

Supreme 171

Chapter 171 A Favor to Ask

"Master..." Tears incessantly streamed down from Su Yu's eyes.

She never imagined that such a day would come for her!

With her current constitution, even within the Four Great Holy Dynasties, she would be a genius coveted by all!

A fish leaping through the dragon's gate in a single day!

And all of this, was brought to her by the young girl before her!

She bought her, saved her! And even granted her such an incredible opportunity.

Su Yu felt that even if she were to be shattered to pieces, she could never repay the kindness of her master!

"Master..." She struggled to rise from her bed but kept falling back onto it.

Luo Qingtong tried to push her back down, but she resisted.

"Master." After several attempts, Su Yu finally knelt before Luo Qingtong, her body drenched in cold sweat.

"Su Yu has a request."

"Do you wish to annihilate the Cheng Family and Xuri Country?" Luo Qingtong's gaze was vacant as she looked in her direction.

"I can grant you this request."

The Cheng Family had provoked her, and Luo Qingtong did not mind making them pay the price.

Su Yu's abilities were not lacking; she could leave it to her to carry it out.

"Not that." Unexpectedly, Su Yu shook her head.

"I know, if I ask you, Master, you would surely help me. But Su Yu doesn't want to further implicate you because of her own issues! And the blood feud of the Su Family, it cannot be dissolved by merely annihilating them! I want them to pay a price far more severe than the extermination of my Su Family!"

"With these hands of mine, I want to utterly bring them despair and pain! To let them know, how gravely wrong it was to treat our Su Family like they did back then!"

"Only in this way, can it comfort the souls of the Su Family ancestors in heaven!"

Each word Su Yu spoke was extremely difficult.

She had just barely escaped death, the weakness of her entire person reached an extreme point.

Yet that very body still stood firm and upright!

Her beautiful yet fierce face, not lacking in valour, was filled with resolute determination!

She could not implicate her master any further!

Her own vendetta must be avenged by herself!

This incident that had nearly brought her master into danger—she would never allow it to happen again!

"Master, I implore you to permit me to journey to the Jinan Desolate Domain, the land of chaos! Su Yu is willing to be the sword and shield in your hands, to build a formidable force that truly belongs to you! For you to have no future worries, Master!"

"Please approve of my request, Master!"

Su Yu kowtowed deeply, bending her waist, her forehead touching the ground before Luo Qingtong!

Her back was tied up with layers of medicinal bandages, which were now completely stretched due to her movements, causing fresh blood to rapidly ooze out.

The Jinan Desolate Domain.

Luo Qingtong squinted her eyes slightly.

It was the Desolate Domain not yet fully opened to exploration, located beyond the eastern territories of the Four Great Holy Dynasties!

There, the most ferocious barbaric beasts roamed, the most unpredictable of human hearts tangled, and the richest of resources thrived!

Countless nations and forces have dispatched people to scramble for its riches, all of which were sent back to their respective forces.

That region was the true land of chaos! Thieves and mercenaries reigned supreme!

There, no rules or laws existed, only iron and death prevailed!

Yet at the same time, once one carves out a territory there, the rewards reaped are incredibly frightening!

There, opportunities and death went hand in hand!

The choice that Su Yu had made was clearly one that disregarded life and death!

"Very well. I agree to your request," Luo Qingtong said solemnly.

If Su Yu had such determination, why shouldn't she fulfill it?

Moreover, she did indeed need her own force!

Whether for herself or for the Luo Family!

She needed to establish a power that no one would dare insult!

The Jinan Desolate Domain was indeed the best breakthrough!

And Su Yu, she was someone Luo Qingtong trusted immensely.

Chapter 172 Qingtong's Abilities

"Thank you, Master!" Su Yu kowtowed deeply once again.

"Su Yu swears by the Heaven and Earth Divine Soul, in this life and forever, never to betray the master! I will be driven by Master all my life! If I harbor any second thoughts, let Heaven and Earth punish me together!"

"Rumble!"

As Su Yu took the oath, suddenly, heaven and earth shook, and two beams of light unseen by others instantly descended from the sky.

In that instant, Luo Qingtong realized something in her heart.

That was that the words Su Yu had just spoken had been recorded by the Heaven and Earth Laws!

If there is any violation in the future, she will certainly receive the punishment of the Heaven and Earth oath!

This punishment is more severe and strict than simply offering one's Divine Soul and serving Luo Qingtong as the master.

Because by offering the Divine Soul to serve Luo Qingtong, if Su Yu has second thoughts, as long as Luo Qingtong is willing to forgive her, she can still live!

But the Heaven and Earth oath is mediated by Heaven and Earth itself!

As soon as Su Yu harbors any disrespectful or harmful thoughts towards Luo Qingtong, it will be sensed by the Heaven and Earth Laws, and divine punishment will immediately descend upon her!

And after being executed, she will never be reincarnated!

Luo Qingtong's heart trembled.

She did not expect Su Yu to make such a heavy oath.

Saving Su Yu, for her, was nothing more than because her authority was challenged, and she used the Cheng Family members to kill one as an example to others.

Yet, Su Yu had given her entire life to her!

"Good! Su Yu, since you have sworn to follow me forever, then I will not treat you unfairly." Luo Qingtong's eyes slightly narrowed, and she summoned Little Snowball with a raise of her hand.

"Keep it by your side, let it grow and train with you! The Jinan Desolate Domain is dangerous, in critical moments, it can protect you! Moreover, this is the weapon used by Elder Liu, considered a good Spiritual Artifact, coupled with the King-level Technique Fiery Flame Slash, its power is not to be underestimated!"

"Later, I will transcribe the King-level Technique Fiery Flame Slash for you!"

Luo Qingtong's voice was light and breezy, but little did she know how astoundingly it impacted Su Yu.

King-level Technique? Fiery Flame Slash? Transcribe it for her?

This... not only did the Master learn the King-level Technique Fiery Flame Slash on the spot, displaying perfect power, but she has also fully understood it enough to transcribe it into a secret manual for her?!

Is the Master really not a Martial Emperor-level practitioner?!

This... this isn't something a mere Martial Master Realm could achieve!

Su Yu was indescribably shocked.

She hadn't even noticed the part about Little Snowball that Luo Qingtong mentioned, thinking it was just an ordinary spirit pet.

"Master... Master?!"

Watching Luo Qingtong transcribe that King-level Technique right in front of her, and also concocting batch after batch of Medicine Liquid for her on the spot.

Su Yu found herself nearly becoming numb from the shock!

My heavens!

How many more abilities does the Master have yet to reveal?!

The speed of Master's Alchemy was simply faster than any Alchemist she had ever seen!

Su Yu had never seen an Alchemist who performed Alchemy like the Master, who simply glanced briefly, then grabbed and kneaded, and a ball of Medicine Liquid would be produced!

And each batch of Medicine Liquid had a very rich Medicinal Power!

Even though Su Yu knew nothing about Medicine Liquid, she could tell that the Medicine Liquid refined by Master was extraordinary!

The intensity of its Medicinal Power was stronger than a top-grade Medicine Liquid she once accidentally got hold of in the Su Family!

"Master... What... What level of Alchemist are you?" she couldn't help asking.

"What level?" Luo Qingtong frowned slightly upon hearing this, then shook her head and said, "I don't know, I have never studied Alchemy Technique, nor have I taken any assessments."

Chapter 173 Those Garbage?

"..."

Upon hearing those words and then watching her own master's actions as she effortlessly manipulated the Medicine Liquid with the grace of a dragon and the dance of a phoenix, Su Yu was completely petrified!

Never studied Alchemy Technique?!

Master, are you jesting with me?!

Even if not an Alchemist, Su Yu knew that such skilled alchemy movements displayed by her master were not something ordinary Alchemists could perform!

Instant creation of medicine!

Master, if you still claim to be ignorant of Alchemy Technique and go out, you'll get beaten up!

While Su Yu was utterly astounded by her master's skills, Luo Qingtong had already rapidly refined a batch of Medicine Liquid for her.

Looking at the pile of Medicine Liquid before her, Luo Qingtong felt quite dissatisfied.

These Medicine Liquids are still not enough!

As Su Yu was about to establish her own force, the more Medicine Liquids the better!

But with so much of these items, how could Su Yu take them away?

Luo Qingtong frowned as she pondered this problem.

At that time, Su Yu also realized the issue.

The items master prepared for her seem to be quite numerous!

Looking at the sizable pile of medicine bottles on the ground, her heart was wrestling with the dilemma!

The quality of the Medicine Liquid refined by the master is exceptional!

Not to mention the cost of hiring an Alchemist like the master, even in the Jinan Desolate Domain, it's almost unheard of for Alchemists to appear!

These Medicine Liquids will be incredibly useful in the future!

With these Medicine Liquids, she could rapidly carve out her own domain in the Jinan Desolate Domain!

Su Yu had this confidence in herself.

But it's not easy to carry away so much Medicine Liquid!

"Ah, if only I had a Space storage treasure." She sighed.

"What treasure?" Luo Qingtong, who was thinking about how to pack these items for Su Yu, asked.

"A Space storage treasure. It's a Sumeru Space Spiritual Artifact." Su Yu explained to Luo Qingtong.

"However, a Sumeru Space Spiritual Artifact is extremely precious and rare, only an Engraving Master can refine one. As soon as one is made, it's snapped up by the major forces, leaving ordinary folks no chance of obtaining it. Some people haven't even heard of it, let alone know that such miraculous treasures exist in this world."

"If I had a Sumeru Space Spiritual Artifact, I could fit all these Medicine Liquids inside and carry them with me, no matter how many items there are," Su Yu said.

Upon hearing this, Luo Qingtong appeared pensive.

Sumeru Space Spiritual Artifacts...

Such an item would indeed be convenient!

She was just worried about where to store the good stuff she'll obtain in the future!

"Do auction houses sell these things? If so, I'll buy one!"

For Luo Qingtong, a problem that money can solve is not a problem at all!

"No," Su Yu shook her head, "Master, you may not know this. Sumeru Space Spiritual Artifacts are too valuable to be circulated openly in auction houses. Even at private sales, which the average person can't access, they are rarely sold! It's virtually impossible to purchase one."

"The bidding in secret auctions where one may find a Sumeru Space Spiritual Artifact are only held in the main cities of the great Holy Dynasties, and without a certain status and position of strength, it's impossible to enter."

"So troublesome?" Luo Qingtong frowned upon hearing this.

Suddenly, as if she thought of something, she raised her hand and released Little Fragrant Pig from the Nine-layered Exquisite Tower.

"Did Tian Mingzi leave me a Sumeru Space Spiritual Artifact among these things?"

"Of course not!" Little Fragrant Pig, being lifted up, immediately rolled its eyes.

"For him to escape with the Life and Death Yin Yang Sword and the Nine-layered Exquisite Tower from those people was already fortunate enough! And you still expect him to bring such trash along? Are you out of your mind?!"

Luo Qingtong: "..."

"That 'trash'?" She raised an eyebrow.

Isn't it said that Sumeru Space Spiritual Artifacts are very precious?

Chapter 174 The So-Called Junk

"Yes!" Little Fragrant Pig was being swung around in her hand, its four little hooves flapping wildly.

"Aren't they just junk?"

"Have you forgotten what the old man Tian Mingzi does? He can have as much of that junk as he wants! Why would he need to carry it?"

"..." Saying this, Luo Qingtong immediately remembered.

In the legacy Tian Mingzi gave her, Mingwen Avenue was prominently mentioned.

He is an Engraving Master, so naturally, he wouldn't care about those Sumeru Space Spiritual Artifacts!

After all, he could refine them whenever he wanted.

"What do you want a Sumeru Space Spiritual Artifact for?" Little Fragrant Pig, while speaking, glanced shiftily and noticed a pile of Medicine Liquid on the ground.

"Don't tell me it's to store this stuff?"

"What's the problem?" Luo Qingtong raised her eyebrow at it, pondering in her heart what the chances were that she could start learning Engraving right now and succeed in refining a Sumeru Space Spiritual Artifact.

But she didn't know a thing about Engraving, learning it right now might be a bit doubtful!

And if it took too long, it would be more loss than gain.

After all, she has been away from the Luo Family for quite some time and really needed to go back and check in!

Luo Qingtong thought about this and furrowed her brows.

Just then, Little Fragrant Pig's voice rang out.

"To store this stuff you don't need some Sumeru Space Spiritual Artifacts! Just something that can contain items will do!"

Little Fragrant Pig wriggled around in Luo Qingtong's hand as it spoke.

"Let me go first, I remember I have kept some old scraps refined by that old man Tian Mingzi because they looked nice, they might not have the Sumeru space effect anymore, but storing items isn't a problem! I'll go get them for you."

Luo Qingtong listened and let it go.

Little Fragrant Pig whisked away in a flash.

Sometime later, it reappeared with a ring on each of its trotters.

"Here you go! These are Grandpa Pig's treasures! Do these two rings look beautiful?" Little Fragrant Pig proudly thrust its little trotters towards Luo Qingtong's face.

Meanwhile, Su Yu, already stunned by the conversation between Luo Qingtong and Little Fragrant Pig, looked up along Little Fragrant Pig's trotters and instantly gasped in shock.

Oh my goodness!

On Little Fragrant Pig's trotters were two rings that looked exceedingly luxurious and extraordinary.

The rings were adorned with two Divine Beasts whose dignified and majestic presence came to life vividly, compelling an involuntary reverence from onlookers!

This... These are the leftovers from refinements?!

What would they look like if refined properly?!

Su Yu was dumbstruck, at a loss for words!

She had seen countless treasures, but none of their crafting could compare to the two rings brought out by Little Fragrant Pig!

The Divine Beasts on them seemed so lifelike as though they could awaken at any moment and burst forth.

"They are very beautiful." Luo Qingtong also complimented as she looked.

"Of course!" Little Fragrant Pig's tail nearly shot into the sky, "My taste! Why would I keep these failures if they weren't beautiful?"

"Here! Take these. Although these two rings have been botched, at least the space inside them has roughly taken shape. Forget about adjusting time flow or moving mountains and seas, or generating Spiritual Springs and so forth! Storing a few hundred to a thousand square meters of items is absolutely no problem!"

"..."

"Bang!"

With Little Fragrant Pig's words finished, Su Yu suddenly fell to the ground with a bang!

Oh my heavens!

A few hundred to a thousand square meters?!

And these are still failures?!

She must have heard about fake Sumeru Space Spiritual Artifacts before!

Chapter 175 Finding Clues

Su Yu wasn't someone lacking in experience. On the contrary, when the Su Family was at its peak of splendor, she had accompanied the Su Family Head to an underground auction to gain some insight!

At that time, a storage ring was auctioned at the underground meeting for an exorbitant price!

It sparked a frenzied bidding war among attendees!

Su Yu distinctly remembered that it was a storage ring with a space of one hundred square meters, which had already shaken various forces!

At that time, the forces of the Four Great Holy Dynasties and the Imperial Families were all present!

The entire auction scene was unprecedentedly grand!

And now, Su Yu was looking at the so-called "defective" ring handed over to her by Luo Qingtong, and oh, how her lips twitched!

She imprinted her spiritual power onto it and then, utterly shocked, discovered that there really was an incredibly spacious space inside!

It's just that the surroundings were filled with a gray fog, as if there was something else that hadn't been expanded upon!

Su Yu had no doubt that what Little Fragrant Pig had said was true!

This really was just a defective product!

But the real Sumeru Space Spiritual Artifact has capabilities beyond merely storage!

Adjusting the flow of time, moving mountains and filling seas, Spiritual Spring Gathering... my heavens!

Is that what a real Sumeru Space Spiritual Artifact is like?!

Were those "Sumeru Space Spiritual Artifacts" she had heard of in the past not even as good as a defective product?!

Su Yu was shocked in her heart, and Luo Qingtong was also quite surprised.

She had not anticipated the Engraving Technique to be so potent!

Luo Qingtong was very interested in the effects of the Sumeru Space Spiritual Artifact that Little Fragrant Pig mentioned!

Adjusting the flow of time, moving mountains and filling seas, Spiritual Spring Gathering...

It seems she needs to research this Engraving Technique when she has time!

This is a field she has never touched upon before.

Luo Qingtong has now grown curious about the Engraving Technique.

Telling Su Yu to rest well, Luo Qingtong returned to her own room and quickly prepared the Medicine Liquid she was going to make for Su Yu.

Looking at the storage ring in Su Yu's hand that was now partially filled, Luo Qingtong nodded with satisfaction.

That should be about right.

The main thing was Luo Qingtong didn't want to attract too much attention, otherwise filling up Su Yu's Storage Ring completely wouldn't be a problem!

Luo Qingtong spent three days on Alchemy!

During these three days, the answer Ye Qianming wanted was reported up from the Black Domain Suburb.

"Master, it has been investigated! That servant named Xiao Liu showed no signs of anything unusual from the moment he left the house, entered the medicine store, and went to the Bath Palace."

"The only peculiarity is that he took an extra medicinal ingredient at the medicine store, the Jade Sky Heart Fruit!"

"That was a gift presented to you by the subordinates when you first arrived at the Black Domain Suburb."

Beiqing and Feng Yu knelt before Ye Qianming and reported.

The two had exerted all their might, and in just three days, carefully investigated these matters thoroughly.

"No signs of anything unusual?" Ye Qianming narrowed his eyes as he looked at the report handed over, his face showing no discernible emotion.

Only those cold, icy eyes flickered slightly with light.

That woman's eyes really were good!

That means, can her eyesight be temporarily restored completely?

Ye Qianming tapped his index finger lightly on the table surface, his eyes lowered.

The harm caused by Supreme Medicine and Poison isn't so easily resolved!

If she came to the City Lord Mansion to steal the Jade Sky Heart Fruit, it means she urgently needed that particular medicinal ingredient!

It's very likely that it's one of the antidotes for her Supreme Medicine and Poison!

That woman is really not simple!

Could she have so quickly found a solution to Supreme Medicine and Poison, even deducing the antidote?

Chapter 176 Offering You Two Choices

Ye Qianming's eyes narrowed slightly.

"Take this to Elder Yue and have him deduce the antidote for other Supreme Medicines and Poisons!"

"In addition, bring me the list of medicinal ingredients that the Evil Doctor had previously submitted to the Bloody Battle Arena!"

He wanted to see if that woman was really the Evil Doctor!

"Yes!" Beiqing Fengyu obeyed the order and was about to leave.

Just then, Ye Qianming stopped them.

"Wait!"

He raised his hand and drew a portrait, precisely the true face Luo Qingtong had revealed at the Black Domain Suburb City Lord Mansion.

That visage was stunningly enchanting, with three parts wicked aura and seven parts sternness, the smile on the lips unrestrained and carefree, truly a beautiful jade-like youth! Enthrallingly seductive to the extreme.

Beiqing and Fengyu, receiving the portrait, were sweating coldly.

What is the master trying to do?

Wasn't it agreed to search for that woman?

Why suddenly create a portrait of a bewitchingly beautiful youth for us?

First the Evil Doctor, then a bewitchingly beautiful youth!

Master... Master, what has happened to you?!

You absolutely must not turn...!

However, Ye Qianming could not hear their inner voices.

"Spread this picture throughout the Upper-class Countries... No, all the subdivisions of Middle-class Countries and above! Have them look carefully! If such a person exists, report immediately to me!"

Ye Qianming was gambling!

Gambling that this face was the other party's true countenance!

When the time comes, he would know who the Evil Doctor really was!

A two-pronged approach!

He refused to believe he couldn't find out the truth about the other's identity!

Beiqing and Fengyu, wiping their sweat, stood up and left.

Ye Qianming sat upright on the enormous black throne, his expression slightly solemn, his eyes faintly hooked.

This time, let's see where you can run!

In Black Domain Suburb, Luo Qingtong was still unaware that her identity was about to be exposed.

At this moment, she was in the hall, looking at the group of War Slaves she had summoned.

These were the people she had bought at the slave market.

Apart from adding some guards to her mansion, it was also to increase the strength for the Luo Family.

As a Marquis Mansion of a Lower-class Country, the Luo Family's status was indeed higher, but it was actually very awkward!

Its current position was entirely built on the marriage contract with the Tianyu Empire!

And now, Luo Qingtong was about to break off the engagement!

Without the protection of the Tianyu Empire, those forces that had been suppressed by the Luo Family in the past would likely become restless.

In this world, it's always easier to add flowers to the brocade than to send charcoal in the snow!

Luo Qingtong wouldn't rely on the hope that others might not trouble the Luo Family!

She wanted to control everything in her own hands!

Rather than hoping others won't come to make trouble!

She prefers to blow up anyone who comes to make trouble!

Ensuring they never dare to trouble her again!

"You all were bought by me at the slave market. Now, I offer you two paths to choose from."

"One, leave Black Domain City with me. Two, stay in the Black Domain City Mansion to defend it."

Luo Qingtong sat on the pear wood chair, her Pupil Vision restored, sweeping her eyes across everyone present.

"Master, are you abandoning us?"

The crowd addressed with this question was filled with fear.

Especially the few powerhouses of the Martial Marquis Realm!

After previously witnessing Luo Qingtong's prowess, they had long regarded her as their only master.

Even if they had once hesitated in their allegiance, that notion had dissipated under Luo Qingtong's consecutive acts!

But now, the master was actually giving them a choice?

The group felt very uneasy.

Chapter 177 Chu Lingfeng's Choice

"That's not it." Luo Qingtong's eyes slightly drooped.

"I'm just giving you an opportunity. But whether you can grasp it depends on yourselves."

Luo Qingtong's voice was faint.

"Among these two paths, one represents a supreme journey. Whether you're willing to take it is up to you to decide."

If they are willing to follow her and leave Black Domain City, then upon returning to Dongli Country, even for the sake of the Luo Family, she would not treat those War Slaves who accompanied her poorly!

These people would then become another hidden force set up by her for the Luo Family.

She would naturally make a move to pave their way forward!

As for those who chose to stay behind, since they've opted for the comfort of Black Domain City, it means they themselves have lost the spirit to fight!

Therefore, that's all they could amount to in the future!

However, Luo Qingtong would not say these things to them.

Everything, is for these War Slaves to choose on their own.

"I can only tell you, leaving with me will be extremely dangerous. Perhaps... it might even cost you your life! But staying in Black Domain City could be relatively safer."

"Make your own choice."

Luo Qingtong, wearing the Rashamon Mask, said to them.

"Now, I'll count to three. Those willing to leave with me, line up on the left. Those who wish to stay, on the right!"

As Luo Qingtong spoke, she calmly began to count.

"One."

As her voice sounded, a wave of panic surged through the hearts of the War Slaves.

They did not understand the significance of this choice. As Luo Qingtong was already counting to two, many of them bit the bullet and made a random choice according to their own wishes.

"Three!"

Luo Qingtong's voice paused.

She looked at the War Slaves standing clearly separated before her and nodded.

"Good! Those who chose to leave with me, start leaving the city in groups now."

Luo Qingtong would not give the people of Black Domain a chance to trace her whereabouts!

As all these War Slaves had made their choice, she immediately had them conceal their identities and leave the city.

After all, with so many slaves in and out of her mansion every day, she didn't believe that the people of Black Domain would be so idle as to mark and keep a close eye on every single one!

Those War Slaves, they probably didn't care about them, right?

"You few, lead the teams." Luo Qingtong looked at those powerful individuals in the Martial Marquis Realm and said.

Not a single one of them wished to stay in the residences of Black Domain Suburb; they all were willing to leave with her!

Good!

In the future, they will realize that this choice was absolutely correct!

"Master!" Just then, Chu Lingfeng stepped forward.

He was originally standing behind Luo Qingtong and did not need to make a choice, but now, he stood up and knelt before Luo Qingtong.

"Master, I wish to stay in Black Domain City!"

As soon as Chu Lingfeng spoke, Luo Qingtong immediately looked towards him.

The hearts of those Martial Marquis Realm War Slaves were also filled with surprise.

Could this Chu Lingfeng really be such a fool who is oblivious?

Doesn't he know the Master's capabilities?

By staying by the Master's side, even though danger may loom, it also represents tremendous fortune!

A mere trifle from the Master would be enough for them to benefit greatly!

Yet he chooses not to, preferring instead to stay in Black Domain City?

"Your reason." Luo Qingtong looked at Chu Lingfeng.

She did not believe Chu Lingfeng was the kind to fear death and seek comfort!

This simple and pure big fellow had been very loyal since following her back.

He must have his reasons for doing so.

Chapter 178 Fools Have Their Own Fortune

"Master, I want to become stronger!"

Chu Lingfeng's simple face was filled with a disappointed expression.

"I'm too weak! I can't protect you when I'm by your side! It's good enough having those few with you."

As he spoke, he gestured toward the few strong Martial Marquis Realm experts at the forefront on the left.

"With them here, and with you being so powerful, Master, you will certainly be fine! But if I'm by your side, I'll only be a burden to you!"

Chu Lingfeng struggled to organize his words.

"I've thought about it for a long time, I don't have exceptional talent, my brain isn't good, I'm stupid and clumsy! How can I be of use to you, Master?"

He said, grinning at Luo Qingtong.

"I didn't sleep all night yesterday! I finally thought of something! Master, I'm not afraid of pain! I can take a beating! I'm not afraid of getting hurt!"

"Master! I'll be your shield from now on! With me here, no one will be able to harm you!"

"So, I want to stay behind, to go to the Bloody Battle Arena! Only there can I grow!"

Chu Lingfeng said and, after taking a few kneeling steps, crawled on his knees to Luo Qingtong, and whispered mysteriously, "Master, you don't know, I have a secret!"

"My body is strange; the more I'm beaten, the stronger I get! Many people can't beat me to death! In the end, their strength becomes mine! Don't tell anyone else, Master! My mother said not to let others know!"

Chu Lingfeng said, scratching his head.

He wasn't sure if the Master had understood him.

But anyway, he had known since he was a child that unless he was killed with a single blow, if others simply beat him, the power they exerted on him would slowly be absorbed by him, either to repair his body or to increase his strength!

His mother had told him not to reveal this secret to anyone else.

But Chu Lingfeng felt that the Master was not just anyone else!

"Hmm." Luo Qingtong's gaze softened.

She didn't expect the reason Chu Lingfeng wanted to stay was this.

That's good!

Given his unique constitution, indeed, places like the Bloody Battle Arena, where there is constant fighting, are where he can best hone and improve himself.

This big fool is really born for battle!

Previously, when Luo Qingtong was attending to his wounds, she found it particularly strange, feeling that his healing ability was too strong!

She didn't realize there was such a secret to it.

"Alright, then you stay. I will go and speak with them at the Bloody Battle Arena," said Luo Qingtong.

"Yes! Thank you, Master!"

Chu Lingfeng's mind was simple, and he had never even considered that his previous action of opting to stay might displease Luo Qingtong.

Hearing her consent, his face broke into a wide grin, his eyes lost in the folds of his joy.

The Martial Marquis Realm War Slaves standing nearby all sighed to themselves.

Alas!

Fools really do have fools' luck!

Had it been someone else making the decision to stay, they might have angered the Master!

This big fool's sincere dedication, on the other hand, made the Master value him even more!

But this kind of genuine heart is something they couldn't learn even if they tried!

Who would have thought Chu Lingfeng wanted to enter the Bloody Battle Arena!

That place, any Martial Cultivator with a bit of skill would not wish to enter!

After all, it's a place where you bet your life on fight!

Only this big fool, with a pure heart and dedicated solely to his Master, would make such a decision!

The group split into two, with those left behind led by Chu Lingfeng!

Luo Qingtong took out some of the Medicine Liquid she had prepared for Su Yu and gave it to Chu Lingfeng. She also left a letter for the people at the Bloody Battle Arena, asking them to take good care of Chu Lingfeng, before finally leaving with the rest of the group.

Chapter 179 The Lord is Very Angry, the Consequences are Severe

"Boom boom boom!"

In the mountains outside Black Domain City, a booming buzzing sound arose.

A huge and splendid Flying Boat instantly soared into the sky, parking in front of them, dumbfounding a group of War Slaves who were preparing to leave with Luo Qingtong.

My heavens!

These War Slaves weren't ignorant about valuable items!

In this world, Spiritual Artifacts are divided into four grades: mortal, human, earth, and heaven!

Each grade is further divided into nine ranks!

The grade of Luo Qingtong's Flying Boat is evidently an Earth-level Spiritual Artifact!

It's just unknown what rank it is!

This is an Earth-level Spiritual Artifact that only powerful figures amongst the Four Great Holy Dynasties are qualified to possess!

Unexpectedly, Luo Qingtong actually had such a flying ship!

The identity of our master must indeed be extraordinary!

However, these War Slaves didn't realize that they had guessed it all wrong!

Only upon arriving in Dongli Country and learning Luo Qingtong's true identity did they realize how ridiculously off their guesses were!

Fierce and domineering as a master, how could it be that she is a young lady from a low-class small country Marquis Mansion?!

This... this looks impossible!

And three days after Luo Qingtong and others left, Chu Lingfeng, carrying the letter left by Luo Qingtong, turned up at the Bloody Battle Arena.

It was then that the people of Black Domain Suburb knew that the Evil Doctor had left!

And, he hadn't left any trace at all!

"My heavens! My Evil Doctor! Why did you leave?!"

On receiving the message, the face of Black Domain Suburb City Lord was full of tears without tears.

Heaven knows, he had just received a message from the Main City, telling them to keep a strict watch on the Evil Doctor and not allow any mistakes!

Now what's happened is not just a mistake, the person himself is gone!

The Black Domain Suburb City Lord felt extremely frustrated!

Fortunately, that big fool Chu Lingfeng didn't leave, which somewhat comforted him.

Since he was personally saved by the Evil Doctor and was arranged to train in the Bloody Battle Arena, it's impossible for him to not care about him!

Thinking this, the Black Domain Suburb City Lord wiped the cold sweat from his forehead, promptly reporting this news to the Main City.

Meanwhile, at Black Domain Main City, Mingzun Palace.

Ye Qianming also received the medicinal material list that Luo Qingtong had left for the Bloody Battle Arena.

Looking at the glaring words "Jade Sky Heart Fruit" on the list, Ye Qianming's forehead veins throbbed...

"Evil, Doctor, Ghost, Eyes!"

He gritted his teeth as he pronounced each word.

The exact same medicinal item, that woman wants it, Evil Doctor Ghost Eyes wants it too!

Could such a coincidence exist?!

The greatest possibility was that the Evil Doctor was that woman!

But, from several previous probes, the other party appeared to be a man, causing Ye Qianming to be unable to fully confirm it at once!

Damn it!

Back then in the City Lord Mansion, he shouldn't have been confused by his intact eyes! He should have stripped off his clothes!

Only then would he have known whether he was male or female!

Ye Qianming's gaze was cold.

He suddenly got up, "Prepare the Spirit Boat! This Venerable is heading to the Black Domain Suburb in Dongli Country!"

This time, he would absolutely not let the other party escape!

No tricks would work!

However, just as his words fell, Beiqing rushed in with emergency intelligence from Black Domain Suburb, striding quickly.

"Master! The Evil Doctor has already left the Black Domain Suburb, whereabouts unknown!" He knelt on the ground, reporting with utmost caution.

Oh my goodness! The Evil Doctor has disappeared!

This will make the master explode with anger!

Sure enough, upon hearing the report from Beiqing below, with a snap, Ye Qianming crushed the armrest of his throne in his hand...

"Let my Venerable investigate! Send orders to all sub-cities and the Thirty-six Palaces under Black Domain to fully seek out the whereabouts of Evil Doctor Ghost Eyes!"

Chapter 180 You beasts!

"Yes!" Beiqing hastily responded.

He feared that if he responded too slowly, he would end up like the armrest of the master's throne, crushed to pieces.

Wiping away his sweat, he retreated. On his way out, he couldn't stop muttering to himself.

Does the master care too much about that Evil Doctor?

Even if the other party might be involved with that woman... Shouldn't the master be more concerned with finding the woman's whereabouts?

How come he wakes up and just clings to the Evil Doctor?

Master, have you got your priorities all wrong?!

That girl is the main target! Not the Evil Doctor!

Beiqing internally screamed, desperately wishing his master would quickly realize the mistake!

However, glancing at his master's dark expression and the broken thousand-year-old ironwood armrest, he silently swallowed back his words.

"Feng Yu, do you think our master... could it be... he might..."

Upon leaving the hall, Beiqing looked at Feng Yu beside him, his face full of confusion, hesitating to speak.

"Could it be what? It's nothing!"

Seeing a figure emerge from the hall, Feng Yu's lips twitched, constantly making signals at Beiqing with his eyes.

Shut your mouth, idiot!

The master is coming out!

But the thick-skinned Beiqing didn't catch on to his meaning at all.

"I mean, can it be that our master has really taken a liking to the Evil Doctor! How come he's so concerned about him? That guy is just a shameless old lecher! Feng Yu, do you think the master might be... Eh? Feng Yu, why are your eyes twitching so much? And your mouth too? Are you having a stroke?"

You're the one having a stroke! Your whole family is having a stroke!

Feng Yu looked at the ink-black face of their master behind Beiqing and instantly covered his eyes, not wanting to see anymore.

What a fool Beiqing is!

"...Ma— Master..." Realizing Feng Yu's gesture, Beiqing's single brain cell finally got the hint of something wrong, and turning back to face his master's dark, dark complexion, his face instantly turned pale!

Oh my god!

When did the master get here? I, I, I— he, he, he—

And that disloyal Feng Yu didn't even give him a heads up! What's the use of just twitching his face!

"Master, I, I, I..."

Before Beiqing could finish stuttering his words, Ye Qianming had already harshly flicked his sleeve, passing by him.

"Strip him of his clothes and throw him into the Spy Color Workshop! Without my orders, no one is allowed to let him out!"

An icy voice, as if coming from the Beiguo Snowfield, made Beiqing jump up from the ground in fright.

"Master! Please no, Master!"

He didn't want to be sold for his looks!

Begging for a different punishment method! Master!

However, before he could catch up with Ye Qianming, he was surrounded by Feng Yu and others!

"Beiqing, you know the master's temperament; he always sticks to his word. So..." Feng Yu watched him with an elegant and noble smile, "Should you do it yourself, or shall we assist?"

As he spoke, he went 'click click click', twisting his fingers!

This idiot, I already warned him, and he still goes to provoke the master's ire! I was almost dragged into this mess!

Feng Yu felt he must thoroughly implement the master's orders and properly discipline Beiqing!!

"Wait, don't come over!"

Seeing Feng Yu and the others closing in, Beiqing instinctively turned to run but was quickly overwhelmed and pinned down by the crowd.

Instantly, his screams echoed.

"Ah! My clothes! Hey, hey, hey! Be gentle when you rip them! My lord! You beasts! You don't have to strip my underwear, right?!"
