Chapter 2181 Divine Dao Sec

Ye Mo was extremely shocked. The chaos tree was in his dan tian and he had seen the world mountain before. He even had a small piece of it in his Golden Page World. But if the world mountain he saw was the one Qin Xuanji was talking about, how could it appear in the truth fall palace? It was just truth divine emperor's magic artefact.

Even if it was that world mountain, Ye Mo didn't believe it could be forged into the Divine Dao Realm's meridian. That world mountain was enormous but the Divine Dao Realm was boundless. It's said to be the biggest realm in the universe. Plus, that world mountain had flown away to a place no one knew.

Qin Xuanji said "These are just two conditions for repairing the Divine Dao Realm. The most important one is to find Eternity Divine emperor."

"Eternity divine emperor?" Everyone looked at her in shock. In the vast universe, only primordial essence divine emperor can reach eternity. But no one even knew for sure. The title of Eternity divine emperor was too powerful.

Who would dare to give himself such title?

Ye Mo was even more shocked. If Qin Xuanji didn't say this, he would've forgotten his title was Eternity Divine emperor. "How would you know this?" Ye Mo looked at Qin Xuanji and asked.

Qin Xuanji hesitated and said "I got a huge fortune and that's how my cultivation level improved so greatly. I knew about all this from that fortune. Even with the world mountain and tree, we need to find Eternity Divine emperor to repair it."

Xu Feng sighed "Since Eternity Divine emperor's title is eternity, I believe he must've existed for an eternity. Even if we found him, the world mountain and tree is too far of a hope."

Seeing everyone become dejected, Ye Mo suddenly said “Immortal friends, we’re all human divine emperors. Even if you all reach primordial essence, you would be homeless if you live somewhere else. I’ve decided to set up a sect at the Divine Dao Realm called Divine Dao Sect. It’s not built for anyone nor power, it’s built for the entire Divine Dao Realm.”

Everyone fell silent and listened to Ye Mo.

The Divine Dao Sect will be built in the Divine Dao Realm to bring the human race of the Divine Dao Realm together again. The Divine Dao Sect won’t allow the rule of the jungle in the Divine Dao Realm. No divine dao city nor god corner would be allowed to have strongest rules. Of course, most importantly, the mission of the Divine Dao Realm is to repair the Divine Dao Realm. Divine emperors have countless lifespan. Eventually, the Divine Dao Realm will be repaired in our hands again.”

When Ye Mo said this, he deeply felt that no matter how powerful he was, he couldn’t take this on alone.

The aquarius race could publicly threaten to kill the human race but he could only watch this. If the human race was powerful to a new extent, how would they dare to say this? If the Divine Dao Realm was complete, who would even go for the immortal realm?

He was more confident than others in repairing the Divine Dao Realm. First, he was Eternity divine emperor, second he had chaos tree. Whether he was willing to use it depended on him. Third, he had seen the world mountain. Perhaps he would be the only one who can find it.

As soon as Ye Mo said this, Luo Qinghe yelled “Sect leader Ye, Luo Qinghe is willing to join Divine Dao Sect and return to the Divine Dao Realm.”

“Sect leader, Xu Feng is willing to join Divine Dao Sect.”

“Qin Xuanji is willing to join the Divine Dao Sect.”

“Shan Mu is willing to join the Divine Dao Sect.”

“Xian Yuxue ...”

In a short while, a few hundred people joined the Divine Dao Sect.

Ye Mo said happily “Very well, today, the Divine Dao Sect is established. I’ve got a hundred or so storage rings from the aquarius race. The things inside will be the resources for setting up our sect. Luo Qinghe, Xu Feng and Qin Xuanji will be the first, second and third vice sect leader. After this, we’ll buy the materials for building a sect in the Void Marketplace and bring back the humans who are willing to return to the Divine Dao Realm and build the sect.”

The Great Sun God Mountain’s dao essence divine emperor’s face went pale. If the Divine Dao Sect is built, even thirty divine sects won’t be able to take on Divine Dao Sect much less three.

suddenly, Ye Mo stared at the Great Sun God Mountain dao essence divine emperor and said “On the account that you didn’t run away from the conflict with the aquarius race, I’ll let you go on the past conflicts. But once you go back, go tell that Great Sun God Mountain half primordial essence, if he dares to spirit control the entire Divine Dao Realm, I will turn him to dust.”

“Yes, I understand.” The dao essence divine emperor quickly said. This was a huge joy that Ye Mo let him go due to the aquarius race conflict. As for whether the Great Sun God Mountain dao essence divine emperor would listen to Ye Mo’s message, that wasn’t his problem. He knew it wasn’t quite likely the other dao essence divine emperor was half way primordial essence.

“Sect leader, after the dao fruit tower, you’re not going back to the Divine Dao Realm with us?” Luo Qinghe asked.

Ye Mo said “I have some things to do. At the same time, I know where the world mountain is. I’ll go search for it. Before you guys go back, I will leave some god pills for you guys to take back.”

“Sect leader, you know where the world mountain is?” Xu Feng and them asked at the same time. If Ye Mo found it, then even if they didn’t find eternity divine emperor they could still repair the meridian of the Divine Dao Realm if one of them reached primordial essence.

That way, even without the world tree, the Divine Dao Realm wouldn’t be like this.

“I’ve seen it but I’m not certain.” Ye Mo said.

“Sect leader, I’ve heard them all call you pill divine. I wonder what pill divine you are?” Qin Xuanji asked while everyone was excited.

Everyone looked at Ye Mo wanting to know what god pills the sect leader of the Divine Dao Sect could concoct.

Ye Mo smiled “I can concoct dao essence god pills.”

“Dao essence pill divine?”

Hearing this, the room was dead silent. Dao essence pill divine was rarer than primordial essence divine emperor. They completely didn’t expect this. Didn’t that mean that as long as they had god spirit items, they would all be able to turn into god pills?

Luo Qinghe and them finally realised why Void Marketplace merchant tower was so polite to Ye Mo. At the same time, they realised why Qiao He from Guang Yuan palace followed Ye Mo.

Suddenly, a flaming red flying sword fell into Ye Mo’s hands. Ye Mo grabbed it and felt a message. It was Tian Rui and Kong Han divine emperor inviting him over.

Ye Mo knew he couldn’t reject this so he patted Luo Qinghe who was still in disbelief and said “Qinghe, I’ll leave the dao fruit tower spots to you.”

Then Ye Mo said to Xu Feng and Qin Xuanji “Please calculate the people joining Divine Dao Sect and the resources we got before and turn those god crystals into sect building material and bring it back to the Divine Dao Realm.”

Chapter 2182 Invitation of half primordial essence

The VIP place was much smaller than the guest palace but more exquisite. When they saw Ye Mo come in, Tian Rui and Kong Han divine emperor got up politely.

“Pill divine Ye is very busy now but we invited you over. Please forgive us.” Tian Rui said with full spirit, he didn’t seem like the fatigued him before.

Ye Mo didn’t know why these two called him over but he wasn’t worried. He checked this VIP tower, there was no special restriction.

Kong Han divine emperor poured a cup of tea for Ye Mo and then started to chat with Ye Mo about casual things.

Ye Mo didn’t want to waste time with these two but he didn’t want to bring it up. He was planning to leave if these two kept wasting time.

As though realising what Ye Mo thought, Tian Rui divine emperor soon said “Pill divine Ye, you probably know Great Primordial God Rune god art right?”

Ye Mo instantly realised that the two could tell he knew Great Primordial God Rune from his falling mark sword rune.

Ye Mo’s facial expression didn’t even change. He smiled “Yes a little bit. Now even in initial mastery.”

“Oh, I didn’t expect pill divine Ye to have such fortune.” Despite knowing that Ye Mo probably knew it, they were still extremely shocked when Ye Mo admitted it.

Ye Mo knew that even if he didn’t say where he learned the Great Primordial God Rune, the two would ask him so he said “A hundred years ago, I’ve been to a Void Marketplace auction. I bought the Great Primordial God Rune from there and spent 3 billion god crystals and a god spirit range.”

Hearing this, the two excited half primordial essences were a little disappointed indeed. Since Ye Mo was the person who bought the Great Primordial God Rune, then there was no way he was the demon dao essence who tore open the void. They would rather Ye Mo be that demon divine.

“Pill divine Ye is very strong, are you dao essence divine emperor already?” Kong Han divine emperor asked.

Hearing this and considering their disappointed face, Ye Mo immediately knew what was going on. They thought he was the demon dao essence who bought the light heart a hundred years ago. That’s why they called him over to test him.

No wonder they were suspicious. He used the Great Primordial God Rune fruit to buy things so it was no strange thing that he knew Great Primordial God Rune.

Then, his Zi Xu was extremely strong so they suspected he used Zi Xu to tear open the void.

Ye Mo rejoiced. He was really lucky. If there was no Great Primordial God Rune sold at the auction, they would be even more suspicious of him.

But he knew that if these two investigated at shadow void castle, they would definitely know he bought the light heart. As the exchange social people knew he sold the Great Primordial God Rune fruit. However, Ye Mo wasn’t worried about this. By the time they investigated and knew the results, he would’ve definitely left the Void Marketplace.

Ye Mo wasn’t scared of these two but the light heart was too precious. If he exposed it, he wouldn’t be able to stay alive.

“No, I’m still dao actualisation divine emperor. I’m a pill divine otherwise, I would want to go to the dao fruit tower too.” Ye Mo said casually.

After realising Ye Mo wasn’t the person they were looking for, the two divine emperors lost interest. Ye Mo got up to leave. He knew he had to leave the Void Marketplace quickly.

At this moment, the three vice sect leaders had arranged everything and came to Ye Mo’s place. There were a total of 673 divine emperors and immortal friends going back to the Divine Dao Realm with them.

“Sect leader...” Luo Qinghe was going to report more.

Ye Mo waved his hand “Wait, we don’t need to be like this. Just call each other martial brothers. Plus, I really do have some martial brother relationship with you.”

Luo Qinghe looked at Ye Mo in confusion and asked “Martial brother Ye, what do you mean?”

Ye Mo smiled “Have you been to Luo Yue Continent martial brother Qinghe or did you ascend from there?”

Luo Qinghe got up in surprise and joy “Martial brother Ye knows of Luo Yue Continent? I ascended from there but because I’ve been a solo cultivator I didn’t have sect heritage. I found a piece of a god cultivation chant and I used that to ascend to the immortal realm. How did you know I came from the Luo Yue Continent?”

“Because I ascended from Luo Yue Continent too. The Qinghe God Cultivation chant you left behind was found by a sword cultivator called Xu Changji The latter part was missing so I filled it up for you.” Ye Mo said.

Luo Qinghe already felt warm when Ye Mo said he was from Luo Yue Continent. Now that Ye Mo said he edited the cultivation method for him, Luo Qinghe felt even better.

He asked desperately “How is my disciple’s talent? What’s his cultivation level now?”

Ye Mo laughed “You only left a part of a sword chant and you want to be master. It’s not that easy.”

“Martial brother Ye, aren’t we in the same sect now?” Luo Qinghe said awkwardly.

Ye Mo smiled “I won’t fight over disciple with you. I call Xu Changji martial brother Xu.”

“We’ll teach our own disciples.” Luo Qinghe said in embarrassment.

“No wonder martial brother Ye let martial brother Qinghe be the first sect leader. You’re already related.” Qin Xuanji joked.

Ye Mo sighed. He already told them about how he came from the immortal realm.

Hearing that Ye Mo built a Mo Yue immortal sect in the immortal realm, they’ve long wanted to go see.

The group chatted for a while before Xu Feng said “Martial brother, I’ve counted the aquarius race storage ring. There’s 17 extreme grade god artefact, the rest or half extreme grade or top grade ta. There’s also a fake Primordial Spirit Artefact. There’s 19 small worlds. Countless materials and god spirit herbs. There’s 29.3 billion top grade god crystals, five extreme grade god spirit range, 27 top grade god spirit range and 29 middle grade and low grade god spirit range. There’s countless god pills.”

Ye Mo took in a cold breath “The aquarius race is very wealthy. That battle royale earned him more than selling the 13 spots.”

“The four dao essence divine emperor’s storage ring are very plentiful.” Xu Feng added.

Ye Mo took out a storage ring to Xu Feng and said “There are some god pill and god artefacts I’ve made. Give the pill concoction and forgery materials to me and take the god pill and god artefact back to develop the sect.”

“Sect leader, you’re an artefact divine too?” Qin Xuanji looked dazily at Ye Mo. A pill divine was already extremely time consuming. If this pill divine was still an artefact divine, just how absurd would things be?

Ye Mo didn’t hide it and said “I can forge some god artefact but the materials are very hard to get. Thus, my forgery skills are a bit weaker than my pill concoction skills.”

Ye Mo continued “The Divine Dao Sect is about to built. The materials we’ll need is an astronomical number. Before the dao fruit tower, martial brother Qing he and martial sister Xuanji can ask for Xing Hong divine emperor to buy the things we need. After the dao fruit tower finishes, we’ll leave immediately.”

Chapter 2183 Luo Yue Dao fruit Shop

Dao fruit tower was the chaos tower. Although people often said it was in the Void Marketplace and belonged to it but its actual location wasn't in the Void Marketplace. It was in the void between realms.

There was only one way to the dao fruit tower and that was the entrance from the Void Marketplace.

There was also a huge square at the entrance. It was the dao fruit tower square. Every time the dao fruit tower opened, there would be all sorts of stalls.

At the deepest part of the square was a teleportation formation to the dao fruit tower. This teleportation formation wasn't set up by anyone. It was naturally here. Anyone who went in would be teleported to the first level of the dao fruit tower.

At this moment, the square was completely filled. The dao fruit tower was open. Those who wanted to go in could enter now.

Jue Wuheng was nowhere to be seen during this period but he came very early today.

One didn't need any identity jade card to enter the dao fruit tower. They can only enter the teleportation formation. Anyone can enter but the teleportation will only happen once for 999 people.

The 30 people of the human race were all here. However, Ye Mo was surprised to find that it wasn't just Jue Wuheng who was a dao nourishment divine emperor but also Ji Xi who was a dao nourishment divine emperor and got a spot.

Ye Mo immediately realised who gave it. Wang Nanshuang got two spots and she gave one to Ji Xi. Ye Mo didn't want to say much about it.

When Ji Xi saw Ye Mo look over, she quickly looked down. She was really scared Ye Mo would suddenly take her spot away. If Ye Mo did this, there was nothing she could do.

The Great Sun God Mountain also had three spots. Other than Dong An, there was one man and woman. They were also dao actualisation peak stage.

The people who bought the 13 spots came to the human race area too. There were from all sorts of races and even an aquarius race but Ye Mo didn't care.

Tian Rui and Kong Han came to the dao fruit tower square. Kong Han stood in the air and said loudly "The dao fruit tower is open. Can the divine emperors of different races stand separately. The god rank people stand separately too."

Instantly, the space before the teleportation formation was split into tens of groups. Ye Mo noticed that their group of 42 was huge. The biggest group was the god rank group. There were hundreds there.

When Ye Mo saw Wan Tongtong, she saw Ye Mo too. She quickly looked down just like Ji Xi. Clearly, she had heard of what Ye Mo did at the Void Marketplace. If it wasn't for the dao fruit tower, she would never appear here.

Kong Han divine emperor looked at the people and said "There's 999 spots, now that there's only 994 people here, the Void Marketplace will auction these five spots..."

Ye Mo realised. No wonder Kong Han and Tian Rui were so eager to come. Such method of auction was way better than what he did. If he did this, he would get much higher price with all these people here.

But Ye Mo knew that was implausible. This was the Void Marketplace. If he did that, it would definitely offend the two half primordial essence.

In just ten seconds the five spots were gone. The price was more than 15 billion god crystals and two god spirit range. Ye Mo was speechless.

The 999 people were gathered and teleported away.

Many merchant towers started to release their shop at obvious places in the square. They wanted to buy the dao fruits. Some big merchant associations also sent people over too.

Ye Mo didn't go in the dao fruit tower just so he could buy dao fruit heres. He chose the most obvious place and built the largest shop "Luo Yue Dao fruit Shop."

It displayed all the fine details. What was most attractive was that they could help people who had dao fruit concoct dao fruit god pills. This was something only dao actualisation pill divines could do.

The dao fruit of the first level was five element heaven fruit. This dao fruit could be concocted into five element dao fruit god pill. It can help people learn five element god art. The fee is half the price. If pill concoction fails, there would be compensation.

The second level had Fu Liu fruit. It was something more precious than Du Yuan eye. It could be made into Buddha Liu God eye pill. It can allow people to cultivate god eyes that at the extreme can let your eyes pierce a realm.

This was also something that needed a top dao actualisation pill divine to concoct.

There was still promise of compensation for failure.

The third level dao fruit was dustless fruit. The shop only bought it as the dao fruit couldn't be used in pill concoction.

The fourth level dao fruit was abstruse heaven fruit. It can be concocted into abstruse heaven pill. It was a pill to help learn god art. It was most suited for wind, ice and lightning god art.

The fifth was purple heaven dao fruit. It helped dao nourishment divine emperor break through to dao actualisation divine emperor. It can be made into purple heaven pill.

The sixth level was flowing light fruit. It was a real dao law fruit. Divine emperors could use this to learn laws of the universe including space and time law. The shop only bought and didn't concoct pills with it.

The seventh level was Qian Essence fruit. To all the dao actualisation divine emperors in the tower, this was the most precious dao fruit. Other than people like Ye Mo who didn't want to use dao fruit to reach dao essence divine emperor, no being below dao essence could resist its temptations. This dao fruit couldn't be concocted to pills. The shop was willing to pay heavy price and negotiate terms.

The eight level was heaven martial void breaking fruit. This was more precious than Qian essence fruit but less valuable to cultivators as this was a martial dao fruit.

It couldn't be used in pill concoction too.

The 9th level was primordial essence dusk fruit. Just from the name, one could tell it was related to primordial essence. However, ever since the dao fruit tower existed, no one was able to get it so the shop didn't list this fruit.

In all off Luo Yue shop's lists, it was full compensation for pill concoction failure and 50% pill fee.

Those competing merchants saw this advertisement and wanted to die. With such conditions, who would be able to compete with Luo Yue? No pill divine dared to promise compensation for pill concoction failure.

Chapter 2184 Shadow Void Young Castle Master

"We're late." A handsome looking man brought a few divine emperors to the dao fruit tower square and saw stalls everywhere.

Young castle master, there's still a few spots at the corner. We can place our stall there." A dao actualisation divine emperor said.

They were scared the stalls would be taken but more scared that the young castle master would cause trouble here.

All those who could set up stall here weren't weak. They were either a powerful faction or a powerful sect.

The young castle master frowned and sneered "The name of our shadow void castle dominates the void, how can we choose a corner. That would be a joke. Xu Yang, go negotiate with some stall owners and see if we can pay some god crystals. Hmm, Luo Yue dao fruit shop..."

He wanted to let his men negotiate with someone who had weaker power than the shadow void castle to buy a stall but then he saw Luo Yue dao fruit shop.

He saw that the place was the most obvious and largest. It wasn't that he wanted this place. They could take such a large place meaning that they clearly weren't ordinary people. He asked because he had never heard of such power.

"Xu Yang, have you hear of this Luo Yue dao fruit stall? How come I've never heard of it?" The young castle master asked the dao actualisation divine emperor next to him.

Then he looked at two dao essence divine emperors and asked "Have two elders heard of them before?"

The man and woman shook their head. They were delayed on their trip to the Void Marketplace and thus didn't hear about Ye Mo slaying demon divine emperors and dominating the aquarius race.

Xu Yang was scared the young castle master would be rash and said "young castle master, how about I go ask. Perhaps we can ask them for pill concoction. Looking at their sign, it's quite scary."

The young castle master nodded "Since the stall is set there, they're definitely not ordinary. Be polite when you ask."

Hearing this, Xu Yang rejoiced. The young castle master was usually very cocky. To be able to say this, it was a huge improvement.

"Haha, so it's shadow void castle young castle master, Lou Tai immortal friends. Long time no see." A warm voice sounded. Then a man who looked on par with the young castle master came over. His extremely handsome face was surrounded with this shocking chi. Those who knew would recognised it was demonic wave.

This person was the dao essence demon representing the demon race at the dao fruit tower distribution. He was called Situ Hong.

Seeing this, young castle master felt a little overwhelmed and said "So it's Situ qian bei. Qian bei haven't been to the shadow void castle for a long time. Lou Tai miss you very much."

Situ Hong laughed "young castle master is too polite. We're no outsiders. Just call me brother Situ from now. How has castle master been lately?"

Hearing this, young castle master was overjoyed and quickly said "My father is in solitary cultivation."

"Castle master is really a talented person, we're so much lesser than him." Situ Hong sighed and asked "By the way, why did young castle master only come now?"

Lou Tai sighed "Due to some things happening in the void we wasted some time. Now that we're here, there's not even a space left for us. If I go back, father will definitely reproach me."

Situ Hong also said with a pity "Yea, the dao fruits are no small matter. If the shadow void castle has no spots this time, the losses would be huge..."

Situ Hong hesitated and suddenly said "young castle master, how about this. You can come to our demon race and I'll give half my stall to young castle master."

"How can that work, it would be troubling brother Situ." Lou Tai's heart was very warm. He didn't expect Situ Hong to take him this seriously.

Situ Hong said gloriously "This isn't hard. The castle master helped me a lot before and you've helped me quite a lot too..."

Seeing Situ Hong be so polite, Lou Tai said "Brother Situ, I do need to ask you about something. How come I've never heard of that Luo Yue dao fruit shop. Their stall is huge and it's in the center of the square."

Situ Hong glanced at it and said in contempt "If it wasn't for Xing Hong, I would've kicked him away. That stall owner knows Xing Hong and Kong Han divine emperor through pill concoction. He's just a human solo cultivator and he's only dao actualisation divine emperor. It's normal that you haven't heard of him."

"What?" Lou Tai looked at Situ Hong in shock. A solo cultivator dared to have such a huge spot in the square?

Situ Hong suddenly thought of something and said "young castle master, I'm busy. I'll be leaving first. If you have no spot, feel free to come to me."

"Okay, thank you brother Situ." Lou Tai felt very good.

"young castle master, I feel Situ Hong's words are strange." That dao essence divine emperor set up a sound barrier restriction and said.

"Why?" Lou Tai who was going to walk towards Luo Yue dao fruit shop stopped.

The dao essence divine emperor said "First, he came at such a strange time and he's too nice to young castle master. Situ Hong isn't someone that easy to talk to and yet he's giving his stall. Although he's close to Xing Hong, it's not at the level he would give such space over. Third, even if he's close to Xing Hong, what about beast race, aquarius race and abyssal race? We've just come here. It's best that we investigate what the shop is in case we fall into a trap."

Lou Tai thought for a moment and said "Elder Xi is right. Situ Hong is indeed a bit strange. We just came to the Void Marketplace and don't know a lot of things. He saw us come to the square and knew we needed a stall. He even overheard us before coming over. But if that stall owner is really close to Kong Han divine emperor, it's plausible."

The dao essence woman suddenly said "There's also dragon and phoenix race. Even Kong Han divine emperor wouldn't be able to let demon, abyssal and aquarius race give over such a good spot. The Luo Yue shop isn't simple, hmm..."

Suddenly, the woman looked at the door of the shop with disbelief.

“Elder Pu, what did you notice?” The young castle master asked quickly. The dao essence divine emperor belonged to the Cang Xu dao exchange social and not the shadow void castle. They were cooperating.

“If the owner of the shop is the person who just came out. I’ve seen him and I know a little about him.” The dao essence divine emperor said.

Lou Tai felt the dao essence divine emperor’s tense tone and asked carefully “Elder Pu is his origin big?”

The woman shook her head “He’s indeed a human divine emperor from the Divine Dao Realm. When I first saw him, he only seemed to be dao nourishment but now, he’s dao actualisation. He definitely hid his power.”

“Immortal friends Pu, where did you see him?” The Xi dao essence asked.

“At the Cang Xu dao exchange social. He had a lot of good things and then had conflict with demon dao essence Mo Fu over the nine star bamboo. He was stopped at the immortal rest tower for nearly three years. After three years this person left and Mo Fu left with him.” The woman said.

Then what happened? Did elder Fu follow them?” The young castle master asked. He knew she would definitely go check.

She nodded “Yes I did. I ended up seeing Mo Fu’s broken magic artefact. Ever since then, I’ve never seen Mo Fu again but today I saw that human divine emperor again.”

Chapter 2185 Want Ye Mo’s stall

“He killed Mo Fu?” The young castle master asked in surprise. And then he said “No wonder Situ Hong wants to stir up trouble.”

“Young castle master, I feel that Situ Hong probably doesn’t know that he killed Mo Fu. If Situ Hong knew that then even if the stall owner knew Tian Rui divine emperor, Situ Hong wouldn’t be letting him sit there.” The dao actualisation divine emperor called Xu Luan said.

The young castle master nodded “Since we know he is, we can let him have his way. Give him a small space and pay him some god crystals compensation. A human race dao essence divine emperor is not much to me.”

The Xi dao essence divine emperor and Xu Lan dao actualisation divine emperor didn’t say anything hearing this but the female dao essence divine emperor said “young castle master, I think it’s best that we don’t start trouble. If the human race divine emperor only had that much power, Situ Hong wouldn’t be using your hands to kill him.”

The reason she said this was because she had this deep concern with Ye Mo. She hadn’t seen the exact fight between Ye Mo and Mo Fu but she saw the void formation flags Ye Mo left behind. This meant that Ye Mo used formations to kill Mo Fu. The reason Ye Mo had to use formations was because he was weaker than Mo Fu.

Someone who was weaker than Mo Fu used all sorts of means to kill him. How could he not know the danger of taking such a stall on the dao fruit tower square. However she had tried persuading the young castle master. She wasn’t a part of the shadow void castle. She already said what needed to be said. What the young castle master did was his choice.

Lou Tai smiled “Elder Pu don’t worry. This thing definitely won’t get Cang Xu dao exchange social involved. Plus, with such a huge shop, we’ll definitely earn big this time. Situ Hong isn’t necessarily starting trouble between us. He doesn’t dare not to take into account my father. Plus, how much benefits has Situ Hong taken from Xing Hong. It’s normal that he’s embarrassed to offend Xing Hong. Just watch me.”

Pu Houxi could only follow over.

The reason Ye Mo was here alone was because he asked the rest of the people to buy all sorts of sect building materials in the Void Marketplace. In order for them to not get abused, Ye Mo let Qiao He follow them.

Although Xing Hong helped him a lot, there were many things he needed to go buy himself.

When Ye Mo came out of the shop, he saw Pu Houxi. Even though the young castle master walked at the front, Ye Mo only knew her.

“Immortal friends, you’re a human race pill divine right? How may I refer to you? I’m from the shadow void castle, Lou Tai. I’m the young castle master.” Lou Tai saluted with his fists.

Ye Mo immediately thought that Lou Tai came to ask him for pill concoction and saluted with his fists “I’m Ye Mo, is the young castle master here to ask me for pill concoction?”

Lou Tai pointed at Ye Mo’s sign and laughed “Pill divine Ye is really bold. Not everyone dares to set up such plate. Although elder Xing Hong is a powerful figure of the Void Marketplace, not everyone cares about him.”

Ye Mo frowned. He didn’t really understand what Lou Tai meant. What’s his signs got to do with Xing Hong.

Lou Tai said again “Immortal friends, I wasted some time on the way here so I came late. Can you do this? How about you give part of your stall to me and I’ll pay you some god crystals or something else. Of course, if anyone else looks for your trouble, I can help you.”

“You came to take my stall?” Ye Mo immediately realised what this young castle master meant.

Lou Tai smiled and nodded “Yes, don’t worry. I will compensate you god crystals. Just divide out ten percent...”

Hearing this, Ye Mo wasn’t too annoyed. His stall was huge. Giving him 10% for some god crystals was okay. Plus, when he was hunted by Mo Fu, it was Shadow Void Castle’s immortal rest tower that helped him.

“... The shadow void castle needs to buy a lot of things so I might need some larger area. Ten percent of the area should be enough for you. Immortal friends, what do you think...” Lou Tai looked at Ye Mo

confidently. He didn't believe that Ye Mo could really concoct those god pill he proclaimed. Ye Mo's stall was purely to cheat people's dao fruits.

Since it was cheating, there will be conflicts. Now that he was going to back Ye Mo up, Ye Mo would definitely want this.

Ye Mo looked at Lou Tai like he was an idiot. He thought the ten percent was for the young castle master but this idiot meant it was for him. Why did this idiot feel so good about himself? If it wasn't that he spoke nicely, Ye Mo would've kicked him away already.

"I don't think so." Ye Mo didn't want to offend shadow void castle but he wasn't going to give him ten percent anymore.

Hearing this, Lou Tai's face went cold. He thought he was polite enough to this human divine emperor and yet he dares to be so cocky.

"Elder Xi..." Lou Tai called. He knew he was no match for Ye Mo.

Elder Xi went up immediately as his powerful realm domain instantly bound Ye Mo while he grabbed at Ye Mo. In front of outsiders, the face of the young castle master need to be preserved.

The same time Ye Mo was bound, he felt the nearby space pause. He immediately knew this was time law.

Time law was thought to be the most terrifying law. It was the hardest to learn but once you learned it it was extremely powerful.

Ye Mo learned time law due to a lightning sound ages fruit. He studied time law by himself. Now that he saw someone else's time law, he didn't want to break free. He closed his eyes to feel it. Ye Mo really didn't fear an ordinary dao essence divine emperor.

When elder Xi heard that Ye Mo killed Mo Fu, he was concerned with Ye Mo. Mo Fu was stronger than him but lately he learned a time law god art. If he fought against Mo Fu now, he wouldn't be scared.

In order to scare Ye Mo, elder Xi used his strongest god art immediately. When he saw that Ye Mo couldn't even stay awake in his time law, he knew that he overestimated Ye Mo.

Pu Houxi watched on the side in confusion. She didn't understand why Ye Mo couldn't even struggle.

Elder Xi's hand grabbed at Ye Mo's neck but when his hands were about to touch Ye Mo, he felt Ye Mo's neck move and he grabbed on Ye Mo's shoulder.

He didn't plan to kill Ye Mo. Other people thought the miss was nothing but this elder Xi knew very clearly this was extremely powerful space law.

Elder Xi's hands grabbed on Ye Mo's shoulder and this extremely powerful force came. He felt his fingers ache and then there was a cracking sound. The dao essence divine emperor knew his fingers had all broke. Then, he saw a foot kick on his face. He was kicked flying without resistance.

Chapter 2186 Shocking News

When this dao essence old man flew out, half his face was destroyed by Ye Mo's kick. He was shocked but at the same time rejoiced that Ye Mo didn't kill him.

Lou Tai looked at this scene in extreme shock. He felt his surroundings completely freeze. At the same time, he was grabbed by a huge god essence hand and thrown on the ground.

Lou Tai was scared soulless. He had been careful enough but he didn't expect this Ye Mo could easily smash away his dao essence divine emperor. This power was no weaker than his father.

Young castle master Lou, I still don't want to give 90% of my stall to you. What do you think?" Ye Mo looked at Lou Tai who was under his foot and said.

Lou Tai finally realised why Ye Mo could have his stall here. Ye Mo had the power. Even dao essence was no match for him, such stall was nothing.

His life was in Ye Mo's hands now. he quickly said "Qian bei, wan bei was ignorant. On the account that you stayed at my immortal rest tower for a few years please show mercy."

If it was some other divine emperor, he would be furious and embarrassed hearing this but Ye Mo didn't. He was indeed grateful to that immortal rest tower. Otherwise, he wouldn't even be willing to give him 10%.

That's why Ye Mo didn't kill Lou Tai and the dao essence next to him.

"Immortal friends on that account please don't attack." Pu Houxi was worried seeing Lou Tai was stomped on the ground, she helped Ye Mo before at the dao exchange social.

Ye Mo didn't keep stepping on Lou Tai but didn't let him go either. He looked at Pu Houxi and said "Since he's in my hands, name a price."

"I'm willing to pay 10 billion god crystals..." Lou Tai immediately said before Pu Houxi could speak.

Pu Houxi sighed. She could tell that Ye Mo didn't plan to kill Lou Tai. Otherwise, he could just kill Lou Tai and all his belongings would be his. In such situation, Ye Mo would be settled with at most 5 billion god crystals but now, this young castle master said 10 billion.

Hearing this, Ye Mo envied the wealth of the shadow void castle. 10 billion was no small number but this Lou Tai gave it out so easily.

Seeing Lou Tai take out a storage ring, Ye Mo let go off the pressure and yelled "Piss off."

"Yes..." Lou Tai quickly charged out of the range of the shop and went with the other divine emperors of the castle to a corner at the square.

Pu Houxi heard Ye Mo's sound transmission before she left telling her to keep her mouth tight.

How could she not know now that Ye Mo killed Mo Fu. Even if Ye Mo didn't tell, she wouldn't dare to spread things.

"That bastard, how dare he set me up." Lou Tai cursed. If he still didn't know by now that he was set up by Situ Hong he would be an idiot.

Situ Hong clearly wanted Ye Mo to kill him but Ye Mo didn't.

Lou Dao essence had recovered his injuries and said in confusion That Situ Hong probably has some conflict with Ye Mo so he set up young castle master to attack Ye Mo. He definitely thought Ye Mo would kill young castle master but that Ye Mo is strange. Does he know that the young castle master was set up? He didn't kill young castle master and just took some god crystals."

"Some god crystals? 10 billion is some god crystals? This Ye bastard is no good person." Lou Tai felt the pain now. he knew that Ye Mo was extremely scary. Otherwise, how could Situ Hong use him to offend Ye Mo?

"young castle master you must not say that." The dao actualisation divine emperor sent out to get intel came back and quickly said.

"What did you find out?" The young castle master immediately beame nervous. He lost face and lost 10 billino god crystals after being taught a lesson. There was no way he wasn't annoyed. This was enough to get his father involved. He was ready to notify the castle master, his father. But before he did that, he had to know what Ye Mo did at the Void Marketplace to dare to take such a stall?

Xu Luan quickly said "That Ye Mo is said to be a dao actualisation pill divine and some people even say he's dao essence pill divine. Before we came to the Void Marketplace, the human race had a huge clash with the aquarius race under his lead. Pill divine Ye killed four dao essence divine emperor alone and more than 100 divine emperors below dao essence..."

"What?"

Everyone from the shadow void castle was dazed just like when Xu Luan first heard this.

Ye Mo dared to lead the declined human race to fight with the aquarius race and dared to kill more than 100 aquarius race? Was he not scared of death? Why was he still alive now?

Lou Tai had completely calmed down now. The reason he thought Ye Mo didn't kill him before was because Ye Mo was scared of the shadow void castle. Now, it didn't seem so at all. Ye Mo wasn't even scared of the aquarius race.

"Continue." The young castle master breathed and said slowly. He rejoiced that he didn't impulsively send a message to his father. Otherwise, this thing might not end well. The shadow void castle was strong but they had no primordial essence divine emperor.

Seeing the young castle master calm down Xu Luan said "During that battle, twice the amount of aquarius race died. Not only that, the human race has become very united under Ye Mo. In the Void Marketplace, no one would abuse the human race for no reason. This dao fruit tower opening, the human race took back the 30 spots that belonged to them and got 14 more."

"So amazing." Pu Houxi and the other Lou dao essence divine emperor gasped.

The dao essence divine emperors here at the Void Marketplace were the strong ones of every race. Ye Mo could take 44 spots at the distribution as absurdity amongst absurdity.

"Not only so, Ye Mo killed demon race dao essence divine emperor Gong Xiang and beat abyssal race dao essence divine emperor Zhongli Huoyin and robbed five spots from each."

Hearing this, all the divine emperors here gasped in disbelief.

After a long while, Lou Tai cursed "No wonder Situ Hong wanted to trick us. Ye Mo killed demon race dao essence divine emperor and so they want us to fight with Ye Mo and then I would call my father over. Then my father would fight Ye Mo while they watched."

The Lou dao essence divine emperor nodded "It's probably so. If they called a half primordial essence, first it would take too long, second they would have no reason to fight. After all, being killed at the dao fruit tower distribution was normal. The human race had killed countless human race divine emperors. Luckily young castle master was calm. Now, we just lost some god crystals."

Pu Houxi sighed "The Aquarius race is a precedent. They might've had conflict with Ye Mo but it wasn't to the point of large scale battles. They were definitely set up by the demon race. The young castle master did the right thing. We just lost some god crystals."

Hearing two dao essence divine emperors compliment him, Lou Tai felt great about himself and nodded "We'll pretend we don't know this. After we buy enough dao fruits, we'll go back to the castle and tell this to my father."

A few days later, Qiao He, Xianyu Xue, Gu Biying and a few more human race divine emperors came back. In a few days, they've spent most of their god crystals and the materials for sect building were pretty much prepared.

Seeing more and more human divine emperors come to Ye Mo's stall, Lou Tai rejoiced even more that he did the right thing.

Chapter 2187 Dao fruit tower closes

There were a lot of dao fruits in the dao fruit tower but the time allowed in was too short, only ten days.

Powerful people could charge up to the seventh level in the ten days but weaker ones could only stay below seventh level. Those weak and unlucky ones might still be on the second level after ten days.

Ye Mo didn't go in because the time was short and he knew his dao vindication path. If he went in, those dao waves would affect his own dao.

Ten days passed in an instant. On the tenth day, even the extremely spacious dao fruit tower square was full. Kong Han and Tian Rui divine emperor came to the dao fruit tower square.

Ye Mo thought even if there were half way primordial essences to come, there would just be a few but now, Ye Mo realised he was wrong. A few powerful spirit sense scanned outside his restriction. Ye Mo knew that this was people no weaker than Kong Han divine emperor.

Not only so, Ye Mo saw the two half primordial essences at the auction. Their spirit sense was very familiar.

Ye Mo guessed that there were at least six half way primordial essences at the square. One of them entered the aquarius race and another entered the beast race stall.

Ye Mo watched the aquarius one the most. No matter what, he definitely knew the conflict between the human and aquarius race. The reason they didn't attack yet was one to show respect to the Void Marketplace but another reason was to let him buy the dao fruits for them.

Realising this, Ye Mo didn't worry anymore. If there was just one half way primordial essence, it would be easy to deal with. If there were two, things would be a bit troublesome. Luckily, he was prepared and made the buys needed.

The black restrictions of the end of the square emitted white lights suddenly. These white lights rattled the black restrictions.

"The dao fruit tower is about to close, people are coming out."

The white light disappeared and the black restriction was open. A few hundred dao actualisation divine emperors quickly dispersed. A few dao actualisation divine emperor immediately dashed out of the square and disappeared. Clearly, they're from the god rank.

More stayed as they knew staying here was the safest. If they didn't have confidence, charging out of the Void Marketplace now was the stupidest action.

Nearly 100 people went into the tower but less than 900 came out. Ye Mo scanned the human race dao actualisation divine emperors. 32 people went in but 30 came out. without a doubt, those two had died inside.

Luo Qinghe, Qin Xuanji, Wang Nanshuang, Dong An and so all came out safely. None of them left the square and all came to Ye Mo's stall.

Looking at their faces, Ye Mo immediately knew that they harvested a lot.

“Martial brother, the greatest harvest for me this time is two Qian Essence fruit. I also got six more dao fruits on top of that...” Luo Qinghe said excitedly.

Ye Mo immediately gathered the 30 divine emperors and said “Those who got five element heaven fruit, Fu Liu fruit, Abstruse Heaven Fruit, Purple heaven dao fruit came leave the dao fruit with me. I will concoct them into god pill. As for the other dao fruits that can’t be made into god pill, keep it yourselves. I was planning to collect enough Qian essence fruits and increase a few dao essence divine emperors on our side but now we can’t do that. The three vice sect leaders lead the human race divine emperors back to the Divine Dao Realm and build the Divine Dao Sect...”

Xu Feng asked in shock “Did something happen?”

Ye Mo said “Not yet but I guess soon. A half way primordial essence came to the aquarius race. He was very subtle but I still noticed him.”

“Half way primordial essence?” Some human divine emperors looked at each other. Half way primordial essence was infinitely close to dao vindication third step. If the difference between first step and second step was a deep ravine then the difference between second and third step was endless.

Seeing them look worriedly, Ye Mo said calmly “Don’t worry, that half primordial essence is watching me. As long as I don’t go, they won’t go. I’ve already borrowed a void ship from Xing Hong. You can use it to go back to the Divine Dao Realm.”

“I got three qian essence fruit and a heaven martial void breaking fruit.” Qin Xuanji was about to take out the dao fruits.

Ye Mo quickly said “Keep the fruits on you. You only need one of the Qian essence fruit. See who else in the sect needs it and then make arrangements based on their contribution. Remember, if the aquarius race really dares to attack the Divine Dao Realm, don’t keep fighting if you can’t beat them. One day, we’ll get back at them.”

Ye Mo made these arrangements and said to Qiao He “Immortal friends Qiao, if you trust me then please go to the Divine Dao Realm. At the same time, give me the location of the Guan Yuan palace. After I’m done with things I will go there and help with pill concoction. I will then go back to the Divine Dao Realm after finishing. Then, you can leave the Divine Dao Realm. If it’s fast then it should be done in a decade, but even if it’s slow I wouldn’t take more than 100 years.”

Qiao He was helpless but he knew that there was no way Ye Mo would go with him before he finished his things. He had been searching for a powerful pill divine for two millenia. It was impossible to find a powerful dao essence pill divine like Ye Mo.

Now that Ye Mo asked him to go to the Divine Dao Realm, it was clearly for him to help the human race. If he didn’t agree, Ye Mo might not concoct pills for him.

He had been with Ye Mo for a while and understood Ye Mo’s character a little. Ye Mo wasn’t even scared of aquarius race, there was no way he would be scared of the Guang Yuan palace.

Thinking about this, Qiao He took out a jade bead and said “This is a void location bead of the Guang Yuan palace. You can sense the palace from here in the void.”

The human divine emperors of the shop quickly left and soon, Ye Mo was alone. His spirit sense was watching the aquarius race. He found that the dao essence divine emperor and half primordial essence didn’t leave and felt assured.

Now that he was alone, my planned to let small ginseng or Qiu Rang out to help. Small ginseng was ice ginseng king but with countless dao fruits here, small ginseng wouldn’t cause people to fight over him immediately.

But soon, Ye Mo found in joy that Mu Xiaoyun was out of solitary cultivation. She was immortal friends peak stage now. The next thing for her was dao vindication. Ye Mo had this many dao fruit and chaos chi in the Golden Page World, there was no worries at all.

Ye Mo immediately called out Mu Xiaoyun and as soon as she came out, she came up and hugged Ye Mo tightly “Husband, I don’t want to go into solitary cultivation again.”

It had been a torture for Mu Xiaoyun all these years in the time formation disk.

With her talent and all these resources, she definitely didn't need all these years to reach immortal friends peak stage but she missed Ye Mo too much and would often wake up from solitary cultivation. She forced herself back into solitary cultivation. This was not the mindset for cultivation.

Ye Mo felt this and patted her back "Don't worry Xiaoyun, you won't need to anymore. You're immortal friends peak stage but your dao heart isn't full. It's not good for dao vindication. You can stay with me for a while before you vindicate dao."

"Mhm." Mu Xiaoyun was like a tame cat.

Chapter 2188 Collect Dao fruit like crazy

When Ye Mo took Mu Xiaoyun out of the shop, there were nearly 100 people outside. Seeing this, Ye Mo rejoiced. He could tell they came out from the dao fruit tower. They definitely came to sell or ask him for pill concoction.

"Husband, are we at the Void Marketplace? What square is this? Why are there so many people?" Mu Xiaoyun asked in shock seeing so many divine emperors squeezed here.

"This is Void Marketplace dao fruit tower square. I'm going to go in for pill concoction. You stay out and help me collect dao fruits and give out pills." Ye Mo said.

"Pill divine Ye, is what's on your tablet true? I have two abstruse heaven fruit, I want to ask you to concoct Abstruse Heaven pill..."

"Pill divine Ye, I have a purple heaven dao fruit, I want to trade for five god cloud pill."

"Pill divine Ye..."

Most people trusted him as he had a stall here before.

“Immortal friends, of course what’s on Ye Mo sign is true. Even if you just give me one dao fruit and I destroyed it in pill concoction, I’ll compensate you.”

Then Ye Mo continued “I’ll put it out now the number of pills per cauldron is nine. If it’s two of the same dao fruit then you get nine pills. If it’s just one dao fruit then four pills. Remember to prepare the supplementary god spirit herb yourselves. If I have to provide it then you have to pay more god crystals or take less god pills.”

Ye Mo knew that in terms of buying with god crystals, he was probably the weakest here. Any merchant shop here had more god crystals than him. He probably only had about tens of billions but any merchant shop here had more than 100 billion.

He could only use god pill to get dao fruits. With his current power, he can easily concoct 12 pills per cauldron. Saying nine was still extremely amazing in the Void Marketplace. Usually, those who get 6 pills per cauldron were extremely powerful pill divines.

“Okay, I’ll come first. I have two abstruse heaven fruits...” The dao actualisation divine emperor at the front said. Even if it was just six pills, he would accept without hesitation.

Ye Mo took these two fruits and left things outside to Mu Xiaoyun. He went in first.

Many people were here but most of them just watched. Many people knew that Ye Mo was pill divine but the dao fruit was too precious, what if this person destroyed it? Even if they killed Ye Mo, they wouldn’t be able to get back their dao fruits.

Due to Ye Mo’s big sign and shocking content, more and more people came. There would be at least four to five thousand dao fruits each time the dao fruit tower opened. Some people didn’t want to waste time going to higher levels so they would collect more numbers of low level dao fruits.

Ye Mo only used five minutes to finish a cauldron of abstruse heaven pill.

“Husband.” Mu Xiaoyun saw Ye Mo come out and stood by Ye Mo nervously. She was immortal friends peak stage but no one here was immortal friends. They were all divine emperors.

“Pill divine Ye, how is it?” The dao actualisation divine emperor asked nervously.

Ye Mo took out a jade bottle and said “It’s done, have a look.”

The dao actualisation divine emperor opened and poured out a pill. Then he said in shock “Nine extreme grade abstruse heaven pills...”

He had never expected for extreme grade god pills to appear. He would be able to accept even middle grade.

He quickly put the pills into the jade bottle and then left the crowd without even saying thank you.

Everyone nearby saw this immediately. Mu Xiaoyun immediately became busy. All sorts of dao fruit were sent over. Some dao fruit not even from the dao fruit tower came.

Dao fruits became Ye Mo’s and god pills stacked up in Ye Mo’s storage ring. The divine emperors left happily with their jade bottles.

Later on, more and more people came to ask for pill concoction. Half a day had passed, Ye Mo collected a few hundred dao fruits.

“Xiaoyun, stop collecting dao fruits.” Ye Mo told Mu Xiaoyun to stop.

Ye Mo could clearly feel many looks of animosity. Clearly, he over did it. He collected that many dao fruits all buy himself. What would all the other shops and powers do? Plus, he felt he couldn’t keep staying here.

Mu Xiaoyun wasn’t dumb. She was planning to remind Ye Mo even if he didn’t say it. Now that Ye Mo said this, she gave the dao fruits to Ye Mo and stood on his side.

Ye Mo took out the god pills he concocted and gave them out. Then, Ye Mo saluted with his fists “Luo Yue dao fruit shop is done buying now. everyone please choose other shops.”

“How can that do? It’s not my turn yet?”

“I didn’t get a chance, I’ve been waiting for a long time.”

“Pill divine Ye, what’s going on?”

When Ye Mo announced this, he clearly felt the killing intent chi dissipate by a lot.

If Ye Mo didn’t slaughter the aquarius race, there would’ve long been people to challenge Ye Mo’s stall.

Ye Mo said apologetically “I’ve been concocting for half a day, my sea of consciousness isn’t holding up.”

“When would pill divine Ye begin pill concoction again?” Some people immediately asked.

“I don’t know. I’m going back for solitary cultivation. Maybe when I finish solitary cultivation.” Ye Mo’s words disappointed a lot of people making them regret not coming here earlier.

It was normal for a dao actualisation divine emperor to go into solitary cultivation for a few hundred thousand years, who knew when he would come out?

But no one dared to force Ye Mo to concoct pills.

Those divine emperors could only put away their dao fruits.

“Wait...” just when Ye Mo was about to pack up his stall, a heavy voice stopped him. It was a man wearing black robes and a hat.

Ye Mo could tell there was something with this hat. It was a top level stealth magic artefact. What bewildered Ye Mo was that this man's power fluctuated between dao actualisation and dao essence. Ye Mo guessed that this person could reach dao essence at anytime.

You're looking for me?" Ye Mo asked.

The man said heavily "That's right, I have a business deal with you."

Ye Mo nodded "Come in then."

He looked at Mu Xiaoyun "Xiaoyun, come in."

"She stay outside, I came to talk to you alone." The man's voice went cold.

Hearing this, Ye Mo sneered "Then don't talk about it. I'm going." Then Ye Mo packed up the sign. If he didn't feel this man wasn't simple, Ye Mo wouldn't even let him come in.

Chapter 2189 Primordial essence Dusk fruit

This black robed man didn't expect Ye Mo's attitude was this. Seeing Ye Mo start to pack away his sign, he could only say "If you're not scared of exposing it then she can come in. The thing I'm going to discuss will definitely benefit you but if it's exposed, it would bring lethal disaster."

"Sit down and talk." Ye Mo pointed at a chair. He was a bit curious what would benefit him.

The man sat down and took out a jade box onto the table and said "Have a look at this first."

Ye Mo opened the jade box. A powerful world opening primordial essence chi came into his face. Ye Mo's spirit sense saw that it was a faint purple fruit in the jade box.

Ye Mo closed the jade box and looked at this man in shock “This is dao fruit tower level 9 primordial essence dusk fruit?”

Seeing Ye Mo was only a little shocked, the man nodded with approval “That’s right, this is primordial essence dusk fruit.”

This was a primordial essence dao fruit. It could allow a dao essence learn the third step. One of this was invaluable and yet this man could get one. Ye Mo was shocked but Ye Mo wasn’t going to rely on dao fruit to vindicate dao.

“I’ve heard the primordial essence dusk fruit never appeared, how did you get it?” Ye Mo asked. This dao fruit was attractive but not something Ye Mo would do anything for.

The man said “Of course I got it in the dao fruit tower. There’s no wonder that the fruit hasn’t appeared before. There’s a secret in the dao fruit tower. That is those who picked dao fruit in the previous eight levels wouldn’t be able to get to the ninth level no matter how strong they are. So, if you want to pick the ninth level fruit, you must not pick any dao fruit from level one to eight.

Ye Mo realised. No wonder.

“How did you know?” Ye Mo subconsciously asked.

The man said slowly “How I know isn’t important. What’s important is if you’re interested in it or not? If you are we can deal.”

“What do you want?” Ye Mo asked.

“I heard you’re a dao essence pill divine. Did you concoct the cosmic dao pill that appeared in the Void Marketplace before?” The black robed divine emperor asked and seemed a little nervous.

Ye Mo nodded “Indeed.”

"I knew it." The man's face suddenly became excited and then asked "Do you have more cosmic dao pill?"

Then as though fearing Ye Mo would deny he added "The Void Marketplace merchant tower got six and sold it all out. I've been watching you for a while. I know that each cauldron you definitely have more than nine pills. This means that you have more than three cosmic dao pills on you."

"You're planning to use primordial essence dusk fruit to get my cosmic dao pills?" Ye Mo realised but was extremely shocked. One primordial essence dusk fruit was countless times more precious than cosmic dao pill.

This person was about to reach dao essence divine emperor. Was he dumb to do this deal? Ye Mo scanned his spirit sense on this black robed man and moments later, Ye Mo realised. This person probably had some problems breaking through to dao essence. He wasn't dao actualisation nor dao essence. He was in quite an awkward predicament.

If he couldn't solve this problem quickly, his foundation would collapse and he would never be able to progress.

Compared to the Qian Essence fruit, the cosmic dao pill had something more precious. Because it was concocted from cosmic lotus, it had this void space dao wave.

This dao wave would allow the user to remove unnecessary learnings before they learned dao essence dao. It would allow the user's dao to be in this void state and then learn dao essence. The qian essence fruit allowed one to feel the dao essence dao at dao actualisation peak stage level.

This black robed man for some reason learned partial dao essence dao wave before he was ready. This dao wave wasn't something he needed so he needed the cosmic dao pill to remove this unnecessary learning and learn dao essence again.

Realising this, Ye Mo didn't feel strange.

This person was like someone who was about to die of thirst in the desert. If he was to choose between one kg of water and one kg of gold, he would definitely choose water.

The man returned to being calm and said “That’s right. I do want to use the primordial essence dusk fruit to exchange for your cosmic dao pill. Of course, you know the value primordial essence dusk fruit is countless times better than the cosmic dao pill so you need to make some compensations too.”

Ye Mo didn’t speak. If this person wasn’t so desperately after the cosmic dao pill, he would be willing to make some compensations but now he didn’t. Ye Mo wanted to use the primordial essence dusk fruit to trade for one cosmic dao pill.

Seeing Ye Mo not talk, the black robed man said “Give me 10 billion god crystals and 50 dao fruits as well as two cosmic dao pills.”

Ye Mo almost laughed in anger. This guy really dared to ask.

“Don’t you think your request is too absurd?” Ye Mo sneered.

The man said “No, why are primordial essence divine emperors so rare? It’s because they have no fortune. This dao fruit is the fortune. Those who want to become primordial essence divine emperor would pay many times more just to get the dao fruit.”

The man’s tone changed “I know you’re strong but if I spread the word pill divine Ye got a primordial essence dusk fruit do you know the consequences? Even if you don’t have it, those half way primordial essence wouldn’t let you go simply.”

You’re threatening me?” Ye Mo’s tone went cold.

The man didn’t care “If you think I’m threatening you then it is.”

“Oh in that case when I go out I’ll say you have at least two primordial essence dusk fruit. Wouldn’t you be facing greater danger than me?” Ye Mo said.

The black robed man said without fear “Go ahead, no one knows who I am.”

Ye Mo laughed “No one knows who you are? Even if you didn’t care about the first eight levels, not anyone can get into the 9th level. Dao actualisation and want to get to the 9th level. I can’t find anyone else other than top three of god rank. From your looks, I’m guessing you’re Taishu Shi, god rank number one.”

Then, Ye Mo suddenly got up “Perhaps I can go say it now. Leave, I’m going to pack up my stall and promote this news.”

Seeing Ye Mo leave without even looking at the primordial essence dusk fruit, the black robed man was worried. He quickly got up and gritted his teeth “I’ll trade with you. One primordial essence dusk fruit for one cosmic dao pill.”

Ye Mo looked calmly at him “When did I tell you I was going to do that? The primordial essence dusk fruit doesn’t have much use for me. If you want to say I have it then go ahead.”

“Huh...” The black robed man was truly worried this time. Ye Mo didn’t want to take such huge advantage?

The man calmed down quickly. He realised, he was no match for this pill divine Ye in terms of business.

Thinking about this, he said genuinely “I was dao actualisation peak stage and when I entered the 9th level, I was infected by the primordial essence dusk fruit tree’s primordial essence chi. I was automatically going to learn the dao waves. If my foundation wasn’t deep, I would’ve exploded from the dao chi. I’ve suppressed it but I’m now at a state where I can’t reach dao essence. I can only use the cosmic dao pill to remove the messy dao chi.”

It was just as he guessed. Ye Mo thought to himself, this 9th level was so powerful. It seemed that even if he went, he probably couldn’t escape such fate.

Chapter 2190 Battle Half Primordial essence

Ye Mo really didn’t care about the primordial essence dusk fruit. Hearing this, he stopped and said “5 billion god crystals, one primordial essence dusk fruit for one cosmic dao pill.”

Hearing this, the black robed man almost spat blood but he resisted his fury and took out a storage ring and gave the fruit to Ye Mo “Okay, give me the cosmic dao pill.”

Ye Mo checked the god crystals and fruit before giving a jade bottle to the black robed man while saying “Be me moral.”

The man checked the pill and sneered “I know you’re very moral. Perhaps we will meet again and when we meet again,

I hope you can be as moral as today.”

The man said and left Ye Mo’s shop.

“Let’s go.” Ye Mo took Mu Xiaoyun out of the shop and collected his shop magic artefact.

“You’re pill divine Ye?” As soon as Ye Mo packed up the shop, a skinny old man appeared before Ye Mo and Mu Xiaoyun.

Half primordial essence. Ye Mo’s eyes glanced at this old man and saw his power level. Although this person had no dao wave and his eyes seemed very ordinary, Ye Mo knew that this person was one of the half primordial essence who appeared at the auction.

“I am, you’re looking for me?” Ye Mo saluted with his fists and asked calmly.

“I’m Void Marketplace auction Peng Yuwen, I’ve long heard pill divine Ye’s great name. Before, pill divine Ye was doing business so I didn’t dare to disturb but now that you’re free, would you have the time to come sit at my place?” The old man’s tone was rather polite.

Ye Mo recognised this person and knew he had long been here. If it was before the dao fruit tower was open, Ye Mo would go but the most important thing for him now was to leave the Void Marketplace. He wasn’t going to chat with this half primordial essence.

Ye Mo immediately finished “Thank you for your invite immortal friends Peng but I have someone waiting for me. After I’m done with that I’ll come visit immortal friends Peng.”

Then he added “I’ll be going first immortal friends Peng, I believe we will be seeing again soon.”

Then, Ye Mo pulled Mu Xiaoyun and left the dao fruit tower square. He didn’t want to talk to Peng Yuwen as he definitely didn’t have good business coming to find him. This guy seemed even stronger than Kong Han divine emperor. At the same time, Ye Mo knew that the people from shadow void castle was here. Him selling Great Primordial God Rune dao fruit there could be exposed at any time.

Ye Mo was ready to fight with Peng Yuwen when he left. He was thinking that if Peng Yuwen wanted to force him, he would fight him.

Seeing Ye Mo ran before he could even answer, Peng Yuwen’s face sunk. He had never seen such a cocky dao actualisation divine emperor. He was going to charge up to him and stop him.

“Immortal friends Peng wait...” A pale faced man who looked like he drowned to death stopped Peng Yuwen.

Peng Yuwen was going to rage but when he saw this person, his face paused for a moment and he said “Immortal friends Shen, what do you mean?”

This person was aquarius half primordial essence and was no weaker than him. He had the aquarius race behind him.

The man said with a coarse voice “Immortal friends Peng listen to me. Ye Mo is a big enemy of the aquarius race. He killed more than 100 of our divine emperors. If I can’t bring him back to the aquarius race, I won’t be able to report back.”

Peng Yuwen’s face eased up a bit. Clearly, he already knew this. He also knew that the reason this aquarius half primordial essence prepared to attack now was for Ye Mo to help them collect dao fruit.

As though knowing what Peng Yuwen thought, the half primordial essence said “I know why immortal friends Peng is after Ye Mo. Ye Mo stayed here for half a day but I think he has more than 200 dao fruits. I, Shen Weichi, promise that if immortal friends Peng don’t stop me from getting revenge I will give you 100 dao fruits.”

He then looked at another half primordial essence who was leaving the square and said “Of course, brother Peng needs to help me stop that Luo Junxia so I can go attack.”

“No problem.” Peng Yuwen instantly agreed. He only needed to stop Luo Junxia and could get 100 dao fruits. This was too worth.

Now, the aquarius race would take the risk and he just needed to get rich. How could he reject this.

Kong Han saw Luo Junxia, Peng Yuwen and the aquarius divine emperor chase after Ye Mo and sneered. If Ye Mo was that easily robbed, could he survive till now?

Tian Rui divine emperor didn’t even look. He just watched the stalls for dao fruits. If there was a dao fruit he needed, he would immediately go up to discuss.

“Xiaoyun, I’ll send you into the Golden Page World first.” Ye Mo said as soon as he left the Void Marketplace. He knew that aquarius race half primordial essence wouldn’t let him go easily.

Mu Xiaoyun didn’t know the exact situation but she knew that there was someone after them. She had to stay in the Golden Page World as she was too weak.

Without Mu Xiaoyun, Ye Mo’s space time boat sliced across the void. It went faster and faster. He was choosing the direction to enter the abyssal race.

In less than a day, Ye Mo’s spirit sense noticed a faint light. Ye Mo knew that it was the aquarius half primordial essence.

It was normal that a half primordial essence could chase up. How could a half primordial essence not have extreme grade flying god artefact? Ye Mo felt it was a pity. He didn’t have enough time. If he had

enough time, he would definitely set up a formation first. Although he wasn't scared of half primordial essence, it didn't mean he could definitely beat them.

A barren planet appeared in Ye Mo's spirit sense. This planet didn't even have an atmosphere. It floated in the void more like a huge asteroid.

Ye Mo landed on this planet immediately and threw down a few formation flags. He would use anything he could to fight a half primordial essence.

He didn't even finish half the formation and the half primordial essence landed on this planet as well.

Ye Mo released Zi Xu and stared at this half primordial essence. His face was pale.

"Do you know why I didn't kill you immediately? Because I know you're a dao essence pill divine and you can even concoct extreme grade cosmic dao pill." The divine emperor stared at Ye Mo for a while and said slowly. "Give up and surrender. I won't kill you. The aquarius race needs a pill divine. You can stay in our race to concoct pills to make up for your sins."

"Eat my sword first before you ramble on." Zi Xu suddenly waved out a 300km long purple ray and hacked over. This was sword god art shatter space.

An even brighter water color suddenly appeared before the purple sword ray and smashed together.

Thud. Water colour splashed apart and purple sword ray was broken.

Powerful god essence backlash and terrifying void power came. Ye Mo felt his chest go heavy. It was as though he was struck by a huge hammer and sent flying. That water colour light that splashed tore open Ye Mo's realm domain and smashed at where Ye Mo was.

Explosion sounded. A little less than half of this barren planet was destroyed. The formation flags Ye Mo set up before were completely pulverised too.

Ye Mo landed in one corner of this planet. His god essence was still messy. He didn't expect a half primordial essence to be this strong. If this person was a primordial essence divine emperor, wouldn't that mean he would just die? He didn't even see what magic artefact this divine emperor used.

"No wonder you can kill our aquarius divine emperor. You have some power indeed. You broke free from my realm domain. In that case, take another hit." The divine emperor released his magic artefact again. This time, Ye Mo saw clearly, it was an ordinary white ruler.
