

Strongest As 911

Chapter 911: Join Forces and Ambush Him!

Ye Mo knew that the golden core state cultivator wasn't going to let him go. He ran for his life desperately while trying to think of a plan.

A huge cave appeared before Ye Mo. His spirit sense immediately saw the blue python he had fought not long ago. Without thinking, he charged inside.

The golden core state cultivator saw this and sneered. He wasn't in a rush to kill Ye Mo. Ye Mo's sword technique was quite good, so he was going to think of a way to get that first.

He could see the blue python as well. It was a level 4 peak beast, yet it didn't threaten him.

The blue python saw Ye Mo immediately and raised its head, hissing at him. Clearly, it was warning Ye Mo, but it also had some fear in its eyes. It couldn't understand. The python had ran away and given up the Lin Blue Fruit, why had the human chased it there?

Just when the animal was about to kick the human out of its cave, the human ignored it and went deeper inside.

Before it could react, another human charged inside - and this human was even cockier! He attacked with his sword without hesitation.

The blue python couldn't dodge it and the sword pierced its stomach. The animal howled painfully and its huge body fell on top of the golden core state cultivator.

The cave was very big, but pebbles were flying everywhere.

The golden core state cultivator sneered - a mere animal dared to act cocky in his face! His flying sword shot powerful cultivation essence. He was about to strike the blue python's head and it was impossible for a level 4 beast to dodge it.

But suddenly, he felt something wasn't right. The foundation establishment state cultivator he was chasing wasn't in his spirit sense's range anymore. When he realized this, his body went cold. The golden core state man immediately understood what had happened. The foundation establishment state cultivator was ambushing him. He was furious and tried to dodge it.

However, he was too late. Countless sword chi whirlpools had entered his body and ravaged his meridians. The golden core state cultivator spat many mouthfuls of blood. He was instantly heavily injured.

"Not good." The golden core state master wanted to charge out of the blue python's cave immediately, but the blue python was furious. Its tail swept the golden core state, smashing him into the roof of the cave.

As soon as the golden core state cultivator fell on the ground, he saw Ye Mo's purple sword charge at him again. He was scared now. He didn't understand how that mere foundation establishment state level 7 cultivator had managed to ambush him.

Even if he hadn't kept his attention on this cultivator, he shouldn't have been able to avoid his spirit sense. Little did he know - Ye Mo could even fool the spirit sense of a hollow spirit state master, much less his.

Ye Mo used the Illusion Cloud Whirlpool Strike with his full power.

Rumble- Zi Xu and the golden core state cultivator's flying sword clashed creating a huge explosion. The golden core state man was knocked out of the cave.

The golden core state cultivator breathed at ease. As long as he got out, then no matter how heavy his injuries were, he could kill the foundation establishment state cultivator.

Just when the golden core state cultivator was about to take a few pills, he felt like something had entered his body. Then, Ye Mo's Zi Xu brought a gust of purple death rays again.

If he wanted to kick out Shadowless, he would have to face that endless sword ray.

If he really got hit by that endless sword ray, then even a golden core state cultivator would be dead for sure.

The golden core state cultivator had no choice but to send out his flying sword, planning to kill Ye Mo first before he dealt with shadowless.

Instantly, the golden core state cultivator's essence blood and meridians were devoured by Shadowless. If Ye Mo hadn't stopped it, Shadowless would've devoured the golden core master too.

The golden core state cultivator made a terrifying cry of pain. His flying sword got smashed and he was instantly torn into a bloody mist by the onslaught of sword rays.

Ye Mo waved his hand and a dark golden core landed in his hand. At the same time, a storage ring appeared too.

Shadowless flew back to Ye Mo and growled at the golden core unhappily.

Ye Mo breathed at ease. If the blue python hadn't helped him, he would've really been in danger.

Ye Mo turned back to blue python and said, "Thanks for saving my life. This golden core is yours."

Then, he threw the golden core to the blue python. The blue python caught it with its mouth in joy. The human cultivator had actually given him such a good thing! It was a gift from the heavens.

Ye Mo took a few medical pills and gave one to the blue python. "This is for you too, thanks."

Then, Ye Mo turned away to leave. He had to kill the other foundation establishment state cultivator.

The blue python watched as Ye Mo left, still in disbelief that he gotten a golden core for no reason. Although its intelligence hadn't fully awakened yet, it understood that the human cultivator had not only helped him kill an enemy, but also given him a golden core.

That foundation establishment state cultivator stood under the Lin Blue Fruit tree waiting. He was confident that his master could kill Ye Mo easily.

"I made you wait quite some time," Ye Mo's voice sounded. The foundation establishment state cultivator turned around. When he saw it was Ye Mo, his eyes opened widely, as though he was seeing the most unbelievable scene in his life.

Where was his master?

"Your master is waiting for you, you should hurry up." As soon as Ye Mo's voice sounded, he hacked with Zi Xu.

Blood was spilled - the foundation establishment state man had gotten killed.

Ye Mo took his storage bag and finally rested at ease. He didn't know where that cultivator came from. However, if he had an important background, he couldn't let news of him having killed him get out.

...

Ye Mo rested for a while. He was planning on digging the tree out when three sword rays approached him. Three cultivators landed nearby Ye Mo in rapid speed.

Ye Mo noticed that there was no golden core state cultivator among them.

"Hmmm- It's the Lin Fruit Tree," one of the cultivators recognized the tree. He then looked at Ye Mo with joy and excitement. "The fruit must have given him essence blood. He's so lucky! Not only did he get a spot to come in, but he also saw the tree immediately."

"No, his luck isn't too good, because we've found him! Hahaha!" another cultivator continued.

Ye Mo had recovered a great deal now, so he studied the three cultivators. He was surprised to find that he knew them. One was Boss He, another one was that bald man.

He hadn't seen a single person in the desert. How come they were together? Yet then, Ye Mo immediately realized that they must have had communication paper runes and formed a squad after they came in.

Seeing the wounds on them, Ye Mo could tell that they hadn't found the desert easy to walk through. They had probably battled the scorpions. Ye Mo was impressed that they had managed to get the spots to come in.

However, from their tone, Ye Mo could tell that they had been looking for him specially. How had they found him?

Ye Mo immediately checked his clothes, but his expression soon turned really bad. Without him noticing, he had been marked with a spirit sense mark.

Ye Mo realized at once that it must've been that bitter-looking golden core state cultivator in the line for the portal.

Chapter 912: Angry But Not Daring to Speak

"It's you, punk!" Boss He then immediately looked at Ye Mo's storage ring, "Kid, that chick outside liked minding other people's business so you got away. This time, I want to see how you're going to get away!"

Then, He Chong chopped out with his axe.

Ye Mo didn't answer and just sent out sword rays with Zi Xu.

He Chong was at the false core state, so he was a far cry from true golden core state power. Even the blue python was stronger than He Chong. He could only block 30% of Ye Mo's sword rays as the remaining pierced his cultivation essence barrier.

"Arghh!" after a cry of pain, He Chong's axe was sent flying, and the remaining sword rays penetrated his body, leaving behind a bloody mist.

Ye Mo was dazed. He Chong was a technically foundation establishment state tertiary stage cultivator, yes, but his false core state meant that he was actually a level higher than Ye Mo.

Yet a guy like him died without even blocking one of his moves - was he made of paper? Ye Mo shook his head and put away Zi Xu.

Seeing He Chong fall to the ground with his eyes still wide open, Ye Mo took his storage bag and said coldly, "Actually, what you said was also what I wanted to say."

Only then did the other two cultivators react. They were a little weaker than He Chong, yet He Chong couldn't even last a move against the foundation establishment state level seven cultivator in front of them. Clearly they would be no match for Ye Mo even if they joined forces.

The bald-headed cultivator had finally understood why the cultivator in front of him had asked if you could kill as you please before they came in. That was because he had wanted to kill him and He Chong all along.

Yet he and the people around thought this guy was dumb. He opened his mouth and wanted to say something, but Ye Mo didn't have the mood to keep wasting time with them.

Countless purple rays flashed across, and the bald man and the other cultivator were sliced into pieces without resistance.

Ye Mo took their storage bags and then dug up the Lin Blue Fruit Tree and sent it into his golden page world.

After cleaning up the marks here, Ye Mo found a quiet place nearby and dug a cultivation home to recover.

A day later, Ye Mo had fully recovered. He took a bath and changed all of his clothes. The golden core state cultivator with a bitter expression would know for sure that Ye Mo had killed He Chong and co. And Ye Mo couldn't beat the bitter-face fellow as of yet.

Ye Mo quickly organized the storage bags he had gained from the hoodlums, but they didn't have anything good - only some low grade pills and middle grade spirit stones.

However, that golden core state cultivator did have hundreds of thousands of top grade spirit stones and 2 million middle grade spirit stones. The pills he had were also at a higher level. However, what made Ye Mo the happiest was that he found an extreme grade spirit stone in there too!

This was the first time Ye Mo saw an extreme grade spirit stone. And as expected, it was very pretty. It looked natural and emitted strong spirit chi.

Ye Mo put away the spirit stones and then took out a jade card that had the words 'Demon Spirit Sect', and the word 'Su' was marked on it. It seemed the golden core state came from the Demon Spirit Sect. Ye Mo didn't care and dumped everything into the golden page world.

Then, Ye Mo took out a Zhou Huan Flower and made a few bottles of the clear essence oil before leaving his cultivation home. He had realized once again that his power was too weak. Any golden core state could take his life. There should be tonnes of golden core states in the Herbal Valley.

And so, Ye Mo decided to find a place with adequate spirit chi and cultivate for a month first. It was important to find herbs, but his life was the most important.

Ye Mo collected whatever herbs he could find around before stepping on Zi Xu and leaving the area.

....

Rumble- a few hundred kilometers away, Ye Mo heard a deep explosion and subconsciously looked in that direction.

A few more rumbles sounded. There seemed to be someone attacking some formation. Ye Mo saw multiple sword rays and travelled in that direction.

It wasn't long until Ye Mo came before an ancient, round building. There were many cultivators gathered before it - at least 30. There were about 10 golden core state cultivators among them.

This ancient structure was protected by a very strong restriction.

Ye Mo didn't know why these people wanted to break this defensive restriction, was this some ancient cultivator ruin?

"It's a spirit marrow ruin!" another golden core state flew over and called out in joy after seeing the structure.

As Ye Mo heard this, his heart started beating rapidly. He knew spirit marrow all too well. It was the most easily digested spirit item for cultivators. With spirit marrow, they wouldn't even need to cultivate, they just had to put it on their hand, and it would be automatically digested. This place was a spirit marrow pond, so if he could go in to cultivate, he would be able to reach foundation establishment state peak in less than half a month.

With that, he could form his golden core at any time. If he became a golden core cultivator, he wouldn't need to be concerned by other golden core states.

Ye Mo's eyes lit up. He had to get in this spirit marrow pond no matter what!

All the cultivators here looked fervent, though. Who didn't want to go in there?

A golden core state stopped the people attacking the restriction and stood high up in the air, "Everyone, the spirit marrow pond is a treasure of this world, and everyone wants to go cultivate in it, but there are so many people here. It would be unfair if everyone went in. So I suggest that everyone attack the restriction here together, but after breaking the restriction, foundation establishment state cultivators can only cultivate for a day."

No foundation establishment state cultivator dared to rebuke this.

Ye Mo was angry, but he didn't dare say anything. Even if the golden core state told them to leave immediately he wouldn't be able to do anything.

This golden core state cultivator was already at golden core state level seven. That was the golden core state tertiary stage. It would be all too easy for him to kill him.

No matter what, Ye Mo soon joined the attack on the restriction. One day was better than nothing.

15 minutes later, the restriction shook and rumbled. The round-shaped structure gradually became clear. Everyone knew that the restriction had been broken.

All cultivators charged inside, and Ye Mo squeezed into the crowd too.

Ye Mo saw that this was a huge spirit marrow pond. They didn't even have to go into the pond to feel the surrounding spirit chi be so dense that it made people want to moan in comfort.

This pond could fit even 300 people, much less 30. There were even crystals around the rim of the pond.

A foundation establishment state saw this and couldn't help but charge over.

But as soon as he got there, a white light flashed, and that foundation establishment state cultivator immediately fell to the ground, while his head flew away. One golden core state cultivator took back his flying sword and said, "Foundation establishment state gets no spirit crystals. Golden core state gets them based on their level - level one gets one, level two gets two..."

This golden core state cultivator was a golden core state level nine expert, so no one dared to object to him.

Chapter 913: Who Took The Spirit Marrow

"Okay, now all of you go cultivate first. But, foundation establishment state cultivators, leave after a day or deal with the consequences," the golden core level seven cultivator warned coldly.

Ye Mo knew that it would be impossible to steal any spirit crystals with his power, so he just sat down in the spirit marrow pond like the other foundation establishment state levels.

Ye Mo didn't use the Three Birth Chant, because he knew that it would cause too much commotion and consume too much of the spirit marrow.

He just used an ordinary cultivation method and slowly consumed the spirit marrow.

Ye Mo saw that all the other cultivators started to begin cultivation, and he started scheming for the pond. He wanted to send it into his golden page world and then find a safe place to cultivate later.

Ye Mo sat in the spirit marrow pond and slowly started pouring the spirit marrow inside his golden page world. He was very slow to avoid being caught.

Two hours later, Ye Mo found that the spirit marrow had formed a small pond in his golden page world and rejoiced. This would be much better than cultivating there for a mere day.

Cultivators soon started to spontaneously break through in the spirit marrow pond. Three golden core state cultivators ascended a small level, and four foundation establishment states ascended a whole level. One golden core state cultivator went from level six to level seven.

It was only half a day, yet this many people broke through - the spirit marrow was too good for cultivators!

This incited people to consume the spirit marrow like crazy.

Ye Mo opened up his eyes casually and saw that almost everyone was cultivating in the pond and no one cared about him.

Since that was the case, Ye Mo started to take in the spirit well a bit faster. Half a day later, Ye Mo suddenly realized that he had taken more than half of the spirit marrow pond. He was shook and immediately stopped.

Ye Mo felt he had been a little too greedy. He could only hope that the people present were too focused on cultivating to notice him.

But obviously, that wasn't going to happen. The golden core state peak stage cultivator realized what had happened and got up from the spirit pond roaring, "Who is it?! GET UP, NOW!"

No one but Ye Mo knew what he meant.

At this moment, everyone in the spirit pond stopped cultivating. That's when they realized that more than half of the spirit marrow was missing.

Ye Mo was preparing to run away, but at this time, four other golden core states walked inside the ancient structure. The leading golden core state saw the scene and couldn't help but exclaim, "A spirit marrow pond?"

"It really is!" He charged inside without hesitation.

As the golden core state peak stage cultivator saw this, his face sunk. Just when Ye Mo hoped that guy would reproach the newcomers so that he could find an opportunity to escape, he realized that the golden core state peak stage had no intentions of doing so.

As he saw the golden core state peak stage cultivator scan everyone in the pond, Ye Mo got an idea. He got up and said shakily, "Four Qianbei, the spirit marrow pond's shares have been decided on by the Qianbei deeper inside. Since you guys came later, shouldn't you ask that Qianbei-"

"What, a mere foundation establishment state cultivator like you dares stop me?" The golden core state cultivator's eyes went cold. However, he didn't attack. He didn't know if Ye Mo had company. There were 20 golden core state cultivators there after all.

"No, no, I wouldn't dare stop Qianbei, I'm just saying, just saying." Ye Mo carefully looked at the golden core state cultivators inside the pond, clearly hoping that one of them would speak for him.

However, no one was willing to do so.

The golden core state who had just arrived saw that Ye Mo had no support and said coldly, "P*ss off, I will take your spot."

"Yes, yes!" Ye Mo quickly moved to the side. He was instigating a conflict on purpose. If that golden core state peak stage still did nothing, then it was his bad luck.

Everyone could tell Ye Mo was sucking up to the golden core state peak stage to try to stay longer, but they all just looked at Ye Mo contemptuously.

As soon as Ye Mo moved away, the golden core state peak stage set aside the missing spirit marrow issue and said coldly to the four new arrivals, "Friends, we found this spirit marrow pond and arduously broke the restriction ourselves. Are you just going to take it?"

There were two golden core state tertiary stages and two middle stages, and when they heard this, they all stood up together.

The golden core state peak stage saw that no one wanted to help him and felt very uncomfortable. He glanced at the foundation establishment state cultivators inside the pond and said, "The foundation establishment states will stop now, get out."

Ye Mo saw a scared looking foundation establishment state run outside and followed immediately. Seeing this, the remaining foundation establishment state cultivators didn't dare talk and all went out. But they didn't leave.

Ye Mo stayed in the crowd and didn't leave either. He knew he couldn't leave now.

The golden core state peak stage saw that all the foundation establishment states went out but none left, so he felt easy. To him, the most important thing was the missing spirit marrow, not the newcomers.

However, since the four newcomers weren't saying anything, they clearly did want to take the spirit marrow. So he decided to deal with them first before looking for the missing spirit marrow.

"If no one here has anything to do with the missing spirit marrow, I invite you to come to my side," the golden core state peak stage saluted with his fists as he spoke up.

Hearing this, the remaining golden core state cultivators all got up and stood by his side, facing off against the four newcomers.

Ashe four saw that they had to face more than ten golden core states, they were dumbfounded. The strongest one of them quickly saluted with his fists, "We can talk this through. We're willing to just stay for three days and leave."

However, he was thinking that three days later, he would spread the news out no matter what and get everyone who was close to come.

The golden core state peak stage nodded and didn't say anything further.

He was still wondering how someone could take away so much spirit marrow in such a short time. This person must have a powerful magic artefact. It might even be a cultivation level artefact.

"We don't know who took the spirit marrow, but I'm sure he's amongst us." the golden core state said coldly. He believed it had to have been a golden core state cultivator who did it.

"But how do we find out who took it?" another golden core state tertiary stage asked.

Clearly, no one would admit or let people check their storage ring.

The golden core state peak stage sneered, "Simple, I have a level 8 test spirit rune. It's no use to me, so I will use it now. Those who are willing to be tested by the rune, please stand out. At the same time however, the extra two crystals need to be given to me. After all, a level 8 rune is still worth a fortune."

No one spoke as everyone tacitly agreed. In reality, it might be a level 8 rune, yes, but it's use was actually very limited. It could only test cultivators below the nascent soul state. And even then the accuracy wasn't 100%.

The rune wasn't even worth one crystal.

"I'll start with the foundation establishment state cultivators," the golden core state peak stage cultivator suddenly stated.

Chapter 914: Ascending Like Crazy

He suddenly stopped because he realized that there seemed to be one person missing from the foundation establishment state group. It was that timid-looking fellow who tried to suck up.

He had been tricked! The golden core state peak stage cultivator immediately understood what had happened. A mere foundation establishment state level seven insect had dared to trick him? His face turned green immediately.

...

Ye Mo left the round structure carefully while the golden core state peak stage was talking to the four golden core states.

His Three Birth Chant was put to good use again - no one realized he left. Still, the main reason for that was that everyone's attention was focused on the spirit marrow pond.

Ye Mo immediately flew away a few kilometers and came to a barren mountain. Then he used earth travel to go underground. Immediately, he went into the golden page world. When he saw the large pond of spirit marrow in front of him, he was overjoyed.

He was rich, really rich this time!

Ye Mo immediately charged into the spirit marrow pond and started cultivating wholeheartedly.

The spirit energy didn't even need to be converted as it became his cultivation essence and his meridians opened up effortlessly. Ye Mo knew his risk had paid off.

Even though his power was ascending rapidly, Ye Mo didn't stop to control its stability. His weak power just made him feel too uncomfortable. He even ate a clear essence pill and a Lin Blue Fruit.

With this, the Three Birth Chant showed its true power. Ye Mo could clearly feel his power rise drastically.

Half a day later, Ye Mo felt the depth of his meridians hurt and then crack. His cultivation essence immediately became denser, and the strong feeling that ensued made Ye Mo knew that he had reached foundation establishment state level eight.

Ye Mo then immediately ate another clear essence pill and stayed inside.

Ye Mo entered a state of deep cultivation, forgetting everything but cultivation.

When the last meridians were opened and all the meridians in his body connected, Ye Mo felt himself become lighter.

He couldn't help but get up and howl. He knew he had reached foundation establishment state level nine! But Ye Mo still stayed inside to keep cultivating.

Foundation establishment state peak stage!

Ye Mo still didn't stop. Ye Mo knew that he could go for golden core state now, but he still wanted to first consolidate his power.

Ye Mo knew that his power had risen too quickly recently. So before he consolidated his cultivation, he couldn't attempt to breakthrough to the golden core state.

Meanwhile, Ye Mo ate a few stalagmite benefit pills. He had eaten too many pills lately, and so he needed to remedy the pill poison in his body before he charged for the golden core state as well.

As all the poison was removed, his foundation establishment state peak stage power was consolidated.

Ye Mo thought about many things. He had only transmigrated for a bit over ten years, yet he was about to reach the golden core state.

At this moment, he thought about Luo Ying, Qingxue, Xiaoyun, Yimo, Yangzhu, Ye Ling and even Ye Zifeng and Luo Yue City.

These thoughts flashed across his head and further consolidated his will to reach the peak as soon as possible and find them all.

It was due to this thought that he stopped his impulse to break through to the golden core state.

If he tried that now, he might not succeed, which wouldn't be good for his future.

Ye Mo decided to use the remaining two months and a half in the Valley to battle and stabilize his power. Once he was fully used to the foundation establishment state peak stage power, then he could attempt to reach the golden core state.

Ye Mo knew that with one or two years of consolidation, his foundation would be very solid, but he didn't have that much time.

Another important point was that the golden page world wasn't very complete as of yet. He could break through to the golden core state, but it was better to do it outside in the complete world.

Ye Mo came out of the golden page world and went to the ground level.

He took out 9 Transformations and put it on his face. He was sure that Tong Dark Face and Sima White Face wouldn't be inside the Valley, so he didn't have to worry.

Ye Mo had to wear it in case he saw that golden core state peak stage again.

Ye Mo looked around. He wanted to know what had happened to that spirit marrow pond. He knew that he couldn't get any spirit crystals even if he went back, but he still desired them greatly.

Ye Mo was at the foundation establishment state peak stage now and more than twice as strong as he was before. Perhaps if he faced that golden core state level four guy again, he wouldn't have to rely on the Blue Python to escape.

Ye Mo was sure that he could fight against someone at the golden core state levels one to level three as long as they weren't some geniuses.

Ye Mo was much more careful this time heading back.

However, Ye Mo was clearly worrying too much. When he arrived, the place was a mess. There were multiple bodies laying around. As for the pond, there wasn't even any jade left, much less spirit marrow and spirit crystal.

An intense battle had clearly taken place there. Ye Mo didn't stay and left as quickly as he could.

By now, Ye Mo realized that this desert plain herb valley was surrounded by the desert and the precious herbs were all near the center.

However, Ye Mo didn't walk towards the center and walked towards the desert instead.

He needed battle, and there were plenty of scorpion beasts in the desert. It was the best battle ground.

As soon as Ye Mo came to the desert, he was surrounded by multiple level 3 earth scorpions. This was no challenge to Ye Mo at all anymore. Zi Xu flashed, and these foundation establishment state primary stage equivalent beasts were taken care of in a flash.

At the start, Ye Mo had to swing Zi Xu to kill but after a while, he found that his sword ray seemed to have a little intelligence!

Ye Mo hence immersed himself in his Zi Xu sword ray. He had a feeling that once he completely controlled the intelligence of his sword ray, his Illusion Cloud Sword would develop its fourth strike.

Chapter 915: Illusion Cloud Exert Will Strike

Amidst the endless slaughter, Ye Mo didn't realize he had been surrounded by more than thousands of earth scorpions. He was killing them purely based on instinct. He killed wave after wave.

If someone stood in the air right now, they would see endless earth scorpions flooding towards one person. But that wave of monsters was stopped by some power in the center, unable to flood the person in the middle.

In the end, Ye Mo closed his eyes completely and just controlled his sword rays based on his sense for danger. The intelligence in the sword rays grew. He kept on attacking with sword rays to unearth that intelligence. Each time a scorpion attacked, it would be blocked by his sword rays and then create a mist of blood. But even then, there were too many scorpions, and some made it through and injured him.

But the attacks that got through were the weakest. Ye Mo sensed the dangerous attacks, and a sword ray would block them immediately. In the end, a sword ray barrier formed around his body.

Everytime his cultivation essence was about to run dry, he would eat multiple essence recovery pills and spirit containment pills. He had prepared countless pills for the Herb Valley battles.

As for pill poison, he didn't have to worry about that.

Before this, his Illusion Cloud Division Strike could separate into countless sword rays already, but he couldn't control them.

Now, as he slaughtered the scorpions, he gradually found that sliver of intelligence. He wasn't going to stop now out of fear that he wouldn't feel that intelligence again if he did.

A few cultivators flew over the desert on their flying swords, and there was even one golden core state among them. When they saw an endless wave of earth scorpions rush towards one cultivator, however, they were shook and left as quickly as possible.

Even golden core states would be dead for sure if they were surrounded by countless level 3 earth scorpions. Moreover, there were level 4 scorpions approaching from the periphery too.

Ye Mo could feel the scorpion threat get stronger and stronger, but he still didn't open his eyes. Zi Xu kept sending out sword rays, and he could feel that he could control more and more of them.

Clink- Zi Xu suddenly shook, and the sword ray Ye Mo had been controlling suddenly scattered, becoming a mess. The next moment, Ye Mo felt pain on his chest, and an extreme sense of danger overcame him.

That danger even invoked the fear of being killed in Ye Mo. He subconsciously gathered all of the sword rays together and attacked the direction from where the dangerous feeling came. At the same time, he opened his eyes.

Ye Mo had never expected that in a rush, he would actually manage to control most of his sword rays together.

Before he could rejoice, his sword rays clashed with something, and Ye Mo was sent flying. A level 3 beast was smashed away too. Ye Mo once again felt that extreme pain as he spat some blood and gathered all the cultivation essence in his body to protect him.

At this moment, Ye Mo finally took a close look at his surroundings, and he was shook.

A 100 meter area around him was full of earth scorpion bodies, and there were countless more earth scorpions coming from a few miles away. The bodies were piled up to form a small hill already, and there were even some level 4 bodies among them.

Ye Mo examined his state. He was covered in blood and wounds, and there was a gash on his chest that was deep to the bone. Clearly, that was the result of the danger he had sensed.

Ye Mo immediately noticed the huge earth scorpion in front of him. It was much bigger than other earth scorpions. It glared at him with cold eyes.

This was a level 5 earth scorpion, a level 5 middle stage earth scorpion. Ye Mo suddenly became excited. He had survived under the furious attack of a level five earth scorpion! This level 5 middle stage beast was equivalent to a golden core state middle stage human cultivator. Ye Mo didn't know how much time he had spent in this carnage, but he knew that his power had increased a level again.

Ye Mo suddenly remembered that last strike of his where the sword rays had become intelligent. That strike had blocked the level 5 beast's lethal blow. If it hadn't...

Ye Mo subconsciously raised Zi Xu, and the blade quivered as a sword ray rolled around it according to his will. It seemed like it was intelligent, and it only finally disappeared after a long while.

After finally mastering this move, Ye Mo was shaking with excitement. The reason the sword ray disappeared was because he didn't have enough cultivation essence. One day when he was strong enough, he would be able to control countless sword rays according to his will.

Was this controlling the sword with one's will? Sword will?

Ye Mo didn't know sword will, but this sword ability of his was something he had created himself based on another sword ability.

Ye Mo realized that he had finally created the Illusion Cloud's fourth strike.

"I'll call it the Illusion Cloud Exert Will Strike," Ye Mo proclaimed as he clenched Zi Xu. His battle will soared, and he prepared to face the level 5 beast. All he wanted now was to fight the level 5 beast in front of him. He ignored the fact that he was full of injuries and surrounded by countless earth scorpions.

The earth scorpion saw Ye Mo casually shake out a few sword rays and looked concerned. It was level 5 and had some level of intelligence. It could tell that Ye Mo was full of battle will.

When Ye Mo's battle will climaxed, the level 5 beast shrieked and hearing this, the endless scorpion flood left.

Ye Mo looked at the ground full of bodies in a daze and felt uncomfortable. It was like he had been ready and prepared, yet his opponent suddenly ran away.

But soon, Ye Mo calmed himself. Even if he needed opponents, it didn't have to be earth scorpions.

Ye Mo checked his storage ring, and he found that he had used up almost all of his recovery pills. He had prepared them for a long time. He estimated that he had spent about half a month fighting the beasts, so now he could go collect herbs.

He ate a few stalagmite benefit pills and a few antidote pills to force out the poison from the scorpion stingers.

Then, he took off 9 Transformations and started digging out the scorpion stingers and beast cores.

Ye Mo believed that if he met that golden core state peak stage cultivator now, he should be able to run away from him. It was best not to use 9 Transformations.

There were too many bodies on the ground, so Ye Mo just harvested the level 4 ones.

Two hours later, Ye Mo got up and was planning to leave. He had gotten about a few hundred level four earth scorpion beast cores and stingers - this was a fortune to him.

But just when Ye Mo got up, he heard the sound of flying swords slicing through the air. Usually, cultivators could adapt the angle or use some other means to mute the flying noise, yet there was this sound now. Clearly, someone was running away at full speed.

Ye Mo soon indeed saw three cultivators rushing over. One was running away at the front, while two were chasing from behind.

...

Chapter 916: Battling a Golden Core State Again

The one running away was a female cultivator. Ye Mo scanned her with his spirit sense and recognized who she was.

She was Guang Wei, a core sect member of the Immortal Herb Valley and a top twenty ranker of the pill concoction hall of fame. She was at the golden core state level one. She had even ridiculed him a little for entering the Valley with his current power.

At this moment, her hair was covering her face, and her clothes were torn. Her snow-white skin was covered in blood.

Someone dared kill a core sect member of the Immortal Herb valley here? Ye Mo knew that the sect had quite a high status in the North Far State, so even if someone were to attack their sect member, they wouldn't dare to do it so overtly.

Guang Wei clearly saw the cultivator amongst the bodies and charged over to Ye Mo in joy. "Daofriend, I'm Immortal Herb Valley's Guang Wei, I'm-"

But when she reached Ye Mo, she stopped talking. Her face looked bad as she had recognized Ye Mo, the level seven foundation establishment state cultivator.

She didn't know why Ye Mo was there, but Ye Mo was heavily injured too. Even if he weren't, he wouldn't be able to save her life.

But Guang Wei knew getting on her flying sword again was no option either as her two pursuers had sealed off her escape.

"What are you doing here?" Guang Wei was very annoyed. If Ye Mo wasn't there, she wouldn't have come down to ask for help. She could have kept running. In actuality, she did know that she was being unreasonable, though. She would have been caught eventually anyways.

"Why can't I be doing something here?" Ye Mo asked calmly while studying the two cultivators in pursuit.

It was one golden core state level four cultivator and one at level three. Guang Wei could indeed only run from them.

Guang Wei calmed down and said apologetically, "They're not from the North Far State. I have brought trouble onto you."

Guang Wei sighed.

Not from the North Far State? No wonder they dared to hunt down an Immortal Herb Valley disciple then.

"Foundation establishment state wanbei? Hahaha!" The golden core state level three saw that Ye Mo only had foundation establishment state power and immediately laughed.

Guang Wei's face went red. She threw over a dark yellow herb and said, "It's yours, this has nothing to do with him."

The golden core state level four took the herb and looked contemptuously at Ye Mo, speaking coldly, "You want me to let this insect go?"

"It isn't impossible... If you give me your virginity that is."

Guang Wei's face went red, and she was about to fight immediately, but Ye Mo's following words stopped her impulse.

"Yellow Three Leaf?" Ye Mo became excited staring at the herb. The nin bi pill's main ingredient was the Yellow Three Leaf! And the nin bi pill was the most important pill for golden core state cultivators.

"I'll take this Yellow Three Leaf," Ye Mo looked coldly at the level four golden core state and spoke up solemnly.

When Ye Mo said this, the two golden core states as well as Guang Wei were dazed. Two breaths later, the two golden core states laughed out loud. If Guang Wei weren't in danger, she would want to laugh too.

A mere foundation establishment state dared to say to a golden core state middle stage that he would take what was in his hands?

"I wanted to kill you later, but I see you're asking to die now. Insect, I want to see how you're going to take this Yellow Three Leaf!" the golden core state level four uttered as his flying sword quickly surrounded Ye Mo with sword light.

He wanted to cut Ye Mo's limbs off and let Ye Mo watch as he dual cultivated with this female cultivator before killing him.

Guang Wei saw this and took out her flying sword, wanting to stop it, but the golden core state level three stopped Guang Wei.

What the golden core state middle stage fellow didn't expect was that as soon as his flying sword was about to attack, the foundation establishment state insect took out his kitchen chopping knife and chopped over at him.

He was furious. A foundation establishment state cultivator dared to attack him? He wanted to use his cultivation essence field to bind the insect, but what shook him then was that his cultivation essence was bound first!

This was the second time Ye Mo used the Illusion Cloud Essence Binding Strike against a golden core state. The first time it didn't even stop the person for half a breath.

Now, he was inestimably closer to the golden core state, so he was really curious to see how strong it was now.

The purple sword ray instantly bound the golden core state fellow. But soon, Ye Mo felt that it would still only last for two breaths.

Hence he used the Illusion Cloud Division Strike immediately.

Instantly, countless purple sword rays were struck out. By the time the golden core state broke free, Ye Mo had about a few hundred sword rays ready for him.

The golden core state sweated cold from this and conjured a blue shield.

Crack- Countless strikes struck the shield. The shield blocked 90% of the sword rays, but some still got through and went into the golden core state's body, injuring him.

The golden core state middle stage cultivator was immediately furious. Due to his underestimation, he had gotten injured by a foundation establishment state insect. Now, he didn't hold back anymore. He raised his two hands, and four different-colored swords were sent out. They formed the word 'Wang' and completely covered Ye Mo.

(Ed. note: Wang = 王 = King)

Guang Wei was stopped by the golden core state level three, but when she saw that Ye Mo was capable of injuring the golden core state level four cultivator, she was shook. She really couldn't imagine how a foundation establishment state level seven could injure a golden core state cultivator.

Having crossed the bridge between the foundation establishment state and the golden core state, she knew how big of a difference it was. Usually, the first placed foundation establishment hall of fame ranker was no match for an ordinary golden core state level one cultivator.

Yet, Ye Mo had injured a golden core state middle stage opponent with foundation establishment state power. This exceeded her comprehension. But when she saw the 'Wang' attack, she began to worry. She knew how powerful it was. Martial Brother Quanwu of the God Sword Sect had lost to this move. It was this cultivator's killing blow.

This Li Quanwu was at golden core state level four and came from the God Sword Sect, so he was much stronger than ordinary golden core states, yet even he was no match for this move. Meanwhile, Ye Mo was only at the foundation establishment state. She didn't dare to think further than that.

And as soon as the move was used, Ye Mo indeed felt an extreme sense of danger.

The four swords had different-colored sword rays, and when the golden core state activated them, it was like a vibrant fireworks display. But Ye Mo felt that the sword rays could follow him everywhere. If he wasn't careful, the move would tear him apart. Perhaps one or two would only injure him, but when all the swords joined together, he would be torn apart for sure.

It was like his Three Birth Sword Ray. Ye Mo didn't dare to hesitate and closed his eyes. Zi Xu rumbled, and countless purple sword rays appeared like a flower festival. These sword rays seemed to have eyes of their own as they followed the vibrant sword light.

Chapter 917: Ye Mo's Tactic

Guang Wei and the golden core state level three cultivator were dumbfounded. Ye Mo was stopping the full-powered attack of a golden core state level four as a foundation establishment state cultivator! They even forgot to fight and just stared at Ye Mo's fight.

Meanwhile, the golden core state level four cultivator was the most shocked. He could feel that Ye Mo wouldn't last long, but he still couldn't help feeling shocked. He had found the 'Wang' four swords in an ancient ruin and had beaten countless people with this sword ability, yet it was stopped by a small foundation establishment state cultivator.

If he hadn't used this full-strength attack due to his rage, he would be the one on the lower hand of this battle by now.

He didn't know who this foundation establishment state cultivator was, but his sword ray seemed to be alive, as if it would block every single one of his sword rays.

If it wasn't that this foundation establishment state cultivator's cultivation essence was far weaker than his, his 'Wang' four swords wouldn't be able to suppress him.

He had never seen a foundation establishment state cultivator this strong, nor had he heard of one. Compared to him, the foundation establishment state hall of fame number one was nothing. Ye Mo's power rendered him full of killing intent. He had to kill such an overpowered cultivator before he was strong or there would be endless trouble for him in the future.

Thinking about this, the golden core state added more cultivation essence to his attack, and the sword rays shone even brighter.

Ye Mo was already struggling to block the move, and now he finally couldn't help spitting two mouthfuls of blood. He sighed. It would seem he was being a bit too cocky still.

He thought he could take on golden core state middle stage cultivators having reached the foundation establishment state peak stage and having created the Illusion Cloud Exert Will Strike. But now, it seemed there was still a huge difference.

When Ye Mo saw the golden core state was about to take something out, he got even more desperate. He wanted to take out a few attack runes too, but he couldn't.

Seeing Guang Wei watch on the side, Ye Mo was furious. He cursed, "Dumb girl, hurry up and kill the other dude and come help me!"

Guang Wei was dazed. She didn't expect that Ye Mo would dare to insult her. If she could kill this golden core state level three, she would've long since killed him, right?

But she saw that Ye Mo was about to lose and knew that that was their only way out. If she didn't kill the golden core state level three cultivator, she would be dying along with Ye Mo.

Thinking about this, Guang Wei sent her flying sword out and attacked the golden core state level three.

He was stronger than Guang Wei by a little, and the two fought a close battle.

This time, Guang Wei was very desperate, she temporarily held the upper hand. After all, golden core state level one and three was both the same primary stage. Once Guang Wei exerted her cultivation essence, though, she would be defeated for sure.

Thus, the golden core state level three just patiently held Guang Wei in place.

Guang Wei sighed. She wasn't dumb, and she could tell there was no other way anymore. She attacked with her full might and didn't even bother with defense.

The golden core state level three had a sneer of contempt on his face, and he knew his opportunity was near. This woman wasn't as good as the one who had been with her but, she was still pretty. She would make for some good fun in this place.

Guang Wei saw the golden core state keep staring at her body and couldn't help but get angrier. She made up her mind that even if she was to die, she wouldn't let the two jerks do what they wanted.

When Guang Wei sent her flying sword piercing at the golden core state's eyes like crazy, the golden core state suddenly seemed dazed. His eyes were then filled with disbelief, as he hadn't noticed Guang Wei's flying sword pierce his eyes at all.

Guang Wei was also stunned. She didn't expect to actually succeed right when she was about to give up.

Her golden core state level three opponent hadn't dodged at all and let her pierce him.

Guang Wei was dazed for a moment, but quickly realized that this was a good opportunity. No matter what, she couldn't let this guy live.

Immediately, her flying sword sliced off the man's head.

Guang Wei was overcome with disbelief at being able to kill the man.

As soon as the man fell down, Ye Mo spat more blood, and his purple sword ray became messier. The next moment, a few sword rays pierced his shoulders.

Ye Mo ate a few more recovery pills. He knew he had succeeded halfway. The golden core state level four attacker in front of him was too strong. Even if he took out Shadowless, it would be of no use. He needed Guang Wei's help.

So he used Shadowless to help Guang Wei kill the other guy. However, he got injured more due to splitting his spirit sense.

Guang Wei was surprised, but when she saw what happened to Ye Mo, without thinking, she charged at the golden core state level four with her flying sword.

At this moment, the golden core state took out a paper rune. Clearly, he was unhappy with having to fight Ye Mo for so long. It was already embarrassing that he had to use his killing blow to suppress Ye Mo and then runes to kill him, but he didn't care about what it would cost him at all anymore. He would only rest easy after this foundation establishment state died.

But when he took out the rune, he saw Guang Wei kill his friend. Before he could check how that was possible, Guang Wei was already attacking him.

Without a thought, he threw the rune at Guang Wei, even though he had been planning on using it against Ye Mo.

He grew more careful once again, though. Did she too have some unknown means that she hadn't used before yet? Otherwise, how could she kill a cultivator two levels higher than her so quickly?

The rune exploded in front of Guang Wei, and Guang Wei could only put up a cultivation essence barrier. But even with that, she was immediately burned by the rune. Her hair turned into a crisp, and she didn't have a single bit of clothes left on her.

Meanwhile, Ye Mo used this chance to take out his own runes. They were his battle loot, but he threw them at the cultivator without hesitating. At the same time, he told Guang Wei to, "Hurry up and attack!"

Rumble rumble-

The runes Ye Mo threw out were fireball runes, huge boulder runes, and ice shard runes. They were all level four and five, so they were weak against golden core state cultivators, but their quantity could make up for that.

While the golden core state was busy with that, Ye Mo controlled Shadowless to move below the golden core state.

Guang Wei really wanted to change into a new pair of clothes, but she knew that this was a crucial moment and that she couldn't waste a single second. So Guang Wei chose the right moment and sent out her flying sword.

With Guang Wei joining him, the pressure on Ye Mo was reduced greatly. Zi Xu's sword ray instantly broke through the sword ray lockdown, and the golden core state was cut many times over.

Ye Mo then sent out a few hundred more sword rays, and the Illusion Cloud Whirlpool Strike.

All he had needed was an opportunity and with Guang Wei there, he got it.

The golden core state had thought that the purple sword ray was Ye Mo's strongest move, so when he saw the spinning whirlpool sword rays, he was shocked once again.

What sword ability was this?!

He knew he had to run.

If those two joined forces, he would be a dead man for sure.

Just when he had such a thought, he felt a little pain in his meridians, as though something had crawled in. Before he could check it, the foundation establishment state cultivator's sword rays covered the heavens and earth as they charged straight at him.

Chapter 918: Agreeing to Help

This golden core state cultivator was different from other cultivators. The first thing he did was to force out Shadowless. However, he underestimated Ye Mo's Illusion Cloud Whirlpool Strike.

He thought his foundation establishment state opponent was already very strong, but no matter what, since he could suppress him for so long, he would be able to do so for a bit longer.

But as soon as he forced out Shadowless, he was sliced up by the countless purple sword rays. Despair filled the cultivator's eyes. He was killed by a foundation establishment state insect.

Guang Wei looked in a daze at the sky filled with sword rays that sliced a golden core state level four to pieces. She forgot that the first thing she should be doing right now was changing clothes.

She immediately realized that the golden core state level four cultivator had also seemed distracted before he was killed.

"Did you help me kill that golden core state too?" Guang Wei reacted and asked.

Ye Mo scanned her and said plainly, "I think what you should care about now is changing into some clothes."

Then, Ye Mo took the level four's ring and sat down, starting to recover.

Guang Wei just realized that she didn't have any clothes on. She was very embarrassed. Just when she wanted to tell Ye Mo not to look, he had already turned his back to her.

Without thinking, Guang Wei casted a simple barrier and went inside it, washing herself with a water spell before changing into a set of clothes.

When Guang Wei came out, Ye Mo was already standing up. He was covered in blood, and Guang Wei couldn't see the state of his injuries.

"I will be going, good bye." Ye Mo turned to leave. He had been fighting all these days and felt that it was time for him to form his core.

He didn't want to be with Guang Wei while doing that.

"Huh?" Guang Wei reacted and immediately remembered why she was being hunted. She said desperately, "Ye Mo, please save my Martial Sister Muxin now. She's trapped by cultivators from the South Peace State."

Ye Mo studied Guang Wei in surprise and said after a long while, "You want a foundation establishment state cultivator to beat the golden core state cultivators trapping your martial sister and save her from them?"

Guang Wei said desperately, "Ye Mo, you can do it for sure. You're capable of killing that Luo guy. Your power is no weaker than golden core state. With me, we should be able to help. You must go help! Remember, before you came in, Muxin helped you-"

Ye Mo smiled, "Helped me? Do you think I needed help? In fact-"

Ye Mo paused and studied Guang Wei before saying slowly, "In fact, it's not a good idea for you to come in here. If I were you, I would stay at home to concoct some pills."

Guang Wei heard this and blushed.

Actually, Ye Mo didn't plan on not helping. After all, Qin Muxin did want to help him before. But after fighting with that golden core state level four cultivator, Ye Mo again realized that his power was nothing in front of the might of a strong golden core state. Not to mention that after so long, who knew if she was dead or not. What if she was dead?

He just wanted to find a place to recover and ascend to golden core state. Anything had to wait until after that.

Guang Wei saw that Ye Mo was about to leave, and her face went pale. She suddenly thought of something and said, "My Martial Sister and I were hunted by them because we found a large patch of Yellow Three Leaves. They must have something important to do, coming all the way here. Furthermore, we've already killed two of the four golden core state cultivators. If we meet up with Muxin and the others-"

Hearing about the Yellow Three Leaves, Ye Mo immediately turned around and said, "What are we waiting for then? Hurry up and go!"

Then, he immediately got on his flying pike. He was about to reach the golden core state, but he didn't have any herbs for golden core state cultivation. If he wanted to reach higher states faster, then he needed large amounts of resources.

He even dared to steal things from hollow spirit state cultivators, much less from two golden core state cultivators.

Guang Wei looked at Ye Mo a bit stunned. She didn't expect Ye Mo to agree just because of that. Wasn't this too straightforward? He just said he couldn't beat golden core states, and now he was getting ready to go as soon as he heard 'Yellow Three Leaf'.

But Guang Wei didn't dare to scorn him for fearing that he wouldn't go. When she saw Ye Mo's low grade flying spirit artefact, she wasn't even shocked. It was normal for an overpowered cultivator like Ye Mo to have a low grade flying spirit artefact at the foundation establishment state.

Guang Wei picked up the golden core state level three's storage ring and gave it to Ye Mo, "You killed him, you deserve it."

Ye Mo said plainly, "I killed the level four and I took his ring. As for the level three, that's your loot. I won't take what's yours."

Ye Mo denied himself being involved at all. Guang Wei knew that it had something to do with Ye Mo, but Ye Mo wasn't going to admit anything.

"You control the flying pike, I need to recover," Ye Mo said.

His injuries looked serious but Ye Mo knew it was only a matter of cultivation essence exhaustion and some external injuries. Four hours later, Ye Mo had completely recovered. He didn't take over the flying pike but instead started looking at the golden core state level four's storage ring.

There were more than 100 thousand top grade spirit stones inside and about the same amount of middle grade spirit stones. There were also large amounts of golden core state cultivation pills and the four colored swords. Ye Mo also found an incomplete jade slip inside. It had the 'Wang Four Swords'.

It was a very good sword ability, but Ye Mo had Illusion Cloud, so he didn't look at it and left it to the side.

Other than this, he also found a jade card that said 'Flowing Cloud Sword Sect, Luo Zixiang'. It was probably his identity card. There were also tens of jade boxes that contained the herbs he had found.

Ye Mo took everything, took a shower, and changed his clothes before coming out.

"How long?" Ye Mo asked Guang Wei who seemed a little worried.

Guang Wei said, "Almost there."

Ye Mo also started inserting cultivation essence into the flying pike, and it cut through the air even faster.

Thirty minutes later, the flying pike landed outside a huge valley.

"Martial Sister Muxin, you're okay? Great! Where are those villains?" Guang Wei charged out immediately and ran up to Qin Muxin. She didn't expect that Qin Muxin would only have some blood on her and wouldn't even be heavily injured.

Qin Muxin looked joyful when she saw Guang Wei and quickly said, "Martial Sister, I was very worried about you, but I didn't know which way you ran. It's so good to know you're fine."

"What's this?" Guang Wei guessed that something special must have happened. When she turned around, she saw the two golden core state cultivators who were attacking them when she ran. Her martial sister was fine, so why were the two still there? There seemed to be more people around them too.

"These Martial Brothers from the God Sword Sect and Duo Heart Valley helped us," Qin Muxin said as she pointed at those golden core state cultivators and introduced them, "This is God Sword Sect's Martial Brother Ximen Chao, this is Duo Heart Valley's Martial Brother Zhe Qiushiu..."

Guang Wei quickly went up and thanked them. If it weren't for these people, the Immortal Herb Valley would've suffered greatly this time.

Ye Mo saw that Qin Muxin had a few people next to her and knew that she had been saved.

However, when he put away the flying pike, he realized that the atmosphere didn't seem right. Qin Muxin's side and the other side seemed to be in a stalemate.

Chapter 919: Only One Move

Ye Mo looked at the messy valley and knew there had been a battle not long before. The opposing side of that battle must have been the cultivators from the South Peace State.

Guang Wei had guessed right - those people had indeed come with a clear purpose in mind.

The South Peace State's cultivation level was much higher than other places, much less the North Far State's, which was at the bottom.

"It's you? Where are Martial Brother Luo and Martial Brother Xin?" a golden core state level five recognized Guang Wei and yelled.

He thought that a golden core state level four and level three should easily have been able to kill a golden core state level one but now, this level one came back fine, while their two cultivators didn't come back.

Guang Wei sneered, "What's your Martial Brother going missing got to do with me? Am I responsible for watching him?"

Guang Wei's words made the cultivators from the North Far State laugh.

Qin Muxin also noticed Ye Mo and asked Guang Wei in confusion, "Martial Sister, why are you with him? Isn't it too... Bringing him here?"

Guang Wei said to Ye Mo, "Martial Brother Ye, come here."

She said to Qin Muxin, "I found Martial Brother Ye to help you, but I didn't expect you would already have a few Martial Brothers helping you."

"Haha!" One cultivator heard this and couldn't hold back his laughter.

This cultivator was standing near Zhe Qiushui, who was from the Duo Heart Valley too. He said, "You found a foundation establishment state cultivator to come help?"

"Laughing at someone else? You're a foundation establishment state too," Guang Wei replied coldly. She knew who this cultivator was. He was in the foundation establishment state hall of fame, but she didn't care.

Qin Muxin felt Guang Wei was being unreasonable, but the laugh had made her uncomfortable too. However, the Duo Heart Valley cultivators had just saved her, so she just glanced coldly at the cultivator who laughed.

"Hai Xin, don't be rude. Martial Sister Guang Wei is your Qianbei, how can you be so rude?" Zhe Qiushui immediately reproached.

The cultivator stopped laughing and bowed to Guang Wei and didn't speak again.

Zhe Qiushui saluted with his fists to Guang Wei and said, "Those two golden core state cultivators weren't simple. Even I can't say I could beat one of them with certainty. Also, Hai Xin might be at the peak stage of the foundation establishment state as well as number two in the foundation establishment state hall of fame, he has no right to talk in front of a golden core state."

Zhe Qiushui was still telling her in a polite roundabout way that it was quite blasphemous to 'find a foundation establishment state cultivator to help'. But Guang Wei didn't say anything. Even though this Hai Xin was the foundation establishment state hall of fame number two, he would be instantly killed by Ye Mo.

Even if Zhe Qiushui fought Ye Mo himself, who knew what might happen. Ye Mo was the craziest prodigy she had ever seen.

Hai Xin saw that Guang Wei didn't rebuke, but the contempt in her eyes was clear, so he was unsatisfied. He walked up to Ye Mo and said, "Having heard of your strength, I would like to see. Don't worry, three moves is enough."

Ye Mo was already unhappy about being unable to see the Yellow Three Leaves, and now this Hai Xin came up to challenge him.

So what if he was a bit stronger? Was foundation establishment state hall of fame number two really that great?

Seeing Ye Mo not planning on taking out his magic artefact, Hai Xin didn't plan to either. He just raised his hand and said, "I'll fight you with my fist, three moves. Don't worry, just three moves."

Ye Mo stared coldly at him, "Who is Hai Dan to you?"

Hai Xin was dazed, but he said "She's my younger sister, why?"

Hearing about his sister suddenly, his face looked bad. Why did Ye Mo ask about his sister? Did his sister suffer in his hands? If that were the case, this wouldn't be a matter of three fists.

Ye Mo nodded and said, "Then hurry up, I don't have time to play with you. Don't worry, just one move."

Hai Xin's face went red. Even the number one foundation establishment state hall of fame Li Zhaohua didn't dare to be this cocky with him.

Hai Xin didn't speak anymore. He gathered all his cultivation essence and punched at Ye Mo with full force. He was going to teach Ye Mo a lesson. He wanted to break a few of Ye Mo's chest bones first.

Seeing Hai Xin do that, Qin Muxin frowned, because a few months ago, even she was no match for Hai Xin.

Zhe Qiushui sighed as he took out a recovery pill. It was for Ye Mo for after he got injured or else they would be offending Guang Wei.

But Qin Muxin and Zhe Qiushui felt confused that Guang Wei didn't seem to care at all.

Ye Mo felt the overpowering fist wind which locked down his surroundings. He knew that Hai Xin was out to heavily injure him. His eyes went cold as he punched out too.

Everyone could see the essence of Hai Xin's punch. It bound the opponents space and then forced them to take the fist. With Hai Xin's cultivation essence, ordinary foundation establishment state cultivators wouldn't be able to escape it at all.

Yet Ye Mo Broke free and actually punched out normally.

Hai Xin was completely shocked. He was attacking with full power, but Ye Mo broke free from the binding so easily.

The two fists clashed and with a crack, Hai Xin flew out.

Zhe Qiushui quickly caught Hai Xin and found that all the bones in his hand were broken. He quickly fed him a pill.

Everyone looked at Ye Mo in shock. Even an ordinary golden core state level one wouldn't be able to punch Hai Xin away with just his fist.

Ye Mo patted his hand and said, "You're the same type of person as your sister indeed. But on account of Yu Ruyu, I'll only break one arm."

Hai Xin clearly knew who Yu Ruyu was. He was the God Sword Sect member who was about to marry his sister.

After a long while, everyone realized what had happened. This foundation establishment state cultivator was too strong! He had sent the foundation establishment state hall of fame number two flying with one fist. And he had clearly not even been using his full power. No one would dare to believe it if they didn't see it with their own eyes.

"He was this strong?" Qin Muxin muttered.

Guang Wei nodded, "He's strong, but he's got a very low temperament. After this guy saved me, you know what the first thing he said was? He repeated to me what I told him back then, telling me to, "Go back home and concoct pills."

"Wait, he saved you?" Qin Muxin was even more shocked.

Before Guang Wei could reply, the golden core state cultivator who stopped Qin Muxin before spoke to Ye Mo coldly, "Do you have something to do with Martial Brother not coming back?"

Ye Mo's power didn't seem to be weaker than a golden core state primary stage cultivator's, and he had come back with Guang Wei after all.

Ye Mo glanced contemptuously at this golden core state fellow and didn't reply. He just wanted to ask Guang Wei why he wasn't seeing any Yellow Three Leaves.

At this moment, a few more sword lights flew over. On both sides a few more golden core state cultivators arrives.

"Okay, we have enough people, let's move," the South Peace side's golden core state peak stage cultivator said.

Chapter 920: Insolent

Ye Mo realized that there were about 20 people on each side.

Just when Ye Mo was about to ask Guang Wei what was going on, he saw Guang Wei and Qin Muxin go towards a beautiful woman in her 30s. There was a teenage girl next to her.

"Big Martial Sister!" Guang Wei and Qin Muxin called out in joy.

Ye Mo greeted the four cultivators from the Immortal Herb Valley and then asked Guang Wei, "Do you know what's going on?"

Guang Wei shook her head in confusion. "I don't know."

The big martial sister also looked at Ye Mo in confusion. She hadn't gone to the pill concoction tournament, so she didn't know Ye Mo. However, she could tell he was a foundation establishment state cultivator and hadn't even called Guang Wei with an honourable title. Yet, Guang Wei wasn't angry - and Guang Wei wasn't so easy to talk to.

Qin Muxin glanced at Ye Mo once and said, "There's a big ruin in the Herb Valley and it's said that there are countless spirit herbs inside - all of level 5 or above. There's even said to be the level 8 spirit herb Soul Return Fruit."

The Soul Return Fruit was an overpowered spirit herb. It was said that when a cultivator died, as long as the body was preserved, one could use the Soul Return Fruit to concoct the Soul Nourishing Pill. It could gradually repair the soul of a dead cultivator!

"Is it in the ruin?" Ye Mo immediately asked. He was thinking about Nie Shuangshuang. Her body had been preserved, but her soul was missing. Perhaps it could wake her up.

Qin Muxin shook her head. "No, it's in this valley. Somehow, the people from the South Peace State knew about this and found it. Martial Brother Zhe and Ximen came after hearing this."

Ye Mo had understood. It seemed Qin Muxin and Guang Wei had found the Yellow Three Leaf there, but they had ran into the cultivators from the South Peace State, who had been looking for the ruin. Then, the two parties had fought over the Yellow Three Leaf but neither of them could beat the other. Even after the martial brother from the God Sword Sect had arrived, he still couldn't beat that Luo cultivator.

The situation finally stabilized after Ximen Chao and Martial Brother Zhe arrived.

Now, both sides had about the same number of golden core state cultivators - about 40 people altogether. Both sides had two golden core state peak stage cultivators too. The southerners had three golden core state tertiary stage masters and the northerners had two. The rest were at golden core state primary stage and middle stage.

Both sides started to go into the valley.

Ye Mo was aware that he was from the north, but no one knew him or greeted him. He was a solo cultivator.

Guang Wei saw this. She knew that although Ye Mo had beaten Hai Xin, no one considered his foundation establishment state power valuable, so she wanted to call Ye Mo. However, Qin Muxin said, "Ye Mo, thanks for saving Martial Sister Guang Wei, but-"

Ye Mo said plainly, "But what? Are you trying to say that it's best if I don't go in? That even if I go in, it won't benefit me much?"

Qin Muxin nodded awkwardly. "Yes, the portal also has limited spots. You're by yourself, so-"

Before Ye Mo could reply, the big martial sister called them, "Hurry up, Guang Wei, Muxin!"

The two women smiled apologetically to Ye Mo and went inside.

Ye Mo sneered. His power was low, but if he didn't fight for such a good opportunity, how could he pursue the great dao?

Just like half a month ago, if he hadn't taken the risk of stealing the Spirit Marrow, could he have reached foundation establishment state peak?

There was no danger in sitting at home. However, would he ever reach golden core state, nascent soul state, or even hollow spirit state at home?

Ye Mo followed them without hesitation. This secret land inside the Herb Valley would be at least on the same level as the Spirit Marrow Pond. He would be an idiot if he didn't fight for it.

Seeing Ye Mo follow them inside, Qin Muxin sighed and didn't say anything.

15 minutes later, Ye Mo followed the crowd and arrived at a big stage that seemed to be used for sacrifices and rituals. Everyone stopped moving.

Ye Mo was a formation master. Just by looking at this place, he could tell they were surrounded by a huge formation. However, the formation had been broken a long time ago.

The South Peace State's golden core state peak stage cultivator said on the huge stage, "50 years ago, our southern Qianbeis found this place, but they didn't have enough people to cross the formation and

enter the Herb Garden. Time was up, so they had to leave. There's seven formations here. Each one must have at least one cultivator inserting cultivation essence to activate it."

Ye Mo heard this and looked around carefully. There were indeed two obscure teleportation formations on the stage.

It was a seven-star formation, he could recognize from what he had seen on Earth. However, each formation could only transport three people.

Then, the golden core state peak stage cultivator said, "Each formation can only be activated once and it can only transport three people. There are seven formations, which means that only 21 people can go. I suggest that everyone fights over the formations on your own, but we can't fight together as two whole parties. We should deal with whatever problems we have after coming out."

"I agree," the northern golden core state peak stage cultivator said. He immediately chose a formation. "I'll take this formation. Ge Ba, Wenren Tian, come to my side!"

Then, the southern golden core state peak stage cultivator took the second one without hesitation and called two people.

They were both at golden core state peak stage. No one dared to fight with them. The Immortal Herb Valley's big martial sister said, "Guang Wei and Muxin, one of you come with me. Qiqi come."

She didn't dare leave Qiqi outside. She was the weakest disciple of their sect there and she was only at foundation establishment state.

Guang Wei said to Muxin, "Martial Sister Muxin, your pill concoction skills are better than mine. You go in. I'll stay outside with Ye Mo," she believed that Ye Mo wouldn't be able to go in for sure.

Qin Muxin wanted Guang Wei to go in, but she felt it was going to be awkward if stayed outside with Ye Mo. Hence, she might as well let Martial Sister Guang Wei stay outside.

Then, another golden core state peak stage cultivator and two golden core state level eight cultivators took a formation each, bringing people from their sect.

After a short moment, there was only one formation left.

Ye Mo saw the last formation. Without thinking much, he could tell that no matter who took it, he wouldn't get a share.

Before anyone could come forward, he got on the stage quickly and said, "This formation is mine."

Everyone looked at Ye Mo in a daze. They couldn't tell whether Ye Mo was dumb or insolent. There were a few golden core state level 7 cultivators left and a bunch of golden core state middle stage cultivators. A foundation establishment state insect dared to claim a formation!

Hai Xin actually didn't laugh at Ye Mo this time. He could just feel the pain of his broken hand. "So he's an idiot. I was fighting with an idiot."

Then, he shook his head.

Ye Mo's actions were so outrageous that no one had challenged him yet. The big martial sister of Immortal Herb Valley looked at Ye Mo in shock and asked Qin Muxin, "Muxin, who is this foundation establishment state cultivator? Do you and Guang Wei know him? Why does he seem a little dumb?"

Qin Muxin looked down awkwardly, relieved that this idiot who was good at pill concoction hadn't become her husband.

"Ye Mo, get down immediately!" Guang Wei said desperately to Ye Mo. She knew Ye Mo was strong, but she was aware that Ye Mo could only fight with a golden core state level 4 cultivator at most. How could he beat all the golden core state middle stage and tertiary stage masters there?

Ye Mo knew what they were thinking, but he sneered. The most powerful cultivator left was at golden core state level 7. He was no match for that now, but he had the Three Birth Chant. He could cultivate

while doing other things. If a golden core state level 7 cultivator came to him, he would take the Cultivation Increasing pill and the Lin Blue Fruit.

He could form his core and use the heavenly punishment to scare them.

"P*ss off! How can a mere foundation establishment state insect dare to take a formation?" the southern cultivator who had doubted Ye Mo appeared again. He knew he wasn't going to be able to get one with his level 5 power, but he wanted to kill Ye Mo first.
