

## Super D. S 455

Chapter 455: Was it destroyed?

"Eight ridiculous dragon sword, dragon's ruling!"

A sniper went through the air.

If you want to compare the attack strength of the dragon, Ye Xuan is definitely far more than the owner of the bones. After all, the eight ridiculous dragon swords are specially used to kill dragons.

This embarrassment, directly on the huge and slender body of Tianlong, caused tremendous damage in an instant.

This attack is definitely stronger than the three punches of the owner of the city.

"Dragon's ruling!"

"Dragon's ruling!"

"Dragon's ruling!"

Ye Xuan is also the same as before, quickly squandering the infuriating body, madly exerting the dragon's ruling, and all squatting on the dragon's head.

After several rounds, the speed of the Tianlong, which was seriously injured, was obviously slower and the reaction was greatly reduced. The threat to Ye Xuan was infinitely close to zero.

"Hey!"

Tianlong is also the same as the owner of the Wangu City. He is unwilling to growl. In fact, it started from the beginning. It is hard to support. Now it is finally unable to hold it, and the wings are falling, falling directly from the sky.

"噗通!"

Tianlong's body fell to the ground and was deeply mourned.

"I know that you are revenge for the sake, but this is a world of weak meat, go!"

Ye Xuan whispered, using the restored infuriating, once again applied the dragon's ruling.

"call out!"

A huge sniper fell and fell into the forehead of Denon, and opened its head.

Tianlong, the first-order refining gas, is also sleeping here!

After it died, Megatron couldn't help but fall. Ye Xuan thought it was emotional. I didn't expect it to cheer there, let Ye Xuan hurry to refine this Tianlong bone.

After all, Megatron is not a human being. It is just a kind of alien animal. Even animals don't count, what is the feeling?

"Okay, see I have received it!"

After Ye Xuan sighed in his heart, he rushed down and put away the dragon.

"Hey, the host has broken through the power of seven hundred and forty dragons!"

This dragon's flesh and blood and the sacred beast directly promoted Ye Xuan's power of sixty dragons, and the refining order was extraordinary.

Although it is a pity that there is no such thing as the Qiankun Ring of the City of Wangu, but the body of Tianlong also makes Ye Xuan soar.

Now, the owner of the city of Wangu is dead, so what Ye Xuan has to do is to rob him of the city's capital, and by the way, take the ninth order of the martial arts at the gate of the city.

At the moment, he is heading towards Wangu.

Even the owner of the Wangu City couldn't help him. Now even if the entire Wangu City is added up, there is no threat to him.

He first came to the door of the city of Wangu, and directly destroyed the defensive array outside the gate of the city, and then took it away.

Then, he began to rob the city government, and the industry under the city government.

The whole city of Wangu is boiling. Who is so courageous and dare to start with Wangu?

However, these masters of Wan Gucheng are all here to give Ye Xuan the benefits. When Ye Xuan left Wan Gu City after half an hour, he has already upgraded to the power of 760 dragons and raised 20 Dragon.

Later, he found a quiet place to refine the first-order Tianlong bone.

Fortunately, the materials he looted just happened to be able to refine the celestial bones. He felt a pity, because if these materials were used to refine the humanoid war, at least three of them could be refined.

However, since Megatron likes it, it is worth it.

At this time, Ye Xuan is already riding the first temperament of the refining gas, flying toward the nine quiet land.

His strength is also more than the first step of refining, and the blood crow is only a force similar to Bai Zong, even if he does not personally shoot, he can easily eliminate the blood crow.

It took him two days to fly back to the land of Nine.

Then, I went to the door of the drug first, and I was able to kill the hills in an instant.

Qiu Guan was still doing some kind of exercise on a female disciple, and the head suddenly fell, and the blood sprayed the female disciple.

The whole door of the drug was also opened, and some people even sneaked into the door to kill people. Do you want to live?

However, there is still a more important thing to spread outside.

In the land of nine secluded, a mysterious killer suddenly appeared, and dozens of cities and sects have been slaughtered. If these dead are added up, the number is calculated in billions.

Not only that, but many of the deceased and the dead of the city have become grievances.

The so-called grievances are suffering from unbearable tortures during their lifetime. They become abnormal after death. These grievances will actively attack the living things around them, and the swords are hard to hurt. They can penetrate the building and can only be destroyed with infuriating. .

And this mysterious killer team is the land of ghosts from the ghost tomb. Here, the land of ghosts is cultivated by capturing the soul of the people, and it is extremely killing.

At this time, Ye Xuan is going to the blood crows, and soon he came to the blood crows.

However, the situation here is beyond the expectations of Ye Xuan.

The blood crows of gods have become a ruin. The disciples in the door have died, and no one has survived.

When Ye Xuan arrived, there was still a lot of mourning.

"Who is the slaughter of blood crows?"

Ye Xuan was shocked.

The blood crows are similar to the white bones of the bones. If you want to kill, you must at least have the power of the nine-order force. In this area, I have never heard of a strong man with a ninth order.

Ye Xuan sat in the air on the back of the dragon's bones. At this moment, suddenly a figure swept the sky.

"Oh, there is still a person who buried the bones."

A sinister voice fell into Ye Xuan's ear. Ye Xuan was shocked and turned to look at a young man in white.

The young man's face was squirming with a strange smile. He dragged a strange black bead in his hand. He looked at Ye Xuan's eyes, a bit like watching prey.

When Ye Xuan paid attention to his realm, it was also a shock to the tiger.

This young man turned out to be the first step of refining, the specific point is one thousand and fifty dragons!

Here, there is a master of refining first-order, how is this possible?

"Who are you?" asked Ye Xuan frowning.

"Wan Gengzong." Yin Xiaoqing simply replied.

Wan Guizong!

When Ye Xuan heard it, he immediately responded because he saw the grievances in the blood crows.

These tens of thousands of ghosts should be the forces in the land of ghosts.

In the ghost tomb collar, the land of ghosts is the strongest of the three territories, because they only complain. Because the grievances are not afraid of poison, and they are not afraid of white bones, so it is the most difficult one.

Unexpectedly, I saw a master of the land of ghosts today.

"When the first step of refining came here to kill the sects, I was not afraid of poisoning Wang Zong to send people down?" Ye Xuan asked.

"Oh, wait for them to arrive, we have already left." The young man sneered, ridiculing himself: "What do I and you talk about nonsense."
