

Supreme 341

Chapter 341 Heavenly Evil Valley (2)

Luo Qingtong's voice rang out.

"Choose anything you like from inside here as a reward for following me. Additionally..."

As she spoke, she tossed the storage rings in her hand to them.

"Take these rings too, and be sure not to reveal them carelessly. There are numerous resources within the Nine Witch Mountain Range, feel free to take what you need."

With these few Martial King Realm powerhouses, they could roam almost anywhere within the Nine Witch Mountain Range except for some particularly dangerous Forbidden Zones.

Having these storage rings, they could freely seize resources within the Nine Witch Mountain.

Luo Qingtong intended to transform this part of the Nine Witch Mountain Range into her exclusive resource treasury.

In the future, when the strength of the Luo Family Iron Army is fully recovered, or even improved, Luo Qingtong would bring them here to the Nine Witch Mountain Range for training.

From then on, the resources of the Luo Family and the Heavenly Evil Valley would all be supplied by the Nine Witch Mountain.

No longer would they need to depend on others!

Thinking of how Old Master Luo used to endure much ridicule and sarcasm when he went to the Tianyu Empire to purchase resources for Dongli's Three Armies, Luo Qingtong's eyes glinted coldly.

If it were not for such reasons, she wouldn't have dealt with Dongli's Three Armies so ruthlessly.

It was truly because those people deeply betrayed Old Master Luo's previous efforts.

Kicking someone when they are down, ingratitude... Each and every act was sufficient for Luo Qingtong to brutally settle scores with them.

If they don't want to be human and just want to be dogs, then they might as well be useless dogs!

"Ma...Master?"

All these, given to them?

A group of Martial King Realm powerhouses almost thought they had misheard.

The master said let them choose any item randomly from these treasures, and also said, to give them these Sumeru Space Spiritual Artifacts...?

The group received the rings thrown by Luo Qingtong in a daze, utterly shaken in their hearts.

This... Is this real?

Is this not a dream?

The group, as if sleepwalking, imprinted their spiritual power on a storage ring, subsequently amazed by the several hundred square meters of space inside.

This is a Sumeru Space Ring?!

They stared wide-eyed at the ring in their hands, their faces as if they had seen a ghost.

A Sumeru Space Ring of this size?!

Any of these rings, if spread out, would create a tremendous stir!

Now, each of them, actually... one per person?!

Even as strong and composed as they were, they couldn't help but vigorously pinch their own thighs and in the midst of agonizing screams shockingly discover this was actually true!

My God!

Such Martial King Realm powerhouses usually couldn't access things like Sumeru Space Spiritual Artifacts.

But Luo Qingtong just gave such precious Sumeru Space Spiritual Artifacts directly to them?!

The master... What exactly is her background?

And these treasured items...

The group of Martial King Realm powerhouses looked at the rings in their hands, then at the treasures filling the cave, their admiration and reverence for Luo Qingtong grew even deeper.

"Master, rest assured, we will definitely protect these rings well! Even if we lose our lives, we won't lose these Sumeru Space Spiritual Artifacts!"

A Martial King Realm powerhouse said, his voice trembling, holding that defective ring as if it were some unprecedented treasure.

"Oh. That won't be necessary..." Luo Qingtong's voice was indifferent, "If you really accidentally reveal them and get targeted, just destroy this storage ring. It's more important to come back safely."

"Each of your lives is more important than these storage rings. Remember that?"

Chapter 342 Heavenly Evil Valley (3)

For Luo Qingtong, these rings were nothing more than leftovers from the previous experiments of Tian Mingzi. Little Fragrant Pig had many more.

More importantly, Engraving Technique, was something she definitely planned to study in the future.

Thus, these storage rings naturally weren't very significant.

However, she had too few powerful subordinates, and she didn't want to lose any of these Martial King Realm powerhouses if she could help it.

As for the storage rings, if they were destroyed, then they were destroyed. It was not a big deal.

Just as Little Fragrant Pig said, these things might be rare treasures invaluable to others.

But to her, they were just slightly useful waste products.

The true Sumeru Space Spiritual Artifacts that Little Fragrant Pig described were what Luo Qingtong was interested in.

As for these waste products, she didn't care much about them.

"Master ... "

A group of Martial King Realm powerhouses were indescribably moved.

Who would dare say their lives were more important than these invaluable storage rings?

The master truly treasured and cared about them!

If their loyalty to Luo Qingtong had previously been half due to compulsion and half due to Luo Qingtong's intriguing abilities and extraordinary powers,

Now, their loyalty was sincere, coming straight from their hearts.

They were willing to do everything for Luo Qingtong, until she no longer needed them!

"Willing to die for our master!"

The group of people thunderously knelt on the ground.

"Hmm." Luo Qingtong responded in a low tone, then, waving her sleeve, said, "Enough of these sentimental words. Choose one item from here for yourselves. I am going to seal the vault."

Just like the previous Royal Treasury, Luo Qingtong naturally needed to divide this huge mountain cave treasury into external and internal sections.

The external section would hold the resources from Jiuyu Mountain, and the internal section would keep the Royal Family's resources.

Each operated separately and could serve to mislead outsiders.

In the future, only Luo Qingtong would be able to enter the internal vault.

"Yes." The group reined in their joyous emotions and excitedly rushed into the cave, beginning to choose the things they wanted from among the pile.

Once all of them had chosen and left, Luo Qingtong raised her hand and sealed the internal vault.

Layers upon layers of Spirit Array lights rose up. With the treasures of the Royal Treasury as the Array Eyes, Luo Qingtong laid layer upon layer of arrays.

Compared to the arrays and mechanisms in the Tianyu Royal Treasure Vault, what she set up was practically child's play.

The arrays that Luo Qingtong laid were almost double-stacked arrays, even triple-stacked or quadruple-stacked!

All of these were arrays within arrays, layered one inside the other, extremely difficult to decipher!

If it weren't for the limited space inside the cave and the fact that the spiritual energy in the treasures of the Royal Treasury could only support up to five layers, Luo Qingtong would continue to stack them even higher.

For her who possessed the Pupil Skill, those problems of Spirit Array Masters concerning layout and balance of arrays were completely non-existent.

She could always find the most appropriate point every time.

"Swish, swish, swish!"

After sealing the internal vault, Luo Qingtong began to check and count the items inside.

She needed to check whether there were any detoxification herbs she required.

Although the antidote for Supreme Medicine and Poison was hard to find, this place was, after all, a collection of treasures accumulated over nearly a thousand years by the Tianyu Royal Family, so perhaps everything needed could be found.

And while Luo Qingtong was in Heavenly Evil Valley, a fully armed and sharp squad had already quietly left from the Imperial City of the Tianyu Empire.

Chapter 343 Bitter Resentment and Unwillingness

"Bang!"

Dongli Country, Fenglin City.

In a secluded corner room where the people from the Daqin Saint Institute's Tianyu Branch were staying, Luo Xinning fiercely swept the object in her hand onto the ground.

"Luo Qingtong! Why! Why are you always so lucky?!"

Luo Qingtong's expression was ferocious.

Beneath the scattered veil, a scar that resembled a fierce beast's tear stretched from her left cheek to her right cheek.

In such a situation, it completely shattered the delicate beauty of Luo Xinning's face!

Her expression, under the current fury, twisted as hideously as a fierce ghost.

Seeing the scar on her face in the mirror, Luo Xinning's anger intensified.

This scar was inflicted by a ferocious beast while she was being rescued by the Tianyu Royal Family.

Initially, after taking the Healing Medicine brought by the Tianyu Royal Family, her internal injuries had healed, and she should have been able to counterattack the third-level ferocious beast with ease.

But inexplicably, at the moment she prepared to dodge, her strength suddenly stalled and disappeared instantly.

Although it quickly recovered, who can afford to be distracted during a battle?

Not to mention that all her strength had vanished! She had no power to resist at all and was immediately sent flying by the giant earth brown bear.

Half of her face was brutally smashed.

Even though she took Medicine Liquid in time, a very deep scar still remained.

Touching the scar on her face, what solidified in Luo Xinning's heart was intense malice.

She always tried to prove herself publicly, showing she was no less than Luo Qingtong, but in reality, aside from her Talent Power being stronger, she truly wasn't as formidable as Luo Qingtong in other aspects!

Even her originally proud appearance was destroyed!

And Luo Qingtong...

She originally thought that the Luo Family would definitely fall this time, and Luo Qingtong would also completely become a pitiable person without the protection of her Family.

But what about now?

The new Luo Residence that she proudly established has been completely ruined by Luo Qingtong.

Not only that, but the well-crafted military takeover plan arranged with Tianyu Royal Family was also completely crushed!

Not to mention the loyalty of the army was wasted, a portion of the people were even pulled over by Luo Qingtong to the Luo Family, establishing a private army.

Every event was infuriating for Luo Xinning!

She had calculated so much, designed so many schemes, even instigated her own father to drug Old Master Luo to dissipate his powers, but still could not bring down the entire Luo Family and Luo Qingtong!

That woman, why is she luckier than her?

Why, being a daughter of the Luo Family, could she get everything?

Even the heavens seemed to be on her side?!

Old Master Luo even trusted her so much, handing all the trump cards of the Luo Family to her, otherwise, why would she have lost so miserably?

Thinking this way, Luo Xinning's heart felt as if it were being bitten by countless ants.

That strong feeling of unwillingness and resentment almost overwhelmed her!

But what she hated the most was that she couldn't do anything to Luo Qingtong!

Even the only hope she looked forward to, the Dongli Royal Family bringing down the Luo Family, also vanished with the news of the obtained army!

Luo Qingtong easily crushed everything she had painstakingly sought into shreds!

Just when Luo Xinning's hatred was unbearable, a pigeon suddenly landed on her windowsill...

"Haha!"

After reading this letter, Luo Xinning was instantly overjoyed.

"Luo Qingtong, you also have your day!"

Chapter 344 Clouds Stir in All Directions

Luo Xinning's smile was ice-cold.

The Tianyu Royal Family had finally made their move.

Or rather, the Seventh Princess and the Empress had finally taken action.

A squad of elite Hu Mang Guards, a team of over a hundred, all composed of warriors above the Great General Realm, with numerous ones from the Martial Marquis Realm.

The team was led by the brother of the Tianyu Empress, known as Fierce Martial King Fei Ji, a youthful prodigy of the Fei Family, the pride of the Fei's direct lineage.

With cultivation at the Peak Martial King Realm, it was rumored that it wouldn't take long for him to advance to the Martial Emperor Realm!

Sending such a force to deal with the Marquis Mansion of a low-class small country was akin to using a cleaver to kill a chicken!

How could the Luo Family possibly have a chance of survival?

"Hmph! Luo Qingtong, you were so arrogant, now retribution has come, hasn't it?"

Luo Xinning sneered coldly.

The strength of the Tianyu Empire was simply not something ordinary nations could contend with.

Take this randomly dispatched squad of Hu Mang Guards, for example, they were enough to sweep through small and medium countries vying for power, even upper-class nations would have to avoid their edge!

What could Luo Qingtong and the Luo Family use to resist their opponents?

Her status as the future Fifth Prince Consort was nothing in front of these Hu Mang Guards!

"Luo Qingtong, once I strip you of that outer layer of the Fifth Prince Consort, what will you have left? I'm waiting for you to wish death upon yourself, to suffer unbearable pain!"

As Luo Xinning spoke, the smile on her lips was exceedingly sinister.

She read the content of that letter again and then said with a light sneer, "Bandits?"

"Luo Qingtong, how about I make a real act out of this play?"

You escaped calamity on Jiuyu Mountain! This time, you won't be so lucky!

Luo Xinning sneered and let the other letter in her hand take flight.

Meanwhile, inside the Dongli Royal Palace, a personal attendant hurried in from the outside.

"Your Majesty, great joy! The Tianyu Royal Family has replied! They've instructed us to be ready; they've already dispatched a squad of Hu Mang Guards to exterminate the Luo Family silently and without a trace!"

"Apart from Luo Qingtong, not a single soul in the Luo Family shall be spared!"

"Good!" Eastern Fence King looked at the letter the attendant had brought over, and his face, which had been gloomy for a long while, finally cleared up.

"Immediately send people to the rendezvous point to wait, offer them every convenience! Once the people have arrived, get ready to move at once!"

The Eastern Fence King had long wanted to eliminate the Luo Family!

It was only because of the marriage alliance with the Tianyu Imperial Family that, no matter how impatient he was, he could only bear with it.

But who could have thought that Old Master Luo would be so foolish as to offend the Tianyu Royal Family for the sake of his granddaughter spoiled rotten with favor, going so far as to seek annulment of the marriage.

That gave him and others the opportunity to uproot them completely.

Once the Luo Family was eradicated, within Dongli Country, there would be no one left to obstruct the passage of his government orders.

Even without Dongli's Three Armies, his Dongli Royal Family would still be the strongest ruler of Dongli Country.

No longer would there be a disgusting Luo Family, constantly pressing down upon his head, leaving him helpless!

The Eastern Fence King had awaited this day for a very long time.

And while Luo Xinning and Eastern Fence King were busy with their schemes, on the other hand, Luo Qingtong had managed to gather the seven detoxification herbs.

"They're all here!"

Luo Qingtong looked at the seven herbs she had selected in her hand and smiled slightly.

The treasure vault of the Tianyu Royal Family truly lived up to its reputation as a millennial collection, quickly locating the seven herbs she needed, and some herbs were even in excess.

"Hm? What's this?"

Upon retrieving the Heaven and Earth Dragon Soul Grass, Luo Qingtong unexpectedly discovered something else.

Chapter 345 Purple Recommendation Letter

In the brocade box containing the Heaven and Earth Dragon Soul Grass, there was surprisingly also a letter.

Luo Qingtong recalled the strange old man who had given her the Heaven and Earth Dragon Soul Grass.

Was this thing from him?

Thinking of the peculiar words he had said to her when he left, Luo Qingtong curiously opened the letter.

The sight greeted her eyes caused her to slightly widen them.

A purple invitation appeared in front of Luo Qingtong, with the four characters of Daqin Saint Institute especially prominent.

"Daqin Saint Institute? Is this... a recommendation letter?"

Luo Qingtong flipped through the purple invitation, finding nothing on it besides the four characters of Daqin Saint Institute.

However, the material of the invitation seemed quite special; when Luo Qingtong infused it with some strength, she found it impossible to destroy.

"Why would that old man give me a recommendation letter to Daqin Saint Institute?"

Luo Qingtong looked at the purple invitation and giggled a bit.

She thought it was something else, only to find out it was a recommendation letter to the Institute.

However, this recommendation letter seemed a bit different from the one the original owner had received before?

Luo Qingtong examined the purple Holy Institute recommendation letter.

She could enter Daqin Saint Institute by herself; she really didn't need this thing.

However...

This item might prove useful in an unexpected way?

Thinking this, an idea suddenly popped into Luo Qingtong's mind.

Her lips curved slightly upward, and she put away the purple invitation.

"Let's start with alchemy first..."

The nurturing period with Old Master Luo is almost complete, and it will soon be time to rapidly enhance strength.

For those who are re-cultivating from scratch, they retain all their experience and insights; as long as they have sufficient internal power, they can continuously advance and quickly return to their former strength.

Then, breaking through further afterward will be up to them.

The elixir Luo Qingtong was preparing this time cannot be replaced by medicine liquid.

Compared to medicine liquid, the medicinal properties are more completely preserved after refining herbs into elixirs, and the medicinal effects are also denser.

More importantly, alchemy can attract the infusion of Heaven and Earth Power, under whose augmentation, the effects of the elixirs will undergo a significant transformation.

Luo Qingtong's Pupil Skill could completely strip impurities from the medicine liquid, achieving 100% of the medicinal effects possible with elixirs, but medicine liquid does not manifest the heavenly and earthly transformations like alchemy.

Alchemy and medicine-making are entirely different matters.

Reaching the pinnacle of medicine-making is just the beginning of alchemy.

It can be said that the endpoint of a Pharmacist is the starting point of an Alchemist.

Luo Qingtong's Pupil Skill allows her to overlook this gap and directly start with alchemy, an advantage unmatched by others.

"Half an ounce of Sunflower Wood, three cents of Forget Sea Flower..."

Luo Qingtong added the herbs to the formula accordingly.

She was now preparing to refine the Essence Boosting Pill and Spirit Awakening Pill for Old Master Luo and the others.

These two types of elixirs, taken together, would help swiftly restore the cultivation Old Master Luo and the others lost, allowing them to return to their peak.

Luo Qingtong was not about to let Old Master Luo and the others spend decades slowly cultivating their strength back.

These two types of elixirs were researched by Luo Qingtong specifically based on the condition of Old Master Luo and the others.

Zhenyan Continent did not possess any secret manuals or recipes related to Alchemy Technique; everything was figured out by Luo Qingtong herself.

Fortunately, she had the Pupil Skill, and as long as she medicated appropriately, there should be no problem.

Little Fragrant Pig watched dumbfounded as Luo Qingtong busily added herbs and controlled the heat. How shocking.

This woman, she was actually doing alchemy!

Alchemy!

Is there anything she can't do?

But soon, it was relieved.

Chapter 346 Midnight Killing Intent

"Bang!"

The triangular tripod furnace in front of Luo Qingtong exploded into pieces.

A vast and overwhelming power surged out from within, and had Luo Qingtong not run away quickly with Little Fragrant Pig, she might have been caught in it.

"Haha!" Looking at the shattered tripod furnace, Little Fragrant Pig finally achieved satisfaction.

"So there's something you can't do after all! I thought there was nothing you weren't capable of!"

It chuckled with a hehe.

"Then I would be a monster." Luo Qingtong gave it a white look.

Not so great? She would soon master it.

At the moment of the explosion, Luo Qingtong's Pupil Skill quickly made out the instantaneous changes in the fusion of the medicinal nature and Heaven and Earth Power, and she saw where she had failed.

Later on, she would remember to avoid that spot.

But alchemy is truly magical, completely different from medicine refining.

The combination and change between the medicinal nature and Heaven and Earth Power are indeed ever-changing!

A tiny bit off in timing, or the slightest discrepancy in the medicinal nature, would immediately lead to mutation.

Luo Qingtong was enthusiastic about this.

This world really is worth exploring.

The alchemical tomes she had found interesting and noted in her last life were actually coming in handy, which was unbelievable.

"Tsk. There's only one furnace left."

Luo Qingtong looked at the room she had blasted with holes everywhere and furrowed her brows.

The tripod furnaces she used for alchemy were all taken from the Royal Treasury of the Tianyu Imperial Family.

Almost no one on the Zhenyan Continent practiced alchemy, and most of those furnaces were used as decorations.

The Tianyu Imperial Family had also collected a few, most of which were treasures.

Now, Luo Qingtong was blowing them up one by one, and they were nearly all gone.

It seemed that they would have to purchase more furnaces for backup later on.

It would be best to buy some of the upper-class furnaces, or even a treasure furnace especially for alchemy.

Luo Qingtong continued her thoughts.

After several experiments, she was beginning to grasp the essence.

She dared not claim certainty with other elixirs, but with these two, she was already 80 percent sure she could refine them.

While Luo Qingtong was engaged in alchemy in Heavenly Evil Valley, a team of riders outside Fenglin City in Dongli Country had traveled day and night, finally reaching a secret forest just outside Fenglin City.

"His Majesty has sent me to meet you all. This must be the Fierce Martial King, right? The Fierce Martial King is indeed both handsome and commanding! With the aid of the Fierce Martial King, the Luo Family is sure to be eradicated," the Imperial Attendant sent by the Eastern Fence King said with a fawning smile.

As the Empress Mother Clan, the Fei Family wielded enormous power within the Tianyu Empire.

The man before them was also the only brother of the Tianyu Empress and held in high esteem by the Fei Family.

If he advanced to Martial Emperor in the future, his prospects would be boundless.

Even Emperor Tianyu was said to hold this Fei Ji in high regard.

"Enough chatter, when do we take action?" Fei Ji's voice was cold, his face hidden beneath his armor, indiscernible.

But his tone was impatient.

As a peak Martial King, he wouldn't bother to deal with a Marquis Mansion from a low-class small country, and if his sister hadn't personally asked, he would not have intervened.

He did not even consider whether the Luo Family was worthy of his action—it was simply degrading to his station!

As for these people from Dongli Country, he didn't even bother to give them a second glance.

Ordinarily, these people wouldn't even qualify to come before him.

"Fierce Martial King, please wait a moment. My King is making arrangements, and we'll be ready to move tonight at midnight! At that time, all four gates of Fenglin City will be wide open, and all the aristocratic families and troops, as well as the Royal Family, will be constrained! Fierce Martial King will then be free to slay at will! No one will stand in your way!"

The eunuch said with a flattering smile.

Chapter 347 Two Pills from One Furnace

Midnight tonight?

Fei Ji looked up at the eunuch and snorted at the slight intent of the Dongli Royal Family.

If he remembered correctly, wasn't it in two days that Daqin Saint Institute's Tianyu Branch was holding its enrollment?

Was this to avoid any mishap that could put the Luo Family under the protection of the Tianyu Branch?

So they wanted to make a preemptive move?

Indeed, if Luo Qingtong really became a student at the Tianyu Branch, it would not be easy to move against the Luo Family!

Moreover, their operations were originally covert.

Thus, even though Fei Ji saw through the Dongli Royal Family's intentions, he kept silent.

If it's midnight tonight, then so be it!

The sooner they act, the better, to avoid unnecessary complications.

He waved his hand, and the eunuch tactfully withdrew.

This Fierce Martial King wasn't someone they could casually approach.

And since the other party clearly wasn't interested in dealing with them, they had even less reason to disturb him.

Meanwhile, in Heavenly Evil Valley, Luo Qingtong's Pupil Vision was activated, her eyes emitting Divine Light as she concentrated intently on the heap of herbs in the tripod furnace.

A great amount of Heaven and Earth Power was channeled into the tripod furnace by her, integrating with the Medicinal Power inside to become one.

This process was known as Medicine Fusion.

The next step was the Combined Pill!

Luo Qingtong had failed at this point several times before.

The Heaven and Earth Power would react violently with the Medicinal Power, causing the latter to undergo abrupt changes and produce effects entirely different from those of the previous herbs.

If one had to describe this process accurately, it was like a chemical experiment where two different substances mix together, eventually creating a new and completely different substance.

But while chemical syntheses are controllable, Alchemy is not.

With the same herbs, introducing Heaven and Earth Power, if the timing is even slightly off, the resulting Elixir would be ruined.

Even the most seasoned Alchemists cannot achieve a 100% success rate.

Because each herb contains varying amounts of Medicinal Power, and the combined Medicinal Power produced by their fusion is different again, especially when merged with the Heaven and Earth Power.

It's basically impossible to foresee that critical moment!

When is the best time for the Combined Pill.

But now, Luo Qingtong aimed to break this rule!

Her eyes with the Pupil Vision kept watch over the Medicinal Power as it underwent violent changes while fusing with the Heaven and Earth Power, numerous values fluctuating and passing before her eyes.

The next second—

"Now!"

At her low command, the messy Medicinal Power suddenly consolidated into one place.

The influx of Heaven and Earth Power into the tripod furnace was also cut off at the same time.

Whoosh!

A dense fragrance of an Elixir, in this moment, instantly spread.

"It worked!"

Luo Qingtong looked on with a beaming smile.

After several failures, she had finally grasped the optimal values for the fusion of Medicinal Power and Heaven and Earth Power, that is, the critical point for forming the Pill!

From now on, she wouldn't fail with these two types of Elixirs again!

"No way?! You really succeeded?!"

Little Fragrant Pig widened its eyes in disbelief.

What a freak!

This is outright freakish!

Before, it had gloated over Luo Qingtong's exploding furnaces, thinking that there was finally something she couldn't do in this world.

Only to discover later, that this woman was utterly ruthless!

She actually attempted to refine two types of Elixirs at once!

Who the heck would dare to try refining two kinds of Elixirs simultaneously on their first attempt at Alchemy?!

It would be strange if the furnaces didn't explode!

But that's not the end of it!

How long has it been?

And she actually succeeded?!

This is a double Pill concoction!

Even Alchemy Masters wouldn't dare to play like this!

While Little Fragrant Pig was still in shock, suddenly a noise came from outside.

Chapter 348 Heavenly Dao Interference

"Boom!"

Between heaven and earth, countless winds and clouds surged, all converging towards Jiuyu Mountain.

"Damn! No way?! The first time doing alchemy and already awakening a Dan Spirit?!"

Feeling the gathering of energies outside, Little Fragrant Pig was truly prostrating in admiration for Luo Qingtong at this moment.

Alchemy is completely different from medicine-making.

In medicine-making, no matter how the medicinal powers are fused, they will blend with each other and won't possibly draw upon the power of Heaven and Earth, let alone cause any anomalies.

More importantly, alchemy can, like cultivation, attract the intervention of the Heaven and Earth Laws and of the Heavenly Dao!

Because alchemy touches upon the changes in Heaven and Earth Laws, some elixirs, due to the high level of materials used, could even develop Spiritual Wisdom!

At that time, it would provoke Heavenly Dao intervention.

Cultivation is an act against the natural order, and so is alchemy and artifact refining.

And the more advanced the elixir artifacts are, the greater the obstruction from the Heavenly Dao they face.

Little Fragrant Pig never expected that Luo Qingtong's first attempt at alchemy would attract Heavenly Dao intervention!

Damn, this kind of treatment is usually reserved for spirit-awakening elixirs!

General alchemists, when refining elixirs, only produce mortal-grade ones. After mixing with the power of Heaven and Earth, retaining twenty to thirty percent of the efficacy is considered good.

Fifty to sixty percent might attract Heavenly Dao intervention.

And seventy to eighty percent would bring about natural phenomena...

Just as it was thinking this, in an instant, outside, countless Phoenix cries and Dragon roars resonated, set against the backdrop of surging dark clouds. The scene was bathed in radiant splendor, dazzling across the sky.

Damn, damn, damn!

Little Fragrant Pig was now so shocked that it didn't know what to say.

Natural phenomenon!

And it was the most advanced one, Dragon and Phoenix Auspicious.

Just how potent was the elixir that this woman refined?

Could she be any more outrageous?

Little Fragrant Pig felt its stomach hurt.

This was the first time it had seen someone use such low-level materials to refine an elixir that provoked Heavenly Dao intervention and natural phenomena!

Luo Qingtong, however, didn't pay any attention to it.

"Boom!"

As the sounds of wind and thunder outside intensified, Dragons and Phoenixes sung harmoniously.

She suddenly felt a change in the elixirs within her tripod furnace; their medicinal power values skyrocketed, and in the next second, whoosh!

The lid of the tripod furnace suddenly lifted open, and several elixirs burst out from within.

"Crack!"

As the elixirs shot out, instantly, several lightning bolts as thick as an arm viciously descended from the sky, striking towards those elixirs.

The cave where Luo Qingtong was located was completely cleaved open.

The lightnings targeted those elixirs.

"Block them quickly!" Seeing this scene, Little Fragrant Pig panicked.

"They're here to destroy these elixirs! And be careful, these elixirs can run!"

Little Fragrant Pig could never have imagined that Luo Qingtong could use such low-level materials to refine elixirs capable of spirit awakening—it was simply incredible.

This elixir definitely exceeded the realm of mortal-grade.

And who knows how Luo Qingtong managed to do it.

But the next second, it regretted saying the wrong thing!

Damn, these are Heavenly Dao Laws!

It had actually told Luo Qingtong to block them, as if it was back in the time before it was sealed.

"Hey, hey, hey! Wrong, wrong, come back, don't block them!" Little Fragrant Pig desperately called out, dashing out as well.

By this time, Luo Qingtong had already rushed in front of those elixirs.

With a swift motion, she grabbed the several elixirs in her hand and looked up to face the raging onslaught of lightning.

Feeling the immense and vast power transmitted from those, stronger than any Saint Realm power she had felt before.

Luo Qingtong cursed Little Fragrant Pig in her mind eight hundred times over.

Fortunately, the latter rushed over at that moment, promptly shouting at her: "Throw away those elixirs in your hand!"

Luo Qingtong was about to do as told when suddenly—

Chapter 349 Sundered with a Single Sword

She felt waves of fluctuations emanating from the Life and Death Yin Yang Sword in her mind.

It seemed as if it wanted to come out?

Luo Qingtong sensed these fluctuations and indeed, they carried an eager aura.

Specifically targeting the Heavenly Dao Power.

Luo Qingtong thought for a moment and then released it with a lift of her hand.

"Whoosh!"

With the Life and Death Yin Yang Sword in hand, its black and white light burst forth instantly.

Holding it, Luo Qingtong swung the sword towards the lightning cleaving from the sky.

"Crap! Don't do it!"

Seeing this scene, Little Fragrant Pig's eyes instantly bulged.

This woman, if you're seeking death, don't do it like this!

Heavenly Dao Power, was not something she could contend with at her current level.

This was not the time to be unyielding!

Little Fragrant Pig was utterly resigned to Luo Qingtong's actions.

As it watched her charge towards the lightning, it felt an unspeakable frustration.

"Screw it!"

What sins have I committed to end up with such a crazy and unconventional master?

Considering that if Luo Qingtong died, it would be dead too, Little Fragrant Pig rushed towards her direction without any hesitation.

As it charged, a faint light radiated from its small body.

However, before it could reach Luo Qingtong,

"Crack!"

The lightning, carrying boundless majestic power pouring down from the sky, was instantly split into two by Luo Qingtong's sword.

Then the next second, it disappeared under the astonished gazes of the crowd!

Yes, it vanished!

Everyone was dumbfounded as they watched everything unfold.

Only now had Little Fragrant Pig just rushed up to Luo Qingtong, not even having had a chance to use its trump card, when it saw everything was already over.

Luo Qingtong landed gently on the ground.

"Rumble!"

The clouds in the sky tumbled, and after the few bolts of lightning were split, they also disappeared.

The sky, in an instant, returned to its previous clear state.

"Master!"

The strong onlookers, who had been stunned, finally came back to their senses and hurriedly rushed towards Luo Qingtong.

At this moment, they still didn't know what had happened!

All they saw was the lightning strike at their master, and then it was smashed by her counterattack!

That was Heavenly Thunder and lightning!

The group looked at Luo Qingtong with both shock and awe.

They didn't know the real power of the lightning, nor that it was not something ordinary people could resist.

The capabilities of the master were truly unfathomable.

And the most shocked was Little Fragrant Pig.

It rubbed its eyes vigorously with its hooves, blinking hard to make sure this wasn't a dream.

"Holy shit..."

It stared dumbfounded at Luo Qingtong, who was completely unharmed, at a loss for words.

She can resist Heavenly Dao Power too?

This woman is definitely reaching for the heavens!

However, only Luo Qingtong knew that it wasn't her who defeated the lightning.

It was absorbed by the Life and Death Yin Yang Sword in her hand.

Luo Qingtong looked down at the Black and White Sword Body in her hand, feeling a deep interest in the treasured gift from Tian Mingzi for the first time.

She examined the flowing Mingwen Patterns on it...

The power of that lightning was clearly absorbed by these engravings.

Interesting...

Divine Inscriptions, is it?

Luo Qingtong stared thoughtfully at these engravings for a moment, then put away the Life and Death Yin Yang Sword.

"It's alright." She waved her hand, signaling everyone to disperse, then grabbed Little Fragrant Pig and went into the room.

Chapter 350 The Power of Engraving

"How much do you know about engravings?"

Luo Qingtong asked it.

After this incident, Luo Qingtong obviously became more interested in the art of engravings.

The engravings on the Life and Death Yin Yang Sword could actually absorb Heavenly Dao Power to replenish itself.

And these engravings are still incomplete!

If these engravings were complete, just how powerful would this Life and Death Yin Yang Sword be?

Luo Qingtong was enthusiastic about it.

"Uh... When you shattered those lightning bolts just now, was it that sword's doing?" As she asked this, Little Fragrant Pig instantly understood.

It thought, no wonder, how could this woman be so formidable, shattering Heavenly Dao Power within minutes!

If that were true, she would be a real monster!

So it was the sword that did the job.

"Mhm." Luo Qingtong nodded, "It absorbed those lightning bolts, are engravings really that powerful?"

"Of course." Little Fragrant Pig nodded in response, "You haven't been exposed to the way of engravings. Of course, I don't understand much either. But really, engravings are incredibly powerful! Like I told you before, creating Sumeru Space Spiritual Artifacts is just a minor trick!"

"Do you know? Once you become proficient in the way of engravings, you can learn to make Space Spiritual Artifacts! That's not the same as the so-called Storage Space you talk about, but a true Killing Spirit Artifact!"

Little Fragrant Pig said, "A Space Spiritual Artifact can utilize Space Power to annihilate opponents! Shatter space, strangle space, imagine how powerful that is!"

"A strong Engraving Master, even with average cultivation talent and low strength, can rely on powerful Engraving Technique and none would dare to bully them!"

"Not to mention the various functions of engravings. There are Pill Runes, Artifact Engravings, Human Runes..."

Little Fragrant Pig listed various benefits to Luo Qingtong.

"Those engravings, when set into an Elixir, can enhance the potency of the Elixir. When set into a Spiritual Artifact, they can increase the Artifact's power. And if they are drawn onto a person, they can enhance all aspects of a person's abilities!"

"Now do you see how amazing the way of engravings is?"

"Then why haven't I heard you mention this before?" Luo Qingtong raised an eyebrow at it.

If engravings are so amazing, why didn't this pig urge her to learn them?

That's not like its style.

This pig is the type that can't wait to show off whenever it gets something good.

You can tell from those trashy rings it pulled out before.

"... I wanted to tell you!" Little Fragrant Pig felt frustrated by her question, "But that old man Tian Mingzi is the Supreme in this field! I've searched through all the books he left you, and there's not a single introductory one!"

Otherwise why wouldn't it show off?!

It just didn't have the chance!

No wonder that old man got so excited when he learnt of Luo Qingtong's astonishing alchemy talent, insisting on passing his mantle to her!

Aside from himself, probably another reason was, his way of engraving given to others would absolutely vanish within minutes!

Without even a basic entry-level text, how can one learn?

But it also knew this wasn't Tian Mingzi's fault.

Their sect was already at the Peak of the way of engravings, those entry-level texts simply would not be included in the Nine-layered Exquisite Tower. Later, fleeing for their lives, they realized this too late and it was already irreparable.

Otherwise, why would he firmly clutch onto Luo Qingtong as a life-saving straw, wanting to pass on his mantle, even willing to let go of vengeance!

"..." Luo Qingtong was rendered speechless by Little Fragrant Pig's words.

At this moment, she felt a movement in the palm of her hand, and then remembered she still had some Elixirs!

"These Elixirs will be perfect to take back for Grandfather to consume."

Feeling the Elixirs moving restlessly in her palm, Luo Qingtong chuckled and sealed them in a medicine bottle.

"Let's go, I'll refine some more, and then head back."

As for the matter of engravings, we'll talk about that later!

Calculating the time, Grandfather should be waking up soon.
