Chapter 241 Intimidate for Her!

"Boom!"

That enormous sound, as if it came from the distant heavens, sounded thunderous and booming like a peal of thunder.

In just an instant, it struck above the Royal Treasury.

"Bang!"

Before Emperor Tianyu and the others could react to what was happening, with a loud bang, the entire roof of the Royal Treasury exploded in an instant!

An immense and boundless force violently blasted downwards, and instantly, countless bricks and dirt flew explosively in all directions!

"Ah!"

Emperor Tianyu and the others were instantly blown away!

The Emperor-level powerhouses who were using the Heavenly Mirror Secret Technique to reveal Luo Qingtong's appearance spewed out a mouthful of blood with a 'Pfft' and fell to the ground with a 'Thud'!

Instantly severely injured!

"Saint..." Saint Realm expert!

An Emperor-level powerhouse with lighter injuries, with shocking gaze, stared at the massive force that had just blown the whole Royal Treasury into the air, and hysterically screamed with his eyes wide open.

Saint Realm expert!

Such a terrifying power of heaven and earth could only belong to an extraordinary transcendent expert whose cultivation had reached the Saint Realm!

These powerhouses who already cultivated to the Emperor-level were well aware of the vastness of heaven and earth power!

They also filled their hearts with respect and fear towards the powerhouse who made the move!

Saint Realm expert!

And not just any ordinary Saint Realm expert!

So strong!

This force, striking from afar, exploded the entire Royal Treasury without them sensing it at all!

What terrifying control power is this?!

While those Emperor-level powerhouses of the Tianyu Royal Family were shocked and fearful, a voice suddenly coldly resounded by their ears.

"Stop investigating the matter of the Royal Treasury! Otherwise, annihilation!"

The word 'annihilation' was spoken with utmost cold-heartedness and murderous intent.

Everyone couldn't help but shudder upon hearing it.

Terrible!

It was indeed too terrifying!

The people from the Tianyu Royal Family had no doubt that if they said a word of dissent at that moment, the entire Tianyu Imperial City might be leveled in an instant!

This person's power was simply too strong!

Emperor Tianyu and the others were utterly terrified.

Under the deterrence of this force and its suppressing power, they couldn't even speak, only desperately nodding.

Compared to their own lives and the continuation of the entire Tianyu Royal Family, what was the Royal Treasury?!

Even if the other party demanded they hand over the entire Tianyu Empire, they could only offer it respectfully with both hands!

Such power, already penetrating heaven and earth!

Only among the Four Great Holy Dynasties could there be such a powerhouse!

Although Tianyu Empire appeared as an Emperor Level superpower on the outside, it was nothing in front of the Four Great Holy Dynasties!

Not to mention such a powerhouse!

However, Emperor Tianyu and the others couldn't comprehend why such a powerhouse would take interest in the Royal Treasury of their Tianyu Empire?!

With the opponent's power, what kind of treasure couldn't they have?

Perhaps they had just encountered a powerhouse with a strange fancy for snatching treasures?

Thinking this, Emperor Tianyu and others could only cry without tears and resign themselves to their bad luck!

While Emperor Tianyu and his people were scared stiff, not far from Tianyu Imperial City, on a high peak, Ye Qianming retracted his power with a flick of his sleeve.

"Let's go." he said indifferently.

"Yes, Master."

Beiqing and Feng Yu hurriedly complied.

They hadn't expected the master to specifically take a detour to this side of Tianyu Imperial City, just to intercede for the Evil Doctor and conceal his aura!

The master really cares too much about the Evil Doctor! Who knows if the Evil Doctor can feel the master's painstaking efforts!

"Achoo! Achoo!"

Luo Qingtong, while on the way, inexplicably sneezed several times!

Chapter 242 Almost Moved

"Strange, who is cursing me?"

Luo Qingtong stopped in her tracks, rubbed her nose, and then seemed to think of something, her lips twitched slightly.

"Could it be that man?"

Just thinking of Ye Qianming gave Luo Qingtong a headache.

Why was that man so clingy! And like a lingering spirit!

Luo Qingtong would have never imagined that a whim to teach the Tianyu Imperial Family a lesson would lead her to bump into that demonically charming man!

How deep must the karma be for her to keep running into that man again and again!

Utterly frustrating!

Dear heavens, where have I offended you! Just tell me!

I'll change, okay!

As long as you don't let that man meet me again!

You want me to call you great uncle, to offer you Eternal Incense every day, I can do that!

"Ah! Really out of luck!"

Had she known this would happen, she wouldn't have come to the Tianyu Empire! After all, there were plenty of opportunities to teach the Imperial Family a lesson later!

Just had to pick the time when that man was present!

Now great, not only got caught, but also got something slapped on her!

Luo Qingtong thought dejectedly as she looked at her left hand's ring finger.

There, an exquisitely crafted ring quietly adorned her slender and graceful finger.

The design of Nine Phoenixes Facing the Phoenix on it was extremely lifelike, as if they were ready to spread their wings and fly away at any moment.

Luo Qingtong looked at the craftsmanship of this ring, it was even better than the trinkets Little Fragrant Pig had given her before!

You know, those trinkets from Little Fragrant Pig were crafted by that old man Tian Mingzi!

As the master of the Slaughter Immortal Palace, his refined Storage Space Rings were no ordinary items, they were high-grade even if defective!

The ring this man slipped on her hand was not inferior to his, which shows the quality of this ring was not low either!

"Really... just a tracker, yet made so flamboyantly! If I didn't know better, I'd think he was interested in me! And placed in such a spot!"

If Luo Qingtong wasn't aware that ancient people didn't know that putting a ring on this finger meant engagement, she would have misunderstood!

But... what did that last kiss from him mean?

Luo Qingtong had almost gotten lost in it.

That man was not only powerful and handsome, but also a quick learner!

The taste of that kiss was simply too good!

Such a man, Luo Qingtong almost really fell for him!

In fact, Luo Qingtong did quite like Ye Qianming.

Such a powerful and handsome man, truly her type!

Luo Qingtong had seen countless handsome men in the 24th century, but she wasn't interested in men who were weaker than her.

Moreover, as the strongest Pupil Master of the Superpower World, countless people were after her.

A weak man by her side would only become a vulnerability others could exploit to capture her.

Therefore, no matter how much Luo Qingtong appreciated handsome men, she had never been moved by any man.

She knew what she wanted, and knew she would never become a puppet or a vassal in someone's hand!

But Ye Qianming... that man... he was just too strong!

Strong to the point where Luo Qingtong had no idea where his limits were, nor did she know how she could ever control him!

Years of fleeing and evasion had nurtured in Luo Qingtong an extremely insecure nature.

A man she couldn't control was like a ticking time bomb.

Luo Qingtong didn't know when she might be annihilated into broken bones!

Such a man, once fallen for or loved, would mean doom!

Better to keep her distance!

Thinking this, Luo Qingtong tapped on her sleeve pocket.

Chapter 243 Why Must We Hide?

"Heng Ji, come out."

Luo Qingtong arbitrarily named the Little Fragrant Pig, utterly disregarding whether it suited the so-called lofty status of the Ancient Divine Pig.

In fact, Luo Qingtong highly suspected that this pig was just fooling her!

Looking at it, where was there any trace of the loftiness of an Ancient Divine Beast!

"Heng Ji, what are you doing?"

Little Fragrant Pig, with its weak legs, crawled out of her sleeve bag, but Luo Qingtong grabbed and lifted it halfway through.

"This ring, do you have a way to block the sensing so that man won't detect it?"

Luo Qingtong firmly believed it was a tracker.

In reality, this ring truly could interact with Ye Qianming's Ten Directions Dragon Ring.

After all, the Dragon Phoenix Emperor Ring was originally a pair.

Otherwise, how could Ye Qianming have let Luo Qingtong go so easily?

"No way. This ring has already absorbed your essence blood. If I'm not mistaken, that man should have another ring similar to yours, which can sense your presence."

Having spent so much time in Slaughter Immortal Palace, Little Fragrant Pig naturally knew something about Artifact Refining.

The grade of this ring was clearly very high!

If it were lower, it might have had a way.

But now, it could only shake its head!

"Really no way at all?"

Luo Qingtong furrowed her brows.

She really did not want to encounter that man again!

That feeling of being unable to control oneself, only to be manipulated by others, was not pleasant at all!

Luo Qingtong, as a Supreme Pupil Master, had never felt so helpless before.

But that man, she just had no way to deal with him!

Most importantly, Luo Qingtong was afraid that if this continued, she might truly develop feelings!

Ye Qianming met all her criteria for choosing a partner!

That feeling when you really like a man before you but can't pounce on him, it's too frustrating!

No way, she must stay away from that man!

What if she carelessly made a huge mistake?!

If it had been before on Earth, with such a man, pouncing on him would just mean pouncing on him!

After all, she was all alone and wasn't afraid of any retaliation!

She could always just run away!

But now... thinking of Old Master Luo, Luo Qingtong felt some concerns in her heart.

She finally had family members she wanted to protect and did not want to lose them again.

That man was too dangerous; she couldn't take the risk!

Nor could she pin her hopes on the possibility that he might show her mercy!

Who knew if he was just acting on a whim and might change his mind later?

Thinking about it, Luo Qingtong gazed at the ring on her hand, her eyes glowing with a blood light, wanting to use her Pupil Skill to analyze the ring and find a way to remove it.

But her Pupil Skill had just started and already hit a wall!

Luo Qingtong looked annoyingly at the layer of power wrapped around the ring.

It was the layer of power that man had coated on it! It prevented her from spying on and analyzing the ring.

Just like how she previously couldn't clearly see that man's face!

Heaven wants to ruin me!

Luo Qingtong felt like scratching the walls in her mind!

That man had even anticipated that she knew Pupil Skill!

Did he have to be so cautious!

She glared at the ring on her hand resentfully!

If she had known, she wouldn't have revealed so much just to save that man! Now it all turned back on her!

What sin had she committed to be so selflessly helping others only to trap herself in the end!

Meanwhile, Little Fragrant Pig watched her trying various ways to remove the Jiuyou Phoenix Ring, and couldn't help but ask, "I see that man doesn't have bad intentions towards you, why do you insist on avoiding him?"

Not only did that man warn it for this woman's sake, but the grade of this ring also looked so high; it didn't seem like it was meant to harm the woman at all!

Why must she take off this ring? Being found by that man wouldn't be so bad, right?

Chapter 244 The Big Surprise for Him

"You don't understand."

Luo Qingtong spoke without lifting her head, continuing to study the Jiuyou Phoenix Ring in her hand.

"A young tiger and a Wolf King meet, spared once, do you think luck will be just as good the next time they meet?"

"Besides, one's destiny should be in one's own hands, not in someone else's."

"I want to be a hunter, not someone else's prey!"

Especially not the prey of that uncontrollable man!

As Luo Qingtong said this, a faint gloom flickered in the depth of her eyes.

Having grown from nothing to a globally renowned Supreme Pupil Master, Luo Qingtong understood the importance of a stable growth period for a strong individual.

Until she grows stronger, she would rather not meet that dangerous man.

As for after she grows up... then it will be her turn to hunt him!

Thinking this, Luo Qingtong's lips curved up wickedly.

"...I didn't expect you to have such thoughts," Little Fragrant Pig said, surprised, looking at Luo Qingtong.

This woman is indeed different from others.

With such strong power that man has, she does not think of relying on him at all.

But hunters and prey... Did she misunderstand something?

Little Fragrant Pig thought about the scene between Ye Qianming and Luo Qingtong and couldn't see it as a hunter-prey situation at all!

Besides, has there ever been such a defiant prey?

Little Fragrant Pig felt very peculiar inside.

Before it could speak, Luo Qingtong's voice suddenly rang out.

"Wait! Heng Ji, what did you just say?"

"I didn't expect you, this woman, to have such thoughts?" Little Fragrant Pig repeated blankly.

What is this woman doing?

"Not that! The first sentence! You said this ring absorbed my Essence Blood, so that man can sense my presence through another similar ring?"

"Yes." Little Fragrant Pig became even more puzzled.

"What's wrong? Is there a problem with that statement?"

"No problem at all! Great! Very good!"

Luo Qingtong smiled sweetly and seductively, indescribably charming.

"You have really helped me a lot!"

She now knew how to deal with that man!

She hoped that when that man came looking for her, he wouldn't be too surprised!

"Heng Ji, come here."

Luo Qingtong beckoned Little Fragrant Pig with her finger.

The latter squatted on her shoulder, feeling creepy as it looked at her smiling face, instinctively wanting to run away only to be pulled back by Luo Qingtong holding its tail.

"Alright, I won't do anything to you. Just bring me a few more of your junk items."

"You... what are you up to again?"

Every time Little Fragrant Pig saw Luo Qingtong's smile, it felt something bad was going to happen.

It always felt that this woman was going to do something tricky again!

"You don't need to worry about that, just bring out the items."

Luo Qingtong shook Little Fragrant Pig a bit, making it dizzy, and it quickly took out a few junk items.

Watching Luo Qingtong holding a storage ring refined by Tian Mingzi, she pricked her finger and dripped blood on it, its lips twitching.

"You don't expect that by dripping your blood on these junk items, they will correspond with the ring that man has, do you?"

Does this woman have a problem with her brain?

Even if these junk items are coated with her blood, they are not the ring she has on her hand!

The spiritual energy fluctuations are all different! How could they possibly resonate with the ring that man has?

However, just as Little Fragrant Pig thought this, suddenly, it widened its eyes.

Chapter 245 Furious Again...

"You, you, you!"

Little Fragrant Pig's little mung bean eyes were wide open, watching Luo Qingtong's movements closely.

The girl held a defective item in one hand and her other hand was placed on top of the Jiuyou Phoenix Ring.

Nobody knew what she did, but in an instant, the spiritual energy fluctuations of that defective item were changed!

They were changed!

Changed to be identical to the Jiuyou Phoenix Ring!

Holy moly!

Little Fragrant Pig was shocked.

It kicked all four hooves and in a flash jumped in front of Luo Qingtong, pouncing towards the defective item with its front hooves.

After Luo Qingtong completed the transformation of the defective item, she also loosened her grip, letting it snatch it away.

"You, you, you! How on earth did you do that?"

Little Fragrant Pig extended its own spiritual sense into the item and found it was still the same defective item with no changes, yet its spiritual energy fluctuations had turned into those of the Jiuyou Phoenix Ring!

Damn, this woman is godly!

Is this even possible?!

How did she do it?

You should know whether it's a Spiritual Artifact or an Elixir, each has its unique spiritual energy fluctuations.

It's determined by the recipe used during their refinement!

Just like the unique aura of a cultivator's Cultivation Technique, it's impossible to alter!

But Luo Qingtong changed the spiritual energy fluctuations of that defective item!

It's like a cultivator who practices Fire Attribute Technique suddenly exhibiting the aura of the Ice Element, it's unbelievably shocking!

Little Fragrant Pig felt that since acknowledging Luo Qingtong as its master, it had been experiencing one shock after another nonstop!

Is this woman even human?!

Is there anyone as freakish as her?!

"Just some small tricks." As Luo Qingtong spoke, she rapidly changed the energy fluctuations of other defective items.

These spiritual energy fluctuations were directly altered according to the aura of the Jiuyou Phoenix Ring.

The fluctuations naturally radiated out, and that man's power could not block it, Luo Qingtong memorized it instantly with her Pupil Skill.

Then, she made the changes to those defective rings accordingly.

Hmph, did that man put a tracker on her?

Can't remove it, right?

Won't let her decode it with Pupil Skill, right?

She made several more for him, let's see how he can find her!

Apart from changing the spiritual energy fluctuations of those defective items, Luo Qingtong picked one and overlaid its fluctuations onto her Jiuyou Phoenix Ring in her hand!

This way, it's foolproof!

Can't believe it, faking it this way, if that man still finds her!

If it really turns out this way, she can only admit her misfortune!

What can she do if fate wants him to find her?!

"...You're incredible! You're amazing!"

Little Fragrant Pig was almost at a loss for words listening to her.

Does this woman even realize just how mind-blowing her actions are?

No one can randomly alter the spiritual energy fluctuations in a Spiritual Artifact like she can.

It's like a person suddenly transforming into another person!

Even a master Artifact Refiner can't accomplish this!

What kind of monster is this woman?!

"Done!"

Luo Qingtong quickly finished altering the fluctuations of those items, playing with the fake Jiuyou Phoenix Rings in her palm, and stood up.

"Let's go back! And along the way, let's give that man some surprises!"

Luo Qingtong said this, her lips slightly curved, an indescribable mischievous aura filling the air.

And just as she began modifying those defective items, on the Qingtian Spiritual Boat, Ye Qianming suddenly sensed the aura of the Jiuyou Phoenix Ring.

He didn't expect the Saint Realm aura that woman was emanating to fade so quickly.

Ye Qianming was considering whether to turn back and capture that woman when suddenly, several identical auras appeared in his senses.

That woman!

Veins on Ye Qianming's forehead popped!

Chapter 246 Inexplicable Pride

"Snap!"

Aboard the Qingtian Flying Boat, before Beiqing and Feng Yu could react to how Ye Qianming's aura had abruptly changed, they saw their master twist and break the armrest of the throne in an instant.

"That woman! Why can't she just stay put?!"

Ye Qianming was truly infuriated.

That woman, once let go, was just like a wild horse that had broken its reins, vanishing in an instant!

Even the Jiuyou Phoenix Ring couldn't hold her!

Could she be any more formidable?

Ye Qianming really had never encountered a woman like Luo Qingtong before.

She claimed to admire him, to like him, and when he gave her the opportunity to come close, willing to let her stay by his side, she ran away faster than a rabbit!

But that was not the worst of it!

If she ran, that was fine, he would just capture her again!

But damn it, this woman was as slippery as an eel, always managing to escape no matter how he tried to catch her!

Her methods of escape were varied and numerous, with tricks that sprang up endlessly!

For the sake of escape, she disregarded all sense of propriety and dignity!

Such a cunning, tricky, and wantonly brazen woman, Ye Qianming had truly never met before!

The women from the past, which one of them wouldn't fling themselves at him?

But this woman avoided him like the plague!

Yet amidst his fury, Ye Qianming felt an inexplicable tinge of pride.

That feeling of meeting one's match, realising that the woman he had taken an interest in was not as simple as he imagined, slightly quelled the anger in his heart.

"Hmph, let's see how long you can run."

The multitude of that woman's tricks also implied that she wouldn't easily fall into misfortune, and with this thought, Ye Qianming felt considerably more at ease.

As for her escaping, once he got back and obtained the Ten Directions Dragon Ring, he would settle the score with her!

Right now, the Ten Directions Dragon Ring was not with him, and the sensing wasn't as accurate as it could be!

Moreover, those people truly deserved a lesson!

Thinking that if it weren't for the people of the Supreme Assassin Pavilion this time, he might not have let that woman slip away, Ye Qianming's eyes grew cold.

"Master?"

Seeing Ye Qianming stand up, his aura undergoing several changes before finally returning to calm, Beiqing and Feng Yu plucked up the courage to ask.

Oh my god, what did the Evil Doctor do to get the master so riled up?

But didn't the master put the Jiuyou Phoenix Ring on the Evil Doctor?

It pairs with the master's Ten Directions Dragon Ring, and logically speaking, the Evil Doctor shouldn't be able to escape.

Could it be that the Evil Doctor is so skilled that she can even block the sensing of the Dragon Phoenix Emperor Ring?

This can't be, right?! That's absolutely impossible!

Others might not know the origins of the Dragon Phoenix Emperor Ring, but Beiqing Fengyu knew it all too well, hence they couldn't believe any of it.

But the master's words just then were clearly indicating that the Evil Doctor had slipped out of his control again...

Every time the Evil Doctor escaped, the master would be infuriated like this!

Alas!

Why is it that the Evil Doctor is such an escape artist?

Beiqing and Feng Yu's lips twitched involuntarily.

They really didn't know how to evaluate Luo Qingtong.

She was truly the most demonically cunning and perverse woman they had ever seen!

In this world, probably only their master could match her!

"It's nothing."

Ye Qianming had mostly calmed down by this point!

Let that woman run for a while longer; once he's dealt with the matters at hand and returns, let's see where she could flee to!

"The portraits I've given you earlier, have everyone in the Black Domain intensify the search! Regardless of gender, report immediately!"

The man said in a grave tone.

"Yes, master."

Hearing this, Beiqing and Feng Yu immediately realized that the Evil Doctor had really escaped!

But the master isn't angry anymore?

Both felt a sense of incredulity, but dared not voice their questions.

Ever since encountering the Evil Doctor, the master's thoughts became harder to fathom with each passing day!

Now, it was completely unpredictable!

Just as the two were feeling uneasy, Ye Qianming's voice suddenly rang out again.

Chapter 247 Tsundere Lord

"You tell me, why does that woman keep trying to escape?"

The man's voice was clear and cold, indifferent without a trace of anger.

"This Lord is willing to have her by my side, not despising her weakness, willing to offer her protection. Why does she still keep trying to flee?"

He held immense power, his might astounding the heavens, yet he had never liked any woman, nor knew what it felt like to like someone.

But he was willing to protect that woman, tolerating her repeated acts of defiance without the wish to kill her.

Ye Qianming thought, he must like that woman!

But he was already conceding to that woman, no longer minding her past disrespect and rudeness!

Why does she still keep thinking of escape? As if seeing him was like seeing a mouse upon encountering a cat!

"Ah?"

Beiqing and Feng Yu were both stunned by his question.

Feng Yu was better, with just a moment of surprise before regaining his composure.

Beiqing, that single-minded and indiscreet man, was still staring at his own master, unable to wrap his head around this for a long while!

My goodness!

Is this really our master?!

Is this our master who is ice-cold and unfeeling, dignified and proper?!

Beiqing looked at his master who usually was indifferent to all matters, ruthless in killing, like the Divine King high above the Nine Heavens, untouchable, now furrowing his brows, showing a hint of confusion in his eyes as he asked the question. He almost pinched his leg harshly to see if he was dreaming!

My God!

This is too surreal!

Perhaps his shock was too apparent, or maybe his attitude greatly displeased Ye Qianming.

The man's pair of deep and cold eyes swept over him.

"This Lord is asking you a question!"

What now?

"Oh!"

Scanned by his master's icy gaze, Beiqing instantly shuddered back to reality.

"Actually, um... Master, I think... probably... the Evil Doctor... does not understand your feelings?"

Seeing his master's displeased expression, for the first time, the thick-skinned Beiqing felt a strong sense of crisis!

He answered cautiously while continuously observing his master's facial expressions.

Fearing that a careless word would get him swept away by his master's sleeve.

"Impossible!" Ye Qianming frowned.

"I've told her my name and even allowed her to dine with me at the same table!"

Not only that...

"I've also allowed her to touch me."

Anyone who touched him without permission was already dead! She was the only exception!

"I have repeatedly shown mercy, and even bestowed the Jiuyou Phoenix Ring onto her. Isn't that enough to make clear my intentions?"

Ye Qianming's eyebrows were tightly knit, his face filled with displeasure as he looked at Beiqing.

If these are not considered as revealing my feelings to that woman, then what is?

"It's not that... Master..." Beiqing felt uneasy under his master's intense gaze.

How could he explain to his master that the Evil Doctor probably didn't realize that these actions meant he liked her?

Thinking back, ever since the master returned from Jiuyu Mountain, he has been adamant about capturing the Evil Doctor; such behavior would make anyone think that the master is seeking vengeance!

Moreover, although they knew that the master's actions were meant to be kind to the Evil Doctor, the Evil Doctor probably didn't know!

She doesn't understand the master!

While Beiqing was on the verge of tears, it was at this time that Feng Yu finally spoke up, saving him from his predicament.

"Cough... Master, the Evil Doctor probably doesn't realize that you have special feelings for her... Have you... not told her that you like her?"

The implication being, Master, have you not confessed your feelings?

Upon hearing this, Ye Qianming froze completely.

Chapter 248 Re-entering Black Domain Suburb

He indeed never told that woman that he liked her!

But couldn't that woman see for herself?

Moreover, being the Netherworld Venerable himself, how could he possibly engage in such sentimental talk about love?

And what about him liking her?

It was clearly that woman who liked him first, and only then did he give her a chance!

Ye Qianming felt very wronged in his heart.

He kept a cold face and did not speak.

It was Feng Yu who, seeing his master like this, immediately knew that he had guessed correctly.

"Cough... Master, the Evil Doctor is quite unique in character, she probably does not want her life to be controlled by others. You did not make your feelings clear before, in the eyes of the Evil Doctor, she must fear that your intention was to capture her for revenge, and her wanting to escape is not unjustified," Feng Yu advised tactfully.

The thoughts of his own master were really too simplistic!

He had tried every means to capture the Evil Doctor before, and even though he had changed his mind, the Evil Doctor didn't know that!

In the case of repeatedly angering the master, of course, she had to flee!

As for the Jiuyou Phoenix Ring, Feng Yu was very suspicious that Luo Qingtong considered it a means for Ye Qianming to capture her!

That's why she tried her best to get rid of it.

His master truly bore an undeserved burden!

It must be said that Feng Yu had indeed figured out the truth to a certain extent.

Ye Qianming snorted coldly and didn't speak.

However, knowing that the woman was not intentionally avoiding him, he felt much more comfortable in his heart.

"Let's go."

He said and then slightly closed his eyes, no longer speaking.

Beiqing, Feng Yu, and the others dared not disturb his rest, and immediately stood guard dutifully.

Meanwhile, Luo Qingtong was also heading towards Dongli Country.

Along the way, she deliberately took some detours, scattering the transformed gadgets she held in her hands.

Those places included brothels, taverns, wealthy households, and ordinary homes.

Luo Qingtong also mischievously threw several into some particularly odorous locations.

Especially those brothels, small hotels, and the like.

Thinking about the expression that man might have when he finds them, Luo Qingtong couldn't help but burst into uncontrollable laughter.

After doing all this, she prepared to deal with the items from the Tianyu Royal Treasure Vault along with Little Fragrant Pig.

Those were not good things at all.

On the contrary, they were quite troublesome.

The millennium heritage of the Tianyu Royal Family was not something easy to handle.

Although Luo Qingtong had acquired them, she also had to be wary of any means the Tianyu Royal Family might have to trace back to her.

The best method was to dispose of these items and exchange them for other treasures.

In this way, she would benefit while also shifting the blame for the treasure vault's robbery onto others.

As for the best place to deal with the treasure, it was naturally Black Domain!

Knowing that the man wouldn't be able to find her so quickly, after dispersing the fake Jiuyou Phoenix Rings everywhere, Luo Qingtong then disguised herself and entered a Middle-class Country's Black Domain Suburb as the Evil Doctor.

After all, that man knew the Evil Doctor was her, Luo Qingtong wasn't afraid of him capturing her!

Since the other people in Black Domain still did not know!

By the time they reported her appearance to that man, she would have long since escaped!

Luo Qingtong was confident that she would not be held by the people of Black Domain Suburb, and naturally had no worries.

Of course, the most important was that, given the huge amount of treasures she stole from the Tianyu Royal Treasure Vault, only her identity as the Evil Doctor could hold it down!

The theft of the Tianyu Royal Treasure Vault was a major event, people could hide from others, but not from those in the Black Domain.

Luo Qingtong certainly did not want to be sold out as a gift to placate the Tianyu Imperial Family.

However, Luo Qingtong soon found out that she had thought too much...

Chapter 249 Being Followed

"Hey, have you heard? The Tianyu Royal Family has offended some powerful being, and their entire Royal Treasury was wiped out in one fell swoop!"

"Indeed, I heard the whole treasury was smashed to pieces! Such a pity for the treasures inside! The Tianyu Royal Family must be crying their eyes out!"

"Haha! That's not even the most brutal part! At that time, a bunch of Imperial Family powerhouses were cultivating inside, and they got hit directly by the attack! Several Emperor-level powerhouses were vomiting blood from severe injuries!"

"Pfft! Really?!"

Someone couldn't help but spit out water and asked, "Is the Tianyu Royal Family really that miserable?"

"Absolutely, this is sheer bad luck! I heard all the Alchemists in the Imperial City have been summoned! Right, even the Earth Rank Alchemists from several nearby Black Domain Suburbs were also called in!"

In the Black Domain Suburb, a group of people were enthusiastically gossiping, but Luo Qingtong couldn't help but twitch her lips.

The Tianyu Royal Family is really unlucky, aren't they?

I just stole from the treasury and then someone smashed it?

And, a bunch of powerhouses from the Tianyu Royal Family got hit so hard that they vomited blood and got severely injured?

"Could it be that man who did it?" Luo Qingtong thought to herself.

It's not her being presumptuous, but the situation seemed too coincidental!

Moreover, a bunch of Emperor-level powerhouses from the Tianyu Royal Family, why would they cultivate in the Royal Treasury if not for a reason?

Nonsense!

The most likely scenario is that they gathered there to investigate clues about her.

Luo Qingtong raised her hand and stroked her chin, the more she thought about it, the more she believed it was that man's doing.

Unexpectedly, he took action and eliminated a major danger for her, it turns out her help wasn't in vain!

On the other side, Little Fragrant Pig also came to the same conclusion.

"It must be that man who took action."

With his movement, summoning the power of Heaven and Earth, he directly obliterated the Tianyu Treasure Vault.

Apart from that man, who else could the Tianyu Royal Family have angered so deeply?

Without a doubt, it was that man who acted to erase the aftermath for Luo Qingtong, preventing the Tianyu Royal Family from tracking her down.

That man really does think highly of this woman.

Thinking this, Little Fragrant Pig glanced at Luo Qingtong.

His admiration for Ye Qianming's regard for Luo Qingtong deepened a bit further.

"Hmm, consider it repayment of a favor."

Luo Qingtong was also quite surprised that Ye Qianming would take action to assist her.

But recalling the meridian circulation technique she taught that man before she left, she quickly made peace with it.

It must be that man's way of repaying her!

Unexpectedly, that man is quite clear about debts of gratitude and grudges!

But now that that man has taken care of the trouble from the Tianyu Royal Family, she no longer needs to deal with the things from the Royal Treasury!

The treasures can be taken back to strengthen the Luo Family's foundation!

With the items from this Tianyu Treasure Vault, the Luo Family's strength can develop rapidly.

Thinking this, Luo Qingtong turned around and walked out of that Black Domain Suburb.

She had just entered the city and had not yet alarmed the people of Black Domain Suburb, so she left without any burden.

But soon after she left, several figures suddenly appeared not far from where she had been.

"Inform the headquarters, the target has appeared."

Someone said in a deep voice.

Immediately, someone responded in a deep voice and disappeared.

"Let's go! We'll follow her!"

Those people followed the direction Luo Qingtong left in.

Sensing the movement behind her, Luo Qingtong, clad in a black cloak with a hood covering her face, saw a flicker of blood in her eyes.

Chapter 250 Night Assassination

"Someone is following us."

Little Fragrant Pig also noticed the "rat" that was tailing them.

"Hmm." Luo Qingtong responded softly, having naturally noticed as well.

Interesting!

She had just entered the city for a short while, listening to some gossip before leaving, without ever alerting the people of the Black Domain Suburb.

Yet those people had followed her. Clearly, they had been waiting for her for who knows how long.

And her decision to enter this Black Domain Suburb was a spur of the moment.

That is to say, in every major Black Domain Suburb, there might be such people waiting for her!

Apart from that man's force, could there really be another force of such a magnitude?

Amusing.

"Let's go, and don't mind them."

She wanted to see exactly who was out to get her from behind.

From start to finish, Luo Qingtong pretended not to be aware of those people's existence.

She and Little Fragrant Pig left the Black Domain Suburb without deactivating their disguises and checked into an inn in a nearby city.

"Rent an entire annex building." Luo Qingtong went ahead and rented an entire annex of the inn.

The innkeeper, seeing the large sum of money given by Luo Qingtong, grinned widely and immediately agreed.

"Is there anything else you need, guest?" he excitedly asked.

"Is there anything I need?" Luo Qingtong raised her hand to stroke the smooth chin unveiled beneath the Rashamon Mask, her lips curving into a mysterious arc.

"After night falls, there's no need to send anyone over to check or serve. I have a bad temper; if I get disturbed, someone is going to suffer a bloody disaster. Oh, and don't bother giving back the extra rent money. Consider it compensation!"

Her words were full of deep meaning.

She then turned and left directly.

"Huh? Compensation for what?" The innkeeper was thoroughly confused.

However, he was overjoyed to encounter such a generous guest who required no special service, so he did not dwell on it.

In the distance, those who had been trailing Luo Qingtong saw that she had settled in the inn.

They quietly withdrew.

"Let's go, we'll get a good night's sleep and wait to greet our guests in the evening."

Watching through her Pupil Vision as these people stealthily retreated, thinking themselves concealed, Luo Qingtong leaned against the courtyard wall, her hand stroking the fluffy fur of Little Fragrant Pig, laughing with an unrestrained and sinister air.

In that smile, there was a hint of bloodthirstiness.

She jumped off the wall and returned to her room with Little Fragrant Pig.

Both of them, with great peace of mind, shut the door and went to bed!

That night.

The moon shone brightly, the sky draped with silk, myriad stars glinting and illuminating the earth beneath.

In this moment, figures drenched in blood-red silently and invisibly appeared around the annex rented by Luo Qingtong.

Swish, swish, swish!

A flash of bright light emanated from the weapons they wielded.

"Bang!"

They leaped into the courtyard, aiming to approach and break into the main house.

The very next second—

"Boom!" Suddenly, an Array rose up from all around the courtyard, enveloping the entire annex within it.

Within the pale silver glow of the Array, the main house's door opened, and Luo Qingtong, dressed in red and covered with the Rashamon Mask, stepped out from inside.

"I've been waiting for you for a long time! And you're too late, I've already finished my midnight snack!"

Her neat masculine attire, accentuating the slender waist of her youthful figure, revealed a devilish charm and entrancing allure.

That clear, cool voice, combined with the Ghost Mask on her face, made her appear like a Soul Hooking Messenger who had stepped out of Purgatory, treading on blood.

One glance could captivate the Divine Soul!
