

## Supreme 111

Chapter 111 Ye Qianming is Furious

Ye Qianming returned to the City Lord Mansion with a cold face.

Beiqing and Feng Yu followed him, not even daring to breathe heavily.

Anyone could tell that Ye Qianming was in a very bad mood!

They secretly guessed what had happened in the room.

However, the words Luo Qingtong had said previously were too provocative!

The two thought over and over again, their minds filled with all sorts of shocking content that hurt the eyes!

But how could their master possibly do such things?

But... the words of the Evil Doctor did indeed contain...

The two of them tangled back and forth, their minds almost muddled!

Despite Feng Yu's quick wit, he couldn't figure out what had happened in the room that could provoke their unshakeable master to such anger!

Beiqing felt as if his heart was being scratched by a cat!

Previously he hadn't seen the girl who forcefully kissed the master on Jiuyu Mountain, but now he had witnessed with his own eyes how the master was infuriated by the Evil Doctor!

The master's face was turning dark with anger!

How terrifying!

Since... he hadn't seen the master this angry since!

What's weirder is that the Evil Doctor seemed unscathed!

Unscathed indeed!

Outside, they didn't even hear a scream, just saw the master burst out flying.

But thinking about it, that also seemed normal!

Thinking about how they, following the master's departure, ran after him almost fleeing, not to mention laying a hand on the Evil Doctor, they found even an extra glance into the room to be unbearable; Beiqing suddenly understood why the master didn't act against the Evil Doctor!

Listening from outside left them feeling sick, not to mention the master himself!

Let alone taking action, the master probably didn't even want to touch the Evil Doctor one more time?!

At this thought, his lips twitched.

Previously, he had received news from the Bloody Battle Arena about this medically skilled Evil Doctor and he was a bit curious!

But now, that bit of curiosity has been utterly smashed to pieces!

It turns out that the opponent was such an Evil Doctor!

An unrestrained homosexual daring to covet his own master!

But Beiqing soon thought again, according to the words of the Evil Doctor, it seems that the master was the one who first acted inappropriately?

Beiqing felt chaotic at the thought!

This can't be possible!

Their master couldn't possibly do such things!

But... if it was the Evil Doctor who first had ill intentions towards the master, how could he still be alive to say such words to the master at the end?

Thinking of this, Beiqing felt a thrill of horror.

As his mind was all mushed up and full of wild thoughts, suddenly Ye Qianming's paced stopped abruptly in front!

"Keep a close watch on that Evil Doctor! I want every move, all whereabouts of his!"

Ye Qianming's voice was ice cold.

This was the first time, besides that woman, he had suffered such a blow!

Thinking about the bold words that Evil Doctor had said to him, veins erupted one by one on Ye Qianming's forehead.

Despite his self-control, he couldn't suppress the enormous anger in his heart at that moment.

If it weren't for that Evil Doctor being the only clue he had found related to that woman, he would definitely not let him go so easily!

He even dared to... covet him!

Thump thump thump!

The veins on Ye Qianming's forehead throbbed intensely.

The next second, he fiercely waved his hand, the unleashed Energy directly destroying half of the plaza outside the City Lord Mansion, before he angrily returned to his residence!

Meanwhile, Luo Qingtong was currently happily asleep.

In fact, she had taken the risk to provoke that man solely because she believed that Ye Qianming would not do anything to her!

Otherwise, who would joke around with their own life? It's better to expose one's identity than to court death!

Teasing a carnivorous animal is quite risky!

But it seems, the effect isn't bad?

Although there are some repercussions...

## Chapter 112 Purchasing a War Slave

Luo Qingtong watched with a twitch in her lips at those hidden figures inside and around her mansion.

She got up early in the morning to find that there were a bunch of powerful auras of unknown origin inside and outside her residence.

These people probably thought they were hiding extremely well!

But in reality, under Luo Qingtong's Pupil Vision, their figures were as dazzling as fireflies in the night!

She couldn't pretend not to see them even if she wanted to!

Forget it, let's just treat them as free bodyguards sent by someone!

Luo Qingtong paid them no mind and went straight out the door.

She was going to the slave market to buy people today.

There was no helping it; when Ye Qianming and the others visited yesterday, the people in her mansion were as unaware as pigs!

Luo Qingtong felt she couldn't stand it anymore!

She didn't expect those people to stop Ye Qianming and the others, given the latter's formidable strength.

But at least they should make some noise to alert her, right?!

Luo Qingtong certainly didn't want to be halfway through a bath only to be surprised by uninvited guests again!

At this rate, her identity would sooner or later be exposed!

"Evil Doctor!"

As soon as Luo Qingtong arrived at the slave market, someone recognized her and immediately reported her presence to the housekeeper of the slave market.

The latter came up with a beaming smile.

This Evil Doctor was now one of the people in the Black Domain Suburb who could not be offended!

The news in the Black Domain Suburb spread incredibly fast.

Now, who doesn't know that Master Liu from the auction house got greedy, trying to trade with the Evil Doctor for medicine, and almost got poisoned into a skeleton!

It is said that even the Heavenly Alchemist's Hundred Poison Antidote Pills can't cure the poison administered by the Evil Doctor!

After seeing the miserable state of Master Liu, who would dare to mess with this Evil Doctor, who is first-rate in both medical and poison techniques?

They wouldn't want to throw away their own lives!

Moreover, the Evil Doctor's Alchemy Technique is first-rate, and in the future, they would have many things to rely on her for! The housekeeper treated Luo Qingtong with extreme reverence.

"Evil Doctor, may I ask what kind of slave you would like to purchase? Our slaves here are of all kinds, and we assure you will be satisfied in every aspect!"

The slave market housekeeper said solicitously.

"Hmm, I want to buy War Slaves that can guard the house; I want the ones with the strongest strength."

Luo Qingtong didn't lack money now, and naturally, if she was to buy slaves, she would buy the best!

However, the level of strength of the slaves provided by each Black Domain Suburb differed and would generally not exceed the level of the strong warriors from the nation where that Black Domain Suburb is located.

In other words, in the Black Domain Suburb situated in Dongli Country, the strongest slaves available for purchase were only up to the Military Marquis Level.

Any higher, and they would not be available.

This is also one of the agreements between the Black Domain and the Four Great Holy Dynasties.

The Four Great Holy Dynasties do not interfere with the affairs in the Black Domain, but similarly, the Black Domain cannot overtly disrupt the power balance of the nations!

This is an underlying rule both sides maintain and abide by in the shadows.

"Very well! Evil Doctor, please come this way!"

The slave market housekeeper led the way eagerly, smiling at Luo Qingtong as they walked: "Evil Doctor, you have come at just the right time on this visit. We just received a new batch of goods, and there are several strong warriors at the Military Marquis Level! It even includes a warrior at the Martial Marquis Peak! Surely, you will be satisfied."

The group stepped into the area for selecting slaves while talking.

The atmosphere here was bustling, filled with slaves waiting to be chosen and people who were selecting slaves.

The War Slaves Luo Qingtong wanted were at a different side.

The slave market housekeeper led Luo Qingtong into a private room, clapped his hands commandingly, and had some people bring up those War Slaves.

### Chapter 113 Arrogant Like a Wolf

So-called war slaves are slaves captured during wars.

These people possess formidable strength and robust bodies, and after being controlled by the Black Domain, they are absolutely loyal to their masters, and are very popular among those who enter the Black Domain.

If Luo Qingtong hadn't arrived opportunistically this time, the strong ones among this batch might have already been bought by someone else!

Figures lined up in front of Luo Qingtong, nearly a hundred people.

Most of them are Great Generals, with only a few who are at the Military Marquis Level.

Luo Qingtong squinted slightly while looking at these impressive fallen slaves who now wore numb expressions.

Before becoming slaves, all of these people were upper-class citizens of their own countries!

Those strong ones at the Martial Marquis Realm, weren't they like Old Master Luo, powerful holders of authority in their respective aristocratic families!

Or Martial Arts prodigies of their own families!

However, due to the outbreak of war, due to the downfall and destruction of their country and families!

These once Heaven's Chosen Sons fell into slavery, unable to escape their masters' control for their entire lives! Their life and death are at the whim of others!

Luo Qingtong, looking at these people, was involuntarily reminded of the Luo Family and Old Master Luo.

In Zhenyan Continent, the strong are respected, countries stand in great numbers, and conflicts are frequent!

The expansion of territory signifies larger domains and increased resources!

Therefore, if any country or aristocratic family falls from power, nearby hungry Wolf Packs immediately rise to attack and tear them apart to devour them!

Over the years, it isn't that no one has eyed Dongli Country and the Luo Family, but they all refrained due to Luo Qingtong's engagement with Yuwen Mo!

If the Luo Family ever calls off their engagement with the Tianyu Empire's Imperial Family! Then, numerous evil forces would seize the opportunity to make their move!

However... as long as she is present, she will never let the Luo Family fall into such a predicament!

Whoever dares to touch Luo Family and Old Master Luo, she will make sure they die!

Not even Heaven's Emperor is an exception!

Luo Qingtong squinted her eyes while examining these people, her gaze swept over those strong fighters of Military Marquis Level standing at the forefront, and suddenly she locked eyes with a pair of defiant eyes.

Although already reduced to a slave, even that peak Martial Marquis Level fighter showed a numb expression, but this man standing straight in the middle of the line, whose strength is only middle

Martial Marquis level, just stared coldly at Luo Qingtong with his slightly feminine, beautiful phoenix eyes.

Those eyes contained too much. There was defiance, patience, but most conspicuously, an untamable spirit!

Luo Qingtong, looking into his eyes, was reminded of a lone wolf she encountered on the Gobi desert while struggling to survive.

With broken legs, worn teeth, a blinded eye, yet it fought with its mouth wide open till the last moment, killing the male lion opposite to it.

Even in death, it refused to lose its dignity!

A person with such eyes wouldn't be lacking in achievements in the future!

Unfortunately, he is now a slave.

Slaves have no chances of promotion.

Their consciousness has been locked by a special control method of the Black Domain, unable to defy their master's orders, and also unable to break free and improve!

This is to prevent them from becoming too powerful in the future and breaking free from the Slave Mark's control, harming their master!

People buying slaves just want an obedient dog.

But now, this person, even in such a situation, is not willing to accept his fate and surrender!

Interesting!

Luo Qingtong's gaze lingered on him, then, as if she discovered something, she smiled meaningfully.

Chapter 114 Fine, Take it Off!

"I want all of these people."

As she spoke, she walked up to the man and lifted his chin.

"What is your name?"

"Su Yu."

The man's gaze fixed on the ferocious Rashamon Mask covering her face, devoid of any fear.

On his excessively beautiful but sinister face, a proud and unyielding color gleamed, matching the look in his eyes.

"Su Yu? That's a nice name! I like you. From now on, you will serve closely by my side."

Luo Qingtong spoke, her lips moved slightly, and a faint whisper entered his ear.

"I know who you are, my name is Evil Glare, remember that."

"From this moment on, I am your master!"

These words were Luo Qingtong's true voice.

The moment she spoke, she cut the chains binding the man's hands and feet.

"Evil Doctor!"

The people of the slave market were caught off guard.

This Su Yu was the only troublemaker among the batch, obstinately defiant, and they were just thinking of giving Luo Qingtong a heads-up. Unexpectedly, she took a fancy to Su Yu and intended to elevate him to serve personally by her side!

But they hadn't transferred the control of the slaves to the Evil Doctor yet!

What if Su Yu turned against her?!

Ever since he arrived here, he had injured several Disciplinarians!

Utterly uncontrollable!

A group of people rushed forward quickly, trying to protect Luo Qingtong.

Just at that moment, Su Yu moved slightly, and then everyone was astonished to see him kneel on the ground.

"Su Yu obeys the Lord's command! From now on, in life, I belong to the Lord; in death, I am the Lord's ghost!"

The man knelt down, that same pride evident in his eyes, but now, the submission within them was genuine and undeniable!

Everyone never expected this turn of events.

Su Yu has submitted?

He was notorious for being difficult!

Before this, they had thought of telling Luo Qingtong that if she took these people back, they should regard Su Yu as nothing more than cannon fodder to be used as a shield in battle!

He definitely should not be kept close by!

Otherwise, even with the control of a Slave Mark, he might still be disobedient.

Who could have thought that Luo Qingtong merely spoke a few words, and he submitted?

While everyone was shocked in their hearts, Luo Qingtong seemed unconcerned.

She looked dispassionately at Su Yu, who was kneeling before her, and spoke with a double entendre: "Remember your choice; I do not tolerate betrayal."

"Su Yu will not betray the master," said the man on the ground in a deep voice.

"Then good, stand up, and move behind me.

"Yes." Su Yu rose swiftly, expressionless, and took a position behind Luo Qingtong.

From beginning to end, not a word of superfluous chatter.

Luo Qingtong was quite satisfied. Her visit to the slave market this time was indeed worthwhile.

She did not look at Su Yu anymore but instead picked out other slaves.

This time, Luo Qingtong intended to completely replace the people in her mansion, so she bought nearly a thousand slaves, a motley assortment.

Apart from a small portion of menials, she also purchased about 500 Advanced-level War Slaves in addition to Su Yu and others.

After purchasing these slaves, the money Luo Qingtong had won from the Bloody Battle Arena instantly halved!

The majority of it was spent on Su Yu and other high-ranking slaves! All the other people combined did not amount to the sum spent on just a few Military Marquis Level slaves.

This couldn't help but make Luo Qingtong reflect on how much of a money-burning and hugely profitable business it was, especially when dealing with Advanced-level slaves!

.....

"Alright, take it off!"

Back at the mansion, Luo Qingtong didn't attend to the other slaves but called Su Yu into her room, looking at him indifferently.

Chapter 115 He is a Woman

Su Yu stood in the room, straight and stiff as a rod.

Her spine was so straight that it resembled a javelin, emanating a soldier's iron-blooded and chilling aura.

Even her incredibly beautiful face was sharp as an unsheathed sword.

Upon hearing Luo Qingtong's words, he fell silent for a moment.

Then, with a thud, he knelt down before Luo Qingtong.

Shush!

Su Yu lifted her hand to untie the hair tie on her head, and in one fierce motion, she ripped off the robe she was wearing.

"The master sees through the smallest details, Su Yu is indeed a woman."

Black hair cascading like a waterfall, the raised bundle of muscles on Su Yu's chest, beautifully wrapped in white cloth, also appeared in front of Luo Qingtong.

The half-kneeling young woman with her dress half-removed revealed her upper body, where the muscle lines were extremely graceful, robust yet not bulky.

That femininely beautiful face was filled with a resolute and proud expression.

Had it not been for the wrapped bundle on her chest, no one would believe she was a woman.

"When did the master discover it?"

Su Yu felt mixed emotions.

She didn't know where she had slipped up.

Dressed as a man for more than a decade, she had always been the face and pride of the Su Family! She had never been seen through before!

Even being sold into slavery made no exception!

If Luo Qingtong hadn't seen through her identity, she would not have submitted so easily.

She just didn't know, how exactly had the master seen through her identity?

"You don't need to know that." Luo Qingtong narrowed her eyes as she looked at her.

"Just know that from now on, I am your only master!"

If she hadn't discovered that Su Yu was a woman, Luo Qingtong wouldn't have been so interested in her.

A woman who refused to be subdued even within the "Wolf Pack".

A woman who, even sold into slavery, smartly preserved herself and her secrets.

Luo Qingtong greatly admired her.

Just right, she also lacked a personal attendant by her side.

Someone like Su Yu, with a wolf-like gaze and unwavering spirit, was very much to her liking!

Because such people do not ask too many questions, do not think too much, do not do unnecessary things.

At a critical moment, she would be the sharpest knife in her hand.

And ordinarily, she would also be the least talkative guard.

Most importantly, her androgynous, seamless attire fit perfectly by her side!

Luo Qingtong didn't need a person by her side who was too recognizable!

Su Yu greatly fit the criteria for people by her side.

"Follow me from now on. Come here." Luo Qingtong extended her hand towards Su Yu.

The latter hesitated, then walked over.

Just then, she felt her mind buzz, and in the midst of severe pain, it seemed as if something was being shattered!

"Master!"

Su Yu suddenly widened her eyes.

She could sense that the thing being shattered was the control mark planted in their minds by the Black Domain Slave Market!

The master... she shattered her own mind's slave mark!

Why is that?

Su Yu looked at Luo Qingtong with a shocked expression.

"Master..."

"No need to ask why, I just don't like the idea of someone else possibly holding the power over my people's life and death."

Black Domain claimed to have transferred control, but who knows if they have left hidden measures behind?

The Black Domain's slave trade spreads across the entire Zhenyan Continent.

Every nation has slaves produced by Black Domain, and if these people could actually still be controlled by Black Domain, that would be really troubling!

Regarding this vast Dark Holy Land, Luo Qingtong could not afford to underestimate it.

Breaking the slave mark in Su Yu's mind was simply an unwillingness to leave future troubles.

She never trusted anyone, any method!

She only trusted herself.

## Chapter 116 Rampant Evil Qi

"That's enough, from now on, you follow me."

Luo Qingtong's voice was indifferent, "I don't care about your past identity, nor your grudges and background."

"But by my side, there is only one requirement! That is, my people must prioritize my commands and will above all else!"

"Once your cultivation becomes powerful, you may seek revenge on your own, and I won't stop you. But by my side, no selfish motives are allowed! Can you do it?"

Luo Qingtong looked at her with a faint gaze.

The bloodlust in her eyes flickered bit by bit.

If Su Yu answered with a 'no', her fate today would be extremely miserable.

However, Luo Qingtong believed that the other party would not make such a choice.

This is a clever woman like a wolf!

She possesses the pride of a wolf, but also the intelligence and cleverness of one."

"All of Su Yu's belong to the master, please rest assured, Master!"

Su Yu knelt down.

She regained her freedom, which she should have left at all costs!

Yet the young girl in front of her gave her dignity and freedom, breaking away the shackles of being a slave!

Su Yu is not ungrateful!

By the girl's side, she can grow strong! She can also take revenge!

She is willing to offer her life and soul! All for the rebirth given by the other party!

"Very good." Luo Qingtong nodded faintly.

The other party indeed made a good choice.

"From now on, you will oversee everything by my side. When those people from the slave market come, arrange them into teams, patrolling the mansion."

"Oh, I will give you a map, just patrol according to the route on this map for now."

Luo Qingtong said this, thinking of something, the curve of her lips suddenly lifted up.

That smile was truly wicked and unrestrained.

If Ye Qianming were here at this moment, he would instantly be on guard.

Because this woman always wears this kind of smile every time she deceives him!

Su Yu quickly took over the entire mansion's defense.

Luo Qingtong gave her an exceptionally great level of authority.

Almost everything, Su Yu need not consult her; she only needs to make decisions first and then report afterward.

Doubting those you use, using those you trust!

Luo Qingtong is not afraid of Su Yu's betrayal, she is confident that she can control everything in case of betrayal!

The weak fear being marginalized, being deceived.

The strong always keep everything in their hands!

Su Yu truly lived up to Luo Qingtong's trust, managing her mansion perfectly.

She was formerly a commanding officer; those War Slaves in her hands were arranged very reasonably and soon started patrolling.

Just pitiful for those who were ordered to monitor Luo Qingtong!

The route map drawn by Luo Qingtong was targeted at them!

Ever since Su Yu began arranging people to patrol the mansion, those who came to monitor Luo Qingtong were forced into a scramble!

They can't help it! Those guards precisely go to the places where they are hiding!

At first, they thought their identity had been exposed!

But upon closer inspection, those guards were just normally passing through the places they were located!

They had to start changing locations.

This is not right; every time it makes them panic-stricken!

But it's also strange.

As they change locations, those guards also change their patrolling routes.

Each time, there are a few routes that coincide with the places they hide.

Over time, those tasked with monitoring Luo Qingtong were rendered utterly miserable and utterly helpless!

That day, Luo Qingtong stood in the room, watched those people secretly in a flurry, suddenly smiled, and looked towards Su Yu who was standing by her side.

"Did you just say that someone from the Bloody Battle Arena came, saying that they found the precious medicine I needed?"

#### Chapter 117 Appointed to Meet

"Yes. It's the Heaven and Earth Dragon Soul Grass that you need, Master. The person sent from the Bloody Battle Arena said that the other party insists on meeting you personally, stating they would only hand over the Heaven and Earth Dragon Soul Grass after seeing you,"

Su Yu's voice was clear, cold, and melodious, like pearls falling onto a jade plate, very pleasant to hear.

Coupled with her current resolute and indifferent expression, she truly looked like a handsome and beautiful gentleman, somber yet not lacking in heroism, making onlookers want to claim her for themselves.

What a pity, this cool and handsome man, is a woman!

Luo Qingtong shook her head as she looked on, thinking that if others knew, it would shatter many young girls' romantic dreams!

On a whim, she suddenly asked, "Su Yu, have you ever been pursued by any girls before?"

"..."

Su Yu's voice, which had been reporting, suddenly stalled, and then she helplessly raised her head and said to Luo Qingtong, "Master, I'm discussing serious matters with you."

So, could you please be serious?

Su Yu just couldn't figure her Master out.

She had originally thought that her Master's character was wicked and ruthless, surely making her very difficult to serve.

But in reality, after actually living together, Su Yu came to realize that Luo Qingtong was capricious; although willful, she was very easy to get along with.

In just a few days, the master and servant were able to share some harmless jokes with each other.

"Fine then." Luo Qingtong clasped her fingers together, tapping them lightly as she crossed them, "They want to meet me, right? Tell the people from the Bloody Battle Arena that I will go."

The Heaven and Earth Dragon Soul Grass.

It was one of the Detoxification Herbs that Luo Qingtong needed.

The herbs she needed were mixed in with the list she had given to the Bloody Battle Arena.

If it were any other herb, Luo Qingtong would have refused.

However, since it was this particular herb, Luo Qingtong would have to make the trip in person.

After all, this was the first such herb she had located, capable of curing the Supreme Medicine and Poison in her eyes.

Through the other party, maybe she could find others as well.

Truly, it was only after arriving in the Black Domain that Luo Qingtong realized how precious the Detoxification Herbs she was seeking were!

In the entire Black Domain, with so many cities, they had taken so long and still not found the Detoxification Herbs she required!

The other herbs had been compiled in great quantity though.

But to Luo Qingtong, those were merely Blinding Techniques, utterly useless.

The Supreme Medicine and Poison is definitely not something ordinary people could come up with!

It's already very difficult to counteract the usual Supreme Medicine and Poison!

But the one afflicting her, the Supreme Medicine and Poison in her eyes, was made from incomparably precious herbs!

There is someone behind the Tianyu Royal Family!

"Interesting."

She initially thought it was just a simple plot of a commoner daughter's jealousy against a legitimate daughter, with the involvement of the Tianyu Royal Family being enough, but now it turned out there was more behind it!

Luo Qingtong's interest was completely piqued!

The person who brought out the Supreme Medicine and Poison must have a very prestigious identity, otherwise, they couldn't have used so many precious herbs on top of the Supreme Medicine and Poison.

But it doesn't matter, she has plenty of time! One by one!

"Let's go." Luo Qingtong put on her cloak and the fierce Rashamon Mask before stepping out.

Ever since she subdued Su Yu, life had become much easier for Luo Qingtong, and occasionally she would reveal her true face in her room to let her skin breathe.

Anyway, if someone broke in, the arrangements Luo Qingtong had made would definitely result in a warning.

Luo Qingtong had plenty of time to react.

"Yes."

Su Yu responded, standing straight as she followed behind her Master.

The two of them left the residence, one in front of the other, heading towards the direction of the Bloody Battle Arena.

## Chapter 118 Strange Old Man

Bloody Battle Arena, in the VIP room, an elder stood with his hands behind his back, waiting for the arrival of Luo Qingtong.

Suddenly, he seemed to sense something, looked up at a certain place in the air, and smiled:  
"Netherworld Venerable."

If anyone were here, they would be astoundingly discover that the elder's attitude was very casual, showing no particular fear towards this Black Domain Supreme!

Clearly, he was also a master of a level similar to that of the Netherworld Venerable!

"Him, you must not touch."

The voice of Ye Qianming came from the other end of the air.

This was clearly a very advanced transmission technique; his figure did not even appear here.

"Oh, that Evil Doctor?" The elder's voice expressed surprise, not expecting the Netherworld Venerable to transmit his voice over a thousand miles just to warn him not to touch that Evil Doctor.

"He is a person of the Black Domain." The voice of Ye Qianming was icy.

He had not moved against the Evil Doctor, naturally, he wouldn't allow others to interfere!

After all, that was the only clue he had found so far for locating that woman.

"The Supreme Master misunderstands." The elder's face wore a warm smile; after a moment of surprise, his expression returned to normal.

"Old I has come merely wanting to see the Evil Doctor who, without even understanding a shred of Alchemy Technique, can enter the Extreme Realm and refine Super-grade Liquid Medicine," he chuckled.

"Old I won't seek trouble with him, it's just seeing such a genius that I can't help but feel intrigued."

Ye Qianming said no more.

The captivating aura in the air dissipated.

"Interesting, I didn't expect the Netherworld Venerable to value that Evil Doctor so much, it makes Old I even more curious." In the quiet room, the elder chuckled to himself.

This made him look forward to Luo Qingtong's arrival even more.

Nobody had ever drawn so much attention from the Netherworld Venerable; this Evil Doctor really had some skill.

And the very capable Evil Doctor, Luo Qingtong, was at this moment pushing the door and walking in.

Upon entering, she saw the elder in the middle looking at her with profound implications.

Luo Qingtong immediately felt goosebumps all over her body.

The other's gaze was just too strange.

The kind of "I'm interested in you" implication was unbearably strong.

This can't be some old gay, right? Fancying her?

Thinking this, Luo Qingtong shook off the goosebumps all over her body, and immediately wanted to forget about the Heaven and Earth Dragon Soul Grass and just turn around and leave.

Fortunately, the elder spoke promptly, dispelling the misunderstanding.

"Are you the Evil Doctor? Old I have witnessed your refining of the Xuanyuan One Heart Liquid; not understanding Alchemy Technique while being able to enter the Extreme Realm and refine such Super-grade Liquid Medicine, it really is astounding."

He didn't mention the Netherworld Venerable's matter; since the other party chose to speak to him in a secluded place, it was naturally meant to be kept confidential.

So be it, there was no need to say more.

So it turns out that he had noticed the mystery of her Medicine Technique, Luo Qingtong relaxed.

It's good that he wasn't an old guy.

"Your Excellency flatters me. May I know what brought Your Excellency here today?"

The moment Luo Qingtong's voice rang out, the elder was instantly surprised, then looked at her even more profoundly.

"It's rumored that Evil Doctor's Medical Skills are extraordinary, I wonder if it's possible to treat an injury on Old I?" he asked Luo Qingtong with his hands behind him.

"If possible, the Heaven and Earth Dragon Soul Grass will be offered with both hands."

The elder's face beamed with excitement; rather than looking like someone seeking treatment for injuries, it seemed more like he was assessing Luo Qingtong.

Luo Qingtong looked at his facial expression, her lips twitching.

Why did this old man act so strangely?

However, she didn't mind those things.

Hearing that by treating the injury on him she could get the Heaven and Earth Dragon Soul Grass, she immediately activated her Pupil Skill to examine him.

Upon looking, it was crucial for Luo Qingtong to immediately turn around and leave.

"Sorry, I can't treat this injury!"

## Chapter 119 She Can't Cure!

"Hey! Little kid! Wait a moment!"

Seeing Luo Qingtong turn around and walk away so decisively.

The old man, caught off guard, hurriedly called out, blocking her path in an instant.

"You haven't yet checked my injury! You just said it can't be cured!"

How can this be!

"No need to check, I can't cure it." Luo Qingtong said decisively.

This old man must be kidding her!

Several fierce and violent forces were lurking inside his body, highly destructive, roaming around in his meridians and bones, all suppressed by his own strength!

Although Luo Qingtong couldn't discern the level of strength those powers possessed, she could tell that they were not something ordinary people could touch.

An individual with insufficient strength might be obliterated into dust the moment they encountered even a trace of that power!

In short, this elder was no ordinary strong person, and the injury he harbored was not inflicted by a common person!

How could Luo Qingtong heal this?

It's not that she couldn't cure him, but that she couldn't cure him now!

Her own internal strength was still insufficient. To heal the other's injury, she would need to expose the secrets of her Pupil Skill, and it would also require the assistance of several other strong individuals with strength comparable to this elder!

For a single Heaven and Earth Dragon Soul Grass, should she go through such trouble? Also exposing her greatest secret to others, she wasn't foolish!

Therefore, after glancing at the internal injuries of the elder, Luo Qingtong firmly stated she couldn't heal it!

"No way! You haven't checked the injury yet you say it can't be cured! I can't accept this!"

The elder couldn't bear Luo Qingtong acting this way!

He had intended to properly test Luo Qingtong!

But she responded to him this way!

"Who said I didn't check?" Seeing him blocking her endlessly, Luo Qingtong furrowed her brows, not wanting to entangle with him any longer.

Without exposing her Pupil Skill, she still had a way to make him back down willingly.

"Your breath through the nose is deep and heavy, carrying a thundering sound, mingled with noise, indicating that your internal breath is tangled, with a powerful force spiraling and pulling within."

"Now look at your own palm."

Luo Qingtong pointed to the hand he was using to block her.

"Your nails are bluish-black and your skin pale yet loose! It shows you've maintained exceptionally well, preserving health wisely, with vigorous and abundant strength, protecting and invigorating the body! But you have suffered a severe blow, with powerful backlash intertwined in your meridians, now solely suppressed by your own strength!"

"Therefore, your palm and skin present such a wearied appearance!"

"If I'm not mistaken..." Luo Qingtong raised an eyebrow, "You were at least ten times younger than you are now?"

The elder's beard trembled, each word and phrase from Luo Qingtong striking at the bottom of his heart, incredibly accurate!

It turns out she wasn't speaking carelessly!

But she indeed saw that she couldn't heal his injuries!

The elder's expression turned to one of amazement; before coming here, he had heard of the miraculous Evil Doctor appearing in the Black Domain Suburb.

A bottle of Medicine Liquid could revive the dead and save those destined to die.

He hadn't taken it to heart at that time because he had seen the Medicine Liquid, which had just right cured the critical injuries of those it treated, not as mysteriously as rumored to revive the dead!

Yet even so, his interest was piqued, and he specifically came to meet this Evil Doctor!

He didn't expect that the Medical Skill of the other party would be so unexpectedly extraordinary!

Just by looking at him once, she discerned the severity of the injuries inside his body from his outward appearance!

In an instant, the way the elder looked at Luo Qingtong changed.

## Chapter 120 Identity Exposed

He had already looked at Luo Qingtong differently due to the protection from the Netherworld Venerable, and now that he saw her exceptional medical skills, he was even more delighted.

"Good, good, good!" He looked at Luo Qingtong with a face full of delight and smiles.

"Well done, kiddo! I never expected your medical skills to be so formidable! You're right! The injury inside my body is indeed very serious, and furthermore, you can't cure it!"

His "you can't cure" meant something different from Luo Qingtong's "I can't cure it."

The elder thought she couldn't cure it.

But Luo Qingtong knew that she could, yet if she were to cure it now, she would have to reveal her Pupil Skill ability and completely expose herself to everyone.

She would never do such a thing!

In her past life, her powers being exposed led to so much coveting and pursuit!

In this life, she had finally settled down! She resolutely refused to expose herself!

Just let the other party think she couldn't cure it!

"Yes, as I said, I can't cure it." Luo Qingtong spoke and stepped towards the exit.

"Wait a moment!" The elder called her back, then tossed a brocade box toward her.

He said with a beaming smile, "Though you can't cure it, it is not your fault! I'm not the kind of person to bully a child, so take this Heaven and Earth Dragon Soul Grass! Oh, and there's another gift inside for you! I hope you make good use of it!"

"Kiddo, the world outside is vast! With such a good talent as yours, don't waste it!" He said these profound words with a laugh as he stroked his beard and walked away.

"...This is so inexplicable..." Luo Qingtong had a look of frustration on her face.

She looked at the brocade box in her hands.

Obviously, what was inside was the Heaven and Earth Dragon Soul Grass.

But why would the other party give it to her? Just because she had spoken of his injuries?

Luo Qingtong furrowed her brows, somewhat puzzled.

The old man had been acting strange ever since she entered, even calling her "little kiddo"...

Wait a moment!

Luo Qingtong's figure suddenly stiffened.

Did that old man just now recognize her identity?

Holy shit!

Luckily, there's no one else around!

Luo Qingtong glanced around the private room and even swept the area with her Pupil Skill, making sure no one else heard her conversation with the elder, and then she breathed a sigh of relief.

It's not that she was too nervous, but that man, the one she had offended at Jiuyu Mountain, was also in this Black Domain Suburb!

Thankfully, there were no others present in her meeting with that elder; otherwise, her identity would have been revealed.

This meeting was so secretive and brief; even if that man had extensive Divine Powers, he wouldn't know, right?

Thinking this, she calmed down.

If that man found out, it would be disastrous!

Luo Qingtong definitely did not want to be caught by him!

Although it seemed his purpose was merely for Little Fragrant Pig, the latter was bound to her life force, and Luo Qingtong would not hand it over to him!

As for herself, she had offended him so many times before!

Being caught would certainly not end well!

With this in mind, Luo Qingtong left the VIP room with a heart full of trepidation.

Unbeknownst to her, thousands of kilometers away, in the City Lord Mansion.

With a snap, Ye Qianming, who had been keeping an eye on the private room's activities, crushed the Taotie Paperweight in his hand!

"Li-ttle ki-d-dy?" The face of the Black Domain Supreme darkened, and he uttered each word with an indescribable chill and coldness.

The Evil Doctor was not really an old man?

Could it be that it was that woman in disguise trying to deceive him?

Thinking he might have been tricked once again, Ye Qianming's heart blazed with rage.

"Convey my command! Summon the Evil Doctor to the mansion!"

He wanted to see how the other party would continue to pretend in the City Lord Mansion!
