

Summoner 541

Chapter 541: Magic Beast Auction (3)

This was a purely ornamental Magic Pet. It should be an appetizer. Naturally, it couldn't attract the interest of a summoner, but the others were quite interested. Xia Qing was a kid after all, so she certainly couldn't resist such a cute little thing. She stared at the Golden Rats with her big eyes, looking like she liked them very much.

"Do you like it?" Yun Feng asked in a low voice, but Xia Qing shook her head. Yun Feng certainly knew that this kid didn't want to cause trouble for her. She felt very touched.

"The starting price is one high-level ore. Let the auction begin," said Ling casually. Someone had already made their bidding and the first round of the auction began.

Naturally, the Magic Beast Auction didn't use money as a currency. Everything was based on ores. There were also some people who went to exchange ores just for the Magic Beast Auction. If there were any special requirements, they would explain in private that everything was sold at the price of ores.

The last things Yun Feng lacked were ores. Putting aside the ones her ancestor left for her and the pile of ultimate ores she got when she explored the gods' relics, she didn't have to worry at all as long as she had the Ultimate Crystal Beast.

The Ultimate Crystal Beast had been staying quietly in Yun Feng's Dragon Palace. Yun Feng didn't put the Crystal Beast in her bracelet, fearing that Meatball would eat it up. The Ultimate Crystal Beast had been sleeping ever since it entered the Dragon Palace, which saved Yun Feng a lot of energy.

The price in the main hall kept rising. Only a few people were bidding, while the others looked uninterested. In the end, the price rose to fifty high-level ores, which was already a sky-high price for an ornamental Magic Pet.

"Fifty high-level ores. Anyone else?" asked Ling casually. Yun Feng glanced at Xia Qing's face and pressed the button next to her. Ling glanced at her. Yun Feng opened her mouth and said, "One hundred high-level ores."

Everyone in the hall took a deep breath and looked around. Who was this? A hundred high-level ores! Was he some rich guy?

Ling smiled casually. "One hundred high-level ores. Anyone else?"

Nobody in the hall dared to bid anymore. Was that person crazy to buy an ornamental Magic Beast with a hundred high-level ores? Yun Feng glanced down indifferently. Xia Qing was obviously a bit dumbfounded. Why did her teacher buy this rat? It was useless for her, wasn't it?

One hundred high-level ores. The first round of the Magic Beast Auction already had an astronomical price. Everyone's face darkened a bit. It seemed that there were really quite a lot of people who came to compete today. The pressure was huge.

The level-9 summoner, who had been sitting there, sneered. "Just a rich and extravagant playboy." His rather cold face smiled with disdain. Yun Feng certainly saw the mentality of the people below. It was their business to think whatever they wanted.

"One hundred high-level ores, three times. Deal!" The first Magic Beast was sold at a sky-high price. This was undoubtedly a good start and also brought an inexplicable pressure. Yun Feng pressed the button again and Xia Qing quickly said, "Why do you want to buy it, teacher? You don't need it!"

Qu Lanyi chuckled and caressed Xia Qing's head. "Qingqing, your teacher bought that for you."

Xia Qing was stunned. Yun Feng smiled and didn't say anything else. She turned around and continued to watch the auction. Xia Qing stood there in a daze, and her nose was a bit sore. Which teacher would be willing to spend a hundred high-level ores to buy something for their disciple? Even if they cared for their disciple, they wouldn't do that!

Yun Feng only felt a small body suddenly jump into her arms and she quickly hugged it. Xia Qing hugged Yun Feng, looking like she was about to cry. Yun Feng chuckled. Wasn't this kid too emotional? For a summoner, such a personality might be a bit too weak. It seemed that Xia Qing's personality still needed to be polished.

The auction continued. The few Magic Beasts that were pushed up also gradually entered the auction and became more and more aggressive. Yun Feng didn't participate in the bidding, which made the people below feel relieved. That guy who offered a sky-high price finally stopped talking. Perhaps he didn't have any ores left.

Magic Beasts were bought one after another at a satisfactory price. Some were summoners, some were tamers, and some were people of other professions. The atmosphere of the Magic Beast Auction became more and more heated under the influence of Ling. The people who bid also seemed to be in a crazy state, but there were still some people who were calm and hadn't made a move yet. For example, Yun Feng, who didn't participate anymore, and the level-9 summoner who had been silent since the beginning.

Yun Feng certainly noticed this too. The level-9 summoner sat there steadily. No matter how much people around shouted and how enthusiastic they were, she didn't show any interest in the Magic Beasts no matter how tempting they were. It seemed that she was here for another target. Yun Feng understood that the good stuff must be left for last. This woman was quite patient.

They had already auctioned ten Magic Beasts along the way. There were all kinds of Magic Beasts and some of them were of good quality, but they could only be considered excellent. Among the ten Magic Beasts in the auction, although there were also wind-element Magic Beasts, their qualifications could only be considered average. Yun Feng didn't make a move either. After all, she must give the best to Xia Qing.

At this point, everyone knew that the real highlight of the Magic Beast Auction was coming. After delivering the tenth Magic Beast, Ling cleared his throat and said, "As you know, the Magic Beast Auction always surprises you, and this time is no exception. The three Magic Beasts that are going to be auctioned next, with their bloodline and aptitude, are all rare species. If you like them, please give it

your all. After all, you can't see them elsewhere. If you miss this opportunity, you won't be able to see them again."

After Ling said that, the atmosphere became heated again. Some people couldn't wait any longer and shouted, "Take it out!"

Ling smiled casually and glanced at the people in the hall. "These three Magic Beasts are all rare species. Their price certainly won't be comparable to the ones in front. The lowest price is fifty ultimate ores." As soon as he said that, the people in the hall gasped again. Fifty ultimate ores? Damn! That's unreasonable!

The level-9 summoner's expression also tightened. Fifty ultimate ores? A hint of embarrassment flashed on her cold face.. In the end, she slowly heaved a sigh of relief. She was going all out!

Chapter 542: Magic Beast Auction (4)

"This price is quite reasonable. After all, they're all rare species. It took a lot of effort to show them in front of everyone. Fifty ultimate ores as the starting price, and each one is the same. Please do what you can. If you can't pay the price after you make the bidding, the Summoning Union won't let you get away."

Although Ling's words were gentle and polite, they sounded very solemn in the ears. Some people who wanted to make a bid without the ores immediately stopped and didn't say anything else. The hall also fell into silence. So far, the starting price of 50 ultimate ores had already reduced the number of people competing to a small extent. After all, only a few people could afford such a price, and most of these people were summoners.

Summoners were rich. No matter where they were, their status and identity as a summoner would be respected. There would also be people who were willing to spend a large amount of money to rope in their relationship with you. Some summoners were all energized at this moment. Their part of the auction had just officially started.

Yun Feng chuckled. The Summoning Union was indeed on their side. They set such a high starting price that others couldn't participate. If the ultimate Magic Beasts fell into the hands of someone other than the summoner, the Summoning Union would probably be devastated.

Ling clapped his hands, and the staff at the back of the auction stage slowly pushed out a giant cage. This cage was the largest among all the cages that had been presented, and also had a curtain on the outside. Such a huge cage immediately aroused everyone's curiosity. What exactly was inside the cage?

Yun Feng also looked at it with curiosity. Such a huge cage represented the enormous size of this Magic Beast. Usually, the strength of a giant Magic Beast was extraordinary. For example, Lan Yi transformed into the size of a griffin, which was even larger than this cage.

Ling walked to the side of the cage and slowly lifted the white curtain covering it. The Magic Beast in the huge cage was finally about to appear in front of everyone's eyes. As the Magic Beast's body was revealed, everyone's breathing also became tighter and tighter. When the curtain was completely removed, the Magic Beast in the cage was completely revealed in front of everyone's eyes.

Lan Yi froze, and his blue eyes glittered. Little Fire noticed that something was wrong with Lan Yi. It frowned and asked, "What's wrong?"

Lan Yi stared at the giant Magic Beast in the cage and said slowly, "It's my kin."

"The Flower Eagle. It's a rare species among the eagles, second only to the griffins. It's a wind-element Magic Beast. The bloodline of the Flower Eagle is pure and weak. The chance of reproduction is only ten percent, and the number of Flower Eagles that survive is even fewer. As for why the Flower Eagle is a rare species among the eagles, everyone should have heard about it." Ling put on a meaningful smile. Lan Yi heaved a sigh. "It's an illusion."

"There are engravings on the wings of the Flower Eagle that are similar to that of the griffins. The engravings of the griffins are powerful, but the engravings of the Flower Eagle can make people hallucinate."

The eagle in the cage moved slightly. There was no color on the surface of its body. It had pure white feathers and its eyes were covered. Unlike the griffin which had a lion's head, the Flower Eagle looked like a pure eagle.

The size of the cage limited the eagle perfectly. Its wings couldn't be stretched at all, so it was impossible to know about the so-called illusion. However, the summoners couldn't possibly get fake goods.

"Fifty ultimate ores for a start. If anyone is interested, you'd better start right away."

The scene froze for a moment. For a moment, nobody made a bid. Yun Feng also stayed silent, but she was determined to win. She must get the Flower Eagle, which was second only to the griffin!

Xia Qing looked at the Flower Eagle and was shocked by its charm and magic. The young Xia Qing might not be able to understand the mysterious and powerful abilities of the Flower Eagle. She was simply attracted to it.

Ling wasn't in a hurry as he stood on the stage and waited with a smile. Yun Feng knew in her mind that even though she had the capital, she couldn't squander it recklessly. She had to exchange the least capital for the greatest value.

"One hundred ultimate ores." A serious voice echoed in the entire hall. Yun Feng immediately understood that the voice wasn't from someone in the hall. It came from someone who was hiding in a high-level room like her!

Ling slowly put on a smile. "A hundred ultimate ores. Is there anyone who offers a higher price?" The people in the hall were a bit dumbfounded. Even some summoners had a change of expression. They thought they still had some competitiveness, but the price had been raised to such a high level! A hundred ultimate ores! They wouldn't be able to save so many in their entire life! Ultimate ores weren't like worthless cabbages on the street. How could they bid like this?!

"One hundred and one." Yun Feng's voice echoed in the hall again. Little Fire couldn't help but laugh, and Qu Lanyi couldn't help it either. Xia Qing looked at her teacher with admiration in her eyes.

Ling's expression instantly became awkward, and the people in the hall were also stunned. Then, a few of them couldn't help but laugh. One hundred and one? Who exactly made such a hilarious bid?

"One hundred and one. Is there a higher bid?"

"150!" It was that voice again. Yun Feng moved her body lazily. "151."

"200!"

"201."

"250!"

"251."

The two of them shouted one after another. Yun Feng offered one more ore than the other party every time. It was more of a provocation than a bid. Qu Lanyi was already overjoyed. He laughed until his stomach hurt and looked at Yun Feng affectionately. The woman he liked was indeed extraordinary.

"500!"

"501."

The bidding continued and the price kept rising. The people in the hall who were smiling couldn't smile anymore. Their hearts couldn't bear such a price.

"800!" A roar came. Apparently, the other party was already enraged by Yun Feng's provocation. Everyone in the hall gasped. Oh my god, eight hundred! Eight hundred ultimate ores!

Ling still had that faint smile, but there was delight all over his eyes. As expected, she lived up to everyone's expectations. Yun Feng's voice sounded again.. "801."

"The friend who's bidding against me offers one more ore than I do every time. Do you have no confidence? Isn't it too boring to bid like this?" The other party couldn't stand it anymore. Even though his voice was calm, the suppressed anger in it was obvious that he was on the verge of collapse.

Yun Feng put on a smile. "If you think so, just tell me your highest price. If I can't afford it, I'll give it to you."

"Humph!" A heavy snort sounded. "A thousand!" With uncontrollable pride, the voice spread throughout the hall. Some of the people in the hall shivered. A thousand ultimate ores! A sky-high price! A real sky-high price!

Yun Feng was silent for a while, and the other party suddenly burst into laughter. "If you don't have the capital, don't bid against other people and embarrass yourself in the end! What are you waiting for? Hurry up and bid!"

Ling, who was standing on the auction stage, didn't take the other party's words seriously. He asked slowly, "My Lady, do you still want to bid?"

Yun Feng chuckled as her cold voice echoed in the hall. "1,500. You're truly generous. I'm impressed."

Everybody twitched hard again. MyGod! 1,500 ultimate ores! I'll be satisfied with one percent of those!

"F*ck, you're messing with me!" Following the furious roar, a powerful aura was released from a certain place and pressed towards Yun Feng. Yun Feng's expression was slightly cold as mental strength surged out of her body abruptly, blocking the other party's aura. It then turned into an extremely strong impact force and smashed fiercely in the direction of the attack!

The energy waves of the two people collided fiercely. Although there was no physical attack, it caused a strong tremor and the entire hall shook a few times. Ling's voice came. "Please restrain yourselves. The auction is still going on! The highest bidder wins. Is there anyone else who wants to bid higher?"

The other party didn't say anything. A thousand was his highest price, so he certainly couldn't bid again. Yun Feng won the Flower Eagle with the price of 1,500 ultimate ores, which gave the other people present a clear understanding. This was an auction that belonged to a small group of people. They were just an audience at best.

Yun Feng won the Magic Beast for 1500 ultimate ores, which set a new high. The record holder of the auction couldn't help but click his tongue. This was the highest price in the history of the Magic Beast Auction!

Yun Feng was remembered by everyone for the two high prices. Even though nobody saw her, they knew that she must have a lot of money. She might be someone from the three halls!

The second Magic Beast was a fire-element Magic Beast. Its species was quite rare, which caused a craze. Yun Feng, who contracted Little Fire, certainly wouldn't change her Magic Beast. Xia Qing was only a wind-element Magic Beast and didn't need a fire-element Magic Beast. Yun Feng didn't participate in the bidding for this Magic Beast. Without a strong competitor like Yun Feng, the level of bidding was obviously much lower than before. The person who shouted for a high price just then also didn't make a sound. She was probably just targeting the wind-element Magic Beast.

There were also double-element summoners, but they were few. Yun Feng, as a five-element summoner, was probably the first. The second Magic Beast was sold for only five hundred ultimate ores. Ling was obviously a bit dissatisfied. After all, the price was much lower than the one thousand and five hundred just then.

However, it couldn't be forced. After all, only those who needed fire elements would bid. The success depended on whether the auction house could get the Magic Beasts of all other elements.

The second one was pushed down, followed by the third one. When the staff came up, they were holding an exquisite box in their arms. They put the box on the stage very carefully and retreated. Ling stood next to the box and gently touched the edge of the box with his finger.

"It's very rare to see water-element Magic Beasts on this continent. After all, it's difficult for water-element Magic Beasts to live on land. You have to go to a specific area to find such Magic Beasts. Among the water-element Magic Beasts, the merfolk race is the most crazy."

Right after Ling said that, the atmosphere at the scene suddenly froze for a few seconds. Yun Feng was also stunned. The merfolk race was a Magic Beast race that wouldn't appear on the continent. They

lived at the bottom of the Endless Ocean. That mysterious and terrifying ocean was a place that humans couldn't step into!

The League of Summoners could even get the Magic Beasts of the merfolk? Yun Feng couldn't help but stand up and stared at the box with her black eyes. The expression of the level-9 summoner in the hall also changed and she stared at the box.

Ling smiled slowly and gently pressed a button on the box with his white-gloved hand. "Pa!" The four sides of the box dropped, revealing what was inside.

That thing was half a meter tall and emitted a glittering luster. There was some blue elemental energy floating on its surface. Although it was weak, it did exist. Yun Feng's breath tightened and her heart couldn't help but jump. That was an egg?

A huge egg that was half a meter tall stood on the stage. There were tiny water elements on its surface. Looking from afar, it looked like it was surrounded by blue mist. Nobody knew what was inside the egg.

Ling stood next to the egg that attracted everyone's attention and glanced at the audience. "Everyone can see that this is an egg that hasn't hatched yet. We all know how difficult it is to get the eggs of the merfolk. Magic Beasts that haven't been hatched are the easiest to tame. Even as pets, the name of the merfolk can astonish everyone."

The moment that was said, some people in the audience gasped. Some summoners looked awful. How could such a rare and precious Magic Beast be reduced to a pet? How could the Summoning Union allow such a thing to happen?

"That's what the seller wants, even though it's a shame to summon the alliance. The seller has his own idea. He doesn't need ores to trade. He has a specific request. And the first person who fulfills his request can take the egg away."

No ores? Yun Feng frowned slightly. Everybody held their breath and focused. That level-9 summoner was almost frowning. If they didn't want ores, there would undoubtedly be a lot of variables. And what was the seller's request?

Chapter 544: Incubation (1)

Seeing that the atmosphere was getting more and more tense, Ling chuckled. "The seller's request is actually very simple. The Fire Essence Origin Life Fluid."

After hearing that, some people on the scene frowned, while others were full of question marks. Yun Feng, who was in the room, was suddenly stunned. The Fire Essence Origin Life Fluid? Little Fire also realized something. "Master..." Yun Feng had contracted Little Fire not long ago, and jumped into the big crack because of Meatball's carelessness. In the cave where she met Ao Jin, Yun Feng had obtained a small bottle of blood-red Fire Essence Source Fluid from the Fire Essence Source Tree that was emitting a weird and thick fire element! That must be the Fire Essence Origin Life Fluid!

"The Fire Essence Origin Life Fluid is obtained from the Fire Essence Source Tree. The area where the Fire Essence Source Tree grows is still a mystery. Please work hard. Whoever takes out the Fire Essence Origin Life Fluid first will own this egg. The time limit is uncertain. Whoever offers it first gets the egg."

What Ling said made the audience sigh endlessly. Many people even cursed angrily. What kind of condition was this? They had never even heard of the Fire Essence Source Fluid! They didn't even know where the Fire Essence Source Tree grew. Where could they find it?

"Can't they change the conditions? I have something good too." Someone said. Ling smiled. "Sorry, the seller only wants the Fire Essence Origin Life Fluid and nothing else."

Yun Feng looked at the pale faces of everyone in the hall and could only sigh at her luck. She hadn't used the bottle of Fire Essence Origin Life Fluid she got back then and it was still in her bracelet. The Fire Essence Origin Life Fluid could devour fighting energy. Yun Feng originally planned to use the Fire Essence Origin Life Fluid on the Monarch Level wand she was using right now. Imagine if her wand had the ability to devour fighting energy, it would be more powerful than before, but it was a nightmare for warriors!

Yun Feng flipped her hand and the bottle of Fire Essence Origin Life Fluid appeared in her hand. Now, the entire bottle had gradually turned light red. After a few years, the vitality of the Fire Essence Origin Life Fluid was still the same. Yun Feng could still feel the raging fire-element energy even now.

"This is... the Fire Essence Origin Life Fluid?" Qu Lanyi glanced at the bottle and immediately knew what was inside. Yun Feng raised the corners of her mouth. She was truly lucky. She had already got something that other people didn't have any clues on.

"Master, you're awesome!" Xia Qing's big eyes were full of admiration. In her eyes, Yun Feng was already omnipotent. No matter how difficult things were, they couldn't stop her teacher. Her teacher actually had such a magical thing too.

Yun Feng nodded as she played with the bottle in her hand. She could clearly feel Little Fire's drooling eyes. Little Fire had this expression back then. It seemed that it still hadn't changed after so many years.

"Ahem, Brother Fire," said Lan Yi in a low voice. Little Fire suddenly turned around and barely looked away from the bottle.

"I can only say that I'm quite lucky." Yun Feng said and smiled. She pressed a button with her hand. "I have the Fire Essence Origin Life Fluid. How much does the seller want?"

This sentence immediately made the noisy hall fall into silence. Some people were still discussing what the Fire Essence Origin Tree was, but it seemed that someone had already got it!

"If you do, my Lady, the seller would like to talk to you in person." Ling smiled gently without much change in his expression. Yun Feng thought that it was not bad to talk to him in person. If the seller thought that he could take advantage of her, he would be wrong.

"Then let's talk face to face." After Yun Feng said that, a figure suddenly stood up in the hall with excitement on his face. It was the level-9 female summoner who had always been as steady as a mountain. The woman Yun Feng met when she entered the summoner alliance that seemed very unapproachable.

"I'll exchange ultimate ores for it!" The woman's excited voice sounded in the hall. "Eight hundred ultimate ores! If you think it's too little, I can increase it! I'll use these to buy your bottle of Fire Essence Origin Life Fluid!"

Yun Feng looked over with her black eyes. The woman looked straight at her. Even though she couldn't see Yun Feng, she still stared at her persistently, as if she could see through the wall. Seeing that Yun Feng didn't say anything, the woman bit her lips. "A thousand ultimate ores! I can only offer so much! You're the person who won the Flower Eagle, right? You already have a wind-element Magic Beast. A water-element Magic Beast can't be reduced to a pet. Someone with a water-element Magic Beast should have it!"

Yun Feng didn't intend to yield to begin with. What this woman said at the beginning wasn't a big deal. In the end, she said with a tone as if it was only right for her to yield, which made Yun Feng quite upset in the bottom of her heart.

"So what if I don't?" Yun Feng's cold voice echoed in the entire hall. Nobody was talking right now. They were all listening to their conversation with bated breath. Most people thought that Yun Feng had already won the Flower Eagle, so she should leave some leeway for others. She might not be able to take all the good stuff.

"You... You're too greedy! I'm a water-element summoner. A water-element Magic Beast can only be put to good use in the hands of a water-element summoner!" The woman straightened her back and shouted loudly. In fact, what she said made sense, but it was a bit aggressive. After all, this wasn't what was discussed at the auction. Only those who could afford the price were qualified to get it. Who cared if you were a water element summoner or not?

Yun Feng sneered. "How do you know that I'm not a water element summoner?"

When the woman heard this, she laughed in disdain. "You've already won the Flower Eagle. Of course, you have the wind element. If you didn't have the wind element and won the Flower Eagle, it only shows that you have the capital to be arrogant. Do you think you're a double-element summoner?"

Yun Feng smiled. "The highest bidder wins in this auction. I didn't violate any rules. What right do you have to talk to me like this? Do I have to give in just because you have water element?"

"You... You! How will you sell the Fire Essence Origin Life Fluid to me? Just tell me what you want!" The woman shouted. The corners of Yun Feng's mouth were very cold. She sounded quite arrogant.

"Hm." Yun Feng couldn't be bothered to talk to her at all. You're a water-element mage, so I must give in to you. What kind of logic is that? This is an auction, not somewhere else! Why don't you look at the occasion when you're saying this? Besides, you're not my friend.. At most, you're just a stranger. Why should I give you something that I, Yun Feng, must get?

Chapter 545: Incubation (2)

The woman wanted to say something else, but Ling smiled and said, "Madam, please don't say anything else, or you'll embarrass yourself."

The woman blushed immediately. She bit her lips and stood there unwillingly, staring at the egg on the platform. No water-element summoner would let go of such an egg. The bloodline of the merfolk, the

mysterious race that lived at the bottom of the Endless Ocean, would be a great help if they could contract with such a race!

Opportunities were always given to people who were prepared. It could only be said that Yun Feng was very lucky. She happened to have what the seller wanted. If it was something she didn't have, she would also have a headache like other people. Some things were still obtained by those who were fated.

Ling said a few more words on the stage. The auction had undoubtedly ended. Since someone had obtained the Fire Essence Origin Life Fluid, the others certainly didn't have a chance. Many people also left with regret on their faces. That level-9 summoner could only turn around and leave angrily in the end, feeling very upset.

"My Lady, please wait a moment." Ling bowed slightly in Yun Feng's direction and walked off the auction stage with the egg in his arms. The auction had already ended and the people in the hall had already left one after another. Yun Feng waited in the room, and soon, someone knocked on the door.

"Come in." The door was pushed open, and Ling walked in with that exquisite box in his arms. Behind him was a man with an expressionless face. The man's facial features were very flat and he didn't seem to be smiling. When he saw Yun Feng, he only nodded. Yun Feng also nodded slightly at him. This man was very tense. Yun Feng could vaguely feel the strength he had suppressed. The faint energy waves kept coming from the man's body. This was another person who hid himself well.

Ling carefully put the box in his arms in front of Yun Feng and stood aside. "Miss Yun, the seller wants to see your Fire Essence Origin Life Fluid."

Yun Feng flipped her hand, and a small bottle appeared in her hand. The surface of the bottle was semi-transparent, and the Fire Essence Origin Life Fluid inside was rippling with a hazy red color. Violent fire-element energy was spreading faintly.

Xia Qing's eyes widened in shock, but she didn't say anything. The bottle in Yun Feng's hand was much smaller than the one she saw just then. Yun Feng certainly wasn't a fool. She certainly couldn't give him all the good stuff and had to keep it for herself. The Fire Essence Origin Life Fluid she took out right now was only a quarter of the original one. Three quarters of it was still in Yun Feng's bracelet.

The rigid man's eyes suddenly brightened when he saw the Fire Essence Origin Life Fluid. His breathing also became slightly rapid, as if he had been longing for this thing for a long time. Ling stood aside and smiled when he saw this. "Sir, are you satisfied?"

The man raised his head and looked at Yun Feng, as if he was searching for something. In the end, he said slowly, "You have more." His voice was a bit hoarse. Yun Feng was startled in her mind, but she didn't show it on her face. "That's all. Whether you believe it or not is your business."

The man frowned slightly and sized Yun Feng up with his black eyes. Yun Feng let him size her up. She didn't believe that this man would know what was inside her bracelet.

After a while of silence, the man finally nodded and took the bottle from Yun Feng's hand, holding it firmly in his hand. The man's body was trembling slightly. Seeing the man like this, Yun Feng felt a bit weird and didn't ask anything. Ling stood up and walked out with the man.

“Master, did that person really know?” Xia Qing blinked. Yun Feng smiled. “Maybe he’s testing us. Maybe he really knows.”

She glanced at the box on the table. The egg was lying inside quietly. It would be fine if it was really the egg of the merfolk, but if it wasn’t, she might have suffered a loss.

“Don’t worry, Miss Yun. There won’t be any problem with this egg.” At this moment, Ling pushed the door open and walked in again. He smiled at Yun Feng. “The other two items that Miss Yun won are here too. Please take them, Miss Yun.”

The Golden Rat and the Flower Eagle were also sent in. Both the big and the small cages were moved in. Yun Feng nodded and waved her hand. A small pile of ultimate ores was piled on the table. “Count them.”

Ling chuckled and put all the ultimate ores in his storage space without counting them. “Miss Yun is an honored guest here. Of course, I don’t have to count them. Goodbye.” He opened the door politely and walked out. Xia Qing ran to the cage of the eagle and looked at the giant eagle curiously. It was still blindfolded.

“We’ll have to wait until you reach level 6.” Yun Feng patted Xia Qing’s head. She should let this kid study in the Dragon Palace. It would be easier with half the effort. If she could contract with the Flower Eagle as soon as possible, Xia Qing would be safer.

The Flower Eagle flapped in the cage and let out a few chirps. Lan Yi walked over. “Don’t worry. Your future master is a good person. She won’t mistreat you.”

After hearing that, the Flower Eagle became completely quiet. Perhaps it had heard what Lan Yi said. After all, Lan Yi was an experienced Magic Beast and Yun Feng treated it quite well. Lan Yi was also honored to have a master like Yun Feng. His master’s disciple certainly couldn’t be too bad.

Xia Qing had already taken the Golden Rat out of the cage. The little thing seemed very close to Xia Qing when it saw her and it knew its fate. As a magic pet, the Golden Rat was indeed very cool.

Xia Qing held the Golden Velvet Mouse in her hand lovingly and stroked its soft long fur. Meatball stood on Yun Feng’s shoulder and looked at the Golden Rat in disdain. The Golden Rat raised its head and yelled at Meatball in a friendly way, but Meatball gave it an extremely ferocious look. The Golden Rat was so scared that it immediately crawled into Xia Qing’s arms and refused to come out.

Yun Feng took out an empty interspatial ring and put the Flower Eagle in it, handing it to Xia Qing. “Qingqing, you can only open this interspatial ring when you reach level 6. You can only contract this Flower Eagle at level 6. Don’t be hasty.”

Xia Qing took the ring and nodded hard. Yun Feng smiled in relief. Looking at the box on the table, Yun Feng had some expectations in her mind. The egg of the merfolk, a water-element Magic Beast group, were also what she wanted.

They returned to the hotel where they lived and didn’t see the dissatisfied level-9 summoner. Even though they didn’t see that woman, the unwillingness in her heart might not let her go so easily. However, Yun Feng wasn’t worried. That woman wasn’t a threat with her level-9 strength..

Chapter 546: Incubation (3)

Back in the room, Yun Feng sealed the space. Qu Lanyi also took off his mask and restored his handsome face. The egg was lying on the table quietly, surrounded by even weaker water elements. Qu Lanyi pondered for a long time. "Fengfeng, are you planning to hatch it yourself?"

The corners of Yun Feng's mouth twitched a few times. Hatch the egg? Did he think she was a hen? However, since it was an egg, she must let the little guy inside out of the eggshell.

Yun Feng saw that the water element lingering on the surface of the eggshell was getting thinner and thinner. A thought suddenly flashed through her mind. Clear water element appeared in Yun Feng's hand with a kind of fresh coldness. It slowly wrapped around the surface of the eggshell until it was completely surrounded. Right now, the egg was completely covered by Yun Feng's water element.

"Master, what's inside?" Xia Qing looked at the egg that was surrounded by ice blue colors and was very curious about what was inside. What was merfolk?

"We'll know what it is when it comes out." Yun Feng glanced at the egg with her black eyes. The merfolk? Perhaps she could get some information from the notes of the Magic Beasts left by her master.

In the next few days, the egg was surrounded by Yun Feng's water element. At first, Yun Feng didn't know whether what she did was right or not, but she got the answer from her master's Magic Beast notes. Even though he only described the merfolk in a few sentences, he talked about the key points, especially the way the merfolk hatched.

Yun Feng got lucky when she hatched with the water element.

She didn't know if the hatching over the past few days had worked. This egg still didn't have any reaction at all and was still quietly on the table. It was spinning slightly under the envelopment of the water element, which was an obvious change in the last few days.

Xia Qing gazed at the egg curiously from the beginning to the end. She had always been looking forward to seeing what was inside sooner. Little Fire yawned in boredom every day when it saw Xia Qing's curious look. What could be hatched inside? Wasn't it just a Magic Beast? He was a mutated species. He wasn't bad at all!

Yun Feng planned to deal with the bounty mission in a few days. She was always a bit worried about the egg. After almost a week, there was still no reaction from the egg. Perhaps hatching is a very long process, Yun Feng thought. It would be a joke if the eggs of the merfolk could be hatched so easily.

She might have been too impatient. Yun Feng smiled in self-mockery and added some water elements. This egg seemed to love her water element. Otherwise, it wouldn't be shaking inside like a baby.

Qu Lanyi was so bored that he even wanted to add some light elements into the egg, but Yun Feng stopped him. Nothing could happen during the hatching process. Yun Feng would be heartbroken if this egg, which she acquired so difficultly, was destroyed.

Just when everyone thought that this would be a long and endless process, Xia Qing was the first to notice something wrong with the egg. "M-Master! It's moving!" Xia Qing's voice echoed in the room.

Little Fire quickly came close and narrowed its eyes to look at the egg covered in water elements. It did notice that the egg was shaking slightly, as if the thing inside was coming out!

Yun Feng, Qu Lanyi and Lan Yi also rushed over. Yun Feng glanced at the egg carefully and found that it was indeed shaking. Water elements appeared in Yun Feng's palm and were being sent into it continuously. Perhaps the little thing was coming out. She should help it.

The water elements were constantly being transmitted, and the egg was moving more and more violently. Xia Qing couldn't help but hold her breath and widen her eyes. Little Fire couldn't help but feel a bit nervous. Everyone calmed down and focused. Would the merfolk really appear here?

"Pa!" One end of the eggshell finally cracked open. Xia Qing cried in a low voice, and then immediately covered her mouth with her little hand. At this moment, she was extremely nervous and full of anticipation. Yun Feng also held her breath and focused, sending water elements in her hand continuously, not daring to be careless.

"Crack, crack..." The eggshells were constantly broken by the things inside. The eggshells fell one after another and floated in the water element. At this moment, the cracks on the top of the eggshells were getting bigger and bigger. The little guy inside seemed to want to attack with all his might and get rid of the eggshells completely.

"Crack!" With a crisp sound, a huge piece of the eggshell at the top of the egg finally fell off. Yun Feng looked over with her black eyes and saw two slender arms with blue scales extending out. On those arms were two pairs of transparent blue fins.

The arm was already out. She could see that the little thing was trying to get out. Xia Qing's big eyes glittered a few times with fondness in them. The little thing behind the eggshell struggled to grab the eggshell with its slender arms, looking a bit helpless. In the end, it only grabbed the edge of the eggshell and slowly stuck its head out.

It had a face that was almost the same as that of a human being. Its facial features were very similar to that of a human being, but there were obvious differences between it and a human being. Even though it looked like a human being, it carried the wildness of a Magic Beast.

There were spots of blue light on her little face, which should be blue scales. Its ears were in the shape of fins, which were transparent blue. Its little mouth was slightly opened in the water element, showing its sharp teeth. Its eyes were closed. After it stuck her head out, its body was also trying to reach out. "Splash!" After a sound, its body completely came out of the egg. At this moment, Yun Feng finally saw its full appearance.

The upper half of its body was in the shape of a human being, but the lower half of its body was clearly that of merfolk. It had a beautiful tail, with fins on both sides of its tail. The end of the tail had some transparent blue patterns that glittered. When the little thing got out of the egg completely, its body was still surrounded by water elements. Many pairs of eyes were watching the little thing that had just hatched. The little thing turned around and looked in Yun Feng's direction directly. Its closed eyes also opened slowly and looked at Yun Feng directly.

What kind of beautiful and enchanting eyes were those? They gave off a strange and beautiful feeling. Yun Feng gazed at the eyes in front of her with her black eyes and her breath immediately became tight.

Qu Lanyi walked up and covered Yun Feng's eyes, blocking her sight.. Only then did her breathing become more stable.

Chapter 547: Incubation (4)

"It's very dangerous to look at this little thing in the eye," whispered Qu Lanyi as he slowly lowered his hand. The little thing wrapped in the water element blinked a few times. Yun Feng calmed herself down and finally looked at it. It had a pair of deep blue eyes with vertical pupils. Yun Feng's breath tightened again. This was...

"Master, is this merfolk?" Xia Qing asked carefully, fearing that she would scare the little thing in the water element. Little Fire and Lan Yi were also a bit surprised. As land Magic Beasts, they had never seen water Magic Beasts, especially the merfolk, and had only heard of them. After all, the merfolk lived at the bottom of the Endless Sea, which they couldn't go to.

"No, it's not." Yun Feng took a deep breath and finally said slowly. Qu Lanyi raised her brows in surprise. Yun Feng slowly withdrew the water element and the little thing swam towards Yun Feng with its fishtail swinging. Meatball on her shoulder cried softly. The little thing suddenly raised its head and bared its teeth at Meatball. Its sharp teeth showed its wildness. Its teeth were as sharp as Meatball's.

Yun Feng slowly extended her hand, and the little thing came close to her. It wrapped its tail around Yun Feng's waist and moved its upper body closer. It directly extended its arms and hugged Yun Feng.

The little thing buried its face on Yun Feng's neck. Meatball stood on the other side, looking very angry. However, the little thing didn't care at all. Its transparent blue fins moved slightly, as if it was very satisfied with its current condition.

"It's not merfolk? Then what is it?" Qu Lanyi's face darkened. Another thing that clung to Fengfeng appeared. Another third wheel!

Yun Feng slowly touched the fin on the fish's tail. The fin trembled slightly and let Yun Feng touch it. Yun Feng said slowly, "It's not merfolk. It's a sea demon."

Yun Feng recalled the records of the Magic Beasts left behind by her ancestor about the merfolk. The merfolk had a unique branch, which was caused by the mutation of their bloodline. They were the most aggressive and ferocious branch of the merfolk, called the sea demons.

The existence of sea demons in the merfolk should be equivalent to the existence of the griffins in the eagle race. The sea demons were caused by the mutation of their bloodline. They could be said to be even more precious. They were the most aggressive and ferocious merfolk. Yun Feng's black eyes glittered as she looked at the little thing that was holding her in her arms. She thought about the content that her master added in the Magic Beast notes. This should be her master's evaluation of the sea demons.

Sea demons were the best water element Magic Beasts.

“Master, let’s wait for it to grow a bit before we contract it. Otherwise, the Magic Beast might be injured because of the violent increase in energy,” said Lan Yi. Yun Feng nodded. It couldn’t be done in one go. Everything had to be done slowly.

“Master, can I touch it?” asked Xia Qing expectantly, but Little Fire grabbed her hand and looked at the blue sea demon with its pure black eyes. Little Fire looked a bit nervous. Lan Yi also shook his head and said solemnly, “Don’t get close to it. Sea demons are brutal and fierce. We can’t approach it except for Master.”

Everyone agreed with what Lan Yi said. Xia Qing nodded and looked at the sea demon with her big eyes. The fins of the sea demon were glittering with bright blue light with spots. Its tail was wrapped around Yun Feng’s body and its upper body was in Yun Feng’s arms, looking very clingy. It wouldn’t leave anytime soon. Although Meatball felt that its territory had been occupied, it didn’t bite it directly. It also knew that although the sea demon had just hatched from the egg, it was still not easy to deal with.

The sea demon’s eyes were slightly closed, looking like it was enjoying itself. Faint water elements lingered around its body with heavy water vapor. Xia Qing looked at it for a long time and finally said, “Master, give it a name.”

Yun Feng was startled. Right, since this little thing came out of the egg, it should have a name. As for a nice name... “Why don’t we call it...?Yaoyao¹?” Yun Feng smiled awkwardly. She wasn’t very talented at giving names. She could just call it Yaoyao.

“It’s a very nice name. Yaoyao, don’t you think?” Xia Qing chuckled and said to the sea demon in Yun Feng’s arms. The sea demon slowly raised its head and looked at Yun Feng with its eyes. Its fins shook gently, as if it accepted the name.

Since it was given the name Yaoyao, it certainly suited the characteristics of the sea demons. However, Yun Feng didn’t expect Yaoyao to be so clingy. Ever since it hatched from the egg, it had been clinging to Yun Feng and refusing to leave. When people tried to get close to Yun Feng, Yaoyao would show a ferocious expression, which made its originally beautiful smile look extremely ferocious like Meatball.

“When can it get off of you?” Qu Lanyi frowned hard. Yaoyao on Yun Feng’s body didn’t allow anyone to get close to Yun Feng. It only allowed Meatball to stand on Yun Feng’s shoulder. It was also very unfriendly to Meatball. Lan Yi and Little Fire weren’t allowed to get close either. Yun Feng raised the corners of her mouth. The sea demons must be quite possessive of their territory. In the eyes of Yaoyao, Yun Feng had already become her property.

“It’s indeed a bit too clingy.” Yun Feng tried to take Yaoyao out of her arms, but Yaoyao seemed reluctant when she touched the fishtail around its waist. It looked at Yun Feng with a pitiful face. The corners of Yun Feng’s mouth moved. “Yaoyao, it’s not convenient for me to take you out right now.” Yun Feng certainly had to go out. The date of accepting the bounty was almost here. She had to report to the branch hall. However, if she took Yaoyao out with her, she would undoubtedly cause a lot of unnecessary trouble, especially in the West Continent where there were hidden dragons and crouching tigers. Yun Feng hadn’t contracted with Yaoyao yet, and Yaoyao could be taken away at any time.

After hearing what Yun Feng said, the sea demon slowly loosened its tail and its body also left Yun Feng's body with extreme reluctance. When it opened its mouth, Yun Feng saw the sharp teeth in its mouth. It seemed to want to say something, but it only made subtle sounds like the cry of a baby.

"What is she talking about?" asked Little Fire with a frown. Lan Yi shook his head. "Brother Fire, if you don't understand, I certainly can't."

Chapter 548: Yaoyao (1)

Yaoyao opened its mouth and called out a few more times, but no one could understand what it said. It seemed that the languages of Magic Beasts weren't the same either. The difference between the land Magic Beasts and the water Magic Beasts was even greater.

Seeing that Yun Feng was still very confused, Yaoyao immediately stopped talking. The light-colored water element around its body suddenly became denser and wrapped around Yaoyao's entire body, completely covering her like the egg back then. Yun Feng clearly felt a kind of energy fluctuation coming from Yaoyao's body, like a spring that was being slightly suppressed pouring out.

After the concentration of the water element reached a very high level, it slowly faded again, turning into a color that became more and more transparent. Yaoyao, while being wrapped in it, also showed up, but there was a huge change.

Xia Qing couldn't help but exclaim with shock and excitement in his eyes. Little Fire and Lan Yi were also a bit shocked. Qu Lanyi, on the other hand, blinked his black eyes. Thank goodness.

It turned into a girl that was about the same height as Xia Qing. Her long black hair was tied with a blue ribbon, and she had a cute and beautiful face like a doll. Her blue eyes were very similar to Lan Yi's, but there was a vertical line in her pupils. She was wearing light blue clothes, which made her look like a 500% little girl.

"It has transformed?" Little Fire looked at it with its mouth agape. Which Magic Beast could transform when it was just born? This was the first time he saw it! Magic Beasts only had the ability to transform when they reached level 7 and above. The sea demons learned it when they were born?

"Maybe they're talented in transforming. After all, the merfolk are very close to humans." Lan Yi sized up Yaoyao with his eyes. She looked so innocent and cute, but her personality...

Yaoyao raised her head and smiled at Yun Feng. She then grabbed Yun Feng's sleeve. Yaoyao's height could only reach Yun Feng's chest right now. She was about the same height as Xia Qing and looked like a kid. Yun Feng's heart softened when she saw this. She touched Yaoyao's head with her hand and Yaoyao smiled back with a reliant look.

"So... So cute... I really want to be friends with her..." Xia Qing looked at Yaoyao with a longing look. Yaoyao, who had transformed, looked exactly like a human girl. For a moment, Xia Qing found it hard to associate her with that sea demon just then. Little Fire said in disdain, "Stupid girl, stay away from her if you don't want to be torn by her sharp teeth."

“Qingqing, Brother Fire is right. Even if she looks like a human being right now, even if she looks harmless, don’t forget that she’s still a Magic Beast in her original form,” said Lan Yi earnestly on the side. “The eagles have heard some rumors about the sea demons. They only allow people they acknowledge to get close to them. Before they get her approval, don’t get close.”

“Little Fire, Lan Yi, and Qingqing, you three stay here with Qu Lanyi. I’ll take Yaoyao to the branch hall and find out what’s going on.” After saying that, Yun Feng turned around and pushed the door open. She held Yaoyao’s hand, which had just transformed, and the two of them looked extremely harmonious.

“Come back soon,” shouted Xia Qing with a regretful look. Qu Lanyi touched his short hair with his hand and patted Xia Qing’s head. “Don’t worry. Yaoyao will accept you.”

Xia Qing chuckled, and so did Qu Lanyi. Little Fire snorted in disdain. In the end, it gloated, “You won’t be able to get close to Master anymore.”

Lan Yi nodded in agreement. Hearing that, Qu Lanyi burst into laughter. “Don’t worry. I’ll take Yaoyao down.”

“Aren’t you afraid of being bitten to pieces?” Little Fire glanced at her with its black eyes. Qu Lanyi chuckled with a glint in his eyes. “After all, she’s a newly hatched sea demon. It shouldn’t be difficult for her to accept me as long as we train her carefully. But what I care about is where the egg was found. I don’t believe it at all from the bottom of the Endless Sea.”

“It might cause a problem to Master if she takes Yaoyao with her. The merfolk live in the Endless Sea and have never stepped on the continent. If this egg was stolen from the merfolk, there will be endless trouble in the future,” said Lan Yi in a low voice. Little Fire also scratched its head in frustration.

“I should’ve told Master. The merfolk are like the Dragons, they value their own people very much. If they find out one day that a sea demon was stolen and left outside, they won’t let it go.”

“They... probably won’t find out...” Even though Xia Qing didn’t quite understand, she knew that the situation was serious, so she said softly. Lan Yi and Little Fire both smiled helplessly, while Qu Lanyi’s face darkened. “They won’t find out, will they? It’ll be fine if they missed something, but it’ll be troublesome if they don’t.”

“However, the merfolk probably won’t go on land.” Lan Yi said, “The merfolk don’t like land to begin with. They haven’t appeared on land for thousands of years. If they really find an egg missing, they’ll only send a few people to explore the land. They won’t come on a large scale. As long as Master doesn’t go to the Endless Sea, everything will be fine.”

After Lan Yi said that, the scene fell into silence. Little Fire and Qu Lanyi both wondered if Yun Feng would really not go to the Endless Sea, the mysterious sea.

Yun Feng took Yaoyao out. Yaoyao was very obedient. She held Yun Feng’s hand silently and looked at the people around her curiously with her eyes, exploring this unfamiliar world. Yun Feng smiled and held her hand as they walked to the area of the branch hall. Along the way, they attracted countless gazes. Both of them were rare beautiful girls. A beautiful woman was walking on the street with an equally

cute little girl. It was already a scenery. Yaoyao seemed a bit uncomfortable with the noisy environment and the passionate and complicated gazes around her. She also became more and more frustrated.

Yun Feng touched Yaoyao's head with her hand to ease her tension. If this kid became angry, it should be very scary. Under Yun Feng's comfort, Yaoyao finally didn't fly into a rage.. When Yun Feng led her to the area where the branch hall was located, it was finally a bit quieter.

Chapter 549: Yaoyao (2)

She showed her entry token to the guards of the branch hall. The guards let Yun Feng in, but they only looked at Yaoyao a few more times. This action made Yaoyao's already impetuous mood burst out suddenly. She turned her little face back slightly and the vertical line in her eyes suddenly enlarged. It was like a cat's eyes under the sunlight, with a faint blue color. Her expression suddenly changed and became extremely ferocious.

The guard gasped and almost couldn't stand straight. If he hadn't steadied himself forcefully, he would probably have run away with the sudden fear in his heart right now.

Yun Feng didn't see this scene. She held Yaoyao's little hand and continued walking forward. She turned around slightly and Yaoyao had already resumed that cute face. She smiled at Yun Feng and followed her.

After Yaoyao left, the guard took a few deep breaths and held his chest. His heart, which was beating crazily, made rapid sounds. "What exactly is that little girl... She's so scary..."

Yun Feng led Yaoyao into the territory of the branch of the Bright Moon Hall. It was very quiet inside. Many people passed by quietly and hurriedly. The surrounding buildings were all arranged neatly and didn't look messy at all. This area was very large and the people moving around were all members of the Bright Moon Hall, because they were all wearing the same clothes and looked neat and tidy.

Yun Feng held Yaoyao's hand and walked forward. The direction of the main hall was right in front of them and it was very conspicuous. Some curious gazes swept over along the way, but nobody came up to ask or lead the way. Everyone was busy with their own business.

"Have you heard? Guardian Ming Xuan has advanced to the Commander Level!"

"Of course I've heard about it. Speaking of which, it really feels like she hit the nail on the head. Guardian Ming Xuan must have been so enraged that she found an opportunity to break through."

A series of whispers came over. Two people were talking in a corner. Yun Feng continued walking with Yaoyao, and their voices continued to float.

"You're right. I heard that a rare water-element Magic Beast appeared at the Magic Beast Auction and it's a rare breed. However, Guardian Ming Xuan didn't get it in the end. She's probably very depressed."

Yun Feng stopped in her tracks. Were they talking about the level-9 water element summoner? Guardian Ming Xuan? So, she was the protector of the Bright Moon Branch. No wonder she looked so arrogant.

Yaoyao raised her head slightly and looked at Yun Feng with confusion in her eyes. Yun Feng slowly slowed down and planned to listen. "How could she not be depressed? Guardian Ming Xuan got the news in advance and even made preparations before going. Anyone would've been depressed at the result. Ever since she came back from the auction, she has been in seclusion. I didn't expect her to be promoted to the Commander Level because of this!"

"Tut-tut, our branch has another Commander Level summoner now. The hall master must be very happy."

"Of course. He might send someone to snatch that water-element Magic Beast because he's happy."

After saying this, the two of them didn't say anything else and just left in a hurry together. Yun Feng continued to move forward with Yaoyao. There was no less than one summoner Commander Level in this branch hall. The strength of the Bright Moon Hall was indeed extraordinary! A branch hall already had a Commander Level summoner, and there were no less than one or two of them. This lineup was incomparable on the East Continent. If it weren't for the barrier of the Thousand Beast Mountain Range, the war on the East Continent would have already begun.

Guardian Ming Xuan being promoted to the Commander Level was good news for this branch hall. The branch hall master might really come to snatch Yaoyao when he was happy. Thinking of this, the corners of Yun Feng's mouth slowly curled up. If she really came to snatch Yaoyao, it would depend on her ability whether or not she would succeed.

Yaoyao smiled when she saw Yun Feng smile. Even though she didn't know what she was smiling about, she smiled too. She squeezed Yun Feng's hand with her little hand. Yun Feng looked down at her. When she saw Yaoyao smiling at her, a thought suddenly flashed through Yun Feng's mind. Yaoyao relied on her so much. Did she treat her as her mother? She was only sixteen right now. Wasn't it a bit... too early?

When they arrived at the main hall, someone immediately came to ask. Yun Feng and Yaoyao were brought to the main hall. Once they entered, Yun Feng saw a familiar figure. It was the summoner who had just advanced to the Commander Level, Guardian Ming Xuan.

"Ming Xuan, congratulations!" A voice came. Yun Feng could hear it clearly from outside. The person who spoke should be the branch leader. Yun Feng stepped on the threshold and the branch leader glanced at her, giving Ming Xuan a look. Ming Xuan turned around and was stunned when she saw Yun Feng.

"It's you!" Ming Xuan shouted. The branch hall master looked at Ming Xuan suspiciously. "You know her?"

Ming Xuan gritted and gnashed her teeth. "More than that! It's her! That thief!"

Yun Feng raised her brows slightly when she heard this. This woman was truly shameless. She was a thief? The branch leader couldn't help but frown when he heard this. "You're quite bold. You even have the Fire Essence Origin Life Fluid."

Yun Feng chuckled as her gaze passed Ming Xuan and landed directly on the branch hall master. This was a man with a rather rough appearance, but his eyes were full of sharpness and his aura was also

restrained. Even though the man was suppressing himself with all his might, Yun Feng could clearly feel that this man's strength was comparable to hers!

"I got it by chance. That's all. I'm here to participate in the bounty activity. I accepted the bounty of the Summoning Union," said Yun Feng casually. The branch leader glanced at Yun Feng. Ming Xuan had always been gloomy. When she saw Yaoyao next to Yun Feng, confusion flashed through her eyes.

"It's interesting that a summoner accepts such a bounty mission." The leader of the branch hall rubbed his chin. "You're not late. All the participants will gather here tomorrow. We'll make plans when they all come."

Yun Feng nodded. "If that's the case, I'll take my leave first." She held Yaoyao's hand and was about to leave, when Ming Xuan suddenly shouted, "Stop!"

Yun Feng didn't stop, as if she didn't hear anything. The leader of the branch hall frowned. Ming Xuan immediately shouted, "Stop right there!"

Yun Feng continued walking forward, but she said without looking back, "What right do you have to command me?"

Chapter 550: Yaoyao (3)

The expression of the Branch Hall Master darkened. This kid was quite confident when she spoke. Didn't she know that this was the territory of the Bright Moon Branch Hall? Why was she so arrogant when she was talking to the Branch Hall Guardian?

Ming Xuan's face turned red. She rose into the sky and jumped right in front of Yun Feng. Yun Feng turned around, but didn't stop. She easily bypassed Ming Xuan and continued forward. Ming Xuan blushed. She was too disrespectful!

A ball of bright water element immediately jumped out of Ming Xuan's palm and directly turned into an arrow, attacking Yun Feng's back abruptly! "I told you to stop. Didn't you hear me?"

Yun Feng didn't turn around, but Yaoyao, who was next to her, suddenly turned around and opened her mouth abruptly. A beam of cold light flashed through her sharp teeth, and an extremely ear-piercing sound came out of Yaoyao's mouth with a strange sound wave. Under the attack of this sound wave, the Water Arrow that was attacking her instantly turned invisible.

Yun Feng finally stopped and touched the top of Yaoyao's head with her hand. Yaoyao's little face was a bit gloomy at this moment and the pupils of her eyes turned into a thin line. This meant that she was in a very bad mood right now.

"That's..." Ming Xuan looked at Yaoyao. Her Water Arrow was shattered by a sound! Yun Feng slowly turned around. "A sneak attack from the back, Guardian Ming Xuan?"

Ming Xuan's black eyes darkened. It had always been a knot in Ming Xuan's heart that Yun Feng stole that extremely precious egg. She wanted to ask the Palace Master to help her get it back. After all, that egg belonged to the merfolk and was extremely helpful to her. She was prepared for everything, but this person in front of her snatched it away!

"That egg should be mine," said Ming Xuan hatefully with slightly red eyes. Summoners were obsessed with Magic Beasts, especially rare ones. They all had the mentality of taking it for themselves. For example, Carson's greed for Lan Yi, and now Ming Xuan's greed for Yaoyao.

"I'm the guardian of the branch hall. Do you think you can walk out of Wind Moon City with that egg?" Ming Xuan glanced over with a threatening gaze. "I advise you to hand it over directly. You're not qualified to have it!"

Yun Feng smiled coldly and didn't say anything. She just flipped her hand abruptly and a trace of cold water element appeared in Yun Feng's hand. Yaoyao, who was on the side, was inexplicably excited when she saw this. It seemed that she liked Yun Feng's water element a lot.

"Water Chains," Yun Feng mumbled. The water elements immediately turned into chains. Seeing the ring on her finger, Ming Xuan suddenly glowed. "Come out!" With a shout, Ming Xuan's contracted Magic Beast appeared!

"Humph." Yun Feng grunted softly as she suddenly raised the Water Chains in her hand. Before Ming Xuan's contracted Magic Beast attacked, the Water Chains had already arrived in front of it. They were so fast that the Magic Beast didn't even have time to react!

A painful roar sounded. Ming Xuan's contracted Magic Beast didn't even have time to move before it was firmly restrained by Yun Feng's Water Chains. Yun Feng's eyes were slightly cold as she raised her arm. The Water Chains tightened abruptly and the Magic Beast let out a scream.

Ming Xuan was shocked to see this. Her Magic Beast couldn't resist at all! "Ice Rain!" Ming Xuan roared as the water element immediately appeared in the space around her. The temperature dropped abruptly and the water element immediately condensed into the shape of an icicle. There were hundreds of them!

"Go!" With a furious shout, the densely packed ice cones smashed towards Yun Feng like raindrops. Yun Feng tightened her grip on the Ice Chains and the Magic Beast bound by the Ice Chains cried miserably again. The Ice Chains had already twisted the Magic Beast's body a bit. The coldness that came from the Ice Chains slowly made the Magic Beast feel even more painful.

"Ding, ding, ding..." The sound of nails hitting the ground sounded. A transparent blue shield was erected in front of Yun Feng. The icicles that were as dense as raindrops were all blocked by the shield and couldn't be penetrated. They all fell to the ground powerlessly!

"I can't... hurt her!" Ming Xuan couldn't help but curse in a low voice. Her Magic Beast was completely useless and her magic couldn't hurt her at all. In this encounter, she didn't have any advantage at all!

"Bang!" There was the sound of something heavy hitting the ground. Yun Feng loosened her grip and the chains suddenly loosened. The Magic Beast, which had been invaded by the water element, fell from the sky stiffly. It seemed that it was badly injured. Ming Xuan stood there with a flushed face. Yun Feng didn't bully her. You have the water element. I'll only fight you with the water element!

The blue barrier slowly disappeared, but the chain in Yun Feng's hand suddenly changed direction and went straight for Ming Xuan! A hint of killing intent flashed in Yun Feng's eyes. This woman wanted Yaoyao. She would be a disaster sooner or later if she was kept alive!

When Ming Xuan saw Yun Feng attacking her fiercely, she immediately mobilized the water element to form a barrier in front of her. She thought she could resist a bit more, but she didn't expect that the barrier would be completely shattered under the attack of the chains!

"Crash!" When the defensive barrier of the water element shattered in front of Ming Xuan's eyes, she widened her eyes. Seeing the ice blue chains coming towards her body, the terrifying and familiar temperature was about to invade her body. Ming Xuan finally saw the killing intent in Yun Feng's eyes. She was going to kill her!

"Clang!" The sound of the chain falling to the ground was heard. The chain that was about to wrap around Ming Xuan was forcibly cut off from the middle. The part of the chain that was cut off instantly turned into light blue water elements and dissipated in the air. The remaining part fell on the ground and made a sound.

Yun Feng narrowed her eyes and looked at the person who appeared next to Ming Xuan. It was the branch hall master. Yun Feng wasn't unfamiliar with that move just then. He directly controlled the power of space and cut off the chains!

Yun Feng waved her hand, and the chains all disappeared. The branch leader stared at Yun Feng. "In the territory of the branch hall, you must consider what you do."

Ming Xuan was stunned. Why was the Hall Master so polite? Yun Feng chuckled. The coldness on her face was gone, but the coldness in her eyes hadn't faded yet. "Of course. But you should consider carefully before you do anything too. Don't lose the big picture because of a small matter.."
