Chapter 291: Troubled with what to do

Pausing for a moment, Dong Qing continued: "When he was talking to me, I had this feeling of my heart skipping beats. Then, when Wu Feng pressed the button, the car that exploded was his own. I was sure that if I didn't leave at the time, I would be in his hands now. and, and...."

"And what?" Cheng Qing immediately asked.

Dong Qing hesitated before saying: "I suspect he has left a mark on my body. But afterwards, I kept washing myself and changing clothes but that feeling of being marked is still there. I'm not sure if I'm being too suspicious or not but my sixth sense is usually correct. If it wasn't for my sixth sense, I would've died at the mission in Hong Kong last time."

Ye Mo listened and commended. This Dong Qing really was a natural assassin. He could leave his spirit sense on an earth level master like Jing Xi without being found but this Dong Qing was able to guess it.

Although she wasn't sure but this instinct was amazing. Dong Qing didn't even have a level in ancient martial arts. She was just a hitman.

Cheng Qing dazed for a while before saying: "You're thinking too much. How can there be such a mark in the world. Plus, he just held your hands. Although it was quite long, who knows if Ye Mo was lustful or not. Perhaps he just wanted to grab your hands. He couldn't use your hands to mark you. If he really could, then it would be too magical."

Dong Qing shook her head and said: "Not right. He probably didn't want to grab my hands. Tang Beiwei was much prettier than me. He might grab her hands rather than mine."

"Tang Beiwei is his sister. Of course he can't do anything to her." Cheng Qing immediately rebuked.

"Meimei? How do you know she is his sister? Have you done DNA testing? Plus, one of them is Tang and the other is Ye. I can't be sure. When I was investigating him in Ning Hai, I saw him stay in the same bed

room with her for a night. And, Ye Mo doesn't look like someone lustful." Dong Qing immediately shook her head.

As though to support her opinion, Dong Qing said: "If he really was lustful, according to the data I have, he had contacted with Yun Bing and his fiancée Ning Qingxue, both of them are way prettier than me. How can he want me?"

Cheng Qing nodded: "you're right, Ye Mo isn't someone we can offend but is our upper leader someone we can offend? If we run, it's still death and a very gruesome death."

Dong Qing sighed: "If I were to choose, I would rather offend our superior and suicide. That Ye Mo is too scary. I investigated him. Nan Qing, Metal River, although these two organizations aren't destroyed by him, they are both declining due to him. I suspect even the Song Family's downfall was due to him. Recently, the Amphibian gang was exterminated, I suspect it to be connected to him as well because we got the blood coral at the sharp sea corner."

"What about Qiao family, is it also him?" Cheng Qing immediately asked.

Dong Qing remained silent for a while before saying: "I originally thought it was him but after I got the new mission, I thought about it carefully. He probably didn't rob the blood coral. It might quite possibly be the Cha family. That's why I was desperate to go. I had the premonition that if I stayed with them, my life won't be mine."

"Cha family? How can that be. When they collaborated with us, they never said they wanted the blood coral. Didn't they just say to kill Ye Mo?" Cheng Qing asked in surprise.

Dong Qing shook her head and said: "I don't know. If our hirer to kill Qiao Gang is the Cha family then everything can be explained. But our hirer is the Yun family and then in the end, the Cha family asked for cooperation to kill Ye Mo. I don't understand them. This time I didn't listen to the superior's order to stay at the Cha family and ran away. I'm probably already being suspected by the authority."

Because I suspect the authorities cooperated with Cha family on the blood coral. They wanted to lure Ye Mo and I was just the bait. I don't know what's behind this but I know if I went to the Cha family I wouldn't be alive. Perhaps the authority already knew I had been marked by Ye Mo and that's why they wanted me to go to the Cha family.

So, even if I know where the blood coral is, I wouldn't take this mission. Although I still don't understand a lot of things, I'm sure that regardless if Ye Mo is connected to the blood coral, if I go, I'm dead for sure."

Hearing about this, Ye Mo rejoiced. This Dong Qing knew where the blood coral was indeed. However, what he didn't expect was that it was the Yun family who hired the assassins to kill Qiao Gang and the earth Fiend was targeting him because he killed one of their assassins. However, why did the Cha family want to attack him? Before the race, he had no enmity with the Cha family.

This Dong Qing's sixth sense was so strong. Ye Mo guessed that the Earth Fiend might really know that he marked Dong Qing and so was prepared to sacrifice her just to kill him. Other than him killing earth fiend assassins, there must be another reason. Otherwise, Earth Fiend wouldn't let their people be sacrificial pawns.

"Sigh, you should keep tracking Ye Mo. As long as you follow him, you don't need to do anything." Cheng Qing sighed.

After long, Cheng Qing sighed: 'What are you going to do then? If Ye Mo is really that strong, are you going to leave the organization? That is a very tragic path to death."

"Dying by yourself is better having your entire family die. Ye Mo always kill entire families. He's too cruel. I'd rather die in a secret place myself than let him find my family and kill them as well." Dong Qing said helplessly.

Cheng Qing sneered however: "Dong Qing, I've been at Earth Fiend longer than you. I know a lot of things you don't. I don't know if Ye Mo kills entire families but I'm sure if you betray Earth Fiend, you will have your entire family killed as well. Those people are a bunch of maniacs. They are unreasonable.

Five years ago when I just got to Earth Fiend, a qianbei of mine, he was a human level purple killer. He was only one step away from earth level killer but because he was trapped by his mission and went back a few days later, his entire family was killed. Our superior will really kill entire families, you just don't know."

"Huh...." Dong Qing never heard that her organization would kill entire families. This was too horrifying. She only guessed Ye Mo killed entire families but thinking about this, she worried her decision.

Ye Mo knew there was no point in eavesdropping anymore so he walked out and said plainly: "If you work with me, not only will I not let Earth Fiend kill your family, I will even save you."

Huh.... Both Dong Qing and Cheng Qing shot up. Ye Mo appeared too suddenly and they weren't prepared at all. Still, they reacted fast and put their hands at the waists at the same time. Obviously, they had their weapons at their waists.

"It's you? Ye Mo, how did you come over?" Dong Qing immediately recognized who walked in. She slumped the hand at her waist. She knew that her killing blow was completely useless to Ye Mo.

Hearing Dong Qing's words, Cheng Qing was astonished. He finally understood the terror of Ye Mo. This was deep in the sea and he didn't see any ship come near, he even let Fu Bo on guard but a live person just suddenly appeared in the ship and his clothes were dry. It was as though he just appeared from next door. Even the most powerful earth fiend killer didn't have such power. No wonder Dong Qing would fear Ye Mo so much. He did have reasons for people to fear him.

Ye Mo sat down and poured a cup of tea for himself before saying slowly: "Dong Qing, now isn't the time for you to ask me how I got here. I have my ways. You wanted to kill me with the tricks you planted under the car. If I want to kill you now, it wouldn't even bother me at all and I have 100 reasons to kill you. I haven't killed you yet because I want to see if you know what's good for you. If you seek death, then I have no choice."

Dong Qing let out a long exhale as though putting everything down. The worry on her face disappeared. Sometimes, people are like this. They keep worrying before things happen but once it really did happen, they would feel its no use worrying, might as well face it.

"Ye qianbei, I know you're very strong. You can kill us like ants. Earth Fiend isn't an organization that we can betray easily. To be honest, I have no good feeling towards Earth Fiend at all. We were forcibly taken into training. Only because we have nowhere to go. We want to achieve higher in Earth Fiend. Now that I offended you, you can kill me but I just don't want you to attack my family." Dong Qing seemed to realize there was death either way.

Ye Mo smiled plainly and grabbed Dong Qing's wrist. He quickly sliced a wound on it and before Dong Qing could react, Ye Mo let go of her hand. He pinched a small red Gu in his hand: "Is this the reason why you don't dare to betray Earth Fiend? I've taken it from your body. You can talk now."

Dong Qing had her eyes wide open in shock and said horrifyingly after a while: "You, how do you know that there's a control Gu in my body? How could you force it out? You dare to hold it with your hand. Aren't you afraid it will go in your body?"

Ye Mo sneered: "This little bug can be called Gu? Don't make me laugh."

Chapter 292: Frightening Means

Ye Mo sneered, "This sort of bug can be called Gu? Don't make me laugh."

He thought about the Bug Monk who reigned dominance in the cultivation realm for a time. He had all sorts of bugs on him. Each Gu he raised was 1-2 meters long, and the largest one was more than ten meters. This small thing wasn't even a fly in the cultivation realm.

Cheng Qing also amazed at the Gu in Ye Mo's hand. This was the first time he saw it out of the body. He knew that everyone who joined Earth Fiend must accept a Gu from the Earth Fiend Gu king. If you leave or betray, this Gu will be triggered and the Gu bug will devour the heart of that person. It was helpless.

He also heard the older generation say that if you had the Earth Fiend Gu planted in you, you belonged to Earth Fiend for the rest of your life. Other than the Gu king, no one else could take the Gu from the body. But now, he saw Ye Mo take the Gu out of Dong Qing's body in two seconds and held it between his fingers not fearing of it getting inside his body. Ye Mo was this strong.

Cheng Qing who was planning to attack Ye Mo lost the intention to do so completely. He felt he had no chance on this youth at all. Although his sixth sense wasn't as strong as Dong Qing's, he could feel that if he attacked, he would be killed immediately.

Hm, Ye Mo felt something wasn't right. Although this Gu was like a fly to him, there was a dense life force coming from it and Dong Qing seemed quite withered after he took the Gu out. Her face even seemed a little waxy. What was this?

"Qian bei, Ye qianbei, you can remove the Gu from my body? I, I...." Cheng Qing immediately realized this was a rare opportunity after his initial shock. He also had Gu in his body. If it was taken out, then wouldn't he be able to go anywhere he liked? He didn't have a family that the Earth Fiend could exact revenge on.

Ye Mo knew his intentions of course and looked at him plainly: "I can take it out of your body but you need to answer my questions truthfully. If you hide anything, I can still search your soul."

The last bit was a lie. He wasn't in foundation establishment yet, if he wanted to search soul, he could only control Cheng Qing's mind and make him say it himself. However, the bad thing was that the information would be very incomplete.

"I'm willing, as long as qianbei help me remove the Gu, I'm willing to answer any questions." Cheng Qing didn't have any hesitations at all.

"Okay." Ye Mo reached out his hand and sliced on Cheng Qing's arm. Although he took a little longer, but it was less than 5 seconds and a yellow Gu bug appeared on Cheng Qing's arm.

Ye Mo held the bug and found there was more life force on it and Cheng Qing was more withered than Dong Qing. He was so weak that he almost fell to the ground.

The colour was different and the amount of essence blood was also different. Was this related?

Ye Mo squeezed and the red Gu was crushed. A faint yellow flame rose from the tip of his finger and burnt that Gu to crisp. However, he didn't crush the yellow bug and still had it on his finger.

Dong Qing and Cheng Qing were shocked. They had seen many powerful people in the organization, some of them even having special abilities but they had never seen someone as strong as Ye Mo.

Ye Mo didn't say anything. He felt this Gu was eerie. What was this?

"Do you know why the colours in your Gu's are different?" Ye Mo felt it was similar to the body devouring Gu in the cultivation realm but it also seemed a little different. He wasn't sure so he asked.

Cheng Qing and Dong Qing glanced at each other and shook their heads: "I don't know but the Gu you took out is about the same colour as our status. I'm still a human red killer while Cheng Qing is a human yellow killer.

The colour of the Gu matches our level.

"There are so many levels to a human level killer?" Ye Mo murmured to himself but he still didn't understand. Then, he asked: "Since you can't even see what colours your Gu's are, how do you rank up?"

Cheng Qing said: "Each person who enters Earth Fiend will have a Gu planted by the Gu king. Usually, those who just got in have red colour, then orange. Now, I just rose to yellow. The highest level of human level is purple. We have people who test us. If we pass, we will be given this badge."

Then, Cheng Qing took out a yellow badge. It had two sharp daggers and there was a head on it. It seemed quite eerie.

Then, Cheng Qing continued: "The earth level killers also have 7 colours but their badge doesn't have the human head. It's earth instead."

Ye Mo took the badge and studied it for a while but didn't find anything. It seemed like a normal badge. Seeing that Ye Mo was studying the badge, Dong Qing also took out her badge and gave it to Ye Mo. Other than the colour difference, everything else was the same.

Ye Mo held the badge and asked: "That is the heaven level badge a piece of the sky with two daggers?"

Cheng Qing shook his head: "That I don't know. I've never seen a heaven level badge. I have a bro called Yuan Peng. He's earth level killer. He failed a mission before the ascension to heaven level. But I heard that once you reached heaven level, you will have your Gu bug taken out and become an elder of the Earth Fiend. You can also choose to leave Earth fiend and live your own life so everyone wants to hurry up and become a heaven level killer."

Ye Mo immediately asked: 'Are there people who become heaven level killer?'

Cheng Qing nodded and said: "Almost every year, there are people who become heaven level killer. And after they became heaven level, they pretty much all chose to leave Earth Fiend. If I reach heaven level, I will also quit."

Ye Mo had understood everything by now. He sneered, "Change a life? What a joke! I originally didn't know what's up with the Gu but now I know something and I've seen these sort of things too much. This Gu looks like a body devouring Gu I've seen before. Of course, these Gu's are countless times worse than those."

"Body devouring Gu?" Dong Qing repeated and her face went pale. She had a body devouring Gu inside her body. Just the name was disgusting enough.

Ye Mo still sneered: "That's right. It's similar to the body devouring Gu. It's a parasite in the host and devours the essence blood of the host. It can also devour life force so once the host kills someone, the victim will have their life force devoured by the body devouring Gu. Then, it will use the host's blood essence to nourish itself. So the more you kill, the more lively it is."

"Qianbei, so you mean that we're using our own blood essence to feed the body devouring Gu? After we kill people, the life force of the dead is also eaten by the Gu?" Cheng Qing's face went pale. He couldn't accept such thing.

"Indeed." Ye Mo nodded and continued: "The person who planted the Gu in you has nefarious intentions. One, is to stop you from betrayal of course but the main reason is for the Gu to get more essence blood and life force. The more focused you are when killing, the better it is for the Gu."

Ye Mo looked at the two who were pale and said: "this Gu only just started in your body and you guys are already so withered when I took it out. And, this Gu is still struggling in my hands, wanting to eat more of your essence blood. It can be seen, the leaving Earth Fiend once you reach heaven level is a lie.

If I'm not wrong, then the heaven level killers have ripe body devouring Gu. Once it is taken out, the host will immediately become extremely weak. Then, the Gu would immediately devour the host, eating their life force and essence blood clean."

Dong Qing and Cheng Qing's faces were pale. After along, Dong Qing said shakily: "Why are they doing this? Each heaven level killer is a genius among killers. Why are they killing their own men?"

Although they already believed what Ye Mo said to be is true, this was too absurd.

Ye Mo sneered: "That's because the Gu is ripe and the Gu farmer can harvest. The person who planted the Gu in you is using the life force and blood essence of the ripe body devouring Gu to cultivate some sort of thing. This guy is strong indeed.

Ye Mo had to approve of this Gu farmer's calculations and plan. This was pretty much farming a bunch of pills that can cultivate. When he needed them, he could take them. Although these Gu's are far from the body devouring Gu's but their properties were pretty much the same. Being able to find such a Gu and someone who could control them so well on Earth was quite astounding.

"So that's how it is." Cheng Qing gasped a long breath. Obviously, he already believed Ye Mo's words.

"Cheng Qing, do you know something?" Dong Qing immediately asked.

Cheng Qing's face looked black and said: "I finally understand why Yuan Peng brother died. The last time he went to do a mission, he was already an earth purple level killer and that mission wasn't very hard but he wasn't able to finish it. Now I know, he must've been harvested by the Gu king."

Chapter 293: Scheme for the blood coral

Ye Mo frowned but didn't say anything. If this was the truth, then that Gu farmer must not be underestimated. Earth Fiend had been around for so many years. This guy had devoured countless blood essences and life forces. Next time when he went to annihilate the Earth Fiend, he needed to be careful of this guy.

But now, he didn't have the mood to care about that. Thinking about this, he waved his hand and said: "let's put that aside now. Tell me where the blood coral is first."

Dong Qing came back to her sense and hearing Ye Mo's question. She quickly replied: "After I left the race, I thought of running as far as possible because I didn't dare to betray the organization. So I contacted them and they gave me a new mission. That is for me to return to the Cha family immediately. At that time, I guessed that the blood coral might quite possibly be at the Cha family. Just when I was hesitating, Cheng Qing came and found me."

Cheng Qing quickly nodded and said: "The uppers sent me to help with Dong Qing but I knew it was surveillance. Because when Dong Qing left Hu Zhong, she didn't report and made up a story afterwards. The uppers probably don't know that I knew Dong Qing. When I was young, I was raised by Dong Qing's parents for a while. Later, we realized we were in the same killer organization so we pretended we didn't know each other well. The organization does not allow us to contact each other much less have a good connection."

Ye Mo nodded. Dong Qing's subconscious actions were right. Her sixth sense was very accurate. It seemed that the Earth Fiend did intend for her to be a sacrificial pawn sending her to the Cha family. The intention was to lure him to the Cha family. The other reason was probably to prevent Dong Qing from falling in his hands first and leaking information about the Earth Fiend.

What Ye Mo was confused was that how did the Earth Fiend people know he marked Dong Qing? And how did they know he would follow her? Were they just guessing?

Ye Mo looked at Dong Qing and said: "Not bad, you can guess your uppers are using you as a sacrificial pawn. Then let me ask again. Has the Cha family seen Cheng Qing? Do they know him?"

Cheng Qing answered: "They don't know me for sure. I've never been to the Cha family. Most of my missions are in the Macau and Hong Kong region."

Ye Mo nodded and said: "That's good and where is your HQ?"

"The mainland, Hong Kong and Macau killers gather annually at the Hong Kong Pu Temple. As for other countries, I don't know but I know that other than the HQ at Hong Kong, there are at least 3 other HQs. I just don't know the exact locations." Cheng Qing replied immediately.

Hong Kong Pu Temple? Ye Mo went there last time and annihilated the Da Tang there too. He didn't expect the Earth Fiend to be at such a chaotic place.

"Okay, in that case, Cheng Qing, you leave first. Tomorrow, I will go with you and Dong Qing to the Cha family." Ye Mo immediately took out a plan of action. This was the best way because he can get the blood coral simple and easy.

"You want to pretend to be Earth Fiend?" Cheng Qing looked at Ye Mo in shock. After half a beat he continued: "There are many strong people in Earth Fiend. If they really want Dong Qing to be a sacrificial pawn, there will definitely be stronger people there. Are you really going to go?"

"Sacrificial pawn?" Ye Mo sneered, "I'll show them who is the real sacrificial pawn."

"Ye qianbei, can I ask you why you killed the Gu from Dong Qing but still have my one on your hand? I feel not safe." Cheng Qing stared at the yellow bug. As long as this bug wasn't dead, he wouldn't feel safe.

Ye Mo didn't answer. He knew it wasn't easy to grow these Gus. Other than what he told the two, the body devouring Gu also had another special property. That was once the host died, it could fly back to the Gu farmer and kept being used again. And, the essence blood wouldn't disappear.

The reason Ye Mo kept this was to make a spirit sense mark on it and let the Gu fly back to keep a lead. In case in the future, he couldn't find the Gu king. He had made up his mind. Once he got the blood coral, he would find a place with good spirit chi and break through. The first thing he would do after that was to go find trouble with the Earth Fiend.

Of course, he wouldn't tell this to Cheng Qing. If he was captured by the Earth fiend again, then his plan would be spoiled.

Dong Qing really wanted to ask if Ye Mo marked her body but seeing that Ye Mo didn't answer Cheng Qing's question, she didn't dare to ask.

Ye Mo turned to Dong Qing and said: "Dong Qing, if you are willing to take me to Cha family, I can pretend your attacks on me never happened. I will also teach you ancient martial arts letting you have the power to protect yourself."

"I agree." almost immediately, Dong Qing agreed. First, there was nothing she could do in Ye Mo's hands. Secondly, she knew about ancient martial arts. Those who could reach earth level were all ancient martial artists. She knew the cultivation method for it was very valuable. If she didn't accept it, she would be an idiot.

Cheng Qing looked at Dong Qing in envy but he knew he couldn't replace Dong Qing and go with Ye Mo.

Dong Qing saw Cheng Qing's envy and asked Ye Mo: "Qianbei, if I get this, can I teach it to Cheng Qing?"

"Of course." Ye Mo agreed without hesitation. That wasn't even a problem to him. He got these from killing anyways. It was very precious to Dong Qing and her friend but it was trash in his eyes.

Seeing Dong Qing agree, Ye Mo immediately said: "I'll be waiting for you in the airport tomorrow. As for Cheng Qing, I suggest you throw away everything Earth Fiend gave you, shave your hair as well. I think you know this."

Dong Qing was a woman so Ye Mo didn't search her body but he searched Cheng Qing's body. Other than the Gu, there were no other marks. From this, it could be seen that there shouldn't be other marks on Dong Qing as well. So, he only needed to remind Cheng Qing.

Then, Ye Mo walked out of the boat and disappeared into the sea.

Dong Qing and Cheng Qing were completely shocked. They stared at the endless night sky and the dark ocean water.

"So strong...." After Ye Mo was a long way away, Cheng Qing said with fright, "No wonder you say he's a scary person. This isn't just scary. This is terrifying. I've never seen someone so strong. He's out of this world."

Sigh. Dong Qing also felt relieved, "My sixth sense is right indeed. He isn't someone we can mess with. If I listened to the organization, I would've probably been a body tomorrow. And, we would never know we were fed as food for bugs. Compared to Ye Mo, our organization is scarier."

Cheng Qing nodded and said: "There's actually such a gruesome cultivation method. That Gu king really is an animal. But he messed with Ye Mo, he would have his days of regret. Dong Qing, your sixth sense is also very scary."

Dong Qing remained silent and didn't say anything. After a while, she said: "I believe what he said is true but don't worry. When I get the ancient martial arts cultivation method, I'll also make a copy for you. And, you should leave San Ya immediately. Bring my sister and her husband into Jing city and wait for me there. Once things here are done we will go to Jing city. I have a feeling that Ye Mo wouldn't let Earth Fiend go. Since the Earth Fiend messed with him, it's their bad luck. As long as we stay hidden in Jing city until the Earth Fiend is gone, then we can live a proper life."

Cheng Qing nodded and said: "Okay, but after I bring your sister and her husband away, I need to leave Jing city. I have a few friends in Earth Fiend. I want to tell them if they see Ye Mo, they should beg for mercy."

"Your Gu bug is now gone. You must not go to Hong Kong." Dong Qing immediately said.

Cheng Qing replied solemnly: "I know, you should also be careful when you go with Ye qian bei to the Cha family."

...

When Ye Mo got to San Ya airport, Dong Qing had been waiting him for a long time. Seeing Ye Mo come over, she quickly greeted him and gave him a plane ticket.

If they wanted to go to the Cha family, they had to plane to Luo Cang first and then catch train to Liang Pu city. Ye Mo was originally planning to rob it himself but he was afraid the blood coral wasn't there. Now that he went with Dong Qing, perhaps he could get it straight away and then start a carnage. Even if the thing wasn't there, they would tell Dong Qing where it is. They wanted to ambush him, then don't blame him for what's about to come.

Now Ye Mo had a new view of Earth Fiend. Originally, it was just a mere hitman organization, even if it was international, he wouldn't care. He only needed to wear a defense artifact and he could prevent all sorts of assassinations but now, it was different with a Gu cultivator. What if this guy exceeded earth level.

Plus, even if this guy was still earth level, what threatened people in the cultivation realm the most was Gu keepers. The Bug monk at the time, no one dared to mess with him. When he was in golden pill state, he was already invincible in the same state. There was no other reason: his bugs were too many.

And, Ye Mo suspected that the Gu king also wanted the blood coral. He was already strong with the Gu, if he got the blood coral, then even Ye Mo was a bit worried.

Chapter 294: Seen through

Liang Pu city was originally just a small city but it had been developing rapidly in the past decade. It had already become a medium sized city and still had room for improvement.

Although a lot of ancient martial artists knew about the Jiang Nan Cha family, even some people from the hidden sects knew about them, they weren't famous in Liang Pu. The only famous thing was those old houses of the Cha family. The only reason many people knew about the Cha family was due to those old houses.

The houses weren't worth much when the city was just a small city but when Liang Pu became a medium sized city and had rails connected to Luo Cang, the housing prices rose rapidly. It's said that the Cha family houses were worth countless times more. And, the houses were at the golden place in Liang Pu so they were worth more.

Due to the rise in Liang Pu land and the Cha family houses were at optimum place, it attracted a lot of land developers. There were a lot of developers who wanted this land but the only one who had the capability was the Hong Hua corporation. There was no land the Hong Hua corporation couldn't get. So when the Hong Hua corporation was checking out the Cha family houses, many people were waiting for the Cha family to move.

But what everyone didn't expect was that when this was just brought up, the Hong Hua corporation cancelled the plan in half a month. There was no other reason but all of the authorities of the corporation disappearing in one night. Even most of their families disappeared.

This created a huge uproar and after government investigation, it was because the Hong Hua corporation had been tax avoiding and corrupt that they feared apprehension and left the country in

one night with their wealth. Whether this is true or not, no one dared to make a move on the Cha family houses again.

....

When Dong Qing and Ye Mo arrived at the Cha family, they received a warm greeting by the leader of the family, Cha Rulong at least superficially.

When Ye Mo first stepped foot in the building, he felt a strong yin chi or perhaps earth yin fiend chi was more accurate. It wasn't a good idea to live in houses with such a strong aggressive chi. But what made Ye Mo more bewildered was that although the Cha family was big, he didn't see much family members there. There were only a few servants and most of them looked emaciated and tawny. They were obviously affected by the fiend chi here.

It seemed the Cha family didn't live here and the houses were only a place that the Cha family cultivated. To be exact, the Cha family didn't want to leave the fiend chi behind. It seemed that the Cha family's ancient martial arts cultivation was related to earth fiend. They obviously weren't good people.

The backyard of the houses was barricaded, and foreigners were not allowed in. But Ye Mo scanned his spirit sense and knew that there were no people there other than some ancient martial arts cultivators.

"Mrs Dong, last time, you left without saying goodbye. I really didn't know who you were. I apologize for that now." Cha Rulong said with a face of guilt but his guilt was gone immediately. Then, he turned to Ye Mo and said: "You must be Mr Cheng Qing. Please, come inside."

Then, Cha Rulong's smile grew more hospitable. Cha Rulong looked like he was in 50's. His face was white without a beard. He was at yellow level middle stage and seemed to have a solid foundation.

Ye Mo looked at Cha Rulong's expression. Although it immediately returned to a hospitable smile, he still saw the shock when Cha Rulong saw him. Although he changed his face slightly, it wasn't something special. Ye Mo was sure that Cha Rulong wouldn't be able to tell.

Since Cha Rulong shouldn't be able to tell that he was masqueraded but was still shocked when he saw him. The only explanation was that Cha Rulong recognized he wasn't Cheng Qing. Or, it meant that he had seen Cheng Qing before or his picture.

Ye Mo didn't expect the Earth Fiend to be so meticulous. They even sent Cheng Qing's picture over to Cha Rulong. The only explanation for this was that either the killer was being abandoned by the organization or the hirer was very intimate with the hitman organization.

It seemed that Cheng Qing and Dong Qing's relationship was already known by their organization. Pity these two thought the organization didn't know their relationship.

"Indeed, I'm Cheng Qing." Even though Cha Rulong recognized he wasn't Cheng Qing, he might as well play along with the act.

Cha Rulong had a face full of smile, "I'm Cha Rulong. It's an honour that you two can come to our Cha family."

As Cha Rulong spoke, he already led Ye Mo and Dong Qing into the guest quarters.

As soon as Ye Mo came in, he scanned the whole place with his spirit sense. When he and Dong Qing first came in, there was two people at the door. Inside, there were 3 people. Other than Cha Rulong, there were two normal martial artists. Ye Mo noticed them. They weren't killers.

But when Ye Mo scanned his spirit sense underground, he immediately understood what was going on. The ground was hollow. There were two people each hiding under the left and right guest chairs. Ye Mo noticed that they weren't ordinary killers. They were probably earth rank killers.

TL Note: the earth rank for killers does not mean they have earth level power. It's just a status within the hitman organization.

Ye Mo scanned his spirit sense out and soon found another earth level killer hidden at the roof. There was also another killer underground. This wasn't the first time Ye Mo was in this situation. This was far from being able to threaten him.

They actually sent out so many killers to him. This Earth Fiend really didn't underestimate him. Did they already know he was acting as Cheng Qing? That was impossible. Even Cha Rulong only realized he wasn't Cheng Qing when Cha Rulong saw him. The only explanation was that they were sure he would follow Dong Qing here to rob the blood coral. These hitman would attack when he attacked.

Now that Cha Rulong saw he wasn't Cheng Qing, he only needed to think a little and would know he was Ye Mo. Even though he changed his face, Ye Mo was sure he would be recognized as they probably had seen his picture.

But since the Cha family found out, perhaps they would attack immediately. Ye Mo stopped in the guest quarters and didn't sit down. If he sat down, the hitman would attack immediately and he wouldn't see the blood coral.

Ye Mo didn't understand why the Earth Fiend would use so much power to kill him when he just killed two of their hitmen. But if they think a mere few assassins could kill him, they underestimate him too much.

Dong Qing was rather vigilant. Seeing Ye Mo not sitting down, she also stayed by Ye Mo's side and didn't walk forward.

"Please have a seat you two." Seeing the two didn't sit down, Cha Rulong invited once again.

Ye Mo smiled: "Mr Cha, we're here to help, although the blood coral is very important for the Cha family, it's also very important to us. Is the blood coral still here?"

Ye Mo knew he shouldn't be saying this but since they already knew who he was, there's no point for him to hide. It was important to see the blood coral first.

As soon as Ye Mo said this, Dong Qing immediately understood. Ye Mo's words obviously made them doubt. Their status didn't have the right to ask about the blood coral but Ye Mo asked about it. With Ye Mo's cunning, he wouldn't make such a mistake. The only reason was that Ye Mo knew their identities were exposed.

Although Dong Qing didn't know how, she was on the same string as Ye Mo so she immediately said: "That's right. We have been contacted by our uppers to protect the blood coral so we need to confirm if the blood coral is still here."

Ye Mo nodded to himself, this Dong Qing was really smart, knowing what he meant. Now that they said this, they might actually be able to see the blood coral.

"okay, please have a seat, I'll get people to bring the blood coral for your examination immediately." Cha Rulong then said to the person behind him: "Bring the blood coral here immediately."

They didn't seem to worry at all of being known as the culprit behind the Qiao family massacre, nor did they doubt Ye Mo.

"Please have a seat you two." Cha Rulong said to Ye Mo and Dong Qing once again.

Ye Mo smiled and just sat down to the chair next to him.

Cha Rulong saw Ye Mo's actions and rejoiced but Ye Mo didn't seem to see it at all. The moment he sat down, his flying sword already pierced into the ground along the foot of the chair.

Before the killer could move, Ye Mo's flying sword severed his head. The Gu bug inside his body didn't even get a chance to escape.

Then, Ye Mo controlled his flying sword and killed the hitman underneath Dong Qing. Just when Ye Mo and Dong Qing sat down, these two killers were already killed.

Even so, Ye Mo's flying sword didn't stop. He continued to control the flying sword and killed the killer at the door rapidly and then rose up into the roof and killed another hitman there.

4 killers were killed in such a short time by Ye Mo. Ye Mo sneered, in the wake of absolute power, all ambushes are useless.

But when Ye Mo took back his flying sword, his face was a little pale. After all, he killed four in a row very rapidly. It was tough on his chi controlling the flying sword.

Chapter 295: Danger

But this also made Ye Mo alert. Although he was a cultivator and had the natural advantage, faced against large sums of people, he would be in danger if he used up his chi.

Ye Mo also knew that his spirit chi would be consumed a lot due to the positions of the four killers. If they were just in front of him, he wouldn't use so much spirit chi. But that was no excuse.

Cha Rulong saw Ye Mo and Dong Qing sit down and was overjoyed. He laughed, "Come help them pour tea...."

In the agreed code, if Cha Rulong said these four words, the killers would attack and he would help them from the side but after he said the code word, there was nothing.

At that moment, Cha Rulong's face sunk. What was this? Was he really from Earth Fiend? That's not right. The person impersonating as Cheng Qing looked really like Ye Mo.

Of course Ye Mo knew what Cha Rulong was thinking about but his spirit sense stayed on the guy going to get the blood coral. After he went into the backyard, he kept walking and disappeared out of spirit sense range.

Cha Rulong was uneasy and seeing Ye Mo look at him he was more worried.

Just when Ye Mo thought the blood coral was no longer at the Cha family and was taken away by the Earth Fiend people, that man who went to get the blood coral appeared. He was followed by two ancient martial artists next to him. The strongest was black level middle stage.

Ye Mo saw that man carry a big jade box and immediately rejoiced in his heart. He didn't expect the blood coral to be really at the Cha family. Good thing he came in time and didn't try to rob immediately. If he did, he would frighten them and perhaps it would be transferred away.

Soon, the 3 people had arrived at the guest lounge. Ye Mo didn't wait for the man to give it to Cha Rulong and just took in.

Ye Mo opened the jade box and it was a blood red coral indeed. It was preserved quite well. He finally felt relieved. Although it wasn't very smooth but it still landed in his hands.

Seeing the blood coral somehow really land in Ye Mo's hands, Cha Rulong's face was worse. He even suspected that the Earth Fiend was involved.

Then, Ye Mo packed the blood coral away. He wouldn't take it out again.

"You, where did you put the blood coral?" Cha Rulong dazed for a moment and realized that big jade box was gone. There was no way you can put away such a big box without being seen. Cha Rulong immediately began to worry.

Ye Mo said plainly: "I came to get the blood coral. Since you've already given it to me, it means that you did well. I'm going, see ya."

Then, he got up and was going to walk outside. Dong Qing quickly followed.

"Stop." Cha Rulong was desperate and yelled.

Ye Mo looked coldly at Cha Rulong: "Mr. Cha what is it? Although you sent people to assassinate me but I'll let you go on account of the blood coral. If you are still going against me, then don't blame me for helping Qlao Gang get his revenge."

"You, you know..." Cha Rulong finally realized that from the start to the beginning, Ye Mo already knew he recognized him. The Earth Fiend people still didn't attack. Cha Rulong suspected he was tricked.

Thinking about this, Cha Rulong pressed a bell hidden in the table. It was a mere few minutes and Ye Mo's spirit sense scanned those scouts all rushed into the guest lounge.

Soon, Ye Mo and Dong Qing were surrounded by more than 20 people. Five of them were actually yellow level and two were black level. In a modern city, this power was enough to wipe everything.

Dong Qing was originally wondering where Ye Mo put that big blood coral away but seeing that so many masters had surrounded them, her face went pale. She was dumb. She was no match for anyone of them even when it was an ambush. Much less there were more than 20 here.

Bring out the blood coral and I can let you go." Cha Rulong was already suspecting if the Earth Fiend betrayed them. The 4 killers still hadn't moved but they all had their faces covered and he didn't know any of them. Although he was certain he could kill Ye Mo but he didn't know where Ye Mo put the blood coral away. Before he saw the blood coral, he wouldn't attack.

Ye Mo looked at Cha Rulong and said: "I'm curious. Why did the Gu king of Earth Fiend leave the blood coral with you and even send people to help you. Oh, you don't need to wait for those four killers. I've already killed them?"

"When did you kill them?" Cha Rulong asked subconsciously.

Ye Mo sneered but didn't reply.

Cha Rulong finally realized that he guessed wrong. Earth Fiend didn't conspire with Ye Mo. Ye Mo just killed the 4 killers.

"Show me the blood coral or put it on the table and I will tell you why." Cha Rulong's face was very bad.

Then, he had a cruel look on it: "If you don't tell me, even if you can escape from our Cha family but I will kill all of your family. If we can kill the Qiao family we can annihilate your Ye family, and there is Ning Qingxue, right? I will make sure she dies very happy."

Ye Mo's eyes went cold. He wasn't planning to kill them all but Cha Rulong successfully challenged his bottom line.

Looking at Ye Mo's cold eyes, Cha Rulong felt his body shake as though he did something stupid. Ye Mo said coldly: "Mr. Cha, you've successfully pissed me off. Very well, I will slaughter you Cha family clean today."

"What a joke." That black level martial artist who guarded the blood coral scanned at Ye Mo and then said to Cha Rulong: "Leader, no matter where he hid the blood coral, it can't be outside this room. As long as we kill him we can find it. Why bother talking to him." Then, he stared at Ye Mo, not hiding the killing intent in his eyes at all.

Cha Rulong's eyes flashed. He thought that person was right. No matter how strong Ye Mo was, they only needed to kill him today. He nodded and said: "Go at once and kill him. I don't believe this blood coral can be outside this house."

The people heard Cha Rulong's words and charged together. They were all cultivating related yin fiend chi. Before they even got close, there was a bleak windy feeling. Dong Qing was invaded by this chi and shivering. She couldn't even stand properly.

But Dong Qing immediately found that their attacks couldn't seem to reach her body as though it was blocked by something.

Ye Mo took out the long sword he took from Bian Po. Swiping around, blood splashed. It was only a few minutes and those 21 people attacking Ye Mo only had that black level warrior remaining. However, one of his arm was cut off.

At this moment, he was frozen. He had never expected a black level master like himself with so many other people would almost be completely wiped out in only a few minutes while attacking a young man who had no inner qi flow.

Cha Rulong looked at the room full of bloodied bodies and his face was white as paper. He knew Ye Mo was strong but didn't expect him to be so strong to this extent. What sort of being did he get as an enemy for the Cha family? He thought his Cha family wasn't something that the Song family could compare but in fact, he was wrong. He regretted now but there was no regret in the world.

"What power level are you? Are you earth level master?" that black level martial artists had fear flash across his eyes as he asked in trepidation.

Cha Rulong and him both didn't realize how the long sword appeared in Ye Mo's hands. When Ye Mo packed it away, they both realized it just vanished into thin air.

Dong Qing was dazed until now. Seeing the bodies and blood everywhere, she could no longer hold the fear in her heart and ran to the side vomiting. She also killed people but it was assassination. When had she ever seen such a bloody carnage?

Ye Mo didn't bother with Dong Qing and looked coldly at Cha Rulong: "Answer my two questions. First, why is your family assassinating me? Second, why would the earth fiend keep the blood coral at your family? If you don't tell me, I will find the rest of the Cha family and kill them all."

After being dazed for a long time, Cha Rulong suddenly laughed, "Go kill them! I'll wait for you to kill the rest of them! Go, HAHahaha..."

He went mad? Ye Mo punched Cha Rulong in the forehead and then turned around and killed the black level warrior with a windblade and then continued to ask the two questions.

Cha Rulong's expression was dazed but he quickly answered Ye Mo's questions: "Ou Feng wants to kill you. He took the Song Family's treasure, jade woman plate and came to our family. One of his conditions was to kill Ye Mo. The second was for us to introduce him to a hidden sect. I introduced him to Earth Fiend and gave the jade woman plate to earth fiend. My purpose is to get the blood coral."

Ye Mo asked again: "Since your Cha family got the blood coral and Ou Feng gave you the jade woman plate, why are you using it to trade with the Earth Fiend for the blood coral?"

"Because the Yun family is very dumb. They asked the Earth Fiend to attack Qiao Gang and let the Earth Fiend know about the blood coral. The Earth Fiend promised not to leak the blood coral news to the hidden sects and promised not to rob it. The payment is the jade woman plate." Cha Rulong replied dumbly.

So that was it. Ye Mo immediately understood. As long as the hidden sects didn't attack, then no one can take the blood coral from them. If the Cha family didn't sacrifice the jade woman plate, they wouldn't be able to protect the blood coral at all.

"Where are you Cha family people hiding?" Although Ye Mo wasn't really going to kill them all, he still needed to know where they were.

Cha Rulong answered: "Our Cha family doesn't have female members because we're positioned at the yin fiend place. Our martial arts can only be cultivated by male. Once we have an offspring, the mother would be invaded by the yin fiend chi and unable to survive.

Ye Mo was speechless. This Cha family was this sort of a family.

Wait. Ye Mo suddenly thought of a key problem. He should be in danger now.

Chapter 296: leaked

looking at Dong Qing who was still vomiting, Ye Mo casually killed Cha Rulong with a wind blade and dumped him with the rest of the Cha family people. Then, he threw out tens of fire balls and burnt the entire house to dust.

"Huh, you....." Dong Qing happened to turn around now and saw the fireball Ye Mo made. She was truly shocked. This was out of her comprehension.

Who was he? Dong Qing looked dumbly at Ye Mo. She finally believed that there were unimaginable masters in this world.

Ye Mo looked at the dazed Dong Qing and took out an ancient martial arts booklet and a porcelain vase and gave them to Dong Qing: "This is taken from a black level peak stage master and these pills are to assist in cultivation. These are now yours for showing me the way.

Without these pills, you might not get anywhere even in decades considering your age. But with these pills, that will be different. These medical pills are far from real pills but they can let you reach black stage within 5 years.

And one thing is, we're both really in danger now. I believe you have realized that as a hitman. It's best if you leave as soon as possible."

Then, Ye Mo thought and gave two fireball charms to Dong Qing, "These are two charms. They can save your life. In time of danger, just throw them at the enemy and say Lin." As for other things, I won't help you. Go now, it's all up to you if you can escape from Earth Fiend. I think your organization is already starting to suspect you. You should know in your heart too. I think your organization already know about your relationship with Cheng Qing."

Dong Qing finally reacted and bowed to Ye Mo: "Thank you Ye brother for saving my life. If I don't die, I will pay you back."

Ye Mo waved his hand. "No need for that, plus, it's not even certain if you can escape from Earth Fiend. They will hunt us fully soon. It's completely your fate if you can run away. Hurry up and go now. I still have some businesses."

Dong Qing bowed again and quickly left Cha family and disappeared.

Seeing her disappear, he knew that since Dong Qing was so smart and her sixth sense was so accurate, she would quite possibly escape from Earth Fiend. If she still couldn't escape, then he couldn't really help her. He did what he could.

The reason Ye Mo knew he was in danger was because he knew that the Cha family gave the jade woman plate to Earth Fiend as a deal. Perhaps the Earth Fiend wouldn't disclose the Cha family got the blood coral but they would if they knew he got it. Perhaps at this moment, the Earth Fiend already knew something happened to the Cha family and had dispatched large numbers of hitman while spreading the news of the blood coral wide.

Although Earth Fiend was an international organization, they were connected to the hidden sects and could notify the hidden sects about the blood coral. In the eyes of ancient martial arts cultivators, the blood coral was much more important than the blue flower blue leaf grass Ye Mo got last time. It's said that the blood coral could be made into soup that allowed earth level to reach great heaven level.

However, the Qiao family and others didn't even know how valuable it was and tried to use it to ascend to yellow level. It was such a waste of something so valuable.

If it was just some hidden sect martial artists coming to rob it, Ye Mo wouldn't care but it involved too much. Once too many people came, Ye Mo wasn't sure if he could escape. His flying sword wasn't invincible. Once people knew his fighting style, they only needed 2 to 3 earth levels to control his flying sword and have 2 more earth levels surround him. Then, he would be dead for sure. Even if they didn't control his flying sword, they only needed to gang up on him and his spirit chi wouldn't be enough. Once he used up too much spirit chi, it would be the time he died.

Ye Mo knew that without a flying sword, his real power was only about the same as an earth level elementary stage. The reason he could easily kill earth level and subjugate Zhang Zhihui was completely because he had a flying sword and spirit sense which the ancient martial artists didn't know about.

The gap between dao cultivation and ancient martial arts grew bigger the later. It got until eventually, ancient martial artists were just insects in the eyes of cultivators. But in the early stages, dao cultivators were no match for ancient martial artists. Ye Mo was in this early stage, he hasn't even become a dao cultivator completely.

If Ye Mo wasn't involved in martial arts a little and his power level was decent, he would've been long dead.

Ye Mo knew the earth fiend did things fast and now that he was probably exposed, there was probably a lot of hidden sect masters rushing towards Liang Pu.

But he couldn't leave now. This yin fiend place was too precious. A yin fiend place like this definitely had the yin fiend bead. He wouldn't pass by such thing. Although he had no use for it now, this yin fiend bead was very useful for ghost cultivators and making artifacts. Yin fiend bead was worth a city and was rare even in the cultivation realm much less on earth. In the cultivation realm, the yin fiend bead was worth much more than a blood coral.

Plus, this bead was very harmful to ordinary people. It would benefit others and himself if he took it. If he didn't take it now, perhaps someone would recognize it and by the next time he came, it would be gone. Ye Mo believed it would only take him an hour or two to take the yin fiend bead. He didn't believe he would be surrounded in one or two hours in Liang Pu.

....

Far away in a luxurious private mansion in Hong Kong, a man in blue pyjamas with a face of bleakness sat in a grandiose lounge with a hand holding a yellow bug.

If Cheng Qing saw this, he would immediately understand this bug was the one Ye Mo took off him but it somehow got here.

It seemed the bug flew a long distance and was quite fatigued. An almost nude maid brought in a plate of fruit and milk and walked over lightly. She walked in front of the man and knelt, carrying the plate with her head and saying in a soft voice: "Master, please have some breakfast."

The bleak man picked up the fruit plate and put it aside. The kneeling girl looked up in surprise. This had never happened before. Even when the master needed their service, it wouldn't be at breakfast time.

This man dropped the bug and the bug quickly burrowed inside the woman's body. The woman screamed and fell on the ground. Soon, the blood from her face was all gone and she became a pale body in a few moments. But immediately, a man came and carried the body away.

The Gu bug flew back in the man's hands. However, the bug wasn't in a withered state anymore and became lively.

The blue clothed man got up and said bleakly: "Cheng Qing was killed and no news got back. The thing in Liang Pu must've gone out of control. This Ye Mo really exceeds my expectations. I wonder how a Gu would be like after feeding it someone like him. Let Sha One contact the hidden sects. Tell them about the blood coral. Earth Fiend will fully cooperate with them. I just want Ye Mo, dead or alive."

"Yes." Someone in the corner replied and left immediately.

"Hmph, this Cha family is really useless and they call themselves semi-hidden family. They can't even keep a mere blood coral. I just told them to keep for a week and they can't even do that." The blue clothed man snorted.

If Cha Rulong knew about this, perhaps he would crawl out from the ground and say it was their Cha family who robbed the blood coral and gave the earth fiend the jade woman plate in order to shut their mouths. Even so, this man still said the blood coral was placed in the Cha family temporarily.

Perhaps Cha Rulong never expected this to happen. The hidden sects stayed hidden but if they came out, they would fight for interest. With the foundation of the Cha family, they would be feeding an organization like Earth Fiend free benefits if they tried to scheme with them. Even if Ye Mo didn't take their blood coral, it would eventually become the Earth Fiend's.

Why did the semi hidden family fall? It was because their brains were rusting and still wanted to live in a busy city. If the Cha family didn't have a yin fiend place, they would've been long annihilated. Or if someone knew about the yin fiend bead's worth, the Cha family would've been long devoured as well.

News of the blood coral spread amongst the hidden sects.

Sometimes, as long as the news got out, it spread very fast. Countless hidden sect masters rushed towards Liang Pu this small city. The Yu Association auction couldn't attract everyone but the appearance of the blood coral almost got all the hidden sect masters coming.

Now, the hidden sect martial artists hadn't had someone reach great heaven state in almost a few hundred years except for the inner hidden sects.

The real inner hidden sects rarely appeared before the world so the people outside didn't know if they had great heaven level masters. But the outer hidden sects and the semi hidden sects, the latest great heaven state person would have to be traced back to the beginning of the Ming dynasty, the old Taoist Zhang Sanfeng.

Chapter 297: Hunt

Ye Mo didn't know about these ancient martial arts cultivators who swarmed to his direction with rapid speed. Although he knew that once the blood coral was known to the world, it would cause a frenzy amongst the hidden sects, he didn't expect it to be to this extent. Almost all hidden sects who got news of this swarmed here without hesitation.

A treasure that granted ascension to great heaven state was a fortune. Great heaven state meant increased life span. If you can't reach great heaven state, even if you're the peak of earth level, your life span won't increase. And, not only did great heaven state grant you extra life, once you reached the state, then all of the hidden sects would bow down to you.

It's said that in the inner hidden sects, there were many great heaven state masters but this was a legend. No one had seen the inner hidden sect great heaven masters come out and show off. Or perhaps, those who wanted to show off wouldn't even be able to become great heaven state. But those who could reach great heaven state didn't have time to show off. They were pursuing a higher state.

....

At this moment, Ye Mo was already tens of meters underground of the backyard of the Cha family. He was only stage 3 chi gathering and couldn't completely control earth maneuver. It could only be used when he was in the tertiary stages of chi gathering. But although he couldn't use that technique, he had a way to save time. There was a deep well in the back yard of the Cha family. Ye Mo went in it and started digging.

The backyard of the Cha family was already bleak. The bottom of the well was even colder and full of yin chi. Ordinary people wouldn't even want to go in. Even though Ye Mo was a cultivator, he felt it was quite scary at the bottom.

The well was very deep, almost 40 to 50 meters. There wasn't much water inside. Ye Mo stopped at the surface of the water. The water was only 5-6 meters deep. Ye Mo scanned his spirit sense in it. It was a small well but there were multiple bones. They were all women. Thinking about what Cha Rulong said, Ye Mo couldn't help feel sorry for these women who went in the Cha family. Their sole function was to reproduce. As long as they raised the kids, their function was over.

One could imagine that the women either jumped themselves or were forced down here. This was an unimaginable family.

Ye Mo chose a place on the wall of the well and started digging. Soon, the earth covered the bones.

Although Ye Mo couldn't completely use earth maneuver, he could half use it while digging. After an hour later, Ye Mo was already 100 m deep.

After 100 meters, Ye Mo felt the yin chi was getting increasingly stronger. Ye Mo knew he was getting closer and closer to the yin fiend bead. So he dug faster and faster.

Another hour later, Ye Mo felt light and he came in a space that was like an underground room. Ye Mo rejoiced, he knew this was where the yin fiend bead was. This was because when the yin fiend bead grew, it would keep pushing away the earth around it until eventually forming a space. This space was the region of the yin fiend bead.

The larger this space was, the higher the quality of the yin fiend bead. The space in front of him was a few cubic meters meaning that this yin fiend bead was definitely extreme quality.

Just when Ye Mo was about to enter the space, this yin fiend bead felt it. It immediately started flying as though wanting to run away from where Ye Mo came from. However, Ye Mo knew the properties of the Yin Fiend bead. How could he let something that was in his hands escape.

Soon, he enveloped the yin fiend bead with his spirit chi. A ping pong ball sized black bead landed in his hands.

The intense yin fiend chi emitted over. Ye Mo praised. Was this yin fiend bead? Although he had heard about it, this was the first time he held it in his hand.

He really earned big this time. Ye Mo knew that he had wasted a few hours already with this bead so he had to leave quickly.

He casually took out a jade box to put it in and inscribed a few seals on it before putting it in his ring. Once he packed it away, the intense yin fiend chi started to dissipate.

Ye Mo used wind control to quickly go up the well and leave.

At this moment, more than ten figures had landed outside the Cha family houses and had set up a perimeter.

As soon as Ye Mo came up, he noticed the situation outside and cursed. He didn't waste a single bit of time after getting this yin fiend bead. He had only spent 2 hours but these people were already here. They were really fast and even got the government involved.

"Hmm, this is such a intense yin fiend place. Since this is a yin fiend place, there must be a yin fiend bead. This trip was really worth it." An old man in his 60's stood and said. His face was full of joy and surprise.

Ye Mo was shocked. These people here were all martial artists. How did they know about the yin fiend bead? It seemed there were masters here too. What should he do? He didn't dare to use his spirit sense to scan this old man. He was sure his power was the strongest he had seen, even stronger than Zhang Zhihui. Even though this old man wasn't great heaven state, he wasn't far from it.

If he was stopped by this guy and stalled for time, he would be in danger. Ye Mo calculated and got this conclusion. If he didn't leave now, it would only get harder and harder later. This was only the first group, and there would be more people.

Thinking about this, Ye Mo didn't hesitate and used invisibility to climb out of the well and controlled his chi waves while carefully walking out.

However, Ye Mo underestimated an earth level peak stage master. He only walked a few meters and that old man noticed something was up. He looked at where Ye Mo was standing and frowned while raised the sword in his hands.

"It should be him. Catch him! He has invisibility artifact..." At this moment, not only that old man, but the other people also noticed Ye Mo. A man next to the wall with black level power stabbed to Ye Mo without hesitation.

At this moment, Ye Mo no longer held back and grabbed out his flying sword. Two slices, he didn't let the sword fly. The first swing cut the man's long sword in half and the second sword pierced into his throat.

This wasn't a time to show mercy. Ye Mo knew that if he was stopped, no one would have mercy on him. The more he killed now, the greater his hopes of escaping were.

Although it was a short moment, Ye Mo had been stopped again. Seeing Ye Mo kill one, the old man grunted, "Kill him! He's chosen the demonic path, killing immediately."

Then, he raised his long sword and pierced at Ye Mo. The tip of the sword had an inch long sword ray.

"Sword ray.... Gong martial uncle can use sword ray. That's so amazing...." People immediately gasped.

Ye Mo sneered. Although he knew it was hard for martial arts cultivators to cultivate sword ray but this was nothing in Ye Mo's eyes.

Ye Mo threw out his flying sword and with a purple ray, it sliced towards the old man's long sword. The long sword was knocked and not only did the sword ray disappear but the half inch at the tip was also sliced off.

"It actually broke my falling rainbow sword? Nice sword...." The moment the long sword was broken, the old man's eyes were full of disbelief. But he wasn't mad and instead, he was joyful. His eyes were filled with fervor. A magical sword that can break the falling rainbow sword, even fish intestine sword and Ganjiang MoXie would only be so.

I must get this sword. He didn't hide his love for Ye Mo's sword at all. Although Ye Mo's sword flew out of his hand, he believed Ye Mo threw it. He never expected Ye Mo to control it.

The old man actually dumped his sword and closed his hands wanting to catch Ye Mo's flying sword.

"You're asking to die." Ye Mo sneered. This old fart wanted his sword and actually used his hands to catch it. What a hillbilly, he probably didn't even know what spirit control was. He spirit controlled the flying sword. Unless the old man's spirit sense was multiple levels stronger than his, then the old man wouldn't be able to control his sword at all.

Slush. Ye Mo's sword sliced the old man's hand off like tofu and went into his chest without a moment of pause.

Ye Mo breathed easy. He knew the reason that he won so easily was because this old man didn't know what a flying sword was. The other people saw this and it wouldn't be so easy to kill them again.

"Gong martial uncle...." The other men immediately realized something was wrong. Their Martial uncle gong was pierced and it seemed to be fatal.

"His sword is weird. It can attack on itself. Don't worry about he. Hurry up and attack him...." This old man used his other hand and all the chi in his body to control Ye Mo's flying sword.

Everyone noticed that Ye Mo's sword was different and took out their weapons to attack Ye Mo without hesitation.

Ye Mo's flying sword was originally going to go attack other people after killing this old man but it was grabbed by the old man and this would delay a few seconds. This time was enough for others to attack Ye Mo.

Ye Mo's heart sunk. This scenario occurred indeed. He used his spirit sense. The flying sword passed through the old man's chest like a comet, spun around and attacked towards the swords that attack him.

Chapter 298: Escape

Earth level martial artists were much stronger and faster than black level. Ye Mo could easily kill black level but he was having trouble with the surrounded attacks of earth levels.

Other than the old man he killed, there were two earth levels out of the five attacking him and they were both intermediate stage. Although Ye Mo had summoned back his flying sword, he was still a step slower. The flying sword stopped the 3 but couldn't stop the other 2.

Ye Mo used a wind blade on the black level while punching the back of the sword of an earth level. This was just a moment. The earth level struck back by Ye Mo retreated a few steps and happened to see Ye Mo kill that black level with wind blade. Although he didn't know what projectile Ye Mo used but it was obviously very strong.

Ye Mo breathed again and didn't hesitate. He didn't hold back at all, using multiple wind blades while hurling his flying sword quickly at the earth level he struck back. The moment that earth level was struck back, he felt Ye Mo's inner qi wasn't much stronger than his but his flying sword and that invisible projectile was very strong.

Seeing the flying sword come over again, he felt a sliver of fear at the bottom of his heart. He quickly called: "Stop, do you really want to kill everyone? We're from the He Liu sect, one of the six big sects of the hidden sects. You offend us and there will be no where you can run. You won't even have a place to bury you."

As he spoke, he dodged the flying sword again. Ye Mo's guess was right. Once they knew the properties of the flying sword, it would take longer to kill earth levels.

Slash, Ye Mo used wind blade to kill two more, and the remaining one was also earth level.

Those two earth levels obviously knew Ye Mo's flying sword's properties and started to stick together to deal with Ye Mo. Ye Mo had used up a lot of spirit chi and his flying sword was getting slower and he couldn't do anything to them.

At this moment, Ye Mo's heart was burning with desperation. He had to kill these two very rapidly and run. Otherwise, more and more people would come and his chance of escape would grow less. If it wasn't that the hidden sect was too threatening, perhaps the police outside would've come in already.

His spirit chi depleted rapidly and if he didn't waste two hours underground, perhaps he would've lasted longer but now, although the two earth levels were having trouble with his flying sword, he couldn't kill them. This made him desperate.

"Stop. Take back your flying sword. If you continue, my sect swears to annihilate your family."

The other earth level didn't know Ye Mo was low on spirit chi. He only knew that if he continued like this, they would be killed.

Although his face was pale, Ye Mo still sneered and said: "I'm not afraid of threats. Die."

Then, Ye Mo spat out a mouth of essence blood. His flying sword accelerated and made a sharp turn, slicing through their necks. Blood spewed like a fountain and the two earth levels died. Ye Mo stumbled. He burned his essence blood to kill these two and was at the end of his strength.

Although the after effects of burning essence blood was great, if he didn't do that, then perhaps he would be the one to die soon. Ye Mo stumbled forward. He knew if he didn't leave now, he wouldn't be able to. He scanned his spirit sense out 100 meters and another few cars came. They didn't look like normal men.

Ye Mo quickly picked up the weapons on the ground and resisted the pain of his meridians and threw out a few fire balls burning the bodies. It would be worth it delaying the He Liu sect knowing their men died. But at the same time, a sense of danger surged from behind his heart. Ye Mo was unable to make the appropriate dodged because he already dried up his spirit chi.

The punch struck right into the back of his heart and Ye Mo spat out blood again. He looked back and it was that old man whom he killed first. He had a vicious smile on his mouth.

This old thing had a flying sword pierce his heart but still wasn't dead completely. His life was really tough. Ye Mo didn't think and threw back a few fireballs using up almost the rest of his spirit chi. He didn't even dare to look to see if those bodies were burnt. He struggled and climbed over the wall.

Although Ye Mo's invisibility were useless in front of ancient martial arts masters but it was enough for ordinary people locking down the estate.

....

"I smell blood." Police said strangely.

The person beside him immediately made a quiet sign: "This thing isn't ordinary. We should just listen to orders from above. Don't say what you're not meant to say."

Ye Mo was shocked. Although he went invisible, he still couldn't hide the bloody scent from his body.

But luckily, these two cops didn't intend on doing anything. He was very tired but still quickly disappeared.

As soon as Ye Mo left, another 7 or 8 martial arts charged into the backyard.

"Martial brother, the He Liu sect people came first right, how come I don't see them?" A nice looking girl walked around and said with a frowned face.

"Did they chase out already?" The middle aged man who was the martial brother didn't talk but another youth continued.

That middle aged man closed his eyes and didn't reply. After a moment, he opened his eyes and said: "It's possible but outside has been locked down by the government. If people went over, there would be news but there was none. Do you guys smell this burning smell?"

"Mhm, there does seem to be such smell. Hmm, there's some blood here." That youth was very meticulous and quickly found the blood drops on the ground.

The middle aged man squat down and looked: "Search this place and the well immediately."

.....

Ye Mo really wanted to run out of Liang Pu but he knew that he was in a weaker state than a normal person.

In order to avoid the blood smell on him, Ye Mo went to a shopping mall and changed his clothes. Then, he hid in the back of a ute and didn't dare to move.

This was because he saw more and more masters rushing into Liang Pu. There were even helicopters above his head.

A young man wearing earrings came in and carried a box of wine with him. He opened the back door and was prepared to put the wine in. Ye Mo used his invisibility skill and rushed in to hide.

As soon as Ye Mo went in, this youth was about to close the back compartment of the car. Ye Mo felt a fit of dizziness and was about to fall asleep.

The car started moving, Ye Mo knew he couldn't fall asleep now. Although he was very fatigued, he knew that the car had been moving for a while and stopped at a highway toll station. There were people checking at the station but Ye Mo didn't worry. Although his spirit chi was almost gone, he could still go pass the check point. He was scared that these people was also going to flip around the things inside the car. His invisibility could only last a few seconds.

But Ye Mo soon found that he was worrying too much. This young man obviously had his ways. He just yelled a few sentences and the workers there let him go. They didn't even open the back of the car.

Ye Mo felt relieved. It seemed that no matter how strong the hidden sects were, they couldn't control some things. It was obvious that the people working there felt it wasn't a good thing to annoy the youth. They would rather pretend they didn't hear the orders of their superiors than offend this youth who could bring trouble to them at any time. If they didn't do what they were told, they would be fine as no one said anything. But if they annoyed this young master, perhaps they would lose their jobs tomorrow.

Ye Mo actually felt gratitude towards this youth. If it wasn't for this guy, it would be really hard for him to escape Liang Pu. Perhaps it was completely in chaos already in Liang Pu.

The car was on the highway out of Liang Pu and Ye Mo was completely relaxed.

The blood coral mattered much more than the blue flower blue leaf grass to these ancient martial artists because blood coral could let them ascend great heaven state. But in Ye Mo's heart, the blood coral was far less valuable than a mature blue flower blue leaf grass. He could use the blood coral now but his blue flower blue leaf grass was still immature so at the current stage, blood coral was still more valuable to Ye Mo.

Ye Mo started to sleep after relaxing. He had heavy internal injuries and his spirit chi was also depleted.

The next time he woke up, he found the car was parked outside a bar. It was dark already. He probably slept for 7 or 8 hours.

Ye Mo scanned his spirit sense around and didn't find anyone suspicious. He packed away the box of wine. Although this kid saved his life, he really didn't have much money now. This wine wasn't bad, he would borrow it for a drink first.

Ye Mo pushed open the door from the back. He ran his spirit chi and there was no reaction. If he didn't sleep, perhaps it would be hard for him to even get up now. That last punch from that old man was too heavy.

Chapter 299: Finding A New Residence

Ye Mo stood at the door of the boisterous bar and looked at his ring. There was still around 10k cash. He only had one idea now and that was to find a safe place to recover and start concocting pills.

Originally, if he wasn't exposed, that small yard in Ning Hai would be the best but now, Ye Mo didn't dare to go there at all. Going there would be running right into a trap. He could only find a place no one knew to hide and concoct pills.

The blood coral in his hands was enough to make 3 cauldrons of pills but Ye Mo didn't dare to be careless at all. With his current skills, these 3 cauldrons of pills might all be no good. So, he had to find a quiet place, a place that was full of spirit chi. He even needed to wait for a full recovery first.

But now, he only had that much money on him and looking at this place he had never come before, Ye Mo felt quite lost without his power.

"Big brother, do you need help?" A woman with a half-naked breast walked in front of Ye Mo and asked while crossing her arms on her chest. Her eyes were full of seduction. Although her look was ordinary, under the dim light and covered by cheap perfume, she was kind of sexually attractive.

Ye Mo barely made a smile and shook his head: "No need." Then, he turned to leave.

But this woman hadn't given up and stopped him and even said worriedly: "Big brother, I'm really clean. I don't have any diseases. If you don't believe me you can wear a condom."

Ye Mo frowned and looked at this woman with thick makeup and said again: "I know but I really don't want to. I'm still busy. Good bye."

This woman looked at Ye Mo as disappointment and sullenness flashed across her eyes. Although she had to take part in this business, if possible, she still wanted customers who were descent. That young man dressed ordinarily but his calm temperament made her really want to do business with him. She could even lower the price a little bit. But this youth didn't want her, even he looked not rich.

Ye Mo sighed. There were women like her everywhere. Not like the brothels in Luo Yue, they just came out in streets to get customers. He didn't look down on such women. If possible, he believed no one would want to do this career.

The woman suddenly bit her mouth and ran up to stop Ye Mo: "Big brother, I see that you're not very familiar with here. You were looking around. I can help you and satisfy any requests you have. My price isn't high."

Ye Mo looked dazedly at this woman and thought that he did want to find a quiet place to stay. It was going to cost money for an agent so he might as well let this woman earn some. It would be a little help to her. Plus, if he wanted an agent, he would have to wait till tomorrow and risk exposing himself.

Thinking about this Ye Mo nodded and said: "Okay, I don't have a place to live now. I want to find a quiet and clean place to live. If you can help me find such a house, I'm willing to pay you. But I'm also poor and don't have much with me. If possible, I will come wait for you here tomorrow."

Ye Mo really didn't have much money. He only had a little more than 10k. In a city like this, living expenses would be at least 3k a month.

The woman shook her head: "Big brother, it's fine. I charge little. If you don't have enough money, you can give it to me later after you settle down. You can also look at houses with me tonight. If you agree, then you can move in tomorrow. My place is very close. It's only two minutes."

Ye Mo immediately had a good impression of this woman. They say prostitutes are heartless and actors are disloyal. This prostitute could say such words meaning that she longed for friendship and trust.

If he could find a place to move in tomorrow, he could start doing his own things earlier. Plus, Ye Mo didn't want to go find a house in the middle of the day. It could be said that this woman's suggestion was just what he wanted. It was possible that this might be a set up, but he really didn't mind. Although he couldn't attack, he didn't mind using some fire ball charms.

....

Not far away from the bar parked a normal car. In it, two policemen stared at Ye Mo and that woman. They saw the two leave the bar and they quickly followed.

After this is done, our mission for this month is over. Next month, I really don't want to capture these people anymore. It's disgusting to look at. All they talk about is money. This is completely a disgusting money and meat trade." The young policewoman said to that policeman.

That policeman laughed: "You'll understand in the future. People love apprehending sex trade the most. Not only is it safe but it improves your track record fast while getting good pay. Plus, we all love...."

"Stop being disgusting...." That policewoman stopped the man's words. Although she wasn't in the police department for long, she knew what her male colleagues was thinking about. They were no better than that man. After a while, she muttered to herself: "I want to enter the major crime squad."

The policewoman meant her words. Usually, it was policemen who swept for sex trade. there were rarely any policewoman. She wanted to enter the major crime squad but she had no experience. So she had no right to enter. Thus, she came here for experience. After this month, it would be over.

However, there was one point that her colleague was right about. Sweeping for sex trade was a highly efficient way of earning good records.

If it was before Ye Mo was injured, he would've noticed someone follow him with his spirit sense. But now, he was too heavily injured and his spirit chi was almost depleted. He didn't dare to scan around his

spirit sense. Plus, he just arrived at a new city, and he didn't believe there would be someone to follow him.

"I have a good friend who is doing properties in Hui An city. I can get a lot of info on properties so don't worry about it, I can find a place you like." The woman was afraid Ye Mo wouldn't believe her so she kept reassuring to Ye MO.

Ye Mo didn't really want to talk. For him, it was enough to find a suitable place to live. He didn't care where the woman got her info from.

Seeing Ye Mo not talk, the woman thought Ye Mo didn't believe her so she quickly said: "We also need to change places frequently so we also need housing information."

Ye Mo dazed. Why did they keep changing places?

But before Ye Mo spoke, the woman continued: "We're here. My few friends and I all live here. There's internet inside, I'll show you and you'll know."

Ye Mo followed this woman to a room on the second floor. The woman closed the door and walked in to open the computer while saying: "You sit for a while. We can get the housing information for you immediately."

Ye Mo was very happy with the way this woman did things. It was better the faster for Ye Mo.

"I found it. Come look which one suits you." The woman was very fast.

Ye Mo stood up but he didn't walk to the computer. Instead, he opened the door suddenly. He sneered to the two police officers outside the door: "You guys really are the servants of the citizens, standing outside to watch for us for free."

That young policewoman blushed and immediately switched to a disgusted expression sneering: "Stop acting innocent, I suspect you to be involved in sex trade."

"Fuck off, if you dare to say anything I'll report you immediately. Which eye did you see me in sex trade. Oh, did you send yourself here to me for sex trade? Sorry, I'm not interested in you. I will count to three. If you still stay here, I will report you immediately. If you don't believe me you can try." Ye Mo felt unlucky. These people were so bored that they did such pointless things. If he wasn't afraid of things getting big, he would've kicked over already."

"You...." This policewoman's face was pale with anger and was about to attack.

Ye Mo was waiting for her to attack. If she did, he would teach her a lesson immediately. Although he didn't have spirit chi, he could still take on two cops.

"Zhang Feng, let's go." That policeman looked once at Ye Mo and pulled the policewoman away. But before they left, she said to Ye Mo: "Don't fall in my hands next time."

"Very well, indeed, don't fall in my hands next time." Ye Mo sneered.

This policewoman was quite angered by Ye Mo but she knew she had no evidence. Today, she really didn't understand what happened. From past experience, sex traders usually got in bed straight away. Who would wait for a while and open the door.

"Even if we didn't catch him, there's no need to be afraid of him. Why are we going?" that Zhang Feng was still unhappy.

This policeman was obviously more experienced than Zhang Feng. He said helplessly: "It's our wrong to be standing at their door without catching him. If he sued, it would be us to suffer. For ordinary people, I wouldn't let you go but did you see that man. Not only were his eyes cold but he wasn't afraid at all. That meant that he had power behind him to support him. We're just little policemen. Anything can bring us down. But since this person already has a authority background, he still comes for prostitutes on the streets, no class at all."

The woman who was looking at houses saw the two policemen and was immediately scared pale but she didn't expect Ye Mo to actually frighten off the two policemen.

"Hurry up and find a room, it's best if I can move in tonight." Ye Mo hurried.

Chapter 300: Cheap Apartment

"The housing info is here, you can come and have a look." At this moment, the woman reacted and started to feel reverence towards Ye Mo. People in their profession feared police investigation the most and this youth in front of her actually yelled the police away. He must not be an ordinary person.

Ye Mo walked in front of the computer and saw there were large amounts of housing info. He clicked open one of them. There were pictures and descriptions.

Most of these houses were quite cheap, and a lot of them were in densely populated areas. Ye Mo frowned. He wasn't happy with these houses.

However, lucky that there were a lot of options. Ye Mo looked down and soon found one that was very suitable for him.

Lake Side Villa. This real estate was very large and didn't seem to have been completely constructed. There was an open space all around and there were only two isolated buildings far apart from each other in it. Other than the two, the rest of the places were empty space with weeds.

In such a busy city, he didn't expect there to be such a large pact of empty land. Looking at the images, he knew that it wasn't empty for a day or two. But since the construction hadn't been finished, there should be construction equipment nearby but there was none. This made Ye Mo feel very strange.

The two buildings were both 12 storeys high and one of them didn't seem to be finished as well. The completed one was the building on the left and in front it, there was a man made lake. It was very quiet and good for cultivation.

Plus, the rent price was very cheap there. It was less than 2k a month. Only levels one to eight had been completely decorated, and Ye Mo found that there were a lot of empty rooms.

"I'll take this one. Since level 9 isn't open, I'll live at level 8. Room 802." Ye Mo pointed at the room he wanted and said to the woman.

"Huh.... You want to live at lake side villa?" The woman looked troubled at Ye Mo.

Ye Mo immediately asked: "What's wrong? Has the place been rented out already? It clearly says there are a lot of empty rooms. What's wrong?"

"No, it's not that." The woman quickly waved her hand: "It's because the left building isn't clean and there were often stories of haunting. After a few owners moved in, their families died. Then, they just had to move out. They couldn't even sell it out. This resulted in the construction of the second building unable to be finished. Those who live in this house are all outsiders. Some don't know the buildings are haunted and some just want rooms for the cheap price. However, many people who have lived in there for a long time would experience all sorts of problems. Now, there are less and less people living in there.

"Haunted?" Ye Mo repeated but soon said: "I will live there. If you can help me get it ready tonight, this 1k is yours."

Then, Ye Mo took out 1k and put it on the table. He wasn't even afraid of ghost cultivators. Why would he be scared of haunting building. Ye Mo originally thought there was no ghost in this world but he met one at Shen Nong Jia. Although he wasn't sure if it was a ghost, those spirits that formed naturally were way too weak to him.

He could kill countless with one fireball. And, he had spirit sense so he wasn't worried about not seeing them.

Since it was haunted, it meant less people came here and that would be better for him.

"Huh...." The woman looked at the 1k on the table and was immediately touched. She only earned 1-2 hundred a night taking in customers. She originally just wanted 200 but Ye Mo just took out 1k. it could be seen that he wasn't poor and was quite generous.

"Okay, I'll contact then immediately." The woman nodded without hesitation. She already said what she needed to say, since Ye Mo still wanted to go in, there was nothing she could do.

Ye Mo nodded and said: "I need to remind you. I like peace. If I know that you have been going around telling everyone I moved there, then don't blame me for what will happen."

The woman quickly nodded. She wouldn't want to offend someone like Ye Mo at all.

He had to admit that this woman was quite fast. It had only been an hour or so and she already contacted her friend and took Ye Mo to the place. He handed in 4 months' of rent with one month being bond. It could be seen that the owner also really wanted to rent the place out fearing that a day late would result in otherwise. Despite so, Ye Mo was quite thankful of the woman who found him this place. She could tell him the bad sides of the building meaning that in the depth of her heart, she was quite kind.

Lake Side Villa was just as what Ye Mo saw in the picture. It was a large open ground with an man made lake. Although the surrounding was busy but this place was quite quiet.

Ye Mo closed the door and studied his place. The living room was very large and there were 3 bedrooms, one kitchen and one washroom. Everything was furnished with matching furnitures. There just wasn't quilt. There was dust due to long time of desolation.

Ye Mo waved his hand using a cleaning magic and made the house clean all of a sudden.

He came to the main bedroom and stood on the balcony. There were green and red lights out and the view was rather open. However, such a good apartment couldn't be sold due to haunting. Ye Mo shook his head but apparently the haunting was on the 9th floor so everything above it had been shut.

After sitting down and resting, Ye Mo scanned his spirit sense out. He wasn't the only one living in this building. Those living on level 1 and 2 were elderly and the two levels apparently had been moderated to a seniors care center. The 3rd level was a dining hall.

In the 4th level lived 2 families. By the looks of them, they did businesses. There was only a small office on the 5th floor but there was no one there. The 7th and 6th floor were empty. In the eighth floor he was the only residence who just moved in today. No one lived here before.

Each level could fit two families. Ye Mo scanned his spirit sense but didn't find anything unclean.

He ate a few recovery pills and spent the night meditating and managed to recover a little. That old man's last punch was so hard that he probably needed a month to fully recover.

He paid 3 months rent. The 1st month, he would recover; the second month concoct pills; and the third month start going for chi gathering middle stage.

A night passed and Ye Mo stood up refreshed. Although the inner wounds affected his mobilization of chi but his body didn't have any major problems. The rest of the recovery was only a matter of time.

Ye Mo checked his wallet. He only had around 2k left. However, that was enough for him. He didn't dare to make any calls now before he had the ability to protect himself. He wouldn't trust anyone. Who knew if Han Zaixin would be listening to his call. Plus, he never even did what he promised Han Zaixin.

Ye Mo walked down the stairs and after going by the 4th level, two men were dragging a big bag. Ye Mo scanned. There were clothes and things inside. It seemed they were doing clothing business.

The two men were dragging the bag and Ye Mo who suddenly came downstairs scared them. They looked at Ye Mo not even daring to talk. Ye Mo laughed helplessly and said: "Don't worry, I moved in upstairs last night. I used the elevator so you guys don't know. We'll be neighbors from now on."

He knew what the two were afraid of. There were too many tales about this building and there had been no one living upstairs before. And now, one suddenly coming down, they had no reason not to be scared.

But hearing Ye Mo's words, the two were overjoyed. To them, the more people living here, the better.

After a simple conversation, Ye Mo knew that they were doing clothing business and were actually from two families. The chubby man was called Han Sicai, the slimmer man was call Cai Jinyou. They both came from Zhe Jiang to do business here. When they first moved in, they didn't know about the situation here either but when they knew it, they had lived here fine for a few months. They liked the good environment here and the cheap price so they didn't move away.

Ye Mo ate something and then bought some daily commodities before going back to his home. His main goal now was to recover.

This place was quiet indeed. People from downstairs never came up. Even the two people from the 5th floor in the office never came up and they always finished work on time, and never did any overtimes. They usually left at 5pm.

People downstairs gradually knew that a young man lived on the 8th floor. Although they didn't know why he had such guts, no one came and said anything to him. They only knew that the young man would get up very early to exercise outside and then eat breakfast before coming back. He would stay at home then until the next day. Then he would come out early again.

Ye Mo liked this environment a lot. A week later, his wounds were considerably better. With this speed, perhaps he could recover in less than a month.

This was the 9th day Ye Mo had moved in and just after he finished cultivating and was prepared to sit on the balcony, he suddenly heard this knocking sound on the floor board above. It had a rhythm to it and stopped after a few knocks before sounding again.

Ye Mo immediately stood up. He knew there was no one above and even the stairs were shut. The elevator also stopped no more higher than the 8th floor. In that case, where did the sound come from?
