Chapter 2191 Terrifying Monk

When he attacked again, the aquarius divine emperor's heart was on fire. He was certain that Ye Mo's sword was a Primordial Spirit Artefact. Otherwise, Ye Mo would be heavily injured just then. Not only that, Ye Mo's strike struck ripples in such solid void.

If this wasn't a Primordial Spirit Artefact, how could it do this?

At the same time, he released Zi Xu again. The sword ray wasn't as vibrant as before. It was only around 300m long but it was twisted. This time, Ye Mo attacked with full force. This was a sword god art even he couldn't control. Falling mark sword rune.

Ye Mo knew how terrifying his falling mark sword rune was now. if he couldn't control it, this sword rune might backlash him. But Ye Mo was facing a half primordial essence. If he held back it was suicide.

"Hmm..." This half primordial essence immediately felt Ye Mo's falling mark sword rune. He could immediately tell it was related to Great Primordial God Rune.

After realising that Ye Mo knew Great Primordial God Rune, he was instead very happy. He knew that Great Primordial God Rune could be passed down. If it really was Great Primordial God Rune, then even if Ye Mo was a pill divine, he would still kill Ye Mo. The Great Primordial God Rune was no small matter. Even he could resist his desires for it.

The 300m long twisted sword rune swept the entire void. This sword rune seemed much smaller than the one before but the lethal force was bigger than the three hundred km long purple sword ray. The void was instantly bound by the god rune and this soul piercing destructive killing intent pierced everything.

The half primordial essence who didn't consider Ye Mo to be much of a threat was shocked and scared after seeing the twisted sword rune. At this moment, he felt the sword rune set gaze on all over his body.

At this moment, the aquarius divine emperor's white ruler turned into this heavenly screen that was going to block the destructive sword rune out.

Ye Mo was shaking all over his body. The half primordial essence didn't give him this feeling. He felt that he couldn't control this sword rune. This sword rune was too scary. Ye Mo was certain that if he could master it he only needed to use instant second and then Golden Arrow of Divine Extermination and he would definitely be able to kill this half primordial essence.

However, he couldn't control this god art much less use other god art. Ye Mo really wanted to keep using this sword rune but he knew that if he continued, his mind would be torn.

He was only a dao actualisation divine emperor but he knew a god art far beyond that of dao actualisation divine emperor. Yet, his Zi Xu could release such god art.

When there was cracking sounds in Ye Mo's sea of consciousness, Ye Mo no longer dared to let this sword rune rampage. He forcefully stopped the destructive lethal force of the sword rune. He knew that if this continued, he would definitely be able to kill his half primordial essence. He didn't even need to use Golden Arrow of Divine Extermination. At the same time, he knew that after killing this half primordial essence, he would be backlashed by this sword rune. Even if he didn't die, his sea of consciousness would explode. He would become an idiot.

Rumble.

When the sword rune clashed with the white screen, cracks appeared in the surrounding void. Ye Mo's clothes shattered and his sea of consciousness made cracking sounds.

The powerful god essence backlash sent Ye Mo flying. The broken planet could no longer handle such power and was destroyed.

The half primordial essence spat many mouthfuls of blood and his clothes were completely torn. He was covered in blood. Clearly, he was injured more.

Ye Mo forced down the pain in his sea of consciousness and was about to release the Golden Arrow of Divine Extermination when he heard a furious roar “Who destroyed my house. I’m going to kill you bastard...”

Ye Mo saw that amidst the pieces of the planet a monk emitting golden light around his body shot out. he had no clothes but the golden light wrapped him. The half primordial essence was closer to him than Ye Mo. Ye Mo saw this monk grab at the half primordial essence and roared “I’m going to crush you insect, how dare you destroy my house...”

Ye Mo wasn’t shocked that this monk was hiding in this barren planet. He often did that too. However, Ye Mo was shocked that this monk easily grabbed this half primordial essence like an insect. The half primordial essence couldn’t resist at all.

Ye Mo didn’t dare to stop at all now. He swept up some dark ray and disappeared into the void. The instant he went in, he saw the half primordial essence getting crushed to pieces.

“Hmm, a mere dao actualisation dares to run? Do you think my head is still clumsy?” The monk’s hand loosened and the half primordial essence’s storage ring and small world was taken. Everything else completely disappeared.

The monk grabbed at the direction Ye Mo went. A huge crack appeared in the void. The monk stepped in immediately but then he murmured “This kid is really cunning but don’t even think about running from me.”

He was in no rush to grab Ye Mo. Instead, he took out some materials from the storage ring and they instantly turned into a complete set of buddhist robes.

When Ye Mo went into the crack, he felt like his sea of consciousness was going to explode. Ye Mo ate a few spirit sense recovery pills and hacked out Zi Xu. Another crevice appeared in the void and Ye Mo charged in without hesitation.

Ye Mo kept hacking at the void with Zi Xu and going in. he was extremely experienced at running. He knew that for someone who could crush a half primordial essence with one hand, even if he used all his means, he wouldn’t be able to hurt this guy at all.

Ye Mo didn't like the feeling of his life being controlled by someone else. His only line of life was to run away before that person could react. He couldn't escape in the same realm. He had to keep tearing open the void.

In the shortest time, he opened more than ten voids. Ye Mo felt his sea of consciousness was almost about to explode. He knew he couldn't keep doing this anymore. He didn't know what sort of void he was in right now. When he saw an asteroid group fly over, Ye Mo stuck onto one without hesitation and entered the Golden Page World.

The Golden Page World seeped into the asteroid and disappeared into the endless dark void.

At this moment, that monk had put on Buddhist robes. He patted his sleeves and said in contempt "I want to see how a mere dao actualisation can escape to? How dare you destroy my house..."

However, before he finished, his face changed. His spirit sense pierced many void realms but didn't find any signs of Ye Mo.

"He got away?" This monk said in shock and then suddenly tore the space next to him and stepped in. He scanned out with his spirit sense again.

The reason he wasn't scared of Ye Mo getting away was because his spirit sense could piece more than ten void realms. Even if Ye Mo used magic artefact to tear open the void, Ye Mo wouldn't be able to escape his spirit sense range in a short time. But now, Ye Mo really was gone.

"I could tell you were a slippery one. Count yourself lucky today. I can't be bothered wasting my time on a slippery eel like you. I have business to do but what a waste of a good sword." The monk said and disappeared.

Three days later, Ye Mo came out of the Golden Page World but his sea of consciousness still hadn't recovered but with the chaos tree, he was much better than before.

Ye Mo didn't feel too much danger coming out but he didn't dare to be careless. He released Zi Xu and dashed away. Ye Mo guessed that monk was probably a primordial essence divine emperor. Only a primordial essence divine emperor would be this terrifying.

A primordial essence divine emperor would have no trouble tearing open void. How would Ye Mo dare to stay here?

Plus Ye Mo didn't know where he was right now.

Chapter 2192 How Time Have Passed

Three years later, Ye Mo stopped. He didn't know how many voids he had tom but he knew he was at the lowest level realm right now.

Ye Mo knew that if he went around randomly like this then he would get nowhere even in three thousand years. Qiao He's Guang Yuan palace location bead was powerful but it couldn't locate it through countless realms.

For such low level realm void, Ye Mo believed that when his sea of consciousness completely recovered, his spirit sense would be able to easily pierce the realms.

He would recover his sea of consciousness first. Ye Mo chose another asteroid and controlled the Golden Page World to go in.

What Ye Mo didn't expect was that when he tried to use dark weed to repair his sea of consciousness directly, it was better than using corner soul weed pill. Ye Mo rejoiced like crazy. His sea of consciousness rarely had sustained such injuries before. Usually, it would recover with some pills.

But this time, his sea of consciousness was injured so heavily not due to the half primordial essence but because he used Zi Xu to use a god art beyond his capabilities.

The dark weed started to repair his sea of consciousness. Ye Mo felt the chaos tree emit endless life force to support the dark weed in the reparation process. Ye Mo felt that as his sea of consciousness was repaired, there was significant change. His sea of consciousness seemed to be forming a new world.

Ye Mo suddenly started to use the spirit will nine transformations.

His sea of consciousness was covered and a whole new world appeared in Ye Mo's will. The chaos tree suddenly moved to the sea of consciousness.

His spirit sense multiplied like crazy. His sea of consciousness world rapidly completed. When the last crevice was filled, Ye Mo could sense this extremely powerful joyful feeling. His spirit sense was even easier to use.

"spirit will nine transformations went through nirvana?" Ye Mo murmured to himself.

A year later, Ye Mo's sea of consciousness completely recovered and his spirit will nine transformations reached sixth transformation nirvana. His sea of consciousness expanded like crazy and his spirit sense became stronger. Ye Mo then greeted Mu Xiaoyun and left the Golden Page World confidently.

Ye Mo scanned his spirit sense out in the void. He wanted to know if his powerful spirit sense could yet penetrate low level void realms.

When his spirit sense saw things his eyes couldn't see, Ye Mo knew that his spirit sense could barely penetrate a realm here.

If it was before he saw the golden monk, Ye Mo would be joyful but now Ye Mo knew this was nothing. There were many people stronger than him in the vast universe.

And, he knew that his spirit sense was penetrating the weakest realm. This void was countless times weaker than even the void realm of the cultivation realm.

"Cosmos?" when Ye Mo saw cosmos in his spirit sense, he immediately rejoiced. Cosmos was different to void. There were countless planets in the cosmos and this meant the existence of life.

Ye Mo immediately tore open this void realm and appeared in the cosmos. Countless planets appeared in his sea of consciousness. Most of them were lifeless planets.

In this cosmos, there was no god spirit chi nor immortal spirit chi. Even spirit chi was extremely scarce.

Ye Mo scanned his spirit sense out slowly and when he saw the Moon, he became very excited. The next moment, he saw Earth. Ye Mo didn't expect that after tearing through countless voids, he didn't find the abyssal realm but came back to Earth.

This was Earth a few hundred years later, it had undergone huge change.

Ye Mo immediately called out Xiaoyun. Xiaoyun had never been to Earth. He was going to take her to see. Even though it had changed, it was still where he once lived.

"Husband, we're in the cosmos? The spirit chi is so scarce here." Mu Xiaoyun asked in surprise.

Ye Mo sighed "I'll take you to see where I lived before. A few hundred years passed. I've really never expected I could come back here."

Mu Xiaoyun reacted and asked in surprise and joy "Husband, we're at Earth?"

Ye Mo nodded "Not yet but soon."

A few hundred years.

Ning Hai city still had its name but the entire city was much prettier than before. Ye Mo took Mu Xiaoyun to the house he lived in before. It had become a square and the house he lived at before became a tourist spot.

There were some tourists taking photos inside and eating at the stalls outside.

"Husband, you used to live here?" Mu Xiaoyun looked at this small house and asked.

Ye Mo nodded "Yes, this place left me with many memories."

He thought of Qingxue and then Susu. Since he was here, it would be very easy to go back to Luo Yue. Then, he would take Qingxue, Luo Ying and everyone to the immortal realm.

But soon, his eyes dimmed down and sighed.

“What’s wrong husband?” Mu Xiaoyun asked.

“The place is still here but the people are not.” Ye Mo exclaimed.

Mu Xiaoyun held Ye Mo’s hands and said softly “Husband, sister Qingxue and Luo Ying are all at Mo Yue city. Don’t worry. Perhaps they have ascended to the immortal realm already.”

Ye Mo shook his head “I’m not talking about them. Let’s go. I’ll take you to Luo Yue city.”

Ye Mo’s spirit sense scanned to Luo Yue city. It was still extremely pretty but Ye Mo saw no familiar person. When he left Luo City city, he set up large spirit gathering formation and left behind many pills and spirit stones. But today, there was no one there. They either left the city or had passed away.

It was due to this that Ye Mo felt extremely sad. No matter how powerful he was and how powerful his fortunes were, it would eventually turn to dust in the wake of time. One day, once he grasped time law in his hands would he be truly eternal.

Ye Mo finally realised now why time law was the strongest law.

“Hmm...” Ye Mo said in surprise.

“What did you see?” Mu Xiaoyun asked.

Ye Mo smiled “Someone familiar, let’s go see.”

“Perhaps I really am going.” A middle aged woman stood at the peak of a snowy mountain and murmured.

She had spent a few hundred years in the Mei Nei snow mountains here. Compared to other places, this place had more spirit chi. But despite this, she knew she had to leave.

If Ning Sishuang didn’t leave her some spirit stones despite their conflict, she would definitely not be able to reach nascent soul state. But in this place, she was the only nascent soul cultivator. She couldn’t even find someone to talk to. She couldn’t even go back to the Chu family. The family would think she’s a monster.

“Sigh...” The woman felt she was too shameless when she did those things to Ye Mo for cultivation.

As her cultivation level progressed, her life views were changing. She had lived a few hundred years and seen many changes and ages but so what? She was still alone here.

Ning Sishuang told her to go Luo Yue city but she didn’t have the face to go.

“Chudan, I didn’t expect you could reach nascent soul in such a spirit chi arid place.” Ye Mo’s voice sounded behind her.

The woman suddenly turned around and looked with extreme shock. She even forgot to use spirit sense. Even though she was just nascent soul primary stage, who on Earth could appear behind her without her noticing.

“Brother Ye...” This woman knelt down without hesitation. If it was before, she would definitely think she was stronger than Ye Mo but now she knew that even if she cultivated for a few lifetimes, she wouldn’t be able to catch up to Ye Mo.

This woman was Chu Dan, the one who used Chu family’s dragon gate disk to get cultivation resources from Ye Mo.

To be honest, Ye Mo looked down on her. But Ye Mo didn't want to bring this up anymore. After all, she was the only familiar person on Earth now.

Chapter 2193 Past people no longer here

Ye Mo didn't even lift his hand and Chu Dan felt a power lift her up. She quickly stood up not daring to talk. She was guessing if this extremely beautiful woman next to Ye Mo was Ni Sishuang's sister Ning Qingxue. She felt ashamed of herself.

"It was quite hard of you to reach nascent soul state in such a place." Ye Mo sighed.

Chu Dan quickly said "That's because Sishuang pitied me and helped me a lot. Even my storage ring is given by her." "Where is Sishuang? How come I don't see her?" Ye Mo was planning to find Ning Sishuang.

"Sishuang told me Luo Yue city didn't have enough cultivation resources. She was going to the small world and enter Luo Yue continent from there."

But Ye Mo felt curious. The Duan Heng ranges teleportation formation was broken. How did people go to the small world?

Chu Dan said "Sishuang and them used a subtle teleportation formation to enter the small world. It's said that the formation was found by brother Ye's friend Wu Dao. Wu Dao told Sishuang and them."

"Is Wu Dao monk still alive?" Ye Mo was extremely shocked. Wu Dao was no cultivator, he was a martial artist.

Chu Dan answered "Wu Dao reached real great heaven state and went to Luo Yue city to find you but he couldn't so he could only go to Sishuang. Thinking he was your friend, Sishuang gave him a jade slip and told Wudao how to check it. However, Wu Dao's talent was very absurd. In just a few decades, he used the cultivation method to write a martial cultivation method. A hundred years later, he used it to reach a higher level."

Hearing this, Ye Mo quite admired Wu Dao. His talent was terrifying. He wrote his own cultivation method and broke through.

Chu Dan continued "Then, he roamed the world and found that teleportation formation. He knew it was a teleportation formation and then went to Luo Yue to find Sishuang. Sishuang was the strongest person in Luo Yue city at the time. She was also experienced in formation. She went with Wudao to that teleportation formation. The teleportation formation was broken but Sishuang managed to repair it."

Ye Mo breathed easy and asked "So you're saying Sishuang and them went to the small world?"

Chu Dan nodded "Not everyone went, only some. Sishuang said that the reason the formation was broken was due to using bad quality spirit stones to power it. Sishuang also said that it had become a single direction teleportation formation as the other side didn't have any resonance."

"This means that there's always people using that teleportation formation?" Ye Mo asked and then before Chu Dan answered he said "I understand."

He realised. It was Yun Ziyi's Magical Continent Merchant association that used it frequently.

Her father Yun Dongxia used low grade spirit stones to power the teleportation formation. He didn't expect Ning Sishuang's formation talent was this powerful. Although the small world was close to Earth, it wasn't easy to repair such formation.

Ye Mo sighed. He knew that only some people went as most people were at their age limit. Not everyone could reach golden core state. That way, their life would be limited.

"What do you plan to do?" Ye Mo looked at Chu Dan and asked. He didn't understand why she didn't leave with Ning Sishuang.

Chu Dan looked down and said "After I reached foundation establishment, my mindset was completely different to before. When I saw my kins leave me one by one, I felt very bad. I wanted to stay here with them more. Years passed like that.

Eventually, I really had no spirit stones left. If I keep staying here, I really might not be able to leave. Then, I went to the teleportation formation. I found that there was more problems with it. I don't understand formation so I can only stay and study formation. Even now, I have no confidence in leaving but I know I have to leave."

Ye Mo took out a storage ring to Chu Dan and said "There's some spirit stones and immortal crystals as well as pills and cultivation method. Keep it. I'll send you to the small world first. There's a teleportation formation at Xin Jia mountain that can teleport you to Luo Yue continent."

"Huh, immortal crystals..." Chu Dan's hands were shaking.

She realised that if she still had the same mentality as before, Ye Mo would leave after just a few words. He would definitely not leave a storage ring like this.

Ye Mo had immortal crystals. Without a doubt, he was an immortal.

"Thank you brother Ye, thank you sister..." Chu Dan quickly bowed to Ye Mo and Mu Xiaoyun.

Ye Mo waved his hand "I'll send you to the small world but I need to remind you there's really danger everywhere on Luo Yue continent. You would be ambushed if you're not careful. If you feel cultivation is hard you can go to Mo Yue city. It's a cultivation city I built."

"Okay, thank you brother Ye, I'll remember that." Chu Dan said. She was shocked that Ye Mo actually built a city in the cultivation realm. How much power would that need? Did he come back to the cultivation realm after ascending? From what she learned from Ning Sishuang, immortals who ascended can never come back to the cultivation realm due to world laws.

World law suppression? She looked at Ye Mo in shock. How come he looked completely fine? The realm here was lower than the cultivation realm, the suppression should be greater.

"What's wrong?" Ye Mo asked seeing Chu Dan looking at him in shock.

Chu Dan quickly said "Nothing."

Moments later, she couldn't resist asking "Brother Ye, I heard immortals would be suppressed by world laws when they came back to the cultivation realm. Since brother Ye has immortal crystals, you're clearly... then how..."

Ye Mo smiled "You're right but once your cultivation level reaches a certain level, this suppression is nothing."

Ye Mo was dao actualisation peak stage peak. In a place like Earth, he has fused as one with the world. How could he be scared of law suppression.

However, Mu Xiaoyun needed to stay by Ye Mo. Ye Mo's dao waves would protect her. Otherwise, Mu Xiaoyun wouldn't be able to stay here. She would break the world laws.

"So that's it, I understand." Chu Dan sighed but didn't dare to ask Ye Mo's cultivation level.

Seeing Chu Dan not ask anymore questions, Ye Mo said "When do you leave here?"

"I can leave now." Chu Dan answered.

"Good..." Ye Mo grabbed and a dark crevice appeared before Chu Dan.

Chu Dan immediately called out in shock "This is tearing open the void..."

Ye Mo didn't answer and grabbed her with god essence giant hand and sent her into the crevice while saying "I'm sending you to Xin Jia mountain. When you land, you can use spirit stones to activate the teleportation formation to Luo Yue continent..."

Ye Mo's voice disappeared while Chu Dan appeared at the outskirts of a mountain range. When she saw the words Xin Jia mountain, the crack in the space disappeared.

Chapter 2194 Must Not Lose Oneself

Ye Mo wanted to take Mu Xiaoyun to Luo Yue city but suddenly, he felt something and swiped in the void.

An old looking Daoist appeared before Ye Mo and Mu Xiaoyun. He carried a simple bamboo back pack.

Ye Mo didn't feel it was strange to see Tian Ze here. Many confusions became clear with the appearance of him here. He was certain he had seen Tian Ze at Luo Yue continent before.

Mu Xiaoyun called out in shock "Tian Ze master..."

This old taoist had been to her house and told her fortune.

"Haha, last time I said your luck was quite good. It had only been a few years and you're already immortal friends. Not bad not bad." Tian Ze laughed.

Mu Xiaoyun quickly bowed "Thank you for telling my fortune qian bei. Wan bei still has something to ask qian bei. Did qian bei know that wan bei's husband will be husband or did you predict that my husband's surname would be Ye?"

Tian Ze clearly knew what she meant and laughed "Your husband is Ye Mo not that Ye Houshen. You're quite nourishing of your husband. Your husband got quite a lot of benefits due to you." Please visit on our

Hearing this, Ye Mo thought. Mu Xiaoyun was pure wood spirit root. Was it not purely due to the Golden Page World that the bitter bamboo and Yellow Middle Plum recognised him as master? Was it also due to Mu Xiaoyun?

Thank you qian bei." Mu Xiaoyun said.

Ye Mo also guessed that the stone stool was purposely left to him by Tian Ze. He thought of the words Tian Ze said the first time he spoke with him "Other than chaos world, there's actually a fortune I couldn't tell. Impossible..."

Then, Tian Ze left meaning that he knew he had chaos world. He didn't even take the stone stool clearly not because he forgot about it but because he left it for him. A powerful being like him didn't rob his chaos world and instead left the five element stool to him. One could see that master Tian Ze is definitely deserving of respect.

Thank you for telling my fortune too." Ye Mo bowed and thanked.

Ye Mo was confused that he still couldn't see through master Tian Ze's cultivation level. It was just like before. Tian Ze seemed like an ordinary man.

Tian Ze nodded "You didn't disappoint me. I believe you repaired the passage from the immortal realm to the Divine Dao Realm right? To be able to do that, it means your cultivation level is at least about dao moulding divine emperor."

"Wan bei is just one step from dao essence. Tian Ze qian bei, how come I can't see your cultivation level?" Ye Mo asked.

Tian Ze said casually "I have no dao foundation. In some years, I will be returning to dust. This world is yours. My only hope is that someone can repair the Divine Dao Realm and rebuild the glory of the human race. You're the person with the most absurd fortune I've seen. Perhaps one day you can repair Divine Dao Realm and lead the human race to glory."

"Qian bei, wan bei has chaos..."

Ye Mo wanted Tian Ze to enter his chaos world and take him from Earth. However, Tian Ze interrupted "This place is very nice. I often go out to tell fortunes. It's enough to feed me. Don't waste what I gave you and don't waste what you already have. No matter what cultivation level you reach, you can be prideful but you must not lose yourself..."

"Yes, wan bei will remember this." Ye Mo said.

Master Tian Ze laughed and said "Don't ask about my past and don't worry about my future. The future is yours. I'm going. If one day you perfect the Divine Dao Broken Realm and I'm still alive, perhaps you can see me again."

Tian Ze said and disappeared from Ye Mo. He never asked Ye Mo for a dao fruit nor crystal. Ye Mo wanted to give him but Tian Ze stopped him before he could even say it.

Ye Mo didn't use spirit sense to check where Tian Ze left. He only had respect for Tian Ze. Mu Xiaoyun and him looked at the direction Tian Ze disappeared and stood for a day before leaving.

Luo Yue city was still the same but more prosperous than before.

Luo Yue lake was still the same but it was covered by formation. Tourists could only tour on the outside. Ye Mo took Mu Xiaoyun past the formation and came inside.

"Husband I see your room. There's a jade slip and storage ring inside." Mu Xiaoyun's spirit sense scanned in immediately.

Ye Mo saw his room too.

Ye Mo picked up the jade slip and looked in.

"Brother in law, I'm Sishuang. I was able to wait till you came so we're going to Luo Yue continent. There's aunty Mu An, uncle Guo Qi, uncle Li Sandao, Ning Feifei and Wu Dao qian bei. My parents have passed away. Tang Qianping, Huang Yinian city lord, Lu Lin aunty, uncle Fang Wei, Yu Miaodan, Shen Qianqian and uncle Shi Xiu had all passed away..."

I don't know if brother in law can see this jade slip. I know those uncles and aunties are brother in law's best friends. Brother in law would be very sad to see this jade slip. Death is inevitable in life, this is the natural law. Don't be too sad brother in law..."

Ye Mo rubbed his wet eyes. How could he not understand this logic. Those people were his right arms. They sweated for the construction of Luo Yue but now, only he was left.

Mu Xiaoyun's spirit sense scanned in. she felt Ye Mo's sadness and held his hands "Husband, we'll go to their graves and see."

Ye Mo's spirit sense scanned to a public graveyard next to Luo Yue lake. There was formation protecting it but it was built to be very pretty and grand.

"Brother in law, inside the storage ring are things dad and mum left for my sister. A part of it is what aunty Tang Qianping left for sister Wanqing. We left from the teleportation formation in Mei Nei snow mountains. Don't worry about us. We'll soon be able to find brother in law and sister.

By the way. Not long after you came back last time, a woman called Wen Dong came and brought some things to brother in law. I was scared it would be lost so I kept it with me. When I see brother in law I will give it to you. There's also another woman called An Ning. She lives in Luo Yue city and she came to find brother in law. Hearing that you weren't here, she said if brother in law sees her little sister An Zhiqi, please look after her..."

Ye Mo was lost in thought. He seemed to see Wen Dong wearing shades...

At the same time, An Ning and An Zhiqi floated before his eyes as well as Shi Xiu whom he got along with the most and his brother Ye Xing who was nowhere to be seen.

After a few hundred years, these scenes cleared up before him. Ye Mo sighed. He felt he was too careless. Last time when he came back and didn't find Wen Dong, he really thought she didn't exist.

Putting these away, Ye Mo took Mu Xiaoyun to the graveyard and took out some immortal flowers and bowed.

Those were his kin, friends and brothers...

Even though he was a dao vindication divine emperor, there were still many things he couldn't control.

"Husband..." Mu Xiaoyun called worriedly.

Ye Mo came back to his senses and held Mu Xiaoyun's hands and said softly "Let's go."

Chapter 2195 Go Down To The Abyss, Find

In the small world, outside the Liang Ji valley, Mu Xiaoyun pointed “Husband, I was taken by elder Feng from here.”

Ye Mo cursed “I should’ve checked nearby.”

Mu Xiaoyun said softly “Husband couldn’t do that before. Your spirit sense wasn’t that strong before.”

“Let’s go visit Ice Lake?” Ye Mo thought about the tablet Xiaoyun left at the Ice Lake and sighed.

Mu Xiaoyun shook her head “I don’t want to go back. Let’s go to Luo Yue continent, do we teleport over?”

Yes, my spirit sense can’t cross the void realm of the cultivation realm but we can use Xin Jia mountain to teleport to Luo Yue continent.”

Five minutes later, Ye Mo stood on the teleportation formation at Xin Jia mountain. Mu Xiaoyun stayed in the Golden Page World.

The teleportation formation had been protected by constructions. However, the spirit chi here had been used up. Without top grade spirit stones, the teleportation formation wouldn’t be able to be used.

Ye Mo glanced at the formation and knew that the recent uses were probably by Ning Sishuang and Chu Dan.

Ye Mo put down a few spirit stones and a light barrier activated from the teleportation formation sweeping Ye Mo away.

Ye Mo’s spirit sense could clearly feel the space changing. He could even leave the teleportation whenever he wanted without being affected.

“This is shadow swamp valley, this isn’t Luo Yue continent.” A faint bleak chi came over and Ye Mo immediately knew this was Shen Qiong continent.

The two continents were very close. It was no problem for Ye Mo to get over there.

Ye Mo’s spirit sense scanned to Lotus Glory Sect Guang Jie. He also saw Hao Qiongying and You Heyi. Even Liu Zhai was body condensation state cultivator. Guang Jie was truth realisation state peak stage. She could ascend to the immortal realm at anytime. Ye Mo was very happy. Since he was here, he planned to take Mu Xiaoyun to Lotus Glory sect to see. At this moment, his spirit sense broke open the realm of the shadow swamp valley.

Abyssal realm?

In this dark and grey world, there was just dull grey sand. Ye Mo was very excited. If Chi Wanqing entered the abyssal realm, she would’ve definitely entered from here. Going to find Chi Wanqing’s soul from here was much more reliable than the jade slip Cao Ze gave him.

Ye Mo no longer had the mood to go Lotus Glory sect. He took out a formation disk and a storage ring and crossed countless space and placed it before Guang Jie. He left a last word before tearing open the world to abyssal realm.

Ever since Ye Mo came to Shen Qiong continent, the Lotus Glory sect was at its prime. It had become the number one sect of Shen Qiong continent.

Guang Jie was very happy with the current Lotus Glory sect. She could ascend to the immortal realm. Due to Ye Mo’s relationship, she became the dominating truth realisation state elder of the sect.

She was having a sect meeting right now. there was only truth realisation states present. At this moment, a essence chi giant hand suddenly appeared in the palace.

This shocked everyone and they all wanted to get up.

“Wait..” Guang Jie felt a sense of familiarity. She knew this essence chi giant hand belonged to Ye Mo. She quickly got up and said.

A formation disk and storage ring was placed before Guang Jie while Ye Mo’s voice sounded “I don’t have time to come to Lotus Glory sect. This formation disk will be Lotus Glory sect’s sect protection formation disk. The things inside the storage ring are payoff for Xiaoyun’s cultivation resource. Xiaoyun is with me now. We don’t have time to come back. I’ll say hello to everyone for Xiaoyun. Liu Zhai is Wanqing’s friend, please take care of her elder Guang Jie. At the same time, congratulations on your impending ascension to the immortal realm. I have a sect in Gong Hua heaven called Mo Yue immortal sect. If Guang Jie can’t find a sect, you can go to my sect first...”

Then, Ye Mo’s voice faded away.

“It’s Ye qian bei...”

“Ye qian bei...”

Ye Mo’s voice sounded and almost all the truth realisation states got up in surprise and joy. They all bowed towards the storage ring and formation disk left by Ye Mo.

Guang Jie couldn’t control her excitement. She didn’t expect to finally hear Ye Mo’s voice before she ascended to the immortal realm. Although Ye Mo didn’t come personally, his voice came.

The dark grey sand extended out from his feet. It was extremely messy and boundless. Even with Ye Mo’s powerful spirit sense, he couldn’t see an end.

Some low level souls felt Ye Mo’s spirit sense and hid on the side timidly.

A powerful suppression came. Ye Mo could feel his cultivation level seep away rapidly. It not only suppressed his cultivation level but the law was so powerful that he would be pushed away if he wasn’t careful. Ye Mo was certain even half primordial essence wouldn’t be able to stay here.

He used his body as the dao foundation to fuse with chaos and vindicate the chaos dao. Yet, even such a powerful dao almost made him unable to stay. Ye Mo desperately used Three Birth Chant. Even the chaos tree helped Ye Mo fuse with the world law here.

Soon, Ye Mo felt his cultivation level stabilise before regaining his lost cultivation level. The world laws he didn't know before were gradually felt by him.

Ye Mo breathed easy and took out the map Cao Ze gave him. He found there was nothing similar to here on the map.

Ye Mo wasn't too disappointed. He didn't rely on Cao Ze at all. Perhaps this guy just wanted to kill him, how could he give the complete abyssal realm map to him.

Ye Mo's spirit sense expanded out. Ye Mo believed that if he came in contact with Wanqing's soul, the familiarity would allow him to recognise her immediately.

Ye Mo's spirit sense scanned a radius for a few million kms but still found no trace of her soul. Ye Mo's spirit sense could reach further but he didn't do this. That might make him miss important information. If he wasn't too careless when he went back to Earth, he wouldn't have not found Wen Dong.

Ye Mo kept going forward. A few days later, Ye Mo stopped at a dark desert.

This desert was boundless too and filled with numb souls. Some were even starting to cripple. Ye Mo realised that even if souls went into the abyssal realm, they might cripple.

Ye Mo felt melancholic. Wanqing was only golden core state when she died. How could a golden core state soul last a few hundred years here?

A dark robed cultivator suddenly appeared in one corner of the desert.

Ye Mo had never seen beings with bodies. He had only seen souls in the abyssal realm but this cultivator had a complete body.

Ye Mo immediately could tell this cultivator cultivated yin cultivation method and he was truth realisation state.

Ye Mo crossed tens of thousands of km with one step and came before this black robed cultivator.

Chapter 2196 World Mountain

This dark robed cultivator wore dark cultivator robes and was circulated with dark chi. However, the difference between their power was too great. When Ye Mo stopped in front of him, he suddenly realised that there was someone in front of him.

“Qian bei...” This black robed cultivator said shakily. Even though Ye Mo didn’t exert any pressure, he could feel Ye Mo was countless times stronger than him.

“Where did you come from, what are you doing here?” Ye Mo asked. His spirit sense saw that the black robed cultivator’s bag, it was filled with all sorts of souls. Some of them were rather condensed and conscious.

Not all souls that were here had no conscious. Many souls wanted to use the abyssal realm to enter their next life so they came here.

This cultivator just collected conscious souls clearly so he could turn them into soul artefacts. Ye Mo detested such cultivator the most. If it wasn’t that he wanted to ask this guy a few questions, he would’ve thrown a fire ball already.

“Wan bei comes from the abyssal realm. I’m here to collect some souls for cultivation.” The black robed cultivator answered respectfully.

Ye Mo frowned “This place isn’t the abyssal realm?”

The man quickly answered “This is the nether realm. People outside often confuse the abyssal realm with the nether realm.”

“There’s such difference? What’s the difference?” Ye Mo immediately realised that Cao Ze didn’t tell him the truth.

The man took out a jade slip and marked some things and gave it to Ye Mo.

“How do you use souls to cultivate?” Ye Mo glanced at his soul bag.

“My cultivation method requires to boil souls to soul liquid and use this liquid to cultivate.” The cultivator said as if this was the most natural thing in the world.

Ye Mo immediately thought of Chi Wanqing’s soul. This person used souls to cultivate. How many souls would he be killing everyday. Who knew if he killed the soul of someone he knew?

Feeling Ye Mo’s killing intent rise, the black robed cultivator turned to run immediately. Before he even left three meters, he saw a fireball fly over. He couldn’t resist this fireball at all.

Then, Ye Mo’s spirit sense fell on this jade slip.

Moments later, Ye Mo had an understanding of the abyssal and nether realm. Nether realm was the place for rebirth into the next life. The abyssal race was a race like the human race or beast race.

Many souls would be swept into the nether realm or they would come here on their own accord. At the nether realm, they would need to go to the samsara bridge if they wanted to reincarnate.

Some cultivators with stronger souls and cultivate to strengthen their soul and cultivate an abyssal body and enter the abyssal realm becoming a member of the abyssal race. There were countless souls in the nether. Some were cultivating, some roamed around seeking fortunes but it was the minority that could cultivate an abyssal body and enter the abyssal realm. Most headed to the samsara bridge.

Ye Mo didn’t hesitate. If Chi Wanqing wanted to reincarnate, she would definitely head to the samsara bridge. She would definitely not cultivate abyssal cultivation method.

Ye Mo immediately wanted to go to the bridge but then he realised he didn't know where it was.

Ye Mo waved and tens of souls appeared before him.

"Which of you know where the samsara bridge is?" Ye Mo sent his will.

A condensed soul carefully sent a message "The samsara bridge is everywhere."

What did this mean?

The soul seemed to know Ye Mo's power and answered without Ye Mo asking "Any soul that enters the nether realm will be able to see the samsara bridge when they want to reincarnate. Then, they only have to walk that way. Some people would walk there in a few steps while some would take a few thousand years."

Ye Mo realised what this was. This was space law that joined with the consciousness of countless souls. When a soul wanted to reincarnate, the space law would appear before them. What seemed like a few steps would help them cross countless distance.

Ye Mo's spirit sense asked another question "I want to go to the samsara bridge but I can't see it. How do I go over?"

All the souls fell silent, none of them knew how Ye Mo could go.

An extremely faint soul suddenly sent a message "I don't want to keep staying here. I want to go reincarnate. Qian bei if you can see my body then come with me. Otherwise, I won't be able to help you."

The soul said and its figure became even dimmer. Ye Mo's spirit sense followed this soul closely. A subtle bridge appeared in Ye Mo's spirit sense. Ye Mo almost called out in shock. Wasn't this the life crippling bridge he saw at the God Necropolis Domain? How did it appear here?"

But then, Ye Mo realised, this wasn't the life crippling bridge. They did look very similar but they weren't the same.

Ye Mo's figure flashed and disappeared from his spot.

Tens of days later, a dark figure suddenly appeared in Ye Mo's spirit sense. Ye Mo just watched that soul a bit and then the soul he was following disappeared. The samsara bridge was gone too.

Ye Mo wasn't annoyed. He knew the approximate location of the samsara bridge. He just needed to head along that direction and he would be able to find it. Plus, he was countless times faster than that soul.

Ye Mo watched this shadow more. He felt this shadow was familiar.

Ye Mo sped up towards that huge black shadow.

In less than 15 minutes, Ye Mo appeared at the black shadow. It was an extremely huge mountain. Ye Mo couldn't even see where the border of this mountain was.

Ye Mo was confused. How could he feel familiarity to a mountain?

He walked a few more steps and came to the foot of the mountain. He formed his god essence giant hand and wanted to break a piece off the mountain. But when his hand touched the mountain, Ye Mo's face changed into extreme joy.

This was World Mountain. This definitely was the world mountain.

Ye Mo knew this World Mountain definitely wasn't the World Mountain he saw at the Truth Fall Palace. This World Mountain was countless times bigger than the one in the cultivation realm. Their structure was completely different too.

This was probably the real World Mountain. Ye Mo landed on the mountain excitedly. He had decided to take this away and forge it into the Divine Dao Realm meridian.

Ye Mo believed with his dao actualisation peak stage power, it would be fine to use formation to take it into his Golden Page World.

When Ye Mo started to spirit control this World Mountain, he realised how naive he was. Ten days later, Ye Mo realised that even if he spent a few million years, he wouldn't be able to spirit control one bit of the World Mountain nor use formation to take it away.

The World Mountain's laws were incomplete and it couldn't be spirit controlled.

Chapter 2197 Samsara Dao

Ye Mo stood on the top of the World Mountain and circulated half of it. When he saw a huge ditch at the waist of the mountain, he instantly realised.

This was the World Mountain but because a piece of it was dug away, its laws weren't complete. If he wanted to spirit control this World Mountain, he would have to find the piece that was dug away. Not a piece of it can be missing.

How could Ye Mo not realise that the black World Mountain he saw in the truth fall palace was the piece missing.

He would have to find that missing piece but the World Mountain flew away. Where would he find that? Who dug a piece of the World Mountain away.

The guy who dug the piece away definitely wasn't able to take away the World Mountain so he dug a piece in his fury. But even so, that person wasn't simple. The bigger the World Mountain was, the tougher it was. This was the original body of the World Mountain, even if he dug with full force he might not be able to dig a piece away.

Ye Mo looked at this World Mountain reluctantly and could only leave a spirit sense mark here. When he found the missing piece he would come back and spirit control it.

At this moment, countless souls gathered before the samsara bridge. They didn't go into the bridge not because they didn't want to but because they had to pay a few abyssal crystals to get on. [Read more new novels on](#)

Abyssal crystal was the cultivation resource for souls. In the abyssal realm, there pretty much was no spirit items. Souls would have to rely on abyssal crystals to cultivate. Those who didn't have abyssal crystals would have to go search the vast abyssal realm.

As time went on, those souls would gradually lose their consciousness and dissipate from the abyssal realm.

At the same time, even powerful souls would experience danger collecting abyssal crystals. Sometimes, many conscious souls would rush up together. No matter how powerful you were, you would be torn apart. When souls had a certain level of power, they would be killed by the samsara law of the samsara bridge if they kept staying here.

The most dangerous thing about the samsara bridge was that every once in a while, if you were close to the bridge, you would be swept on regardless if you want to reincarnate or not.

So, collecting abyssal crystals before the bridge didn't happen all the time. Only souls with great power but no abyssal crystals to cultivate had to resort to this method. Now, there was such a soul before the samsara bridge.

Ye Mo didn't release space time boat but he sped up towards the samsara bridge. With his current power, he didn't need space time boat anymore.

At the start, Ye Mo needed to mind his direction but later on, he didn't need to as he sensed a powerful dao wave chi. It was a domain he had never touched before. He even had the feeling that once he learned this dao wave chi, he would reach dao essence divine emperor.

As Ye Mo got closer to that vast dao wave chi, he felt even greater pushing power. Ye Mo used Three Birth Chant like crazy as he walked over. His will was completely captivated by this dao wave chi. He even forgot to check for Chi Wanqing's soul. This dao wave he had never seen before made him eager to learn.

A long bridge appeared shrouded in grey mist in Ye Mo's sea of consciousness. As soon as this bridge appeared, Ye Mo felt it was very long but when he looked again, it seemed very short.

Regardless, Ye Mo couldn't see the other side. He could only feel an extremely powerful chi circulating the side of bridge. The closer Ye Mo was to the bridge, the clearer it was. This was samsara chi. It flowed like a giant river underneath the bridge wave after wave as though never ending.

The instant Ye Mo stepped foot on this bridge, he was completely lost. The samsara chi brushed past him surrounding him as though wanting to bring him belong the bridge.

The bridge expanded in Ye Mo's consciousness and then suddenly became narrow. Ye Mo found he became a small boat that rocked in the tidal wave like samsara chi. One mistake and his boat would tip.

Ye Mo stood at the head of the samsara bridge. The countless souls next to the bridge were pushed back by this powerful chi. They all looked at Ye Mo in shock.

The samsara chi before the bridge was terrifying to a new extreme. Other than souls that were about to reincarnate, no one could come close. Even abyssal bodies couldn't get close to the bridge. This had nothing to do with power. This was the suppression of samsara chi.

Yet now, they saw a human step foot on the bridge letting the vast samsara chi brush past him.

How was there such terrifying person. Powerful and weak souls all stopped staring at Ye Mo.

In a corner, a weak soul squirmed at one corner. She didn't know how long she had been here for. When she came here, her soul was already about to cripple. If she searched for abyssal crystal, she would have no chance of reincarnation.

She was waiting for an opportunity here, waiting for the samsara chi to sweep over or the soul collecting abyssal crystals to leave.

But she had waited for a few hundred years and her soul was about to cripple yet she still didn't get what she wanted.

Every moment, she thought about her past life. That was the only thing she could do. She felt lucky she reached golden core state or she might not be able to retain any memories in here.

When Ye Mo walked on the bridge, she was shocked just like the rest of the souls clearly not expecting a human to be able to walk here without being suppressed by samsara. When she saw the person's looks, she was dumbfounded.

If she had a body, she would've ran into Ye Mo's arms telling him how hard life had been for her. If she could tear, her tears would've become a river. If she could speak' she would want to yell out Ye Mo's name saying she was here, she was Chi Wanqing.

But she could only shake as she watched Ye Mo hoping Ye Mo would recognise her.

She really wanted to stop herself from shaking but she couldn't. The more she shook, she quicker her soul would dissipate. She couldn't even move.

Powerful samsara dao wave washed Ye Mo's consciousness. Ye Mo suddenly wanted to follow it and jump down the samsara bridge. He felt it was really hard to stay on the bridge and jumping down would make things very easy.

At this moment, the chaos tree sent some life dao wave waking Ye Mo up instantly.

He realised what he was doing. He was learning samsara dao.

As he felt the waves of samsara dao, Ye Mo felt his dao increase higher and higher.

Chapter 2198 Number One God Ar

20 billion god crystals and three extreme grade god spirit range were thrown out by Ye Mo. He even grabbed some of the chaos chi he collected.

Powerful samsara dao wave washed Ye Mo's body fusing with his original dao wave. He started to perfect his dao. The dao waves slowly connected with the Golden Page World.

The Golden Page World seemed to be changing. The change wasn't obvious but it gave people a feeling of samsara. These god crystals and god spirit range turned into tidal waves of god spirit chi that was devoured whole by Ye Mo. Ye Mo grabbed ten Yellow Middle Plums and used them.

The samsara chi grew vast and grand, from river to oceans. Ye Mo's cultivation level kept rising.

Rumble.

Ye Mo's sea of consciousness and body made a unanimous sound. The extremely clear samsara dao was imprinted in his dao.

Ye Mo suddenly waved his hand and tens of samsara dao chi was grabbed in his hand. He took another step forward. When his two feet landed on the bridge, golden purple dao wave rose up around him. The countless god crystals and god spirit ranges turned into pure white god spirit chi that dashed inside his dao waves before disappearing.

The world laws and dao laws in the Yellow Middle Plum fused with his dao and became inseparable.

Crack.

After unknown amount of time, the samsara chi before Ye Mo started to dim or perhaps the chi had fused with him. It had become tame.

The god crystals, god spirit range, chaos chi and Yellow Middle Plum all turned to dust.

So powerful feeling. Ye Mo checked his cultivation level in shock, dao essence tertiary stage.

He didn't expect the nether realm would give him such huge fortune allowing him to reach dao essence. He skipped dao essence primary stage and middle stage and reached tertiary stage.

Was this the power of dao essence? Ye Mo felt his power. He was joyful and shocked at the same time.

With his current power, he could instant kill the rest of the dao essence divine emperors. Even if that half primordial essence came, Ye Mo could easily kill him.

Ye Mo suddenly thought of that monk. He was beaten out of a barren planet. Was he a primordial essence divine emperor? How would he do against that monk?

He didn't know as he had fought the monk yet. Perhaps he wasn't as strong as the monk but once he spirit controlled all seven Golden Arrow of Divine Extermination and upgrade the rest of his god arts, he might not necessarily lose to that monk.

Ye Mo looked at the samsara bridge. He didn't continue forward. He came to find Chi Wanqing. Who knew what would happen if he crossed the bridge.

Ye Mo turned around and was going to leave but what shocked him was that the path behind him had disappeared.

Ye Mo didn't worry. He waved out invisible chi. It was his samsara dao chi.

Then, that disappeared entrance showed itself again. Ye Mo then closed his eyes and didn't leave the bridge immediately.

A few seconds later, Ye Mo pushed out with his hand.

The time in the space before him didn't stop. It slowly flowed backwards.

The backflow of time was very brief, just one second but it seemed to have moved the entire world.

“Samsara...Ye Mo murmured. He was fusing the samsara chi into his instant second god art forming a new god art, samsara.

His samsara god art only had one second but in the future when he reached primordial essence, it won't just be one second. It will be ten seconds, hundreds of seconds or even countless years...

Such powerful god art, such powerful law.

Samsara god art originated from time law but this god art had surpassed time law. It was at this new terrifying degree.

Ye Mo believed that one day when his samsara god art was perfected, it would surpass the Great Primordial God Rune and become the number one terrifying god art. It can instantly let one go into samsara or turn them into nothing.

But Ye Mo didn't rejoice. He was full of worry. Who was certain that he was the only one here. Who knew if other people learned samsara god art.

What if he faced someone who also knew it?

Ye Mo shook. He would rather face a few primordial essence divine emperor than face a powerful being who knew samsara god art.

Ye Mo breathed and walked out of the samsara bridge.

The souls at the side of the bridge were completely dazed. The reason samsara bridge was called samsara bridge meant that once you went on you could never return. Yet this person went on the samsara bridge and came back.

Ye Mo looked around at the souls and didn't care.

But Ye Mo's spirit sense didn't scan casually. He still wanted to see if Chi Wanqing was here.

In just a few seconds, Ye Mo felt an extremely familiar chi. A shaky soul appeared in his spirit sense. The soul was shaking and its dim body seemed about to collapse at any time.

Chi Wanqing, that's right. It was Chi Wanqing's soul. Ye Mo even felt his breathing pause. He didn't have much hope finding her here but he really found her. Ye Mo felt his foot steps were extremely heavy. He couldn't even move.

Chi Wanqing seemed to have felt Ye Mo's spirit sense. She was still shaking uncontrollably as her soul was getting weaker and fainter. Ye Mo, did he see me? Did he see me? What should I do, what should I do?

Ye Mo only dazed for one second and dashed up to Chi Wanqing. At the same time, he turned a heaven heart return soul pill into mist and wrapped it around Chi Wanqing.

Chi Wanqing's soul instantly condensed and grew even stronger.

Chi Wanqing sent a shaky message "Brother Ye, did you come to find me?"

Ye Mo still felt his hands were heavy. He was a dao essence divine emperor, a dao essence tertiary stage and yet his hands were heavy. One could see how excited he was.

Yes, Wanqing, sorry. I thought you were gone but the heavens pitied me and allowed me to see you again before the samsara bridge. You don't need to worry anymore, come back with me. This nether realm isn't a place you should be in." Ye Mo said softly.

He felt extremely guilty to Chi Wanqing. Her mother wanted to see her one last time but still passed away at Luo Yue city. If he didn't save Chi Wanqing, there would be this mark in his heart.

Chi Wanqing was just shaking and couldn't express anything. She wanted to cry but she had no tears as she was just a soul. She wanted to thank that soul taxing at the bridge. If it wasn't for him, she might never be able to see Ye Mo.

Ye Mo knew her soul was still very brittle and if she was too agitated who knew what would happen.

Ye Mo carefully held her soul in his hand and looked around.

A bold soul sent Ye Mo a message "Because a soul cultivator with abyssal body is taxing abyssal crystals here, many souls can't go into samsara."

Ye Mo immediately scanned to the soul cultivator. In just a while, he would be able to get abyssal body.

Chapter 2199 I'm Happy I went Through Hardship

Seeing Ye Mo look over, that soul cultivator immediately shivered. Everyone saw how powerful Ye Mo was. This was an unimaginable being. Yet, he offended this powerful being.

Although without this cultivator, Chi Wanqing would've gone into samsara but Ye Mo still grabbed this soul cultivator over. He waved his hand and dissipated the cultivator's partial abyssal body. Then, Ye Mo threw the cultivator ^ bridge and said "If it wasn't that I was happy seeing Wanqign today, I will annihilate your soul immediately. Piss off to samsara."

The soul cultivator didn't dare to argue a thing. He thanked and charged onto the samsara bridge.

"Go." Ye Mo looked at the countless souls and said.

The rest of the souls quickly charged onto the samsara bridge. In a short while, the area in front of the bridge was empty.

Ye Mo quickly left the samsara bridge and found a desert before dashing inside with the Golden Page World.

“Husband, is this sister Wanqing?” Mu Xiaoyun saw Ye Mo come in with the soul in his hand.

“Boss, it’s a soul in your hand?” small ginseng asked.

Ye Mo nodded “Yes wait outside for me, I’m going to save Wanqing first.”

Chi Wanqing’s soul became more and more condensed after she was nourished by the heaven heart return soul pill. Ye Mo took her into the prettiest palace in the entire Golden Page World as fast as possible.

Chi Wanqing’s body was laying in her bedroom in the palace. A branch of chaos tree was placed next to her that preserved the life force of her body.

Chi Wanqing’s soul woke up and looked at the body in the room in shock. How could she not know that was her body.

Ye Mo not only took her soul back from the nether realm but also found her body. At this moment, Chi Wanqing suddenly felt that all that she had experienced didn’t matter. At least Ye Mo remembered her and went into the nether realm just for her.

“Wanqing don’t talk. Your soul has left your body for a long time. It’s not used to your soul but don’t worry I have a lot of treasures. Just fuse into your body and leave the rest to me.” Ye Mo said.

Chi Wanqing’s soul slowly entered her body. The chaos tree branch emitted life force and without Ye Mo needing to intervene, it instantly helped Chi Wanqing fuse into her body.

Even so, Ye Mo didn’t feel safe. He turned another heaven heart soul return pill into mist and fused it into Chi Wanqing’s body. At the same time, Ye Mo put a soul nourishing dao fruit in her mouth.

Her soul began to fuse and the dao fruit emitted juice nourishing her meridians and essence spirit.

In just two hours, Chi Wanqing opened her eyes. When she saw Ye Mo sitting right next to her, she could no longer resist her tears. She couldn't cry before but now she just wanted to cry her heart out.

Chi Wanqing couldn't say a single word now. Perhaps tears was the best language for her now.

Ye Mo sat next to her and waited till she calmed down before saying slowly "Wanqing, stay with us. You don't need to run around anymore."

"Brother Ye, thank you. You spent so much effort on me, I..." Chi Wanqing said.

Not only did he find her body and soul but she could also feel her life force was much stronger than her prime. Ye Mo definitely used the best treasure to help her.

Ye Mo knew what she was thinking. Chi Wanqing had been living at the bottom of society on Shen Qiong continent. Perhaps in her knowledge a small spirit herb was worth more than her.

"Wanqing." Ye Mo grabbed Chi Wanqing's hand and said "Compared to living, everything else doesn't matter. I don't have anything good to give you. Do you see this branch?"

Chi Wanqing had long seen this green branch. She felt very intimate to this branch. It was as though it had accompanied her for countless years.

"This is my gift to you. You can place this branch in your dan tian. Remember, without certain power, don't let people see you have this branch. This is the most precious thing in the entire universe. If people see it then even primordial essence divine emperor would fight over it..."

Hearing this, Chi Wanqing quickly pushed the branch back into Ye Mo's hands "Brother Ye, I can't take this..."

Ye Mo quickly pushed her hand back "I have a big tree. Your branch was taken from my tree. Nourish it in your dan tian. Perhaps it will become your strongest magic artefact in the future or maybe it would turn into a huge tree like mine."

“Really?” hearing that only she and Ye Mo had this tree, Chi Wanqing was full of joy.

“Brother Ye, did you go to the Shen Qiong continent just to find me?” Chi Wanqing asked and then suddenly thought of little wolf. Her eyes went red “Sorry, brother Ye, the little wolf you gave me is dead.”

Little wolf had stayed with her for many years and accompanied her when she was the loneliest.

Ye Mo patted her hand and took out a wooden brush “I brought little wolf here too and the phone number you gave me.”

Seeing the brush she gave Ye Mo was still kept by Ye Mo, Chi Wanqing could no longer resist her tears and started to cry in Ye Mo’s arms.

Suddenly, she felt that all the hardship she had gone through was nothing.

Ye Mo pulled Chi Wanqing up “Wanqing, I’ll take you to see Xiaoyun and the world we’ll be living in.”

“Mhm.” Chi Wanqing got up and walked out of the room with Ye Mo.

“Such a pretty palace, so many flowers. Hmm, these flowers...” Chi Wanqing walked out and found that the flowers were filled with immortal spirit chi. She just needed to smell it and her cultivation level was loosening. She wanted to sit in the flowers and cultivate.

Mu Xiaoyun saw the two come out and came up to greet “Sister Wanqing has recovered.”

Chi Wanqing looked at Mu Xiaoyun for a long time before asking in disbelief, “You, you’re goddess Xiaoyun of Lotus Glory Sect...”

She was the most protected prodigy of the Lotus Glory sect.

Mu Xiaoyun went up and pulled her hand "Sorry, sister Wanqing, I didn't know you were at Shen Qiong continent. If I did perhaps you wouldn't have gone through that many hardships."

Chi Wanqing looked at Ye Mo and suddenly shook her head "Sister Xiaoyun, I'm happy I experienced all those hardship. Without it, I would never be able to understand some things. But now, I know very clearly what I want and what I should do."

Mu Xiaoyun actually nodded "You're right. If you don't go through some hardship, you would never know what you want or what you should do."

Mu Xiaoyun resonated deeply with Chi Wanqing's words. She had gone through quite some hardships too.

Chapter 2200 Encountering Primordial Essence Again

Ye Mo took out a storage ring and gave it to Chi Wanqing, "Wanqing, your cultivation level is a bit behind. Xiaoyun will help you to cultivate in the future. I've already prepared your cultivation method. If you're lacking pills..."

Ye Mo suddenly called "Small ginseng come over."

Small ginseng ran over and said "Boss, I'm here."

"What ever pills Wanqing need for cultivation you need to give it to her in time. It must be pills without impurity." Ye Mo said.

Before small ginseng spoke, Chi Wanqing said "Brother Ye, I feel the spirit chi here is dense to a new extreme. It's many times better than spirit stones. I don't even need pills to break through. I'll ask small ginseng when I need pills."

The three chatted. Chi Wanqing had completely recovered so Ye Mo didn't keep the news of her mother's death from her. He also gave her what her mother left behind.

Although Chi Wanqing knew that after all this time, her parents definitely wouldn't be around but when she heard the news and got the things, her tears still rained down.

A day later, Ye Mo left the Golden Page World. Chi Wanqing stayed inside the Golden Page World to cultivate with Mu Xiaoyun helping on the side.

Ye Mo was very happy that he didn't have to go to the abyssal realm to find Chi Wanqing. He didn't plan to go to the abyssal realm anymore despite wanting to kill that bleak Cao Ze.

Returning to Luo Yue continent was the main thing for him.

But when Ye Mo wanted to find a way back, he frowned. He was lost.

The abyssal and nether realm were next to each other. There were no powerful beings in the nether realm but powerful beings were everywhere in the abyssal realm.

Ye Mo didn't desperately go find a way out. he went back inside the Golden Page World. This time, he was going to completely spirit control the 36 lightning orbs and the seven Golden Arrow of Divine Extermination.

He was about to find a way out. if he went into the wrong place and entered the abyssal realm, he might encounter primordial essence divine emperor at anytime.

Primordial essence divine emperor was third step dao vindication. The monk he met before was quite possibly a primordial essence divine emperor. Although Ye Mo believed that if he encountered that monk again, even if he couldn't beat the monk he wouldn't be killed. But in the depth of his heart, Ye Mo felt he was a little weaker than the monk.

He had to be careful. One small mistake might mean life or death. With the Golden Arrow of Divine Extermination he would be able to protect himself.

The Golden Arrow of Divine Extermination that he couldn't spirit control for a few years inside the time formation disk was now easily spirit controlled.

A year later, Ye Mo spirit controlled all the restrictions of the bow and arrow as well as the 36 lightning orbs. A few other magic artefacts he didn't often use were completely spirit controlled too which included the Adamantium Great Vehicle Painting and Hao Heaven Drum.

Ye Mo planned to give the 36 lightning orbs to Yimo so Ye Mo didn't test its power but when Ye Mo held the Golden Bow and Arrow of Divine Extermination, he felt this unprecedented killing intent.

Before the seven arrows even shot out, the destructive killing intent already circulated the arrows. It was like an ancient monstrosity opened its mouth ready to kill.

"So powerful," Ye Mo murmured. He didn't know what bones the arrows were made of. It was this terrifying.

When he came back into the nether realm Ye Mo felt very confident. Even if he faced abyssal race primordial essence divine emperor, he would be able to defend himself.

On top of that, his third Great Primordial God Rune had completed and the fourth one was about to come. The Great Primordial God Rune was already grown in his head. As his power grew stronger, the god art would be gradually perfected.

Ye Mo just wanted to test the Great Primordial God Rune and then use space time boat to find the tear in space when two explosions happened at the border of his sea of consciousness. The explosion was so scary that even his sea of consciousness was rumbling. Space seemed to have collapsed at where the explosion was.

The next moment, two dashing lights appeared in his sea of consciousness. They were extremely fast and in just a few seconds they would be before him.

It was two people fighting? What people fighting would create such terrifying commotion?

When Ye Mo saw that the one behind was a monk with faint light, Ye Mo released space time boat and disappeared from the spot without hesitation.

He wouldn't be scared if there was just one primordial essence divine emperor but now there was two.

"Hmm, this kid knows how to run. You came to the nether realm. Bad luck. Kid you're dead." This monk saw Ye Mo and chased without hesitation.

The man hunting the monk saw the monk chase Ye Mo and followed without hesitation.

The three dashing lights were invisible. People could only feel space itself being sliced open by them.

Ye Mo felt annoyed when the monk chased him again. Was this guy crazy? He didn't break the planet before. The person who broke it was killed by this guy already, why was he still chasing him? Why was the guy chasing the monk so slow? If the two kept fighting he would be able to get away.

"Jiao Dan, you bastard. How dare you run towards my abyssal realm. Stop." The man behind was extremely furious.

The monk laughed "Green hat, when did I go to your abyssal realm? I'm chasing this kid, can't you see? he broke my house making me have no clothes to wear. If I don't kill him, how can I satisfy myself."

The green hat primordial essence divine emperor didn't know that the monk really wanted Ye Mo's Zi Xu. Even though he was a primordial essence divine emperor he had no Primordial Spirit Artefact. But wasn't this kid dao actualisation? How come he appears to be dao essence divine emperor?

Regardless, the monk didn't care.

More than ten days later, Ye Mo still couldn't get away from the monk's spirit sense range. Not only so, the two behind were getting closer and closer.

He couldn't continue like this. Ye Mo used a transmission and tore open the space in front of him and went into another realm. He didn't need Zi Xu to tear open these low realms.

“Hehe, transmission, useless.” The monk sneered and didn’t use transmission. He came to where Ye Mo disappeared from in just a few seconds and tore open space.

Transmission wasn’t very useful at primordial essence level but this depended on the level of the transmission. Ye Mo didn’t spend much effort on transmission. By the time he finished the transmission, the enemy would’ve flown over already.

Ye Mo knew this too. His transmission was to tear open space.

The primordial essence divine emperor behind saw both Ye Mo and the monk tore open space so he chased without hesitation.

Primordial essence masters’ spirit sense could indeed cross these realms. Ye Mo felt helpless but he had to keep running just to pull the distance apart.

Ye Mo didn’t know how many space he tore open but the two chasing him were getting closer and closer.

When Ye Mo’s hands could no longer tear open space and could only use Zi Xu to hack, he knew there was no point in running.

Space that even his hand couldn’t tear meant that this was the top realm space. This place was filled with god spirit chi.

The chi here was very bleak and mixed with all sorts of yin dao laws. This quite possibly was the space of the abyssal realm. However, the suppression of the abyssal realm was gone with the slight use of Three Birth Chant.

“Little worm, why don’t you keep running? Keep running...” The monk came to Ye Mo as soon as Ye Mo stopped. At the same time, the person behind also came.
