Chapter 2141 Over the top bold immortal emperor

Ye Mo knew that other immortal emperors could also use the pill to vindicate dao but for the people cultivating primordial chaos chant, it was more beneficial. Primordial chaos chat was a cultivation method derived based on stars and the cosmos. The bamboo grew in the void with star light. It was very precious.

Other than the nine star bamboo, there was also a divine dao spirit item that formed in the cosmos called cosmic lotus. This was countless times more precious than the nine star bamboo as it was a dao fruit for reaching Dao Essence Divine Emperor. In terms of value, it was on par with Yellow Middle Plum and sometimes even more precious.

This wasn't to say that there was less cosmic lotus than Yellow Middle Plum. There was much more cosmic lotus than Yellow Middle Plum but there was only one Yellow Middle Plum tree.

It was a Dao Actualisation Divine Emperor woman who took out the bamboo.

"... I've already said the use of this bamboo for dao moulding. I just want to exchange for a dao fruit or an extreme grade defense god artefact. If you don't have any of these, take out something I would be happy with. God crystals is the last choice."

Hearing this, Ye Mo sighed. He had no extreme grade defense god artefact. He had dao fruit. Yellow Middle Plum was dao fruit too but it was far superior than ordinary dao fruit. Ye Mo didn't want to take out something this good. Other than Yellow Middle Plum, he had Great Primordial God Rune dao fruit.

The Great Primordial God Rune dao fruit was mainly for learning Great Primordial God Rune but as long as it was dao fruit it would be very useful to divine emperors.

"I'm willing to use a top grade attack god artefact, heaven earth green robe and 20 million god crystals to buy your bamboo." A Dao Actualisation Divine Emperor bidded.

Ye Mo knew another benefit of the nine star bamboo was to help divine emperor learn cosmic god art. This was even useful to Dao Essence Divine Emperor.

There was only one nine star bamboo, Ye Mo didn't want to miss it no matter which use it was for.

"I'm willing to buy with a Ri Li God Wind fruit." Another voice said before Ye Mo.

It was a top god spirit fruit and can barely be counted as dao fruit. It could help people learn wind element law god art.

In the Divine Dao Realm, the spirit herbs that could be used to make god pill were called god spirit herbs. However, they weren't divided as strictly as the immortal spirit herb in the immortal realm. They were just divided based on the god pills they could be used to concoct. Low grade, middle grade, top grade and extreme grade.

Most god spirit herb would be higher level than immortal spirit herb but this wasn't definite. There are gradless immortal spirit herbs that are worth even more than dao fruits. These ones are called fake chaos immortal spirit herb. These included chaos blue reed, clear spirit heart lotus, Luo Xiao Wu wood, death dao fruit.

"I'm willing to use a Great Primordial God Rune dao fruit to trade for the nine star bamboo." Ye Mo quickly bidded.

The woman's eyes lit up. Clearly, Ye Mo's bid was extremely close to her ideal bid.

The Great Primordial God Rune dao fruit was mainly for learning the Great Primordial God Rune but it was also extremely helpful in learning space and time law.

Space and time law wasn't something ordinary five element law could compare with.

The woman looked around to see if there was a higher bid.

The Dao Actualisation Divine Emperor who bid Ri Li God Wind fruit sneered at Ye Mo. He could tell that Ye Mo was more than immortal emperor but there was no way he was Dao Actualisation Divine Emperor. How dare he contest the nine star bamboo with him.

The man who was circulated with black chi heard the bid and frowned. Clearly, the bid he wanted to make was lower than Ye Mo's.

Ye Mo didn't care about others but when that dark chi man frowned, Ye Mo's heart sunk. This man was quite possibly a demon race Dao Essence Demon Divine.

What should he do if this demon wanted to contest the bamboo with him.

The woman saw the Dao Essence Divine Emperor frown and quickly said before the demon Primordial Essence Divine Emperor could speak "Okay, I agree to trade the nine star bamboo with a Great Primordial God Rune dao fruit."

Then she put the bamboo in the hands of the puppet. Ye Mo also put the Great Primordial God Rune dao fruit in the hands of the puppet.

In just a few seconds, the exchange was over. Ye Mo put away the bamboo and breathed easy.

"19th, I'll use this half extreme grade attack god artefact to trade for your nine star bamboo as well as 10 million top grade god crystals." The Dao Essence Divine Emperor demon said.

He was a little unhappy. He believed everyone had seen his expression and knew he wanted the nine star bamboo but this little immortal emperor dared to take it. An ordinary immortal emperor should come up and ask if he wanted the bamboo, not just put it away.

Ye Mo sneered, so what if this guy was a dao essence demon divine. This was the shadow void castle. Even if he left here, this guy might not be able to catch up to him.

Everyone called each other immortal friend here but this guy just called him 19th as his seat number was 19th.

He was very annoyed but he knew he had to answer. Otherwise, he was disrespecting the strong.

“Sorry, I don’t intend to trade my nine star bamboo.” Ye Mo saluted with his fists. He didn’t call qian bei nor immortal friend.

Ye Mo’s words made everyone daze. Usually, when a Dao Essence Divine Emperor spoke, even if Ye Mo was a Dao Actualisation Divine Emperor he couldn’t speak to a Dao Essence Divine Emperor like this. The best thing for Ye Mo to do was to agree to this Dao Essence Divine Emperor.

If it was someone smart, they wouldn’t even take the 10 million god crystals but Ye Mo didn’t agree to trade at all. Even the female Dao Essence Divine Emperor who managed this place glanced at Ye Mo in shock.

The dark mist around the demon’s face went cold as he sneered at Ye Mo and glanced at Qing Ru and Mu Xiaoyun “I hope you can hold on to the bamboo long enough till it’s warm. You brought these two women right? Very well.”

The sneer carried a powerful space lethal force as it fell on Ye Mo’s spirit sense. Ye Mo felt his sea of consciousness shiver. He immediately smashed out spirit sense blades and annihilated this lethal force.

The Dao Essence Divine Emperor glanced at Ye Mo in surprise. He could tell Ye Mo was no immortal emperor but the power of Ye Mo’s spirit sense was far beyond his control.

Ye Mo’s character was that he would try to forbear before things went completely bad. Now that the demon not only threatened him but also Mu Xiaoyun, how could Ye Mo tolerate this. He suddenly got up.

Chapter 2142 What to do now

Ye Mo got up and saluted with his fists to the Dao Essence Divine Emperor managing the social “Dao exchange social qian bei, I came here to do deal but someone publicly ambushed me and threatened me. May I ask if this is allowed by the dao exchange social? If it is, then I’ll take it. If not, then please uphold justice.”

Ye Mo's words was like a pebble falling in a clear lake.

An immortal emperor was warned by a Dao Essence Divine Emperor but now stood out asking for justice? What was this other than asking to die?

Ye Mo wasn't asking to die. He knew that even if he didn't say these things that Dao Essence Divine Emperor wouldn't let him go. In that case, why should he be scared? Plus this guy touched his bottom line by speaking about Xiaoyun.

The Dao Essence Divine Emperor woman glanced at Ye Mo in shock but then said coldly to the Dao Essence Divine Emperor "If you dare to threaten a guest of the Cang Xu dao exchange social again, you'll never come in again."

Hearing this, the demon divine's eyes went to a new extreme cold. He stared at Ye Mo and said nothing.

The female Dao Essence Divine Emperor's words were harsh but when the demon divine said nothing, she didn't do anything.

If it wasn't that Ye Mo's words involved the reputation of the dao exchange social, she wouldn't even speak.

The trouble seemed to have calmed down but everyone knew this was only temporary. If Ye Mo left the social, that would be when he was over. One couldn't kill in the castle but if a Dao Essence Divine Emperor slapped you a few times and took away your power, the castle wouldn't come say anything.

This was if you were still in the castle, if you left, the Dao Essence Divine Emperor would immediately kill you.

The seductive woman who was almost on par with Qing Ru took out a jade box. Before she spoke, light flower out of the jade box.

Ye Mo was immediately interested in this, it was a top grade forgery material called falling silver ice. It was a great thing for forging flying god artefact.

Immortal materials were different to immortal spirit herb. There was no god materials. Even if the material could be used to forge god artefact, it was only called immortal material but had a very high level. Immortal materials over level 10 were the extreme grade immortal materials. Theoretically the best immortal material was level 13. Level 12 and above could be used to make extreme grade god artefact but there were very few extreme grade forgery divine so most people thought only level 13 immortal materials could be used to forge extreme grade god artefact.

There was a huge difference between different level 13 immortal materials but no one categorized it into level 14.

Those materials beyond level 13 were prenatal artefact. Even if it didn't become a prenatal artefact, it was a prenatal material.

"I want to use this falling silver ice to exchange heaven luo metal essence and a five element magic artefact. I don't care about the level of the magic artefact. IF you can take out both items, I can add some god crystals."

This woman said and Ye Mo was very excited. This was perfectly designed for him. he had both of these things. The falling silver ice was very important to him. He offended a Dao Essence Divine Emperor, if he wanted to run he would need flying magic artefact. Upgrading his space time boat to extreme grade flying god artefact was more important to him than anything.

Ye Mo's spirit sense fell onto his three pieces of heaven luo metal essence. Ye Mo picked the smallest segment and moved it into his storage ring.

Even though with his current power, not even Dao Essence Divine Emperor could see him taking things out from the golden page world, he still felt it was better to be careful.

"I'll use a Wu Xiang secret gold and a five element abstruse moon whip to trade for it." The demon Primordial Essence Divine Emperor said.

Everyone soon realised that the Dao Essence Divine Emperor was probably scared of Ye Mo running away and wanted to simply fuse the falling silver ice into his flying magic artefact to make it a little faster.

A Dao Essence Divine Emperor went to this extreme to catch an immortal emperor. One could see how much he hated Ye Mo.

Each of these old bastards had countless god things in their storage ring. When Ye Mo set up the sealing realm formation, Wuxiang secret silver was something he had dreamed for but this bastard took it out so easily.

As soon as this Dao Essence Divine Emperor made his bid, those Dao Actualisation Divine Emperors who wanted the falling silver ice stopped their bid. They didn't want to be hated by a demon Dao Essence Divine Emperor like Ye Mo.

"A piece of heaven luo essence metal chain and a five element abstruse yellow ring. I don't need you to pay me god crystals." Ye Mo put these two things on the table and looked at the seductive Dao Essence Divine Emperor.

Everyone could tell that Ye Mo and the demon Dao Essence Divine Emperor were becoming wary of each other.

It was a miracle however that Ye Mo took out the things that seductive Dao Essence Divine Emperor wanted.

While Ye Mo was wanting other people's things, far more than just the demon Dao Essence Divine Emperor was after Ye Mo. Ye Mo was a mere immortal emperor and had only been at the social for this short of a time. Yet, he took out this many good things. Regardless if Ye Mo hid his power, he definitely had a lot of good things.

Seeing Ye Mo bid again, the demon Dao Essence Divine Emperor's face went even darker. Killing intent circulated around him. If this wasn't the exchange social, he might even kill Ye Mo.

"Okay, trade." The Dao Essence Divine Emperor glanced seductively at Ye Mo.

After getting this, Ye Mo sound transmissioned to Xian Yuxue and them “let’s go now. You guys don’t need to go with me. If people ask, just say we waited for the same ship together. You three follow the ship of the Divine Dao Realm. That Dao Essence Divine Emperor wouldn’t dare to do anything to that ship. Don’t need to worry about me. And immortal friend Biying, I will give your refine heart pill at the Void Marketplace.”

To Ye Mo, there were too many things here he wanted. From this, he could see that there was definitely more he wanted at the Void Marketplace. However, he must ensure he safely arrived at the Void Marketplace. He must reach Dao Essence Divine Emperor at the Void Marketplace before coming back.

Ye Mo got up to leave. Mu Xiaoyun, Qing Ru and Fu Fei quickly followed.

Seeing Ye Mo leave, the Dao Essence Divine Emperor demon sneered and got up too.

Many people sighed. Ye Mo had a lot of good things and traded a lot of good things but in the end it would fall into the hands of that dao essence demon divine.

“Husband, should we go quickly? That person will definitely chase up.” Mu Xiaoyun asked worriedly as soon as they left the social.

Qing Ru and Fu Fei also looked worriedly at Ye Mo.

Chapter 2143 Murder Dao Spear

“We can’t go now. It’s suicide. We’ll go to the shadow void immortal rest tower immediately.” Ye Mo didn’t think he could get away with a top grade flying god artefact.

When Ye Mo was still a Dao Moulding Divine Emperor, he was ambushed by the Xu Yue divine dao Dao Essence Divine Emperor. He knew that even though he was Dao Nourishment Divine Emperor now there was still difference between him and Dao Essence Divine Emperor.

Ye Mo definitely didn't believe a Dao Essence Divine Emperor wouldn't have a top grade flying god artefact. Even if the Dao Essence Divine Emperor didn't have one, Ye Mo didn't think he could escape from him. Thus, he chose to go to the immortal rest tower. This place belonged to the shadow void castle so even Dao Essence Divine Emperor don't dare to do what they want here.

When he went into the immortal rest tower, he immediately began to go into solitary cultivation to do five things. The first was to upgrade Zi Xu, the second was spirit control Murder Dao Spear, the third was to upgrade flying magic artefact, the fourth was to spirit control more of the Golden Bow of Divine Extermination and the fifth was to increase his cultivation level.

Ye Mo didn't really like the Murder Dao Spear but seen how even the evolved Little Blue still couldn't melt it, it was definitely a big lethal weapon.

As for whether he could increase his cultivation level, Ye Mo didn't hold much hope. Even if he stayed here for a few decades, he wouldn't rush to go to the Void Marketplace. But he knew that no matter how wealthy he was, he couldn't stay here for a few decades.

"Brother Ye, you want to hide out at the immortal rest tower for a while?" Qing Ru asked.

Ye Mo nodded and sped up. He saw that Dao Essence Divine Emperor demon come out from the exchange social.

The Dao Essence Divine Emperor saw Ye Mo and them and showed coldness in his eyes. He was in no rush. Regardless if Ye Mo was in the castle or not, he would have him for sure.

But when he saw Ye Mo and them enter the immortal rest tower, he immediately understood. His face changed as he dashed wanting to stop them before the tower.

However, there were restrictions everywhere in here. No matter how fast he went, Ye Mo and them already went in the shadow void immortal rest tower.

Ye Mo walked up and said "Are there anymore rooms left?"

“There’s no more middle grade or low grade rooms. Someone just checked out of a top grade room.” The attendant said politely. When the Dao Essence Divine Emperor came in, he already saw Ye Mo talking to the attendant. He could only force down his anger.

“Okay, I want a top grade room for three years.” Ye Mo said without hesitation.

The attendant was only immortal monarch cultivation level and immediately asked in shock “It costs 100k top grade god crystals for one night, you want to book it for 3 years? If you leave early we won’t be refunding god crystals.”

Ye Mo took out 100 million god crystals and said “Just deduct using these. If there’s not enough I’ll pay more.”

The attendant woke up and quickly said politely “Okay, please come up with me.”

To them, they would respect those who would allow them to earn god crystals. It had nothing to do with cultivation level.

“Thank you.” Ye Mo didn’t even look at the Dao Essence Divine Emperor and went up.

“Hmph, he can take out 100 million god crystals, he’s wealthy indeed. I want to see how many 100 million god crystals you have.” The Dao Essence Divine Emperor sneered. He had decided to never leave the castle until Ye Mo left.

Even a Dao Essence Divine Emperor couldn’t take out a few hundred million god crystals so easily. That’s why the Dao Essence Divine Emperor was certain that Ye Mo couldn’t last long.

The top grade rooms were extremely expensive but the space and environment was great. There was a living room and three bed rooms.

Ye Mo immediately set up restriction formations that prevented surveillance.

After these, Ye Mo immediately went into the golden page world. If it wasn't due to a special circumstance, he would never want to enter the golden page world at the shadow void immortal rest tower. However, he only had three years' time. Even if he used time formation disk, there would only be 300 years.

It wasn't long for Ye Mo as he needed to do too many things.

After Ye Mo went into solitary cultivation, Xian Yuxue and then left the castle with the ship. Ye Mo was followed by Dao Essence Divine Emperor. There was nothing they could do.

"Immortal friend Xianyu, do you think brother Ye can survive this?" Gu Biying asked worriedly.

Xian Yuxue said "I believe he can survive this. When Shentu Xinde went after him, I knew he would survive. This time I still think the same. Don't worry, brother Ye will definitely get to the Void Marketplace and give you the refine heart pill.

Gu Biying shook her head "I'm not worried about the pill, I'm really worried about immortal friend Ye."

Xin Zhuo said on the side "To be honest, immortal friend Ye is too wealthy. If he wasn't concerned with those Dao Essence Divine Emperors, he would definitely be able to exchange more things."

Ye Mo had now begun concocting all sorts of god pill and forging middle grade god artefacts. He got large amounts of materials and god spirit herb and all he needed to do now was to increase his forgery and pill concoction skills.

After 50 years in the time formation disk, Ye Mo successfully fused the falling silver ice into the space time boat upgrading it to extreme grade flying god artefact. During this time, Little Blue helped him a lot.

Without a good flame, even if Ye Mo was extreme grade forgery divine, he wouldn't be able to upgrade space time boat into an extreme grade god artefact.

Comparatively, Ye Mo only used a few days to reach dao nourishment pill divine. In just a few days, he concocted four cauldrons of refine heart pill.

Then, Ye Mo took out the Murder Dao Spear. He knew this spear was extremely hard to control and might backlash him. Before, after spirit controlling it for a year and having no effect, Ye Mo stopped and let Little Blue try to melt the Murder Dao Spear.

However, Little Blue still couldn't melt the spear so Ye Mo could only give up.

This time, Ye Mo reached Dao Nourishment Divine Emperor and started to spirit control the spear again. Ye Mo planned to spend 50 years on it. If it didn't work, he would give up.

A terrifying murderous chi came from the Murder Dao Spear. There was killing chi, hatred chi and abyssal chi mixed together. It was very hard to remove.

All sorts of negative chi circulated the Murder Dao Spear as though they would explode at anytime.

Ye Mo knew that even if he just spirit control one tenth of the spear, it would be a huge lethal weapon and might save him at a critical time.

Time flew away rapidly.

With Ye Mo's persistent efforts, the chaotic chis finally started to dissipate before eventually being completely removed. The Murder Dao Spear didn't seem that violent anymore but it seemed more bleak.

Ye Mo then started to spirit control the restrictions inside.

However, Ye Mo found in shock that the Murder Dao Spear only had seven restrictions. Ye Mo dazed what was going on?

Even an ordinary spirit artefact had six to seven restriction, was this Murder Dao Spear a cultivation realm spirit artefact?

But Ye Mo immediately gave up that idea. If Murder Dao Spear was just a spirit artefact, he would be able to crush it easily. How would it be able to kill a Primordial Essence Divine Emperor like Duanmu Yuebo.

Chapter 2144 Void Encounter

Ye Mo's spirit sense touched the first restriction as he tried to spirit control it. He then realised he thought too simply. This restriction contained nine entwining restrictions. Ye Mo breathed easy, this was more like it.

When Ye Mo started to spirit control these nine restriction, he realised how hard it was. It took him only 5 years for the first three restriction but for the 3rd to six, he spent 20 years. For the 6th to 9th, he spent 50 years.

Ye Mo spent 75 years just spirit controlling the first of the seven restriction. Ye Mo knew it would only get harder and harder.

When Ye Mo began trying the second restriction, he completely gave up. There weren't nine entwining restriction insides but 18.

Ye Mo didn't continue. According to this, the third should have 27 restrictions and the 4th would have 36 restrictions...

If this continued, there would be more than 108 restrictions. Ye Mo felt the bloodthirsty killing intent from the spear and knew that even though he just spirit controlled one of the seven restrictions, it could threaten a Dao Essence Divine Emperor.

Instead of wasting more time on the Murder Dao Spear, he might as well spend time on the Golden Bow of Divine Extermination.

He was at 99 restrictions for the bow and arrows. If he reached 100 or more, its power would more than double.

He attempted the 100th restriction when he was Dao Moulding Divine Emperor but it was too hard so he gave up. Now that he was Dao Nourishment Divine Emperor, it was still very tough.

But compared to before, he could at least loosen the restriction. 50 years later, Ye Mo finally spirit controlled the 100th restriction of the Golden Bow of Divine Extermination.

Ye Mo shook his head. This took so long. Ye Mo spent another 30 years and spirit controlled another arrow to the 100th restriction.

Three years' time wasn't up but Ye Mo knew that his 100 million god crystals was about to be used up.

Ye Mo stopped and put away the time formation disk. He took another Yellow Middle Plum from the tree.

The fruit could help you learn a new world law or strengthen your understanding of one.

Ye Mo wanted to strengthen his understanding. If he could grab a region of space in the void and bind that Dao Essence Divine Emperor then even if it was for a second, he could heavily injure the demon and kill him.

To Ye Mo, he didn't just want to escape from the Dao Essence Divine Emperor. If it was just escaping, then the extreme grade flying god artefact was enough.

However, that Dao Essence Divine Emperor dared to threaten about Xiaoyun. Ye Mo was going to kill him no matter what.

There seemed to be some similarity between one region and instant second. But Ye Mo knew they were too completely different god art laws. One was space god art one was time law god art.

In reality, instant second was more terrifying but Ye Mo knew his instant second was far weaker than one region. He only learnt a small bit of the instant second. It was fine to use against Dao Actualisation Divine Emperor but for Dao Essence Divine Emperor, it was much more lacking. No matter how powerful the god art, you would have to have a deep mastery of it to release instant second power.

Ye Mo learned the dao wave laws of one Yellow Middle Plum fruit and turned it into his understanding of one region void god art. A month later, Ye Mo grabbed again.

This time, it was much more natural than the first. There was no pause at all. Ye Mo knew his one region progressed again. Although it flowed smoothly in his own world, it would be hundreds of times harder when he went to the outside world.

Ye Mo calculated the limit of the 100 million god crystals and stopped cultivation. He started to make formation flags.

Although Ye Mo wouldn't be naive enough to think he could kill a Dao Essence Divine Emperor with formation, it would still help him.

After making hundreds of formation flags, Ye Mo stopped. He felt it was time to leave the shadow void castle. If he still couldn't kill the Dao Essence Divine Emperor after all these preparations, he would run as far away as possible.

Ye Mo came out of the golden page world and found Qing Ru and them not cultivating. Clearly, they knew the 100 million god crystals were about to be used up.

"Husband, are we going?" Mu Xiaoyun saw Ye Mo in a light mood and asked in relief.

"That's right let's go now." Ye Mo said.

"Are you going? I thought you had more god crystals." A dark chi circulated man looked at his communication bead and sneered.

He flashed and went out of this cultivation home. In a short moment, he appeared outside the shadow void castle and released his flying magic artefact. It was a top grade flying god artefact.

The female Dao Essence Divine Emperor of the exchange social looked outside and shook her head “Too naive, if a dao essence being is that easily avoided, people wouldn’t be so scared of them.”

Ye Mo didn’t know there was someone worrying for him. He knew as soon as the demon left the castle so he sped up the space time boat speed.

“Hmm, it’s an extreme grade flying god artefact...” The Dao Essence Divine Emperor dazed and showed extreme joy. Even he only had a top grade flying god artefact.

Compared to the extreme grade flying god artefact, the nine star bamboo was nothing.

“Hahaha...” The demon laughed.

Ye Mo stopped now. He put the space time boat away as quickly as possible and let Qing Ru and them enter the golden page world. He shot out the formation flags and in just ten seconds they disappeared into the void.

Even so, Ye Mo felt that he had too little time. If he had five minutes, he would be able to set up a bigger formation. After Ye Mo was done, he moved a few hundred km towards the shadow void castle before stopping.

You actually stopped running?” The Dao Essence Divine Emperor saw Ye Mo standing in the void and asked in confusion.

“Hmm, wait, you still have small world... no, it’s truth spirit world.” The Dao Essence Divine Emperor didn’t see Mu Xiaoyun and them.

“Dao fruit, truth spirit world, extreme grade flying god artefact... You really didn’t disappoint me.” The Dao Essence Divine demon clearly thought of Ye Mo as his already.

"I believe you think your god art is powerful so you want to test the difference between you and a Dao Essence Divine Emperor? I'll grant your wish." The Dao Essence Divine Emperor said and waved out a black mist.

Chapter 2145 Use All Means

He knew Ye Mo had a lot of things so he attacked immediately. This place wasn't far from the shadow voice castle and if another Dao Essence Divine Emperor comes, he wouldn't be able to take all of Ye Mo's things for himself.

The black mist looked slow but it instantly crossed all space and completely bound Ye Mo's surroundings. Ye Mo barely released ice space.

After he was bound by this black mist, there was terror in Ye Mo's eyes. The demon Dao Essence Divine Emperor looked at Ye Mo in contempt. Ye Mo only had this little power and dared to test him? This was just the beginning of his god art. He didn't even use half of it and Ye Mo was scared. How were they supposed to fight?

Ye Mo's terror was fake but there was some shock inside. He knew this black mist wasn't some divine emperor domain but a true space god art. This was much more experienced than his space god art.

The black mist was very slow and this seemingly slow mist ignored space and bound him.

More importantly, his sea of consciousness began to go chaotic in the mist. Even his will was being transferred. Ye Mo immediately knew what was going on. Staying in this black mist for long would create heart demon.

Ye Mo was certain that this demon didn't completely release his black mist binding. This was just the start. Luckily, he had been cultivating under the bitter bamboo and his heart was very firm. The mist heart demon was strong but it couldn't affect him so quickly.

Ye Mo was planning to clash head on and retreat but now he had to retreat. He only set up a slowly activated ice space. If he didn't retreat he would have no chance.

If the Dao Essence Divine Emperor broke his ice space, he would have to await death, unable to use his other means.

Ye Mo's spirit sense god art shatter space activated and hacked out. The binding on him loosened. When he regained some freedom, Ye Mo punched out, three stack wave kill.

Three fire walls smashed on the black mist binding tearing open a small crack. Ye Mo punched again without hesitation, void.

Crack. The black mist was punched out a tunnel and Ye Mo dashed away in this tunnel.

This was the first time he used spirit sense god art, three wave kill and one void punch just to run away.

You have some power. Not only could you break free from the heart demon erosion but also my space binding. Hmm, it's heaven flame. However you only broke the skin of my god art... hmm..." The Dao Essence Divine Emperor immediately felt a freezing coldness around him.

"You set up ice space god art and stealthed it here. If it was a Dao Actualisation Divine Emperor, he probably would've been ambushed." The Dao Essence Divine Emperor's body shook and there was a crack around him. Ye Mo's ice space god art didn't even stop him for a second.

Ye Mo breathed easy. He got away regardless.

However, the black mist gathered up immediately and formed a black punch. It came so fast that it was instantly at Ye Mo's chest.

Thud. The black fist struck on Ye Mo's chest. Ye Mo's bones made a cracking sound as he flew back spitting blood in the air.

He couldn't even dodge that black fist. The force of the fist gathered the nearby space and bound him like before.

The chaos tree instantly released life force nourishing his bones. Ye Mo recovered quickly but he was shocked.

Facing a Dao Essence Divine Emperor who just used on god art, he couldn't even defend himself. Were the things he set up even useful?

"Hmph, I didn't expect you're a immortal god body peak stage immortal. You really give me a huge surprise. Your body didn't cripple under my punch."

The Dao Essence Divine Emperor then waved his hand and a huge pale bell appeared "I'll let you see my fortune life heaven cripple bell..."

Before he finished, Ye Mo threw out two Great Primordial God Runes. He couldn't let this guy attack first. Otherwise, he would be dead.

"Great Primordial God Rune?" The Dao Essence Divine Emperor showed a serious face for the first time. His bell instantly expanded to one that covered the entire void.

Ding Ding... The two Great Primordial God Rune smashed on the bell and it grew much smaller but the two Great Primordial God Runes were blocked.

This was the first time Ye Mo saw his Great Primordial God Rune being completely blocked. This Dao Essence Divine Emperor was too scary. Ye Mo didn't know how this guy ranked amongst Dao Essence Divine Emperor but if he was ordinary, then how powerful would the strong ones be?

"Hmph, you just know a little bit of the Great Primordial God Rune and you dare to use it to scare me..." The Dao Essence Divine Emperor didn't even breath heavy blocking the two Great Primordial God Runes.

Ye Mo's heart sunk. He had no way out now. the next moment, he placed a golden bone arrow on his Golden Bow of Divine Extermination.

Ye Mo did all this in rapid succession. He didn't dare to pause a bit. Otherwise, if the Dao Essence Divine Emperor used another god art, he might not be able to even attack.

Killing a Dao Essence Divine Emperor wasn't simple indeed.

"Golden Bow of Divine Extermination..." The Dao Essence Divine Emperor's eyes narrowed again and stared deadly at the bone arrow. Even he didn't dare to ignore it.

At this moment, there was much more shock in his heart than Ye Mo's. He had tested out Ye Mo's cultivation level, it was at most Dao Actualisation Divine Emperor but this little Dao Actualisation Divine Emperor had this many absurdly powerful things. If word got out, it would shock the entire astral space.

His heart was shaking. Great Primordial God Rune, Golden Bow of Divine Extermination, extreme grade flying god artefact, truth spirit world, heaven flame... which of these wasn't something any divine emperor sought after like crazy. If all these became his, just how powerful would he be?

Who knew if this little divine emperor had more?

The Dao Essence Divine Emperor didn't keep thinking. He breathed easy instead. The bone arrow shot out but it wouldn't be able to do anything to him.

The bell rung again and dense black mist rolled around him. He was going to kill Ye Mo as quickly as possible.

But before his black mist formed, his eyes narrowed again. He saw a second, third, fourth and even fifth golden bone arrow shoot at him.

Dang dang dang dang. The bell blocked four arrows and it turned completely dark. It shrunk rapidly before making a cracking sound.

The fifth arrow brushed past the bell and for the first time, the Dao Essence Divine Emperor felt threatened. He waved up his hand without hesitation and the rolling black mist appeared before him.

The fifth golden bone arrow shot in the mist and exploded it. The golden bone arrow slowed down and was grabbed by the Dao Essence Divine Emperor. At the same time, blood sprayed out of his hand and his sleeves turned to dust.

Ye Mo's face was pale and his god essence seemed to be unable to last but he still shot out the sixth arrow. He knew that if he wasted even a little bit of time, he would die.

Finally, there was extremely shock in the eyes of the Dao Essence Divine Emperor. He didn't expect Ye Mo had a sixth arrow. It definitely wasn't easy to gather up the golden bone arrows. Even three was hard but Ye Mo had a sixth.

Black runic ripples sprung up around the Dao Essence Divine Emperor. A blood devil scissors appeared out of nowhere. Just when he was about to stop the sixth arrow, he saw a seventh golden bone arrow.

Chapter 2146 Arduous Battle

As a Dao Essence Divine Emperor, this demon divine had seen all sorts of strange things but he had never seen an absurdly powerful divine emperor like Ye Mo.

He was wealthy to a new extreme. He had heard of the Golden Bow of Divine Extermination and it fell in the Divine Dao Realm. It's said only five arrows remained but Ye Mo took out seven.

Luckily he didn't see an eighth arrow. If a Dao Essence Divine Emperor shot out seven arrows to him, he would've given up but Ye Mo wasn't a Dao Essence Divine Emperor. He was just a mere first step divine emperor. So what if he had seven arrows? He was confident he could stop the seven arrows and even if he was injured it wouldn't be serious.

As he thought, the black ripples around him materialized and was about to squeeze away the nearby void. He was certain his mist could stop the sixth arrow and the seventh stopped by the scissors. But the Golden Arrow of Divine Extermination was too fast and he didn't have enough time to release his scissors. He would receive some injuries.

If these seven arrows were Ye Mo's killing blow then he would let this little divine emperor know that his lethal blows were nothing to him.

Before he finished, he felt things weren't right. The seventh arrow should be arriving last but when the seventh arrow shot out, it had surpassed the sixth and came to him.

Wait, the seventh arrow was stronger than the previous sixth combined. The Dao Essence Divine Emperor didn't have time to think and smashed the blood scissors out.

The black mist ripple was torn apart.

At the same time, the golden bone arrow smashed on the scissors.

Rumble... god essence splashed and the scissors were shot away. Blood seeped out of the Dao Essence Divine Emperor's mouth as he grabbed at the seventh arrow with a cruel face.

However, the arrow instantly tore his hands apart. Even so, the Dao Essence Divine Emperor still stopped the power of the 7th arrow.

Now, the sixth arrow came and the Dao Essence Divine Emperor could barely use his god essence barrier to block the last one.

The sixth arrow smashed on the chest of the Dao Essence Divine Emperor and blasted half of his body to pieces.

The Dao Essence Divine Emperor no longer had the look of being in control. His face went pitch black as he yelled "I'm going to eat you alive..."

The blood scissors formed two huge scissors rays.

Ye Mo's face was pale like paper. His sea of consciousness was aching with pain. His god essence had withered to a new extreme. Even so, Ye Mo burned his essence blood like crazy as he threw out a few formation flags.

Before the Dao Essence Divine Emperor's scissors rays had released he noticed something was wrong. He felt the space he was at change.

At the same time, Ye Mo grabbed. God art one region. It formed instantly and trapped the Dao Essence Divine Emperor in this space.

"Space binding god art..." The Dao Essence Divine Emperor called out in shock but then he realised this was space grab. The region of space he was in no longer belonged to the universe, it belonged to Ye Mo.

It was suicide to stand in an opponent's space. The Dao Essence Divine Emperor instantly realised his predicament. If it was before, he wouldn't even care about being in Ye Mo's space but now he didn't dare to hesitate at all.

Almost in that instant, he broke free from Ye Mo's dimension but at the same time, he saw something he would never forget.

It was a short spear. It was only 80 cm long. When he saw it the spear was already in front of his face. The universe tearing killing intent instantly took his mind away. He didn't even dare to resist against this spear. At this moment, void disappeared, the universe disappeared, Ye Mo disappeared. All that was in his mind was just one thing, the 80 cm short spear.

"Murder Dao Spear..." The Dao Essence Divine Emperor didn't struggle. He knew that the Murder Dao Spear had sensed his blood and it was pointless even if he was stronger. Even if he wasn't heavily injured, he wouldn't be able to get away.

His dao had been targeted by the Murder Dao Spear. Even if he could survive this spear, he would lose his dao.

He let the Murder Dao Spear strike into his chest but he stared at Ye Mo. Even in his death, he didn't understand how there could be someone this wealthy in the universe. How there could be a divine emperor this insane?

Thud... The Murder Dao Spear entered the body of the Dao Essence Divine Emperor and exploded.

The blood mist didn't even spill out and was completely devoured by the Murder Dao Spear. The Murder Dao Spear let out a sharp shriek as though it was extremely excited.

A storage ring and bracelet fell. Ye Mo wobbly collected these two things and grabbed the Murder Dao Spear. He put a few restrictions on it before taking his seven bone arrows and instant transmission away. He couldn't even care about the formation flags.

Ye Mo didn't know where he instant transmitted to but he didn't care. He immediately went into his golden page world and laid in there. In the battle with the Dao Essence Divine Emperor, he used all his cards and almost killed himself too.

If the Dao Essence Divine Emperor took him a little more seriously and didn't let him use Great Primordial God Rune the end result would be different.

Although he killed the Dao Essence Divine Emperor, he damaged his foundations. If he didn't have the chaos tree, his cultivation would stop here.

Luckily, the chaos tree could slowly let him recover.

"Husband..." Mu Xiaoyun saw Ye Mo come instant transmission he golden page world and become motionless. She immediately charged over in shock and hugged Ye Mo.

Small ginseng and small ginseng and them all came over. Small ginseng quickly said "Sister Xiaoyun don't worry. Boss would be fine as long as his essence spirit is there. We just need to send him under the bitter bamboo and let him recover. At most half years later, boss would be able to move.

No one knew how powerful the world tree was better than small ginseng. Soon, he would even be able to recover his arm using the chaos tree.

Mu Xiaoyun heard this and quickly carried Ye Mo to the bitter bamboo. When she did, she breathed easy. She immediately felt the dense life force on Ye Mo.

With Ye Mo recovering, no one dared to go out of the golden page world, the golden page world floated in the void. As a wave of asteroids came, the golden page world was taken to a different location.

At the battle grounds between Ye Mo and the Dao Essence Divine Emperor, a Dao Essence Divine Emperor woman stood there. If Ye Mo was here, he would recognize her to be the woman who managed the exchange social.

She stood here for a long time before frowning "It's not right. Even I'm no match for Mo Fu. How could he disappear from here. Could that little immortal emperor be hiding his power?"

Then she shook her head "Impossible, that immortal emperor would at most be a Dao Actualisation Divine Emperor. No matter what means a Dao Actualisation Divine Emperor used, he would be no match for Mo Fu."

"Wait..." She grabbed a few formation flags over and studied them for a long time before saying in shock "This is extreme grade formation flags, only the best formation grand masters can forge such formation flags and set up void formations."

She studied them and were sure they were Ye Mo's. They were freshly made. The Dao Essence Divine Emperor gasped for some cold air. Ye Mo didn't seem young and she thought he was just a spoiled sect members of a big sect. Instead, he was a powerful being.

Chapter 2147 Dao Cocoon

"Wait." The female Dao Essence Divine Emperor's spirit sense scanned afar and at the same time, she disappeared. Then, she appeared 10,000km away and grabbed a bell.

"Fortune life heaven cripple bell..." The Dao Essence Divine Emperor said this and her hands were shaking.

How could she not know that this was Mo Fu's signature defense magic artefact. Now that it appeared here, what did it mean? Something definitely happened to Mo Fu. Either he was killed or so heavily injured that he was about to die. Otherwise, there was no way he would abandon his bell.

Since when did such an absurd first step divine emperor appear in the human race. She knew Mo Fu's power. He was definitely not simple amongst Dao Essence Divine Emperor. She was definitely no match for him. If that young human could kill Mo Fu didn't it mean he could easily kill her?

Thinking about this, the Dao Essence Divine Emperor shivered. She didn't understand why Ye Mo hid in the shadow void immortal rest tower for a few years. Since he had the power to kill Mo Fu why hide?

She must let the social know about the emergence of this powerful divine emperor. The Dao Essence Divine Emperor flashed and disappeared.

A speck of golden dust fused into the endless void. There were too many of these golden dusts in the void. No one would expect this golden dust was a complete world, a chaos world.

Ye Mo was still unconscious in the golden page world.

This was more than the half a year small ginseng spoke about. Ye Mo had been unconscious in here for fifty years and still didn't wake up.

Mu Xiaoyun had been staying next to Ye Mo in these fifty years.

Almost everyone in the golden page world knew that their power was too low after Ye Mo got injured. The rest of the people cultivated like crazy.

Fu Fei was already immortal emperor peak stage and in order for Fu fei to vindicate dao, Mu Xiaoyun picked a Yellow Middle Plum and gave it to Fu Fei.

Fu Fei knew that their group was too weak. Ye Mo helped him modify his cultivation method and if he wanted to increase his power, he would have to quickly vindicate dao.

After reaching immortal emperor peak stage, he found a place in the golden page world to go into solitary cultivation.

Qing Ru with the help of the time formation disk was already immortal monarch tertiary stage.

But Qing Ru didn't stay in the time formation disk to cultivate. She stopped and came out sitting under the bitter bamboo. Everyone knew that progressing too fast would cause unstable foundation.

"Xiaoyun, go cultivate for a while. I'll take care of brother Ye." Qing Ru walked next to Mu Xiaoyun and sat down.

Mu Xiaoyun glanced at Ye Mo. Although his body was filled with life force and she could even feel the dao waves circulating around him, she was still a bit worried. After all, Ye Mo didn't move ever since coming in here.

She shook her head and didn't want to leave Ye Mo.

Qing Ru pulled her hand and said "Xiaoyun, the most important thing now is to increase cultivation level. IF we're all divine emperors, then perhaps we could help a little with brother Ye's fight against that demon Dao Essence Divine Emperor. Because we're too weak, brother Ye has to hold on alone. I've been in the time formation disk for too long and I need to stabilize my foundation under the bitter bamboo. I can take care of brother Ye. Just go cultivate and try to reach dao vindication early."

Mu Xiaoyun felt Qing Ru's immortal monarch tertiary stage chi and nodded, she knew Qing Ru was very right.

"Okay, I'm going in the time formation disk. If husband wakes up, tell me." Mu Xiaoyun said.

After Mu Xiaoyun left, Qing Ru sat under the bitter bamboo cleansing her mind while taking care of Ye Mo.

After another year, Qing Ru suddenly noticed something wrong. Ye Mo was just laying under the bitter bamboo before but now, a blue ray emitted from his body. It was very faint at the start but later on it grew dense and completely covered Ye Mo.

Qing Ru got up in shock and didn't understand what was going on. At the same time, a greenish blue tree rose up slowly from the blue light.

The tree had ample leaves and emitted extremely dense life force. It even had chaos chi and rippled like life dao waves. This...

Qing Ru stared dazily at this blue green tree. She didn't believe such an absurd tree existed in the world. This dao wave, this life chi, this chaos wave...

Was this the chaos tree? She had asked her master before what was the most precious thing in the universe.

Her master said the most precious thing wasn't chaos worlds nor chaos magic artefacts but a tree. The chaos tree.

The chaos tree was also called the tree of life. It emitted endless life force. It was also called universe tree, signifying its uniqueness. It's said that the first thing that appeared in the universe was the chaos tree and everything was nurtured by the chaos tree.

The ripples of life dao wave circulated. She didn't even need to cultivate and could feel her understanding grow. At immortal monarch power, she actually learned life dao waves.

This was definitely the chaos tree. Qing Ru suppressed her shock and sat around the blue light learning the life dao waves of the chaos tree.

No wonder brother Ye was so insane. The chaos tree was here clearly because it recognized Ye Mo as his master. This means that this world was no truth spirit nor five element world but a chaos world.

Qing Ru soon forgot everything and immersed herself in the life dao wave.

What she didn't see was a faint golden ray form around Ye Mo's body. It grew until it was like a huge cocoon.

The golden cocoon devoured endless blue rays before growing dim. After some unknown amount of time, the blue ray disappeared from above Ye Mo and the golden cocoon made a cracking sound.

The cracks on the cocoon grew wider before Ye Mo's body was revealed again. All his clothes had been taken away by the cocoon and a perfect body showed.

The blue tree above Ye Mo slowly sunk into Ye Mo's dan tian and the remaining dao waves also entered Ye Mo's body.

Before Ye Mo opened his eyes, he felt endless power circulating in his body. Those dao waves and god arts he didn't understand before cleared up.

Different dao waves added up in this sea of consciousness and increased his understanding of god art and dao.

When the blue dao waves completely fused into Ye Mo's body, Ye Mo slowly opened his eyes.

The first thing he saw was Qing Ru. Her eyes were tightly shut. Ye Mo didn't have any mood to care about her right now. He knew he didn't wear clothes but the Great Primordial God Rune dao waves he caught became clearer. If he didn't use Great Primordial God Rune immediately, he would regret for countless years.

Ye Mo hacked out two Great Primordial God Runes. These two were fainter than the ones before. The entire golden page world seemed to have twisted under the god rune. An extremely terrifying lethal force formed in Ye Mo's sea of consciousness. It was as though his Great Primordial God Rune could cross the void any time.

The Great Primordial God Rune was truly in small completion. Ye Mo rejoiced like crazy. Suddenly, he thought of his Heaven Flame Nine Suns god art calling to him.

The Heaven Flame Nine Suns wasn't just a wide spread attack, it was also a single attack. Ye Mo suppressed his joy and quickly put on his clothes. He felt Qing Ru was about to wake up.

If it was Zhen Bingyu Ye Mo might learn the Heaven Flame Nine Suns before putting clothes on since Zhen Bingyu didn't care about it.

But Qing Ru was different. Although Qing Ru was the most perfect woman he had seen, he didn't have any interest in her now.

Chapter 2148 Divine Body and Spiritual Seed

Ye Mo instantly left the bitter bamboo and just wobbled appearing more than 100,000 km from the bitter bamboo.

Ye Mo knew that sometimes, enlightenment only came in a brief instant. If he didn't fuse that enlightenment into his god art, then this instant of enlightenment would never come again.

Therefore, Ye Mo stopped immediately and released a blue sun. The Heaven Flame Nine Suns was smashed out like a projectile.

The blue sun almost burned all the nearby void cracking. The golden page world was Ye Mo's own chaos world and even when this fireball burned out, it caused space ripples.

Before the first sun completely exploded, Ye Mo smashed out the second and third sun.

When the sixth sun went out, Ye Mo finally stopped and closed his eyes. A god art dao wave was caught by him. the sixth sun completely covered a radius of 10,000km in the fire. This region turned to blue and Ye Mo could feel that if he wanted to, the target struck by his Heaven Flame Nine Suns would turn to dust.

No matter how sturdy or ferocious this target was.

The Heaven Flame Nine Suns was like the golden bone arrow. The speed of the Heaven Flame Nine Suns was far weaker than the bone arrow but Ye Mo was certain that even extreme grade defense god artefact would be pulverized under the constant barrage of the Heaven Flame Nine Suns.

After throwing out six suns, Ye Mo felt a bit tired too. He closed his eyes and went through the Heaven Flame Nine Suns god art in his mind and started to recover his god essence.

When he felt his meridians again, Ye Mo was shocked. He suddenly opened his eyes. His body refinement had just reached divine body and he didn't even know.

Wasn't the divine body the highest state of body refinement? Everytime he broke through in body refinement before, he was covered in wounds but now, he just reached divine body while sleeping. Was this luck?

Ye Mo soon realised that this wasn't luck. His immortal god body was full. This time, his dao foundation was damaged and his meridians were crumbled. If it wasn't for the chaos tree, his cultivation would've ended there. It was because he had the chaos tree that he dared to damage his dao foundation.

Luckily, the chaos tree not only repaired his meridians and rebirthed him in a cocoon. Not only so, it brought him to divine body.

After reaching divine body, Ye Mo felt this sliver of real feeling. He didn't need to intentionally extend his body refinement barrier. His body would be the strongest all the time but also ordinary at all times.

Ye Mo breathed slowly. He thought that it would be very hard for him to reach divine body. He would have to duo cultivate with Zhen Bingyu.

Ye Mo believed that if he found Zhen Bingyu and asked her of this, Zhen Bingyu would definitely agree but Ye Mo didn't plan to do this.

He knew what Zhen Bingyu's dao was. although her dao seemed to have changed, he didn't want to do this.

It wasn't that he had no feelings to her but he completely disagreed her perspective of sex.

When he was with Xiaoyun, JIngwen... he never thought about duo cultivation. He didn't need to and they didn't need to.

Qing Ru sitting under the bitter bamboo felt waves of life dao waves come. She happily embraced this.

The life dao waves she felt were endless like a expanding blue mist that seeped into her dao.

Life, human life, chi, gathered is life, separated is death...

Human's life is like ice, water condenses into ice, chi gathers and becomes life.

Life force is born of chi and dies of exhaustion of essence.

All life has death. Life force is what keeps life going. It's a dao wave of the world.

All sorts of life chi entered Qing Ru's head. She smiled.

Qing Ru was immersed in the waves of life chi. There was nothing else, no disturbance.

Suddenly, she saw a figure in the endless blue life force. When that person cleared up, it was actually Ye Mo. What shocked her was that Ye Mo ripped off his clothes and walked towards her.

"Don't do this, brother Ye..." Qing Ru yelled in terror. In her heart, Ye Mo wasn't this person but she saw Ye Mo come over and embrace her.

She couldn't resist at all. Her clothes were ripped off too.

If Ye Mo wanted it then she'll just give it to him. Perhaps she really saw him wrong. Two lines of tears came out and she gave up resistance. What appeared in her mind was South Peace State Ice God Palace. At that time, she just came to the cultivation realm.

When she saw that woman, she was washing herself in the spirit marrow pond. She was definitely pretty. Even though her body was perfect to the extreme, she was amazed by the body of that woman.

But then she saw a man jump into the pond and then she saw that man strip his own clothes and started kissing the woman like crazy.

Wasn't that the same actions Ye Mo was doing to her?

She learned this joy and suddenly wanted to embrace Ye Mo too. but she eventually defeated her lust and didn't move no matter what Ye Mo did. Even though her body had betrayed her, she bit her lips and didn't move.

Suddenly, the blue color receded from Ye Mo's body and a pea sized blue seed appeared in her body. That seed emitted life force slowly as though describing the secrets of life.

Am I pregnant? Qing RU's face eased up as she felt her stomach as though being happy for the life in her stomach.

"Qing Ru, what are you doing?" Ye Mo came back joyfully.

But what he didn't understand was that Qing Ru started to rip her own clothes and then she felt her stomach with a face of gentleness. Luckily there were still clothes covering her private areas.

"Huh..." Qing Ru suddenly woke up and looked at Ye Mo unable to react.

"Brother Ye, you..." Qing Ru just wanted to speak but then she remembered what Ye Mo did to her and frowned.

Wait, she could see something wasn't right from Ye Mo's face. But Ye Mo clearly did that to her.

Ye Mo didn't want things to be awkward and smiled "Put your clothes on quickly, if I didn't see your gentle look I would've thought you were doing something."

“Brother Ye, we didn’t have sex?” Qing Ru looked at Ye Mo and asked.

Ye Mo looked dazily at her. Have sex with Qing Ru? How is that possible?

Seeing Ye Mo’s face, Qing Ru instantly understood and blushed. She quickly put on her clothes. She realised that she probably sensed Ye Mo’s life dao waves and formed her own dao. Ye Mo didn’t do anything with her but she learned her life dao from Ye Mo. During that time, she went crazy with Ye Mo mentally.

Realizing this, Qing Ru wanted to slap herself. If she didn’t say it no one would know.

Seeing Ye Mo look at her with confusion Qing Ru quickly added “I was learning dao waves and didn’t react in time.

Don’t take it to heart what I said.”

But Qing Ru felt something wasn’t right. There was clearly a blue seed in her stomach.

Qing Ru frowned and hesitated for a while before saying “Brother Ye I want to tell you a story I saw with my own eyes. Are you will to help me explain it?”

Chapter 2148.1: Ice God Forbidden grounds secret

Ye Mo sat next to Qing Ru and smiled “Sure, tell me.”

Qing Ru nodded and sat down again “Brother Ye, you have gone through more things than me so you probably know more than me. There are some things I don’t understand...”

Ye Mo thought and said “Qing Ru, I might have experienced more things than you but I really might not know as much as you.”

Qing Ru was older than him and she had a powerful master. There were many things about cultivation that he didn't know but she knew.

Qing Ru quickly said "I'm not talking about this. Listen to me first. Once, I went to a place and I saw an extremely beautiful woman taking a shower in the spirit marrow pond..."

"But at this time, a man charged in. The woman wasn't scared seeing the man. Then the man took off his clothes and started making love with the woman in the pond."

"The man and woman went too crazy and was immersed in this. They didn't notice the surroundings..."

Ye Mo heard this and couldn't resist asking "Qing Ru, you wouldn't be on the side watching them right?"

Qing Ru blushed. Of course she wouldn't be that bored.

"Brother Ye I didn't watch. Don't change the topic." Qing Ru argued awkwardly.

Ye Mo thought about it and realised, if Qing Ru could see that place, it meant that place wasn't a secret to her.

Qing Ru continued "But at this moment, another extremely well dressed man charged in the spirit marrow pond. When the man came in, the man and woman making love woke up. The three of them froze before the woman shakily called Zixuan and pushed the man on her away fiercely.

The woman saw the well dressed man look at her in disbelief and she suddenly ran over crying wanting to hug the well dressed man. But before she got near this man, the man slapped her hand and left the pond with an extremely sad look."

Qing Ru's story gave Ye Mo a familiar feeling but he couldn't remember where he saw it.

Qing Ru sighed “after the woman was slapped away, she looked at the man in disbelief as though not believing this man would slap her. She cried her heart out and left the bathroom not even wearing her clothes.

The man who came in first saw the two of them leave and quickly put on his clothes and left too. The well dressed man went to another room. He sat on the chair for a while. The sadness and despair in his eyes went deeper until he eventually pierced his hand with his own hands and died...”

Ye Mo finally realized now that this was the scene he saw at the Ice God forbidden grounds. There was a few inner clothes of a woman hanging by the side of the spirit marrow pond. He was guessing that something tragic happened to the woman and she fled before being able to dress herself.

Now, it seemed he overestimated her. She fled in embarrassment for being caught cheating. Perhaps she was thinking that even if she did something wrong, the man who loved her so much shouldn't hit her.

“So that's what happened in the Ice God forbidden grounds.” Ye Mo sighed. This thing was quite tragic for that well dressed man. That man slapped the woman and didn't go kill the man she cheated with. This meant that he was definitely very close with that other man.

From another perspective, if that man wasn't important to him, he wouldn't be able to get inside the pond and see his wife bathing.

Hearing this, Qing Ru dazed and released that Ye Mo definitely saw the scene too. Otherwise, how would he know it was from the Ice God Palace.

But soon she said “You probably saw this when you took me away right? Theoretically, there were so many people in the Ice God Palace. Even if you went the scene should've been dealt with. How could you see it?”

How could it be dealt with? The entire Ice God Palace died. Who would deal with it?

Then Ye Mo noticed something wasn't right and asked “Qing Ru. You probably saw this when you first arrived at Ice God Palace right? How did you almost die at that ice mountain?”

Qing Ru said awkwardly “I just came to the cultivation realm from the immortal realm. In order to stay there, I have to suppress my cultivation level. Even so, the pressure from the world was unbearable. At that time, I wasn’t completely used to it. The man who was having sex with the woman saw me and dazed.”

Ye Mo nodded. No matter who saw Qing Ru for the first time, they would be dazed. Even he was shocked seeing Qing Ru for the first time. As a woman, Qing Ru was too perfect.

“Just when I was about to attack, he attacked first. This person released the terrifying nine headed void devouring bug. The nine headed void devouring bug was too disgusting. I didn’t attack yet and I almost puked. That nine headed void devouring bug was about to devour me...”

Ye Mo shook his head “That nine headed void devouring bug wasn’t trying to devour you. He was probably trying to bind your space and let its master catch you.”

“How do you know?” Qing Ru asked dazily. She only knew later.

Ye Mo smiled “That man couldn’t wait to do dirty things with that woman in the bath. Clearly, he’s very lustful. Any lustful person who sees your appearance would want you. Since he wants you, of course he wouldn’t let the nine headed void devouring bug eat you.”

Qing Ru sighed and nodded “Indeed. The instant I was scared the man attacked. He ambushed me. Luckily, although my power was suppressed I was way stronger than him. I still broke free from the binding and easily heavily injured him. I was backlashed and ambushed so I almost died.”

“What were you doing at the Ice God Palace?” Ye Mo asked again.

Qing Ru’s eyes flashed with sadness “My master took me around the immortal realm and encountered a disciple who ascended from the Ice God Palace. From her, we knew that there would be many female disciples turning into ice sculptures each year for no reason. My master was furious and wanted to go to the cultivation realm to investigate but her cultivation level was too high and couldn’t handle the suppression of the cultivation realm world laws. Eventually, I had to go down and check.”

Ye Mo wanted to laugh. Your master's power wasn't too high but too low. If your master vindicated dao, go and see if she would still be suppressed by the cultivation realm. plus, if Li Xiu was really sad and furious why were there that many ice forests in the Ice God Palace too?

Qing Ru continued "My master used an ancient formation to send me to the cultivation realm and I realised how powerful the world laws of the cultivation realm was. Even though my cultivation level was low it was still very harsh. After that man was defeated by me, he was worried I would hunt him and fled. My spirit sense saw he turned all the women he saw into ice and I immediately realised what was going on."

Ye Mo realised too.

Qing Ru's face turned pale "I was so angry at the time. I knew it was that bastard who turned our Ice God Palace sect members to ice but there was nothing I could do."

Chapter 2148.2: Life Dao

"Although that man left, he would soon realise I was heavily injured and come back to find me again. In order to kill this person myself, I found the teleportation formation and went into that icy grounds. I wanted to recover but instead, my injuries worsened there. In order to stay alive, I could only turn my small world to a huge tree to protect my sliver of soul."

Qing Ru still sad after all these years.

Ye Mo nodded. He knew there was no five elements in the small world and in order to preserve her sliver of essence spirit, it had to stay outside. What he didn't get was why that man didn't come back and if that nine headed void devouring bug guy was Hong Yixin.

"How many heads did that nine headed void devouring bug have?" Ye Mo asked.

Qing Ru said "It had four. Usually, if it was a truth realisation state cultivator who was ambushed, he wouldn't be able to escape the space binding of the nine headed void devouring bug. I barely broke free and barely heavily injured him."

It wasn't Hong Yixin indeed. Ye Mo's heart sunk. He never heard of that guy in the cultivation realm again. Did that guy ascend to the immortal realm? If that guy only had a four headed nine headed void devouring bug it was no worry but if his nine headed void devouring bug reached nine heads it would be a huge disaster.

Qing Ru asked "How did the Ice God Palace you went to turn into the Ice God forbidden grounds?"

"Because there were frozen ice people everywhere. They looked alive but they were frozen. It's a tragedy." Ye Mo said.

"They all died indeed." Qing Ru murmured to herself.

After a long while, Ye Mo asked "You probably wanted to ask a question with this story right? Why don't you ask anymore? I want to ask you a question, where did that woman go?"

Qing Ru dazed.

Seeing this, Ye Mo said speechlessly "Never mind, let's not think about her. Ask your question and I'm immediately going to the Void Marketplace."

Qing Ru dazed and asked with embarrassment "Brother Ye I've always been spending my time in cultivation and there are some things I don't understand. I saw that woman clearly loves the well dressed man a lot. Why did she still cheat on him? And why did she think it was no big deal after her dao partner knew? She didn't leave out of embarrassment for sure but because she was slapped by the man. Is this thing not as serious as the well dressed man thought?"

Ye Mo frowned. He didn't know how to answer these questions. He didn't understand why Qing Ru asked him these questions.

Seeing Ye Mo frown, Qing Ru suddenly asked "Brother Ye I'll ask a simpler question. If you saw this woman, how would you look at her?"

Ye Mo sneered "If she didn't do that to me, she's just a slut and has nothing to do with me. If she did that to me, I would kill her for sure."

"Is it because ever since she gave her body to that well dressed man, she belongs to the well dressed man? Is this what it means to be loyal?" Qing Ru asked.

Ye Mo frowned again. He didn't know how to answer this. Qing Ru seemed a bit strange today. She usually would never ask such questions.

Seeing Ye Mo frown again she suddenly smiled "Brother Ye, I believe you don't need to answer these questions for me now. I will find my own answer, thank you."

Qing Ru walked a few steps and suddenly asked "Brother Ye, do you think there are people who are just immortal monarch but can vindicate dao?"

Ye Mo looked at Qing Ru in shock and said "If it was before I definitely wouldn't know but now I can tell you. There's one type of dao that can only be vindicated at immortal monarch. I've just learned this. Qing Ru why did you suddenly ask this?"

Qing Ru heard this and asked in surprise and joy "May I ask what that dao is?"

Ye Mo said seriously "The dao of life. life law and time law are two completely different things. If you want to vindicate life dao you must not reach immortal emperor. Otherwise, you would've learned immortal emperor dao law and would never have the chance to vindicate life dao."

The reason Ye Mo knew this was because the chaos tree rebuilt his dao foundation and he learned life dao. Because he had the tree of life, the mother of all life in the universe, he was the only one who didn't need to vindicate life dao to understand so much about life dao.

"Brother Ye can you tell me about life dao?" Qing Ru looked passionately at Ye Mo.

Did Qing Ru want to vindicate life dao? Ye Mo looked at her in confusion but said "Life dao needs a life seed. This life seed is the fusion between the life dao wave of someone else and your own dao wave. Only those who have a deep understanding of life dao can create life dao wave... this is extremely hard."

Qing Ru would need another person to give her a sliver of life dao wave chi. Life dao wave chi is extremely precious and each strand contains life essence. How could people give it to her so easily? Even if they did, it wouldn't be so easy.

He had the chaos tree. Although he didn't vindicate life dao, he had life dao wave chi. This meant that if he was willing to, he could give a sliver of life dao wave chi to Qing Ru. Even if he was willing, he didn't want to do this.

Dao wave chi unison is no different to having sex but one was spiritual and one was body.

"Then after the life dao wave fuses, would it create a life seed?" Qing Ru's face was burning.

She sat under the bitter bamboo next to Ye Mo and felt his life dao wave. Ye Mo for some reason had his life dao wave chi circulating around him and she used that moment and took a sliver of Ye Mo's life dao wave chi. Then, she accidentally let it fuse with her dao wave chi forming a life seed.

In her consciousness, Ye Mo forcefully did something to her but now she realised, she forced something against Ye Mo. It was purely because Ye Mo was in a strange state and Ye Mo didn't know.

Ye Mo looked at Qing Ru in surprise "Qing Ru, if you can find someone with life dao wave chi and fuse it with your understanding of life dao, perhaps you can really vindicate life dao at immortal monarch. Your understanding is very great."

Ye Mo paused and said "When the life seed forms, this seed would grow under the nourishment of your dao wave. Once you reach immortal emperor, that seed will sprout. When it completely sprouts, it will form a tree of life in your dan tian. If the tree of life forms, you would've successfully vindicated dao."

Ye Mo looked at Qing Ru and sighed. If it was Xiaoyun or Jingwen and then who wanted to vindicate life dao, he would give his dao artefact wave chi without hesitation but Qing Ru, never mind.

Seeing Ye Mo not wanting to give her life dao wave chi, Qing Ru sighed and bowed to Ye Mo “Thank you brother Ye, Qing Ru understand.”

Seeing her leave quickly, Ye Mo shook his head, he felt she asked really strange questions.

It would be very hard to vindicate life dao but if she did, she would almost be undying. Those who were related with her would never die. This was the terror of the life dao.

Ye Mo started to look at what he got from the Dao Essence Divine Emperor demon.

Ye Mo scanned in the storage ring first. There were some god spirit herb and materials. There was about 10 million god crystals. For ordinary people this was a huge fortune but Ye Mo shook his head.

Then Ye Mo opened the bracelet and gasped. This Dao Essence Divine Emperor was far wealthier than even the sect leader of Du Ting god sect.

This bracelet was a huge small world. Just the god crystals stacked up to nearly one billion. Ye Mo for the first time saw extreme grade god spirit range. Although there was just one broken one, its dense god spirit chi wasn't something that top grade god spirit range could compare with.

All sorts of god spirit herb and ores stacked up in mountains. Despite not having dao fruits, Ye Mo didn't care. He lacked dao fruits the least.

Chapter 2148.3: Void Marketplace

After organizing everything, Ye Mo appeared on the space time boat again. He found in shock that there was a bright spot on the location disk. It was small but Ye Mo could see the words Void Marketplace.

He didn't expect the golden page world to have floated near the Void Marketplace. This saved him a few years.

The extreme grade flying god artefact space time boat brought a sliver of mark in the void. It sped up faster and faster until the golden spot became clearer and clearer. That was the Void Marketplace.

Ye Mo looked inside his golden page world. Xiaoyun and them were in solitary cultivation so Ye Mo gave up the thought of calling them out.

He thought that they must come out together before going in the Void Marketplace. Otherwise, if a few people suddenly appeared around him, people would definitely notice. At the start, people would think he had a small world. In time, they would think he had truth spirit world.

The small world wasn't rare, most powerful beings had them but the truth spirit world was something truly rare. Even Dao Essence Divine Emperors didn't all have truth spirit worlds. As for five elements worlds, it was even more rare. Chaos worlds were something the master of a region of universe had.

Thinking about this, Ye Mo still put the small world storage ring he got from the Du Ting god sect leader on his finger. After all, this meant he had a small world. If Xiaoyun and them suddenly came out, it wasn't too out of the ordinary.

...

This was the first time Ye Mo came to the Void Marketplace. This was the first time he saw a city as big as the Void Marketplace. This wasn't a city, this was a continent. Ye Mo was certain that if he threw the Earth onto the Void Marketplace, it would only take a small corner.

Ye Mo had seen many immortal city and divine dao cities but none was as prosperous as this. No city had this grand force like the Void Marketplace. Before even getting near the Void Marketplace, he felt the dense god spirit chi.

Five minutes later, Ye Mo put away the space time boat and appeared at the entrance to the Void Marketplace.

The Void Marketplace was a city that had no city walls. There were restrictions everywhere. There were formations everywhere. In front of the Void Marketplace, there was a boundless harbor. All sorts of large ships and flying magic artefact parked at the harbor.

Ships left and entered the harbor constantly showing just how busy and prosperous the Void Marketplace was.

Ye Mo entered the Void Marketplace and no one came to question him nor take god crystals. This meant that if you could come to the Void Marketplace you could come in and leave whenever you wanted. This was a very free place.

Ye Mo's spirit sense didn't scan in and he could see there were way more immortals here than the shadow void castle. There were mist figures who didn't even have human form walking around the city. There were also bleak chi ghost immortals walking on the streets. Even some tree monsters were walking in and about.

Comparatively, there weren't many human beings. But races would turn their form into human form once they reached high levels of cultivation and this made it appear that there were a lot of humans. But this was natural as the human form was more coherent with dao.

Ye Mo compared and found that showing himself to be immortal emperor here wasn't too absurd.

Soon, he felt he started to fuse dao waves chi. He felt his cultivation level chi gradually rise until Dao Nourishment Divine Emperor peak stage before stopping.

Ye Mo dazed and calmed down. His true cultivation level finally showed in the Void Marketplace. He vindicated dao in the chaos world and his cultivation level would only show as Dao Nourishment Divine Emperor in the chaos world. Outside, it was always immortal emperor. This was because the outside world was broken and couldn't allow him to show his true power.

Yet, when he came to the Void Marketplace, his chi rose to Dao Nourishment Divine Emperor meaning that the Void Marketplace was a world complete with the five elements. He wondered if he went back to the Divine Dao Realm, would his cultivation level drop back to immortal emperor.

Ye Mo didn't care about his chi showing to be Dao Nourishment Divine Emperor. He never planned to hide his cultivation level. The stronger your power was here, the safer you were. But Ye Mo didn't know that his cultivation level rose to Dao Nourishment Divine Emperor peak due to the chaos tree helping him rebuild his dao foundation. He learned life dao wave and his dao nourishment was more complete.

Thud. A figure smashed over towards Ye Mo. Ye Mo quickly moved aside and this figure landed before him not moving.

Ye Mo scanned with his spirit sense and found that this was a woman but her life force was gone and her essence spirit was annihilated.

An extremely handsome man sneered at this dead woman and disappeared into the crowd.

This man was extremely handsome but Ye Mo sensed the demon chi waves from him. This was a Dao Actualisation Divine Emperor demon. Ye Mo was shocked. Could people kill however they wanted in the Void Marketplace?

A yellow robed manager walked over and wanted to sweep her away when this pitiful cry sounded “Ji Min...”

It was a Dao Moulding Divine Emperor man who came up.

The manager saw someone come over and frowned “Hurry up and move her away. Don’t affect the flow on the streets.”

The man was very sad but he could only take the woman’s body and disappear into the crowd.

Ye Mo stopped a Dao Moulding Divine Emperor human and asked “Immortal friend, can people kill freely in the Void Marketplace? Does no one care?”

This Dao Moulding Divine Emperor glanced at Ye Mo and asked “Immortal friend, you just came to the Void Marketplace?”

Ye Mo nodded “Yes, so I don’t know a lot of things.”

The Dao Moulding Divine Emperor said “That’s right. You can kill people however you like in the Void Marketplace. The condition is that someone offended you and you have reason on your side. Otherwise, you will be punished by the Void Marketplace.”

“How do you judge if you have reason for killing?” Ye Mo asked.

The Dao Moulding Divine Emperor laughed “Of course you invite the manager to judge. If the managers determine your friend was killed innocently, then they will seek responsibility from the killer.”

Ye Mo frowned “I just saw the woman die here and the manager was here. How come the man didn’t tell the manager the situation? Did they really offend the demon divine emperor?”

The Dao Moulding Divine Emperor sighed “Immortal friend just came to the Void Marketplace. You might not know. If you want the managers to speak for you, it would be on the basis that you have power. That man and woman are both Dao Moulding Divine Emperor. Only if they’re mentally retarded would they offend a Dao Moulding Divine Emperor demon. Clearly, they were just casually killed. That man didn’t ask the manager for help because even if he did it would be pointless. Even if he was right, the manager wouldn’t help him and the demon divine emperor would come back to kill him too.”

Ye Mo was speechless “In that case, there’s no difference if there are managers here or not?”

The Dao Moulding Divine Emperor nodded “You’re not wrong to say that.”

Ye Mo fell silent. There really was no reason anywhere.

“Immortal friend just came to the Void Marketplace, it’s best you go to east market. Humans usually stay there but it’s a bit far from the center of the Void Marketplace. It’s a bit inconvenient.” The Dao Moulding Divine Emperor said.

“Why is it inconvenient? As long as you were in the Void Marketplace, even far places weren’t far.” Ye Mo asked.

The Dao Moulding Divine Emperor smiled “Immortal friend, there are restrictions all over the Void Marketplace. From the east city to the center, it would take 15 minutes. Usually, the best things appeared at the center of the city. If you can’t get there immediately, you would have no chance of getting it.”

“Thank you immortal friend.” Ye Mo thanked and then headed towards the center of the Void Marketplace.

Seeing Ye Mo not head to the east city and find a place to live and instead go to the center, this Dao Moulding Divine Emperor shook his head and left.

Chapter 2148.4 – Void Marketplace stall

There were restriction everywhere in the Void Marketplace and spirit sense couldn’t scan out at all. Ye Mo only realised how prosperous the city was when he came to the city center.

Roads of shops were on extremely wide streets. These shops belonged to all sorts of races. Ye Mo walked in a few random ones and all the things they sold were top grade.

Other than this, there were stalls that didn’t have shops. They were just temporary stalls. The owner would exchange things every once in a while. Those things you couldn’t find from the big shops could be found here.

Ye Mo looked casually and felt that this trip to the Void Marketplace was worth it. No matter how many god crystals he had, he would be able to spend it all here as there were just simply too many things.

Ye Mo was in no rush to go buy from the shops. He needed to find a place to stay first and find out about the environment here before he would collect the things he needed.

But soon, Ye Mo was disappointed. He asked about all sorts of immortal rest towers but they were all full.

Even at the lobby he could only sit in one corner as it was full.

Ye Mo realised he thought too simply. The Void Marketplace was different to the shadow void castle. People who came here lived here long term.

“Last ten North Soul Herb, the stall will close after selling out.” A voice Ye Mo heard gave him an idea.

As a pill divine, he could even make dao actualization god pill. Ye Mo wasn't unfamiliar with North Soul Herb.

It could be made into dao nourishment god pill, north soul pill. It could empower the essence spirit of divine emperors and was very helpful to divine emperor cultivation. Many divine emperor's sea of consciousness wasn't big enough and thus they couldn't reach higher levels. The north soul pill could empower essence spirit and expand one's sea of consciousness. This pill was very hard to concoct and many people bought the herb not to concoct the pill but just to eat it.

Direct consumption had much less effect but it was better than nothing. If even north soul herb could be turned into north soul pill, then even if there was just one herb, it would cause powerful beings to fight over it.

It was a Dao Actualisation Divine Emperor selling the north soul herb. He had no beast immortal chi but Ye Mo could tell this Dao Actualisation Divine Emperor came from the beast race.

Ye Mo went up and saluted with his fists “Immortal friend, what would happen to the stall after you finish selling?”

The beast divine immediately knew what Ye Mo meant and said “The stall positions aren't as sought after as the immortal rest tower but it's not something easy to obtain. If you buy my ten north soul herbs I will give the stall to you without taking a transition fee.”

Ye Mo wasn't after the stall but the room behind the stall. This room was a temporary stay for the stall owner. Ye Mo just needed a place to stay.

“Are there no procedures to do?” Ye Mo asked in confusion.

The beast divine laughed “I can tell it’s your first time at the Void Marketplace. Look there’s a rink on the door of the room behind me. It’s a teleportation formation rink. If you just put your rent there every year, it will be fine. My rent is 10 million god crystals a year. My rental period is about to be up. If you buy my north soul herbs and then put 10 million god crystals in before the month ends, you can extend the lease for a year.”

“It’s that simple?” Ye Mo asked in disbelief. He was in disbelief at how cheap the rent was.

“yes, it’s that simple?” The divine emperor said.

Ye Mo felt that there were some things the beast divine didn’t tell him but he didn’t have time to find the loophole so he could only say “I’ll take the north soul herbs. How many god crystals?”

“5 million god crystals for one, ten for 50 million. Plus, I’ll transfer the stall to you for free. Otherwise, it would be a few million transistion fees.” The Dao Actualisation Divine Emperor said.

Ye Mo knew it wasn’t expensive but that was only too him as he could turn the north soul herb to north soul pills. For others, this price was way too high.

“Give me the stall and I’ll give you 20 million for the ten herbs. If you agree, then deal. If not never mind.” Ye Mo said.

“Deal.” The divine emperor took out a stall jade card without hesitation and gave the ten herbs to Ye Mo.

Ye Mo had the feeling he was being tricked. He didn’t seem to understand the price of things here but even so, Ye Mo didn’t regret. He gave the Dao Actualisation Divine Emperor 20 million god crystals.

The divine emperor took the god crystals and smiled at Ye Mo “That jade card is the card for the stall, perhaps you will get rich here.”

Then, the Dao Actualisation Divine Emperor left.

Ye Mo frowned and put these things away.

Ye Mo didn't keep the stall. He set up some restriction in the room behind the stall. Just when Ye Mo wanted to set up the restriction, an extremely skinny figure came over. He wore a black cloth on his face. Ye Mo immediately recognized who this person was.

When he was at the Divine Dao Realm, he sold a god heart stone before going to the Mu Hua god mountain. This person bought it. Ye Mo didn't see his cultivation level at the time but this person is actually Dao Actualisation Divine Emperor. However, it wasn't stable.

"It's you?" the skinny man clearly recognized who Ye Mo was and said in shock. He didn't expect that little immortal emperor at Mu Hua god mountain suddenly became a Dao Nourishment Divine Emperor. He immediately guessed that Ye Mo definitely hid his cultivation level. Otherwise, there was no way he reached Dao Nourishment Divine Emperor in a few hundred years.

"You're setting up a stall here?" The skinny man asked.

Before Ye Mo could reply, a sneer sounded. A tall Dao Actualisation Divine Emperor woman chased over.

The skinny man took out a jade box and threw it to her "You can have it, just give me back my god crystals."

The woman took the jade box and threw out a storage bag to the man and sneered "Count yourself lucky."

Seeing the woman leave, the skinny man saluted with his fists "Immortal friend is really talented in business. You were selling god heart stone at the Mu Hua God mountain and now you're having a stall."

Ye Mo smiled "When I was setting up a stall, you seemed to have been hunted. Now, you're still being hunted."

The skinny man dazed and said awkwardly “I didn’t expect you to be able to tell I was being hunted. Keen eyes.”

“I still have keen eyes now.” Ye Mo took out a few immortal artefact and put them on the stall.

The man glanced at these immortal artefact and laughed “Your eyes really aren’t keen now. I would rather compensate people god crystals just to stay because we came from the same place. So I’ll give you a few words of advice.”

“Tell me, if it’s really words of advice I’ll listen to you.” Ye Mo put a few bottles of immortal pills on the side.

“You really sell a lot of things.” The skinny man laughed and continued “Did the original owner of the price say the stall was very cheap and only costs 10 million god crystals a year?”

Ye Mo asked in confusion “Is it not?”

The man gave an ‘I knew it’ face and said “That’s right, the rent is indeed only 10 million god crystals a year. But, there are other things too. There are some people who often come here to collect some payments. These payments are the total of your yearly profits. Of course the main thing is that I know your stall can’t be rented.”

“What do you mean?” Ye Mo frowned and asked.

Chapter 2148.5 – Famous Stall

“I came past here a few days ago and saw a beast race Dao Actualisation Divine Emperor kill another Dao Actualisation Divine Emperor and rob their things...” The skinny man laughed at Ye Mo.

Ye Mo looked at this skinny man in disbelief, “The stalls here can be robbed? The Void Marketplace doesn’t care about these things?”

“What do you think?” The skinny Dao Actualisation Divine Emperor sneered.

Ye Mo’s heart sunk. He looked around at the other stalls. He thought of many things but didn’t expect there to be such absurdity. The stall he rented could be robbed. If it was like that, who would want to rent? But these stalls were all rented out, there were none left.

“Then wouldn’t those weak cultivation leveled people be unable to set up stall?” Ye Mo was disappointed. There was no point in renting such a stall. No matter how powerful he was, he wouldn’t dare to stay that he could hold a stall position.

The skinny man smiled “Yes and no. See, there’s a Dao Moulding Divine Emperor over there having a stall. He’s doing very well. The stall fees here aren’t expensive but if you don’t have someone backing you up you can’t last long. Many people just set up stall for a few days. If someone robs them, they would just give it away. Usually, people wouldn’t find an excuse to kill you that way. Other than this, there’s another way.”

“That is if you pay god crystals for someone to protect you. Usually, it costs about 1 to 2 hundred million.”

Ye Mo took in a cold breath. That amount would make any Dao Essence Divine Emperor unable to sit relaxed much less other people.

“So some people sell their things out as quickly as possible when they rob a stall and then give it away.” The skinny man smiled.

Ye Mo sighed and saluted with his fists “Thanks for your reminder. I’ll just give the stall away if someone comes here.”

“If it’s some other stall you can do that but not for this stall. If you keep renting it you might disappear from this world forever the next day.” The skinny man said.

Ye Mo’s eyes frowned. Make him disappear forever? Not even Dao Essence Divine Emperor can do that.

“The original owner of this stall is called Wan feijian. He’s a Dao Actualisation Divine Emperor. He was killed and robbed by that beast race divine emperor. Perhaps the beast race divine emperor even sold his things to you.”

“So what?”

“Wan Feijian has a sister called Wan Tongtong. She’s ranked in top 300 of the god rank. What do you think?”

Ye Mo wasn’t very worried. He even killed a Dao Essence Divine Emperor. How could he be scared of a Dao Actualisation Divine Emperor?

He didn’t kill Wan Jianfei. Even if he did, he wouldn’t care about Wan Tongtong. No matter how powerful she was she was only a first step divine emperor.

“It seems you’re not very worried?” The skinny man was a bit confused seeing Ye Mo being so calm.

Ye Mo said plainly “What do I need to worry about? I have nowhere to stay so I can only live here.”

Hearing out this guy, Ye Mo realised that he didn’t need to worry about Wan Tongtong but the guys collecting fees from him. These guys would probably have ties to the Void Marketplace. Would it affect him if things went sour? He came to the Void Marketplace for opportunity. He didn’t want to leave so quickly.

Hearing this, the skinny man smiled “Don’t worry about not having a place to stay. If you don’t mind you can stay with me. I’m Tang Xiaoyu, I wonder if Ye Mo’s is your real name.”

“I’m Ye Mo but I don’t like living in the same room with a random female.” Ye Mo set up the last restriction on his stall and said casually.

Hearing this, Tang Xiaoyu’s face burned “You can tell I’m a woman?”

Ye Mo glanced at her and said “I believe I’m not the only one who knows. Don’t have too much confidence in your mask nor your stealth cultivation method.”

“This means you not only saw I’m a woman but I’m also not human?”

Tang Xiaoyu’s tone went cold.

Ye Mo couldn’t be bothered talking to her. He walked in the room behind the stall and was going to set up restrictions there. Even if he was to give the stall away, it would be after he made some money here.

Tang Xiaoyu followed Ye Mo into the room and said “That’s right, I’m a woman and I’m not human. But that doesn’t affect us collaborating. I have some good things that I want to use your stall to sell. And even if that Wan Tongtong comes, I can help you a bit.”

Ye Mo turned around and looked at her “First I don’t need your help. Second my stall won’t sell your shitty things.”

Ye Mo realised her intention. Perhaps what she said was true but her main purpose was probably to scare him off and use this stall for a few days.

Tang Xiaoyu sneered “If my things are shitty then your immortal pills and immortal artefact are good things? Oh, I saw you take out a top grade immortal artefact. That would definitely get the people in the Void Marketplace fighting over it.”

Ye Mo said calmly “That’s just the things to hold my stall. In a few days I will be selling top grade flying god artefact, top grade attack god artefact, refine heart pill, north soul pill, god cloud pill... Do you have these? If you do then put it up.”

Tang Xiaoyu was scared by Ye Mo’s words. After a long while she laughed as though she heard the greatest joke.

Ye Mo didn’t explain and casually waved out a top grade flying god artefact and a refine heart pill. After she saw it, Ye Mo put it away again.

“What? You really have these things?” Even Tang Xiaoyu was shocked.

“What do you think?” Ye Mo smiled at her.

Tang Xiaoyu dazed and quickly saluted with her fists to Ye Mo “Immortal friend Ye if you really have these pills, I’m willing to help you and be your sales assistant. I just want 20%...”

“20% do you think I’m dumb. You just need to help look after my stall and you’re going to take 20%? How can you say such things?” Ye Mo studied Tang Xiaoyu from up to down.

Tang Xiaoyu was uncomfortable being stared like that and quickly said “Then 10%. I still need to risk helping you fight. It’s not that easy to guard a Void Marketplace stall.”

Ye Mo thought for a long while before saying “Okay, but you must tell me which race you’re from. Otherwise, I don’t feel so sure.”

“I’m from the phoenix race.” Tang Xiaoyu hesitated for a while and said.

“Where is the phoenix race, do you have a map?” Ye Mo asked.

“What do you want?” Tang Xiaoyu immediately became vigilant and stared at Ye Mo with enmity. He was asking about the realm her race was at.

Ye Mo frowned “I’m just curious about some other races do you have to be like this? Your attitude makes it hard for me to cooperate with your whole heartedly.”

Tang Xiaoyu heard this and hesitated for a while before saying “I definitely won’t tell you where my race is but I know where the dragon race is. You’re just curious anyways. It’s the same.”

“Deal.” Ye Mo showed a big sly smile. He never planned to ask her where her race was. He guessed she was from a beast race and in that case she might know where the dragon race is.

Tang Xiaoyu immediately gave the dragon race's location to Ye Mo "How come I feel you don't have good intentions?"

Ye Mo didn't answer to that and took out a bottle of refine heart pill "This is a bottle of refine heart pill, there's 12 inside. Go sell it first."

Tang Xiaoyu grabbed it and immediately forgot about what she was going to ask. She dashed out and said "Don't worry, we'll be earning huge."

...

Five minutes later, the entire center of the Void Marketplace erupted. On a small stall in the Void Marketplace, there was refine heart pill for sale. It was even extreme grade refine heart pill. The price for one was 5 million god crystals. This was a huge price but it still couldn't stop the flock of people.

Tang Xiaoyu soon realised that the price she named was too low. Even at 5 million price, people still fought over for the 12 refine heart pills.

The main ingredient for the pill wasn't expensive but the reason the pill was so expensive was because the refine heart pill was too hard to concoct. Even dao nourishment pill divine might not be able to concoct. This was something only dao actualisation pill divines could concoct.

One dao actualisation divine emperor just attacked Tang Xiaoyu. In her desperation, Tang Xiaoyu yelled "Whoever kills the first guy who attacked me I will sell the first pill to him..."

Before she finished, four god arts landed on this dao actualisation divine emperor. The dao actualisation divine emperor spat a mouthful of essence blood and fled.

Tang Xiaoyu breathed easy and sold four pills to these four people.

Seeing more and more people come, Tang Xiaoyu could only speed up and sell the remaining eight pills.

“Immortal friends, the 12 refine heart pills have been sold today, please leave...”

Tang Xiaoyu’s words caused more ruckus.

Ye Mo walked out and patted her shoulder “You’re not good at doing business. Collaborating with you isn’t worth it. Move aside, let me speak.”

Tang Xiaoyu wanted to argue but seeing the raging crowd, she couldn’t say anything.

Ye Mo walked out and saluted with his fists “Immortal friends, everyone probably knows that I’m a pill divine. As a pill divine, I came to the Void Marketplace to earn god crystals. But more so, I want to help everyone. Otherwise, the pills I sell wouldn’t just be for 5 million god crystals. Now, please quiet down everyone. If I’m disappointed, then I would rather not have this stall and leave immediately. I believe with my capabilities, I can get god crystals anywhere.”

Ye Mo regretted a lot. Tang Xiaoyu called the price too low. Otherwise, they would’ve earned more but since she already named a price, increasing it wouldn’t benefit his sales tactics. He could only use her price. But, he was going to get this difference through other means.

Hearing this, the crowd immediately calmed down. A top pill divine finally came to the Void Marketplace. If he was pissed and turned to leave, no one would benefit from this.

Tang Xiaoyu couldn’t help but to admire Ye Mo. His means were too effective. People calmed down with one word from him but she made the scene so chaotic.

Ye Mo smiled “Today, the 12 refine heart pills are half selling half for free. The main thing is to let people know that I have a stall here called...”

Ye Mo paused and suddenly waved out the words, Luo Yue Pill Forgery Divine Tower. Now that everyone knows this price, we’ll be selling according to normal price tomorrow...”

“are the prices being raised?”

...

There were all sorts of voices again. People here were extremely wealthy but no one wanted to see the price raise.

Ye Mo quickly waved his hands "Immortal friends what are you talking about, of course the price will still be sold according to 5 million god crystals..."

Before everyone could breath easy, Ye Mo said "Of course, I don't do a losing business. The five million today is my pill concoction fees. As for the material fee, I didn't take any. Immortal friends, as a pill divine, I'm helping people concoct pills. If I don't even take materials, then wouldn't I lose so much? So tomorrow the price will be 5 million a pill and plus a set of materials. Without materials, don't blame me for not selling pills."

Tang Xiaoyu thought. This Ye Mo was a cunning old bastard. He was increasing the price shamelessly but still proclaiming he was helping people. Using materials and paying for a pill wasn't just as simple as adding the price.

If Tang Xiaoyu could think of this, of course everyone else could too. Discussions heated up again.

"pill divine, if I want to buy refine heart pill but I can't find refine heart immortal spirit herb then I wouldn't be able to buy it?"

Ye Mo waved his hand "Of course that's not the case. If you can take out material higher level than the refine heart herb then I'll sell the pill to you first. For example, you gave me the nine star bamboo then not only would I sell a refine heart pill I might even sell you a dao star pill to you."

"Pill divine master, you can even concoct dao star pill?" Someone asked in shock.

Ye Mo laughed "Dao star pill is nothing. As long as you can take out the best god spirit herbs I can concoct the best god pills for you. Even if you take out dao fruits I can concoct dao pills for you."

Ye Mo came here to get rich and only by keeping a high profile would he be able to do that.

He knew this might get him killed but Ye Mo couldn't care. He lacked these cultivation resources.

"You can even concoct dao pills?" More shocked voices sounded.

Dao pills were made using dao fruits and was more suitable than the refine star pill to learn about dao. Ye Mo's cultivation level was limited and thus couldn't concoct any high level dao pill but Ye Mo said this to prevent dao fruits from slipping past. If he got a dao fruit, he might really be able to concoct dao pills.

Plus, most dao fruits didn't need to be concocted into pills. It could be consumed directly.

Ye Mo laughed "Let's not talk about dao pills yet. Tomorrow not only would there all sorts of god pills but there would also be top grade god artefact. If you can take out the best forgery materials I can give you the best god artefacts."

No one believed a pill divine was a forgery divine but they hoped what Ye Mo said was true. That way, they would be able to get what they wanted.

To prevent people from asking, Ye Mo said "The deals end here today. Immortal friends please go back to prepare materials. I'll state this again, tomorrow, whoever has the highest level material will get the highest priority in dealing."

Hearing this, everyone left clearly to prepare materials. There were many materials and herbs in the Void Marketplace but people who could turn them into the best god artefact and god pill were much rarer.

Although many dao essence divine emperor have quite a few extreme grade god artefact but they were collected over the many years, some passed down from ancient times. Some were purely stacked up with materials by using ten times the amount of materials normally needed.

Compared to top grade and extreme grade god artefact, there were much more middle grade and low grade god artefact.

Seeing Ye Mo casually set up formation in front of the stall, Tang Xiaoyu asked worriedly “Ye Mo, what if a lot of people come and you can’t give out that many god pills?”

“You worry too much.” Ye Mo said. He came here to get rich, no matter how tiring it would be, he would make enough god pill and god artefact.

When Ye Mo and Tang Xiaoyu were discussing the things tomorrow, two dao actualisation divine emperor peak stages came before Ye Mo’s stall.

“According to your income today, you need to pay 12 million protection fees.” The two said.

Tang Xiaoyu sound transmissioned to Ye Mo “There are many of these people. They’re probably related to the Void Marketplace. After we pay them god crystals, there will be others coming to ask for god crystals.”

Ye Mo nodded and signalled her not to worry. He then looked at the two dao actualisation divine emperor and said “Are you two sure you want to collect my god crystals?”

The two dao actualisation divine emperor’s faces went cold, “You’re setting up a stall in the Void Marketplace. Paying god crystals is what you should do. Do you not want to pay?”

Ye Mo suddenly yelled at the street “Some people are forcing me to leave immediately. If any immortal friends want to lead and kick these two away, you don’t have to bring materials to buy my god pills or god artefacts...”

Chapter 2148.7: Monopoly

As soon as Ye Mo said this, a huge palm came over and the two dao actualisation divine emperors were palmed away.

Ye Mo who was supposed to be happy took in a cold breath. He didn't expect even dao essence divine emperor attacked. He wasn't scared of dao essence divine emperor but did he dare to use all his means in the Void Marketplace?

Seeing it was a dao essence divine emperor, the two dao actualisation divine emperor didn't dare to say a thing and quickly left.

"I heard you could concoct dao star pills?" The dao essence divine emperor walked up to Ye Mo's stall.

Ye Mo thought, dao essence divine emperor indeed wouldn't help for no reason. Of course he could concoct dao star pills. He already concocted a cauldron of them. He concocted them to help Mu Xiaoyun break through to divine emperor.

But this dao essence divine emperor probably wanted to use the dao star pill to learn astral space god art.

"That's right, I can." Ye Mo said without hesitation. If this dao essence divine emperor didn't bring out nine star bamboo he wasn't going to give his own dao star pill to him. If this dao essence divine emperor really took out a nine star bamboo, he would help concoct a cauldron.

The dao essence divine emperor took out a jade box and threw it on Ye Mo's stall "This is a nine star bamboo, I'll come pick up the pill tomorrow."

Ye Mo opened it and saw it was a nine star bamboo indeed. He immediately said happily "Pill concoction fees 5 million god crystals, six pills produced."

"Sure." The dao essence divine emperor took out a storage bag to Ye Mo and said "This is 5 million god crystals."

He wasn't scared of Ye Mo taking things and leaving at all. He immediately turned to leave.

Ye Mo took this and sighed. Pill divine was indeed amazing. He got six dao star pills and five million god crystals so easily. He had to be careful though. He wasn't scared of one dao essence divine emperor but if a bunch came, he wouldn't fare very well.

Plus, in a place like the Void Marketplace, who knew if there was no primordial essence divine emperor?

...

When Tang Xiaoyu came to Ye Mo's stall the next day, she found it was filled with people. Ye Mo didn't even come out yet. She scanned her spirit sense into the house behind the stall and found her spirit sense was bounced back from very far.

Tang Xiaoyu was shocked with Ye Mo's formation skills.

Seeing Tang Xiaoyu come over, the crowd immediately separated and let her in.

Tang Xiaoyu just came back to the stall and Ye Mo came out of the house.

"Pill divine Ye is here, everyone be quiet." Someone already said before Ye Mo said anything. They even found out Ye Mo's name.

Ye Mo saw many people with a confident look and immediately knew he was going to get very wealthy today. Ye Mo saw more than one dao essence divine emperor but none of them were human. Clearly, the human race's power was far weaker than other races in the Void Marketplace.

"Is it ready?" A plain voice sounded. Clearly it was the dao essence divine emperor from yesterday.

The tone was plain but Ye Mo could hear a sliver of desperation.

Ye Mo knew that these dao star pills definitely had very important use for this dao essence divine emperor.

"It's done, here." Ye Mo threw out a jade bottle.

The dao essence divine emperor took the bottle and opened the bottle lid. When he smelled the aroma and saw the six extreme grade dao star pills, his face immediately became excited.

"Very good, it's very good." The dao essence divine emperor said and disappeared.

Seeing this dao essence divine emperor leave, Ye Mo went up and saluted with his fists "Immortal friends, today I will be selling one top grade flying god artefact, two top grade attack god artefact, 12 refine heart pills, 12 north soul pills, 12 god wind pills, one dao star pill, these god pills are all extreme grade..."

As soon as Ye Mo said this, the scene erupted. Even divine emperors couldn't contain themselves.

"Immortal friends, I hope everyone can say the things they are going to trade and then I'll judge an order based on what everyone has. Even if everything is sold, immortal friends will still have an opportunity. Please keep calm." Ye Mo said with a smile.

People would be remembered for exposing their items but Ye Mo couldn't care. After taking all these things, he would be remembered even more. Since people were seeking fortune, they had to take such risk.

"Pill divine Ye, I have a blood sea heaven ice, I want to buy top grade flying god artefact.."

"I'll use scorch abyssal herb to buy north soul pill..."

"I have an essence breaking spirit liu, I just want god wind pill..."

Ye Mo heard this and was very happy. He wanted all of these things. Even if he would be remembered he wouldn't care. He immediately said "Xiaoyu, trade the scorch abyssal herb first."

This was something used to concoct dao abyssal pill. It was a god pill for abyssal race to learn dao. Ye Mo needed this as he was planning to deal with abyssal race.

Piles of god crystals, top materials and god spirit herbs were all gathered by Ye Mo but more and more people came.

Eventually, Ye Mo just started pill concoction on the spot. Those with top god spirit herb or chaos spirit herbs were all taken.

However, Ye Mo didn't concoct pills on the stall but in the room.

After another day, Ye Mo's name was like sun in the sky. The news of his stall spread through the entire Void Marketplace. Everyone knew Ye Mo was pill divine but he didn't forge artefacts so he wasn't famous for that.

Those who didn't get god pills knew it was pointless to stay here and left to collect the best god spirit herb and forgery materials. This pill divine Ye's appetite was getting bigger and bigger. He didn't even take ordinary god spirit herbs.

A day later, seeing people leave the stall, Tang Xiaoyu breathed easy. In just a day, she calculated that Ye Mo earned nearly a billion god crystals and she got 100 million. She was certain that even robbery didn't get you god crystals this fast.

Comparatively, Ye Mo earned more god spirit herb and materials but he didn't give a share of this to her.

"May I ask if the pill divine qian bei is called Ye Mo?" Just when Tang Xiaoyu was thinking if tomorrow would be like today, a careful voice asked.

Tang Xiaoyu didn't even look up and said "That's right, what do you need? Show me your herbs or materials first."

"No, we're pill divine Ye's friends..." A red faced dao nourishment divine emperor smiled.

Tang Xiaoyu looked up. She knew that Ye Mo just came to Void Marketplace, how could he have friends?

“So it’s brother Xianyu, brother Xin and goddess Biying. Please come in.” Ye Mo came out of the room with a smile.

“So it’s old friends, please come in.” Tang Xiaoyu immediately acted polite seeing they really were friends of Ye Mo.

“Brother Ye, I knew you were fine, haha...” Xian Yuxue walked in and laughed.

“I was lucky.” Ye Mo didn’t want to talk much about the demon divine and gave a jade bottle to Gu Biying, “Goddess Biying, this is what I promised you.”

Gu Biying took the pills excitedly “Thank you brother Ye.”

“Brother Ye I have something to tell you. I heard the god rank master Wan Tongtong is back. She said she wasn’t going to let you go.” Xian Yuxue said.

Ye Mo didn’t care “What happened to her brother has nothing to do with me unless she’s being unreasonable.”

Ye Mo didn’t worry about her not being reasonable. He was famous in the Void Marketplace now. Even if he wasn’t, he wasn’t going to be scared of a dao actualisation divine emperor.

Seeing that Ye Mo didn’t care and thinking about how Ye Mo could escape from dao essence demon divine, Xian Yuxue didn’t say much. They chatted for a while and the three bid them farewell.

After Tang Xiaoyu left too, another man came to Ye Mo’s place. He had long grey hair and even his face was grey.

Ye Mo seemed to only have dao nourishment cultivation level but he could see the origin of ordinary people. However, Ye Mo could tell what this race was. He only knew that this person was dao essence power. The power of his god essence was no weaker than the demon divine he killed.

Seeing Ye Mo not talk, the grey robed dao essence divine emperor saluted with his fists and said “Void Marketplace merchant tower Xing Hong greet pill divine Ye.”

“Void Marketplace merchant tower?” Ye Mo repeated in confusion. He just came to the Void Marketplace and didn’t really understand the place.

Xing Hong nodded seriously and said “Yes, Void Marketplace merchant tower. It’s the biggest dealing grounds in the Void Marketplace. There was first the merchant tower then the void marketplace. A very long time ago, the Void Marketplace was just a floating astral domain. After the Void Marketplace merchant tower built the first merchant tower here, it eventually developed to the Void Marketplace.”

Ye Mo realised what this meant. The Void Marketplace merchant tower was probably the strongest in the Void Marketplace.

“Ye Mo greet immortal friends Xing Hong. What business do you have with me?” Ye Mo knew that people would come to him after he showed his pill concoction skills. He just didn’t expect it to be this fast.

Seeing Ye Mo be so direct, Xing Hong said “Pill divine Ye is actually a top pill divine that reached the door to dao essence pill divine. This is unique even in the Void Marketplace. The strongest pill divine of our merchant tower is only a dao actualisation pill divine. Pill divine Ye is at the same level as our pill divine. The merchant tower greatly admires that.”

Ye Mo sneered. Same level, bullshit. He was certain that even if that dao actualisation pill divine could concoct dao actualisation god pills, he would have pitiful success rate. Otherwise, the Void Marketplace wouldn’t do such good business?

Seeing my not answer, Xing Hong knew that Ye Mo didn’t consider the dao actualisation pill divine of their merchant tower seriously. But reality was so indeed. Their dao actualisation pill divine was not on the same level at all compared to Ye Mo.

"Pill divine Ye, with your pill concoction skills, there's hope of reaching dao essence pill divine. But if your cultivation level can't reach dao essence then it would be very hard to concoct dao essence god pills..." Xing Hong said.

Ye Mo smiled "Immortal friends Xing, the path of cultivation is slow. Some things come slowly. I believe if I spend time, I would eventually reach dao essence."

Xing Hong's expressionless face finally showed some emotion, "Pill divine Ye, that's right but in a place like the Void Marketplace, power is everything. People might attack you at any time. Only once you have power do you have the right to speak. I came here to do a deal with pill divine Ye. Pill divine Ye will concoct pills for the Void Marketplace merchant tower and we'll give pill divine Ye a spot to go into the dao fruit tower. We also promise to be pill divine Ye's backup and at least in the Void Marketplace, no one would dare to touch pill divine Ye."

"Dao fruit tower?" Ye Mo asked in confusion.

Xing Hong looked at Ye Mo's expression and knew he was a noob. He said calmly "Do you know why the Void Marketplace is so prosperous? Of course, it's partially due to a lot of powerful beings and wealthy divine emperors coming here to deal but another reason is the dao fruit tower.

In the endless void between realms, there's a chaos tower called dao fruit tower. This chaos tower has nine levels and each level has a dao fruit tree. Level 5 is a purple heaven dao fruit tree. As a pill divine, you would know the use of the purple heaven dao fruit right? It can let dao nourishment divine emperor learn dao waves and find their opportunity to reach dao actualisation divine emperor. If that's not attractive enough then I believe any divine emperor below dao essence can't reject the Qian Essence dao fruit of level 7. That can allow people to learn dao essence dao wave."

Xing Hong's words made Ye Mo take in a cold breath. No wonder there were so many divine emperors in the Void Marketplace.

But Ye Mo knew that relying on the dao fruits to progress wasn't suitable for him. His dao was chaos dao. He could use dao fruits to fuse into his god art but he wouldn't use the dao fruits to purely break through his dao.

"Is there some limitation to go in the dao fruit tower?" Ye Mo asked.

Xing Hong heard Ye Mo ask and knew Ye Mo was probably interested. He smiled and said “There’s 999 spots to enter the dao fruit tower. Everyone on the god rank can enter. There’s 499 spots remaining to be divided by the races. We Void Marketplace merchant tower have 10 spots.”

Ye Mo was surprised. He knew that Void Marketplace merchant tower’s power level was probably the top at the Void Marketplace but even they only had ten spots. Ye Mo subconsciously asked “How many spots does the human race have?”

“Human race has no spots right now.” Xing Hong said plainly. He was going to let Ye Mo understand how precious one spot was.

Ye Mo’s heart sunk. Human race was definitely a big race but they didn’t even have a spot. No wonder the Divine Dao Realm was so broken and no one spoke up.

“Why does the human race have no spots?” Ye Mo asked.

Xing Hong explained nicely “When the human race Divine Dao Realm was broken and human primordial essence divine emperors disappeared, they have no power in the Void Marketplace. As for dao fruit tower, it’s a place where power speaks. Without power, of course you have no right to get into the dao fruit tower. However, the human race does have someone going in. There’s two humans on the god rank. They have the right to enter the dao fruit tower.”

“How to get on the god rank?” Ye Mo fell silent for a while and suddenly asked.

Xing Hong thought Ye Mo wanted to get a spot from the god rank and said seriously “Everyone on there is at least a peak stage master of the first step of dao vindication. Even if they fight a dao essence divine emperor, they might not get killed. Pill divine Ye, it’s not that I look down on you but as a dao actualisation pill divine, you’re already at the peak of divine emperor. You’re walking a different path to others. You don’t need to use cultivation power to prove yourself.”

Seeing Ye Mo not talk after all that, Xing Hong could only continue “The god rank is decided based on the tournament before the dao fruit tower opens.”

“What if someone defeats a god rank master at other times?” Ye Mo asked.

“The divine tablet of the Void Marketplace would automatically replace the defeated with the victor’s name.” Xing Hong said.

Ye Mo nodded and asked after a while “Immortal friends Xing, is the dao fruit tower is about to open?”

Xing Hong quickly said “No, there’s still more than 100 years before it opens but we can give it to you now.”

Ye Mo smiled “Then we’ll discuss when the dao fruit tower opens.”

Xing Hong “Pill divine Ye, if the dao fruit tower opens, the spots would be more sought after. I don’t know if I could get any then.”

“Not a rush, who can be sure of what happens 100 years later.” Ye Mo didn’t plan to use dao fruit to break through but even if he did, he didn’t plan to use a spot a hundred or so years later to do this deal.

Seeing Ye Mo really not interested in the dao fruit tower, Xing Hong said desperately “Pill divine Ye, even if you don’t want the spot, you still need a powerful backup to keep having a stall here. Otherwise, I’m certain people would be looking for your trouble tomorrow. Even that Wan Tongtong wouldn’t be easy to deal with.”

Ye Mo nodded “I believe that so I’ve decided to stop the stall tomorrow. That way, people wouldn’t have a reason to look for my trouble.”

Ye Mo didn’t expect the profit of the first day to be this terrifying. If he continued, people would definitely come for his trouble.

Xing Hong dazed. He didn’t expect Ye Mo really intending to stop. If Ye Mo leaves the Void Marketplace, where would he find such a powerful pill divine? If he didn’t have to, Xing Hong really didn’t want to force Ye Mo.

“Pill divine Ye is a pill concoction grandmaster, have you heard of light heart?” Xing Hong finally took out his trump card.

Chapter 2149 Light Hear

Ye Mo shook his head to say that he hadn't heard of it.

“You actually never heard of light heart?” Xing Hong looked at Ye Mo with disbelief.

“Please teach me.” Ye Mo saluted with his fists.

Xing Hong stared at Ye Mo for a long while before confirming that Ye Mo really didn't know about light heart. He explained “You can concoct dao actualisation god pills meaning that you have a top level heaven flame. Even if this flame wasn't at the peak of god flame, it's a god flame right?”

“That's right.” Ye Mo said.

“Then you probably know what the highest level of flames are right?” Xing Hong asked again.

Ye Mo nodded “I only know that in the immortal realm, once a flame reaches god flame it would be the highest level but according to my guess, god flame isn't the highest level.”

Xing Hong sighed and looked at Ye Mo saying “I really don't dare believe you have such high pill concoction prowess. I'll tell you. Usually, god flame is already at the peak but god flame indeed isn't the highest level of flame. The highest level of flame is called divine flame.”

Ye Mo thought, this was indeed. Little blue couldn't melt Murder Dao Spear and from that he knew that God flame wasn't the highest level.

Xing Hong nodded “Even in the entire universe, there's only a few divine flames. The reason divine flames are so hard to get is because they are formed from a top level god flame devouring light heart. As a prenatal material, light heart is very rare.”

“Light heart is prenatal material?” Ye Mo was truly shocked this time.

Xing Hong said heavily “That’s right. Light heart is formed in the light world of the universe. It’s very rare and even if there are any left, it’s collected by powerful beings to feed their flame. The light heart is a prenatal material but it can’t be made into other magic artefacts. It can only allow a flame to reach divine flame.”

“You’re planning to give me a light heart?” Ye Mo thought. If there really was a light heart, he could help this Void Marketplace merchant tower.

Xing Hong smiled bitterly “Pill divine Ye looks too highly of us. We’re wealthy but we don’t have the capability to give a light heart to pill divine Ye.”

Ye Mo frowned, then why even speak about this.

“However, we can provide pill divine Ye with an extreme grade god spirit range and 2 billion god crystals to contend for the light heart.” Xing Hong said.

Hearing this, Ye Mo was extremely shocked. He had about 2 billion god crystals and this was very wealthy too him but they gave him this much so casually. Ye Mo knew that although he could earn 1 billion god crystals on the first day but that didn’t mean the second and third would be the same.

Ye Mo immediately asked “There’s light heart in the Void Marketplace? It’s being auctioned?”

Xing Hong nodded “Yes, there are multiple merchant towers protecting it together. Ten days later, it will be sold with nine other absurd materials. There would be countless powerful beings coming.

Ye Mo sneered “Let’s not talk about whether I would be able to buy it but even if I do, do you think I can protect it?”

Xing Hong's face dazed for a moment and said "Of course not by yourself but if you join the Void Marketplace merchant tower then there would be no problem. We're not the strongest in the Void Marketplace but no one dares to come start trouble with us."

"What if a primordial essence divine emperor came?" Ye Mo said plainly.

Xing Hong said assertively "Primordial essence divine emperors have indeed come to the Void Marketplace before but I'm certain there would be no way primordial essence divine emperor would come to this auction. Primordial essence divine emperor knows the heavens and earth. Even if the Void Marketplace is good, it can't attract such powerful beings. Plus, the light heart will be sold ten days later. Even if primordial essence divine emperor gets news of it, they wouldn't have time to buy it."

"Thank you for your good will immortal friends Xing. I'll think about it but never mind about the light heart. I'm not interested in this." Ye Mo got up and saluted with his fists. Ye Mo hadn't seen the power of the primordial essence divine emperor but he was certain that even just 15 minutes was enough for them to cross over from another realm much less ten days.

Seeing Ye Mo's firm attitude, Xing Hong could only get up Then have a good think pill divine Ye. You can come to me at anytime. If pill divine Ye don't like staying here you can move into our hotels at anytime."

"Okay." Ye Mo said and watched Xing Hong leave.

He wanted the light heart of course but he knew that if he really bought it, he would never be able to leave the Void Marketplace merchant tower.

Regardless if he could get the light heart or not, he would go try. He wasn't going to let others know he came to the auction.

Ye Mo just asked at the auction door and knew about auction. There were nine other things auctioned along with light heart but Ye Mo hadn't even heard of any of them.

The entrance ticket to the auction was 10 million god crystals and a room costed 50 million god crystals.

Ye Mo thought there was no way people would pay this much for an auction that only had ten things but just standing at the door for a while, Ye Mo saw nearly hundreds of tickets being sold. Ye Mo exclaimed, there were too many wealthy people in the Void Marketplace.

Ye Mo had decided to enter the auction but he didn't dare to buy tickets now. He squeezed into the crowd and then left the Void Marketplace.

He had to be very careful about the auction this time. Otherwise, with his power, he would easily die.

If there wasn't so many restrictions in the Void Marketplace, he even planned to set up a teleportation formation.

After Ye Mo left the Void Marketplace, he started to change his looks and chi. Ye Mo made a magic artefact that changed his looks. It didn't take much effort.

A day later, a dark robed dao essence divine emperor entered the Void Marketplace. He walked around the Void Marketplace streets for a while before buying a room ticket at the auction. Ye Mo was so desperate as he knew there would only be 10,000 tickets being sold this time.

Although there were many people buying the tickets, most people in the Void Marketplace didn't know about the auction. Otherwies, the tickets would be sold over in a day.

Most people who came to buy tickets heard some inside story like Ye Mo.

After buying the ticket, Ye Mo secretly recovered his look and went back to his stall.

Chapter 2150 Resolve Conflicts

Ye Mo, where have you been these few days? I've been looking for you for a few days." As soon as Ye Mo came back, Tang Xiaoyu came up and asked desperately.

Ye Mo laughed "I went elsewhere to buy some materials."

“Pill divine Ye, you’re finally back. I need to ask you to help concoct a cauldron of north soul pills...”

“Pill divine Ye...”

As soon as Ye Mo spoke with Tang Xiaoyu, quite some people squeezed up to Ye Mo’s stall.

These people were all waiting for Ye Mo to concoct pills. Ye Mo disappeared for an entire day. No wonder they were so worried.

Ye Mo quickly stood out and said loudly “Everyone, lately, I’ve used up all my pill concoction materials and due to concocting pills for a day and night, my sea of consciousness is a bit damaged. I need to go into solitary cultivation for a few days. Please come over a bit later.”

This was a right excuse.

“Solitary cultivation? I’m afraid you can’t go into solitary cultivation now.” An extremely cold voice sounded.

This voice was so cold that instant second powerful force pushed people back.

“It’s Wan Tongtong ranked 273 on the god rank.” People immediately recognised this person.

“Next to her is god rank 121 Xie Li...”

“Pill divine Ye has trouble now.”

“Hehe, perhaps our opportunity has come. If pill divine Ye speaks, we’ll attack.”

“Idiot, do you think the people from the god rank are like ordinary dao actualisation divine emperor? They can instantly kill three or four ordinary dao actualisation divine emperors.”

Ye Mo looked at this woman. She was dao actualisation divine emperor peak stage. She was extremely tall.

The dao actualisation divine emperor next to her had even stronger dao waves than her.

Ye Mo suddenly regretted. If he knew that Wan Tongtong would come for his trouble at this time, he wouldn't need to have left the Void Marketplace. He would wait till she kicked him away and then come back to buy tickets.

You're quite bold. Do you think that just because you're a pill divine, you don't need to worry?” Wan Tongtong looked at Ye Mo in contempt.

Ye Mo said casually “I've never seen your brother. His death has nothing to do with me. If you have to blame his death on me then whatever.”

“You're a pill divine and I don't dare to attack you now indeed. If you have the balls then accept my challenge. I formally challenge you now.” Wan Tontong said.

Even if Wan Tontong didn't attack him, Ye Mo planned to challenge her. He didn't understand why she attacked him. There was no way she didn't know he didn't kill her brother.

She knew this and she still challenged him who was a pill divine. What did this mean?

“In order to prevent others from disturbing our battle, if you're willing to accept the challenge then we'll clash in the void.”

Hearing this, Ye Mo realised. She wasn't here to get revenge for her brother, she was here for his wealth.

A mere dao actualisation divine emperor dared to greed after his things. Ye Mo sneered inside. However, she was lucky as he wouldn't kill her.

Just when Ye Mo was thinking about how to disappear from the Void Marketplace, a deal came up to him. If he was chased away by Wan Tontong, then he could come back in a new outfit and buy the light heart.

Ye Mo didn't say much and said to Tang Xiaoyu "Go do your thing I need to resolve conflicts with this Wan Tontong."

Tang Xiaoyu quickly said "Ye Mo, this has nothing to do with you, why are you fighting her?"

In Tang Xiaoyu's eyes, there was no way Ye Mo was a match for Wan Tontong. It was suicide.

A sliver of joy flashed across Wan Tontong's eyes and she immediately said "Seeing as how you have some courage, if you can last more than five minutes with me, I can let you live."

She turned to that man and said "Martial brother Hai, wait for me here for half a day. After I get my revenge I will come back immediately."

Then she sneered at Ye Mo "Let's go."

Ye Mo chased up without hesitation.

After leaving the Void Marketplace, Wan Tontong realised a top grade flying god artefact. Ye Mo took out his space time boat and followed her closely.

Ye Mo followed her but on the way, he left clear marks.

Wan Tontong didn't notice this at all. When she saw Ye Mo's flying magic artefact, she rejoiced. It was just as Ye Mo guessed. She had already discussed with Xie Li. After she killed Ye Mo, they would split Ye Mo's things.

Half a day later, Wan Tontong stopped and threw out a teleportation formation disk and said "Give me everything you have, I might not kill you."

Ye Mo couldn't be bothered talking to her and realised Zi Xu. If he didn't need to let this woman spread news for him, he would've killed her in one strike.

Crevice god art was only an ordinary god art amongst Ye Mo's arsenal but Ye Mo attacked with full power. He wanted to see what the top three hundred of the god rank was like.

Wan Tontong clearly didn't expect Ye Mo to say nothing and attack straight up. She released a five color full moon bracelet.

The five colors shone and instantly formed a shield blocking Ye Mo's purple ray.

Thud. The crevice purple ray landed on this shield and scattered rainbow colors.

Wan Tontong felt her sea of consciousness rumble. She was very shocked. It was just a simple clash to test each other but Ye Mo's powerful god essence and spirit sense made her unable to believe it.

She was someone of the god rank. Ordinary dao actualisation peak stage was nothing to her. To be able to shake her sea of consciousness, it meant that his power was stronger than ordinary dao actualisation divine emperor. No wonder he dared to come, he thought he was strong.

No matter what, she was going to kill him. She threw out the formation disk and in a blink, Xie Li appeared next to her.

"Martial brother Xie, this person isn't weak. He's slightly stronger than ordinary dao actualisation divine emperor." Wan Tontong said.

Xie Li sneered "No wonder you dare to come out alone. I heard this person earned nearly one billion god crystals in one day and piles of materials and god spirit herbs. I think he still has quite a lot of god pills on him now. Martial sister Tongtong, let's finish the battle quickly..."

However, before he attacked Ye Mo, Ye Mo used transmission and disappeared.

“Let’s chase, he won’t be able to escape.” Xie Li sneered.

“It seems he’s no ordinary dao nourishment divine emperor. He broke free from our combined domain. Perhaps he has other secrets.”

Wait, why did he leave a trail of these magic artefact fragments after leaving and some broken armor?” Wan Tontong grabbed out a few magic artefact fragments from where Ye Mo disappeared.

“Haha... you two earned a huge sum just then. We came just in time. However, we can only see some magic artefact fragments. That’s right, a mere dao nourishment divine emperor is quite amazing to last a few seconds with you two.”

Before the two could leave, a huge laughter sounded and a few more people appeared around them.

Xie Li frowned “Baili Hong, what do you mean?”

If it wasn’t that Baili Hong was also on the god rank, Xie Li would’ve attacked already. This guy wasn’t ranked much lower than him.

There were three people who came. The leading man sneered “Let’s cut the crap. Don’t even tell me about Wan Tontong’s revenge. We’ve been watching the pill divine Ye for an entire day. We don’t need a lot of his materials and god crystals. Just split us 40%.”

Xie Li and Wan Tontong finally realised why Ye Mo threw down those magic artefact fragments. They didn’t even have time to be angry over how shameless Ye Mo was as they were facing three dao actualisation divine emperors no weaker than them. There was no use in explaining now.

No one would believe a dao nourishment pill divine would be able to escape two god rank masters. Plus, there were this many marks left at the scene.
