Chapter 2171 Threa

Ye Mo didn't stop there. He looked at Zhongli Huoyin and said "When you want to fight me you fight, when you want to surrender you surrender. There's no such good thing. Do you think you're dreaming or what?"

"I'm willing to give five spots to the human race." Zhongli Huoyin quickly said. Five spots before the tower was a huge wealth but it was nothing here. He could easily rob it from another race.

Ye Mo didn't put away Zi Xu but he didn't keep attacking. He eased up his tone "Other than this, you need to answer a question. If I'm happy then I can choose to not attack."

The people in the palace didn't know the specific situation but they saw the battle. Zhongli Huoyin's magic artefact was broken in one clash and almost killed at the second clash. He wasn't killed because Ye Mo showed mercy.

Everyone was a divine emperor here and they all saw Ye Mo's falling mark sword rune pause. What else could it be other than showing mercy? Ye Mo didn't keep attacking and instead spoke with Zhongli Huoyin clearly to discuss conditions.

Kong Han and Tian Rui never even blinked during Ye Mo's battle. Now that they paused, the two glanced at each other. Their eyes were filled with shock.

Ye Mo's power was definitely no weaker than them. Ye Mo was only a dao actualisation divine emperor but they were touching the border of primordial essence.

"He's probably a dao essence divine emperor." Kong Han said slowly. He didn't believe a dao actualisation divine emperor would really be this powerful.

Tian Rui didn't answer directly. Instead, he said "Did you see his sword rune? It's a bit strange."

“You’re saying it’s Great Primordial God Rune?” Kong Han reacted quickly. Even if Tian Rui didn’t say it, he suspected that Ye Mo’s sword rune was similar to Great Primordial God Rune. However, even though they were managing the gathering, their spirit sense couldn’t scan in.

Tian Rui nodded “It does look like Great Primordial God Rune. Plus, that Great Primordial God Rune paused allowing Zhongli Huoyin to escape. It might not be Ye Mo showing mercy.”

“What?” Kong Han looked at Tian Rui in shock. That was clearly Ye Mo showing mercy.

Tian Rui shook his head “I’m just guessing. I’m not sure. I didn’t see it from the move but Ye Mo as a person. He’s very decisive in killing Gong Xiang. Thus, he wouldn’t not dare to kill Zhongli Huoyin.”

Tian Rui shadowless suddenly asked “I heard a hundred years ago, in an auction at the Void Marketplace, there was not only a Great Primordial God Rune but also two Great Primordial God Rune dao fruits?”

Kong Han immediately understood but then he stared at Ye Mo in confusion “That person was a demon race divine emperor and tore open space...”

Tian Rui smiled but didn’t talk. Even an idiot would know that with Ye Mo’s Primordial Spirit Artefact, it wasn’t hard to tear open space.

“What question?” This time Zhongli Huoyin didn’t dare to say Ye Mo had no right to ask him.

This question had been in Ye Mo’s mind for countless years and now that he could ask, he asked immediately “If a cultivator died, would his soul appear in the abyssal realm?”

Zhongli Huoyin didn’t expect Ye Mo to ask such a simple question. He immediately answered “Not necessarily. Most cultivators die with their soul annihilated. Only a small portion of cultivator’s soul appear in the abyssal realm. Then, through cultivation, they would be converted to the abyssal race or they would go through the reincarnation bridge for their next life.”

“Is this reincarnation controlled by the abyssal realm?”

“No, the reincarnation bridge is in the abyssal realm but no one controls it. The abyssal realm can’t control the reincarnation of cultivator souls.”

“Then who’s in control?”

“Something we don’t know. It’s just like divine damnation, there’s heaven dao controlling it.”

Zhongli Huoyin was scared Ye Mo wasn’t happy with his answer and added “But because the reincarnation bridge is in the abyssal realm, souls that survive would be swept into the abyssal realm. The cultivators of the abyssal realm would grab these souls for cultivation or keeping or forgery.

Hearing this, Ye Mo frowned. Wanqing was only golden core state. If her soul fell into the abyssal realm, it was more likely her soul was annihilated. Plus, her soul might’ve not gone to the abyssal realm.

“How do cultivators’ souls go to the abyssal realm after death?”

“Any realm has a portal to the abyssal realm. This portal only allows souls to pass through. After ordinary cultivators die, if they don’t convert to ghost cultivators then they would find other places in the immortal realm and then enter reincarnation.”

Zhongli Huoyin said “Souls travel very fast and can ignore ordinary barrier. Even if the tunnel to the abyssal realm is far, they can find it in a very short time.”

Ye Mo thought of swamp shadow valley, that was probably Shen Qiong continent’s portal to the abyssal realm.

The abyssal realm was colossal, even bigger than the Divine Dao Realm.

“How do you enter the abyssal realm?” Ye Mo asked.

Ye Mo pointed at the people outside “It’s not easy for other races to enter the abyssal realm but now, everyone are waiting for us to go out. If immortal friends Ye have other questions, you can come to me after the dao fruit tower gathering.”

Ye Mo knew he had more than just a few questions and they were still indeed inside the battle stage.

Seeing Zhongli Huoyin walk out, the other two dao essence divine emperors of the abyssal realm breathed easy. Regardless, it was good that Ye Mo didn’t kill Zhongli Huoyin. When they heard that they needed to give five spots to the human race, they did so without hesitation.

No one expected that at this stage, the human race had 44 spots.

Luo Qinghe and Wang Nanshuang were extremely excited seeing Ye Mo win back five more spots. They didn’t expect this gathering to be this safe and simple.

Ye Mo knew that after the two battles, people were scared but despite this, he saw aquarius race and beast race divine emperors staring at him eager to try. Even a blood race dao essence divine emperor stared over.

Ye Mo got up and said “The human race won’t rob the spots of other races but I’ll make it clear, if any race thinks we’re easy to abuse and wants to rob our spots then I will take away all of his spots.”

Ye Mo’s words were pretty much threats and immediately made some people unhappy. No dao essence divine emperor here was weak. They were powerful beings that crossed many realms. Many of them were on the divine rank. They were many times stronger than ordinary divine emperors.

Hearing this, the leading dao essence demon divine rejoiced. Ye Mo was asking to die. This was starting public outrage. He said in contempt “So dominant. This is a gathering for the distribution for extra spots. Do you think the all the spots of other races can be taken like yours? Even if you win, you would at most get their extra spots.”

Ye Mo knew that his words would cause public annoyance but since he was going to assert dominance, he couldn’t care about this.

The blood race thought of the demon race as their leader. When Ye Mo killed a demon dao essence, they were already planning to challenge Ye Mo. With demon race speaking up, a blood race dao essence divine emperor got up and walked forward.

Ye Mo saw this and really just didn't get it. What confidence did this dao essence divine emperor have to challenge him. Was it just because he let Zhongli Huoyin go?

Ye Mo just saluted with his fists to the two half primordial essences and said "May I ask if the three representing divine emperors of a race are all killed what would happen to their permanent spots?"

Chapter 2172 Dust Settles

Kong Han knew what Ye Mo was thinking of of course and said plainly "If all three representatives of a race die, then their permanent spots will be dealt with as extra spots."

Hearing this, Ye Mo realised that the human race's permanent spots were made extra like this.

But Kong Han divine emperor said "If the race has no extra spots and only has permanent spots then they're not allowed to be challenged. Unless they challenge you first, there's no way you can challenge them."

"Thank you for enlightening me Kong Han divine emperor master. I understand." Ye Mo saluted with his fists cursed the idiot who represented the human race. He definitely challenged someone and thus lost all the spots.

At this moment, Xing Hong's voice sounded "Pill divine ye be careful, that blood race dao essence divine emperor is on the divine rank. Be careful."

Ye Mo stared at the dao essence blood race and finally realised why he was confident to challenge him.

The blood race dao essence was ready to challenge Ye Mo but hearing what Ye Mo said, he stopped.

He was on the divine rank indeed but he was ranked at the back. Seeing Ye Mo's two previous battles, he had no confidence in beating Ye Mo. He challenged Ye Mo to suck up to the demon race. Even if he was defeated, he could give something good to ask Ye Mo to let him live like Zhongli Huoyin.

He felt that even if he was weaker than Ye Mo, his forbidden arts would make Ye Mo concerned. That's why he planned to come up. Now that Ye Mo said he would annihilate all three divine emperors of the blood race and kick them out of the dao fruit tower, he was concerned.

Even if he felt he was stronger than Ye Mo he couldn't afford to gamble. If the blood race lost their dao fruit tower rights, then they would decline and maybe even become extinct. Many divine emperors of his race existed due to the dao fruit from the dao fruit tower. He didn't dare to make such risk.

That's how the human race fell into decline. The human race was huge and had many talents. Even after being in decline for countless years, an insane prodigy like Ye Mo arose. The blood race didn't have that confidence. If they declined then they would truly decline and maybe disappear from the universe.

Seeing this blood race dao essence sit down, the demon dao essence's eyes were filled with disappointment. He wanted to see Ye Mo kill the blood race dao essence and then draw more hate to the human race. Even if human race got more spots, he would still join up with other races to kill Ye Mo after the tower opened.

At Ye Mo's level, ordinary dao essence divine emperor had no threats to him. Those who could threaten him were only half primordial essence or primordial essence divine emperor. Even demon race couldn't casually call over a primordial essence divine emperor to the Void Marketplace to kill Ye Mo.

No one scorned the blood race dao essence for backing out. He did seem weaker than Ye Mo. If they dared to challenge Ye Mo, Ye Mo would really kill all three representatives.

With a dominant divine emperor like Ye Mo here, the challenges afterwards became much more tame.

The abyssal race wasn't going to challenge Ye Mo of course. The beast and dragon race had enough spots and didn't need to offend Ye Mo for a few more spots. The only dao essence divine emperor who still wanted to challenge Ye Mo was the aquarius race one but for some reason he resisted the urge in the end.

The one who wanted to challenge Ye Mo the most was the demon race but they didn't have the power and thus didn't dare to.

This dao fruit distribution gathering ended like this. Ye Mo just fought twice and got 44 spots.

Everyone who was involved exclaimed. Everyone thought Ye Mo was suicidal when he came in but now, he got 44 spots instead.

This wasn't just a matter of 44 spots. In the future gatherings, as long as human race came then they would be able to keep at least 30 spots even if Ye Mo didn't come.

Now, it only seemed a matter of time before the fallen human race will rise back up again.

Kong Han divine emperor got up and said "The gathering has now concluded. All the races are very happy. Three months later, I hope everyone has a bountiful harvest in the dao fruit tower."

People knew that at least the demon race wasn't happy.

The two dao essence demons walked out of the palace first. Then the other divine emperors followed. Because of Ye Mo's dominance and some people knowing that Ye Mo was a dao actualisation pill divine, many divine emperors came to greet Ye Mo.

When they saw a powerful dao essence divine emperor waiting for Ye Mo at the door, they knew that Ye Mo's power was far from what he showed. They became even more polite.

Xing Hong greeted Ye Mo at the door and then left with the two other dao essence from Void Marketplace merchant tower. He rejoiced even more of his decisions. He didn't use force on Ye Mo.

When Ye Mo and them came out, the humans at the square all came up. They rejoiced seeing that Ye Mo and them were fine.

“Brother Ye, I knew it was you, haha...” Xianyu Xue’s voice sounded. Gu Biying and Xin Zhuo also squeezed over. “When Tang Xiaoyu said brother Ye was in danger I didn’t believe it. See, I’m right.” Xian Yuxue said.

Those who knew Luo Qinghe surrounded him and people from the Divine Dao Realm surrounded Wang Nanshuang.

The Great Sun God Mountain dao essence divine emperor didn’t dare to come up. A powerful dao essence divine emperor followed Ye Mo and Ye Mo was close to that Xing Hong. He didn’t dare to talk in front of Ye Mo.

Luo Qinghe’s tone was very excited. He rambled none stop about how Ye Mo killed demon dao essence divine emperor and defeated abyssal race dao essence divine emperor, forcing the blood race to back down and robbed 10 spots.

It was already extremely shocking that Ye Mo defeated dao essence divine emperor but compared to ten dao fruit tower spots, it wasn’t important. Almost all the divine emperors who could go in the dao fruit tower looked at Ye Mo and Luo Qinghe wanting to know how the spots would be distributed. Would they need to buy it or what.

When the Great Sun God Mountain dao essence heard Ye Mo kill Gong Xiang, his heart beat extremely fast. Ye Mo was this absurd, he even killed dao essence divine emperor. The dao essence divine emperors entering the gathering was definitely no ordinary dao essence divine emperor. They were definitely much stronger than him.

Didn’t this mean that Ye Mo could kill him like a chicken. The Great Sun God Mountain dao essence divine emperor immediately began to worry.

But then he thought of Dong An. Dong An was close to Ye Mo, perhaps Dong An could beg for mercy. He saw Dong An talk to Ye Mo now but he could only stay there nervously.

Ye Mo spoke with Dong An for a bit and said “Human race immortal friends, this time our human race went to the dao fruit tower spot distribution gathering and we got a total of 44 spots...”

Hearing this, the crowd erupted. Almost everyone didn't dare to believe this. They thought ten spots was shocking enough but Ye Mo actually got 44 spots. This was similar to those few top races.

Ye Mo waited till everyone was quiet before saying "immortal friends, I will be distributing the 44 spots like this. I will be selling 14 of them privately. As for the remaining 30, Wan Nanshuang and Luo Qinghe came to the gathering so they can have one each..."

Chapter 2173 Jue Wuheng

Wang Nanshuang and Luo Qinghe thought that they just went to sit for a while and didn't do anything but they didn't say it out.

Wang Nanshuang knew she did nothing but she didn't want to give it out. the spot was too important for the Immortal Goddess Sacred Sect.

Luo Qinghe said "Pill divine Ye, I'm on the god rank. I have the right to go in. I'll give this spot to martial sister Nanshuang."

Ye Mo just realised that Luo Qinghe didn't need the spot. Luo Qinghe saw that he seemingly knew Ye Mo so he gave it to her.

Hearing this, Wang Nanshuang quickly bowed to Luo Qinghe and said Thank you martial brother Luo, I'll take it."

Wang Nanshuang felt her face was burning. Luo Qinghe gave it to her but she didn't even have the courtesy to reject it once. She didn't even ask for Ye Mo's opinion and just took it.

But she knew that for the Immortal Goddess Sacred Sect to get back again, her face had to be thick.

Ye Mo looked at the hopeful Dong An and said "Dong An, you're halfway dao essence, you have a spot too."

Dong An came up and thanked “Thank you brother Ye, Dong An won’t disappoint you.”

His relations wasn’t that close with Ye Mo but he was experienced in dealing with people. He didn’t abuse Ye Mo arrogantly and helped Ye Mo wherever he could. Yet, such little help gave him such huge reward. When he said he wouldn’t disappoint Ye Mo, it meant that he would give Ye Mo a few dao fruits if he found good ones.

Ye Mo knew what Dong An meant and didn’t reject it.

Looking at other people’s hopeful looks, Ye Mo said again “There are still spots and everyone has a chance to get it. However I suggest those below dao actualisation to not fight for it. After all, the dao fruit tower isn’t safe.”

“May I ask pill divine Ye how you’re going to distribute the remaining 27 spots?” Someone asked desperately.

“There’s nearly 3 months before the dao fruit tower opens. During this three months, I hope immortal friends Qinghe will take lead and choose 27 people. But there are some things I need to say now, even the 27 chosen ones won’t be getting the spots without conditions. I will discuss the conditions before the dao fruit tower opens.”

Ye Mo’s words got everyone’s approval. Although there were 27 spots but it wasn’t enough for this many people. Luo Qinghe rarely came to the Void Marketplace but everyone knew him from the god rank. He was trustworthy so it was best that he managed this.

Ye Mo came to the immortal rest tower. He didn’t know if Zhongli Huoyin would come find him. If he didn’t, then Ye Mo would go find him.

Ye Mo immediately took out Gong Xiang’s storage ring. A dao essence divine emperor’s storage ring should be wealthier than his.

It didn’t disappoint Ye Mo. Inside, Ye Mo found an extreme grade god spirit range and nearly one billion god crystals as well as a large pile of god spirit herb and materials. As for Gong Xiang’s magic artefact, it was the most worthless to Ye Mo.

As soon as Ye Mo organised the things, Xing Hong came over.

“Pill divine Ye, I heard you’re selling 14 spots to the dao fruit tower?” Xing Hong was close to Ye Mo and immediately asked.

“That’s right, I was planning to ask brother Xing for help and yet you came.” Ye Mo smiled.

Xing Hong immediately said “Pill divine Ye I have an idea. I’ll invite over some wealthy merchant associations and sects. Then you can publicly sell these 14 spots. That way, you would gain the most benefit.”

Ye Mo knew this was a good idea. Clearly, it would make him wealthy quickly. Of course, there was high risks for this. That was everyone would know there was a human called Ye Mo who reaped in huge profits. But Ye Mo didn’t care about this. How can there be reward with no risk.

“Okay, I’ll leave that to brother Xing.” Ye Mo agreed without hesitation.

Xing Hong hesitated and said “Pill divine Ye, this is definitely a good method but then only drawback is that it would put pill divine Ye on the spotlight and bring you great risk.”

Ye Mo laughed “Wanting rewards and being scared isn’t my style. Brother Xing just go do it, leave life and death to me.”

Xing Hong nodded “With pill divine Ye’s power, no one in the Void Marketplace dares to seek your trouble.”

If it was before, Ye Mo definitely wouldn’t dare to do this. If he did that, he would have to wait and die. He wouldn’t even be able to leave the Void Marketplace but with his current power, he could afford to do it.

Xing Hong could remind him this meant that he was a rather good friend.

After Ye Mo exchanged communication beads with Xing Hong, he said "I'm free these few days, whatever pills brother Xing needs, just send me the materials."

Xing Hong didn't act polite this time and took out a storage ring to Ye Mo "I have a few cauldrons of pills for you pill divine Ye."

Feeling that Xing Hong was being genuine, Ye Mo sent Xing Heng to the door personally this time. This was a signal. Ye Mo was famous in the Void Marketplace now and by sending Xing Hong out, it meant that the human race was forming an alliance with the Void Marketplace merchant tower.

Ye Mo was such a huge potential and powerful pill divine, of course Xing Hong wouldn't reject this.

"Pill divine Ye..." As soon as Ye Mo was planning to go back, he heard an uncertain voice.

Ye Mo turned around and saw an ordinary looking young man. He was dao nourishment peak stage. His skin was white and eyes a bit sunken. The chi of void and different realms stayed on him. Clearly, he roamed around a lot.

"You're looking for me?" This person was also a human.

"Yes, pill divine Ye. Wan bei is Jue Wuheng. I came a bit late to the Void Marketplace and didn't get to see pill divine Ye's dominant look representing the human race. I came to visit this time."

Jue Wuheng's tone was genuine.

Ye Mo smiled "It's not easy for you to reach dao nourishment peak stage. When the dao fruit tower opens you can go have a look too."

Jue Wuheng quickly said "Pill divine Ye, wan bei came for the dao fruit tower but I haven't reached dao actualisation yet. Qinghe qb said wan bei can't go in yet but wan bei believes I'm no weaker than any dao actualisation divine emperor. It's not that I can't reach dao actualisation but I don't want to yet."

Ye Mo didn't doubt the first half but he was shocked at the second half. Even he can't reach dao actualisation whenever he wanted.

"Follow me." Ye Mo said and turned into the immortal rest tower.

Jue Wuheng clearly knew that Ye Mo was going to give the opportunity to him and thus followed Ye Mo without hesitation.

"You're saying you can reach dao actualisation whenever you want?" Ye Mo set up restrictions and asked.

Jue Wuheng said affirmatively "Yes but in order to reach the grand state of primordial essence, I've kept perfecting my dao instead of breaking through to dao actualisation. When my dao mark god art is perfect I wouldn't need to do anything and I would reach dao actualisation divine emperor."

If other people heard this, they would think Jue Wuheng is bluffing but Ye Mo didn't think that way.

"What gives you such confidence?" Ye Mo's tone went cold. Even he didn't dare to say that.

"Because my father is a primordial essence divine emperor and the cultivation method he left behind is the top primordial essence divine dao cultivation method. Not only that, I'm a natural dao body. I know extremely clear if I can and how I can reach my next cultivation level." Jue Wuheng looked at Ye Mo calmly.

Chapter 2174 Sell Spots

Jue Wuheng's words shocked Ye Mo. Ye Mo was surprised but not shocked at the primordial essence divine dao cultivation method. However, he was shocked at the dao body. Such body was born for cultivation. In the process of cultivation, they knew very clear what their weaknesses were and could accurately predict if they could break through to the next level, when to break through, what was needed.

They were also many times greater at learning dao. They could easily learn any god art or magic. It's not that their cultivation speed was fast but with that precise control, their cultivation foundation was more solid than anyone. Of course, this was if they had the necessary cultivation resources.

Ye Mo also knew that the greatest secret of the dao body was that it could be possessed. Yet, Jue Wuheng dared to tell him this the first time they met. How much confidence and balls did he have?

"You're quite bold to tell me about the dao body." Ye Mo said.

Jue Wuheng bowed "If it wasn't for qian bei's charisma, wan bei wouldn't dare to say it too. Qian bei can represent the human race to go to the dao fruit tower distribution and give 30 spots back to the human race, one could see that qian bei is an honest and righteous person. Plus, qian bei's talent is probably more absurd than mine. Qian bei don't seem to be older than wan bei but your cultivation level is far superior."

Ye Mo knew that his age probably was less than one percent that of Jue Wuheng's.

"And wan bei knows that if I don't enter the dao fruit tower, there's no hope of me reaching the dao essence divine emperor I want to reach. Most importantly, wan bei has no time to wait." Jue Wuheng's tone was very genuine.

Your father is a primordial essence divine emperor, I believe he's famous. What's he called?" Ye Mo already decided to give a spot to Jue Wuheng. It would be too unfair to not give such a talented divine emperor a spot.

"My father is called Jue Ya." Jue Wuheng answered calmly.

"Jue Ya?" Ye Mo repeated. He had never heard of this name before.

"Qian bei hasn't heard of my father?" Jue Wuheng looked at Ye Mo with more shock. He thought that someone as strong as Ye Mo would've definitely heard of his father.

Ye Mo smiled "Perhaps I forgot but I don't have a deep impression. Do you want to reach dao essence divine emperor quickly due to your father?"

Jue Wuheng nodded "Yes, I don't want to ruin my foundation but I also want to speed up to save my father."

"What happened to your father?" Ye Mo asked.

Jue Wuheng hesitated for a while and said "My father is sealed. No one else can save him other than me."

Ye Mo didn't keep asking. Ye Mo said "Jue Wuheng I can give you a spot but you need to help me do something. That is if you save your father, then you must go back to the Divine Dao Realm and protect it for 300 years."

Ye Mo felt uneasy ever since the distribution gathering. He didn't know exactly what it was.

Jue Wuheng fell silent for a while and said "Pill divine Ye, if I save my father, I can assure that my father and I will stay at the Divine Dao Realm for a hundred years and help it. I can't promise beyond that time. I know what pill divine Ye is worried about but my father isn't a human race divine emperor from the Divine Dao Realm. He even has conflicts with the primordial essence divine emperor from the Divine Dao Realm. If it wasn't that the Divine Dao Realm is broken, I can't even promise 100 years."

"Okay." Ye Mo agreed without hesitation. Jue Wuheng was someone like him. If they promised, they would never regret.

After Jue Wuheng left, Ye Mo set up his room restrictions and then took out the storage ring Xing Hong gave him. He wanted to see what god pills Xing Hong wanted him to concoct.

"Cosmic Lotus?" Ye Mo immediately grabbed out a lotus from the storage ring. It had nine petals.

At the same time, Ye Mo realised that it was Void Marketplace merchant tower at the auction who used Du Yuan eye to buy the cosmic lotus.

Ye Mo applauded Xing Hong's temperament. Xing Hong gave him this clearly to ask him to concoct Cosmic Dao Pill. Thinking about how fifty percent was his Ye Mo was very excited. He also felt happy with Xing Hong's trust.

Other than the cosmic lotus, the other materials were nothing compared to it.

In the Void Marketplace, the most luxurious and big exchange palace was the Void Marketplace merchant tower's exchange palace. Today, Ye Mo came here with Xing Hong and Qiao He. This time, the palace is opened for exchanges but unlike before, this was only for Ye Mo.

Xing Hong was from the Void Marketplace merchant tower, however, he didn't represent them. Instead, he stood next to Ye Mo.

Everyone here knew that Ye Mo was going to sell 14 spots into the dao fruit tower.

Although there was just 14 and Xing Hong didn't advertise, quite a lot of people got the news. This time, 60 people came. Each one represented a powerful sect or a powerful faction.

When everyone sat down, Xing Hong signalled Ye Mo to get up and speak.

Ye Mo got up and saluted with his fists "Thank you immortal friends for coming here to deal with me. I've already given out one of the 14 spots so I only have 13 spots left on me. There's no limitations. As long as you can take out something that I like be it god crystals, god spirit herb or god spirit items. Everyone knows I'm a pill divine so don't take out god pills."

God crystals and god spirit ranges were necessities but at the divine emperor level, they were the least valuable to them. The most valuable were god pill and dao fruits.

"Okay, pill divine Ye is straight forward. I like it. I'll use one billion god crystals to buy a dao fruit tower spot." A coarse looking dao essence divine emperor got up and said.

Ye Mo sneered. In terms of business, he wasn't as good as Su Jingwen and Xu Yuehua but he was no weaker than the divine emperors here. If it was an ordinary dao fruit, one billion god crystals was worth it. But if you were lucky, you could get maybe even ten dao fruits with a dao fruit tower spot.

Ye Mo had already asked. Each level of the tower only has one dao fruit tree but this tree is enormous. It's almost like a realm. If two divine emperors picked dao fruits on the two sides of the tree, their spirit sense wouldn't even be able to see each other.

Of course, how many dao fruit you could pick depended on your cultivation level. Under any dao fruit tree, the pressure doubles each time you pick a dao fruit. That's why there are many divine emperors who die in the dao fruit too. The danger didn't just come from the hunt of other divine emperors.

Ye Mo also knew from Xing Hong that the dao fruit tower has this great dao wave. It's very helpful for dao actualisation divine emperors breaking through. Many dao actualisation divine emperor peak stages who leave the tower break through to dao essence divine emperor immediately.

Everyone looked at Ye Mo hoping he would agree. If he did, there would be a reference price point.

Ye Mo smiled This is how I feel about selling the spots. In order to speed things up and keep things secret, I'll use jade cards for bids. I have tens of jade cards here. I'll give everyone one and you write down the number of spots and your price on it. After comparison each round, I will choose a jade card to complete the deal."

Hearing this, everyone was dumbfounded. This was a cruel move. This was making everyone compete against each other and unable to see each other's price. Only Ye Mo would know the bids so in order to win, people would have to make their greatest offer.

Seeing this, Xing Hong breathed easy. He was scared that Ye Mo would accept the 1 billion god crystals offer.

With this, everyone gave up trying to get a small advantage. They could only mark down their greatest offer on the jade card.

The first round of bids soon came in. Most bids just wanted one spot and the value was about one billion god crystals and some other things. Ye Mo didn't want these things at all so he wouldn't agree.

Ye Mo saw that one jade card wanted five spots and the bid was one extreme grade god spirit range and one top grade god spirit range as well as 10 billion god crystals. Ye Mo immediately knew this price was fine.

Ye Mo returned all the jade cards back and said "The first round has concluded. Immortal friends 37 has bought five spots."

As soon as Ye Mo said this, Ye Mo sent five spot jade cards to a short haired man "These are jade cards made by me. When the dao fruit tower opens, anyone can take these and go to the human race."

The short haired man quickly gave Ye Mo a storage ring and left the palace rapidly. Ye Mo said that anyone could use the jade cards meaning that he only recognised jade cards, not the people who bought it.

With five spots gone in the first round, no one dared to bid 1 billion god crystals at the second round. They bid much higher prices.

The second round, Ye Mo sold two spots. The less spots there were, the higher the bid Ye Mo got.

When all 13 spots were gone, Ye Mo got 30 billion god crystals. Two extreme grade god spirit range in total and three more top grade god spirit range as well as some god spirit herb and high level forgery materials.

Finally, Ye Mo felt he was a little wealthier. At least, he wouldn't be so shocked to see just ten billion god crystals.

Ye Mo was planning to sell some of his pills after selling these spots but since the spots alone earned him so much, he gave up on the idea. He could sell these things anywhere.

“Congratulations, pill divine Ye.” Xing Hong walked up to Ye Mo and said. He didn’t know how much Ye Mo earned but he knew it wasn’t little.

“I’m finally not poor anymore.” Ye Mo felt great.

Xing Hong didn’t ask about Ye Mo’s pill concoction and just said “I’m going back to the merchant tower. If you need me pill divine Ye, just call the attendants at the immortal rest tower.”

Ye Mo gave the storage ring Xing Hong gave him before back to him “The pills are made, see if they’re okay brother Xing?”

Xing Hong had long wanted to ask Ye Mo about the pills but he was too embarrassed to. Now that Ye Mo said they were ready he almost called out. He grabbed the storage ring and took out a few jade bottles from inside.

“Six god cloud pill, extreme grade. Six North soul pills, extreme grade...” When Xing Hong saw it was all extreme grade pills, his hands were shaky. He had never seen god pills of this quality. This wasn’t ordinary god pill, these were god pill for dao essence divine emperor.

“Six extreme grade Cosmic Dao pill...When Xing Hong saw these, he finally couldn’t hold in his excitement “Pm divine Ye, you really successfully made the cosmic dao pill? They’re extreme grade too, how did you do it?”

Ye Mo looked at Xing Hong and asked “Brother Xing, did you not give me the cosmic lotus for me to concoct the cosmic dao pill?”

“Of course but I wasn’t very confident and there were no better pill divines than you in the Void Marketplace. I promised to the Void Marketplace merchant tower that you could definitely do it and they barely let me have the cosmic lotus. Haha, I didn’t expect you really succeeded and they’re extreme grade too. I want to see who dares to say anything now...” Xing Hong laughed.

Ye Mo coughed “Brother Xing, you’ve come and gone in a hurry recently. Is it due to the cosmic lotus?”

Xing Hong said awkwardly “That’s right, I had to go explain it carefully each time I went back. Now, I finally don’t need to. I’m going back to slap their faces, hahaha...”

At the same time, Xing Hong realised that Ye Mo definitely concocted more than six pills. Otherwise, if he only concocted six pills, there was no way they would all be extreme grade. Ye Mo quite possibly concocted 12 cosmic dao pills...

Thinking about this, Xing Hong dazed. What pill concoction skill level was this? This was definitely not dao actualisation pill divine but definitely dao essence pill divine. Ye Mo was a peak dao essence pill divine.

“Pill divine Ye, you... you’re dao essence pill divine...” Thinking about this, Xing Hong asked in extreme shock.

Ye Mo knew that his true pill concoction skills would be exposed when he gave the pills to Xing Hong but he didn’t care. Even if a half way primordial essence tried to kill him, he could easily get away. Plus, a powerful primordial essence pill divine was someone that half way primordial essence wanted to suck up to. Who would be dumb enough to kill him?

“That’s right. I’m a primordial essence pill divine, a decent one.” Ye Mo said.

Xing Hong took in a cold breath and before he could say anything, Qiao He said in surprise and joy “Pill divine Ye, you’re actually a dao essence pill divine...”

The better Ye Mo was at pill concoction the better it was for him.

Qiao He had been following him for this long but Ye Mo still couldn’t go with him to Guang Yuan palace yet. Ye Mo could only say apologetically “Immortal friends Qiao, I’m indeed a dao essence pill divine but I’m still quite busy so I can’t go with you yet.”

“That’s fine, that’s fine...” Qiao He was desperate but he said without hesitation “Don’t worry pill divine Ye, I have time to wait.”

Qiao He was very desperate but he didn't dare to leave the Void Marketplace and ask the palace lord to come. He was scared that as soon as he left Ye Mo would leave for another few hundred years.

Ye Mo could see Qiao He's desperation and could tell that he was genuinely inviting him to Guang Yuan palace. But no matter how much he pitied that young mistress, he wasn't going to the Guang Yuan palace before he reached dao essence divine emperor.

Saving people was important but so was his life. He didn't dare to be careless facing Primordial essence divine emperor. If he didn't have the chaos world nor the chaos tree, he didn't mind but he had too many good things. Even primordial essence divine emperor would be jealous of every single one of them.

"Brother Ye, I'll be going back to the Void Marketplace merchant tower immediately. If there's anything you need just let me know, I can definitely do it for you." Xing Hong even changed Ye Mo's title. Clearly a peak dao essence pill divine had the same value as a primordial essence divine emperor.

Ye Mo knew the Void Marketplace merchant tower was wealthy so he didn't act too polite "I need large amounts of god spirit herb and immortal materials, the more the better."

"Okay, don't worry brother Ye. I promise to get these things done for you." Xing Hong said.

After Xing Hong left, Ye Mo said to Qiao He "Let's go visit the abyssal race dao essence divine emperors."

Chapter 2176 Abyssal Race's Ambush

Abyssal race was one of the few powerful races. The hotel they stayed at was the most luxurious in the Void Marketplace. Ye Mo and Qiao He just came to the door of their hotel and Zhongli Huoyin came out to greet Ye Mo.

"Immortal friends Zhongli seems very busy. I don't know if I've disturbed you." Ye Mo said while saluting with his fists. Ye Mo was quite annoyed at this guy. He let this guy live. This guy should've come to visit him but he had to come over instead.

Zhongli Huoyin knew that Ye Mo was scorning him for not going over but he wasn't angry at all. He forced a sliver of smile and said "I was planning to visit pill divine Ye but suddenly a few friends came so it took a few days. I hope pill divine Ye won't mind. Pill divine Ye and immortal friends Qiao, please come with me..."

"Since pill divine Ye is here, then please drink a cup of tea." An ethereal voice sounded.

Ye Mo immediately knew who this voice belonged to. It was that abyssal race dao essence divine emperor he took notice of. He was the leader for the abyssal race this time.

When Ye Mo walked in the place, he noticed that there really was another guest. She was a woman.

The first time Ye Mo saw this woman, he just felt she looked clean but after Ye Mo's eyes stayed on her for a few seconds, he found that she emitted this seduction all over her body.

Such familiar feeling. Ye Mo immediately thought of someone. When he first came to the immortal realm, he met a woman called Jiang Jin. She's a member of the Mo Yue immortal sect now. Ye Mo was certain that they were both natural seductive body.

However, her cultivation level was countless times higher than Jiang Jin. Her cultivation method was suited to her body.

"I've long heard of your name, it's an honour to see you here today pill divine Ye." This woman smiled at Ye Mo. As for Qiao He, she just completely ignored him. Qiao He sat next to Ye Mo and didn't care if he was ignored.

That bleak chi dao essence divine emperor introduced "Pill divine Ye, this is a phoenix dao essence master Tang Qi. She wanted to come here and see you after hearing you were coming. I'm Cao Ze, I'm also very grateful that pill divine Ye could show mercy. If there wasn't too many things to do, I would've long visited pill divine Ye."

Just when Ye Mo was thinking if this Tang Qi was related to Tang Xiaoyu, Tang Qi said "Immortal friends Cao, don't mind me, I'll just drink some tea here."

The two seemed to be close and Cao Ze just nodded to Tang Qi before turning to Ye Mo and saluted with his fists "Pill divine Ye probably wants to ask about the abyssal realm right?"

Ye Mo didn't have a good impression of this Cao Ze and didn't want to waste time. "Yes, I want to ask immortal friends Cao if it's very hard for me to go to the abyssal realm?"

Cao Ze clearly heard about this from Zhongli Huoyin and said "That's right, out of all the races and realms, the abyssal realm is the hardest to enter. Not only do you need an abyssal body to enter the abyssal realm but also if you're not an abyssal race and you forcefully enter, your cultivation level will be suppressed to the lowest. Of course, if pill divine Ye wants to enter our abyssal realm, we're more than happy."

Then, Cao Ze even took out a dark jade tablet and dark jade slip to Ye Mo "Pill divine Ye just need to wear this jade card to enter the abyssal realm. This jade slip is a map of the abyssal realm including all the entrances. It's yours pill divine Ye."

He knew that if Ye Mo was set on entering this place, even if he described it as hell, it wouldn't stop Ye Mo.

Ye Mo didn't expect Cao Ze would be this easy to talk to.

Ye Mo didn't know why this was so but he didn't want to connect with Cao Ze. Ye Mo got up to leave. He let Zhongli Huoyin live, this wasn't something that five spots could make up for. Even if Zhongli Huoyin didn't give the five spots, he could kill Zhongli Huoyin and keep challenging the abyssal race.

Thus, Ye Mo didn't feel he owed Cao Ze anything for the map and jade slip.

"Pill divine Ye, I feel there's something wrong with that Cao Ze. You can't trust his jade slip." After walking out, Qiao He said worriedly.

Ye Mo smiled "I know this, don't worry. No need to follow me for now, I'm going to the immortal rest tower for solitary cultivation for a while. When the dao fruit tower opens, just wait for me there."

Knowing this, Qiao He didn't insist on following Ye Mo.

After returning to his room, Ye Mo set up layers of restriction before entering the Golden Page World.

Inside, Ye Mo immediately took out that dark jade card. Ye Mo's spirit sense scanned in. His spirit sense has reached fifth transformation peak.

His spirit sense broke restriction after restriction inside the jade card.

In just 15 minutes, Ye Mo's spirit sense left this jade card. He didn't break it. He knew that there was something done to this jade card. As soon as he used it to enter the abyssal realm, he would be tracked.

Cao Ze was already scheming against him. This jade card was made for him. Ye Mo sneered. Cao Ze and that Zhongli Huoyin already wanted to kill him. These days, you really couldn't be too kind. He sealed the jade card and then picked up the map jade slip.

It didn't seem newly made but Ye Mo easily found another spirit sense mark.

Ye Mo took out a new jade slip and copied the map onto it before sealing this jade slip too in the Golden Page World.

Ye Mo was never going to go easy on those who wanted to kill him.

Ye Mo left the Golden Page World. A few days later, Xing Hong came over to give Ye Mo a storage ring. It was filled with all sorts of materials and god spirit herbs. They weren't very expensive but they were ample in amount.

From Xing Hong, Ye Mo heard about the comsic dao pill. It's been brought to a heaven price in the Void Marketplace. They were extreme grade dao fruit god pills. The first one was sold for nearly double the price of the cosmic lotus.

This is where the value of a pill divine showed. 12 pills came out of one cauldron. The value of the materials flipped more than tens of times. But not all pill divines had this success rate and quality.

There was still two months before the dao fruit tower opened so Ye Mo stayed at his place concocting pills and forging materials.

Two months passed quickly. Ye Mo was planning to leave and ask Luo Qinghe about the selection. He also wanted to ask Luo Qinghe if he had been to Luo Yue continent.

Before Ye Mo left his immortal rest tower, Gu Biying rushed to Ye Mo's place.

Seeing her worried and anxious look, Ye Mo knew something probably happened.

Chapter 2177 Blood Spilling on the god rank square

"What happened?" Ye Mo asked. He was thinking if something happened with Luo Qinghe's selection. Did someone not agree to his selection.

"Brother Ye, our people are fighting with the aquarius race at the god rank square. We've lost more than ten divine emperors and even martial brother Qinghe is heavily injured, if it wasn't..."

Before she finished, Ye Mo already disappeared from the room. Gu Biying knew Ye Mo went over and quickly followed.

When Ye Mo saw the scene at the god rank square, he was furious. More than a thousand people were fighting at the square but it was pretty much all human divine emperors who died. There was 60 people who died now. it was all aquarius race who fought the human race. They had the definite upper hand. The battle was extremely intense.

The reason the aquarius race could win was because they had six dao essence divine emperors. Human race only had two dao essence divine emperor.

Two of the six aquarius dao essences were stopped by two human dao essence, one more was stopped by a red robed human female. She was only dao actualisation peak stage. Other than this, the other three aquarius dao essences were slaughtering human divine emperors below dao actualisation.

There were tens of thousands of people watching the battle and they were all watching but no one intervened.

Ye Mo didn't call them to stop. He charged onto the battle field with Zi Xu.

Amidst all the battle rays, one purple color instantly swept across the entire battlefield.

Whether it was aquarius dao nourishment divine emperor or dao actualisation divine emperor, no one could live for a second under Ye Mo's purple ray. The three dao essences saw Ye Mo slay aquarius divine emperors like chickens and immediately charged at Ye Mo crazily.

Ye Mo was completely furious now. His powerful realm domain and spirit sense domain extended out and instantly swept in these three dao essences.

The next moment, crevice god art and falling mark sword rune sprayed out non stop forming purple ripples in his domain. Almost all the aquarius divine emperors who were sliced were killed.

The two dao essences just released a magic artefact to stop Ye Mo's crevice god art and they felt two twisted runes appear in their sea of consciousness. Ye Mo used spirit sense Great Primordial God Rune to attack their sea of

Before they could call out the words Great Primordial God Rune, falling mark sword rune swept over and the two dao essences instantly died.

The third dao essence worriedly stopped but Ye Mo didn't give him any chance. Ye Mo threw out an ice space god art and another falling mark sword rune.

It had only been a few seconds since coming to the square but Ye Mo killed more than ten first step divine emperors and three dao essence divine emperors.

At this moment, the two sides finally saw Ye Mo come. The suppressed human side immediately became excited. The remaining three aquarius dao essence divine emperors were very worried. The dao essence fighting the red robed woman quickly said "Pill divine Ye stop, there's a misunderstanding."

The red robed woman who was almost about to be killed quickly ate a god pill to recover and looked at Ye Mo in shock.

She just came to god rank square. She really didn't understand how this pill divine Ye was this powerful.

Misunderstanding? Ye Mo didn't seem to hear it. Zi Xu didn't stop but more and more purple sword ripples appeared in the square. Aquarius divine emperors were slaughtered non stop. Instantly, tens more divine emperors died.

Not only so, he extended out his powerful realm domain and threw out countless lightning swords. Ever since he reached divine emperor, Ye Mo rarely used this massive area attack lightning swords but today he was completely furious. Aquarius dao essence divine emperors slaughtered human divine emperors relentlessly. If he didn't do the same back, he wouldn't be Ye Mo.

Ye Mo was dao actualisation peak stage and his god essence and spirit sense were more powerful than dao essence divine emperor. When these lightning swords fell, the number of aquarius race divine emperors dying multiplied.

Those aquarius dao moulding divine emperor couldn't even take one. Even dao nourishment and dao actualisation divine emperor died with just a few hits.

Those people watching just realised that pill divine Ye was also a lightning element divine emperor.

Misunderstanding? He didn't believe that bullshit. If it was a misunderstanding why didn't the aquarius dao essence divine emperors stop earlier. They were clearly killing human divine emperors non stop.

Seeing Ye Mo didn't intend to stop at all, this dao essence smashed out a vibrant color and signalled the two other dao essences to attack Ye Mo.

When their opponents left, the two human dao essences immediately joined the slaughter of aquarius divine emperors. There was no way things would resolve now. everyone's eyes were red from slaughter.

Seeing the dao essence shoot out the vibrant color, Ye Mo knew it was asking for help but he didn't stop it.

Before this dao essence seeking help came up to Ye Mo, Ye Mo went up to him. He collected his falling mark sword rune and realm domain to only suppress him.

This dao essence divine emperor was clearly no less angry than Ye Mo. The same time Ye Mo charged at him, water chi emitted around him and spread out forming a water chi realm domain.

The two realm domains clashed together and the two nearby dao nourishment divine emperors were smashed away.

Powerful water chi domain actually stopped the twisted sword rune. Although this was because the falling mark sword rune had already weakened, Ye Mo was still a bit shocked.

However, Ye Mo's killing intent was intense. When the falling mark sword rune fell, he smashed out five lightning spear destruction. One spear towards the dao essence he was fighting and four to the other two dao essences.

There was a shocking god essence explosion that spread across the god rank square. The dao essence fighting Ye Mo stopped a lightning spear and released his heaven smashing hammer at Ye Mo.

Ye Mo went in instead. This time, he didn't use any magic artefact and just punched. The aquarius dao essence rejoiced seeing that Ye Mo was using his fists to clash with his magic artefact. The hammer sped up and instantly clashed with Ye Mo's fist.

The fist became huge with the surrounding of god essence. The clash created space ripples.

Another explosion sounded but the hammer was actually stopped by Ye Mo's fists. Ye Mo's fist force was unstoppable.

This aquarius dao essence's face went into extreme shock. He didn't expect Ye Mo's punch would smash away his god artefact. At the same time, a water domain rose up again before Ye Mo's fist.

This was his final defense god art. Ordinary god artefacts wouldn't be able to break it open quickly. This was his life saving god art.

Rumble. Ye Mo's fist force smashed onto the water domain and the water domain instantly exploded. Each drop of water splashed out like a boundless huge mountain.

Before the dao essence could understand how Ye Mo broke his god art, the void fist force struck on his body smashing half of his body away.

"Divine body..." The dao essence called out in extreme shock. He retreated like crazy. Although the water domain god art was broken but he still survived.

He finally realised why Ye Mo's fist was this powerful. This pill divine Ye was a body refinement cultivator of the extreme peak. He reached the legendary divine body level.

Chapter 2178 Void Marketplace Intervention

Ye Mo's punch didn't take this dao essence's life but Ye Mo didn't chase. Zi Xu smashed out again and two falling mark sword runes rolled back. The two aquarius dao essences just broke free from Ye Mo's four lightning spear and had to face Ye Mo's falling mark sword rune again.

Luckily, even though Ye Mo was only strong, he could only heavily bind one dao essence. Blood light flashed again and essence spirit crumbled. This bound dao essence divine emperor instantly died. The other dao essence divine emperor barely stopped Ye Mo's falling mark sword rune and protected his sea of consciousness. He retreated rapidly but didn't dare to come up.

Ye Mo didn't chase as well. Zi Xu flashed with purple rays again. In a short while, a few more divine emperors below dao actualisation were killed. The battle on the god rank square had become one sided.

"Pill divine Ye please stop..." a powerful spirit sense scanned over. Feeling this, Ye Mo knew it was half primordial essence Kong Han divine emperor.

He was half primordial essence and rather polite. Ye Mo had killed more than a hundred aquarius divine emperors now and got some revenge so he gave face to Kong Han divine emperor and stopped the slaughter.

Although he stopped attacking, Ye Mo didn't take a break. He started collecting all the storage rings of the dead divine emperors.

Seeing Ye Mo stop, the human divine emperors stopped too and held those divine emperors with essence spirit left repair their body.

Kong Han finally breathed easy seeing Ye Mo stop the slaughter. Before he could speak, five more aquarius dao essences with more divine emperors. When they saw the terrifying scene at the square, their eyes were bursting out.

Those dao essence divine emperors didn't even think. Killing intent bursted all over their body. Even those outside the square could feel it. They released magic artefact and charged at Ye Mo. They were going to get revenge. As for the dead human divine emperors, how could they even compare with the aquarius race?

"Stop, I'm already investigating the cause." Kong Han divine emperor said with annoyance when he saw the aquarius divine emperors were still going to attack when he said stop.

The dao essence divine emperor who lost half his body still had some reason and he was recovering his body. He quickly went up to the dao essence divine emperors and said "Don't fight now."

He knew Ye Mo's terror very clearly. He had a Primordial Spirit Artefact that could kill divine emperors like chickens and he was a divine body body refinement cultivator. Even if all these five dao essence

divine emperors charged up together, they had very low chances of winning. Plus, the human race had two dao essence divine emperors and a red robed woman on par with dao essence.

Hearing this, the five aquarius race divine emperors calmed down a bit. They ordered the aquarius race to collect the divine emperors who were killed on the square but Ye Mo already took their storage rings.

The people watching knew that the conflict had stopped for now but this human race pill divine Ye was too terrifying. He killed more than a hundred divine emperors in less than 15 minutes. It was because of him that the human disadvantage turned to a dominating sweep.

A Void Marketplace dao essence divine emperor had investigated things clear already and quickly came up “Kong Han divine emperor master. During the battle just then, human race lost 65 divine emperors and the aquarius race lost 143 divine emperors, four of them are dao essence divine emperors.”

Kong Han heard this and frowned. He glanced at the scene and said “Although Void Marketplace don’t forbid fighting but such large scale fights are definitely forbidden. Tian Rui divine emperor and I will be waiting at the Void Marketplace guest palace. I hope the human and aquarius race representatives can sit with us and sort this thing out. since this happened, it must be dealt with fairly and swiftly.’

Kong Han divine emperor’s tone went cold and he even glanced at Ye Mo with cold eyes. When he came, he saw how terrifyingly Ye Mo slaughtered.

Ye Mo didn’t care at all. He could tell that Kong Han’s tone and expression seemed very furious but he was actually very calm. He just wanted to go through the process for the sake of it.

Luo Qinghe with heavy injuries and Wang Nanshuang came over. There was that red robed dao actualisation woman behind them. Ye Mo had a deep impression of her as she stopped an aquarius race dao essence divine emperor all alone.

Ye Mo fought that aquarius race dao essence divine emperor. He definitely wasn’t simple. He wanted to kill him by attacking with full power but he only destroyed half his body. Such injuries to dao essence divine emperors were nothing.

Seeing Wang Nanshuang with red eyes, Ye Mo immediately knew that someone from the Immortal Goddess Sacred Sect was probably killed.

“Qinghe what happened? Control your injuries and tell me.” Ye Mo took out a pill and gave it to Luo Qinghe.

Ye Mo also took out a few bottles of pills to Wang Nanshuang and said “Martial sister Nanshuang, go help the injured people first.”

“Pill divine Ye, this started because of me.” The red robed woman bowed to Ye Mo and said nervously.

She had been very prideful. She didn’t even take the half way primordial essences of other races seriously much less ordinary human divine emperors. She didn’t know Ye Mo’s identity very well yet but from how Ye Mo came so dominantly and instantly turned the tides for the human race, she respected Ye Mo a lot.

After Luo Qinghe used Ye Mo’s pills, his injuries recovered rapidly. He quickly said “martial sister Qin Xuanji, is the other human divine emperor on the god rank. She’s much higher than me, she’s ranked 46th.”

“God rank 46th?” Ye Mo studied Qin Xuanji in surprise. She didn’t look old and was dao actualisation peak stage.

Even though dao actualisation was the peak of the first step of dao vindication it was still the first step. Dao essence divine emperor was the second step. The difference was heavens apart. Even if she was ranked 46th, it was hard to stop that dao essence divine emperor for a while. Not everyone had his cultivation method and fortunes.

Qin Xuanji knew Ye Mo’s confusion and said “I’ve been adventuring in the cosmos and had some fortune. My cultivation level is higher than before so I’m guessing now that I can be ranked in god rank top ten.”

Hearing this Ye Mo nodded. God rank top ten. They can’t defeat dao essence divine emperor but they would be able to stop the aquarius race dao essence divine emperor for a while.

“Top ten?” Luo Qinghe took in a cold breath. He knew better than Ye Mo what top ten god rank meant. Every one of them were a shocking existence.

“Let’s not talk about this yet, tell me what happened.” Ye Mo was going to reason at the Void Marketplace guest palace. He needed to know the exact situation. He knew that the human race divine emperor wouldn’t be stupid enough to offend the aquarius race but he still didn’t know how they started fighting.

Qin Xuanji immediately said “Martial brother Ye, after I came to the Void Marketplace a year ago to find out about the dao fruit tower news I left. I didn’t know about martial brother Ye representing human race in dao fruit tower spot distribution. As soon as I came back, I was challenged by an aquarius race divine emperor on the god rank. He was higher ranked than me but I was stronger than him. He wanted to kill me non stop so I didn’t hold back and killed him.”

Luo Qinghe said “aquarius race dao actualisation divine emperor challenged martial sister Xuanji probably because they were unhappy with the human race. I think it might be related to the demon race.”

Ye Mo felt this conflict was very strange. Even if there was a conflict, it should be between the human and demon race.

Chapter 2179 Resolution

Ye Mo realised. At the spot distribution gathering, there was an aquarius dao essence divine emperor who wanted to challenge him but because of his threats, they backed out for some reason. Now that an aquarius god rank divine emperor wanted to challenge Qin Xuanji, it was clearly to give him a warning.

Being killed on the god rank challenge stage was something that no one could get revenge. The reason that Gong Xiang dared to attack Luo Qinghe was because human race was too weak and they had no leader. Now that human race had a leader Ye Mo, they needed a proper reason.

“Then, did the aquarius race dao essence divine emperor attack?” Ye Mo asked.

Qin Xuanji said “They didn’t attack directly but a dao essence divine emperor was extremely furious. He said that I shamelessly ambushed during the battle and threatened me that the aquarius race wouldn’t let this go. I knew the aquarius race was powerful and resisted the urge to argue with him. Another human race dao nourishment divine emperor on the side said that the aquarius race started the challenge and lost. Then, their dao essence divine emperor comes out, they’re really shameless.”

Luo Qinghe saw Ye Mo looked at him and he added “That dao nourishment divine emperor is Immortal Goddess Sacred Sect Yuehe divine emperor. She said that and the aquarius race dao essence divine emperor was furious and just killed her.”

Qin Xuanji said dejectedly “Seeing someone speak for me and get killed I immediately attacked that dao essence divine emperor. However, this was all calculated. That dao essence divine emperor seemingly killed Yuehe divine emperor in anger but he was waiting for me to attack.”

“In fact, even if martial sister Xuanji didn’t attack, martial sister Nanshuang charged up already.” Luo Qinghe sighed.

Then Ye Mo thought and asked “Did more and more people from both sides join the battle eventually getting to that situation?”

Yes.” The two nodded.

Seeing Wang Nanshuang come over here, Ye Mo immediately said “Qinghe, Xuanji and Nanshuang come with me to the Void Marketplace guest hall.”

“Pill divine Ye, I’ll go with you too.” It was a human dao essence divine emperor speaking. At the battle, one was him and the other was the Great Sun God Mountain dao essence divine emperor.

The Great Sun God Mountain dao essence divine emperor seemed to know Ye Mo detested him and didn’t come over. Luo Qinghe said “Martial brother Ye, this is Xu Feng qian bei who has always been stayin gin the Void Marketplace.

We’ve all been taken care by him many times.”

“Okay, then you four come with me.” Ye Mo then called Dong An and Xian Yuxue over for them to gather the humans at the square to distribute the spots after he was done. Because of this, more and more human races cultivators came to the square.

“Pill divine Ye, I’m late, count me in.” Qiao He landed in here with a dashing light. He was very annoyed that he didn’t go to the battle. If he could help the human race kill a bunch of aquarius race divine emperors, Ye Mo would be very grateful to him.

He didn’t think about the terrifying consequences of doing this.

Ye Mo didn’t want to bring Qiao He originally but seeing him come, Ye Mo changed his mind.

The Void Marketplace guest hall was the most important place for meeting guests in the Void Marketplace. Usually, when the powerful beings of different races came, the guest hall would be open to greet them.

Now, it became the grounds to resolve conflicts. Everyone knew the conflict couldn’t be resolved like this but since they were all at the Void Marketplace, those mass battles wouldn’t be allowed.

The god rank square was filled with formation and restrictions and that’s why the place was still in tact. If it was somewhere else, maybe the entire Void Marketplace would be destroyed.

When Ye Mo and them came, there were already more than ten divine emperors sitting in the hall. Other than Kong Han divine emperor and five aquarius race dao essence divine emperors, there were six people from other races.

Ye Mo saw that the aquarius race dao essence who lost half his body had recovered his body. His chi was still unstable but he was clearly recovering. Ye Mo thought to himself, it seemed the aquarius race had quite a lot of good things.

After Ye Mo and them sat down, Kong Han divine emperor said “Such thing happening in the Void Marketplace affects us greatly. I invited six immortal friends who watched to come over. I hope people can talk things out and not let such thing happen again.”

Luo Qinghe saw Ye Mo glance at him so he immediately got up and saluted with his fists “Kong Han divine emperor master, immortal friends, although everyone knows the cause of this incident, I’ll still say it again...”

Luo Qinghe just told the truth and sat back down.

No one objected to Luo Qinghe’s words, not even the aquarius race dao essence divine emperors. There were this many people who saw what happened. Even if nobody saw it, there was still the huge surveillance formation.

Despite this, Kong Han divine emperor still asked “Does the aquarius race have any objections to this?”

The dao essence who last half his body got up and said “That’s what happened indeed but when pill divine Ye came I already called stop. However, pill divine Ye still killed like crazy. I hope pill divine Ye can make an explanation to this. The aquarius race has been around for hundreds of millions of years. If we don’t get a resolution to this, we won’t let this go.”

Clearly the aquarius race had no reason and just because they were strong, they dared to say such things. Kong Han divine emperor sneered, he wasn’t going to care about the conflict between human and aquarius race.

At the same time, he was unhappy with Ye Mo. Before Ye Mo appeared, the human race divine emperors were very timid. Even if they were abused, no one would dare to have massive race fights like this. The reason the human race dared to do this this time was definitely due to Ye Mo.

Kong Han divine emperor still looked at Ye Mo and said “Pill divine Ye you represent the human race, do you have any words to what immortal friends Yaopu said?”

Ye Mo answered plainly “Oh, I really didn’t notice Yaopu saying stop. But I’m very curious. Yaopu was on the battlefield himself. If he’s telling me to stop then why is he fighting with a human race dao actualisation divine emperor. Is he not strong enough that he got suppressed by my human race dao actualisation divine emperor or is he just asking the human race to stop not the aquarius race?”

If that's the case I understand. So he's asking the human race to raise our hands and get slaughtered by the aquarius race. If that happens again and I hear it, I will do as Yaopu said. I will ask my fellow humans to stand still and let the aquarius race kill them all."

Qin Xuanji almost laughed at this.

Yaopu's face was extremely bleak and he didn't talk about to Ye Mo.

Kong Han acted as though he didn't hear the sarcasm in Ye Mo's words and nodded "Since both sides became like this due to a misunderstanding then make a decision."

Yaopu got up and said again "The aquarius race is a big race and we don't want to cause bloodshed all over a realm. If pill divine Ye destroys his own power, then this thing will end."

The leader of the human race now was Ye Mo, if he lost his power then the human race would be abused however they liked. Ye Mo's predicament would also become extremely pitiful. Yaopu's words meant that he wanted to kill all the humans in the Void Marketplace.

Kong Han divine emperor then asked "What does pill divine Ye think of immortal friends Yaopu's request?"

Ye Mo got up slowly "Yaopu's request is very reasonable. Maybe one day when I'm in a bad mood, I'll remember this." Kong Han divine emperor nodded again too and continued to ask "What requests does pill divine Ye have?"

Ye Mo smiled "I'm very easy to talk to. I don't dare to make requests now. When I'm in a bad mood and I think about this, I will go to the aquarius race and stomp my foot a few times."

Kong Han divine emperor then looked at Yaopu and asked "What does Yaopu divine emperor think of pill divine Ye's request?"

Very well." Yaopu forced down his anger and said. This was his first time seeing such a cocky human dao actualisation.

Hearing this, Kong Han divine emperor got up and smiled "Very well, everyone is very calm on this matter and agreed to each others' requests. This is a perfect resolution. I hope both sides won't cause trouble again in the Void Marketplace. At the same time, both sides need to pay one billion god crystals for compensation of damages.

Chapter 2180 The conditions for repairing the broken realm

Ye Mo walked out of the guest palace speechless. This Kong Han divine emperor really knew how to do nothing. But it was natural. As long as the human and aquarius race didn't keep fighting in the Void Marketplace, he didn't care if the two sides could resolve the conflict.

"Ye Mo, you better hope the Divine Dao Realm can protect you. Otherwise, even if you run back to the Divine Dao Realm, the aquarius race will go over. Don't make that broken realm even more broken." Yaopu was waiting for Ye Mo at the doors with a few other dao essence divine emperors.

This time before Ye Mo said, Qiao He said in contempt "Very well, I welcome you to go. If one goes I'll kill one, if two goes I'll kill tow."

Hearing this, Yaopu frowned "What does this have to do with the Guang Yuan palace? Qiao He do you know the consequences of saying this? Is the Guang Yuan palace going against the aquarius race?"

Qiao He said in contempt "Go against the aquarius race? You can represent the aquarius race? Keep dreaming. I can represent the palace lord and kill you but do you dare to start war with the Guang Yuan palace representing the aquarius race?"

Yaopu's face was green and he turned to leave.

Ye Mo said slowly "Aquarius race coming to the Divine Dao Realm? You must not disappoint me then. If too little go, then don't blame me for going to the aquarius race for a spin."

Ye Mo didn't care much about the threat of the aquarius race. He heard that they only had one primordial essence divine emperor and one who hadn't been out for countless ages. Even if Jue

Wuheng's father can't go back to the Divine Dao Realm, then he would ask Guang Yuan palace lord to stop the aquarius primordial essence divine emperor.

As for those below primordial essence Ye Mo really wasn't scared. If he reached dao essence, then he didn't fear no matter how many aquarius race came attacking Divine Dao Realm.

Yaopu was very annoyed. He knew humans had no primordial essence but Guang Yuan palace lord was a primordial essence. He was famous amongst primordial essence. If he infuriated Guang Yuan palace, his threats would be useless.

Even the aquarius race had to consider things if Guang Yuan palace lord became involved. The reason aquarius race could become a huge race was because they had a sea setting god needle and primordial essence divine emperor. If something happened to their primordial essence divine emperor, the aquarius race was nothing.

Ye Mo and them went back to the god rank square. There were nearly ten thousand humans waiting for them.

When they saw Ye Mo come over, they immediately stopped discussions. In the Void Marketplace, Ye Mo was the core of the human race, their confidence to stay in the Void Marketplace.

Ye Mo set up a few restrictions and formations enclosing this area before saying "In the battle just then, our human race lost tens of divine emperors but we're united in the Void Marketplace and didn't lose face. In this battle, we've gotten more than 100 storage rings and some small worlds. There are many cultivation resources inside. I'll let Qinghe divine emperor distribute these to you later as compensation."

"Pill divine Ye, you killed most of the aquarius race, we can't take these cultivation resources." Someone said immediately.

Xu Feng got out and said "Pill divine Ye, these storage ring are pretty much your battle loot. If it wasn't for you, not many divine emperors would have even survived."

Xu Feng wasn't bullshitting on this. When Kong Han divine emperor came to stop the battle, the aquarius race had the lower hand. If the human race had the lower hand, would Kong Han divine emperor come out in time to stop them? No one knew.

A dao actualisation peak stage divine emperor bowed to Ye Mo and said "Pill divine Ye, the reason that the human race can even speak here is completely due to pill divine Ye. Otherwise, we will have no right to talk. Pill divine Ye selflessly took out 30 dao fruit tower spots to share between us. I was lucky to get one. For us humans who stay in the Void Marketplace long term, not having a leader is the scariest thing. We beg that pill divine Ye be the leader of the human race and please tell us if there are any other requirements for entering the dao fruit tower."

This dao actualisation peak stage didn't even talk about the battle loot but everyone could tell that the reason human race had some status was due to Ye Mo. If they still wanted a share of the loot, it was too over the line.

Ye Mo understood what this dao actualisation divine emperor meant. He thought of a while. His original plan was that all dao actualisation divine emperors who entered the dao fruit tower and got dao fruits would need to give some back to everyone. The way of giving back was for him to concoct pills. At the same time, those who wanted to go in had to pay some god crystals.

But after that battle, Ye Mo's mindset changed. The reason he wanted to take part of the dao fruits and god crystals was mainly for himself. But now, he felt he needed to think for the human race. The human race's status in the Void Marketplace was low to a new extreme. He needed to think of ways to change this situation.

"martial brother Ye. The Divine Dao Realm is broken. Even if you helped the human race this time what about next time? I feel that the human race need to gather and work together to defend against other races." Luo Qinghe said. He knew what the weakness of the human race was.

The reason they weren't gathered was because they didn't have a leader. Now that Ye Mo appeared and got everyone's approval, Ye Mo had to stand up.

Ye Mo knew what Luo Qinghe meant. If it wasn't that the Divine Dao Realm was so broken, he was planning to have a sect in the Divine Dao Realm. Why would he go back to the immortal realm?

Ye Mo sighed “Pity the Divine Dao Realm is broken and can’t be repaired. Otherwise, I would suggest everyone to go back to the Divine Dao Realm and have a home.”

The Divine Dao Realm was broken. If these divine emperors went back, where would they get the cultivation resources.

Qin Xuanji suddenly walked up to Ye Mo and bowed “Martial brother Ye, it’s not impossible to repair the Divine Dao Realm.”

Qin Xuanji’s words shocked not only Ye Mo but everyone else. Divine Dao Realm was the highest level realm and it’s said that the battle royale of primordial essence divine emperors was what broke the Divine Dao Realm.

Luo Qinghe said desperately “Martial sister Xuanji, how to repair the Divine Dao Realm? As long as there’s something I can do, I will do everything I can.”

Qin Xuanji said “The primordial essence divine emperors fought over the chaos tree and used the Divine Dao Realm as a battle field. That’s what broke the Divine Dao Realm. Later, I realised that the battle wasn’t just over the chaos tree.”

Ye Mo’s face went serious and said “Be more specific.”

“Yes. The primordial essence divine emperors of different races used the opportunity of fighting for the chaos tree to set the battleground at the Divine Dao Realm. The primordial essence divine emperors of the Divine Dao Realm were in conflict and no one cared about this. In the wake of the chaos tree, everything else didn’t matter. In the end, more and more primordial essence divine emperors came to the Divine Dao Realm. When the Divine Dao Realm was shattered, those few human primordial essence divine emperors woke up but it was too late. It’s said that there were still five human primordial essence divine emperors at the Divine Dao Realm. Those five primordial essence divine emperors were killed by the joined forces of other race primordial essence divine emperors. I don’t know if people got away but even if some did, their cultivation foundation would’ve been destroyed.

“What about the primordial essence divine emperor of other races?” Luo Qinghe asked.

“The other primordial essence divine emperors were heavily injured. That’s why there are rarely any primordial essence divine emperors these days. They’re all either perfecting their own world or recovering.” Qin Xuanji said.

Ye Mo said slowly “Tell us how to repair the Divine Dao Realm first.”

Qin Xuanji nodded “The news I got was that the Divine Dao Realm realm meridian was broken. In order to repair the Divine Dao Realm, one had to use the world mountain as the Divine Dao Realm’s meridian and use the world tree to provide the Divine Dao Realm with life force. Only that would repair the Divine Dao Realm.”

“Isn’t the world tree the chaos tree?” Luo Qinghe said and then showed a disappointed face.

The Divine Dao Realm was broken due to the chaos tree and he had only heard of the world mountain. They had never seen it.

Everyone fell into silence. According to her words, it was impossible to repair the Divine Dao Realm.
