

## Summoner 1381

### Chapter 1381 Unexpected Change (2)

The two of them finally settled Yun Xiang down. Bai Qingfeng was extremely worried, fearing that something would happen to Yun Xiang, while Yun Feng pondered quietly on the side. Yun Xiang was pregnant, so she certainly couldn't participate in the advancement of forces, let alone break through to the God Level at this stage. Everything had to wait until the child was born safely. Yun Xiang was the strongest among the younger generation of the Yun family. If she couldn't fight, who would the Yun family send out to fight among the younger generation? The others were still quite far from Yun Xiang. Yun Feng planned to help Yun Xiang break through to the God Level this time, but it seemed that she had to consider everything carefully. Even if Yun Xiang insisted on participating, she wouldn't allow it.

"Yun Feng, do you understand what I meant now?" Bai Qingfeng glanced at Yun Feng. After confirming that Yun Xiang had only fainted, he was finally relieved. Yun Feng looked at Bai Qingfeng with her black eyes. "You mean, you're waiting for me to come back and fight for Yun Xiang?"

"Exactly." Bai Qingfeng nodded. "Yun Xiang has only been pregnant for a month. It's a critical period. I can't let anything happen to her. Luckily, you came back at this time. The Yun family won't lose anything even if Yun Xiang doesn't participate in the battle."

Yun Feng, however, frowned. "Yun Xiang must not participate in the battle. I agree with that, but don't forget that there are five segments for the advancement of forces this time. I have to participate in the pharmaceutical segment, so I certainly can't participate in the other segments repeatedly. And the Yun family..."

!!

"You don't have to participate in the pharmaceutical segment," said Bai Qingfeng casually. Yun Feng raised her brows. Right, Bai Qingfeng was also a pharmacist. She almost forgot about this. Even though Bai Qingfeng's pharmaceutical skills weren't low, would he definitely be able to defeat the others?

"Don't underestimate me." Bai Qingfeng raised his brows. "I might not be as good as others in terms of strength, but there aren't many people who can beat me in terms of pharmaceuticals!"

Yun Feng smiled gently. "You must know how important the advancement of forces is to the Yun family this time. Best of five. The Yun family must win the round of pharmaceuticals!"

The corners of Bai Qingfeng's mouth curled up. "Of course I know. Even though I'm not very good at making grandmaster-level potions, it's not difficult for me to succeed."

Grandmaster Level? Yun Feng was shocked. She didn't expect that the Yun family wasn't the only people who had improved in five years. Bai Qingfeng's pharmaceutical skills had also improved a lot! It wasn't difficult for him to make Grandmaster Level potions. The only opponent of the Yun family, the Shentu family, would probably be able to do so at most.

"It's very likely that the Shentu family will invite external help for this segment. You must make more preparations." Yun Feng remembered that the Shentu family was also the one who tried to snatch the Weightless Fruit at the auction. This also proved that there was a pharmacist in the Shentu family who

could make weightless potions. “Grandmaster two-star. If you want to participate in the pharmaceutical segment, you must reach such a level.”

Bai Qingfeng frowned. “Grandmaster two-star... It seems that the Shentu family is indeed tricky. Even though it’s a bit difficult, I’ll try my best to make it.” Bai Qingfeng looked at the unconscious Yun Xiang with a hint of gentleness in the corners of his eyes. Yun Feng was relieved in her mind. Everything Bai Qingfeng did was for Yun Xiang. Yun Xiang was right to get such a person to grow old with him.

“If that’s the case, I’ll leave the pharmaceutical segment to you.” Yun Feng had seen Bai Qingfeng’s strength with her own eyes. Bai Qingfeng’s identity was certainly fine. The son-in-law of the Yun family certainly wasn’t an outsider. In this way, the Yun family wouldn’t suffer any loss when she participated in the younger generation segment.

“Have you told the three elders that Yun Xiang is pregnant?” asked Yun Feng. Bai Qingfeng shook his head. “I haven’t told anyone yet. I’m just afraid that Xiao Xiang will have a bad reaction if she finds out. I can be completely at ease now that you’re back.”

Yun Feng nodded. The three elders would definitely be delighted when they heard the news. The entire Yun family would definitely be delighted!

“Let’s talk about breaking through to the God Level later.”

“Of course. Everything will have to wait until Xiao Xiang gives birth,” said Bai Qingfeng. Yun Feng got up. “Take good care of Yun Xiang. I’ll leave first.”

Bai Qingfeng also got up. “Don’t worry. I’ll take good care of her. Nothing will go wrong.”

Yun Feng turned around and left with a smile. Mu Canghai, who was next to her, heard Yun Feng’s low laughter. “Mu Canghai, another little life of the Yun family is about to be born.” There was joy on Yun Feng’s face. Mu Canghai also put on a smile. Yun Feng looked ahead with her black eyes. “The Yun family will return to the position of the first-rate family. Treat it as a gift for this kid.”

Due to Yun Xiang’s pregnancy, there was a huge change in the candidates of the Yun family for the advancement of forces. Yun Feng directly fought on behalf of Yun Xiang. Luckily, Bai Qingfeng was here, or the Yun family wouldn’t have any chance of winning in the pharmaceutical stage at all. The Yun family was also very lucky to have got a son-in-law who knew how to make medicine back then.

In the five rounds, the Yun family was almost certain to win the potion round and the younger generation round. If they wanted to pull the Shentu family down as expected, they would have to find the third round that they would definitely win. It certainly couldn’t be the leader competition. Even though the three elders of the Yun family weren’t necessarily worse than the Shentu family’s master, if the elders used too much of their strength in this round and risked their lives too hard, the Yun family would definitely suffer a heavy loss if anything happened. They would certainly just deal with this round of competition between the leaders casually. The strength of the three elders of the Yun family must be preserved 100% just in case.

Next was the competition of the second echelons. The strength of the older generation of the Yun family was fixed. Even if they could improve it through special means, the effect might not be much better and it could easily cause unnecessary trouble later. They could only try their best in this segment.

There was only one last segment left, the competition of the family's foundation. There was still no telling what the competition of the family foundation was like right now. If they were to compare the rarity of the things they took out, Yun Feng believed that the existence of the Golden Cauldron Tree would definitely give the Yun family a high chance of winning. After all, Yun Feng had poached the only Golden Cauldron Tree of the Shentu family and there wasn't much left in the Shentu family's Treasure Mirror. Unless the mastermind supporting the Shentu family behind them was willing to support them, the Yun family would definitely win.

What could they offer? Yun Feng sneered. There might be a lot of rare treasures in the world, but she definitely had as many as anyone else did. Ultimate Crystal Beasts, the Dragon Palace, the Finger Spiritual Jade and the Golden Cauldron Tree. Any one of them was enough to shock the world, not to mention the Magic Beasts with extraordinary bloodlines that Yun Feng contracted. The Magic Beasts of summoners could certainly be considered a part of the family's foundation. Yun Feng smiled. So, the Shentu family couldn't compare to the Yun family in terms of foundation.

### Chapter 1382 Unexpected Change (3)

The news of Yun Xiang's pregnancy and Yun Feng's return spread throughout the Yun family. Yun Feng's return made the members of the Yun family heave a sigh of relief. The news of Yun Xiang's pregnancy made the members of the Yun family thrilled. The three elders also looked delighted. A little life was about to be born. Everyone in the Yun family was extremely delighted, especially when it was Yun Xiang's child.

It was also because of this little creature that was about to be born that Yun Xiang couldn't move freely like before. Even though Yun Xiang was unwilling in her mind, she could only compromise for her baby. However, she still had to vent her anger. Bai Qingfeng certainly became the best punching bag.

"It's all your fault, you idiot!" Perhaps because the pregnant woman wasn't in a stable mood, similar sounds came from Yun Xiang's yard every day. Although Bai Qingfeng was used as a punching bag, the smile on his face didn't reduce at all, which proved that he was quite enjoying himself.

After the news of Yun Feng's return spread, the Yun family didn't hide it at all and announced to the outside world that Yun Feng had already returned. The news of Yun Feng's return made the other families a bit shocked. They originally thought Yun Feng wouldn't come back, but they didn't expect her to come as expected at such a critical day.

!!

"Yun Feng is back?!" The leader of the Shentu family was obviously stunned when he heard the news. Then, the veins on his forehead suddenly bulged. He thought he couldn't vent the anger he hadn't vented in the past five years, but he didn't expect Yun Feng to dare to swagger back to the Inner Region!

"Yes, Master. The news is correct."

The Shentu family's master clenched his fists tightly. She was quite smart. She knew that she had to come back at the right time. If she had come back a while earlier, he would definitely have found an opportunity to settle the score himself! However, the advancement of forces was imminent and he really couldn't cause trouble. He could only put Yun Feng aside for now! However, after the advancement of forces, he would definitely settle the score with her himself!

“Where’s Zhan Li? Did he come back with her?” The head of the Shentu family’s temples pounded a few times. Thinking of Zhan Li, there was also an unknown anger in his heart. How dare he help an outsider! He didn’t want this son!

“I didn’t see him. Yun Feng came back alone this time and there was no one with her.”

The Master of the Shentu family frowned after hearing that. It was expected that Zhan Li didn’t return to the Inner Region. He would have plenty of opportunities to deal with that unfilial son in the future. Now, he had to deal with the matter of the advancement of forces first. He thought that the Yun family would definitely issue a challenge, and this was also a chance for the Shentu family and the Yun family to resolve the grudge. The winner between them would take all!

“Master, the people of the Naxi clan...”

The eyes of the Shentu family’s master brightened. “Take good care of them. Members of the Naxi family don’t show up easily. Even though the person who came this time is just a young girl, her strength can’t be underestimated! If we can establish a good relationship with them this time, the Shentu family will get even more!”

“Yes, sir!”

The person who reported the news immediately left. The Shentu family’s master leaned against the back of the chair as his mind was full of the advancement of forces this time. If the Shentu family was pulled down this time, their future situation wouldn’t be any better. However, someone from the Naxi family came to the Inner Region right now. This was something the Shentu family’s master didn’t expect. Was this a chance the Heavens gave the Shentu family? The Shentu family’s master clenched his fists. The Yun family, I’ll definitely let you leave the Inner Region forever this time!

Somewhere in the Shentu family, the distinguished guest from the Naxi family happened to be having a good meal. The room was very luxurious, but the person sitting there was very angry with a gloomy face. Thinking of the encounter with Yun Feng today, Yu Lian was enraged. She bit her lips fiercely. What an arrogant Yun Feng. What she said today didn’t make her angry. Her mind was quite calm and she wasn’t easy to deal with.

Yu Lian left the Naxi Clan on her own this time. The Naxi Clan had always been in seclusion and their clansmen didn’t leave their clan easily. However, Yu Lian learned about Yun Feng through some special means and couldn’t wait to take Yun Feng down a notch. She thought she could make Yun Feng quit obediently with a few words and her strength, but Yun Feng didn’t waver at all.

“How would Brother Lanyi like such a woman?” Yu Lian gritted her teeth in anger. “Grade 3 of the God Level... How can she be worthy?” Yu Lian originally wanted to finish off Yun Feng with her own strength, but she came out on her own. If the leader of the Naxi Clan knew about the incident here, the consequences would probably not be good. Besides, the Yun family was indeed comparable to the Naxi Clan in the past. Even though Yu Lian was angry in her mind, she was still a bit afraid. If she killed Yun Feng, the Yun family would definitely hate her. If the Naxi Clan got into trouble because of her, the members of the Naxi Clan wouldn’t let her go.

“Sooner or later...” Yu Lian said hatefully. She was very depressed that she couldn’t do anything. And she had to go back quickly, since she went out on her own this time, or it would be bad if she was

discovered. If she saw her in the Naxi Clan in the future, she would definitely not show mercy! Yu Lian thought in her mind, but she didn't know that when Yun Feng stepped on the land of the Naxi Clan, the woman would already be an existence that she could only look up to.

The advancement of forces came very quickly. The major families had already submitted letters of challenge. As the Yun family expected, all the challenges were unsurprising. And the Yun family was indeed the only one who challenged the Shentu family. The Inner Region was also more and more heated because of the advancement of forces. The Yun family challenging the Shentu family. Who would be able to sit on the position of the first-rate family? It was full of suspense.

In the extremely scorching atmosphere, the advancement of forces finally began. The seven families in the Inner Region had to be reshuffled again and their strength had to be adjusted. This time, it wasn't just about the position of this first-rate family, but also about which family was to be expelled from the Inner Region.

The venue of the advancement of forces was located in a wide area in the Inner Region. Since the advancement of forces involved the interests of the major families, it wasn't held in the territory of any family. This wide area had already been transformed and a rather vast platform was built. The area of observation around was also very large.

The seven families challenged each other according to the levels, but the order of the segments remained the same. In other words, the five rounds of competition would be divided into five sessions. Each round included all the challenges. The clan leader segment would be held on the first day. Two families wouldn't finish all the five rounds in one day.

#### Chapter 1383 Unexpected Change (4)

The advancement of forces was about to begin. The scene was already very heated. There were a lot of spectators from the large and small families in the Inner Region. The advancement of forces was a world-famous event in the Inner Region. It was also very glorious to witness the change in the status of the few large families with their own eyes. Soon, the venue of the advancement of forces was filled with people. They were all talking about the final result of the advancement of forces this time. Some people had even started to make bets.

The seven families arrived one after another. The Shentu family, which was the first-rate family, was naturally in charge of the advancement of forces. There was no absolute judge of the advancement of forces, because the result of the competition was obvious at a glance. Everyone who came to participate was the judge. When the Shentu family's master came out, he was beaming with joy and looked extremely confident. After all, his family was now the first-rate family and he couldn't lose in terms of aura.

"Yun Feng, the person next to the leader of the Shentu family should be someone from the Naxi clan," said Mu Canghai in a low voice on the side. Yun Feng glanced over with her black eyes. It was her? This person from the Naxi clan was the one who provoked and insulted Yun Feng in Peace Town that day. The corners of Yun Feng's mouth slowly curled up. Enemies were truly bound to meet on a narrow road.

Yu Lian stood next to the leader of the Shentu family and felt Yun Feng's gaze. When she glanced over and met Yun Feng's eyes, she couldn't help but feel a bit angry, especially when she saw Yun Feng's faint

smile. Yun Feng looked away indifferently. If that woman was from the Naxi clan, why didn't she announce her identity in a high-profile manner? She must have come here secretly for Yun Feng.

"She's hostile to you." Mu Canghai's expression became a bit tense, but Yun Feng curled her lips indifferently. "You don't have to care about her."

"But" Mu Canghai glanced at Yun Feng. Didn't she want to ask about Qu Lanyi? After all, she was a member of the Naxi family. Wouldn't she be at ease after asking?

"I won't ask. If I want to know how Lanyi is, I'll find him myself!" Yun Feng said. Mu Canghai was shocked. "Yun Feng, are you planning to go to the Naxi Clan?"

"Even an ugly wife has to meet her in-laws. Besides, that's the land where he lives. I certainly have to go there."

Mu Canghai looked at Yun Feng in shock. She had probably already had this idea in her mind. She would step on the land of the Naxi Clan and meet Qu Lanyi! She certainly knew the danger. Mu Canghai's strange eyes glittered and there was a smile at the corners of his mouth. She was exactly such a person.

The leader of the Shentu family on the stage finally finished talking. Accompanied by enthusiastic cheers around, the advancement of forces began! Yun Feng looked up and met Yu Lian's gaze again. Yu Lian sneered, and Yun Feng smiled back! Yu Lian was startled. Yun Feng looked away and clenched her fists!

I want you to know that the Yun family isn't a family you can talk about! I want the world to know that the Yun family will return to its original position step by step and reach a peak that others can't surpass!

The advancement of forces officially began. According to the levels of the challenge, the Fang family, which challenged the second-rate family, the Baili family, was the first to fight. None of the seven families were left behind. They were all participants. This was a bit different from the situation in the past. A few families were spectators when the forces advanced last time. The most fundamental conflict only existed between the Yun family and the Shentu family.

The leader of the Fang family and the leader of the Baili family went on stage. Yun Feng stood in a corner and looked at the stage. If she was right, the first round was just a sham. It was impossible for any family's leader to work so hard in the first round. This didn't match their identity as the leader. If they really lost, wouldn't it damage their dignity? Perhaps it would just be a simple show on the stage. Yun Feng's idea was indeed right. The two leaders on the stage only fought a few rounds. Then, the leader of the Fang family quit voluntarily. The leader of the Baili family smiled in disdain and the two of them turned around to leave the stage.

The Ji family was the next to fight. Among the seven families, the Ji family was quite unlucky, because two third-rate families, the Wu family and the Ai family, issued a challenge, which meant that they had to fight twice. The Ji family obviously suffered a huge loss and was very likely to be pulled off the horse. When the Ji family's master got on the stage, his face was very gloomy. Yun Feng looked at the Ji family's master thoughtfully. This round was just a show for others, but not for the Ji family. The Wu family and the Ai family certainly wouldn't let go of the opportunity to win this time. The two families were equivalent to working together to fight an enemy. The difficulties the Ji family faced would be doubled.

As expected, the masters of the Wu family and the Ai family didn't intend to go easy. Even though the two of them fought one after another, as long as the first person exhausted a part of the strength of the Ji family's master, the second person would have the advantage. Even though the master of the Ji family was quite strong, he was still defeated in the end. The Ji family lost in the first round and the crisis of the Ji family was obviously greater.

The Wu family and the Ai family joined forces to defeat the Ji family in the first round. The masters of the two families were obviously very proud. The master of the Shentu family couldn't help but smile. If the Ji family was taken down as a second-rate family this time, the group of the Shentu family would obviously become much stronger when either the Wu family or the Ai family took over. Yun Feng thought in her mind that even if she kicked the Shentu family out of the Inner Region, the power in the hands of the Shentu family was still there. It seemed that the second-rate families couldn't change, or it would be disadvantageous to the Yun family.

Yun Feng didn't just want to drag Shentu down from the throne of the first-rate family this time. She wanted to kick the Shentu family out of the Inner Region! She would give him back everything that the Yun family suffered a hundred times, a thousand times! Yun Feng's mind raced. The alliances of the seven families weren't indestructible. The Shentu family could control so many families because of their benefits, but would the Shentu family still have the same control in the future? Not necessarily.

The third round was between the Yun family and the Shentu family. This time, the Great Elder of the Yun family was the one who fought. The Great Elder jumped and landed on the stage very elegantly. The Shentu family's master couldn't wait anymore and jumped onto the ring. He immediately attacked like lightning, but before he could use this attack, the Great Elder of the Yun family said softly, "Forfeit."

Once the word "forfeit" came out, the Shentu family's master's movements froze. The Yun family's elder floated off the stage with a faint smile and walked around the stage, doing nothing. Even though the Shentu family's master won on the stage, this victory was more or less charity. The calmness of the Yun family's elder was a stark contrast to the Shentu family's master's impatience. However, since he had already forfeited, the Shentu family's master couldn't attack again. He could only hold back his anger and return to his original position. He originally wanted to take the Yun family's elder down a notch in one go, but the other party beat him to it. The timing was perfect!

#### Chapter 1384 Meatball Is the Key to Making Medicine (1)

Yu Lian stood aside and watched coldly. She couldn't help but take a few more glances at the Great Elder of the Yun family's carefree attitude. The Yun family seemed to be a bit more extraordinary than she thought, but it was just a small trick.

The first round soon ended and the competition on the first day also ended quickly. The audience knew that the first round was purely for show. The real excitement was the competition of the second-tier forces on the second day and the few rounds afterwards. The result of the first round wasn't really strange. It was almost as everyone expected.

The first round of the show ended. The next day, the second-rank forces were competing. The seven families were all resting in their camps to prepare for the next day's competition. In the Yun family's camp, the three elders of the Yun family were with Yun Feng. They were all smiling when they talked about today's competition.

“Even though the Shentu family won, they didn’t feel comfortable at all.” The Second Elder of the Yun family said. The Great Elder of the Yun family chuckled. The Third Elder of the Yun family was also very happy on the side. “The leader of the Shentu family looks really good.”

“Girl, your suggestion is quite frustrating for the Shentu family.” The Great Elder of the Yun family looked at Yun Feng with admiration. It was Yun Feng’s idea to forfeit immediately after going on stage. The Great Elder of the Yun family was originally planning to fight a few rounds. After Yun Feng came up with this idea, the Great Elder of the Yun family thought it wasn’t bad, so he did so and got a pretty good result.

Yun Feng smiled. “The leader of the Shentu family will definitely take the Yun family down a notch in the first round. He can only sulk now.”

“The Ji family lost this time. The situation shouldn’t be optimistic.” The Second Elder of the Yun family frowned and said. “If either the Ai family or the Wu family rises, the second-rate families will be under the control of the Shentu family.”

“It’s indeed disadvantageous for the Yun family.” The Third Elder of the Yun family nodded, but the Great Elder of the Yun family chuckled and looked at Yun Feng. “Don’t worry too much. We’ll have an honored guest here soon.” As soon as the grand elder of the Yun family said that, someone outside said, “Elders, the master of the Ji family is here!”

The Second Elder and the Third Elder of the Yun family looked at each other and smiled. The two of them understood in their minds. Yun Feng got up and was about to leave, but the Great Elder of the Yun family shook his head with a smile and asked Yun Feng to stay. “Invite the master of the Ji family in for a chat.”

When the master of the Ji family walked in and saw that Yun Feng was also here, his heart couldn’t help but sink. It seemed that Yun Feng’s status in the Yun family was obviously incomparable. The three elders of the Yun family valued her in such an occasion. The master of the Ji family glanced at the three elders of the Yun family and Yun Feng and took a deep breath. He came this time to find an ally. The Ji family couldn’t fight two enemies at once and would be dragged down sooner or later. The master of the Ji family was a smart person. He could see the situation clearly. The rise and fall of the Ji family more or less concerned the Yun family, so he could come and ask for help.

After explaining his purpose of coming, the Ji family’s master waited for the answers of the three elders of the Yun family. He had taken the initiative to come to form an alliance and he was very humble. After all, he needed their help. Their stance was different. Even though the Ji family’s master’s heart was pounding, he was more or less confident. The Yun family wouldn’t let the Ji family fall. They would definitely need help to get rid of the Shentu family’s lackeys after they became the first-rate family!

The three elders of the Yun family didn’t say anything. The leader of the Ji family was a bit anxious. The Great Elder of the Yun family looked at Yun Feng. “Kid, what do you think?”

Yun Feng raised the corners of her mouth gently. “The Yun family knows very well why you’re here, Master Ji. However, if we’re looking for allies, the Yun family has a better choice, right?”

Master Ji’s face immediately changed after hearing this. “The Fang family can’t compare to the Ji family in terms of foundation after all. Besides, the Fang family won’t be on good terms with the Yun family”

“But if the Ji family falls, it won’t be good for the Yun family. If the two families can become allies”

“Master Ji.” Yun Feng interrupted him gently. “An ally is established on the basis of equality between both parties, but the Ji family and the Yun family aren’t equal right now, so the alliance won’t work.”

The master of the Ji family blushed. The Ji family was a second-rate family. Even though they condescendingly came to ask the Yun family for help this time, they were more or less unwilling. As long as the Ji family survived this crisis, they would still be a second-rate family. The Yun family was too volatile, and the Ji family couldn’t predict its future. The alliance was just a trick. The Yun family would benefit, and the Ji family wouldn’t suffer a loss even if the Yun family lost. After all, I need your help to tide over this crisis. I don’t care what will happen to you.

Yun Feng certainly understood the logic behind this. The Ji family had already made up their minds. It was certainly impossible for them to get help without doing anything. Yun Feng pushed the master of the Ji family to the edge of a choice right now. Either the Ji family became a subsidiary of the Yun family, or it was impossible.

“Master Ji, what do you think?” Yun Feng asked indifferently with a faint smile on her red lips. The master of the Ji family was a bit messy. Yun Feng was indeed not easy to deal with. She saw through his mind clearly. However, did the Ji family have any other choice at this moment? It wasn’t a bad thing to become an affiliate of the Yun family. Their status would at most be a bit lower and nothing else would change. If they lost this opportunity, the fate of the Ji family could be imagined.

“Alright, I agree!” The master of the Ji family finally said. Yun Feng chuckled. “Master Ji, don’t think too much. The Yun family won’t ask the Ji family to do anything. The Ji family will still be the Ji family.”

The three elders of the Yun family all looked at Yun Feng with relief. That’s right. The Yun family was like this. Even though they wanted you to be a subordinate, they wouldn’t really underestimate you. The Yun family had never underestimated anyone and they had never used anyone maliciously.

The master of the Ji family was startled. Then, he smiled wryly and shook his head helplessly when he saw Yun Feng’s smile. Fine, following the Yun family, the Ji family wasn’t really difficult.

The leader of the Ji family found help and left. The Yun family had one more helper right now. This helper would be useful in the coming days. The Ji family had already lost the first round. The Yun family certainly couldn’t lend anyone out directly. After all, it wasn’t easy to say how close they were. They couldn’t lend them people, but they could lend them things.

Yun Feng had plundered a lot of weapons of the Shentu family from the Treasure Mirror. Yun Feng generously lent a few God Level weapons to the Ji family. The Ji family’s master immediately beamed with joy. He would definitely return them intact after the competition. Yun Feng wasn’t sure if the Ji family was telling the truth, but if the Ji family really didn’t return the weapons, the friendship between the two families would be gone instantly. The Yun family didn’t lack the God Level weapons. What was important was this promise. If the Ji family’s master kept his promise, the Yun family wouldn’t feel sorry for giving the weapons away.

Chapter 1385 Meatball Is the Key to Making Medicine (2)

With the God Level Weapon, the Ji family had a huge advantage in the upcoming segments. Even though the Ai family and the Wu family were supported by the Shentu family, Yun Feng had already robbed the Shentu family's Treasure Mirror. How much capital did they have to support them?

Yun Feng thought for a while and finally made up her mind. If she got the Ji family, she certainly couldn't forget the Fang family either. The Yun family wouldn't ask for anything from the Fang family, but she believed that the master of the Fang family wouldn't reject friendly help.

Very soon, the second round of the competition began. Even though the first round was just for show, the atmosphere was still enthusiastic. The drama was getting better and better, and the second round was just the beginning.

This time, the Ji family was the first to be challenged. The Wu family and the Ai family challenged them one after another. The contestants of the three families were all middle-aged. The members of the Wu family and the Ai family were obviously determined to win. However, when the contestant of the Ji family showed his weapon, the members of the two families were completely dumbfounded! The pupils of the leader of the Shentu family, who was standing at the highest point, shrank fiercely as he stared at that weapon firmly. He clenched his fists tightly. That was the Shentu family's weapon in the Treasure Mirror, and it was even a God-Level weapon!

Once the God-Level weapon was out, the atmosphere at the scene suddenly rose by a level. The weapons of the two contestants of the Wu family and the Ai family were both at the Emperor Level, so they certainly couldn't be the Ji family's match. Even though the Ji family fought two rounds in a row, they won easily! This turn of events made everyone exclaim in satisfaction. Only the Shentu family's master was so angry that his teeth creaked. The Yun family and the Ji family had joined forces. They used the Shentu family's things to rope in someone else! What a Yun family, what a Yun Feng!

The battle between the Fang family and the Baili family next was even more jaw-dropping, because the contestant of the Fang family also took out a God-Level weapon. The eyes of the Shentu family's master were almost bloodshot! That was also the weapon in the Shentu family's Treasure Mirror! Thinking of the Treasure Mirror that had been looted clean, the Shentu family's master was so angry that he almost vomited blood. Seeing his things appear in the hands of someone else, he felt frustrated wave after wave.

Yu Lian was also a bit shocked when she saw that. As far as she knew, it was impossible for these families to have a God-Level weapon. She didn't expect it to really appear. "Hm, third-rate families also have God-Level weapons." Yu Lian's voice was even more sarcastic in the ears of the Shentu family's master. The Shentu family's master's face turned pale. If he couldn't vent his anger in the first round, he would definitely beat the contestant of the Yun family in the second round to death!

The contestant of the Baili family were soon defeated in front of the God Level weapon. The Fang family and the Ji family temporarily regained their advantage. The advantage of the Shentu family was wiped out. The three families were all shocked. They had never thought that the other party would take out a God Level weapon. After all, the Shentu family didn't give them a God Level weapon. It could be said that they were all defeated in confusion.

After two sessions, it was time for the third session between the Shentu family and the Yun family. The leader of the Shentu family had already instructed them not to show mercy. It would be best if they

could kill the member of the Yun family on the ring! The Yun family's representative on the ring was a Grade 2 God who was quite strong among the older generation. The Shentu family's contestant was also at this level. The two of them could be said to be on par. However, when they showed their weapons, the audience was shocked, because the contestant of the Yun family only showed a weapon of the Emperor Level, while the other showed his weapon of the God Level!

"Humph! You gave it to someone else but didn't leave any for yourself? I'd like to see how you die miserably on the ring!" The Shentu family's master looked at the ring coldly with only mockery in his words. The Ji family and the Fang family both had God Level weapons, but the Yun family didn't! This was unexpected. The hearts of the Fang family's master and the Ji family's master also trembled and they thought more about the gifts they received from the Yun family.

This time, the Shentu family wanted to kill the Yun family. After the battle began, the contestant of the Shentu family attacked too fiercely along the way. The contestant of the Yun family could only dodge all the way and didn't even have a chance to attack. Luckily, the contestant of the Yun family had a solid foundation. Even though he was suppressed, he didn't lose his advantage. The contestant of the Shentu family couldn't cause any damage. He was a bit irritable. It seemed that he was going to use his ultimate move to kill the opponent with one strike. Seeing this situation, the member of the Yun family suddenly stepped back. The members of the Shentu family had already prepared everything and were waiting for this move to be used. At this moment, the contestant of the Yun family shouted loudly, "Forfeit!"

What? The head of the Shentu family's temples suddenly pounded a few times. They quit again! At such a time again! The Yun family did this on purpose to embarrass the Shentu family!

There was an uproar at the scene. The Yun family had already forfeited twice in a row! Were they confident that they could win the next three rounds? If something happened, they would fail the challenge! The Shentu family would definitely not let the Yun family go by then. What was the Yun family thinking?

The masters of the Ji family and the Fang family were both a bit confused. Why did the Yun family forfeit twice in a row? Did they have a trump card? Thinking of Yun Feng, the two masters were both helpless. Perhaps Yun Feng was the treasure of the Yun family. She would definitely have something up her sleeve.

"You forfeited twice in a row. The Yun family is quite bold." Yu Lian looked at Yun Feng from above with disdain at the corners of her mouth. If the Yun family was expelled from the Inner Region this time, Yun Feng wouldn't be qualified to fight with her again. She was just from a declined family. How could Yun Feng compare to her?

"Maybe they're at the end of the road." The Shentu family's master sneered. It was good to forfeit. The Shentu family only needed to win one more round to kill the Yun family! Even if the Yun family had a few Yun Feng, it was useless! This time, the Shentu family would completely destroy the Yun family and make it impossible for the Yun family to rise again! As for Yun Feng, the Shentu family's master smiled viciously. He wanted to deal with her himself!

The second round of the competition ended in a rather dramatic result. The Ji family and the Fang family both won once, but the Yun family voluntarily forfeited twice in a row. The situation was truly dangerous. Some people even joked that the Yun family in the third round would still forfeit voluntarily.

Such a theory soon spread widely, but the members of the Yun family didn't care at all. In the eyes of outsiders, the Yun family was already doomed. The Shentu family was sitting steadily as the first-rate family. According to the Yun family's consecutive forfeitures, challenging the Shentu family was simply a joke!

Originally, the third round was for the younger generation to compete, but for some reason, the fourth round was moved ahead of schedule. This was an unexpected move. In a corner of the Yun family's camp, Bai Qingfeng was with Yun Xiang. Even though Yun Xiang was pregnant, she insisted on coming. At first, Bai Qingfeng didn't allow her to come with him, but he couldn't persuade her. Rather than letting the lively Yun Xiang stay in the Yun family alone to take care of the baby, it was better to put her in a range of sight. Bai Qingfeng would be at ease to watch her all the time.

Chapter 1386 Meatball Is the Key to Making Medicine (3)

"The pharmaceutical segment has been advanced." Yun Feng came in and looked at Bai Qingfeng solemnly. Yun Xiang had just lay down when she heard this and immediately sat up. Bai Qingfeng held Yun Xiang's body carefully with an unchanged expression. "Advanced? How?"

Mu Canghai followed Yun Feng in and glanced at Yun Xiang and Bai Qingfeng with his strange eyes. "The Shentu family must've learned that Bai Qingfeng is going to participate in the pharmaceutical segment."

"How annoying!" said Yun Xiang angrily. Bai Qingfeng caressed her back. "Don't be angry. Be careful of the child."

"Silly! How can I not be angry? The Shentu family is truly detestable!"

Bai Qingfeng patted Yun Xiang's chest and said indifferently, "It's the same for me. The result will be the same."

Mu Canghai raised his brows. "It seems that you're confident?"

Yun Xiang looked at her husband curiously. The corners of Bai Qingfeng's mouth curled up slightly. He held Yun Xiang's body carefully and then turned around to look at Mu Canghai. "Don't underestimate me. I'm not worse than Yun Feng in terms of making medicine."

Yun Xiang suddenly hit Bai Qingfeng's head with a crisp sound. The corners of Bai Qingfeng's mouth twitched a few times. Yun Xiang looked at Yun Feng in embarrassment. Yun Feng chuckled. "He's right. His pharmaceutical skills aren't inferior to mine."

"Silly, are you really confident?" Yun Xiang was a bit skeptical. Bai Qingfeng had the urge to roll his eyes and sighed helplessly. "Xiao Xiang, I'm your husband. Do you really not trust me?"

Yun Xiang suddenly blushed. "It's not that I don't trust you It's just that this segment concerns the Yun family"

"Pa!" Yun Xiang slapped him again. Bai Qingfeng held Yun Xiang's hand firmly without changing his expression. "How can you be confident when you're 20% confident?" Yun Xiang roared angrily. Bai Qingfeng's eyebrows jumped a few times. "I'm not done."

Yun Xiang was stunned. Yun Feng was a bit disappointed at first, but she couldn't help but look forward to it after hearing that. Bai Qingfeng glanced over Yun Feng's shoulder and looked at her very

attentively. Meatball, which had been a bit bored, jumped up when Bai Qingfeng stared at it. Its little face instantly became ferocious and it bared its sharp teeth at Bai Qingfeng unhappily.

Yun Feng noticed Bai Qingfeng's gaze and picked up Meatball's body from behind. Meatball's chubby body struggled a few times in the air and its big eyes showed the message, "Don't pick me up like this." Yun Feng ignored it. Meatball could only sweep the back of Yun Feng's hand with its fluffy tail again and again. Yun Feng grabbed the back of Meatball's neck with her finger and lifted its chubby and fluffy body in front of her eyes. Bai Qingfeng pointed forward. "Lend it to me. I can increase it to about 80%."

Borrow Meatball?

Everyone present, including Meatball, was stunned. Yun Xiang looked at Meatball in Yun Feng's hand and then at Bai Qingfeng. "Silly, I advise you not to borrow it. It" It looked extremely fierce, especially its sharp teeth. If it bit

Yun Feng frowned. Meatball, who was in her hand, immediately roared at Bai Qingfeng unhappily after hearing that. "Nana, nanana!" It also extended its little claws from its fur, as if it was going to pounce on Bai Qingfeng and bite him.

"Silly, I don't think you should borrow it." Looking at Meatball's mouth full of sharp teeth, Yun Xiang couldn't help but hold Bai Qingfeng's hand even tighter. Bai Qingfeng chuckled softly. "I remember that you successfully made a grandmaster-level potion after this thing came out in the last potion competition. It can be seen that it gave you decisive help in the process of making medicine."

Yun Feng's black eyes glittered. "You're right, but the way I make medicine is completely different from yours. It's useless to lend Meatball to you."

Bai Qingfeng shook his head. "Your pharmaceutical method is very unique. Even though I still don't understand your principle right now, don't forget that no matter which pharmaceutical method it is, they're fundamentally the same. If it works for you, it certainly works for me."

Yun Feng was a bit helpless. Meatball shook its head like a rattle. "Nana, nana!" Its little body kept twisting and it looked at Yun Feng pitifully with its big eyes. Yun Feng held Meatball in her hand and looked at Bai Qingfeng with her black eyes. "What do you want Meatball to help you with?"

"I certainly can't ask this thing to help me with its sharp teeth. I still have to stay alive to accompany Xiao Xiang." Bai Qingfeng glanced at Yun Xiang gently. Yun Xiang was still a bit nervous. The Magic Beast on Yun Feng's shoulder was more ferocious than any of her contracted Magic Beasts.

"For grandmaster-level potions, every step of making potions must be more precise. If there's any mistake, all your previous efforts will be wasted. I'm still not good at this, so I said I'm only 20% confident. I observed that when you refined the potion, it seemed to be very sensitive to the herbs. I think it can also become the most perfect scales in every step."

Yun Feng's black eyes glittered. She had already understood what Bai Qingfeng meant. "You mean you only asked Meatball to supervise every step of the pharmaceutical process?"

Bai Qingfeng nodded. "That's right. With its supervision, I believe that I can reach perfection with every step. In this way, I can reduce the number of failures. The success rate of a two-star grandmaster-level potion will certainly be 80% or even more."

Meatball's struggling body suddenly stopped and it looked at Bai Qingfeng deeply with its big eyes. Yun Feng was silent. Bai Qingfeng wasn't a simple person. He could tell that Meatball was different from the others from his observation and then deduce Meatball's unique ability. Even though he wasn't completely right, he was almost right!

Yun Feng curled her lips slightly. She could lend Meatball to him, but it depended on Meatball's will. Yun Feng put Meatball in front of her. "Meatball, help him this time."

Meatball blinked its big eyes a few times and snorted with its little nose. Yun Feng smiled helplessly as she twisted her wrist and stuffed an ultimate ore into Meatball's mouth. Meatball glanced at Yun Feng complainingly, but it ate happily. Bai Qingfeng couldn't help but feel shocked when he saw Meatball eat the ultimate ore. It was eating ultimate ores?

#### Chapter 1387 Meatball Is the Key to Making Medicine (4)

Meatball's cheeks were bulging because of the ores. Yun Feng looked at it in amusement. It was truly cute at this moment. It seemed that Meatball had reached an agreement. Bai Qingfeng was also relieved. He smiled lightly. "In the next potion competition, I'll let the Yun family win!"

The pharmaceutical segment was inexplicably advanced. Nobody knew the meaning behind it, but this didn't affect the advancement of forces. The audience didn't matter which segment it was. The arrival of the pharmaceutical segment also brought the advancement of forces to a real climax. Pharmaceuticals were highly valued on this continent, and the existence of pharmacists showed how powerful the backup force of a family was. If a family had a powerful pharmacist, this family would have a lot of things.

Due to the special nature of pharmaceuticals, the seven families competed together. Holding a pharmaceutical competition at the same time could also satisfy the audience psychologically. It was also very interesting that the pharmacists of the seven families could compete together. The seven families could make pharmaceuticals together. They only needed to watch the result of between the families challenging each other.

On this day of the pharmaceutical round, there was still a sea of people. The emotions of the audience were stirred to a point as they discussed spiritedly. There was a lot of suspense in the pharmaceutical round. It was hard to predict what level the potions refined would be and if astonishing potions would appear.

On the wide platform, there were already seven long tables at this moment. All kinds of basic tools needed for potions were placed on them. The seven long tables looked quite imposing from afar, making people look forward to today's competition unconsciously. The pharmaceutical masters of the seven families were also waiting for this good opportunity to fight.

Very soon, after the announcement of the leader of the Shentu family, the contestants of the seven families went on stage. Many of the seven of them were unfamiliar. It seemed that many families had invited so-called external help. The identities of the seven of them had to be made public. The Baili family borrowed a pharmacist from the Shentu family, while the Ai family and the Wu family used the pharmacists of their families. The Ji family also had the pharmacist of their own family, and so was the Fang family. In comparison, the Yun family and the Shentu family were the most special. The Yun family

called Bai Qingfeng. As the son-in-law of the Yun family, it was reasonable for Bai Qingfeng to come. However, the pharmacist of the Shentu family obviously had never appeared in the Shentu family and his aura looked extraordinary. He said that he had a relationship with the Shentu family, but anyone with a discerning eye could tell that this wasn't the case.

Yun Feng looked at the participating pharmacist of the Shentu family. He was a middle-aged man and should have quite a lot of achievements in the field of pharmaceuticals. Among the participants of the seven families, Bai Qingfeng was the youngest. The youngest members of the other families looked almost forty. Judging from this, Bai Qingfeng seemed to be the most unreliable.

"The son-in-law of the Yun family?" The middle-aged man, who was representing the Shentu family, glanced at Bai Qingfeng with obvious disdain in his eyes. Perhaps Bai Qingfeng, who was so young in his eyes, wouldn't have any achievements in the field of medicine at all. Bai Qingfeng raised his brows and glanced at him with his black eyes, but didn't say anything. The middle-aged man sneered after seeing that. "Kid, do you really think you can beat me with your ability? Do you know what level of pharmacist I am?"

Bai Qingfeng fiddled with the equipment on the table and examined it carefully again. Then, he said lazily, "What level of pharmacist are you? It depends on what potions you can make. Who doesn't know how to talk?"

The middle-aged man was startled. Then, he sneered. "You should forfeit this time. Didn't you forfeit the last two times?"

Bai Qingfeng chuckled. "That's the Yun family's business. It has nothing to do with me. I won't forfeit." A glint of light flashed through his raised black eyes. The middle-aged man snorted in disdain and didn't say anything else. The members of the Yun family, who were watching the battle on the side, were all a bit nervous. Yun Xiang looked at Bai Qingfeng on the platform. "Silly guy, I'm counting on you."

Soon, the pharmaceutical segment officially began. The seven pharmacists all took out the herbs. The rule was very simple. Whoever made the potion with the highest level would be the winner! As the pharmacists began to move, the pharmaceutical segment officially began! Yun Feng looked at Meatball on her shoulder with a reluctant look and poked its fluffy body with her finger. Meatball finally stood up reluctantly. Its fluffy tail swayed gently in the air and its little body jumped, turning into a straight black line that rushed onto the platform, landing on Bai Qingfeng's long table in the blink of an eye.

Bai Qingfeng glanced at Meatball and heaved a sigh of relief. Meatball was so fast that nobody noticed it at all. Meatball glanced at the herbs in front of Bai Qingfeng with its big eyes and yawned. It sat down on the long table with its little butt, as if it was saying, "I'll supervise you." Bai Qingfeng smiled helplessly. He was about to start preparing to make potions when he glanced sideways. The herbs on the table put by the pharmacist of the Shentu family surprised Bai Qingfeng slightly. As expected, he was also planning to make a two-star grandmaster-level potion!

Bai Qingfeng chuckled. They were both two-star. It seemed that he had to create a perfect quality to be better, or a three-star grandmaster potion! "Nana!" Meatball shouted in dissatisfaction. Bai Qingfeng suddenly came back to himself and put on a smile. He immediately abandoned all the distracting thoughts in his mind and focused on making medicine. The seven pharmacists on the platform began to

make potions next to their tables. The venue gradually entered a quiet atmosphere. Everyone's eyes were focused on these pharmacists and nothing else.

Yun Feng looked at Bai Qingfeng on the platform and Meatball sitting at the long table with her black eyes. She couldn't help but feel worried in her mind. Meatball had never communicated so directly with anyone. Would Bai Qingfeng really be fine? If Meatball was enraged and gave Bai Qingfeng a bite. Thinking of this possibility, Yun Feng felt a bit of a headache. Mu Canghai, who was next to her, said with a cold tone that seemed to bring a chill. "If Meatball agrees, there shouldn't be any problem."

Yun Feng looked at Meatball's chubby back. She hoped so Yu Lian, who was on the platform, didn't look at the few pharmacists like the others. She stared at the white fluffy figure on Bai Qingfeng's long table firmly. Yu Lian stared at it for a long time and the doubts in her mind became greater and greater. The Shentu family's master turned around with a smile. "What are you thinking, Miss Yu Lian?"

#### Chapter 1388 Bite You to Death (1)

Yu Lian glanced at the Shentu family's master unhappily when her train of thought was interrupted. "What's with the Magic Beast on the long table of the Yun family's participating pharmacists?"

The Master of the Shentu family was stunned. He glanced over and his pupils shrank slightly after seeing Meatball. "That's Yun Feng's Magic Beast. Why is it there?"

"Yun Feng's Magic Beast?" Yu Lian suddenly raised her brows and looked at Meatball a few more times. She couldn't tell what species this Magic Beast was! She had never seen it before. That Magic Beast belonged to Yun Feng. Even though it looked extremely ordinary and wasn't aggressive, Yu Lian knew that that small ball must have astonishing power when it burst out. Yun Feng had such a Magic Beast!

"If it's Yun Feng's Magic Beast, why did it appear next to this pharmacist?" Yu Lian raised her brows and asked. "In that case, is it against the rules?"

The Master of the Shentu family was also very frustrated. It must be Yun Feng's intention that Yun Feng's Magic Beast appeared here. Did the Yun family really have a backup plan during the pharmaceutical stage? However, the appearance of the Magic Beast didn't violate the rules. There was nothing the Master of the Shentu family could say on this point.

Yu Lian grunted coldly and glanced at Meatball again. What exactly was this Magic Beast. She had seen a lot of illustrations of Magic Beasts in the Naxi Clan, but this one wasn't any of them. Yun Feng, it seemed that you're indeed not easy to deal with.

"Nana!" Meatball, who had been sitting at the long table, finally stood up. At this moment, Bai Qingfeng had already divided the herbs he needed into three parts. He was about to begin the first step with the first part. Meatball walked over at this moment. Bai Qingfeng glanced at Meatball suspiciously and saw that it was staring at the herbs in his hand with its big eyes. Bai Qingfeng put the herbs on the table and Meatball snorted. It slowly walked over and pushed some of the herbs aside with its fluffy tail. Meatball nodded its little head. Bai Qingfeng finally understood what it meant and put the herbs aside. It seemed that Yun Feng's Magic Beast had already measured the herbs he needed.

Meatball sat down again and watched Bai Qingfeng's movements with its big eyes. The middle-aged man on the side couldn't help but tremble when he saw Meatball. He couldn't help but sneer when he

saw the interaction between it and Bai Qingfeng. You want to beat me with that Magic Beast? What a joke!

Bai Qingfeng didn't care what other people thought. Under Meatball's supervision and occasional help, he continued the next step steadily. The atmosphere at the scene became quieter and quieter. Only the pharmacists kept making all kinds of sounds. The Yun family and the Shentu family both chose the two-star grandmaster potion, which was quite difficult, while the other five families obviously couldn't reach this level.

The other five families also chose master-level potions, but there was a difference between their stars. Judging from the technique and proficiency of making potions, it was obvious that the Yun family and the Shentu family were better. The middle-aged man representing the Shentu family also realized that the kid he looked down on at the beginning was really qualified to be his opponent.

There was a very strict watershed between master-level potions and grandmaster-level potions. The difference between the two of them was also very huge. Grandmaster-level pharmacists were rare. Among the few families in the Inner Region, only the Shentu family and the Yun family had grandmaster-level pharmacists.

When the pharmacists of the other families began to take a step, the two pharmacists of the Shentu family and the Yun family still stopped at the first step. The grandmaster-level potions weren't about speed, but patience. Time passed quietly. The expressions of the pharmacists on the stage didn't change at all, and they were still as serious as before. Some pharmacists failed and immediately started a new round of manufacturing, while some pharmacists had a smooth journey with a smile on their faces.

As time passed, the results of the master-level potions should be out. As expected, the pharmacists of the other five families finished making the potions one after another. Only the two pharmacists of the Shentu family and the Yun family were still busy.

The pharmacists of the other five families glanced at them and smiled wryly. Those two families seemed to be making grandmaster-level potions. They didn't have the ability. It seemed that the Yun family was truly the only one who could challenge the Shentu family.

The potions of the five families were all made and the results were out. The Baili family obviously beat the Fang family because of the help of the pharmacist of the Shentu family. Even though the pharmacist of the Fang family weren't bad, he wasn't as strong as the member of the Shentu family after all. This way, the competition between the Baili family and the Fang family was two to one. As for the Wu family, the Ai family and the Ji family, the Ji family was certainly not a second-rate family for nothing. The Wu family and the Ai family, who didn't get any help in the field of potions, could only lose and the Ji family won easily.

Once the results of the five families were out, everyone's attention naturally focused on the two people who were still fighting. The middle-aged man, who was representing the Shentu family in the competition, didn't look nervous at all and the steps he took were also methodical. The leader of the Shentu family, who was standing on a high ground, watched with a smile and his eyes were full of pride. This man wasn't a member of the Shentu family, but a subordinate of that person! With such a pharmacist holding the fort, it was impossible for the Shentu family not to win! The Yun family sent out

such a young kid. Even though Yun Feng had her Magic Beast, he wouldn't give Yun Feng any chance to play tricks! He would keep a close eye on her!

Yun Feng noticed the wolf-like gaze of the Shentu family and the corners of her mouth curled up slightly. She wouldn't take action at all in the potion competition this time. Those who were going to take action had already gone up. Looking at Meatball's chubby little body and its fluffy tail that kept swaying gently behind her, Yun Feng smiled lightly. With Meatball here, Bai Qingfeng definitely wouldn't lose this time!

"Poof" Black smoke suddenly rose. Everyone looked away, but Bai Qingfeng was the one who made a mistake! The middle-aged man on the side sneered. A kid was a kid after all! Bai Qingfeng, on the other hand, looked at this scene with a sullen face. He had just started grinding, but he had never thought that there would be a reaction between the herbs. In an instant, all his efforts were wasted!

#### Chapter 1389 Bite You to Death (2)

Meatball grunted in disdain and yawned. The corners of Bai Qingfeng's mouth twitched. He put away the burnt powder in front of him and started picking up the herbs again. The members of the Yun family were all anxious when they saw Bai Qingfeng make a mistake, and so was Yun Xiang. The fool made a mistake! Even though mistakes were common, it was still

While everyone was on tenterhooks, Yun Feng had a faint smile on her face. Looking at Bai Qingfeng's second attempt on the stage, Yun Feng chuckled. Yun Xiang next to her said, "Yun Feng, you're still smiling. You fool has already made a mistake."

Yun Feng turned around and looked at Yun Xiang with a smile. "He won't fail."

Yun Xiang was stunned. "How can you be so sure?"

It was precisely because she understood that she believed that Bai Qingfeng wouldn't lose.

"Kid, I think you should forfeit," said the middle-aged man. Bai Qingfeng raised his brows and didn't say anything as he continued what he was doing. The middle-aged man snorted coldly and the two of them continued what they were doing. The other five pharmacists, who had already finished making potions, didn't leave either. Instead, they became the most attentive bystanders. After all, the process of making potions at the grandmaster level was rare and they could learn a lot.

A day and a night had passed, but the two people on the stage still hadn't finished making the medicine. Even though they still had to wait, the audience were quite energetic. They didn't feel tired at all staring at the two people on the platform. Another day had passed. Bai Qingfeng had already reached the last step. Before the last step began, Bai Qingfeng took a deep breath and Meatball also took a deep breath. The last step, if it succeeded, would be perfect!

"Hahaha, hahahaha!" A burst of laughter suddenly came from the mouth of the middle-aged man on the side. Bai Qingfeng rolled his black eyes and saw that the middle-aged man had already finished the last step of the fusion. A layer of clear liquid was slowly flowing into the bottle!

That's Bai Qingfeng's pupils shrank and Meatball narrowed its big eyes slightly. Yun Feng's black eyes darkened. A perfect two-star grandmaster potion! The strength of this fighter of the Shentu family was indeed extraordinary. The situation had already become more and more serious!

“He succeeded! And it’s even of perfect quality!” The five pharmacists watching all exclaimed. A perfect-quality two-star grandmaster-level potion was rare. It was impossible to make it without the right time, place and people. Also, luck was important. If any of them was missing, all efforts would be in vain!

There was a huge clamor at the scene. The corners of the Shentu family’s mouth curled up in satisfaction. A two-star perfect-quality grandmaster potion. Pharmacist of the Yun family, let’s see how you surpass that!

Bai Qingfeng’s face darkened. He didn’t expect him to make a perfect quality potion! If he couldn’t make a three-star grandmaster-level potion right now, the Yun family would definitely lose! Bai Qingfeng looked at the herbs in front of him that had already been weighed. His black eyes darkened fiercely as he waved his hand and all the powder fluttered in the wind!

Everyone was quite shocked to see this scene! The middle-aged man burst into laughter. “Kid, you even dissipated the powder. It seems that you’re going to forfeit?”

The corners of Bai Qingfeng’s mouth curled up coldly as he glanced at the middle-aged man with his black eyes. “Forfeit? When did I say that I want to forfeit?”

The middle-aged man was startled. Bai Qingfeng then flipped his hand and the herbs appeared again. The herbs this time were completely different from the ones he chose just then. The middle-aged man frowned when he saw this. Was this kid really going to try the three-star?

Yun Feng’s black eyes glittered when she saw the herbs Bai Qingfeng took out. Was Bai Qingfeng going to try the three-star of the grandmaster level? In case of accidents, Yun Feng gave Bai Qingfeng a formula for the three-star of the Grandmaster Level and the herbs he needed. It was just a portion. The two of them had made such preparations back then, but they didn’t expect it to come in handy!

“Three-star grandmaster level? I’m afraid you’re not strong enough! You’d better not show off!” The middle-aged man said coldly. Bai Qingfeng only smiled slightly and ignored his mockery. He looked at Meatball in front of him with his black eyes. When the human and the beast looked at each other, Bai Qingfeng took a deep breath. “I only have one chance on the three-star grandmaster level. I don’t expect you to help me like you helped Yun Feng, but this time I must succeed!”

Meatball’s big eyes glittered and its fluffy tail swept a few times. Bai Qingfeng chuckled and took a deep breath. “Three-star grandmaster level Begin!”

Meatball suddenly jumped in front of Bai Qingfeng and glanced at all the herbs with its big eyes. Its fluffy tail began to help him sort them. Bai Qingfeng chuckled. “Thank you.” Meatball snorted and helped Bai Qingfeng determine the exact amount of herbs. Bai Qingfeng officially started making the three-star potion.

At this moment, everyone’s attention was on Bai Qingfeng. The Shentu family had already achieved the perfect quality of two-star. If the Yun family wanted to win, they must make a three-star potion. Would they really succeed? That was three-star!

The Master of the Shentu family also looked at Bai Qingfeng a bit nervously. Could this kid really succeed? A three-star Grandmaster level potion, did he really have this ability? Yu Lian also narrowed

her eyes slightly. How would the Yun family be able to make a three-star Grandmaster potion? Even the pharmacists of the Naxi clan might not be able to succeed in one try!

Bai Qingfeng was calm and his movements were methodical. There wasn't a trace of nervousness on his face at all. Even his breathing was slow and long. Meatball made sounds from time to time, reminding him where he made a mistake. Bai Qingfeng's every move was extremely careful, because he only had one chance. If he lost this chance, he wouldn't have another one.

"Nana." Meatball nodded and looked at the powder in front of it with a satisfied expression. Bai Qingfeng's forehead was covered in sweat. Seeing Meatball nod, he was relieved in his mind. It wasn't easy to satisfy this little thing. The last step of the fusion of the potion was the most important. The fusion process was also a kind of torture. For a pharmacist, it would be quite painful if there was a mistake in the last step of the fusion.

He put all the powders together and the final step of fusion officially began. Bai Qingfeng only stared at the powders with his black eyes. He had to make sure that he knew every tiny process clearly. Even if the beginning was very smooth, he couldn't relax at all at this last step!

#### Chapter 1390 Bite You to Death (3)

Meatball's body also floated in the air. It looked at the various powders that were gradually fused with its big eyes. A glint of darkness flashed through its eyes and it slowly closed its eyes, as if it was waiting for the result. Everyone held their breath and focused, looking forward to this moment. Would it be successful enough? Would the Yun family win?

As time passed, the fusion of the potions slowly continued. Bai Qingfeng's hands were covered in sweat. He was more nervous than anyone else. Bai Qingfeng observed the fused liquid carefully and suddenly found that another tiny force seemed to have slid in quietly, entering the liquid to help the fusion reach the most perfect coordination!

Bai Qingfeng raised his head in shock and looked at Meatball, which had its eyes closed. Was that it? It could easily interfere with the production of the potion and even infiltrate his energy cleverly during the fusion! What exactly was the Magic Beast on Yun Feng's shoulder?

As the power was added, the fusion became smoother and smoother. The color of the liquid also became clearer and more moving. There were even faint waves of power surging out of the liquid and spreading slowly!

The middle-aged man was shocked. He certainly knew what this meant. This kid really made a three-star grandmaster-level potion. How was that possible?

Yun Feng slowly closed her black eyes. Immediately, the potion that Bai Qingfeng was fusing on the platform emitted light. Yun Feng felt the various elements that were constantly being fused and the corners of her mouth curled up. Meatball was helping him. According to Yun Feng's understanding, the elements were perfectly fused. This was what Meatball was doing right now. It was fusing the imperfect elements perfectly so that the quality of the potion would definitely reach perfection!

More and more obvious waves were emitted from the inside of the potion. Bai Qingfeng felt that his heart was beating more and more violently. He knew what this meant. It meant that the three-star potion of the Grandmaster Level was about to succeed, and it was even of perfect quality!

The pharmacists of the other five families were dumbfounded. They couldn't believe that such a young Bai Qingfeng could make a three-star potion of the Grandmaster Level! The leader of the Shentu family stood there with an awful expression. It seemed that the Yun family was going to turn the tide this round. In the end, they were still one step away! It wasn't easy to take down the Yun family overnight!

Yu Lian was greatly shocked in her mind. How was that possible? He could even succeed with a three-star potion!

After the energy waves kept spreading to the extreme, Meatball suddenly opened its black eyes. Bai Qingfeng immediately opened the bottle quickly and put the potion into the bottle. The extremely clear and transparent liquid slowly flowed in the bottle, as if it was alive. Energy couldn't help but spread out. Bai Qingfeng looked at the bottle of potion in his hand and smiled slowly. He had succeeded after all!

Grandmaster Potion, three-star, perfect quality!

"Idiot, you did it!" Yun Xiang stood up excitedly with slightly red eyes. She could finally put down the heart she had been worrying about for Bai Qingfeng. The members of the Yun family also smiled. Bai Qingfeng, you're indeed good!

Bai Qingfeng glanced at Meatball with a smile as he held the potion. "Thank you for your help."

Meatball grunted and turned its head. Bai Qingfeng smiled helplessly. At this moment, the middle-aged man, who was extremely shocked, suddenly shouted angrily, "I don't believe that you have the capability to make a three-star grandmaster-level potion, not to mention it's of perfect quality! It's all this thing's doing!"

A huge hand suddenly darted over and was about to grab Meatball's body. Bai Qingfeng's face suddenly darkened and he immediately stopped it. Yun Feng also stood up abruptly and wanted to rush forward, but in this split second, none of them moved as quickly as Meatball!

"Nana!" A furious shout came as a figure faster than light pounced on the middle-aged man who extended his hand. Bai Qingfeng looked at Meatball's extremely fast speed in shock. The man was also extremely shocked. The next second, a scream resounded throughout the entire venue!

"Argh" The middle-aged man's widened black eyes were full of fear. He wanted to touch his neck with his hand, but his body trembled and he directly lay down to the ground. There was a huge piece of flesh that had been completely bitten open on his neck and blood was oozing out! And a black shadow suddenly stopped in the air. Meatball's sharp teeth were stained with blood. The external help of the Shentu family was dead!

The external help of the Shentu family fell next to his long table in blood. Everyone was completely shocked by the sudden scene. Bai Qingfeng looked at the middle-aged man who quickly died on the ground in shock and subconsciously glanced at Meatball. He was shocked by Meatball's ferocious expression and the speed at which it burst out. In just one move, this powerful pharmacist died!

"You must give me an explanation for this, or I won't stop!"

Yun Feng raised her brows and sneered. "Explanation?" Meatball on her shoulder spat out the blood in its mouth in disdain. The Master of the Shentu family looked at Meatball extremely viciously. "Do you know the identity of this external help? How can your Magic Beast kill him?"

"What does his identity have to do with me? Master Shentu, don't forget that this is the pharmaceutical stage. Nothing that happened up there is what we can predict. Why should I give you an explanation?"

The Master of the Shentu family was completely speechless by what Yun Feng said. His face turned black and red. Yun Feng was right. This was a contest of the advancement of forces. There was no need to explain anything to anyone. It was fine if the person who died was a member of the Shentu family, but he wasn't from the Shentu family! He was from the power behind the Shentu family. Besides, he was such a precious pharmacist. It was already good enough that he was lent to the Shentu family, but he died just like that!

Just thinking about this gave the Shentu family's master a headache. He would definitely push all the blame to Yun Feng. If it weren't for her Magic Beast, this person wouldn't have died at all! Once the power behind him investigated, the Shentu family would be in huge trouble even if they were not wrong! The Shentu family's master glanced at Yun Feng viciously and waved his hand. The pharmacist lying on the ground was moved down by the Shentu family.
