

## Super D. S 402

Chapter 402: Red inner temple

The person who blocked the other person's way of going is naturally Ye Xuan who wears the mask of the death pupil's primary school.

He looked at the three people and quickly rushed toward himself. He also took out the Eight-Day Sword and held the boxing fist: "Since you asked sincerely, I will tell you with great mercy, in the next name, Ye Mingchen, I Ye Liangchen, It will be the first person of your three!"

"Ye Liangchen?"

The three men looked at each other and found that they had not heard of the name.

At this time, Ye Xuan shot.

His figure is like a ghost flashing out, dragging a long silver belt behind him, very beautiful.

When the three men saw it, they suddenly showed an incredible look and exclaimed: "Silver feather body?"

This is to scare them, Yin Yu body is the township martial arts of Yin Yu Gong, only they are qualified to learn.

However, Ye Xuan, how come?

However, now they are not spending so much time, because Ye Xuan's speed far exceeds them.

"Disperse, go!"

The three men widened their eyes and suddenly separated under the command of the head.

But they have forgotten, and there are two pretty bulls behind them. After they are separated, the two wild cows are also separated, each chasing one person.

As for the third person, it naturally became the target of Ye Xuan.

"Huang Quan sword method, the sword falls to Huang Quan, give me death!"

Ye Xuan released the killing move, the other party only flashed once, the second time, was the head of Ye Xuanyuan.

"Hey, the host has broken through the power of ninety dragons!"

At the moment when Ye Xuan's hand took off the other's Qiang Kun ring, a reminder sounded in his mind.

The power of the ninety dragons, if coupled with the addition of the speed of movement, his speed, can quickly catch up with the master of the hundred and ten dragons.

After killing this person, Ye Xuan is again plucking and heading for the other two.

"what?"

The two men turned their eyes and glanced at the body, and Ye Xuan who rushed toward them, suddenly scared to death.

It was the former chasing troops and the tigers.

Two wild cows will be counted, they can still escape, but Ye Xuan, this killing \*\*\*\* can actually kill the master of the power of nearly 100 dragons, which is definitely more dangerous than the wild cow iron.

However, their speed is too far worse than Ye Xuan.

"Oh!"

"Oh!"

The two were also killed, and they also helped Ye Xuan break through the power of the ninety-one dragon.

Now, it is Ye Xuan and the battle between these two wild cows.

"Roar!"

Two wild cows and iron corpses, bare-handed, with a big bell-like eye on Ye Xuan.

Although they are dead, the red lords use special methods to keep them conscious, so they are not stupid. They can see that Ye Xuan is much stronger than the three.

"Speed, you can't catch up with me, so you can only be my live target."

Ye Xuan did not think much, and sacrificed the dragon sword.

"Huang Quan swordsmanship, swords fall to Huangquan!"

Ye Xuan directly made the strongest attack.

With the addition of the Beastmaster's blood, Ye Xuan has a 10% attack damage bonus to the beast.

Moreover, after breaking through the power of the ninety-one dragons, Ye Xuan's eight-year-old swords, the increase may have reached the level of Zhongpin Tianyi.

Zhongpin Tianqi, Zhongpin Tianxue Wuxue, Beastmaster Blood, various factors, let Ye Xuan kill the iron bodies of these two hundred dragons, just like cutting tofu.

Within five seconds, they fell one by one, one was smashed by Ye Xuan, and one was turned into two halves by Ye Xuan.

"Two dead bodies, good!"

Ye Xuan is satisfied with the nod.

In his plan, the four forces must become his stepping stone to help him break through the air.

Then, he once again conquered the Golden King.

Of course, this is just fantasy, and the reality is often cruel.

After the bodies of the two wild cows were collected, he was again plucked. He was still looking for the trouble of the master of Yin Yu Palace.

.....

However, at the same time.

In the depths of the Akane Cave House.

This is a large hall, but the hall is empty, and there are no other things except the pillars.

In the middle of the main hall, there is a huge golden coffin, and on the side of the golden coffin, there are two silver statues of one person.

These two silver statues are lifelike, one with a moon knife and one with a two-meter-long sword.

At this time, the statue of the Great Sword suddenly opened his eyes.

"Someone entered the inner hall..."

The silver statue actually spoke.

Suddenly, another statue opened his eyes and said: "I hope someone can come in alive."

"Just ask those people not to die, when will we resurrect with our masters?"

.....

After Ye Xuan broke through the ninety-one dragons, he went to the troubles of the masters of Yinyu Palace.

His luck is really good. The masters of these Yinyu Palaces are almost all of the ninety dragons and more than one hundred dragons, so there is no threat to Ye Xuan.

Ye Xuan also cleaned up a few teams of masters of Yin Yu Palace, successfully broke through the power of the 94 dragon.

At this time, he estimated that there are only five people left in the Yin Yu Palace.

At the same time, he is also deeply surprised, because the five people of Yin Yugong who exceed the power of Bailong are all together.

The power of five hundred dragons, and a master of one hundred and fifteen dragons, this means that they travel very fast.

Ye Xuan walked into the last passage and tried to catch up.

How about the one hundred and fifteen dragons, if Ye Xuan opened the beastmaster violent, these people have to fall.

Ye Xuan ran in the last passage, and it was an hour or two before he entered the Chihkandong House.

He quickly passed through the area of the copper corpse and entered the iron corpse area.

The copper corpses of the Red Caves are in the realm of the power of ninety dragons to one hundred dragons, while the iron corpses are between one hundred dragons and one hundred and ten dragons.

However, with his strength, killing these iron corpses is easy, and unconsciously, his beastmaster is violent, and there are already three opportunities for use, which has greatly increased his confidence.

After that, Ye Xuan simply swallowed those iron corpses and successfully broke through the power of the 95 dragons.

After entering the iron corpse area, he ran for another half an hour. This red hole is really big, which makes Ye Xuan secretly scream.

So many lapis lazuli, if he is swallowed up by him, don't know what level he can break through?

After half an hour, he finally encountered something different.

A stone monument!

"Red inner temple?"

Ye Xuan brows wrinkled, behind this stone monument, is another door.

However, it is closed.

"Oh, what about the people in the Yinyu Palace, will you close the door when you go in?" Ye Xuan walked over in a strange way, only to find that the door was shaking, and a sound fell into his ear.

"Is there fighting?"

He reacted instantly.
