Chapter 281: Starting from Scratch

The fat police wasn't dumb. It was still incredible that Ye Mo dared to open fire in public despite he obtained the crime evidence first. After all, normal special agencies weren't allowed to do this but this youth in front of him did. It could only mean that his background was absurdly strong or his status was absurdly powerful.

Those few policemen left quickly. They even took away Dou Lin's body. They came and went really fast.

Not only did Zang Jiayan realise Ye Mo was no ordinary person but the entire carriage knew. At that moment, the whole carriage became a lot more quiet.

Zang Jiayan had a lot of experiences. He took back his things and saluted to Ye Mo with his fists: "Ye brother's actions are really satisfying. It's my honour to meet you. I thought Ye brother was a business person. I'm really blind."

Obviously, Zang Jiayan knew that there were a few people who had the permit to kill. Ye Mo was undoubtedly one of them. But he knew that even if Ye Mo had a killing permit, he couldn't kill in public like this. That's why he said Ye Mo's actions were really satisfying. Those who had the killing permit were all the elite of the elite of the country. There's no way they would be doing business. Thus, he thought Ye Mo was lying to him before.

Ye Mo waved his hand: "Zang brother, you applaud me too much. In fact, I quite like you despise of the wicked character. However, I'm not lying when I told you I was going to the border to do business. I really am going. Although I properly own a gun, it's only cooperation relationship.

Ye Mo's simple sentence dropped a huge bomb shell in Zang Jiayan's heart. Cooperation relationship? Who had the ability to cooperate with a country? If what Ye Mo said was real, then his power would be absurd.

The Yuan sister and brother still hadn't come to reality yet. They were still in shock and disbelief. Dou Lin who was so cocky was just killed by the youth in front of them so easily. Even so, the youth still seemed to be conversing casually.

At this moment, a fatter man ran over with Ye Mo's permit. Behind him followed the fat police. This fatter police came up to Ye Mo and saluted before giving back Ye Mo's document with both hands, "I'm the captain of this VK8977 train, Wan Youtian. Ye instructor, this is your document."

Ye Mo took the document and asked for Zang Jiayan's storage card and passed it to this fat police, "This is Dou Lin's verdict. Everything is clear. Pass this to the Beijing police department. Tell them I said this. As for the matter at Jing Kou, I will ask about it next time I come back to Beijing."

"Yes, Ye instructor." This fat train captain's salute was very up to standard.

"Okay, the things here are done. I will take away the sister and brother. Their verdict has been heard by the other three policemen." Ye Mo said plainly.

Seeing the captain take these few police away, Ye Mo sighed and his desire for power grew stronger. This was the benefit of authority. Without the document, no matter how strong he was, he could only leave after killing but not sit here safely and still not do things according to the rules. Although he knew that taking the two away was heavily against the rules but no one said anything.

At this moment, Yuan Meixiang realized what was going on. She didn't expect things to have such a twist and never had she expected that she would be able to leave unscathed. In her excitement, she was about to kneel down to Ye Mo in gratitude. Ye Mo waved his hand: "Just something small, no need for it. I heard you're a graduate of accounting and finance?"

"Yes, after I graduated from the University of Finance, I was preparing to work at Jing Kou. Then, I met that bastard." Yuan Meixiang spoke and still had anxiety in her eyes.

Ye Mo nodded: "I will go to do some business. If you have nowhere better to go, then help me do some finance. Of course, if you have a better place to go or need to go back, that's fine too. I'm sure they won't dare to come for you again."

"I'm willing to go do business with you, however, my brother needs to go to school. In order to find me, he has wasted 3 years of study." Yuan Meixiang's tone was filled with gratitude to Ye Mo.

"Okay, then you can follow Zang brother from now on. After I see Fang Nan, I'll think about what to do in the future. As for your brother, he can stay at Gui Lin and go to school." Ye Mo was happy that he recruited a few on the train. Although he didn't know how good Yuan Meixiang was, but he quite approved of Zang Jiayan.

.....

In a dark room in Gui Lin, Fang Nan was still lying on the bed but now, there were only three henchmen left.

Other than Rock and Xiao Tie who were loyal to him, there was that Xiao Huo. Xiao Huo was the one who met Ye Mo at Beijing.

"Nan brother, it has been a few months but Ye brother still hasn't come. Should we change places?" Xiao Tie asked hesitantly.

Rock and Xiao Huo both weren't here, only Xiao Tie was in the room looking after Fang Nan.

Fang Nan understood Xiao Tie's words, because he didn't dare to show his face in Gui Lin or even go to the hospital. Plus, he didn't have money to go to the hospital. Xiao Tie's words meant that Ye Mo wasn't going to come and didn't want Fang Nan to keep waiting.

Fang Nan shook his head, "Xiao Huo goes nearby the airport everyday, he will be able to find Ye brother. I believe Ye brother. He isn't an ordinary person. He said he would come and help me so he will. He hasn't come now because he's very busy."

"Nan brother..." Xiao Tie still wanted to say something but was stopped by Fang Nan.

Fang Nan waved his hand and said: "Xiao Tie, I know what you mean but I still believe Ye brother. Only Ye brother can cure my leg and we will have a future only if we follow Ye brother. I won't say much more. I've seen too many people but only Ye brother deserves me to follow him. He's a true hero."

"Okay, since you Fang Nan look at me in such a way, I, Ye Mo, will give you your stage." Ye Mo's voice sounded at the door.

"Ye brother...." Fang Nan struggled to get up and Xiao Tie quickly went to help hold Fang nan.

A youth behind Ye Mo squeezed in with excitement and said: "Nan brother, I finally found Ye brother today, I told you Ye brother would come."

"Thank you, Xiao Huo." Fang Nan's excitement in his eyes were unquenchable like Xiao Huo's.

Zang Jiayan and Yuan siblings didn't expect Ye Mo's friend to be living in such a harsh place. There were putrid smells coming from the small room. This wasn't what the business they were expecting but both of them didn't ask anything. They've only been with Ye Mo for a short time but they knew Ye Mo wouldn't lie to them.

"Ye brother, you're here." Rock carried a big pack and walked in with sweat. Seeing Ye MO, he was also very joyful and surprised. They hid here arduously for half a year just to wait for Ye Mo.

Ye Mo nodded and took out a card and passed it to Zang Jiayan and said: "There's some money here. Go take some out and rent a better house. We'll talk after we change a place."

Zang Jiayan didn't expect the card Ye Mo gave him to have a few million. Seeing this amount, he was shocked. To be honest, he had never had so much money on his hands. He didn't expect Ye Mo to trust him so much. Giving a few million to him so casually without even worrying about him doing something dodgy. Ye Mo was someone worth being connected with indeed. Zang Jiayan made up his mind, he must get close with Ye Mo.

....

Things were done fast with money. After switching a place, Ye Mo immediately treated Fang Nan's leg. Although he was damaged badly and dragged out for a long time, it took only a week's time in Ye Mo's hands. After a week, Fang Nan could already walk.

Ye Mo however, came to Zang Jiayan privately. In his eyes, Zang Jiayan had an advantage over Fang Nan and Yu Erhu.

Fang Nan couldn't change his gangster temperament. Although he would be able to reign supreme in one region, when things got big, he wouldn't be as meticulous as Zang Jiayan. And Erhu was worse than Fang Nan.

"Zang brother..." Ye Mo just said two words and Zang Jiayan waved his hand: "Ye brother, I really do look up to you now. You're the most capable person I have seen. You could make Fang Nan walk with that sort of heavy wound. To be honest, if I didn't see it with my own eyes, I wouldn't believe it. If you approve of me, just call me Jiayan."

"Okay, I won't be polite then. You also saw Fang nan. He's the leader of a gang at the borderland, Flowing Snake. But now, I'm planning for him to do some proper business for me at the borderlands. Of course, I will also need your help." Ye Mo saw that Zang Jiayan was straight forward and so he was also straight forward.

Zang Jiayan immediately stood up and said: "Things should be like this. I came with you because I want to do things with you. I've retired from the army but I'm still physically capable."

Ye Mo shook his head and said: "Due to some reasons, I need a lot of money now. So I need to establish a business empire and an enormous power corporation. This is just the start. You're not bad in Kung Fu, but compared to real strong people, you are still a far cry. I have an ancient martial arts cultivation method here. If you're interested, you can learn it or learn it with Fang Nan and his men."

Ye Mo took out the cultivation method he got after killing Zheng Chengfa. Although it wasn't much use to Ye Mo, it had great use for Zang Jiayan and Fang nan.

"This is the legendary ancient martial arts secret?" Zang Jiayan was obviously not clueless like Fang Nan. As soon as Ye Mo took it out, he knew how important this was to him.

Chapter 282: Re-entre Flowing Snake

After another week, Fang Nan's leg was pretty much fully recovered. He could even practice a few moves with Zang Jiayan. Yuan Meixiang's face was also getting ruddier by the day. Ye Mo was prepared to take Fang Nan and Zang Jiayan to Flowing Snake.

Leaving behind Xiao Huo and the Yuan siblings, Ye Mo took Fang Nan and Zang Jiayan and others into Flowing Snake.

Ye Mo also knew a bit about why Fang Nan was kicked out of Flowing Snake. Xiao Huo told him before and the main reason was due to him. Ning Qingxue went to find him and in order to protect Ning Qingxue, Fang Nan had conflicts with Shi Wei. Then when Chi Wanqing came to Flowing Snake, he went and taught Shi Wei a lesson. These caused the hardship of Fang Nan.

"Where did the Amphibian gang come from? Who was Shi Wei? How could he make the Amphibian gang attack for him?" Ye Mo thought of this and questioned. Although he didn't hang in gangs but he had heard of all the big gangs. How come he had never heard of this amphibian gang?

Fang Nan said worriedly: "The Amphibian Gang is a branch of Nan Qing. They are powerful and no one dares to mess with them. If you offend the Amphibian gang, then death is your only fate. This time, we're not going to look for trouble with the Amphibian gang. We just need to kick away Shi Wei. Shi Wei has a sister who is the lover of a vice gang leader of the amphibian gang. That's why he could mobilize the Amphibian gang. But now, I heard that the gang has left Nan Qing. I just don't know if it's real or false."

As soon as Fang Nan finished, Zang Jiayan frowned, and Ye Mo also sighed. This Fang Nan really was dumb. Were they going to get revenge and leave Flowing Snake immediately? If they don't leave, then they would've offended Shi Wei again. Would his brother in law let Fang Nan go?

Ye Mo didn't say anything but Fang Nan woke up immediately and said in a troubled tone: "I'm afraid that if I do something to that Shi Wei, then her brother in law would come again."

Zang Jiayan smiled and said: "That's for sure. I suggest we plan for the long term if we can't kill them in once."

Although he didn't know how strong the Amphibian gang was, Zang Jiayan has heard of the big name of Nan Qing. He knew that with their power, it was bullshit to fight with Nan Qing. It wasn't that he was afraid of death. He needed to persuade them from doing some pointless thing. The Amphibian gang could leave Nan Qing meaning that they weren't easy to deal with either.

Ye Mo knew what Zang Jiayan was thinking and smiled: 'Jiayan, don't worry, others are afraid of Nan Qing but they are not a threat to me.'

He didn't even feel threatened by Nan Qing. How much power did he have? Zang Jiayan was shocked but he still chose to believe Ye Mo. From his many years of experiences, he felt that Ye Mo wasn't the type to bluff.

Fang Nan had this blind admiration to Ye Mo. Although he knew that the Amphibian gang was hard to mess with, his first reaction wasn't the revenge of the Amphibian gang but now that he remembered who the back stone of the Amphibian gang was, he felt troubled. No matter how much he admired Ye Mo, he didn't believe Ye Mo could beat Nan Qing who had an army. Although he heard that the Amphibian gang wasn't a part of Nan Qing anymore, this wasn't a verified fact.

"Fang Nan, haha, you actually didn't die, you dare to come back to Flowing Snake again. If I let you go today, You are my dad...." As soon as Ye Mo walked into Flowing Snake town, there was an extremely cocky sound.

Fang Nan's face was very bad, he scanned this guy and turned around to Ye Mo: "Ye brother, this guy is Shi Wei. They call him echidna. Because there were a lot of interests in Flowing Snake, with the help of the Amphibian gang, he was the person responsible at Flowing Snake."

Ye Mo studied Shi Wei. He seemed in his 30's and his eyes were bulging. It was obvious he had been too lustful but his expression was very cocky. He still had four fearsome looking henchmen behind him.

"What are you looking at? I'll gouge out your eyes later." Shi Wei said cruelly at Ye Mo. Then, he looked at Fang Nan: "If you tell me where are those two girls who came here last time, perhaps I'll let you live."

"You are echidna?" Ye Mo looked at Shi Wei and was greatly disappointed. Regardless of whether this guy had support, Fang Nan couldn't even deal with this guy. Fang Nan wasn't really up to standard. If it

was him, even if he didn't have the power to fight with echidna, he would think of a way to kill this guy before he left Flowing Snake.

Shi Wei looked at Fang Nan and then looked at Ye Mo before finally understanding who was the boss. He walked in front of Ye Mo and waited to use his hand to lift Ye Mo's chin but he only raised his hands about half an inch and had his whole arm severed by Ye Mo's wind blade.

Ye Mo was no soft person. He came here to kill.

"Aghhh..." a few seconds later, Shi Wei finally yelled in pain and sat on the ground. He just lost an arm for no apparent reason.

Fang Nan reacted first because he knew Ye Mo's power and didn't mind Ye Mo's killing actions at all. Zang Jiayan also reacted and looked at Ye Mo with different eyes. Although he guessed that Ye Mo was an ancient martial artist when he gave him the cultivation method, he couldn't even tell when Ye Mo attacked just then or even see what knife Ye Mo used to sever Shi Wei's arm.

"Kill him!" Shi Wei shrieked and the four men also reacted. They pulled out their swords and charged at Ye Mo.

Zang Jiayan and Fang Nan also pulled the curved swords from their waists.

But Ye Mo just shook his finger to them and slice his hand in the air twice. Two wind blades and four heads were chopped down. Until the heads fell to the ground, the four henchmen still ran a few steps forward before falling down next to Shi Wei.

Ye Mo's expression was plain. To him, killing a few people was no different than stepping on a few ants. Plus, he was about to start his first business in Flowing Snake and he needed to kill. No one would give out Flowing Snake if he just spoke a few words.

Fang Nan could still stay calm but Zang Jiayan was completely shocked. He had seen many masters even yellow level tertiary stage but he had never seen someone as strong as Ye Mo.

He only saw Ye Mo wave his hand quickly twice and didn't even see him take out any projectiles and four people were killed. What shocked Zang Jiayan more was Ye Mo's attitude towards killing. Before, he thought Ye Mo could stay calm after killing probably due to the permit, but now, he knew Ye Mo's calm after killing had nothing to do with permit.

For the first time, Zang Jiayan felt he hadn't truly understood Ye Mo yet. He only saw the surface of Ye Mo. As for Ye Mo's origin and power, he only understood a little.

Ye Mo was decisive in killing and knew what was important. He made him record the evidence first before killing Dou Lin. When he killed here, he didn't ask about anything. It could be seen that he was meticulous and not someone impulsive. Thinking about what he had been treated unfairly before, he thought that perhaps following Ye Mo, he would really be able to start a big career. Thinking about this, Zang Jiayan started to get excited and made up his mind.

Looking at Shi Wei who had already fainted, Ye Mo said to Fang Nan: "Bring him with us. We'll smash our way into Flowing Snake the most direct way."

When Fang Nan's henchmen carried Shi Wei into Flowing Snake, everyone knew that Fang Nan came back for revenge. Compared to Shi Wei, Fang Nan knew Flowing Snake more thoroughly and had more connections.

The reason Shi Wei was able to stand on his feet at Flowing Snake was due to his brother in law. Otherwise, with his petty capabilities, he would've been devoured by others long ago.

So, Ye Mo didn't even kill many people, he just kill more than ten of Shi Wei's loyal men and the entire Flowing Snake was once again controlled by Fang Nan. Some of his lost henchmen came back again.

....

Shi wei was dumped in front of Ye Mo like a dead dog. Fang Nan patted the blood stain on his body and spat on Shi Wei before saying: "Ye brother, I've already interrogated. It's said that because Qian Longtou died and Nan Qing is having internal conflicts and it's now breaking apart. The Amphibian Gang declared independence due to that and no longer belongs to Nan Qing. Their HQ is at the sharp sea corner and this guy's brother in law is already the leader of the gang."

Sharp corner sea? Ye Mo thought, he was going to go there before anyways.

Half a year ago at Hong Kong, he heard about the internal conflicts at Nan Qing. He didn't expect that it's still going on now. It seemed that he didn't need to go to Nan Qing recently. He would wait after the conflict was over and then go make himself a fortune. That Lang Ji was really useless. He still wasn't able to control Nan Qing.

Shi Wei woke up at this moment and happened to hear Fang Nan's words. He immediately understood that his situation was dire and quickly called: "Nan brother have mercy. I'm willing to join Pu Dao Gang. Spare me. If you kill me and my brother in law asks...."

Ye Mo frowned and said to Fang Nan: "Drag him out and finish him."

Fang Nan dragged Shi Wei who was crying out loud without hesitation. Soon, that howling disappeared. Fang Nan walked in with some blood.

"Ye brother, Rock and Xiao Tei have gone out to appease the people. Flowing Snake would stabilize soon." Fang Nan also knew that Ye Mo was going to do things at Flowing Snake. To him, too many people were interested in Flowing Snake, if Ye Mo didn't intervene forcefully, he would soon be devoured whole.

Chapter 283: Diminished Family

Ye Mo looked at Zang Jiayan and Fang Nan and nodded and said: "Okay, Fang Nan, you need to listen more to Jiayan from now on. We will be doing a business, not a gang. Getting money by collecting protection payments and robbing others isn't the long way to go. Flowing Snake is just the start of our business. I believe our business will get bigger and better. What we need to do is that when people hear the product is from Flowing Snake, they would go buy it regardless of price."

Zang Jiayan's eyes gleamed with light. Although Ye Mo didn't describe some grand scheme, he didn't doubt Ye Mo's actions at all.

"Ye brother, are we going to start a company?" Fang Nan wasn't an idiot and could tell that Ye Mo wanted to do a big business.

Ye Mo nodded, "The first step is to start a company. let's call it...."

"Let's call it Luo Yue." Ye Mo thought for a moment and remembered that he came from Luo Yue continent.

Looking at the gangster temperament in Fang Nan, Ye Mo laughed to himself but he still needed to remind Fang Nan, "Fang Nan, we're doing legal business now. Don't do the previous things anymore. I want that when I came back to Flowing Snake, it is no longer a chaotic place. I want to build a real city. I think Jiayan will understand what I mean. You should listen to him more."

Jiayan nodded and said: "I understand but what will our first product be? We can't keep selling illegal products."

Ye Mo knew this. The reason he wanted to establish Luo Yue was to help him accumulate wealth and search for the herbs around the world. His ultimate goal is still to help him cultivate.

"Luo Yue will be pharmaceutical. Of course, our main purpose is to collect all sorts of precious herbs. I have a detailed list here with some images. Jiayan can be responsible for this. From now on, Jiayan can manage Luo Yue." Ye Mo took out the list he drew already and gave it to Zang Jiayan.

"What about me Ye brother?" Fang Nan asked hesitantly.

"you will be responsible for the safety of the company. Once our company earns a lot of money, people will be jealous so your job is to make Luo Yue absolutely safe." Ye Mo said immediately.

Fang Nan didn't care about the title of the position. He just blindly followed Ye Mo. Now that Ye Mo assigned this to him, he immediately patted his chest in promise.

Ye Mo then said to Zang Jiayan: "I still have two disciples at Luo Cang. They will be managing he products. When you have time, go to Luo Cang and bring them over. As for Yuan siblings, you can also let them help."

As for Heart Improvement Serum and Beauty Pill and so, Ye Mo had already taught Erhu. He believed that as long as there were enough materials, Erhu would be able to push out these few products.

After arranging these things, Ye Mo took out all the money in his bank and transferred it to Zang Jiayan. Then, he left Flowing Snake. He had already established his followers. He believed that if he continued like this, Luo Yue would definitely be able to collect the herbs he needed and it could be the business tycoon that shocked the world.

....

Fall was harvest time, but not for all.

The Song family was annihilated and diminishing but this wasn't the biggest news.

The biggest rupture was that the Xuan Jiang Qiao family was massacred in one night. Being the third largest family in China who had power in both Beijing and Xuan Jiang, most families could only admire it in awe. But now, with the Xuan Jiang Qiao family being annihilated, the Beijing Qiao family also fell down a cliff and was about to exit the five big family stage.

The five big families of Beijing. The Song family was diminished. The Ye family was far from its glory days. The Qiao family took such a heavy blow. The only ones who could still deserve to be part of the big families were the Zhang family and Li family.

The annihilation of the Xuan Jiang Qiao family also warned all the other major families that they were far from being indestructible.

The Xuan Jiang Qiao family was not without survivors. Qiao Gang was one of the three lucky survivors. He listened to Ye Mo's suggestion but was reproached by his grandpa.

However, Qiao Gang believed that Ye Mo was no ordinary person and Ye Mo gave him that feeling that Ye Mo was someone above the families. He didn't believe Ye Mo would say such thing to him for no reason. Although his grandpa Qiao Zhen rebuked his words, he still secretly attached a few cameras and left Xuan Jiang.

Qiao Gang went back to Beijing and told what Ye Mo told him to his second grandpa Qiao Xin. Qiao Xin heard that it was Ye Mo's warning and was going to contact Qiao Zhen immediately but at this moment, he got news of Xuan Jiang Qiao family being annihilated.

When he got to Xuan Jiang, he found that all the surveillance had been destroyed except for the 3 cameras Qiao Gang secretly put down.

Qiao Xin looked at the surveillance record Qiao Gang took out and sighed. Those with great wisdom in the Qiao family were too little. If they could listen to Qiao Gang's words this time, the Xuan Jiang Qiao family wouldn't have such a big disaster.

There was only two black clothed men recorded. They both weren't tall but when they killed the Qiao family people, they were like demons. Although the cameras didn't show everything but Qiao Xin couldn't help shake: these people were so cruel.

"Second grandpa, why? Why did they do this? They can just take the blood coral. Why would they still kill everyone?" Qiao Gang's eyes were red. He couldn't understand.

Qiao Xin sighed and turned off the video and stared at Qiao Gang for a long while before asking: "How do you know Ye Mo didn't do it?"

Qiao Gang dazed, he didn't expect his grandpa to ask such a question but a moment later, he immediately said: "I have a feeling that he isn't this sort of person. If he was, then he wouldn't remind me. And, the two people on the screen are both much shorter than him."

Qiao Xin nodded: "Tell me exactly what Ye Mo told you before."

Qiao Gang reminisced and said: "He told me that if the blood coral was taken by the Cha family, they would be fine but if any other families took it, nothing good would come out of it. He also said that the Cha family was a semi hidden family and could contact the hidden sects, then he asked me where the blood coral was found."

Qiao Xin suddenly stood up and then sat down slowly after a moment while murmuring to himself: "The Cha family is actually a semi hidden sect. No wonder this happened. Our Qiao family has no way to get revenge for this, sigh..."

"Second grandpa, lets give the tape to the police...." Qiao Gang hadn't finished and was interrupted by Qiao Xin.

"Xiao Gang, don't mention the tape and Cha family thing again okay? If the Cha family is really a semi hidden family, then it would be a suicide to hand the tape out. They have the power to annihilate the Beijing branch of our family as well." Qiao Xin said very seriously.

Qiao gang dazed and said after a while: "Second grandpa, are we just going to let it go like that?"

"let it go?" Qiao Xin murmured and stared at Qiao gang: "Xiao Gang, do you know which family is really the biggest family in China?"

Before Qiao Gang could reply, he continued: "Sometimes, the greatness of a family isn't just about the political power. The biggest family of China is actually the Zhang family. It's said that the Zhang family has an extreme master but that master never goes to the Zhang family so people gradually forget about it.

And the real second family is the Song family. The Song family hid their power extremely well. People may be guess about the extreme master in the Zhang family but the Song family definitely has yellow level masters and not just one. Although our Qiao family is ranked third, but in actual fact, we might be the last in the 5 great families."

"Why do you say this grandpa?" Qiao Gang was confused.

Qiao Xin shook his head and sighed: "the Song and Ye family had conflict for so many years but the Song family didn't do anything to the Ye family. Do you know why? It's because Ye family had a very strong help called Huang Yue. His long sword was invincible. But the Ye family destroyed themselves by kicking Ye Mo away and this almost resulted in family annihilation. If it wasn't that the Song family also offended Ye Mo, perhaps there would be no Ye family in Beijing. They would've been long devoured by the Song family."

Then, Qiao Xin looked at Qiao Gang and asked: "Xiao Gang, do you understand what I just said?"

Qiao Gang was very smart. Although he came from a big family, he didn't have the usual rich second generation temperament. He immediately understood what Qiao Xin was saying but asked bewilderingly: "second grandpa, you mean that the Ye family and Song family are both stronger than our Qiao family but they've all diminished due to Ye brother?"

Qiao gang nodded with satisfaction: "Not bad, I'm very happy you have such understanding. Ye Mo told you before that if the Qiao family gave the blood coral to him and they would be fine. He even didn't care about the Earth Fiend people. And he could still annihilate the Song family with all the devious schemes they had. This all meant that he is much stronger than what he said and did. So, Ye Mo is a scary person."

"Second grandpa?" Qiao Gang seemed to understand what Qiao Xin's intentions were but he was still shocked. After all, Ye Mo was just a single person but his Qiao family was a whole family.

Qiao Xin shook his head and continued: "After that race, I also check the recordings. The Cha family was the last but both of their cars exploded. Do you think this is by chance? If I'm not wrong, then it must be related to Ye Mo. I don't know the exact complications but our Qiao family and the Cha family already formed deep enmity. And, the Cha family is actually a semi hidden family. So if our Qiao family wants revenge, we can only do it through Ye Mo."

Qiao Gang immediately understood and said: "Second grandpa, you want me to find Ye Mo?"

Chapter 284: Attack On Amphibian Gang

"Indeed, we have a common enemy and other than him, no one else can help our Qiao family. Of course, we can just sit here and wait. Although we can't hand this tape to the police, we can go find General Han Zaixin. He can help us. And he definitely wouldn't just let this go. Now, leave Beijing and find Ye Mo immediately. You don't need to worry about things here." Qiao Xin said.

....

At the sharp corner sea area, the Amphibian Gang was the authority. No one dared to say anything to them. They were at the border and after recently leaving Nan Qing, they had become even more stronger.

With Nan Qing not being able to take care of itself, the Amphibian Gang has completely controlled the borderland commerce.

When Ye Mo arrived at sharp sea corner, the leader of the gang, Wang Jiu had a face full of killing intent throwing a tantrum. Wang Jiu killed the leader of the gang Guo Quan half a year ago and declared independence from Nan Qing. With Nan Qing's state, they didn't even do anything to the Amphibian Gang. So now, the Amphibian Gang was growing steadily and Wang Jiu reigned supreme.

Beside Wang Jiu was a exceedingly busty woman who was rubbing her eyes and weeping.

"No matter who killed Shi Wei, I will make him die without a complete corpse. I will annihilate his entire family and cut his skin off inch by inch and feed it to dogs." Facing the woman beside him, Wang Jiu was more furious.

Then, he breathed heavily and took out a gun and slammed it on the table, "Investigate, even if it's the god of the heavens I won't let him go. Chen Er, most of our brothers are here, bring some brothers and head to Flowing Snake immediately...."

There were 50 to 60 people in the hall and in the middle was a tied up man. To be exact, the man wasn't tied up but nailed. His ligaments were all nailed to a wooden block. His head was sagging and it was unknown if he was alive or dead.

When Ye Mo came to the Sharp Corner sea, he was also shocked by the Amphibian Gang. The head quarter was made almost like a 5 star hotel, full of luxurious decorations everywhere. Perhaps a few years later, the Amphibian Gang could start a business district.

Bang, Ye Mo kicked open the door of the Amphibian Gang's biggest meeting room. Looking at Wang Jiu who didn't even react yet and sneered: "You are the leader of the Amphibian Gang? You don't need to go find me. I've already come."

Wang Jiu dazed for a moment and shot up, "How dare you, you killed Shi Wei? You dare to show your face. Don't kill him. Capture him first. I'll teach him who's the real boss here."

Before Wang Jiu finished, a few bulky tattooed men already charged up while Wang Jiu looked coldly at Ye Mo and sneered: "You learnt kung fu for a few days and you think you can do something? I'll make you pay for the school fees today and give you a taste of what it's like being nailed to wood. Who's the guard today, he dare let him...."

Wang Jiu suddenly stopped as he looked at the centre of the room with his mouth wide open in shock. Those four men who charged up already lost their heads.

"You..." Wang Jiu looked at Ye Mo in shock and wasn't able to react in a long time. It was just a few seconds and his four henchmen lost their heads.

"Kill him..." Wang Jiu soon understood what was happening and yelled while firing a shot with his gun at Ye Mo.

Ye Mo sneered and grabbed the bullet Wang Jiu shot while throwing it back. The bullet pierced Wang Jiu's wrist and his gun fell onto the floor.

At this moment, the tens of the gang members had surrounded Ye Mo.

Ye Mo suddenly spun around and started to ascend in the air. At the same time, his two hands kept sending out wind blades with some fire balls.

Blood flew everywhere and the entire room was like hell. Wang Jiu was completely dazed. He already forgot that his wrist was shot and forgot that Ye Mo took his bullet with his bare hands. How did such a person exist in the world? Was he even human? Killing people in this way? And fire balls?

Ye Mo's wind control could only last a few minutes but after a few minutes, he landed in front of Wang Jiu. The gang members in the meeting room had all become bodies, most of them have already turned to ash.

"You...." Wang Jiu's mouth was dry as he pointed at Ye Mo shakily. What sort of scenes hadn't he seen? But not like this.

Those who knew Wang Jiu all called him a slaughter demon. They all said they would rather offend Hades than Wang Jiu of the Amphibian Gang but today, he finally understood what was really a slaughter demon.

"You are gang leader Wang? You said you wanted to kill all my family, so I came here first." Ye Mo kicked Wang Jiu off his seat and then kicked the woman who had fainted out. Then, he sat down.

"Big brother... this is a misunderstanding. From today on, I'm your subordinate. If you tell me to go east, I won't go west." Wang Jiu suddenly felt cold, not minding that there were many bloody bodies next to him.

"Arghhh..." at this moment, that woman had awoken and when she saw countless bodies all around her, she immediately screamed.

Wang Jiu took out a dagger and stabbed into this woman's throat and immediately said: "It's this bitch that tricked me to attack big brother. I killed her..... big brother..."

As he spoke, Wang Jiu's teeth couldn't help shaking. He had never thought he would be killed one day when he was killing. He could be indifferent about the life and death of others but he took his own life to be very crucial.

"I heard you say that you were going to nail me like that man?" Ye Mo pointed at the nailed man and said plainly.

"Misunderstanding, big brother... this is all a misunderstanding, i...." Wang Jiu could no longer hold the fear in his heart. He suddenly understood Ye Mo's meaning.

Ye Mo sneered and walked to the nailed man. He raised his hand and a few metal nails fell on his hands. He casually dumped the unconscious man aside and kicked Wang Jiu. Wang Jiu happened to smash into the wooden block and Ye Mo's four nails shot perfectly into Wang Jiu's four ligaments.

"Ahhhhh....." Wang Jiu who killed so many actually fell unconscious. The wooden block he designed had countless people nailed on it but today, it was himself.

Looking at Wang Jiu who had fainted, Ye Mo threw out another wind blade and his head was chopped off by half. It sunk by the wooden block.

Ye Mo looked at the man he saved and fed him a few pills while using chi to treat him a little before leaving him there.

If he was just looking for Wang Jiu's trouble, then he could leave now but he had a company at Flowing Snake so he needed to completely eradicate the Amphibian Gang from its roots.

Ye Mo scanned out his spirit sense. There were Amphibian Gangsters around being boisterous and lustful. When his spirit sense scanned to an underground room tens of meters out. He was completely infuriated. That underground room was like a slaughter house, multiple dead bodies were simply rapped together.

At this moment, that man saved by Ye Mo had woken up and he didn't even look at Ye Mo before saying: "the Amphibian Gang is human trafficking and selling organs...." But he just said that and he fainted again.

It was too easy on Wang Jiu to die like that.

Ye Mo didn't continue searching. He walked out of the meeting room and started a carnage. This was the first time in his life that he killed people so cruelly. About two hundred Amphibian Gangsters, not one escaped. They were all killed by Ye Mo.

After this, Ye Mo finally felt relieved. He took that unconscious man and left the room. Then, he threw out tens of fireballs and the originally grandiloquent manor of the Amphibian Gang was burned to nothing. Fire rose high in the air that could be seen even tens of kilometers away.

....

An hour later, this man had awoken. Although he suffered heavy injuries before, this was nothing in Ye Mo's hands. He left there before the man woke up.

Due to the high rising fire, soon, large amounts of police cars arrived. They saw a region of ruins and that man who barely got up.

"Captain Wang, why are you here?" two policemen ran over. Obviously, they knew this man and he was actually a cop.

"The Amphibian Gang is full of sin and when I was getting evidence I was found by Wang Jiu's men. I almost lost my life but someone seemed to have saved me. As for who, I didn't see clearly. Report this immediately and immediately hunt the Amphibian Gangsters." The man saw his team here and finally felt relieved.

....

The Sharp sea corner Amphibian Gang was scooped in one go by the police and because the fugitives had nowhere to go, they burnt their HQ. Of course, this was the official word.

The Amphibian Gang reigned the borderlands and no one dared to manage them. And, they came from Nan Qing so they did things in Nan Qing style. Their HQ was built like Nan Qing HQ, by the sea which was good for attack or defense. So, it was very hard to annihilate the Amphibian Gang.

But finally, they met someone tough and was slaughtered clean in one night. Almost 200 gang members but no one was left. No one dared to talk about the person who annihilated the Amphibian Gang. This was the story amongst the citizens.

No matter what, the destruction of the Amphibian Gang was the most explosive thing other than the annihilation of the Xuan Jiang Qiao family. What was different was that the annihilation of the Amphibian Gang was something that everyone felt elated about.

Chapter 285: Su Jingwen's Worry

Ye Mo stood by watching the police taking all the ones he missed out. With the help of the man, they went into the HQ of the Amphibian Gang to find evidence. He couldn't help but to sigh. He didn't expect the man he saved to be cop.

He approved greatly of this policeman's courage, daring to go into the Amphibian Gang himself to search for evidence. This wasn't something an ordinary policeman dared to go. It seemed other than the corrupt ones, there were also hot blooded men in the police force. However, his power was too weak, not even yellow level yet.

Ye Mo didn't have a good impression of most cops but this was an exception. He remembered the first time he met a policeman, he was schemed by that Huang Shu and taken into custody. It was Su Jingwen who got him out in the end.

Su Jingwen, when Ye Mo thought of Su Jingwen, he felt warm at heart. Su Jingwen was one of the few friends he had. Other than Shi Xiu, his only friend at Ning Hai was Su Jingwen. He wondered how she was doing now? However, they were just friends. He went to Ning Hai a few times but he didn't have the intention to go see her.

....

Su Jingwen was quite troubled right now. She really didn't feel anything towards Xie Weizheng but she couldn't completely reject him. After all, they grew up together and her mother was quite happy with Weizheng. Sometimes, Su Jingwen even thought she might as well go along with it but thinking that she would be living with him for the rest of her life, she no longer had the courage to accept it.

She thought about Ning Qingxue and she really wanted to ask her how her relationship with Ye Mo was going.

Thinking about that after coming to her birthday, Ye Mo never came to see her again and Su Jingwen couldn't help to feel disappointed.

But what she didn't expect was that when she came to Ning Qingxue's palace, she found that Ning Qingxue had left Ning Hai. She really didn't understand this. She knew that the reason Ning Qingxue stayed at Ning Hai was due to Ye Mo. Su Jingwen didn't really believe that Ning Qingxue lost a year of memory.

Su Jingwen took out the two bracelets Ye Mo gave her. One was given through Ning Qingxue and another was given to her by Ye Mo on her birthday. The one given to her by Ye Mo only had two beads left but she had the subconscious feeling that the two beaded coarse bracelet was more precious than the exquisite one Ning Qingxue gave her later despite both of them came from Ye Mo.

She suddenly admired Ning Qingxue. She did things how ever she liked. When Ning Qingxue asked her about how to use the charms, she knew that Ning Qingxue was going to do something dangerous. Later, Ning Qingxue came back with Ye Mo's bracelet. She knew that it must be related to Ye Mo.

She could still remember the happiness of Ning Qingxue's face and she was so pretty when she wore the necklace, really pretty. Her love for Ye Mo was almost written on her face. Why did she change so much in a mere few months. She left Ning Hai without a word to Yu state? Could she really just put love aside like that?

Su Jingwen felt the two beaded bracelet and suddenly remembered when Ye Mo danced with her.

"I seem to have a different feeling to him?" Su Jingwen murmured but soon shook her head. No, it's because he saved my mom's life.

Thinking about this, Su Jingwen frowned. That wasn't right either. When she brought him out of the police station and made him dance with her, she didn't know Ye Mo was the Charm master back then. She even only let Ye Mo sit in her car and her cousin got angry over it. What was that?

She wondered how Ye Mo was doing. Thinking about this, Su Jingwen suddenly had this irresistible urge and called Li Mumei.

"Mumei, I'm Jingwne..... Mhm, I'm good.... Did Qingxue go back to Yu state? Why?" Su Jingwen felt this strange feeling as she listened to Li Mumei.

"Mumei, you said Ye Mo went to find Qingxue? What happened?" Su Jingwen's voice became desperate and had the tone of worry. Perhaps in her heart, Ye Mo was not only her mother's savior but also her friend.

"I heard that he jumped off the building and spat out blood. There was no news of him afterwards...." Li Mumei sighed and had this strange tone. Sometimes, she'd rather Qingxue to not have lost her memories. That way, she had more human emotions. But now, Ning Qingxue turned back to the indifferent beauty at Beijing.

"What.... Jumped off the building?" Su Jingwen almost dropped the phone on the ground.

Li Mumei quickly explained: "No, Ye Mo's quite strong. Ye Mo just jumped out of the window but he probably climbed down the pipes so he's fine. By the way, Jingwen, why are you asking about Ye Mo?"

Su Jingwen finally felt relieved and hearing Li Mumei's question, she explained with a stutter: "Oh, I just thought he really jumped off the building. It's fine, just say hello to Qingxue for me."

Li Mumei hung up the phone dubiously. As for saying hello to Qingxue for Jingwen, never mind. Qingxue and Jingwen only knew each other well in Qingxue's lost memories.

Thinking about this, Li Mumei suddenly shook her head and almost dropped her phone to the ground. She suddenly remembered that Ning Qingxue didn't lose one year of memory but just everything that happened between her and Ye Mo. Why was it like this? This was too much of a coincidence.

Su Jingwen put the phone down. She suddenly felt Ning Qingxue was too mean. How could she let Ye Mo jump off?

No matter what, she shouldn't anger Ye Mo to the point of spitting blood. She didn't know how Ye Mo was doing now and began to worry for him. If she could find Ye Mo now, perhaps she would go to Ye Mo and comfort her.

It's said that after losing love, both the body and heart would be very fatigued. She didn't know if Ye Mo would be like that. Would he do something stupid? Su Jingwen began to worry more but she knew she wouldn't be able to find Ye Mo.

No, she would set aside the matter with Xie Weizheng and ask about Ye Mo. He's not only her friend but also her mother's savior. Even her mother wouldn't say anything about it.

...

Ye Mo stood by the beach at the sharp sea corner. This should be a very popular tourist spot but after the Amphibian Gang came here, it became a ghost town. Those young masters who liked racing also played here because it was spacious and empty.

There were still a few ships parked by a small dock. It probably belonged to the Amphibian Gang and a few jet skis.

Ye Mo looked at the direction of the tide and searched for oil nearby.

Those big tanks of oil couldn't fit in his ring but he didn't want to put such things in his ring anyway. Thus, he could only pull a small boat behind the jet ski. He knew it wasn't just one day thing to find the blood coral. After all the preparation was ready, Ye Mo then took off with a jet ski and started to search in the direction of the tide.

He believed that if there was blood coral, there wouldn't just be one. Ye Mo decided to spend a month time to search for the blood coral. Although he had a blue flower blue leaf grass, it took too long to grow and he gave it to Tang Beiwei.

If he could find another blood coral, it wouldn't take him long to break through chi gathering third stage.

Ye Mo knew that the blood coral wouldn't be growing alone the coast so the first day, he drove the jet ski deep into the sea. Although his spirit sense could scan out 150 meters on land, but in the sea, it could only reach 50 meters.

But this 50 meters was enough for Ye Mo. The region of sea with blood coral would have slightly higher spirit density. Although Ye Mo knew that this wasn't a completely accurate judging factor for blood coral, he had no better way to find it.

After one day, Ye Mo didn't find anything at all but this jet ski burned oil really fast. His two cartridges of oil wouldn't be enough for long.

On the sixth day, Ye Mo finished one cartridge of oil and still didn't find any signs of the blood coral. Ye Mo was thinking if he was looking at the wrong place when he saw a small deserted island. It was probably more accurate to call this island a big coral area. There was only 20 acres on it.

Ye Mo looked at this island and felt a familiar sense. He immediately remembered where he saw this. It was the sea map from the jade box given to him by Guo Taiming.

Thinking about this, Ye Mo didn't hesitate and took out the sea map. Indeed, the island was exactly the same as the one on the map.

Chapter 286: The Island

However, the island was only one marker on the map. Other than the island, there was also a silver marking line which extended far into the sea. Ye Mo followed the mark and looked. According to the ratio, he might not be able to reach there even in a few months time with his current speed.

Because the next marker was no longer in the bay but outside ocean. There were still markers outside the bay and it was in the Indian Ocean. That wasn't even the final point. The final point was in the Antarctic Ocean.

What Ye Mo didn't understand was, since it was a sea map, why not just marked the final point at the Antarctic Ocean? Why marked it to there point by point. If he didn't see this island by chance, he might really not be able to find it.

According to this sea map, starting from this island, he will eventually find the final destination but this map gave Ye Mo great confusion.

No matter what the person who left the map behind wanted to do, he wouldn't be able to reach there with this jet ski. He came for blood coral and the island was a complete coincidence. Ye Mo was thinking, would this island be connected to the blood coral he was trying to find or was this map related to the blood coral.

He knew that it was useless to keep searching so Ye Mo didn't continue. Even if he was to, he needed to wait until his economic power was sufficient so he can buy a big ship to find it. Or, a simpler way was to cultivate to chi gathering level 4 and flying on his flying sword.

Since he had come here, no matter what, Ye Mo was going to have a look. Ye Mo parked his jet ski at the island and then dived underwater.

Ye Mo went down and the pressure increased but even when Ye Mo was in stage 2, this pressure wouldn't worry him much less that he was in stage 3 now.

The more Ye Mo went now, the more he felt the island was shaped like an 8. His spirit sense could completely scan the bottom of the water.

Ye Mo circled the island but didn't find anything suspicious nor did he find any signs of blood coral. It seemed that this was just a normal island.

A map with just an ordinary island. Ye Mo really didn't understand. He didn't want to give up and kept circulating the island but there was nothing special indeed.

Ye Mo was very disappointed and he could only come back to the surface of the sea.

Ye Mo was surprised that the island and even his jet ski had just disappeared from the surface of the sea. Even Ye Mo who was a cultivator had goosebumps on his head. Perhaps this was normal in the cultivation realm but not on earth.

He just dived into the water from here. How did the island just suddenly disappear?

Ye Mo thought and immediately dived into the water again. He searched where he searched before and what made him relieved was that the island was found by him again. This time, he went up along the border of the sea. When he was about tens of meters to the surface of the sea, he found he was standing on the top of the island.

It was impossible for the sea level to increase so that meant the island was sinking. After the island sunk, his jet ski drifted away as well. This island could sink itself. What did he just encounter? According to this speed, the next time he came to search for this island, it would've disappeared already.

Ye Mo kept scanning his spirit sense around the island and when he got to the waist, he finally found something wrong. The waist of the island was very smooth.

Usually, it should be filled with coral. It can't be this smooth. This was very suspicious. Ye Mo felt the island was still sinking and he immediately came to the smooth surface and pressed. There was no reaction.

Did he see wrong? This place definitely was different. Usually, he would be able to scan his spirit sense in a few meters but at this place, he couldn't scan in at all. It seemed that this unknown type of rock could segregate even spirit sense.

Ye Mo took out a curved sword from his ring and sliced on the smooth surface. Soon, he dug the stone out with the sword.

Finally, Ye Mo saw what was inside. It was a small box. It was artificial indeed. This smooth rock wasn't some precious thing. If this stone was sealed well, it could not only segregate spirit sense but also water and fire.

However, these stones were too little in amount. If there was enough, perhaps Ye Mo would make a house out of this stone.

Other than a jade box, there was nothing else in the stone box. Ye Mo took out the jade box, it was the exact same type as the one Guo Taiming gave him. It was by the same person indeed.

It seemed he found the right spot. Ye Mo scanned his spirit sense inside the jade box. There was an incomplete yin yang fish 8 trigram picture. To be exact, it was half of each. It was half a yin yang fish and half of an 8 trigram. It seemed quite eerie.

Ye Mo looked for a while and still didn't get what it was. He could only take it away. At this moment, the island had sunk 100 meters down and Ye Mo came back to the surface of the sea.

He didn't understand why the island was sinking but if he was foundation establishment or higher, perhaps he would go down and see. But now, with his current state, that would be suicide.

Luckily, he didn't gain nothing this time. Although he didn't find the blood coral, he found the place on the map and found a shard of yin yang fish.

But when Ye Mo stood on the sea again, he was troubled. He didn't know where his jet ski went and couldn't scan it with his spirit sense. He couldn't fly on swords now and it was too hard to swim back. Although he could find a wooden board and step on that to go back but that would use too much spirit chi.

Perhaps before he even got back on land, he would be exhausted. Now, he didn't have any pills to recover chi. If he wasted everything in the sea, perhaps a white shark could take his life.

What made Ye Mo depressed was that as soon as he thought about sharks, a ferocious shark swam towards him. It was very easy to kill this shark and he only needed to use his flying sword and it would be done. But the flying sword was his baby, he usually didn't even want to use it to kill people much less a shark.

Ye Mo took out a curved sword and with one swing, that ferocious shark was decapitated. But immediately, Ye Mo knew it wasn't good. He really shouldn't have killed it with a sword. The blood was too obvious.

As soon as Ye Mo thought about this, tens of sharks had started swarming towards Ye Mo. Ye Mo killed a few more but the sharks were getting more and more. At this rate, no matter how much spirit chi he had, it would be wasted by the sharks.

Ye Mo no longer dared to kill sharks. If it was on the land, he could run, but in the sea, no matter how fast he was, he wouldn't be faster than sharks.

Helplessly, Ye Mo found one shark and just jumped on its back. This shark immediately started to swerve heavily and kept diving into deep water and wobbling in the sea water wanting to shake Ye Mo off but Ye Mo sat very sturdy.

He thought right, although the shark was ferocious, it couldn't do anything about the prey on its back. It kept going further and further away and gradually left the shark group.

Seeing the distant shark swarm, Ye Mo finally felt relieved. He finally escaped, otherwise, he could only go into the deep sea. Although the shark couldn't chase him to there, he would use up a lot of chi too. After all, that pressure was very strong.

Just when Ye Mo was about to let the shark go, he noticed that the shark was very fast. He thought perhaps he could use this shark as a ride. Not only did it not use oil but it was fast. However, it just wasn't as comfortable sitting on it as the jet ski.

Thinking about this, Ye Mo tried to use the shark to turn. It took him a whole two hours with constant beating and spirit sense threatening that he could finally drive the shark as he wished.

This was just a normal shark. If only it was a spirit beast! Ye Mo thought of the bare cockroach he gave Chi Wanqing. Although that wasn't a spirit animal but it could form the ownership pact. This shark couldn't because it's intellect was far from that bare cockroach.

Ye Mo stood on the shark back for about an hour or two and felt something wasn't right. Although this shark could be used to travel and wasn't slow, it couldn't be used for a long time. Once the time got slightly longer, the shark would get tired. Although it looked really cool standing on the back of the shark, it was quite troublesome that it needed rest.

Helplessly, Ye Mo could only get some fishes to feed the shark and let it rest once every two hours.

Despite this, a day later, the shark was getting slower and slower. Ye Mo did think about getting another one but thinking about how he still needed to train it for half a day, Ye Mo lost interest.

Chapter 287: Can be robbed

"Oh my god, did I see right? I actually saw someone standing on the back of a shark riding on the sea. Oh god, China really is a magical country...." A blonde girl with blue eyes held a telescope and exclaimed.

The tall white man behind her laughed, "Lena, you like China so much. You also said that your Chinese friend knew a magical doctor and now, you see someone riding on the back of a shark."

The man spread his hands out and joked: 'Okay, when you see that person starting flying, then call me.'

"Uncle Jack, I really saw a man standing on the back of a shark and he's coming over towards us." The girl called Lena didn't put the telescope down but continued to exclaim as she watched.

"Is it real? Today isn't April fools." This white man took a telescope and looked dubiously.

As soon as Jack looked, he almost dropped his telescope on the ground. He really saw a person standing on the back of a shark riding in the sea.

"Oh, god, it's actually real. China is too magical. Mr. Mo, your country is too magical. It was the right decision to come this time, even if we can't cooperate, but it's worth this magical scene." Jack, like Lena, didn't want to put the telescope down again.

The man called Mr. Mo walked over curiously: "Lena, what are you guys talking about? I don't understand...."

The man suddenly stopped because even without the telescope, he saw a person on the back of a shark approaching rapidly from a few hundred meters away.

Ye Mo saw this cruise ship from a long way away and thinking that he couldn't reach the land with the shark so he wanted to hop on this ship.

"It's real...." The Mo man saw the fast approaching shark.

Ye Mo was near the cruise ship in no time and with a flying jump, he went from the back of the shark aboard the ship.

"Oh, my god, he flew up here...." Jack could no longer hold the telescope in his hands.

Two marines had walked over quickly with their weapons. They didn't see how Ye Mo got on the ship but they saw a stranger and immediately reported it to the captain.

Lena came up in front of Ye Mo with astonishment and said a bunch of words. Her face was red with excitement but Ye Mo didn't understand a single word. Jack saw Ye Mo frown and quickly dragged Lena aside.

Ye Mo looked at the two black marines but said to the Mo guy: "My ship sunk in the sea. I'll borrow your ship to get to land."

The Mo man immediately said with joy: "Okay, that's fine. I'll tell the captain now." He thought Ye Mo was a pirate but even a pirate wouldn't attack here. However, Ye Mo's words made him feel relieved completely and turned around to talk to the two marines.

The two marines heard the man's words and looked at Ye Mo once and said no more. They rushed inside the ship. Ye Mo went to the corner of the ship and sat down. He closed his eyes and cultivated.

Soon, he opened his eyes and asked that Mo man: "What else is it?"

"Hello, sorry to interrupt you, I'm Mo Hai, the manager for the Hong Kong Mo Corporation. The captain wanted to see your identity documents, he...." Mo Hai said hesitantly. He wanted to get to know Ye Mo so he didn't really hide his origin.

Ye Mo nodded. There were a lot of foreigners here and he didn't want to talk much. He took out his ID and gave it to Mo Hai and said: "Sorry to trouble you. Where will the ship get to land?"

"At the Hong Kong cruise ship docks. Are you going to Hong Kong as well?" Mo Hai was very polite with Ye Mo. He saw Ye Mo's powers with his own eyes.

Lena ran over however and dragged Mo Hai's sleeves: "Uncle Mo, do you know him? Can you introduce him to me? I want to learn his magic."

Mo Hai smiled helplessly: "Lena, I don't know him. Great masters like him don't usually take disciples."

Ye Mo looked at Mo Hai in surprise and thought that there were three people who saw him on the back of the shark. Other than this Mo Hai, there were the other two foreigners. But those foreigners were extremely shocked while Mo Hai although surprised but was not as flabbergasted as those two foreigners. Did he usually see people like him?

Thinking about this, Ye Mo asked: "Mo brother, have you seen people like me before?"

Mo Hai quickly shook his head and replied: "No, I've just heard my uncle say that our country has a lot of hidden families and they all have special powers. So, I know there are masters like you out there." Mo Hai's tone was very polite, fearing to make Ye Mo unhappy.

So that was how it was. Ye Mo nodded. It seemed this Mo Hai's uncle was simple to be able to hear about the hidden families. Hmm, Mo Hai? Hong Kong as well, was he related to Mo Kang? If that was so, then it would be such a coincidence.

Ye Mo looked at Mo Hai and smiled: "Mo brother, I have a friend called Mo Kang. He lives at Hong Kong Qing Quan straight, half mountain mansion. Do you know him."

"Huh, Mo Kang is my uncle." Mo Hai looked at Ye Mo with joy. He didn't expect this person to know his uncle. Even he wasn't able to see his uncle whenever he liked.

"So Mo Kang is your uncle." Ye Mo nodded. He didn't talk but he already understood why Mo Hai wasn't that shocked seeing him ride sharks in the sea. He probably heard about the hidden sect things from Mo Kang and thought he was from the hidden sects. Plus, even Han Zaixin thought he was from the hidden sects.

At this moment, a fat white man walked over with two marines behind him. Mo Kang quickly walked up and talked with the white man for a while and showed Ye Mo's identity to the white man.

Probably because Mo kang's status was quite high, the white man spoke a few sentences and brought the two marines in and didn't walk over towards Ye Mo.

Mo Kang ran over quickly and gave Ye Mo's identity back to Ye Mo and said: "So you are doctor Ye. I've heard my uncle talk about you. You saved my uncle's life. It's really an honour to see you today. Mr. Ye, please have a sit in my room."

Ye Mo thought it was too obvious to sit at the head of the ship so it would be better to go sit at Mo Hai's place.

Seeing Ye Mo and Mo Hai walk in, Lena quickly dragged Jack wanting to follow. Mo Hai looked helplessly at Jack but Jack just shrugged his shoulders.

Mo Hai said to Ye Mo apologetically: "Lena's really innocent but she doesn't understand Chinese. Jack is going to Hong Kong to discuss business with us. He's the manager from the Asian sector of the England Rueben Medicines. He's coming to Hong Kong under our invitation."

Medicine company, Ye Mo thought about his company. Perhaps in the future, he can do business with this Brit. However, Ye Mo wasn't worried that he wouldn't be able to sell his products. In the future, only people will beg him, he won't beg others.

The few people entered Mo Hai's room. Mo Hai quickly helped each people a cup of water. In his heart, although Jack was a money maker, Ye Mo's identity was more important. Of course Mo Hai knew how important Ye Mo was in the heart of his uncle Mo Kang. Once he got Ye Mo's approval, Ye Mo only needed to say something and he would be worth a lot more in his uncle's heart.

"My uncle has always been talking about you. Grand Ye, do you have time to go have a seat at my uncle's mansion?" Mo Hai was getting more and more polite with Ye Mo.

Ye Mo waved his hand and said: "No need. I still have my things, by the way, just call me Ye Mo. I'm not Grand."

Mo Hai laughed awkwardly but soon he found a topic, "Grand Ye, you are in the same generation as my uncle, of course you're Grand to me. However, have you heard about the two major things in mainland? Although we came from Australia, we've heard about these two things."

"Oh, what is it?" Ye Mo asked subconsciously.

"The biggest thing is that the Amphibian gang was annihilated in one night. Even the HQ was burnt. Another thing is that the Xuan Jiang Qiao family was also exterminated in one night. It was said it was due to a blood coral." Mo Hai wanted to get closer to Ye Mo so he found some big topics to increase the intimacy.

"What? Qiao Family was really exterminated?" Ye Mo suddenly stood up. He couldn't calm down. It wasn't because that the Qiao family was exterminated. Although he knew Qiao Gang but he already warned Qiao Gang. What he cared about was the blood coral.

Ye Mo knew how hard it was to find the blood coral after going into the sea. The blood coral was originally in the Qiao family and he couldn't rob it but now that it was robbed by someone else, what he was waiting for?

In Ye Mo's eyes, the blood coral was taken by the Cha family 99%. The Cha family was with the Earth Fiend and that was his enemy. If he didn't go rob it from the Cha family, he was an idiot.

"When was this?" Ye Mo immediately asked. He didn't care if Mo Hai suspected him. Once he fought with earth fiend, this would be unveiled eventually. Getting the blood coral and getting stronger was the right path.

Ye Mo's heart was on fire knowing that he could rob the Blood coral. He wished he could go there immediately and rob it and then breakthrough and go look for trouble with the Earth Fiend openly, telling them that they shouldn't have messed with him Ye Mo.

Chapter 288: School Mate

"I heard it's been a week and it's being spreading everywhere in mainland. Haven't you heard about it qian bei?" Mo Hai asked in surprise.

Ye Mo knew this was the time he went out searching for the blood coral. Now that Mo Hai said this, his heart was like burning. It had been a week! If these idiots just ate the blood coral or used it to make pills, then all would be gone.

Thinking about this, Ye Mo couldn't help to blame his soft heartedness. If he wasn't soft hearted, since he knew that the Cha family would attack the Qiao family, he could stay in Xuan Jiang and after the Cha family annihilated the Qiao family, he could be the fisherman standing at the back. But he knew that if he stayed in Xuan Jiang, he would stop them when the Cha family attacked.

But still, it went against his heart. Other than Qiao Gang, Ye Mo looked down on all the people in the Qiao family. It went against his heart to save these people. Subconsciously, he didn't want the Qiao family to be annihilated. After all, hoping a family to be annihilated for a herb was too bloody. But since this became true, he wouldn't hold back.

What Ye Mo didn't expect was that it just happened right after he he went into the see. He was caught unprepared. He didn't know was it too late to do anything about it.

"Mo brother, which city is closest to us right now?" Ye Mo asked desperately.

Mo Hai quickly replied: "the closest one should be south sea San Ya city. If we go there, it will take less than a day, longer for Hong Kong."

Less than a day? Ye Mo immediately got Mo Hai to point him a direction on the deck. If it really was that little distance, then he didn't need to stay on the ship. He only needed to ride a wooden board for half a day.

Jack and Lena followed Ye Mo dumbly. Lena really wanted to ask Ye Mo to learn magic but she didn't understand Chinese. This made her determine to study Chinese when she went back.

Ye Mo saw that there was not much people on the deck and took out a wooden block from his ring and said to Mo Hai: "I have a company that's also pharmaceutical related. You can talk to your uncle about it. If possible, we can cooperate but my company just started. If you want to collaborate, you can go to Flowing Snake and talk about it with Zang Jiayan. I'm still busy so I won't say much, goodbye."

Then, Ye Mo jumped into the sea standing on the wooden board and soon disappeared leaving behind three people with their mouth open wide in shock.

"God...." Jack couldn't say anything else.

...

Ye Mo followed the direction Mo Hai pointed and it was only two hours and the sky just got dark and he could see lights. This was San Yan.

Ye Mo knew about Jiang Nan Cha family. When Wu Guang told him, he asked about it. The city Cha family was at wasn't big. It was near Luo Cang. It was originally a small city but due to population growth, it changed into a medium city.

The city was called Liang Pu city. If he wanted to go there, he would need to fly to Luo Cang first and then go from there. After so much time had passed, even Ye Mo wasn't sure if the blood coral was still at the Cha family. If it really the Cha family who slaughtered the Qiao family, then the blood corla might still be there. If it wasn't the Cha family or if the Cha family worked with other hidden sects, then it might not be there anymore.

The earliest flight from San Ya to Luo Cang was at 7:00am. Although he arrived in San Ya at night, he still needed to wait there overnight before going to Luo Cang.

Ye Mo had no choice but to wait. Getting here from the sea, although he used his chi to dry his clothes and washed it with water, it was still uncomfortable after staying in the sea for so long.

He found a hotel, showered and changed a clean set of clothes before going out to get food. He'd only been eating grain these past few days.

For the first time, he walked so casually on the street finding a place to eat. If only Luo Ying was by his side. Ye Mo thought of her and sighed. He knew this was dreaming. Ye Mo walked to a big fast food block and ordered something casually and got a few bottles of beer. He felt the food was not bad here.

Just when Ye Mo was about to finish, a crisp girl voice interrupted him, "Hmm, you are Ye Mo? Huh, it really is you. How are you here?" the girl saw Ye Mo look up and yelled in excitement.

As soon as this girl yelled, Ye Mo recognized her. Although he didn't know what she was called but she was his schoolmate. He still had some impression.

"I'm Wang Yanming. Don't you know me? We've been in the same class for many years. To be honest, you changed so much." The girl spoke and her tone was elated and excited.

Ye Mo was speechless. He never even talked much to this Wang Yanming. He didn't know why she was so excited but since she said that. He could only smile and say: "Since you came, come and eat with me, my treat."

"Okay, then I won't be too polite." Then, Wang Yanming pulled the man and woman beside her down as well and said to Ye Mo: "This is Liu Jia, my colleague and this is my boyfriend Yu Tao."

"Yanming, this is your uni friend? He's quite handsome." Liu Jia was skinny. Although she wasn't plump, her face was very exquisite and she studied Ye Mo curiously.

Ye Mo felt his chin awkwardly. Due to cultivation, he had this ethereal, out of this world, temperament. In normal people's eyes, that meant he was handsome. In fact, in the cultivation realm, as long as you weren't too ugly, every guy was handsome and every girl was beautiful.

"Hello, I'm Yu Tao, Yanming's boyfriend. Nice to meet you." Yu Tao was a little introverted and average looking but he cared about Wang Yanming a lot.

Ye Mo nodded and shook hands with Yu Tao and ordered a few more dishes.

"Ye Mo, you really changed a lot. Yan Yan was really blind. So pretentious." Of course Wang Yanming knew about Ye Mo's past and felt unhappy for him now.

Ye Mo smiled. He already forgot about those sort of things and just said: "I've had quite a lot, you guys ea., Are you working at San Ya?"

"Yea, after I graduated, I came to San Ya with Yu Tao. It's quite nice here. By the way, did you know that after you left, Yun Bing asked about you. It seemed she was looking for you desperately." Wan Yanming talked non stop.

Although Ye Mo didn't feel as elated as Wang Yanming, he knew how she was feeling. Ye Mo thought about Shi Xiu. Ever since leaving Ning Hai University, he had never seen him again. This time, he could ask Wang Yanming about him.

Liu Jia poured herself a cup of beer and was about to drink with Ye Mo but a small bug flew into her cup. Liu Jia exclaimed and quickly dropped the cup on the side.

"Dumb bitch, you're asking to die." A ferocious voice sounded and a sturdy looking bald youth wiped the beer from his clothes and slapped towards Liu Jia.

Liu Jia was frightened and quickly retreated. This slap didn't hit her but the youth obviously wasn't planning to let her go like that.

"Sorry, I didn't do it on purpose, I'll pay you money..." Liu Jia saw the tattoo on the youth's arm and was so scared she couldn't say complete sentences.

Yu Tao wanted to stand up but was pushed back by the two hoodlums beside the youth and was kicked. Wang Yanming held him but was full of worry.

Ye Mo sighed. He couldn't even eat a proper meal. He walked over and grabbed the hand the youth was about to slap Liu Jia with: "Since she already apologized and your clothes only just got a little wet, there's no need to be like this."

"Who the fuck do you think you are? I'll let you know today..." this ferocious youth saw that Ye Mo dared to grab his wrist and was more furious.

"your mouth stinks." Ye Mo raised his hand and slapped. Before this youth finished his words, three of his teeth was knocked out. He spun on the ground and smashed into the two youths behind him.

The youth grabbed his mouth and his face started to swell. He muttered unclearly at Ye Mo and said in a more ferocious tone: "You dare to hit me! You don't want to fucking live."

Ye Mo shook his head. He'd seen dumb ones but had never seen someone this dumb. He held back on that slap but this guy was still acting up. Ye Mo walked up and raised his leg and was about to give him another leg.

"Friend, you're quite cruel. Why don't I, Shuai Liu, got informed when someone like you came to Lu Wang Jiao? If you got balls, kick him." A coarse voice sounded.

Hearing this voice, that youth immediately said in joy: "Liu brother, help me get revenge...."

But before they both finished, Ye Mo already kicked. And this youth spat out more teeth and could no longer talk.

"Okay, you got balls. If I let you walk out of Lu Wang Jiao, there's no need for me to stay here anymore." That coarse voiced man growled.

Chapter 289: All the world knows

"Okay, then don't stay here anymore." Ye Mo really didn't have the mood to play with these hoodlums but so much things happened just from a meal. He walked up and gave another few slaps.

The roaring man didn't even get time to react and was slapped down on the ground again, spitting out teeth just like that youth.

"Okay, okay, you're the first one to be so cocky coming to Lu Wang Jiao. If you have balls, wait for my boss." Then, Shuai Liu picked up a phone and called.

"You don't need to call. I will go see your big boss. To be honest, you have too many big bosses." Ye Mo shook his head. If it wasn't for Wang Yanming, he would go as soon as he beat them up but now, if he did, Wang Yanming and her friends would be done. So, he had to do things cleanly.

The coarse voiced man heard Ye Mo's words and looked at him in surprise. After a moment, he laughed cruelly and said: "Okay, you have balls in deed." Then, he struggled to get up and said to the two cloneys behind him: "Bring bald guy back."

Due to the fight, all the people eating here had left. Ye Mo turned back and said to Wang Yanming and them: "Go back first. I will deal with things here."

Although Liu Jia was shocked, she immediately said: "Ye Mo, you can't go with them. These people will kill. Let's go quickly."

"No need. I know what I'm doing. You guys go. Oh by the way, Wang Yanming, do you have news about Shi Xiu?" Ye Mo remembered what he was going to ask.

Wang Yanming dazed for a moment. She really couldn't understand how Ye Mo had the feeling to ask about Shi Xiu now but she still replied: "Something seemed to have happened in Shi Xiu's family. He only did a make up exam after graduation. If you want to find him, you can go to the on year graduation gathering. He quite possibly will go."

"Something happened in his house?" Ye Mo was beginning to worry for Shi Xiu. It seemed he needed to go to this graduation reunion.

"Hurry up and drive. keep staring and I will kick again." Ye Mo's mood wasn't well after knowing about Shi Xiu.

Shuai Liu almost choked. Hearing Ye Mo's tone, it was as though Ye Mo was the hoodlum and he was the one being harassed. He thought about this depressingly and received another kick on his back. At the same time, Ye Mo told him to drive. This Ye Mo guy was so cocky. Just be wait till he gets to the HQ. If he won't make Ye Mo lose half his life, he wouldn't budge.

"Ye Mo, are you really going to go with thse people." Wang Yanming asked worriedly. She wasn't dumb. She knew what Ye Mo meant. She was afraid that after he left, they would be taken upon by vengeance. Wang Yanming looked at Ye Mo again and just realized that despite being classmates with him for 4 years, she never seemed to really understand him.

Liu Jia walked over: "Yanming, go back with Yu Tao first. I started this, I will go with Ye Mo."

"No, if we're going, we go together." Wang Yanming immediately rebuked Liu Jia's suggestion.

Ye Mo saw these people were quite loyal friends and said: "Okay, then let's go together. We're just going for a cup of tea anyway."

"Are you coming or not?" Shuai Liu wasn't happy about being kicked several times. He made up his mind, even if these people didn't want to go, he would manage to let them go.

Ye Mo kicked on Shuai Liu's back again until he buried his face in the ground. "Did I allow you to talk? Hurry up and drive." Ye Mo said coldly.

....

The HQ Shuai Liu said was only a simple meeting place. It seemed this power faction was still growing. Ye Mo and them just walked in and a few people already sealed their exit and closed all the doors.

Liu Jia and them had never seen such a scene and immediately tensed up following Ye Mo closely. Ye Mo's previous performance meant that he was a great fighter.

"These few young people have balls. Although our Western Sand just got here, we're not something that small fries can bully." Ye Mo just walked into the main hall and a plain voice sounded.

"Big brother, it's this man. He's very cocky and beat out half of bald's teeth. He even said he would come for you here." Shuai Liu quickly exaggerated.

Western Sand? Ye Mo knew there was a Northern Sand. He also knew Western Sand but it was much smaller than Northern Sand. He even met the big boss of Western Sand, Jiao Bianyi. He didn't know if this Western Sand came from Hong Kong. If it did, Jiao Bianyi's power was expanding quite rapidly.

Ye Mo walked in and saw the middle aged man sitting in the centre and immediately knew this was Jiao Bianyi's Western Sand. Because when he rushed into the big boss meeting at Hong Kong, this man was right behind Jiao Bianyi.

However, the one in Western Sand who gave Ye Mo the deepest impression was Peng Yang. This guy was not bad but he followed Jiao Bianyi.

"No matter if my balls are big or not, you have no right to talk to me. Even Jiao Bianyi doesn't dare to sit and talk to me like this. It seems your balls are bigger than mine." Ye Mo said coldly.

The middle aged man heard Ye Mo talk about Jiao Bianyi and immediately stood up anxiously. He was only a fighter for Jiao Bianyi. Recently, due to Nan Qing and Metal River both declining, their Western Sand had the chance to come to mainland to expand their interests. However, he didn't expect this young man to know Jiao Bianyi. He had to be careful.

"You.... You are Ye qian bei.... I ... wan bei is Shuai She, I've been followed Jiao boss." This middle aged man finally recognized Ye Mo. When Ye Mo killed as he smiled and caught a bullet with his bare hands, even Metal River had to carefully stay with him. His big boss took it as an honour to have spoken with Ye Mo.

How could he not know about Ye Mo. He never even wanted to mess with Ye Mo. His teeth were already shivering. Shuai She knew that it was only a piece of cake if Ye Mo wanted to kill him.

He no longer dared to sit on top and quickly ran over bowing down to Ye Mo. But he soon understood who the source of the trouble was. Shuai She walked in front of Shuai Liu and gave him a few slaps while kicking SHuai Liu out many meters.

Shuai Liu sat on the ground looking at his boss in shock. He had been quite heavily applauded by his big boss. Why did his boss hit him without asking him? Was it because of this Ye Mo? Big boss called him qian bei. What was this?

Wang Yanming and the friends were more shocked. They didn't expect things to be so comedic. They thought they would lose a layer of skin at least if not die but immediately, the boss was so respectful to Ye Mo.

Shuai She quickly bowed to Ye Mo and said: "Ye qian bei, please sit."

Until Ye Mo sat at the very top did Shuai She breathe smoothly. He also said politely to Wang Yanming and her friends: "You are my honorable guests. Please sit."

Invited to sit and enjoy tea, other than Ye Mo who was still calm, Liu Jia and his friends were confused. But, they also knew that this was all because of Ye Mo. Wang Yanming couldn't understand Ye Mo even more. How did he make these people so polite.

Shuai She seated them before roaring to Shuai Liu: "Piss off! Break baldy's leg. You face the wall and repent in kneeling. How dare you attack Ye qian bei? I think you don't want to live."

Shuai Liu was full of wronged feeling thinking how would I know he was Ye qian bei. When he first came in, you also said the young people these days were quite bold but now you changed so fast. Even though he was thinking that, he didn't dare to say it.

Ye Mo waved his hand and said: "Okay, this thing ends here but I don't want it happens again. Otherwise, I don't mind squashing this department."

"Yes, yes.... Ye qian bei don't worry. We came here to do proper business." SHuai She quickly said. He felt his back was full of sweat. He didn't think Ye Mo was bluffing. Even if Ye Mo said he would squash western sand, he would still not dare to doubt it.

He heard that even Metal River and Nan Qing were destroyed by Ye Mo, although Western Sand was growing rapidly, they were far from being able to match against Nan Qing and Metal River.

Ye Mo wouldn't care if these people were doing proper business or not. It was irrelevant to him. If it wasn't for Wang Yanming and her friends, he wouldn't even come today.

"Ye qian bei, I have an important message to report to you...." Shuai She knew that Ye Mo's impression of him wasn't too good already, he needed to get on Ye Mo's good side.

"Oh, what is it?" Ye Mo knew Shuai She's intentions but he didn't mind. He didn't have the time to care about these people. Since this was done, he was prepared to leave.

Shuai She put on a smile and walked beside Ye Mo: "qian bei should know about the blood coral right? I heard it's very useful for ancient martial artists. Qiao family was exterminated due to it but not long ago, a small henchmen of mine heard about it at a bar..."

"what?" Ye Mo sprung up but he immediately stopped Shuai She's words and turned to Wang Yanming and them: "You guys can go back first. There's no more trouble here. No one would dare to go for you in the future."

"Yes, yes, don't worry. I'll get someone to drive you guys back."

Shuai She heard Ye Mo's words and immediately said politely to Wang Yanming and them.

Chapter 290: Found the clue

After Wang Yanming and her friends left, Ye Mo asked: "Tell me, what news did you hear about the blood coral?"

Shuai She rejoiced. He originally just wanted to suck up to Ye Mo and didn't expect Ye qianbei to be so interested in this news. He quickly said: "Yesterday, an underling of mine was drinking at Lu Wang bar and heard the conversation between two people."

Then, Shuai She looked at Ye Mo, seeing that he was listening intently, he decided to reward that underling who got the news.

In his excitement, Shuai She continued: "One of the two was a woman. She told the other person that, that person was too strong, if the blood coral was related to that person, then she wouldn't intervene. She also said she didn't want to continue this mission. Even if this mission was done and she could be promoted to the Earth department, she didn't want to do it anymore. She said that that person wasn't someone she could kill. That man said that the organization would hunt her if she left mid-mission. Then, that woman sunk into silence and didn't say anything.

Earth department? Ye Mo thought of the girl called Dong Qing whom he marked with his spirit sense. She should be from the Earth Fiend, a human level killer. Was that woman her? But why would she be here, and if it really was Dong Qing, how could a human level killer from the Earth Fiend leave such a big clue, allowing a small hoodlum to get this news?

Ye Mo thought of this and frowned. Shuai She saw this and his elated mood began to sink. He didn't know why Ye Mo would frown at this news and just when he was getting nervous, Ye Mo asked: "How did your man get this news?"

So that was it, Shuai She quickly said: "Wang Congui just said he heard the news, but he didn't say how. I'll call him over immediately."

Then, Shuai She saw that Ye Mo didn't react so he called outside, "Get Wang Congui to come here immediately."

Wang Congui came here very fast. It was just a few minutes and he was already here. Seeing Shuai She, he quickly put on a smile and said: "Big boss, you need me for something?"

Shuai She nodded and said: "This is Ye Qian Bei. He has something to ask you. You need to reply carefully. If you're not, don't blame me then."

Seeing his boss' serious eyes, Wang Congui quickly nodded and said: "Yes, Ye Qianbei, please ask."

"You heard about the blood coral from the Lu Wang bar?" Ye Mo asked.

Wang Congui gasped a breath of relief. He thought it was going to be something else. He quickly said: "Yes, Qian Bei, I heard about it in the Lu Wang bar. At the time I was drinking and there were two people talking in the room next door and I heard everything clearly..."

Ye Mo sneered and knocked the table: "You are lying. If you keep lying, don't blame me for what's going to happen next...."

Shuai She stood up and slapped Wang Conggui, "You don't want to fucking live! How dare you lie to Ye qianbei?"

"Ahhhh...." Wang Conggui was slapped rolling away but he didn't dare to wipe the blood from his mouth. He didn't get how this Ye qianbei knew he was lying.

But that wasn't important anymore, what was important was that if he kept lying, then perhaps his boss would really kill him. Wang Conggui knelt and begged: "Big boss, have mercy! Everything I said is real. I just didn't hear it from next door. I know a manager of the bar and last time when it was renovating, I put two extremely hidden cameras in the wall.

I wanted to use it to sneakily record some things and use them to blackmail people. Yesterday, one man and woman got in the room. I thought something was going to happen but they searched the room for a long time and didn't find anything so they said those words. Big boss, qianbei, everything I said is real."

Ye Mo nodded. It seemed that this Wang Conggui had some capabilities. However, no matter how good he was, how could Dong Qing not discover the camera he installed. If Dong Qing only had such skills, then the so-called earth fiend killer was only so so.

"Then what happened?" Ye Mo continued asking.

Wang Conggui didn't dare to hide anything and replied: "In the next hour or so, the two didn't speak and just drew with paper. They didn't even touch each other's hands and left. I didn't get anything valuable."

Ye Mo was speechless. Wang Conggui thought bed action was the only valuable thing. If there was no bed action, then it was all useless. This guy was an unique one.

Just when Wang Conggui didn't know what the qian bei was going to do with him, Ye Mo said: "okay, bring me to that bar and see. Then show me that recording."

"Yes, I'll call my friend immediately and tell him to bring the recording." Wang Conggui was very cunning. He knew that this Ye qianbei wasn't talking about those adult movies and wanted to know the content of the two's conversation.

....

Lu Wang bar was probably the biggest bar around. When Ye Mo came in, he found that this bar was indeed recently renovated. No wonder Wang Conggui could install cameras inside.

Led by Wang Conggui', Ye Mo went into the room with the cameras installed. He looked at the place where the cameras were installed and couldn't help to applaud for Wang Conggui's cunning. If he didn't have spirit sense, the cameras would be very hard to find.

Wang Conggui put the camera on the wallpaper. Not only was it small but the camera lens was the black seed of the flower. There were so many flower seeds on the wallpaper. Who would compare them one by one? This guy was a natural.

Wang Conggui and his friends both looked shady but because the recording was from last night, it hadn't been wiped.

Ye Mo turned on the computer and checked the recording. The woman who appeared was Dong Qing indeed. There was another handsome youth, middle build and short hair. This youth had a worried look. The two searched the room. From the lens, it could be seen that both were thinking about other things so the search was careless.

What they said was exactly as what Shuai She had said. But then, they didn't talk. They were drawing something on paper. The image was covered by Dong Qing's back and Ye Mo couldn't see clearly. Until they left, most of the time, they were drawing on the paper and didn't talk anymore.

When they packed the paper away, Ye Mo saw there was a coral that protruded at the side of the sea. He seemed to have seen this coral before not long ago when he came from the sea.

He got some leads and stood up saying to Shuai She: "Good, lucky I had you this time. You did very well. Next time I see Jiao Bianyi, I will tell him. I still have things now so I'll be going first."

Shuai She's eyes were full of joy and he quickly said more polite words until sending Ye Mo out. Until, he saw Ye Mo's back disappeared, he still seemed like he couldn't believe it.

He could come to San Ya completely because he had been with Jiao Bianyi for so many years and was given a chance. But now, it was different, he actually unintentionally got on the good side of Ye qian bei. He would be rising into the heavens in front of Jiao boss.

The more he thought the more Shuai She was excited and turned around to his henchmen and said: "You guys must treat those friends of Ye qianbei well. If anyone of you dares to be rude to them, then don't blame me."

....

It was more than 10 at night. Ye Mo was fast and came to the beach in 20 minutes. He found there was a big coral there indeed. Ye Mo jumped and landed on the coral.

There was nothing on it and no people but Ye Mo was happy. He felt the spirit sense marker he left. He left this on Dong Qing before. With his current power, as long as Dong Qing was within 5 km, he would be able to feel it.

And now, Ye Mo felt that spirit sense marker was in the sea and it was about to leave his spirit sense range. Ye Mo didn't dare to wait and took out a wooden board. He stood on it and rapidly made way towards his spirit sense marker.

It was only a few minutes and a white yacht appeared in front of Ye Mo. Ye Mo went over quickly and found there was an old man in his 50's on guard. The yacht was parked there and not moving.

Ye Mo got on the boat and scanned in. There were only two people inside. They were Dong Qing and the youth he saw.

"Dong Qing, is there really someone this strong? I've heard of the hidden sect masters but someone you described is too absurd. This time, the authority even sent Torence. He's Earth rank yellow level master. Perhaps, we can gamble once. Plus, last time at the race, how can you be sure it was Ye Mo who did things? Plus, do you really think he can change the bomb under your eyes?" that youth seemed to have thought for a while before saying hesitantly.

Dong Qing's face was pale and she shook her head: "Cheng Qing, you haven't been in touch with him. You don't understand how strong he is. Now that I think about it, I'm actually quite scared. I'm sure he did it right under my eyes but I wasn't able to see it."
