Chapter 2231 Nine Arrows of Divine Extermination

In a space sealed for unknown years, little blue finally pulled out the god slaughter grey spear. He had been melting this spear for nearly 1000 years and finally melted most of it. Then, he pulled the spear.

The god slaughter grey spear was a Primordial Spirit Artefact but now little blue threw it on the side like trash. Little blue's attention was focused on Ye Mo. As soon as this spear was pulled away, Ye Mo's injuries were instantly filled by the chaos tree's life force.

Before the life force emitted by the chaos tree and the destruction of the god slaughter grey spear formed a balance. Without the chaos tree, countless Ye Mos would've turned to dust.

Now that the god slaughter grey spear was pulled away, Ye Mo's life force rapidly recovered.

But soon little blue noticed something wrong. Ye Mo's life force and body were repaired but Ye Mo still floated in this space having no signs of waking up.

This time, little blue was truly worried. He thought pulling the god slaughter grey spear away would wake Ye Mo. In reality, that was the only thing little blue could do.

Little blue saw a subtle tree behind Ye Mo. It immediately thought of the chaos tree and quickly called "Big tree, I've done all I can. The rest is up to you. If you still can't wake boss up, you're too shit."

Little blue learned most of his language with shadowless and small ginseng.

However the chaos tree didn't disappoint little blue. Even if little blue didn't speak, the chaos tree intended to help.

A boundless tree appeared not far behind Ye Mo. It emitted endless life force and chaos tree. These chi were all sent into Ye Mo's body.

Ye Mo's completely destroyed foundation nirvanaed. His meridian and sea of consciousness reformed. After a light cracking sound, Ye Mo woke up.

Instantly, Ye Mo realised that the chaos tree was rebuilding his foundation through nirvana. He forgot he had the chaos tree. Other people's foundation may never be recovered after being destroyed but that didn't include him.

The chaos tree was the number tree across countless realms. It was born with the universe. What couldn't it do?

Plus, this chaos tree went through nirvana just like him. It knew how to build his foundation better.

Ye Mo didn't want to think about anything else. He cooperated with the chaos tree and life force rebuilding his foundation and sea of consciousness. His power was recovering, he was getting stronger.

The sea of consciousness went through nirvana, void and the life and death nirvana. Now, Ye Mo's spirit will nine transformations reached the eighth level samsara. Immediately, Ye Mo's sea of consciousness stabilised. His spirit sense could easily pierce out this void.

Ye Mo forced down his surprise and joy. He was still at dao essence power but there was a fundamental change to his sea of consciousness. He could even penetrate this restricted space with his spirit sense. This meant that his spirit sense was beyond ordinary primordial essence divine emperor.

His cultivation level was still rising. Countless dao laws were brought over by the chaos tree letting Ye Mo constantly learn.

Dao essence peak stage, half primordial essence.

When Ye Mo's dao was at half primordial essence, he resolutely cut off the insertion of life force and chaos chi from the chaos tree.

Ye Mo got up and looked at the chaos tree behind him that was less than 3 meters tall. He felt very sad. If he didn't suddenly wake up, that chaos tree might turn back into that sapling.

He didn't need to sacrifice the chaos tree to vindicate his dao. He had his own dao. The chaos tree helped him reach half primordial essence and repaired his foundation. He was very grateful and satisfied.

With his current power, he would definitely not be heavily injured like this if he fought the five primordial essence divine emperors again.

Ye Mo took out the remaining chaos chi from the Golden Page World and gave it to the chaos tree without hesitation. Then, he took the chaos tree into his sea of consciousness.

Seeing all the floating magic artefact, storage ring and truth spirit world. Ye Mo didn't know if this battle was worth it. No one would be able to get all these things through a thousand years of solitary cultivation.

Ye Mo took these things and picked up the Golden Arrow of Divine Extermination that pinned Feng Guang. He kicked Feng Guang's skull away and said to little blue "Thanks to you little blue."

Ye Mo didn't completely die. He had some impression of little blue melting and pulling the god slaughter grey spear.

"I didn't lose anything. I also ate a god flame. It tastes ordinary." Little blue said. Then, it seemed to think of something and pointed at the half melted god slaughter grey spear. "Boss, this spear is melted but it's not simple."

He thought that since boss liked collecting magic artefacts so much, why didn't it like this spear.

Ye Mo glanced at the god slaughter grey spear "I don't like this spear and I don't want to repair it. Let's go little blue."

Ye Mo took little blue and tore open the void here.

When his spirit sense scanned Nianyan, she was dao actualisation peak stage. He sighed. He had ever seen someone more talented than Nianyan. In just a thousand years, she was dao actualisation peak stage. However, after he killed Feng Guang, he didn't plan to see her. He just wanted to leave here quickly.

"Wanqing, I seemed to have felt husband's chi just then." Mu Xiaoyun suddenly got up and said.

Before Chi Wanqing could speak, she heard Ye Mo's voice "Xiaoyun, you're right. I'm back."

Mu Xiaoyun suddenly turned around and when she truly saw Ye Mo next to her, she hugged Ye Mo tightly calling "Husband..."

Ye Mo touched Mu Xiaoyun's hair, "Xiaoyun, your progress isn't great."

"Wanqing, I didn't expect you're immortal king already. We'll go back to the immortal realm together and I'll take you to the title tablet square for king naming." Ye Mo saw Chi Wanqing's eyes were red. Clearly, she was very worried about him.

"Mhm, brother Ye, as long as you're back." Chi Wanqing said.

After Ye Mo spoke with Mu Xiaoyun and Chi Wangqing, Qing Ru came over. Then, small ginseng and shadowless ran over.

Ye Mo felt surprised why Qing Ru was still dao moulding divine emperor. And, he also felt an extremely familiar dao wave on Qing Ru.

However, this involved Qing Ru's dao path so he didn't ask.

After talking for a while, the group left the Golden Page World and came to Ye Mo's Mo Yue boat. Of course it was shadowless and small ginseng controlling it. Ye Mo and them chatted for a while letting them enjoy the vast void view. Ye Mo went to check his loot.

In the Golden Page World, Ye Mo looked at the pile of extreme grade god spirit range and was completely dazed. These primordial essence divine emperors were too wealthy.

Ye Mo found nearly 300 billion god crystals. Compared to the countless materials, magic artefact and god spirit herbs, these god crystals were nothing. This wealth truly shocked Ye Mo. Just how long would he need to concoct and forge to use them all?

Plus, there were mountains of magic artefacts. Did he even need to forge any?

What gave Ye Mo the greatest surprise was Zhuge Zhichen's thing. When Ye Mo picked up the landscape painting scroll. This was a Primordial Spirit Artefact.

However, Ye Mo also found a chaos space magic artefact. It was a gourd and inside was all abstruse yellow chi.

Ye Mo sighed, he wasn't the only one with great fortune. Zhuge Zhichen was rather young but he was primordial essence divine emperor and had this many good things. If he didn't die, these abstruse yellow chi was enough to help him form a five element world.

However, he died to little blue.

Ye Mo looked down on Wen Deshui the most but he gave Ye Mo an even bigger surprise. Ye Mo found the last Golden Arrow of Divine Extermination in his truth spirit world. Finally, Ye Mo's set was complete.

No wonder Wen Deshui wanted the Golden Arrow of Divine Extermination. He already had one.

Ye Mo collected these things and had decided to go back to the Divine Dao Realm first.

Repairing the Divine Dao Realm required primordial essence power. He was only half a step from primordial essence. The chaos tree was on him but it was quite withered due to helping him. However,

the abstruse yellow chi would help. He just needed to find the missing piece of the World Mountain and then spirit control the entire World Mountain.

Chapter 2232 Unable to be suppressed

“Boss, we’re about to reach the Void Marketplace. Should we go in?” Shadowless felt extremely satisfied controlling the Mo Yue Boat.

“Let’s have a look.” Since they were going past it, Ye Mo wanted to go in and look. Xing Hong helped him a lot. Although he helped Xing Hong a lot too, Ye Mo was still very grateful to Xing Hong.

“Taishu Luan, long time no see.” As soon as Ye Mo entered the Void Marketplace, he saw a black robed man. Ye Mo immediately recognised this person. It was Taishu Luan who dealt the primordial essence dawn fruit with him. Taishu Luan was previously god rank number one but he had long reached dao essence now.

“It’s you?” Taishu Shi looked at Ye Mo in shock. There was a few people behind Ye Mo and even an ice ginseng king.

Ye Mo was half primordial essence now. He didn’t even fear primordial essence divine emperor so when he entered the Void Marketplace, he took shadowless and them out. the Void Marketplace was very busy. Although the Golden Page World was good, it would get boring if you spent too much time inside. Plus, they have been staying inside for more than 1000 years.

“That’s right, it’s me. I’m as nice as before.” Ye Mo smiled at Taishu Luan.

When Taishu Luan left, he threatened him that they would meet again.

Hearing this, Taishu Luan’s face went stale but he wasn’t worried. He saluted with his fists and said “I’m no match for you now. I take back my threat to you before. However, after I reach primordial essence, I still hope to see you again.”

Seeing meant fighting. Clearly, he had heard of Ye Mo's fame. Ye Mo smiled "Then come find me when you're primordial essence. Don't disappoint me."

"Okay." Taishu Luan turned and left. After walking a few steps, he said "Pill divine Ye, I admire you a lot. At least you're not fake."

"Brother Ye what did he mean?" Chi Wanqing asked in confusion.

Ye Mo smiled "He thinks his things are very precious but I don't even consider it valuable.

Ye Mo knew that Taishu Luan had at least another primordial essence dawn fruit but Ye Mo didn't even mention it. Clearly, he didn't want it at all.

Shadowless looked at the busy streets of the Void Marketplace and almost danced in joy. He loved this place.

Boss, can you give me some god crystals and let me take Qiu Rang and small ginseng for a spin?" Shadowless looked at Ye Mo pitifully.

Qing Ru had been in the Golden Page World for this many years and knew shadowless and them very well. She smiled and said "Why don't I take them out."

Ye Mo thought that although the Void Marketplace was big and there were so many restrictions, they couldn't stop his spirit sense at all so he nodded "Okay, but shadowless remember this. If you dare to start trouble in the Void Marketplace then only small ginseng and Qiu Rang would be coming out. you will have no hope."

"Boss, I understand. I promise I won't start trouble." Shadowless said and went out before even waiting for Qing Ru.

Qing Ru got a storage ring from Ye Mo and followed shadowless and them. Ye Mo's face changed.

“What happened? Husband?” Mu Xiaoyun quickly asked.

“I’m going to the god rank square, come over immediately.” Ye Mo said and then disappeared.

“Where is the god rank square?” Chi Wanqing looked at Mu Xiaoyun in confusion.

Mu Xiaoyun pulled Chi Wanqing’s hand and said “I know, follow me.”

“Bingyu, how are you here?” Ye Mo’s voice sounded before he landed. He saw Zhen Bingyu face multiple divine emperors alone. There were even two dao essence divine emperors. There were a few divine emperors on Zhen Bingyu’s side but they looked weaker.

Both sides were emanating with killing intent. Clearly, they would be fighting at any time. Although Zhen Bingyu was dao actualisation, she might be instantly killed facing a few dao essences.

However, Ye Mo was still shocked that Zhen Bingyu’s cultivation level progressed this quickly.

“You...” Zhen Bingyu immediately saw Ye Mo. This instant, her eyes were filled with joy and excitement. She had been to the Void Marketplace countless times as Ye Mo last came to the Void Marketplace before disappearing. She wanted to see if she could find Ye Mo here and now she really did.

Ye Mo felt Zhen Bingyu’s eyes and temperament change. He didn’t know what this change was but it was different than before.

More unexpectedly, Zhen Bingyu suddenly collected her killing intent and charged up to Ye Mo hugging him. Ye Mo could even feel she was shaking.

Ye Mo dazed. How could Zhen Bingyu have such avid emotions? This wasn’t right. She was completely different to her cold look before.

This aroma and soft body squeezed into Ye Mo's arms. Ye Mo who was caught off guard felt some heat. What appeared in his mind was Zhen Bingyu taking off her clothes. However, now that Zhen Bingyu was wearing clothes, he felt more heat than before.

"I want to do the things that flesh and bodies do." Zhen Bingyu's whisper sounded by Ye Mo's ear that exploded Ye Mo's mind.

He was almost about to take Zhen Bingyu away immediately but he quickly calmed down. He instantly understood Zhen Bingyu's change.

Her dao changed. Her dao went from emotionless dao to emotional dao. This was related to him.

Ye Mo really understood why Zhen Bingyu wanted to make love to him. It wasn't that she really wanted to do that but because she wanted to help him reach divine body.

It wasn't strange for dao partners to embrace each other in the Void Marketplace. However, it was strange that Ye Mo and Zhen Bingyu embraced together.

With Zhen Bingyu's look, no one could find a woman prettier than her in the Void Marketplace. Yet such a goddess, hugged with a man in front of everyone.

Zhen Bingyu felt Ye Mo's reaction and was overjoyed. She finally sensed Ye Mo caring about her.

But soon, Ye Mo patted Zhen Bingyu's back and said "Bingyu, what's going on? Why did you almost fight those little beasts."

Ye Mo pointed at the divine emperors at a stand off with her.

"Husband..."

"Brother Ye..."

Mu Xiaoyun and Chi Wanqing came over.

Zhen Bingyu woke up from the excitement but her heart was still skipping fast. She finally felt it. Even though she was a dao actualisation divine emperor, she couldn't suppress that feeling with her power.

"Bingyu, this is my wife Mu Xiaoyun, this is Chi Wanqing." Ye Mo introduced.

"It's pill divine Ye..."

As they spoke, people already recognised him.

Ye Mo saluted with his fists to the surrounding "That's right, I'm Ye Mo."

Then Ye Mo asked "Bingyu what was going on?"

Chapter 2233 Hundred Year Later Battle

"So you're pill divine Ye. I'm aquarius race Rui Guang. This immortal friend Zheng had no respect for elders, she was extremely rude..." A tall man saluted with his fists and said.

"Haha, extremely rude." Another human dao actualisation stood out and scorned before saluting with his fists to Ye Mo "Ye qian bei, the dao actualisation divine emperor next to Rui Guang scorned qian bei at the void immortal rest tower square. He said that qian bei can only escape in the wake of primordial essence divine emperor. Goddess Bingyu disagreed and challenged him. The divine emperor didn't dare to agree but then Rui Guang suddenly came to the Void Marketplace and stopped goddess Bingyu here wanting to teach her a lesson for disrespecting aquarius race dao essence divine emperor..."

Ye Mo realised what happened. Zhen Bingyu's dao heart changed but her character wouldn't change. She wouldn't start trouble for no reason. The main reason she got angry was probably because of the aquarius race sneering at him.

Ye Mo had seen this Rui Guang on the divine rank square. He was ranked 9th amongst dao essence divine emperor.

“Pill divine Ye, when the aquarius race army attacked the Divine Dao Realm, Deshui divine emperor considered the long time friendship of our two race. Despite having a complete advantage, the aquarius race retreated...”

Before he finished, Rui Guang felt he couldn't move at all.

“Did the aquarius race attack the Divine Dao Realm?” Ye Mo's ice cold voice fell into the ears of the dao essence divine emperor.

Rui Guang completely forgot to answer. There was only shock in his heart. He was the 9th ranked dao essence divine emperor. He could even kill ordinary half primordial essence. He thought Ye Mo was only a bit stronger than him. However, he couldn't even more in front of Ye Mo. How could this huge difference not shock him?

“Ye qian bei. The aquarius race did indeed attack the Divine Dao Realm a thousand years ago. They killed nearly a thousand people of the Divine Dao Realm. For some reason, they suddenly left despite having the complete advantage. At the time, it was Yao Pu and half primordial essence Maa Hong leading the army.” The human dao actualisation explained again.

Ye Mo's face went cold. He couldn't be bothered listening anymore and waved out a lightning spear.

This 1km lightning spear appeared out of nowhere. This dao essence could only watch as the spear smashed towards his body. Instantly, his soul was annihilated.

He collected the loot and said to the other aquarius race divine emperor “Piss off and tell your race, I will soon go visit the aquarius race.”

The other aquarius divine emperors didn't dare to say a thing. Rui Guang was the number one dao essence of their race and yet he was killed by Ye Mo like an insect.

“Pill divine Ye is so dominant...” A bleak voice sounded and then a square faced man appeared.

His dao wave flowed. Clearly he was a primordial essence divine emperor. His hair stood up like metal pins.

Before Ye Mo finished, a few more people landed. The first to land was a young man. He was extremely handsome and also dao essence. Ye Mo felt a similar dao wave to Zhuge Zhichen from him.

Since he was related to Zhuge Zhichen, he was definitely from the beast race. This square faced man was probably from the beast race too.

He didn't expect beast race to have two primordial essence divine emperor.

The two people who came later were Kong Han divine emperor and Peng Yuwen. They were both half primordial essence.

“Greet pill divine Ye.” The two quickly bowed.

Peng Yuwen was more respectful. Ever since leaving the dragon palace he felt very scared of Ye Mo.

The square fell silent with the arrival of the primordial essence divine emperor. Ye Mo was very powerful but on the surface he wasn't primordial essence divine emperor yet. Plus, many things about Ye Mo was stories. Even though Ye Mo killed the 9th ranked dao essence divine emperor, Rui Guang was still a dao essence divine emperor. A primordial essence divine emperor can easily kill the strongest dao essence divine emperor.

“Pill divine Ye, why would you suddenly appear here after disappearing for so many years?” This square faced primordial essence saw that Ye Mo ignored him and his face sunk.

Ye Mo said calmly “What does that have to do with you? Who do you think you are?”

Hearing this, the primordial essence immediately emitted killing intent. The nearby divine emperors below dao essence were easily pushed away but when this lethal force came before Ye Mo, it was turned to nothing.

Seeing the two about to fight, Kong Han quickly bowed "Pill divine Ye, this is beast race primordial essence divine emperor Fan Gao..."

Ye Mo knew that Kong Han was worried about two primordial essence divine emperors fighting here. Ye Mo interrupted "immortal friend Kong Han don't worry. Even if I fight, it won't be here."

"Ye Mo, my uncle went to find you. Why are you here. Why hasn't my uncle appeared?" That handsome dao essence divine emperor couldn't resist asking.

"Are you a dog keeper? You lose your dog and you come asking me?" Ye Mo sneered.

The dao essence's face went bad. His killing intent was also bursting out. however, Fan Gao said "Tianhua, don't worry." At this moment, this primordial essence calmed down instead.

Ye Mo knew that it wasn't Fan Gao's temper improving but he felt his power.

This handsome dao essence was called Tianhua, he was probably divine dao rank number two, Zhuge Tianhua.

"Pill divine Ye our beast race primordial essence divine emperor Zhuge Zhichen and aquarius race Wen Deshui as well as demon race primordial essence divine emperor Pu Yangsi and dragon race primordial essence divine emperor Ao Xi disappeared at the same time. Now that you appeared but they haven't I hope you can give us a resolution. I know you won't now. a hundred years later, the four races will go ask at the Divine Dao Realm. As for the conflict between pill divine Ye and the aquarius race, the beast race will take it."

Fan Gao pulled Zhuge Tianhua "Tianhua, let's go. We'll seek an answer a hundred years later."

Before Ye Mo could respond, he took Zhuge Tianhua and left soon disappearing from the void.

The surrounding people saw that even Fan Gao didn't dare to fight Ye Mo and immediately knew that the tales were true. Ye Mo was truly a primordial essence divine emperor.

Ye Mo didn't care. He knew why Fan Gao decided a hundred years. Zhuge Tianhua was dao essence peak stage. He definitely would be able to reach primordial essence in a hundred years. He was also going to use these hundred years to contact the other races and attack the Divine Dao Realm together.

Ye Mo had decided to use this hundred years to get a few helpers. That Jiao dan was good. As for Len Shuoqi and Tang Congyin, even if they couldn't help him, he must ensure they won't be invited by the other races.

Now, he had to go back to the Divine Dao Realm and understand how much power they had.

"Pill divine Ye, last time you came to the Void Marketplace, we didn't greet you well, if pill divine Ye..."

Ye Mo knew Kong Han wanted to invite him over but he rejected "Thank you immortal friend Kong Han but it will have to wait till next time. I'm leaving the Void Marketplace now."

Chapter 2234 Good Thing

An extreme grade flying god artefact left the Void Marketplace and charged into the void. Fan Gao who just left stood at the front of the ship but he was very calm. He didn't seem angry at all.

Zhuge Tianhua stood next to him and also seemed very calm.

"Divine emperor, was my uncle really ambushed by Ye Mo?" Zhuge Tianhua asked seriously.

Fan Gao thought for a long while before saying "I'm not certain if Ye Mo is primordial essence divine emperor yet or not but I'm certain he's no weaker than me.

A thousand years ago, his power was definitely not at this level. Even Pu Yangsi would be no weaker than him much less Zhichen. I would definitely not believe that Ye Mo can kill four primordial essence

divine emperor face to face. But that Ye Mo is very cunning and experienced in formation. If Ye Mo ambushed them, there's a sliver of possibility. However, I'm certain that Ye Mo knows something about them four disappearing as they disappeared at the same time."

Zhuge Tianhua opened his mouth but didn't keep asking.

"Did you want to ask why I didn't take him out at the square?" Fan Gao saw this.

Zhuge Tianhua nodded "Yes, you're stronger than my uncle. With Ye Mo's power, we should be able to take him."

Fan Gao shook his head "You underestimate him too much. He left easily with five primordial essence divine emperors going after him at the dragon palace. Even if evenly matched with him, you wouldn't be able to stop him.

Plus, if we fight with Ye Mo at the square it would hinder us seeking help from other races. Other people would think we lost to Ye Mo and then we went to them for help. This would put the beast race at a disadvantage. Of course, this is just one of the reasons."

"Does divine emperor want me to reach primordial essence within a hundred years?" Zhuge Tianhua asked.

Fan Gao nodded "That's right. Regardless, it's no small matter that primordial essence divine emperors of the four race disappeared going after Ye Mo. Perhaps they had conflict over the chaos green lotus or perhaps they were ambushed by Ye Mo. The beast race only has me as primordial essence divine emperor other than Zhichen.

The demon race is mysterious. I'm certain they still have one or two primordial essence divine emperors left. Didn't you see that as soon as Pu Yangsi disappeared a Yi Yuanzhou jumped out. As for the dragon race, they have even greater foundations. Other than Ao Xi, they definitely have more than just Ao Luan. As for the aquarius race, although they have a lot of dao essence divine emperors, I'm certain the only primordial essence divine emperor is Deshui.

If you vindicate primordial essence, then no matter how scary that Ye Mo is, I can fight him feeling assured. Otherwise, I would be very limited.”

“I understand. Where are we going now?” Zhuge Tianhua answered.

Fan Go said “Of course the demon race. I heard the demon race has a saint who is dao essence peak stage power just like you. I’ll take you to see the demon race primordial essence divine emperor. It’s best that we can have a marriage alliance before fighting Ye Mo.”

Zhuge Tianhua didn’t object.

Small ginseng, shadowless and Qiu Rang followed Qing Ru and happily wandered the streets of Void Marketplace. Although small ginseng was ice ginseng king, no divine emperors at the Void Marketplace were idiots. How could an ice ginseng king who dared to roam the streets be simple. Plus, shadowless had this powerful dragon chi. No one dared to mess with them.

Some people have already found out that small ginseng and them came with pill divine Ye to the Void Marketplace.

“Martial sister Qing Ru?” In a joyful voice, Nie Shuangshuang appeared before Qing Ru.

Qing Ru was happy to be able to see someone she knew at the Void Marketplace. She didn’t really like Nie Shuangshuang’s dao. She felt Nie Shuangshuang was too cold and emotionless.

“Saint Shuangshuang, I didn’t expect to see you here.” Qing Ru said.

Hearing Qing Ru still call her saint and not martial sister, Nie Shuangshuang’s eyes dimmed a little but she soon recovered. “Martial sister Qing Ru, you’re also a dao moulding divine emperor after all these years...”

After pausing for a moment, Nie Shuangshuang asked “martial sister Qing Ru can I talk to you privately?”

Qing Ru glanced at shadowless and them. Before she could speak, shadowless called “Qing Ru boss go do what you need to do. Small ginseng and Qiu Rang are protected by me, they’re definitely fine.”

“Boss?” Nie Shuangshuang stared at shadowless in shock. She didn’t understand how a goddess like Qing Ru became a boss. Plus, why did she feel shadowless was familiar. He looked like her immortal pet.”

“Okay then.” Qing Ru saw that shadowless and them were excited and didn’t want to disappoint them.

In a small immortal rest tower, as soon as they sat down, Nie Shuangshuang asked “Martial sister Qing Ru, when I activated the Ice God formation, did you break open it?”

Qing Ru knew what nss wanted to say and nodded.

Nie Shuangshuang fell silent for a long while and asked “Did you look down on what I did so you didn’t want to go back to the Ice God palace?”

Qing Ru nodded and still didn’t speak.

Nie Shuangshuang bit her lips and suddenly said “Martial sister Qing Ru thank you for opening it.”

Qing Ru suddenly got up and smiled “Even if I didn’t open it, it wouldn’t be able to do anything to Ye Mo. I’m going, take care.”

Nie Shuangshuang got up too, “Martial sister Qing Ru, did you come here alone?”

“No, I came with Ye Mo.” Qing Ru felt she didn’t need to hide this.

“Ye Mo, he’s, at the Void Marketplace too?” Nie Shuangshuang suddenly felt her throat becoming dry.

Qing Ru sighed “Yes, he’s here, I’m going.”

Seeing Qing Ru get to the door, Nie Shuangshuang finally reacted and asked shakily again “What’s that dragon horse looking god beast?”

“That’s, Ye Mo’s god beast. It mutated from shadowless bug. It’s probably from the dragon race...” Qing Ru suddenly felt Nie Shuangshuang was pitiful. She vindicated dao but what difference was this dao vindication to not vindicating dao?

Thinking about this, she took out an exquisite extreme grade flying immortal artefact and said “Ye Mo gave me this, you should have it.”

Then Qing Ru left leaving the dazed Nie Shuangshuang.

Nie Shuangshuang’s brain was in a complete mess. Shadowless bug? Was the two frosty eggs shadowless bug? She saved Ye Mo and had her soul frozen by that huge egg. It was because of that that Ye Mo took her to the immortal realm.

Her egg also turned into a cute immortal pet.

Nie Shuangshuang woke up but found that Qing Ru was gone.

She picked up the ship and suddenly noticed the words at the tail of the ship ‘Shuangshuang’s immortal ship’. Nie Shuangshuang finally realised why Qing Ru said Ye Mo gave her this.

Ye Mo definitely prepared this ship for her but she ambushed him. Ye Mo was extremely disappointed and gave the ship to Qing Ru. Now, Qing Ru gave it back to him.

Nie Shuangshuang’s hands were shaky. She suddenly really wanted to go see Ye Mo but she knew she had no face to see him.

“Small ginseng, I quite like this.” In front of a stall, shadowless grabbed a grey wood into his hand.

“What is it?” Small ginseng and Qiu Rang squeezed over.

Shadowless laughed “You won’t understand even if I tell you. Small ginseng just pay the god crystals. Stall owner, how much is this wood?”

The stall owner was only a dao nourishment divine emperor. He could tell shadowless was interested in this. His eyes spun and he said “God beast master. Everything I have here is the best. This thing is just 1 million god crystals.”

“Not expensive. This is good...” Shadowless said. The stall owner immediately realised that he made the price too low despite raising it ten times. He should’ve asked for 5 million. Now that shadowless grabbed this and said this was good, many people came to watch immediately.

Small ginseng felt around for a while and said with a bitter face “God crystals are with sister Qing Ru. I have no god crystals.”

“What are you doing? Why don’t you have god crystals. I won’t take you out to play next time. Qiu Rang hurry up and ask Qing Ru boss for god crystals. I’m waiting for you here.” Shadowless ordered.

“Hmm...” Someone checked the grey wood in shadowless’s hands with spirit sense.

“God beast immortal friend can you show me this wood?” A dao actualisation divine emperor saluted with his fists. Shadowless immediately grabbed the wood tightly “No, I’ve already bought this.”

“You haven’t paid god crystals yet. This thing doesn’t belong to you. Are you going to forcefully buy?” That dao actualisation divine emperor said.

Small ginseng murmured “You have no experience. You didn’t even buy the thing and you_re saying it’s good.”

Chapter 2235 Chaos Tree Hear

When Ye Mo saw shadowless, he saw a blue light grab at the wood shadowless clutched. Without hesitation, Ye Mo broke through space and grabbed it too.

Thud. The space around shadowless was smashed open by two giant essence chi hands. Even the stall before shadowless turned to dust. Luckily, these two giant hands didn't let the essence chi expand.

Even though shadowless reached god tao, he was smashed away by this terrifying explosion. The surrounding divine emperors were all pushed away by a powerful space force.

"Boss, you're here?" Shadowless stood dustily and looked at Ye Mo.

He saw boss grab a grey wood. At the same time, he saw a green robed strange who stood before him. He was the person who tried to rob his wood.

This green robed person wasn't simple to be able to fight over the wood block with boss.

The surrounding people also realised that Ye Mo and the green robed person weren't simple. Plus, some people recognised Ye Mo.

At this moment, small ginseng and Qiu Rang who were sent flying away finally came back.

"Give me the wood..." the green robed man was shocked. He really didn't expect someone to attack later and still rob the thing. Since when did the human race have such powerful person.

But he only finished half a sentence before stopping. He dazily looked at Ye Mo and subconsciously asked "It's you?"

He seemed to have seen Ye Mo before.

Ye Mo wasn't going to hand out what he got. He put away the wood block and looked at him "You know me?"

"I don't know you. I've never seen you." The green robed man immediately said and tore open space. He was extremely shocked. Ye Mo was only a truth realisation state level eight little cultivator and now he was on par with him. How many years has it been? How insane was this guy?

The nearby divine emperors saw someone easily tear open the space at the Void Marketplace and immediately held their breath. No one dared to talk. All those who could tear open space here was definitely primordial essence divine emperor. Ye Mo clearly had the upper hand to be able to fight over something with that person and make that person not dare to fight back. Clearly Ye Mo was a primordial essence divine emperor too.

From this, one could see that the grey wood was something good but no one dared to ask.

"How much is your stall, I'll compensate you." Ye Mo looked at the dao nourishment divine emperor.

"30 million..." The divine emperor answered carefully. Even if Ye Mo didn't say this he didn't dare to ask for compensation.

Ye Mo took out a storage ring and said "This is yours."

Now, Zhen Bingyu, Mu Xiaoyun and Chi Wanqing walked over. The last was Qing Ru. When she saw Zhen Bingyu who was on par with her in beauty, she sighed suddenly and slowed down her footsteps.

"Let's go." Ye Mo looked at them and said. Then he waved to Qing Ru, "Qing Ru, hurry, we're going."

Qing Ru sped up and hesitated for a moment before saying "Brother Ye, I want to stay at the Void Marketplace and venture alone just like Fu Fei. Perhaps that way, I would be able to find the dao suitable to me.

Mu Xiaoyun immediately asked in shock "Qing Ru, didn't we agree on going back to the Divine Dao Realm together? Why did you suddenly..."

Chi Wanqing was more sensitive than Mu Xiaoyun. She subconsciously glanced at Zhen Bingyu and looked at Qing Ru. She found that these two were on par in beauty. Qing Ru suddenly wanted to stay in Void Marketplace. This was definitely related to Zhen Bingyu but she didn't want to say this.

Ye Mo didn't expect this too but he soon understood Qing Ru's choice. Staying with him would mean she wouldn't experience dangers. She wasn't anything to him. It was very awkward for her to stay with him like this.

Thinking about this, Ye Mo took out a storage ring to Qing Ru "Since you want to stay in the Void Marketplace, of course I will respect your will. There's some cultivation resources in there and a god rune bead. It has three god runes inside. It's for you too."

Nie Shuangshuang stood at one corner and saw Ye Mo and them leave the Void Marketplace. She suddenly felt a little lost. At this moment, she thought about the ice grave she left at the Ice God palace. She thought of the words she left behind.

"Don't think about the past. Work hard on vindicating dao essence and then go back to the Ice God Palace and see." A soft voice interrupted Nie Shuangshuang.

"Martial sister Qing Ru, how is it you?" Nie Shuangshuang turned around and looked at Qing Ru in disbelief.

Before Qing Ru could answer, she desperately asked "Martial sister Qing Ru, you came with Ye Mo to the Void Marketplace why didn't you leave with him? Are you not his woman..."

Nie Shuangshuang suddenly felt she was speaking too vulgarly. She should've said dao partner.

Qing Ru smiled "Does his woman have to stay next to him? He has his own thing to do. I've vindicated dao now and I have my own things to do."

"Huh..." Nie Shuangshuang dazed again. She didn't expect Qing Ru to have advertently admitted it.

Above Mo Yue boat, everyone circulated around Ye Mo. Qiu Rang asked desperately “Boss, what is that block of wood?”

“Shadowless, how did you recognise this wood?” Ye Mo looked at shadowless in confusion. This wood almost turned into an extremely ordinary spirit wood.

Shadowless said awkwardly “I felt this thing was very tasty so I wanted to eat it.”

Ye Mo was speechless. It was shadowless’s instinct to eat.

He took out the wood again “This is the tree heart of the chaos tree. I don’t know why the chaos tree heart would be in a small stall in the Void Marketplace.”

He didn’t know if the green robed person recognised it too but if he did, he was definitely a primordial essence divine emperor who had come in contact with the chaos tree.

Ye Mo’s words immediately shocked everyone. Chaos tree heart? This was no simple thing.

Chi Wanqing and them looked at Ye Mo in confusion. The chaos tree was on Ye Mo, how could there be such ancient tree heart?

“This is probably the tree heart of the chaos tree before nirvana. It was broken up by a few primordial essence divine emperor and dispersed into the universe. I got the nirvana seed of the chaos tree. The other parts of the tree spread elsewhere.” Ye Mo sighed.

“Boss, can you use this tree heart to upgrade the chaos tree again?” Small ginseng immediately asked.

Ye Mo put away the tree heart and said “Indeed but I have a better use for it. The chaos tree heart with abstruse yellow chi and repair the life force of the Divine Dao Realm and prevent the god spirit chi spilling.”

“What a pity.” Small ginseng murmured. He was closest to Ye Mo’s chaos tree.

Ye Mo got up and said “I’m going inside to forge realm protecting formation flags. After returning to the Divine Dao Realm, I will set up a realm protection formation. Shadowless, small ginseng and Qiu Rang control the ship...”

Then, Ye Mo waved open a space door “You guys can enter the Golden Page World from here at anytime.”

“I’ll go in too.” Seeing Ye Mo go in, Zhen Bingyu quickly followed.

“Bingyu, this is for you. There are some dao fruits and cultivation resources you need. With these, dao essence won’t be distant for you.” Ye Mo said.

Zhen Bingyu came in wanting to help Ye Mo reach divine body but before she could speak she was dazed by the scene inside.

Chapter 2236 Return To Divine Dao Realm

Streams of god spirit range stacked up in mountains. Endless mountain ranges, rivers, oceans, grass plains, deserts...

Under shadowless and their management, the Golden Page World was far from the world it was before. There were also immortal spirit beasts running in certain locations. Most importantly, Zhen Bingyu saw the expansion of the cosmos. She even saw a sun hidden in the clouds.

This definitely wasn’t a small world nor a truth spirit world. It wasn’t even five element world. This was a real chaos world.

Then, she saw Yellow Middle Plum that was full of fruits. She saw Great Primordial God Rune fruit, she saw bitter bamboo...

Even though Zhen Bingyu was a dao actualisation divine emperor, she was dazed by this scene she wouldn’t even dare to dream of.

“This is chaos world?” After a long while, Zhen Bingyu asked in shock.

Ye Mo nodded “Yes, you can live in here too. This is our world.”

Ye Mo had some feelings for Zhen Bingyu. He thought about her more than once. Zhen Bingyu was completely different to Qing Ru in his heart. When he left things for Luo Ying and then he would think of Zhen Bingyu.

When he saw Zhen Bingyu and she wanted to make love with him, this made Ye Mo have much less concerns. However, he didn’t plan to do that yet. It would at least be after he saw Luo Ying.

Zhen Bingyu wasn’t dumb and she knew that Ye Mo had more than one partner. She was planning to give herself to Ye Mo and help him reach divine body and then search for opportunity to reach dao essence. Now that Ye Mo said this, she immediately understood that if she was willing, she could stay with Ye Mo forever.

“Of course I’m willing. There are so many opportunities for reaching dao essence here. I don’t want to leave.” Zhen Bingyu answered in surprise and joy.

Ye Mo knew Zhen Bingyu’s character. If she didn’t want to stay here, she wouldn’t stay even if there was primordial essence opportunity. She said this just to give herself an excuse to stay.

“Ye Mo, we...”

Before she finished, Ye Mo stopped her and pulled her into his arms, “We’ll wait till you reach dao essence. Then I will take you to see Luo Ying.”

Zhen Bingyu suddenly lost her dao heart. She felt she was shaky and soft.

Ye Mo felt some fire too but he let go of Zhen Bingyu. He thought of Luo Ying, Qingxue and Song Yangzhu.

Sensing this, Zhen Bingyu cooled down too.

“I want to help you reach divine body.” For the first time, Zhen Bingyu felt her face was burning. Before, she could be naked in front of Ye Mo and not feel like this. When she told Ye Mo she wanted to make love to him, she didn’t feel worried like this.

Ye Mo felt her hair and said “I know, I’ve already reached divine body under this opportunity.”

Zhen Bingyu looked at Ye Mo in disbelief. Ye Mo didn’t use the entire chaos blue reed but he could still reach divine body?

After a long while, she breathed easy “So close.”

“What was so close?” Ye Mo immediately asked.

Zhen Bingyu smiled “When you come with me to the place we divided the chaos blue reed I will tell you. You can go forge your formation flags, I’m going to prepare for learning dao essence.”

Then, Zhen Bingyu ignored Ye Mo and left.

Ye Mo looked at her figure and really didn’t understand what she meant by so close.

Shadowless and small ginseng weren’t nearly as fast as Ye Mo controlling the ship but Mo Yue boat’s level was too high. In just two years, they came to the Divine Dao Realm harbor.

Shadowless and them stayed in the Golden Page World. Ye Mo took Chi Wanqing and Mu Xiaoyun out of the boat.

Ye Mo looked at the messy and chaotic realm protection formation and sighed. Any race would be able to come and go as they please. There wouldn’t even be a warning.

But Ye Mo knew that it was impossible to set up realm protection formation before he was primordial essence divine emperor. He didn't know if Jue Wuheng saved Jue Ya. If Jue Ya was saved, then it would be unreasonable if he didn't even help with formation.

"Immortal friends stop..." As soon as Ye Mo and them landed on the Divine Dao Realm land, a dao moulding divine emperor and two immortal emperors landed.

Ye Mo nodded. Although the realm protection formation wasn't set up, Luo Qinghe and them were rather careful with the guarding of the place.

"Sect leader is back..." A joyful voice sounded. A dao actualisation divine emperor crossed over. The tens of people behind him also came.

Ye Mo knew this dao actualisation divine emperor. Ye Mo didn't know his name but Ye Mo knew he came from the Void Marketplace.

Hearing the Divine Dao Sect sect leader was back, all the immortals from the harbor came over wanting to see who this legendary sect leader was.

"Sect leader, I'll message the vice sect leaders and tell them to come over?" The dao actualisation divine emperor said excitedly.

Ye Mo waved his hand "No need, I'm going to see how well the Divine Dao Sect is doing. When I come back here again, I will be setting up realm protection formation."

The Divine Dao Sect was in the center of the Divine Dao Realm. It was closer to the harbor. The Divine Dao Realm was extremely huge. The distance was still immense.

So, the Divine Dao Sect set up a teleportation formation to the harbor. However, Ye Mo didn't take the teleportation formation. With his current power, the entire Divine Dao Realm was under his spirit sense. He used a simple transmission and was at the entrance to the Divine Dao Realm.

The Divine Dao Sect looked grand. The dense god spirit chi and powerful look made Ye Mo very happy. Luo Qinghe and them worked hard on the sect indeed.

Ye Mo's spirit sense scanned casually in the sect and knew there were at least tens of thousands of sect members. This wasn't too big but to be able to do this in a thousand years was very amazing.

He didn't leave behind many resources before, it wasn't even one corner of his current assets. The Divine Dao Realm was also deprived of resources. Luo Qinghe and them definitely worked very hard to make the Divine Dao Realm look like this.

Now, they finally got news that Ye Mo came back. The sect doors were immediately opened and everyone came out.

"Sect leader..." Luo Qinghe, Qin Xuanji and them were dao essence divine emperor but they were still extremely excited.

Seeing Luo Qinghe and them still at dao essence primary stage and just stabilising their cultivation level, Ye Mo knew they lacked cultivation resources. They didn't leave the Divine Dao Realm for the sect, otherwise, their power would at the very least be stabled.

Ye Mo, Xiaoyun?"

As soon as Ye Mo heard this, Mu Xiaoyun charged over in surprise and joy "Master, martial sister Biyue..."

Ye Mo saw Lan Qilan and Luo Biyue. He didn't expect they were in the sect too.

"Xiaoyun, we're members of the Divine Dao Sect now." Lan Qilan said excitedly. She didn't have enough power to leave the Divine Dao Realm and the Divine Dao Realm was deprived of resources. Luckily, the Divine Dao Sect dominantly rose up. They joined Divine Dao Sect without hesitation. Only after joining did they realise the sect leader was Ye Mo.

Luo Qinghe and them just built Divine Dao Sect as Ye Mo and wanted. As for repairing the Divine Dao Realm, they still needed to wait for Ye Mo come back. They didn't expect this wait was more than a thousand years. Luckily, Ye Mo finally came back.

"Let's go in and talk." Ye Mo knew that the Divine Dao Sect was very popular now but if they couldn't repair the Divine Dao Realm, the Divine Dao Sect would stop here and might even decline.

Chapter 2237 Enter the God Necropolis Domain again

"You're Eternity Divine emperor?" When Ye Mo told them his title was Eternity, almost everyone in the meeting palace got up in shock. Ye Mo's words were too shocking.

When an immortal reached immortal king, they would get a title. All these titles came from the immortal king tablet. Even though the Divine Dao Realm was broken, it still had an immortal king tablet.

Never has anyone gotten the title Eternity. This title meant that even if the universe was destroyed, this person would still exist. If one couldn't handle this title, he would definitely die under divine damnation.

"Sect leader, your title..." Qin Xuanji was the person who knew about how to repair the Divine Dao Realm and knew that Eternity divine emperor was needed to repair the Divine Dao Realm. She immediately guessed if Ye Mo gave himself this title to repair the Divine Dao Realm.

Ye Mo knew what she thought and said "I got my title from the title king tablet of the immortal realm. Don't worry everyone. This time, I got the chaos tree heart and abstruse yellow chi. I plan to divide some abstruse yellow chi for everyone to reach primordial essence divine emperor in the future. I'll use the rest along with chaos tree heart to repair the life force of the Divine Dao Realm."

Everyone's eyes immediately lit up. Luo Qinghe stood up in excitement. His life long goal had been to repair the Divine Dao Realm. The two news Ye Mo brought was too shocking.

Xu Feng said excitedly "Sect leader, we need primordial essence divine emperor to repair the Divine Dao Realm. Should we invite Jue Ya qian bei."

Ye Mo was Eternity divine emperor but he wasn't primordial essence divine emperor.

"Jue Ya came?" Ye Mo heard this and immediately asked.

Yes, Jue Ya qian bei came with Jue Wuheng saying they owed you a favour to guard the Divine Dao Realm for a hundred years. After staying at the Divine Dao Realm for a hundred years, they disappeared."

Shang Mu quickly said. He reached dao essence on the way from Void Marketplace to Divine Dao Realm.

Qin Xuanji said in contempt "This person is extremely selfish. He said he would protect for a hundred years but he just went into solitary cultivation for a hundred years. He didn't do anything. However, his son Jue Wuheng wanted to stay longer but was dragged away by that old guy. Inviting such primordial essence divine emperor is just wasting food. This guy is far worse than Guang Yuan palace Qiao He."

Ye Mo was also extremely unhappy with Jue Ya. This guy was a human primordial essence divine emperor. Was it that hard to help build a realm protection formation? If he knew Jue Ya was such person, he would never agree to Jue Wuheng's conditions.

"Qiao He went back?" Ye Mo asked. He had no guilt killing Feng Guang but that would mean he had enmity with Qiao He now.

"Yes, immortal friend Qiao left after a hundred years."

Ye Mo nodded "I'm only one line from primordial essence divine emperor but I'm not scared of any primordial essence divine emperors now. And, I can set up realm protection formation..."

Before they could rejoice, Ye Mo said again "And, I also found where the World Mountain is. After I repair the Divine Dao Realm, I'll go see if I can get the World Mountain and repair the realm meridian."

This time, it wasn't just joyful news now. when they first gathered together to form the Divine Dao Sect, they wanted to repair the Divine Dao Realm and was full of hot blood. However, everyone was very calm and knew it wasn't simple.

No condition for repairing the realm was simple but now, Ye Mo said he could pretty much do all of it.

"I thought this was just to help gather the popularity of the human race. I didn't expect the realm could really be repaired." Qin Xuanji said shakily.

When she first brought the news back to Divine Dao Realm, she knew there was very little chance of happening.

But now, Ye Mo brought back hope. Extremely big hope.

The group discussed some specifics about repairing the Divine Dao Realm and growing the Divine Dao Sect. Ye Mo took out most of what he got to the Divine Dao Sect and these dao essence divine emperors. He was going to repair the realm, he would have to leave to them for the growing of the sect.

Before he repaired the Divine Dao Realm, Ye Mo needed to go somewhere.

Chi Wanqing and Mu Xiaoyun stayed in the Divine Dao Sect. They needed to cultivate and couldn't follow Ye Mo.

Ye Mo gave the two a jade card. With this, they could go into his Golden Page World at anytime.

God Necropolis Domain.

Ye Mo came here first. The God Necropolis Domain was under his spirit sense but his spirit sense couldn't penetrate in. He was going to repair the Divine Dao Realm so he wasn't going to allow this block to stay outside.

The first time he went in here, he almost died to the life crippling bridge. This was his second time coming here but the God Necropolis Domain had no dangers to him at all now.

In just a few steps, Ye Mo came before the life crippling bridge. There were still more than ten divine emperors here learning god art. Ye Mo's spirit sense scanned across the entire God Necropolis Domain and found there were tens of people inside but not a single familiar face.

Gongyang An wasn't here. Kong Chengtian wasn't here. As for that white faced scholar who had feud with him, he wasn't here too.

When Ye Mo's spirit sense scanned to a dried river, he finally saw a familiar person. It was a middle aged woman, dao actualisation Gan Xintong. However, she was heavily injured.

Ye Mo walked to her in one step. Gan Xintong got up in shock but when she saw it was Ye Mo she said in surprise "Brother Ye, you're still in here?"

She thought Ye Mo hadn't left as well.

Ye Mo smiled "I went out and came back in."

"What?" Gan Xintong said and then she realised Ye Mo was joking with her. How could one come back in the God Necropolis Domain after going out? no matter how strong Ye Mo was, he wouldn't be able to do this unless he was primordial essence divine emperor.

Ye Mo knew Gan Xintong didn't believe him so he said "Sister Xintong, I've reached primordial essence divine emperor. I've built a sect in the Divine Dao Realm called Divine Dao Sect and I want to repair the Divine Dao Realm. The God Necropolis Domain is a part of the Divine Dao Realm so I came in to see the situation."

Instead of explaining, he might as well just say he was primordial essence divine emperor.

Hearing this, Gan Xintong was shocked but she believed him. However, she didn't dare to call Ye Mo brother.

Ye Mo learned from Gan Xintong that a few hundred years ago, some dao actualisation wanted to cross the life crippling bridge and just disappeared. Hearing this, Ye Mo sighed. Even at dao actualisation, you can disappear with one slight mistake.

Knowing Gan Xintong wanted to go out, Ye Mo tore open the restriction of God Necropolis Domain and sent her out. At the same time, he sound transmissioned in the God Necropolis Domain that the God Necropolis Domain would be closed. Everyone inside would be teleported out.

Then, Ye Mo just grabbed everyone out.

He thought that if there was nothing on and on the other side of the life crippling bridge, he would fuse the God Necropolis Domain and Divine Dao Realm.

If there was some strange things, he would change here into a secret realm. The Divine Dao Realm was broken and had very little secret realms. This would only benefit the Divine Dao Realm.

After everyone went out, Ye Mo stepped on the life crippling bridge for the second time.

Chapter 2238 Repair the Divine Dao Realm

When he first got on the bridge, his soul was almost blown away by the bleak wind here. Under the guidance of Ji Xi, he stood on the yin line and walked along the wall to survive. This time, the bleak wind automatically disappeared outside his realm domain.

Ye Mo waved out a purple flame and the bridge immediately cleared up. The bleak wind was instantly melted. The bridge before him cleared up.

A simple bridge made with a few bamboo strands appeared before Ye Mo. Ye Mo saw Gongyang An who sat at the center of the bridge. However, his chi was extremely faint. Gongyang An probably knew that he couldn't pass the bridge so he sat down.

With Ye Mo's current cultivation level and formation skills, he could tell this bridge was just an illusion formation. This illusion formation was set up with very high level means. There was a teleportation hole

below the bridge. Ye Mo scanned his spirit sense in and knew it was a teleportation formation. Based on the chi, it was probably connected to the nether realm.

If one fell off the bridge, their soul would be swept away by the illusion formation. Their soul would be teleported through the black hole onto the samsara bridge. Why did someone set up an illusion formation here?

Below the bridge was a real river but it was covered by the illusion formation and seemed very eerie.

The bleak chi that blew away souls were real. Ye Mo released little blue and swept over.

Instantly, all the bleak chi were burned clean.

With this, the illusion formation was broken. Gongyang An suddenly woke up. He got up and then saw Ye Mo.

“What is this? Hmm... you’re immortal friend Ye? How did you get behind me?” Gongyang An looked at Ye Mo in surprise.

Ye Mo took out a pill and gave it to Gongyang An “Immortal friend Gongyang, your formation is damaged. Eat this pill first and I’ll send you out. This is just an illusion formation, it’s not really life crippling bridge.”

Gongyang An ate the pill and subconsciously asked “Illusion formation? Wait, how did you get behind me immortal friend Ye... Hmm, what pill did you just give me?”

Gongyang An spent more than a thousand years defending against the yin wind and chi. His brain was a little stale. He felt his spirit sense and god essence rapidly recover. Even his life force started to recover. Immediately, he knew Ye Mo’s god pill wasn’t simple.

“Immortal friend Gongyang, I’ve vindicated primordial essence. Now, I’m going to repair the Divine Dao Realm so I came to the God Necropolis Domain to see what’s going on here. How about I send you out now?” Ye Mo could only explain again.

“Immortal friend Ye... you’re already primordial essence divine emperor?” Gongyang An dazed. This Ye Mo was weaker than before but now he reached primordial essence divine emperor? This change was too fast.

Ye Mo knew Gongyang An wouldn’t be able to process things quickly. He tore open the restriction here and set Gongyang An out. When Gongyang An calmed down, he would know what happened.

Next, Ye Mo came to the other side of the bridge. He waved a few times and smashed tens of formation flags. Then, a lush mountain range with extremely dense god spirit chi appeared. There were all sorts of immortal spirit herbs, god spirit herbs and even fake chaos spirit herbs. Ye Mo even saw many types of dao fruits.

There were also countless restrictions, formation and ferocious beasts here. Ordinary divine emperors wouldn’t even be able to scan their spirit sense out.

This was a protected ground that hadn’t been destroyed. Ye Mo was very shocked. He didn’t know why someone set up an illusion formation here to protect this place.

Ye Mo walked to the end and saw a tablet. He immediately realised what happened. The tablet wrote that the Divine Dao Realm was being destroyed. The human race would have no chance of having another primordial essence divine emperor. The Immortal Goddess Sacred Sect saint Qing sealed the only remaining secret realm of the Divine Dao Realm. If someone could pass the life crippling bridge, they would be able to find the chance to vindicate primordial essence.

Once reaching primordial essence, he must take on the responsibility of bringing prosperity to the Divine Dao Realm. Looking at this, Ye Mo suddenly felt respect.

He heard that the reason the Divine Dao Realm was able to remain was because saint Qing sacrificed her life. She thought this far ahead and left behind a place like the God Necropolis Domain.

There were many god art marks outside. If one was talented enough, it wasn’t impossible to reach her secret realm.

Yet all these years, no one was able to cross the bridge. Even Ye Mo came here after reaching primordial essence level.

No wonder Ji Xi knew about how to cross the bridge. Saint Qing left behind this secret realm but still hoped that it would be someone from the Immortal Goddess Sacred Sect to cross the bridge.

Regardless, what saint Qing did was worthy of respect. Although the selection of the life crippling bridge was too harsh, it wouldn't be able to find a truly insane person otherwise.

Ye Mo didn't touch the things inside the secret realm. Since she could leave these things to save the human race, he could leave what was inside for others. Even if the Divine Dao Realm was repaired, it would need some secret realms to recover power. The God Necropolis Domain was the best place. Plus, with what he had now, he really didn't need these things.

However, there was no need for the life crippling bridge. There were too little chances of crossing it. Secret realms were to give people fortunes not to end their lives.

Ye Mo took away the tablet and reset some restriction and formation. This place will be a cultivation secret realm of the Divine Dao Realm in the future.

After setting up the secret realm, Ye Mo came out of the God Necropolis Domain but he didn't leave. He had decided to repair the Divine Dao Realm life force here and then search for the World Mountain.

Ye Mo shot abstruse yellow chi into the realm and Ye Mo turned the chaos tree heart into life force. As the abstruse yellow chi fused into the broken realm, countless huge ravines, broken mountain ranges, dried rivers and seas started to recover with Ye Mo using his grand power to fuse the chaos tree heart in.

At this moment, people in the Divine Dao Realm saw this. Facing such unprecedented greatness, they all rushed out of their residence and solitary cultivation grounds...

Immortals who searched for god spirit herbs stopped, immortals who traded stopped, immortals who fought, discussed and cultivated all stopped. They flew into the sky and looked excitedly as the Divine Dao Realm was slowly repaired.

Some extremely old divine emperors knelt on the ground praying for the Divine Dao Realm. Some weaker cultivation level people saw divine emperors kneel on the ground and so they all knelt too praying for the Divine Dao Realm.

“This is Divine Dao Sect starting to repair the Divine Dao Realm...”

“I actually the Divine Dao Sect was using the name to take over the Divine Dao Realm. I didn’t expect they really are repairing the realm.”

“It’s the sect leader of the Divine Dao Sect coming back. The Divine Dao Sect sect members said that as soon as their sect leader came back, the Divine Dao Sect would begin repairing the Divine Dao Realm.”

The human race will finally prosper, the fortune of the Divine Dao Realm has come back.”

“Luckily our human race has a primordial essence powerful being like Divine Dao Sect sect leader. Otherwise, we will forever cower in the Divine Dao Realm.”

Excited discussions sounded in every corner of the Divine Dao Realm.

What excited them more was that the Divine Dao Realm wasn’t just repairing. Every corner was emitting life force. This was injecting new life force into the Divine Dao Realm.

Ye Mo stood above the God Necropolis Domain and felt quite tough. Even with the chaos tree giving him life force, he felt he couldn’t handle this.

He was no weaker than any primordial essence divine emperor and even stronger than them. No primordial essence divine emperor could compare with his sea of consciousness but repairing the Divine Dao Realm was no small matter.

If he didn’t have chaos tree and all these dao fruits, he wouldn’t be able to hold on anymore.

When inserted all of the life force of the chaos tree heart as well as the abstruse yellow chi into the Divine Dao Realm, he felt his soul shiver. The life force of the Divine Dao Realm paused.

Ye Mo sighed. There wasn't enough life force in the chaos tree heart. It couldn't completely recover the life force of the Divine Dao Realm. He knew that if he took out the chaos tree, the Divine Dao Realm's life force would be completely repaired but he really couldn't let go of it.

Ye Mo scanned his spirit sense out. when he saw countless divine emperors and immortals kneel on the ground praying for the Divine Dao Realm to be repaired, he suddenly understood what saint Qing felt.

Chapter 2239 Let Go

Despite feeling what saint Qing felt, Ye Mo still hesitated. He didn't know if he should give up the chaos tree. It was too important to him. If it wasn't for the chaos tree at the Guang Yuan palace he would've died.

Ye Mo hesitated for a long while and eventually released the chaos tree. Repairing the Divine Dao Realm wasn't just important for the immortals in here but also to him.

He had the Golden Page World, bitter bamboo and Yellow Middle Plum. He had too much good things all to himself. If he still wasn't willing to give out the chaos tree and coldly watch as the Divine Dao Realm stayed broken, he would be too greedy. He started the Divine Dao Sect and if he wasn't willing to let go of the chaos tree it would be a huge irony.

Thinking about this, Ye Mo didn't hesitate anymore.

The chaos tree had once again grew to a huge tree of one km tall under the nourishment of chaos chi. As soon as Ye Mo released the chaos tree, its endless life force expanded out with Ye Mo's god art and swept across the entire Divine Dao Realm.

"It's chaos life force..."

"It really is chaos life force, the Divine Dao Realm is going to be repaired."

The chaos life force of chaos tree instantly swept across the entire Divine Dao Realm. Some people didn't even need to cultivate and they were growing stronger.

At this moment, everyone knelt towards Divine Dao Sect. They realised that even if this chaos life force wasn't the chaos tree, it was something on par with it. Since the Divine Dao Sect even took out such treasure, it meant that they truly wanted to repair the Divine Dao Realm.

At this moment, on the largest square of the Divine Dao Sect, all sect members knelt on the ground. Even the vice sect leaders knelt on the ground. In the center of the square was an extremely huge altar. They were worshipping heaven dao, praying for the Divine Dao Realm. All the sect members knew that their sect leader was repairing the Divine Dao Realm.

"It's the chi of chaos tree..."

When Ye Mo took out chaos tree, Luo Qinghe, Qin Xuanji and them instantly felt it. They were shaking with excitement. Their spirit sense couldn't see where Ye Mo was but they knew it was definitely Ye Mo who took out the chaos tree.

At this moment, they were all touched. Ye Mo was even willing to take out the chaos tree. Everyone here worked hard to repair the Divine Dao Realm but if they had the chaos tree would they be willing to take it out?

"Sect leader, I rejoice that I believed you." Qin Xuanji murmured. At this moment, Ye Mo was her god.

"It's chaos tree." Immortal Goddess Sacred Sect Ji Xi looked at the direction of Divine Dao Sect and murmured. When she heard Ye Mo came back, she was planning to go to Divine Dao Sect. Then, she felt the Divine Dao Realm being repaired. The only person who could do this was Ye Mo. Now that Ye Mo even took out the chaos tree, she felt ashamed.

Not everyone thanked the direction of Divine Dao Sect. Gongyang An, Gan Xintong and the divine emperors teleported out from the God Necropolis Domain thanked piously towards the God Necropolis Domain. They knew Ye Mo was still in there.

At this moment, the Divine Dao Realm was in peace and harmony. There was no noisy sounds. Everyone was waiting for the Divine Dao Broken Realm to return to Divine Dao Realm.

At this moment, Ye Mo was immersed in the chaos tree, Divine Dao Realm, world law, god art law. Perhaps he had fused into the Divine Dao Realm with the chaos tree.

Ye Mo caught countless chaotic world laws. He felt these messy laws weren't suitable for the current Divine Dao Realm. At this moment, he started to immerse in these laws and rebuild the entire world law of the Divine Dao Realm.

Every time he saw a law he wasn't too clear on, he would subconsciously eat a Yellow Middle Plum.

The Yellow Middle Plums were turned into word laws. Ye Mo mastered these laws and then fused them into the Divine Dao Realm.

After an unknown amount of time, Ye Mo suddenly felt his sea of consciousness rumble again. Extremely clear dao laws and laws derived from world laws. It was as though it was grown in his will. At the same time, endless god essence filled his body.

Ye Mo knew he was no longer half primordial essence. A clear great dao wave circulated around him. The entire universe void was in his will. Ye Mo knew that he only needed to lift a hand to turn a realm into nothing.

Ye Mo suddenly opened his eyes. His spirit sense easily pierced many realms. He even saw the immortal realm.

"This is the power of primordial essence divine emperor?" Ye Mo murmured. He knew he had truly vindicated primordial essence dao.

Such powerful feeling. If he faced Feng Guang and them ganging up on him, he could instantly kill those five. He felt his primordial essence compared to the primordial essence of other primordial essence divine emperors were heavens apart. He didn't use a single god crystals reaching primordial essence. All of the energy came from the Divine Dao Realm giving back to him.

Ye Mo took back his spirit sense and subconsciously waved his hand. The messy world laws were easily repaired.

These world laws were also imprinted in his brain. He didn't even use spirit will nine transformations and it reached ninth transformation. He didn't need to try and nine Great Primordial God Runes formed that could destroy everything. Heaven Flame Nine Suns...

When you reach this state, you would never have to be confused about things below that state. Ye Mo truly understood the meaning of primordial essence now. He let go of the chaos tree and opened his heart. Now, he learned everything.

Ye Mo didn't try samsara god art but he felt his samsara god art could easily make a primordial essence divine emperor go into samsara.

Power was sometimes just one thin layer. When you didn't even notice, you've already broken through it. And now, power was in your hands.

Ye Mo's spirit sense scanned out. the Divine Dao Realm appeared completely repaired. Life force oozed out. The disappeared mountain ranges, god spirit herb and landscape reformed. It was as though he walked into a new world.

However, Ye Mo knew this was just the surface. He only repaired a part of the Divine Dao Realm. The realm meridian and foundation hasn't been repaired. If he wanted the Divine Dao Realm to be this pretty forever then he would need to repair the realm meridian and foundation.

To do this, he needed to find World Mountain.

Thinking about the chaos tree he gave up, he suddenly felt sad. He wanted to turn around and take the withered chaos tree. However, he found in surprise and joy that the chaos tree instantly sprouted up in green. Life force and world laws surged out of the Divine Dao Realm.

These life force and laws entered the chaos tree. The chaos tree visibly grew large. 3 meters, 6 meters, 30 meters, 33 meters_

The life force being returned was definitely chaos life force. However, it was denser greater and more eternal than the life force chaos tree gave out. The chaos life force with primordial chaos chi was the return gift of the Divine Dao Realm.

Even though Ye Mo was a primordial essence divine emperor, he was struck by this huge surprise.

Ye Mo instantly realised where the life force came from. Some of it came from the luck of the human race, some of it came from the previous body of the chaos tree. The chaos tree was broken in the Divine Dao Realm and its life force dispersed here but didn't disappear. Now that he brought chaos tree here to repair the Divine Dao Realm, the chaos tree life force came back. This was returning things to its original owner. This was the generous return gift of the Divine Dao Realm.

Everything had spirit much less the powerful Divine Dao Realm?

"300 meters... 3 km..."

The chaos tree grew to 30km before stopping. The extremely dense life force made all the immortals in the Divine Dao Realm feel endless fortune.

Ye Mo put the tree away and sighed. He didn't know how tall the original tree was. This was only some remaining life force and it made his chaos tree grow to 30 km.

Chapter 2240 Human Race Unite

At this moment, countless immortals were roaring in excitement.

At this moment, they felt the world laws become complete. They sensed the divine damnation. They felt new learnings towards their god art. They felt their cultivation level progress. They felt the direction of their dao.

Suddenly, a clear voice sounded in the void "Immortal friends of Divine Dao Realm, I'm the Divine Dao Sect sect leader Ye Mo. The Divine Dao Broken Realm is repaired. From today, it will be changed to Divine Dao Realm. Because the Divine Dao Realm is just repaired and some parts of the realm meridian

isn't completely repaired, I need to leave the Divine Dao Realm and find more materials. I hope immortal friends won't fight in the Divine Dao Realm to prevent breaking our Divine Dao Realm realm meridian.

A hundred years later, other races will come to the Divine Dao Realm for trouble. In ancient times, the Divine Dao Realm human race was the strongest race. How can we keep letting those foreign races stand on top of us. I hope immortal friends will get stronger in this hundred years and not allow foreign races to do as they please in the Divine Dao Realm.

In order to prevent our Divine Dao Realm not falling behind other realms, I've kept God Necropolis Domain as a secret realm. I've removed the life crippling bridge. It won't be dangerous life before but there will still be some dangers. There are all sorts of restrictions inside as well as some ferocious beasts. This secret realm will be opened ten years later to first step dao vindication divine emperors.

This secret realm is left by Immortal Goddess Sacred Sect saint Qing. She sacrificed her life for the Divine Dao Realm. I hope all immortal friends who enter the secret realm remembers this. If anyone finds people damaging the Divine Dao Realm, you can report to the Divine Dao Sect..."

Ye Mo's voice pierced into the ear of every immortal. When his voice disappeared, the countless immortals of the Divine Dao Realm all called for his name.

Ye Mo, sect leader of Divine Dao Sect repaired the Divine Dao Realm. He brought hope to the human race.

"Whoever goes against sect leader Ye's words is the enemy of the entire Divine Dao Realm."

"Yes, whoever dares to disobey sect leader Ye, no divine emperor Ye will be our enemy..."

Such voices could be heard at every corner of the Divine Dao Sect, countless people had made oaths to courageously slay which ever race dared to come to the Divine Dao Realm.

At this moment, the Divine Dao Sect and Ye Mo's authority and status reached the climax. At the same time, the human race of the Divine Dao Realm had a source to be united around.

One man amongst the countless crowd murmured “Ye Mo, I, Yan Jiutian, admit defeat. I can’t compete against you. Or perhaps no one can compete against you. Funny how that Dongfang Wang dares to say he’s peerless.”

Thank you, sect leader Ye.”

Almost everyone in the Immortal Goddess Sacred Sect thanked Ye Mo. Even though Ye Mo started trouble at the Immortal Goddess Sacred Sect, he didn’t hide the fact that the secret realm was left by saint Qing.

Ye Mo was very happy with the state of Divine Dao Realm now. It was repaired and the human race were united in an unprecedented way.

Ye Mo’s spirit sense broke through realms and landed at Mo Yue Immortal Sect. He saw Qingxue, Luo Ying, Yimo. At this moment, he was so excited that he almost went back immediately.

But Ye Mo resisted the urge. He took back his spirit sense. He was afraid he wouldn’t be able to resist it. Even if he was to see them, he would need to repair the Divine Dao Realm realm protection formation first.

Outside the Divine Dao Realm, Ye Mo started to set up all sorts of formations. Ye Mo sent out formation flags and god spirit ranges.

The god spirit range only directed god spirit range. The formation didn’t need this god spirit range to run.

The god spirit source needed by the realm formation were mostly devoured from the void.

Ye Mo was primordial essence divine emperor and because he repaired the Divine Dao Realm and learned countless world laws, he mastered countless god art laws. It was extremely hard to find another primordial essence divine emperor who had mastery over this many laws and world laws.

Ye Mo was a top formation grandmaster too. He didn't need anyone to help to perfect the realm protection formation.

However, even as powerful as Ye Mo, this wasn't done in a short while. Ye Mo was grateful that all those primordial essence divine emperors attacked him. Without them, he wouldn't have all these materials.

A month later, Ye Mo completely set up the Divine Dao Realm realm protection formation. Then, he breathed easy and returned to the Divine Dao Sect.

He was going to leave the Divine Dao Realm to the immortal realm. He needed to tell Luo Qinghe and them first. Plus, he needed to hand the controlling formation flags to Luo Qinghe and them.

Knowing Ye Mo was back, Luo Qinghe and them greeted him with overwhelming excitement. Even Chi Wanqing came to Ye Mo not wanting to cultivate.

"Sect leader, I really didn't expect the Divine Dao Realm could be repaired to this state. I thought it would take hundreds of thousands or even millions of years to repair the Divine Dao Realm." Qin Xuanji was the most excited. At this moment, she was willing to do anything for Ye Mo.

Ye Mo was in a good mood too.

After everyone calmed down, Ye Mo said "The Divine Dao Realm is repaired but I still need to find materials to repair the realm meridian as quickly as possible. I also need to tell you guys. I've repaired the realm formation. It's the best formation. I've been to the dragon race and their realm formation can't compete with ours at all..."

This caused some more ruckus. Completing the realm formation was no small matter. This meant that the Divine Dao Realm could protect themselves and no race could sneak in the Divine Dao Realm.

Ye Mo gave jade slip and formation flags of the realm formation to Luo Qinghe and them. Just when he was about to leave, his eyes landed on a dao moulding divine emperor.

Seeing this, the dao moulding divine emperor felt cold. He even suspected if their sect leader was the Ye Mo of the immortal realm.

“You cultivated spirit will nine transformations?” Ye Mo suddenly asked.

This dao moulding divine emperor quickly bowed “Yes sect leader. This was taught by me when Jue Ya qian bei went past the immortal realm.”

Ye Mo nodded “Your spirit sense feels familiar. You’re probably immortal realm low heaven domain chaos star realm Mu Wushuang right? I didn’t expect you recovered and came to the Divine Dao Realm.”

Mu Wushuang’s mind was blown. He didn’t expect this Ye Mo was really the Ye Mo he heard before. That little girl appeared before his mind “Sister Bingyu said my dad is Ye Mo. You want to kill my dad with your little power, keep dreaming.”

Thinking about this, Mu Wushuang sweated cold. He said he would kill Ye Mo before but now Ye Mo was standing before him and could kill him with one finger. Just how ignorant was he when he said this.

“Yes, wan bei is Mu Wushuang.” Mu Wushuang answered shakily. When he came to the Divine Dao Realm, he joined the Divine Dao Sect and vindicated dao here.

Ye Mo frowned “You seem to be scared of me?”

Mu Wushuang didn’t dare to hide it and quickly told him about his encounter with Zhen Bingyu and Yimo. At the same time, he said “Wushuang was ignorant please punish me sect leader.”

Zhen Bingyu was in solitary cultivation for preparation for dao essence. Otherwise, Ye Mo would want to call her out and let Mu Wushuang see. Even Zhen Bingyu was countless times stronger than him.

Mu Wushuang was cocky but he didn’t do anything to Zhen Bingyu and Yimo. Instead, he told them an immortal marrow pond.

Ye Mo didn't plan to punish Mu Wushuang. He just said "Luckily you didn't harm Bingyu and Yimo. In fact, even Bingyu is stronger than you now. you know why you were ambushed by Wei Feng immortal emperor before? It's because you're too arrogant. No matter when, never think you're the strongest."

Yes, thank you for your teachings sect leader." Mu Wushuang rejoiced that he didn't do anything to Yimo and Zhen Bingyu. He also felt that he did indeed didn't act well. He came to the Divine Dao Realm wanting to find Wei Feng immortal emperor for revenge but he didn't find Wei Feng.

"Go and cultivate. By the way, there's someone you know called Hong Ling. She's still in the Mo Yue Immortal Sect." Ye Mo said casually.

Mu Wushuang was shocked. Hong Ling was still alive? Was Yue He there too? At this moment, he regretted coming to the Divine Dao Realm so quickly.
