Chapter 2201 Battle Primordial essence

Ye Mo noticed the man chasing behind him long ago but his hair was pale green. His clothes were completely green too. The only different part was his face that was a bit grey. Ye Mo could even feel his anger.

“Jiao Dan, if you dare to fight in my abyssal realm, I will kill you even if I have to chase you to the end of chaos.” The man was furious but suppressed his anger and didn’t attack. At this moment, he realised Jiao Dan came for Ye Mo’s purple sword. He could easily tell it was a Primordial Spirit Artefact too.

Ye Mo guessed that his green haired man was abyssal realm’s primordial essence divine emperor. This Jiao Dan monk did something and got hunted everywhere.

“Green hat? When did you see me fight. I just came to ask for a resolution.”

Ye Mo almost laughed. This was a good name.

The abyssal race divine emperor’s face was green.

Jiao Dan didn’t attack Ye Mo immediately and studied Ye Mo first. Then, he said “Kid, you pretended to be a dao actualisation before and now you pretend to be a dao essence. To be able to run using an extreme grade god artefact for this many days. I believe you’re not as simple as a dao essence divine emperor right.”Read more new novels on

Hearing this, Ye Mo had an idea. His force rose drastically. His vast dao wave chi spread until it was almost primordial essence before stopping.

Seeing Ye Mo’s power near primordial essence, the green haired man looked at Ye Mo with different light. If Ye Mo didn’t stop on his own accord, they wouldn’t be able to catch up. He knew Ye Mo wasn’t simple but when he saw Ye Mo’s force and dao chi, he realised that Ye Mo wasn’t just not simple, he

was on par with them. His chi didn't seem primordial essence divine emperor yet but it was clearly beyond half primordial essence. It was infinitely close to primordial essence divine emperor.

Feeling Ye Mo's powerful chi, Jiao Dan didn't act as casual as before. His face went serious as he said "You were putting on an act indeed. You can reach primordial essence at any time yet you're so shameless to the extent that you hid your power to fight a big battle with a half primordial essence. No wonder I wasn't able to catch you slippery bastard."

Jiao Dan said this but he was quite helpless. He thought, Ye Mo was almost about to be primordial essence, why even run? If you fought with me would I chase you for that long? If I knew you were hard to deal with would I have the time to chase you? Now, he was stopped by this green hat.

He knew it wasn't quite possible to get Ye Mo's sword. Even if Ye Mo was weaker than him, Ye Mo would be on par with him due to the purple sword.

Ye Mo ignored the monk and said to the abyssal race primordial essence divine emperor "This immortal friends, Jiao Dan monk wants to fight with me. I don't want to fight here but he has to fight with me. There's nothing I can do."

Hearing this, Jiao Dan said furiously "I'm Jiao Dan not Jiao Dan. Little worm if you keep calling me Jiao Dan I'm going to eat you."

TL note: Jiao Dan means fried egg.

Hearing this, the green haired primordial essence divine emperor's face calmed down instead. He quite liked seeing the monk angry.

Jiao Dan waved his hand and 18 buddhist beads appeared above his head. Immediately, this extremely suppressing world dao wave appeared. It was as though any realm would be crushed when these dao waves exploded.

Seeing Jiao Dan about to attack, Ye Mo said to the green haired man "Immortal friends, how about we join up and take out this burnt egg. I'll take his 18 buddhist beads and you can have the rest. What do you think?"

The green haired man's eyes lit up and he said immediately "Sure..."

As soon as he said this, a subtle mist tower appeared. He was certain that if he took care, the space here wouldn't crumble too bad.

Seeing this, Ye Mo released Zi Xu without hesitation. A vast powerful lethal force immediately loomed over the world.

Jiao Dan's face changed and without hesitation, he tore open space and disappeared. Ye Mo had a helper now and after being chased by this monk for so long, how could he let him go. He followed. This green haired man clearly didn't want to let Jiao Dan go and also chased.

The three had about the same speed. Ye Mo's cultivation level progressed rapidly. He was the slowest before but later on, he was on the same speed as Jiao Dan. As the three kept tearing open space, Ye Mo was getting closer and closer to Jiao Dan. His speed was increasing.

Running in the space void wasn't like other places. You couldn't shake people off by twisting and turning. The more you turned the shorter the distance was.

The three had come to the void again and Jiao Dan finally felt Ye Mo's desperate feeling.

Helplessly, he could only stop running. He knew that no matter how he escaped, he couldn't shake Ye Mo off. He guessed that Ye Mo didn't truly reach primordial essence but now that Ye Mo could catch up to him, he was suspicious of his guess. Could a dao essence divine emperor really catch up to him?

Before reaching primordial essence, it was impossible to use spirit sense to break a realm and know which direction he ran.

Ye Mo's spirit sense at dao essence tertiary stage was incredibly powerful but it couldn't break open a realm yet. He didn't use spirit sense to follow Jiao Dan, he used the subtle changes in the void to track Jiao Dan. He reached dao nourishment in the void and had the god art one region. He was very sensitive to changes in the void.

There was no way Jiao Dan could escape from him. The green haired man didn't know this. His spirit sense pierced a realm to track so he thought Ye Mo did the same. Due to this, he considered Ye Mo of his equal level.

He knew Ye Mo was a human of course. He didn't show it on his face but he was very shocked that the human race suddenly had this powerful divine emperor.

"Little worm just what do you want? Two against one, don't you feel ashamed?" Jiao Dan said hatefully.

The green haired man sneered "Jiao Dan, you took our abyssal race thing. Spit it all out or I will kill you even if I chase you to death."

Jiao Dan threw out a storage ring to the green haired man "Len Shuoqi, I'll give it back okay? This kid has a lot of things, we can share it."

Seeing the green haired man take the storage ring, Jiao Dan said to Ye Mo "Kid, it's not two against one now. It's one vs one. Let me see what power you have."

"Two vs one against you. You overestimate yourself Jiao Dan." Ye Mo said in contempt and then said to the green haired man "Immortal friend Len. You've already got part of the loot we discussed. I haven't gotten mine. I'll attack first. When this monk tries to run, stop him."

Ye Mo knew things weren't good when the green haired man took the storage ring. None of these primordial essence divine emperor were trust worthy. They just agreed to join up but now he was hesitating after just taking a storage ring. So before the green haired man could change, Ye Mo said that and used falling mark sword rune with Zi Xu.

A sword rune that completely twisted the void smashed down. This sword rune also sucked out all the life force in this space. Life force and space were completely destroyed and dissipated under this sword rune.

Ye Mo was dao essence tertiary stage and learned samsara dao. His sea of consciousness was very condensed. He created falling mark sword rune based on Great Primordial God Rune. Now with the help

of Zi Xu, it was subtly stronger than the Great Primordial God Rune. Perhaps it was due to his Great Primordial God Rune not being perfect that this happened.

This sword rune seemed extremely focused with Ye Mo expanding his dao essence realm domain.

He knew Jiao Dan's power so he used another spirit sense god art, Great Primordial God Rune.

Two spirit sense Great Primordial God Rune attacked at Jiao Dan's sea of consciousness.

Jiao Dan was shocked by Ye Mo's extremely vibrant falling mark sword rune and now that two Great Primordial God Rune attacked his sea of consciousness, how could he not treat Ye Mo as a Primordial essence?

Chapter 2202 Vindicate Dao Through Martial Arts

When Ye Mo's Great Primordial God Rune reached his sea of consciousness, his sea of consciousness instantly formed waves of cosmic ranges. These cosmic ranges wanting to stop Ye Mo's two spirit sense Great Primordial God Rune. However, the Great Primordial God Rune was too savage. It grinded the mountain ranges one by one.

Even Jiao Dan's face changed greatly when he felt the terrifying destructive power of the Great Primordial God Rune in his sea of consciousness.

But there were too many mountain ranges and they were too dense. Ye Mo's two Great Primordial God Rune was eventually stopped. Jiao Dan then breathed easy but he was more careful.

Ye Mo didn't expect this to get to Jiao Dan. If a primordial essence divine emperor was so easily ambushed, he wouldn't deserve to be primordial essence.

Jiao Dan couldn't care that much. He forcefully smashed out his 18 buddhist beads under Ye Mo's falling mark sword rune and realm domain forming waves of buddhist light. The buddhist light instantly tore open Ye Mo's falling mark sword rune domain and smashed Ye Mo's realm domain cracking.

If it wasn't due to the spirit sense attack, Jiao Dan could even counter attack.

Despite this, the buddhist light stopped the falling mark sword rune. Destructive chi expanded in the void. These destructive chi was brought about by Ye Mo's falling mark sword rune but under the buddhist light, it kept breaking and couldn't go into Jiao Dan's buddhist light realm domain. Seeing Jiao Dan and Ye Mo in a stalemate, the green haired man instantly released his mist tower and controlled the nearby void under the tower.

Jiao Dan's face changed. The light of the 18 buddhist beads burst out and smashed the falling mark sword rune away before he turned and disappeared.

Just when the green haired man wanted to run he felt something wasn't right. This human kid should be chasing first. He was much faster than him when chasing Jiao Dan before. How come this time the kid didn't move?

Thinking about this, the abyssal race divine emperor stopped. He found that Ye Mo didn't intend to chase indeed.

"Why don't you keep chasing?" The green haired divine emperor asked.

Ye Mo sneered "Why would I chase him? I've been played by you and you still want me to help?"

"When did I play you?" The green haired divine emperor's face sunk.

Ye Mo sneered "We agreed that we would take out Jiao Dan. I'll take the 18 buddhist beads and you take the rest. But after Jiao Dan gave a storage ring to you, you even planned to kill me with him. Do you think I'm an idiot?"

"Did I attack?" The green haired divine emperor was feeling annoyed. How did this kid dare to talk to him like this.

Ye Mo stared at him and said “You didn’t attack but we’re all not dumb. You dare to say you didn’t plan to do that? If you attacked with me after getting the storage ring would I doubt you? With your power, you should get ready to stop Jiao Dan from running. If you were prepared could Jiao Dan get away? Even if he can he would still get heavily injured.”

The green haired divine emperor knew Ye Mo saw through what he thought and sneered “Since you don’t want to cooperate then never mind, good bye.”

You want to leave like that, I don’t think so?” Just when the green haired divine emperor wanted to go he saw Ye Mo stop in front of him.

The green haired divine emperor was so angry he laughed “Do you want to fight with me. Your Great Primordial God Rune derived sword rune might be strong but I, Len Shuoqi, am not scared of you.”

Ye Mo said “I didn’t say you were scared of me but just then Jiao Dan gave you a storage ring. If I didn’t help chase him would you be able to get it. I contributed but you did show any gratitude?”

The green haired divine emperor was lost for words. He got back what he wanted but Ye Mo got nothing. He was someone who only focused cultivation and wasn’t good at arguing.

Seeing this, Ye Mo continued “The god spirit chi of the abyssal realm is really good. I wonder what that fried egg got in the abyssal realm but he’s quite cunning. He left as soon as he got wealthy. Our human race Divine Dao Realm isn’t good enough, broken terrain everywhere...”

“What do you want?” The green haired divine emperor felt a little scared.

If this guy really went around the abyssal realm like Jiao Dan it wasn’t good for the abyssal realm. Ye Mo was like Jiao Dan he didn’t care. The Divine Dao Realm was barren so Ye Mo wasn’t afraid of his revenge.

“How about share the things around...”

The green haired divine emperor yelled immediately “Impossible, I’ll give you 5 billion god crystals at most. Count that as payment for helping.”

“10 billion god crystals and we’re friends. Next time you teach that fried egg a lesson I’ll help you again.” Ye Mo immediately said.

“deal.” The green haired divine emperor said without hesitation and threw a storage ring to Ye Mo.

Seeing the green haired divine emperor give it out so easily Ye Mo immediately knew he was at a loss. There was definitely too many good things in that storage ring but Ye Mo didn’t want to offend this abyssal realm primordial essence too much so he laughed and said hospitably “I knew immortal friends Len is a good person. You’re welcome to be a guest at my Divine Dao Broken realm. If I’m free I’ll come with you too.”

“No need.” The green haired divine emperor said and then tore open space and disappeared.

Ye Mo scanned his spirit sense in the storage ring and said happily “I fled and earned 10 billion god crystals, this is quite a good business...”

As soon as Ye Mo finished, he felt something in the Golden Page World. He immediately went in.

“Fu Fei, you vindicated dao?” Ye Mo said Fu Fei’s dao waves and it was different to ordinary dao.

Fu Fei quickly waved up to Ye Mo and bowed “Thank you master...”

Fu Fei said again “I already consider qian bei my master. I’ve never thought that one day I would be able to vindicate dao through martial arts.”

Ye Mo said in shock “Fu Fei, you vindicate dao through martial arts?”

No wonder Fu Fei’s dao waves were different. It was martial dao.

“Yes, master’s wife gave me a Yellow Middle Plum and master helped me edit the cultivation method. You both gave me huge help.” Fu Fei said excitedly.

“Great, it seems the Divine Dao Sect will have a martial arts branch.” Ye Mo said happily.

Fu Fei bowed again and said “Master, my martial arts dao needs experience. I can’t go back to the Divine Dao Realm for now. I need to adventure in the void for a while. One day, I will come back to the Divine Dao Realm.”

Hearing this, Ye Mo immediately said “This is the void. Even though you’ve vindicate dao you’re only dao moulding divine emperor. This power is too lacking to be travelling the void...”

Fu Fei said pridefully “Master, you were only dao moulding divine emperor before but you came to the void too and even headed to the Void Marketplace. Since I’ve vindicated dao through martial arts, I need to learn from master and train myself in life and death to perfect my martial dao.”

Ye Mo didn’t continue to persuade him. He thought of Luo Qinghe and Qin Xuanji. Which of them didn’t train alone in the void to accomplish things.

Thinking about this, Ye Mo gave a storage ring to Fu Fei “Since you want to call me master, there’s nothing much I can give you. The cultivation resources in here are yours.”

Ye Mo thought of something and gave a jade box to Fu Fei “Fu Fei, there’s a heaven martial void breaking fruit. It was given to me by vice sect leader Qin Xuanji. You can have it too. I hope you make good use of it.”

“heaven martial void breaking fruit?” the only dao fruit that can help martial cultivators perfect their dao?” Fu fei asked.

“That’s right. With this perhaps you can vindicate primordial essence martial divine.” Ye Mo said.

Chapter 2203 Dragon Chi Whirlpool

Fu Fei quickly pushed it back “Master, this is too precious, I can’t take it.”

If it was something ordinary, Fu Fei would take it but clearly he knew how precious the dao fruit was.

Ye Mo smiled “The value of things depend on the people using it. If it’s placed with me then it’s not valuable at all. If you use it, it’s extremely beautiful. Since you call me master, I hope you would one day reached primordial essence martial divine and not make the human race lonely. Perhaps one day I won’t stay with the human race but you can stay in the Divine Dao Realm.”

Yes, I understand.” Fu Fei said without hesitation and took the dao fruit.

Ye Mo gave out his space time boat to Fu Fei “Take this to.”

Then, before Fu Fei could reject he said “This is something I took from a person called Yan Jiutian. After upgrading it a few times, it has become an extreme grade flying god artefact. It’s suitable for you.”

Ye Mo waved his hand preventing Fu Fei from talking and said “I’m not even scared of primordial essence divine emperor now, I don’t need space time boat to run. Plus, I need to forge an extreme grade flying god artefact for myself.

I don’t really like this flying magic artefact. Your cultivation level is too low, don’t reject it.”

Although he knew that Ye Mo was comforting him, Fu Fei still knelt down and took the space time boat. He knew that with his cultivation level, having an extreme grade flying god artefact would give him many lives. Read more new novels on

Eyeing off Fu Fei disappear into the vast void, Ye Mo took out his extreme grade flying immortal artefact blue moon. Ye Mo had a few top grade flying god artefact but he liked blue moon the best. With his cultivation level, he didn’t need to worry about being hunted in the void.

The reason he gave Fu Fei the flying god artefact was one because he wanted to switch flying magic artefact but second was that he saw his own persistence on Fu Fei.

Standing on the blue moon, Ye Mo took out the void location bead Qiao He gave him. The location bead immediately showed a spot. Ye Mo knew this spot was probably Guang Yuan palace.

Ye Mo then took out the void location jade slip that Tang Xiaoyu gave him. He joyfully found that there was an extremely bright mark on it. Ye Mo believed Tang Xiaoyu wouldn't trick him. In that case, that bright mark was clearly the way to the dragon race.

Ye Mo immediately told small ginseng to get shadowless and Qiu Rang out. at the same time, Ye Mo put away Blue Moon and took out a top grade flying god artefact. Although the dragon race wasn't far, Blue Moon was still too slow.

Moments later, shadowless and Qiu Rang all came to the deck noisily.

"Boss, I've been in solitary cultivation for this long and I have no progress. Small ginseng said we found the dragon race, is that true?" Shadowless was almost drooling as he spoke.

"Look at you, Qiu Rang had reached immortal monarch but you're still at god tao. We need to be careful going to the dragon race this time. There's a lot of powerful beings there. We need to be careful."

Qiu Rang quickly said "The Heaven Pan Dragon fruit garden is a bit further away. If we just be careful, the dragon race won't find it."

Shadowless quickly said "That's right boss, if we just be careful, no one will notice us."

Then, shadowless said to small ginseng "Small ginseng, you're the weakest. Don't come out. You should stay in the Golden Page World. Qiu Rang and I have dragon race chi, it's more suitable for us to go with boss."

"Shadowless, who called you out just then, you're ungrateful." Small ginseng heard this and said.

Just when shadowless still wanted to speak, Ye Mo said with a headache “Stop arguing. Once we get to the place, Qiu Rang look for the garden. Then, if it’s convenient, everyone go together.”

Since the boss said this, shadowless could only shut up.

Although it was top grade flying god artefact, Ye Mo’s cultivation level was many times stronger than before so it didn’t flew much slower than the space time boat.

A few days later, the ship entered a region of space. A boundless atmosphere appeared. Ye Mo immediately slowed the flying ship. This was in the domain of the dragon race. This was definitely the planet the dragon race was at.

Ye Mo thought, the dragon race had their own land in the immortal realm before but after the immortal realm broke, they all moved away. Ye Mo didn’t expect them to find here. Ye Mo didn’t think that the dragon race of the immortal realm found this place. It was definitely because the dragons in the immortal realm didn’t have a place to stay so they went back to their ancestral grounds.

Ye Mo knew this was a good place before even going in. Before the Divine Dao Realm was broken, it was definitely better than here.

“Qiu Range, we’re at the dragon race realm. Have a look at how we’re going to the Heaven Pan Dragon Fruit garden?” Ye Mo called to Qiu Rang.

Qiu Rang stood at the front of the boat excitedly but after a while of looking, he said sunkenly “My grandpa told me the Heaven Pan Dragon Fruit garden was at the intersection of dragon chi and cosmos. There would be dragon chi whirlpool but I don’t see anything.”

Shadowless laughed “Qiu Rang, I understand much more. What a pity, you’re so useless. If I knew it I can definitely find it...”

Small ginseng laughed “Shadowless, now you know. Go find it We’re waiting for you.”

Shadowless immediately knew he bluffed too much and glared at shadowless but couldn’t rebut.

Ye Mo didn't think Qiu Rang was wrong. The reason the two couldn't find it wasn't that Qiu Rang's grandpa said the wrong information but because the two were too weak. However, Ye Mo's spirit sense was no weaker than primordial essence divine emperor. In just a short while, Ye Mo noticed a subtle whirlpool. Chi in the cosmos swirled down the whirlpool and disappeared.

"I know where it is. We can't go in like this. You guys go in the Golden Page World first." Ye Mo said and sent them as well as the flying ship in before going towards that whirlpool.

The closer Ye Mo got to the whirlpool, the stronger he felt the chi was. This chi benefited him greatly. Ye Mo's spirit sense carefully went into that whirlpool. Soon, he realised that the whirlpool sucked cosmic dao wave chi and turned it into dragon chi.

From this, one could see, that the Heaven Pan Dragon Fruit garden was definitely at the end being nourished by the dragon chi.

When Ye Mo's spirit sense reached the bottom of the whirlpool, it was immediately grinded to nothing by a powerful force.

"No wonder no one comes." Ye Mo took in a cold breath. This place was subtle indeed but the deeper you went the stronger it was. If even his spirit sense could be disintegrated, it meant that even if a primordial essence divine emperor went in, he would be killed.

Ye Mo knew that his cultivation level wasn't on par with primordial essence divine emperor yet but his spirit sense was no weaker than primordial essence divine emperor.

This whirlpool also had strong stealth capability. To be able to know this place, Qiu Rang's grandpa must've had high status in the dragon race. Ye Mo was experienced in formation and didn't care. Other primordial essence divine emperor might be scared of this whirlpool but Ye Mo didn't think that way. He just studied the entrance to this formation and threw out a few formation flags before jumping in.

Ye Mo felt the cosmic chi as he jumped in. then, waves of dragon dao waves swept over wanting to make Ye Mo stop and go into solitary cultivation.

Ye Mo knew now wasn't the time. The whirlpool took him deeper and deeper and the tearing chi became stronger and stronger.

Even with Ye Mo's divine body plus spirit sense realm barrier, his skin was being torn by this whirlpool. You wouldn't even be able to release defense magic artefact here. Plus, Ye Mo didn't want to do that.

Chapter 2204 Pitiful Dragon Race Fruit Garden

Two hours later, Ye Mo suddenly stopped. He stood on a huge dragon bone. This bone had been here for countless years but the terrifying pressure from it still existed. If it was an ordinary dao actualisation or even dao essence divine emperor standing here, they would be crushed to nothing by the pressure here.

Ye Mo breathed easy. He already saw a rippled door behind the dragon bone. The cosmic chi devoured by the whirlpool was converted to dragon chi which then entered this door.

Ye Mo immediately knew that the Heaven Pan Dragon Fruit garden was behind the door. Other than this entrance, there must be another entrance to the garden.

Since Shadowless, Qiu Rang and small ginseng were too weak, Ye Mo set up a barrier formation before the door, barricading the powerful dragon chi. Then, he called them out.

"Enter the rippled door from here. It's definitely the Heaven Pan Dragon Fruit garden inside but I need to warn you. Don't get too greedy. When you come out, stay in this formation, don't leave until I come in and take you guys away."

Hearing this, the three looked at Ye Mo in shock and asked "Boss, you're not coming in with us?"

"The dragon chi here is extremely dense and is mixed with a cosmic dragon wave chi. I need to learn it. If you guys come out and I'm not out yet, wait here for me." Ye Mo answered.

"Boss, we understand." Shadowless said quickly.

Seeing the three dash in the door, Ye Mo went back to the bottle of the dragon chi whirlpool.

In order to prevent his learning being interrupted, Ye Mo threw out all the god spirit ranges and all his god crystals. He used these things to set up a top spirit gathering formation. He told Mu Xiaoyun that he was going into solitary cultivation.

Ye Mo stood on a huge rock above the dragon bones. He let the powerful chi charge at and tear at his body.

Time flew by quickly. Ye Mo didn't even know how long it had been. Powerful dragon chi was fused into his dao.

The god spirit range and god crystals's god spirit chi turned into a mist that completely surrounded Ye Mo. Dao waves flowed but there was no one to be seen.

As time went on, the god spirit range and god crystals completely disappeared. The mist gradually entered Ye Mo's body.

When the god spirit chi was completely gone, Ye Mo still stood on the huge rock and didn't move.

When the god spirit chi was completely gone, Ye Mo still stayed on the huge rock not moving. Waves of dragon chi and cosmic chi circulated around his body. Later on, it allowed him to completely fuse into this chi.

Shadowless looked dazily at the rows of Heaven Pan Dragon Fruit trees and the red Heaven Pan Dragon Fruits. He drooled and said "I'm going to die, I'm going to die..."

Qiu Rang was also dazed but all the Heaven Pan Dragon Fruit trees. How long would it take to eat all these fruits. He said before that he would be content with one, just how many were here? But before he woke up from his beautiful dream, he heard shadowless say he was going to die. He quickly asked "Big brother shadowless, what happened to you?"

Small ginseng patted Qiu Rang "Ignore this guy, he said he's going to be filled to death. He's just too excited."

While the two were still talking, shadowless already dashed up and swept a few Heaven Pan Dragon Fruit into his mouth.

Small ginseng and Qiu Rang both took a Heaven Pan Dragon Fruit tree each and picked.

The Heaven Pan Dragon Fruit was delicious and filled with dragon chi. However, small ginseng and Qiu Rang were too weak. Small ginseng only ate one. Qiu Rang just ate too and couldn't stand up from the powerful dragon chi. He could only sit below the tree and refine the dragon chi.

Shadowless ate more than 100 Heaven Pan Dragon Fruits and still wasn't finished. The Heaven Pan Dragon Fruit wasn't very precious to other people. It was at most an ordinary god spirit fruit.

But to the dragon race, the Heaven Pan Dragon Fruit wasn't ordinary. It had extremely dense dragon chi. Those who could devour this dragon chi could even use the fruit to vindicate dao. Those who could do this were all dragon race members who could devour large amounts of this fruit.

There was no way ordinary dragon race could vindicate dao with one or two Heaven Pan Dragon Fruits. The Heaven Pan Dragon Fruit could help people reach immortal friends. It could also help the dragon race make the best dragon race wine. Pan Dragon Wine is more precious.

Shadowless switched to another tree and kept devouring Heaven Pan Dragon Fruits.

He had devoured nearly 1000 Heaven Pan Dragon Fruits. The powerful dragon chi rumbled around in his body but were instantly devoured. With such large dragon chi, even shadowless couldn't keep moving.

Shadowless could only feel his dao wave keep rising and rising. The barrier between immortal tao and god tao were instantly cracked open.

Shadowless felt a powerful dragon chi and devour law being devoured by him. He was overjoyed. But when he saw that as soon as the barrier was opened, the dragon chi he devoured wasn't enough, he cursed.

Heaven Pan Dragon Fruit wasn't enough for him to reach god tao. This wasn't a problem of numbers.

Usually, shadowless would keep devouring Heaven Pan Dragon Fruit but he knew that in the garden there was heaven li fruit. This was more precious.

There was only three every ten thousand years. It was better than ordinary dao fruits.

Thinking about this, shadowless couldn't care about Qiu Rang and small ginseng. He dashed deeper in the garden to find the heaven li fruit tree.

The garden was filled with red. It didn't take shadowless long to find a blue fruit tree. This tree was many times bigger than the Heaven Pan Dragon Fruit tree. There were at least 30 fruits on it.

"This is definitely the heavenly li fruit tree." Shadowless's eyes were bursting with stars. He wouldn't call Qiu Rang and small ginseng over. He swept away ten heaven li fruit into his mouth.

But shadowless forgot that this wasn't the Heaven Pan Dragon Fruit but the heaven li fruit. The powerful dragon chi and heaven dao chi swept over like the ocean rushing into shadowless's meridians instantly bloating shadowless to a big ball.

Shadowless was worried. If this continued, wouldn't he explode.

Waves of dragon chi were devoured by shadowless like crazy. Shadowless converted these dragon chi into his own dao wave chi.

Rumble. The powerful chi broke one of the barrier and shadowless completely fell into sleep. Meanwhile, shadowless's chi kept rising and rising...

If someone came to the Heaven Pan Dragon Fruit garden now, he would be easily able to catch three guys sleeping.

Three decades passed quickly. All of them were immersed in learning of dao.

Chi Wanqing reached nascent soul in the Golden Page World. She didn't cultivate in the time formation disk or she would've been far beyond nascent soul. After Mu Xiaoyun helped Chi Wanqing reach nascent soul, she settled her mind and learned dao under the Yellow Middle Plum.

small ginseng and Qiu Rang almost woke up at the same time. Qiu Rang reached immortal spirit herb peak stage and just needed to prepare for the immortal friends divine damnation. Small ginseng's cultivation level also increased a huge level. They immediately thought of shadowless when they woke up.

"Big brother ice ginseng, how long have we been here?" Qiu Rang immediately asked.

Small ginseng calculated and said worriedly "More than 30 years. We need to hurry and find shadowless and leave. If the dragon race comes in to pick the Heaven Pan Dragon Fruit, we're over."

Qiu Rang shook his head "It shouldn't be this coincidental. The dragon race would only come in every 100 years. It's only been 30 years."

"Idiot, who knows when the last time they came in was? What if 70 years had already passed." Small ginseng cursed.

As soon as the two walked a few steps, they saw shadowless laugh and walk over.

"Shadowless, do you want to die? We're stealing things here and you dare to laugh." Small ginseng reproached.

Shadowless waved his hand “I’ve long seen you two. Why so careful? I’ve already scanned with spirit sense. There’s no one inside. Hehe. You two can follow big brother shadowless. I’m a god tao now, a very powerful one. You jealous?”

Shadowless was very happy. He reached god tao middle stage. The heaven li fruit was overpowered indeed.

“Stop calling. Boss can turn you into dust with one palm.” Small ginseng said in contempt.

“I’m not comparing with big boss. Other than boss, you find someone to compete with me? Let’s see who will turn who into dust.” Shadowless said.

Small ginseng ignored shadowless and took out a jade box “Hurry up and collect some Heaven Pan Dragon Fruits and leave.”

“What’s the rush. Let me eat some more. Although it’s tasteless but it’s better than nothing.” Shadowless said this but was more happy. Only he ate the heaven li fruit. These two idiots definitely didn’t know where it was. He must not tell these two. When he saw boss and only he took out the heaven li fruit, boss would praise him.

“Do you know long we’ve been in here for? It’s been 30 years.” small ginseng said.

Qiu Rang suddenly said “inside, there’s...”

Shadowless interrupted Qiu Rang and said “Hurry up and go, I sense someone coming.”

The two were weaker than shadowless. Hearing this, they didn’t dare to hesitate at all and quickly left with shadowless. But when they came to the place they entered, there was no door.

“What do we do?” Qiu Rang forgot about the heaven li fruit and asked desperately.

“Don’t move, I’m certain that we came in from here. The only thing we can do is wait for boss here.” Small ginseng said. Qiu Rang said shakily “but big brother shadowless already said someone was coming.”

At the same time, Ye Mo opened his eyes. The dragon chi circulating him instantly dispersed.

Ye Mo was overjoyed. In these 30 years, he brought his power to dao essence peak, just one step from completion. Luckily he had some god crystals and god spirit range. Otherwise, even if he got the dragon chi dao waves, he wouldn’t be able to reach dao essence peak stage in 30 years.

The Three Birth Chant devoured them too savagely. The later on it was, the more resources he needed. Now, he only reached dao essence peak stage and he used up almost all his resources. He didn’t even have 100 million god crystals on him.

If this continued, who knew when he would reach primordial essence. However, reaching dao essence peak stage reminded him. He needed to keep collecting god spirit range and god crystals. Otherwise, even if he had the fortune, he wouldn’t be able to reach primordial essence.

Feeling the power that was much stronger than dao essence tertiary stage and his sea of consciousness forming a void at any time, Ye Mo knew that his spirit will nine transformations went up a transformation again. If he fought with that fried egg again, he wouldn’t be any weaker than that guy. Perhaps that fried egg was no longer a match for him.

Thinking about how he could fight with primordial essence divine emperor head on, Ye Mo felt proud of himself. He had heard of first step divine emperor defeating and even killing second step divine emperor but never heard of a second step divine emperor being able to take on third step primordial essence divine emperor.

If there was such person, the stories would be in the Void Marketplace but he hadn’t heard about it.

Now, perhaps he was the only dao essence divine emperor who didn’t fear a primordial essence divine emperor.

Ye Mo was right. In the endless void, there has never been an example where a dao essence divine emperor could take on a primordial essence divine emperor. This was because the difference between dao essence and primordial essence was just too huge.

When Ye Mo came down from the rock, he remembered there was three guys who went to the Heaven Pan Dragon Fruits garden. He had cultivated here for 3 decades, he wondered how those guys were.

Ye Mo immediately went back to the restriction and found the three hadn't come back. Ye Mo went into that rippled door without hesitation.

"Boss is here..." Qiu Rang was the first to see Ye Mo come in. they have been waiting at where they came in without blinking.

Seeing the three were fine, Ye Mo breathed easy. Then, he saw all the red Heaven Pan Dragon Fruits.

"Boss, let me tell you. There's not only a lot of Heaven Pan Dragon Fruits but also..." before shadowless finished, he and small ginseng were all sent into the Golden Page World.

Ye Mo was planning to ask about the situation and pick some Heaven Pan Dragon Fruits as well as dig away a few trees. But before he spoke, his spirit sense felt something. He immediately knew someone came to the garden. He didn't dare to keep staying here. No matter how powerful he was, he shouldn't fight the dragon race.

The three had been sweeping the garden for so long. If the dragon race noticed, it wouldn't be good.

So Ye Mo sent the three into the Golden Page World and tore open the space here returning back to the barrier restriction on the dragon bone.

Ye Mo took away his formation and went up the whirlpool. When he came down, he was covered in injuries due to the grinding of the dragon chi but now that he went up, only his clothes were torn. Those dragon chi were completely ineffective to him.

In just one hour, Ye Mo flew out of the whirlpool and came back into the cosmos. He didn't stop there. He used a transmission and released a top grade flying god artefact before leaving here.

After entering the void again, Ye Mo changed a set of clothes and breathed easy. He flew further and further away. Another day later, Ye Mo slowed the flying ship down and called out shadowless and them.

“How was it? Why do you seem so unhappy?” Ye Mo saw that shadowless was very happy but small ginseng and Qiu Rang wasn't.

Shadowless took out a pile of jade box and said “Boss, I got three hundred Heaven Pan Dragon Fruits and ten heaven li fruit.”

Ye Mo immediately felt powerful chi from the jade boxes especially those ten heaven li fruits.

Small ginseng and Qiu Rang only took out ten jade boxes. Qiu Rang saw Ye Mo's shocked look and said “We were going to pick more fruits but shadowless tricked us saying there was people here. We quickly ran to the exit and saw boss come in and take us away. We didn't have time to pick Heaven Pan Dragon Fruits and so we only have these.”

Shadowless immediately argued back “I said there was people here and you believed me? It means you're not as smart as me. When boss needs things done just leave it to me. Small ginseng and Qiu Rang, you're too dumb. It's safer for you to stay in the Golden Page World.”

Ye Mo immediately asked “You guys have been in there for 30 years, how could you not have time to pick fruits?”

Small ginseng sunk his head “Qiu Rang and I ate too much and we fell asleep. Our cultivation level grew but we didn't get many fruits.”

“Hmm, shadowless you're already god tao?” Ye Mo just realised shadowless's powerful devouring chi and asked happily.

Shadowless laughed “Yes boss. I’ve already said. My talent is absurd. As long as I have things to eat, how can I not evolve?”

Ye Mo couldn’t be bothered talking to shadowless and said to small ginseng “Small ginseng, move all these fruits to the Golden Page World. Leave some Heaven Pan Dragon Fruits. Use most of it to make wine. Don’t touch the heaven li fruit yet. Put restrictions on them and place it next to the bitter bamboo.”

“Okay.” small ginseng glanced at shadowless happily thinking, you got so many fruits but I have to end up dealing with them.”

After small ginseng went in, Ye Mo looked at shadowless and asked “That heaven li fruit is extremely precious, you didn’t pick it all right?”

There’s only three fruits ripening every ten thousand years. One could imagine how precious this fruit was. If shadowless picked them all, there was no way the dragon race wouldn’t go crazy.

Shadowless said loudly “Boss don’t worry. How can I not know that? Not only did I leave some, I left behind ten. I only took 20, ten of which I ate.”

Ye Mo touched his head speechlessly. There was only 30 fruits and shadowless took 20. Although there were 30 fruits, perhaps only one in a few hundred million dragon race member would get a fruit. If he went, he would at most take ten.”

Just as they were speaking, a dashing light crossed the void and came before them in just half a minute.

Chapter 2206 Primordial essence Ceremony

“Is it pill divine Ye over there...” The sound came at the same time the dashing light came to Ye Mo.

Ye Mo stopped the flying ship. It was a flying ship coming at him but it was much bigger than his. It was an extreme grade flying god artefact.

What was coincidental was that Ye Mo knew more than half the people aboard. The two half primordial essence of Void Marketplace, Tian Rui and Kong Han as well as the skinny Peng Yuwen. This guy was a half primordial essence. After the dao fruit tower, he invited Ye Mo to go with him but Ye Mo didn't go.

Other than this, Ye Mo saw a female dao essence who was Pu Houxi from shadow void castle. There was that young castle master Lou Tai and an extremely handsome middle aged man next to him. This guy was a half primordial essence too. Ye Mo guessed that this person was the castle master.

Rarely did cultivators alter their appearances. Their looks resonated with the world law, it's not good to change it. Immortals could use their power to change their look but if they didn't use a treasure, it would damaged their dao heart. Their cultivation level would stop. To immortals, looks really weren't anything to their dao.

The castle master and young castle master were truly handsome. This was natural.

The man standing at the front of the flying ship was a blue faced ferocious looking man. He had two golden whiskers running down his face. He had an extremely powerful dragon force and was also half way primordial essence.

Ye Mo looked at this blue faced man and knew he was probably from the dragon race.

"Haha, so it's immortal friend Kong Han and Tian Rui. What a coincidence." Ye Mo saluted with his fists and smiled.

Tian Rui smiled and said calmly "Pill divine Ye is amazing, not only do you have Great Primordial God Rune dao fruit and a good cultivation method. Even I don't know if immortal friends is dao actualisation or dao essence."

Tian Rui had a scornful tone.

It wasn't hard for them to guess that he was the seller after Pu Houxi knew he had the Great Primordial God Rune dao fruit.

From this, they all knew that the light heart was in his hands but Ye Mo didn't worry at all. With his current cultivation level, he wasn't scared of these few half primordial essence.

Peng Yuwen had been staring at Ye Mo non stop. He didn't understand how Ye Mo could appear here. He thought that aquarius race half primordial essence took everything but now, it didn't seem so?

"Pill divine Ye is indeed powerful. I heard aquarius race Shen Hanchi went to find you. How come I only see you now but now immortal friend Shen?"

Peng Yuwen sneered. If he saw Ye Mo alone, he would've attack already.

Ye Mo glared at Peng Yuwen "How would I know where your lover went."

Peng Yuwen's face changed but he glanced at the blue faced man and didn't act out. he had planned that even if he didn't go to the dragon race immortal fruit ceremony, he wouldn't let Ye Mo go.

"So it's Pill divine Ye. It's an honour that Ao Xinteng could see you." The dragon race divine emperor greeted Ye Mo politely despite looking ferocious.

Ye Mo didn't act rude and quickly returned the gesture "Immortal friends Ao is from the dragon race I believe? It's an honor Ye Mo could meet a dragon race divine emperor."

Ao Xinteng said some more polite words "Although I didn't go to the dao fruit tower gathering but I've long heard of pill divine Ye's name. Now is the dragon race's immortal fruit ceremony to celebrate the dao vindication of our second primordial essence dragon divine. We've invited all the powerful beings to go witness. Pill divine Ye is the number one pill divine. Please show us the honor of coming."

Ao Xinteng knew he was human race divine emperor but he said number one pill divine when he invited him. One could see that human race really had no status in their hearts. As for this immortal fruit ceremony, he really didn't want to go. He stole that many fruits, if something happened, it would be bad.

But if he didn't go he would offend the dragon race.

Seeing Ye Mo hesitate, the handsome castle master laughed “Last time I need to thank pill divine Ye for not fussing with my son. Otherwise, I, Lou Hui, wouldn’t have such an easy time now.”

Ye Mo knew this guy meant that if he killed his son last time, he would be hunting him instead of talking here.

“Pill divine Ye, another powerful being of the dragon race reached primordial essence. This is an opportunity. All the primordial essences and half primordial essences at the place would exchange cultivation experience and things. The things of primordial essence are things we haven’t seen before. I think if pill divine Ye went, it would be good for you.” Kong Han said.

Ye Mo came up with a decision. He thanked Kong Han and said to Ao Xinteng “I don’t dare to be number one pill divine...”

Hearing this, Tian Rui said “Pill divine Ye, you might not know yet but you’re the publicly recognised number one pill divine. Many powerful beings invited you but you weren’t in the Void Marketplace. You just didn’t know.”

Ye Mo dazed. He had only left the Void Marketplace for a few decades and he was this famous already?

Ao Xinteng smiled “Pill divine Ye, no need to be humble. You’re indeed the number one pill divine. I was told by my dragon race qian bei that if pill divine Ye was at the Void Marketplace we must invite pill divine Ye. Now that I’m lucky to meet you please don’t reject this.”

Ye Mo knew that if he rejected now, it would really not be good. There were powerful beings from other races going there, if the human race didn’t go it would lower their status. Plus, Ye Mo wanted to forge an extreme grade flying god artefact. He could exchange somethings at the primordial essence beings at the dragon race.

Thinking about this, Ye Mo saluted with his fists “Since immortal friend Ao is so hospitable, then I’ll come.”

Seeing this, Ao Xinteng rejoiced and quickly said “In that case, please come on our flying ship.”

Then, the restrictions have opened.

Ye Mo took shadowless and Qiu Rang onto the ship.

“Pill divine Ye, your god beast is from my dragon race right? So powerful...” As soon as shadowless stepped on, Ao Xinteng could feel shadowless’s power.

He suspected shadowless evolved from shadowless tao dragons but he didn’t dare to say this as it was too absurd. Shadowless tao dragons were the weakest in the dragon race and it was difficult for them to evolve so in the end, the dragon race called them shadowless tao bugs.

The shadowless tao bugs were weak but shadowless was this powerful and tall. Shadowless was completely black around his body and carried golden wings. He looked very powerful. If it wasn’t that shadowless’ head didn’t seem like a dragon horse and his chi didn’t seem like it too, Ao Xinteng would think shadowless was a dragon horse.

He felt that this god beast was no weaker than dao actualisation divine emperor or was even on par with dao essence.

Ye Mo said casually “I found him, I didn’t take note if he was from dragon race.”

Seeing Ye Mo not wanting to talk about it, Ao Xinteng suppressed down his confusion and started to praise Ye Mo. As for Qiu Rang, he ignored him. There were all too many branches of dragon race that went outside.

Seeing Ao Xinteng so polite to Ye Mo, Peng Yuwen could only suppress his annoyance. He knew that he was far inferior to Ao Xinteng than pill divine Ye. He could only wait till the end of the dragon race ceremony before dealing with Ye Mo.

Kong Han and Tian Rui knew Ye Mo had the light heart but didn’t think much of it now so they joined the conversation.

Chapter 2207 I'm not fried egg

Ao Xinteng used less than two hours to come to the dragon race region. After passing through the atmosphere, it entered a beautiful planet.

Ye Mo could feel the dense god spirit chi and dragon wave chi and couldn't help admire. The Divine Dao Realm was pitiful compared to this place.

80% of the planet was ocean. The 20% of land was covered by all sorts of immortal spirit herbs. In such a large area, there weren't many places with a lot of people. The dragon race had low population density.

Ao Xinteng's flying ship passed through layers of god spirit chi abundant mountain ranges before entering a beautiful palace. Only then did Ye Mo realise that dragon palaces could be built on land too.

When the ship landed, the people stood at a wide pavement made with white jade essence stone. The two sides were dragon sculpted pillars. Ao Xinteng just put away the flying ship and a pretty dragon race immortal goddess came.

Ao Xinteng frowned "Why do I feel something happened?"

The goddess came up to Ao Xinteng and bowed "Teng divine master, something happened at the fruit garden. The dragon divine requests you to go over. I'll take the guests to the guest palace."

Ao Xinteng's heart sunk. He had a bad feeling and it really became true. He knew now wasn't the time to ask. He quickly said to Ye Mo and a few half primordial essences "Immortal friends can go to our guest palace and enjoy some immortal fruits. Ao Xinteng will be back soon."

Ye Mo and them quickly said "Go as you please immortal friend Ao."

As soon as Ao Xinteng left, Peng Yuwen's attitude to Ye Mo became bad. He stared coldly at Ye Mo "Pill divine Ye, you're unlucky. When you go back I will still invite you but this time it's not up to you."

The castle master was annoyed that Ye Mo took 10 billion god crystals and taught his son a lesson but he didn't make it this obvious. He was happy to watch.

Kong Han and Tian Rui weren't close to both sides. They were actually closer to Peng Yuwen so they couldn't say much now.

Now that Peng Yuwen provoked him Ye Mo said "I only accept invitations from people. Did dogs learn to invite too? Animals are animals."

Peng Yuwen was furious and about to act out but this pretty dragon race girl quickly said "valuable guests, it's the guest palace of the dragon palace ahead. Our dragon race got another primordial essence dragon divine. We've invited many primordial essence emperors here to the palace."

Peng Yuwen immediately remembered that this was the dragon palace. He was an insect to primordial essence divine emperors. If they got annoyed, he would be easily crushed.

The group followed the girl into the extremely spacious yet luxurious guest palace. There were more than twenty people sitting inside. Each one had a dragon race girl next to them.

"Hmm, a few little guys came late and still dares to act noisy outside." A sneer sounded.

Ye Mo noticed this was a man with black robes. His hair was like a tree and his face was like a fence with blue and aqua stripes.

This person was a primordial essence divine emperor. His water chi made Ye Mo guess this person was the aquarius race divine emperor.

Seeing this primordial essence annoyed, the group quickly bowed and said at the same time "Greet Deshui divine emperor..."

Then, they bowed to the rest of the divine emperors. They were half primordial essence but they were nothing to primordial essence divine emperors.

As they moved, Ye Mo and them soon stood out. Ye Mo didn't bow to anyone at the door. Not only this, shadowless and Qiu Rang didn't bow too.

The dragon race girl looked at Ye Mo in shock. Ye Mo came with these half way primordial essence so clearly he wasn't primordial essence divine emperor. Seeing Ye Mo stand not move, she was worried. If any primordial essence divine emperor got angry, they could easily crush him with the lift of a hand.

Not only this, but everyone else looked at Ye Mo with confusion. Ye Mo showed himself to be a dao essence divine emperor but he dared to act like this.

Abyssal race primordial essence Len Shuoqi knew Ye Mo. Seeing Ye Mo's cultivation level rise a little he knew Ye Mo was primordial essence divine emperor but just pretended to not be one. He didn't feel strange at all.

They were all equals, why did Ye Mo have to bow to them.

Jiao Dan monk saw Ye Mo come in and immediately looked away and sent an immortal fruit to his mouth. The person he didn't want to see the most was this guy. Now that Len Shuoqi was here too, who knew if they were conspiring.

Seeing Ye Mo's cultivation level rise a little, he knew that Ye Mo was definitely primordial essence divine emperor. This guy liked to act weak.

Kong Han and them saw Ye Mo act like this and sighed. Ye Mo was seeking death. No one could save him in such a place. Peng Yuwen rejoiced. This guy finally sought death himself. Who did this guy think he was? Acting like this in front of primordial essence divine emperors. This was challenging their authority.

Deshui divine emperor was just going to teach Ye Mo a lesson when he heard this little dao essence divine emperor say "Fried egg, you're here earlier than me, haha..."

Everytime Ye Mo thought of this name he wanted to laugh. This primordial essence divine emperor really knew how to give himself a name.

Jiao Dan immediately got up in fury and yelled at Ye Mo “Little worm, I’ve told you many times that I’m not fried egg, I’m Jiao Dan.”

“Fried egg, I warn you. Don’t call me worm or I won’t let it easy on you.” Ye Mo sneered.

Jiao Dan lost face in front of this many primordial essence divine emperors and said awkwardly “I won’t call you worm but don’t call me fried egg. If you call me fried egg I will call you worm. Won’t let it easy on me? I’Lu Li tell you the truth, I’m not scared of you.”

A primordial essence divine emperor swore with Ye Mo like a little kid. This made all the people here confused. No one could understand what this was. A dao essence divine emperor dared to say these things to a primordial essence divine emperor but this primordial essence divine emperor could only argue.

Just what was going on? Shouldn’t it be the primordial essence divine emperor crushing this cocky dao essence divine emperor with one hand.

Deshui who anted to teach Ye Mo a lesson immediately stopped seeing this. He knew Jiao Dan all too well. He wouldn’t lose out at all. Ye Mo made him lose face but he didn’t attack. Other than taking into consideration the dragon race, it was that he wasn’t confident enough.

“Immortal friend Jiao, who is this guy?” Deshui asked Jiao Dan.

Jiao Dan said with annoyance “Ask yourself, I’m going to eat fruits.” Then he ignored Deshui.

Chapter 2208 Subtle Battle

Peng Yuwen saw that Ye Mo wasn’t afraid of Jiao Dan and his face instantly went pale. He was going to teach Ye Mo a lesson before. This was suicide. Lou Hui was also shocked. He rejoiced that he didn’t do anything to Ye Mo.

Tian Rui and Kong Han were shocked but they weren’t scared. Ye Mo was on good terms with them and they realised that no wonder Ye Mo didn’t go into the dao fruit tower and no wonder he didn’t fear the

aquarius race. This guy was a stealthed primordial essence divine emperor. He was strong and liked to play tricks on people, what could you do?

The half primordial essence who hunted Ye Mo was clearly killed.

The dragon race girl realised that this human dao essence was actually a primordial essence divine emperor. No wonder he didn't care about the primordial essence divine emperors here.

She quickly said to Ye Mo "qian bei please sit here."

Then, she led Ye Mo to sit with the primordial essence divine emperors. Even shadowless and Qiu Rang sat next to Ye Mo.

Then, did the girl arranged Tian Rui and them to sit.

Plates of top immortal fruits were sent up. Heaven Pan Dragon fruit was amongst them. Ye Mo hadn't had them before so he grabbed one and tried. It was quite nice.

Qiu Rang was too weak and didn't dare to keep eating. He was extremely excited. In the past, how could he come to such ceremony. Even his dad couldn't come but now, he could not only sit here but also enjoy the top Heaven Pan Dragon fruit.

"You're the human race pill divine? You were the one who killed my demon race Gong Xiang at the dao fruit tower distribution gathering?" A cold voice sounded.

Ye Mo looked at this divine emperor. His face was grey. Ye Mo could tell that this was a primordial essence divine emperor.

"Who are you?" Ye Mo asked.

“Demon Race Pu Yangsi. Don’t you think that using your cultivation level to kill a dao essence divine emperor is losing face?” The man said coldly. He guessed that Ye Mo was a primordial essence divine emperor. He asked this one was to reproach and second was to subtly check Ye Mo’s cultivation level.

Ye Mo’s tone went cold “Pu Yangsi, when I killed Gong Xiang, I didn’t challenge him. He challenged me. Can your demon race not even afford to lose? Plus so what about my cultivation level? Even if I’m a primordial essence divine emperor can you tell that I am? If you can find a primordial essence divine emperor that can hide as a dao essence divine emperor and not get recognised and kill all the dao essence divine emperors at the dao fruit tower then it’s your power. If you can’t find one don’t bullshit me here.”

You...” Pu Yangsi was furious. Even primordial essence divine emperor didn’t dare to be this rude with him. Ye Mo was asking to die.

“Haha...” A crisp laugh broke the intense killing chi here.

Ye Mo found that it was an extremely young girl who was laughing. She wore red immortal robes and seemed very pretty. She also had this royal temperament that made people feel ashamed of themselves.

Ye Mo could tell she was a primordial essence divine emperor. Her chi seemed familiar. He sensed this on Tang Xiaoyu and Tang Qi.

So she was a phoenix race primordial essence divine emperor Ye Mo realised.

“Pill divine Ye, I’ve heard Tang Qi mention you. I heard you know Xiaoyu that little girl. When would you have the time to come to my phoenix race and concoct a few god pills for me? I won’t mistreat you.” The girl said.

Ye Mo saluted with his fists, how may I refer to you sister?” Ye Mo saluted with his fists.

The little girl laughed, I’m Tang Congyin. Remember that. You must come to my phoenix race when you’re free. It’s as good as here.”

Hearing her interrupt him, Pu Yangsi was very annoyed but he said nothing more. She looked like a young girl but he knew clearly how powerful she was. Her temper wasn't as good as she showed. If he argued with her, he would definitely ignite this keg. The best decision was to shut up.

Ye Mo could only say "Thanks for your invitation sister, Ye Mo would definitely come when I'm free."

People here are beginning to understand what sort of person Ye Mo was. If you were polite to him, he wouldn't do anything but if you want to suppress him then just look at Pu Yangsi.

Ye Mo then finally had the time to greet Len Shuoqi "Immortal friend Len, we meet again so soon."

Len Shuoqi squeezed out a smile "yea, we meet again this quickly. Immortal friend Ye got stronger, congratulations."

Deshui finally realised who Ye Mo was. He was the divine emperor who killed more than 100 aquarius race divine emperors at the god rank square. Hearing Wen Deshui got up immediately as killing intent spread across his face "So you're the pill divine Ye who killed more than 100 aquarius race divine emperors. Very well, I didn't expect to see you here today. If I don't refine your soul how can I let you go."

At the same time, his huge lethal force erupted shaking the space here.

Before his lethal force reached Ye Mo, it was broken by Ye Mo's spirit sense realm domain. The surroundings calmed down again.

It seemed to other people that Wen Deshui had the lower hand but in fact, Wen Deshui only used his lethal force but Ye Mo used spirit sense realm domain. Wen Deshui didn't truly attack but Ye Mo did.

This was subtle but other people didn't see it like this. No one would check with spirit sense when two primordial essences were fighting. They just saw Ye Mo easily stop Wen Deshui. They were right, pill divine Ye was a primordial essence divine emperor.

Ye Mo then said with intense lethal intent “You won’t let me go? I didn’t want to let you go. I came to the dragon race primordial essence ceremony, I don’t want to deal with you now. after I leave the dragon race I’ll teach you a lesson. Your aquarius race thinks the human race is easy to abuse and dares to challenge our human race. Is 100 divine emperors a lot? If more human race divine emperors is killed by aquarius race for no reason, I promise I will go to the aquarius race and slaughter that place.”

Hearing this, Wen Deshui’s face changed. Other people thought he was angry but only he knew why his face changed.

Before he came here, the aquarius race sent more than ten void space ships to annihilate the Divine Dao Realm. That would definitely be enough to turn the Divine Dao Realm to dust.

He didn’t expect the human race had a primordial essence divine emperor like Ye Mo. If the aquarius race really annihilated the human race, how could Ye Mo settle.

If he couldn’t kill Ye Mo then what would be the consequence of a primordial essence divine emperor attacking the aquarius race? There were battles between races but no primordial essence divine emperors were involved. If the aquarius race annihilated human race, how could Ye Mo dumbly agree to this rule?

“Welcome immortal friends, due to somethings happening at the dragon race, we’ve wasted so much of your time, I’m extremely sorry. Ao Lan will drink first.” A golden haired man walked in and drank a cup of wine.

Chapter 2209 Disaster of the broken realm

This person was dragon race primordial essence divine emperor but he didn’t have dragon whiskers. Behind him was a man with red hair who was also primordial essence. However, his chi wasn’t as perfected as Ao Luan. Ye Mo guessed that this was the new primordial essence divine emperor of the dragon race. Ao Xinting who brought Ye Mo and them over stood at the last position.

Everyone got up to congratulate the new primordial essence divine emperor. Ye Mo got up too.

At this moment, the red haired man behind Ao Luan saluted with his fists "Thank you immortal friends for coming to the dragon race and celebrating Ao Xi reaching primordial essence. Cheers to all of you."

Then, the red haired man drank the entire cup.

The divine emperors there all raised their cup and drank it all. The wine was the number one wine of the dragon race, Pan dragon wine. It was extremely aromatic. Qiu Rang this wine belly already drank an entire kettle.

When everyone finished, Ao Luan took Ao Xi to greet everyone seated. They didn't even leave behind some half way primordial essence divine emperor. Clearly, he was well mannered.

When Ao Luan walked up to Ye Mo, he dazed. He didn't know Ye Mo. Ye Mo was sitting in such an obvious seat, he should at least be a primordial essence powerful being. How was he only dao essence power? Ye Mo's seat was arranged by that dragon girl as she considered Ye Mo a primordial essence divine emperor.

Ao Xinteng saw this and quickly said "Dragon divine master, this is number one pill divine pill divine Ye..."

Hearing this, Ao Lun was overjoyed and quickly said hospitably "So it's pill divine Ye here. Ao Luan is so embarrassed. I've long wanted to meet pill divine Ye but I wasn't able to send the invitation to you personally. Please forgive me."

As a primordial essence divine emperor, he spoke to a dao essence divine emperor like this. One must admit that Ao Luan really knew how to act.

If it was an ordinary dao essence pill divine, he would be overwhelmed.

But Ye Mo had seen enough primordial essence divine emperor and he was on par with them. He got up and saluted with his fists "Dragon divine you're too polite. I've long heard that the dragon race is prosperous. Now that I see it, it's indeed extremely prosperous. Congratulations on another primordial essence dao vindication."

Just when Ao Luan wanted to speak, he suddenly saw shadowless and asked in shock "Pill divine Ye, this is?"

Ye Mo said casually "An immortal pet of mine. He later gained his own consciousness and thus became my friend."

Ao Luan raised a brow and glanced at shadowless again but he didn't keep asking. He laughed and kept greeting the other divine emperors.

Then, Ao Luan said "The ceremony is about to begin, immortal friends please come with me to the dragon palace." All the guests left the seats and headed to the dragon palace with Ao Luan.

Deshui divine emperor walked at the last and sent out a dashing light when no one saw.

Deshui did it subtly but everyone here knew that Deshui sent a message. No one would care about a primordial essence divine emperor sending a message.

Divine Dao Realm ship harbor. This had always been the harbor from the Divine Dao Realm to the void or the Void Marketplace. The ships here were owned by a few powerful god sects. This was a monopoly. Anyone who wanted to go to the Void Marketplace had to go through the ship harbor.

Before, the harbour didn't take god crystals for divine emperors who used this place to enter the void. They only took god crystals for those who took their ship. A few hundred years ago, a dao moulding divine emperor used his own flying magic artefact and left to the void. Since then, the rules changed.

All those who left from the harbor had to pay god crystals.

This rule changed again 20 years ago. 20 years ago, a ship much higher level than the highest level ship at the harbor stopped here.

Most importantly, nearly 700 divine emperors and immortal emperors came off the ship. Most of them were dao moulding divine emperor and dao nourishment divine emperor but some were dao actualisation divine emperor and there were eight dao essence divine emperor.

This power was enough to wipe out the entire Divine Dao Realm more than tens of times. These people immediately took over the harbor when they came.

The manager of the harbor didn't dare to say anything facing this many divine emperors and dao essence divine emperors. Much less, amongst the 700 people here, the Great Sun God Mountain dao essence divine emperor Kai Feng and Dong An as well as Immortal Goddess Sacred Sect dao essence divine emperor Wang Nanshuang were included.

The two sects already owned part of the harbor but they were on the side of this new power.

This new power not only took over the harbour and built a new sect in the Divine Dao Realm called Divine Dao Sect.

Before, the most powerful and famous sect in the Divine Dao Realm was Great Sun God Mountain but now, the new sect Divine Dao Sect was countless times stronger than Great Sun God Mountain. The Divine Dao Sect was established at the center of the Divine Dao Realm. A few hundred divine emperors built a sect together. They've also brought countless materials from the Void Marketplace. Even in a broken place like the Divine Dao Realm, the Divine Dao Sect seemed extremely grandiose.

When the immortals of the Divine Dao Realm realised that the main goal of the Divine Dao Sect was to repair the Divine Dao Realm and build a realm protection sect, they all supported this. Even the two dao essence divine emperor returning to Great Sun God Mountain and the dao essence divine emperor returning to Immortal Goddess Sacred Sect soon brought over large amounts of sect building resources.

Due to the establishment of the Divine Dao Sect, the Divine Dao Realm went from dead and withered to a lively atmosphere.

Other than Dong An, Wang Nanshuang, Luo Qinghe and Qin Xuanji who reached dao essence divine emperor in the void using the Qian Essence fruit, another dao actualisation peak stage called Shang Mu also reached dao essence.

The current power of the Divine Dao Sect was no weaker than the top sects of other races. Plus, they had a dao essence divine emperor called Qiao He to help.

But today, not just Divine Dao Sect but the other sects of the Divine Dao Realm all sent powerful beings to the ship harbour.

Ever since the harbor was taken over by Divine Dao Sect, it's scale and design was tens of times greater than before. But because the Divine Dao Sect was newly founded, not many ships stopped at the harbor making it seem a bit empty.

However now, it wasn't empty but was instead heavy and lethal. The entire void was under this pressure.

More than ten extremely large void ships spread across in a line outside the harbor. If it was Luo Qinghe and them stopping these ships, they would've dashed into the Divine Dao Realm.

The void ships had extremely powerful void law formation. If they charged into the realm, even the biggest mountains would be pulverised.

The Divine Dao Realm law was extremely chaotic and weak. Once these powerful void ships entered, it would tear the already weak and chaotic laws even more.

The aquarius race brought many divine emperors and many immortals. Clearly, they wanted to annihilate the Divine Dao Realm human race.

Luo Qinghe knew why they came. Ye Mo led them and slaughtered more than 100 divine emperors at the Void Marketplace. There was no way they wouldn't get revenge.

Seeing a half primordial essence leading the charge, Luo Qinghe knew things wouldn't be settled easily. He only hoped that when the battle begun, more human race could escape. The sect leader said before that if they couldn't win, preserving strength was the most important thing.

“Luo Qinghe, is Ye Mo here? He killed that many divine emperors of the aquarius race. Does he think he can escape by hiding here?” An aquarius race dao essence divine emperor sneered.

Luo Qinghe and Qin Xuanji knew this person. It was the divine emperor who lost half his body at the god rank square due to Ye Mo. Yao Pu.

The half primordial essence was just standing on the side looking at them in contempt. To him, there was no one worth him attacking here. He led the charge but he was also here to stop anyone from getting away.

Chapter 2210 The Battle That Suddenly Stopped

“Yao Pu, even if you kill all of us, sect leader Ye will pull aquarius race from the roots. If you don’t believe then you just wait.” Luo Qinghe knew there was no point in begging for mercy.

Yao Pu laughed “The sect leader Ye you’re talking about is Ye Mo right. There’s probably not a single bone left of him. Does he still want to live after killing so many of our aquarius race divine emperors?”

Then he yelled “aquarius race people, human race slaughtered more than 100 of our divine emperors. Today, we shall get revenge. Charge together. Let them know that the blood of the aquarius race will not be spilled in vain. Slaughter them all and leave nothing behind.”

“Wait.” Qiao He suddenly stood out.

Yao Pu had long seen Qiao He. He said before Qiao He could speak “Qiao He, I know you’re from the Guang Yuan palace and I know you have a primordial essence divine emperor. But I’m going to tell you, this is the conflict between the human and aquarius race. If your Guang Yuan palace is going to intervene, the aquarius race is not scared of you.”

Qiao He was lost for words. He was confident he could talk Yao Pu down because Yao Pu was only a dao essence divine emperor and couldn’t make the decision. But now that Yao Pu said this meaning that this was consented by the aquarius race primordial essence divine emperor.

Looking at the other half primordial essence of the aquarius race, Qiao He knew that he was of not much use now. “Kill...” Yao Pu roared and charged towards Luo Qinghe.

The rest of the aquarius race immediately charged up. There were quite some human race but their overall power was far weaker than the aquarius race.

In just a short contact, countless died and injured from the human race. Luo Qinghe saw Wang Nanshuang, whom he had a good impression of, lose an arm to an aquarius race dao essence tertiary stage. His eyes glared in fury. His blue sword turned into sword veils that covered the void before him. The ordinary aquarius race divine emperors inside were torn to bloody mist.

All sorts of magic artefact rays were activated. They all had killing intent. In just a short while, the entire battlefield emanated with lethal chi. Those weaker ones would soon be swept in by the lethal chi and killed.

Because the space lethal force was getting more and more intense, the two sides were affected by this. They went more crazy and destructive.

As the killing intent grew crazy and the two sides were going to completely fall into carnage, a beam of light suddenly landed in the hand of that half primordial essence. This divine emperor's face changed immediately and he said "Everyone stop, aquarius race retreat. Get on the ship."

The aquarius race heard this and immediately retreated.

Luo Qinghe and Qin Xuanji were covered in blood. They didn't know why the aquarius race suddenly retreated after gaining such a huge advantage but they were shocked at how obedient the aquarius race was.

From this, one could see that even if the human race and aquarius were equal in power, it was more likely that the human race would lose.

"Master Hong divine, we had the absolute advantage. If we kept charging, they would cripple and then we can annihilate them. Why did we stop?" Yaopu said with extreme dissatisfaction.

This half primordial essence frowned. He really didn't like someone who was weaker than him talking to him like this. However, Yaopu was taken much more seriously than him in the aquarius race.

So, this half primordial essence divine emperor explained “Deshui divine emperor sent a message telling us not to attack the human race yet and return to the aquarius race first.”

“Why?” Yaopu asked in confusion. His tone was serious. He really didn’t understand why things were like this. The human race slaughtered more than 100 divine emperors of their aquarius race in the Void Marketplace. Four of them were dao essence divine emperor. They came here so arduously and just killed a few hundred.

When the half primordial essence was reproached again, his face sunk and he said uncomfortably “Since Deshui divine emperor sent the message, you can go reproach him.”

Then, this half primordial essence ignored Yaopu and said to the other dao essence divine emperors “Pack up the ship and retreat immediately.”

Yaopu was annoyed but he didn’t dare to rebuke Deshui divine emperor.

Seeing the aquarius ships leave, Luo Qinghe and them looked at each other. They really didn’t understand what was going on. They came so ferociously but left so quickly.

“What are they doing?” Qin Xuanji frowned and asked.

Luo Qinghe shook his head and said “let’s not care why they left. We should save the injured here first. Our realm protection formation needs to be rebuilt as well.”

Qin Xuanji glanced at Luo Qinghe and said “Set realm protection mf? Do you think you know primordial essence formation grandmaster?”

Luo Qinghe felt his nose awkwardly. Even though the Divine Dao Realm was a broken realm, a primordial essence divine emperor was needed to set up realm protection formation.

Qiao He said guiltily “Three sect leaders, pill divine Ye left me here wanting me to help but I wasn’t able to help with anything.”

Luo Qinghe quickly said “Immortal friend Qiao already helped a lot. The aquarius race suddenly left might be due to concerns of Guang Yuan palace. Don’t think too much, I believe sect leader will definitely go to the Guang Yuan palace.”

Qiao He didn’t threaten away the aquarius but during battle he didn’t back out at all.

Ye Mo and them went with Ao Luan into the dragon palace. To be honest, this was Ye Mo’s first time seeing such an luxurious palace.

He had been to top level auctions and sects as well as many palaces. Before seeing the dragon palace, Ye Mo thought some palaces were quite nice but after seeing the dragon palace, it was like comparing a straw hut to a golden palace.

In the extremely spacious dragon palace, rows of guest seats were prepared. Tens of thousands of dragon race members were standing on the two rows of the dragon palace. The weakest members here were immortal emperors. One could see how powerful the dragon race was. Plus, this was only a small part of the dragon race’s power.

Thousands of pretty dragon race goddesses wore immortal robes and stood on the two sides of the guest seats.

Ao Luan looked happily around the dragon race members before saying to the guests “Immortal friends please have a seat and use our dragon race immortal fruit and pan dragon wine.”

When Ye Mo and them sat down, there were dragon race goddess coming to serve them immediately.

“Today is the ceremony for our dragon race divine emperor Ao Xin reaching primordial essence. The immortal friends coming to our dragon race to celebrate brings great honour to the dragon race. The dragon race is also keen on using this opportunity to form eternal alliance with all the races.” Ao Luan raised his wine cup and drank it all.

At this moment, one person amongst the guest got all. This was an extremely handsome looking young man. His hair reached his shoulders and he seemed very confident. It was as though the entire world was in his control. This man also raised his cup and said “Today we’re all here to congratulate Ao Xi

divine emperor reaching primordial essence. Because there are a lot of guests, I, Zhuge Zhichen, will take lead and represent all the guests to congratulate Ao Xi divine emperor reaching primordial essence.”

Hearing this, all the guests got up and drank the entire cup.

Zhuge Zhichen was also a primordial essence divine emperor. Ye Mo hadn’t heard of this guy but he could guess this person was from the beast race.

When everyone sat down, Zhuge Zhichen took out a jade box and gave it to a dragon race goddess next to him, “Just a measely gift.”

could do.
