Chapter 2161 Ask for three treasure gourd

“Hmm, pill divine Ye...” A voice of surprise and joy sounded and a grey man appeared before him. His skin and hair as well as robes were completely grey.

As soon as this man landed, the killing intent of the Great Sun God Mountain dao essence divine emperor was instantly dispersed. People could tell that this grey man dispersed the killing intent.

Ye Mo saluted with his fists “So it’s brother Xing. I haven’t seen you for a while indeed.”

This person was Xing Hong.

“Congratulations on reaching dao actualisation divine emperor pill divine Ye. If you don’t mind, we’re willing to hold an immortal fruit party for you.”

Xing Hong said happily. Compared to how calmly he was with Ye Mo last time, his expression was much more vivid. He thought Ye Mo would agree to him before so he didn’t watch Ye Mo.

He thought this pill divine Ye would soon come to find him. However, pill divine Ye disappeared for a hundred years. Although there were legends that pill divine Ye was killed by Wan Tongtong but as a dao essence divine emperor, he didn’t believe a pill divine would die that easily. Otherwds, there was no way Ye Mo would reach pill divine.

Then, Xing Hong went to investigate the situation. Things were indeed different to rumours. When Ye Mo left the Void Marketplace, he intentionally left marks along the way. That’s how Baili Hong caught up to Wan Tongtong.

There was no way Wan Tongtong would leave these marks as she was hunting Ye Mo so it was definitely Ye Mo who left behind these marks. Knowing that Ye Mo might’ve not died, Xing Hong kept Ye Mo’s stall. However, he was disappointed as Ye Mo truly never came back again.

Now, a hundred years had passed and Ye Mo came back to the Void Marketplace. How could he not be excited. A dao actualisation pill divine, how could the Void Marketplace merchant tower let him go.

Hearing this, the people nearby looked at Ye Mo with different light. Was there a need to celebrate Ye Mo reaching dao actualisation divine emperor when there were this many dao actualisation divine emperors in the Void Marketplace? It was just to suck up to Ye Mo.

“No need for the celebration party. I still have a private business to deal with. After I deal with that, I will go to Void Marketplace merchant tower to visit brother Xing.” Ye Mo said calmly. He knew that Xing Hong did all this so he could concoct pills for the Void Marketplace merchant tower long term but there was no way he would do that.

Xing Hong quickly said “I’m not busy, I’ll help you.”

Then his smile faded and he stared coldly at the Great Sun God Mountain dao essence divine emperor “You dare to be so rude to pill divine Ye? Do you think you’re a dao essence divine emperor so you can be cocky in the Void Marketplace?”

This Great Sun God Mountain dao essence divine emperor was already completely shocked when he saw Xing Hong be so polite to Ye Mo.

He didn’t even dare to bullshit to an ordinary immortal friends from the Void Marketplace merchant tower much less a Void Marketplace merchant tower dao essence divine emperor.

“I don’t dare to. I just saw that pill divine Ye came from the Divine Dao Realm that’s why I wanted to greet him.” The dao essence divine emperor quickly said.

Xing Hong ignored him and asked Ye Mo “Pill divine Ye, do you need me to help kill this bastard?”

His tone sounded like it was as simple as killing an insect.

The Great Sun God Mountain dao essence divine emperor heard this and shook. Killing him like that, this was too cruel. But he knew that the Void Marketplace merchant tower had the right to say such words.

Ye Mo smiled "Thank you brother Xing but no need for now."

Then he looked at this dao essence divine emperor, "You've greeted me already you can piss off. In time, I will go visit Great Sun God Mountain with Xiaoyun. By the way, Great Sun God Mountain has a Great Sun God Peak. I plan to use that as a urine kettle."

Hearing this, the dao essence divine emperor's face went green but he didn't dare to say anything. He could only forebear his fury and walk away. He swore that if he saw Ye Mo alone, he would turn them to dust.

"Hmph." Xing Hong sneered.

Ye Mo smiled to Xing Hong "Brother Xing, there seems to be a sudden increase in people in the Void Marketplace. There's more humans than before too. What's going on?"

Seeing this, Xing Hong smiled and said "You should know this. The dao fruit tower is about to open. Many people came to enter it. Of course, if pill divine Ye needs a spot then I have it covered."

Ye Mo's cultivation level was no weaker than dao essence divine emperor. He really didn't care if there was top dao fruit in the tower so he quickly waved his hand "I don't need it for now, if I really do then I'll ask brother Xing for help."

Ye Mo didn't care about this spot but Wang Nanshuang and them on the side were dazed. She almost wanted to charge up and grab Ye Mo's shirt and ask him if he was crazy. They all came for the dao fruit tower spot. Even if they couldn't go in, they would want to exchange for a dao fruit from inside.

Due to this, they brought the most precious things in their sect.

Xing Hong looked at Ji Xi and the two other women next to her and smiled "Okay, Pill divine Ye do your things first."

After you're done I'll come invite pill divine Ye."

Then Xing Hong left and disappeared into the crowd.

Seeing this, Wang Nanshuang suddenly saluted with his fists "Pill divine Ye, you go discuss with Ruo Xi. I will go back ^ the rest tower first with martial sister Yuehe."

Wang Nanshuang dragged the other dao nourishment divine emperor away. Ji Xi knew what her martial uncle meant but she sighed. It's not her first day knowing Ye Mo.

No matter what she say Ye Mo wasn't going to give the Immortal Goddess Sacred Sect a dao fruit tower spot. Even if she sacrificed her body, Ye Mo wouldn't agree. Plus, she wouldn't do that.

Five minutes later, Ye Mo and Ji Xi appeared in an immortal rest tower room. At this time, it was impossible to find a room in the immortal rest tower but when Ye Mo walked in with her, the attendant asked if Ye Mo wanted a room.

Ji Xi thought, as long as she was with Ye Mo, there didn't seem to be anything hard. That was how she survived in the life crippling bridge.

After closing the door, Ye Mo waved up a restriction and looked calmly at her "I don't have time to waste, give me what you owe."

Ji Xi quickly said apologetically "Mb Ye, if the other half of the gourd is one me right now I will definitely give it to you..."

"What do you mean?" Ye Mo's tone went cold. Before she schemed against Xiaoyun, Ye Mo had some good impression towards Ji Xi but now, she was no different to Ji Xinyi in Ye Mo's eyes.

Chapter 2162 I'm Not Free

“Martial brother Ye, listen to me first. I was planning to give that gourd to martial sister Xiaoyun but something happened in between. Before I could give it to her, you took martial sister Xiaoyun away.” Ji Xi’s tone was extremely genuine.

Ye Mo knew this. Xiaoyun said Ji Xi was going to give her something but Xiaoyun missed him too much and didn’t care. Even so, Ye Mo interrupted Ji Xi “Just tell me where the gourd is now?”

“I’ve left the gourd with my master. I don’t know how long it will take for me to go back from the Void Marketplace. I don’t even know if I can go back. I was afraid you would go to the Immortal Goddess Sacred Sect to ask for the gourd so I left it there. If I knew you came to the Void Marketplace, I would bring it.” Ji Xi sighed.

She was telling the truth. That half gourd had no use to her. She didn’t need to offend Ye Mo for it.

Ye Mo’s heart surged with disappointment. He got up. He didn’t have the mood to talk with Ji Xi anymore.

Seeing Ye Mo get up, Ji Xi got up too “martial brother Ye thank you.”

Ye Mo knew that she was thanking him for saving her life on the life crippling bridge. But Ji Xi knew Xiaoyun was his wife and still didn’t try to help her. Ye Mo’s impression of her was extremely bad.

Seeing Ye Mo couldn’t be bothered to talk to her, Ji Xi said dejectedly “Martial brother Ye, how is martial sister Xiaoyun?”

Ye Mo stopped and turned around saying coldly “Ji Xi, that’s not something you need to care about. Just give me that gourd. If I go back to the Divine Dao Realm and find out you’re lying one single bit then I will annihilate Immortal Goddess Sacred Sect before the Great Sun God Mountain does.”

Then, Ye Mo walked out and disappeared from this immortal rest tower.

Ye Mo just walked out of the tower and an extremely pretty goddess bowed “May I ask if you’re pill divine Ye master?”

Ye Mo looked at her in confusion. He didn't know her at all. Then, Ye Mo thought of Xing Hong and immediately said "I am."

The goddess quickly said "Xing Heng invite pill divine master to chat at the Void Marketplace merchant tower. I was ordered to wait here for you."

"Okay, lead the way." Ye Mo was planning to go viist Xing Hong. He wasn't scared of them but it was good to connect with them.

Seeing Ye Mo so compliant, the goddess said in surprise and joy "Thank you pill divine Ye, this way please."

"Wait..." They were suddenly stopped an emotionless voice.

At the same time, a man with blue lethal light on his face appeared before the two. His hair was messy and he was dao essence divine emperor peak stage.

He seemed very messy but his icy cold killing intent could be felt by all those around him.

Ye Mo didn't move. He knew this person. When he acted as a dao essence divine emperor coming back to the Void Marketplace, this guy was looking for him. He didn't

You're pill divine Ye?" The dao essence divine emperor stared at Ye Mo for a while before asking.

Ye Mo answered plainly "Yes I am."

"I'm Qiao He, I've been waiting for you in the Void Marketplace for a hundred years. Please come with me." As he spoke, his powerful killing intent receded but his tone was still icy cold. It was as though that because he told Ye Mo to go, Ye Mo should go with him no questions asked.

"I'm pill divine Ye indeed but why should I go with you?" Ye Mo asked back.

Hearing this, Qiao He's killing intent soared. As his killing intent soared, a burst of blue circulated around his body. Even he didn't expect that Ye Mo dared to argue back.

Ye Mo was already annoyed that he didn't get the gourd and now Qiao He dared to act so cocky in front of him. Facing Qiao He's powerful lethal force, Ye Mo went in instead and smashed out his domain.

Ye Mo's domain was about to become a realm and with his spirit sense domain on top, Qiao He was pushed back tens of steps even though he was dao essence peak stage. Qiao He's lethal force domain crumbled under Ye Mo's domain.

Qiao He looked at Ye Mo in disbelief. He completely didn't expect this dao actualisation divine emperor could so easily break his dao essence domain.

This wasn't him attacking at full power but he could tell that even if he attacked with full power, he wouldn't be able to get an advantage with Ye Mo. Was this dao actualisation pill divine only a dao actualisation?

Ye Mo ignored Qiao He and walked up to that scared pretty goddess and said "Ignore this cocky bastard, lead the way." "Okay." The goddess suppressed her shock and quickly led in front.

"Pill divine Ye, wait..." Qiao He came up.

Ye Mo no longer had his patience and looked coldly at Qiao He "What, do you want to fight? Then go."

"No, pill divine Ye, our palace lord is inviting you to be a guest. Please..." His tone was much calmer this time.

Ye Mo said without hesitation "Tell your pi I have no time."

Then, Ye Mo sped up and the goddess sped up. Seeing Ye Mo ignore him, Qiao He's face went blue for a while but he controlled himself. Instead, he followed Ye Mo to the Void Marketplace merchant tower.

“Pill divine Ye, please come in.” Xing Hong greeted up before Ye Mo even walked in.

Xing Hong invited Ye Mo into the merchant tower’s luxurious guest hall and told the goddesses to bring the best immortal fruit and immortal tea.

Ye Mo drank the tea and aroma circulated non stop. The aroma could clear up one’s sea of consciousness.

“Pill divine Ye, this is the best Snow Ripple tea from Snow Ripple lake. If pill divine Ye likes it I’ll give you some.” Seeing Ye Mo seemingly like this tea, Xing Hong immediately smiled and said.

“Then thank you brother Xing. Did you find me to give me some immortal tea or is it for something else?” Ye Mo didn’t have the mood to waste time here. He wanted to find a place to rest and then ask about the abyssal realm.

Xing Hong smiled awkwardly “Pill divine Ye probably knows what I want. Our merchant tower is quite powerful in the Void Marketplace but unfortunately, our top pill divines are growing less. There’s not a single pill divine like pill divine Ye.”

Seeing Ye Mo not talk, Xing Hong could only continue “Everyone knows pill divine Ye’s power in the Void Marketplace.

If you’re willing, our merchant tower wants to invite pill divine Ye to join our merchant tower...”

Ye Mo immediately said “Thank you brother Xing but god crystals and god spirit range are not very attractive to me anymore and I can’t join the Void Marketplace merchant tower. Of course, if the Void Marketplace merchant tower needs me to concoct pills then on brother Xing’s account I can do a few batches. As for fees, there’s no need but my pill concoction success rate is only fifty percent.”

Xing Hong knew that inviting someone like Ye Mo to join them wasn’t realistic unless he used forced. But as a pill divine, if Ye Mo went in and never came back out, it would clearly have a huge effect on the Void Marketplace merchant tower’s reputation. Plus, he also knew that Qiao He wanted to invite Ye Mo to concoct pills.

It was already great that Ye Mo offered to concoct pills. Hearing that Ye Mo actually had 50% success rate, Xing Hong quickly said "Thank you very much pill divine Ye. I really want to ask you to concoct some pills. You only need to give us 30%, the rest will be yours."

Ye Mo smiled "No, I can't trouble brother Xing. I said 50% so 50% it is. Perhaps I will be needing brother Xing's help in the Void Marketplace."

Xing Hong was very happy. God pills had a very low success rate and now that Ye Mo said he was giving 50% to them, it was a huge favour.

He said with some pity "We wanted to buy that light heart for pill divine Ye but pity it was taken by an extremely powerful half primordial essence master."

Ye Mo didn't listen to that at all. He didn't believe they would give the light heart to him.

Chapter 2163 Spot Distribution Gathering

Although Ye Mo looked down on what Xing Hong said, he still asked in shock "There's actually half way primordial essence masters who came to the auction?"

Xing Hong sighed "Yea and there wasn't just one. Luckily the auction side had a halfway primordial essence master too or things would've been dangerous. The one who bought the light heart is probably a demon race divine emperor. He hid his power to dao essence but when he tore open the space in the room, he exposed his power."

Ye Mo nodded. It was hard for even half way primordial essence to tear open the Void Marketplace space. But since the buyer ran away, he was at most a half way primordial essence. If it was a primordial essence divine emperor, he wouldn't need to run away.

Xing Hong clearly didn't have the mood to keep talking about the light heart. He took out a jade card for Ye Mo and said "Pill divine Ye, this is the jade card for the biggest immortal rest tower of our Void Marketplace merchant tower. If you use this to enter Void Star immortal rest tower, you can choose any room to go in."

Ye Mo quickly took the jade card and said “Thank you brother Xing. I do have a few things to ask brother Xing.”

Xing Hong was in a good mood and quickly said “Just ask me whatever you need pill divine Ye, I’ll tell you whatever I know.”

“I heard brother Xing say before that the dao fruit tower was about to open. How much time is there left?” Ye Mo didn’t want to go in the dao fruit tower but he wanted to buy some dao fruits outside. With his pill concoction capabilities, it wasn’t very hard.

Hearing Ye Mo ask about the dao fruit tower again, Xing Hong immediately said “There’s three months till the dao fruit tower opens. There’s a lot of things before it opens.”

Ye Mo nodded “I know, you told me last time. There will be a god rank and dao rank challenge.”

“That’s right. On the Void Marketplace god rank square, there will be two battle stages for the challenges. The challenge for them hasn’t begun but the distribution for the different races is about to begin. At that time, the powerful beings of all the races will gather together and discuss the distribution of the dao fruit tower spots.” Xing Hong said.

“How many spots does each race have? Does it need to be redistributed each time the dao fruit tower opens?” Ye Mo asked in shock. He thought the spots were distributed already.

Xing Hong said “Of course but you might’ve understood wrong. This distribution isn’t to take out all the spots of the races and redistribute them. It’s redistribution of the extra ones. For example, the human race was once very strong and had 30 spots to enter the dao fruit tower. Later, the Divine Dao Realm was broken and after a while, no human race powerful beings came to this distribution. Thus, there are extra spots. The divine emperors of the god ranks won’t all come to the dao fruit tower so there will be extra spots from there.”

“Are there no powerful beings to represent the human race ever since the Divine Dao Realm was broken?” Ye Mo asked in shock.

To him, although the Divine Dao Realm was broken but there were still quite some dao essence masters. There shouldn't be no one to lead the way.

Xing Hong knew Ye Mo was human so he could only speak for Ye Mo and sighed "Of course there is but every time a powerful being came to represent the human race, he would be killed at the distribution so in time, no divine emperor came to represent the human race."

"Why would they be killed? Is the human race representative going to be killed for just asking for a few spots?" Ye Mo asked in confusion.

Xing Hong sighed "I remember the last time a representative for the human race came, he was a dao essence divine emperor. He just asked for two spots but he was still challenged by a demon race dao essence divine emperor. He was killed and then the two spots were taken by the demon race."

Ye Mo's face sunk. He was a human too. They only asked for two out of the thirty spots of human race and the demon race divine emperor would kill them. Just how cocky were they?

"Pill divine Ye, you're from the human race. If you become a dao essence pill divine then it's not impossible to help the human race get a few spots." Xing Hong could tell Ye Mo wasn't happy and added.

"Is the strongest representative primordial essence divine emperor?" Ye Mo asked.

Xing Hong smiled "How can there be that many primordial essence divine emperor? Each race only has one or two primordial essence divine emperor. They're all perfecting their own world. Who would have the time to come to this distribution? So, it's only dao essence peak stages. Even half way primordial essences are very rare to see. But of course, the number of primordial essence divine emperors a race has is their confidence."

Realising this, Ye Mo nodded "Thank you for letting me know. I still want to ask you for help."

"Just say it pill divine Ye." Xing Hong said.

Ye Mo said without hesitation “I want to represent the human race for this dao fruit tower spot distribution gathering.”

If the human race didn’t even have the opportunity to enter the dao fruit tower and just cowered in a broken realm, how can they ever get strong. They would only get weaker and weaker.

Even if some sects use resources to buy dao fruits, it was a bad decision. A sect’s resources is used to cultivate wan beis. If these resources flowed into the Void Marketplace, it would create a negative cycle. Plus, without the protection of powerful divine emperors can people protect their dao fruits?

Xing Hong looked at Ye Mo in shock and asked after a long while “Pill divine Ye you want to participate in the dao fruit tower spot distribution gathering?”

Yes I do, how do I go?” Ye Mo asked.

Xing Hong finally realised that Ye Mo meant in. His face became serious and he saluted with his fists “Pill divine Ye, there are some things I need to be clear with you. I hope you don’t mind.”

“Please say it I won’t mind.” Ye Mo could guess what Xing Hong was going to say.

Xing Hong said “Although in the Void Marketplace and amongst other races, pill divines and forgery divines are the most respected, they have no special right in this gathering. The representative of any race could challenge you for a spot and you have to accept. If you lose and die, you will lose the spot.

I need to tell you that although there are no primordial essence divine emperors, the people who go are dao essence and even dao essence peak stage. Pill divine Ye, you’re only dao actualisation and you just reached it...”

Ye Mo got up and saluted with his fists Thank you brother Xing for thinking for me but I’ve made up my mind to join. Please help me. Of course, I don’t mean to help me during the gathering but just to help me participate. I believe there’s still a few days before the gathering. If brother Xing is worried I can concoct pills before I go.”

Xing Hong suddenly thought of Wan Tongtong and them. They were from the god rank but they couldn't do anything to Ye Mo. Even if Ye Mo was no match, he wouldn't be instantly killed. Then, the Void Marketplace merchant tower would save him. That way, how can Ye Mo not be grateful towards them?

Thinking about this, Xing Hong said "It's very simple to join. Since pill divine Ye is set on joining then leave it to me. I will sign up for you. Nine days later, the gathering will be held at the god rank square."

Ye Mo was quite happy when he left the Void Marketplace merchant tower. He didn't believe he would lose to dao essence divine emperors.

"Pill divine Ye, Qiao He has been waiting for a long time." That messy haired dao essence divine emperor stopped Ye Mo again but his face was much more respectful this time.

Chapter 2164 The Most Expensive Paymen

Ye Mo said impatiently "What do you want? I just said I don't have time to go with you for pill concoction, move aside."

Qiao He was very patient and said "Pill divine Ye I was rude before. I apologise for that. I've been searching in the Void Marketplace for more than a hundred years. I think only pill divine Ye can concoct such pill that's why I waited here for so long. I want to invite pill divine Ye to come with me to the Guang Yuan palace. I can agree to any conditions pill divine Ye has."

Qiao He clearly wasn't a good talker. Ye Mo wasn't going to go with him just because he said that. Ye Mo stared at Qiao He and said "I'm very busy now and you can ask me to help concoct pills. Bring the materials over and I can do one for you. The cost is one hundred million god crystals and I'll give you 30% of the pills. I'm not going to go with you."

One million god crystals for one cauldron of pills seemed like an absurd price but Ye Mo knew this price wasn't much. Qiao He pleaded him like this so it definitely was no simple pill. Perhaps it was even dao essence god pill.

For a cauldron of dao essence god pill, people would be willing to pay a few hundred million. Plus, 30% wasn't little.

Qiao He frowned bitterly and said “Pill divine Ye, if that would work I would definitely bring the materials over for you to concoct. It’s just that the materials can’t be brought here. That’s why I want to ask pill divine Ye to come to Guang Yuan palace?”

Ye Mo stopped and looked at Qiao He asking “What pill is it? It can’t be brought over to be made?”

Ye Mo asked because he was really curious. Even if it was some god spirit herb that must be used immediately upon digging it, Qiao He would be able to bring it to him.

“Shaking Light Soul Refining pill.” Qiao He said and looked at Ye Mo.

“What?” Ye Mo looked at Qiao He in shock. If it was before, he wouldn’t even have heard of such pill but after getting all the information from the Murder Dao Spear, he knew very clearly what the Shaking Light Soul Refining pill was.

When he first knew about this pill, he even used the Three Birth Chant to derive it. He knew that it was impossible for such pill to be made. He didn’t know why someone left such pill recipe.

The reason he cared about the pill was because of its effects. This pill could condense soul and return life force. He wanted to see if this pill could save cwq.

In the vast universe, there was a condition called soul loosening. This was prenatal. There was no way to cure this. As it grew worse, the soul would eventually be annihilated.

People with such condition can not cultivate at all and are very weak. They only live till their soul is completely annihilated. This process usually isn’t very long, at most a hundred years.

Even if the process is very long, a person who can’t cultivate can only survive for a hundred years.

The most important thing is that this pill required 999 different types of immortal spirit herbs and god spirit herb. The main spirit herb is called shaking light herb.

It's not chaos herb nor top god spirit herb but its value is no lower than chaos herb. This herb must not be moved away. It can't see light. If it was moved or put in light, it would wither within 15 minutes. This mean that even if the pill could be made, it must be made within 15 minutes.

The shaking light herb took ten thousand years to mature. More important it would only mature if it was watered with 100 million year old god marrow. How much would that be for ten thousand years?

Other people thought that if these conditions are met, the pill could be made but Ye Mo knew this wasn't the case.

Even if these spirit herb and god spirit herbs were mixed together, it still lacked something. It wasn't a god spirit herb, it was life force. It wasn't ordinary life force but chaos life force.

Only he had such life force. Only the chaos tree's chaos life force could ensure that the pill was concocted.

How could Ye Mo take such business? Even if there was the shaking light herb, Ye Mo would reject without hesitation.

These thought spun rapidly in his head. Then, Ye Mo sneered at Qiao He "Sorry, ask for someone else powerful. You've been in the Void Marketplace for more than a hundred years and you want me to concoct the shaking light soul refining pill to save someone with a loosened soul. Even if your palace lord has heaven shocking power to preserve that person from dying, that person can't be saved. Do as you please."

Hearing this, Qiao He was instead very surprised and joyful. He knelt down in front of Ye Mo and said "Please help pill divine Ye. My palace lord has three shaking light herb. He invited two of the top pill divines but they had to rely on the palace lord to provide the recipe. You can imagine the result. There's only one shaking light herb left. If pill divine Ye don't help then no one can concoct such pill."

Ye Mo didn't expect a dao essence divine emperor peak stage would kneel down in front of all these people on the streets. Ye Mo frowned "Get up and talk."

"Yes." Qiao He was very obedient this time and got up immediately.

Ye Mo didn't have a good feeling. Qiao He was a dao essence divine emperor peak stage and was willing to kneel to him. Didn't that mean the palace lord was a Primordial essence divine emperor? If a primordial essence divine emperor thought he could concoct the pill, how can he get away?

Although he had the means to kill dao essence divine emperor, it wasn't enough to protect himself in the universe.

Qiao He said "Our palace lord said if someone can concoct the shaking light pill, he's willing to give 10 extreme grade god spirit range, 10 billion god crystals and hundred drops of 100 million year god marrow, ten dao fruits and your selection of three extreme grade god artefacts. You can even ask for Primordial Spirit Artefacts."

Hearing this payment, Ye Mo took in a cold breath. He had always thought he was wealthy but compared to this offer, he was a beggar.

There were this many things, how could he reject it. This was a test of heart. If he wanted to concoct pills he would have to use the chaos tree life force. If he didn't use the life force, it would be a waste too.

Ye Mo hesitated for half a day and said "I'm busy now so I can't go with you."

Qiao He said without hesitation "it's fine, I'm not busy I can follow you. When you have time you can come with me. Pill divine Ye can consider me an errand boy. If you need me to do anything just tell me."

Ye Mo thought about the upcoming dao fruit distribution gathering and nodded "Then stay with me. It might take a hundred years. If you can't wait that long then there's nothing I can do."

The reason Ye Mo said 100 years was because he felt his power was a bit too low to go to a primordial essence's place to concoct pills.

The reward was good but he needed to be able to protect him. That meant that before he reached dao essence divine emperor, it was best that he didn't go. No matter how good the things were, he would need to have the life to use it.

Qiao He quickly said “No need, when our young mistress was bom, her soul was loose. The palace lord immediately planted three shaking light herb and used death dao fruit to preserve her life for 1 million years. Now, it has been ten thousand years. It’s a bit hard to preserve her soul from loosening but it should last a few hundred years.”

Ye Mo sighed. This Guang Yuan palace lord was really wealthy. He could easily take out something like death dao fruit.

Ye Mo nodded “Okay, I am staying at Void Star immortal rest tower for now. Nine days later I will be going to the god rank square for the dao fruit tower spot distribution gathering. Wait for me there.”

Ye Mo didn’t intend to get Qiao He to help but he was dao essence peak stage. He would be useful around him.

“Yes, I understand.” Qiao He saw Ye Mo said nothing more and quickly left.

Chapter 2165 Person who don’t mind his own business

When Ye Mo entered the void star immortal rest tower, the attendants came to greet him before he even took out his jade card.

During these nine days, Ye Mo didn’t go out. He just stayed inside thinking about the things he would face. He wasn’t worried at all about the spot distribution gathering. He was thinking about if he should help that primordial essence palace lord concoct pills. If he did, he would get resources he had dreamed of but there was equally as much danger.

If he didn’t go, all these good things would disappear and he might have to face the hunt of a primordial essence divine emperor. Ye Mo hadn’t seen a primordial essence divine emperor before but he knew they definitely weren’t simple.

Time flew by and nine days were gone. Xing Hong was worried about Ye Mo but he didn’t ask Ye Mo to concoct pills these few days. If he did, that would mean he was scared that Ye Mo would be killed at the gathering.

The god rank square was enormous. There were restrictions and formations everywhere. At the top, there were two stone tablets that soared high into the clouds. The tablet was golden and the words on it were white.

The other tablet was white color but the words were golden.

Ye Mo looked at these two tablets and knew they were the god and divine rank of the Void Marketplace. The golden tablet was probably the god rank and the white one was the divine rank.

Each tablet had a huge stage before it. There were restriction all around the stage. Ye Mo's spirit sense scanned and immediately knew these to stages were for the challengers. The restrictions around them were so powerful that Ye Mo guessed even dao essence masters might not be able to break it.

There were a lot of people on the square but because this square was simply too big, there actually didn't seem to be that many people.

"Pill divine Ye." When Ye Mo was still studying the stages, Qiao He already came to Ye Mo and greeted him.

Just when Ye Mo wanted to speak he heard a cold voice "Luo Qinghe, since you came then accept my challenge. From today onwards, the 383rd place on the god rank belongs to me, Wu Kang."

Then, a man wearing black robes landed on the stage. This person was dao actualisation peak stage. His face was already white but with the black clothes he was wearing, it seemed even more pale. He had waves of demonic chi circulating around him. Anyone could tell he was a demon race dao actualisation divine emperor.

Cocky words." The next moment, a blue immortal robed man landed on the stage.

"Hmm?" Ye Mo was surprised. This Luo Qinghe was a dao actualisation divine emperor peak stage too but this person was also human.

Ever since coming to the Void Marketplace, Ye Mo had the feeling that the human race was very weak and timid. He didn't expect there was human race divine emperor on the god rank. It seemed that Xing Hong didn't lie to him. There were two human divine emperors on the god rank. Where was the other one.

The demon race dao actualisation divine emperor saw Luo Qinghe get up and he couldn't even be bothered talking as he released a golden demonic whip. In that instant, the stage was covered by dark light but there was golden colour amidst this dark light.

Luo Qinghe didn't retreat at all. He released a blue long sword at the same time. It also turned into a blue veil of swords.

There was spirit sense barrier on the stage so everyone could only watch with their eyes. People could only see clashes of blue and black rays. They couldn't tell who had the upper hand.

Ye Mo's spirit sense couldn't scan in too. He had spirit sense cultivation method but he couldn't publicly break the rules.

When he was thinking about who would win, he noticed something. That blue sword shadow gave him an extremely familiar feeling.

He had seen such cultivation method before. Soon, Ye Mo remembered. The blue sword shadow was the same origin as the cultivation method Xu Changji used.

Xu Changji was his martial brother, a disciple he took for his master. He changed up Xu Changji's cultivation method and that cultivation method was called Qing He God Cultivation chant.

Thinking about how this person was called Luo Qinghe, Ye Mo realised. He was certain that Xu Changjie's cultivation method was left behind by this Luo Qinghe. This meant that Luo Qinghe had been to Luo Yue continent.

Ye Mo sighed. The universe was vast but once your cultivation level reached a certain stage, this endless universe would become small.

Luo Qinghe came to the Void Marketplace and made a name for himself. He even became a divine emperor on the god rank.

The two were invisible to the crowd. There was just clashes of black whip shadows and blue sword shadows with intense sounds.

In a violent beast like roar, the audience saw a black beast shadow. Ye Mo immediately recognised this was a mist demon beast. This one was countless times stronger than the one he had seen before.

Everyone could tell that Wu Kang released this mist demon beast. It was extremely real and could even devour sword shadow.

As the beast came out, Luo Qinghe's sword shadow loosened up. Darkness started to enclose the stage. Everyone knew that Luo Qinghe had half lost already.

Even Ye Mo thought Luo Qinghe was going to lose and become food to the mist demon beast. Ye Mo sighed, he knew that on such stage, unless you surrendered and your opponent was willing to let you leave, there was no way out.

Ye Mo really wanted to save Luo Qinghe but he knew he didn't have the right to.

Just when the blue sword shadow was about to disappear, there was suddenly a terrifying howl. Then, everyone saw that a dark red puppet appeared on the stage. It was extremely agile and easily tore the mist demon beast to pieces.

Ye Mo nodded. This puppet was very high level and had its own consciousness. Luo Qinghe seemed to have good fortune.

Luo Qinghe was angered by the mist demon beast. His blue sword shadow became condensed and pierced into Wu Kang's forehead.

Wu Kang seemed to be possessed and just stood still there. The blue sword shadow instantly blue Wu Kang's head apart. As soon as Wu Kang's essence spirit escaped, it was annihilated by the puppet.

Seeing this, Ye Mo knew that Luo Qinghe definitely knew a spirit sense cultivation method. No wonder he could ambush.

Luo Qinghe took Wu Kang's things and jumped off the stage.

"Kid, how dare you ask people for help on a god rank challenge. You can leave your life here today." As soon as Luo Qinghe got off the stage, a bleak murderous voice sounded. At the same time, a powerful red light hacked down.

Luo Qinghe barely released his blue sword that blocked the red beam a bit. However, that red beam was much stronger. Luo Qinghe was struck by the red beam and spat mouthfuls of blood in the air.

Atm, the red figure landed on the square. His powerful blood coloured killing intent and dao essence divine emperor chi circulated around him.

"On the god rank square, you, a dao essence divine emperor, attacked me, a dao actualisation, disregarding the rules?" Luo Qinghe spoke while spitting blood.

You hid a puppet on the stage. That's like two against one fighting Wu Kang. You broke the rules first, why can't I attack you?" that dao essence divine emperor said coldly and was about to attack again.

There were many human race divine emperors but none of them dared to speak. They knew that if they said anything, they would be killed.

Luo Qinghe felt despaired. He wanted to use this opportunity to enter the dao fruit tower and reach dao essence. However, this caused dao essence master to kill him. Despite this, there was no way he was going to give up.

"Is your mouth on your butt or are your eyes on your asshole? Why are your words so full of shit? How come I saw one of them using a mist demon beast and one used a puppet?" Just when this dao essence divine emperor wanted to attack again, a contemptuous voice interrupted him.

Chapter 2166 Human Race Still Exists

This demon divine immediately stared at Ye Mo. When he saw that Ye Mo was a human dao actualisation divine emperor, his murderous force materialised cracking up the nearby restrictions.

Not only him but all the other divine emperors in the square looked at Ye Mo in shock. They didn't get it. Ye Mo was a dao actualisation divine emperor and dared to speak like this to a dao essence divine emperor? This was suicide. Even if Ye Mo was a human too, such actions weren't appreciated by them.

Luo Qinghe also looked at Ye Mo in confusion. He didn't expect there to be such hot blooded divine emperor. He knew it was suicide and still dared to curse a dao essence divine emperor.

"Pill divine Ye, it's a mere dao essence, leave it to me." Qiao He saw the opportunity to help Ye Mo and immediately said.

With this, the demon divine immediately calmed down. Qiao He was dao essence divine emperor peak stage and seemed much stronger than him. Qiao He's blue color also materialised around him. That would only form through constant slaughter. Plus, he knew Qiao he. Qiao He had been in the Void Marketplace for more than 100 years. He killed god rank 127 Baili Hong as a dao essence divine emperor but no one looked for his trouble.

"Qiao He, I'm demon race Gong Xiang. You're a dao essence divine emperor. Are you going to help such rude human dao actualisation?" Gong Xiang slightly collected his red chi.

The nearby people realised. No wonder this dao actualisation divine emperor dared to speak to Gong Xiang like this. He had a dao essence divine emperor to back him up.

Ye Mo signalled Qiao He to not talk. He walked up and said "This has nothing to do with the rest of the people. Gong Xiang, you're a dao essence divine emperor and you're oppressing a dao actualisation divine emperor. Do you have no shame?"

Ye Mo didn't want to owe Qiao He yet. If Qiao He helped him and he didn't help concoct pills, he would owe Qiao He a huge favour. Ye Mo hated owing people favours.

Plus, he really didn't consider this demon dao essence a threat.

Hearing this, Gong Xiang rejoiced and spoke before Qiao He could "I'm the representative for the demon race at this spot distribution gathering. Wu Kang and Luo Qinghe were fighting for the god rank but that's also for a spot entering the dao fruit tower. Of course I have the right to manage this. Who are you, are you planning to intervene too?"

Because Qiao He was watching on the side, Gong Xiang didn't dare to be too harsh. He started to speak with reason. If he gained a foothold there and Qiao He still dared to attack, he would immediately ask the dao essence masters of the square to attack. Meanwhile, he could kill Ye Mo and Luo Qinghe.

Some people have recognised pill divine Ye and started discussing on the side.

Ye Mo smiled "You're right. I'm the person representing the human race for this gathering. How come you have the right to intervene but I don't? Do you think your demon race is going to oppress all the races? Do you think you're the strongest?"

"What? You're the one representing the human race?" Gong Xiang didn't dare to believe this. Did Ye Mo desperately want to die?

Although there was Qiao He on the side, he couldn't help in this. Only people of their own races could help them. Qiao He clearly wasn't human race. He wouldn't even be able to enter.

"What, there's someone to represent the human race for this gathering?"

"Human race re-entering the dao fruit tower distribution gathering..."

"Human dao actualisation pill divine participating the dao fruit tower distribution."

In a short while, this news spread out.

In the Void Marketplace, all those humans who heard this headed to the god rank square. This was the first time they had heard in countless years that there was someone representing the human race.

This was definitely a shocking news. Even if they only got one spot, this would mean that human race was speaking up amongst the races. They would no longer be abused and just tolerate it.

Luo Qinghe was shaking in excitement. He wanted to reach dao essence quickly just so he could represent the human race and participate in this gathering. Although he knew that even if he reached dao essence, he wouldn't be able to get a spot at the gathering, he was long sick of humans being oppressed in the Void Marketplace. He might not be able to change the status of the human race but he would let all the other races know that human race still existed.

Gong Xiang immediately realised that Ye Mo wasn't joking. He was overjoyed upon realisation, "Okay, since you're representing the human race, then I formally challenge you now. We'll talk on the stage."

Gong Xiang breathed out his annoyance. He finally had a proper reason to kill Ye Mo. Even Qiao He didn't dare to stop him.

Ye Mo was waiting for Gong Xiang to say this. Even if Gong Xiang didn't say this, he would kill this demon dao essence divine emperor in front of everyone. He killed a demon race divine emperor when he was only dao nourishment. Now that he was dao actualisation peak stage, how could there be a problem?

Just when Ye Mo was about to fight with Gong Xiang, a voice sounded in everyone's ears. "All the divine emperors representing their races for this gathering please enter the square now. The gathering shall begin."

A sliver of disappointment flashed across Gong Xiang's eyes but then he smiled to Ye Mo "Very well, you can live a little longer. I will still come after you on this gathering. Leave behind your last wishes unless you cower on the side and not even take one spot."

Then Gong Xiang flew towards the largest building on the left of the square.

Qiao He saluted with his fists to Ye Mo "Pill divine Ye I will wait for you at the door."

Ye Mo glanced at Qiao he strangely “You’re not worried that I can’t come out?”

Qiao He immediately said “No, pill divine Ye’s power is probably on par with mine.”

He had fought with Ye Mo before. He already had an estimate for Ye Mo’s power. He was certain that if Ye Mo fought with Gong Xiang, Gong Xiang wouldn’t be able to take out Ye Mo for sure.

“Okay, then wait for me.” Ye Mo said and walked towards that door. He would come find Luo Qinghe later.

Luo Qinghe sped up to Ye Mo and said “Thank you for helping pill divine Ye, or I might’ve died already.”

Hearing people call Ye Mo pill divine Ye at the square, he called Ye Mo pill divine Ye too.

Ye Mo smiled “Wait for me on the square. After the gathering I’ll come talk to you, I have some things to ask you.”

Luo Qinghe quickly said “Pill divine Ye, each race can bring two members of their race to the gathering. If pill divine Ye is alone, I’m willing to go with pill divine Ye.”

Ye Mo was very happy with Luo Qinghe’s words. Clearly, he wasn’t scared of dying.

“Okay, then come with me.” Ye Mo immediately agreed.

“Brother Ye, I’m willing to come too.” Another female voice sounded. Wang Nanshuang had come up to them. There was Ji Xi and two other women behind her.

Wang Nanshuang was from the Immortal Goddess Sacred Sect but in Ye Mo’s impression, she was a good person. However, there was no need for her to join the gathering. Even though she was dao actualisation divine emperor, her power was far weaker than Luo Qinghe.

“No need.” Ye Mo was blunt.

Wang Nanshuang was desperate and quickly said “Brother Ye, now’s not the time for personal conflicts. I know brother Ye has bad views of the Immortal Goddess Sacred Sect but if there’s the chance to contribute to the human race, the Immortal Goddess Sacred Sect will not fall behind. Since I said that I will be joining this gathering then I won’t retreat no matter how hard it is. At most, it’s just death. Plus, other races have three people going. If we only have two, it won’t seem good.”

Ye Mo thought for a moment and said “You’re right, then let’s go together.”

“Brother Ye, I’ll go with you too.” Dong An came over too.

Ye Mo smiled “Each race is only allowed to have three in total going. We already have three now. just wait outside for our good news.

Chapter 2167 That’s because I haven’t come ye

When Ye Mo brought Luo Qinghe and Wang Nanshuang into the palace, there were already nearly a hundred people sitting inside. The seats were clearly divided into groups of three, clearly representing a power or race. The seats were also placed that one was slightly in front and two slightly behind.

Ye Mo studied this palace. This place was very spacious. One couldn’t even see the top of the palace. Ye Mo knew this was due to formation. There was also a nearly 60m in diameter stand at the center of the palace. The restrictions around it was no weaker than the restrictions on the god rank square stage. Ye Mo knew this was also another battle stage.

This stage was probably for battle when two parties disagreed between distribution. There was a dark red aura around the border of the stage. Countless divine emperors have died here.

“Come sit here pill divine Ye.” Xing Hong saw Ye Mo and quickly greeted.

“Brother Xing, you’re here too?” Ye Mo said. Xing Hong came back he wasn’t sitting on the main seat. The divine emperor sitting on the main seat had much stronger chi than Xing Hong.

Xing Hong smiled “Of course, I’m representing the Void Marketplace merchant tower. We have the right to compete for spots.

“hmm? Human race is participating too this time?” People were immediately shocked upon seeing Ye Mo and them come in.

“Three dao actualisation divine emperors coming to this dao fruit distribution gathering?”

“What is this? Are they here to prove they have courage?”

Discussions went on non stop but no one came looking for their trouble probably because seeing Ye Mo greet Xing Hong.

Luo Qinghe didn’t know that Ye Mo knew Xing Hong. He admired Ye Mo even more. Who haven’t heard of Xing Hong’s name in the Void Marketplace?

The three didn’t sit for long and tens more people came into the palace. In total, there was about 130 people in the palace.

This meant that there was nearly 50 powers or races here.

The last to enter was a grey robed divine emperor. He looked ordinary and his chi was much weaker than the rest of the divine emperors here but Ye Mo could tell this person was a half way primordial essence, a very powerful half way primordial essence.

He walked to the top seat of the palace and saluted with his fists saying “Welcome immortal friends of all the realms and races to the Void Marketplace spot distribution gathering. Many divine emperors here know me and of course there are some new divine emperors who haven’t heard of me. I’ll introduce myself. I’m from the Void Marketplace, my divine name is Kong Han. This time, Tian Rui divine emperor and I will be impartially conducting this distribution.”

When Kong Han finished, an ordinary looking old man suddenly appeared next to him. He looked even weaker than Kong Han divine emperor.

But some divine emperors realised that this ordinary old man was even stronger than Kong Han. Ye Mo knew this was another half way primordial essence.

This old man said “I’m Tian Rui. Now let the gathering begin.”

Tian Rui then shut his eyes as though everything else had nothing to do with him.

Kong Han divine emperor smiled “What’s worth mentioning is that this time, there is the human race and shadow race...”

Kong Han continued “because many of the god rank divine emperors couldn’t come back to the Void Marketplace in time and some races not coming, there’s an extra 193 spots on the dao fruit tower...”

Ye Mo heard this and was shocked. He didn’t expect there would be this many dao fruit tower spots.

“There’s 46 seats to be distributed. According to the old rules, these spots will be shared evenly. Does anyone object?” Kong Han said and looked at the people.

Kong Han meant seats that were at the front. This meant that there was 46 races of powers to be represented.

“We’re fine.” The representatives of different races said.

Ye Mo was dazed. Was the gathering this simple? All the spots were shared evenly and no one objected? Plus, there were 46 powers, the 193 spots can’t be divided evenly. Why did no one say anything.

After waiting for a while and no one said anything, Ye Mo said something.

“Kong Han divine emperor master, I object.” Ye Mo got up and saluted with his fists.

Almost everyone looked at Ye Mo. Object to what now? Why would you object to Kong Han divine emperor.

“Fool.” That demon dao essence sneered at Ye Mo.

Kong Han divine emperor was very shocked that a dao actualisation divine emperor dared to object in this. He looked at Ye Mo with interest “You’re the representative for the human race right? What objections do you have?”

Ye Mo said loudly “This is my first time coming to the gathering so I want to ask, does the 193 spots include the 30 spots the human race deserves?”

Kong Han said “Yes. The human race didn’t come to this gathering multiple times so these 30 spots were considered extra ones.”

“Kong Han divine emperor master, would the spots of other races be considered extra? If other races don’t share their spots evenly but just the human race has to, then how is this fair?” Ye Mo said.

Kong Han divine emperor dazed. There were human representatives before but they didn’t make the same request as Ye Mo and didn’t dare to bring up the human race had 30. Yet, this dao actualisation divine emperor dared to make such request.

“Hahaha...” Ye Mo’s words made the palace erupt into laughter. Even Xing Hong looked down.

Luo Qinghe and Wang Nanshuang were dazed. They came here with Ye Mo so the human race wouldn’t keep declining. They were ready to die but they weren’t ready for Ye Mo making such terrifying claims.

They just wanted to get one or two spots and then leave. Yet, Ye Mo asked for the 30 spots the human race had before.

Kong Han divine emperor didn't laugh and pressed with his hand for the laughter to stop. Then he looked at Ye Mo and said "But there were past representatives who didn't make this claim. After all, it's been too long since the human race quit the gathering."

Kong Han divine emperor sighed. He liked Ye Mo's courage so he wanted to tell Ye Mo inadvertently that even if he took all 193 spots now and people agreed, it was useless. As this was only the first step to the distribution. The second and third was the most important. No one cared how many spots people got at the first step.

"That's because I didn't come. If I came, I would've long made such request." Ye Mo said.

"Human representative wants to take back the 30 spots that belong to them. Does anyone object?" Kong Han heard this and just asked everyone.

Chapter 2168 Spot Distribution

Gong Xiang immediately got up and said "We have no objections of course. The 30 spots of the human race belongs to them. Of course, since the human race hasn't been to the gathering for so long, their 30 spots can only be treated as extra spots to be given to them. The next time, it can be considered their permanent spots."

Gong Xiang's words were completely reasonable and it seemed he was even thinking for the human race.

Ye Mo completely understood what was going on. Giving the spots to him as extra spots meant that it could be robbed through challenges. Permanent spots were permanent. People didn't have a right to challenge and take it.

The more extra spots he took here, the more challenges he would have to accept. That meant the more chances he would get killed.

Kong Han divine emperor looked at everyone "What does everyone think of immortal friends Gong's suggestion?"

All the races approved immediately.

Kong Han divine emperor looked at Ye Mo with a strange glance “Now that everyone agreed to let you take back the 30 spots do you have any other requests?”

Hearing this, Ye Mo could tell this Kong Han was completely neutral and saluted with his fists “Thank you Kong Han divine emperor, I’ll only take back what’s mine.”

“Okay, then in that case, there’s 163 spots remaining for even distribution. Everyone will get three spots but the fourth round isn’t enough for everyone. Wherever the distribution stops, that’s it.”

This meant that those sitting at the front could get four spots and those sitting at the back could only get three.

People already knew this rule here. Those who didn’t want too many spots sat at the back.

“Pill divine Ye, I don’t think it’s good that we asked for 30 spots.” Luo Qinghe said quietly.

Ye Mo didn’t mind “We need to take back what belongs to us. What doesn’t belong to us we don’t need to fight for it.”

Kong Han divine emperor acted like Tian Rui divine emperor and said nothing after the first round finished. It was as though the two just came to watch the show.

Ye Mo was sitting at the front so the human race got 34 spots altogether. Then he saw the numbers floating above each race represented that the spots for the dao fruit tower they got.

“The god race is willing to give two spots to the abyssal race and one to the aquarius race.” A blue faced divine emperor immediately got up.

“Abyssal race accepts.” A bleak divine emperor got up and said. Ye Mo noticed this guy before as he was the representative for the abyssal race. Ye Mo planned to talk to him after the gathering.

Then, the number above them changed to six from four.

“Aquarius race agrees.” An aquarius race divine emperor got up and the number from the god race disappeared. “So this is transfer of spots.” Wang Nanshuang said. This way, weak races could give spots to powerful races. “Earth elv race is willing to give spot to dragon race...”

“Dragon race accepts.”

“Blood race is willing to transfer spot to demon race...”

Some were transferring spots, some were accepting spots. Ye Mo and them stayed silent.

If they weren't afraid that their permanent spots would be taken, many races definitely wouldn't come here.

Dragon race, phoenix race... they were so powerful that they left the monster race and became their own race. Even here, they had their own spots.

Ye Mo didn't get up. He didn't plan to give his spots away nor ask for spots.

This round soon ended. Ye Mo noticed that it was powerful races accepting spots for example, the beast race, demon race, abyssal race, dragon race, aquarius race... the ones giving spots were weaker ones such as bug race, earth df race, shadow race. There are small portions of races who didn't give nor accept races.

Powerful races like the demon race had accepted more than 20 spots. Even abyssal race and aquarius race got more than 10.

Then, everyone set their gazes on Ye Mo. The 34 spots was a huge piece of meat. To everyone, it was just temporarily placed with Ye Mo.

Now, it was time to split it.

Demon race dao essence divine emperor Gong Xiang immediately stood out and landed on the round stage. He saluted with his fists to Kong Han and Tian Rui before staying at Ye Mo “The demon race will take five of the human race spots. If the human race don’t agree, then Gong Xiang will represent the demon race to challenge human race divine emperor.”

“Pill divine Ye, I’ll go.” Luo Qinghe knew it was suicide but it was worth than death for him to be timid. Plus, Ye Mo offended Gong Xiang due to him and that’s why Gong Xiang challenged first.

Ye Mo patted Luo Qinghe’s shoulder signalling him not to do. Then, Xing Hong’s voice sounded by his ear “Pill divine Ye, give the spot to him and he has no reason to challenge.”

Ye Mo nodded to Xing Hong in gratitude and walked up to the stage and saluted with his fists to the two half primordial essence divine emperors “The human race shall take five of the demon race’s spots. If the demon race don’t agree, then I, Ye Mo, shall represent the human race to challenge demon race divine emperor.”

The gathering had been very serious ever since the two half primordial essences came out but now due to Ye Mo’s words, it became noisy.

Just what balls did this human dao actualisation divine emperor eat? Was he worried that he wouldn’t die a pitiful enough death?

Why did he try to infuriate the demon dao essence like this?

Even Tian Rui suddenly opened his eyes and looked at Ye Mo. He didn’t understand. Courage was necessary but it wasn’t worth to die for it like this. This was being stupid.

Kong Han divine emperor’s eyes flashed with surprise. Then he said calmly “Ok, now, the demon race divine emperor Gong Xiang will battle human race divine emperor Ye Mo. The losing side will give out five spots.”

As soon as he said this, the restrictions of the stage had been opened. Gong Xiang's blood chi filled the entire stage mixing with his dao essence divine emperor. It was as though this stage would become his own realm. He was certain that Ye Mo would barely be able to move much less fight him.

Chapter 2169 Power of Zi Xu

Even so, he didn't want Ye Mo to die easily. He released his magic artefact demon blood blade. A blood mark that crossed space came above Ye Mo's head.

He was going to destroy Ye Mo's body as quickly as possible and then capture his essence spirit and torture him slowly. How dare a dao actualisation divine emperor be this cocky to him.

Ye Mo felt this blood realm and knew that Gong Xiang was weaker than the demon dao essence divine emperor he killed before. He didn't need Zi Xu to kill him.

But Ye Mo didn't plan to not use Zi Xu. Hiding his strength here wasn't good. He was going to kill Gong Xiang with lightning speed and shock everyone. Otherwise, he might face endless challenges today. He didn't fear these challenges but everytime he killed someone, he would offend that power. Ye Mo didn't want to offend too many.

Ye Mo's domain suddenly burst out. His domain was beginning to form a realm too. It made Gong Xiang's realm crumble rapidly. Ye Mo even stacked on top his powerful spirit sense realm.

Gong Xiang's blood realm was instantly pulverised. The blood chi circulated around him blew out like feathers.

The next moment, Gong Xiang felt the space between him and Ye Mo freeze.

The instant he felt this, he knew that he had underestimated Ye Mo. This was ice space god art. It can only be used with certain level of space law and ice law knowledge. Gong Xiang's knowledge of space law was inadequate and his space law god art couldn't even materialise.

The demon blood blade immediately stopped.

Ye Mo wasn't affected at all by his blood realm and the moment space froze, a purple sword ray was hacked out.

Gong Xiang broke free from ice space instantly and just when he wanted to seal this purple sword ray he found that this sword ray carried a vast and extreme lethal force pressure that drew away all the surrounding lethal force.

This wasn't just sword domain lethal force but also world lethal force. Ye Mo didn't even use a god art on this strike. It was just an ordinary swing with the broken ice space god art.

Ice space was broken but it still affected Gong Xiang. However, what killed Gong Xiang wasn't ice space but this sword

"Primordial Spirit Artefact..." Gong Xiang looked at the purple sword ray slice over his body in despair and called out. Such dominating primordial lethal force, what else could it be other than the best Primordial Spirit Artefact?

The insect in his eyes instantly killed him in a duel with him. As soon as Gong Xiang's essence spirit came out, it was grinded by Ye Mo's purple sword ray and disappeared.

The blood chi disappeared and a demon blood blade fell on the ground. Zi Xu returned to its ordinary look and was put into storage ring by Ye Mo.

Ye Mo waved up the demon blood blade and a storage ring and walked off the stage. He was quite shocked and happy. He knew his powers had increased a few levels but only now did he realise to what extent.

Zi Xu was an important factor but Ye Mo was certain that without Zi Xu, he could still kill Gong Xiang.

When Ye Mo killed Gong Xiang and walked out of the stage, the entire palace was silent.

Then, the palace erupted in noises.

Everyone looked at Ye Mo with different eyes. Even the two half way primordial essence looked at Ye Mo strangely. It was simple for them to kill a dao essence divine emperor but a dao actualisation divine emperor killing a dao essence divine emperor this easily was too astounding.

There were dao actualisation divine emperors who killed dao essence divine emperor in the Void Marketplace but it was too rare. They were absurdly talented and even that they would need to have an intense battle to kill a dao essence divine emperor.

But what was Ye Mo? He was a dao actualisation primary stage and he could kill a dao essence divine emperor this easily. This was too scary.

“This battle is won by human race Ye Mo. Demon race give five spots to the human race.”

When Ye Mo went back to his seat, Kong Han finally announced the results.

Luo Qinghe and Wang Nanshuang also waited till Ye Mo came back to his seat before getting up in surprise and joy.

“Pill divine Ye, you actually won, and this easily too?” Luo Qinghe still didn’t believe this was real.

Wang Nanshuang knew how absurd Ye Mo was. He could kill dao actualisation divine emperor when he was only dao moulding divine emperor. Now that he was dao actualisation divine emperor, it wasn’t impossible for him to kill dao essence divine emperor. The only thing she didn’t expect was it to be this easy.

But to them, the stronger Ye Mo was the better.

The other two demon dao essence divine emperor still didn’t believe their dao essence demon divine would be killed by a human dao actualisation especially instant killed.

Gong Xiang represented the demon race but he wasn’t the leader. The dao essence demon divine sitting next to him got up and stared at Ye Mo with killing intent. Just when he wanted to speak, he was pushed

down by the demon divine sitting in front, “you’re no match for him. His ordinary purple sword is probably a Primordial Spirit Artefact. I’ll see the attitude of other races. If no one attacks I will.”

The demon divine calmed down. He knew he was no match for Ye Mo but he couldn’t just take it that a demon dao essence was killed by a human dao actualisation.

When Ye Mo sat down, the number above his head went from 34 to 39.

Many people recognised that Ye Mo’s Zi Xu was a Primordial Spirit Artefact.

There was limited numbers of Primordial Spirit Artefact in the universe. People knew almost 99% of them but they had never seen Ye Mo’s purple sword.

When many people were watching Ye Mo, a powerful spirit sense scanned at Ye Mo too. This spirit sense seemed to want to ambush Ye Mo’s sea of consciousness. Ye Mo immediately used spirit sense nine transformations and released a spirit sense net grinding this spirit sense to nothing. However, Ye Mo couldn’t find the owner of the spirit sense.

The serious silence didn’t last for long when a dao essence drenched in water came up and screeched “Aquarius race Xun Tai will take one spot of the Winged Race, if you don’t agree then come up.”

Ye Mo looked at the three from the Winged race. They were all dao essence divine emperor but Ye Mo could tell none of them could beat Xun Tai. It also seemed that they were more adept at fighting in spacious areas, not small confinements.

The winged race got up and said “Winged race don’t want to fight, take the spot.”

Winged race now already gave out three spots but now, they’re last spot was taken. Aquarius race was probably annoyed that they didn’t get one of the three spots.

There were other divine emperors challenging each other but no one challenge Ye Mo. Ye Mo didn’t plan to challenge anyone else.

“Abyssal race want five human race spots. If the human race don’t agree come up and challenge me, Zhongli Huoyin.”

Chapter 2170 I admit defea

People immediately looked over when someone challenge human race Ye Mo again. Although they knew people would eventually challenge human race, they didn’t expect it was abyssal race.

Ye Mo frowned. He had things to discuss with them but they wanted his spots. This wasn’t the dao essence divine emperor he was watching but they would be sure to have conflict.

Ye Mo didn’t want conflict with the abyssal race but he had no choice. He got up without hesitation “Don’t even dream about taking the human race spots. As for your challenge, I accept.”

Seeing Ye Mo not ask for abyssal race spots and just accepted the challenge, people on the side were confused. When demon race challenged Ye Mo, Ye Mo chose to challenge them too and took five spots from them.

Now that Ye Mo didn’t challenge them back, it was really strange. Was it that this dao actualisation divine emperor knew abyssal race was the strongest and didn’t dare to anger them too much.

Zhongli Huoyin was dao essence peak stage power. He was from the abyssal race but he didn’t look like one at all. He carried cold chi but his body was very material. His face was rudy. He seemed more like a human.

When the stage restrictions were activated, he didn’t attack immediately and instead looked at Ye Mo and asked “Is the purple sword you took out before a Primordial Spirit Artefact?”

Ye Mo’s face sunk. He wanted to connect with the abyssal race but this didn’t mean they could sit on his head. Zhongli Hu clearly wanted his Zi Xu and thus came to challenge him. This guy was probably scared of Zi Xu being taken away but also didn’t want to rob something that wasn’t a Primordial Spirit Artefact and cause misunderstanding.

"I can answer the question but you need to answer my question too." Ye Mo said emotionlessly.

Zhongli Hu frowned and said in contempt "What thing do you think you are? You dare to ask me a question? Hurry up and answer. Just because you have a spirit sense cultivation method for sneak attacks, doesn't mean you're strong."

This arrogant guy that he used spirit sense cultivation method to kill Gong Xiang.

Realising this, Ye Mo knew Zhongli Hu was the one who ambushed him with spirit sense. No wonder he was so bold to come challenge him.

Ye Mo couldn't even be bothered talking. He released Zi Xu and extended his primary form of realm.

When Ye Mo didn't ask for abyssal race spots, Zhongli Hu knew that Ye Mo was concerned with him or the abyssal race.

He didn't expect the dao actualisation divine emperor who was scared of his race dare to attack first. Zhongli Hu extended his powerful realm domain. Most of the people at dao essence already had some what of a realm domain. Meanwhile, primordial essence divine emperor's realm domain was pretty much formed and almost about to become a realm.

Zhongli Hu attacked with full power not holding back. He was going to crush Ye Mo with his domain and let him know that spirit sense cultivation method couldn't ambush everyone.

Their realm domains clashed together. Powerful space ripples spread.

Ye Mo's realm domain was completely fine but Zhongli Hu's realm domain had cracks. In just that clash, Zhongli Hu was shook. He felt he was too impulsive. Ye Mo's power definitely wasn't just spirit sense ambush. Ye Mo's domain had the primary form of a realm domain. Although Ye Mo's realm domain looked weaker than his, it was much more durable.

Purple sword ray fell. A huge white drum suddenly appeared above Zhongli Hu's head.

Zi Xu's powerful and vast lethal force was opened a little crack by the drum. Zhongli Hu instantly fled from the crack.

The purple sword ray struck the drum and the drum made an ear piercing cracking sound before turning into hundreds of white beams and disappearing from the stage.

On the other side, Zhongli Hu looked dazily at his magic artefact that crumbled in one clash and was speechless. This person definitely wasn't dao actualisation divine emperor. That was Zhongli Hu's conclusion.

Since they were already fighting, Ye Mo didn't intend to stop. He released Zi Xu again and this time it was sword god art falling mark sword rune.

Ye Mo had never felt as satisfied as today fighting people with Zi Xu. Zi Xu's powerful primordial lethal force completely suppressed the magic artefact of the opponent. It was no longer the situation where his magic artefact was always weaker.

A purple sword ray that almost twisted the entire stage smashed down. The divine emperors outside couldn't scan this sword rune with their spirit sense but the powerful lethal force and tearing chi was visible to the eye.

This was no sword rune, this was destructive lethal force.

Even Ye Mo was shocked. He even felt that he couldn't control this sword rune. This sword rune was about to hack open the restriction on the stage and tear open this world. A shock lightning appeared in Ye Mo's sea of consciousness. Ye Mo immediately became vigilant. His spirit sense immediately swept the falling mark sword rune making it pause for a bit.

Zi Xu had been spirit controlled by him but Ye Mo still felt that the sword rune was spreading. This made his body go soft. One moment later, his sea of consciousness was shook and injured. His god essence was greatly depleted.

Despite this, he felt that Zi Xu come back under his control. Ye Mo subconsciously breathed easy. He was shocked at just what the material that upgraded Zi Xu was.

This material formed Murder Dao Spear and Murder Dao Spear killed countless owners. Now that he upgraded Zi Xu with it, it still had this terrifying destructive force. If it was some ordinary divine emperor and Zi Xu went out of control, no one could be sure if Zi Xu would become a second Murder Dao Spear.

Ye Mo wasn't worried Zi Xu would become a second Murder Dao Spear as he upgraded Zi Xu very early on and had only used it. The reason that situation occurred was that Zi Xu was too strong and he was too weak.

He should be more careful when he used Zi Xu and not fully activate it. When he reached dao essence, he could fully activate it with completely control.

Zhongli Hu's realm domain was instantly broken under that powerful twisting rune.

The rune covered the entire void inside the stage. Even the restrictions and space were cracking. When this twisted purple sword rune appeared before Zhongli Hu, Zhongli Hu couldn't even break free from its void lethal force. He could only watch as Zi Xu hacked towards his forehead.

At this moment, Zhongli Hu finally felt Gong Xiang's feeling. This wasn't spirit sense ambush, this was powerful suppression. Primordial Spirit Artefact plus sword dao god art. This twisted sword rune reminded him of the ancient and ferocious Great Primordial God Rune.

If he could regret, he would never challenge Ye Mo.

But now, he felt that twisted rune pause. This pause was less than one tenth of a second but it was enough for him. Zhongli Hu shook and he disappeared.

That twisted sword rune struck where Zhongli Hu was but Zhongli Hu broke free using space transition god art.

This falling mark sword rune didn't kill Zhongli Hu but it scared the soul out of him. The sword rune was stopped by Ye Mo mid way but still shook the restrictions heavily. It was as though if Ye Mo attacked like that again, the restriction would crumble.

On one corner Zhongli Hu looked dazily at Ye Mo. When Ye Mo turned around, he then remembered he was still in a battle. He released a green spear but he didn't attack again.

When he saw Ye Mo was going to attack again he finally couldn't hold it, "Immortal friends ye, wait, I surrender."
