

Substitute B 78

Chapter 78: Only Love

Although everyone was quite afraid of Piper Pace, they still appreciated her work efficiency. When she said random checks, she meant it, and directly asked about the location of Angelica.

Actually, today's random check results were undoubtedly predictable. Memorizing 12,800 types of herbs in just three days is impossible for anyone, let alone for the so-called failure, Serena Sterling.

Serena Sterling was destined to lose this random check.

So when Piper Pace asked which cabinet Angelica was in, everyone smiled and watched Serena Sterling, waiting to see her make a fool of herself.

Under everyone's gaze, Serena Sterling calmly curved her lips and replied, word by word, with utmost clarity, "Angelica is in the 63rd medicine cabinet on the left-hand side."

The 63rd medicine cabinet?

Shania quickly ran over to open the 63rd cabinet, closed her eyes and prayed, hoping it would be Angelica, Angelica, Angelica!

Shania opened her eyes, excitedly almost jumping up, "Director Pace, the 63rd medicine cabinet is indeed Angelica!"

The room was filled with gasps.

Everyone was stunned—Serena Sterling actually... actually answered correctly?

This... this must be pure guessing!

Piper Pace was slightly taken aback; she hadn't expected Serena Sterling to answer correctly. Swiftly, she posed another question, "What's in the 304th cabinet?"

Serena Sterling answered smoothly, "The 304th medicine cabinet contains crystal herbal medicine, crystal mica."

Shania quickly ran over to open the 304th cabinet, "Director Pace, it is indeed crystal mica, Serena answered correctly again!"

My goodness!

Everyone looked at Serena Sterling as if they had seen a ghost; she answered correctly again?

Piper Pace asked further, "Where are Epimedium, milk thistle, and rough shizandra located?"

Serena Sterling replied, "Epimedium, milk thistle, and rough shizandra are in cabinets 74, 9009, and 750 respectively."

Shania dashed over to verify, unable to hold back her cheer, "Serena answered correctly! Serena, you're amazing!"

Everyone's expressions changed, and Yasmine Sterling subconsciously clenched her fists, glancing at Joan Alden beside her.

Joan Alden rushed in to push Shania away, "Shania, you're good friends with Serena Sterling, maybe you conspired to cheat. Now let me verify."

Piper Pace asked yet again, "What's in the 673, 444, and 6901 cabinets?"

Serena Sterling smiled at Joan Alden, raising her chin slightly, "673, 444, and 6901 contain Astragalus, Snow Lotus, and red stone fat respectively."

Joan Alden opened 673—it's Astragalus; then opened 444—it's Snow Lotus. This can't be happening, it can't be...

Joan Alden started to lose composure, initially thinking Serena had guessed by luck, but he forgot the odds of guessing correctly among 12,800 herbs and 12,800 cabinets. Try guessing one right.

No one can memorize all these 12,800 types of herbs in three days, no one!

Opening the 6901 cabinet, Joan Alden's movement was so big that the red stone fat inside fell directly to the ground, intruding onto his vision.

Joan Alden's legs went weak, he almost collapsed to the ground.

Serena Sterling coldly looked at Joan Alden, "Team Leader Alden, do you still suspect I've conspired to cheat with Shania? Above your head is the cabinet 7501 containing June cold; southeast, cabinet 30 has Phoenix clothes; to the right of Director Pace, cabinet 99 contains Xuan Ming powder..."

Joan Alden couldn't believe, thinking everything was a hoax, so he continuously verified following Serena Sterling's voice. Not sure when, his clothes were soaked, leaving him only to lean against the wall, panting heavily.

Everyone looked at Serena Sterling in shock; although still in disbelief, they had to admit that Serena Sterling truly memorized all 12,800 types of herbs in just three days and passed Piper Pace's test!

This Serena Sterling, who exactly is she?

Serena Sterling's pair of clear, bright eyes looked at Piper Pace, "Director Pace, do you need to check me further? I've memorized all 12,800 types of herbs, you can randomly check."

Piper Pace couldn't help but see Serena Sterling in a new light. It seemed impossible to complete this task, but she did it.

This girl was personally chosen by the dean, could she really possess true talent and learning?

Piper Pace exhausted her mind seeking medical information related to Serena Sterling but could only recall she recently returned from the countryside, having just graduated high school.

Piper Pace slightly furrowed her brows, "Serena Sterling, congrats, you've passed. You can stay at the Shu Mi Institute for your internship."

"Wow, that's awesome, Serena! My betting money multiplied many times over, I'm gonna be rich! So many bet you'd lose, you completely proved them wrong again!"

Shania ran over and hugged Serena Sterling, then smugly glanced at Yasmine Sterling.

Yasmine Sterling overheard everyone's discussions,

It seems like Serena Sterling is really hiding her abilities.

She truly is impressive. That's 12,800 herbs! She made her mark at the Shu Mi with this battle, creating a record.

Yasmine Sterling is our institute beauty, but Serena Sterling looks pretty good as well.

Everyone's initial prejudice against Serena Sterling was slowly shifting, and they began to admire her.

Piper Pace stood up, "Serena Sterling, you should not be complacent. You've just begun, as you have no educational background or medical experience, so everything starts anew. I'm looking forward to your progress, and hope you don't make mistakes, or you'll have to leave Shu Mi."

Serena Sterling smiled with curved eyebrows, "Yes, Director Pace, thank you!"

Piper Pace left.

...

Once Director Pace left, someone approached, "Serena Sterling, you're now our little junior sibling, welcome to the group."

"Serena Sterling, can you secretly tell me how you memorized all 12,800 herbs? I want to challenge your record."

Serena Sterling playfully raised her willow eyebrows, "I need to learn well from my senior brothers and sisters in the future."

As a result, the previously adored Yasmine Sterling found herself isolated, frozen in place watching everyone gather around Serena Sterling, feeling bitterly resentful.

Everyone slowly dispersed, only then did Yasmine Sterling step forward, "Serena, congratulations, I've always believed in you, I knew you'd pass this challenge."

Shania: I swear she has never seen someone so shameless.

Serena Sterling glanced at Yasmine Sterling, "Yasmine Sterling, aren't you tired of acting? It's really a pity you're not in theater."

Yasmine Sterling wanted to speak up, but suddenly noticed the only-love necklace hanging around Serena Sterling's neck.

Yasmine Sterling's heart skipped, a few days ago she and Erica Hawthorne saw this only-love necklace in a magazine, the Tiffany treasured edition, unique worldwide. At that time, she and Erica were smitten. Then, several Bayside heiresses went shopping, discussing only love.
