

Strongest As 971

Chapter 971: Jingwen Wakes Up

This time, shadowless didn't keep devouring essence blood and instead landed on Ye Mo's hand and fell asleep again.

Ye Mo threw shadowless into the golden page world and started to collect his loot. He noticed that Li Jingwen had already killed the foundation establishment state cultivator and was battling with the two golden core state primary stage and one middle stage fighters, but he still had the upper hand.

Those people fighting Li Jingwen didn't even believe that their big boss would lose so quickly, so when Ye Mo killed that golden core state level nine, it was already too late for them to run.

They were already had the lower hand in the battle, and now that their big boss had been killed, they were worried. Just when they wanted to run, Li Jingwen took the opportunity to kill the two golden core state primary stage cultivators. The remaining golden core state middle stage cultivator didn't make it very far before he was finished off by Ye Mo.

Seeing Ye Mo take part in the battle again, Li Jingwen sweated and said, "My battle power is too weak, if I was a little stronger, this wouldn't have dragged on for so long."

Ye Mo shook his head and responded, "These people have been fighting everyday and are very experienced. Unless you're more powerful than them, the outcome of the battle would remain uncertain. Of course, this has something to do with your low level cultivation method, but don't worry. Once you reach nascent soul state, I will get you a better cultivation method."

"I can reach nascent soul state?" Li Jingwen asked in joy.

Ye Mo smiled, "Of course."

Li Jingwen had already chosen to follow him. If he couldn't even expedite a cultivator of Li Jingwen's talent to the nascent soul state, then he didn't deserve to be pill king.

Li Jingwen resisted his excitement and didn't continue asking. His main purpose of following Ye Mo was to progress further. Now that Ye Mo promised him personally, what was there to worry about?

"Wait for me here, I'll go take a look at that flying ship." Ye Mo landed on the bandits' ship.

A middle grade spirit artifact was very precious.

After Ye Mo went inside, he found that the ship was indeed big. It had nearly 20 rooms and a big storage depot full of spirit stones, magic artifacts, ores, and herbs. Ye Mo swept all of these into his ring without hesitation.

The reason they stored the loot here in the depot and not in their storage rings was probably to reward cultivators and let them pick what they wanted themselves.

The only room in here with a person was found by Ye Mo. A cultivator was locked up here, he was only foundation establishment state primary stage power. Ye Mo really couldn't understand why they locked him up.

His eyes were full of despair and he only looked up a little when Ye Mo came in.

But when he saw Ye Mo, he asked in shock, "You're Ye qian bei? Ye Mo Ye qian bei?"

Ye Mo looked at this foundation establishment state cultivator in confusion. He didn't know this guy, so how did he know him?

Seeing this, the foundation establishment state cultivator quickly said, "Ye qian bei doesn't know me, but I know you. I came from the teleportation formation on Xin Jia Mountain. I'm from the magical continents. I've long been admiring Ye qian bei's power after you exerted your godly strength and killed countless enemies atop the Magical Continent Mountain."

Ye Mo realized, "So you're from the inner hidden sects?"

"Yes, yes, I'm Yu Qiyang. I'm from the Liu Li sect, after the Xin Jia Mountain teleportation formation activated, I came with other people. I was lucky and met a golden core state level master here. My master was very nice to me and taught me cultivation, but two months ago these bandits killed my master..."

Suddenly, Yu Qiyang thought of something and looked at Ye Mo in shock, "Ye qian bei, this ship belongs to bandits, why are you..."

Ye Mo knew what he meant. He shook his head and told him, "I'm not a bandit, they stopped my ship so I killed them all. I just happened to see you in here. But how come you're still alive after they killed your master?"

Yu Qiyang was dazed and looked at Ye Mo in shock. He even forgot to answer Ye Mo's question. After a long while, he asked, "Ye qian bei, you're already a nascent soul state cultivator?"

But he immediately realized this wasn't something he could ask. He quickly said again, "Thank you for getting my revenge for me Ye qian bei."

Ye Mo stopped him from kneeling but waited for his answer. After all, Yu Qiyang was older than him.

Yu Qiyang said, "I liked to study formation in Liu Li sect and the big boss of the bandits heard I had some knowledge on formations, so he kept me to discuss about formations with me."

Ye Mo realized, the big boss left him alive because he wanted to cultivate the sword formation further. But this Yu Qiyang reached the foundation establishment state in a mere year. This talent was absurd.

"Is your talent very good?" Ye Mo asked. He had to go through life and death to reach golden core state, yet other people reached foundation establishment state so quickly. He was curious.

His cultivation stagnated now and he had been stuck in golden core state level two now.

Yu Qiyang shook his head. "Although my talent is not bad, the reason I reached foundation establishment state so quickly was due to my master. He taught me a way to turn my inner qi into cultivation chi. This saved a lot of time."

Ye Mo nodded, it seemed Yu Qiyang's master was rather smart.

"I'm going to take this ship, what do you plan to do?" Ye Mo asked.

"I want to follow Ye qian bei, I don't know anyone here. You're the only person I know," Yu Qiyang said.

"Okay." Ye Mo thought if he wanted to expand China Pharmaceuticals, he would need more people. It was fine if Yu Qiyang came along, and he knew about formations too, these sort of people were hard to find.

...

Ye Mo spirit controlled the bandit ship and then took Yu Qiyang back on his own ship and introduced him to Li Jingwen.

Yu Qiyang knew some formation knowledge and liked to play with flying ships, so Li Jingwen let Yu Qiyang control the ship while he gave him a few pointers and cultivated.

The first thing Ye Mo did when he came back was to concoct some pills.

Du Lan Chun Xiao was mixed with a few other herbs, and through his whirlpool pill concoction method and the stalagmite marrow, Ye Mo soon developed a new type of pill. He made 6 on the first try.

The pills smelled aromatic and Ye Mo could feel that the potency of the herb wasn't lost at all. He rejoiced, but still tried one first.

It turned into this unexplainable spirit silk in his mouth that reached into his soul and started strengthening it.

"It's potent indeed, and heaven grade level one." Ye Mo grabbed the other pills and said, "I'll call this Du Stalagmite Pill."

It was ready but Ye Mo became nervous. He wasn't sure if it could cure Su Jingwen. If this didn't work, what should he do?

Ye Mo put the pill in Su Jingwen's mouth anxiously. Immediately, the pill melted into spirit liquid and disappeared.

Ten seconds later, Su Jingwen didn't move at all. A minute passed, she still didn't move. 15 minutes passed but still nothing.

Ye Mo couldn't feel any mental waves from her. He began to worry.

Just when he wanted to check her body, he found that she woke up from her slumber and opened her eyes.

Ye Mo rejoiced but didn't talk. He knew that he needed to give her time now.

Chapter 972: There is so Much Snow Here

Su Jingwen saw Ye Mo and suddenly closed her eyes. Then she opened them again and got up, murmuring, "This isn't a hallucination?"

"Jingwen, I didn't expect to see you here. This isn't a hallucination, it's real." Ye Mo looked at her and felt his heart ache. He could only imagine how much hardship she had gone through.

When she was in Ning Hai, she had never experienced anything close to this due to her great social status.

Ye Mo felt even more guilty. He knew why she came here, but he just didn't know how to face it because he didn't know how to deal with relationships like this. The only way was to pretend he didn't know.

"It's really not a hallucination?" Su Jingwen asked again. Then, as though she suddenly woke up, she charged into Ye Mo's arms and started crying.

Ye Mo embraced her quietly and didn't talk, she needed to let out her emotions now.

Su Jingwen cried for a while and looked up asking, "Why are you here, the snow here is so much, so cold..."

Ye Mo wiped the tears from her eyes and said softly, "There's no more snow, you won't be roaming in the snow alone anymore. This is my flying ship, this room isn't cold."

Su Jingwen heard this and looked around, then looked at Ye Mo again in surprise. Finally, she cried out again and hugged Ye Mo tightly, not willing to let go. "Ye Mo I finally found you."

Ye Mo breathed easy, he knew that she finally fully recovered now. He looked at her excitement and didn't dare to let go at all. The softest spot in his heart was pinched hard.

He let Su Jingwen let out her emotions and didn't ask about Yimo.

After a long while, she calmed down and got up from Ye Mo's arms with a blush. She sat next to Ye Mo and asked quietly, "How did you find me?"

She didn't know that day why Ye Mo was just standing in the snow and not talking, but now she knew that rather than her having found Ye Mo, Ye Mo had found her instead."

"After I came to Jiang Chuan city, I saw this bracelet and followed it all the way here." Ye Mo took out the bracelet.

Su Jingwen immediately took the bracelet and studied it before putting it back on her wrist. She looked down and didn't seem to want to say anything else.

Ye Mo didn't know what to say either now, and the reunion quietened down.

Su Jingwen felt sad, she met him earlier than Song Yangzhu and Ning Qingxue so why didn't he express anything?

Suddenly, Su Jingwen thought that she couldn't cultivate at all and calmed down. She wasn't the same ignorant Su Jingwen anymore. She understood that some people could cultivate, and as long as their cultivation progressed, they had infinite life. She could at most only live 100 years and a third of it had already passed. What about 100 years later?

A century later, Ye Mo would still be Ye Mo, but she would be a cup of earth. What love was there to be? That loss and melancholy filled Su Jingwen's heart.

Feeling this, Ye Mo suddenly grabbed her hand and said, "Jingwen, this is my flying ship spirit artifact, I'll take you outside and see."

She didn't object.

Seeing the two walk out, Li Jingwen cried out in surprise, "Brother Ye, you succeeded? You really added Du Lan Chun Xiao into a pill and it cured her?"

Ye Mo nodded and smiled, "Thank you, if you didn't remind me about it, I really wouldn't know what to do."

Li Jingwen realized just now that Su Jingwen was even more beautiful alive than when she was asleep. The sadness in her eyes made her seem feeble but render a unique sense of beauty. It made people look at her more. He couldn't help but admire Ye Mo's choice of beauty.

Su Jingwen realized that the reason Ye Mo could cure her was because of this person's help. She quickly went up and thanked him.

Li Jingwen didn't dare to accept her bow and quickly moved aside.

...

"So beautiful." Su Jingwen stood at the head of the ship and looked at the untainted blue sky. Clouds flew beneath her feet and her mood lightened up. Her worry and loss suddenly disappeared. She didn't want to speak at all, she just wanted to watch the peaceful clean sky outside.

Perhaps on the other side of the sky was her home, perhaps her mother was also watching her from there.

Ye Mo stood by her and didn't disturb her.

Li Jingwen pulled Yu Qiyang away and left the space for Ye Mo and Su Jingwen.

After a long while, Su Jingwen sighed and looked peacefully at Ye Mo, saying, "Ye Mo, I want to go back home."

Ye Mo understood what she meant by this. She was tired and wanted to go back to Ning Hai. If he could do it, he would take her back without hesitation, but he couldn't.

He pulled her into his arms and said softly, "Sorry Jingwen, I can't take you back yet, but I promise I will be able to one day. You can stay with Luo Ying, Qingxue and Yangzhu..."

'And Xiaoyun Ye Mo,' he added in his heart. He felt this was too absurd, he must not take another one like this.

Su Jingwen shook and looked up. There was sourness in her nose, is this the promise he gave me?

Ye Mo kissed her slowly. Su Jingwen's lips were very soft but cold too. However, they soon became warm.

After some time, Su Jingwen came to her senses and remembered there were two other people here, but when she looked over, they had already left. She found she was completely immersed in Ye Mo's arms. It was as though she couldn't feel safe if it wasn't like this.

"Jingwen, starting from today, you can cultivate with me." Ye Mo felt she had no cultivation chi inside her at all. Ye Mo wasn't going to let this situation continue.

"Huh..." Su Jingwen shook and her soft body turned stiff. It was as though Ye Mo's words reminded her of a scary result.

"What's wrong?" Ye Mo passed some cultivation essence over to her to calm her down.

Su Jingwen fell silent for a while and sighed, "Sorry, Ye Mo, I don't have spirit root, I can't cultivate."

She looked up at Ye Mo wanting to see how disappointed Ye Mo was but Ye Mo's eyes didn't even flicker.

She pushed Ye Mo away, "I can't cultivate..."

Her tone was disappointed, this was something she couldn't overcome.

Ye Mo pulled her over and smiled, "I know you can't, my sister Ye Ling couldn't either before, but now she's foundation establishment state so you don't need to worry. With me here, not having a spirit root doesn't matter."

"You can really let me cultivate..." Su Jingwen couldn't calm down.

She heard that no spirit root meant no cultivation, but Ye Mo still had a way? She couldn't resist her excitement. Cultivation meant that she could stay with Ye Mo forever.

He didn't know that he was the only man she had danced with, the only man that rode in her car, and the only man she liked.

When she felt tired and lost, the heavens sent him to her again. Heavens gave her another chance.

Ye Mo nodded with certainty, "Yes, I can concoct a pill called 5 essence pill that can let you develop a spirit root, and a good one as well. So don't worry."

"Oh by the way, how do you know you don't have spirit root?" Ye Mo suddenly asked.

Su Jingwen just wanted to answer when she thought of something else. She grabbed Ye Mo and said, "Yimo was taken away, hurry and bring her back!"

"What happened to Yimo?" Ye Mo couldn't stay calm anymore.

Chapter 973: Hidden Spirit Root

Su Jingwen saw Ye Mo's worried look and quickly said, "Don't worry, Yimo should be fine. When the four of us came to the small world, we asked around for you. Many people knew you and due to you, no one dared to be rude to us. However, everyone guessed that you went to Xin Jia Mountain's teleportation formation so we went there too and were brought here."

Seeing Ye Mo calm down, Su Jingwen took a deep breath and continued, "I was a little scared on the teleportation formation and was worried about Yimo, so I held her hand. But when the teleportation formation stopped, we found that we didn't end up at the same place as sister Yuehua and Wanqing. We had been split up."

Ye Mo nodded, he expected this.

"How's Yimo?" Ye Mo asked worriedly.

"We were teleported to an ordinary town about 600 km from Jiang Chuan city. We went to that town and Yimo's storage ring had a lot of things, so we didn't need to worry about living."

"We were planning to spend some time until I reached chi gathering middle stage and then go look for you and sister Yuehua, but I was stuck around level two. One day, we were cultivating outside when Yimo cultivated out lightning sparks. Just when we were happy, a cultivator saw us two."

"What happened?" Ye Mo began to worry. Yimo was only in chi gathering. They had no means of resistance against an ill willed cultivator.

Su Jingwen grabbed Ye Mo's hand and said, "That cultivator stopped and said, 'She has lightning spirit root, great, great...' then he asked if Yimo wanted to be his disciple. Yimo didn't want to of course, and she said she wanted to find her dad, her dad was stronger than everyone. That man saw this and didn't force her, he raised his hand and sent his palm towards a distance mountain peak. That mountain was about a few kilometers away from us, but it was completely pulverized by him. Then, that person asked, 'Is your dad as strong as me?' "

"How did Yimo reply?" Ye Mo knew that someone that could do that was at least body condensation state or above. It was far from something he could compare to.

Su Jingwen moved closer to Ye Mo and said, "We were both very shocked, he was like an immortal. Although Yimo admitted that person was strong she still said her dad was stronger. That person smiled and didn't argue. He said that you can't find your dad now. Although you have a lightning spirit root, you don't have a lightning cultivation method. Even if you cultivate for a hundred years, you won't be able to achieve anything.

Then, he said that the North Far State we were in was billions of kilometers long. Even if we reached his level, we might not be able to find an individual, much less now. If Yimo wanted to find you, she had to become his disciple and improve her power."

Ye Mo knew Yimo had agreed of course, but he still asked, "Did Yimo agree?"

Su Jingwen nodded. "She thought about it and agreed, but Yimo said that I had to go as well. I was very happy thinking that I might be able to cultivate if I had a master. That person tested Yimo's spirit root and was very happy.

"But he looked at me and sighed after a long while. He told me that I had no spirit root and would never be able to cultivate. He told me that I should never let someone test my spirit root or I would die."

Su Jingwen said, "Although Yimo asked me to go with her, that person said she could only come out at least ten years later. Yimo didn't agree but that person said if she didn't become his disciple, she wouldn't be able to find you in 100 years. Yimo could only agree but I didn't want to stay there alone for ten years so I came out to test my luck and see if I could find you..."

Su Jingwen said shakily, "After that person took Yimo away, I learned to masquerade and left the town. I roamed around and half a year later, I came to Fu Mo city, but I didn't stay there for long and the city was destroyed by two powerful cultivators. I followed the asylum seekers to Jiang Chuan city and my bracelet was taken on the way. Now that I think about it, I should thank that person, or I might never have seen you again."

Su Jingwen couldn't help but start crying again.

Ye Mo grabbed her hand tightly knowing that she needed to vent out her emotions.

Su Jingwen continued after a while, "Later I knew that cultivators had longer lifespans than ordinary people, and I was getting lost. After I came to Jiang Chuan city, I didn't dare to go work for a house, fearing that they would see through my disguise, so I could only roam the streets. That day, there was a lot of snow and I thought I would have no future. I just wanted to walk around in the city and find a peaceful place to leave the world, but the heavens pitied me and let me meet you..."

Ye Mo looked at her and knew Yimo didn't give the storage ring to her, she probably hadn't thought about it since she was just a child.

Although Ye Mo was still a little worried, he could breathe easy that Yimo was taken away by a qian bei who approved of her talent.

"Can I really cultivate?" Su Jingwen asked again worriedly.

Ye Mo nodded. "Of course, don't worry."

Suddenly, Ye Mo thought of something and looked at her, "Wait, you said you've been at chi gathering level two, but how come I don't sense any cultivation chi on you?"

Su Jingwen said dejectedly, "At the start, I was cultivating even faster than Wanqing, but after stage 2 chi gathering, I wasn't about to progress. Yimo's master said I had no talent and I wouldn't be able to cultivate no matter how hard I worked. In my despair, I gave up cultivation and my cultivation chi gradually dissipated.

Thinking about what Yimo's master said, he took out a spirit root testing machine and said, "Put your hand inside, I'll test for you."

He found that none of the beads lit up indeed. She really didn't have a spirit root, but Su Jingwen said, "Yimo's master tested for me last time too, but he had one white bead that lit up and dimmed down repeatedly."

"Are you a hidden spirit root?" Ye Mo blurted out. His testing machine was too low quality and couldn't test it out.

People who had hidden spirit roots like her would have their cultivation chi dissipate if they didn't cultivate for a while.

This was a leaking body, also called leaking spirit root. If she was really a hidden spirit root, it was rather amazing she could reach chi gathering level two.

But if the hidden spirit root could be activated, it would be the fastest spirit root. Yimo's master said she had no spirit root because he knew that hidden spirit roots couldn't be activated at all.

It needed the 9 coloured lotus to activate, and that was something of the legends. Who would have it? Even if they did, they would use it to refine their own spirit root and not use it to activate a hidden spirit root.

Ye Mo was sure there was another way to activate it, and that was possession. That was why he told her not to let other people test her spirit root.

At this moment, Ye Mo finally felt safe about Yimo. The hidden spirit root was the easiest spirit root to possess. Once it was possessed, it would be activated immediately. But Yimo's master didn't say this and warned her instead, meaning that he was indeed a respectable qian bei.

Ye Mo didn't have the 9 colour lotus, but he knew that there was another way to do it.

It was to make the rainbow spirit pill with a lotus with more than 5 colors and the 10000 year stalagmite marrow.

He just happened to have it and two 5 colour lotuses.

She was a hidden spirit root and the white bead lit up. This meant that after activation, she might be a mutant ice spirit root, a pure one too. A pure ice spirit root activated with hidden spirit root would be the best spirit root Ye Mo had ever seen.

"Jingwen, come to my room. I'll help you concoct the rainbow spirit pill. Your talent might be the best amongst us." Even Ye Mo was desperate to know how fast she could cultivate once activated.

Chapter 974: New Idea

Su Jingwen followed Ye Mo to the room and just remembered that the clothes she was wearing weren't the same she had been wearing before. She looked at Ye Mo and immediately realized what had happened. Although Ye Mo was the person she liked, she felt a little uncomfortable thinking that he saw her everything.

But then she immediately thought - she already was willing to be with Ye Mo, why care about that?

Ye Mo didn't know of course that Su Jingwen thought about that much in such a short time. He started his pill concoction.

Rainbow spirit pill was a heaven grade level one pill, but that was no pressure for Ye Mo.

"Such a pretty lotus!" Su Jingwen exclaimed as she saw Ye Mo take out the 5 coloured rainbow.

Ye Mo smiled and said, "This is the five coloured rainbow. It's not fully mature yet, but it's said that once it matures, it would have 9 colours and be called the 9 coloured lotus. It's one of the most precious things in the cultivation realm. Anyone would want it, even truth realisation state cultivators, but up until now, no one has seen a real 9 coloured lotus.

"Then isn't it a waste to use the 5 coloured lotus now for pill concoction?" Su Jingwen asked worriedly. She didn't fully understand, but she just felt that it was a pity to use such a pretty flower for mere pill concoction.

Ye Mo said softly, "Even if I have the 9 colour lotus, I would still use it without hesitation for you, much less this 5 color lotus."

"Ye Mo..." Su Jingwen heard this and was touched. After these years of hardship and roaming, she finally understood how hard it was to get back what you had once lost. She had waited for this moment for more than ten years. They only met in the end due to chance amongst chance.

If Ye Mo wasn't concocting pills right now, she wouldn't be able to resist the urge in her heart to embrace Ye Mo again and express her feelings. Even though Ye Mo already knew, she wanted to say it again.

...

Ye Mo was immersed in the process of concocting the rainbow spirit pill. This was a special cauldron of pills - Ye Mo didn't use any materials besides the 5 color lotus and the 10000 year stalagmite marrow.

At this moment, Ye Mo was very grateful to Taiyi sect Li Cheng. If he hadn't given him all the stalagmite marrow, how many regrets would he have? If Ye Mo saw Li Cheng in Luo Yue, he would do all he could to help him.

The 5 colored lotus slowly melted in the cauldron and the impurities were expunged outside. Meanwhile, the stalagmite marrow enveloped the lotus as the two gradually merged together.

15 minutes later, the pill liquid rolled in the cauldron. The mist lotus heart fire switched intermittently from weak to strong. Ye Mo used all his means to concoct this rainbow spirit pill.

Half an hour later, even Li Jingwen and Yu Qiyang could smell the aroma. Su Jingwen was immersed in this pill smell.

45 minutes later, Ye Mo weaved a few pill collection signs and a 5 colored pill fell into his hands.

The pill seemed to be alive and jumped about in his palm.

Ye Mo had never seen such a beautiful pill. He looked at it and suddenly had a moment of enlightenment. He realized that his pill concoction skills had increased a level.

Before, he would only be able to concoct heaven grade level three pills but now he was sure he could even concoct level four pills.

In the pill king grade, there was a huge gap between level three and level four pill kings. It was quite an unexpected joy that he could reach this stage.

Putting away the cauldron and heaven flame, Ye Mo held the pill and walked to Su Jingwen, saying, "Jingwen, open your mouth."

The pill emitted a rainbow aura that was so pretty that Su Jingwen didn't want to eat it, but she still listened to Ye Mo and opened her mouth.

The pill entered her mouth and turned into nothing. At this moment, Su Jingwen felt every pore in her body filled with a sense of ease and bliss.

Ye Mo didn't say anything but Su Jingwen understood that she could now start cultivating. It was an unexplainable feeling of happiness.

Do I really have a spirit root now? Su Jingwen was just about to ask when Ye Mo took out the spirit root testing device, saying, "Test it again."

The activation didn't take long.

Su Jingwen put her hand inside and in no time, the spirit root device showed a bright white light on the white pearl.

"Jingwen, your spirit root is activated, and it's pure ice spirit root." Even Ye Mo couldn't resist the excitement in his heart. He was desperate to know her new cultivation speed.

Su Jingwen's eyes went red, not only did she find Ye Mo but she could also cultivate now. She could no longer hold back that impulse and love in her heart as she grabbed Ye Mo and whispered in Ye Mo's ears, "Mo, take me."

Ye Mo's body temperature rose up. When he was cleaning her naked body he didn't think much of it, but it would be a lie to say he didn't want anything now.

Although Ye Mo really wanted to do as Su Jingwen said but he still stopped himself. She wasn't suitable to do that stuff now. The hidden spirit root was powerful, but she was rather old. If they did it now, the ice spirit root would be weakened and this would impact her future cultivation. Ye Mo didn't want that to happen.

"When your cultivation stabilizes and the ice spirit root has finished growing, then we can." Ye Mo kissed Su Jingwen and continued, "I can teach you cultivation now. the cultivation method you will use is something I created myself. You can try it first, if it works then I'll give you the remaining parts of it."

Ye Mo didn't give her the Primordial Chaos chant. He was golden core state level two now and his knowledge of the Three Birth Chant had grown. He had his own ice spirit root too, he had decided to separate that part of the cultivation method and let her cultivate it.

Ye Mo wrote down the information pertaining to the chi gathering state with a pen and inscribed the foundation establishment state part of it on a jade slip.

"I created this cultivation method myself, no one knows about it. It's called Three Birth Ice Chant. It's name is ordinary, but if you can cultivate it, the results won't be ordinary," Ye Mo said.

Su Jingwen nodded. The two cuddled together for one night in the room, and only the next morning did Su Jingwen slowly fall asleep. Ye Mo knew that the reason she stuck to him the entire night was that she had made up her mind to cultivate hard.

Once she started doing that, they wouldn't have time for this.

The second night, Su Jingwen woke up and Ye Mo had already prepared everything she needed for cultivation, including a storage ring and pills.

He really wanted to make some good food for her, but Ye Mo just left her some food pills. It was best for her cultivation right now.

Ye Mo also set up a simple spirit gathering formation around her. She didn't need the high level things yet.

...

Ye Mo came to the head of the ship without disturbing her cultivation. Li Jingwen was teaching Yu Qiyang. Seeing Ye Mo, the two came over.

Yu Qiyang was already in foundation establishment state and wasn't suitable to be given a new cultivation method. Ye Mo gave him a storage ring and said, "These are the resources for foundation establishment state cultivators. When you need to form your core, I will give you a cultivation increasing pill. Here's also some of my understanding on formations, you can have a look."

Yu Qiyang took the storage ring excitedly, he thought he was going to be killed on the bandit ship for sure but had instead received such fortune. He suddenly knelt down, "Ye qian bei, please become my master, you got revenge for my master, you are my master now."

Li Jingwen looked at this scene in a daze and suddenly said, "Brother Ye can I also be your disciple?"

Ye Mo frowned and thought for a long time before replying, "Perhaps I should start a sect too."

Chapter 975: Mo Yue City

"Yes, brother Ye, you should start a sect and we'll be the first generation disciples," Li Jingwen said desperately.

He had followed Ye Mo for a while and knew his wealth better than anyone. Regardless of whether Ye Mo started a sect or not, his future would be unparalleled. Once Ye Mo formed a sect, he would have a position as well and not just be a follower.

"How about call it Mo sect." Yu Qiyang also hoped Ye Mo would start a sect.

Ye Mo nodded. Luo Yue continent was this big. Even if he was all powerful, he wouldn't be able to take on 8 star or 9 star sects by himself. Right now, he couldn't even take on 4 or 5 star sects.

China Pharmaceuticals was a good example. If he wanted to have his own ground in this world, he needed his own power. If he didn't want to be easily annihilated, then forming a sect was the obvious thing.

"Okay, starting from now, we'll have a new sect. it'll be called Mo sect for now..." Ye Mo hesitated and said again, "Mo sect doesn't sound powerful enough, let's add my Luo Yue city to it too..."

After thinking for a while, Ye Mo suddenly said, "Let's call it Mo Yue city."

In Ye Mo's ideal, he didn't just want to form a sect, he wanted to form a city. He didn't want to be like other sects, find a place and rule it out to be theirs and dominate it, he wanted Mo Yue city to be like what Ning Qingxue wanted, a place of peace and freedom. He knew it was too idealistic and it couldn't completely be like that, but he still hoped it would.

He didn't want the people of Mo Yue city to have cultivation as the only thing in their lives. He wanted them to have their own life and pursuit.

"The city of Mo Yue, good name."

Li Jingwen and Yu Qiyang applauded. Although they didn't know what was good about it, it sounded good.

Just like that, Mo Yue city was formed. But they didn't even have their own land. Ye Mo didn't take the two as his disciples, but they could receive knowledge from Ye Mo.

...

In the remaining days, Ye Mo visited Su Jingwen a few times. She was focused in cultivation everyday, so Ye Mo didn't interrupt her. He found a room and started studying the Heaven Glory Pill, or cultivating the purple eye soul sever and 5 element mobility.

Days flew by like this. Half a month later, Yu Qiyang reached foundation establishment state level four from level three. Even Li Jingwen reached golden core state level eight. Although Ye Mo used the most spirit crystals and pills, he was still stuck in golden core state level two.

Another half a month later, Li Jingwen told him that they would be nearing Pei Hai city in two days. Ye Mo stopped cultivation and went to visit Su Jingwen.

When he saw Su Jingwen, he almost couldn't believe his eyes. In a mere month, she had reached chi gathering level five.

"You're chi gathering level five?" Ye Mo subconsciously asked. Once the hidden spirit root was activated, its speed was this terrifying.

Su Jingwen smiled sweetly and nodded, "I feel that my speed of spirit chi intake was just a little faster, but my progress in cultivation is many times faster. I'm going to take a shower and go have a look with you at the head of the ship."

Ye Mo shook his head, it was clear that Su Jingwen's cultivation speed would be surpassing his in the future. He needed to hurry up and study the Heaven Glory pill, otherwise, by the time Su Jingwen was about to form a soul, she wouldn't be able to.

That wasn't really awkward but if he was weak, he wouldn't be able to face the enemies he needed to face. Even if he got to Pei Hai city they would eventually be able to find their way there.

What made Ye Mo feel comfortable was that Su Jingwen could cultivate the cultivation method he gave her.

Su Jingwen walked up to Ye Mo with a refreshing feel. Her mood had changed greatly since all these things happened.

"Is there something on your mind?" Su Jingwen was very meticulous, and although Ye Mo didn't say anything, Su Jingwen still caught on to his mood.

Ye Mo sighed and pulled on her hand, bringing her along to the head of the ship. "It's nothing really. A person who had ill intentions gave me a pill. The pill is very good but I don't dare to use it, so I tried to dissect it instead. I've used up more than half of it but I still can't find the last main ingredient."

The Heaven Glory Pill had 5 main ingredients. The supplementary ingredients were very easy to find but Ye Mo only found four of the main ingredients: Smoke Zhi Lan, Yellow Three Leaf, Red Light Fruit, all of which Ye Mo had, and the Water Magic Artifact Weed which he didn't. But Ye Mo wasn't too worried as he was sure he could find it.

However, without the last ingredient, he wouldn't be able to concoct the heaven glory pill.

Hearing this, Su Jingwen laughed and said "You don't dare to eat the pill because you don't know if something is wrong with it?"

Ye Mo nodded, "Yes, I'm sure that person wouldn't be that kind hearted." Ye Mo still felt threatened by that voice in the hexagonal hall.

Su Jingwen squeezed Ye Mo's hand and smiled, "Then was there anything wrong with the herbs you separated?"

"No," Ye Mo said without hesitation.

"Then that's it, the herb you couldn't find is probably the one that person wanted to use to harm you. You can ignore it," Su Jingwen explained.

Although she wasn't as good as Ye Mo in other areas, she was good in business and often dealt with schemes in business deals.

Ye Mo suddenly felt enlightened, why couldn't he think of that? In that case, if the recipe had nothing to do with the last herb, he had already found the recipe. He was 50% sure he could concoct the pill but he needed to find the Water Magic Artifact Weed.

If he could concoct it, it meant he would reach golden core state peak stage in a short time. Ye Mo hugged Su Jingwen in excitement. "Thank you, Jingwen, you're really smart."

Su Jingwen blushed and looked at Li Jingwen and Yu Qiyang and quickly broke free. "There are still people on the side."

Ye Mo laughed and his mood turned good. He pointed at the two and said, "Jingwen, we have our own sect now. It's called Mo Yue city, and they're the first bunch."

Su Jingwen repeated in joy, "Mo Yue city, such a beautiful name, I imagine that the city will also be very beautiful."

...

Two days later, Ye Mo put away the flying cloud boat and the four entered Pei Hai city.

The streets were very busy and pretty much everyone here were cultivators. They all had the faint smell of the sea on them.

There were spirit sense and anti flight restrictions here. He could easily see golden core state and nascent soul state cultivators on the streets. As for chi gathering and foundation establishment state, they were everywhere. There were even a few hollow spirit state cultivators passing by occasionally. Clearly, this was a big cultivation city.

"Where do we go now? Are Yangzhu and Ye Ling really here?" Su Jingwen asked worriedly. She wanted to find a place to settle down, she had been running around too much these past years.

Ye Mo shook his head, "I'm not sure but it was indeed Yangzhu who left behind the jade card. They should've been here a long time ago. Let's go to some pill towers and see, they might have opened another one here."

Ye Mo thought that if they were to stay, they needed a way to earn money. He left behind large sums of pills before he left. The most likely thing for them to do was to open a pill tower.

Chapter 976: Ning Hai Pill Store

Ye Mo and his group were looking for Song Yangzhu and the others as well as the water weed at pill towers.

What surprised Ye Mo was that a lot of people knew about the water weed, meaning that it wasn't something very rare. However, Ye Mo was disappointed to find that there weren't a lot being sold. It wasn't that it was too precious but because this herb was too low valued. Also, it was very dangerous to pick this herb.

Water weeds usually grew on the distant islands in the distant sea. Most of the time, they were protected by level five or even level six beasts. Many marine beasts liked to eat water weeds.

So, one had to kill the guarding beasts first before collecting the mere level four water weed. On top of that, the water weed could only be made into the water algae pill. Its use was for water element

cultivator to cultivate. However, it's effects were far weaker than the clear essence pill and worse than even benefit essence pill.

It was because of this that no one was willing to go into dangerous waters to collect it. Even if someone went out into the distant sea, it wasn't for collecting the water weed but for beast cores or other herbs.

Ye Mo heard this news and had decided to search around in Pei Hai city. If he couldn't find Song Yangzhu and them, he would open a pill shop here first.

"Ye Mo, Ning Hai pills!" Su Jingwen suddenly pointed at a corner and said in joy.

Ye Mo immediately looked over and saw Song Yangzhu and Zhen Xiaoshan. Without a thought, he pulled Su Jingwen and the others over. At the same time, his heart felt easy. Clearly they were fine.

"Return the pill? Do you know how much trouble this pill caused me? Do you think that's enough?" the two golden core state cultivators looked coldly at Song Yangzhu and Zhen Xiaoshan with ridicule in their eyes.

Ye Mo looked at Song Yangzhu and the others and knew that this wasn't the first time they had encountered this situation. But Ye Mo knew that they weren't living too well in Pei Hai. How come Li Yuqian didn't come out? Why did Song Yangzhu and Zhen Xiaoshan have to deal with this?

Song Yangzhu was only foundation establishment state level two and Zhen Xiaoshan clearly fell below golden core state and was only foundation establishment state level eight.

"Yangzhu, I'm back, what's going on?" Ye Mo walked into the small pill shop and asked.

Song Yangzhu was dazed when she saw Ye Mo. Joy flashed across her eyes as she ran into her husband's arms crying.

"Hehe, perfect. Pei Hai city isn't a place where you can be over domineering," one of the two golden core state cultivators said coldly.

Ye Mo patted her back and said, "Don't worry, I'm back. Jingwen is here too."

"Jingwen!" Song Yangzhu just saw Su Jingwen and quickly came to say hello. Su Jingwen saw Song Yangzhu's distressed face and clearly felt she was living better than her.

Seeing the two catching up, that golden core state walked to a closet and smashed it, saying coldly, "Do you not want to give me a resolution? You want to act dead?"

Li Jingwen was already furious, but he could only stay behind Ye Mo since Ye Mo hadn't said anything.

Ye Mo patted Song Yangzhu's hand and asked, "Yangzhu, what happened, tell me about it."

Song Yangzhu felt even more wronged hearing this. Zhen Xiaoshan saw this and quickly said, "These people bought our pills and changed them to bad ones, saying that the pills we're selling are problematic. So they come up asking for compensation. This isn't the first time. A few times before, we just compensated them, but they're getting more and more ridiculous..."

"Little girl, watch your words, since when did we use fake pills to trick you? If your shop is selling real pills, would you compensate us before?" the golden core state cultivator pointed his fingers and cursed.

Zhen Xiaoshan took a few steps back in fear. Ye Mo got up and said, "Show me the pills you bought."

The golden core state heard this and sneered in contempt. A mere golden core state level two, other than accepting his fate, what else could he do? He had a golden core state level eight behind him, but this was their land. He was golden core state level five and his friend was golden core state level seven. They wouldn't dare to do anything.

The golden core state threw out a benefit essence pill into Ye Mo's hand and said coldly, "This is the benefit essence pill."

Ye Mo took this and knew immediately that it wasn't made by him, this was a waste pill.

Ye Mo crushed it and threw it on the ground, saying coldly, "I'm curious, what does a golden core state cultivator need to buy a foundation establishment state pill for?"

"Even if you crush the pill, you still need to compensate me. Do I need you to boss me about why I bought the benefit essence pill? I like to eat it, is there a problem?" the golden core state said.

Ye Mo nodded and said plainly, "That's fine."

Before he could react, Ye Mo suddenly punched out. The golden core state level five was instantly bound by the cultivation essence of this fist.

This fist was derived from the Illusion Cloud Essence Binding strike. Ye Mo kicked on his dan tian. He spat blood and his dan tian was crushed by Ye Mo's kick.

That golden core state level seven just reacted and looked sluggishly at Ye Mo. He turned around and was about to leave.

"You still want to go?" Without Ye Mo's need to order, Li Jingwen blocked the door with his universal ruler.

"How dare you fucking destroy my dan tian...." the golden core state level five was full of fear.

Ye Mo sneered and walked up, slapping him in the face many times until his mouth was completely broken. Then he waved his hand and the powder of the pill he had crushed fell in this golden core state level five's mouth. Ye Mo then kicked him to the door and said coldly, "Since you like eating benefit essence pill, don't waste it."

Ye Mo didn't kill this golden core state cultivator.

Now, this golden core state finally realized his predicament. He was full of fear. Even if he left now, someone with a destroyed dan tian and golden core wouldn't be able to survive in this city.

"Qian bei, this has nothing to do with me," the golden core state level seven cultivator turned around and said in horror.

He didn't think that Ye Mo would be this cocky, daring to do such a thing to a golden core state cultivator in Pei Hai. Clearly Ye Mo was already golden core state peak stage. He wouldn't be a match for this guy no matter what. Thinking about this, he started to regret ever coming.

He had also heard that Ning Hai pills were easy to abuse. If you went up to scam them you would get benefits.

"Oh, it's not related to you. Why are you here then? Why did you bring the essence benefit pill?" Ye Mo's tone was cold.

"Qian bei, qian..." he wasn't even able to say a complete sentence. He had endured so much to get to golden core state tertiary stage. There were many times he had almost died, and now he was going to be completely destroyed.

"You want me to let you go?" Ye Mo asked coldly.

The golden core state level seven quickly nodded, "Yes, yes, please qian bei..."

Ye Mo said calmly, "That's fine but if I let everyone go, then how can I run my business?"

"I can let you go..." Ye Mo said this and the golden core state level seven felt as if he had heard heavenly music and wanted to kneel.

But Ye Mo's tone changed, "But you have two choices. First is to destroy your own dan tian and golden core and piss off."

The golden core state dazed, this was no different than killing him. He quickly asked for the second option.

Ye Mo knew this would happen and he said, "The second way is very simple. Other people have come to scam my store. If you let me plant a restriction in you, you can go bring over all the people who scammed my store. If I'm sure you didn't miss anyone, I can let you go."

Chapter 977: Sister Li's Injury

The golden core state level seven was dazed, this was hard to do as well.

Ye Mo sneered, "Since you don't want the trouble, then I'll do it myself."

"No, no, I'll choose the second choice," this golden core state level seven immediately said. The second choice was hard, but there was still a sliver of hope. This first choice was death. If someone could help him break the restriction, he could run away. He wouldn't need to stay in Pei Hai.

Ye Mo smiled and quickly planted a restriction on this golden core state level seven. Then, he said casually, "Other than me, no one else can break the restriction. If you try to force it, it you will have chosen the first choice."

Hearing this, the cultivator's heart went cold. His last sliver of hope was gone. However, the worst news came when Ye Mo said, "Of course, I don't care about time, but in one month the restriction will activate. Decide for yourself, piss off."

Seeing this, the golden core state level seven stumbled out of the store. The cultivators watching outside shivered. This Ning Hai pill store was the most honest pill store and many wanted to scam them, but none expected the terrifying existence of the store owner. This made many cultivators who planned on scamming the store as well break out in a cold sweat.

Ye Mo looked at the moaning golden core state level five cultivator and said to Li Jingwen, "Bring this person to the city management council and report what Ning Hai pills has suffered."

"Yes." Li Jingwen immediately took that dead dog of a golden core state level five and disappeared.

Everyone looked on in fear. Not only did they break someone, but they were suing them as well.

Ye Mo wasn't going to kill as soon as he came here of course. Even though he destroyed this man's cultivation core, he still needed to notify city management. After all, this city didn't belong to him. He was living here too. This was showing his attitude to Pei Hai city. He believed the city manager wouldn't do anything to him due to this.

Plus, Ye Mo felt a hidden spirit sense scan over when he broke the golden core state level five. He didn't know who that was, but after that spirit sense scanned over, no one came. Ye Mo immediately knew it was some significant figure of the city.

...

"Interesting, this is quite a character," in a luxurious place, a middle aged man took back his spirit sense and murmured.

"Who did brother Ziyu say is a character," an old man smiled and asked.

The middle aged man laughed, "A very interesting golden core state cultivator came to Pei Hai city, he's a golden core state primary stage too. Not bad."

The old man laughed. "He's clearly really good for you to be able to say not bad."

The middle aged man nodded. "Yes, he's only golden core state level five but he can instantly kill golden core state level fives and he deals with things in a very experienced way, interesting."

...

After all the people outside the shop had left, Ye Mo came up to Song Yangzhu and asked what happened at River state. Where was Li Yuqian, how come he didn't see her?

After hearing their story, Ye Mo realized how much had happened in this half year.

When they were at River state, China Pharmaceuticals had been broken in by Lu Jiucheng, who had reached nascent soul state, and the other manager of Immortal Treasure Tower.

Li Yuqian couldn't take on two nascent soul state fighters. In addition, there weren't just nascent soul states there at China Pharmaceuticals, there were many golden core state as well.

Due to the desperate situation, Zhen Xiaoshan ate the burst soul pill and would've exploded if she didn't have the stalagmite benefit pill. Even so, her power fell to foundation establishment state level four. She only reached foundation establishment state level eight again after more hard work and pills.

Meanwhile, Li Yuqian was heavily injured on the spot. Even so, she still brought people with her and left through the escape teleportation formation Ye Mo left behind. After putting up wards, Li Yuqian's nascent soul was depleted and unable to gather cultivation essence.

"How's Ye Ling?" Ye Mo was also worried about her.

"Ye Ling was also hurt at the time, but she wasn't completely affected during the battle. She has recovered now and is taking care of master inside," Song Yangzhu said worriedly.

No wonder those golden core state dared to come here, Li Yuqian was still injured.

Thinking about this, Ye Mo got up and said, "I'll go have a look at sister Li. Clean here up. Ning Hai will stop operation for now, we need to open a bigger pill shop."

...

There was spirit sense shielding formation outside Li Yuqian's room. Ye Mo went in the room and saw Li Yuqian sitting on a seat recovering while Ye Ling was carefully organizing some herbs on the side.

When Ye Mo came in he felt a sense of cold, as though it originated from Li Yuqian's body. Ye Ling's power level was too weak and she couldn't feel it.

"Brother!" Ye Ling saw Ye Mo come and immediately charged over in joy and started crying. As long as Ye Mo came back, her heart felt settled and those things didn't seem to matter.

"Ye Mo you're back." Li Yuqian also woke up and seemed a little easier but she was immediately shaken. "You're already in golden core state?"

Song Yangzhu and the others couldn't see Ye Mo's power level, but Li Yuqian immediately saw that Ye Mo was golden core state level two.

"Huh, brother, you're already golden core state?" Ye Ling grabbed Ye Mo's hands in excitement. Brother was golden core state, meaning that those scamming Ning Hai pills wouldn't dare to come again. There was a sound barrier and spirit sense barrier formation up, so Ye Ling didn't know what had just happened outside.

Ye Mo nodded. "Yes, I'm already golden core state." Ye Mo thought that if he found the water weed, then nascent soul state wouldn't be far from him too.

He then looked at Ye Ling and said, "Sister, Jingwen is here too, go say hi."

"Huh, sister Jingwen is here too?" Ye Ling rejoiced but then rolled her eyes. "Brother, you're going to have one extra wife right?"

Ye Mo blushed and said, "This is the last time, last time for sure."

"Pfft, do you think I will believe you? For Yangzhu, you also said it was last time. But then, there was Xiaoyun." Ye Ling felt she had spoken a little too much and quickly changed the subject. "Okay, I'll go see sister Jingwen, you must treat master."

Seeing her go out, Ye Mo could finally breathe easy. He really didn't know how to tell Luo Ying and Ning Qingxue about Jingwen and Xiaoyun. For Yangzhu, it was actually easier.

"Sister Li, what happened to you, how come you still haven't recovered?" Ye Mo asked worriedly.

Li Yuqian smiled and said "I just injured my foundation, it's actually no big deal. I just need to rest for another month or two and I will recover."

Ye Mo asked suddenly, "Sister Li, did your nascent soul get frozen by something?"

Li Yuqian looked at Ye Mo in shock. "You can feel the frigidness from my body? You're only golden core state level two."

Ye Mo smiled, "That's because I have a special sense when it comes to coldness and flame. Should I have a look for you?"

Li Yuqian was a bit embarrassed. Although Ye Mo wasn't that much younger than her, she was Ye Ling's master. If Ye Mo helped her check, he would need to use his cultivation essence to run through her meridians.

Ye Mo knew her hesitation.

"Okay, have a look." Li Yuqian reached out her wrist.

A cultivator was pursuing the great dao of the heaven and earth, why should she care so much about such little things?

Ye Mo nodded and didn't think anything of it.

Ye Mo sent his cultivation essence into her dan tian carefully and saw that her nascent soul was indeed bound by a layer of frost.

Such a powerful cultivation method, Ye Mo sighed, this was a completely different level than his winter's arrival.

"Sister Li, help me later. I will suck away the frost from your nascent soul." Before she could say anything, Ye Mo started using winter's arrival to suck.

Li Yuqian was shook, this was Lu Jiucheng's ultimate move, even another nascent soul state cultivator wouldn't dare to do this. Ye Mo was a mere golden core state primary stage, this was suicide!

Just when she was about to stop Ye Mo, Ye Mo already started siphoning. Li Yuqian sighed and could only cooperate.

But Li Yuqian soon found that layer of frost was really being sucked away and Ye Mo was still fine.

Was he an ice spirit root? This was impossible, there was no such thing as an ice spirit root pill master.

Ye Mo felt good. His winter's arrival's power had stagnated, and now after absorbing so much frost chi, it immediately grew.

Chapter 978: Standing Ground in Pei Hai

After 15 minutes, Li Yuqian's pale face became ruddier. She could feel that her nascent soul was breaking free. As the frost was being sucked away, that long-forgotten sense of freedom surged forth.

Li Yuqian looked at Ye Mo in surprise and joy. Ye Mo surprised her too much. The injury that had troubled her for half a year was completely gone. Although the frost wasn't as strong as it had been in the beginning, it was still crazy that Ye Mo could suck it away with only his golden core state level two power.

His cultivation essence was probably the same as a normal golden core state level seven or level eight. Li Yuqian sighed to herself.

When Ye Mo's hand moved away from her wrist, she had recovered about 80% of her power. She got up immediately and circulated her cultivation essence. She then said with gratitude, "Ye Mo, thank you, you surprise me so much. There seems to be no problem you can't solve."

Ye Mo was also very happy, he bowed to Li Yuqian and said, "Sister Li, the person that I need to thank is you. If it wasn't for you, Yangzhu and them rest wouldn't be here. Thank you."

Ye Mo knew very well that if Li Yuqian wanted to run away herself, even two nascent soul state cultivators wouldn't be able to stop her. The reason she got injured was because of Song Yangzhu and Ye Ling.

Then, Ye Mo gave her two bottles. "Sister Li, you just recovered, you need these pills."

"Life essence pills?" Li Yuqian took the bottles and asked in shock. Even hollow spirit state cultivator could use life essence pills, one could imagine it's value, yet Ye Mo was willing to give her them - and two bottles in one go.

...

When Ye Mo and Li Yuqian came out, Li Jingwen was already back. Su Yue and Sheng Yizhong were also back. When Su Yue saw Su Jingwen, the two released their sad emotions. Both didn't expect to meet again in this vast Luo Yue continent.

This room of people squeezed together felt the joy of reunion.

"What did the manager of Pei Hai city say?" Ye Mo asked Li Jingwen.

Li Jingwen replied, "The manager Wang said we did really well, they wouldn't ever let such people go."

Ye Ling said in contempt, "Bullshit, when our store was scammed again and again how come no one did anything?"

Ye Ling's words made everyone speechless. So what if they got scammed? If Ye Mo didn't come back, no one would care even if they were scammed 100 times. This place was the survival of the fittest. The city lord had the same attitude: the stronger the people who lived here, the happier he was.

Seeing the gloomy atmosphere, Ye Mo smiled and broke the sullenness, "With sister Li here, I don't think those little punks would do such things again from now on. Sheng Yizhong and Su Yue prepare for

foundation establishment state, sister Zhen needs to reform her core. We will only avoid abuse if we grow stronger and stronger. Let's find a place to settle first, this store is too small."

Hearing this, everyone deeply agreed. In this world run by the law of the jungle, there was no reasoning, your fist was the reason.

Li Jingwen got up and said, "Sect leader, that manager Wang just said that Treasure Tower is open and asked if we wanted to rent it."

"Why did he suddenly ask this?" Su Jingwen asked.

Ye Mo smiled, "Clearly, they're testing our power. One reason is that we have more people now and we need to change places, the second is to test how much power we have. If we rent it, then it means we're worth their attention. If we don't even have that much power, then we're not worth their attention. But we don't know how big Treasure Tower and where it is."

Sheng Yizhong suddenly said, "I know it, when we came, that place was already wasted. It's near the city border. There have been a few beast tides and each time the buildings near the city walls are damaged first. Plus, although that place is cheaper than other places, it's not cheap for ordinary people. It's not small but no one wants to rent it."

"Yes, I heard that the last owner was nascent soul state tertiary stage power but never came back after going out to the sea. So, it's been empty up until now. The land is more than 100,000 square meters," Su Yue said.

100,000 square meters of land was not small. Ye Mo nodded and asked Li Jingwen, "How many spirit stones did that manager Wang say it costs?"

Li Jingwen shook his head. "He said about 200k-300k top grade spirit stones a year."

"That expensive?" Ye Ling opened her mouth wide.

Ye Mo fell silent. "There's no need to rent it, tell him, if it's within 3 million, then we're willing to buy it. After we buy it, we'll change its name to Mo Yue. This place will be the starting ground of our Mo Yue city."

Ye Mo had about 6 million top grade spirit stones. He was going to be using this place for the long term, so instead of renting, he might as well buy it.

...

"What? You're going to buy Treasure Tower?" the manager was scared by Li Jingwen. Even a hollow spirit state cultivator would have trouble taking out a few million spirit stones.

Li Jingwen replied calmly, "Yes, manager Wang. Our sect leader is interested in this place, but we're planning to stay long term. Instead of renting, we might as well buy it. Of course, if you're not willing to sell it, then never mind."

"Sell, of course I'll sell it, but the sale price is at least 30 times the price of one year's rent. Are you able to afford it? Even if I give you a discount, the yearly rent would be 200k top grade spirit stones and so the sale price would be 6 million sale price.

Li Jingwen was shaken, Ye Mo only gave him 3 million but these guys immediately asked for 6 million.

Seeing Li Jingwen's hesitation, manager Wang didn't rush him, but he was beginning to have some interest in the mysterious boss behind Li Jingwen.

Li Jingwen thought for a while and saluted with his fists. "I'm really sorry manager Wang, the price our boss gave is 2.5 million spirit stones. This price is too far from what we expected."

Manager Wang shook his head, "2.5 million isn't even half the price. It seems we won't be able to conduct this transaction."

"Then that's really unfortunate." Li Jingwen got up and was ready to leave.

"Wait a moment," manager Wang stopped Li Jingwen and quickly left.

Li Jingwen was in no rush. He knew that Ye Mo didn't have to buy this place but he just didn't have the time to look for it.

In a while, manager Wang came back and said apologetically to Li Jingwen, "I just asked, if you really want to buy it, the lowest price is 3.5 million. Any lower than that..."

"3 million," Li Jingwen interrupted. "If you can sell for 3 million, I will leave the spirit stones immediately and sign the contract."

"Okay, great, 3 million it is. I, Wang Di, will make this friend," manager Wang said without hesitation.

Li Jingwen opened his mouth and felt bitter. He knew that he had lost big today. He also realized that in terms of business, two of him were no match for manager Wang.

Seeing this, manager Wang felt happy. He would have agreed if that place could be sold for 2 million but now he had sold it for 3 million. He didn't expect this at all.

If there was a place of similar size in the center of the city, then it would be worth at least 10 million, but Treasure Tower was really not worth such a sum of money.

Despite this, Li Jingwen could only sign the contract.

He thought that if Ye Mo didn't give him only 3 million but 4 million instead, he would've lost it all too.

...

Ye Mo heard Li Jingwen's guilty report and laughed. He patted Li Jingwen's shoulder and said, "You fall over, you learn something. Things like this won't happen in the future. Sometimes, losing is winning. I'll hand the development of Mo Yue over for you to oversee. Later, find people to build Mo Yue based on my blueprint."

Ye Mo knew Li Jingwen was going to lose money but he still sent him there, as he and Yu Qiyang would be responsible for most of the negotiations of Mo Yue City in the future. He needed to prepare them.

Chapter 979: Going Out to the Sea

A month later, Mo Yue appeared in Pei Hai city.

Mo Yue wasn't the biggest merchant association, but it was the most grandiose merchant association. Not only did it have layers of defense formations but all of its buildings were made from the blue rock found at the bottom of the ocean. From a distance, it looked like the ocean.

This time, Ye Mo didn't cut costs. He set up multiple defense and attack formations.

With his formation master skills and the splurging of spirit stones, the attack formations were already level four. Even if nascent soul state cultivators were trapped inside, they wouldn't be able to leave easily. If there was a nascent soul state cultivator manning the formation, then even if cultivators above the nascent soul state attacked Mo Yue, they would die.

The reason China Pharmaceuticals was broken into and Li Yuqian was heavily injured was because Ye Mo's power was limited and he couldn't set up high level attack formations.

To Ye Mo, the best defense was a good offense.

Mo Yue rose up with dominance in Pei Hai, but most of the people came from Ning Hai pills. However, many people knew that those who scammed them before were all found out by a golden core state level seven cultivator and had their dan tians destroyed.

After the higher-ups of Pei Hai city remained silent about this, no one dared to look for trouble at Mo Yue. Even without that, no one would dare to go start trouble at Mo Yue just from how they rose up in a dominating fashion.

Mo Yue's main products were formation disks and pills. At the same time, they bought all sorts of materials including beast cores.

All those who went to Mo Yue were shocked to find that although their prices were similar to other places, they had a lot of top grade and mostly special grade pills.

The main thing was that they even had some single stocks of Condense Red pills for golden core state cultivators. As this news spread, Mo Yue soon became famous in Pei Hai. The distant place Mo Yue was at also became more and more populous.

As for the formation disks, rarely any other shops in Pei Hai sold them.

Ye Mo was teaching Yu Qiyang how to make formation disks while teaching Su Yue and Sheng Yizhong pill concoction. As for the management of Mo Yue, he handed it completely over to Li Jingwen. Although he was very occupied now, once Zhen Xiaoshen reached golden core state again, he would be able to have an easier time.

Su Jingwen, Ye Ling and Song Yangzhu were weaker, so other than helping out at the shop sometimes, they spent most of their time cultivating.

A month later, Mo Yue was completely on the right track, and now Zhen Xiaoshan had reached golden core state again. Although she was very excited, Ye Mo thought it was nothing much. He was supplying with her so much pills and her talent wasn't that bad.

However, Su Jingwen reached golden core state level nine in less than 3 years. Ye Mo gasped at her cultivation speed and was prepared to go out and find the water weed. He needed huge amounts of cultivation resources. Ordinary spirit gathering formations weren't enough for him at all.

Mo Yue opened up and Ye Mo spent all the spirit stones he had. Plus, he invited two level six spirit pill masters to stay at Mo Yue.

Ye Mo needed to go out into the sea and he didn't have time for pill concoction. Su Yue and Sheng Yizhong had just started learning, so they wouldn't be able to concoct any for sales.

Three months later, Ye Mo set up another teleportation formation and gave the middle-grade spirit artifact flying ship to Li Yuqian before leaving Pei Hai city.

Ever since the incident at River state, Ye Mo didn't feel safe anywhere. There must be a teleportation formation.

This time, Ye Mo's formation skills greatly increased so he set the other side of the teleportation formation to somewhere 200,000 kilometers away.

Pei Hai was next to the Heartless Sea. Each day, countless cultivators went from the city to the Heartless Sea. These cultivators all formed groups to hunt beasts or collect spirit herbs and ores.

Low level cultivators stayed around the border of the Heartless Sea, but if you wanted to find higher grade spirit herbs and beasts, you had to go further into the sea.

There were two ways of going out, one was to have your own spirit artifact flying boat or a flying magic artefact. Another was going through the teleportation formation to reach Pei Qi island and then leave from there.

This island was only about 100,000km from the city. The teleportation formation was set here as it was surrounded by dangerous waters and there were many businesses here. Those who went out hunting would replenish their supplies here and sell what they found.

On top of that, the island would be able to send news back immediately if there was a beast wave.

Ye Mo had his own flying boat so he didn't go to the island. He was going to an island called Duo Horn island that was 100,000km from the Pei Qi island.

Ye Mo heard that there was the most water weed here.

Ye Mo got on his flying boat and headed there according to the map. Unlike everyone else, Ye Mo didn't have a companion.

Ye Mo felt it was easier to go out by himself. After all, he had the golden page world and could run away easily.

...

The moment Ye Mo got to the island, there was a shocking news from Pei Hai city that instantly spread across the entire North Far State.

South Peace State, North Far State, and East Black State were going to establish intercontinental teleportation formations. Multiple truth realization states with 30 disaster transformation states and cauldron filling states would come to try to and establish the teleportation formation in a year's time.

No one knew why these three states suddenly wanted to build a teleportation formation but many of the cultivators at the bottom finally realized that there wasn't just a single state on Luo Yue continent.

More shockingly, the site of the teleportation formation was chosen to be Pei Hai city.

The person who regretted life the most now was manager Wang. No one would've thought the site of the teleportation formation would be Pei Hai city.

Due to this, the land price of Pei Hai city soared up more than ten times.

The land he sold for 3 million was worth more than 30 million now.

However, Li Jingwen couldn't stop smiling. If he sold Mo Yue out now, he would be earning tens of millions of spirit stones. However, the sect leader had left and he couldn't share this joy. he greatly respected Ye Mo's words now, "losing is winning".

It seems he won more than he could ever imagine now.

Manager Wang wasn't happy, but he knew very well that Mo Yue seemed large but only had one nascent soul state cultivator. Just when he wanted to think of a way to take it back, he heard that a disaster transformation state formation master went to Mo Yue.

This made Wang Di's heart skip. If that disaster transformation state master was related to Mo Yue and he offended them, he wouldn't even know how he would die.

It was Li Yuqian who came to greet the master.

"Qian bei.." Li Yuqian was also uneasy facing a cultivator many states above her.

However, that cultivator didn't have much of an attitude. He smiled and waved his hand, "Don't be anxious, I see that the defense and attack formations here are very good. I wanted to ask who set it up. If possible, I want to see him."

Ye Mo's formation had deviated from the traditional formation basics. He had his own system, and so when this disaster transformation state saw this unique defense formation, he immediately wanted to see who set it up.

Li Yuqian said worriedly, "Qian bei, the formation is set up by our sect leader. He went out to the sea a few days ago, qian bei can see him when he comes back."

"Oh okay." The disaster transformation state cultivator was a little disappointed. He took out a jade card and said to Li Yuqian, "In that case, when he comes back, tell him to take the jade card to the center of the formation site of the city to find me. I'm Ji Lin."

At the same time, Ye Mo had encountered some trouble at Duo Horn island.

Chapter 980: Reject Invitation

Ye Mo stopped his flying boat because he was blocked by a battleship like magic artifact. It was huge and it seemed like a moving continent from afar. It was a much higher level than Ye Mo's flying boat. It was a low grade cultivation artifact.

In fact, this big ship had been parked here before and two golden core state cultivators got off and stopped Ye Mo's flying boat. They looked the ship with greedy eyes.

Ye Mo didn't do anything. The person who could control such a huge cultivation artifact would be no ordinary person. Even if he could beat the two golden core state, he couldn't do anything.

The low grade cultivation artifact had offensive and defensive capabilities. It was very easy for them to catch up to his ship even though it was huge.

Plus, Ye Mo guessed that there were about 100 golden core state cultivators on board and about two in the nascent soul state. Ye Mo had no hopes of running away from such power.

The downside of this ship was that it was so big that ordinary storage rings wouldn't be able to store it. Some wouldn't even be able to shrink.

It was normal for some nascent soul state cultivators to have cultivation artifacts, but such massive flying artifacts were really not common. Ye Mo believed this probably belonged to some sort of power.

"Golden core state level two cultivator?" the two golden core state came up to Ye Mo and smiled. Clearly, Ye Mo's power meant nothing to them. The greed in their eyes grew. A mere golden core state level two dared to fly out with such a top grade spirit artifact, this was no different than suicide.

"Where are you going?" seeing that Ye Mo didn't reply, that golden core state level seven suddenly asked coldly.

Ye Mo stood up and replied calmly, "Does everyone who goes out to the Heartless Sea need to report to you?"

The golden core state level nine was shocked, he didn't expect Ye Mo to dare to talk back like this.

But clearly, the two didn't dare to overtly attack Ye Mo.

The golden core state level seven felt unhappy that Ye Mo had no respect for him, "Of course it has nothing to do with us and you don't need to report to us, but you can't take this path. You have to go around if you want to go to the Heartless Sea. Our Ao Cheng merchant association will be using this path for these few days. Even if you want to leave from here, you have to wait till our ship has left.

Ye Mo fell silent. The island he wanted to reach was not far ahead. If he had to go around, he would still need to come back here. Who knew how long this boat would be parked here for?

"You want to go to duo horn island right? Although I don't know why you want to go there, you can't go there as well," the golden core state level nine said.

Ye Mo didn't hide it and said, "That's right, I want to go there to collect some water weed."

Water weeds were worthless to golden core state cultivators.

The two golden core state were dazed and laughed.

The golden core state level seven laughed again, "If you want to go look for something else, I can't say for sure, but I can tell you that there certainly won't be any water weed. You won't even be able to catch a whiff of it."

"Even in the area with the radius of a few hundred thousand kilometers, you won't find any water weed."

"Why?" Ye Mo blurted out. Water weed was very important to him. Without it, how could he concoct the heaven glory pill, how could he reach nascent soul state?

The disappointment on Ye Mo's face was obvious, the two could easily tell that the water weed was important to Ye Mo. The golden core state level seven used this opportunity and pointed at the big boat not far away and said, "If you want water weed, it's not impossible. That's the ship our Ao Chen merchant association uses to go into deep waters. You can take our boat over. Otherwise, even if your spirit artifact is top grade, it would be suicide to go into deep waters."

Ye Mo frowned and that cultivator continued, "If you want water weed, you need to follow our ship into the deep sea. I'm not lying, if you don't believe me, you can ask other people on board."

"Then why are you guys stopped here?" Ye Mo asked.

The golden core state level seven smiled. "It's fine if I tell you, our elder Hao is about to reach nascent soul state tertiary stage so we need to stop here and wait for the elder to ascend. It's your luck that you met us. Our ship has nascent soul state qian bei, there basically won't be any danger. But every cultivator on our boat needs to pay some price..."

Ye Mo sneered, he had his flying boat and they wanted him to go on their boat and give his boat away. These two were crazy.

Ye Mo guessed that even though they desired his boat, they wouldn't dare to steal it in front of all the other cultivators. Many of the cultivators on board had probably been lured on like this.

The golden core state level nine intervened, "Although you have this top grade flying spirit artifact, it's easy to get here but it would be very hard for you to go back alone later."

"I'll tell you the truth, there's a level seven beast here and he went crazy. He took his lower level minions and cleared all the spirit herbs around here. This includes the water weed. Many solo cultivators were also killed. Our merchant association's hollow spirit state elder battled that level seven beast and both got injured. The level seven beast retreated and the lower leveled minions also retreated."

"However, the herbs they collected weren't taken away. They're still on an island. But other than the herbs, there are many beasts below level six on it, so many cultivators formed a small squad and hired our ship. Our merchant association sent out two nascent soul state elders to support this project. So it's indeed due to luck that you can get on it."

Then, he scanned Ye Mo's flying boat hoping that Ye Mo would go on now. As long as he went on, Ye Mo's flying boat would belong to them.

Ye Mo didn't object. This cultivator's words were a mix of truth and lies, but one thing was for sure, the herbs nearby were all swooped away.

The golden core state cultivator was getting a little desperate seeing that Ye Mo didn't express anything.

Just when he wanted to say something, Ye Mo saluted with his fists. "Thank you two for your goodwill but I won't go to the Duo Horn island. I'm going back now."

The two wanted to trick Ye Mo onto the ship and then slowly threaten and trick Ye Mo into giving away the flying boat, but now, there was nothing they could do.

Just when they wanted to say something, the horn on the big ship sounded. It was about to depart. Although they were very unsatisfied, they flew back onto the ship without hesitation. Soon, the ship disappeared.

Ye Mo didn't leave. He was sure that most of what they said was real but why would the merchant association only send two nascent soul state cultivators? The store of herbs should attract way more people. Why were there only golden core state cultivators forming squads and only two nascent soul state cultivators sent here from the merchant association?

Ye Mo stood thinking for a while and decided to go see the island first.

A few hours later, Ye Mo stood on the island. This place was indeed empty, not a single beast nor spirit herb.
