo a Dao Essence Divine Emperor? Although Dao Essence Divine Emperor wasn’t rare at the shadow void castle but in the Divine Dao Realm, there were very few Dao Essence Divine Emperor.

Ye qian bei..." Xin Zhuo called out. Clearly, he thought Ye Mo was a Dao Essence Divine Emperor. Otherwise, how could a Dao Actualisation Divine Emperor call him qian bei?

Ye Mo quickly waved his hand "Our cultivation level is about the same, no need to call qian bei."

Xian Yuxue sighed "I was wondering why that guy was so scared of brother Ye? He probably suffered in your hands right?"

Ye Mo nodded "That's right. This guy is a void pirate. I was stopped by a group a decade ago. He was one of them."

"Brother Ye you encountered void pirates?" Xian Yuxue asked in shock. His voice was so big that the surrounding people all heard.

Ye Mo waved up a few sound barrier restrictions and said "That's right. There was 11 of them. I killed seven and four ran away. This guy was one of the four."

Hearing this, Xian Yuxue took in a cold breath. Ye Mo was ganged up on by 11 divine emperors and still killed seven. What cultivation level was this? This was too scary.

Ye Mo didn't explain the specifics and wanted to ask Gu Biying about the lightning fire treasure sand. Gu Biying bowed and thanked "Thank you brother Ye for helping."

Ye Mo quickly said "This is no big deal. I heard immortal friend Gu has a lightning fire treasure sand. That's useful to me..."

Before Ye Mo finished, she took out a blue ore to Ye Mo "Brother Ye I have no need for this. You can have it."

Seeing this, Ye Mo took it and took out the six herbs. However, he didn't give it to her and said "Immortal friend Gu^ ^ know you want these herbs but if they aren't made into refine heart pill, their use is very limited."

Gu Biying said dejectedly "I know but it's too hard to find a dao nourishment pill divine who can make it."

Ye Mo said "I took your lightning fire sand so these six herbs belong to you. If immortal friend Gu trusts me, let me keep them for now. Tomorrow, I will give you a refine heart pill."

Gu Biying immediately looked at Ye Mo in shock and asked "Brother Ye is a dao nourishment pill divine?"

Ye Mo was definitely a dao moulding pill divine and he could reach dao nourishment pill divine easily. He just got large amounts of god spirit herbs recently.

Ye Mo nodded "That's right, I am."

Gu Biying didn't doubt this at all and quickly said "Of course I'm willing. Even if brother Ye just gives me two pills I'm willing."

"Okay, in that case, we'll gather here tomorrow." Ye Mo saluted with his fists and said.

"Is brother Ye leaving now?" Xian Yuxue asked.

"I want to find a place to rest for two days and see if there's anything good at the castle." Ye Mo said.

Xian Yuxue quickly said "Brother Ye if you want to find good things I suggest you go to the Cang Xu Dao exchange social."

"Cang Xu dao exchange social?" Ye Mo asked in confusion.

Xian Yuxue nodded “That’s right. It’s a place for exchange divine dao spirit items. It happens once every half a month. Today is the day. There are wealthy divine emperors from all races. They come here to exchange what they need. However, there’s one thing...”

“Where is it? What thing?” Ye Mo immediately knew this was where he wanted to go.

“It’s 10 km down this alley but it’s not cheap to go in. Every person needs to pay 300k top grade god crystals to go in each time.” Xian Yuxue answered.

Ye Mo sighed, it’s a very high price but this was bearable to him. He planned to let Mu Xiaoyun and them go in. He didn’t want to save that little bit of god crystals.

“Husband, are you going there now?” Mu Xiaoyun asked worriedly.

Ye Mo quickly said “I’ll take you guys in as well to broaden your views.”

Xian Yuxue said too “Since brother Ye is going, I’ll go with you too. immortal friend Gu and Xin, why don’t you all come?”

To be able to go with a master and a pill divine like Ye Mo, of course the two were willing. They immediately said “Of course we’re willing.”

“In that case, we’ll go there for a spin. Maybe we’ll get something good.”

Ye Mo said and then took out a pill to Gu Biying “Immortal friend Gu, this is a poison remedy god pill. After you use it, the poison mark on your face will disappear quickly.”

Thank you brother Ye.” Gu Biying said.

The Cang Xu dao exchange social was very famous at the castle. Those who came to the castle pretty much all went to the Cang Xu dao exchange social. You could get anything you wanted here as long as you had good things too.

The group of seven stood before the Cang Xu dao exchange social.

The door wasn't big but there was an immortal emperor who was almost falling asleep sitting at the door.

Before Ye Mo spoke, Xian Yuxue passed a storage bag. The immortal emperor took it and nodded "Okay."

Chapter 2140 Nothing That He Don't Want

The group walked in from the small door but found the inside was very luxurious. It was extremely spacious and every seat was extravagantly decorated. People could enjoy all sorts of top immortal fruits, teas and wines. Every seat had a human like puppet that served you.

Ye Mo and them came in rather early and the social hasn't begun. There were just a few Dao Moulding Divine Emperor and Dao Nourishment Divine Emperors. When Ye Mo and them sat down a few puppets already poured them wine and brought fruits over.

Despite Qing Ru being only immortal monarch, no one felt strange. At this place, you could come in as long as you had god crystals.

Xian Yuxue came to the castle early so he knew more people than Ye Mo did. He introduced the rules at the social. Usually, don't fight with stronger people over items if it wasn't something important. After the deal is done, you could not regret.

As they spoke, more and more people came in. When an old man and a man shrouded in black chi came in, no one spoke here. Even Ye Mo's eyes narrowed. These two were definitely Dao Essence Divine Emperor. Their chi was too powerful.

More and more strong people came. Ye Mo even saw 6 Dao Essence Divine Emperors much less Dao Actualisation Divine Emperor.

Other than those two, there was a middle aged man who emitted this cold chi appeared. Ye Mo guessed this person came from the abyssal realm but he knew he didn't have the right to talk to such person.

A seductive woman who was almost on par with Qing Ru came in. Ye Mo guessed she was a Dao Essence Divine Emperor too. The only difference between Qing Ru as that Qing Ru looked extremely pure.

This woman came in and immediately saw Qing Ru. She exclaimed "Such a pretty human female."

But she just said that and found a place to sit down.

Xian Yuexue and them didn't dare to say a thing.

Many divine emperors came in and used masks to mask their chi.

Ye Mo was helpless. He didn't have some mask to change his face. Plus, he brought Qing Ru and them here. Seeing all these powerful beings here, Ye Mo had decided to not buy anything unless there was something he really needed.

An hour later, 80% of the seats here were filled. At this moment, the door of the Cang Xu dao exchange social closed.

A Dao Essence Divine Emperor woman got up and said "Welcome everyone to the Cang Xu dao exchange social. The social begins now. You may leave half way but you won't be able to come back in again."

A Dao Actualisation Divine Emperor who wore a black hair tie got up and saluted with his fists before taking out a 30cm fist thick black staff "Broken Lotus Demon Candle, I'm willing to trade for middle grade flying god artefact or armor. If there's anything better I'm willing to add in more."

Ye Mo knew this was a level 12 immortal material. It was material for forging top grade or even extreme grade god artefact. It was suitable for demon race divine emperors.

After a few seconds, no one spoke. The candle was good and was worth a middle grade god artefact but forgery grand masters and pill concoction grand masters were rare anywhere.

What was rare here wasn't the top materials but the people who could turn them into top grade god artefacts.

Ye Mo wasn't planning to trade it but seeing no one was willing to bid he was interested. He had no middle grade flying god artefact but he had a middle grade god artefact armor. He got it from the void pirates. He also got two more low grade flying god artefacts from them.

Compared to the armor, he liked the low grade flying god artefacts better. He was a immortal god body peak stage and armor wasn't very helpful to him.

The Dao Actualisation Divine Emperor was disappointed and about to put the candle away when Ye Mo said "I have a middle grade god artefact armor, have a look immortal friend."

Ye Mo handed the armor to the puppet next to him.

The puppet brought the armor up to the divine emperor. The Dao Actualisation Divine Emperor opened the armor and frowned but moments later he still gave the candle to the puppet "I'll trade."

Ye Mo rejoiced. He knew why the Dao Actualisation Divine Emperor frowned. This middle grade god artefact was a bit broken and would cost some god crystals to repair.

If he couldn't find a forgery divine, he would just have to wear it like that.

In the higher realms, forgery divines were separated based on their ability to forge god artefact. If one could forge low grade god artefact, then he was low grade forgery divine. If he could forge extreme grade god artefact, then he was extreme grade forgery divine.

Ye Mo's Three Birth Chant was very powerful and he learned pill concoction and forgery countless times faster than others. However, he got limited materials so even now, he was still only top grade forgery divine.

The next item was seven colored god water. It was a precious god spirit item. Even if it wasn't concocted into a pill, it could help with learning dao and was beneficial even to Dao Essence Divine Emperor.

Ye Mo already exchanged for an item and didn't want to stand out too much. So despite wanting the water a lot, he resisted the urge to bid.

This thing was much more popular than the candle and many people started bidding for it. Soon, it was bought by a Dao Actualisation Divine Emperor with 10 million god crystals and a material Ye Mo really wanted.

Third thing was Shining Sun Mist Steel. Another thing Ye Mo wanted but a Dao Essence Divine Emperor wanted it.

Fourth thing, Hao Ran light wave Liu. Also something Ye Mo wanted but two Dao Essence Divine Emperors were fighting over it.

Fifth, sixth...

Ye Mo found in shock that everything that appeared here was something he desperately wanted. However, he had to give up facing these powerful beings.

When the 7th thing nine star bamboo came out, Ye Mo couldn't resist anymore. This could be used to concoct Dao Star Pill. It was a necessity for Mu Xiaoyun who cultivated primordial chaos chant. Mu Xiaoyun was about to vindicate dao. With the dao star pill, she would definitely succeed.

Ye Mo had made up his mind to get this.
