Chapter 431 I Quit

In the next two days, Lucia kept to her schedule and finished the photo shoot on Gransend Mountains.

Due to the fact that she was injured, Paul canceled all his plans for those two days and stayed by her side.

After the three days of shooting were complete on Gransend Mountains, both Lucia and Director Brook were pleased with the progress they were making.

The crew then moved to the Deep Alley located at the center of the city to continue the next part of the photo shoot.

With the speed of the progress they were making, the photo shoot would be complete by the end of the month.

As long as the dubbing and editing were up to speed, the whole thing could be released by the beginning of the following month.

With that thought in mind, Lucia found that she wasn't that far off from the agreement she and August made.

Lucia breathed a sigh of relief inwardly.

However, not knowing why, she somehow felt a little down.

Meanwhile, the matter about Lion Group was still developing.

The public opinion online was split in two.

One side supported August and the other supported Bishop.

The higher official of the company was said to be split in two as well.

There were continuous conflicts.

At such times, the only person who could stand forward and be in control was Eliot.

However, Eliot had recently left Austos City and went abroad.

Ever since he left, there had been no news of him.

It was as if he had disappeared from the face of the Earth.

Everyone knew that Eliot favored his elder son, August, but Bishop, who was in a wheelchair wasn't a pushover either. He registered Lion Media in a week and invested a huge amount of money. He began to take action.

It was obvious that he was going to fight August to the end.

This meant that things were going to get complicated.

Everyone in Austos City was watching the fun as the sons of an affluent family fought it out.

However, Lucia somehow felt a little worried and frustrated when she saw such news.

She even had the same worried feeling during the break times when she was with the crew.

"Ms.Mitchell, there's been a problem."

Viola quickly walked over to her.

Lucia came back to her sense, put away her phone, looked at Viola, who was panting heavily and asked,
"What's the matter?"

"Tamzin said that she doesn't want to continue the shoot."

"What?"
