

Strongest As 2151

Chapter 2151 Primordial Spirit Artefac

Ye Mo was already very far from the battle grounds now. Even if the two weren't stopped, there was no way they would be able to chase up to him.

If he didn't need the two to tell everyone he ran away, he would've killed them on the spot.

After cultivating in the Golden Page World for a few days, he changed himself into a dark robed dao essence divine emperor and entered the Void Marketplace again.

Ye Mo didn't believe anyone would be able to recognise him. Even a primordial essence divine emperor would have to have seen him before to recognise him. He had turned into a cocky dark robed dao essence divine emperor.

Most stealth cultivation methods suppressed their power levels but only Ye Mo could change his cultivation level to a higher one.

As soon as Ye Mo entered the Void Marketplace, he knew that the news of the auction had leaked. The entrance was squeezed full with all sorts of divine emperors. They all came to seek one door ticket. Many people knew that even if they got in the auction, they wouldn't be able to buy anything but they were still willing to go in and see things.

Ye Mo rejoiced that he bought the tickets early. Otherwise, he wouldn't even be able to get in.

If he knew this would happen, he should've bought large sums of tickets and resold him. But Ye Mo only just thought about it. He knew that if he wanted the light heart he couldn't do this.

The auction would open two hours later. Ye Mo walked around and came before his stall.

Ye Mo found in shock that his stall was still there. There were still some divine emperors discussing.

Ye Mo walked up.

"What a pity. Pill divine Ye was such a good dao actualisation pill divine but was killed after concocting pills for one day."

Yea, that previous stall owner Wan Feijian had nothing to do with pill divine Ye. That Wan Tongtong thinks she's from the god rank and thus could do anything."

"Well she got what she deserved. So what if she killed pill divine Ye, she's beaten into heavy injury. If she didn't have an astral transmission rune, she would've died already."

Hearing this, Ye Mo realised that the traps he set behind were useful. Ye Mo was in a great mood now. Although he couldn't teach her a lesson personally, it was still good that the dogs bit each other.

“You said pill divine Ye was killed?” An extremely serious voice sounded.

Ye Mo became careful. This person was definitely a dao essence divine emperor peak stage. Just from his tone, he could tell that this person had killed too many.

“Yes, pill divine Ye was killed. Wan Tongtong and Xie Li hunted him and pill divine Ye was killed in the void by them.” People on the side quickly said.

The blue faced divine emperor frowned and sneered “Where are those two?”

“They were beaten into heavy injury and escaped with secret techniques.”

“Where are the people who beat them? What are their names?”

“It’s Baili Hong and...”

Before the divine emperor, this blue faced dao essence divine emperor already disappeared.

Ye Mo looked at this person in confusion. He had never seen this guy before but he seemed desperate to find him.

The reason the stall was still here was probably due to the Void Marketplace merchant tower. They were hoping he wasn't killed and would come back.

But even if Ye Mo was to come back using his original identity, that would be after he reached dao actualisation divine emperor or even dao essence divine emperor.

When Ye Mo left from here and returned to the door of the auction, the grounds were already open.

As a cocky and violent dao essence divine emperor, no one dared to come talk to him when he entered.

Ye Mo had never seen a room that costed 50 million god crystals. He was certain that the organisers of this auction would at least make 100 billion. But Ye Mo knew this wasn't much. Just protecting the light heart would need multiple dao essence divine emperors to protect it. This costed money.

After entering the room, Ye Mo felt it was only so so. There were just some restrictions but in terms of area and immortal fruits, it was worse than ordinary auction rooms.

Ye Mo didn't care about this. The first thing he did coming in was to set up all sorts of restrictions. He wasn't going to let people scan their spirit sense in his room no matter what.

The auction was very big. In here, even ordinary seats had restrictions to protect them. No one's spirit sense could scan in.

Everyone who came could only see one place and that was the centre stage.

After Ye Mo set up restrictions, he sat for 15 minutes and a grey robed old man appeared on the stage. Even through the restrictions, Ye Mo could tell this old man was a dao essence divine emperor.

The old man saluted with his fists and said “Immortal friends, every item sold here will be one that will shock a realm. I won’t waste much time, the first item is called Immortal Extermination Stick...”

Ye Mo didn’t know what this was but as soon as the old man said this, the entire lobby and all the rooms rustled about.

The old man raised his hand and calmed people down before continuing “I believe not many wouldn’t know what this is. That’s right, Immortal Extermination Stick is a Primordial Spirit Artefact...”

Hearing this, Ye Mo took in a cold breath. This was something even primordial essence divine emperor would fight over. This was something many levels higher than extreme grade god artefact. This wasn’t something that could be forged. Who was dumb enough to sell it?

The old man coughed “Of course, although it’s a Primordial Spirit Artefact, it’s broken due to some reasons. It’s no longer considered a Primordial Spirit Artefact.”

Hearing this, Ye Mo thought that was right. But even a broken Primordial Spirit Artefact wasn’t something ordinary extreme grade god artefact could compare with.

The old man didn't continue talking. He opened the wooden box on the table and took out a black stick. Even though it was broken, the powerful force could still be felt. People's sea of consciousness was shaking when their spirit sense landed on the stick.

"There's no starting price. The highest bidder gets it, the bidding begins now." The old man said.

Chapter 2152 Insane Auction

"200 million god crystals plus two middle grade god spirit range." Someone bid,

Ye Mo wasn't interested in this stick but hearing this first bid, his heart sunk.

Clearly, the final price would be much higher than this, maybe even ten times more. Thus, it was really questionable if he could take down the light heart.

He had 2 billion god crystals and two extreme grade god spirit ranges. He had a few more top grade god spirit ranges. As for middle grade, Ye Mo didn't even bother calculating. Middle grade god spirit range definitely wasn't enough to buy Primordial Spirit Artefact.

"500 million god crystals and a top grade god spirit range." Someone else bid.

The price kept going up until the stick was bought with 1.1 billion god crystals and one top grade god spirit range.

The dao essence divine emperor used the teleportation formation on the stage to send the stick to the bidder before taking out the second jade box "I believe no one wouldn't know the second item, it's a cosmic lotus..."

As soon as these two words came out, it caused even more ruckus. Even Ye Mo was extremely shocked. Just what auction was this.

He was thinking about cosmic lotus when he bought the nine star bamboo. Now, he really saw one. The cosmic lotus had nine petals and a seed. The seed could be eaten alone to learn dao essence or if it was used in pill concoction with the petals, it could be concocted into the cosmic dao pill.

The Qian Essence dao fruit was also one to help people reach dao essence but everyone knew it was far from as valuable as the cosmic lotus.

Ye Mo really wanted the cosmic lotus but he knew his fortunes were limited.

The auctioneer held his hands to quiet down everyone before continuing "The cosmic lotus is left here by someone to auction. We don't get to decide if the final price is high or low. He will sell the lotus to whoever gives him the thing he wants the most."

"I'll bid 800 million god crystals and one top grade god spirit range." Someone who could bid such price were pretty much all from the rooms.

"1 billion god crystals and one top grade god spirit range and one Du Yuan Eye."

Du Yuan eye was something extremely good. It can be used to concoct god eye pill. Even direct usage can clear up one's eyes.

Just the second bid made the scene fall silent.

"Are there any other bids?" The dao essence divine emperor knew this price was a bit awkward. One billion god crystals wasn't high but that Du Yuan eye stopped many people from bidding.

Just when everyone thought this would be the price a new bid appeared "One top grade god spirit range and two Great Primordial God Rune dao fruits."

As soon as this price came out, it caused a huge ruckus. Cosmic lotus was a dao fruit and it was worth much more than ordinary dao fruits but the Great Primordial God Rune dao fruit was a powerful dao fruit. It wasn't as good as the cosmic lotus but two was bidden. The only drawback to this bid was no god crystals.

Clearly, Ye Mo bid this.

Even the auctioneer was touched. He didn't understand why the bidder didn't auction these things.

After a while, no one else bid again.

The scene fell silent. Due to privacy measures, the seller and bidders' identities wouldn't be exposed. Everyone wondered if this person had more Great Primordial God Rune dao fruits. If he did, would he auction them?

15 seconds later, the dao essence divine emperor said "The seller chose 1 billion god crystals, one top grade god spirit range and one Du Yuan eye. But he wants to ask if the immortal friends with Great Primordial God Rune dao fruit would exchange other things for the two Great Primordial God Rune dao fruits?"

Ye Mo couldn't even be bothered answering and just took back his bid.

Seeing this, the dao essence divine emperor knew that Ye Mo didn't agree.

After exchanging things, the auctioneer was ready to take out the third item when a voice suddenly said "I'll use 200 million god crystals and a top grade god spirit range to exchange for one Great Primordial God Rune fruit. Would immortal friend agree?"

This was clearly against the rules of the auction but the old man said nothing. To him, an extra deal meant extra 10% commission for the auction.

No one answered. People realised that this owner of Great Primordial God Rune fruit didn't lack god crystals. What a pity his Great Primordial God Rune dao fruit wasn't being auctioned.

The dao essence old man took out another jade box and said “The third item is called Abstruse Light Thousand dark ship. It’s an ancient extreme grade flying god artefact. It’s the most suitable for crossing the void.

Ye Mo breathed easy. If it was another Primordial Spirit Artefact, he would be speechless.

The extreme grade flying god artefact wasn’t worth as much as Primordial Spirit Artefact nor cosmic lotus to Ye Mo but to other divine emperors it was the same. The price soared rapidly making even Ye Mo think if he should get some top forgery materials to forge extreme grade flying god artefact and sell them?

Eventually, this ship was bought for 1.7 billion god crystals. Ye Mo realised by now that in those complete realms, it didn’t seem very hard to get god crystals.”

The old man took out the fifth item and said “Everyone, although this jade box is very small it’s actually a space jade box. There’s a rune inside the jade box. It’s left by an ancient powerful being. You’re right, this time, we’re selling this rune. It’s called Great Primordial God Rune...”

Hearing this, the scene completely erupted.

The Great Primordial God Rune was renowned as one of the most terrifying god arts in the void as it could ignore space time. At the very extreme, no matter what space or time law you used against the Great Primordial God Rune, it would be useless.

It was extremely hard to cultivate the Great Primordial God Rune and much harder to reach great mastery. But everyone knew that if you reached great mastery, you would have this terrifying aura around you.

Ye Mo breathed slowly. He didn't expect someone to be able to collect the Great Primordial God Rune and sell it. He knew how hard it was to collect the Great Primordial God Rune.

After everyone calmed down, the old man explained for the first time "I'll explain a little about this Great Primordial God Rune. Most people just know of its terror but not its origin."

Ye Mo also listened.

Chapter 2153 Fight Over Light Hear

When everyone calmed down the old man said "It's said that the Great Primordial God Rune is created by the human race powerful being Great Primordial Divine emperor. He could use a total of nine god runes. Each rune could cross endless void. No one had ever escaped from his god rune. Some people think that one could shoot out countless Great Primordial God Runes. That's wrong.

The Great Primordial God Rune is different to other god arts. It's a god art that can only be inherited. After Great Primordial divine emperor died, he left his nine Great Primordial God Rune dao waves. If you saw the nine god runes and learned it then it's yours. If you only saw one god rune and learned it then you can only use one Great Primordial God Rune. You wouldn't be able to learn the second rune yourself just because you're talented. If you want to use the second rune, you would have to find Great Primordial divine emperor or find the mark of the second rune left behind by his descendants..."

The dao essence divine emperor felt the jade box and continued "Usually, the people who mastered Great Primordial God Rune would mark down his Great Primordial God Rune before dying. No matter after how many passings, the total number of Great Primordial God Rune is nine. It can only decrease, not increase."

Hearing this, Ye Mo frowned. This was completely wrong. He saw two Great Primordial God Runes and it wasn't left behind by Great Primordial divine emperor.

But now, his third Great Primordial God Rune was about to form. In some time, Ye Mo would be able to use three Great Primordial God Runes. Going like this, in time there would be even 90 Great Primordial God Runes.

This old man sighed "Even an ancient powerful being like Great Primordial divine emperor would die to the hands of others. So, god art is just a mean, not the end result. Okay back on topic. I have one Great Primordial God Rune here. It's left behind by the Great Primordial divine emperor."

Almost everyone guessed that the person with the Great Primordial God Rune dao fruits would try to buy the Great Primordial God Rune at all costs.

Those who wanted to buy the Great Primordial God Rune too was also thinking about how to buy the Great Primordial God Rune dao fruits after buying the Great Primordial God Rune.

Ye Mo didn't even want to buy the Great Primordial God Rune.

Ye Mo knew that the old man clearly told the truth but his Three Birth Chant was so insane that it broke the law of the Great Primordial God Rune. He can give rise to new Great Primordial God Runes.

"one billion god crystals and one top grade god spirit range." The first bidder said.

"1.5 billion god crystals and one top grade god spirit range."

"2 billion god crystals..."

In less than five minutes, the price has risen to 2.4 billion god crystals and one top grade god spirit range.

Ye Mo looked at the soaring price and didn't even care. He knew that even if the Great Primordial God Rune was bought, people might not be able to learn it. Gongyang An was an example. There were all those talented divine emperors in the God Necropolis Domain but the two Great Primordial God Rune still stayed in there for countless years.

Ye Mo knew that if he didn't cultivate the Three Birth Chant, it would be almost impossible for him to learn the Great Primordial God Rune much less derive more Great Primordial God Runes.

After another 15 minutes, the price set at 3.4 billion god crystals and one top grade god spirit range.

Ye Mo knew that this price was too high. It was at most worth 300 million top grade god crystals. The reason it was brought up to this price was because many people thought the Great Primordial God Rune would turn into their god art after buying it.

Ye Mo suspected that the seller sold the Great Primordial God Rune probably because he couldn't learn it and thus had no choice but to sell it. The auctioneer knew this but he didn't say it clearly. He said god art was just a mean and that was his hint.

If the Great Primordial God Rune could immediately turn into your god art after buying it then even 34 billion wouldn't be expensive.

"No immortal friends are bidding, then the Great Primordial God Rune will be sold to you for 3.4 billion and one top grade god spirit range." The old man said.

Many people suspected that this bidder was Ye Mo who took out the Great Primordial God Rune dao fruit.

When the scene calmed down, the dao essence old man took out the next jade box. Ye Mo's spirit sense had been watching this old man. Although this old man said nothing, Ye Mo's heart shook. He knew it was light heart.

Even though it was bound by the restrictions in the box, that ancient fire dao wave of the light heart could still be sensed by Ye Mo.

Ye Mo thought it would be taken out last but it came out halfway.

The old man raised the jade box and said seriously This is a true Primordial Spirit Artefact, called light heart...”

As soon as the old man said this, the scene had this murderous chi. Clearly, not just a few people came for the light heart.

Ye Mo could even feel this killing chi inside his room.

“Light heart is also being placed here by a customer for auction. So your prices will be determined by the owner. I will now open the box and show everyone the light heart...”

As soon as the dao essence old opened the box, an extremely intense light shot out. There were slivers of dao waves in the light.

Primordial Material was terrifying indeed. This was Ye Mo’s first time seeing primordial material.

Little blue immediately became restless and kept sending Ye Mo messages that he wanted the light heart. If Ye Mo didn’t restrain him, he would’ve went out to take it.

Ye Mo calmed little blue down and had decided to get the light heart no matter what. As soon as he got it, he would leave the Void Marketplace. Although the latter items would be even better it was too dangerous to stay.

“Everyone start bidding.” The dao essence old man said.

“2 billion god crystals and one top grade god spirit range.” The first bidder said.

Ye Mo frowned, he only had 2 billion god crystals in total. By the looks of this, even if he accept Xing Hong’s help, he wouldn’t be able to buy the light heart.

“2.5 billion plus two top grade god spirit range.” The second bidder sounded.

“One billion plus one extreme grade god spirit range.”

“2 billion plus one extreme grade god spirit range.”

The price soared like crazy.

Ye Mo knew that if this continued, he wouldn't be able to buy it even at his max price.

“One billion god crystals, one extreme grade god spirit range and one yellow middle plum dao fruit.”
When this bid appeared, the scene fell silent again.

What was Yellow Middle Plum? It was one of the ten great spirit items. The value of just one Yellow Middle Plum dao fruit was no lower than light heart.

Chapter 2155 Thinking of a way to leave

He was planning to leave the Void Marketplace as soon as he got the light heart. He could use teleportation formation disk to leave at the city gates. He had already set things up. Then, he would keep using instant transmission and eventually fly away with his extreme grade flying magic artefact. Even the most powerful dao essence divine emperor wouldn't be able to stop him.

It was because of this that Ye Mo dared to participate this auction but now things didn't seem to go as he expected. Xing Hong said that there was no way there would be primordial essence divine emperor here but how did this primordial essence divine emperor come? Even if he didn't reach primordial essence divine emperor, he was still a half primordial essence.

Ye Mo didn't think he could get away from such person. He might not even be able to leave the Void Marketplace.

Ye Mo didn't put his two Yellow Middle Plum on the teleportation formation. He was thinking about how to leave the Void Marketplace.

Just when the dao essence old man didn't know what to do, there was another sneer "Do according to the rules before. Let the bidder teleport his things to the auction and let everyone see."

Hearing this cold sneer, Ye Mo knew it was the seller. This person was another half primordial essence or primordial essence divine emperor.

It was definitely this person who asked him to teleport the Yellow Middle Plum to another place. Since he was the seller, why did he rebuke his rules.

Did he want to annihilate him and take his two Yellow Middle Plum? Wait, Ye Mo instantly realised what went wrong. His face looked extremely bad. His mind was completely occupied by the light heart that he didn't think about the Yellow Middle Plum was just picked. Just looking at the time marks on it, a divine emperor would be able to recognise it easily.

If people saw that his Yellow Middle Plum was just picked, it meant that he had Yellow Middle Plum tree. This meant that he had five element world or even chaos world. Thinking about how he bid two Great Primordial God Rune dao fruits, the auction organisers were almost certain he had five element world.

Ye Mo's heart sunk. He grew calmer and calmer. He knew that at this time, the slightest mistake would cause him to be gone.

Although he knew they would find out, Ye Mo still took out two Yellow Middle Plums and one billion god crystals and teleported it to the stage. He didn't care about the light heart anymore. He just kept throwing out formation flags. Ye Mo was going to set up a powerful formation flag. He used all his top formation flags. Now wasn't a time to save materials.

Other than this, he was going to completely separate this space using formation from the formation of the auction grounds.

At this moment, Ye Mo's Yellow Middle Plums were teleported to the stage. Almost everyone was looking at the two plums.

There were exclamations of shock. After seeing it, everyone knew that they were looking at the real Yellow Middle Plum.

Five minutes later, Ye Mo stopped setting up formation and said in an icy voice "The Yellow Middle Plum has been verified for five minutes. I believe everyone know if it's real or fake. Why hasn't the auctioneer given me the light heart?"

The old man seemed to have just reacted and said awkwardly "You're immortal friends, due to the Yellow Middle Plum, I forgot about it."

Then, he didn't pretend anymore and teleported the light heart to him.

The instant it arrived, Ye Mo sent it into his Golden Page World immediately.

He knew that the light heart was real. What he needed to do now was think about how to leave the auction.

The Yellow Middle Plum was taken and many people knew that this divine emperor not only had the Yellow Middle Plum but also the Yellow Middle Plum tree and even a five element world.

At this moment, the two Yellow Middle Plum appeared before the skinny old man. The old man looked at one and his eyes shot out hot beams. He didn't know how many years it had been since he had such intense excitement. He placed down the Yellow Middle Plum and said "This person indeed has the five element world and Yellow Middle Plum tree..."

"Grand divine emperor, this thing has spilled out. I believe in just a few days, the Void Marketplace would be the world of primordial essence divine emperors." One dao essence divine emperor said worriedly.

The skinny old man thought for a long while before saying "If it wasn't that Luo Junxia old bastard, we can attack now but now, we need to settle him first. Send someone to invite him over. Tell him I, Peng Yuwen, have important business with him. I believe he will understand."

Yes." This dao essence divine emperor immediately left.

Ye Mo was still in the room and didn't leave. He barricaded all chi from his room and actually took out a pill cauldron and began pill concoction.

In just 15 minutes, six black pills were made. Unlike other pills, these pills had no good aroma. It only had violent chi.

This was created by him, Dao Restriction pill. It could burn his god essence and allow his cultivation level to rise a few levels. However, this pill had very potent side effects. Ye Mo only dared to use it as he had the chaos tree.

Ye Mo immediately ate a dao restriction pill. Powerful dao waves flowed. Ye Mo even felt that if he wanted, he could palm all the divine emperors in the auction to powder.

But Ye Mo knew this was an illusion. His power definitely increased but not as much as he thought.

Ye Mo didn't use the pill to increase his power and charge out. Even if he took another pill, that would be suicide. He immediately took out the Golden Arrow of Divine Exterminations and shot out seven.

He had refined 6 of them to 99th level of restriction and one to the 100th level. However, forcing it to not shoot far and tear the void in a certain range still made Ye Mo receive strong backlash.

After shooting out seven arrows and spitting mouthfuls of essence blood, a ripple appeared before his space. Ye Mo was shocked at the sturdiness of the void here. He waved out one region god art and the moment it formed, he released Murder Dao Spear and burned his god essence and essence blood like crazy as he smashed out multiple spears.

The ripple made a small crack under the terrifying lethal force of the Murder Dao Spear. A small crack in the void appeared. Ye Mo grabbed his bone arrows and formation flags without hesitation and went into the Golden Page World. Then he controlled the Golden Page World to fly into the void crack.

After Ye Mo went inside the Golden Page World, he breathed easy. If he wasn't a formation expert then even if he was a dao essence divine emperor and had the dao restriction pill, he wouldn't be able to tear open the void there.

The void here was so sturdy that Ye Mo felt only primordial essence divine emperor could tear it open. The void here was not only sturdy but also locked by formation and restriction.

"Such terrifying killing intent..." The skinny old man frowned when Ye Mo took out the Murder Dao Spear. He suddenly got up "Luo Junxia is here. Let him sit for a while. I'll go check 79th room."

In just a few seconds, he was in Ye Mo's room. Ye Mo's restrictions were easily wiped away by him.

"Tearing open the void?" The skinny old man's face was green. "Even I can't tear open the void here and yet a dao essence divine emperor tore open the void here. What monster is he?"

Chapter 2156 Blue Like Morning Sky Evolution

"Sister Bingyu, I'm already abstruse immortal peak stage. There was such a good immortal marrow pond but that Mu Wushuang didn't take it away. He's really a good person. Hmm, sister Bingyu, why don't you cultivate anymore?"

Zhen Bingyu smiled "Because I'm an immortal king peak stage. If I don't reach immortal spirit herb, cultivating would just condense my immortal essence. With my talent, it would be a bit hard to reach immortal monarch without monarch will pill. Yimo, you're ai peak stage now. Let's leave and wait till you reach great unity immortal first."

"But sister Bingyu, I don't have great unity pill." Yimo looked at the immortal marrow pond unwillingly. This place was countless times better than using immortal crystals.

Zhen Bingyu smiled “Don’t worry, let’s go. Don’t worry about great unity pill.”

Zhen Bingyu’s great unity pills were given to her by Ye Mo. She didn’t expect that Yimo would be able to use them too. “Have divine damnation here?” Yimo looked at the immortal marrow pond.

“Definitely not. Although there aren’t many people on this level, there are still people. Once the divine damnation draws people’s attention, it would be hard for us to come back here and cultivate.” Zhen Bingyu quickly said.

The two left the immortal marrow pond. Zbyu was planning to take Yimo to find an open space for divine damnation but after just going for a few hours, rumbles of lightning caught Zhen Bingyu’s attention.

Then, Yimo saw the lightning too, “Sister Bingyu, is someone having divine damnation?”

Zhen Bingyu nodded “Yes, it’s also immortal king divine damnation. Someone is breaking through to immortal king. Have a look, it would help you reaching great unity immortal.”

Yimo followed Zhen Bingyu and came up to the divine damnation grounds. Before Zhen Bingyu finished talking, Yimo called out in surprise and joy, _Aunty...”

Zhen Bingyu recognised that it was Su Jingwen having the divine damnation. Protecting her was Tang Beiwei. They looked for these two before but weren’t able to find them but now they met through this divine damnation.

“You’re Yimo...” Tang Beiwei was watching outside nervously and immediately noticed Zhen Bingyu and Yimo. Tang Beiwei and Yimo immediately charged up to each other and embraced.

“Yimo, you not only ascended but are also abstruse immortal peak stage. This is so great...” Tang Beiwei knew how much her brother liked Yimo. Seeing Yimo safe, she was extremely happy.

“Rumble...” A few lightning arcs came struck down interrupting them.

Tang Beiwei just woke up and quickly said “Yimo, brother would be very happy to know you’re here. Sister Jingwen is having her immortal king divine damnation. After she finishes, we’ll talk.”

Yimo nodded and grabbed Zhen Bingyu’s hand saying “sister Bingyu, this is my aunty Tang Beiwei, the one having divine damnation is my aunty Jingwen.”

Zhen Bingyu smiled “I know sister Beiwei.”

“Sister Bingyu thank you for helping Yimo.” Tang Beiwei greeted Zhen Bingyu. Then, they all focused on watching Su Jingwen’s immortal king divine damnation.

Su Jingwen’s talent was extremely amazing. With Ye Mo’s cultivation resources, her progress speed was unimaginable. The immortal king divine damnation was nothing to her.

Another two hours passed. Su Jingwen had finished her divine damnation and started consolidating her power.

Seeing this, the other three felt assured and started to talk.

Yimo, your dad is so worried about you but now I can finally feel assured.” Su Jingwen came up to them quickly.

Soon, the four had chatted for more than two hours. Su Jingwen just remembered “Sister Bingyu, you’re about to have your divine damnation too right? After you reach immortal spirit herb, we don’t need to worry in the chaos star realm.”

Zhen Bingyu didn’t think that much and smiled in self mockery “After handing Yimo to you guys, I will be going to the grand heaven domain to find chance to break through immortal spirit herb.”

Su Jingwen suddenly thought of something and took out a storage ring to Zhen Bingyu “Sister Bingyu, your cultivation things are here.”

Zhen Bingyu took it in confusion “Mine?”

“Just have a look and you’ll know.” Su Jingwen smiled.

Zhen Bingyu’s spirit sense scanned inside and her hands shook almost dropping the storage ring. Monarch will pill, great void meridian pill, Tai Wei emperor return pill... immortal crystals and extreme grade immortal range...

With all these things, she didn’t need to go find cultivation resources at all.

“But I...” Zhen Bingyu really wanted to say that her liking Ye Mo had nothing to do with these things.

Although Zhen Bingyu grew up in the immortal realm and seemed older than Su Jingwen but in terms of emotions, ten Zhen Bingyus couldn’t match with Su Jingwen. Now that Zhen Bingyu couldn’t speak, Su Jingwen knew what she meant and came up grabbing her hand “sister Bingyu, if he didn’t have you in his heart, he wouldn’t leave behind these things. Don’t worry, I didn’t make the decision.”

“Great, sister Bingyu have divine damnation first. I’ll have it last.” Yimo said happily.

Ye Mo was injured greatly when tearing open the void. The moment he laid in the Golden Page World, he breathed easy. He was certain that if the two guys in the auction weren’t primordial essence divine emperor and only half way primordial essence, they wouldn’t be able to tear open the space. Even if a primordial essence divine emperor tore open the void, he might not appear in the same realm as him. Even if one tore open the void at the exact same place and appeared in the same realm, the final destination might be millions of km away.

The reason he could tear open the void at the auction was mainly due to the Murder Dao Spear. Without the Murder Dao Spear, even if he used the seven Golden Arrow of Divine Extermination, he wouldn’t be able to tear open the void.

Ye Mo didn’t even know if it was good to melt the Murder Dao Spear anymore.

Ye Mo laid in the Golden Page World and slowly recovered his injuries.

The Golden Page World seemed very calm now. Even shadowless was cultivating much less other people.

A few days later, Ye Mo injuries were completely recovered.

He felt he was fine. Thus, Ye Mo sent his spirit sense carefully out of the Golden Page World. What appeared in his sea of consciousness was completely darkness. This was different to ordinary void. He had never seen this type of void before.

He had been through all sorts of voids. But usually, there were many illuminating objects in the void and thus he could see some light. It was his first time seeing complete darkness in here.

The first thing Ye Mo took out now was the light heart.

Ye Mo collected his feelings and just when he was about to open it, he felt a spirit sense mark. This was made on the surface of the box.

Ye Mo sneered but didn't destroy the restriction. He just opened the jade box.

The vibrant rays of the light heart shot out forming heat waves. Blue Like Morning Sky's fire spirit little blue immediately jumped around in a craze. Ye Mo released little blue without hesitation.

Little blue was like a thirsty person in the desert. It charged at the light heart and instantly swept around the light heart.

Extremely terrifying heat waves spread. Rays of vibrant blue spread in this extreme heat like crazy.

As time flew, the blue color and temperature that spread out were slowly collected back by little blue. The surface temperature of little blue grew lower and lower and the blue color became more receded until a blue flower floated in front of Ye Mo.

Chapter 2157 Melt Murder Dao Spear

“Boss, I’ve reached divine flame. Give me that shitty spear. I’ll melt it immediately.” Little blue’s excited voice sounded. “Okay.” Ye Mo immediately threw the Murder Dao Spear to little blue.

Ye Mo knew the Murder Dao Spear was very powerful. He was certain that if he spirit controlled a few more levels of restriction, it would be very useful even against dao essence divine emperor. However, he was worried about the spear.

However, when he threw the Murder Dao Spear to little blue, the Murder Dao Spear was no longer tame like before. A terrifying and powerful murderous intent erupted that instantly broke free from little blue’s bindings and disappeared into the heavens.

Ye Mo was very shocked. Little blue was a divine flame now and yet the Murder Dao Spear could still break free. He gave the Murder Dao Spear to little blue to burn for nearly a year and removed some impure chi but it didn’t affect the Murder Dao Spear at all.

Didn’t that mean the reason the Murder Dao Spear was burned was because it was willing. Now that Blue Like Morning Sky reached divine flame and Murder Dao Spear knew danger, that’s why it fled.

“Boss, there’s a spear spirit inside the spear. I didn’t notice it and it got away. Let me catch it.” Little blue felt very embarrassed.

Ye Mo waved his hand “No need.”

Ye Mo grabbed in the void and the missing Murder Dao Spear appeared in his hand again. In his Golden Page World, even if the Murder Dao Spear was ten times stronger, he wouldn’t be able to get away.

The Murder Dao Spear jumped around uneasily in Ye Mo’s hands.

Ye Mo’s spirit sense didn’t notice spear spirit but the restlessness and murderous intent was seeping out.

“really amazing. I’ve spirit controlled the first level of restriction and yet I didn’t know there’s a spear spirit hiding in here. Hehe...”

Ye Mo sneered. Clearly, the spear spirit had no good intentions hiding there. If it had good intentions, it would recognise him as master and he would know the existence of the spear spirit. No wonder he always felt uneasy about the Murder Dao Spear.

But then Ye Mo immediately noticed something was wrong. If the spear spirit was really that powerful then it should know about him buying the light heart. It should know that if he got the light heart, little blue would reach divine flame and it would be melted. The Murder Dao Spear shouldn’t have helped him escape.

“Little blue, never mind, just melt the spear first.” Ye Mo didn’t know what was inside the spear and let little blue try again.

The Blue Like Morning Sky swept around the Murder Dao Spear this time and it couldn’t escape. Under two layers of binding from Ye Mo and little blue, there was no way it could escape.

The divine flame carried piercing blue flames and the impure chi on the surface was immediately melted. There was a cracking sound and this extremely violent killing intent ravaged in the flames as though it would break free from Blue Like Morning Sky and Ye Mo and charge out of the Golden Page World.

Knowing this, Ye Mo and Blue Like Morning Sky worked together to suppress this killing intent. Those killing intent and killing chi eventually formed dao waves. Each one of these dao waves were extremely strong. It was as though any one of them could easily kill a dao essence divine emperor.

“Boss I understand now. It’s not a spear spirit, it’s murder dao.” Little blue’s voice sounded.

Ye Mo asked in confusion “What is murder dao?”

“This spear is definitely a Primordial Spirit Artefact and an extremely powerful one amongst Primordial Spirit Artefact. It was born to kill divine emperors. Countless divine emperors have died to this spear and the impure chi on it are the dao waves of all the dead divine emperors. This spear would eventually slay

its master. Countless masters have been slayed by it. Each time it kills a divine emperor, it would suck their essence blood and dao waves. These essence blood and dao waves formed murder dao in the spear.”

Ye Mo didn’t doubt at all that a lot of masters of the spear had been slayed. Which dao vindication powerful being weren’t extremely talented and confident in themselves? How could they believe that they would be slayed by a spear.

Even Ye Mo wouldn’t believe he would be killed by a spear he spirit controlled. But Ye Mo trusted his instincts extremely high ever since he cultivated the Three Birth Chant. The Murder Dao Spear gave him a bad feeling and that’s why he was so adamant on destroying it.

Otherwise, with how the Murder Dao Spear helped him twice, there was no way Ye Mo would melt it.

“It has extremely terrifying restriction and if it is to be fused into Zi Xu, Zi Xu’s power would be no weaker than Murder Dao Spear. However, we must refine the murder dao inside the spear and destroy it. This would take many years.” Little blue said.

Ye Mo fell silent for a while “The restrictions of the spear are primordial restrictions. Zi Xu restrictions can be changed with upgrades. Just refine out the murder dao in the spear and I’ll seal it. Then you help me upgrade Zi Xu.”

Ye Mo knew that even as a divine flame, it wouldn’t be easy for little blue to melt the Murder Dao Spear completely. So when little blue began work, Ye Mo left the Golden Page World and released space time boat. He tried to get out of this dark void as quickly as possible.

The void here was pitch black and could block spirit sense. Ye Mo’s spirit sense could only stretch out tens of thousands of km. But this was enough for Ye Mo. He chose a direction and charged forward with full speed.

With this Void Marketplace marker, Ye Mo didn’t believe he would get lost in the void.

There were too many races in the void and too many realms. If he found any realm, he would be able to ask about the Void Marketplace.

The idea sounded good but even with his space time boat's speed, he had been flying in the void for years and still had no clue.

Just when Ye Mo felt he should change a direction, he sensed little blue's calling. Ye Mo immediately knew that the Murder Dao Spear was melted and he put away the space time boat and came back into the Golden Page World.

In the Golden Page World, a purple liquid emitting dao waves floating in the Blue Like Morning Sky. There was also a grey layer on it. Other than that, there was also a red chi floating on the other side of the Blue Like Morning Sky.

Ye Mo knew that red chi was the murder dao inside Murder Dao Spear. The purple dao wave liquid was definitely the melted primordial material. Ye Mo took out a jade box and sent the red chi inside before putting on restrictions.

After this, Ye Mo threw Zi Xu into Blue Like Morning Sky and used his spirit sense to help Blue Like Morning Sky refine ZiXu.

Ye Mo was a powerful forgery grandmaster and with little blue's help now, Zi Xu didn't have much trouble getting upgraded.

When Ye Mo's spirit sense fell on the purple dao wave liquid, all sorts of information filled over almost twisting Ye Mo's sea of consciousness. There were cultivation chi, god art chi, void space chi.

"Little blue what is this? How is it still not burned out?" Ye Mo asked. If these messy chi was fused into Zi Xu, it would be the worst.

Little blue quickly said "I've already refined out the chaotic chi. They're just sticking to the surface of this purple material. It's probably information left behind by divine emperors killed by the Murder Dao Spear. I was afraid it would be useful to you so I kept it."

Ye Mo quickly said "separate them immediately. No matter how useful it is, it can't be fused into Zi Xu."

Hearing this, little blue immediately swept away the grey chi on the purple liquid. Without the grey layer, the purple liquid shined even brighter.

Ye Mo sealed the grey chi with jade box and then helped little blue fused the purple liquid into Zi Xu.

Even if a Primordial Spirit Artefact was melted into primordial material, the restrictions on it were still primordial restrictions. Little blue intentionally didn't break it so the restrictions were still there. Zi Xu was visibly getting stronger.

Chapter 2158 Powerful Result

A few days later when those purple liquid completely fused into Zi Xu, Zi Xu became ordinary looking. It seemed like an extremely ordinary purple sword floating in a blue flame but its aura didn't disappear. It still circulated around Zi Xu.

At this moment, Ye Mo couldn't help at all and even little blue was pushed away. The aura around Zi Xu kept changing and even Ye Mo couldn't tell what was going on.

Another few hours later, Zi Xu suddenly made a crisp sound and the aura completely disappeared. It truly became an ordinary purple sword.

Ye Mo looked dazily at this purple sword completely not expecting Zi Xu that fused with Murder Dao Spear would look this ordinary.

It had no killing chi, no blade ray.

Ye Mo grabbed this sword into his hand and this extremely familiar yet strange feeling came up his heart. As a forgery divine, he couldn't even tell what level this sword was. This wasn't an extreme grade god artefact nor a Primordial Spirit Artefact.

Ye Mo suddenly had this realisation. Murder Dao Spear was a Primordial material that grew into the Murder Dao Spear. It had all the primordial and royal chi.

However, he used divine flame to melt the spear and fuse it into Zi Xu. This was like his cultivation method. Whether it was Three Birth Chant's sever dao and then vindicate dao or body refinement cultivation's nirvana. It was the same logic.

It severed all the sharp chi and became something that truly fused the dao waves of the world. It didn't have the sharp chi but it contained its power inside.

Ye Mo learned that his dao was contained in this too. If one day he reached primordial essence, his chi would return to ordinary just like a mortal.

Ye Mo's mind flashed across all the divine emperors or immortal emperors he had seen. Even if some of their chi was collected, no one could completely reach the level of an ordinary person.

Suddenly, his heart was shook. He thought of someone. It was that fortune teller he saw in the small world, master Tian Ze. He suspected he saw that old man on Luo Yue continent but he didn't think of that much at the time. Now, that he learned this sliver of dao wave, he immediately thought of that old Daoist. Tian Ze had such chi. That extremely ordinary chi that seemed to have fused into everything.

Realising this, Ye Mo was shocked. If Tian Ze was really as he thought, he could he accidentally leave behind the five element stool?

After a long while, Ye Mo shook his head. He couldn't think through this and didn't want to keep thinking about it. He subconsciously started to spirit control Zi Xu. This was the first time that he needed to spirit control Zi Xu again after upgrading it.

When Ye Mo's spirit sense seeped into Zi Xu, he found that Zi Xu's restriction wasn't like Murder Dao Spear's restrictions. It became nine completely new restrictions. When Ye Mo started on the first level, he found there were nine chained restrictions inside. From this, it was clear that the second level of restriction had 18 chained restrictions. At this rate, the 9th level had 81 chained restrictions.

Ye Mo knew now that Zi Xu was probably a level higher than the Murder Dao Spear. Wasn't that beyond Primordial Spirit Artefact then?

Wait, beyond Primordial Spirit Artefact is divine artefact. That is a chaos treasure. Even if Zi Xu is a bit stronger than Murder Dao Spear, it can't be divine treasure. Divine treasure is born of chaos but he upgraded Zi Xu.

Ye Mo didn't think about Zi Xu's level anymore. He found that Zi Xu didn't disappoint him. Zi Xu was his magic artefact and upgraded by him so it was much easier to spirit control than the Murder Dao Spear.

Restrictions were spirit controlled and Ye Mo immersed into this.

Ten years later, Ye Mo suddenly got up. He found that he only used ten years to completely spirit control Zi Xu. He had finished all nine levels of restrictions.

Until now, Ye Mo finally realised Zi Xu's power. He was certain that if he fought with dao essence divine emperor again, even if he just used Zi Xu, he would be no weaker than them. If he was in that auction room again, Ye Mo was confident he could hack open the space there.

This was confident brought to him by Zi Xu. From now on, he finally had a good offensive magic artefact. He didn't need to use Zi Xu that was lesser than a low grade god artefact to fight with other people's top grade god artefact.

Ye Mo waved his hand and Zi Xu appeared in his dan tian. Zi Xu no longer needed to be put in storage ring or Golden Page World. As long as it was nourished in his god essence, it would keep improving.

Ye Mo was feeling great. He grabbed that red murder dao chi.

As soon as Ye Mo's spirit sense touched it, he felt this terrifying violent killing intent. Although he learned a sliver of dao wave from Zi Xu's upgrade, his real cultivation level was still just a dao nourishment divine emperor.

That terrifying murder dao chi almost twisted Ye Mo's sea of consciousness. Ye Mo had never seen such terrifying murder dao chi. Little blue was right. Murder Dao Spear killed countless divine emperors and devoured their killing intent to form this red murder dao chi.

This murder dao was Murder Dao Spear's dao. If Ye Mo didn't fuse Murder Dao Spear into Zi Xu, then perhaps one day, Murder Dao Spear would vindicate dao and become the number one slaughter weapon of the universe.

Ye Mo sighed and continued to seal this murder dao chi. He felt he couldn't control it yet. The slaughtering intent inside was too terrifying.

Ye Mo grabbed that grey chi again and when he scanned his spirit sense in, all sorts of impure chi came rushing at all. Ye Mo didn't kick them away this time. He knew that the chi inside came from the ancient powerful beings who died to Murder Dao Spear.

As a solo cultivator who had no sect nor master, these information were extremely important to him. If he organised them and cast away the useless information, the rest would be very useful to him.

Ye Mo put away little blue and the Golden Page World fell silent again. Everyone had their own thing to do and Ye Mo was immersed in organising the information.

A few years later, that grey chi disappeared and Ye Mo remembered the useful information.

All sorts of god spirit items, dao fruit, and chaos spirit items...

Primordial materials...

Pill recipes, forgery knowledge, formation, runes, dao vindication pathways...

It wasn't just knowledge that appeared in his mind but also learnings of dao waves and god art that only came with time.

Ye Mo was extremely surprised and joyful. He didn't expect that gust of grey chi to be this precious. It was no lesser in value than that purple primordial material.

He lacked these things the most. Otherwise, he would've heard about the light heart.

From these information, Ye Mo soon knew where he was. He was in a place called the dark void. This was a region of void between the Void Marketplace, demon realm and phoenix realm.

He got another more important information from someone called Er Yuan. The life goal of this person was to find Meng Zhan and rob his three pages of primordial golden pages and go to a place in the void to collect a gust of chaos chi.

Ye Mo didn't know where Meng Zhan died but his three golden pages were in his hands now. Chaos chi was an essence chi of the world that was born when the world was first created.

Er Yuan didn't have chaos world so he couldn't collect the chi. That's why he wanted to kill Meng Zhan. However, he died to the Murder Dao Spear somehow.

Ye Mo didn't move. He took out a jade bead and in just a few seconds, he printed a vast void map into the bead. Inside was a golden spot and that was the ball of chaos chi in Er Yuan's memories.

Chapter 2159 Dao actualisation

In the dark void, Ye Mo sped through like crazy with his space time boat. Chaos chi was extremely precious to other people and to him, it was like his life. This was because he not only had the chaos world but also chaos tree.

According to the information left behind by Er Yuan, the chaos chi was sitting in the depth of the dark void. The dark void was boundless and had no god spirit chi nor any precious things, therefore rarely did people come here. Er Yuan was trapped in here unable to leave and thus after staying for a few hundred thousand years, he found a chaos chi ball.

Er Yuan resisted his excitement and didn't touch it. Instead, he marked it. He thought that if he couldn't find a way out in another ten thousand years, he would break the ball and get as much as he can.

Er Yuan knew that chaos chi balls would slowly dissipate in the void if opened and not taken in time.

What Er Yuan didn't expect was that he was extremely lucky and only used a few hundred years to find a way out and came to the border demon realm.

Despite this, Er Yuan didn't go out immediately. He continued to map the dark void fearing he would never be able to find the chaos chi once he left. After another few millenia of searching, he completely mastered how to judge direction in the dark void.

Only then did he leave the dark void. He had decided to use all means necessary to rob a chaos item. Even if he couldn't get the three golden pages, he would find another chaos item to take away the chaos chi ball.

However, he never came back ever since he went out. He died to the Murder Dao Spear. If Ye Mo didn't melt the Murder Dao Spear, no one would ever know this secret again.

A few years later, Ye Mo stopped at a place no different to everywhere else. However, Ye Mo knew that Er Yuan said the ball of chaos chi was here. The darkness here was different to other places. There was a sliver of spirit in this darkness. It was extremely subtle and if one didn't watch carefully, one wouldn't notice at all.

Ye Mo was certain that if he didn't get news from Er Yuan, even if he went past here tens of times, he wouldn't notice it. He didn't know how many times Er Yuan went past here but Ye Mo knew that Er Yuan was definitely much stronger than him.

Ye Mo carefully went towards the region with spirit.

Three days later, Ye Mo suddenly saw a milky white aura appear before him. Ye Mo caught this indescribable chi. Ye Mo rejoiced like crazy. He was certain the information was true. The milky white aura was where the chaos chi ball was.

The next moment, Ye Mo put away the space time boat and came next to a huge white cocoon. Chaos chi was sealed by the white cocoon. Ye Mo could still feel the intense chaos chi.

The next moment, Ye Mo put away the space time boat and came up to the huge white cocoon. Chaos chi was bound by the cocoon but Ye Mo could still feel the chaos chi there.

This dense chaos chi was ever more pure than the Golden Page World's chaos chi when he first got it.

Ye Mo didn't hesitate at all and tore open this cocoon and went inside. At the same time, he opened the Golden Page World wanting to send all the chi inside.

As soon as Ye Mo went in the white cocoon, that world creation grand force struck into his will. Ye Mo instantly lost consciousness. That white cocoon exploded and countless soft chaos chi wrapped Ye Mo. A 3 meter tall green tree suddenly rose above Ye Mo's head and swept in the white chaos chi like crazy.

All Ye Mo's senses had been barricaded at this moment. The milky white chaos chi wasn't swept into the Golden Page World like Ye Mo imagined. It was devoured by the rose that rose from his head.

The chaos tree devoured the chaos chi like crazy and grew like crazy.

Waves of dao chi circulated around Ye Mo. Ye Mo's consciousness gradually fused into the endless world creation dao. Great dao had no mark, no need for sharp edges.

Time flew by as the chaos tree grew and Ye Mo was in enlightenment. Meanwhile, the chaos chi ball kept reducing.

This ball of chaos chi was too big. Even after a few decades, the white chi was still circulating around Ye Mo.

The chaos tree had grown to 100 meters tall. It's branches covered this region of space.

Feeling that Ye Mo was learning dao in the chaos chi, the chaos tree also seeped out some dao waves to help Ye Mo learn dao.

Ye Mo was now completely immersed in his enlightenment of his dao. The little enlightenment coming from upgrading Zi Xu was now infinitely expanded and it became clearer and clearer before forming his dao.

Barriers were being torn. Ye Mo didn't even realise he reached dao actualisation. His enlightenment kept increasing. However, he didn't have any god spirit chi to help him.

The first to notice this was small ginseng. Small ginseng was very sensitive to natural spirit items. When Ye Mo opened the Golden Page World, although he couldn't send in the chaos chi, a part of it was taken into the Golden Page World.

Small ginseng woke up and immediately left the Golden Page World coming outside. When he saw the endless milky white chaos chi, he was dumbfounded.

How could small ginseng not know the preciousness of the chaos chi. He was immediately going to draw it into the Golden Page World but then he saw that vast chaos tree and the extremely dense life chi emitting from it. He didn't need to do anything and his broken arm visibly grew back.

Such powerful life force, small ginseng amazed. He could see the trouble his boss had. If he didn't provide his boss with god crystals or god spirit range, boss's enlightenment might stop due to a lack of god spirit source. If this enlightenment ended it would be a huge pity.

small ginseng gave up drawing the chaos chi into the Golden Page World and quickly threw out Ye Mo's god crystals and set up spirit gathering formation.

Small ginseng's formation skills weren't bad but even if he didn't know anything, he just needed to throw the god crystals next to Ye Mo and it would be enough for Ye Mo.

1 billion god crystals stacked around Ye Mo but small ginseng was still worried. He dragged that extreme grade god spirit range next to Ye Mo.

After doing all these, small ginseng breathed easy and started to think about gathering the dispersed chaos chi into the Golden Page World.

Small ginseng's power was too weak and could only gather some. More was dispersing. This ball of chaos chi was just too big.

The chaos tree had grown taller than 300 meters. Ye Mo and the chaos tree devoured the chaos chi faster and faster. Small ginseng saw the god crystals rapidly deplete and even the god spirit range started to deplete. He became very worried.

Just when he wanted to bring the rest of the god spirit ranges all out, he heard Ye Mo say “No need small ginseng, my enlightenment has reached its extreme. Even if I have god spirit range, I wouldn’t be able to reach dao essence divine emperor.”

Ye Mo then opened his eyes. His dao wave chi stealthed and dissipated inside his body. With the help of the chaos tree and chaos chi, he reached dao actualisation peak stage. He’s just one step from dao essence but Ye Mo knew that this little step can be an impassable ravine.

If he didn’t learn the dao of being ordinary from upgrading Zi Xu then even if he reached dao actualisation, he would never be able to reach dao actualisation peak stage.

“Boss is dao actualisation peak stage?” Small ginseng couldn’t see Ye Mo’s cultivation level but Ye Mo said it.

The chaos tree became ethereal and soon immersed into Ye Mo’s dan tian. Ye Mo sent the rest of the chaos chi into the Golden Page World and said “Yes, I’m dao actualisation peak stage. Good thing your arm is repaired now. We can go out.”

Although he was dao actualisation peak stage, Ye Mo’s powerful strength made him believe he had the power to kill dao essence masters.

Chapter 2160 Return to the Void Marketplace

If he didn’t reach dao actualisation peak stage, Ye Mo would think to enter the demon realm and ask about the abyssal realm. He wouldn’t dare to go to the Void Marketplace.

But now, the first place Ye Mo wanted to go was the Void Marketplace. With his current cultivation level and power, there was no doubt he could kill dao essence.

Through his enlightenment he learned the difference between dao vindication second step and third step.

The third step was primordial essence. Primordial essence masters can easily tear open void. Their will was powerful to the extreme. Therefore, Ye Mo was certain that the two powerful beings he saw at the auction weren't primordial essence divine emperors. Their spirit sense was strong but couldn't compare with primordial essence divine emperor. They were at most two halfway primordial essence.

The difference between half way primordial essence and primordial essence divine emperor was heavens apart. Ye Mo wasn't scared. With his current power level and Zi Xu, even if he didn't use Golden Arrow of Divine Extermination, he wouldn't be killed by half primordial essence. At most, he would run away.

Now, Ye Mo found a place in the dark void he felt that space was weak and released Zi Xu hacking out.

An extremely vibrant purple color sliced across the dark void. The beam was so bright that it illuminated the entire dark void purple.

Under this purple colour, a crack opened in the void. The crack wasn't big but it was much bigger than the small crevice Ye Mo worked so hard to open before.

A few void wind blades flew over meaning that this void realm was opened up by Ye Mo. Ye Mo ignored the wind blades and went into the crack he opened up. The next moment, the crack disappeared gradually.

Ye Mo stood in the familiar void and felt very excited. Just one strike and he knew how much he had improved.

Before, he used the dao restriction pill, formation, Golden Arrow of Divine Extermination and Murder Dao Spear...

Even after using all that, he only barely opened a crevice for the Golden Page World to slip in. But today, he casually swung and he opened a crack enough to fit his entire body easily. This was the difference.

Ye Mo stood in the void and desperately wanted a dao essence divine emperor to fight him.

After a long while, Ye Mo released space time boat. The location disk on it showed a bright spot which was the Void Marketplace.

Ye Mo exclaimed. This was the benefit of being powerful. Otherwise, he might need a few hundred or thousand years to come back here. If one day he reached primordial essence, perhaps his spirit sense could cross the void and realms. Space time boat sliced through the void and headed to the Void Marketplace as its fastest speed.

In just two months, the space time boat stopped outside the Void Marketplace.

In order for people to not care, Ye Mo showed his cultivation level to be dao actualisation primary stage. He was dao nourishment peak stage before, it was no wonder that he reached dao actualisation primary stage.

When Ye Mo went in, he found that the Void Marketplace was much more busy than before. He saw many more human races before.

A familiar person flashed across his eyes. Ye Mo immediately recognised that person, he was Great Sun God Mountain Dong An. Ye Mo didn't expect Dong An to have really come to the Void Marketplace. He was half way dao essence now.

Ye Mo guessed it was the help of the dao fruit he gave Dong An.

Just when Ye Mo wanted to greet Dong An, Ye Mo saw the dao essence divine emperor next to Dong An and gave up the thought. He was close to Dong An but he had conflict with the Great Sun God Mountain.

The dao essence divine emperor next to him was quite possibly from Great Sun God Mountain. Three more people appeared in Ye Mo's vision.

Ye Mo knew two of them. The three were probably from the Immortal Goddess Sacred Sect. The strongest was dao actualisation divine emperor Wang Nanshuang. Ye Mo had a good impression of her as Xiaoyun's master said Wang Nanshuang detested evil and hated being pretentious.

The other two was dao nourishment divine emperors. One was Ji Xi but Ye Mo didn't know the third. If it was other people from the Immortal Goddess Sacred Sect, Ye Mo wouldn't be bothered to go up but since Ji Xi appeared here, Ye Mo immediately walked up and stopped them.

The Immortal Goddess Sacred Sect was a top sect that no one dared to mess with in the Divine Dao Realm other than the Great Sun God Mountain. But in the Void Marketplace, the Immortal Goddess Sacred Sect was nothing. The three were very careful.

Now that a person suddenly came before them, they subconsciously retreated a few steps. Then, they saw it was Ye Mo.

"It's you?" The three recognised Ye Mo at the same time.

Ye Mo said expressionlessly "That's right, it's me."

Then he looked at Ji Xi "Ji, when are you planning to give me what you owe me?"

Hearing Ye Mo reply rudely, Wang Nanshuang's face sunk but she didn't do anything. She knew Ye Mo's power. The three of them combined was no match for Ye Mo's power. She was even more shocked at Ye Mo's cultivation speed. He only seemed to be dao moulding divine emperor before but now, he was a dao actualisation divine emperor.

"Martial uncle Nanshuang and martial sister Yuehe, go to the immortal rest tower first. I have some business with mb Ye." Ji Xi said. She knew Ye Mo was after the three treasure primordial essence gourd.

"No, well go together." Wang Nanshuang said without hesitation. How could she let Ji Xi leave with Ye Mo alone? The Void Marketplace was dangerous and Ye Mo was an enemy of the Immortal Goddess Sacred Sect.

Their words immediately caught the attention of Dong An and them. The dao essence divine emperor turned around and saw Ye Mo. He immediately walked over, Dong An and the other three people came too.

“Brother Ye, long time no see.” Dong An looked at Ye Mo in shock and came up to greet. He was shocked at Ye Mo’s cultivation level. He was already dao actualisation.

“Haha, I didn’t expect to meet castle master Dong at the Void Marketplace.” Ye Mo smiled and returned the gesture.

“Elder Dong, you know him?” That Great Sun God Mountain dao essence divine emperor looked at Dong An in confusion.

Dong An quickly told him about how he met Ye Mo. The dao essence divine emperor looked at Ye Mo and then Wang Nanshuang and suddenly asked “You’re the person who took away saint Mu Xiaoyun from the Immortal Goddess Sacred Sect? Did you know that Mu Xiaoyun was a saint that the Great Sun God Mountain ordered?”

Ye Mo looked at this dao essence and said coldly “Piss off, I’m not in the mood to look for your trouble.”

If it was outside he would’ve killed this dao essence divine emperor already but now, he didn’t want to fight in the Void Marketplace. He needed to get back the gourd first. He would definitely kill this dao essence divine emperor. Not only that, he would annihilate Great Sun God Mountain.

Hearing a dao actualisation divine emperor dare to tell him to piss off, this dao essence divine emperor’s killing intent immediately spread out. Sensing this, the nearby ordinary divine emperors all left.
